Chapter 1631: Chapter 1321: I Plan to Attack Purple Moon City Tomorrow

Lu Chen knew what Lu Zhengze was worried about. For him now, the most important thing was to restore his cultivation state, and White Feather City was not a suitable place for cultivation.

Lu Chen said, "This is just one of my clones."

Hearing Lu Chen's words, Lu Zhengze realized it was only a clone, so it was all right.

However, speaking of it, why didn't he feel that this was a clone? In his perception, the Divine Soul of the Lu Chen in front of him was complete, not at all like a clone.

Although curious in his heart, Lu Zhengze didn't ask more.

Lu Chen then asked, “Have there been any abnormalities in the surrounding cities of White Feather City recently?”

Lu Zhengze thought for a moment and replied, “No.”

Lu Chen thought to himself, if the one spreading rumors intended to assassinate using others, to make oneself deal with Lu Jingfu, then the opponent probably wouldn't act until he had grown stronger.

On the contrary, that person might actually hope he could grow up quickly so that he could help that person deal with Lu Jingfu.

Nowadays, as the Immortal Dynasty Master of the Tianxia Immortal Dynasty is nearing his end, the struggle for the throne has reached the most critical moment.

However, being constantly watched by someone in the dark, without knowing who it is, made Lu Chen uncomfortable.

Without any hesitation, Lu Chen directly mobilized the Path of Deduction and then used the Power of Heavenly Mechanism to deduce who might have discovered his identity.

Just then, a man's figure appeared before him.

As Lu Chen tried to continue the deduction, he suddenly felt his Immortal Aura being completely consumed. Compared to the consumption in battles, the deduction technique drained an enormous amount of Immortal Aura.

Luckily, they had a clue. “The person I deduced just now, do you recognize him?”

Lu Zhengze replied, “If I am not mistaken, he should be Jia Wenrui, the City Lord of Purple Moon City.”

Lu Chen asked, “What realm is he in?”

Lu Zhengze replied, “He should be in the Heavenly Immortal Realm.”

Lu Chen thought for a while. If it was the Heavenly Immortal Realm, he could handle it. Mainly, he wanted to find out the person behind Jia Wenrui through Jia Wenrui himself.

Of course, he could also use the deduction technique to find the person, but the stronger the opponent’s power, the more Immortal Aura he would consume during deduction. With his current power, even if he continued deducing, he might only be able to see a silhouette.

Just like when he deduced who was spying on him not long ago, he could only deduce a scene without seeing the person's face clearly. At that time, he only speculated that Xuan Qingyun was spying on him.

To accurately deduce the opponent's identity and see the opponent's face, he might have to wait until his cultivation reached the Golden Immortal Realm.

He couldn't wait that long.

Thinking of this, Lu Chen said to Lu Zhengze, "I plan to attack Purple Moon City tomorrow."

Upon hearing this, Lu Zhengze was stunned. Although White Feather City had been expanding over the years, there had hardly been any wars, only small skirmishes.

In Lu Zhengze's view, now that Prince Chen hadn't regained his strength, it was unsuitable to start a war. Once started, unless they had absolute power to crush the opponent, the war wouldn't be easily stopped.

They had only two Heavenly Immortals, who were both nearing their end. With Jia Wenrui still at the peak of his power in the Heavenly Immortal Realm, Lu Zhengze was very concerned that even if combined with Liao Xiaoshuang, they might not be a match for Jia Wenrui.

Even if the two of them could defeat Jia Wenrui, Purple Moon City might still have a second Heavenly Immortal. After all, Jia Wenrui's support was likely from a certain king from the Tianxia Immortal Dynasty, so the strength of Purple Moon City was not weak.

Lu Zhengze said, "Your Majesty, your strength hasn't been restored yet; rashly attacking Purple Moon City may not be advantageous for us."

Lu Chen said calmly, "You don't need to worry. Since the person behind Jia Wenrui hasn't revealed my affairs directly, it proves that person hopes I can grow up to threaten Lu Jingfu."

"He is just a Heavenly Immortal; that person wouldn't protect him."

Lu Zhengze awkwardly said, "Your Majesty, what I'm saying is that both Xiaoshuang and I are nearing our end, and our powers have diminished greatly; we likely aren't a match for Jia Wenrui."

Lu Chen said casually, "I will take action when the time comes."

This...

Lu Zhengze sensed Lu Chen's aura, it was only at the Earth Immortal Realm, a whole major realm below Jia Wenrui.

Though Prince Chen had the ability to fight beyond his realm in his youth, after not being out of the Chaotic Sea for long and being eroded by the Chaotic Power, it was uncertain if he still possessed that capability.

Lu Chen knew what Lu Zhengze was worried about and continued, "My Honored Master has given me many magic treasures; you need not think too much."

Hearing this, Lu Zhengze's anxiety slightly subsided, "I understand. Tomorrow, I will mobilize the army to march towards Purple Moon City."

Unlike those Great Immortal Sects, in the mortal world, what determines the victory of a war is the confrontation between the top forces. As long as one's top forces defeat the opponent's top forces, the opponent's lower forces will lose the power to resist.

But it is different in those Great Immortal Sects. When they plan a war, it takes at least decades, hundreds, or even thousands of years.

In wars between Immortal Sects, the top forces rarely go into battle directly, because there's not only one sect in this world. If one leads with top forces, other sects might seize the opportunity to attack.

Of course, that's not the most important thing. The most important is that even if you are an Immortal King, as long as the number is sufficient and united, using certain formations or powerful magic treasures, it's possible to kill an Immortal Venerate. That's why the preparation time before a war between Immortal Sects is very long, and the duration of the war is also very long.

The war between White Feather City and Purple Moon City is just like petty squabbles, requiring no preparation. One side could launch a war immediately on the day they decide to attack the other.

Early the next morning.

The deafening sound of drums echoed over White Feather City. Within about two hours, White Feather City's army had assembled.

As the soldiers of White Feather City were puzzled about why the City Lord wanted to assemble the army, Lu Zhengze's robust voice resonated above White Feather City.

“I, the City Lord, have found out that the ones who secretly killed our White Feather City soldiers came from Purple Moon City. Therefore, I have decided to attack Purple Moon City today to avenge our tragically killed comrades!”

Hearing Lu Zhengze’s words, the soldiers froze. This was too sudden, wasn’t it?

However, after recovering from shock, the soldiers immediately shouted, “Avenge! Avenge! Avenge!”

“Kill! Kill! Kill!”

The soldiers’ roars echoed over White Feather City, and seeing the soldiers’ imposing spirits, Lu Chen was very pleased.

Lu Zhengze shouted at this moment, “Set off!”

With the end of his words, the ten or so warships of White Feather City flew towards Purple Moon City.

Chapter 1632 - 1322: Old Fool, Are You Really Going to Go to War With This City Lord Over a Few Ants?

Purple Moon City, City Lord's Mansion.

Jia Wenrui was still cultivating in the secret chamber when suddenly his heart throbbed violently, causing the Immortal Aura within him to become agitated.

Jia Wenrui quickly ended his cultivation, calming the Immortal Aura within him. At that moment, the voice of the Personal Guard Commander came through.

"City Lord, there is a major commotion in White Feather City!"

Upon hearing this, Jia Wenrui immediately rose from the ground. In the next moment, he arrived in the council hall, and the Personal Guard Commander also instantly appeared there.

Jia Wenrui looked at the Personal Guard Commander and asked, "What did White Feather City do?"

The Personal Guard Commander replied, "Lu Zhengze is leading troops towards Purple Moon City. They claim we killed White Feather City's soldiers and are here for revenge."

Hearing this, Jia Wenrui was momentarily taken aback.

He had indeed killed a few soldiers, one of whom was a trusted aide of the White Feather City Lord's Mansion, but how did White Feather City find out?

But it didn't matter; knowing is knowing. The other party actually dared to come attack him. Did Lu Zhengze really believe that with him and Liao Xiaoshuang, two Heavenly Immortals nearing their limits, they could capture Purple Moon City?

They were too naive. Not to mention that Purple Moon City also had two Heavenly Immortals, and the Heavenly Immortals on their side were still at their peak. Most importantly, there was a Great Array beneath Purple Moon City, which could resist even the attack of a Heavenly Immortal.

Even if Purple Moon City's Heavenly Immortals did not act, as long as the Great Array was not destroyed, White Feather City may not be able to capture Purple Moon City.

Jia Wenrui said at this time, "Immediately activate the Great Array, gather the soldiers, and prepare to face the enemy!"

Although King Anyuan's order was to monitor White Feather City's every move, since White Feather City had come knocking, he couldn't just do nothing.

