### [Red Envelope Group of the Three Realms](#)

#### Chapter 2431: Completing The Deal

After leaving the Meru space, Chen Xiaobei activated the returning bracelet and returned to bei Xuan faction.

After that, he would use the teleportation array to reach the central main star of the nine Star seas.

Chen Xiaobei had completely resolved this deadly trap!

Shen Gongbao's operation was as fierce as a Tiger's, but in the end, he still suffered a double loss and fled back to his nest with his tail between his legs!

.....

The central main star.

Chen Xiaobei contacted Xuanyuan guanghong the moment he arrived.

Xuanyuan guanghong thought that Chen Xiaobei was dead, so he sent the money back to the headquarters.

Fortunately, Xuanyuan guanghong was still at the headquarters. The moment he received Chen Xiaobei's call, he immediately requested for the large sum of money and brought it back to the central planet.

It would take some time for Xuanyuan guanghong to return through the teleportation formation.

Chen Xiaobei decided to return to the Meru space to deal with his loot.

There were 10000 people's storage bracelets from the five Forces, but none of the items caught Chen Xiaobei's attention. Luckily, he had managed to gather 5000000 upper spiritual stones.

After taking the spiritual stones, Chen Xiaobei threw all the storage bracelets into the heaven and earth furnace and refined them.

In the end, there were only the storage bracelets of the five senior elders left!

He found a total of 3000000 upper spiritual stones.

After taking away all the spiritual stones, Chen Xiaobei had more than 9.5 million superior-grade spiritual stones in his little Treasury.

Chen Xiaobei found another five five-star earth-god instruments, but they were useless.

There was a huge pile of resources of varying grades, but there was nothing particularly worth keeping. They were all returned to the furnace.

Finally, Chen Xiaobei found his biggest surprise!

Five prosperous monkey furs! Five heavenly dog biscuits! And five seven-star earth-god level cultivation techniques!

Obviously, these things were given to them by Shen Gongbao.

If Shen Gongbao had not shown these extraordinary things, would the five Forces have worked for him?

The monkey fur and dog food were both elementary, so Chen Xiaobei did not really care.

On the other hand, Chen Xiaobei was very interested in the five books.

Although they were only seven-star earth-god level cultivation techniques, all five of them were created by ancient Immortals. Once one mastered them, he could crush his opponents of the same level in the human world!

It was conceivable that even the major forces in the earth-god Realm would be extremely happy to get these five cultivation techniques!

Of course, Chen Xiaobei was still not interested in these five cultivation techniques. After all, the cultivation techniques and secret Arts that Chen Xiaobei practiced were all divine-grade, and seven-star earth-god level was nothing to him.

"Keep it first!"

I don't like it, but I'm sure other people will like it. It'll come in handy later! Chen Xiaobei grinned.

Chen Xiaobei left the Meru space after he finished counting his loot.

Soon, Xuanyuan guanghong called.

Using the portal to travel through space, Xuanyuan guanghong had arrived at the central main planet. He wanted Chen Xiaobei to go to the Dong Sheng Chamber of Commerce to make the deal.

.....

Dongsheng Chamber of Commerce.

Chen Xiaobei put on the human-skinned mask and arrived at the scene.

"Aiyaya! Young master Chen! You've finally returned!"

Xuanyuan guanghong personally came out to welcome him. He said with a face full of shock, three days ago, I watched the sect selection in Tianji city. I thought you had already ...

"Already dead?" you're just a bunch of petty thieves! Chen Xiaobei laughed. you can't do anything to me!

Xuanyuan guanghong's expression froze. He swallowed his saliva and said, at that time, it was already a dead end. Young master Chen actually said it so casually. It is indeed extraordinary!

"It's just a small matter, elder Hong need not be surprised." Chen Xiaobei shrugged nonchalantly.

Xuanyuan guanghong nodded and said seriously, "Childe Chen, although you've returned safely, I have to give you a warning!"

"What's wrong?" Chen Xiaobei asked.

"The CAO family! Giant soldier Mountain! The Wu family! The heirs of these three forces are all dead!"  
"You've come back alive, so their deaths will definitely be on you!" Xuanyuan guanghong said.

"It doesn't matter."

Chen Xiaobei shrugged and said, " the top ten young warlords are all dead. If their families want to settle the score, just come. I don't care!

It was obvious that the top ten young warlords were all killed by dugu zang Xian!

But dugu zang Xian was only doing this to save Chen Xiaobei! Of course, Chen Xiaobei would not push the blame on dugu zang Xian!

No matter who wanted revenge, Chen Xiaobei would shoulder it all! This was the responsibility a man should have!

"It doesn't matter what the other families do, they can't do anything to young master Chen!"

"But the CAO family, the giant soldier Mountain, and the Wu family have terrifying foundations!"  
Xuanyuan guanghong said in a deep voice. They were not only the top three forces in the earthly calamity star sea! In the earth-god Realm, they also had a deep foundation! Once he retaliates, his power will definitely be beyond imagination!"

"I know, I'll keep an eye out."

alright! Chen Xiaobei nodded. let's not talk about them for now. Let's finish the deal first. I still need to find a way to contact the people in Tianji city.

"Alright, let's trade first." Seeing how calm Chen Xiaobei was, Xuanyuan guanghong stopped trying to persuade him and nodded.

They entered the Chamber of Commerce's highest conference hall.

Xuanyuan guanghong took out a storage bracelet and said, there are 550 million upper spiritual stones in here. Young master Chen, please take a look!

"Alright," he said.

Chen Xiaobei nodded. He was not in a hurry to take the other's storage bracelet. Instead, he took out his own storage bracelet and handed it over, " the eleven four-star earth-god instruments are all inside. Elder Hong, take a look!

"Alright!" Xuanyuan guanghong nodded with a smile on his face. He really admired Chen Xiaobei's character.

Then, they exchanged their storage bracelets.

No one was lying, and the deal was naturally completed.

"It's such a pleasure to do business with young master Chen! It's simple and clear!" Xuanyuan guanghong praised.

"I also like doing business with elder Hong. If there's a chance, let's work together again!" Chen Xiaobei smiled.

"Good, good, good! To be able to work with young master Chen, this old man is more than happy to do so!" Xuanyuan guanghong was all smiles. Not only was it refreshing to do business with Chen Xiaobei, but it was also profitable. Wasn't this what he wanted?

by the way, about the matter I mentioned to elder Hong last time, is there any result? " Chen Xiaobei asked.

"Of course! With young master Chen's background, you definitely deserve the highest treatment from our Dongsheng Chamber of Commerce!"

Xuanyuan guanghong composed himself and solemnly took out an exquisite wooden box, saying, "There's a Dongsheng purple gold Royal token inside! With this token, you can receive the same treatment as the head Chairman! It's comparable to an Overlord in the earth-god Realm!"

"Alright!" Chen Xiaobei grinned and took the box. When he opened it, he saw an exquisite purple-gold token.

Chen Xiaobei was about to go to the earth-god Realm, and with this token, many things would be very convenient!

Ding Ling Ling Ling

Chen Xiaobei's phone rang!

After the call was connected, Lord scorching Heat's panicked voice was immediately heard.

"Save me!"

### [Red Envelope Group of the Three Realms](#)

#### **Chapter 2432: Mysterious Race**

"Hey! Hello?"

Chen Xiaobei's face changed, but there was no sound from the other end of the phone.

"What happened?"

"If you need it, I can make use of the guards of the Chamber of Commerce to help you solve all your problems!" Xuanyuan guanghong said in a deep voice.

Obviously, Chen Xiaobei already had a Dongsheng purple gold Royal token, which meant that he could receive the same treatment as the president of the Dongsheng Chamber of Commerce! Xuanyuan guanghong was willing to use the Chamber of Commerce's power for Chen Xiaobei!

"No need! I'll handle it myself!" Chen Xiaobei shook his head and refused.

They were going to save Lord Chi Ling. If any outsiders were to interfere, the relationship between Chen Xiaobei and Lord Chi Ling would be exposed!

Lord blazing Heat's master's plan would be completely ruined.

Ding Ling Ling Ling

Before he could finish his sentence, Chen Xiaobei's phone rang again. It was an unknown number.

"Who is it?" Chen Xiaobei immediately picked up.

"Uh ..."

An old man's voice came from the other end of the phone, and he said awkwardly, "I'm the third elder of the Putuo domain branch in Tianji city. Our people have discovered that you have returned to the central main star! Congratulations on passing the disciple selection. There will be a special person to pick you up today ..."

