Chapter 1701: Chapter 1391: Yun Yudie Takes Action Personally

Frost City is a city where cultivators gather. In recent years, Frost City has provided a large number of Immortal Seeds to the Mysterious Moon Palace, gaining its attention and also attracting the notice of Blood Eagle Hall.

Blood Eagle Hall is currently trying to weaken the Immortal Sect's Qi Fortune of Mysterious Moon Palace, and they certainly won't miss out on Frost City, which can increase the Immortal Sect's Qi Fortune of Mysterious Moon Palace.

He Shuwen was stunned when he heard Liang Jingxing's words. Wedding ceremony? What wedding ceremony?

Frost City is very far from Mysterious Moon Palace, and the news of Mysterious Moon Palace holding a wedding ceremony for Lu Chen hasn't reached Frost City yet. The reason Liang Jingxing and his people were able to learn beforehand is due to their use of Sound Transmission Jade Tokens to inform them that Mysterious Moon Palace is holding a wedding ceremony, making it the best time for them to conduct large-scale destruction.

Mysterious Moon Palace is hosting a wedding ceremony, so naturally, they won't have time to manage them.

Currently, not only Frost City, but multiple cities within the territory of Mysterious Moon Palace where cultivators gather are experiencing the same scene.

At this moment, dozens of Evil Souls surged towards He Shuwen. Seeing the overwhelming Evil Souls, He Shuwen was completely in despair.

Not to mention that his message cannot be transmitted out, even if it could, it might be too late, unless the Immortal King personally descends.

The Immortal King of Mysterious Moon Palace could indeed instantly descend here, but the Evil Immortal in the sky just mentioned that Mysterious Moon Palace is hosting some wedding ceremony, and there is simply no time to deal with this matter.

Although Frost City is a city where cultivators gather and has provided many Immortal Seeds to Mysterious Moon Palace over the years, it is still just a Mortal City. To Immortals, mortals are like ants, especially after the Reproduction Path returned to normal, it became much easier for Immortals to nurture offspring, making the lives of mortals even more insignificant.

Just when He Shuwen was ready to embrace death, suddenly, an overwhelming pressure descended.

Feeling this pressure, everyone present was stunned.

Especially Liang Jingxing and others from Blood Eagle Hall, they had chosen today to strike Frost City based on intel that Mysterious Moon Palace is holding a wedding ceremony. There shouldn't be any powerful individuals appearing here at this time.

Upon sensing a powerful presence, Liang Jingxing immediately took out a Teleportation Talisman and said to those around him: "We retreat!"

As soon as the words fell, several people prepared to activate the Teleportation Talisman to leave.

These days, the Evil Immortals of Blood Eagle Hall have managed to wreak havoc in the territory of Mysterious Moon Palace because they possess a large number of Teleportation Talismans. Whenever they sense a powerful presence approaching, they would promptly use the Teleportation Talismans to leave directly. By the time the experts of Mysterious Moon Palace arrive at the cities they've ravaged, they are already gone.

The Teleportation Talisman is considered a rare talisman in itself, but nowadays, Blood Eagle Hall has the backing of Tianxia Immortal Dynasty and Heavenly Splendor Hall. They have as many Teleportation Talismans as they wish.

Especially with the support of Qingyun Immortal King of Heavenly Splendor Hall, their power has greatly increased, which is why the actions of Blood Eagle Hall have become more frequent lately.

Originally, according to their plan, it would take at least one to two hundred years to prepare to take down the entire Mysterious Moon Palace and Chiyan Sect. But ever since they received backing from Qingyun Immortal King, Blood Demon Immortal King feels they can conquer Mysterious Moon Palace in less than fifty years.

However, just as Liang Jingxing and others were about to activate the Teleportation Talisman to leave, suddenly, they felt that terrifying pressure directly locking them in. In the next moment, the Teleportation Talisman in their hands turned to ashes, but they remained in place.

Seeing the space sealed, Liang Jingxing and others broke into a cold sweat; could the person who came be the Mysterious Moon Immortal King?

Isn't she supposed to be hosting a wedding for her disciple?

Why would she leave Mysterious Moon Palace at this time?

At this moment, countless ice-blue butterflies appeared in the air, and in the next moment, these ice-blue butterflies gathered to form a woman.

The person who came was Yun Yudie.

Feeling the aura on Yun Yudie, the pupils of Liang Jingxing and others contracted abruptly. They had never met Yun Yudie, but they were aware of some information about Yun Yudie, so they recognized her instantly.

Liang Jingxing and others were immediately in despair; unexpectedly, the one who came was indeed the Mysterious Moon Immortal King.

Why would the Mysterious Moon Immortal King not host the wedding for her good disciple at Mysterious Moon Palace but rather concern herself with these mortals' lives!

Yun Yudie didn't care what the Evil Immortals thought. Although the Immortal Aura of Evil Immortals can suppress the Immortal Aura of Righteous Immortals, that's only when the strength is closely matched. When there's a significant gap in Realm, even if the Immortal Aura of Evil Immortals can suppress the Immortal Aura of Righteous Immortals, it won't have much effect.

For example, now, Liang Jingxing and the group of Evil Immortals only have the Cultivation State of True Immortal, and facing Yun Yudie, an Immortal King, they have almost no power to resist.

Yun Yudie raised her hand immediately, and waves of cold energy released from her body. In an instant, the entire space was frozen, and Liang Jingxing and others were also turned into ice sculptures.

They couldn't even self-destruct before they turned into ice crystals and dissipated into the air, though their Divine Souls did not perish so quickly.

Upon sensing the death of their Physical Body, Liang Jingxing's Divine Soul hurriedly fled towards the distance, but in the next moment, a terrifying suction drew Liang Jingxing's Divine Soul into the palm of Yun Yudie's hand. Yun Yudie directly used the Soul Searching Technique on Liang Jingxing.

After finding other Evil Immortals' strongholds from Liang Jingxing's Divine Soul, Yun Yudie completely destroyed Liang Jingxing's Divine Soul and then headed to the next location.

The reason she hosts a wedding for Lu Chen is to see if any Evil Immortals would cause trouble at this time. Although Evil Immortals are hard to find when hidden, once they use some evil formations such as the Bloodthirsty Great Formation or Soul Refining Array, she can detect them by probing with Divine Thought.

Over the next few days, Yun Yudie and Ling Yin Immortal King roamed around, clearing out many Evil Immortals sent by Blood Eagle Hall to wreak havoc in Mysterious Moon Palace. For a time, the Evil Immortals within the territory of Mysterious Moon Palace didn't dare to show themselves.

...

King Anyuan's Royal Palace.

Lu Jing sat on the throne, looking at the Jade Token in front of him, unable to contain his smile.

He didn't expect to resolve two threats so easily. Originally, he thought Lu Chen would be discovered so soon, and he couldn't pose much threat to Lu Jingfu anymore, but unexpectedly, Lu Chen gave him such a big surprise.

Lu Chen not only killed Lu Jingfu but also self-destructed himself. In this way, Lu Jing didn't have to worry about what to do with Lu Chen after using him, as Lu Chen handled himself.

Now with Lu Jingfu, a strong competitor for succession, gone from Tianxia Immortal Dynasty, it's much easier for him to ascend to that position.

At this moment, Lu Jing suddenly thought of something and then transmitted a message to Xin Rui, who watches over the Transmission Array, asking him to come to the Meeting Hall.

Although Lu Chen and Lu Jingfu have perished together, there are still some minor matters he needs to take care of.

Having children earns benefit, start competing for dominance in the world by marrying a wife

Xin Rui arrived at the Meeting Hall, bowed to Lu Jing, and said, "Greetings, My King!"

"I wonder what orders you have for your subordinate, My King?"

Lu Jing said indifferently, "You are to make a trip to the Land of Chaos."

Hearing this, Xin Rui was slightly taken aback. What was he to do in the Land of Chaos?

Now that Lu Chen was already dead, there seemed to be no need to interact with those commoners of the Land of Chaos, right?

While Xin Rui was thinking this, Lu Jing continued, "Deal with all the people related to Lu Chen in the Land of Chaos. Do not let anyone slip through."

Even though Lu Chen was dead, Lu Jing was worried that the news of him having supported Lu Chen might be discovered by other factions. If, at that time, the other Princes learned of this and made an issue out of it, it would not be good for him.

After all, all major forces in the Southern Domain had encircled Lu Chen. Once such a colossal threat resurfaced, and he secretly assisted in restoring his cultivation and expanding his power without informing other forces, they would undoubtedly become discontented.

Hence, Lu Chen's former subordinates must be thoroughly eliminated.

Realizing Lu Jing's intent, Xin Rui said, "Yes, My King. I shall head to the Land of Chaos at once."

Lu Jing said, "Go."

Xin Rui bowed again, "Your subordinate takes his leave!"

With these words, Xin Rui turned and left. Watching Xin Rui's departing figure, Lu Jing's lips curved slightly upwards as he muttered to himself, "Lu Chen, I will send your subordinates to accompany you so that you will not be too lonely down below."

...

Central Domain.

Mysterious Moon Palace.

