Chapter 1751: Chapter 1441: The Disciple Knows a Bit of the Deduction Technique

The woman in the green dress respectfully said, “Peak Master, several disciples have arrived outside the hall, saying that you summoned them.”

Upon hearing this, the Heavenly Language Immortal Venerate’s eyebrows slightly furrowed. When did she summon anyone to the Heavenly Language Palace?

However, she was curious to see what those people intended by coming to her private palace. She then transmitted her voice out to Wei Pengtao and the others, “Come in.”

Upon receiving the transmitted message from the Heavenly Language Immortal Venerate, Wei Pengtao and the others hurriedly entered the grand hall. Once inside, they immediately knelt on the ground. Wei Pengtao quickly spoke up, “This disciple deserves death, please punish us, Heavenly Language Immortal Venerate.”

Wei Pengtao wasn't foolish; he knew that merely begging for mercy at this time was likely of no use, so he decided to withdraw in order to advance.

After hearing Wei Pengtao's words, the Heavenly Language Immortal Venerate frowned slightly. She didn't know what had happened, but since they had come to admit their guilt, it indicated they must have done something to wrong the Heavenly Language Peak.

The Heavenly Language Immortal Venerate coldly said, "Continue."

Wei Pengtao continued, "We should not have believed the slander and attacked Chen Lu."

Upon hearing this, the Heavenly Language Immortal Venerate was even more puzzled. These disciples attempted to kill Chen Lu?

If that were the case, why did they come here instead of fleeing the Heavenly Language Peak?

After all, Chen Lu was Xu Jingshu's companion. As Xu Jingshu's nominal honored master, it was impossible for her to simply stand by if Xu Jingshu's companion was harmed. She would certainly hunt down and deal with the culprit to give Xu Jingshu an explanation.

Yet this group did not flee but instead came here to confess. Did they think she wouldn't kill them?

Thinking of this, the Heavenly Language Immortal Venerate released her Divine Sense to probe Lu Chen's residence and found him intact and unharmed.

With Chen Lu unharmed, there was even less reason for this group to come here to confess.

The Heavenly Language Immortal Venerate then asked, "Since you acknowledge the grave crime of attacking Chen Lu, why not flee instead of confessing to me?"

Wei Pengtao said, "Chen Lu claimed you transmitted a message to him, instructing us to come to the Heavenly Language Palace."

This...

When did she transmit a message to Chen Lu?

The Heavenly Language Immortal Venerate instantly understood the situation. Chen Lu, seeing himself on the brink of death, played a small trick, deceiving them into thinking their actions had been discovered, using her name to bring them here to confess.

The Heavenly Language Immortal Venerate chuckled, finding Xu Jingshu's companion to be quite shrewd.

Indeed, with her Divine Thought at the Immortal Venerable level, she only needed to sweep across the Heavenly Language Peak to know everything happening there, but she did not constantly release her Divine Thought to probe Heavenly Language Peak.

While cultivating, to avoid trivial disturbances, she would withdraw her Divine Thought, leaving her unaware of any events occurring then on the Heavenly Language Peak.

At this moment, the Heavenly Language Immortal Venerate coldly snorted, and a terrifying pressure descended, rendering Wei Pengtao and the others immobile on the ground.

“Since you acknowledge the crime deserving of death, I shall fulfill your wish!”

Upon hearing the Heavenly Language Immortal Venerate's words, Wei Pengtao and the others were overwhelmed by despair. Before they could react, their bodies were sealed by the cold aura from the Heavenly Language Immortal Venerate, and they dissolved into points of light.

However, a few globes of light, their souls, remained floating in the air.

The Heavenly Language Immortal Venerate raised her hand, drawing the souls into her grasp, and then used the Soul Searching Technique on them, instantly comprehending the situation.

To her, the several Golden Immortals were akin to ants, killing them was of little consequence, especially since they dared to strike at Xu Jingshu's companion. Should any harm befall Xu Jingshu's companion causing any rift between Xu Jingshu and herself, then in the future, the Saintess Xu Jingshu carried within her would likely harbor resentment against the Heavenly Language Peak.

Hence, these Golden Immortals deserved death.

The Heavenly Language Immortal Venerate learned from Wei Pengtao's memory that someone had provided him with cultivation resources to entice them to assassinate Chen Lu. However, the person who approached Wei Pengtao wore a mask, so even Wei Pengtao and his group didn't know his identity.

The trail ended here.

Although the identity of the person who contacted Wei Pengtao to kill Chen Lu remained unknown, the Heavenly Language Immortal Venerate guessed it was likely the work of another peak.

It was obvious that some Peak Masters harbored jealousy upon seeing her find another Saintess and thus sought to destroy her relationship with Xu Jingshu by killing Xu Jingshu's companion.

