

Having children earns benefit, start competing for dominance in the world by marrying a wife

Chapter 1611: Chapter 1301: Junior Brother, There Was Something Strange About That Man's Immortal Aura

Seeing Yang Yan's palm strike, Lu Chen chuckled. Putting aside that Yang Yan is now merely in the Mortal Immortal Realm, weaker than himself, the power he uses contains an evil trait, which happens to be suppressed by the Divine Light Thousand Lamp Scripture.

Yang Yan charging directly at him is simply courting death.

Without any hesitation, Lu Chen immediately utilized the Divine Light Thousand Lamp Scripture. In an instant, countless lamps appeared in the sky above the Desert Sea, and from these lamps emitted a red Immortal Aura.

As the red Immortal Aura came into contact with the Yin Souls released by Yang Yan, those Yin Souls instantly turned into points of light and vanished in the air.

In just a moment, Yang Yan's palm strike was neutralized. Yang Yan, who was just lost in hatred, regained his sanity at that moment.

Seeing that Lu Chen had easily defused his attack, a trace of fear emerged in Yang Yan's heart.

Originally, he thought the cultivation technique he practiced could suppress Lu Chen, and that even if Lu Chen's cultivation was higher, he would still have a fighting chance.

However, Lu Chen could effortlessly fend off his attacks, and at this moment, he could feel a tremendous force of suppression.

The light from those oil lamps in the sky made him feel as if the Immortal Aura within his body was shackled.

Yang Yan, in disbelief, said, "How could this be?"

At this moment, Lu Chen said, "Great General Yang, there seems to be something evil about the power within your body. Could it be that you've joined the Blood Eagle Hall?"

Hearing Lu Chen's words, Yang Yan immediately thought of his experiences over the years. For a moment, his eyes turned blood red, and the evil qi around him intensified.

Feeling the evil qi emitted from Yang Yan, Lu Chen was startled. For some reason, he found the evil qi from Yang Yan somewhat reminiscent of the power of a Chaos Beast.

Lu Chen continued to harness the Divine Light Thousand Lamp Scripture, and for a moment, the light from the oil lamps over the Desert Sea burst forth, enveloping the entire area they were in with red Immortal Aura.

At this time, Yang Yan took out a pill and directly popped it into his mouth. The next moment, his body began to contort, and countless tentacles sprouted from his physical body.

Upon seeing this scene, Lu Chen was momentarily stunned.

Before Lu Chen could gather his thoughts, he saw Yang Yan swinging massive tentacles towards him. These tentacles emitted a thick evil qi, which vaguely made Lu Chen feel somewhat threatened.

However, just as these tentacles were about to touch Lu Chen, the light from those oil lamps of the Divine Light Thousand Lamp Scripture converged to form a Red Silk, which instantly surrounded Yang Yan and those tentacles.

The next moment, Lu Chen heard Yang Yan's wailing voice coming from within the Red Silk, while white smoke emanated from the cracks of the Red Silk.

Realizing something was amiss, Lu Chen hastily held back. If he killed Yang Yan now, he wouldn't be able to understand what had just happened.

Moreover, Yang Yan indeed carried the aura of a Chaos Beast on him. He trusted his instincts on this.

Fortunately, Lu Chen withdrew just in time. Although Yang Yan's physical body had been destroyed, his Divine Soul was barely intact.

Lu Chen took a step forward to face Yang Yan.

Witnessing Lu Chen's prowess just now, Yang Yan, now in a Divine Soul state, hurriedly begged for mercy, saying, "My lord, spare my life. I betrayed you only out of desperation back then!"

Lu Chen ignored whatever Yang Yan said and directly used Soul Search on him.

The next moment, an immense stream of memories surged into Lu Chen's mind.

The memories of Yang Yan over the past ten billion years flashed through Lu Chen's mind. However, just as Lu Chen was about to access a particular memory, Yang Yan suddenly let out a painful wail.

“Ahhhhh!”

Lu Chen immediately realized he had triggered a Divine Soul Restriction, and he quickly used Space Teleportation to leave the area.

The next moment, Yang Yan's Divine Soul exploded violently.

Luckily, Lu Chen was quick enough to avoid being affected.

Looking at the puff of white smoke rising from the explosion in the distance, Lu Chen recalled the memories he had just accessed.

After Yang Yan betrayed him, he thought he could gain favor with King Guangren, Lu Jingfu, for this merit. However, to his surprise, Lu Jingfu did not give him any important position and quickly marginalized him.

Later, Yang Yan wanted to ask Lu Jingfu for some cultivation resources promised at the beginning, to break through to the Immortal King Realm, but Lu Jingfu only gave him some Immortal Crystals.

Yang Yan, dissatisfied, had a falling out with Lu Jingfu, who did not accommodate him and used Yang Yan's betrayal of the Tianxia Immortal Dynasty as an excuse to send people to hunt him down.

Although Yang Yan escaped multiple assassination attempts, his realm and power declined significantly, and with the drop in realm, his lifespan also sharply decreased.

Over the next ten billion years, to survive, he joined various forces, seeking various ways to extend his lifespan.

Billions of years ago, Yang Yan was already an Immortal Monarch, and his life was nearing its end. He sought cultivation resources from Lu Jingfu, hoping to break through to the Immortal King Realm to extend his life. But after being severely injured by people sent by Lu Jingfu, he had even less time left.

Yet, Yang Yan managed to survive till now by various means of extending his life.

A few hundred years ago, Yang Yan was swept into a secret realm by spatial turbulence, where he discovered a huge coffin, and Yang Yan's memory ended abruptly here. Then, Yang Yan's Divine Soul exploded.

Clearly, the owner of that coffin was not simple, placing a restriction in the depths of Yang Yan's Divine Soul. If anyone attempted Soul Search regarding him, it would trigger the restriction.

Lu Chen thought that Lu Jingfu was indeed stingy, refusing even a bit of cultivation resources to Yang Yan, who had the battle power of an Immortal Monarch.

Lu Chen could understand why Lu Jingfu did so; after all, Yang Yan was a relatively ordinary Immortal Monarch with not-so-great talent, making the possibility of breaking through to an Immortal King quite slim.

Continuing to invest resources would be wasteful if he failed. To help an Immortal Monarch with mediocre talent break through to an Immortal King would require a massive amount of resources.

Plus, Yang Yan was just a traitor. He could betray Chen King and could possibly betray Lu Jingfu. If Lu Jingfu had subordinates with better talent, he would naturally allocate resources for them to aim for the Immortal King Realm instead of giving them to Yang Yan.

However, Yang Yan blamed it all on Chen King.

Lu Chen found it ironic. Yang Yan's betrayal, followed by his own hardships, were pinned as his fault.

Perhaps Yang Yan's mind had been eroded by the evil qi within him.

As Lu Chen was lost in thought, Cao Shiyun and Xiao Xueying approached him. They originally wanted to join the battle earlier, but it ended too quickly, and the evil qi exuded by Yang Yan sent shivers down their spines.

Xiao Xueying said, "Junior Brother, the Immortal Aura within that man was peculiar."

Having children earns benefit, start competing for dominance in the world by marrying a wife

Hearing Xiao Xueying's words, Lu Chen came to his senses, "Hmm, there is indeed something strange."

Cao Shiyun said, "Junior Brother, did you perform a soul search on that person just now?"

After feeling the fear brought by that power, Cao Shiyun speculated whether Yang Yan could be a spy planted by the Blood Eagle Hall.

Lu Chen replied, "No, I was just about to use the Soul Searching Technique on him, but his Divine Soul directly self-destructed."

Cao Shiyun said somewhat regretfully, "It seems like his Divine Soul was restricted by someone."

"He was likely another undercover from the Blood Eagle Hall."

Xiao Xueying said, "This person shouldn't be a spy planted by the Blood Eagle Hall, right? With the Spirit Vein of Shangsha City exhausted and Spiritual Energy scarce, it's of no value. If the Blood Eagle Hall were to plant spies, they wouldn't put them in this place."

Lu Chen said, "He is not necessarily a spy for the Blood Eagle Hall."

Although Yang Yan also emitted Evil Qi, his memory stopped being readable after seeing the giant coffin, indicating that the Evil Qi on him likely came from that coffin.

Of course, it's also possible that Yang Yan has already joined the Blood Eagle Hall, after all, both Yang Yan and those Immortals from the Blood Eagle Hall are Evil Immortals.

But Xiao Xueying was right, if Yang Yan really were an undercover agent, why would he come to a place like Shangsha City to be a spy?

Lu Chen said, "The person is already dead, let's go back to the City Lord's Mansion. Maybe we can find something related to his identity there."

After saying this, Lu Chen took the two women straight to the City Lord's Mansion of Shangsha City.

