

Doomsday 891

Chapter 891: Lightsaber

This time the posture of the military area is more adequate than last time. More than a dozen tanks are lined up in a row, the muzzle of the black hole is pointed at the sky, and there are rows of elite soldiers armed with sophisticated weapons and hundreds of people are silent. Ruyuan, majestic and qi penetrates Changhong, this is the real tiger and wolf teacher.

Although the city guards have been trained for nearly half a month, they are still far behind these real elite fighters in terms of military discipline and aura.

Liu Zhenya's 500-man army was not depressed because of the losses on the way, nor was he panicked because of the magical scene that I saw just now. Instead, there was a more condensed temperament in it.

The base has already exploded, and all the city guards raised their weapons and began to move. The arrival of the Bianzhou Military Region seemed to drip dripping into the pot of oil and it immediately boiled.

These city guards were not afraid or flinching. They all suffocated their breath and were no longer afraid of fighting. They were about to fight against the invading enemy. For a time, the momentum was like a rainbow, and a vast and powerful temperament began in everyone. The emergence is completely two states of fear and withdrawal last time.

But what is Di Ping doing now?

He was excited by the sudden sound of the system. When he had finished reading the system upgrade log, suddenly the system sound came in his mind.

"Di...Congratulations to the host for successfully building a first-class city, and the system will give special rewards;

Reward 1, a second-tier powerful weapon, a wave-breaking knife;

Reward two, a potion for D-level potential stimulation;

Reward three, ten bottles of a class of superb healing potions;

Reward four, one s-level hero recruitment scroll;

All items have been stored in the system backpack, please check the host! "

After watching the rewards of the system, Di Ping was stunned on the spot. It was simply too rich. He actually felt like he was hit by the prize, and he couldn't breathe with excitement.

Commanding nearly 10,000 people, killing and decisively, the heroic Lord of Sanctuary City jumped up like a child with excitement. Of course, there is no one else here. If you let the people of Sanctuary City see him, he will definitely have his teeth.

He had to be excited. He originally thought that the system changed the construction price and cancelled the discount.

I always thought that the system had become stingy. The original system was as generous as before, and it even gave myself such a big reward.

Four rewards, unprecedented generosity, the second-order powerful weapon, the wave sword, isn't this exactly what I need?

During the battle, he suffered a lot because the weapon was not strong enough, the mutant golden eagle, the mutant emperor scorpion, if he had a Tier 2 weapon in his hand before, he would flee in such embarrassment.

Potential potions are also good things. Although they don't use them now, they can be rewarded to their subordinates for use! There are a lot of people under him who have not awakened now, but the price has reached 3000 crystal coins, which is not cheap.

Healing potions are of course what he needs. If he had this potion before, he wouldn't have to waste upgrade energy many times. This is a first-order top-grade potion. The price of one bottle in the store reaches 30 crystal coins, and ten bottles are 300.

The s-class hero recruitment scrolls behind are even more precious things, and he doesn't have too many of them.

He now knows how difficult it is to get a good hero in the tavern, and he has watched it every day, not to mention the s-level, even the a-level did not appear, he must not be disappointed again and again.

At last it was systematic and generous, which made up for a little of his spiritual creation, but thinking that the arena that was originally worth a thousand would cost 200,000 crystal coins to build in the future, his heart ached again.

"Master, Cheng Chao asks Tianxun for access!"

Just as Di Ping was about to take out the reward to take a look, suddenly Zhinao's "zero" voice came.

Chapter 892: Stuck everywhere in the first encounter

"Come in!"

Di Ping was stunned for a moment to let "Zero" pick up the communication. Normally, Chao Chao would not send himself a message.

"Something happened to the city lord!"

As soon as the news was connected that day, Cheng Chao's anxious face appeared in front of Di Pinyang.

"What happened?"

As soon as he heard that something was wrong, Di Ping's head became big, and he couldn't stop doing things every day, he said very upset.

"City Lord, there is someone from Bianzhou Base!"

Cheng Chao was obviously still walking, talking anxiously as he walked, sweat on his forehead.

"Oh!"

Di Ping was taken aback for a moment. In the past few days, he has forgotten about the Bianzhou base. But then a smile appeared on his face. The base-level defense was activated. He originally had the last worries about the Bianzhou base. Disappeared without a trace, so he said calmly:

"Who is here?"

At this moment, he was secretly refreshed, no matter who came, I am afraid that when he saw the towering walls of the sanctuary, he would be extremely shocked and disappointed!

"It's Liu Zhenya, Chief of Staff of the Military Region, who is Liu Minsheng's grandfather!"

Cheng Chao said as he walked.

"Oh! Someone!"

Di Ping was taken aback, then smiled calmly.