He might as well take this opportunity to heavily damage White Feather City, ensuring they behave themselves in the future.

It's just uncertain whether this attack on Purple Moon City by White Feather City was Lu Zhengze's own idea or Lu Chen's. If it was Lu Chen's idea, it could mean that Lu Chen had already returned to White Feather City and planned to expand their territory.

Shortly after the activation of Purple Moon City's Great Array, a dozen warships from White Feather City appeared not far from Purple Moon City. Upon seeing the warships' appearance, Jia Wenrui flew into the sky, waiting for White Feather City's attack.

At this moment, the dozen warships slowly came to a stop, and Lu Zhengze's voice came from afar, "Jia Wenrui, you have unjustly killed my White Feather City's soldiers. I'm here today to demand an explanation!"

Lu Zhengze had not found any direct connection between White Feather City's soldiers and Jia Wenrui. However, Lu Chen had deduced that his identity might have been discovered by Jia Wenrui, which made Lu Zhengze suspect that the soldiers' disappearance was related to Jia Wenrui. Of course, this was merely an excuse to attack Purple Moon City.

Even if White Feather City's soldiers hadn't disappeared, they would have found another excuse to attack Purple Moon City.

Upon hearing these words, Jia Wenrui sneered, "It's just a few mortals. Dead is dead. Old fool, do you really want to go to war with me, the City Lord, over a few ants?"

In Jia Wenrui's eyes, those mortal soldiers were insignificant. Even admitting to it wouldn't matter much.

Hearing Jia Wenrui's words, Lu Zhengze was momentarily stunned. So the disappearance of White Feather City's soldiers was indeed related to Jia Wenrui. This meant Jia Wenrui might have already known Lu Chen's identity and informed a king of the Tianxia Immortal Dynasty.

Lu Zhengze said, "Since you admit it yourself, there's nothing more to say. Let us begin! I will avenge my fallen White Feather City soldiers!"

Having said this, Lu Zhengze ordered the warships behind him, "Attack!"

Once the words were spoken, various colored Attack Formations appeared in front of the warships, followed by a dozen beams of destructive force aimed at the Array Barrier of Purple Moon City.

Unhurriedly, Jia Wenrui said, "You two Heavenly Immortals nearing your end dare to attack Purple Moon City, truly seeking death!"

As soon as Jia Wenrui finished speaking, he rushed out of the Array Barrier of Purple Moon City. The instant he left the barrier, another Heavenly Immortal from Purple Moon City appeared beside him.

In a war between a few Heavenly Immortals like this, whoever holds the upper hand in high-level combat determines the victory. Jia Wenrui wasn't even bothered with the warships of White Feather City. He planned to directly attack Lu Zhengze, severely injuring both Lu Zhengze and Liao Xiaoshuang.

As for killing them, it wasn't his intention for the moment. If he killed them both, he might lose the only lead to Chen King.

By keeping Lu Zhengze and Liao Xiaoshuang at White Feather City, there was a chance Chen King might return there. After all, those at White Feather City were the last remaining loyalists to Chen King, and without regaining his strength, Chen King wouldn't easily give up this force.

Seeing another Heavenly Immortal appear beside Jia Wenrui, Lu Zhengze frowned slightly. As expected, Purple Moon City had another Heavenly Immortal.

It seemed they would have to rely on their King next. But before that, they needed to help their King wear down the strength of Jia Wenrui and that Heavenly Immortal.

With this in mind, Lu Zhengze and Liao Xiaoshuang leapt from the warship simultaneously, soaring into the skies.

Both sides transformed into streaks of light, rushing toward each other.

Soon after, the sky erupted with various Magic Spells, forcing White Feather City's warships to retreat to avoid being caught in the crossfire.

Lu Zhengze and Liao Xiaoshuang's strength was evidently inferior to Jia Wenrui and the other Heavenly Immortal. Barely into the fight, they were constantly pressured to retreat by their opponent's Magic.

There was no helping it. Lu Zhengze and Liao Xiaoshuang were already nearing their limits. At this stage, their Divine Soul Power was continually weakening, and their vitality was gradually fading. Being able to exert a fifth of their peak Heavenly Immortal strength was fortunate.

Now, their power was hardly different from the peak of Earth Immortal, and this level of strength was no match for Jia Wenrui.

While attacking, Jia Wenrui taunted Lu Zhengze, "Old wretch, I initially planned to let White Feather City destroy itself. Didn't expect you'd actively seek death!"

"In that case, I'll grant your wish!"

Upon saying this, Jia Wenrui gathered the Immortal Aura into his Immortal Sword, and in the next moment, swung it.

"Nine Dragon Sword!!!"

As the Sword Qi was unleashed, nine roaring dragons charged toward Lu Zhengze. Feeling the Dragonesque Sword Qi, Lu Zhengze's brow furrowed, and he immediately resorted to Magic.

"Great Sun Golden Body Scripture!!!"

A sun appeared behind Lu Zhengze, and he forcibly withstood the nine Sword Qi attacks from Jia Wenrui.

However...

Though Lu Zhengze barely blocked the Sword Qi, he was still heavily injured. He was sent flying backward, and the massive sun behind him gradually dissipated.

Seeing that Lu Zhengze and Liao Xiaoshuang were no match for the enemy, Lu Chen thought to himself it might be necessary to find a way to help them break through their limits.

These were the only reliable subordinates he had left in his former forces. If they died, there would be no one left to help him expand his power.

Having children earns benefit, start competing for dominance in the world by marrying a wife

Seeing Lu Zhengze being struck by the Nine Dragon Sword and sent flying, Jia Wenrui seized the advantage. His body transformed into a streak of light, instantly rushing to Lu Zhengze, intending to wound him again.

Even though Lu Zhengze's days were numbered, he was after all a Heavenly Immortal, with a lifespan tenacious as ever. Jia Wenrui didn't believe he could easily kill Lu Zhengze. He only wanted to inflict more injuries, hopefully making him unable to get up.

If Chen King found out that his subordinate was severely injured, he might possibly return to White Feather City.

Thinking of this, Jia Wenrui swung his sword towards Lu Zhengze again.

Just as Jia Wenrui's sword was about to strike Lu Zhengze, suddenly, a figure appeared in front of Lu Zhengze and slashed with a sword.

The next moment, a terrifying Sword Qi surged towards Jia Wenrui. Jia Wenrui quickly swung his sword to block, gathering immortal power at his feet, and with a step into the air, his body jumped back over a hundred meters, distancing himself from Lu Zhengze.

Lu Chen, at this moment using Disguise Skills, had completely changed his appearance, so Jia Wenrui didn't recognize him.

When Jia Wenrui saw that the newcomer only emitted the aura of an Earth Immortal Realm, he sneered, "Just an Earth Immortal, yet you dare to interfere in a battle between Heavenly Immortals!"

Lu Zhengze couldn't be killed yet; he was still needed as bait. But that didn't mean others couldn't be killed—an Earth Immortal was nothing; killing him wouldn't matter.

Thinking of this, Jia Wenrui mobilized his Immortal Aura and used the Nine Dragon Sword again.

Seeing the nine dragon-shaped Sword Qi rushing towards him, Lu Chen didn't use the Immortal King's Remain Curse. To deal with a Heavenly Immortal like this, using the Immortal King's Remain Curse would be overkill, much like using a cannon to kill a mosquito.

Moreover, once the power of the Immortal King's Remain Curse was exhausted, it took a long time to recharge. Lu Chen would only use it in a life-and-death situation.

To deal with a Heavenly Immortal, his current power was already sufficient.

Lu Chen gripped the Immortal Slaying Sword tightly, channeled all his immortal power, and slashed out.

With this sword stroke, heaven and earth shook. It seemed as though the space itself emitted cracking sounds.

Green Fall Cyan Dragon Roar!!!

The next moment, the Sword Qi from the Immortal Slaying Sword transformed into a giant yellow dragon. With a dragon's roar, it charged at the nine dragons.

As soon as the nine dragons came into contact with the Sword Qi from the Immortal Slaying Sword, they dissipated instantly. The Sword Qi of the Green Fall Cyan Dragon Roar continued forward, and Jia Wenrui, unable to dodge in time, was struck by the Sword Qi, losing an arm instantly.

Jia Wenrui couldn't believe what he saw. He was, after all, a Heavenly Immortal, and at the peak of his power, yet he had been injured by an Earth Immortal.

How could this be possible...

Was that person really just an Earth Immortal?

Something's not right...

Jia Wenrui's gaze was fixated on the Immortal Slaying Sword in Lu Chen's hand.

Suddenly, Jia Wenrui realized something, a look of sudden comprehension crossing his face.

The sword carried immense pressure, possibly a Heaven Rank Immortal Sword.