The cultivators of Shangsha City had all sensed the battle just now. The terrifying power made them very fearful, yet at the same time, they hoped that Yang Yan could be defeated by the outsider Immortals.

After returning to Shangsha City, Lu Chen transmitted his voice to everyone in the city.

"The Evil Immortal Yang Yan is dead, the Family Heads of all aristocratic families in Shangsha City, come to the City Lord's Mansion immediately."

Upon hearing Lu Chen's words, the cultivators felt both happy and worried. They were happy that the Evil Immortal Yang Yan was finally dead, but worried that the arriving Immortals might be of the same ilk as Yang Yan.

Despite their concerns, the Aristocratic Family Heads of Shangsha City immediately went to the City Lord's Mansion. The new Immortal, capable of killing Yang Yan in such a short time, must be much stronger than Yang Yan. Whatever he planned to do, these cultivation families could not resist.

Lu Chen used Divine Thought to carefully search the entire City Lord's Mansion and soon discovered a secret chamber.

Upon entering the secret chamber, one could see the bones of cultivators everywhere, along with some wailing spirits.

Lu Chen searched the chamber, and apart from bones and spirits, he found nothing else.

These things alone couldn't prove any connection between Yang Yan and the Blood Eagle Hall.

Lu Chen thought that Yang Yan came to a place like Shangsha City, with its exhausted Spirit Vein, probably to avoid attracting attention.

After all, he was an Evil Immortal. If righteous Immortals discovered him using the essence blood of cultivators to sustain his life, they would certainly take action against him.

Such a place as Shangsha City, almost devoid of Immortals, and where ordinary cultivators found it difficult to escape from, was very suitable for him to hide.

The Desert Sea outside Shangsha City was even larger than the surface area of Jupiter; stretching as far as the eye could see was just yellow sand. Cultivators entering it were likely to lose their way, and there were other dangers within the Desert Sea. Many cultivators had attempted to escape, only to die in the Desert Sea.

After searching the City Lord's Mansion of Shangsha City, Lu Chen arrived at the City Lord's Hall, where the Family Heads of the major aristocratic families were already waiting.

Amidst the anxieties of the crowd, Lu Chen entered the hall and glanced around at everyone. Most of these Family Heads present were Tribulation Crossing Cultivators, just a step away from becoming Mortal Immortals.

Sweeping a glance at everyone present, Lu Chen said, "The Evil Immortal has been eliminated. I will stay in Shangsha City for a while, during which I will select someone to be the new City Lord of Shangsha City."

Upon hearing this, the Family Head of the Zhang Family asked, "Master, after becoming the City Lord, can we leave Shangsha City and go to other cities?"

In response to this question, Lu Chen asked back, "What you want to know is whether you can leave Shangsha City, right?"

When Yang Yan was the City Lord, he feared the cultivators of Shangsha City would leak his information, so he neither allowed outsiders to enter Shangsha City nor Shangsha City's cultivators to leave.

That's why the family head of the Zhang Family wanted to know if the City Lord had the privilege of leaving Shangsha City.

"From now on, even if you are not the City Lord, no one will stop you from leaving Shangsha City if you wish."

The Spirit Vein of Shangsha City was already exhausted, if these Tribulation Crossing Cultivators wanted to break through to become Mortal Immortals, they would have to leave Shangsha City for a place rich with Spiritual Energy.

Lu Chen continued, "Moreover, I will help the new City Lord directly become an Immortal."

Hearing Lu Chen's words, the eyes of everyone present lit up with excitement.

Some of them had poor talents and had been stuck at the Tribulation Crossing Stage for countless years, with some nearing the end of their lifespan. Even if they could leave Shangsha City, there was no guarantee they could breakthrough, or even if they could make it out of the Desert Sea surrounding Shangsha City.

Becoming the City Lord would eliminate the need to take risks and leave Shangsha City, which naturally stirred their excitement.

One after another, the Family Heads of various aristocratic families stepped forward.

"Master, I am willing to become the City Lord of Shangsha City!"

"Master, I too am willing to be the City Lord of Shangsha City."

"Master, our Sha Family has the longest history in Shangsha City, and our ancestors have served as City Lords here before."

...

Lu Chen said, "Since everyone wants to become the City Lord, why not follow the rules of the Cultivation World, where strength prevails."

"In a few days, I will set up an arena in the Desert Sea outside the city. Any cultivator above the Mahayana realm can participate, and whoever wins will be the new City Lord."

"That's all for today. You may return and prepare."

As soon as he finished speaking, Lu Chen's body disappeared from the spot.

After all the Family Heads of Shangsha City had departed,

Lu Chen, together with Xiao Xueying and Cao Shiyun, came to a courtyard in the City Lord's Mansion.

At this time, Cao Shiyun asked, "Junior Brother Chen, how long do you plan to stay in Shangsha City?"

If it were at the beginning, Cao Shiyun would have thought that Lu Chen could stay as long as he liked. But after arriving at Shangsha City and seeing the depleted Spirit Vein, she felt continuing to stay wouldn't benefit Lu Chen's cultivation.

Lu Chen said, "A few years."

Hearing Lu Chen's response, Cao Shiyun finally breathed a sigh of relief, feeling that a few years wasn't too long.

For them Immortals, a few years pass in the blink of an eye.

Lu Chen then said, "Senior Sister Cao, Senior Sister Xiao, I will go and cultivate first."

The two women spoke in unison, "Alright."

After Lu Chen went to the room he chose, Cao Shiyun said to Xiao Xueying, "Junior Sister Xiao, I plan to go into seclusion for a few years. During that time, please look after Junior Brother Chen. If anything happens, wake me immediately."

Hearing Cao Shiyun's words, she was slightly taken aback.

Having children earns benefit, start competing for dominance in the world by marrying a wife

Cao Shiyun wants to meditate?

This is a great thing.

Once she goes into meditation, won't Lu Chen and I be able to...

Thinking of the things she and Lu Chen did in Sky Wolf City, a blush appeared on Xiao Xueying's jade-like cheeks.

Seeing Xiao Xueying in a daze, Cao Shiyun asked in confusion, "Junior Sister Xiao, what's wrong with you?"

Xiao Xueying snapped back to reality and quickly said, "Senior Sister, rest assured and meditate, I will take care of Junior Brother Chen."

Then Cao Shiyun instructed Xiao Xueying on some matters, and she found a secret chamber in the City Lord's Mansion to start her meditation.

Evening.

As soon as Cao Shiyun entered the secret chamber to meditate, Lu Chen's figure appeared in Xiao Xueying's room.

Feeling Lu Chen's presence, Xiao Xueying, who was sitting cross-legged on the bed cultivating, opened her eyes, and seeing Lu Chen, a blush appeared on her cheeks.

Lu Chen smiled and said, "Senior Sister Cao seems to be in meditation?"

Xiao Xueying softly "hmm"ed, as Lu Chen appeared in her room, how could she not know what Lu Chen intended to do next.

Without any hesitation, Lu Chen came to Xiao Xueying's bedside and sat down, then pressed Xiao Xueying under him.

...

White Feather City.

Under the dedicated management of Lu Zhengze and Liao Xiaoshuang, White Feather City has grown and flourished once again.

The city's development has caught the attention of some nearby cities. This area, close to the Chaotic Sea, doesn't have any Immortal King level powers, so it's relatively chaotic.

For the cities near the Chaotic Sea, population is of utmost importance. Previously, White Feather City was always losing population, making other cities feel that White Feather City posed no threat.

But lately, the expansion of White Feather City has accelerated, and its population has grown. Many mortals who originally intended to go to other cities ended up going to White Feather City instead.

Outside White Feather City, a man dressed in a purple robe stood on the mountaintop, staring intently at White Feather City.

At this moment, a servant who had been gathering intelligence came up to the man, "City Lord, the situation has been clarified, Lu Zhengze has not made a breakthrough; he is still just a Heavenly Immortal."

Hearing this, Jia Wenrui, the City Lord of Purple Moon City, snorted coldly, "An old man nearly in his grave, competing with me for people!"

Purple Moon City is not far from White Feather City. Previously, White Feather City's population flowed into Purple Moon City, but recently, inexplicably, White Feather City began welcoming refugees and introduced various policies to benefit the people, even providing mortals with Cultivation Techniques.

This caused refugees and cultivators who originally intended to join Purple Moon City to choose White Feather City instead.

Jia Wenrui couldn't understand what Lu Zhengze intended to do. By all accounts, Lu Zhengze was nearing death, and with no heirs between him and Liao Xiaoshuang, where was the motivation to manage White Feather City coming from?

He knew what White Feather City was like before.