He guessed that Bianzhou base would definitely come, but he didn't expect Liu Zhenya to come personally. Isn't this standard low?

It's just that a person of high authority like him, who committed a risk with his body, came here just for Liu Minsheng?

No matter how Di Ping thinks about it, the possibility is unlikely. Although Liu Minsheng may be an important descendant of the Liu family, it is definitely not worthy of Liu Zhenya, the top pillar of the Liu family, to rescue him by personal risk!

Then Liu Zhenya's purpose here is somewhat intriguing!

"It's not a big deal! There are all the automatic rifles of the three or four hundred elite soldiers, more than a dozen tanks, and the posture is not small!"

Cheng Chao's face is not without **** words.

"The posture is not small, what's your attitude?"

Di Ping smiled coldly.

"I said I came to negotiate. I didn't overreact to see you. I have been waiting outside the city gate!"

Cheng Chao paused, wiped the sweat off his face, and watched Di Ping panting and said, "City Lord, what shall we do? Shall we meet?"

"Since they are here, we can't afford to lose courtesy. You can deal with it first, and I will be there later!"

Di Ping nodded in thought for a while.

"Guardian Lu and Director Han have already rushed over to deal with it first. I will first mobilize the city guards to deploy, and now I am rushing to the city gate!"

Cheng Chao nodded.

"Oh!"

When Di Ping heard that Lu Guoliang and Han Zhongguo had gone, he didn't need to be so anxious. The two would not be disrespectful when they deal with it, so he nodded and said, "You should deal with it first, and I'll pass right away. !"

After talking about Di Ping closed Tianxun, the system rewards are some time to see, he is going to meet this Chief of Staff Liu, and there may be unexpected gains, which is related to a part of his plan.

Before, he had reached an agreement with Liu Minsheng that Liu Minsheng would solve the problem of the Bianzhou base, and the content of the telecoms received by the Bianzhou base was written by him instructed by Liu Minsheng, but he did not expect that Liu Minsheng still moved his hands and feet.

The reason why his classical Chinese is fierce is that he is really dissatisfied with the foreign policy of the Bianzhou base. From Liu Minsheng's mouth, he learned that the purpose of their team gave him a bad impression on the military region for the first time. Domineering.

Shouldn't we help each other in the last days?

With its strong military power, the military district did not work hard to resist the mutant animals. Instead, it fixed its gaze on the surrounding small gathering ground. It is okay to focus on others, but it is absolutely impossible to focus on him.

He did not send this telegram just to vent his anger. He was not so frivolous. He was therefore testing the bottom line of the military region and the true strength of the Liu Minsheng family in the military region. It was worthy of cooperation.

Chapter 893: The general deceived the shock

Liu Zhenya retreated to the military guard. He was waiting for the refuge city's response. Actually, Liu's family was noisy about this trip, and no one approved him to go to Central Continent in person.

You know, Liu Zhenya can be said to be the Liu family's Dinghai Shenzhen. Although Liu Minsheng is the most promising descendant of the Liu family, it is not yet when he, the head of the Liu family, will start.

However, Liu Zhenya still tried his best to make the decision, and came to this trip resolutely.

During this trip, he has his own considerations. As his most beloved grandson, he knows best. Although Liu Minsheng is not old, he is calm, clear-headed, wise and courageous. It can be said that he is the Liu family. The person in the future is most likely to replace his own guardian of Liu's family.

Therefore, although the content of the secret telegram is not much, he can feel Liu Minsheng's solemn tone and a trace of fear towards the mysterious city lord of the refuge city, which he has never seen from this unusually calm grandson.

Even if he sent him to the cruelest army and experienced the test of life and death, he did not show such an attitude. It is rare that he has such a respect for a person.

This was the main purpose of promoting his trip, but what really made him decide to come in person was that he felt a trace of bad information from the intelligence of the military district.

The connection between the military region and the outside world, including the connection in Kyoto, has always been controlled by Chu Dingbang. They have no access to a lot of information. However, being the chief of staff of the military region is not at all useful. Although Chu Dingbang is very tightly controlled, He still found some information, and this meeting Chu Dingbang sent a little message, he knew that was not all.

Based on his understanding of Chu Dingbang, there was definitely a major change in the outside world. His information was definitely only the tip of the iceberg. Otherwise, with Chu Dingbang's domineering personality, he would never agree with him and the main force of General Zhang Beiwang.

Therefore, he has to come out and take a look. He can't be locked in the base and his eyes are dark. He wants to see what's going on in the outside world.

He also wanted to see whether this sanctuary city was as magical as Liu Minsheng said, and was it worth his investment. The destruction of several bases made him feel a bit of a crisis, even a big boss like Zhang Beiwang felt it. Something is not right. General Liu, who is brilliant and resourceful like him, would not feel at all.