Originally, she had no favor towards Chen Lu, considering him only a Heavenly Immortal unworthy of Xu Jingshu.

Still, even if she disdained him, she could not let him die on the Heavenly Language Peak. Who could say how deep Xu Jingshu's feelings for Chen Lu ran? If Xu Jingshu deeply loved him and he died, Xu Jingshu would inevitably resent the Heavenly Language Peak, and her as the honored master.

Thinking thus, the Heavenly Language Immortal Venerate's figure vanished from the grand hall, reappearing at Lu Chen's residence.

At this time, Lu Chen sat in the courtyard, meditating, contemplating those who now wished him harm.

With Wei Pengtao and the others leaving, it proved the plot to kill him likely wasn't commanded by the Heavenly Language Immortal Venerate. If she had indeed issued a death order, they would have stopped at nothing to kill him.

The panic upon hearing her name and their hasty departure implied his enemies were outside the Heavenly Language Peak.

Lu Chen mused if someone had uncovered he was Xu Jingshu's companion, intending to kill him and drive a wedge between Xu Jingshu and the Heavenly Language Peak.

As Lu Chen was lost in thought, a strong aura appeared suddenly before him, prompting Lu Chen to open his eyes and see the Heavenly Language Immortal Venerate. Rising, Lu Chen greeted, "Greetings, Honorable!"

The Heavenly Language Immortal Venerate acknowledged with a cold "Hmm," and then asked, "How did you know that disciple's name was Wei Pengtao?"

After examining Wei Pengtao's memory, the Heavenly Language Immortal Venerate was curious about this.

Even as the Peak Master of the Heavenly Language Peak, she did not know Wei Pengtao's name before using Soul Search on him, yet Chen Lu, who had always been cultivating here and had no contact with Wei Pengtao, directly called his name.

Importantly, Wei Pengtao and the others wore masks to block Divine Sense detection, yet Chen Lu could still call out their names.

Wei Pengtao and the others believed Chen Lu chiefly because he called out their names.

Lu Chen answered, “This disciple knows some Deduction Techniques and deduced the disciple’s identity.”

Lu Chen’s response didn’t surprise the Heavenly Language Immortal Venerate much; those proficient in Deduction Technique could indeed deduce someone’s identity without significant issue.

If not for Wei Pengtao and the others’ guilty conscience and fright at hearing her name, they might have thought calmly and guessed Chen Lu’s mastery of the Deduction Technique.

Chapter 1752: Chapter 1442: What Is Going On With Blood Eagle Hall?

The Heavenly Language Immortal Venerate suddenly thought of something and continued to ask, “How is your Deduction Technique?”

Lu Chen replied, “Disciple has only recently started learning the Deduction Technique.”

The Heavenly Language Immortal Venerate thought to himself that if Chen Lu knew the Deduction Technique, then he might have already known that Xu Jingshu was the Saintess Mysterious Moon Palace was looking for, which is why he proactively approached Xu Jingshu, trying to use her to enter Mysterious Moon Palace.

If that was the case, then she needed to guard against this Chen Lu. No one could say for sure why he was following Xu Jingshu into Mysterious Moon Palace.

Hearing Lu Chen’s response, the Heavenly Language Immortal Venerate said coldly, “Being able to engage in deduction while fighting Wei Pengtao and several Golden Immortals, and accurately figuring out Wei Pengtao’s name, your Deduction Technique doesn’t seem like something recently learned.”

Although she was not proficient in the Dedication Technique, she had some understanding of the Path of Deduction. She knew clearly that using the Dedication Technique required a massive consumption of Immortal Aura, and the person doing the deduction had to be wholeheartedly involved; otherwise, they could face backlash.

Yet Chen Lu was able to accurately deduce Wei Pengtao's identity while fighting Wei Pengtao and others, proving that his deducing ability wasn't weak.

Even if he couldn't deduce that Xu Jingshu might become the Saintess of Mysterious Moon Palace, he could completely deduce that Xu Jingshu was someone Mysterious Moon Palace needed.

Lu Chen said, "Disciple has indeed only recently started learning."

Seeing that Lu Chen was still stubborn, the Heavenly Language Immortal Venerate immediately released a pressure that bent Lu Chen's body, but he still didn't kneel.

The Heavenly Language Immortal Venerate coldly said, "Why don't you deduce whether I will kill you next or let you go?"

Hearing this, Lu Chen gritted his teeth, "When it involves the Honorable, disciple cannot deduce."

The Heavenly Language Immortal Venerate said, "Can't deduce? Then deduce how much longer you can live."