Jia Wenrui suddenly thought, could it be that Lu Zhengze has made a breakthrough, extended his lifespan, broken past his limits, and that's why he has the drive to manage White Feather City and has launched a series of policies?

To clarify what was going on, Jia Wenrui had people disguise themselves as merchants to infiltrate White Feather City and gather intelligence. The result was the intelligence said Lu Zhengze hadn't made a breakthrough.

This old thing, Lu Zhengze, causing a fuss without a breakthrough!

Wait...

Jia Wenrui suddenly thought of something and turned to ask, "Is Liao Xiaoshuang pregnant?"

If they had an heir, it might also explain why Lu Zhengze has begun to run White Feather City again, since they would want to leave some resources for their child.

The spy replied, "Reporting to the lord, we haven't found any signs of Liao Xiaoshuang being pregnant."

Upon hearing the spy's answer, Jia Wenrui fell into contemplation. It's neither due to a breakthrough nor because of a child, so why is Lu Zhengze stirring up trouble?

Jia Wenrui then said, "Bring me a soldier from the City Lord's Mansion."

"Yes, City Lord."

In the next moment, the spy vanished on the spot, and Jia Wenrui's eyes remained fixed on White Feather City.

Jia Wenrui muttered to himself, "A dying person should stay in the cultivation chamber. Maybe they could live a few more years."

...

Not long after, the spy had captured a soldier from the White Feather City Lord's Mansion and brought him to Jia Wenrui, "City Lord, the person has been brought."

Sensing the aura emanating from Jia Wenrui, the White Feather City soldier immediately knelt on the ground and begged for mercy, "Please spare me, senior!"

Jia Wenrui glanced at the mortal soldier before him and, without any hesitation, used the Soul Searching Technique on the soldier.

Rather than questioning this soldier, it was faster to directly search his soul.

In the next moment, Jia Wenrui saw many things in the soldier's memories.

He saw an Immortal King and a person descending from the sky.

Wait...

That person is...

When Jia Wenrui saw the person who landed at the City Lord's Mansion, his expression suddenly changed.

He seemed to understand why Lu Zhengze has been vigorously developing White Feather City recently.

Jia Wenrui mumbled to himself, "It's him... he's back!"

"How is it possible? Didn't he die? How can he still be alive?"

Jia Wenrui hadn't personally seen the person, but his grandfather and grandmother were once subordinates of the Chen King, and he had seen the appearance of the Chen King through some Projection Crystal Stones.

After waiting in White Feather City for hundreds of millions of years for the Chen King, only to see that he never emerged from the Chaotic Sea, Jia Wenrui's grandparents assumed the Chen King had perished and chose to leave White Feather City.

Leaving White Feather City was considered betrayal to the Chen King, as he had once ordered them to wait for his return in White Feather City. Jia Wenrui's panic stemmed from fears that the Chen King would settle scores with those who left.

After his initial panic, a faint smile appeared on Jia Wenrui's face.

"If it's true that he's back, many will surely be interested in this news!"

He was merely a descendant of the Chen King's old subordinates, and he had no loyalty to the Chen King.

Jia Wenrui thought to himself that if he were to sell the news of the Chen King's revival to a few people, he could obtain many resources, bringing him closer to a breakthrough.

He then said to the spy, "Keep an eye on them."

With those words, Jia Wenrui turned and left, contemplating whom he should sell the news to and how to connect with those interested in it.

In the blink of an eye.

Another two years have passed.

During these two years, under the leadership of Ye Chuyao, the Mysterious Moon Palace signed an alliance treaty with the Chiyan Sect.

The treaty states that if either the Mysterious Moon Palace or Chiyan Sect is attacked by Blood Eagle Hall, they must unconditionally assist the other in resisting Blood Eagle Hall's invasion.

This alliance treaty is merely a defensive agreement. After all, Blood Eagle Hall has three Immortal Kings, and the Immortal King of the Mysterious Moon Palace is still in seclusion. With the strength of Mysterious Moon Palace and Chiyan Sect, attacking Blood Eagle Hall would be suicidal; they would be better off strengthening their defenses, focusing on formations to fend off the Evil Immortals of Blood Eagle Hall.

At this very moment.

Mysterious Moon Palace.

Wearing a suit of blue clothing, Ye Chuyao stood at the cliff's edge, gazing towards the direction of Shangsha City.

In front of her was a blue projection screen, showing a red dot at the location of Shangsha City.

...

Having children earns benefit, start competing for dominance in the world by marrying a wife

When Xiao Xueying and Cao Shiyun left the Mysterious Moon Palace, Ye Chuyao placed a tracking Jade Token on them, allowing her to keep track of their location at any time.

Seeing the red dot stop at Shangsha City, Ye Chuyao felt a bit puzzled. After the Spirit Veins of Shangsha City dried up, no one was willing to go there anymore.

The former Shangsha City was indeed a grand city, and the Mysterious Moon Palace had even set up a Transmission Array there, but now it's just a barren land. What is Chen Lu doing in Shangsha City?

Although Chen Lu went into the world this time solely for Red Dust Heart Refining, a place devoid of Spiritual Energy would be little help to his cultivation. He would need a lot of Spiritual Energy to break through his mental state.

Could it be that there's something important to him in Shangsha City?

Thinking of this, Ye Chuyao took out a Jade Token from her Space Ring and activated it.

Meanwhile, in a secret room in Shangsha City.

Cao Shiyun was practicing cultivation with her eyes closed when she suddenly felt a vibration at her waist, prompting her to leave her cultivation state and pick up the Jade Token in her hand.

The next moment, the Jade Token emitted a blue light, and Ye Chuyao's projection appeared in the secret room.

Seeing it was Ye Chuyao, Cao Shiyun was momentarily stunned, then immediately stood up and said, "Greetings, Senior Sister."

Ye Chuyao directly asked, "I see you've been in Shangsha City for over two years now. What are you doing there?"

Hearing this, Cao Shiyun was about to say something but recalled what Xiao Xueying had told her. However, considering it, there seemed to be nothing about Shangsha City's matters that couldn't be shared.

Thinking of this, Cao Shiyun answered, "Junior Brother Chen discovered an Evil Immortal in Shangsha City. After he vanquished the Evil Immortal, he planned to choose a new City Lord and guard Shangsha City for a while to see if any other Evil Immortals appear there."

Hearing this, Ye Chuyao asked doubtfully, "Evil Immortal?"

How could a desolate place like Shangsha City have an Evil Immortal? This left Ye Chuyao feeling confused.

Even if the Evil Immortals from Blood Eagle Hall wanted to send someone undercover, it wouldn't make sense to choose Shangsha City as the place, at the very least they'd choose those Cultivation Cities.

Ye Chuyao continued to ask, "And what has Junior Brother Chen been doing these past two years?"

Cao Shiyun had been in seclusion for these two years and naturally didn't know what Lu Chen had been doing, but she still replied, "He's been cultivating for the past two years."

Ye Chuyao thought for a while and then said, "Alright, you and Junior Sister Xiao continue to keep an eye on him."

Cao Shiyun said, "Yes, Senior Sister."

The next moment, the blue light of the Jade Token disappeared.

Cao Shiyun then placed the blue Jade Token back into her Space Ring and immediately walked out of the secret room.

Outside the secret room, Cao Shiyun took a deep breath. To her, two years was just the blink of an eye.

However, she was a bit curious about what Lu Chen had been doing these two years; thus, she went to Xiao Xueying's courtyard intending to ask about Lu Chen through her.

However, when Cao Shiyun arrived at Xiao Xueying's courtyard, she didn't find Xiao Xueying. Cao Shiyun used her Divine Sense to check, but still couldn't locate Xiao Xueying.

This...

Cao Shiyun was slightly stunned and thought that something might have happened. She immediately grabbed a servant of Xiao Xueying's courtyard and asked, "Where is my Junior Sister?"

The servant quickly said, "Immortal, Immortal Xiao is in the room right now."

Cao Shiyun looked towards Xiao Xueying's bedroom. In the room?

She wondered why she couldn't locate her position using Divine Sense. Did she perhaps set up a Formation to block Divine Sense detection?

Cao Shiyun couldn't help but think that Junior Sister Xiao was being overly cautious, setting up a Formation to block Divine Sense detection for such short-term cultivation.

During such brief seclusions, their consciousness was not completely immersed in cultivation, and if there were any big movements or dangers, they could sense them. Thus, there was no need to set up a Formation.

Cao Shiyun thought it over and decided to check on what Junior Brother Chen was doing first.

Thinking about this, Cao Shiyun asked the servant in front of her again, "Where is my Junior Brother?"

The servant replied, "Immortal Chen is also in this room."

...

Cao Shiyun was momentarily taken aback.