When he saw Xiongguan descend from the sky, he felt that his trip was worthwhile. Just seeing the establishment of this huge city was basically affirmation that the divine lord of the sanctuary city had a huge secret behind it, and this secret was definitely worth his vote. Last one.

"Under the city is Liu Zhenya, Chief of Staff Liu?"

While Liu Zhenya was thinking about it, a loud voice came from the tower.

"That's right! It's someone Liu!"

When Liu Zhenya heard someone calling herself, she walked out of the team and shouted.

"Haha... Chief of Staff Liu, who hasn't seen him for many years, still recognize me as an old friend?"

There was a hearty laughter from the tower. Liu Zhenya was not familiar with the sound, but the person who heard the voice knew him, he raised his head and looked up carefully.

"The voice sounds familiar, I don't know if it is?"

The milky white marble-like city wall radiated dazzling light in the sun, and Liu Zhenya's eyes were dazzled. He did not see who was talking on the wall.

"Chief of Staff Liu is really forgotten by the nobles. Under Lu Guoliang, I wonder if Chief of Staff Liu still has an impression?"

There was laughter from the tower.

"Secretary-General Lu? Haha, isn't Secretary-General Lu mocking someone Liu? Others can't remember, can they remember you as Secretary-General of Zhongzhou City?"

Liu Zhenya was taken aback first, then laughed loudly.

He reacted quickly after being shocked just now. Lu Guoliang still knew that as the chief of staff of the Bianzhou Military Region, it was inevitable that he had more or less contacts with Zhongzhou City, and Lu Guoliang was one of the people he had more contact with. , So I reacted as soon as I heard the name.

Chapter 894: The atmosphere is suppressed and murderous

"Chief of Staff Liu is really well-informed, and I still remember someone Lu!"

Lu Guoliang stood on the wall and laughed.

"Secretary-General Lu is blaming Liu. If he can't even hear the voice of Secretary-General Lu, then Liu must be dereliction of duty!"

Liu Zhenya's expression moved, and he squinted. Now he finally sees that the person on the top of the city is Lu Guoliang. He moved his mind, but he never thought that Lu Guoliang would be in this city of refuge. He secretly resisted the doubts in his heart.

Although the Bianzhou Military Region is located in Bianzhou, it is mainly for defending the military forces in Zhongzhou, while Lu Guoliang is the Secretary-General of Zhongzhou City. It can be said that he is the chief steward of Zhongzhou City. There are also many connections with the previous work of the military region. Yes, it is normal for the two to recognize this.

"The Chief of Staff Liu has been a guest for a long time. Our city lord will come to meet him personally. Please also the Chief of Staff to wait for one or two. Don't see the strangers!"

Lu Guoliang stood on the wall and held his fist at Liu Zhenya under the city.

"Secretary Lu is polite, someone from Liu was abrupt, and he asked Secretary-General Lu to take care of him!"

Liu Zhenya's eyes were half-squinted, and he smiled with a fist on the wall.

"This old boy is not easy to deal with!"

Lu Guoliang's face on the city wall sank, and Han Zhongguo's rebirth shot of the city wall in a low voice with complex colors.

"Don't worry, Liu Zhenya is called a "Russian", you think it is a joke! His heart is full of seven tricks, we have to deal with it carefully!"

Lu Guo brightly nodded and said with a heavy face.

"Hi! What should I do now?"

Han Zhongguo said depressed.

"Don't worry, hold him steady first, the city lord will be here soon?"

Lu Guoliang patted the cold city wall and said in a deep voice.

"Secretary-General Lu, we are tired all the way, I don't know if we can go to the city to rest first!"

Suddenly Liu Zhenya shouted at the head of the city.

"This old boy wants our army!"

A hint of anger flashed across Han Zhongguo's face.

"This is normal. He is testing the attitude of our base towards him. This person is really cunning!"

Lu Guoliang's face showed a cold smile.

"Then what should I do now, the city lord hasn't come yet. Secretary Liu said he was going to invite the city lord. I don't know when I can come?"

Han Zhongguo said solemnly.

For a while, the two of them felt a little bit difficult. If they opened the door, but they did not dare to decide on such a major issue without the consent of the city lord, you must know that Liu Zhenya did not come by himself, and there is a group of hundreds of heavily armed troops behind, if they reappear What about the Wang Dequan incident before?

But if you don't let it in, let's not say that you will neglect the guests, the most important thing will let Liu Zhenya understand that the base does not dare to let the army into the city, then he must still be afraid of the army, then he also has a basic judgment on the strength of the base.

It can be said that Liu Zhenya gave an unsolvable question. The problem was that the two of them did not dare to make a random decision and did not know how to answer for a while.

