

# Having children earns benefit, start competing for dominance in the world by marrying a wife

After Xuanyou Immortal King brought Linjiang Immortal Monarch and others into his own small world, he waved his hand, and in the next moment, Xu Jingshu and Lu Chen were taken to the City Lord's Mansion.

Upon arriving at the City Lord's Mansion, Xuanyou Immortal King arranged for Xu Jingshu and Lu Chen to stay in the largest palace.

Even though Xuanyou Immortal King was just a City Lord, the opulence of the City Lord's Mansion where the City Lord of an Immortal City resides was no less than that of a typical Immortal Dynasty's Imperial Palace. Both the area it covered and its luxury far exceeded the Imperial Palace of the Tianxia Immortal Dynasty.

The palace Xuanyou Immortal King arranged for Xu Jingshu was the largest one aside from the one he resided in himself.

After settling Xu Jingshu and Lu Chen in their accommodations, Xuanyou Immortal King immediately reported the news of discovering a Sacred Maiden's potential to the Mysterious Moon Palace.

Once Xuanyou Immortal King left, Xu Jingshu immediately set up an Isolation Array and then looked at Lu Chen with a cold expression and said, "What do you mean by this?"

"You want me to become the Sacred Maiden of the Mysterious Moon Palace, isn't this pushing me into a pit of fire?"

Lu Chen smiled and said, "This is the Sacred Maiden of the Mysterious Moon Palace, the largest power in the Central Domain, much stronger than the Blood Eagle Hall. How is this pushing you into a pit of fire?"

Xu Jingshu thought, if she were not an Evil Immortal, there would be no problem in becoming the Sacred Maiden of the Mysterious Moon Palace. But the problem now is that she hails from an Evil Immortal, and the Mysterious Moon Palace is a righteous Immortal Sect. If they discover she is an Evil Immortal, she's surely doomed.

Seeing Xu Jingshu seemed quite worried, Lu Chen said, "Rest assured, if anything really happens, I will take you away at the first moment."

"Besides, you have my child in your belly; do you think I would take risks with my own child?"

Xu Jingshu arched her brows slightly and said nothing. She trusted that Lu Chen wouldn't risk his own child, but she was still very worried.

Lu Chen continued, "Just now, when those people saw the Testing Crystal in your hand light up, they were so excited. Even if you don't want to be a Sacred Maiden, I'm afraid you won't be able to avoid it."

Hearing what Lu Chen said, Xu Jingshu realized indeed, seeing their reaction, people who can make the Testing Crystal light up are probably very rare. So even if she said she didn't want to join the Mysterious Moon Palace, she would likely be forcibly taken to the Mysterious Moon Palace.

At this time, Xu Jingshu suddenly thought of something and said coldly, "Generally, the Sacred Maiden of a superpower like the Mysterious Moon Palace is required to be pure. I'm already pregnant with your child. Once they find out I'm already pregnant, they'll probably expel me from the Mysterious Moon Palace."

Lu Chen said, "So you need even less to worry about."

To be honest, Lu Chen actually didn't believe Xu Jingshu could become the Sacred Maiden of the Mysterious Moon Palace. Yun Qingshu was expelled from the Mysterious Moon Palace just because she lost her purity with him. Xu Jingshu already has his child in her belly, so it is even more impossible for her to be the Sacred Maiden.

Lu Chen knew that if Xu Jingshu ran away after being tested to have the potential to be a Sacred Maiden, the Mysterious Moon Palace would definitely send people to catch her.

They had just entered the Central Domain. Given the control the Mysterious Moon Palace has over the Central Domain, no matter where they escaped to, they would probably be found by the Mysterious Moon Palace.

Rather than hiding everywhere, it's better to let the people of the Mysterious Moon Palace know that Xu Jingshu is pregnant, and in this way, the Mysterious Moon Palace will naturally give up on making Xu Jingshu the Sacred Maiden.

Xu Jingshu thought to herself that she could only take one step at a time now, hoping the people who would come for her were just Immortal Kings. If it were just an Immortal King, he probably wouldn't see through her Evil Immortal identity, and then she could directly tell him she was already pregnant. Maybe that Immortal King would let her go upon hearing she was pregnant.

Meanwhile,

Mysterious Moon Palace, Heavenly Language Peak.

Inside a certain palace, there were countless mirrors of various sizes. All these mirrors reflected a man with a soft and effeminate look.

At this moment, the effeminate man was reclining on a chair constructed from mirror surfaces. Due to the reflection of the mirrors, the brightness in the grand

hall was extremely high, making it as bright as if it were under the blazing sun, despite being indoors.

At this time, a wave of immortal power rippled across the mirror in front of the Heavenly Mirror Immortal King. With a wave of his hand, Xuanyou Immortal King's image appeared in the mirror.

Heavenly Mirror Immortal King asked indifferently, "What does Xuanyou City Lord want from me?"

Xuanyou Immortal King said excitedly, "Is the Honorable there? I need to speak with the Honorable in person about this matter."

Mysterious Moon Palace, being the number one power in the Central Domain, governed many Immortal Cities. Although Xuanyou Immortal King was an Immortal King, he was merely an Immortal King of an Immortal City. Not all Immortal Kings could contact the Inner Sect Elders of the Mysterious Moon Palace directly.

For an outside Immortal King like Xuanyou Immortal King to contact the Heavenly Language Immortal Venerable, he had to rely on other Immortal Kings of the Mysterious Moon Palace.

Seeing the excited look on Xuanyou Immortal King's face, Heavenly Mirror Immortal King frowned slightly and then said, "The Honorable is in seclusion; you can tell me whatever you need."

Upon hearing this, Xuanyou Immortal King hesitated for a moment.

The matter was significant, and in principle, it would be better to report directly to the Immortal Venerate. However, Xuanyou Immortal King feared the matter would become known to others.

If people from other factions discovered Xu Jingshu's existence, it's highly likely many would try to assassinate her, and an Immortal King like him might not be able to protect her.

Heavenly Mirror Immortal King was a trusted Immortal King of the Heavenly Language Immortal Venerate's faction, and he could be trusted.

After considering this, Xuanyou Immortal King finally said, "Heavenly Mirror Steward, our Immortal City has discovered a woman capable of activating the Maiden Testing Crystal."

Hearing this, Heavenly Mirror Immortal King immediately stood up from his seat!

"What? You found a Sacred Maiden who meets the criteria?"

Seeing Heavenly Mirror Immortal King's huge reaction, Xuanyou Immortal King said with satisfaction, "Yes."

Seeing Heavenly Mirror Immortal King's demeanor, Xuanyou Immortal King's heart was filled with satisfaction. Even though both he and the Heavenly Mirror Immortal King were Immortal Kings, the status of a Mysterious Moon Palace Immortal King was definitely higher than that of an Immortal City Immortal King.

Earlier, when he was speaking with Heavenly Mirror Immortal King, the latter had remained seated, appearing aloof. But now, upon hearing the news of a Sacred Maiden, he couldn't sit still.

Xuanyou Immortal King thought to himself that once the position of Sacred Maiden for that woman was confirmed, he would certainly be transferred to the Mysterious Moon Palace.

Although the Immortal City where he was located also belonged to the Mysterious Moon Palace, the cultivation resources an Immortal King managing an Immortal City could receive were incomparable to those available to the celestial Immortal Kings.

Heavenly Mirror Immortal King frowned and asked with certainty, "Xuanyou City Lord, are you sure the Testing Crystal really activated? There's no mistake, right?"

Xuanyou Immortal King said, "Heavenly Mirror Steward, what do you mean by this? How could that be wrong? Doesn't a glowing Testing Crystal mean one possesses the potential to be a Sacred Maiden?"

Heavenly Mirror Immortal King said, "I mean, could the Testing Crystal have been mixed up?"

Xuanyou Immortal King gave Heavenly Mirror Immortal King a disdainful look. He was even inclined to start swearing, suspecting that Heavenly Mirror Immortal King couldn't bear to see him succeed.

## **Having children earns benefit, start competing for dominance in the world by marrying a wife**

Xuanyou Immortal King, after calming his emotions, said, "We tested twice, and used two different Testing Crystals, it can't be wrong. Don't worry, Heavenly Mirror Steward."

After receiving Xuanyou Immortal King's confirmation, Heavenly Mirror Immortal King immediately said, "Then you protect her well, I'm on my way to Xuanyou Immortal City."

Xuanyou Immortal King said, "Alright, then I'll trouble Heavenly Mirror Steward."

As Xuanyou Immortal King's words fell, his figure disappeared from the mirror, and once the connection was severed, Heavenly Mirror Immortal King's face instantly turned somber.

He muttered to himself, "How come Heavenly Language Peak's luck is so good, first there were two Saintesses capable of cultivating 'Life is like a dream', and now there's another."

Xuanyou Immortal King was a member of Heavenly Language Peak, and Xuanyou Immortal City was also under Heavenly Language Immortal Venerable's jurisdiction, so when this Saintess is brought to Mysterious Moon Palace, the credit will belong to Mysterious Moon Palace.

As the Fourth Elder's plant in Heavenly Language Peak, naturally, Heavenly Mirror Immortal King was unwilling to see another Saintess emerge there.

Heavenly Mirror Immortal King was deep in thought, wondering whether to kill the Saintess or send her to the Fourth Elder as their chosen Saintess.