But she quickly reacted, assuming that Junior Brother Chen and Junior Sister Xiao must be discussing something important, which is why they set up a Formation to block Divine Sense detection.

Still, she thought, if it were something important, shouldn't they have woken her up first and then discussed it all together?

Cao Shiyun asked again, "How long have my Junior Brother and Junior Sister been in the room?"

She thought that if it was something important, she might as well listen to what it was.

The servant answered, "Returning to the Immortal, it's already been a year."

Hearing the servant's answer, Cao Shiyun's lips parted slightly, revealing a look of disbelief on her cool face.

A whole year...

She wasn't foolish; she couldn't believe a man and woman could stay in a room discussing matters for a year.

Cao Shiyun couldn't help but suspect if Xiao Xueying had been taking care of Chen Lu a bit too intimately.

But even so, they should have left the room within a year.

Unless they were engaged in Dual Cultivation or something...

At this moment.

Inside Xiao Xueying's bedroom, Lu Chen was frantically cultivating.

In these two years, after selecting a City Lord for Shangsha City, he and Xiao Xueying would enjoy each other's company almost every night.

Later, he simply set up a Formation. Both of them were Immortals, capable of going without eating or drinking, resulting in them staying there for a year.

For Xiao Xueying, even though Lu Chen was a bit wild, she could tolerate it with patience.

Moreover, she admired Lu Chen, so no matter how crazy he was, she could endure it.

Lu Chen hadn't acquired any High Tier Cultivating Immortal Technique. When he cultivated with Cao Shiyun, he still used the Dragon and Phoenix Yin Yang Skill, and he also taught the Mysterious Female Technique to Xiao Xueying.

The cultivation techniques used by cultivators were not very effective for their dual cultivation, but they didn't mind, as it wasn't their purpose. These techniques were merely seasoning.

What Lu Chen truly wanted was to impregnate Xiao Xueying with his child. Unfortunately, as Immortals, it's extremely difficult for them to conceive offspring.

At this moment, Lu Chen suddenly noticed a faint green Dao Charm emanating from himself, surrounding the two of them, yet there seemed to be some black mist attached to the Dao Charm.

This is...

Lu Chen was momentarily stunned. Why was there black mist on the Dao Charm of Life Dao?

What was that black substance?

Lu Chen immediately tried to use the Power of Dao from Life Dao to clear away the black mist.

However, the black mist remained attached to the Dao Charm of Life Dao and couldn't be cleared away.

Lu Chen seemed to understand something; this black mist was the culprit hindering the people of Tianyan Immortal Domain from reproducing.

The Power of Dao from Life Dao was being eroded; even the Path of Reproduction seemed to be dissipating gradually, making it naturally very difficult for humans and Immortals to produce offspring.

Having children earns benefit, start competing for dominance in the world by marrying a wife

Lu Chen thought to himself. He comprehended the Creation Dao. If he used the Creation Dao to evolve the Path of Reproduction, could he possibly evolve it?

With this thought, Lu Chen had no hesitation. He immediately mobilized the Power of Dao from the Creation Dao and then evolved the Path of Reproduction.

However, to his surprise, as soon as he evolved the Path of Reproduction, it quickly became ethereal, and the immortal power within him started depleting at a terrifying rate.

Lu Chen immediately understood that the Path of Reproduction had been locked by a higher Rule Power.

Lu Chen hurriedly stopped evolving the Path of Reproduction. If he continued to consume energy at this rate, his immortal power might be exhausted.

Just at that moment, red ripples suddenly appeared within his room.

This is...

Lu Chen seemed to have thought of something.

The next moment, a Red Flower Sedan indeed appeared in the room.

Ever since he came out from the world within the Chaos Beast, he hadn't seen the Red Flower Sedan again.

Lu Chen had always been curious about the Red Flower Sedan. In his memory, he didn't seem to have such a Magic Treasure.

With the appearance of the Red Flower Sedan, the originally dim Reproduction Path suddenly soared to the sky, and above Shangsha City, numerous visions of the reproduction of flora and fauna appeared.

The boundless Immortal Aura directly broke through the Barrier set by Lu Chen. Cao Shiyun, who was in the courtyard, saw this and thought something had happened. She rushed in.

"Junior Brother, Junior Sister, are you alright?"

However, when Cao Shiyun entered the room, she found Lu Chen and Xiao Xueying in an intimate state.

Seeing this scene, Cao Shiyun was stunned. Although she had guessed that something might have happened between the two, seeing it with her own eyes was different.

Seeing Cao Shiyun entering the room, Xiao Xueying was also stunned. She just wanted to say something, but the red Immortal Aura released by the Red Flower Sedan entered her body, rendering her unable to control herself.

Cao Shiyun quickly said, "I... I'm sorry, you... you continue..."

As her words fell, Cao Shiyun quickly closed the door.

After Cao Shiyun closed the door, a soft, charming voice from Xiao Xueying immediately came from the room.

At this moment, Cao Shiyun felt her mind was a bit muddled. She didn't expect Junior Sister Xiao to really become Junior Brother Chen's woman.

It makes sense. Junior Brother Chen is the direct disciple of the Hall Master of the Mysterious Moon Palace, the future Hall Master. It's understandable why she would be attracted to him.

Meanwhile, in the room, as the Reproduction Path regained its glory, Lu Chen immediately used the Power of Dao, hoping to conceive offspring with Xiao Xueying.

However, he soon discovered that even with the Power of Dao from the Reproduction Path, it was still challenging for Xiao Xueying to conceive.

Of course, this is normal. It's inherently difficult for Immortals to conceive offspring.

Now that the Reproduction Path has regained its glory, it will be easier to conceive offspring in the future. There's no need to rush.

Soon after Lu Chen and Xiao Xueying finished their cultivation, Xiao Xueying lay on Lu Chen's chest and softly asked, "Junior Brother, our affair was discovered by Senior Sister Cao. What should we do now?"

Xiao Xueying was unsure whether Cao Shiyun would inform Ye Chuyao about their affair. If Ye Chuyao found out, it would be troublesome.

Lu Chen smiled and said, "We are affectionate for each other. Being together is natural. If we're discovered, we're discovered. It's no big deal."

Previously, they had to be secretive, but now that Cao Shiyun knows, they don't need to be sneaky anymore.

Xiao Xueying thought of something and asked, "I seemed to sense a strange Power of Dao earlier."

Lu Chen said, "That was the Power of Dao from the Reproduction Path."

Hearing Lu Chen's words, Xiao Xueying was stunned. The Power of Dao from the Reproduction Path?

Would Lu Chen use the Power of Dao from the Reproduction Path on her, meaning...

Xiao Xueying blushed and whispered, "Junior Brother, are you trying to make me..."

Xiao Xueying hesitated.

Lu Chen smiled and said, "Senior Sister is right in thinking so, though even with the Power of Dao from the Reproduction Path, it's still difficult for Immortals to conceive. But now that the Reproduction Path has regained its glory, it will be easier for both Immortals and Mortals to conceive in the future."

Xiao Xueying was slightly shocked and quickly asked, "Is what Junior Brother said true?"

Lu Chen said, "Yes. The reason why it was becoming increasingly difficult to conceive in the Tianyan Immortal Domain was partly due to the contamination of the Life Dao and also because the Reproduction Path was nearly disappearing."

While Lu Chen hasn't resolved the pollution of the Life Dao, by allowing the Reproduction Path to regain its glory, it will be somewhat easier to conceive in the future.

Xiao Xueying said, "If so, the Tianyan Immortal Domain might fall into chaos again."

The Tianyan Immortal Domain has always been relatively chaotic, mainly because it's extremely vast, with too many super forces.

If it weren't for the declining birth rate over the past hundred million years due to the difficulty of reproduction leading to a rapid decrease in population during wars, and the inability of Immortal forces to replenish their numbers, even the super forces wouldn't have stopped fighting.

If everything returns to normal, Immortals could once again reproduce like before, and war will inevitably break out.

When the Reproduction Path regained its glory, the Immortal Venerates of various major forces sensed it.

Although those Immortal Venerates didn't walk the Path of Reproduction, they had sensed it. There had long been suspicions that difficulties in reproduction in the Tianyan Immortal Domain were due to the disappearance of Dao, with its laws changing.

However, since no one tread the Path of Reproduction, even if those Immortal Venerates noticed its disappearance, they couldn't identify the cause of its fading.

Upon sensing the Reproduction Path regaining its glory, the ancestors of major forces immediately sent people to monitor changes in the mortal world.

The Reproduction Path's regained glory would first manifest in the ease of Mortals conceiving offspring. If Mortals were more readily becoming pregnant, it would indicate Immortals might also find it easier to conceive in the future.

In the City Lord's Mansion of Shangsha City, in a certain courtyard.