High above, a massive floating island hung in the sky, almost five times the size of Earth.

This was the location of the Immortal Sect of Mysterious Moon Palace.

On a towering mountain peak thousands of meters high in the Mysterious Moon Palace, a solitary grand hall stood majestically atop this peak. This was the bedchamber of the Heavenly Language Immortal Venerable from Mysterious Moon Palace.

A beautiful woman with snow-white hair, dressed in plain white robes, stood on the roof of the hall, gazing into the boundless darkness of the Chaotic Sea.

At this moment, a woman clad in green appeared before the white-haired woman, "Greetings, Honorable One!"

The Heavenly Language Immortal Venerable coldly asked, "How is it?"

The Green-clothed Fairy replied, "Still unsuccessful."

Hearing this, the Heavenly Language Immortal Venerable frowned slightly, unsure how many times this had repeated, yet still no success.

They had always believed that as long as the aptitude was good enough, one could cultivate that Cultivation Technique, so they had turned a blind eye to Yun Yudie's departure, but now it seemed they had misjudged.

The Heavenly Language Immortal Venerable then asked, "Have you found out where Yudie is now? If it still doesn't work, have her return."

The Green-clothed Fairy hesitated for a moment, and then asked, "Honorable One, do you really intend to have her return?"

Although back then the Heavenly Language Immortal Venerable feigned cutting off ties with Yun Yudie upon hearing she wanted to leave, everyone around the Immortal Venerable knew that the Immortal Venerable likely did it to protect her.

The Saintess of Mysterious Moon Palace, after all, was not truly a Saintess, but merely a vessel.

The Heavenly Language Immortal Venerable did not want her disciple to be the vessel; using Yun Qingshu's lost virginity as an excuse, she expelled her from Mysterious Moon Palace, probably for this reason.

The Saintess chosen by Mysterious Moon Palace needed to cultivate a Immortal Law called Life is like a dream. This Immortal Law continually transformed their Divine Soul and body, making them suitable vessels for a certain significant figure's reincarnation.

Though when the selection process for the Saintess initially took place, the Heavenly Language Immortal Venerable, not yet an Immortal Venerate, was merely an Immortal King and unaware of the core secrets of Mysterious Moon Palace.

It was only later when she became an Immortal Venerate that she discovered the true purpose of the selection was not for a successor, but for the Immortal Emperor's vessel for reincarnation.

The greatest secret of Mysterious Moon Palace was, in fact, the existence, or former existence, of an Immortal Emperor.

However, this Immortal Emperor had sealed themselves into slumber, requiring a perfect body to awaken.

Moreover, this Immortal Emperor's reincarnation was unlike ordinary possession, which involves one's Divine Soul possessing another's body.

But this Immortal Emperor's reincarnation targeted the Divine Soul. As the Immortal Emperor's time was running out, even an Immortal Emperor could not escape the ravages of time, and their Divine Soul grew exceedingly weak.

To an Immortal, the demise of the Divine Soul equates to true death.

Yet, this Immortal Emperor discovered a unique Possession Technique. She seemed to sense a special soul source deep within the Divine Soul. As long as her soul source occupied another's Divine Soul, her Divine Soul could rejuvenate, allowing her to live a second life.

Finding a suitable Divine Soul proved immensely challenging. Of course, the Heavenly Language Immortal Venerate and others initially did not realize this. The first Saintess they selected, Yun Qingshu, could already cultivate Life is like a dream, leading the Mysterious Moon Palace to believe anyone with high aptitude could serve as a vessel for reincarnation.

After Yun Qingshu left, the Mysterious Moon Palace selected multiple Saintesses, none meeting the criteria or being able to cultivate the Immortal Emperor's technique, Life is like a dream.

Fortunately, when selecting the Saintess, they also permitted Yun Yudie to try cultivating Life is like a dream, given her promising aptitude, and Yun Yudie succeeded in cultivating this Immortal Law.

Unable to find another suitable candidate, the Mysterious Moon Palace appointed Yun Yudie as the new Saintess while in seclusion. However, upon exiting seclusion, Yun Yudie was infuriated upon learning her sister had been expelled and left along with some from the Mysterious Moon Palace.

The high-ranking officials of Mysterious Moon Palace failed to grasp the rarity of those who could cultivate Life is like a dream. They believed they could simply select another Saintess after Yun Yudie's departure.

The mindset of some in the Mysterious Moon Palace stemmed from its factional nature. Though the Saintess was merely a vessel, the resources she acquired were substantial.

Take the Heavenly Language Immortal Venerable for example. Her swift ascent to Immortal Venerate was primarily due to her direct disciple, Yun Qingshu, becoming a Saintess, drawing immense resources from the Immortal Sect, favoring their sect's peak.

Many forces within the Mysterious Moon Palace coveted the position of Saintess, hoping it would fall within their faction, granting them abundant cultivation resources each year.

Thus, nearly no one stopped Yun Yudie's departure. Only the Heavenly Language Immortal Venerable made a token effort, publicly enacting a master's severance of ties with Yun Yudie.

But no one anticipated that even after billions of years, they had yet to find a third person capable of cultivating Life is like a dream.

Having children earns benefit, start competing for dominance in the world by marrying a wife

After becoming the Heavenly Language Immortal Venerable, she learned many secrets about the Tianyan Immortal Domain.

Therefore, her heart was very conflicted.

Although her relationship with Yun Yudie as master and disciple was rather plain, Yun Yudie was still her direct disciple.

However, according to the information she knew, the Tianyan Immortal Domain's great calamity was approaching. If their Mysterious Moon Palace's Immortal Emperor did not revive in time, then the entire Mysterious Moon Palace would face destruction, and everyone within would perish.

In this world of the strong preying on the weak, sacrificing one person to save so many lives seemed like a lucrative deal.

The Heavenly Language Immortal Venerable thought to herself that she was not only Yun Yudie's honored master, but also an elder of the Mysterious Moon Palace. She couldn't neglect the sect's interests due to personal feelings as master and disciple.

Thinking of this, the Heavenly Language Immortal Venerable said to the Green-clothed Fairy in front of her, "First, find her location. If after another million years we still haven't found someone who can cultivate 'Life is like a Dream,' then bring her back."

The Green-clothed Fairy respectfully said, "Yes, Honorable."

As the words of the Green-clothed Fairy fell, she turned and left.

After the Green-clothed Fairy departed, the Heavenly Language Immortal Venerable once again looked up at the boundless darkness in the sky, and muttered to herself, "Even the Demon Emperor has appeared; I fear the disaster will befall us in less than ten million years."

"Yudie, don't blame your master."

The world of Immortals is cruel; emotions are instead a luxury. Even among couples, pure feelings are rare, with most being an exchange of benefits.

Most couples are for dual cultivation, which is also for strengthening their powers. When even couples are for benefits, what more could be expected from a master-disciple relationship that wasn't very close to begin with?

For the benefit and future of the Mysterious Moon Palace, the Heavenly Language Immortal Venerable would eventually choose to sacrifice Yun Yudie.

Of course, if before the disaster arrives, the Mysterious Moon Palace could find a third person who can cultivate 'Life is like a Dream,' they wouldn't have to sacrifice Yun Yudie.

...

Ever since Lu Chen married Xiao Xueying and Cao Shiyun, he had been indulging in pleasure with the two women daily, hardly cultivating at all.

Of course, this was from Yun Yudie's perspective. Lu Chen seemed to not be cultivating and lacked ambition.

In reality, Lu Chen was dual cultivating with the two women every day, helping them enhance their cultivation states.

Since Lu Chen's marriage, Yun Yudie had been observing Lu Chen, and what she saw was Lu Chen doing nothing but indulging with the women, as if he was completely captivated by their beauty.

If not for the fact that after Lu Chen married the two women, the Immortal Sect's qi fortune of the Mysterious Moon Palace increased significantly, she would have wanted to beat this rebellious disciple.

This made Yun Yudie wonder: if this rebellious disciple indulging in pleasure every day without cultivating could bring such a substantial increase in the Immortal Sect's qi fortune, what if he seriously cultivated? Wouldn't the Mysterious Moon Palace's qi fortune increase even more?

But...

How could she motivate him to focus his mind on cultivation?

It was she who actively married Xiao Xueying and Cao Shiyun to him; now she surely couldn't prevent them from engaging in joy, as both Xiao Xueying and Cao Shiyun were already this rebellious disciple's women. She couldn't, by any means, stop them from their pleasures.

But if she did not stop them from the pleasures, then Lu Chen would continue down this path of indulgence.

Yun Yudie thought over and over again, unable to find a suitable way, and could only continue letting Lu Chen free.

...

Land of Chaos.

Xin Rui stood above a certain city; at this moment, all the people in the city were kneeling on the ground, heads down, not daring to look up at Xin Rui.

Xin Rui glanced towards the direction of the City Lord's Mansion, where everyone, including the City Lord, was also kneeling on the ground, trembling all over, not daring to look up, not to mention speaking.