Since Yun Yudie's departure from Mysterious Moon Palace, they've chosen many Saintesses, but none could cultivate 'Life is like a dream', and their qualifications were soon revoked.

They realized that finding a Saintess capable of cultivating 'Life is like a dream' was not easy.

Heavenly Mirror Immortal King pondered for a moment, then took out a Jade Pendant, relayed the discovery of the new Saintess, and mentioned the plan to send her to Hidden Dragon Peak, wondering what the pendant's response would be.

In the next moment, the Jade Pendant projected a beam of light, forming the word "Allowed" in the air, and seeing the pendant's consent, Heavenly Mirror Immortal King headed straight to Xuanyou Immortal City.

Heavenly Mirror Immortal King knew that if he took this Saintess to Hidden Dragon Peak, where the Fourth Elder was, he would be betraying Heavenly Language Peak and could never return or continue his undercover work.

However, trading an undercover agent for a Saintess, Hidden Dragon Peak wouldn't lose anything; even if Heavenly Language Immortal Venerable discovered his betrayal, they wouldn't dare to act against him, as he was still an Immortal King of Mysterious Moon Palace.

Mysterious Moon Palace had many Immortal Kings, but not so many that the Venerable could kill them at will, and this kind of betrayal towards Mysterious Moon Palace was tolerable as long as they didn't betray the palace itself.

Betrayals often occurred between factions within Mysterious Moon Palace, but no matter how they betrayed each other, they remained part of Mysterious Moon Palace, so the Palace Master never intervened.

As Heavenly Mirror Immortal King left Heavenly Language Peak, on the cliff at its summit, Heavenly Language Immortal Venerable in white opened her eyes.

Watching the direction of Heavenly Mirror Immortal King's departure, she whispered to herself, "He hasn't left Heavenly Language Peak for a long time, it seems Hidden Dragon Immortal Venerable has given him a task."

Everyone who becomes an Immortal Venerable is no fool, all are cunning, and Heavenly Language Immortal Venerable is no exception. She long knew Heavenly Mirror Immortal King belonged to Fourth Elder Hidden Dragon Immortal Venerable, but she didn't care since he hadn't caused her any trouble, merely lurking in Heavenly Language Peak.

And she was always curious why Hidden Dragon Immortal Venerable placed Heavenly Mirror Immortal King in Heavenly Language Peak, as she was a newly emerged Immortal Venerable in billions of years, though now an Inner Sect Elder, her status in Mysterious Moon Palace wasn't high, and her power was the weakest with few Immortal Kings under her.

Given her current strength, fighting for the Palace Master position was impossible, and the current Palace Master was at their peak, not the time for such a struggle, so it seemed strange to have an undercover Immortal King placed in her Peak.

In order to understand Hidden Dragon Immortal Venerable's motives, Heavenly Language Immortal Venerable refrained from exposing Heavenly Mirror Immortal King, wanting to see his purpose.

Heavenly Mirror Immortal King had been quiet for a long time, but now suddenly leaving Heavenly Language Peak must mean something, which made Heavenly Language Immortal Venerable turn into starlight, disappearing.

Heavenly Mirror Immortal King was unaware that Heavenly Language Immortal Venerable followed him, nor did he expect an Immortal Venerable to bother tracking an Immortal King.

Transmission Arrays connected Immortal Cities and Mysterious Moon Palace directly, and by evening, Heavenly Mirror Immortal King reached Xuanyou Immortal City.

When Xuanyou Immortal King sensed a pressure at Immortal King Level, he knew Heavenly Mirror Immortal King had arrived, immediately heading outside the palace, where Heavenly Mirror Immortal King appeared before him.

Heavenly Mirror Immortal King wasted no time, directly asking, "Where are they?"

Faced with Heavenly Mirror Immortal King's attitude, Xuanyou Immortal King felt discontent, but said nothing, thinking once that woman became a Saintess and joined Mysterious Moon Palace, her rank would surely exceed his.

And he believed that Xu Jingshu might later elevate him out of gratitude, and with higher status than Heavenly Mirror Immortal King, he could seek retribution.

Thinking thus, Xuanyou Immortal King said, "Follow me."

In the next moment, Xuanyou Immortal King led Heavenly Mirror Immortal King to the palace where Xu Jingshu and Lu Chen were housed. Knowing someone would soon come for them, they hadn't been intimate today.

Sensing two powerful auras, they immediately went to the main hall.

Heavenly Mirror Immortal King glanced at Xu Jingshu, asking Xuanyou Immortal King, "Is this the woman you spoke of?"

Xuanyou Immortal King replied, "Yes."

Without saying much, Heavenly Mirror Immortal King took out a purple crystal, which flew to Xu Jingshu, "Grip it, use your immortal power."

Despite knowing Xu Jingshu was possibly a Saintess candidate, he needed verification.

Xu Jingshu hesitated not, directly grasping the Testing Crystal, which immediately emitted a bright glow.

Seeing this, Heavenly Mirror Immortal King felt intensely excited; it was true, this Saintess would belong to Hidden Dragon Peak.

Heavenly Mirror Immortal King's eyes gleamed as he looked at Xuanyou Immortal King, a slight smirk forming on his lips, thinking their ambition was futile.

If he brought this woman to Hidden Dragon Peak, the glory of discovering a Saintess would be his.

Just as Heavenly Mirror Immortal King entertained these thoughts, suddenly, everyone felt a terrifying pressure.

Feeling this pressure, Heavenly Mirror Immortal King's face instantly changed.

How could it be...

This aura was all too familiar to him, and in the next moment, a woman in plain white attire appeared in the hall.

## **Having children earns benefit, start competing for dominance in the world by marrying a wife**

The woman's white gown clung tightly to her graceful and voluptuous body, her snow-white long hair cascading to her waist. Her beauty was unparalleled, with cold and indifferent jade-like cheeks, emitting bursts of frost aura, and the entire hall was covered in a faint layer of frost upon her arrival.

The moment this woman appeared, the system interface popped up.

[Name: Heavenly Language Immortal Venerable]

[Identity: Elder of the Inner Sect of Mysterious Moon Palace, Yun Qingshu, Yun Qingshu's Honored Master. After discovering that the spy Heavenly Mirror Immortal King had left her peak, she became curious about the task he had received, and so she followed him. Surprisingly, she found a woman capable of activating the Testing Crystal. Seeing the profile of Heavenly Language Immortal Venerable, Lu Chen was taken aback. Groom Xu Jingshu into a Seizing Body?

Could it be that the Saintess of Mysterious Moon Palace wasn't a true Saintess but merely a Seizing Body groomed for an Immortal Emperor?

Thinking of this, Lu Chen reflected that fortunately Yun Qingshu and Yun Yudie had left Mysterious Moon Palace early, or else his two women might have been possessed by that Immortal Emperor Youlan.

Still, he originally thought that other than Xuan Qingyun, there were no other Immortal Emperors in Tianyan Immortal Domain, yet there's another one in Tianyan Immortal Domain.

Just that Immortal Emperor Youlan needs to possess others, indicating her impending limit is near. However, breaking the limit of an Immortal Emperor isn't something easily done, is it?

He had never heard of any Immortal Emperor breaking through their limit.

In Lu Chen's view, possession refers to the Divine Soul possessing the Physical Body, but for beings at the level of an Immortal Emperor, the Physical Body isn't particularly important; they can completely create one themselves. A self-created body is more suited to them compared to a Seizing Body since the body can be designed to their own specifications.

No matter how good another's body is, it can't match a self-created body.

Lu Chen did not know the Possession Technique, so he couldn't understand why an Immortal Emperor would need a Seizing Body.

The limit of an Immortal Emperor is not the same as severe injury to the Immortal Emperor's Divine Soul. If an Immortal Emperor's Divine Soul were to be severely injured, resulting in significant loss of power and exposure with potential danger,

and lacking the power to forge a new body, then possessing others is indeed a good choice.

Yet, the system data suggests that Heavenly Language Immortal Venerable seeks a Seizing Body to aid Immortal Emperor Youlan in breaking the limit. When an Immortal Emperor's limit approaches, no matter how many bodies they possess, it's useless because the limit concerns the Divine Soul. Unlike a body, the decline of the Divine Soul is irreversible.

Lu Chen could not understand why Mysterious Moon Palace would act this way but chose not to dwell on it. After all, they would soon enter Mysterious Moon Palace, and he would find out soon enough.

At this moment, Heavenly Mirror Immortal King stared blankly at Heavenly Language Immortal Venerable, "Peak...Peak Master..."

"Why...how are you here..."

Heavenly Language Immortal Venerable coldly replied, "You found someone with Saintess qualities, yet chose not to report to me, Heavenly Mirror Immortal King, what are you up to?"

Upon hearing Heavenly Language Immortal Venerable's words, Xuanyou Immortal King, standing nearby, was stupefied. Heavenly Mirror Immortal King mentioned Heavenly Language Immortal Venerable was in seclusion?

Xuanyou Immortal King realized immediately that Heavenly Mirror Immortal King probably wanted to seize credit for himself; he quickly added, "Honorable, Heavenly Mirror Immortal King told me you were in seclusion!"

Xuanyou Immortal King finished speaking, and Heavenly Language Immortal Venerable erupted with an icy and terrifying frost aura, instantly turning the entire palace into a frozen cave.