Lu Chen thought to himself, the women of Mysterious Moon Palace are indeed fiercer than each other. When he turns the tables one day, he must let the

Heavenly Language Immortal Venerate experience the methods he used on Yun Qingshu.

Lu Chen said, "I don't know why the Honorable is angry; every word I've spoken is the truth!"

Seeing Lu Chen still stubborn, the Heavenly Language Immortal Venerate furrowed her brows. Could it be that he had really only recently started learning, but he was talented in the Path of Deduction?

With this thought, the Heavenly Language Immortal Venerate retracts her aura and then glanced at Lu Chen.

Under her pressure, he can still hold up, showing neither humility nor arrogance. This man indeed has some special qualities; no wonder Xu Jingshu, whose Realm is higher, could still be attracted to him.

The Heavenly Language Immortal Venerate coldly said, "Don't let me find out that you had deduced Jingshu's Identity long ago, yet still ruined her body, making her bear your child."

Hearing this, Lu Chen felt speechless; he realized why the Heavenly Language Immortal Venerate was inexplicably angry. It turned out she thought he knew from the start that Xu Jingshu might become the Saintess of Mysterious Moon Palace.

If he had known from the start that Xu Jingshu might become the Saintess of Mysterious Moon Palace, he probably wouldn't have brought Xu Jingshu to the Central Region.

The Heavenly Language Immortal Venerate did not say much more to Lu Chen. After reprimanding Lu Chen, her body disappeared on the spot.

Feeling the aura of the Heavenly Language Immortal Venerate disappear, Lu Chen subtly exhaled, thinking that this woman is indeed difficult to deal with.

Although she also dealt with the system conditions, her Realm is too high; wanting to make her his woman and bear him a child would be extremely difficult.

It seems he can only use some strong methods after his Realm surpasses hers.

...

Chiyan Sect Territory.

Yellow Leaf City.

In the distance from Yellow Leaf City, numerous warships appeared, many of which bore the banner of the Moon Palace.

At this time, in Yellow Leaf City, Lu Jing looked at the distant warships, his face extremely somber.

In order to quickly conquer Chiyan Sect, he chose to personally lead the expedition. Originally, he thought it was a war without suspense; though his strength wasn't great, the foundation of the Tianxia Immortal Dynasty was strong, and they had more Immortal Kings than Chiyan Sect; Chiyan Sect wasn't a match for them at all.

Shortly after the war began, the Tianxia Immortal Dynasty's army advanced with vigor, pushing straight to Yellow Leaf City.

Yellow Leaf City is already not far from Chiyan Sect. According to Tianxia Immortal Dynasty's plan, it would take less than half a year to reach Chiyan Sect's Immortal Sect settlement.

However, unexpectedly, the Blood Eagle Hall, which was supposed to hold back Moon Palace, suddenly withdrew its troops. Since the Jade Dragon Sect's defeat of Blood Eagle Hall, the disciples of Blood Eagle Hall no longer continued their sabotage, seemingly disappearing.

Without Blood Eagle Hall's restraint, Moon Palace was free to join forces with Chiyan Sect to counterattack Tianxia Immortal Dynasty. Although Tianxia Immortal Dynasty was powerful, fighting against two Immortal Sects was rather difficult.

In the Meeting Hall of the City Lord's Mansion, Lu Jing could no longer hold back and cursed, "What are these fools in Blood Eagle Hall doing, pulling back at this time, an Evil Immortal Sect unable to even deal with Moon Palace!"

Faced with Lu Jing's question, everyone in the hall remained silent, with no one responding.

Blood Eagle Hall had not informed them why it suddenly retreated at this moment, nor had it notified them of its withdrawal.

Just recently, when they received news of Blood Eagle Hall's defeat at the Jade Dragon Sect, no one took it to heart because, in their view, Jade Dragon Sect was only one of Blood Eagle Hall's outposts, and Blood Eagle Hall didn't need to spend too much effort on Jade Dragon Sect. So Blood Eagle Hall's retreat from Jade Dragon Sect didn't count as a defeat; perhaps Blood Eagle Hall had other plans.

As a result, with Blood Eagle Hall's retreat, the other Evil Immortals within Moon Palace's territory also withdrew, leaving no one to cause trouble in Moon Palace, freeing up Moon Palace's hands to deal with Tianxia Immortal Dynasty. This led Tianxia Immortal Dynasty to realize they had been betrayed by Blood Eagle Hall.

Lu Jing said to the maidservant beside him, “Summon the Special Envoy.”

After the words fell, the maidservant beside him quickly left the hall, and within moments, a white-robed man appeared in the hall.

Guihai Immortal Monarch looked at Lu Jing and asked, “May I know why Your Majesty has summoned me?”

Lu Jing took a moment to calm his emotions, then with a wave of his hand, a recently received intelligence document appeared in the hall.