Xin Rui initially intended to obliterate everyone in the Land of Chaos city by city, but he quickly realized that such efficiency was too low. The Land of Chaos was vast. Even though he was a Golden Immortal and could easily destroy a city with a wave, it took too much time to massacre city by city.

Xin Rui decided to simply find Lu Chen's old subordinates and eliminate the key people first. Not everyone in the Land of Chaos was aware of the connection between King Anyuan and Lu Chen. As long as he eradicated those who knew, his mission would be considered accomplished.

Xin Rui stood high in the air, the purple long gown swaying with the wind. With a wave of his hand, the kneeling City Lord from below flew uncontrollably up into the air and directly into Xin Rui's grasp.

The man immediately pleaded, saying, "Spare me, sir! Spare me, sir!"

Xin Rui did not hesitate, nor did he care whether the man could endure it. He directly used the Soul Searching Technique on him, and swiftly found the location of White Feather City from the man's memory.

Subsequently, with a wave of his hand, the City Lord in his grasp, as well as the civilians below, all turned into a blood mist.

To him, whether they were Immortals or mortals, the people of the Land of Chaos were mere ants - killing them bore no guilt.

Having settled the people of this city, Xin Rui headed in the direction of White Feather City. After a month, he finally arrived at White Feather City.

Upon his arrival at White Feather City's sky, he sensed two True Immortal presences, which caught Xin Rui by surprise. He hadn't expected that as soon as Chen King returned, he'd acquired two True Immortal subordinates.

These two True Immortals must be Chen King's confidants. Since they were his confidants, Xin Rui was even more eager to send the two down to meet Chen King; surely, Chen King would thank him for delivering his associates.

Thinking this, Xin Rui raised his hand, and a violent force converged in White Feather City's sky. The next moment, an enormous golden spear hovered above White Feather City.

Without further ado, Xin Rui lifted his hand, and that thousand-feet-long golden spear fell directly towards White Feather City. Once this spear struck, the entire city would become ruins.

However, just as the spear was about to fall, Lu Zhengze and Liao Xiaoshuang appeared in the air, jointly activating White Feather City's protective array. Instantly, the city was enveloped in a massive blue barrier.

The gold spear unleashed by Xin Rui clashed with the blue barrier, and immediately, Lu Zhengze and Liao Xiaoshuang's faces turned pale. Having only broken through recently, they weren't particularly powerful among True Immortals.

Moreover, they had stayed too long in the Land of Chaos, where there was no Immortal Aura, further weakening them. Their opponent was a Golden Immortal, clearly an adversary beyond their capability.

They had thought that with the rumor of Chen King's death spreading, no one would bother them anymore, for initially, the target was always Chen King. Billions of years ago, those people saw Chen King enter the Chaotic Sea and left without casting a glance at his old followers.

Yet now, someone had come to eliminate these insignificant figures.

Lu Zhengze and Liao Xiaoshuang immediately felt a wave of heat in their chests; the next moment, both coughed up a mouthful of blood.

Having children earns benefit, start competing for dominance in the world by marrying a wife

Chapter 1704: Chapter 1394: Wasn't Lu Chen Dead? How Could He Still Be Alive?

Seeing Lu Zhengze and Liao Xiaoshuang blocking his attack, Xin Rui chuckled with disdain and said coldly, "Cornered beast!"

As he spoke, a towering golden Law Manifestation appeared behind Xin Rui, and immediately thereafter, Xin Rui unleashed his full power on White Feather City.

There is only one Realm difference between a True Immortal and a Golden Immortal; if he didn't go all out, it's indeed possible for these two True Immortals to escape. To kill and silence, Xin Rui decided not to hold back.

Heavenly Gang Life-taking Spear!!!

The golden Law Manifestation behind Xin Rui wielded an even larger golden spear, casting it towards White Feather City. The pressure of this falling spear nearly paralyzed everyone in White Feather City. Even Lu Zhengze and Liao Xiaoshuang found it hard to breathe, their bodies unbearably heavy, as if a mountain pressed down on their hearts.

Their faces turned pale. Now, their King only had a weak clone in White Feather City. Even if he intervened, he was no match for a Golden Immortal. Were the two of them doomed to die here today?

Just when both thought they were certainly doomed, an even more terrifying pressure suddenly erupted from the City Lord's Mansion, instantly nullifying the pressure the golden spear had brought from the sky.

In an instant, everyone in White Feather City felt an incredible lightness.

Now it was Xin Rui's turn to feel uncomfortable. Upon sensing the pressure of Immortal King Level, Xin Rui's expression changed abruptly.

“This is...”

“This is...”

“No... impossible...”

“How could the Land of Chaos have another Immortal King...”

Lu Chen and Lu Jingfu perishing together, how could there be another Immortal King emerging from the Land of Chaos?

The Land of Chaos lacking Immortal Aura and occasionally eroded by Chaos Qi, how could it attract another Immortal King to come?

Xin Rui hastily said, “Who is this elder, and why do you stop me, a junior, from eradicating a villain?”

Without hesitation, Lu Chen flew into the air. The moment Xin Rui saw Lu Chen, he felt as if struck by lightning; his mind went blank.

Lu... Lu Chen...

Wasn't Lu Chen dead? How could he still be alive???

What on earth happened???

Who said Lu Chen and Lu Jingfu perished together!!!

As a confidant of Lu Jing, Xin Rui naturally had seen Lu Chen before. Hence, at his first glance at Lu Chen, he recognized him immediately.

However, he simply couldn't believe that Lu Chen was still alive. So many Immortal Kings witnessed Lu Chen's self-detonation with their own eyes, yet now Lu Chen appeared here.

Regaining his thoughts, Xin Rui realized that they had all been fooled by Lu Chen; this was Lu Chen's Golden Cicada Shell.

No, he must take this news back.

Thinking of this, Xin Rui didn't hesitate, immediately turning to flee into the distance.

Lu Chen exuded the pressure of an Immortal King. Even if Lu Chen's strength had declined, Xin Rui didn't believe he, a mere Golden Immortal, could contend with him. After all, tens of billions of years ago, Lu Chen could fight evenly with an Immortal Venerate.

Seeing Xin Rui attempting to escape, Lu Chen sneered, "Making me lose another opportunity to use the Immortal King's Remain Curse, and you still think you can flee."

Initially, he had two more uses of the Immortal King's Remain Curse. He planned to save them to deal with the Blood Eagle Hall. However, Xin Rui came to kill his old subordinates, and he couldn't just stand by and watch, although these old subordinates no longer were of significant use to him. Yet, as a person of loyalty and righteousness, he couldn't just watch them be killed by others.

Know that Lu Zhengze, Liao Xiaoshuang, and these people had waited for him in White Feather City for tens of billions of years. As their King, how could he betray their loyalty?

Lu Chen took a step, and the next moment, he appeared blocking Xin Rui's path.

Seeing he couldn't escape, Xin Rui gritted his teeth and once again released his Dharma Golden Body, intending to fight to the death with Lu Chen.

He thought that although there were two Realms between him and Lu Chen, and he wasn't Lu Chen's match, Lu Chen's long stay in the Land of Chaos devoid of Immortal Aura must have severely diminished his strength. Perhaps he could no longer fully wield the power of an Immortal King, making escape not impossible.

Nonetheless, Xin Rui underestimated the strength that Lu Chen garnered from the Immortal King's Remain Curse. Lu Chen pulled out the Immortal Slaying Sword and swung a single strike.

Green Fall Cyan Dragon Roar!!!

Immediately, a blood-red giant dragon penetrated Xin Rui's Golden Body Dharma Form, obliterating Xin Rui instantly, its golden body dissolving into stardust in the air.

Seeing this scene, Lu Zhengze and Liao Xiaoshuang were immensely shocked. At the same time, they felt slightly puzzled. Wasn't the king before them merely a clone? How could he also wield the strength of an Immortal King?

After resolving Xin Rui, Lu Chen glanced at the system interface for the Immortal King's Remain Curse's usage count. Apparently, only one was left, with a progress bar indicating the power recovery.

Once the progress bar fills up, it would enable another use of the Immortal King's Remain Curse. Though the progress bar wasn't too slow, his clone was nearing the

Central Region, and with the Blood Eagle Hall eyeing the Mysterious Moon Palace, uncertainties loomed, ensuring frequent necessity for the Immortal King's Remain Curse.

Lu Chen thought afresh, this couldn't continue, he needed to expedite Xiao Xueying's pregnancy.

It's slow for Immortals to bear heirs. It was challenging to accelerate Cao Shiyun's and others' pregnant children's maturity. However, assisting them in conceiving proved relatively easier.

Cao Shiyun and Xu Jingshu already carried child. Now, he had to focus on Xiao Xueying, hastening her pregnancy to see if he could obtain something from the pregnancy rewards to restore his strength.

The constraints of the Immortal King's Remain Curse were too many, and it felt insecure; restoring his strength swiftly was critical.

Returning to reality, Lu Chen headed back to the City Lord's Mansion, where Lu Zhengze and Liao Xiaoshuang promptly approached upon his arrival.

Seeing Lu Chen's current aura was only that of a Spirit Immortal, both froze again, wondering if their King deliberately concealed himself as a Spirit Immortal.

