

90 CHAPTER 90

Mia and Colton's friends stayed until visiting hours were over. The couple had dinner, Mia took her medications, and then Richard and Almira came to check up on her and the babies. ¹

Later in the night, they both cuddled on the bed. "I'm glad you and the twins are getting better!" He placed a long kiss on her forehead.?

She smiled. "I'm glad too. Thank you for taking good care of us."?

"My pleasure!" He smiled, gently caressing her bump. Looking into her beautiful eyes, Colton spoke "Almira said we would know their genders soon."?

Mia nodded, placing her hand on top of his. "You want us to find out soon or when they are born?"?

"I will go with anyone you want. Which do you prefer?" He asked her.

"I want it to be a surprise. I want to know the day they are born. Are you sure you're willing to wait till then?" She asked, bringing up her hand to caress his tired but handsome

face.?

"I'm fine with anything, my love. Not knowing their genders will keep us on our toes, making their birth day more exciting."?

Mia nodded with a smile. "We will go with neutral colors for their nursery and as time goes on, we will switch to their favorite colors. We will also go with unisex outfits and pick out different names in case they are twin boys, twin girls, or a boy and a girl."

Colton nodded. "It's fine with me. I also think it's time I bought us a home. I don't like the idea of raising our kids in a penthouse. I want them to have enough space where they can play."?

Mia nodded. "But not a house as big as your parents' mansion."

Colton nodded. "Anything you say, my love." He kissed the side of her forehead. "I'll have the agent come to the house when you're discharged so you will tell him your preference."?

"Your opinion matters too since it will be our home."?

"I'm okay with your preference, babe. I

trust your instincts. I also don't care where I live. As far as I have you and our children."?

Mia nodded. "I now have an answer to your question."?

"The wedding?" A proud smile crept to Colton's lips.

"Yes, my love." She leaned closer to him and kissed his lips.?

"Spill!" He commanded, wanting to know what she had decided.?

"If it's okay with you, I would love for us to have our wedding in Greece after the kids are born. Perhaps when they are four or five months old."?

"Since your grandfather is not allowed to fly, not only will he be able to attend the wedding, he will also see his great-grandchildren. And that will also give me and the kids the opportunity to meet other members of the Royal family who reside in Greece."?

"About wanting a big wedding or not, I think that will be decided by the number of guests. Of course, I want us to share our day of joy with our families and close friends."?

"Noted, babes. My Grandfather will be so happy about this decision. And it's going to be a wonderful day indeed."?

"I trust my husband to give me the best wedding celebration ever." She smiled, connecting her lips to his."

"Mia!" Colt groaned in between the passionate kiss.

?

"I want you." She said unapologetically, her free hand caressing his dick through his pants.?

"Babe, you're still recovering." He replied, pulling away from the kiss.?

"But I want you..." she pouted. "Besides, I feel good as new already and no part of you can hurt me."?

"Mia! Richard said you are not to do anything strenuous until you're fully recovered."

"I get it. With a bandaged head, a bruise on the cheek, a sprained ankle, scratches here and there on my body, being knocked up with twins, you're definitely not attracted to me anymore." She was about to turn her back to him when Colton stopped her.?

"Where the hell are those thoughts coming from? Of course, you know that's not true!"?

"You don't have to deny it, Colt." Tears sprang up in her eyes. "I saw myself in the mirror earlier and all I can say is, I'm disgusting"?

"Look at me, Mia." He commanded.?

When she didn't answer, he raised her chin with his thumb, wiping away the tear that rolled down her right cheek.

"You're not disgusting, my love." He brought his hand to her cheek and carefully caressed it with the tip of his fingers, mindful of the bruises.?

"You are still as beautiful as the first day I set my eyes on you. Not everyone makes it through accidents but you did. Richard said the paramedics found you with your hands over your belly. He said that gesture helped in protecting our Babies."?

"The scars on you are not just any scars. They are scars of a survivor, and neither do they make you less attractive."?