"Seclusion?"

"Heavenly Mirror Immortal King, what are you plotting by concealing your findings without authorization?"

At this time, Heavenly Mirror Immortal King felt an intense murderous aura permeating the air and his innermost self sensed a deep crisis, as if he would be slain the next moment.

Heavenly Mirror Immortal King hurriedly said, "Peak... Peak Master spare me. I was blinded by desire and wanted to snatch the credit for discovering the Saintess from Xuanyou Immortal King; hence I didn't tell you."

Being undercover cannot be exposed at this critical moment, not in Mysterious Moon Palace; if Heavenly Language Immortal Venerable decided to kill him, it would be as easy as pie.

Coveting credit is quite common in Mysterious Moon Palace; he believed Heavenly Language Immortal Venerable would not suspect anything.

However, as soon as Heavenly Mirror Immortal King finished speaking, Heavenly Language Immortal Venerable lifted a hand, instantly freezing him into an ice sculpture.

Before becoming an ice sculpture, Heavenly Mirror Immortal King's pupils contracted abruptly, his eyes opened wide, looking at Heavenly Language Immortal Venerable in disbelief.

Heavenly Language Immortal Venerable spoke coldly at this moment, "Stealing credit? Indeed, you wanted to snatch the credit, but not for yourself—for Hidden Dragon Peak."

Despite being frozen, Heavenly Mirror Immortal King could still hear Heavenly Language Immortal Venerable's words. Realizing she knew he belonged to Hidden Dragon Immortal Venerable sent a storm in his heart.

It appeared Heavenly Language Immortal Venerable likely knew all along he was Hidden Dragon Immortal Venerable's man, but feigned ignorance to see what he was up to at Heavenly Language Peak.

If it weren't for the discovery of a new Saintess, Heavenly Language Immortal Venerable likely wouldn't have exposed his identity so quickly.

Heavenly Mirror Immortal King thought internally, "It's over, I'm done for."

However, at this moment, Heavenly Language Immortal Venerable waved a hand, shattering the ice on Heavenly Mirror Immortal King. Seeing Heavenly Language Immortal Venerable lift his control, Heavenly Mirror Immortal King looked at her in confusion.

Heavenly Language Immortal Venerable said coldly, "Go back and tell Hidden Dragon Immortal Venerable to withdraw all spies from my peak and don't think about coveting the Saintess."

"If he doesn't withdraw those spies, don't blame me for being merciless."

Seeing Heavenly Language Immortal Venerable spare him, Heavenly Mirror Immortal King quickly said, "Yes, I will obey the Immortal Venerable's command and relay the message immediately."

Once he finished speaking, Heavenly Mirror Immortal King fled the hall in haste.

Although there are many Immortal Kings in Mysterious Moon Palace, killings aren't done lightly. Moreover, though Heavenly Mirror Immortal King belongs to Hidden Dragon Immortal Venerable, he also is part of Mysterious Moon Palace.

Besides, with disaster approaching, Immortal Kings are crucial defenders of Mysterious Moon Palace and certainly not to be killed.

After Heavenly Mirror Immortal King left, Heavenly Language Immortal Venerable focused on Xu Jingshu. She hadn't expected to find someone capable of cultivating 'Life is like a dream' so quickly; now she wouldn't need to call Yun Yudie back.

But just then, Heavenly Language Immortal Venerable noticed something amiss. Being an Immortal Venerate, her perception far exceeded that of an Immortal King. She clearly felt two hearts beating within Xu Jingshu and sensed another life essence.

**Having children earns benefit, start competing for dominance in the world by marrying a wife**

Heavenly Language Immortal Venerable furrowed her brows slightly, then directly used her Divine Sense to probe Xu Jingshu's body. Sure enough, she discovered that a small life had already been nurtured within Xu Jingshu's belly. Although not yet fully formed, it was clear that the small life had been there for some time.

The Heavenly Language Immortal Venerable looked coldly into Xu Jingshu's eyes and asked, "How many years have you been pregnant?"

Upon hearing this question, Xuanyou Immortal King beside her was struck as if by a bolt from the blue.

Pregnant?

Does that mean this woman has already been defiled?

The Saintess of the Mysterious Moon Palace, apart from cultivating "Life is like a dream", has one condition: she must remain pure.

The first Saintess was expelled because she lost her purity.

Xuanyou Immortal King now felt as though the world had gone dark. After finally discovering someone who could become the Saintess, thinking he could soar to

glory and enter the Mysterious Moon Palace, it turned out she was defiled and even pregnant.

The highs and lows of life were difficult for Xuanyou Immortal King to accept.

Seeing that the Heavenly Language Immortal Venerable had immediately seen through to the pregnancy, Xu Jingshu internally sighed in relief, thinking that she might not have to become the Saintess of the Mysterious Moon Palace after all.

Upon thinking this, Xu Jingshu replied, "Honorable Venerable, it's been nearly ten years."

In those years, she and Lu Chen had been on the Immortal Ship, losing track of time. Judging by the child's growth within, it should be nearly ten years.

Hearing Xu Jingshu's answer, the Heavenly Language Immortal Venerable thought that they might have to search for Yun Yudie.

Immortal Emperor Youlan needed a complete body and a pure soul. This woman was defiled and even pregnant. For an Immortal to get pregnant is not easy, meaning she and her Dao companion must have engaged countless times, tainting her soul long ago.

At this moment, the Heavenly Language Immortal Venerable suddenly thought, Yun Yudie has left the Mysterious Moon Palace for so many years, does she now have a Dao companion as well? If so, even if Yun Yudie is found again, she can't be the host for Immortal Emperor Youlan's reincarnation.

Seeing the Heavenly Language Immortal Venerable's silence, Xu Jingshu proactively said, "Honorable Venerable, I am pregnant now and cannot become the Saintess of the Mysterious Moon Palace. I apologize sincerely for troubling you to come."

After hearing Xu Jingshu's words, the Heavenly Language Immortal Venerable came back to her senses, her voice indifferent as she said, "No problem."

Just as she was about to leave, she suddenly thought of something—if the woman met the conditions, then might her offspring also meet them?

Considering this, the Heavenly Language Immortal Venerable said suddenly, "You may not qualify to become the Saintess, but if your child inherits your bloodline, and if she is a girl, she could very likely have the qualifications to become the Saintess."

This...

Xu Jingshu was stunned. She originally thought she could leave the Mysterious Moon Palace, but didn't expect that they'd aim for her child instead. As Xu Jingshu

was about to say something, the Heavenly Language Immortal Venerable appeared before her once more, pulling out the purple crystal from earlier.

Seeing the Heavenly Language Immortal Venerable seemingly about to take action on Xu Jingshu, Lu Chen frowned, contemplating whether to activate the Immortal King's Remain Curse to take Xu Jingshu away. The Heavenly Language Immortal Venerable spoke, "Relax, I just want to check the qualifications of your offspring."

For an Immortal Venerable, checking the qualifications of a child inside the belly is not difficult. The Heavenly Language Immortal Venerable raised her hand, infusing a trace of Immortal Aura into Xu Jingshu's belly, guiding the child's Immortal Aura into the testing crystal.

Under the guidance of the Heavenly Language Immortal Venerable, a trace of Immortal Aura from the child within Xu Jingshu left her body, entering the testing crystal. The next moment, the crystal emitted a bright purple light.

Seeing this scene, the Heavenly Language Immortal Venerable was pleased, just as she had thought.

Seeing the purple crystal emitting a bright light, Xu Jingshu was once again stunned.

It's over, there's no escaping now.

The Heavenly Language Immortal Venerable then said to Xu Jingshu, "Although you can no longer become the Saintess of the Mysterious Moon Palace, your fetus has the qualification. Once she is born, if the Mysterious Moon Palace has no other Saintess, she will be the Saintess of the Mysterious Moon Palace."

"From today onwards, you shall be my Direct Disciple."

Though calamity looms, it takes many years for an Immortal to bear offspring. However, the Heavenly Language Immortal Venerable believed the calamity wouldn't arrive before Xu Jingshu gave birth.

Xu Jingshu would bear the child in no more than ten thousand years, and the Mysterious Moon Palace had plenty of medicines to lay the foundation for the child in Xu Jingshu's belly.

Starting cultivation from the fetus is more advantageous for being the Seizing Body for Immortal Emperor Youlan, ensuring the host body's soul remains pure.

"Very well, come with me now."

As she spoke, the Heavenly Language Immortal Venerable prepared to take Xu Jingshu away, but Xu Jingshu hurriedly said, "Honorable Venerable, please wait."

The Heavenly Language Immortal Venerable looked at Xu Jingshu in confusion. If it were someone else who learned that they would be accepted as a disciple, they would be overjoyed, but this woman seemed unaffected.

The Heavenly Language Immortal Venerable asked, "What more do you have to ask?"

Xu Jingshu said, "Honorable Venerable, he is my attendant. Can I take him along?"

Hearing Xu Jingshu's words, the Heavenly Language Immortal Venerable turned her gaze to Lu Chen, who had been standing beside Xu Jingshu all along. She had not paid him much attention since entering the hall.

Hearing Xu Jingshu's request, the Heavenly Language Immortal Venerable finally looked at Lu Chen closely and frowned slightly.