Lu Zhengze looked at Lu Chen, saying, “Great King, if subordinate hasn’t misjudged, that was King Anyuan’s confidant earlier.”

Though Lu Zhengze didn’t know Xin Rui’s name, as King Anyuan’s confidant, Xin Rui always stayed by King Anyuan’s side. Tens of billions of years ago, they had seen him in the Imperial Capital of Tianxia Immortal Dynasty, leaving Lu Zhengze with some impression of Xin Rui.

Lu Chen sneered, saying, “Lu Jing intends to kill and silence, indeed making White Feather City unsafe to stay in.”

Hearing this, Lu Zhengze and Liao Xiaoshuang felt somewhat guilty. They understood that although they were the old subordinates of Chen King, they currently posed little benefit to their Great King.

Now, they merely burdened their Great King.

At this point, Lu Zhengze asked, “What plans does the Great King have next?”

Lu Chen replied, “The Transmission Array from White Feather City to Shangsha City is now usable. Everyone must relocate into the Moon Palace territory.”

Having children earns benefit, start competing for dominance in the world by marrying a wife

Hearing Lu Chen's words, Lu Zhengze hesitated for a moment but ultimately reminded, "My lord, if only a few people migrate into the Mysterious Moon Palace, the Mysterious Moon Immortal King might not notice, but if all of us move in, the Mysterious Moon Immortal King will certainly find out."

"What if it angers the Mysterious Moon Immortal King..."

Lu Zhengze hesitated to continue.

Lu Chen said, "You don't need to worry about that. At that time, just tell her that it was my decision before I went to the Tianxia Immortal Dynasty, to have you all move into the Mysterious Moon Palace, and that I used some information to exchange for your safety."

Saying this, Lu Chen took out a jade scroll and imprinted some memories of his experiences with Yun Qingshu in the Chaotic Sea onto the jade scroll.

As long as Yun Yudie activates this jade scroll, she will know that Yun Qingshu is not dead and now even has a child.

He believed that Yun Yudie, for Yun Qingshu's sake, would tolerate Lu Zhengze and his followers.

After all, if he died, Yun Qingshu's child would be the new master of Lu Zhengze and the others. Yun Yudie couldn't possibly lack the humanity to not help her own sister's child's faction, could she?

After Lu Zhengze received the jade scroll from Lu Chen, he was somewhat curious about what secret it contained that could allow the Mysterious Moon Palace to accept so many people.

However, Lu Chen did not directly tell him, and he did not inquire further, as it was a secret after all.

Subsequently, Lu Zhengze and the others began to make preparations.

In the following year, people from the Land of Chaos continuously migrated into the Mysterious Moon Palace's territory. Since Shangsha City couldn't accommodate so many people, Lu Chen arranged for some to move to other cities.

The mass migration from the Land of Chaos into the Mysterious Moon Palace naturally attracted Yun Yudie's attention. After all, at this critical moment of resisting the Blood Eagle Hall invasion, suddenly having so many people arrive would make anyone suspect if they were sent by the Blood Eagle Hall.

To avoid alerting the enemy, Yun Yudie did not go directly to Shangsha City but sent people to investigate those migrating into the Mysterious Moon Palace's territory first.

The Mysterious Moon Palace, Meeting Hall.

Yun Yudie, sitting on an ice crystal throne, looked at the female Disciple in a blue long dress in the hall and asked indifferently, "How did the investigation go?"

The Disciple in the hall replied, "It's clear."

"They are from the Land of Chaos and seem to be the former subordinates of the Chen King."

Upon hearing this, Yun Yudie was slightly stunned. What were the former subordinates of the Chen King doing coming to the Mysterious Moon Palace's territory?

They were indeed bold!

She had a deep-seated grudge against the Chen King, yet these people ventured into her Immortal Sect's territory.

Yun Yudie planned to go see for herself; she was quite curious about what these people intended to do.

The next moment, Yun Yudie's body transformed into an Ice Crystal Butterfly and disappeared from the hall.

At the same time.

Lu Zhengze was arranging for people transmitted from the Land of Chaos in Shangsha City.

For people from the Land of Chaos, Shangsha City was merely a transit hub. Most migrants from the Land of Chaos were transported by Lu Zhengze using the Immortal Ship to other cities, and they had now controlled several cities.

Of course, these cities were Mortal Cities, without even a Mortal Immortal. So just Lu Zhengze and Liao Xiaoshuang, two True Immortals, were enough to control these cities.

At this moment, Liao Xiaoshuang beside Lu Zhengze looked worriedly at him, "Darling, aren't we being too blatant in what we're doing?"

They came to someone else's territory without even greeting the Family Head, and instead occupied so many cities of theirs, which seemed too audacious.

Lu Zhengze smiled and said, "Don't worry. With the jade scroll from the King, even if the Mysterious Moon Immortal King personally arrives, nothing will happen to us."

Just as Lu Zhengze finished speaking, a terrifying pressure descended. In an instant, the inhabitants of Shangsha City were pressed to the ground by this pressure, including Lu Zhengze and Liao Xiaoshuang, who were also forced to kneel.

Moreover, the pressure on them was even greater than on others, causing their faces to instantly turn pale.

In the next moment, a cold voice rang out in the sky, "I am very curious, who gave you the courage to say such things!"

Yun Yudie had just arrived in Shangsha City and heard Lu Zhengze say, "Even if the Mysterious Moon Immortal King comes, nothing will happen to them."

These people came to her territory without any greeting and even said she wouldn't do anything to them. Wasn't this disregarding her entirely?

Seeing the main figure arrive, Lu Zhengze quickly said, "Junior... pays respects to Senior!"

"I wonder if Senior still remembers seeing Junior in... White Feather City."

Of course, Yun Yudie remembered. Although to her, Lu Zhengze and the others were insignificant figures, she had been to the Land of Chaos for less than a thousand years, and she still had some of that memory.

She immediately recognized Lu Zhengze and Liao Xiaoshuang at first glance, and she couldn't help but wonder if Lu Zhengze knew that Chen Lu had become her Direct Disciple and wanted to establish connections.

Back in White Feather City, Chen Lu had indeed received many benefits from Lu Zhengze. Yun Yudie didn't interfere, as weak factions investing in prodigies was quite common in the Tianyan Immortal Domain.

But if this was the reason, and Lu Zhengze dared to act recklessly within her Immortal Sect's territory, he probably didn't know what "death" meant.

Yun Yudie said coldly, "Do you think just because you sent gifts to my Direct Disciple, you can act recklessly in my Immortal Sect?"

As she spoke, it began to snow over Shangsha City, and the buildings were instantly covered with a layer of frost.

Feeling Yun Yudie's murderous intent, Lu Zhengze hurriedly took out the jade scroll he held and showed it to Yun Yudie, saying, "This is... what our King... left behind before heading to the Tianxia Immortal Dynasty. He said, if anything happens to him, we should bring this jade scroll to the Mysterious Moon Palace."

Upon hearing this, Yun Yudie's eyebrows furrowed, wondering what that troublemaker had left behind?

And it was left for her?

Although she and Yun Qingshu were sisters, she had no direct dealings with Lu Chen, so why would Lu Chen leave something for her?

Raising her hand, the jade scroll in Lu Zhengze's hand flew into Yun Yudie's hand. Out of curiosity, Yun Yudie quickly used her Immortal Aura to activate the jade scroll, and in the next instant, the memories within the jade scroll flooded into Yun Yudie's mind.

Seeing those memories, Yun Yudie was completely stunned.

Her sister was actually alive...

How could this be possible?

Wait, if Lu Chen could survive and return from the Chaotic Sea, there was no reason her sister had to die.

But even if she knew her sister was alive, she couldn't enter the Chaotic Sea to rescue her.

At this moment, Yun Yudie's body suddenly burst out with a violent Ice Qi, instantly shattering the jade scroll in her hand into powder, which scattered in the air.

That bastard Lu Chen came back alone and didn't bring her sister back, and now he chose to perish together with Lu Jingfu for revenge.

With him dead, how could she possibly know how to enter the Chaotic Sea? How to avoid the erosion of Chaos Qi? How to find her sister's location?

This wretched man would have been better off not leaving this jade scroll!

Chapter 1706 - 1396: Ten Years from Now, We Will Go to War with the Mysterious Moon Palace!

At this moment, Yun Yudie's heart was filled with anger. She had already accepted that her older sister had passed away, but now Lu Chen had left a Jade Scroll telling her that her sister was still alive. The key issue was that he did not bring her sister out of the Chaotic Sea.

She knew nothing about the Chaotic Sea and had no idea how to save her sister, while Lu Chen had presumptuously perished together with Lu Jingfu, leaving no information about the Chaotic Sea for her.

Now, even though she knew her sister was still alive, she could only stare helplessly in the direction of the Chaotic Sea, lamenting to the sea.

Yun Yudie immediately felt that Lu Chen's self-destruction was too easy on him. If Lu Chen were still alive, she would want nothing more than to tear him limb from limb for his audacity.