"I'm not free!" Chen Xiaobei hung up the phone.

The elders of Tianji city had specially called to inform them, and there were also people specially sent to the central main planet to welcome them. To a disciple who had just entered the sect, this was definitely an unprecedented treatment!

But Chen Xiaobei simply said, 'I'm not free' and hung up!

It was simply domineering! Frivolous to the extreme!

Even through the phone, one could imagine that the elder of Tianji city must be dumbfounded!

"Elder Hong! I'll be leaving first! See you later!"

Chen Xiaobei bade them farewell and left the Chamber of Commerce.

.....

In an empty corner of the city.

Chen Xiaobei hid inside and took out a God's eye talisman from his infinite space ring!

Chen Xiaobei found this God's eye talisman in Shen boyuan's storage bracelet after he killed him!

When Lu Yue went to get the dark curse talisman, Shen Gongbao gave Shen boyuan a God's eye talisman so that he could find Chen Xiaobei as soon as possible.

Shen boyuan was killed, and the God's Eye talisman fell into Chen Xiaobei's hands.

At this moment, Lord scorching heat only had one phone call. He had no clues at all!

The only way for Chen Xiaobei to find Lord scorching heat was to use the God's Eye talisman's special ability to search the entire city!

"Whoosh ..."

The God's Eye talisman burned out on its own, and its special ability was immediately activated!

It was as if Chen Xiaobei had activated a clairvoyant, scanning the entire city like a radar.

"I found it!"

Soon, Chen Xiaobei found Lord scorching Heat's location. He found that she had been knocked out by a group of men in Black and was now on a strange-looking aircraft.

"Whoosh!"

Without hesitation, Chen Xiaobei took out the somersault cloud and rushed over as fast as he could.

.....

The aircraft looked like a disc and was surprisingly fast!

Under the push of a light blue Spirit light, he could actually burst out with the speed of a four-star earth-god!

Chen Xiaobei rode the somersault cloud at full speed, but he could only follow them from a distance. He could not catch up at all!

"It's too fast! The flying disc was like a flying saucer in a science fiction story! However, it's much faster than the most advanced flying device of immortal dugu zang!"

Chen Xiaobei did not give up. "Could it be that in this universe, there's a race with technology that far surpasses humans? How did Lord scorching heat offend these people?"

Chen Xiaobei's mind was filled with questions, but without any clues, he could not make any conclusions.

thankfully, we set off from the central main planet just now and did not use the teleportation array. The destination of those Men in Black should be a certain planet nearby!

Chen Xiaobei followed closely behind. As long as the enemy landed on a planet, Chen Xiaobei was confident that he would be able to find out everything he wanted to know.

However, after traveling through space for a while, the results were far beyond Chen Xiaobei's expectations.

The target of the flying disc was not any planet! Instead, it was an extremely hidden spatial Rift in the darkness of the universe!

"Whoosh!"

The flying disc charged straight into the spatial Rift and disappeared without a trace, as if it had disappeared from the universe.

"This ..."

what?! Chen Xiaobei was dumbfounded. these mysterious Men in Black not only have super high-tech flying devices, but they can also find a spatial Rift hidden in the endless universe!

"Who are they? What kind of conflict did they have with Lord scorching heat? Where does this spatial crack lead to?"

Chen Xiaobei had a lot of questions in his mind. He felt that these Men in Black came from a mysterious force! There must be a huge secret behind it!

"I don't care!"

Chen Xiaobei continued to speed up. I have the returning bracelet anyway. I'll rush over and take a look. It's not too late to retreat if there are any changes!

"Whoosh!"

Chen Xiaobei's vision went dark as he passed through the spatial Rift. The turbulence of the spatial Rift caused the world around him to spin.

After a while, Chen Xiaobei came out from the other side of the crack.

The scene in front of Chen Xiaobei's eyes instantly changed his view of the world. He even wondered if he was dreaming.

This was a small planet. It wasn't big, but every corner of it exuded a strong sense of technology!

It was like the city of the future in science fiction movies!

All the buildings were built with high-tech alloy!

The roads were divided into different levels. Pedestrians, hover cars, and flying devices all had their own tracks!

Chen Xiaobei had never seen a race like this before!

They stood upright like humans and walked on their legs, but they all had four arms and dark blue skin!

The most unique thing about them was their heads. Their facial features were similar to that of apes and monkeys, which was a close relative of humans. However, the back of their heads extended far behind them, making their heads look flat and oval!

The shape looked very strange, but under the strange appearance, it was easy to imagine that they must have a highly developed brain!

From this, it could be seen that to be able to develop a super high-tech civilization, this race must have extraordinary wisdom!

"Wu ... Wu aowu ...~"

Chen Xiaobei was still observing his surroundings when an ear-piercing alarm suddenly rang from below.

"Intruder detected! I repeat! Invader discovered! The mecha battle team attacked! Attack!"

The alarm rang throughout the city, and they immediately launched a counterattack.

"What the f \* ck! What mecha battle team? It can't be a transformer, right?"

Chen Xiaobei started to sweat.

"Whoosh! Whoosh! Whoosh ..."

The next moment, more than a dozen huge figures charged out of the city, their target Chen Xiaobei.

"As expected ... I am the invader! However, this is even better!"

Chen Xiaobei smiled evilly, took off the infinite space ring and the infinite Beast Ring, and hid them in the Sumeru space. Then, he also hid the somersault cloud in the Sumeru space.

### Red Envelope Group of the Three Realms

#### **Chapter 2433: The Countless Sands Ancient Race**

"Whoosh ..."

Without the support of the somersault cloud, Chen Xiaobei fell to the ground.

"Woof! Buzzzzzz! Yi ..."

At this moment, the mecha team was rushing up from below.

"What the f \* ck! It's really a transformer!"

Chen Xiaobei finally saw the faces of the mecha Warriors.

They had huge metal bodies!

Just like their creator, the mecha Warriors had two legs with twelve jet thrusters, which gave them the speed of a three-star earth-god!

They also had four arms, fists, and arms, all made of high-tech alloy. They were extremely strong and had six jet thrusters on their elbows, which allowed them to throw a heavy punch equivalent to a two-star earth-god!

On their flat and long metal heads, there were three eyes that shone with a dark blue light. They were very agile, as if they had a life of their own and were not just robots!

"Swish!"

The mecha warrior's flying speed was much faster than Chen Xiaobei's falling speed.

Before Chen Xiaobei could land, one of the mecha Warriors was already in front of Chen Xiaobei!

"Bang!"

The thrusters on the mecha warrior's elbow suddenly shot out blue energy. The huge thrust gave the mecha warrior's left arm a huge boost of power!

Like a cannonball, the mecha warrior's heavy metal fist landed on Chen Xiaobei's body!

"Uh ..."

"Reporting! The intruder did not resist and has been shot down!"

The mecha warrior let out a mechanical sound and then charged towards the direction where Chen Xiaobei had fallen.

"Reporting! Invader fainted! It has been successfully captured! Requesting the next order!"

The mecha warrior lifted Chen Xiaobei up from the ground. When he saw that Chen Xiaobei did not respond, he immediately reported to his superior.

"New order! Take away the intruder's storage bracelet! Throw the invader into the garbage furnace to be refined!"

"Yes, sir!"

The mecha warrior received the order but was stunned for a moment. "Reporting! No intruder with storage bracelet detected!"

"New order! Throw the invader into the garbage furnace!"

"Yes, sir!"

The mecha warrior nodded and carried Chen Xiaobei to the edge of the city.

"F \* ck! This is not the result I want!"

Suddenly, Chen Xiaobei woke up and grabbed the Mech warrior's wrist!

Chen Xiaobei had hidden the infinite space ring, the myriad Beast Ring, and the somersault cloud in the hopes of beating them at their own game. He had deliberately allowed the mecha Warriors to capture him so that he could meet Lord Chi Ling as soon as possible.

Otherwise, with Chen Xiaobei's physical strength, how could he have been knocked out by a single punch?

But Chen Xiaobei did not expect that this mysterious race would be so honest. They did not plan to imprison Chen Xiaobei but instead, they wanted to melt him down like garbage.

Chen Xiaobei could not continue to pretend to be unconscious!

"Emergency report! The invader has awakened! emergency report ... the three eyes of the mecha warrior immediately turned red and flashed quickly, appearing very anxious.

"Ka! Bang ..."