Liu Zhenya squinted his eyes and stared at the top of the city. He was waiting for the result. Hearing that there was no sound from above, he raised the corner of his mouth, smiled slightly, and murmured: "It seems that these two people can do nothing at the base. Ah! This City Lord Di is not easy!"

Lu Guoliang didn't expect Liu Zhenya's question to have this meaning, and they were judging their status in the base.

"The City Lord is here!"

When Lu Guoliang and Han Zhongguo were embarrassed, they suddenly heard a burst of cheers, and the two of them immediately became happy.

"Kaicheng Lord!"

The two of them didn't wait to go down to the tower, suddenly there was a breathing sound from below the city, and then there was a loud creak, and then the thick and heavy steel gate slowly sank underground.

Chapter 895: The conflict is tight together

Lu Guoliang and Han Zhongguo went down to the city quickly, and I saw Di Ping standing at the gate of the city, wearing a collarless pair of milky white linen Taoist uniforms that were more popular this year, loose gray linen trousers and white shoes. He is handsome, like a gentleman.

Di Ping was standing with Cheng Chao, Liu Bingyu looked calmly outside the gate, and behind him stood a row of guards wearing armor and holding weapons, a **** suffocation rushed into the sky.

At this moment, Liu Zhenya stared at the slowly opening door. He heard the shouts inside the city wall and his eyes fluctuated. He wanted to see who this city lord was, and he had such a reputation.

The gate sank, and he saw Di Ping standing in the front through the wide gate.

This is a young and outrageous young man who is as sunny, clean and elegant as the boy next door. Liu Zhenya did not expect that this young man would send such domineering telecoms to the Bianzhou Military Region.

The two looked at each other quietly across the city gate, only a few seconds before Liu Zhenya knew that was right, this person was the mysterious Di City Lord of Sanctuary City.

Ordinary people have such a calm temperament like an abyss, a pair of star eyes seem to be calm, but like an abyss, they don't have any waves, and there is an aura that the sky will not change before it collapses.

It seems that the grace is fluttering and the sunshine is beautiful, but at that stop, the whole person seems to be a whirlpool, attracting everyone's attention, the natural focus and center, this is the king's temperament.

Liu Zhenya had to sigh like this after only watching for ten seconds. His grandson Liu Minsheng is very good, but he is quite immature when put together with this young man. It is not at the same level at all, no wonder he will lose.

Even facing such a person, he was caught off guard for a while. It seemed that he had caught a hedgehog, but he was unable to start.

"General, this man is very strong!"

At this time, standing behind Liu Zhenya and Liang Chengdong, an inconspicuous young soldier who looked like a guard approached Liu Zhenya and whispered.

Liu Zhenya shook her body and said in a low voice, "Are you not sure?"

"No!"

The young soldier shook his head.

"How about the plague god?"

Liu Zhenya's expression changed, and he asked in a deep voice.

"There is no comparability. This person is as strong as a wolf smoke. He rushes straight into the sky and lingers with murderous aura. I feel terrified at such a distance. This person is too strong to be defeated!"

The voice of the young soldier was trembling, as if he was holding back extreme fear.

"what?"

At this time, both Liu Zhenya and Liang Chengdong's expressions changed sharply. Liu Zhenya's eyes shook for a moment, and he whispered: "For a while, don't come close, don't let them find you, follow the army, don't move! "

The young man said anxiously: "The general, your safety?"

"Do you think you can help if he is against me?"

Liu Zhenya said.

"It's the general!"

With helplessness on the face of the young soldier, he had to answer in a deep voice.

Lu Guoliang and Han Zhongguo had already run down from the tower, and Di Ping, who came in a hurry, reported the situation to Di Ping.

"Go! We will meet this Chief of Staff Liu!"

Hearing the report of the two, Di Ping nodded, greeted everyone with a smile, and stepped forward first.

When he moved, Liu Zhenya calmed down his shocked mood, and led Liang Chengdong towards the city gate. He also met the Lord of the Sanctuary City.

"City Lord Di, the old man is a famous name for a long time. I saw it today and realized that the meeting was once famous. He is worthy of being a young hero, handsome and extraordinary! No wonder my grandson admires the city Lord Di so much! "

The smile on Liu Zhenya's face floated no matter how far away he was, giving people a feeling like a spring breeze, warm and not making people feel false, very decent.

As soon as his words came out, the faces of the few people standing beside Di Ping suddenly looked a little ugly. Anger flashed in Lu Guoliang's eyes. This Liu Zhenya was really sophisticated.

He wanted to pull Di Ping down from the next generation. Elevating himself to the position of the elders, does this old wives want to climb on top of us?

"Chief of Staff Liu is polite, Di Pingtian is the lord of the city of Asylum, and all the residents of the city of Asylum welcome Chief of Staff Liu to visit!"