Now she seemed to understand why Lu Chen would send his old subordinates to her territory. From Lu Chen's memories, she learned about her sister's pregnancy. With Lu Chen dead, wouldn't her sister's child become the young master of these people?

That scoundrel Lu Chen wanted her to accept his old subordinates for her sister's sake and the child in her sister's womb.

The more Yun Yudie thought about it, the angrier she became. The problem was she had nowhere to vent her anger now; she couldn't possibly kill these old subordinates of Lu Chen, could she?

Although she utterly detested Lu Chen, she had to acknowledge the child in her sister's womb, even if it was Lu Chen's offspring.

And she had to admit one thing: although Lu Chen's character was despicable, he truly was the most talented Immortal recorded in the history of the Tianyan Immortal Domain.

Generally, the higher the talent of an Immortal, the more talented their offspring, not to mention her sister was also extremely talented. One can only imagine how terrifyingly talented the offspring of Lu Chen and her sister would be.

So, whether it was her little nephew or niece, Yun Yudie would definitely acknowledge them.

Since these people are now considered to belong to her little nephew or niece, she certainly wouldn't kill them.

However, thinking that Lu Chen left the Jade Scroll with the mindset that he was certain she wouldn't kill these people, she was utterly infuriated.

Yun Yudie worked hard to calm her inner anger, then retracted her aura. Once the pressure disappeared, the people in Shangsha City finally took a breath of relief.

No matter what, these people were left for her sister's child by Lu Chen, even though she didn't feel these people were of much use.

Yun Yudie then said, "From now on, you can stay at Mysterious Moon Palace with peace of mind."

Lu Zhengze immediately said, "Thank you, Senior!"

Lu Zhengze felt somewhat excited. Developing under the territory of the Mysterious Moon Palace was clearly better than in the Land of Chaos; the Mysterious Moon Palace's territory had abundant Spiritual Energy, and there were even places with Immortal Aura, which was very helpful for their cultivation.

Just as Yun Yudie was about to continue speaking, she suddenly felt the Qi Fortune of the Mysterious Moon Palace surge drastically. In no time, many disciples in the Mysterious Moon Palace broke through in cultivation, and the bottlenecks of some Elders also began to loosen somewhat.

Yun Yudie's Realm also showed obvious signs of loosening, faintly hinting at a breakthrough. Yun Yudie couldn't believe it; just by letting these people stay, the Immortal Sect's Qi Fortune of the Mysterious Moon Palace had risen so much?

She initially thought these people were of no use. After all, among them, there were only two True Immortals. If her sister were to return with her child in the future, she planned to directly establish her sister's child as the Young Hall Master. Compared to the entire Mysterious Moon Palace's strength, those left behind by Lu Chen were nothing.

But she didn't expect these people would contribute so much Qi Fortune to the Mysterious Moon Palace. The Immortal Sect's Qi Fortune of the Mysterious Moon Palace was now almost doubling.

Yun Yudie didn't think much of it. She had already reached the brink of a breakthrough and needed to go into closed-door cultivation immediately.

Without delay, Yun Yudie returned to the Mysterious Moon Palace and, after giving the Ling Yin Immortal King a few simple instructions, began her closed-door training.

News of Yun Yudie's retreat soon reached Blood Eagle Hall.

The sudden surge in Qi Fortune within the Mysterious Moon Palace couldn't be hidden from other Immortal Sects. People would undoubtedly want to find out what happened within the Mysterious Moon Palace. Although they might not be able to immediately understand why their Qi Fortune increased—since Qi Fortune is enigmatic even for Immortal Venerates skilled at deducing the Heavenly Mechanism—they could still gather some insight.

While gathering information, Blood Eagle Hall quickly discovered that many disciples within the Mysterious Moon Palace had broken through, and even some Elders had begun entering retreat. This made Blood Eagle Hall realize that Yun Yudie's retreat might also be because she was about to break through, which is not good news for Blood Eagle Hall.

Blood Eagle Hall.

Meeting Hall.

In the grand hall filled with a sanguine aura, three Immortal Kings sat at the front on three chairs constructed from bones, with Immortal Monarchs standing in the hall.

This was the first time since its establishment that Blood Eagle Hall had summoned so many people, even having all three Hall Masters present. Typically, when they planned to attack certain Immortal Sects, at least one Hall Master would be in retreat.

Now, with all three Hall Masters out of retreat, it was clear the Immortal Sect they were targeting this time was no simple matter.

While there were three chairs at the front, they were not placed side by side. Each chair sat on its own tiered level, with the central bone chair being the largest and positioned on the highest tier. Seated here was the Great Hall Master, Blood Demon Immortal King.

The bone chairs on either side were placed on the second tier, occupied by the Second Hall Master, Netherworld Immortal King, and the Third Hall Master, Ghostly Evil Immortal King, respectively.

Blood Demon Immortal King glanced at the assembled Immortal Monarchs and then said, "After searching for so long, we still have not found the Saintess. She is likely now in the hands of Yun Yudie."

Hearing these words, the Immortal Monarchs in the hall immediately perked up. The Great Hall Master mentioned the Saintess and suspected she had been captured by the Mysterious Moon Palace, which perhaps meant Blood Eagle Hall would soon officially declare war on them.

They had waited too long for this day. The Mysterious Moon Palace was filled with fairies, and for them, a group of Evil Immortals, the entire Mysterious Moon Palace was an exceptionally fitting Furnace Cauldron.

Most importantly, they relished the pleasure of slaughter. Once war began, they could massacre cities without restraint, absorbing large amounts of sanguine aura to boost their power.

Blood Demon Immortal King continued, "Originally, I planned to first weaken the Qi Fortune of the Mysterious Moon Palace and then attack, but now, their Qi Fortune has not been weakened; instead, it has risen dramatically."

"A short while ago, the Mysterious Moon Palace gave birth to an Immortal King, and now, with their Qi Fortune surging, Yun Yudie suddenly enters retreat. I suspect she is on the verge of a breakthrough to the Immortal Venerate Realm."

"If she succeeds, not only will our plans fail, but with the Saintess in her hands, Yun Yudie probably already knows the whereabouts of Blood Eagle Hall. They could very well launch a counterattack against us. Therefore, I have decided to

strike first, attacking the Mysterious Moon Palace before Yun Yudie completes her breakthrough, to prevent her advancement."

"From now on, recall all disciples practicing outside to prepare fully for war with the Mysterious Moon Palace!"

"In ten years, we will engage in full-scale war with the Mysterious Moon Palace!"

Having children earns benefit, start competing for dominance in the world by marrying a wife

Chapter 1707: Chapter 1397: I Am Here to Discuss a Deal with King Anyuan

Generally, when an Immortal Sect with an Immortal King launches a war against another sect with an Immortal King, they need at least a hundred years of preparation.

Blood Eagle Hall, though it has been preparing for war for a long time, still falls far short of readiness.

Yet, even if the preparations are insufficient, they must start the war now. If their Saintess has indeed fallen into the hands of Yun Yudie, Yun Yudie must already know the exact location of Blood Eagle Hall.

The reason why the Evil Immortal Sect Blood Eagle Hall has been able to exist for so long is mainly because outsiders are almost completely unaware of its location within this small world. Even the Heavenly Splendor Hall doesn't know where they are situated. When Qingyun Immortal King sent people to contact them, it was only at one of their outposts. Generally speaking, Evil Immortals need a specific identity token to enter their small world.

Thus, most Evil Immortals from Blood Eagle Hall, even if teleported there, actually do not know the exact location of Blood Eagle Hall.

But being the Saintess of Xu Jingshu is different. She knows where the small world that Blood Eagle Hall is located in, and without any restriction on her soul, she could be subject to Soul Search. If she falls into someone else's hands, the specific location of Blood Eagle Hall could potentially be revealed.

Therefore, for whatever reason, it's imperative to quickly launch a war to annihilate the Profound Moon Palace.

In the blink of an eye, five years have passed.

Most of the people from the Land of Chaos have been relocated to the territory of the Profound Moon Palace, and the Profound Moon Palace is not lacking in land. There's no problem in accommodating people from the Land of Chaos.

However, a significant number of people from the Land of Chaos have chosen to remain there, especially those mortals. For them, although the Land of Chaos has thin Spiritual Energy, this has been the place where their ancestors lived for generations, and as mortals without cultivation potential, they do not need dense Spiritual Energy, nor do they need Immortal Aura.

For those who wished to remain in the Land of Chaos, Lu Zhengze did not forcibly relocate them and even left some cultivation resources for them.

Meanwhile.

King Anyuan, Royal Palace.

In the magnificent hall, Lu Jing sat on the throne, his brow furrowed.

He sent Xin Rui to eliminate his enemies, but Xin Rui has been gone for years and still hasn't returned.

The Land of Chaos, while vast, should not take Xin Rui much time to resolve issues given his Golden Immortal status.

Could something have happened?

Lu Chen is already dead; the Land of Chaos shouldn't have Immortals above Golden Immortals. Xin Rui shouldn't encounter any danger.

Lu Jing immediately called for a Golden Immortal, and soon, a general clad in yellow armor entered the hall, "Greetings, great king!"