Seeing the textual intelligence floating in the hall, Guihai Immortal Monarch slightly frowned. He had been focused on cultivation these past days, thinking that with Tianxia Immortal Dynasty and Blood Eagle Hall attacking simultaneously, Moon Palace would soon be annihilated, so he didn't have to worry and just awaited news from Blood Eagle Hall.

However, the intelligence now told him Blood Eagle Hall had retreated, and Moon Palace was confronting Tianxia Immortal Dynasty.

What happened to Blood Eagle Hall?

Why would they retreat at this moment?

If Blood Eagle Hall withdrew, then Qingyun Immortal King's mission couldn't be completed.

Thinking this, Guihai Immortal Monarch's expression darkened instantly.

Lu Jing said at this time, "Special Envoy, with Blood Eagle Hall's retreat, we probably can't complete the Upper Sect's mission either."

Having children earns benefit, start competing for dominance in the world by marrying a wife

Hearing Lu Jing's words, Guihai Immortal Monarch immediately understood that the Tianxia Immortal Dynasty was also planning to withdraw its troops.

This won't do!

The destruction of Mysterious Moon Palace must happen; it's not only the will of Qingyun Immortal King but also the will of the Heavenly Splendor Hall's Immortal Venerate.

Guihai Immortal Monarch immediately said, "Your Majesty, no need to rush. I will go to Blood Eagle Hall to find out what's going on. Perhaps they have a new plan and are only retreating temporarily."

Lu Jing said, "Then I must trouble the envoy."

Lu Jing initially thought the same, but until now, Blood Eagle Hall has not made any moves, which forced him to doubt whether Blood Eagle Hall really does not plan to attack Mysterious Moon Palace.

At this moment, Lu Jing continued, "Envoy, if Blood Eagle Hall indeed retreats, then our Tianxia Immortal Dynasty will also choose to retreat. After all, with our Tianxia Immortal Dynasty's strength, we are not enough to contend with two Immortal Sects."

No matter whether Blood Eagle Hall really intends to withdraw, this must be said first. They do not want to end up with no benefits and be destroyed by Chiyan Sect and Mysterious Moon Palace.

Unlike Blood Eagle Hall, the small world where Blood Eagle Hall resides is unknown to most outsiders. Even Guihai Immortal Monarch, the envoy from

Heavenly Splendor Hall, doesn't know its location, but the position of Tianxia Immortal Dynasty is known.

Chiyan Sect and Mysterious Moon Palace cannot find Blood Eagle Hall but can directly launch an attack against Tianxia Immortal Dynasty. Without Blood Eagle Hall's restraint, continuing the war is a disaster for Tianxia Immortal Dynasty.

Therefore, Lu Jing's mind was made up. Once confirmed that Blood Eagle Hall has retreated, he will immediately retreat and send an emissary to Chiyan Sect to sign a ceasefire agreement.

Hearing Lu Jing's words, Guihai Immortal Monarch frowned slightly, but he couldn't say much. He knew the concerns of Tianxia Immortal Dynasty.

In fact, from the start, Qingyun Immortal King only intended to support Blood Eagle Hall against Mysterious Moon Palace. It was unexpected to be able to rope Tianxia Immortal Dynasty into pincering Mysterious Moon Palace and Chiyan Sect.

Blood Eagle Hall is the main force against Mysterious Moon Palace. If even Blood Eagle Hall retreats, naturally, Tianxia Immortal Dynasty will not continue.

Guihai Immortal Monarch said, "I understand, I will head to Blood Eagle Hall now."

As the words fell, Guihai Immortal Monarch's figure disappeared in the hall. After seeing Guihai Immortal Monarch leave, Lu Jing immediately ordered the army to defend. Once Guihai Immortal Monarch's information arrives, they will make their next move.

Whether to attack or retreat, it depends on Guihai Immortal Monarch's information.

Half a month later.

A stronghold of Blood Eagle Hall.

Guihai Immortal Monarch coldly looked at the burly man covered in black fur in front of him and said, "What is going on with your Blood Eagle Hall? Why did you suddenly stop attacking Mysterious Moon Palace at this time?"

Seeing the other's aloof attitude, Demon Monkey Immortal Monarch felt extremely displeased, but thinking this was an envoy from Heavenly Splendor Hall, he had to endure it.

Demon Monkey Immortal Monarch said lightly, "Envoy, it's not that we don't attack; it's really because Mysterious Moon Palace's current strength is too strong. We are completely no match for Mysterious Moon Palace."

"In the battle of Jade Dragon Sect, our hall's disciples died in tens of thousands, and several of our Immortal Monarch Elders, even our Hall Master, were defeated by Mysterious Moon Palace."