Di Ping smiled indifferently. He didn't accept Liu Zhenya's move at all, and directly pulled him to an equal position. You are just a visitor.

Liu Zhenya's eyes flashed, her face remained silent, but her thoughts turned sharply in her heart. Is this young man unwilling to eat at a loss?

It's very tricky. I wanted to get closer, make a new year's acquaintance and so on, so that I can talk easily, but I don't want this young man to be very smart and refuse to accept his tricks.

Chapter 896: The general pressure is helpless

"Oh! Secretary-General Lu has disappeared, you are getting younger and younger, and I am also old!"

Liu Zhenya is worthy of being an old politician. His face is so thick that one cannot imagine. He didn't seem to feel dissatisfied with Di Ping's voice at all. Instead, he looked at Lu Guoliang who was standing beside Di Ping and laughed.

"Old fox!"

Lu Guoliang and Han Zhongguo both cursed secretly, but he still had to answer, and also smiled, holding his fists together:

"Chief of Staff Liu is polite, you are a high-ranking senior, busy with official duties, so you just come out of doing nothing like us!"

"Uh! Haha! Brother Liu is too polite!"

Liu Zhenya was praised by Lu Guoliang with no regard for not seriousness. He didn't feel polite either, holding his fist haha, looking at Han Zhongguo and others beside Di Ping with a smile:

"I don't know who these are?"

Everyone knows that he is changing the subject, but no one can do it. This person's ability to change the subject is really top-notch, easy, and the most important thing is that he has a thick skin.

But the crowd couldn't. Lu Guoliang, as an acquaintance, introduced Liu Zhenya to the high-level officials of the base. After a greeting, Di Ping directly invited Liu Zhenya into the city.

"City Lord Di, I have an unrelenting request, can you arrange for these sergeants of me to enter the city for a rest?"

Liu Zhenya didn't follow Di Ping's lead into the city, but looked back with embarrassment to the army road that stopped not far away.

"can!"

Di Ping nodded very simply, then looked back at Cheng Chao and said, "Division Chief Cheng, you arrange to lead the leading sergeants into the city and set aside a place for them to camp. You can't neglect!"

"It's the city owner!"

Cheng Chao immediately responded.

"This....."

This time it was Liu Zhenya's turn to be stunned. He originally wanted to stiff Di Ping's army and see the courage of the city lord, but he didn't expect others to easily agree. It seemed like a very simple matter.

Does he dare to let the army into the city?

Once the army entered the city, it became a fish and shrimp trapped in the shallows. Don't even think about it. In other people's territory, under the eyes of the enemy, there is still a little room for movement.

"Oh! It seems that I don't care, let them camp outside the city! It is too much trouble for the city owner to enter the city for hundreds of people!"

Liu Zhenya's face changed a bit, and then, oh, he seemed to just remember something and waved his hand.

"What's the trouble with this, there are not many other bases, but there are many places, hundreds of people can still be arranged!"

Lu Guoliang said with a meaningful smile on his face.

"That's right! There is a gift for the guests to live outside the city, this spreading out does not mean that our asylum city has no hospitality for guests!"

Lu Zhongguo also said with a smile.

"Haha! Isn't this appropriate?"

Liu Zhenya said with an awkward expression.

"There is nothing inappropriate, Chief Cheng, you cooperate with Chief Liang to arrange for the sergeants to enter the city! Don't let the sergeants be wronged, or I won't agree!"

Di Ping winked at Cheng Chao.

"This....."

What else did Liu Zhenya want to say. As a result, Cheng Chao had already pulled Liang Chengdong away. Liang Chengdong looked at Liu Zhenya asking for help, but at this time, Liu Zhenya couldn't say what he wanted to say.

At this moment, he could not wait to slap himself in the palm. Fall into the pit!

I am sending it to my door to let others pit it! As soon as the sergeant enters the city, the tanks and chariots become useless. What effect can they use with a few broken guns!

"Let's go! Staff Liu, let's enter the city. You are a distinguished guest that you cannot invite. You must experience the enthusiasm of our shelter city!"

Lu Guoliang grabbed Liu Zhenya and walked inside with a smile, not giving him a chance to speak any more.

At this time, Lu Guoliang and Han Zhongguo looked at Liu Zhenya who was at a loss, and they were very happy and crazy. Qi Qi cursed in their hearts:

"Deserve it!"

Chapter 897: Grandpa and grandson meet two lines of tears

Liu Zhenya was playing it badly. He didn't expect that Di Ping, a young man, was so courageous and even more difficult to deal with. His mind was never below himself. He carefully set up a general plan and was solved by others with a touch. , But put yourself in an awkward situation.