She vaguely saw red threads on both Lu Chen and Xu Jingshu.

Is this the marriage line?

The Heavenly Language Immortal Venerable quickly understood that this man was not Xu Jingshu's attendant, but clearly her lover.

However, the Mysterious Moon Palace did not forbid finding a Dao companion, especially since she was already defiled and unqualified to be a Saintess. The Palace now only needed the child within Xu Jingshu. As long as the child's safe birth could be ensured, whether Xu Jingshu had a Dao companion or not was irrelevant.

Thinking of this, the Heavenly Language Immortal Venerable said, "Alright."

Then she turned to Xuanyou Immortal King, saying, "You found someone with Saintess qualifications, this counts as a great merit. When the new City Lord arrives, you may come to the Heavenly Language Peak of the Mysterious Moon Palace to be an Outer Sect Elder."

Hearing these words, Xuanyou Immortal King was overjoyed. He thought a promotion was hopeless, but didn't expect a sudden turn of events. Xuanyou Immortal King immediately said, "Thank you, Honorable Venerable!"

The Heavenly Language Immortal Venerable said no more, raising her hand, and the next moment she returned to the Heavenly Language Peak of the Mysterious Moon Palace with Xu Jingshu and Lu Chen.

Standing at the peak of Heavenly Language Peak, looking at the semicircular horizon in the distance, Lu Chen couldn't help but marvel; it truly is the largest Immortal Sect in the Middle Domain, likely even larger than Earth itself.

At this moment, the Heavenly Language Immortal Venerable looked at Xu Jingshu and asked, "What is your name and where do you come from?"

## **Chapter 1715 - 1405: Could She Be the Only One Who Can Find the Person Cultivating "Life is Like a Dream"?**

Although the Heavenly Language Immortal Venerable did not truly intend to accept Xu Jingshu as a direct disciple, since she was nominally her disciple, she still had to know a little about this disciple.

Xu Jingshu then replied, "Honored Master, this disciple's name is Xu Jingshu, from the Southern Domain Heavenly Xia Immortal Dynasty."

Knowing Xu Jingshu's name, the Heavenly Language Immortal Venerable did not ask further. As for Lu Chen, she didn't even spare him a glance; to her, a mere Heavenly Immortal was nothing more than Xu Jingshu's plaything.

As Xu Jingshu was her direct disciple, if Xu Jingshu were to give birth to a Saintess, even if the Saintess was just a reincarnation vessel, Xu Jingshu's status and rank in the Mysterious Moon Palace would not be low, and a Heavenly Immortal would certainly be unworthy of her.

However, the Heavenly Language Immortal Venerable disdained to separate Xu Jingshu and Lu Chen, believing that once Xu Jingshu's status and rank rose, she would naturally know what to do.

Besides, having a plaything was not a bad thing; many fairies in the Mysterious Moon Palace had their own playthings.

At this moment, the Heavenly Language Immortal Venerable said, "Soon I will have someone take you to choose a cultivation cave and residence. From now on, stay in the Mysterious Moon Palace and cultivate well."

Xu Jingshu said, "Yes, Honored Master."

As Xu Jingshu finished speaking, the Heavenly Language Immortal Venerable sent a message to someone, and the next moment, a female disciple dressed in Qingyi came before her, "Greetings, Peak Master."

The Heavenly Language Immortal Venerable said lightly, "She is my direct disciple. Take her to choose a cultivation cave and residence."

"Yes, Peak Master."

The Qingyi-clad woman then looked at Xu Jingshu and said, "Senior Sister, please follow me."

In the Mysterious Moon Palace, strength and status are both respected. Now that Xu Jingshu is the direct disciple of the Heavenly Language Immortal Venerable, she becomes the senior sister of all disciples on the Heavenly Language Peak, and all disciples will address her as senior sister.

Guided by the female disciple from the Heavenly Language Peak, Xu Jingshu soon chose a cultivation cave rich in immortal aura and a residence.

After selecting her residence, the guiding female disciple took out a jade pendant and respectfully said, "Senior Sister, I won't disturb your cultivation. If you need anything, you can contact me at any time using the jade pendant."

Accepting the jade pendant, Xu Jingshu said, "Alright, then I'll trouble you, Junior Sister."

Following this, the Qingyi-clad woman turned and left the courtyard. Once the Qingyi woman had departed, Xu Jingshu breathed a sigh of relief.

From the moment she saw the Heavenly Language Immortal Venerable, her mind had been tense, fearing that the Immortal Venerable would discover she was an Evil Immortal.

Relaxing now, Xu Jingshu coldly looked at Lu Chen. It was all this bastard's fault, insisting on coming to the Central Domain, nearly getting her killed.

Seeing Xu Jingshu staring directly at him, Lu Chen smiled and asked, "What's wrong? Are you thinking of it again?"

Hearing Lu Chen's words, Xu Jingshu's expression turned even colder. She then said, "Aren't you afraid I'll tell my Honored Master about your deeds and let her force you to relinquish my soul source?"

Upon hearing this, Lu Chen replied calmly, "You can try. After all, this body is merely a clone of mine."

Xu Jingshu was suddenly taken aback.

A clone...

Thinking about her inability to threaten this bastard, Xu Jingshu couldn't help but clench her jade fist. Despite having been intimate with the man before her for many years, she was deeply unwilling when she considered that her soul source was in his hands, making her his plaything.

She had just been considering using the Heavenly Language Immortal Venerable to free herself from Lu Chen's control, only to find that this guy was merely a clone.

Enough, since she was going to bear Lu Chen's child anyway; after all, her child was destined to become the Saintess of the Mysterious Moon Palace. She could not bring herself to destroy her child.

As Xu Jingshu was lost in thought, Lu Chen approached, pulling her into his embrace. As Lu Chen drew near, Xu Jingshu's body trembled slightly, whether through habit from intimacy or not. As long as Lu Chen came close, she couldn't control herself and would immediately become aroused.

Feeling the strangeness within herself, Xu Jingshu could only clench her jade fist. Lu Chen then said, "You've been so tense since meeting that Immortal Venerate, which isn't beneficial for our child's development. Let me help you relax a bit."

Hearing Lu Chen's words, Xu Jingshu snorted coldly, not saying much more.

As an Evil Immortal, she had long been enamored with that feeling of decadence. Whenever Lu Chen wanted to engage with her, her body couldn't resist, yet the realization that she was Lu Chen's plaything left her somewhat unwilling.

She could be with Lu Chen, obsessed with that feeling, but she could not engage with him as a plaything; she was supposed to be Lu Chen's master.

Feeling the charm power emanating from Xu Jingshu, Lu Chen's desires were stirred. He immediately embraced Xu Jingshu's body, and the next moment, they both found themselves in the room, beginning their business.

Meanwhile.

Hidden Dragon Peak.

Hidden Dragon Peak resembled a giant dragon. At the tip of one of the "dragon's" horns, the peak's highest point, a venerable with a body exuding golden immortal aura sat cross-legged atop the mountain.

At this moment, sensing something, he slowly opened his eyes, his golden vertical pupils appearing very mysterious.

The next moment, a shadow appeared behind the Hidden Dragon Immortal Venerable, "Greetings, Peak Master."

The Hidden Dragon Immortal Venerable then asked, "What about the woman you mentioned?"

The Heavenly Mirror Immortal King promptly knelt, saying, "I ask for the Peak Master's discretion; I couldn't complete your task."

Hearing this, the Hidden Dragon Immortal Venerable furrowed his brows and asked, "Did you kill her?"

The Heavenly Mirror Immortal King began to sweat profusely, stammering, "The Heavenly Language Immortal Venerable already discovered I was your man. When I went to Xuanyou Immortal City, she followed, so..."

The Heavenly Mirror Immortal King hesitated, not daring to continue.

Hearing the Heavenly Mirror Immortal King's words, the Hidden Dragon Immortal Venerable's face darkened, remaining silent for a long time. Seeing him speechless for so long, the Heavenly Mirror Immortal King grew even more fearful.

After a while, the Hidden Dragon Immortal Venerable finally said, "Enough, you may leave."

Although the Heavenly Language Immortal Venerable's power was less than his, she was still an Immortal Venerable. It wasn't surprising for her to discover the Heavenly Mirror Immortal King was his person.

The Hidden Dragon Immortal Venerable had no intention to blame the Heavenly Mirror Immortal King, having anticipated exposure someday. Fortunately, he had never given any special orders to the Heavenly Mirror Immortal King, having mainly tasked him with reporting the Heavenly Language Immortal Venerable's movements.

Even if the Heavenly Mirror Immortal King was exposed, the Heavenly Language Immortal Venerable couldn't possibly know why he had someone watching her.

Seeing that the Hidden Dragon Immortal Venerable wasn't holding him accountable, the Heavenly Mirror Immortal King quickly said, "Thank you for your mercy, Peak Master!"

"This junior takes his leave!"

Once he said this, the Heavenly Mirror Immortal King quickly left.

After the Heavenly Mirror Immortal King departed, the Hidden Dragon Immortal Venerable looked towards the direction of the Heavenly Language Peak and muttered, "This is already the third one. Could it be that only she can find the person cultivating Life is like a dream?"

## **Having children earns benefit, start competing for dominance in the world by marrying a wife**

In order to obtain the resources of the Saintess, Hidden Dragon Peak also selected several Saintesses, but none of them could cultivate Life is like a dream, and eventually they were all discarded.