Hearing this, Guihai Immortal Monarch frowned. He always thought that in the battle of Jade Dragon Sect, Blood Eagle Hall was defeated by Mysterious Moon Palace because Blood Eagle Hall had other plans, so they voluntarily retreated.

Unexpectedly, Demon Monkey Immortal Monarch actually told him Blood Eagle Hall was truly defeated?

How could Blood Eagle Hall be defeated? Isn't the immortal power of the Evil Immortals innately restraining the immortal power of Righteous Immortals?

Demon Monkey Immortal Monarch continued, "Now Mysterious Moon Palace's Qi Fortune is at its most prosperous, so we plan to wait for the sharpness to fade. Once we've weakened their Qi Fortune, then we will launch a full-scale war against Mysterious Moon Palace."

Naturally, Demon Monkey Immortal Monarch would not tell Guihai Immortal Monarch the real reason for retreating was that Mysterious Moon Palace had Immortal Law that could restrain their Evil Qi.

This is Blood Eagle Hall's weakness. If it becomes more widely known that Mysterious Moon Palace has Immortal Law to restrain Evil Qi, and this law

spreads out, the advantage of Evil Immortals disappears, making their situation more difficult.

Guihai Immortal Monarch's face turned extremely grim. Wait for the sharpness to fade?

That sounds nice; why not just say you're afraid of death? Guihai Immortal Monarch really couldn't believe that this Evil Immortal Sect, Blood Eagle Hall, was so timid that one defeat in a war made them stop attacking Mysterious Moon Palace.

If Blood Eagle Hall doesn't attack Mysterious Moon Palace, the task Qingyun Immortal King gave him can't be completed.

Guihai Immortal Monarch just wanted to call them a bunch of wastes, but considering he was still in a Blood Eagle Hall stronghold, he suppressed his inner anger, left only one sentence, "You better fend for yourselves," and then returned to Heavenly Splendor Hall.

Blood Eagle Hall received so much from Heavenly Splendor Hall, and now they drop the matter; this must be reported to Qingyun Immortal King.

...

Mysterious Moon Palace, Sky Eagle Peak.

Golden Wing Immortal Monarch lay in the arms of two fairies, feeling the gentle jade fragrance of the fairies. At this moment, a disciple entered the hall where Golden Wing Immortal Monarch was.

"Bro... Brother, it failed."

Hearing this, Golden Wing Immortal Monarch's brow instantly tightened. He then sat up, coldly looking at the disciple in the hall, "Isn't that Chen Lu only in the Heavenly Immortal Realm, isn't killing a Heavenly Immortal as easy as falling off a log?"

The disciple said, "The few Golden Immortals I found first went to Chen Lu's residence, and then they went directly to Heavenly Language Hall. After entering Heavenly Language Hall, they never came out. Presumably, Heavenly Language Immortal Venerable already knows someone intends to kill Chen Lu."

Hearing this, Golden Wing Immortal Monarch's face instantly turned gloomy. He muttered to himself, "It seems Heavenly Language Immortal Venerate has always been watching that Chen Lu."

After all, Chen Lu is Xu Jingshu's couple, and also the father of the Saintess in Xu Jingshu's womb. Moreover, Xu Jingshu is nominally Heavenly Language Immortal

Venerate's disciple, so Heavenly Language Immortal Venerate wouldn't let anything happen to Chen Lu on Heavenly Language Peak.

It seems that wanting to eliminate Chen Lu on Heavenly Language Peak is almost impossible unless a way could be found to lure Chen Lu out of Heavenly Language Peak.

Thinking of this, Golden Wing Immortal Monarch suddenly turned, looking at the fairy maids beside him, then said to one of them, "Liu Cai, go to Heavenly Language Peak, find a way to seduce Chen Lu, lure him out of Heavenly Language Peak."

Hearing Golden Wing Immortal Monarch's command, Liu Cai immediately said, "Yes, Master."

Golden Wing Immortal Monarch thought, now that Xu Jingshu is not beside Chen Lu, he must feel empty and lonely. With a beautiful fairy like Liu Cai throwing herself at him, he doesn't believe Chen Lu can resist.

As long as something happens between Chen Lu and Liu Cai, even if Liu Cai doesn't succeed in luring Chen Lu out of Heavenly Language Peak, he can use this matter to make a big deal out of it, spreading rumors that Chen Lu has another woman.

If this matter reaches Xu Jingshu's ears, she will definitely be very disappointed in Chen Lu. Then he will have the chance to get close to Xu Jingshu.

Heavenly Splendor Hall.

Residence of the Qingyun Immortal King.

The Qingyun Immortal King was handling the matter of recruiting disciples from other sects.