Jia Wenrui was surprised; an Earth Immortal possessing a Heaven Rank Immortal Sword.

Soon, Jia Wenrui's surprise turned into greed. An Earth Immortal, armed with a Heaven Rank Immortal Sword, was able to seriously wound him. If he could obtain this Immortal Sword, his power would vastly increase.

Thinking of this, Jia Wenrui no longer held back. From his Space Ring emerged a cauldron, growing larger as it appeared.

Jia Wenrui shouted, "Golden Light Cauldron!!!"

The Golden Light Cauldron quickly flew above Lu Chen, suddenly crashing down. As it descended, a terrifying pressure dropped from the sky, making Lu Chen feel a hint of trepidation.

But Lu Chen easily broke free from the cauldron's pressure. He raised his hand and once again used the Green Fall Cyan Dragon Roar.

The next moment, a giant dragon flew out from Lu Chen's Immortal Slaying Sword. When the dragon collided with the Golden Light Cauldron, the cauldron shattered instantly.

Jia Wenrui, controlling the cauldron from afar, was also affected by the backlash of energy, vomiting a mouthful of blood.

Jia Wenrui found it hard to believe, although the person held a potential Heaven Rank Immortal Sword, he was just at the Earth Immortal Realm, how could he be this strong!

The higher the rank of the Immortal Sword, the more Immortal Aura it consumed when used. If someone weak wielded it, they wouldn't be able to unleash the sword's full power due to insufficient Immortal Aura.

High-tier Immortal Swords consumed a terrifying amount of Immortal Aura. Even a merely swung sword could consume a large amount of Immortal Aura, yet this mere Earth Immortal had managed to unleash two terrifying Sword Qi in such a short time—Jia Wenrui couldn't understand how this was happening.

Meanwhile, another Heavenly Immortal from Purple Moon City noticed Jia Wenrui's severe injuries and immediately punched Liao Xiaoshuang away, then hurried to Jia Wenrui's side.

"Master, are you alright?"

Looking at Lu Chen hovering in the air, Jia Wenrui forced himself to speak despite the immense pain, "I'm fine."

"I didn't expect just an Earth Immortal, wielding a Heaven Rank Immortal Sword, to seriously wound me. I must have this Immortal Sword!"

Although his body was severely injured, Jia Wenrui didn't feel a trace of fear. Instead, he was immensely excited.

If an Earth Immortal using a Heaven Rank Immortal Sword could seriously wound him, could he, wielding it, perhaps fight across Rank? Even with a True Immortal, he would have nothing to fear.

The stronger Lu Chen appeared, the more Jia Wenrui desired to obtain the Immortal Slaying Sword in his hand.

Jia Wenrui then said to the Heavenly Immortal beside him, "Let's strike together!"

"Yes, Master!"

The two attacked together, Jia Wenrui once again using the Nine Dragon Sword, while the neighboring Heavenly Immortal unleashed his most formidable Mystic Tier Immortal Method.

Seeing the two launch a joint attack, Lu Chen no longer held back, directly channeling the Power of Dao.

The space around them immediately turned blood-red, and Jia Wenrui suddenly felt locked on by something.

Feeling the release of the Power of Slaughter from Lu Chen, Jia Wenrui was momentarily stunned but quickly reacted, rapidly taking out several power-enhancing Magic Treasures.

In the Tianyan Immortal Domain, unlike within a Chaos Beast's internal world, while the Power of Slaughter's destructiveness was terrifying, it was even more potent inside a Chaos Beast. The laws of the Tianyan Immortal Domain were well-developed, providing strong suppression over all Powers of Dao.

The Power of Laws acted as a balance mechanism; when one power became too strong, the Heavenly Dao Laws of the Tianyan Immortal Domain would impose restrictions.

Lu Chen's Power of Slaughter was clearly suppressed by the Heavenly Dao Laws, but even suppressed, combined with the Immortal Slaying Sword and a Heaven

Rank Immortal Law, it was still not something an ordinary Heavenly Immortal could withstand.

Lu Chen swung his sword fiercely, and the Sword Qi transformed into a blood-red dragon charging towards Jia Wenrui and the Heavenly Immortal beside him.

When the Blood Dragon neared Jia Wenrui, he finally realized he couldn't defend against this attack, but it was too late, as his Life-saving Treasures shattered one by one, and soon the Blood Dragon pierced through his body.

Having children earns benefit, start competing for dominance in the world by marrying a wife

Feeling the vitality within his body being severed instantly, Jia Wenrui's face showed an expression of disbelief.

"This... how is it possible..."

Poof...

Jia Wenrui spat out a mouthful of blood, and his body slowly fell.

Seeing Jia Wenrui being killed, the Heavenly Immortal next to him also realized that the person in the distance was not someone he could withstand, and he immediately prepared to flee.

However, Lu Chen did not give him a chance, and he immediately mobilized his immortal power.

Divine Light Thousand Lamp Scripture!!!

The next moment, countless oil lamps appeared in the surrounding space, and the red Immortal Aura emitted from the lamps gathered together to form a Red Silk, which quickly entangled that Heavenly Immortal. The Heavenly Immortal tried everything to break free from the Red Silk, but the Red Silk only tightened further.

Lu Chen instantly appeared next to the Heavenly Immortal and said with the Immortal Slaying Sword pointed at his head, "If you want to die, you can try to break free."

Upon hearing this, the Heavenly Immortal knew they were utterly defeated, so he said, "Don't kill me, I surrender!"

Lu Chen then said to Lu Zhengze, "The war is over, we can clean up the battlefield now."

Lu Zhengze then loudly announced over Purple Moon City, "Jia Wenrui is dead, and those who surrender will not be killed!"

Upon hearing this, the army of Purple Moon City instantly collapsed, and White Feather City successfully took over Purple Moon City.

This is how wars between low-level cities are: as long as one side's high-end combat power is defeated, the war is over.

Lu Chen looked at the Heavenly Immortal in front of him, still controlled by the Divine Light Thousand Lamp Scripture, and then asked, "I ask, you answer. If you dare lie, I'll use the Soul Searching Technique!"

Lu Chen's current strength was only at the Earth Immortal Realm, making it difficult to use the Soul Searching Technique and more likely to suffer a backlash. He was just intimidating this man.

However, Lu Yangqiu was indeed frightened. He had just seen how easily Lu Chen dealt with Jia Wenrui, and to him, there was no way this man could be merely at the Earth Immortal Realm.

It's very likely he was hiding his true strength, as there are methods to conceal one's aura or realm in this world.

Moreover, this was someone possessing a Heaven Rank Immortal Sword, so how could he be an ordinary person?

Lu Yangqiu quickly said, "My lord, you may ask, I will tell you everything I know!"

Lu Chen asked, "Which king of the Tianxia Immortal Dynasty does Jia Wenrui belong to?"

Upon hearing this, Lu Yangqiu was taken aback. He hadn't expected this person to ask this question right away, knowing that Jia Wenrui had only secretly pledged allegiance to King Anyuan a short time ago. How could this man know?

Seeing Lu Yangqiu not answering directly, Lu Chen said, "What? You don't want to talk?"

At this point, Lu Chen pretended as if he was ready to use the Soul Searching Technique. After regaining his composure, Lu Yangqiu quickly said, "My lord, I will tell you, it is King Anyuan. Just a few years ago, Jia Wenrui pledged allegiance to King Anyuan."

Lu Chen replied, "Purple Moon City is a city close to the Chaotic Sea. It lacks resources and talent, so why would King Anyuan want it?"

Lu Yangqiu hesitated for a moment but eventually said, "Jia Wenrui discovered that the Chen King seemed to have returned to White Feather City, so he used this intelligence to gain the opportunity to pledge allegiance to King Anyuan. King Anyuan had him continue monitoring White Feather City from Purple Moon City."

After hearing Lu Yangqiu's answer, Lu Chen finally understood why the events from billions of years ago were still being talked about: someone was indeed trying to use another to do their dirty work.

King Anyuan's current spread of this information was a clear reminder that the reason he was besieged by major forces was caused by Lu Jingfu. The debtor must be found, so go trouble Lu Jingfu.

Lu Chen chuckled, attempting to use another to do one's dirty work without fearing it might backfire one day.

He returned this time not just to eliminate Lu Jingfu. After all, those who participated in the siege back then weren't solely Lu Jingfu. Most of the kings of the Tianxia Immortal Dynasty were involved.

After all, he was once an Immortal King and a significant threat to the position of the Immortal Dynasty Master. His brothers and sisters used all their powers to eliminate him.

The reckoning could not be directed at one person alone.

Lu Chen then employed a Sealing Array to seal Lu Yangqiu's immortal power and had him locked away.