Di Ping certainly heard what Liu Zhenya meant, but does he care anymore?

The three hundred or several hundred people Liu Zhenya brought were not in his eyes. The bases of the first-level city defense system had been activated. It was not at all that these people could make waves, or put them in the city. Contempt each other in strength.

This was something Liu Zhenya could not think of. He didn't expect that Di Ping didn't care if they entered the city at all. This was the difference in realm. You thought you got the killer scissors, and only then did you realize that this is nothing to the other party. Don't take it seriously, this is his biggest aggrieved.

It was too late for him to say anything. Lu Guoliang and Han Zhongguo left and right, smiled and pulled him into the city, not giving him a chance to talk to Liang Chengdong.

As soon as he broke through the crowd, Liu Zhenya saw a row of strangely dressed people standing behind Di Ping. These were not others but the guards of the city owner, the most powerful "dragon team" in the city of refuge.

When he saw this group of people, Liu Zhenya had a meal, involuntarily stopped, and stared at the team closely.

He keenly discovered that this group of people was still lingering with a thick **** evil spirit, and the generals who had killed people on the battlefield were shocked. This was too similar to the **** spirit that lingered on the soldiers after every battle. Everyone seemed to be bloodthirsty demon gods, bloody, brutal, and his heart was throbbing with murderous eyes. He only felt tight, breathing unnaturally and tightly, and his eyes trembled sharply.

How much does it take to accumulate such a violent evil spirit?

At this moment, Liu Zhenya seemed to see the terrifying murderous, **** and cruel Scarface Plague God beside Chu Dingbang, but these people were more powerful than the terrifying guy.

Are these people all awakened like plague gods?

No wonder Liu Minsheng said that the strength of this base is amazing, how can they have so many awakened people, do they have any secrets?

During this pause, Liu Zhenya's heart was overwhelmed, thinking sharply.

"Secretary-General Lu, who are these people?"

After all, Liu Zhenya, a general who has experienced the war, has a very strong heart. After the initial horror, he has calmed down. He deliberately looked at these people with doubts and asked Lu Guoliang.

"Oh! They? This is the second team of our base city owner's guard!"

Lu Guoliang just gave a casual introduction, and then smiled and pulled Liu Zhenya and said: "Go, don't worry about them, we haven't seen them for a long time, let's have a good chat!"

"The second team?"

Liu Zhenya could no longer hold back his emotions on the spot, with a shocked look on his face. There were about a dozen people in front of him. They were only the second team. So if there is a second team, there must be a team?

Oh my god?

How can there be so many awakened in this base?

For a while, Liu Zhenya's heart was tumbling. As a high-level base, he knew about awakening. He was followed by one, but there were only a few people in the entire Bianzhou Military Region?

But there are so many in front of him, and they are all fierce men who have experienced blood and blood. They are full of strange armor and aura, and their aura is stronger than one. They are not comparable to the awakened ones in the military area.

Originally, Liu Zhenya, who wanted to expose his muscles so that he could suppress the other party's momentum during negotiations, no longer had such thoughts in his mind at this time. In an instant, he had thousands of thoughts in his mind.

"City Lord Di, I want to see Liu Minsheng?"

Liu Zhenya suddenly stopped and turned around. He suddenly stopped and staggered Lu Guoliang, but his figure stood steady, his face was serious and his eyes were firm, as if he could not give up.

Chapter 898: Never leave the base

Liu Zhenya's mind turned sharply at this moment, which also made him think very clearly. The main purpose of his trip was to pick up Liu Minsheng. The other purpose was to know that the city lord of the sanctuary that Liu Minsheng wanted to cooperate with was a What kind of person is as powerful and mysterious as Liu Minsheng said.

But he didn't expect that he was shocked as soon as he arrived. The miraculous scene just now had a huge impact on his soul.

This is no longer a means that can be achieved by humans. Liu Zhenya asked himself whether he was blind. He could see that this was definitely not an effect that magic could achieve. The wall was really standing there, and it couldn't be faked.

In particular, seeing a dozen or so awakened people with amazing aura and anger to the sky made him horrified. The original idea disappeared instantly. If his soldiers faced such a group of devil-like powerful humans, he didn't need to think about the result.

He has seen the terrifying strength displayed by these people. Not to mention a thousand enemies, it is normal to have one enemy a hundred, and these people are not only powerful but also very fast, ordinary firearms are difficult. Hit them.

Although I have brought hundreds of elites, there are a dozen of them on the opposite side. I heard Lu Guoliang said that there is still one team that has not come out!

With so many awakened people, the hundreds of them are not enough to see, and his heart is full of helplessness and sadness. He feels more and more that the role of heat weapons in the future will be useless.