At this moment, he had a booklet in his hand, which recorded which forces in the Southern Domain had sent people to the Heavenly Splendor Hall and which forces ignored the Immortal Order of the Heavenly Splendor Hall.

When the Qingyun Immortal King saw the words "Mysterious Moon Palace," he snorted coldly, thinking to himself that the Mysterious Moon Palace was probably on the verge of being destroyed by now.

However, just as he had this thought, a disciple entered and said, "Qingyun Steward, Guihai Immortal Monarch requests an audience."

The Qingyun Immortal King's heart was filled with joy; could it be that the Blood Eagle Hall had already destroyed the Mysterious Moon Palace?

Thinking of this, the Qingyun Immortal King immediately said, "Enter."

As soon as the words fell, Guihai Immortal Monarch entered the Qingyun Immortal King's study.

The Qingyun Immortal King was the first to speak, asking, "Is the Mysterious Moon Immortal King still alive? Did they escape or were they slain?"

Upon hearing the Qingyun Immortal King's question, Guihai Immortal Monarch fell silent for a while. Seeing that Guihai Immortal Monarch did not immediately answer his question, the Qingyun Immortal King suddenly sensed that something was wrong.

The Qingyun Immortal King asked coldly, "What happened?"

If it were good news, Guihai Immortal Monarch would have spoken up immediately; he wouldn't have shown such a worried expression. The Qingyun Immortal King realized at once that the Mysterious Moon Palace probably hadn't been destroyed yet and something unforeseen had happened.

Guihai Immortal Monarch immediately replied, "The Blood Eagle Hall withdrew. They say that the current qi fortune of the Mysterious Moon Sect is too prosperous, and they are not the match of the Mysterious Moon Sect. They will only attack the Mysterious Moon Palace when its qi fortune weakens."

Hearing this, the Qingyun Immortal King's face instantly darkened.

He then said coldly, "Useless fools!"

At this moment, the Qingyun Immortal King suddenly thought of something, and then asked, "Didn't you say that the Tianxia Immortal Dynasty also agreed to join the Blood Eagle Hall in attacking the Mysterious Moon Palace? Do these two forces combined still can't handle one Mysterious Moon Palace?"

Guihai Immortal Monarch said, "The Tianxia Immortal Dynasty got entangled with the Chiyan Sect, and after a defeat, the Blood Eagle Hall immediately chose to withdraw, and now even the Tianxia Immortal Dynasty is planning to retreat."

Hearing Guihai Immortal Monarch's words, the Qingyun Immortal King's expression became more unpleasant, "Evil Immortals really are unreliable!"

"They probably want more advantages."

The Qingyun Immortal King couldn't believe that Blood Eagle Hall was no match for the Mysterious Moon Palace. In his view, even without the Tianxia Immortal Dynasty's help, the Blood Eagle Hall alone could eliminate the Mysterious Moon Palace.

And now, the Blood Eagle Hall claimed they were not the opponent of the Mysterious Moon Palace. There was only one possibility: they thought since the Heavenly Splendor Hall also wanted to destroy the Mysterious Moon Palace, they could take this opportunity to demand more benefits from the Heavenly Splendor Hall; hence, they chose to retreat.

The thought that this group of Evil Immortals was trying to gain benefits from the Heavenly Splendor Hall made the Qingyun Immortal King want to eliminate the Blood Eagle Hall.

After pondering for a while, the Qingyun Immortal King said to Guihai Immortal Monarch, "You personally go to the Chiyan Sect and warn them that if they continue to ally with the Mysterious Moon Palace, the Heavenly Splendor Hall will destroy the Chiyan Sect directly."

"Additionally, go to the Blood Eagle Hall and ask what conditions those Evil Immortals want to continue attacking the Mysterious Moon Palace; my patience is limited."

Guihai Immortal Monarch said, "Disciple understands."

"Disciple takes leave."

As soon as the words fell, Guihai Immortal Monarch turned and left the Qingyun Immortal King's study. Watching Guihai Immortal Monarch's back, the Qingyun Immortal King said coldly:

"Once the Demon Emperor is dealt with, the Blood Eagle Hall needs to be taken care of as well."

Blood Eagle Hall was originally an Evil Immortal. In the eyes of the Qingyun Immortal King, having them work for him was already a great favor, yet these Evil Immortals did not do their jobs well and instead sought to benefit from the Heavenly Splendor Hall at this time.

If it weren't for the fact that the Heavenly Splendor Hall was currently focusing all its efforts on the war with the Demon Emperor, he would undoubtedly report this to the Immortal Venerate and request troops to destroy the Blood Eagle Hall upon learning this news.

...

Yellow Leaf City.