After finishing all this, Lu Chen went to the side of Lu Zhengze and Liao Xiaoshuang, who were both severely injured.

Without hesitation, Lu Chen used Life Force to help the two recover physically.

However, merely using Life Force was quite limited in repairing their bodies. They were approaching their limits, and their Divine Souls were already damaged, making it ineffective to simply infuse Life Force.

Lu Chen thought to himself that higher-tier restorative Immortal Laws would be beneficial. Although his Evergreen Longevity Technique stored within the Chaos Beast was a Holy Tier Cultivation Technique, it was not even a low-tier Immortal Law in the Tianyan Immortal Domain.

Lu Chen then asked Lu Zhengze and Liao Xiaoshuang, "How are you both feeling?"

In unison, the two responded, "Thank you, Great King!"

Lu Chen pondered for a moment and then said, "I am now able to refine Heavenly Grade Elixirs. When I have the Elixir Recipe for a Realm Breaking Pill that can help Heavenly Immortals break through, I will immediately refine it for you, aiding you in your breakthrough."

Hearing this, the two were momentarily stunned, then became excited.

If Lu Chen were truly able to refine Heavenly Grade Elixirs, then with a Heavenly Grade Breaking Realm Pill, they would have hope of surpassing their limits.

However...

Finding a Heavenly Grade Breaking Realm Pill recipe is not so simple. If such a recipe were available, the Tianyan Immortal Domain would not have most Immortals stuck at the Heavenly Immortal level.

Moreover, even possessing a Heavenly Grade Breaking Realm Pill doesn't guarantee a breakthrough, as any realm breakthrough carries risks.

Nonetheless, Lu Chen being able to refine Heavenly Grade Elixirs already gave them hope, and their next step was to find the recipe for a Heavenly Grade Breaking Realm Pill.

Lu Zhengze then asked, "Great King, King Anyuan already knows of your return. Should we consider relocating from White Feather City?"

Lu Chen pondered for a moment. Although King Anyuan hadn't yet spread the news of his return to the Tianyan Immortal Domain, there was no telling when he might suddenly inform others.

King Anyuan hoped for a deadly confrontation between him and Lu Jingfu, so someday he might inform Lu Jingfu of his return. Once Lu Jingfu knew he was back, fearing retaliation, he would surely send troops to attack, possibly even joining forces with Tianyan Immortal Domain's Super Forces against him once more.

But...

Currently, he hasn't regained his full strength yet. If King Anyuan exposed his return to Lu Jingfu now, it wouldn't achieve the purpose of using another to do one's dirty work.

So, it's likely that King Anyuan won't reveal this news any time soon.

Thinking of this, Lu Chen said, "We currently have nowhere else to go, so let's continue staying in White Feather City."

Chapter 1635: Chapter 1325: No Need for Such Trouble, Just Send in the Troops

White Feather City is located on the edge of the Chaotic Sea, and it's easy to develop one's power there without attracting much attention.

Although King Anyuan has discovered Lu Chen's return, even if he leaks the news, White Feather City is far from the Tianxia Immortal Dynasty. The dynasty's army would take a long time to arrive, giving White Feather City ample time to prepare.

Upon hearing Lu Chen's words, Lu Zhengze looked at the distant Purple Moon City and asked, "My lord, now that we have taken Purple Moon City, I'm afraid King Anyuan will soon realize we have seen through his plan. He might make another move soon."

Lu Chen replied, “I actually think he won’t take any action. After all, I haven’t fully developed yet. He wants to use me to get rid of Lu Jingfu. If I didn’t have some strength, how could I help him get rid of Lu Jingfu?”

Hearing Lu Chen’s analysis, Lu Zhengze thought for a moment, found some sense in it, and decided not to dwell on whether or not to leave White Feather City.

After annexing Purple Moon City, White Feather City embraced another wave of great development. In their area, Purple Moon City was quite powerful, being on the edge of the Chaotic Sea. The major powers showed no interest in regions eroded by Chaos Qi, so in this area, a Heavenly Immortal was already considered strong.

The surrounding cities, seeing White Feather City defeat Purple Moon City, thought White Feather City intended to continue expanding and unify the area. To thwart White Feather City’s plans, several larger nearby cities quickly formed an alliance to stop its expansion.

Lu Chen was aware of these city lords’ actions, but he didn’t pay them much mind. At most, they were just Heavenly Immortals, and he could deal with them without using the Immortal King’s Remain Curse.

It was actually convenient for them to unite, as it meant not having to conquer one city at a time, resolving all at once when they gathered together.

Thinking of this, Lu Chen didn't stop the city lords from forming alliances.

In a blink of an eye, ten years passed.

Shiyang City.

Today, Shiyang City was bustling with immortal ships flying overhead continuously.

Today was the alliance day of several major cities. Apart from White Feather City and the cities under its control, the city lords of almost all other cities in the Land of Chaos had arrived.

White Feather City's rapid expansion worried them, so years ago, they began planning an alliance. Over the past decade, the cities reached a consensus: whatever their past conflicts, they needed to set them aside until White Feather City was eliminated.

At this moment, many city lords had already arrived at Shiyang City's City Lord's Mansion.

Shiyang City's City Lord, Gao Hongbo, sat in the great hall, discussing intelligence on White Feather City with other city lords. At this moment, a guard's voice came from the entrance.

"City Lord Min of Anda City has arrived!"

The next moment, a man in a blue robe appeared at the door of the great hall. Anda City's City Lord Min Guanghua glanced at the city lords present and said with a smile, "I didn't expect everyone to arrive so quickly. I thought I would be the first."

Then, a city lord teased, "City Lord Min, no matter how fast you are, you can't be faster than City Lord Ge!"

Min Guanghua replied, "City Lord Wang, isn't that obvious? City Lord Ge lives in Shiyang City. How could I be faster than him?"

Speaking of this, Min Guanghua scanned the people in the hall again, then asked, "Strange, where's City Lord Zhan?"

"Did something happen?"

Gao Hongbo, sitting at the top of the hall, said, “He sent word earlier; he’s on his way to Shiyang City.”

Upon hearing Gao Hongbo’s words, Min Guanghua didn’t think much of it and walked straight to an empty seat in the hall, then said, “It’s odd, we planned the alliance as soon as Purple Moon City was conquered by White Feather City. It’s impossible White Feather City doesn’t know about it, yet after all these ten years, they haven’t tried to stop us.”

Just as Min Guanghua finished speaking, a man’s voice came from the entrance of the hall. The man had a large build, wore golden armor, and stood two or three meters tall.

“Perhaps White Feather City doesn’t take us seriously, thinking that even if we ally, we won’t pose a threat to them.”

Upon hearing this, the city lords in the hall unanimously turned their eyes to the entrance. Seeing the man at the door, Min Guanghua said, “City Lord Zhan, I never thought you’d be slower than me.”

Zhan Mo said, “Ran into some issues on the way, so I was delayed.”

Min Guanghua asked, “What issues could be more important than the alliance?”

Zhan Mo chuckled and said, “You’ll find out shortly. I found some help.”

Hearing Zhan Mo’s words, the attending city lords looked at him curiously, eager to know who this helper was and what power they had.

Then, Gao Hongbo, sitting at the top, spoke, “Alright, since everyone’s here, let’s discuss the alliance matter.”

“Even though White Feather City hasn’t made any moves in the past ten years, their strength continually grows. From how they annexed Purple Moon City, it’s clear their ambition is not small; their aim might be to unify the entire Land of Chaos.”

As Gao Hongbo finished, a city lord on the right said, “I’ve looked into White Feather City’s leader, Lu Zhengze, and his couple are nearing the end of their lifespans, and neither of them has reasonable motives. They shouldn’t be interested in expanding power.”

Another city lord said, “Indeed, it was the same fifty years ago with Lu Zhengze, who disregarded White Feather City, causing a massive population exodus, nearly leading to the city’s disappearance.”

Gao Hongbo said, “Regardless of his sudden desire to expand power, we can’t ignore it.”

“Jia Wenrui of Purple Moon City was stronger than most of us, and there were two Heavenly Immortals, but still, Purple Moon City lost to White Feather City.”

“If White Feather City attacks any one of us here, we might end up like Purple Moon City.”

“So we must unite!”

“We should proactively strike, destroy White Feather City, and remove this threat.”

As Gao Hongbo finished, Min Guanghua, stroking his chin, said, “It’s peculiar indeed. Lu Zhengze and his couple are two Heavenly Immortals nearing their end, weaker than Jia Wenrui, yet Jia Wenrui lost.”

Gao Hongbo said, “Maybe Lu Zhengze used some Magic Treasure.”