Later, Hidden Dragon Immortal Venerable expended great resources to find an Immortal Venerate skilled in deducing Heavenly Mechanism to deduce where the most likely place for the appearance of a Saintess would be. The result pointed to Heavenly Language Peak.

Thus, Hidden Dragon Immortal Venerable placed Heavenly Mirror Immortal King into Heavenly Language Peak to see if the Heavenly Language Immortal Venerate was secretly nurturing another Saintess.

After all, since the establishment of Mysterious Moon Palace, the two Saintesses who could cultivate Life is like a dream both came from Heavenly Language Peak, and now the most likely place for the appearance of a Saintess is again Heavenly

Language Peak. Hidden Dragon Immortal Venerable naturally cannot believe this has nothing to do with Heavenly Language Immortal Venerate.

However, now that his envoy has been discovered by Heavenly Language Immortal Venerate, he can no longer know how Heavenly Language Immortal Venerate nurtures individuals who can cultivate Life is like a dream.

Just as Hidden Dragon Immortal Venerable was lost in thought, suddenly, a voice transmission appeared in his mind, "Quickly come to the main peak!"

Upon hearing the voice of the Palace Master, Hidden Dragon Immortal Venerable furrowed his brows, thinking that surely the Heavenly Language Immortal Venerate had sent the woman who could cultivate Life is like a dream to the main peak, and the Palace Master was going to make her the Saintess.

Thinking of this, Hidden Dragon Immortal Venerable was quite annoyed; how is it that every time a Saintess capable of cultivating Life is like a dream happens to be from Heavenly Language Peak? Heavenly Language Peak has already received enough cultivation resources.

Back then, Heavenly Language Immortal Venerate was merely an ordinary Immortal King. It was only because she found a Saintess who could cultivate Life is like a dream that Mysterious Moon Palace allocated a large amount of cultivation resources to Heavenly Language Peak, allowing Heavenly Language Immortal Venerate to quickly break through to the Immortal Venerate realm.

The key is that other peaks can't say much, after all, they all know what the Saintess is for, and this was the intention of their founder; they dare not defy it, especially since they didn't foresee anyone able to cultivate Life is like a dream.

Soon, Hidden Dragon Immortal Venerate arrived at the Meeting Hall of the main peak.

In the hall, made of white Immortal Crystal, sat a beautiful woman in a colorful Cloud Robe at the top. Her figure seemed to flicker in and out of view, augmented by the Immortal Aura emanating from her, making her appear dreamlike.

Within moments, the Immortal Venerates of Mysterious Moon Palace all gathered in the Meeting Hall, including Heavenly Language Immortal Venerate.

The Palace Master of Mysterious Moon Palace, Immortal Venerable Yun Meng, scanned the nine Immortal Venerates present before saying, "The founder woke up briefly earlier."

Upon hearing this, the Immortal Venerates glanced at each other, and Hidden Dragon Immortal Venerable promptly asked, "Did the founder leave any orders?"

Immortal Venerable Yun Meng said, "The founder warned that disaster is approaching, and we must quickly find someone who can cultivate Life is like a dream to help her live a second life; otherwise, the entire Mysterious Moon Palace will be destroyed, and we will all become food for the demonic forces outside."

Upon hearing this, everyone felt a chill, and Immortal Venerable Yun Meng continued, "I know that over these years, you've been secretly competing with each other, trying to prevent other peaks from discovering the Saintess first, but let me remind you, if you keep fighting like this and prevent the founder from living a second life, we will all die."

After hearing Immortal Venerable Yun Meng's words, everyone present fell silent. In these years, to secure the cultivation resources accompanied by the Saintess, they had indeed been competing fiercely, even killing off many candidates for the Saintess. Although those chosen were likely unable to cultivate Life is like a dream, they would rather commit an error and prevent other peaks from proposing a Saintess than miss any chance.

However, now that even the founder has spoken of the impending disaster, if they continue fighting and still can't find someone to cultivate Life is like a dream, they are only seeking death.

At this time, Heavenly Language Immortal Venerate stepped forward and said, "Palace Master, today I have brought back a woman who can cultivate Life is like a dream."

With these words, the Immortal Venerates in the hall all turned their eyes to Heavenly Language Immortal Venerate. In their hearts, they couldn't help but think, how is Heavenly Language Immortal Venerate's luck so good? Not only did those previous two capable of cultivating Life is like a dream come from their Heavenly Language Peak, but she managed to find another one.

At this point, Immortal Venerable Yun Meng was about to instruct Heavenly Language Immortal Venerate to send the woman to the main peak.

Yet, Heavenly Language Immortal Venerate said, "Unfortunately, she is already pregnant."

Her words left everyone present stunned.

After billions of years, they finally found someone who could cultivate Life is like a dream, but she is pregnant.

At this time, Hidden Dragon Immortal Venerable secretly breathed a sigh of relief; if the woman brought back by Heavenly Language Immortal Venerate is pregnant, then they still have a chance. He doesn't believe that only Heavenly Language Immortal Venerate can find someone who can cultivate Life is like a dream. He plans to find the Immortal Venerate who can deduce Heavenly Mechanism again for some insight.

Immortal Venerable Yun Meng frowned slightly and then said, "The founder needs a pure soul, and if she is pregnant, that might be unacceptable."

"However, she can remain in Mysterious Moon Palace, and if no other suitable candidates are found, then we'll have to make do for the founder."

In the past, the rigid requirement for selecting Saintesses was that they must remain chaste, but ever since Yun Yudie left, they haven't found anyone able to cultivate Life is like a dream. If they continue with the old criteria, when the disaster arrives and the founder cannot live a second life, they will only be left to wait for death.

Then, Heavenly Language Immortal Venerate continued, "Palace Master, although that woman is pregnant and cannot qualify as Saintess, I discovered her unborn child can activate the Testing Crystal."

With these words, everyone was again stunned.

They understood clearly that, to the founder, the purest soul is akin to that of a newborn child. Naturally, the child's age is too young and its Divine Soul is weak, which is unfavorable for reincarnation.

But if carefully nurtured, as the child grows, its Divine Soul will surely become very strong, and they can place the child in a specific environment to ensure the purity of her soul.

Thinking of this, Immortal Venerable Yun Meng immediately said, "Junior Sister, once you return, send that woman to the main peak. I will personally supervise her."

Immortal Venerable Yun Meng now fears those Immortal Venerates might still be plotting, so she decides to personally protect the Saintess's safety.

She doesn't believe anyone would dare act against the Saintess under her protection.

Heavenly Language Immortal Venerate said, "Yes, Palace Master."

Immortal Venerable Yun Meng continued, "Even though we have found someone suitable for the founder's reincarnation, the founder's Possession Technique is self-created, and nobody can guarantee it will succeed at once."

"Therefore, if anyone finds others able to cultivate Life is like a dream, they shall also receive the Saintess's treatment."

In the past, the various Immortal Venerates competed for the abundant resources tied to being a Saintess, so with qualified individuals becoming Saintesses, there would be no need for further fighting.

## Chapter 1717 - 1407: Never Thought an Evil Immortal Could Also Possess the Qualities of a Saintess

The Immortal Venerates present were momentarily stunned upon hearing the words of Immortal Venerable Yun Meng. The cultivation resources in the Tianyan Immortal Domain are limited, and the higher one's cultivation state, the more resources are needed, especially the precious ones.

So even a super force like the Mysterious Moon Palace would not casually expend cultivation resources. To cultivate a Saintess already requires a vast amount of resources, and now their Palace Master is saying that anyone qualified to become a Saintess should be given the same treatment as a Saintess.

If the Mysterious Moon Palace were to indeed discover several more individuals with the potential to become a Saintess in the future, the resources consumed would be enormous.

Immortal Venerable Yun Meng continued, "This matter is settled then, and that's all for today."

Seeing that the Palace Master had made a decision, the others couldn't say much more, and subsequently, all the Immortal Venerates left the main peak.

After returning, Immortal Venerable Heavenly Language immediately went to the courtyard of Xu Jingshu, and as soon as she arrived, she heard noises coming from Xu Jingshu's room.

Upon hearing those sounds, Immortal Venerable Heavenly Language frowned deeply. Although she didn't care whether Xu Jingshu had a partner or if she was enjoying herself with that man, Xu Jingshu was now pregnant, and the child in her womb was significant to the Mysterious Moon Palace. Yet here they were, engaging so intensely.

What if her child was harmed because of this?

Thinking of this, Immortal Venerable Heavenly Language immediately communicated, "Jingshu, get yourself together, I have something to discuss with you."

Upon hearing the voice of Immortal Venerable Yun Meng, Xu Jingshu paused for a moment, quickly nudging Lu Chen. Lu Chen realized what was going on, hastily ended what he was doing, dressed, and left the room with Xu Jingshu.

When the two of them arrived at the courtyard, they saw Immortal Venerable Heavenly Language frowning deeply. She originally thought that Xu Jingshu would come out of the room immediately after hearing her voice, but instead, they stayed inside for another quarter of an hour.

And during that quarter of an hour, it seemed they hadn't stopped what they were doing. Immortal Venerable Heavenly Language gazed at Lu Chen, exuding a faint killing intent.