Without a word, Chen Xiaobei pulled the Mech warrior's arm and kicked him in the chest!

Who dared to think about it!

The Mech warrior's entire arm was ripped off by Chen Xiaobei!

Its huge body was sent flying a few meters away. It struggled a few times, but was unable to get up!

"Wu ... Wu aowu ..."

"Red Alert! Red Alert! The invader retaliated and instantly killed the mecha warrior! Requesting support from the psionic Warriors! Requesting psionic warrior support ..."

All of a sudden, the dozen or so mecha Warriors around them let out sharp alarms.

As the alarm went off, they started to surround Chen Xiaobei. Even though they knew that they could not defeat Chen Xiaobei, they still tried to delay him.

"Bang! Bang! Bang! Bang!"

All of the mecha Warriors activated their thrusters and threw their fists at Chen Xiaobei like cannonballs.

"You guys are so weak!"

Chen Xiaobei stood there unmoving, allowing the heavy punches to land on his body.

Unsurprisingly, these two-star earth-god level punches could not hurt Chen Xiaobei at all. They were like tickles to him.

"It's my turn!"

After taking the first wave of attacks, Chen Xiaobei took the opportunity to launch a counterattack!

"Bang!"

Chen Xiaobei threw an uppercut at one of the mecha Warriors 'jaws!

These mecha Warriors had the speed of a three-star earth-god and the strength of a two-star earth-god, but their defense was only equivalent to that of a one-star earth-god!

Especially at their joints, where there were a large number of electronic parts and important wires. Once hit, they would be paralyzed in an instant!

"Kalala ..."

Chen Xiaobei's fist landed on the Mech warrior's neck, creating a huge hole!

After a while of electric sparks, the mecha warrior fell straight down, completely losing his ability to fight.

"Bang! Bang! Bang! Bang ..."

Chen Xiaobei did not stop. His movements were as smooth as flowing water, and he performed a set of combo punches in one go.

Some of the surrounding mecha Warriors had their heads blown off, some had their core components pulled out, and some had their power devices crushed by stepping on them.

After one round of counter-attacks, the mecha Warriors surrounding Chen Xiaobei were all destroyed, turning into scrap metal.

"Woof! Buzzzzzz! Yi ..."

However, at this moment, the reinforcements had already arrived at the scene!

More than ten black-robed soldiers of a mysterious race were charging toward Chen Xiaobei with the speed of two-star earth-god level, surrounding him!

you guys are psionic Warriors? "

Chen Xiaobei looked at the members of the mysterious race.

Compared to the mecha Warriors, these people were all living beings. Their eyes were locked on Chen Xiaobei, filled with battle intent and anger.

[ding Qianqian's cultivation base: early stage of the divine sea realm. Lifespan: 50992 years, physique: 23 million, combat power: 23 million! Primordial spirit attack-five-star earth-god level!

Chen Xiaobei's netherspirit battlescouter caught him by surprise.

The divine sea realm was the standard name for a two-star earth-god, but these psionic Warriors had the primordial spirit attack of a five-star earth-god!

"Barbarous human! Why did you invade the territory of the Heng Sha ancient race? You even broke our mecha, you're simply too unreasonable!"

A psionic warrior walked out, his three eyes burning with anger.

the countless sands ancient race!?

Chen Xiaobei had never heard of this race.

"You've captured my friend, Lord scorching heat! I'm here to save her!" Chen Xiaobei said.

"Lord scorching heat? We've never heard of this person!" The psionic warrior denied.

"She has another name!" "Jun Yunqing!" Chen Xiaobei said.

### [Red Envelope Group of the Three Realms](#)

#### **Chapter 2434: Countless Sands Realm**

"What? You're Jun Yunqing's accomplice?"

The psionic warrior's tone turned cold as he suddenly shouted, "Psionic ability team one! All members, attack! We must kill this brat!"

kill!?

Chen Xiaobei was taken aback. He could not imagine how deep the enmity between Lord scorching heat and this Hengsha ancient race was, to the point that they would not rest until one of them was dead!

"Woof! Buzzzzzz! Yi ..."

The next moment, all 13 spiritual warriors charged at Chen Xiaobei.

They spread their arms and all released the combat strength of the divine sea realm!

A strong surge of ethereal force gathered like thirteen rivers of sand, coming from beyond the sky, ready to crush Chen Xiaobei! Crush! They turned into tiny dust particles in the endless sand!

"If you want my life, then don't blame me for being impolite!"

Chen Xiaobei took out ten superior-grade spiritual stones and crushed them. The Nightstalker outfit absorbed all the spiritual Qi!

The 13 of them were all stronger than Chen Xiaobei, but they were still a far cry from the Nightstalker outfit!

"Golden sky wings!"

Chen Xiaobei roared and activated the Nightstalker outfit's new ability after melting the alloy feather!

"Woof! Buzzzzzz! Buzzzzzz! Yi ..."

Ten pairs of golden wings appeared behind Chen Xiaobei!

The Nightstalker outfit was a three-star earth-god level item. Every time it was activated, it would consume 100 million low-grade spiritual energy, which was equivalent to one high-grade spiritual stone!

The 10 superior-grade spiritual stones that Chen Xiaobei had given out had been completely burned by the Nightstalker outfit, which meant that the Nightstalker outfit's golden feathers had been activated 10 times!

Instantly, ten pairs of twenty wings appeared!

Each pair of giant wings spanned three hundred meters!

The giant wings spread out behind Chen Xiaobei like a golden sun, illuminating the entire world with a holy golden light!

"Shit! This kid has a three-star earth-god instrument!"

The thirteen psionic Warriors were shocked and immediately stopped their attack. If they rushed forward, they would definitely be killed!

"I'll give you one last chance! Release Jun Yunqing! Otherwise, don't blame me for starting a massacre!" Chen Xiaobei did not rush to attack as that would only intensify the hatred.

After all, Chen Xiaobei could not be sure who was at fault in this hatred before he figured out the whole story!

If it was Lord scorching Heat's fault, Chen Xiaobei's actions would be equivalent to killing the innocent. He would be committing evil!

Of course, if those spiritual warriors still wanted to kill Chen Xiaobei without any reason, then they would be the ones doing evil!

"We can't leave it with Jun Yunqing!"

The captain of psionic ability team refused firmly and sneered in disdain. "Do you think you can defeat us with a mere three-star earth-god instrument? You're too naive!"

"What do you mean? Don't tell me you have the ability to fight above your level?" Chen Xiaobei was shocked.

countless sands realm!!!

die! the psionic ability team leader roared. A dark yellow spiritual light shot out from his three eyes, covering the area three meters around Chen Xiaobei!

this ... This is the essence soul attack of the countless sands ancient race? "

Chen Xiaobei did not suffer any external injuries. The first thing he thought of was a primordial spirit attack!

Although these psionic Warriors were only two-star earth-god level, their primordial spirit attacks had reached the level of five-star earth-god level!

"Attack!"

charge! the team leader roared, and the 12 psionic Warriors around him were reinvigorated. They waded the river and charged at Chen Xiaobei!

Chen Xiaobei had to be on the defensive when the enemy was approaching!

This wasn't evil anymore, it was legitimate self-defense!

"Woof! Buzzzzzz! Yi ..."

Chen Xiaobei's twenty wings flapped in unison!

Chen Xiaobei was trying to activate the Golden feather's ability to fight back.

However, what Chen Xiaobei did not expect was that the speed of twenty wings 'flapping was so slow that it looked like it was being played in slow motion!

Originally, he only needed an instant to activate the endless brilliant killing feathers!

However, three seconds had passed, and Jin shayu's power was still not activated!

"BOOM! BOOM! Boom ..."

On the other side, the 12 spiritual warriors did not slow down their attacks at all and had already landed on Chen Xiaobei.

The 12 countless sands rivers brought with them immense power as they crushed down, causing the space to tremble.

Chen Xiaobei was completely devoured, unable to fight back.

"This human is too weak!"

The psionic Warriors all burst into laughter, full of disdain and contempt.

Jun Yunqing is such a smart woman. Why would she find such a weak person to be her partner? "

this kind of weakling wants to steal our Hengsha ancient race's Secret treasure? he's simply daydreaming!

"Alright, clean up the battlefield! Take off that brat's Black clothes and throw his corpse into the garbage furnace!"

The psionic Warriors all thought that Chen Xiaobei was dead and were ready to clean up the battlefield.

"You guys want to throw me into the garbage furnace so badly?"

However, at this moment!