Cao Shiyun sat in the pavilion, her mind recalling when Lu Chen saved her in the Secret Realm.

Even Xiao Xueying had found a couple, yet she was still alone.

Though the Mysterious Moon Palace only admitted female disciples, most had, or once had, a couple, especially disciples of the Earth Immortal Realm, given they'd lived for over a billion years. To say they didn't have a man was impossible, especially for Heavenly Immortals of the Heavenly Immortal Realm.

Typically, before ascending from an Earth Immortal, a Heavenly Immortal would descend to the mortal world for cultivation. During this stage, most Earth Immortals, even if they previously never had a couple, would find one during this stage as part of their cultivation journey.

But ever since falling in love with Lu Chen during the Secret Realm, Cao Shiyun's heart had closed off. Especially learning of Lu Chen's venture into the Chaotic Sea, she abandoned any thoughts of finding a couple.

Having children earns benefit, start competing for dominance in the world by marrying a wife

As far as Cao Shiyun knows, within the Mysterious Moon Palace, those above the Heavenly Immortal Realm rarely have sought couples.

This includes her and Xiao Xueying.

And now Xiao Xueying also has a couple, and Xiao Xueying's couple is the Hall Master's direct disciple.

She doesn't feel envious, just a sense of melancholy.

At this moment, Xiao Xueying appeared inside the pavilion.

Seeing Cao Shiyun, Xiao Xueying still felt somewhat guilty, although Lu Chen said it was fine, she was worried that Cao Shiyun might tell Ye Chuyao about her and Lu Chen.

Xiao Xueying smiled and said, "Senior Sister, how did you come out of seclusion so quickly?"

Cao Shiyun instantly saw through Xiao Xueying's guilt, she also guessed why Xiao Xueying came to find her, and then said, "Don't worry, Junior Sister, I won't tell Senior Sister Ye about you and Junior Brother Chen."

Hearing this, Xiao Xueying was slightly taken aback and then said, "Thank you, Senior Sister."

After speaking, Xiao Xueying sat down at the stone table in the pavilion.

At this time, Cao Shiyun continued, "The reason I came out early from seclusion is because Senior Sister Ye contacted me through the Transmission Jade Pendant."

Xiao Xueying asked, "What did Senior Sister Ye say?"

Cao Shiyun answered, "She just asked what Junior Brother Chen has been doing these past two years, I told her he's been cultivating."

At this point, Cao Shiyun asked, "When will Junior Brother Chen leave Shangsha City?"

Cao Shiyun faintly felt she was about to have a breakthrough, but the spiritual energy in Shangsha City was too scarce, making it unsuitable for her breakthrough.

Xiao Xueying asked, "Senior Sister wants to leave Shangsha City?"

Cao Shiyun said, "I feel like I'm about to break through."

Xiao Xueying instantly understood Cao Shiyun's meaning; breaking through from Heavenly Immortal to True Immortal requires abundant spiritual energy, and Shangsha City's spiritual energy cannot support Cao Shiyun's breakthrough to the True Immortal Realm.

Xiao Xueying immediately said, "I'll inform Junior Brother about this later."

"Thank you, Junior Sister."

Suddenly, Cao Shiyun thought of something and asked, "Junior Sister, is this voluntary for you?"

Xiao Xueying's cheeks slightly reddened, "Senior Sister, why do you ask such a question?"

Cao Shiyun said, "After all, Junior Brother Chen is the Hall Master's direct disciple, I was worried you were coerced by him."

Xiao Xueying said, "Don't worry, Senior Sister, it's voluntary for me."

Cao Shiyun said, "As long as it's voluntary."

Xiao Xueying tentatively asked, "Senior Sister Cao, after you break through to the True Immortal Realm, do you plan to find a couple?"

Upon hearing this, Cao Shiyun's mind immediately flashed with Lu Chen's image, followed by a bitter smile as she said, "I'm wholeheartedly devoted to the Dao, I have no intentions of finding a couple in this life."

Over tens of billions of years ago, she imagined finding a couple, but unfortunately, the man she admired didn't like her, he liked the Saintess of their Mysterious Moon Palace.

Feeling that Cao Shiyun's mood was somewhat low, Xiao Xueying suspected that she might have someone she liked, and so did not continue this topic.

Meanwhile.

In the Tianxia Immortal Dynasty, within King Anyuan's territory.

In a splendid palace, a robust man sat on the throne in the grand hall, looking at the person kneeling in the hall, he said, "Speak, you went through so much trouble to see me, what is it about?"

"If it's some insignificant matter, you should know the consequences."

Lately, people within King Anyuan's territory were continuously inquiring about him and wanting to meet him, claiming to have something he'd be interested in.

Their actions quickly caught King Anyuan's attention, especially given the current turbulence in the Tianxia Immortal Dynasty; both he and other kings were in a rather tense state, paying attention to every movement.

Jia Wenrui calmed his inner fear and said, "Great King, I've discovered traces of Chen King."

Upon hearing this, King Anyuan immediately stood up from the throne, his aura fully released, forcing Jia Wenrui to the ground.

"What! Chen King!"

Lu Jing was somewhat in disbelief after hearing this.

Wasn't Chen King entering the Chaotic Sea and dying there tens of billions of years ago?

He hadn't heard of anyone surviving after entering the Chaotic Sea.

Lu Jing steadied his mind and retracted his aura, "Do you know what you're saying?"

"Chen King entered the Chaotic Sea tens of billions of years ago, how could he still be alive?"

"You come to tell me this now, what are your intentions!"

Upon hearing this, Jia Wenrui quickly said, "Great King, I'm indeed one of Chen King's old followers, I'm not lying, I truly found traces of Chen King."

Seeing Jia Wenrui trembling on the ground, Lu Jing pondered, the man indeed didn't seem to be lying.

But how could Chen King come out of the Chaotic Sea?

Could there be someone pretending to be Chen King, trying to use his name to stir trouble?

But thinking about it, Chen King left the Tianxia Immortal Dynasty tens of billions of years ago and no longer held any influence there, even using his name, what could be accomplished?

Why would anyone impersonate Chen King for trouble?

Lu Jing asked, "Tell me, how did you discover that Chen King is still alive?"

Jia Wenrui wasted no words, directly releasing the memory he extracted from the brains of soldiers at the City Lord's Mansion of White Feather City, in the next moment, the image of Lu Chen in White Feather City appeared in the grand hall.

Seeing Lu Chen's image, Lu Jing was shocked, although the man's realm hadn't reached the Immortal King Realm, he indeed looked exactly like Lu Chen.

After a while, Lu Jing said, "It's just someone who looks like Lu Chen, that's not enough to prove he's Lu Chen."

The Tianyan Immortal Domain is so vast with countless people, a person looking exactly like Lu Chen isn't strange, even he himself prepared many lookalikes to prevent assassination.

Jia Wenrui said, "Great King, if this were the only factor, it certainly wouldn't be enough to prove that person is Chen King, but ever since that person arrived in White Feather City, the City Lord started stockpiling resources, significantly developing White Feather City, aggressively expanding his power."

"Previously, the City Lord of White Feather City always lived in a complacent manner, never as proactive as now, this might be due to Chen King's orders."

Lu Jing fell into contemplation.

Even if a Great Emperor entered the Chaotic Sea, they couldn't leave, and Lu Chen was only an Immortal King, how could he survive after entering the Chaotic Sea.

Back then, many forces witnessed Lu Chen entering the Chaotic Sea, even he himself was there, how did Lu Chen come out?

Could it be...

Could it be Lu Chen never entered the Chaotic Sea, and what entered was simply a lookalike or a clone, while the real Lu Chen hid somewhere in the Tianyan Immortal Domain to survive?

Having children earns benefit, start competing for dominance in the world by marrying a wife

Chapter 1617: Chapter 1307: King Anyuan Lu Jing's Plan

Considering this possibility, Lu Jing still found it somewhat far-fetched. Back then, with so many powerful figures from top forces, even Immortal Venerates present, for Lu Chen, an Immortal King, to use the method of “Golden Cicada Shell” would not be easy.

Those top forces had enough means to determine whether the Lu Chen who entered the Chaotic Sea was truly Lu Chen himself. Even if one person couldn't see through it, it was impossible that none of the forces could.

At that time, the one who entered the Chaotic Sea should have been Lu Chen himself.

However...

Lu Jing glanced once again at the memory images extracted by Jia Wenrui in the grand hall. The person in the images indeed resembled Lu Chen greatly.

If it really is Lu Chen, then some interesting developments are about to unfold.

Lu Jing cast a glance at Jia Wenrui, who was kneeling in the hall, with a barely noticeable smile on his lips, “You’ve been clamoring for an audience in my territory just to deliver this news to me?”