Therefore, he changed his previous plan. He wanted to meet Liu Minsheng and get the true information of Di Ping from his mouth, so that he could decide how to do it, otherwise everything he did without knowing the strength of the opponent It may be in vain.

Everyone stopped and looked at Liu Zhenya puzzled. They didn't understand that he was making trouble. This was forcing Di Ping to answer. Looking at his serious expression, it seemed that he would not give up if he didn't get the answer. Posture.

But Liu Zhenya didn't care about others, and kept his eyes on Di Ping's face, waiting for his answer.

The smile on Di Ping's face disappeared, his eyes were flat and he looked at Liu Zhenya as deep as an ancient well. For a while, he could hear a needle drop quietly in front of the city gate. The atmosphere was very tense, and Cheng Chao pulled him to make arrangements. Liang Chengdong, who was entering the city by the sergeant, seemed to feel strange, stopped and looked back here.

When seeing the confrontation between the two, Liang Chengdong's complexion also changed, his hand quietly touched the handle of the gun on his waist, and the sergeants who were waiting in the line were suddenly in a commotion, raising their muzzles hanging towards the ground. Up.

Suddenly there was a tense atmosphere of tension. The city guards seemed to feel this strange atmosphere. They clenched their weapons and stared at the troops outside the city.

Hum...

Suddenly, there was a roar, and then the sound of mechanical twisting. Suddenly, dark gunfire protruded from the city wall and pointed directly at the army on the ground. The muzzle of the black hole was shining with a cold light.

This sudden appearance stunned everyone. The sergeant under the city was pointed at by the gun, and suddenly felt cold in his back and numb in his scalp.

"It's a cannon, all concealed!"

Hearing the strangeness, Liang Chengdong hurriedly raised his head to see, his face changed drastically in shock, and he wanted to rush into the army with a shot.

"do not move!"

He was fast, but someone was faster than him. Yue Lie, who had been following Cheng Chao silently, suddenly moved. He stretched out his hand and pressed it on Liang Chengdong's shoulder, and smiled coldly.

Liang Chengdong felt as if he was pressing on a mountain at the time, and he couldn't move for a while. He was so frightened that his soul burst out, and the sweat on his forehead burst out.

His face was gray and dark in his heart, and this time was over. People had been prepared for so many cannons. If this were launched, the troops of his own wouldn't be able to shoot in one round.

Chapter 899: Grandfather and grandson dialogue on investment

"Head!"

The commander of the sergeant who was about to dodge by Liang Chengdong was controlled by someone, and immediately rushed up with an exclamation.

"Retreat!"

Suddenly, the ten or so guards standing behind Di Ping suddenly moved and jumped five or six meters away in an instant. They stood in front of Di Ping, staring at the army with murderous eyes and shouting in unison.

As if there was a thunder on the ground, everyone in the shock was buzzing, and then a more terrifying murderous aura swept around, like mountains and seas, even the weeds on the ground were overwhelmed by the powerful momentum.

How terrifying is the aura of the dozens of awakened people, like a group of killing gods. The strong evil aura makes people fearful. It is these elite fighters under Liu Zhenya who are also stopped by this powerful aura. They are not afraid to fight, but they don't want to fight with an invincible enemy. That is not a fight, it is death, and no one can stop the fear of the soul.

boom!

Suddenly five people jumped from the top of the city, like a huge boulder falling on the ground, and even the earth trembled, and the location where the five people fell just surrounded the hundreds of people. They wore weird clothes. Armor, carrying a terrifying cold gleaming weapon in his hand, staring at these sergeants with evil aura, cold and silent, the sudden change made these sergeants chill.

"Stop it! No shooting allowed!"

Liang Chengdong was also taken aback, but then his complexion changed drastically, his mind was trembling, and his face showed fear. At this time, he was controlled by others, but he could not let these sergeants rush up. That was to die.

Originally, the young man standing behind Liu Zhenya wanted to move, but he stopped his body. His face was horrified and looked at the five people who fell from the sky with an unbelievable expression. They were all awakened, and he was terrifying. The momentum told him that these people were stronger than himself.

At this time, he also saw the powerful strength of this base once again. His group of fighters were crushed by the powerful aura of these dozen awakened ones and couldn't resist. He saw the fear from these fearless fighters, holding the gun. 'S hands are already shaking.

He was also afraid that the aura of these people was too terrifying, maybe one or two people were ordinary, but if a dozen were together, it would be terrifying.

This was originally Di Ping's arrangement, for the purpose of shocking, he did not expect the effect to be so good, nor did he think that these people are all ordinary people who have experienced one after another fight, one by one with a strong murderous intent. I didn't dare to approach, but when I approached, my heart trembled as if I encountered a poisonous snake and beast!