Today above Yellow Leaf City, explosions were constant, with warships and Immortals continuously falling from the sky.

Lu Jing sat in the Meeting Hall of the City Lord's Mansion, his face gloomy. So much time had passed, yet there was still no news from Guihai Immortal Monarch.

At this moment, a soldier entered the hall, "Your Majesty, this is the information we just received!"

As he spoke, the soldier presented the jade scroll with both hands, and as Lu Jing raised his hand, the jade scroll flew into his hand. Lu Jing then activated the jade scroll to read the information inside.

Upon learning that Guihai Immortal Monarch met the Demon Monkey Immortal Monarch and then "disappeared," Lu Jing was so furious that he used immortal power to crush the jade scroll instantly.

He then transmitted a message, saying, "Withdraw the army!"

In theory, after Guihai Immortal Monarch met with Demon Monkey Immortal Monarch, he should have informed him immediately if the Blood Eagle Hall had any other plans. However, since Guihai Immortal Monarch disappeared, it indicated that the Blood Eagle Hall likely had indeed withdrawn, and Guihai

Immortal Monarch deliberately withheld the information, making the Tianxia Immortal Dynasty continue to drain the Chiyan Sect and the Mysterious Moon Palace.

With Lu Jing's order, the warships of the Tianxia Immortal Dynasty began to retreat, leaving Yellow Leaf City.

At this moment, the Chiyan Immortal King stood on the deck of a warship, watching the departing warships of the Tianxia Immortal Dynasty, and remarked, "Allying with the Mysterious Moon Palace was the wisest decision we made."

An Immortal Monarch beside him said, "Indeed, who would have thought that after repelling the Blood Eagle Hall, the Mysterious Moon Palace could still support us? If the Hall Master of the Mysterious Moon Palace breaks through to the Immortal Venerate Realm, the situation in the Southern Domain might change."

At this moment, a voice suddenly resounded over the warship where the Chiyan Immortal King stood, "She probably won't become an Immortal Venerate!"

The Chiyan Immortal King's brows furrowed, and he immediately released his Immortal King's aura, "Who is it!"

Before the Chiyan Immortal King could make a move, a man dressed in white slowly walked out of the space, stepping in the air to come in front of the Chiyan Immortal King's warship.

Feeling that the other only had the aura of an Immortal Monarch, the Chiyan Immortal King slightly relaxed, and then he asked, "Who are you?"

Guihai Immortal Monarch said calmly, "Chiyan Immortal King, this is not the place to talk."

After all, the warships of the Mysterious Moon Palace were still nearby, and if they spoke here, their conversation might be overheard by those from the Mysterious Moon Palace.

The Chiyan Immortal King furrowed his brows slightly and then said, "Follow me."

As the words fell, the Chiyan Immortal King disappeared on the spot, and the Chiyan Immortal King and Guihai Immortal Monarch transformed into two streams of light, leaving the battlefield.

Before long, the Chiyan Immortal King returned to the Chiyan Sect. After arriving at the Chiyan Sect's Meeting Hall, the Chiyan Immortal King asked again, "Would you tell me your identity now?"

Guihai Immortal Monarch said directly, "I come from the Heavenly Splendor Hall."

Upon hearing Guihai Immortal Monarch's words, the Chiyan Immortal King's mind froze.

After coming back to his senses, the Chiyan Immortal King quickly asked, "What orders does the Upper Sect's special envoy have for the Chiyan Sect?"

Guihai Immortal Monarch said blandly, "Chiyan Immortal King, your Chiyan Sect is in great danger and you are unaware."

Chapter 1755: Chapter 1445: Is the One Who Wants to Destroy the Mysterious Moon Palace the Heavenly Splendor Hall?

Hearing Guihai Immortal Monarch's words, Chiyan Immortal King was stunned.

After coming back to his senses, Chiyan Immortal King asked, “What does the Special Envoy mean by this?”

Guihai Immortal Monarch calmly said, “The one truly wanting to destroy the Mysterious Moon Palace is neither the Blood Eagle Hall nor the Tianxia Immortal Dynasty, but the Heavenly Splendor Hall.”

Chiyan Immortal King’s mind froze completely; the one wanting to destroy the Mysterious Moon Palace is the Heavenly Splendor Hall???

Seeing that Chiyan Immortal King was overwhelmed by his revelation, Guihai Immortal Monarch sneered and said, “Your Chiyan Sect has quite the nerve to dare to oppose the Heavenly Splendor Hall.”

After regaining his composure, Chiyan Immortal King questioned, “Is the Special Envoy trying to deceive me? Why would the Heavenly Splendor Hall ignore evil forces like the Blood Eagle Hall and aim to destroy the Mysterious Moon Palace?”