Jia Wenrui quickly said, “My lord, Chen King is a traitor of the Tianxia Immortal Dynasty, a scourge to the Tianyan Immortal Domain. If he returns to the Tianxia Immortal Dynasty, he will certainly incite war again.”

“I had to think of a way to attract your attention to pass this news to you. I have no other intentions.”

Lu Jing chuckled lightly; how could he not know Jia Wenrui’s intentions? It was nothing more than trying to use this information to exchange for some cultivation resources.

Then Lu Jing said, “From today on, keep an eye on White Feather City for me. If Lu Chen appears there again or if there’s any movement in White Feather City, report to me immediately.”

“If you handle this matter well, I could have you join my ranks.”

Upon hearing this, Jia Wenrui was overjoyed. He had indeed gambled correctly.

He was formerly under Chen King, considered a traitor to the Tianxia Immortal Dynasty. Therefore, they had never dared to enter the Tianxia Immortal Dynasty for fear of being dealt with.

This time, his entry into the Tianxia Immortal Dynasty was risky, but the outcome was worth it.

If he could work under King Anyuan, the cultivation resources he would access would surely surpass those near the Chaotic Sea in Purple Moon City.

Jia Wenrui said excitedly, “Rest assured, my lord, I will handle this well.”

Lu Jing said, “Alright, if there’s nothing else, you may go back now.”

Jia Wenrui said, “Yes, my lord.”

Although Lu Jing didn't give Jia Wenrui anything, he didn't feel slighted. After all, it was their first meeting. Once he joined King Anyuan's ranks, he would naturally receive more resources in the future.

Now, his task was to monitor White Feather City and await Lu Chen's appearance. He believed Lu Jing, King Anyuan, would certainly act once Lu Chen appeared.

After all, Lu Chen was a traitor to the Tianxia Immortal Dynasty, previously regarded as a disaster by major forces.

However, Jia Wenrui was apparently mistaken.

As Jia Wenrui left the hall and his figure disappeared, Lu Jing's lips curled up into an irrepressible smile.

If Lu Chen returned to the Tianxia Immortal Dynasty, the most anxious wouldn't be him. Although he once participated in besieging Lu Chen, the main culprit for all this was King Guangren, Lu Jingfu.

Among the few kings of the Tianxia Immortal Dynasty, Lu Jingfu was the most powerful. As the current dynasty master was dying, if something happened to Lu Jingfu, the other kings would be much relieved.

Lu Jing believed that once Lu Chen returned, he would definitely seek revenge on Lu Jingfu.

As for whether Lu Chen posed any threat to him, Lu Jing wasn't too concerned. Judging from the memories extracted by Jia Wenrui, Lu Chen was no longer an Immortal King, and a non-Immortal King Lu Chen posed no threat.

Of course, even though he wasn't an Immortal King, if Lu Chen wanted to cause trouble, he could still make things difficult for Lu Jingfu.

At this time, Lu Jing addressed the person at the door, "Summon Commander Wang."

Soon, a man in black armor appeared before Lu Jing, saluting him, "Greetings, my lord!"

"I wonder why you summoned me, my lord?"

Lu Jing said, "Commander Wang, spread the news about King Guangren's collusion with various forces to frame Chen King back then."

Upon hearing this, Wang Tong paused for a moment. This matter had passed billions of years ago, and he couldn't understand why King Anyuan was bringing it up now.

Although at this moment, the kings were looking for each other's faults to cause trouble, in this particular case, all of them had participated in besieging Chen King back then. There seemed to be no way to affect King Guangren now.

Wang Tong asked, "May I ask, my lord, why do this? Hasn't it been billions of years since then?"

King Anyuan said, "Just do it, and you'll soon know the reason."

The news of Lu Chen's return would have major repercussions. If he were the only one who knew, it wouldn't be a problem. But if other forces, especially those super forces that targeted Lu Chen, learned of his return, they might send people to besiege him again.

After all, Lu Chen's talent was terrifying; those super forces feared he might become an Immortal Emperor.

Lu Jing planned to let Lu Chen trouble Lu Jingfu, but he couldn't let those forces kill Lu Chen.

Wang Tong said, “Understood.”

Then, Wang Tong left the hall.

Days later, rumors about King Guangren’s collusion with major forces to frame Chen King spread in the Tianxia Immortal Dynasty.

When some people heard about it, their first reaction was confusion.

Many had even forgotten about Chen King, as it was a matter billions of years ago. Those who survived to the present were at least in the Heavenly Immortal Realm.

Of course, those involved in besieging Chen King, if still alive, remembered it. But when they heard the rumor, they were puzzled.

How could a person dead for billions of years still attract attention? Moreover, the rumor spread inexplicably. Everyone knew it was common knowledge back then that Chen King colluded to frame himself, yet now the rumor resurfaced.

It was clear that someone was intentionally spreading this news, but people couldn’t fathom the purpose for now.

King Guangren's territory.

On a certain mountain peak, in a pavilion.

Lu Jingfu sat inside the pavilion, absorbing the dense spiritual energy in the air. At this time, a servant appeared outside the pavilion.

Without opening his eyes, Lu Jingfu asked directly, "What is it?"

The servant said, "My lord, recently there's a rumor in the Tianxia Immortal Dynasty concerning you."

Upon hearing this, Lu Jingfu opened his eyes, looked at the servant, and said calmly, "It seems my siblings are restless."

"Tell me, what is the rumor?"

At this stage, using rumors to attack was futile. Their father was nearing his end. Even if a rumor spread that a son intended to rebel, no one would care.

Now, strength among the kings and external support were what mattered.

Having children earns benefit, start competing for dominance in the world by marrying a wife

After gaining the support of Blood Eagle Hall, Lu Jingfu no longer felt threatened by any rumors.

The subordinate said at this time, "The rumors say that the King colluded with various major powers back then to kill the Chen King."

Upon hearing this, Lu Jingfu was momentarily taken aback.

It's been over a billion years, how could someone be spreading this news? It didn't seem like a threat to him, right?

Although he indeed was the one who originally framed Lu Chen, saying that Lu Chen wanted to rebel, because even back then Lu Chen was already at the Immortal King Realm, while their father was only at the Immortal King Realm, all

he did was say a few words to his father, and his father believed that the Chen King wanted to rebel.

He was indeed the one who did it, but he couldn't understand why bringing up old matters had no effect on him at all, let alone that the Chen King was already dead. Why would the person fueling this rumor bring it up?

At this crucial moment of the royal succession, he couldn't believe that the other party would spread rumors that had no impact on him. Could it be that they wanted to suggest he colluded with external forces to harm his own family, trying to use this method to alienate him from those Immortal King powerhouses in the royal family?

Don't be ridiculous, those old guys in the royal family aren't unaware of what happened back then, even though he did say some bad things about Lu Chen in front of their father, it was actually their father who wanted to destroy Lu Chen.

With Lu Chen's talents, breaking through to the Immortal King Realm was only a matter of time. Back then, their father showed no signs of a breakthrough. When a son's power surpasses the father's, especially in the royal family, it's uncertain what might happen, so it was their father who truly wanted Lu Chen dead.

After gathering his thoughts, Lu Jingfu said, "Send someone immediately to investigate who exactly is spreading this news and what their purpose is."

"Yes, my King!"

After the subordinate left, Lu Jingfu once again fell into deep thought.

He thought for a long time but still couldn't understand the real purpose of the other party's actions.

After all, Lu Chen had been dead for over a billion years. If this news spread, people would just treat it as a joke.

Meanwhile.

An immortal ship was rapidly moving away from Shangsha City, below was an endless Desert Sea.

Cao Shiyun stood on the deck of the immortal ship, gazing at the distant Desert Sea.

In a room inside the immortal ship, Xiao Xueying was embracing Lu Chen, her face flushed with shyness as she said, "Junior Brother, Senior Sister is still outside."

Xiao Xueying had just entered the room intending to ask Lu Chen where they were headed next, but Lu Chen pulled her into his arms, kissing and touching her, and she naturally understood what Lu Chen was trying to do.

Although she was already used to such things, if Lu Chen wanted it, she would naturally agree, but since Cao Shiyun was outside, if something really happened between the two of them, Cao Shiyun would definitely hear.

Lu Chen smiled and said, "Senior Sister Cao already knows about us, it's fine."

Since they had already been discovered, they might as well be bold.

Xiao Xueying hesitated and said, "You're right, but..."

Doing such a thing was no issue, but she was afraid she couldn't control herself, and if the sounds reached Cao Shiyun's ears, it would be too embarrassing.

At this moment, Lu Chen, holding Xiao Xueying's body, moved to the bed, gently laying her down and then pressed against her lightly.