Lu Jing spoke directly: "General Li, take some men to the Land of Chaos to find Xin Rui, and while there, eliminate Chen King's old forces."

Upon hearing this, Li Chengwen paused for a moment. Find Xin Rui?

He wondered why he hadn't seen Xin Rui in years, realizing Xin Rui had left the palace long ago. But what was Xin Rui doing in the Land of Chaos? Could it be he was also there to eliminate Chen King's old forces?

If Xin Rui is already there, then why should he go?

Xin Rui is, after all, a Golden Immortal, and among Chen King's old forces, let alone a Golden Immortal, True Immortals probably don't even exist.

Thinking of this, Li Chengwen said, "Great king, is Xin Rui Commander's and my task the same?"

Lu Jing said, "It is."

Li Chengwen said, "Since the great king has already sent Xin Rui to do this, given Xin Rui's strength, it seems unnecessary for the subordinates to assist him."

Xin Rui is, after all, a Golden Immortal and also a trusted confidant of their great king. Their great king has already sent Xin Rui on this task. If, at this time, another person was sent, when Xin Rui found out later, wouldn't he feel that their great king doesn't trust him?

Li Chengwen certainly did not want to offend anyone.

Lu Jing said, "He has been gone for several years in the Land of Chaos, with no news whatsoever. I suspect he may have encountered some trouble."

Li Chengwen said, "I understand."

A few years without any news. It's unlikely that someone of Xin Rui's caliber would take years for a simple task, so something must indeed have happened.

Better safe than sorry; it's prudent to send someone to check.

Lu Jing said, "Alright, prepare to leave."

Li Chengwen bowed again, "Subordinates take my leave!"

As soon as he finished speaking, Li Chengwen turned and left the hall, gathering a thousand soldiers and using the Transmission Array to go to the Land of Chaos.

After Li Chengwen left, Lu Jing rubbed his temples. For some reason, though he should be happy that Lu Jingfu's death removed his biggest competitor, as the position of Immortal Dynasty Master was likely to be his, he had felt uneasy recently.

At that moment, a soldier entered the hall, "Great king, a messenger from Blood Eagle Hall requests an audience."

Upon hearing this, Lu Jing's brow eased slightly.

Blood Eagle Hall finally came to him.

His biggest fear was that after Lu Jingfu's death, Blood Eagle Hall might support another prince. Though he considered proactively seeking out Blood Eagle Hall, he felt some resistance because it was an Evil Immortal Sect, and he didn't know their location.

After calming his emotions, Lu Jing said, "Bring the messenger in."

Moments later, the soldier brought the messenger from Blood Eagle Hall into the hall.

The visitor was dressed in a blood-red robe; one eye was normal, the other eye was golden with an array-like pattern in it.

The visitor did not bow to Lu Jing but instead smiled, saying, "Since the mutual destruction of the Chen King and King Guangren, you have become the most likely contender for the position in Tianxia Immortal Dynasty. I am here to prematurely congratulate King Anyuan."

Lu Jing smiled and said, “Your excellency jests. Whether I can ascend to that position depends on whether or not I have Blood Eagle Hall’s assistance. You have not approached me, which has been quite unsettling for me.”

To Lu Jing, Blood Eagle Hall’s support wasn’t crucial, but he worried they might support another prince, thereby strengthening their power.

Lu Jing continued, “May I know how to address you?”

Evil Eyes Immortal Monarch said, “You may call me Evil Eyes Immortal Monarch.”

Lu Jing cautiously asked, “May I know the purpose of your visit?”

Evil Eyes Immortal Monarch said, “I’m here to discuss a transaction with King Anyuan.”

Lu Jing said, “Please proceed, Evil Eyes Immortal Monarch.”

Evil Eyes Immortal Monarch said bluntly, “In five years, Blood Eagle Hall intends to attack Profound Moon Palace and hopes Tianxia Immortal Dynasty will assist.”

This...

Lu Jing was taken aback, attacking Profound Moon Palace in five years?

Isn't that an Immortal King level faction?

Attacking an Immortal King level power usually requires weakening the sect's Qi Fortune first. Launching a war typically requires at least a hundred years of preparation, but there seems to be no sign of Profound Moon Palace's Qi Fortune waning?

Chapter 1708 - 1398: What If Blood Eagle Hall Can Help You Seize That Position Within Five Years?

Although Lu Jing had always stayed in his own fief, rarely leaving, he was still somewhat aware of the various events that had occurred in the Southern Domain over the years.

A couple of years ago, he heard that the Immortal Sect Qi Fortune of the Mysterious Moon Palace had suddenly skyrocketed, with numerous new Immortal

Monarchs emerging and many Immortal Monarchs attempting to break through to the Immortal King Realm, while the Mysterious Moon Immortal King had gone into seclusion, seemingly preparing to break through to the Immortal Venerate Realm.

The sudden growth in the Immortal Sect Qi Fortune of the Mysterious Moon Palace was naturally not hidden from other forces.

Blood Eagle Hall actually plans to attack the Mysterious Moon Palace while its Qi fortune is flourishing?

Has their Hall Master gone mad?

Lu Jing furrowed his brows and didn't immediately respond to the words of Evil Eyes Immortal Monarch.

After a while, Lu Jing finally spoke: "I heard that in recent years, the Immortal Sect Qi Fortune of Mysterious Moon Palace has surged, they have birthed several Immortal Monarchs, and even added an Immortal King. The Mysterious Moon Immortal King has also gone into seclusion, seemingly preparing to break through to the Immortal Venerate Realm."

"Blood Eagle Hall attacking the Mysterious Moon Palace at this time might not have much chance of winning."

Evil Eyes Immortal Monarch said, "That's precisely why we need to cooperate with the Tianxia Immortal Dynasty."

Lu Jing said, "It's just a pity that I'm only a king of the Tianxia Immortal Dynasty, not the Immortal Dynasty Master, the Tianxia Immortal Dynasty doesn't listen to me. I do not have the ability to make the Tianxia Immortal Dynasty cooperate with Blood Eagle Hall."

Although the Tianxia Immortal Dynasty does not have an Immortal Venerate, the Royal Family possesses several Immortal Kings. Even though his father is currently seriously injured, as long as those few Immortal Kings of the Royal Family exist, they these dukes won't dare to act recklessly.

Evil Eyes Immortal Monarch said, "What if Blood Eagle Hall could help you ascend to that position within five years?"

Hearing Evil Eyes Immortal Monarch's words, Lu Jing was stunned. After coming back to his senses, he immediately said, "Impossible!"

Although his father's end was nearing, he was still an Immortal King; even if his end was approaching, he might live for tens of thousands of years, so how could he ascend to that position within five years?

Evil Eyes Immortal Monarch smiled and said, "Nothing is impossible."

"As long as Your Majesty agrees to cooperate with us, we will clear all obstacles for Your Majesty within these five years and also help Your Majesty breakthrough to the Immortal Monarch Realm, so that Your Majesty can firmly hold that position."

Lu Jing furrowed his brows, falling into deep thought. His talent was not particularly good. Not to mention five years, even in a million years, he might not be able to breakthrough to the Immortal Monarch Realm.

Yet Evil Eyes Immortal Monarch confidently claimed to help him breakthrough to the Immortal Monarch Realm within five years, proving that Evil Eyes Immortal Monarch intended to have him cultivate an Evil Technique.

He was deeply worried that his cultivation with Evil Technique would be discovered. Although the Heavenly Splendor Hall had not conducted large-scale purges against Evil Immortals today, Evil Immortals were viewed negatively in the Tianyan Immortal Domain, with Righteous Immortals almost universally condemning Evil Immortals.

If one day his cultivation of Evil Technique was exposed, even if he ascended to that position, he would likely be pulled down.

But...

If he didn't agree to Evil Eyes Immortal Monarch or Blood Eagle Hall, then Blood Eagle Hall would choose to support another prince, and he would lose his opportunity.

He doubted that Blood Eagle Hall, having come to speak to him about those matters, would let him live after rejecting them.

Seeing Lu Jing hesitate, Evil Eyes Immortal Monarch continued, "There are only five years, Your Majesty should seize the opportunity. If Your Majesty misses this opportunity, then the position of Immortal Dynasty Master might fall to someone else."

Lu Jing regained his senses and directly asked, "You claim to help me breakthrough to the Immortal Monarch Realm within five years, is it that you want me to cultivate an Evil Technique?"

Evil Eyes Immortal Monarch said, "Where in this world is there such a thing as Evil Technique? If power has a distinction between good and evil, why does the Heavenly Dao allow people to cultivate those so-called Evil Techniques?"

"Moreover, even if you cultivate the Immortal Law we provide, if Your Majesty does not utilize it openly, others will not perceive it."

Upon hearing Evil Eyes Immortal Monarch's comments, Lu Jing snickered, then said, "I must admit, your words have indeed moved me."

Lu Jing thought to himself, he was merely using Evil Technique to enhance his Cultivation State, and after his cultivation improved, he would practice some Righteous Immortal Laws. As long as he didn't use Evil Technique in front of others, it would be hard to discover his actions.