Chen Xiaobei stood up from the cracked ground and said, "Your attacks are just like tickles to me! Who was the trash? Don't you have any idea?"

Other than the dust on his body, Chen Xiaobei was not injured at all!

The surrounding psionic Warriors were all dumbfounded at the sight!

"How ... How is this possible? That kid was clearly hit by us, how could he not be injured?"

"Although his black shirt is a three-star earth-god, our attack covered all directions. A large part of the power hit his head! Why wasn't he affected by a single hair? This doesn't make any sense!"

"Could ... Could it be that the strength of his physical body has already far surpassed the strength of our attacks? This is too exaggerated!"

"It must be like this! He has a heaven-defying physical body. Even if he isn't wearing that set of black clothes, he can still take our attacks head on!"

"Mutant! This kid was a never-before-seen anomaly! Capture him and present him to the clan leader! Maybe we can develop a technology that can quickly strengthen the body!"

The psionic Warriors exclaimed in shock. Their developed brains allowed them to associate a lot of things.

However, the further they thought, the easier it was for them to forget the current situation.

"Hey! Are you all jokers?"

Chen Xiaobei frowned and said impatiently, "You can't even hurt half a strand of my hair, and you still want to catch me? Isn't your dream too unrealistic?"

"Shit! Hengsha ... Territory ..."

The psionic Warriors were shocked, but before they could finish their words, they all shut their mouths!

That was because Chen Xiaobei's twenty pairs of golden wings had fully formed. He could kill everyone with a single thought!

### [Red Envelope Group of the Three Realms](#)

#### **Chapter 2435: Eternal Cycle**

your primordial spirit attacks are very strange. Unfortunately, you've underestimated my defense!

Chen Xiaobei's face was calm as he used his ethereal force to shake off the dust on his body. He returned to his original state.

"It's too scary! How strong is your body? Even a warrior at the peak of the spirit sea realm would be swollen and painful after that attack ... Do you have a golden elixir realm warrior's body?"

The thirteen psionic Warriors were all dumbfounded. A simple deduction had allowed them to guess Chen Xiaobei's physical strength, and this result was even more shocking.

"Enough nonsense!"

" I'll use the lives of 13 of you in exchange for Jun Yunqing's life. Isn't that a good deal? " Chen Xiaobei said.

"If you want to kill, kill! The faith of the countless sands ancient race is more important than our lives!"

None of the 13 psionic Warriors were afraid of death. They held their heads high and said, " Jun Yunqing wanted to steal the sacred object left behind by our ancestors! We won't let her go even if we have to risk the lives of our entire clan!"

"Steal?"

Chen Xiaobei was taken aback. It seemed that Lord scorching heat was in the wrong, and the Heng Sha ancient race was the victim.

the relics left behind by our countless sands ancient race ancestors are Supreme treasures to our entire race. Jun Yunqing has never given up. If this isn't stealing, what is it?!

The thirteen psionic Warriors held their heads high and puffed out their chests, all of them looking as if they were not afraid of death.

Seeing this, Chen Xiaobei was even more uncertain. Lord scorching heat was a thief. Not only was he in the wrong to cause trouble, but he was also doing evil!

"Little brat! What are you doing? If you want to kill, then kill! We will not even frown! There will naturally be stronger psionic priests to deal with you in the future! A three-star earth-god's physique is like paper in front of a psionic priest. It can't even withstand a single blow!"

The 13 psionic Warriors were not afraid of death, and instead, they were seeking death!

There was no doubt that it was impossible to make them yield.

To avoid further enmity, Chen Xiaobei dispelled the 20 pairs of golden wings on his back and said, " I want to see your clan leader! There are some misunderstandings that need to be explained in person!"

this ... the thirteen psionic Warriors were stunned. They did not expect Chen Xiaobei to not kill them.

The thirteen psionic Warriors seemed to be amenable to coaxing but not coercion.

When Chen Xiaobei had the power to kill them, they did not fear death and even begged for it! However, when Chen Xiaobei stopped attacking, they calmed down!

The psionic ability team's captain composed himself and said seriously, " You could have killed us, but you were willing to show mercy. This proves that you are not an unreasonable person! I'm willing to help you pass on the message, but I can't guarantee if the clan leader will see you!"

"I like to deal with smart people!"

you can go and report this to the higher-ups! We can be reasonable! Why do we have to waste our energy fighting?" Chen Xiaobei grinned.

"Wait!" The spirit power retreated.

Three minutes later, he returned and personally brought Chen Xiaobei to the city center.

.....

"I've told the clan leader everything that happened just now! He agreed to meet you at the countless sands heavenly tower! You should feel honored, because you will be the first human in history to step into the tower!"

The psionic ability team's captain said as he led the way.

Chen Xiaobei was confused. "What kind of place is the countless sands heavenly tower? Can't your clan leader just meet me anywhere? Why did you choose that place?"

the countless sands heavenly tower is the place where the sacred relics of our countless sands ancient race ancestors are stored," the psionic ability team leader said. since you want to resolve the misunderstanding, you naturally have to meet there!

a place to store sacred artifacts!? Chen Xiaobei was shocked and asked, "Your clan leader doesn't doubt me at all? What if I run away after snatching the sacred artifact?"

heh, there's another reason why the clan leader chose to meet you in the countless sands heavenly tower! once you step into the range of the heavenly tower," the psionic warrior laughed. unless you are a peak earth immortal, you will not be able to escape!

Chen Xiaobei frowned and sighed. "Your intelligence is indeed not low! You're quite thoughtful!"

"Nonsense!" you're Jun Yunqing's partner," the psionic ability team leader said. you must be as cunning as her! It wasn't easy for us to catch her, so we naturally have to be on guard against you!"

Chen Xiaobei shrugged. it's okay. You guys can just be on guard. I'm here to reason with you. I believe you won't try to harm me unreasonably!

of course! the psionic ability team leader nodded and said, "we, the countless sands ancient race, are the most rational! As long as you didn't do anything wrong! We won't hurt you!"

.....

In the city center.

The Sky Tower that Chen Xiaobei had imagined did not exist. There was only a heavily guarded portal.

"Go up, Lord chief is waiting for you on the other side!" The psionic warrior said.

"Alright!"

Chen Xiaobei nodded. He was not afraid at all. In fact, he could feel that there was something mysterious guiding him to get there as soon as possible.

After the Super marriage was activated, Chen Xiaobei's Qi increased dramatically. He had the same feeling when the last great opportunity came!

"Chi ..."

Chen Xiaobei stepped into the portal.

With a burst of golden energy, Chen Xiaobei's body disappeared and he was transported to another dimension!

.....

It was a huge golden space! Looking up from the bottom, it was indeed in the shape of a huge Pagoda!

However, the interior of the pagoda was hollow!

From top to bottom, a bunch of fine golden sand fell from the top of the tower, like a golden thread, falling to the ground at the bottom of the tower!

The Golden sand continued to fall, but it did not pile up after landing on the ground!

"Where did this golden sand come from? Why are they falling down continuously?"

Chen Xiaobei frowned and asked, "Where did the Golden sand go after it fell? Why isn't there any trace of him?"

"Good question!"

At this moment, an old man in a black robe walked over.

The old man's voice was deep but calm, giving people a deep feeling of being unperturbed.

"You will never know where the Golden sand comes from and where it will go, just like how the Golden sand will never stop! There seemed to be an eternal cycle hidden in this! And this is the Supreme sacred object of our countless sands ancient race!"

The old man said calmly as he walked slowly to Chen Xiaobei.

Are you the head of the countless sands ancient race? " Chen Xiaobei asked.

"Yes, I am!" The old man also had a long, flat head and four skinny arms, which were the characteristics of the countless sands ancient race.

"Forgive me for being presumptuous!"

what is it? " Chen Xiaobei asked, " what is the use of your sacred relic? " Why would my friend want it?"

[Red Envelope Group of the Three Realms](#)

**Chapter 2436: Civilization Breaks**

"Aren't you Jun Yunqing's partner? Why do I seem to know nothing about it?"

The Hengsha tribe leader asked.

"I'm not her accomplice. I'm just her friend!"

"Because I saw her being taken away from the central planet, so I came here to save her!" I don't know anything about her purpose!"

"What? You know nothing about it?" The Hengsha tribe leader had thought that he was a calm old man, but at this moment, he was shocked and lost all his demeanor.

"Yes ... Why are you so surprised?" Chen Xiaobei was also dumbfounded.