"Senior Sister, leaving the Desert Sea will take some time, the spiritual energy in the Desert Sea is thin, unsuitable for cultivation, there's nothing else to do."

Swayed by Lu Chen's words, Xiao Xueying eventually agreed, after all, this was the man she loved dearly, she really couldn't refuse him.

Xiao Xueying said, "Alright, then."

Seeing Xiao Xueying agree, Lu Chen leaned down and captured her lips.

Meanwhile, on the deck of the immortal ship, Cao Shiyun stood for a while and then prepared to return to the cabin to cultivate.

Although there's not much spiritual energy in the Desert Sea, she had a lot of spirit stones with her, enough to maintain her cultivation for a while.

Moreover, she wasn't cultivating to break through but to stabilize that feeling of breakthrough, so that once she reached a place rich in spiritual energy, she could directly break through.

However, just as Cao Shiyun reentered the cabin, she heard Xiao Xueying's voice coming from one of the rooms. From the tone, it was clear Xiao Xueying was trying her best to keep her voice down, but their rooms on the immortal ship didn't have a sound insulation array, so no matter how much she tried, it was still clearly audible in the hallway.

"Ah... Junior Brother... I can't..."

"Junior Brother... Senior Sister is still outside..."

"Uh uh..."

...

Cao Shiyun was slightly stunned.

Her heart rippled once again, from the voice of Xiao Xueying, she could tell Xiao Xueying was extremely happy right now.

For a moment, Cao Shiyun's heart was also affected, a hint of longing surged in her, but she quickly suppressed this thought.

Cao Shiyun then used her immortal power to plug her ears, went back to her room, and continued cultivating.

A month later.

Frost City.

Frost City is situated atop a glacier, with an underground spirit vein containing the power of ice and snow, leaving the area around Frost City enveloped in snow all year round.

However, despite this, Frost City remained prosperous. Although it was impossible to grow crops, the thick spiritual energy attracted cultivators who favored the place, and some immortals would also make a stop in Frost City, turning it into a city predominantly inhabited by cultivators.

Outside Frost City were parked over a dozen immortal ships, and when Lu Chen and his group approached Frost City, they immediately sensed the aura of immortals emanating from those ships. However, most of those immortals were merely mortal immortals.

At this moment, two immortals approached Lu Chen's immortal ship, "Greetings to the Upper Sect envoys!"

"May we know the purpose of the Upper Sect envoys' visit here?"

Lu Chen and Xiao Xueying were still in the middle of their business; after hearing the voices from outside the immortal ship, they paused in surprise.

Fortunately, Cao Shiyun had completed her cultivation and came to the deck of the immortal ship.

Cao Shiyun glanced at the immortals before her and said, "We're just here for a temporary stay."

Hearing Cao Shiyun's words, He Shuwen, the City Lord of Frost City, said, "I will arrange accommodations for the envoys."

Places like Frost City frequently had immortal visitors, and envoys from Mysterious Moon Palace occasionally came to inspect, so He Shuwen had long been adept at hosting envoys.

Unlike in Sky Wolf City and Shangsha City, Lu Chen and his companions didn't encounter any issues this time. They smoothly entered Frost City and settled into a spiritually abundant courtyard arranged by City Lord He Shuwen.

This courtyard had a well directly linked to the underground spirit vein, making the spiritual energy in this courtyard denser than in other places, enhancing cultivation efficiency compared to elsewhere.

Cao Shiyun chose a room, set up a formation, and began her closed-door cultivation, preparing for a breakthrough.

Upon arriving in Frost City, Lu Chen and Xiao Xueying didn't continue their activities further because, during the breakthrough of an immortal, potentially dangerous situations could occur, so they both stayed in the courtyard to guard and support Cao Shiyun.

Having children earns benefit, start competing for dominance in the world by marrying a wife

Chapter 1619: Chapter 1309: Shiyun, I'm Back

After Cao Shiyun retreated into seclusion, a large amount of spiritual energy from Frost City surged into their courtyard, forming a vortex of spiritual energy.

As the spiritual energy poured in, the feeling of breakthrough within Cao Shiyun's body became more and more apparent. In the next moment, a path sealed in ice appeared in the sky above Frost City.

This was an elemental path and was also Cao Shiyun's path—the Ice and Snow Path.

Frost City was just the right place for Cao Shiyun to make a breakthrough.

Lu Chen came here because he knew that Cao Shiyun was walking the Ice and Snow Path.

With the appearance of the path's phenomenon, a blizzard started in Frost City, and the temperature plummeted, becoming even colder.

Fortunately, most of the people who came to Frost City were cultivators. Even with the blizzard and the temperature drop, cultivators could use the spiritual power within their bodies to resist the cold, and as for the immortals, this level of cold was nothing to them.

However, at this moment, the snow in the sky grew heavier, and there seemed to be a faint sign of turmoil in the ice and snow power contained in the air.

At this moment, a stronger and more terrifying force of ice and snow suddenly erupted from Cao Shiyun's room. As this force spread out, hailstones the size of adult fists immediately began to fall from the sky.

Moreover, these hailstones fell very quickly. If it weren't for the fact that most of Frost City's people were cultivators, one can only imagine how many people would have died from being struck by such large hailstones.

Sensing the turbulent ice and snow power pervading the air, Lu Chen realized that Cao Shiyun's cultivation had probably gone wrong.

He got up at this moment and came to the door of Cao Shiyun's room. He did not rush in immediately. When someone is breaking through a realm, they are prone to inner demons. If interrupted at this time, the chances of falling into a demonic state increase significantly.

However, he couldn't just leave it alone. Cao Shiyun's cultivation was obviously having issues, so Lu Chen waited at the door, ready to step in to help her if anything went seriously wrong.

At this moment, the ice and snow power emanating from Cao Shiyun's room became increasingly violent, and the hailstones falling from the sky grew larger.

For a time, those cultivators with lower cultivation states could hardly withstand the hailstones. Some of the formations set up in cultivators' courtyards could initially resist the hailstones falling from the sky, but as the ice and snow power went berserk, numerous formations across Frost City were shattered by the falling hailstones.

At this moment, inside the room, Cao Shiyun's brows were tightly furrowed, her beautiful eyes were closed, and her body trembled constantly. Images of her and Lu Chen together in the secret realm kept appearing in her mind.

The next moment, a red immortal aura released from Cao Shiyun's body. Noticing she had fallen into demonic obsession, Lu Chen did not hesitate and directly pushed the door open to step into the room.

Cao Shiyun kept murmuring, "No... don't leave... Lu Chen... come back..."

Hearing these words, Lu Chen was stunned for a moment. He never expected that Cao Shiyun's demonic obsession was because of him. Back in the secret realm, he had saved her on a whim. If it weren't for the system data, he might have already forgotten there was such a person.

Lu Chen immediately moved to Cao Shiyun's side, gently saying, "I'm here..."

Upon hearing Lu Chen's voice, the red immortal aura released from Cao Shiyun's body retracted instantly, and the ice and snow power gradually returned to her body.

However, at this moment, the power of ice and snow within her went violent again. Her head kept shaking, "Dead... Lu Chen is already dead..."

“He won’t come back...”

“Ah!!!”

All of a sudden, a more violent force of ice and snow surged from her body, and in the next moment, a black cloud appeared in the sky. Then, countless ice cones fell from the sky, and the cultivators in Frost City suffered disaster without cause, running away in terror.

Feeling the situation outside, Lu Chen immediately used the Evergreen Longevity Technique. However, for an immortal, the healing from the Evergreen Longevity Technique was clearly insufficient.

Lu Chen then mobilized the power of the Life Dao. When the power of the Dao surged into Cao Shiyun’s body, the rampant ice and snow power finally became a little calmer. But soon, Lu Chen discovered that those black gases on the Life Dao were entering Cao Shiyun’s body.

These black gases could even erode Dao Laws, and if they entered Cao Shiyun’s body, they could potentially damage her.

Lu Chen was somewhat puzzled. Even the Life Dao was being eroded by this strange power; wouldn’t everyone in the Tianyan Immortal Domain eventually be eroded by it as well?

Everyone and every organism is related to the Life Dao. If the Life Dao is affected, the lifespan of everyone or every organism would be affected too.

However, now was not the time to worry about that. The most important thing was to pull Cao Shiyun back from her demonic state. If she continued like this, not only would she be unable to make a breakthrough, but she could also risk her life.

Lu Chen then thought of a method, which was to use dual cultivation to calm the turbulent ice and snow power within her. If it were anyone else, they probably wouldn't dare get close to Cao Shiyun at this moment, as they might get hurt by the violent ice and snow power.