Upon hearing this, some city lords began plotting quietly.

If there really were some Magic Treasure, collaborating to attack Lu Zhengze, even if they succeeded in killing him, some might fall victim to the Magic Treasure.

Some also had their eyes on the possible Magic Treasure Lu Zhengze possessed.

A city lord said, “It seems like attacking White Feather City needs careful planning.”

Upon hearing this, Zhan Mo laughed and said, “No need for such trouble, just deploy the troops directly.”

Hearing Zhan Mo’s words, the City Lords present were momentarily stunned.

Sending troops directly?

Without figuring out what backing White Feather City has, sending troops directly might result in who knows how many deaths.

Zhan Mo knew what this group was worried about, so he said, "Didn't I just say that I've found a helper?"

Gao Hongbo asked curiously, "A helper, how strong is this helper you mentioned?"

Zhan Mo didn't answer directly. He respectfully addressed the doorway and said, "My lord, please reveal yourself!"

As soon as his words fell, a figure appeared out of thin air in the hall. The next moment, a terrifying pressure descended upon the hall, making everyone feel as if they were being weighed down by a mountain.

Feeling the aura of the newcomer, everyone was startled.

This is the pressure only a True Immortal has!

How could a True Immortal appear in the Land of Chaos?

Why would a True Immortal be in such a place?

The Land of Chaos is adjacent to the Chaotic Sea, with little Spiritual Energy and Immortal Aura, and constantly eroded by Chaos Qi, conditions entirely unsuitable for a True Immortal's cultivation.

Some of the Heavenly Immortals present wouldn't stay in the Land of Chaos if it weren't for their attachment to their respective families, or because their lifespans were nearing an end, coupled with their limited talents, making further breakthroughs in this life impossible.

After coming back to their senses, everyone in the hall quickly rose and bowed towards the person at the door, saying, "Greetings, my lord!"

After the greeting, Gao Hongbo stepped down from his seat and continued, "Please be seated, my lord!"

The True Immortal retracted his aura and went straight to sit on the throne in the hall.

Gao Hongbo cautiously asked, "I wonder what brings my lord to the Land of Chaos?"

A True Immortal would never appear in such a place without good reason.

Xiao Yunze casually said, "I'm here merely to observe the situation of Purple Moon City."

Upon hearing this, everyone present was overjoyed, realizing that this person was Jia Wenrui's patron; there was drama to be expected.

No wonder Zhan Mo called him a helper.

White Feather City destroyed Purple Moon City and killed Jia Wenrui, so knowing this, he would likely take revenge for Jia Wenrui, right?

Gao Hongbo immediately said, "My lord, you may not know that Purple Moon City has now been annexed by a city called White Feather City, and the City Lord Jia Wenrui was brutally killed by White Feather City's City Lord."

Upon hearing this, Xiao Yunze's face showed no emotion; he had heard of this from Zhan Mo earlier.

Moreover, before coming from the Tianxia Immortal Dynasty, he had anticipated that Jia Wenrui might have encountered trouble, otherwise there would've been some news over the years.

Their king had Jia Wenrui keep an eye on White Feather City. Initially, Jia Wenrui was very diligent, reporting every minor incident from White Feather City, but suddenly, there was no news for years. It was evident something had happened.

On the way here, Xiao Yunze happened to meet Zhan Mo, who was attending an alliance meeting, so he inquired about the situation of Purple Moon City through Zhan Mo, and later confirmed through him that indeed something had occurred in Purple Moon City, and Jia Wenrui had most likely been killed.

According to King Anyuan's intentions, even if Purple Moon City was destroyed and Jia Wenrui was dead, it wasn't his place to intervene; he only needed to keep an eye on White Feather City and wait for Chen King's return.

However, Xiao Yunze had his own plans.

Not long ago, he heard from a small source that King Guangren had already received support from Blood Eagle Hall.

Blood Eagle Hall had three Immortal Kings, and since King Guangren himself had connections with certain major forces, he was currently the most likely candidate to become the next Immortal Dynasty Master in the Tianxia Immortal Dynasty.

Moreover, Xiao Yunze was just a minor figure under King Anyuan and couldn't get significant opportunities. He thought if he could find Chen King's whereabouts and offer that as a pledge to King Guangren, he might be able to join King Guangren's camp.

Xiao Yunze asked, "Are you all forming an alliance to destroy White Feather City?"

Gao Hongbo quickly replied, "Yes, my lord!"

"However, we suspect that there is strong support behind White Feather City, so we dare not act rashly."

"The former Lu Zhengze didn't have such ambitions, and with his lifespan nearing its end, he shouldn't have had the power to kill Jia Wenrui, so there's likely a strong figure behind him."

Xiao Yunze thought to himself that it was likely Chen King gave Lu Zhengze something to enhance his power.

If they could capture Lu Zhengze, they might ask him about Chen King's whereabouts.

Thinking of this, Xiao Yunze glanced at this motley group in the hall and said, "Jia Wenrui was my subordinate. Since White Feather City dared to touch my people, White Feather City need not exist either."

"You can send the troops directly; at the critical moment, I will make a move."

Hearing this, everyone present was overjoyed; if a True Immortal took action, even whatever Magic Treasure Lu Zhengze had wouldn't likely be a match for them.

Only, in this case, Lu Zhengze's Magic Treasure would fall into this True Immortal's hands.

Of course, compared to the Magic Treasure, eliminating the threat posed by White Feather City was their primary goal.

If the Magic Treasure is lost, so be it, as long as the threat of White Feather City is removed.

With Xiao Yunze as backing, various cities began to mobilize troops quickly, forming a coalition army to march on Purple Moon City.

Lu Chen had established a Teleportation Array between Purple Moon City and White Feather City. Currently, his clone was stationed in Purple Moon City, while White Feather City, being closer to the edge of the Chaotic Sea, was more severely eroded by Chaos Qi, making it unsuitable for Cultivators and Immortals to train, so Lu Chen planned to gradually move inland.

Lu Chen closely watched the actions of other cities in the Land of Chaos, waiting for them to come to him.

Phoenix City, City Lord's Mansion.

Lu Chen's clone was in the Training Ground, guiding the soldiers in cultivation, when Lu Zhengze hurriedly came to him and said, "Great King, the City Lords of the Land of Chaos, led by the Lord of Shiyang City, have united, and their army is marching toward Purple Moon City."

Lu Chen said, "Let them come. Activate the Great Array; stay inside, and don't go out."

Lu Zhengze and Liao Xiaoshuang were no longer fit for battle, so Lu Chen planned to resolve the crisis alone.

Upon hearing Lu Chen's words, Lu Zhengze immediately understood Lu Chen intended to take action himself, and he said, "Great King, there are about ten

Heavenly Immortals coming this time, and without assistance, you might get injured."

Lu Chen nonchalantly replied, "No matter, only ten Heavenly Immortals."

Seeing that Lu Chen didn't regard those Heavenly Immortals as a threat, Lu Zhengze said no more, thinking that given the Great King's power, he should easily be able to kill those ten Heavenly Immortals.

Chen King remains the Chen King of old.

Hundreds of millions of years ago, Chen King rose with power, defeating enemies across realms. To him back then, surpassing even two major realms was within reach.

Lu Zhengze was concerned that Chen King had just emerged from the Chaotic Sea, with potential damages across the board, and might no longer possess his former glory.

But now it seems Chen King has not changed a bit.

Chapter 1637: Chapter 1327: Could This Person Be the Disciple of the Chen King?

Half a month later, led by Gao Hongbo, the City Lord of Shiyang City, ten Heavenly Immortals, along with an army of millions, arrived outside Purple Moon City.

At this moment, hovering above the outside of Purple Moon City, was an Immortal Ship belonging to Purple Moon City.

Facing this Immortal Ship was an army of millions, one Immortal Ship against an army of millions, creating a strange and daunting scene.

Standing on the deck of his Immortal Ship, Gao Hongbo said perplexedly, “Just one Immortal Ship from White Feather City?”

Zhan Mo said, “Could it be that Lu Zhengze learned of our approach and escaped ahead of time?”

Min Guanghua said, "They shouldn't have escaped; even Purple Moon City's Great Array has been activated. If they had truly fled, how could they leave a single Immortal Ship outside?"

Zhan Mo then said, "Regardless of whether they've fled or not, let's fight our way in first."

With these words, Zhan Mo flew directly in front of the warship where Lu Chen was.

As he approached the Immortal Ship, Zhan Mo saw clearly a man standing on the deck and immediately released his Divine Sense to probe Lu Chen's strength.