Evil Eyes Immortal Monarch continued to ask, "In that case, does Your Majesty agree to cooperate with us?"

Lu Jing said, "I suppose I have no choice; after all, if I don't agree with you, Blood Eagle Hall may help other princes clear me as an obstacle."

Upon hearing Lu Jing's words, Evil Eyes Immortal Monarch smiled faintly. Lu Jing spoke correctly; if Lu Jing didn't agree, they would directly resolve Lu Jing in order to assist another prince's ascent to the position of Immortal Dynasty Master.

Blood Eagle Hall's method to assist Lu Jing in becoming the Immortal Dynasty Master is very straightforward: eliminate all of Lu Jing's competitors and then end the current Immortal Dynasty Master whose end is near, thus leaving the position of Immortal Dynasty Master with no one to vie against Lu Jing.

To achieve all of this isn't difficult given Blood Eagle Hall's power.

...

For the next six months, Li Chengwen led a thousand soldiers in the Land of Chaos searching everywhere for Xin Rui's traces, only to find a few cities destroyed by Xin Rui, but no trace of Xin Rui himself.

Li Chengwen also captured quite a few mortals from the Land of Chaos for soul searching, but most mortals had never even seen an Immortal, let alone had news of a Golden Immortal.

Li Chengwen increasingly felt Xin Rui might be in trouble. Suddenly, he thought of something; Xin Rui's mission was to kill people and silence them, so Xin Rui would surely go to the gathering place of Chen King's old forces.

Thinking of this, Li Chengwen ordered his men to steer the Immortal Ship towards White Feather City.

Soon, they arrived above White Feather City, but they were all shocked by the scene below the city.

White Feather City was now deserted, many buildings had been corroded by Chaos Qi, some had even collapsed, appearing extremely desolate.

Seeing this scene, Li Chengwen frowned tightly; what was happening?

Could it be that Chen King's old forces anticipated they would send someone to silence them, so they left the Land of Chaos while Chen King headed for the Tianxia Immortal Dynasty?

Thinking of this, Li Chengwen said to the soldiers beside him: "Go capture some people from nearby cities for soul search, see where the remnants of White Feather City have run off to?"

"Yes, General!"

The soldiers immediately took action, but all they captured were mortals, with not even a cultivator among them. These mortals only knew that Lu Zhengze and the others had relocated from the Land of Chaos, but didn't know where they went.

Li Chengwen stayed above White Feather City for half a month, and his soldiers did not collect any useful intelligence. Just as he was preparing to return to the Tianxia Immortal Dynasty to report the situation of the Land of Chaos to their king, a soldier excitedly brought a Foundation Establishment cultivator to Li Chengwen.

"Sir, good news, I found someone who knows the whereabouts of the White Feather City remnants!"

That Foundation Establishment cultivator sensed the terrifying pressure from Li Chengwen and quickly knelt on the ground pleading, saying: "Spare me, sir, whatever you wish to know, I will speak without reservation."

Li Chengwen coldly laughed, "No need for tediousness."

With those words, Li Chengwen raised his hand, and the Foundation Establishment cultivator's body was uncontrollably drawn to Li Chengwen's hand, where he directly grabbed the cultivator's head for Soul Search.

After the Soul Search concluded, Li Chengwen's brows furrowed; he hadn't expected Lu Zhengze and the others to flee to the territory of Mysterious Moon Palace. Could Xin Rui have joined them there?

Thinking of this, Li Chengwen immediately led his soldiers back to the Tianxia Immortal Dynasty.

Having children earns benefit, start competing for dominance in the world by marrying a wife

After returning to the Tianxia Immortal Dynasty, Li Chengwen went straight to the royal palace to report the whereabouts of Lu Zhengze and his group to Lu Jing.

Upon hearing Li Chengwen's report, Lu Jing's face darkened, "Are you saying they directly transmitted to the Mysterious Moon Palace through the Transmission Array?"

To transmit directly from the Land of Chaos to the Mysterious Moon Palace would at least require a Heavenly Grade Teleportation Array, which consumes a large amount of Immortal Crystals to construct. He doubted that the remnants of Lu Chen's group had that many Immortal Crystals.

Moreover, with so many people heading to the Mysterious Moon Palace, it's impossible that Yun Yudie, as the Palace Master, is unaware. It's even possible that Yun Yudie personally set up this Teleportation Array for them.

Unexpectedly, the Mysterious Moon Palace is actually sheltering these people. What does Yun Yudie mean by this?

Could it be that Yun Yudie knows about his past assistance to Lu Chen, and is therefore using these people to threaten him? But he had no association with the Mysterious Moon Palace, so Yun Yudie seemed to have no reason to do this?

Regardless, Yun Yudie's acceptance of Lu Chen's remnants is indeed a provocation. Conveniently, the Blood Eagle Hall is planning to wage war on the Mysterious Moon Palace, and once the war breaks out, he'll send people to eliminate Lu Chen's remnants.

At this moment, Li Chengwen said, "Your Majesty, subordinates suspect that Commander Xin Rui may have gone with them to the Mysterious Moon Palace territory, so there's been no word from him. Why don't your subordinates personally go to the Mysterious Moon Palace to clear out those remnants, and incidentally look for Commander Xin Rui?"

Lu Jing said, "No need, the Mysterious Moon Palace will soon disappear from this world."

"If Xin Rui really went to the Mysterious Moon Palace, he is likely in dire danger; otherwise, we would have received news by now."

"Alright, that will be all."

Seeing that Lu Jing said so, Li Chengwen didn't say much more. He then saluted and said, "Subordinate takes leave!"

...

Central Domain.

On an Immortal Ship, the lamenting cries of a female creature echoed.

After years of traveling, Lu Chen and Xu Jingshu finally arrived in the Central Domain.

For most of these years, Lu Chen and Xu Jingshu have been in close contact. Having the Charming Body, Xu Jingshu fell completely into the abyss of desire after being variously humiliated by Lu Chen.

Now, without Lu Chen taking the initiative, she would even offer herself to Lu Chen. Being an Evil Immortal, once such a thing started, it couldn't be stopped.

At this moment, Lu Chen lay on the bed of the Immortal Ship, looking at Xu Jingshu, who was tilting her jade neck, and said with a smile, "As expected of an Evil Immortal. If it weren't for my special physique, I would have been drained to death by you long ago."

Xu Jingshu could not hear Lu Chen's words at all, busy with her own affairs.

At this moment, their Immortal Ship suddenly stopped.

The next instant, a voice directly entered the Immortal Ship, "People inside the Immortal Ship, come out for inspection!"

Upon hearing this voice, Xu Jingshu immediately snapped awake from her trance, and Lu Chen then released his Divine Thought to survey the outside situation, finding that they had arrived at an Immortal City.

To enter the Immortal City, the Immortal Ship indeed required inspection. Xu Jingshu reluctantly got up and, with a wave of her hand, donned a black gown, while Lu Chen snapped his fingers, a white jersey with gold trim appearing on him.

After both were dressed, they left the Immortal Ship cabin.

Standing at the bow of the ship, they could see a city wall as towering as a mountain, at least four or five kilometers high.

Inside the city wall, there stood a grand complex of buildings.

The soldiers responsible for inspection asked when they saw people coming out of the Immortal Ship, "Who are you, and why do you come to Xuanyou Immortal City?"

Lu Chen replied honestly, "We are itinerant immortals from the Southern Domain, intending to go to the Northern Domain to oppose the Demon Emperor's army."

Upon hearing this, the soldiers burst into laughter. The leading Linjiang Immortal Monarch looked Lu Chen and Xu Jingshu up and down, then said, "A Heavenly Immortal and a True Immortal claiming to oppose the Demon Emperor's army."

Lu Chen said with a smile, "My lord, although our strength is weak, there must always be people to transport supplies, right?"

Hearing this, Linjiang Immortal Monarch said, "Didn't expect you to have such awareness; place your hand on the crystal ball for a test, and you may enter the city."

In the next moment, Linjiang Immortal Monarch took out a purple crystal ball, which then flew to Lu Chen and Xu Jingshu. Seeing this, Lu Chen perplexedly asked, "Lord, what is this crystal ball testing?"

Linjiang Immortal Monarch said indifferently, "You need not know; just test it."

Lu Chen then placed his hand on the purple crystal ball, which showed no reaction. Looking at the Immortal Monarch, Lu Chen was about to speak when the Immortal Monarch looked at Xu Jingshu, "Your turn."

Without hesitation, Xu Jingshu also placed her hand on the crystal ball, which immediately emitted a strong purple light.

Seeing this scene, all the soldiers in the Immortal City were stunned. Linjiang Immortal Monarch suddenly slapped his subordinate on the face, knocking him to the ground and creating a big pit. Climbing up from the pit, the soldier looked at his captain with a wronged face, "Captain, why did you do that?"

Linjiang Immortal Monarch asked, "Does your face hurt?"

The soldier replied, "Uh... it hurts..."

Instantly, Linjiang Immortal Monarch got excited and laughed heartily, "Didn't expect such great wealth to fall upon this Immortal Monarch!!!"