But Lu Chen was different. His Creation Dao could simulate the Dao, and he too could simulate the power of ice and snow. He could use the Ice and Snow Path to manipulate the ice and snow power, thus calming the rampant power of the Dao within Cao Shiyun.

Thinking of this, Lu Chen had no hesitation and directly approached Cao Shiyun.

Just as their lips were about to touch, Cao Shiyun suddenly opened her eyes. Her eyes were crimson, emitting a bloody glow. She pushed Lu Chen with her hands while saying, "No..."

Lu Chen knew why Cao Shiyun was so resistant, so he took the initiative to say, “I am Lu Chen.”

In an instant, Cao Shiyun froze, the redness in her eyes retreating significantly. But after pausing for a moment, she seemed to come to her senses and said to Lu Chen, “No... you’re not Lu Chen, you’re Chen Lu...”

Cao Shiyun seemed to regain some consciousness. In her view, since Lu Chen entered the Chaotic Sea, it was impossible for him to come out alive. Lu Chen was already dead.

Lu Chen continued, “I am Chen Lu, and also Lu Chen. Shiyun, I have returned.”

Cao Shiyun still rejected, saying, “No... you’re not Lu Chen...”

Lu Chen continued, “I still remember the things we went through in the secret realm.”

Upon hearing this, Cao Shiyun completely gave up struggling, her gaze fixed intently on Lu Chen.

Lu Chen seized this opportunity and kissed her directly, “Mmm!”

At the moment Lu Chen blocked her mouth, Cao Shiyun's consciousness completely sobered up. But at this time, she had already entirely lost control over the ice and snow power. She couldn't summon the ice and snow power or muster the strength to push Lu Chen away.

She was pushing Lu Chen away while twisting her delicate body, but Lu Chen paid no attention to her actions and, while kissing her, began to remove her clothes piece by piece.

Having children earns benefit, start competing for dominance in the world by marrying a wife

Chapter 1620: Chapter 1310: No, You Can't Be Him!

As Cao Shiyun struggled, she suddenly felt a strange sensation in her body, and a muffled sound escaped her throat.

“Mm~!!!”

Lu Chen paid no attention to Cao Shiyun. After succeeding, he used the Creation Dao to evolve the Ice and Snow Path. In the next moment, the Ice and Snow Path above Frost City became more distinct, but the hail stopped, and soon the blizzard gradually dissipated.

After mastering the Ice and Snow Power, Lu Chen infused his Ice and Snow Power into Cao Shiyun's body, melding it with the Ice and Snow Power within her. Then, he drew the Ice and Snow Power from Cao Shiyun's body into his own, creating a cycle of Ice and Snow Power between their bodies.

This way, the turbulent Ice and Snow Power within Cao Shiyun's body was stabilized.

However, once Cao Shiyun fully awoke, she still believed that it was Chen Lu on top of her. She struggled to break free from Lu Chen, but after their Ice and Snow Power fused, she had lost control over the power and could only follow Lu Chen's guidance.

Realizing she couldn't control her body, tears streamed down Cao Shiyun's cheeks. She couldn't believe she had kept herself pure for Lu Chen for so many years, only to lose herself to someone else in this situation.

Seeing Cao Shiyun's tears, Lu Chen stopped covering her mouth and slowly lifted his head, looking down at her from above.

Cao Shiyun said coldly, "Get up!"

Lu Chen said, "Senior Sister, your body's Ice and Snow Power hasn't stabilized yet."

Cao Shiyun replied icily, "I don't need your help!"

Lu Chen smiled and asked, "Shiyun, when you were just overconsumed by your cultivation, you kept chanting my name. Why are you suddenly so cold toward me now?"

Hearing Lu Chen's words, Cao Shiyun was stunned for a moment. How could she possibly chant Chen Lu's name?

Cao Shiyun coldly said, "How could I be chanting your name!"

Lu Chen said, "You just kept calling out 'Lu Chen, Lu Chen' non-stop. If you weren't chanting my name, then whose name was it?"

Cao Shiyun said, "You're not Lu Chen!"

Lu Chen laughed and said, “If I’m not Lu Chen, who am I? Shiyun, I even saved your life in the Secret Realm once, and you don’t even remember what I look like?”

Hearing this, Cao Shiyun’s mind went blank with a loud crash.

Lu Chen... He’s Lu Chen???

How could this be!!!

As she regained her senses, Cao Shiyun, in disbelief, said, “No... you can’t be him!”

Lu Chen continued, “Whether I am him or not, we can discuss later. Let me first help you break through.”

With those words, Lu Chen sped up the circulation of the Ice and Snow Power, and Cao Shiyun immediately felt a sound unwillingly escaping her throat, “Ah!”

She then lightly bit her lip, “Let me go!”

Lu Chen leaned down and covered Cao Shiyun’s mouth, “Mmm mmm mmm!!!”

Feeling the Ice and Snow Power in the room stabilizing, Xiao Xueying breathed a slight sigh of relief. She wanted to enter the room to check, but was afraid of disturbing Cao Shiyun and Lu Chen.

At the moment, in Xiao Xueying's view, Lu Chen must be imbuing Cao Shiyun with immortal power to help stabilize her inner power, although she didn't know that while Lu Chen was helping stabilize Cao Shiyun's Ice and Snow Power, he was using dual cultivation techniques.

As time went by, Xiao Xueying still hadn't seen Lu Chen come out of the room, leaving her wondering about the situation.

Meanwhile, voices came from the room.

“Chen Lu... you... mm... bastard!”

“Chen Lu... I'm going to kill you... you...”

“Wuwuwu... let go of Senior Sister, Senior Sister can't be with you... mm...”

...

Hearing the voices from the room, Xiao Xueying was stunned.

This...

Having cultivated with Lu Chen so many times, she could naturally tell from Cao Shiyun's tone what they were doing at that moment.

Xiao Xueying quickly composed herself, not feeling too surprised, after all, that man was Lu Chen—Lu Chen, the one with a life of many romances.

She didn't feel any sadness, knowing that if she were to feel sad every time Lu Chen added another woman to his harem full of women, she wouldn't know how much sadness she'd have to endure.

Yet Xiao Xueying secretly worried that if Lu Chen did such things to Cao Shiyun, what if Cao Shiyun reported directly to the Hall Master later?

Thus, time passed, and in the blink of an eye, half a year had gone by.

Cao Shiyun, who had already slipped into a magical frenzy, barely managed to stabilize her cultivation with Lu Chen's help.

For her to attempt another breakthrough to the True Immortal Realm, she needed more time for cultivation, and Lu Chen spent the entire half-year helping her stabilize her cultivation.

Cao Shiyun naturally felt Lu Chen's assistance, transitioning from initial reluctance to active cooperation over time.

Of course, the main reason she agreed to cooperate was her growing belief that Chen Lu was indeed Lu Chen, as no one else in the entire Tianyan Immortal Domain could have continuously harassed her for six months other than Lu Chen.

After being saved by Lu Chen in the Secret Realm and developing feelings for him, she had secretly investigated many of Lu Chen's affairs, including the rumors about Lu Chen and his concubines.

Of course, there was still some resentment towards Lu Chen in her heart; this scoundrel did not reveal his identity from the start and took advantage of her confusion to act against her, leaving her completely unprepared.

At this moment, Lu Chen held Cao Shiyun, letting her lean against him, while his restless fingers gently stroked her jade back.

Cao Shiyun lay on Lu Chen's chest and softly asked, "Are you really Lu Chen? The one who saved me in the Longchuan Secret Realm?"

Lu Chen said, "It's me."

Cao Shiyun asked, "Then why didn't you tell me your identity from the beginning?"

Lu Chen said, "My identity is quite special, and it's not good if too many people know I have returned."

"Moreover, the Hall Master and Ye Chuyao hold deep grudges against me. If they discover I'm Lu Chen, they would surely kill me."

Cao Shiyun questioned with confusion, "The Hall Master and Senior Sister Ye hold grudges against you?"

Lu Chen said, "Yes, I took away the person closest to them."

Upon hearing this, Cao Shiyun immediately pieced it together; she didn't know about Ye Chuyao's matter, but she was very aware of Yun Yudie's situation, especially since she came from the Mysterious Moon Palace herself.

When Yun Yudie emerged from seclusion and found out Lu Chen had taken her sister into the Chaotic Sea, she flew into a rage. Later, due to her resentment, Yun Yudie was expelled from the Mysterious Moon Palace, after which she left with some disciples and established the current Mysterious Moon Palace.

Cao Shiyun then asked, "Rumor has it that even Immortal Emperors cannot survive in the Chaotic Sea, how did you come out?"

Lu Chen said, "I encountered some fortuitous opportunities in the Chaotic Sea, allowing me to teleport back to the Tianyan Immortal Domain."