Even though this man's cultivation state was lower than Xu Jingshu's, she could sense that he held the dominant position in their relationship. Otherwise, when she called Xu Jingshu earlier, Xu Jingshu would have come out then, not now.

Although Xu Jingshu was not a Saintess, she was the future mother of a Saintess, and now she was also her direct disciple, with such a noble identity, how could she be controlled by a mere Heavenly Immortal?

A lowly Heavenly Immortal was only fit to be Xu Jingshu's male pet.

Noticing the killing intent emanating from Immortal Venerable Heavenly Language, Xu Jingshu paused slightly and hurriedly said, "Honored Master, what matter do you have with your disciple?"

Immortal Venerable Heavenly Language said indifferently, "Follow me to the main peak, and you will stay there until your child is born."

Hearing this, Xu Jingshu was taken aback for a moment, the main peak?

Wouldn't that mean encountering the Mysterious Moon Palace's Palace Master?

If her identity as an Evil Immortal was discovered by the Mysterious Moon Palace's Palace Master, the consequences would be unimaginable.

Just as Xu Jingshu was thinking of refusing, she saw Immortal Venerable Heavenly Language raise her hand, and the next moment, the two figures vanished on the spot.

When light reappeared before Xu Jingshu's eyes, she found herself in a gigantic palace crafted from Immortal Crystals.

Gazing at the seven-colored glowing palace, Xu Jingshu fell into a temporary trance, but the voice of Immortal Venerable Heavenly Language brought her back to reality.

"Palace Master, I have brought the person."

Upon hearing this, Xu Jingshu immediately looked forward and saw not far away a woman dressed in a seven-colored Cloud Robe, and she was stunned once more.

The woman was incredibly beautiful, even as a woman herself, she was astonished by her beauty, beauty that seemed so unreal.

The seven-colored Immortal Aura emanating from the woman made Xu Jingshu feel somewhat oppressed. Just as she was about to bow, Immortal Venerable Heavenly Language said to her, "Jingshu, this is the Palace Master of the Mysterious Moon Palace."

Xu Jingshu hastily bowed and said, "Disciple greets the Palace Master."

With a single step, Immortal Venerable Yun Meng appeared in front of Xu Jingshu. A drop of sweat slid down Xu Jingshu's fair forehead as she always felt that Immortal Venerable Yun Meng could see through her identity.

At this moment, Immortal Venerable Yun Meng spoke, "Who would have thought that even an Evil Immortal could have the potential to become a Saintess."

Upon hearing this, Xu Jingshu's mind went blank.

It's over, she's really been found out!

She always knew there would be a day when she'd be discovered.

Just as Xu Jingshu thought she was doomed, Immortal Venerable Yun Meng spoke again, "As long as you can give birth to the child, I will not pursue your past identity."

Xu Jingshu quickly said, "Thank you, Palace Master!"

Xu Jingshu felt a slight sense of relief, fortunately, she still had some value, otherwise, she feared she would be doomed today.

As Xu Jingshu was lost in thought, Immortal Venerable Yun Meng took out a purple crystal and said to Xu Jingshu, "Relax."

Xu Jingshu knew this was to test the potential of her child and stood quietly in place. The next moment, a trace of blood-red Immortal Aura floated from her body, and as soon as it touched the purple crystal in Immortal Venerable Yun Meng's hand, it emitted a dazzling light.

Seeing the bright light emitted by the purple crystal, Immortal Venerable Yun Meng was overjoyed and muttered, "I never expected her potential to be this good!"

Neither Yun Qingshu nor Yun Yudie, though they could cultivate Life is like a Dream, their potential could not match the fetus in Xu Jingshu's womb.

Immortal Venerable Yun Meng immediately said, "Starting today, stay in the main peak to cultivate until the child is born."

Xu Jingshu suddenly thought of something. Although Immortal Venerable Yun Meng did not pursue her identity as an Evil Immortal, her greatest crisis was not her identity as an Evil Immortal, but rather, her life was still held in Lu Chen's hands.

If Lu Chen were not by her side, she would feel uneasy. If anything happened to Lu Chen, wouldn't she have to accompany him to the grave?

At this moment, Xu Jingshu spoke up, "Palace Master, I have a servant. I wonder if I could also bring him to the main peak?"

Upon hearing Xu Jingshu's words, Immortal Venerable Heavenly Language immediately thought of what had happened earlier. If that man continued to stay by Xu Jingshu's side, what if someday he harmed the child?

With this in mind, Immortal Venerable Heavenly Language immediately said, "Jingshu, rest assured and stay on the main peak to cultivate, and I will keep an eye on your servant for you."

Xu Jingshu was momentarily stunned.

Immortal Venerable Yun Meng then said, "It's just a servant, I will arrange several Immortal King Level Protectors for you, and that servant is not needed."

Xu Jingshu quickly said, "Palace Master, that servant grew up with your disciple since childhood, your disciple..."

Before Xu Jingshu could finish her sentence, Immortal Venerable Heavenly Language interjected, "Jingshu, he is probably not your servant, but your partner. The child in your womb should be his, right?"

## **Having children earns benefit, start competing for dominance in the world by marrying a wife**

Upon hearing the words of the Heavenly Language Immortal Venerable, Immortal Venerable Yun Meng instantly understood what was going on.

She spoke to Xu Jingshu, "He may continue to stay at Heavenly Language Peak. Once you've given birth, I will reunite you both."

Hearing Immortal Venerable Yun Meng's words, Xu Jingshu knew that she and Lu Chen were likely to be separated. Remembering the good times she and Lu Chen had shared all these years, she felt a vague sense of reluctance in her heart.

But since Immortal Venerable Yun Meng had spoken, she could say no more. Xu Jingshu then replied, "Thank you, Palace Master."

Then, with a wave of her hand, Immortal Venerable Yun Meng took Xu Jingshu to a small, idyllic world within the main peak.

Immortal Venerable Yun Meng intended to personally watch over Xu Jingshu until the child within her was born.

After Immortal Venerable Yun Meng left the main hall, the Heavenly Language Immortal Venerable also transformed into starlight and departed the hall, returning to Heavenly Language Peak.

She arrived at the courtyard where Lu Chen was located. At this time, Lu Chen was sitting on a stone bench in the yard. Seeing the Heavenly Language Immortal Venerable appear once more, he immediately stood up and said, "Greetings, Honorable!"

The Heavenly Language Immortal Venerable coldly said, "Jingshu is the mother of the Saintess and my direct disciple. I hope you realize the disparity between you two."

Upon hearing this, Lu Chen instantly understood what the Heavenly Language Immortal Venerable meant. It was nothing more than trying to make him leave Xu Jingshu.

He didn't care at all about this. With Xu Jingshu's soul source in his hands and, more importantly, the child she was carrying, he couldn't just leave.

Of course, he couldn't just leave anyway; he knew Mysterious Moon Palace intended to cultivate his child as a reincarnation vessel. There's no way he would leave like that. He needed to keep a close watch on Mysterious Moon Palace's actions to rescue Xu Jingshu and their child in the future.

Lu Chen respectfully said to the Heavenly Language Immortal Venerable, "Thank you for the reminder, Honorable."

Upon hearing Lu Chen's unyielding tone, the Heavenly Language Immortal Venerable frowned. A Heavenly Immortal was not afraid in the least of an Immortal Venerate, and he didn't seem to feel scared of her warning at all.

Is this the psychological quality of a Heavenly Immortal?

The Heavenly Language Immortal Venerable continued, "I will not deliberately separate you two. After she gives birth, you can still be together. However, I hope

you understand that, at most, you are just her paramour. Do not yearn for things that do not belong to you."

Despite the words of the Heavenly Language Immortal Venerable, Lu Chen remained unmoved and leisurely responded, "What the Honorable says is true. I will surely remember it."

Even though Lu Chen spoke this way, the Heavenly Language Immortal Venerable felt that he was merely going through the motions; his tone was too calm.

The Heavenly Language Immortal Venerable snorted coldly and said nothing more. After all, she had already warned this man. If he didn't appreciate kindness, she wouldn't be polite.

The next moment, the Heavenly Language Immortal Venerable left the courtyard where Lu Chen was staying.

After seeing the Heavenly Language Immortal Venerable leave, Lu Chen chuckled. The women of Mysterious Moon Palace all shared the same temper.

From Chen Wanrong to Yun Xianxian, then to Yun Qingshu, Yun Yudie, and now to the Heavenly Language Immortal Venerable, each one acted high and mighty upon first meeting him.

Honestly, Lu Chen didn't care much. Once the Heavenly Language Immortal Venerable became his woman, her attitude would naturally change.

Of course, Lu Chen didn't expect her to completely change. Being like Yun Qingshu was enough; he rather liked that aloof character.

Thinking of Yun Qingshu, the desire for conquest within Lu Chen was stirred, but he quickly suppressed it.

...

Five months later.

Mysterious Moon Palace, Shangsha City.

In the Meeting Hall of the City Lord's Mansion, Lu Zhengze frowned upon seeing the information in the jade scroll before him. He hurried to a secret chamber beneath the City Lord's Mansion.

"My Lord, there is information about the Tianxia Immortal Dynasty."

Upon hearing Lu Zhengze's voice, Lu Chen opened his eyes in the secret chamber, walked out, and asked, "What happened?"