Upon discovering that the person on the White Feather Immortal Ship had only an Earth Immortal cultivation state, he was puzzled. Then he said to Lu Chen, "Kid, are you here to surrender? Where is Lu Zhengze?"

Lu Chen glanced at Zhan Mo, then at the Heavenly Immortals behind him, and said, "To kill you all, I am enough alone!"

Those present were all taken aback by Lu Chen's words.

Gao Hongbo said, “Such an arrogant guy!”

Min Guanghua said, “Unless I’m mistaken, this kid is only at the Earth Immortal level, yet he’s so arrogant!”

Zhan Mo, coming back to his senses, sneered and said, “A truly reckless fool!”

“Since you’re so confident, I must see how you will kill us!”

As he spoke, a massive axe appeared in Zhan Mo’s hand, and he swung it at Lu Chen.

Zhan Mo’s axe swing showed no mercy, going all out not just to kill the Earth Immortal in front of him but also intending to slash through the Array Barrier of Purple Moon City.

Nine Heavens Profound Thunder Axe!!!

As the axe was swung, golden lightning danced upon the axe qi, and then the axe qi imbued with thunderbolt power shot towards Lu Chen.

Seeing this, Lu Chen unhurriedly took out the Immortal Slaying Sword from his Space Ring.

At the moment the Immortal Slaying Sword was drawn, Xiao Yunze, who was cultivating inside the Immortal Ship, immediately opened his eyes.

The next moment, his figure appeared outside the Immortal Ship, and feeling the pressure emitted by the Immortal Slaying Sword, Xiao Yunze's breath became slightly erratic.

A Heaven Rank Immortal Sword!

This imposing pressure must indeed be from a Heaven Rank Immortal Sword!

To unexpectedly encounter a Heaven Rank Immortal Sword in such a remote place, his luck was incredibly good!

In Xiao Yunze's eyes, the Immortal Slaying Sword was already his.

Just an Earth Immortal, he wouldn't even need to act personally.

However, what none of them expected was, just as the axe qi was about to strike the Earth Immortal, that Earth Immortal slowly raised his hand and swung a sword.

The next moment, a blood-red Sword Qi was unleashed. It transformed into a giant dragon, instantly shattering the axe qi released by Zhan Mo and then lunged straight at him.

Zhan Mo hurriedly channeled Immortal Aura into his axe, and in an instant, the axe emitted a golden glow, forming a light sphere enveloping him.

However, as soon as the Blood Dragon touched the golden light sphere, it shattered. Not only did the light sphere break, but Zhan Mo's axe also shattered in an instant.

Zhan Mo was sent flying backward, crashing through several Immortal Ships behind him.

Seeing Lu Chen's sword attack, Xiao Yunze became even more excited.

This is the power of a Heaven Rank Immortal Sword!

What a terrifying power.

An Earth Immortal wielding a Heaven Rank Immortal Sword can easily defeat Heavenly Immortals. If he possessed this Immortal Sword, wouldn't he also be able to fight across realms?

Xiao Yunze had only one thought left in his heart, that he must obtain this sword!

However, considering the power of this Heaven Rank Immortal Sword, Xiao Yunze did not act immediately. He directed the Heavenly Immortals behind him, "All of you, attack!"

At Xiao Yunze's command, Gao Hongbo and other City Lords of Heavenly Immortal Realm joined the fray, and various magic techniques rushed towards Lu Chen.

Lu Chen did not defend proactively; he slashed out with his sword again, sending forth another Blood Dragon that shattered all the magic techniques of the Heavenly Immortals.

For Lu Chen, attacking proactively was the best defense. After using Green Fall Cyan Dragon Roar, he immediately performed the Divine Light Thousand Lamp Scripture.

When the oil lamp phenomenon appeared in the sky, Xiao Yunze frowned; he already sensed something was amiss.

With just a Heaven Rank Immortal Sword, regardless of how powerful this Earth Immortal's strength, it stood to reason that he couldn't unleash two such terrifying Sword Qis in such a short time. The swordsmanship used by this Earth Immortal must not be simple either.

The presence of these oil lamp anomalies in the air, which even made a True Immortal like him uneasy, suggested that this cultivation technique was also nothing ordinary and likely a Heavenly-level Cultivation Skill.

Possessing both a Heaven Rank Immortal Sword and a Heavenly-level Cultivation Skill, it seemed that Chen King valued this person highly.

Could this person be Chen King's disciple or possibly Chen King's child?

If this person were Chen King's child, capturing him and then defecting to King Guangren would undoubtedly be a great achievement.

At this moment, with the occurrence of the Divine Light Thousand Lamp Scripture anomaly, the Heavenly Immortals present distinctly felt their Immortal Aura flow becoming difficult, and their strength was significantly impacted.

In the next instant, the red Immortal Aura released by the Divine Light Thousand Lamp Scripture coalesced, forming massive strands of Red Silk, which raced toward the Heavenly Immortals present.

One Heavenly Immortal, unable to evade in time, was directly ensnared by the Red Silk, and immediately afterward, Lu Chen slashed again.

Green Fall Cyan Dragon Roar!!!

The next moment, a Blood Dragon pierced through that Heavenly Immortal's body, instantly obliterating his Divine Soul.

Witnessing this scene, the remaining Heavenly Immortals all displayed expressions of terror.

Just like that, dead?

An Earth Immortal instantly killed a Heavenly Immortal!

Are they dreaming?

For a moment, the City Lords present all began to contemplate retreat, though they believed that combined, they should have no issue dealing with an Earth Immortal, however formidable he might be, they would eventually manage to solve him.

However, after witnessing the death of a Heavenly Immortal, they hesitated inwardly, knowing full well that even if they eventually slew this Earth Immortal, in the process, this Earth Immortal might still manage to kill other Heavenly Immortals.

No one wanted to become that unlucky soul who got slain.

Seeing the Heavenly Immortals before him retreating with fearful expressions, Xiao Yunze's face instantly darkened, and he said coldly, "What a bunch of useless people!"

So many Heavenly Immortals, yet unable to kill an Earth Immortal, and now they've been scared out of their wits by him.

Xiao Yunze no longer counted on these people, and he immediately released his aura, attempting to intimidate Lu Chen in the distance with the pressure of a True Immortal.

Having children earns benefit, start competing for dominance in the world by marrying a wife

Chapter 1638: Chapter 1328: Why Not Establish an Immortal Dynasty Here

When Xiao Yunze released all his aura, Lu Chen's body suddenly became incredibly heavy, and the next moment, Xiao Yunze swung his palm, unleashing a terrifying force that shattered the manifestation of the Divine Light Thousand Lamp Scripture.

Xiao Yunze's figure flashed, appearing not far from Lu Chen, and he coldly asked, "Boy, what is your relationship with the Chen King?"

"Tell me, and I might spare your life."

Upon hearing Xiao Yunze's words, Lu Chen chuckled softly, "Just a mere True Immortal, and you dare to call yourself 'this one'."

Xiao Yunze's face instantly darkened.

Mere True Immortal?

This Earth Immortal was so arrogant in front of him, even calling him a mere True Immortal?

After coming to his senses, Xiao Yunze coldly laughed, “This one would like to see what gives you such confidence!”

As his words fell, a Law Manifestation hundreds of feet high appeared behind Xiao Yunze, and he immediately struck towards Lu Chen with his palm.

With this strike, he still held back, using neither a Cultivation Technique nor any Magic Treasure. He currently just wanted to cripple this Earth Immortal in front of him, not intending to kill him.

He thought to himself that once he captured this person, he would perform a Soul Search to find the whereabouts of the Chen King.

Although Xiao Yunze was a True Immortal, Lu Chen clearly felt that he was also capable of fighting, though combating a True Immortal two major Realms above the Earth Immortal Realm would require a huge expenditure of time, without necessarily being able to kill Xiao Yunze.

There's no need to waste time.

Forget it, better use the Immortal King's Remain Curse.

Against a True Immortal, it wouldn't consume too much power from the Immortal King's Remain Curse.

Thinking of this, Lu Chen directly activated the Immortal King's Remain Curse, a black lotus mark appearing on his forehead, and immediately, a vast power surged from within his body.

Before Lu Chen even struck, the power emanating from his body directly shattered Xiao Yunze's palm strike.

Feeling the terrifying aura and pressure on Lu Chen, everyone present was stunned.

Especially Xiao Yunze, who had seen an Immortal King and clearly knew that such pressure could only be released by an Immortal King.

How is this possible...

Immortal King...

This person before him is actually an Immortal King!!!

Wait a minute, if he's an Immortal King, then does that mean he's the Chen King himself???

At the thought of this possibility, Xiao Yunze's face turned ashen.

He hurriedly said, "No, you can't kill me. If you do, King Anyuan will definitely send more people! You will have no place to hide!"