Everyone present was stunned by the scene before them. Even Lu Guoliang and Han Zhongguo were also caught off guard, but the depressing and tense atmosphere on the court made everyone afraid to breathe loudly, fearing that they would react if they breathed too much.

Now as long as a spark falls, it will burst immediately, and blood will flow into a river at that time. This is not a joke. These five hundred sergeants may not be enough for these people to charge at once.

Even Liu Bingyu, who has always been witty, has a thin layer of sweat on her forehead. She is a little uncomfortable with this tense atmosphere. She has always been strong for herself and commanded the country. Now he feels why war is a man. She was a little uncomfortable with such a tense and depressing atmosphere.

The face was like a big scene, Liu Zhenya's heart was shocked. He didn't expect to be as he thought. These sergeants of himself are now the flesh of a tiger. Once they move, they will be hit by thunder. He dare not move, he can only gamble, Forcibly suppressed the panic in his heart, as if he hadn't seen what happened, his eyes kept staring at Di Ping, focused and serious.

Chapter 900: Get secrets and want to hide

The same is true for Di Ping, who has been watching Liu Zhenya calmly. Although Liu Zhenya behaved very well, calmly, holding Tai Shan collapse in front of him and holding the general posture quite enough, but who Di Ping is, how sharp his eyes are, He still saw Liu Zhenya's eyes shrink sharply. He knew that Liu Zhenya was definitely not as calm as it appeared on the surface. He was also scared, and his eyes betrayed him.

As time goes by, the tension is about to drip out of water. Everyone dare not to come out. If a needle is dropped quietly in front of the city gate, it will be an earthquake. Everyone has sweat on their foreheads. At this moment Suddenly Di Ping smiled. His smile was faint and slight, but it made the audience feel like the sun was falling and the ice was melting.

"can!"

He spoke slowly.

Hearing these words, Liu Zhenya's heart suddenly loosened, and he felt relieved.

It was only then that he felt his back swish cold. He was careless just now, and he was frightened so much today that he could no longer control his mentality. He became anxious and tough, but he didn't want to cause a misunderstanding.

After all, Liu Minsheng was detained as a prisoner in the city of refuge. He rashly asked to meet him as soon as he arrived here, and his tone was not very good, but he did not want to have a chain reaction, but he did not lose his dignity as a general, let alone be too much. Weakness reduced the prestige of the Bianzhou base, his status and face did not allow him to retreat, so he did not open an explanation, and kept facing Di Ping.

He knew that as long as Di Ping was a sensible person, he would never meet him in battle. This would definitely not do any good to the city of refuge. After all, he was a general. Once he had an accident, the Bianzhou base would be no matter what. He wouldn't turn a blind eye, he would definitely suppress the situation, and with his understanding of Di Ping, a character who could command so many people, even a figure like Lu Guoliang, would never do such a stupid thing.

Suddenly there was a kind of sadness in his heart. He was also a general at any rate, but there was an uncontrollable tension in front of this young man. He was actually scared. This person could bring such a big deal to himself by just silently not speaking. pressure.

It's like when he was a small soldier, the first time he faced the big head and the long time, the head and the long were very peaceful, but there was a kind of forceful pressure on him, making his body stiff and his heartbeat like a drum. , The words are not smooth.

And you know, this is just a young person, how can he give himself such a feeling, this feeling makes him very uncomfortable.

Di Ping is of course not a fool. He can't do anything to Liu Zhenya. Liu Minsheng, including those sergeants, has been well raised and not dealt with. What's more, Liu Zhenya is a negotiator. He is even more unlikely to do it, although he is not afraid of Bianzhou base. , But if it is not absolutely necessary, he will not provoke this behemoth, it is not easy to find Chun crisp.

Moreover, he could feel that Liu Zhenya didn't really want to be trembling, and his attitude was unbalanced, so he had a tough attitude, so he didn't care. Seeing Liu Zhenya's words, he relaxed all

over his body. Although he tried to suppress it, he still performed. He was really nervous when he came out.

"Director Lu, it is up to you and Chief of Staff Liu to meet Liu Minsheng, if you have any requirements, try to meet them!"

Di Ping smiled and turned to look at Lu Guoliang and said.

"It's the city owner!"

Lu's bright spot first said.

"Director Han, you can arrange a reception banquet in the evening for Chief of Staff Liu!"

Di Ping turned to look at Han Zhong Guodao.

"It's the city owner!"

Han Zhongguo also led the way.

"Chief of Staff Liu, Chief Lu will accompany you to see Liu Minsheng. In the evening, I will hold a banquet for Chief of Staff Liu!"

After Di Ping finished arranging the matter, he smiled and looked at Liu Zhenya and said.

"Thank you Di City Lord!"

Liu Zhenya held back the discomfort in his heart and slammed his hand at Di Ping.