Lu Zhengze handed the jade scroll to Lu Chen. He activated it, and immediately, the information from the jade scroll surfaced in Lu Chen's mind.

After receiving the messages, Lu Chen froze for a moment.

The information from the jade scroll revealed that the direct bloodline of the Sum Emperor of the Tianxia Immortal Dynasty had almost entirely perished within a few months, leaving only King Anyuan.

Half a month ago, the Sum Emperor reached the end of his lifespan and also fell. King Anyuan succeeded, becoming the new Immortal Dynasty Master of the Tianxia Immortal Dynasty.

Although there were opposing voices, since only Lu Jing remained from the previous Immortal Emperor's direct bloodline, people had no choice but to support him to the throne.

Lu Chen remarked, "This Lu Jing is quite ruthless. However, he likely doesn't possess such power on his own; it seems someone is supporting him from behind."

Though Lu Jing, besides Lu Jingfu, was one of the princes with the most gathered power, the other princes were no pushovers. The strengths among the princes were relatively balanced.

Now, Lu Jing had resolved those princes within just a few months and even accelerated their father emperor's demise. It was hard to believe there wasn't a powerful force backing him.

However, none of this had much to do with him as his strength hadn't yet recovered, and the Tianxia Immortal Dynasty was of little significance to him. Once he thoroughly dealt with Yun Yudie, he could establish another Immortal Dynasty on the territory of the Mysterious Moon Palace.

Lu Zhengze then asked, "My Lord, should we take any action next?"

Although Lu Chen himself didn't care about Lu Jing ascending to that position, Lu Zhengze felt quite upset. In his view, only their master deserved the throne of the Sum Emperor of the Tianxia Immortal Dynasty.

Moreover, if it weren't for their master being besieged by various forces of the Tianyan Immortal Domain, he would now be the one on the throne.

Lu Jing was merely a Golden Immortal. Even after absorbing the dynasty's qi fortune, he could at most become an Immortal Monarch. It would be laughable for

an Immortal Monarch to assume the position of an Immortal Emperor of a dynasty.

Normally, an Immortal Dynasty would have an Immortal Venerate presiding. Even without an Immortal Venerate, there would be an Immortal King whose strength rivals that of an Immortal Venerate.

The Tianxia Immortal Dynasty was increasingly declining. The previous Immortal Emperor was an unremarkable Immortal King, and now this Immortal Emperor was merely an Immortal Monarch.

Seeing Lu Zhengze itching to take action, Lu Chen calmly said, "If he wishes to be emperor, let him be. As long as he doesn't mind the disgrace, especially since as a Golden Immortal, he can't suppress the Heavenly Immortals within the Tianxia Immortal Dynasty."

Lu Chen then added, "Alright, that's enough. Have our people continue to keep an eye on things."

Once he finished speaking, Lu Chen returned to the secret chamber.

Seeing that Lu Chen wasn't concerned, Lu Zhengze couldn't say much and left the underground secret chamber.

At the same time.

In the Hall of Political Affairs, Tianxia Immortal Dynasty.

Within the resplendent hall, surrounded by immortal aura, there was only an Immortal Monarch seated on the Dragon Throne, which was somewhat comical.

Lu Jing cast a cold glance at the officials of the Immortal Dynasty present, clearly sensing their disdain towards him.

## **Having children earns benefit, start competing for dominance in the world by marrying a wife**

**Chapter 1719: Chapter 1409: I Will Immediately Deploy Troops to Attack the Mysterious Moon Palace**

After Lu Jing became the Immortal Emperor of the Tianxia Immortal Dynasty, he thought he could stabilize his position on the throne with the help of the Blood Eagle Hall, only to find that the Immortal Kings of the Royal Family didn't listen to him at all.

The officials of the Immortal Dynasty also opposed him at every turn. At this moment, Lu Jing was very clear that he was merely a puppet emperor, and his orders couldn't even be conveyed beyond the Capital city.

Lu Jing grimly scanned the ministers in the great hall. The kind of Immortal Emperor he wanted to be wasn't like this. He didn't want to be a puppet emperor; he wanted to be an emperor with real power, making others do whatever he commanded.

At this moment, Lu Jing spoke: "Recently, I discovered that Chen King's old troops are still at the Mysterious Moon Palace, so I sent people to demand the Mysterious Moon Palace hand over those remnants. Instead, the Mysterious Moon Palace not only failed to hand them over but even killed the envoy I sent."

Hearing these words, the ministers looked at each other in confusion. They obviously didn't know about this matter, and they were puzzled as to why Lu Jing was bringing it up now.

Not handing them over was one thing, but with Chen King dead, his old troops would likely soon disperse, unable to stir up any trouble.

Seeing the indifferent expressions on the ministers' faces, Lu Jing's anger flared up, and he immediately said, "Mysterious Moon Palace, an external force, dares to act so arrogantly. This matter cannot be left unresolved. If Chen King's remnants aren't eradicated, who knows what disaster they might bring to the Tianxia Immortal Dynasty in the future? Hence, I have decided to immediately mobilize forces to attack the Mysterious Moon Palace."

The ministers in the hall were stunned upon hearing Lu Jing's words.

Attack the Mysterious Moon Palace?

What kind of joke is this!

You're an Immortal Monarch Emperor, yet you're not thinking about consolidating your throne but about starting an external war.

Although the Mysterious Moon Palace currently has only two Immortal Kings, buoyed by the qi fortune of the Immortal Sect, their Immortal Kings are much stronger than ordinary Immortal Kings.

Attacking the Mysterious Moon Palace at this time, regardless of whether it can be conquered, would result in severe losses for the Tianxia Immortal Dynasty, perhaps costing the lives of several Immortal Kings.

The Tianxia Immortal Dynasty only has a few Immortal Kings; losing more than three could lead to its downfall at the hands of other forces.

The ministers present couldn't understand what had gotten into Lu Jing, making him think of attacking the Mysterious Moon Palace.

At this moment, recovering from their shock, a minister quickly stepped forward and said, "Your Majesty, that would be inadvisable. The Mysterious Moon Palace is currently at the peak of its fortune; attacking them now would likely lead to mutual destruction."

Another minister stepped forward and said, "Your Majesty, I heard recently that the Mysterious Moon Palace has gained another Immortal King, now having two Immortal Kings. We simply cannot conquer the Mysterious Moon Palace."

Gradually, more and more ministers stepped forward to oppose Lu Jing.

"Your Majesty, you've just ascended the throne. It's unwise to waste resources and wage a war at will."

"Please, Your Majesty, prioritize the nation and the land. Do not, for personal reasons, lead the Tianxia Immortal Dynasty to a point of no return."

...

Hearing the ministers' admonitions, Lu Jing's expression grew increasingly grim. The tone of their advice was becoming increasingly forceful, almost threatening to dethrone him if he dared to start a war.

Even though he had anticipated opposition from the ministers, Lu Jing hadn't expected so many would oppose, and with such firm tones, giving him no face as the Immortal Emperor.

Though merely at the Immortal Monarch Realm, he was still the Immortal Emperor of the Tianxia Immortal Dynasty.

At this point, Lu Jing could no longer bear it. He slammed the armrest of the Dragon Throne fiercely, "Enough!"

Seeing Lu Jing enraged, the ministers in the hall immediately fell silent. Lu Jing then said, "Do you truly believe it is I who wishes to attack the Mysterious Moon Palace?"

Hearing this, the ministers felt puzzled. Wasn't he the one who just proposed attacking the Mysterious Moon Palace?

At this moment, Lu Jing spoke again: "Might the envoy please reveal himself."

Just as Lu Jing's voice faded, a man in a green robe appeared in the hall. Although the man was only at the Immortal Monarch Realm, the ministers present were taken aback by his appearance.

Even though he hadn't voluntarily revealed his identity, people could tell from his garment that he was associated with the Heavenly Splendor Hall.

No one expected Lu Jing to find the Heavenly Splendor Hall, the foremost power in the Southern Domain, as his backing.

Seeing the ministers in the hall stunned into silence, Lu Jing let out a cold laugh. At this moment, the Immortal Monarch spoke, "I am the Outer Gate Deacon of the Heavenly Splendor Hall."

After saying this, Guihai Immortal Monarch produced an Identity Token, proving his identity.

Upon seeing Guihai Immortal Monarch's Identity Token, the ministers couldn't help but wonder why the Heavenly Splendor Hall wanted to attack the Mysterious Moon Palace; was it truly just to eliminate potential threats?

If that were the case, then ten billion years ago, the Heavenly Splendor Hall would have already eliminated all of Chen King's old troops. For a Super Force like the Heavenly Splendor Hall, there was certainly no possible threat from the remnants of Chen King.

At this point, Lu Jing coldly asked, “Is there anyone who still opposes the military action against the Mysterious Moon Palace?”

Suddenly, the entire hall fell silent, not a single voice was raised in opposition. Lu Jing had brought out the Heavenly Splendor Hall, leaving no one daring to continue opposing.

In front of the Heavenly Splendor Hall, the Tianxia Immortal Dynasty was akin to an ant.

Seeing no further opposition, Lu Jing then said, “Since no one opposes, the court assembly ends here. I ask all my dear ministers to actively prepare for war, as Special Envoy Guihai will be staying in the Tianxia Immortal Dynasty for some time.”