"If I had known that you knew nothing, I wouldn't have let you in!" The Hengsha tribe leader's face was full of regret. It turned out that he had made a big mistake.

Originally, the Hengsha tribe leader thought that Chen Xiaobei would know what Lord blazing was up to just because he was Lord blazing Heat's accomplice!

Since Chen Xiaobei knew everything, there was no need for the Hengsha clan leader to hide it from him. That was why he had Chen Xiaobei meet him at the Hengsha heavenly tower.

The Hengsha tribe leader had never expected that Chen Xiaobei knew nothing about it!

Asking Chen Xiaobei to meet him at the tower was equivalent to exposing the biggest secret of the countless sands ancient race!

"Don't worry! I promise that I won't say a word about what I saw and heard today!" Chen Xiaobei was a smart man. He knew that the Hengsha tribe leader was most worried about the secret being leaked.

"Can I trust you?" The Hengsha tribe leader was still a little worried.

"Trust is not something that can be said with words, but with actions!"

I'll think of a way to resolve the misunderstanding between you and Jun Yunqing. I can even persuade her to stop thinking about the eternal Gold sand! If I can do it, you will naturally trust me!"

"What you said makes sense!" The Hengsha tribe leader nodded and said, "you've seen it anyway, so I'll just tell you!" If you can convince Jun Yunqing, then you'll be a great help to me!"

"Please speak! I will do my best to help!" Chen Xiaobei was all ears.

"Let's talk about the eternal Gold sand first!"

The Hengsha tribe leader said, " this is indeed a sacred relic left behind by our ancestors. However, tens of millions of years ago, our civilization experienced a great fracture! Before that, many historical documents and knowledge of Science and Civilization were lost!"

a great rupture in civilization!? Chen Xiaobei's face was filled with shock.

"Yes, I am!"

The Hengsha tribe leader nodded and said, " after the collapse of our civilization, the Hengsha ancient tribe continued to exist. However, no one knows what the eternal Gold sand is used for. No one knows why the civilization broke apart back then ..."

"Ah? Even you don't know the use of the eternal Gold sand?" Chen Xiaobei's mind went blank. Things were not looking good!

The Hengsha tribe leader said helplessly, " after the collapse of civilization, there were a total of 103 tribe leaders until I came here. We've spent our entire lives studying the principle and uses of the eternal Gold sand, but we've never had any results!"

I think I get it now ... Chen Xiaobei frowned."Does Jun Yunqing know the secret of the eternal Gold sand? That was why she wanted to steal the Golden sand! And you wanted to know the secret, so you secretly captured her?"

"Yes and no!"

The Hengsha tribe leader said, " Jun Yunqing doesn't know all the secrets of the eternal Gold sand. However, as a disciple of Tianji city, she can get a lot of important information. She can also read the ancient historical books passed down from the ancient times!

"This information and ancient books gave Jun Yunqing many clues. They even led her to our secret space crack! She came here once before, but because her master was too terrifying, we didn't capture her by force!"

recently, our spies discovered that Jun Yunqing had come to the nine layers of the starry sea. On the surface, she was there to help with the Tianji city's sect selection, but in reality, she had been secretly storing up 'dark stone ink powder'!

"This is a special type of dust that has an excellent conductive effect! As long as this dust is scattered into the air, our entire city's power system, mech Warriors, aircraft, and weapons will all be completely short-circuited!"

we suspected that Jun Yunqing was going to take a gamble and attack our territory. So, we took action in advance and captured her!

The Hengsha tribe leader slowly explained the situation. There were still many doubts, but the general context was clear.

With the help of his identity as a disciple of the heaven's legacy city, Lord scorching heat had secretly investigated the Heng Sha ancient race and found their location.

Not long ago, Lord scorching heat came to the nine layers of the starry sea with an elder of the Putuo domain branch in Tianji city. On the surface, they were here to select disciples, but in fact, they were here to buy and store dark stone and ink powder.

The countless sands ancient race suspected that blazing Lord was about to launch a powerful attack, so they attacked first and captured blazing Lord.

"I've roughly sorted it out!"

Chen Xiaobei thought, " first of all, Jun Yunqing more or less knows some secrets about the eternal Gold sand. Otherwise, she wouldn't be so insistent on it!

secondly, Jun Yunqing stored a large amount of hint ink powder this time. It might be because she found out more secrets, which strengthened her determination!

finally, chief, I'm afraid that you captured her in advance not only because you were afraid of her attack, but also because you wanted to get important clues from her, or even the core key to the secret!

As soon as he said that, the Hengsha clan leader's expression changed slightly. He couldn't help but nod and say, "Young man! You don't look old, but your eyes are very sharp! This old man admits that your speculations are correct!"

"Then let me go see Jun Yunqing."

I'll try my best to make her tell me all the secrets she knows! Chen Xiaobei said.

"You're really confident?"

that secret ... the Hengsha tribe leader questioned. I'm afraid Jun Yunqing values it more than his life. How could he easily reveal it? "

"Of course she wouldn't reveal it so easily!"

but ... Chen Xiaobei said, "if this secret can be exchanged for some Eternal Gold sand, I don't think she will reject it!

"What? Who said that she could exchange for the eternal Gold sand? I didn't agree to it!" The Hengsha clan leader's face turned cold and he said seriously.

"Please calm down!"

Chen Xiaobei softened his tone and said seriously, "You're an extremely intelligent person, it's impossible for you not to understand! As long as you exchange benefits, both of you can get what you need! If you refuse the exchange, then both sides will suffer losses and gain nothing!"

this ... the Hengsha tribe leader's heart was shaken by Chen Xiaobei.

Chen Xiaobei pressed on and asked, "Don't you want to solve the secret of the eternal Gold sand? Don't you want to make up for the loss of civilization?"

"I want! Of course I want to! I even dream of it!" Hengsha tribe leader's eyes narrowed, and he immediately said, "I'll take you to see Jun Yunqing!"

Chen Xiaobei let out a sigh of relief.

But when he thought about that woman who always disliked him, Chen Xiaobei felt a headache coming on.

How should he deal with this woman?

### [Red Envelope Group of the Three Realms](#)

#### **Chapter 2437: Working Hand In Hand**

In the deepest part of the dungeon.

The Hengsha tribe leader opened the cell door and motioned for Chen Xiaobei to go in.

"Chen Zhufeng! It really is you! That's great! Come and save me! Hurry up!"

Lord scorching Heat's hands and feet were firmly locked by high-tech alloy chains.

In addition to being extremely hard, there were also special energy fluctuations on these chains, which directly affected Lord scorching Heat's blood flow, breath, and meridians, making her unable to use her cultivation base at all.

"Don't get too excited!"

Chen Xiaobei closed the cell door and walked over. I'm not a God. The reason I can come here is because of the permission of the Hengsha tribe leader!

"What?"

"How did you get involved with the Heng Sha ancient race?" Lord scorching heat was shocked and cursed. You damn traitor! Master and I were wrong about him!"

"I'm not a traitor! I'm here to advise you!"

I don't think so! Chen Xiaobei said. there was no enmity between you and the Heng Sha ancient race, but you tried to steal their sacred relic. That's where you're wrong!

"You're helping them to blame me! And you say you're not a traitor!" "I've seen through you!" Lord scorching heat said angrily. Get out of here! I don't want to see you ever again!"

"Shut up!"

Chen Xiaobei's dark eyes suddenly burst with an overbearing pressure!

The words of an unparalleled Emperor who controlled the world were of great weight and could not be doubted!

"Hiss ..."

Lord scorching heat gasped. He was stunned by Chen Xiaobei's aura. He was frozen on the spot, unable to say another word. His mind had even submitted to Chen Xiaobei's aura.

"Can't you listen to me when I'm talking properly? I'll only be good if I'm fierce to you!"

Chen Xiaobei calmed himself down and said, " you have no enmity with the countless sands ancient race. If you want their Eternal Gold sand, you don't have to steal it. You can also try to cooperate!

"How ... How can we cooperate?" Lord scorching heat swallowed his saliva and asked, still in a state of shock.

tell me all the secrets you know about the eternal Gold sand and seek the final answer with the countless sands ancient race!

yes! Chen Xiaobei said. in return, the Hengsha tribe leader has promised me that he will give you some Eternal Gold sand!

"What?"