Seeing that Mia wasn't pleased with his speech, Colton decided to convey his feelings through his actions.?

Knowing she had no bra underneath the light blue hospital gown she was wearing, he brought his right hand to her chest area and started drawing small circles over her right nipple.

"Seeing you mad at me turns me on, baby girl." He whispered seductively in her ear, showering kisses around her earlobe, teasing her nipple at the same time.?

The material of the gown was kind of silky. It was as if Colt was teasing Mia's bare nipple and not doing so through the fabric.?

He smiled against her neck when he felt her nipple getting erect.?

"Good girl.....I love how every inch of your body shamelessly reacts to my touch." He whispered in between sucking on her soft spot and at the same time, kneading her nipples.?

"That feels good babe, please don't stop!" Mia moaned.?

Still sucking on her soft spot, Colton's hand went to the left boob to give the nipple the same attention as the right.?

"This is what you want, hun? You want me to take you on this hospital bed. You want to

feel my huge cock in you?, You want me to bend you over, spank the hell out of your ass until it becomes red and sore, and then take you hard and fast until you beg me to stop. Isn't it?" He applied force fondling her nipples.?

"Fuck, I want you now, babe. Please take me." Mia moaned with her eyes closed. The desire was very much evident in her voice.?

To clear all doubts, Colton reached for her hand and placed it on his pants. He let out a soft groan when her hand landed on his erect dick. "See what you do to me, babe. Don't you ever think I'm not attracted to you. I'm just concerned about your health."?

"I promise to make love to you in every corner of this suite and bring all those aforesaid fantasies to life. But for me to fulfill my promise, you have to get better."

"I don't know if we appear to be couples who can't take their hands off each other but Richard told me not to engage you in strenuous activities."?

"He won't be here to check on me until tomorrow morning. I won't tell him you made love to me." She said with pleading eyes.?

"I don't joke with the Doctor's orders. But

don't worry, my love. There's always an alternative but keep in mind that you have to get better to get the full package."

Colton snuck his right hand under the light blanket that was on Mia's body.?

She unconsciously bit her lips when he started pushing up the hem of her dress. She adjusted herself so he could have easy access pushing her gown up to her belly area.?

Colt spread Mia's legs; placing her right leg on top of his. Then he started caressing her inner thighs with the tip of his fingers.

He could feel Mia's heart beating faster in anticipation of what was about to happen.

Sensing that she was badly in need of a release, he decided not to tease her for long.?

Colton adjusted Mia's panties to the bikini line area and without any warning, he inserted three fingers in her.

"Fuck, he cursed when he felt how wet she was."?

"That feels so good, babe. Please don't stop." She moaned in a teary voice the moment Colton increased his pace.?

With his fingers going in and out of her hard and fast, Colton kept on showering kisses on her neck area.?

Feeling the orgasm building up in her lower abdomen, Colt spoke. "Let go, Baby girl! I want to feel your walls tighten around my fucking fingers. I want you to cum unapologetically, I want you to give me those sweet juices. Cum for me, Mia!" He commanded, not reducing the pace at which he was fingering her.?

Colton couldn't help but think that Mia looked so beautiful as he watched her cum. He only released his fingers from her after she came down from her high.?

She blushed when she saw Colton lick all of her juices on his fingers.?

"I needed that release. Thank you." She initiated a soft passionate kiss with him, tasting herself in the process.?

"I know. You're welcome, my love." He smiled against her lips.?

"I have many things to motivate me to get better soon. I definitely want to explore every corner of this room with your cock in me. There's no way in hell I'm going to miss such an

offer."?

"You're so adorable." He smiled, placing a long kiss on her forehead.?

"Glad you find me adorable and not embarrassing. This pregnancy has tampered with my hormones a lot. Not complaining though." She blushed.?

Colton slowly caressed Mia's cheek, making her look into his eyes. "There's nothing to be embarrassed about. I'm in love with all shades of you, most especially your horny side. You want me to make you cum again? This time, it's going to be more intense." He whispered to her, nibbling on her earlobe.