Upon hearing Lu Jing’s words, the expressions on the faces of the ministers present turned somewhat grim.

If the envoy from the Heavenly Splendor Hall kept watch, they wouldn’t dare to work halfheartedly, for offending the Heavenly Splendor Hall might cost them their lives.

Lu Jing wasted no more words with these ministers; he rose directly and headed toward a side chamber, the ministers immediately bowing and saying, “We respectfully see Your Majesty off!”

Shortly after, Lu Jing arrived at the side chamber, with Guihai Immortal Monarch following.

As soon as they reached the side chamber, Guihai Immortal Monarch smiled and said, “Your Majesty, it seems being an Immortal Emperor is quite arduous for you.”

Hearing this, Lu Jing took a deep breath and sighed, “Thanks to the Special Envoy, otherwise I wouldn’t have been able to mobilize the army.”

Guihai Immortal Monarch replied calmly, “No matter, this was Qingyun Immortal King’s order.”

When Lu Jing first started cooperating with the Blood Eagle Hall, he was worried about his inability to command the Tianxia Immortal Dynasty’s army. It was then that Guihai Immortal Monarch came from the Blood Eagle Hall to the Tianxia Immortal Dynasty, and Lu Jing realized that attacking the Mysterious Moon Palace wasn’t just the idea of the Blood Eagle Hall, but also that of the Heavenly Splendor Hall.

With the Heavenly Splendor Hall backing him, Lu Jing naturally became more assertive and planned to consolidate power through this war.

## **Having children earns benefit, start competing for dominance in the world by marrying a wife**

The scale of war between the Immortal Sects is immense. Even when preparing in secret, it is difficult to conceal the mobilization of large armies. As soon as the Tianxia Immortal Dynasty and Blood Eagle Hall began to mobilize their forces, they were immediately detected by Mysterious Moon Palace and Chiyan Sect.

Realizing that Blood Eagle Hall was about to wage war, Chiyan Immortal King, the Sect Master of Chiyan Sect, immediately led a group of Elders to Mysterious Moon Palace to discuss how to resist the enemy.

However, when Chiyan Immortal King and his group arrived at Mysterious Moon Palace, they did not find Yun Yudie.

Mysterious Moon Palace, Meeting Hall.

At this moment, the Elders from Mysterious Moon Palace and Chiyan Sect sat opposite each other across the hall. Seeing that Yun Yudie was absent from the

upper dais, Chiyan Immortal King asked, "Where is the Hall Master of Mysterious Moon Palace now?"

Ling Yin Immortal King replied, "Our Hall Master is currently in closed-door cultivation."

Upon hearing this, Chiyan Immortal King frowned slightly. As the rumors suggested, he had also heard that the Qi Fortune of Mysterious Moon Palace had recently surged, leading many Elders to begin closed-door cultivation for breakthroughs.

If it were an ordinary time, Yun Yudie's closed-door cultivation would have nothing to do with them, but now that Blood Eagle Hall is preparing for war, if Yun Yudie, being the strongest in both Immortal Sects, is absent at this time, it would be difficult for them to withstand the evil immortals of Blood Eagle Hall.

Chiyan Immortal King continued to ask, "Did the Hall Master of Mysterious Moon Palace mention when she would exit her cultivation?"

Chiyan Immortal King knew that it was a bit impolite to ask this, as ordinary Immortals could be in closed-door cultivation for thousands or tens of thousands of years, and even millions of years. What's more, an Immortal King could remain in closed-door cultivation for billions of years.

Understanding Chiyan Immortal King's concerns, Ling Yin Immortal King said, "Chi Yan Hall Master need not worry, at the critical moment, we will naturally awaken our Hall Master."

Hearing Ling Yin Immortal King's words, Chiyan Immortal King finally breathed a sigh of relief. Indeed, at this time, if Blood Eagle Hall truly attacked, Mysterious Moon Palace could not possibly refrain from awakening Yun Yudie. Although doing so might interrupt Yun Yudie's breakthrough, or even induce a Qi deviation, it is preferable to Mysterious Moon Palace being destroyed by Blood Eagle Hall.

Of course, the most important thing is that if Blood Eagle Hall attacked while Yun Yudie was still in closed-door cultivation, and the Immortal King from Blood Eagle Hall suddenly targeted Yun Yudie, she would be severely injured instead.

At this moment, Ling Yin Immortal King spoke, "I wonder if Chi Yan Hall Master has noticed that in the past month, aside from the frequent activities of evil immortals, the army of Tianxia Immortal Dynasty has also been frequently mobilized."

Upon hearing this, Chiyan Immortal King immediately understood Ling Yin Immortal King's implication and directly asked, "Does Ling Yin Hall Master mean that Tianxia Immortal Dynasty has colluded with Blood Eagle Hall?"

In fact, Chiyan Immortal King did have his doubts about this. However, he thought that Tianxia Immortal Dynasty is, after all, a righteous Immortal Dynasty and it should not be likely that they would collude with evil immortals.

Evil immortals are to be eliminated by all. If Heavenly Splendor Hall found out that Tianxia Immortal Dynasty colluded with evil immortals, they might dispatch troops to destroy Tianxia Immortal Dynasty.

However, listening to Ling Yin Immortal King's words, Chiyan Immortal King thought that Heavenly Splendor Hall is currently focused on the Demon Emperor, and does not have the time to deal with evil immortals. In this case, it is not impossible that Tianxia Immortal Dynasty and Blood Eagle Hall have colluded.

Their large-scale troop mobilization does indeed appear somewhat suspicious, signaling an impending war.

Dealing with Blood Eagle Hall alone is difficult enough, and if one adds Tianxia Immortal Dynasty on top of that...

At this thought, everyone's expression at the scene became very serious, and the atmosphere in the hall became significantly more somber.

After a while, Ling Yin Immortal King continued, "Better to be safe than sorry. If Tianxia Immortal Dynasty's target is our two Immortal Sects, we hope Chi Yan Hall Master can lead Chiyan Sect to hold off Tianxia Immortal Dynasty's attack, while our Mysterious Moon Palace will find a way to locate the Blood Eagle Hall's headquarters and launch a proactive attack."

Chiyan Immortal King said, "Rest assured, Ling Yin Hall Master, our Chiyan Sect will certainly find a way to hold off Tianxia Immortal Dynasty's army, preventing them from entering the territory of Mysterious Moon Palace."

At this time, Chi Yan Hall Master asked, "Ling Yin Hall Master, I have a question, is it appropriate for me to ask?"

Ling Yin Immortal King said, "Chi Yan Hall Master, feel free to ask whatever questions you may have."

Chiyan Immortal King directly asked, "In the past two years, the Qi Fortune of Mysterious Moon Palace has suddenly surged. Could you tell us what was the cause?"

For years, Blood Eagle Hall has been harassing Mysterious Moon Palace, wreaking havoc in its territory and massacring many cities. In theory, the Qi Fortune of Mysterious Moon Palace should have declined.

As a result, the Qi Fortune of Mysterious Moon Palace has not only not declined but has surged to a terrifying level. As the master of Qi Fortune, Chiyan Immortal King felt the dense Qi Fortune of Mysterious Moon Palace upon entering.

He knew it was presumptuous to inquire about the reason behind the growth of another sect's Qi Fortune, but Chiyan Sect's Qi Fortune has been steadily declining under the destruction of those evil immortals, causing Chiyan Immortal King a deep sense of crisis.

He was thinking that if the method of increasing the Qi Fortune of Mysterious Moon Palace could be applied to Chiyan Sect, then when dealing with Blood Eagle Hall, Chiyan Sect might have a few more chances of winning.

Ling Yin Immortal King said, "We have conducted numerous investigations into the reasons for the surge in the Qi Fortune of Mysterious Moon Palace, but so far, we have not found any specific cause."

Hearing Ling Yin Immortal King's response, Chiyan Immortal King sighed inwardly. Indeed, no sect would willingly disclose the method of increasing their Qi Fortune.

Perhaps seeing through what was on Chiyan Immortal King's mind, Ling Yin Immortal King continued, "Please do not misunderstand, Chi Yan Hall Master; it's not that we are withholding information. Now that our two Immortal Sects are allies, the stronger the ally, the greater our chances of victory. In truth, we also do not understand how our Qi Fortune has increased to such an extent."

Seeing Ling Yin Immortal King's sincere words, which did not seem deceitful, Chiyan Immortal King said, "No matter, perhaps it's because your Hall Master had some realization and is close to a breakthrough, which caused the Qi Fortune of Mysterious Moon Palace to increase so dramatically."

If there is no other reason causing the increase in Qi Fortune, then Yun Yudie has a great possibility of breaking through. Indeed, the Qi Fortune of an Immortal Sect is closely related to its members.

If this is truly the reason, it's a good thing for both Immortal Sects. Once Yun Yudie breaks through to the Immortal Venerate Realm, Blood Eagle Hall might be the one to be destroyed by them.

After discussing the Qi Fortune, the two Immortal Sects began discussing how to deploy defenses and how the Disciples of the two sects would assist each other.

The biggest trouble for the two Immortal Sects is that they do not know the location of Blood Eagle Hall. Without knowing the enemy's location, they cannot wisely deploy defenses.

If they knew the direction from which the enemy was attacking, they could massively set up formations along the enemy's path to weaken the number and strength of those evil immortals.