"Are you saying that the countless sands ancient race doesn't know the ultimate secret of the eternal golden sand?" Lord scorching heat asked in surprise.

of course! Chen Xiaobei nodded. the civilization of the countless sands ancient race had a major fracture tens of millions of years ago! Many of our ancestors "secrets have been lost."

so that's how it is ... Lord scorching heat was stunned for a moment, and said in frustration, " "If I had known earlier, I would have cooperated with them from the start!"

Obviously, in the beginning, scorching heat Lord thought that the countless sands ancient race knew everything. The secrets that she had found out were of no value to the countless sands ancient race, so she naturally had no right to talk about cooperation!

It was only at this moment that Lord scorching heat realized that the countless sands ancient race didn't know the secret that he had discovered!

In this way, Lord scorching heat would have a bargaining chip, and he could naturally talk about cooperation.

If he had known this earlier, Lord scorching heat would never have used such a stupid and Dangerous Method like stealing.

"You agree?" Chen Xiaobei asked.

"Yes! I agree to cooperate!" Lord scorching heat nodded heavily.

"Chi ..."

Then, Hengsha tribe leader opened the cell door and walked in.

"Young master Chen! Thank you very much for your mediation!"

The Hengsha tribe leader said very seriously, " we don't have any deep enmity with Jun Yunqing. It's just that we didn't have the chance to talk. Now that you've cleared up the misunderstanding, we'll no longer be enemies. We'll be friends who work together!

"You're too polite, chief." alright! Chen Xiaobei nodded. can you let go of kaijun Yunqing now? "

"Of course!" Hengsha tribe leader personally undid the chains on blazing heat Lord.

thank you ... Lord scorching heat had also kept his temper in check and stood obediently beside Chen Xiaobei.

.....

He returned to the countless sands heavenly tower and faced the eternal golden sand.

Lord scorching heat could not help but exclaim, "this is really not easy!" After years of painstaking investigation, I finally found the legendary Eternal Gold sand!"

In the huge countless sands heavenly tower, the eternal Gold sand was like a golden line that fell from the top of the tower to the ground at the bottom of the tower!

No one knew where the Golden sand came from, and no one knew where it was going.

There seemed to be an eternal cycle hidden in this, which had never stopped for countless years!

"Tell me!"

Chen Xiaobei looked at Lord scorching heat and said, "What secrets have you found out over the years?"

yes! Lord Chi Ling nodded and said, "from the first day I joined the Putuo region branch in Tianji city, I've been trying my best to investigate the secret of the eternal Gold sand with the help of the database and intelligence of Tianji city!

in the beginning, I found the entrance that the countless sands ancient race had hidden in the space crack and successfully snuck in. After that, the countless sands ancient race saw me as an enemy!

Chen Xiaobei and the Hengsha tribe leader both nodded. They knew about this.

recently, I made new progress in my investigation!

"In an extremely ancient book, I found a few records about the sacred artifacts of the Heng Sha ancient race!" It was clearly written in the book that the Holy relic was in the depths of the no man's land in the West of the Nine Seas of stars!"

no man's land in the West!? Chen Xiaobei and the Hengsha tribe leader were both stunned.

The Hengsha tribe leader asked,"since you have the information, why don't you just go and find it?" Instead, you're secretly accumulating dark stone ink powder?"

Lord Chi Ling frowned. that's because I suspect that there's a group of countless sands ancient tribe living in the depths of the no man's land in the West. They've been accumulating dark stone and ink powder to deal with them. I didn't expect that you would capture me before I could!

"I see!"

The Hengsha tribe leader immediately said,"since our misunderstanding has been resolved, why don't we go look for the sacred object in the no man's land in the West?" You can provide me with information. I'm familiar with our clan's situation, and if we work together, we'll definitely get something!"

"Good! It's decided!"

"Anyway, I still don't know the final secret of the eternal Gold sand. It's useless even if I get it. I still have to continue to investigate!" Lord scorching heat said with a serious look.

"Then let's go!" let's try to get to the bottom of all the problems in one go! Chen Xiaobei said. we'll get what we need and be happy for everyone!

.....

After that, the Hengsha tribe leader personally found the fastest aircraft and set off with Chen Xiaobei and Chi lingjun!

Chen Xiaobei did not know the way, nor did he know the situation of the Hengsha ancient tribe. The moment he got on the aircraft, he entered the lounge.

Of course, Chen Xiaobei was not going to sleep. He wanted to use this time to cultivate.

After locking the door, Chen Xiaobei entered the verdant Emperor's divine gourd!

At the same time, the aircraft was flying at full speed toward the deepest part of the no man's land in the West!

### [Red Envelope Group of the Three Realms](#)

#### **Chapter 2438: Whose Credit**

This time, the cultivation lasted for less than five hours.

Within the range of the sunlight cache, Chen Xiaobei had actually spent 6800 hours.

It should have increased his combat power by 680000, but with the effect of the level-four heavenly path cultivation Halo, his combat power had increased by 3.4 million!

[ding Qianqian's cultivation base: peak-stage primordial soul realm. Lifespan: 22684, physique: 5000000, combat power: 17,000,000, primordial spirit attack-sacred level!]

Of course, Chen Xiaobei had also spent another 6.8 million superior-grade spiritual stones on this cultivation.

This expenditure was comparable to the wealth of two or three major forces in the earthly calamity Star Ocean. It was impossible for ordinary people to bear it.

But to Chen Xiaobei, this was just a drop in the ocean.

Chen Xiaobei had more than 559.5 million superior-grade spiritual stones in cash! This expenditure was only a fraction of the total.

After this wave of consumption, Chen Xiaobei still had 552.7 million upper spiritual stones. He was filthy rich!

It's a pity that I've already reached primordial spirit realm pinnacle, and I'll need some luck to make a breakthrough ... Otherwise, the spirit stones I have right now would be enough for me to jump several cultivation realms!

Chen Xiaobei sighed. He was not satisfied.

However, Tian Peng had warned Chen Xiaobei that from the primordial spirit realm onwards, a cultivator was officially on the path of immortal cultivation!

After that, he had to take every step steadily.

Only when one's Dao heart was clear and their Foundation solid would they have the chance to reach the final destination.

In Chen Xiaobei and Prime Tongtian's plan, Chen Xiaobei's goal was to achieve the ultimate goal of becoming a saint!

In order to not give up on this goal halfway, Chen Xiaobei had to improve steadily. He could not dream of becoming a fat man in one bite!

Otherwise, one's Foundation would be like tofu. The higher one's cultivation, the easier it would be for it to collapse!

This was also the fundamental reason why many Immortals could not improve their cultivation realms!

One had to know that the immortals in the heavenly realm had long lifespans, which was almost equivalent to immortality. With sufficient time, they could accumulate spiritual energy and resources infinitely!

The reason why many immortal cultivators stopped advancing was that some of their foundations were not laid well on their path of cultivation. They could not and dared not to improve their cultivation realms!

If one's Foundation was destroyed, the lightest consequence would be Qi deviation and one's soul would be injured. The worst would be one's body exploding and one's soul would be scattered!

In other words, if a person didn't have any pursuits and just wanted to be an ordinary immortal, then he could do whatever he wanted on his immortal cultivation path, completely disregarding his Dao heart and Foundation.

Of course, if a person had an extremely high pursuit and wanted to reach the peak of the immortal Dao, then his immortal cultivation path must pursue the perfect development of his Dao heart and Foundation.

In the immortal world, there was another saying called "reforging from the broken weapons."

It meant that Immortals used secret Arts to dispel their own bodies and cultivation, allowing them to return to the human world and cultivate from scratch.

He did this to lay a new foundation and temper his Dao heart so that he could pursue a higher cultivation realm.

Of course, there was a great risk in re-cultivating after breaking up. After losing one's body and cultivation, even a true immortal could encounter many dangers on the road of re-cultivating and even die without a burial place.

From this, it could be seen that second brother's warning was not a joke.

Chen Xiaobei did not have the time or the opportunity to re-cultivate his weapon liberation. The only thing he could do was to progress steadily and allow his Dao heart and Foundation to grow perfectly.

"Haste makes waste, I can't be in too much of a hurry,"

Chen Xiaobei calmed himself down and observed his surroundings. "It's been a long time, but the blood bodhi seed hasn't changed much ..."

Chen Xiaobei was on planet bloodspring, and this planet was inside the verdant Emperor's divine gourd.

The seed of the divine blood Bodhi tree was planted in the core of the planet.

For such a long time, tens of thousands of small insects had been using their lifespan to power the sunlight cache, accelerating the growth of the blood Bodhi Divine Tree seed.

However, there was still no change to this divine level seed.