Upon hearing this, Lu Chen immediately became alert, watching Linjiang Immortal Monarch closely, ready to strike at any time.

At this time, the soldiers around Yun Qi Immortal Monarch congratulated Linjiang Immortal Monarch respectfully, "Congratulations, Linjiang Immortal Monarch!"

Seeing this, Lu Chen was even more puzzled. This purple crystal ball didn't seem like it tested cultivation aptitude. Why were they so happy?

At this moment, Linjiang Immortal Monarch put on a fawning smile while looking at Xu Jingshu and said, "This fairy, I wonder if you are interested in joining the Mysterious Moon Palace."

This...

Xu Jingshu felt quite bewildered.

Why would they want her to join the Mysterious Moon Palace?

She was an Evil Immortal, and a Super Force like the Mysterious Moon Palace had countless Immortal Venerates, who might not be able to discern an Evil Immortal when it didn't act, but among so many Immortal Venerates, surely someone could recognize an Evil Immortal.

Moreover, the Immortal Aura of an Evil Immortal significantly countered that of normal Immortals; as long as she stayed in the Mysterious Moon Palace, one day, she would be found out as an Evil Immortal, which she didn't wish for.

Seeing Linjiang Immortal Monarch become so ingratiating, Lu Chen realized that the earlier testing crystal likely identified some special attribute in Xu Jingshu, which the Mysterious Moon Palace needed.

Lu Chen asked, "Lord, could you inform us of what the test was for? If you tell my lady, she might consider joining the Mysterious Moon Palace."

Upon hearing Lu Chen refer to her as 'lady,' Xu Jingshu looked at Lu Chen with a puzzlement, unsure of what Lu Chen was up to.

Having children earns benefit, start competing for dominance in the world by marrying a wife

As for the address to Lu Chen, Linjiang Immortal Monarch and the others did not find it strange, after all, Lu Chen's cultivation state seemed to be only in the Heavenly Immortal Realm, lower than the woman in front of him. Moreover, from the look of this Immortal Ship, it did seem that this woman had a certain identity.

Of course, this woman's identity meant nothing in front of the Mysterious Moon Palace.

At this moment, Linjiang Immortal Monarch smiled and said, "Little brother, if nothing unexpected happens, your young lady is soon to become the Saintess of Mysterious Moon Palace."

The Saintess of Mysterious Moon Palace?

Upon hearing Linjiang Immortal Monarch's response, a strange expression appeared on Lu Chen's face.

Why is it that so many of the women around him are Saintesses of Mysterious Moon Palace? Yun Qingshu is the Saintess of Mysterious Moon Palace, and although Yun Yudie hasn't become his woman yet, she meets the system's criteria and will also be his woman in the future. She too is a Saintess of Mysterious Moon Palace.

Now Xu Jingshu is also set to become a Saintess of Mysterious Moon Palace.

Could it be because his women are quite special and just happen to meet the selection criteria for Mysterious Moon Palace's Saintess?

At this moment, a trace of worry appeared on Xu Jingshu's cold jade-like face. She is an Evil Immortal, how can they let an Evil Immortal become the Saintess of Mysterious Moon Palace?

What a joke. Once the Immortal Venerates of Mysterious Moon Palace discover she is an Evil Immortal, they might immediately eliminate her.

In an instant, Xu Jingshu had a thought of wanting to escape, and she looked towards Lu Chen to see what he planned to do next.

However, what caught Xu Jingshu completely off guard was Lu Chen speaking excitedly: "Really? That's great!"

"Miss, did you hear that? You are about to become the Saintess of Mysterious Moon Palace!"

Xu Jingshu looked at Lu Chen with indifference. What exactly is this man thinking? She is an Evil Immortal, does he really intend for her to join Mysterious Moon Palace and become their Saintess?

Then Xu Jingshu turned to Linjiang Immortal Monarch, saying, "Sir, could it be that there was an error in the test? My talent is not outstanding, how could I possibly qualify to become the Saintess of Mysterious Moon Palace?"

Linjiang Immortal Monarch immediately replied, "Ah, fairy, do not undervalue yourself. As long as you have passed the test of this purple crystal, it proves you have the qualification. You must know that besides you, only two others have lit up this Test Stone in the past billion years, but both of them have left Mysterious Moon Palace."

Just now, Linjiang Immortal Monarch did not explain to Lu Chen and others what the Testing Crystal was for because he figured it was unlikely to yield any result, finding someone who fits the Saintess criteria is like finding a needle in a haystack.

If it weren't for the strict rules that everyone entering the Immortal City must undergo testing, he would not have bothered testing. But what he did not expect was that he actually found someone qualified to become a Saintess.

Discovering a Saintess is a monumental achievement for someone in the Mysterious Moon Palace. Linjiang Immortal Monarch seemed to already see a great road to achieving the rank of Immortal King laid ahead of him.

Xu Jingshu wanted to say something more, but Lu Chen spoke beside her, "Miss, this is wonderful, if you could become the Saintess of Mysterious Moon Palace, you won't have to worry about inadequate cultivation resources from the family anymore."

Upon hearing Lu Chen's words, how could Xu Jingshu not understand that Lu Chen wanted her to join Mysterious Moon Palace and become that Saintess?

Xu Jingshu clenched her Jade Fist, thinking why won't this devil go and be the Saintess himself!

Asking her, an Evil Immortal, to become the Saintess of a righteous Immortal Sect, isn't that pushing her into a fire pit?

Although she was angry, thinking of the child in her womb with Lu Chen, even if Lu Chen wasn't worried about her safety, he surely wouldn't harm his own child, right?

Moreover, now they were in front of an Immortal City, an Immortal City under the control of a super force like the Mysterious Moon Palace was chaired by an Immortal King. It would be challenging to escape now.

Thus, she decided to take things one step at a time.

Thinking of this, Xu Jingshu reluctantly said, "I'm willing to join Mysterious Moon Palace. Could you please instruct me on what to do next?"

Linjiang Immortal Monarch courteously said, "Fairy just needs to stay in Xuanyou Immortal City for a while, and soon Mysterious Moon Palace's elders will come to personally receive you."

The Saintess of Mysterious Moon Palace is extremely important. Once someone qualified to be a Saintess is found, they will be first protected, then personally

escorted back to Mysterious Moon Palace by elders of Immortal Venerable Level to avoid any unforeseen events.

Moreover, due to the fierce internal competition within Mysterious Moon Palace now, some factions do not want a Saintess to emerge in other factions so they might try to eliminate a person who is found by another faction to become a Saintess.

Previous people they killed were only some potential Saintess candidates who couldn't activate the Testing Crystal, but today Linjiang Immortal Monarch and the others found someone who could directly activate the Testing Crystal.

Being able to activate the Testing Crystal proves that one can cultivate 'Life is Like a Dream' directly, becoming a Saintess without undergoing selection.

If the news leaked out, certainly many would want her dead, so she must be protected.

At this point, Linjiang Immortal Monarch said, "I have already sent a voice transmission about the fairy to Xuanyou Immortal King. Fairy, please follow me."

Even before his words finished, Linjiang Immortal Monarch was ready to take Xu Jingshu to the City Lord's Mansion.

However, in the next moment, a man dressed in Qingyi suddenly appeared in front of them. The man's eyes were excited, looking at Linjiang Immortal Monarch, saying, "Linjiang Immortal Monarch, is your voice transmission just now true?"

As he spoke, Xuanyou Immortal King's gaze fell on Xu Jingshu.

Seeing Xuanyou Immortal King arrive, Linjiang Immortal Monarch quickly said, "City Lord, this is the fairy my subordinate spoke of who activated the Test Stone."

Xuanyou Immortal King had no hesitation, directly taking out a purple crystal identical to the previous Testing Crystal from his Space Ring.

Then, he came before Xu Jingshu, with an expectant heart, he said, "May we ask the fairy to test again?"

Xu Jingshu had no hesitations, immediately placing her hand on the Testing Crystal, which lit up with a bright purple light in the next moment.

Seeing this scene, Xuanyou Immortal King was momentarily stunned, then, regaining his senses, he excitedly said, "Good, good, good, fairy, please follow me."

"For the next few days you shall stay at the City Lord's Mansion, I will ensure your safety until Mysterious Moon Palace's Inner Sect Elders arrive."

Xu Jingshu said, "Okay, sorry to trouble the senior."

Xuanyou Immortal King quickly said, "Fairy no need to be so polite, people call me Xuanyou Immortal King, fairy can just call me Xuanyou."

If there are no accidents, the girl in front of him can be a Saintess for Mysterious Moon Palace. Xuanyou Immortal King naturally wanted to establish a good relationship with her.

At this moment, Xuanyou Immortal King suddenly thought of something, then turned and looked seriously at Linjiang Immortal Monarch and others, saying, "Before the Inner Sect Elders of Mysterious Moon Palace arrive, all of you will stay in this City Lord's small world."

Linjiang Immortal Monarch and others naturally understood why Xuanyou Immortal King wanted to do this, and they had no objections, all of them echoed in unison, "Yes, sir."