Hearing Xiao Yunze's words, Lu Chen chuckled softly, indicating that Xiao Yunze had already guessed his identity.

"It seems you know who I am. Since you've guessed my identity, I can't let you live!"

Upon hearing this, Xiao Yunze realized Lu Chen had murderous intent, and he quickly activated all his Life-saving Treasures.

Without hesitation, Lu Chen swung a sword.

Green Fall Cyan Dragon Roar!!!

The next moment, a massive Blood Dragon instantly pierced through Xiao Yunze's body, and the Magic Treasures he activated were crushed by the Blood Dragon's pressure as it approached.

Xiao Yunze's body and Divine Soul were completely destroyed, reduced to ashes, leaving not a trace of remains.

When Gao Hongbo and the others saw Xiao Yunze's miserable state, they stood frozen in fear, not daring to move.

One strike to kill a True Immortal?

What kind of power is this?

Immortal Monarch? Immortal King?

It couldn't be a Golden Immortal, otherwise Xiao Yunze couldn't have been annihilated so thoroughly; after all, he had the body of an Immortal. If the opponent was just a Golden Immortal, Xiao Yunze would have at least left some remains.

Thinking of these things, Gao Hongbo and the others were drenched in cold sweat.

They really couldn't figure out how such a powerful being ended up in a place like the Land of Chaos.

Lu Chen withdrew his aura at this time, but even so, Gao Hongbo and the others still dared not move from their spot.

Lu Chen glanced at the people present and noticed their Loyalty was rising rapidly. In the Tianyan Immortal Domain, a world where strength reigns supreme, after witnessing his terrifying power, these people naturally lost the will to resist.

Lu Chen then asked, "Do you want to die or live?"

As soon as Lu Chen's voice fell, Min Guanghua immediately dropped to the ground, then directly knelt down, his entire body bowing to the ground, "Senior, I, the little one, am willing to submit to White Feather City!"

Although he didn't know why this powerful being appeared in the Land of Chaos, he should be the powerhouse behind White Feather City. In the current situation, if they didn't submit, there would only be a dead end.

Seeing Min Guanghua surrender, other City Lords from different cities also knelt to the ground, "We are also willing to surrender to White Feather City!!!"

Seeing the City Lords of the Land of Chaos surrender, Lu Zhengze finally deactivated the Defense Array of Purple Moon City.

He came to Lu Chen's side and asked, "Great King, how should we handle these people?"

Lu Chen glanced at the trembling City Lords lying on the ground, then said, "Now is when we need manpower the most, let them continue to serve as the City Lords of their respective cities."

Hearing Lu Chen's words, Lu Zhengze thought of something and then said, "Now that the entire Land of Chaos is yours, why don't we establish an Immortal Dynasty here?"

Lu Chen turned his head to glance at Lu Zhengze, then said, “In this desolate place, without even a trace of Immortal Aura, what’s the point of establishing an Immortal Dynasty?”

Lu Zhengze said, “Although there’s no Immortal Aura, the Land of Chaos is populous and vast. If an Immortal Dynasty is established, it could certainly accumulate considerable Qi Fortune for an Immortal Dynasty, and with that, your cultivation could recover even faster.”

After hearing Lu Zhengze’s words, Lu Chen realized that with the blessing of the Qi Fortune of an Immortal Dynasty, cultivation speed could increase significantly, and it might even make it easier for him to have children.

However, if he were to establish an Immortal Dynasty now, it might attract the attention of some powerful factions. Even though the Land of Chaos is a barren place, once an Immortal Dynasty is established, it’s inevitable that some forces would covet this place.

After all, the Qi Fortune of an Immortal Dynasty is also a valuable asset.

After pondering for a moment, Lu Chen said, “Let’s delay the establishment of an Immortal Dynasty. Earlier, the True Immortal I killed was sent by King Anyuan. Since I killed his man, I’m not sure what he’ll do next.”

Lu Chen thought, after killing Jia Wenrui, it wasn't surprising if Lu Jing sent someone to check what happened, but it was unlikely he'd make a direct move against him.

After all, Lu Jing's goal was to use others to kill him, and in Lu Jing's eyes, he was a useful pawn. It didn't make sense to target this pawn so soon.

But he had previously used the system to identify Xiao Yunze's identity, and Xiao Yunze was indeed Lu Jing's man.

Lu Chen was uncertain if Xiao Yunze's actions were under Lu Jing's orders or merely Xiao Yunze's personal whims.

Lu Chen felt a bit of regret; had he known, he would have held back earlier, but in that one strike, he obliterated Xiao Yunze's Divine Soul, leaving him unable to perform a Soul Search.

Now, he could only watch and wait for Lu Jing's reaction.

If Lu Jing still doesn't intend to reveal his identity, then he could choose to establish an Immortal Dynasty.

Having children earns benefit, start competing for dominance in the world by marrying a wife

After Lu Chen killed Xiao Yunze, another ten years quickly passed.

In these ten years, White Feather City integrated the entire Land of Chaos and even established the White Feather Army. Although it hasn't become an Immortal Dynasty, it already bears the basic shape of one.

However, White Feather City's actions have caused other cities to completely lose their independence, greatly weakening the autonomy of those City Lords. The most important aspect is that their accumulated wealth was handed over, and some of the powerful individuals they cultivated were also absorbed into White Feather City.

With White Feather City pressing down on them, the strength of their respective cities would weaken more and more, and in the end, these City Lords would become servants of White Feather City.

Although they initially surrendered under Lu Chen's pressure, they didn't expect White Feather City to intervene so deeply in the affairs of their cities after their surrender.

Not only was their wealth confiscated, but their strength was also continuously diminished. If this continues, White Feather City could dispose of their City Lords as they please.

Ancient Spirit City.

City Lord's Mansion.

In the Meeting Hall of the City Lord's Mansion, feasts and dances were in full swing, with delicious food and beautiful women everywhere.

Zhan Mo sat in the hall's seat, glanced at the guests on either side, and with a smile said, "Thank you all for giving me face and attending today's banquet."

At this time, Min Guanhua curiously asked, "I wonder why City Lord Zhan invited us here?"

Zhan Mo picked up the wine glass on the table, drank it in one gulp, and then said, "Gentlemen, are you really willing to continue being exploited by White Feather City?"

Upon hearing Zhan Mo's words, everyone present was startled. They didn't expect Zhan Mo would actually bring up this topic.

Although they're displeased with White Feather City, they only dared to keep such resentment hidden because White Feather City allegedly has the terrifying backing of an Immortal King.

If they spoke up, there's no telling if these words would reach that person's ears someday. If that person knew, they might end up with only a dead end.

Min Guanhua frowned and said, "City Lord Zhan, do you know what you're saying right now?"

Zhan Mo calmly refilled his glass and drank it again, then said leisurely, "Of course, I know what I'm saying."

"And don't pretend; I know you're dissatisfied with White Feather City too, you're just afraid of the person behind White Feather City."

Hearing these words, Gao Hongbo laughed and said, "Since City Lord Zhan knows who we're afraid of, why gather us to discuss this?"

"Perhaps City Lord Zhan has a death wish and wants to drag us down with him?"

Zhan Mo said indifferently, "A death wish?"

Zhan Mo chuckled, "I have just broken through to Heavenly Immortal not long ago and possess a lifespan of billions of years, why would I not want to live?"

"It's just that I can't stand this kind of exploitation."

"Also, I can tell you something that I believe everyone here would find very interesting."

"Do any of you know where Lord Xiao came from?"

Everyone showed a hint of confusion.

Min Guanghua asked, "Lord Xiao? Who's that?"

Zhan Mo said, "The True Immortal who came to the Land of Chaos before."

Gao Hongbo said, "City Lord Zhan, if you have something to say, just say it. I don't want to mess around here."

Zhan Mo said, "Eh, City Lord Ge, don't be in such a hurry."

"When I met with Lord Xiao, he mentioned his identity. He's a subordinate of King Anyuan of the Tianxia Immortal Dynasty."

"The reason he came to the Land of Chaos is because King Anyuan of the Tianxia Immortal Dynasty assigned him a task."

Hearing these words, the people present were stunned again.

They didn't expect Xiao Yunze to have such a significant background. For City Lords in the Land of Chaos, an Immortal Dynasty is an enormous entity.

At this point, one of the City Lords in the hall said, "Even if that person is from the Tianxia Immortal Dynasty, so what?"

Zhan Mo said, "Think about it, what kind of task would bring Lord Xiao to a place like the Land of Chaos, which lacks Immortal Aura?"

"I believe the task must be extremely important, and it might be related to the person behind White Feather City. After all, it's bizarre for such a terrifying existence to suddenly appear in a place like the Land of Chaos."