"Master said that it takes 3000 years to take root, 3000 years to sprout, 3000 years to form a tree, 3000 years to bloom, 3000 years to bear fruit, and 3000 years to ripen. All in all, it takes 18000 years!"

18000 years is 6.57 million days! If we use the sunlight cache to accelerate, it will take 6.57 million minutes ..."

this is equivalent to twelve years in reality. Even if the sunlight cache doesn't stop for a second, it will still take two years to see the blood bodhi seed grow roots!

Without a doubt, this was a long process, and there was no use in being anxious.

I really hope that I can find the three divine items that master mentioned as soon as possible. Only after upgrading the sunlight cache can the divine blood Bodhi tree truly grow!

"And my Green Lotus seed of chaos!" Chen Xiaobei said, full of anticipation. If you want it to grow and bloom, you also need to upgrade the sunlight cache!"

"I don't have a clue right now, so I can only take it one step at a time."

Chen Xiaobei decided to leave the verdant Emperor's divine gourd.

.....

"Dong Dong Dong!"

Not long after, someone knocked on the door. Lord scorching heat shouted from outside, "Young master Feng! We're here, you can come out!"

"So fast?" Chen Xiaobei opened the door and walked out of the room. it hasn't even been five hours. That's way too fast!

chief Hengsha knows the location of many cosmic rifts, " explained Lord Chi Ling. he can go through them directly. With the special flying machine of the Hengsha ancient race, our speed will naturally be extremely fast!

Chen Xiaobei praised, " the countless sands ancient race is indeed powerful. Not only do they possess extremely high intelligence and technology, but they also have a deeper understanding of the universe!

"Yup!" yes! Lord scorching heat nodded and said, " fortunately, I was working with chief Hengsha. Otherwise, I wouldn't have been able to get here without two or three months!

Oh? " Chen Xiaobei grinned and asked, " whose credit is this? "

Lord scorching Heat's expression turned gloomy. He pursed his lips and said in a low voice, this is all thanks to you. I really have to thank you. Without you, I would still be locked up in prison. I'm afraid I would be the enemy of the Heng Sha ancient race for the rest of my life!

I see! Chen Xiaobei nodded. although you have a bad temper, at least you're still able to distinguish between good and bad!

what do you mean by that?! Lord scorching heat frowned and glared at Chen Xiaobei. "Could it be that I didn't understand the good and the bad in the past?"

Chen Xiaobei quickly changed the topic and said, "Let's go! Let's set off quickly! This isn't a simple matter, we have to hurry!"

After that, Chen Xiaobei ran out of the room.

"Bastard!" Lord scorching heat cursed angrily and hurriedly followed.

.....

He walked out of the aircraft.

Chen Xiaobei, Lord Chi Ling, and the Hengsha tribe leader were all shocked by the scene before them.

### [Red Envelope Group of the Three Realms](#)

#### **Chapter 2439: Spatial Rift**

This was a large planet with an extremely huge city at its core!

However, this city seemed to have suffered a destructive disaster a long time ago. Now, all the buildings in the city had been turned into ruins, and there was not a single pedestrian to be seen.

Of course, from the ruins of the city, they could still find some extremely useful clues.

these buildings are all built with high-tech alloys, and the level of technology far exceeds the current level of technology of the countless sands ancient race!

Chief Hengsha walked through the ruins and carefully observed everything around him.

"It can't be!"

"This city was probably destroyed tens of millions of years ago. Could it be that the people living here have technology that is tens of millions of years ahead of the countless sands ancient race's?" This is too exaggerated!"

"The world is full of wonders!" The Hengsha tribe leader said,"although our technology level is already very high, we can't afford to waste time." But it's definitely not the highest!"

is this the territory of the ancestor of the Heng Sha ancient race? " Chen Xiaobei asked.

"We can't rule out that possibility!"

I can feel a familiar aura, " said the Hengsha tribe leader. unfortunately, the civilization is broken, so I can't be sure.

I've read some records in ancient books, " Lord Chi Ling said. it's precisely because I'm worried that this is the territory of the Heng Sha ancient race that I've been hoarding dark stone and ink powder in advance!

that's very likely. Let's go into the city and look for other clues. Chen Xiaobei said.

Then, the three of them started to walk toward the center of the city.

Along the way, the three of them found the wreckage of a disc-shaped aircraft and mecha Warriors with more advanced technology.

"I can't be wrong! This is definitely the territory of our countless sands ancient race ancestors!"

The Hengsha tribe leader said excitedly, "aircraft!" Mecha warrior! And the ruins in front of him! This is the temple of countless sands, the place where we worship the totem of our faith! The ruins on the other side were the sacrificial altars, the place to worship the gods! These two major buildings are also in our current territory! The details of the totem and the altar were extremely similar! I'm definitely not wrong!"

it seems that although the civilization of the countless sands ancient race is broken, their faith still exists! of course! Chen Xiaobei said, " temples and altars are used for worship. They are the most solemn and sacred things. There's no mistake about it!

"Well said!"

The Hengsha tribe leader said excitedly, " as long as we look carefully, we will definitely be able to find the history of our tribe before our civilization collapsed. We will also be able to find the final secret of the eternal Gold sand!

"But, where should we start?" Lord scorching heat asked doubtfully.

"The Treasury!"

Chen Xiaobei quickly found the main point. as long as we find this city's treasure vault, we will be able to find the most important thing at that time, and all the secrets will be solved!

"Right! Young master Chen is absolutely right!"

Hengsha tribe leader exclaimed and said excitedly, " according to the layout of the Hengsha ancient race, the entrance to the treasure vault will be set up in the center of the line connecting the temple, the altar, and the elder Council!

.....

Soon, the Hengsha tribe leader found the ruins of the elder Council and determined the entrance to the treasure house through a special connection.

it seems that we've thought too simply ...

Elder Hengsha was a little disappointed. the entrance to the treasure vault has been severely damaged. I'm afraid that someone has already entered. The resources inside must be gone!

yeah ... Lord scorching heat nodded and said, " "The entire city was destroyed. This is definitely not a natural disaster, but the enemy! The enemy would naturally not let go of the treasure vault if they destroyed the entire city!"

"What you all said makes sense, but since we're already here, there's no reason not to go in and take a look!" Chen Xiaobei fired a burst of ethereal force.

"Boom boom boom ..."

After his cultivation, Chen Xiaobei's cultivation had reached the pinnacle of primordial spirit realm. With a wave of his hand, he could unleash 17 million combat power.

With a loud bang, the ruins at the entrance of the treasure vault were blown into pieces.

A huge cave appeared on the ground, with a flight of stairs leading deep underground.

"Whoosh ..."

However, in the next moment, a terrifying energy fluctuation burst out from the huge hole.

Like a volcano erupting, it shot three hundred meters into the sky.

"Be careful!"

Fortunately, Chen Xiaobei, Lord Chi Ling, and Hengsha tribe leader were not weak. They were not affected by the energy.

"Pheew ..."

After about three minutes, the powerful energy finally dissipated.

"What ... What is going on?"

Lord scorching Heat's eyes widened in puzzlement.

the treasure vault must have been invaded by the enemy back then. Furthermore, it must have undergone some extremely special changes! Chen Xiaobei said.

yeah ... Hengsha tribe leader nodded and sighed. "No matter how advanced the technology is, it can still block the cultivation of a divine realm expert! This city must have been destroyed by the hands of a super powerful being. The situation in the Treasury is definitely beyond imagination!"

In this world, the strong were respected, and strength was the iron law that reigned above everything! Power was an eternal truth!

Although the technology of the countless sands ancient race was strong, it couldn't compare to absolute power!

It was precisely because of this that everyone in the world focused on cultivation, and the development of science and Technology was naturally slow and backward.

In the earth immortal world, the power of science and Technology would become increasingly insignificant. In the heaven immortal world, Science and Technology were even more useless.

alright! Chen Xiaobei nodded and said, " you two follow me. I'll go down first!

"You should be the one following behind us!" "You're the weakest here, yet you still dare to show off? aren't you afraid of losing your life?" Lord scorching heat frowned.

"Yup! Childe Chen, you should just follow behind us!" Hengsha tribe leader also nodded and said.

Obviously, Lord scorching heat and the Hengsha tribe leader had used their primordial spirit domains to probe Chen Xiaobei's cultivation. They saw Chen Xiaobei as a weakling and wanted to protect him.

alright ... Chen Xiaobei nodded and did not argue.