Listening to Zhan Mo's analysis, everyone agreed there was some truth to it.

Min Guanghua said, "Even if it's related to that person, what does it have to do with us?"

The Tianxia Immortal Dynasty is too far while White Feather City is too near; that person could take their lives anytime.

Zhan Mo said, "Lord Xiao hasn't returned yet. What do you think, if King Anyuan sees that Lord Xiao hasn't returned, will he send even stronger Immortals to the Land of Chaos?"

Upon hearing this, everyone was shocked. If Lord Xiao did come for the person behind White Feather City and hasn't reported back, King Anyuan might actually send more formidable people.

Min Guanghua said, "Let him send people then, it has nothing to do with us."

Zhan Mo sneered, "How foolish!"

Min Guanghua's expression darkened with fury, just as he was about to speak, Zhan Mo continued, "City Lord Min, think about it, how could a strong individual choose to stay in the Land of Chaos?"

"I don't know what that person's identity is, but he must be evading an even stronger enemy, forcing him to hide here in the Land of Chaos."

"Obviously, King Anyuan of the Tianxia Immortal Dynasty is the strong enemy behind White Feather City. If King Anyuan knew that the person behind White Feather City was in the Land of Chaos, he would surely send people to deal with him."

When the strong ones from the Tianxia Immortal Dynasty come to the Land of Chaos, will those of us loyal to White Feather City have a good outcome?

This...

After listening to Zhan Mo, the City Lords in the hall looked at each other and felt that Zhan Mo made a good point.

Zhan Mo continued, "If we want to survive, the best way is to actively communicate with King Anyuan and inform him of what's happening in the Land of Chaos."

"Once King Anyuan learns of the person in the Land of Chaos, he will definitely send experts to resolve the one behind White Feather City. Once that person is dead, the Land of Chaos will return to its former state."

As Zhan Mo finished speaking, the hall fell silent; if everything happened as he said, they indeed should seek a way out.

For a moment, everyone began contemplating whether to find a means to connect with King Anyuan.

At this moment, Min Guanghua asked, "City Lord Zhan seems to have no reason to tell us this?"

If Zhan Mo wasn't lying, he could find a way to contact King Anyuan of the Tianxia Immortal Dynasty himself. Once King Anyuan sends strong figures, the person behind White Feather City and those who joined White Feather City might be dealt with; once they're gone, the entire Land of Chaos would be under Zhan Mo's control.

Chapter 1640: Chapter 1330: Zhan Mo Leaves the Land of Chaos

Upon hearing Min Guanghua's question, Zhan Mo smiled and said, "Initially, I did not plan to inform all of you."

"However, to leave the Land of Chaos in the shortest time, I must activate a long-distance teleportation array."

"This teleportation array requires a massive amount of Immortal Aura. Although I can use it alone, after utilizing it, I will enter a period of weakness. If that happens when I arrive at the Tianxia Immortal Dynasty, finding King Anyuan immediately will be impossible."

"If you all could help me activate the teleportation array, I could preserve my strength upon reaching the Tianxia Immortal Dynasty, making it easier to find King Anyuan then."

Min Guanghua said, “Must we use the teleportation array? The Tianxia Immortal Dynasty shouldn’t be far from the Land of Chaos, right?”

Zhan Mo said, “Over the years, White Feather City has been monitoring closely. Each of our cities is infiltrated by their spies. If I head directly to the Tianxia Immortal Dynasty, I might be discovered. With my speed, I fear I’d be caught by the person behind White Feather City before leaving the Land of Chaos.”

The hall fell into deep thought, and then Min Guanghua asked, “Aren’t you afraid someone here might betray you and inform White Feather City?”

Zhan Mo laughed and replied, “You all just need to swear a Blood Oath.”

Min Guanghua frowned, wanting to say something, but Zhan Mo calmly stated, “Since I invited all of you here, naturally, I have prepared.”

Min Guanghua immediately understood the implication behind Zhan Mo’s words, realizing that failing to swear a Blood Oath might mean not leaving Zhan Mo’s Ancient Spirit City.

Although Zhan Mo’s strength as a Heavenly Immortal is limited, the city boasts a powerful formation, and undoubtedly, someone has already sided with Zhan Mo here.

At that time, the coalition and the formation would make eliminating threats rather easy.

After Zhan Mo finished speaking, the entire hall fell silent. Everyone glanced around, unable to determine if anyone had already teamed up with Zhan Mo.

After a while, a City Lord said, "I've long disliked White Feather City. If things are as City Lord Zhan said, I'm willing to lend a hand."

"I, Wang Huai, vow here not to reveal today's matters, or else I'll die, with my Divine Soul extinguished!"

Once the first person spoke, other City Lords quickly followed with their Blood Oaths, leaving only Gao Hongbo and Min Guanghua yet to swear.

Gao Hongbo thought for a moment and ultimately decided to side with Zhan Mo, having long wished to escape White Feather City's control.

Initially, he joined forces with the Land of Chaos' city lords to attack White Feather City. After their defeat, though accepted as surrendered, he faced numerous constraints, and Shiyang City, once a significant city, was fragmented.

Due to the defeat, his city was split into smaller ones, and White Feather City supported certain families in his city, greatly weakening Shiyang City's strength.

If this continues, Shiyang City would eventually be completely under White Feather City's control, ending his tenure as City Lord.

With a chance now to break free from White Feather City, naturally, he wanted to seize it.

Then Gao Hongbo swore, saying, "I, Gao Hongbo, once again swear not to reveal today's matters in the slightest, or else I'll die, with my Divine Soul extinguished."

After Gao Hongbo swore his Blood Oath, only Min Guanghua remained, and everyone turned their gaze on him.

Seeing Min Guanghua hesitate to swear, Zhan Mo laughed and said, "City Lord Min, could it be you still harbor some hope for White Feather City?"

Min Guanghua calmly responded, "City Lord Zhan, are you certain you'll return after leaving the Land of Chaos through the teleportation array?"

Upon Min Guanghua's question, everyone's gaze shifted to Zhan Mo.

Indeed, under White Feather City's pressure, some city lords planned to leave the Land of Chaos, only fearing to do so due to the vigilance of the person behind White Feather City.

With Zhan Mo planning to leave, nobody could say for sure if he'd return, or if he truly sought King Anyuan.

If they helped Zhan Mo leave and he never came back, it would waste their Immortal Aura.

While losing Immortal Aura might be minor, what if White Feather City's master discovered they helped him? What troubles would follow then?

Zhan Mo said, "What are you saying, City Lord Min? I would never not return. I'm merely leaving Ancient Spirit City alone; my family remains."

Hearing this, Min Guanghua reluctantly vowed, "I, Min Guanghua, hereby swear not to reveal today's matters, or else I'll die, with my Divine Soul extinguished."

Seeing Min Guanghua swear, Zhan Mo stood and said, "Since everyone trusts me, let's proceed. The sooner I reach the Tianxia Immortal Dynasty, the sooner I can report this to King Anyuan."

With these words, Zhan Mo led the city lords to a valley outside Ancient Spirit City. Amid swirling sands stood tall stone pillars, inscribed with various formation motifs.

Zhan Mo said, “This is the teleportation array leading directly to the Tianxia Immortal Dynasty.”

Looking at the teleportation array, everyone felt a bit puzzled; how could such a place devoid of Immortal Aura have a teleportation array?

Seeming to read their minds, Zhan Mo continued, “This teleportation array dates back billions of years; its age requires substantial Immortal Aura to activate.”

Gao Hongbo spoke, “Since City Lord Zhan has decided to go to the Tianxia Immortal Dynasty, let’s begin, so City Lord Zhan may go and return early.”

Upon Gao Hongbo’s words, he immediately channeled Immortal Aura into the teleportation array, soon followed by others channeling Immortal Aura from various positions.

As Zhan Mo claimed, the teleportation array indeed consumed immense Immortal Aura. Even these Heavenly Immortals felt a massive depletion within moments, unimaginable if one were to activate it alone and reach the destination weak.

The next moment, the teleportation array emitted a dazzling light, and a vortex gate appeared in the center of the array platform.

Zhan Mo then said to Gao Hongbo and others, “Thank you all for your help. Once I reach the Tianxia Immortal Dynasty and find King Anyuan, I’ll surely speak favorably of you.”

Finishing his words, Zhan Mo stepped toward the vortex within the teleportation array.

As his figure vanished into the vortex, Gao Hongbo and others ceased channeling Immortal Aura.

Feeling their Immortal Aura mostly depleted, a person laughed curiously, “What level is this teleportation array to consume Immortal Aura like this?”