Lord scorching heat and the Hengsha tribe leader were both four-star earth-god level cultivators. They had their own trump cards. If they could take care of everything, Chen Xiaobei would feel much more at ease.

After that, Hengsha tribe leader and blazing heat Lord walked in front, and Chen Xiaobei followed behind. The three of them began to walk underground carefully.

After a while, the door of the treasure vault finally appeared in front of the three.

As expected, all the resources in the treasure vault had been cleared out, but in the deepest part of the treasure vault, there was a spatial Rift!

"Could this crack have been torn open by the enemy back then?" Lord scorching heat was dumbfounded.

"If the enemy can really tear open a spatial Rift, the three of us are definitely not his match!" Chen Xiaobei was even more shocked.

Chen Xiaobei had already tried the seventh transformation of the witch Dragon nine transformation, dimension-ripping, and he knew how terrifying the power of dimension-ripping was.

"No matter how strong the enemy is, I must go and find out! Faith! History! Civilization! All of them are more important than my life!" Hengsha tribe leader's expression didn't change as he rushed into the crack.

"Chief! don't be rash ... Chen Xiaobei was shocked. He wanted to persuade her, but it was too late.

What gave Chen Xiaobei a bigger headache was that before he could finish his sentence, Lord scorching heat had already charged into the spatial Rift.

the secret of the eternal Gold sand is of utmost importance to my master. Even if I have to gamble my life, I will investigate it to the end! With a firm attitude, Lord scorching heat rushed in with a single step.

"This ..."

Chen Xiaobei was stunned and said helplessly, " the old man and the woman have both rushed forward ... I have no reason to be afraid ..."

After that, Chen Xiaobei also rushed into the crack.

#### **Chapter 2440: Golden Space**

"Whoosh ..."

Time and space suddenly turned, turbulent currents surged, the sky and earth spun around, as if the universe was reversed.

Chen Xiaobei was like a leaf in the wind, unable to control himself.

Chen Xiaobei felt that the crack was very long, but it also felt like time was passing very slowly.

After floating for a long time, Chen Xiaobei finally emerged from the other side of the rift.

what ... What is this place?!

The moment Chen Xiaobei stepped out, he was dumbfounded.

Lord scorching heat and the Hengsha tribe leader were also stunned, unable to say a word for a long time.

This was a huge golden space. It looked like the countless sands heavenly tower, but it was even bigger. There was only the first level, and it didn't lead straight up, nor did it have the eternal Gold sand.

"The enemy didn't destroy the city? Had the treasure vault been emptied? Why would the spatial Rift be connected to this place?"

Chi lingjun asked with a face full of doubt, "if I'm not mistaken, this should be the territory of the Heng Sha ancient race ... Could there be a traitor among the Heng Sha ancient race?" Did the traitor clear the Treasury?"

"I'm not sure ..."

The Hengsha tribe leader was also confused. "The feeling this space gives me is very similar to the countless sands heavenly tower! Just like you said, this should be the territory of the Heng Sha ancient race, but why would the space crack be connected to the Treasury?"

"There's no need to study it. There are no clues at all. Let's move forward!" Chen Xiaobei said.

Lord scorching heat and the Hengsha tribe leader nodded, took out their weapons at the same time, and walked forward with full vigilance.

Chen Xiaobei used his golden gaze fiery eyes to observe his surroundings.

However, this was a special space. The Golden walls, roof, and ground were all dimensional walls, and it was impossible to see through them.

whoosh ... Whoosh ... Whoosh ...

However, the three of them had only taken a few steps forward when they seemed to have triggered a mechanism. On the Golden ground, dark ripples that looked like water waves immediately appeared.

Who dared to think about it! From the ripples, 33 mecha Warriors emerged!

The appearance of these mecha Warriors was similar to the ones Chen Xiaobei had encountered before. They walked upright and had strong arms.

However, their appearance was very different from the ones they had encountered before.

The mecha Warriors that Chen Xiaobei had encountered before were all made of high-tech alloys. Their armor was silver-gray and looked very heavy and steady.

However, the mecha Warriors in front of him were all made of earth-god grade materials. Not only were their defenses higher, but their armor was also gold in color and engraved with gorgeous patterns, looking as exquisite as art.

"This is the ceremonial mech used for the sacrificial ceremony!"

The Hengsha tribe leader said excitedly, "the Golden armor is made of a three-star earth-god item, the mysterious gold of light! The pattern on it is the totem mark of our countless sands ancient race! There was no mistake! This is the ceremonial mech, a special mech that exists for large-scale sacrificial ceremonies!"

that's strange ... Chen Xiaobei frowned. "Since it's a mecha used for sacrifice, why would it appear here? Shouldn't it be placed on the sacrificial altar?"

"No!"

the ritual mecha is very sacred, "the Hengsha tribe leader said. it's usually kept in the treasure vault. It will only be taken to the priest altar during the sacrificial ceremony!

"Treasury?"

Chen Xiaobei was surprised. "The spatial Rift just now was connected to the treasure vault! Don't tell me these mechas ran over on their own?"

I'm not sure ... Hengsha tribe leader shook his head, his face full of doubt.

"Whoosh! Whoosh! Whoosh ..."

Before he could finish his sentence, the 33 golden mechas had already activated their thrusters and were charging towards Chen Xiaobei and the other two.

"It's moving! Those ceremonial mechas will act on their own!"

Lord Chi Ling's eyes narrowed, and he said, "chief Hengsha!" They're attacking! If you can't make them stop, I'll have to destroy them!"

"Make your move!"

mecha Warriors only obey orders from the command center, "the Hengsha tribe leader said. the command center of this city has long been in ruins. I can't control them!

"Then I won't be polite!"

With a tap of his foot, Lord scorching heat rushed out directly.

Lord scorching heat was a four-star earth-god, and his cultivation base alone was enough to crush these ceremonial mechas. He didn't even need to use weapons.

However, to Chen Xiaobei and the Hengsha tribe leader's surprise, Lord scorching heat did not even bother to use his ethereal force!

He saw Lord scorching heat shuttling between the thirty-three ceremonial mechas like a koi fish.

It seemed that Lord scorching heat had just passed through it, but in fact, she had scattered a lot of black dust from her hand.

"What's that?" Chen Xiaobei was very confused.

Hengsha tribe leader's eyes lit up. "That's dark stone ink powder! Jun Yunqing is indeed smart!"

“噫.....噫.....噫.....”

The moment the Golden mechas came into contact with the black ink, their circuits were instantly fried, and their components were short-circuited.

Sparks and lightning flickered chaotically. Then, the thirty-three ceremonial mechas all emitted black smoke and froze on the spot!

"I understand!"

Chen Xiaobei was not stupid. He immediately understood what was going on. "The dark stone ink powder is very fine. It can drill into the gaps of the Mech warrior's parts and wire ports! At the same time, the dark stone ink powder has an excellent conductive effect, and it instantly short-circuited the Mech Warrior!"

"Well said!" The Hengsha tribe leader nodded and said, "this kind of dark stone ink powder can be said to be the nemesis of all circuits. Just a little bit of it and it'll short-circuit and be scrapped!"

"How is it? I'm smart, right?" Lord scorching heat turned his head around, and the corner of his mouth curled into a very good-looking smile.

"Smart! I'll like your post!" Chen Xiaobei grinned and thought to himself, 'if this woman doesn't lose her temper and smiles a little more, she can score at least 90 points!'

"Be careful!" The smile on Chen Xiaobei's face froze, and he immediately gave a warning.

"What's wrong?" Lord scorching heat was stunned for a moment. In the next moment, his expression also changed drastically.

"Whoosh! Whoosh! Whoosh ..."

No one had expected that the thirty-three golden mechas, which had already short-circuited, would once again move at high speed and attack Chi lingjun with all their might!

What was even more unexpected was that the thrusters of these golden mechas had been completely scrapped, but their speed and power had been greatly improved. They were almost equivalent to 33 four-star earth-god Warriors!

"This is bad!"

Just a second ago, Lord scorching heat was still smiling smugly. But now, he was suddenly besieged by thirty-three powerful enemies of the same level. He was instantly plunged into extreme danger!

"We're finished!"

The Hengsha tribe leader was stunned and said in despair, " although I have a peak six-star earth-god instrument in my hand, once I make a move, the power will accidentally hurt Lord scorching heat. I can't save her at all!

"Cover me! I'm going to save them!"

Without any hesitation, Chen Xiaobei dashed out.