Seeing that Chiyan Immortal King still didn’t believe him, Guihai Immortal Monarch snorted, “The Mysterious Moon Palace ignored the Immortal Order of the Heavenly Splendor Hall and killed our envoy. Do you think they shouldn’t be destroyed?”

This...

Chiyen Immortal King was stunned again; did the Mysterious Moon Palace kill the envoy of the Heavenly Splendor Hall?

When did this happen?

Does the Mysterious Moon Palace have such audacity?

Guihai Immortal Monarch said, “What, are you going to start doubting my identity next?”

Saying this, Guihai Immortal Monarch directly took out an Identity Token and tossed it in front of Chiyen Immortal King, where it floated, emitting vibrant seven-colored Immortal Aura.

Sensing the aura emitted by the Identity Token, Chiyen Immortal King paused; he had seen the Identity Token of a Heavenly Splendor Hall disciple, and this was indeed one that only a disciple of Heavenly Splendor Hall would possess.

This proved that the person in front of him was indeed a disciple of the Heavenly Splendor Hall. Yet he still found it hard to believe; why would the Mysterious Moon Palace kill an envoy from the Heavenly Splendor Hall?

The Heavenly Splendor Hall was the largest force in the Southern Domain. No faction dared to offend them or go against their orders. Where did the Mysterious Moon Palace get the courage to oppose them?

Seeing Chiyan Immortal King in silent contemplation, Guihai Immortal Monarch spoke again, “Now the Heavenly Splendor Hall is preparing for war. Soon, it will join other top forces in an assault on the Demon Emperor, so it currently has no time to deal with the Mysterious Moon Palace.”

“Once the war against the Demon Emperor is over, the Heavenly Splendor Hall will certainly eliminate those forces in the Southern Domain that defy its Immortal Order. If Chiyan Immortal King insists on allying with the Mysterious Moon Palace, it’s clear what fate awaits the Chiyan Sect.”

Chiyan Immortal King still remained silent. Internally, he was wavering; if it was true, as the man said, that the Mysterious Moon Palace killed the Heavenly Splendor Hall’s envoy, then even without the Blood Eagle Hall and Tianxia Immortal Dynasty’s attack, the Heavenly Splendor Hall would eventually destroy the Mysterious Moon Palace themselves.

If the Chiyan Sect continued its alliance with the Mysterious Moon Palace, it would one day be implicated. Thus, the Chiyan Sect must sever ties with the Mysterious Moon Palace.

However, he was still unable to determine the truth of this information. After all, the messenger was only an Immortal Monarch. Although this Immortal Monarch had the Identity Token of the Heavenly Splendor Hall, it didn't guarantee everything he said was true.

It could be possible that the Blood Eagle Hall and Tianxia Immortal Dynasty were trying to sow discord by sending a Heavenly Splendor Hall disciple disguised as an envoy to deliver false information.

But regardless of whether the person's words were true or false, they must be verified.

If false, then all the better, and they need not heed the person's words. But if true, then the Chiyang Sect must swiftly sever ties with the Mysterious Moon Palace.

Thinking of this, Chiyang Immortal King said to Guihai Immortal Monarch, "Special Envoy, could you allow me some time to consider?"

Guihai Immortal Monarch, knowing Chiyang Immortal King's thoughts, replied, "Very well, I will give you some time, but time waits for no one. Before long, several top forces will march against the Demon Emperor. If you haven't decided before the Demon Emperor is defeated, then Chiyang Sect and Mysterious Moon Palace may share the same fate."

Chiyan Immortal King said, “Rest assured, Special Envoy, I will give you an answer soon.”

Guihai Immortal Monarch said, “Very well, I shall stay with the Chiyan Sect for the time being and await your answer.”

Chiyan Immortal King smiled and said, “Then I apologize for the inconvenience, Special Envoy.”

“I will arrange the best residence for you. Please follow me.”

Saying this, Chiyan Immortal King led Guihai Immortal Monarch out of the hall.

In the days that followed, Chiyan Immortal King provided Guihai Immortal Monarch with the best hospitality while also sending people to investigate the matter of the Mysterious Moon Palace killing the Heavenly Splendor Hall’s envoy.

Though few knew of this matter, Yun Yudie had not issued any bans on the disciples of the Mysterious Moon Palace from discussing it, so quite a few details of the event had spread.

Soon enough, Chiyan Immortal King’s investigation yielded results.

A month later.

Chiyan Sect, Meeting Hall.

After reading the intelligence within the Jade Scroll in his hand, Chiyan Immortal King's face turned ashen. He hadn't expected it to be true; the Mysterious Moon Palace did indeed kill the envoy of the Heavenly Splendor Hall.

The disciples of the Mysterious Moon Palace didn't think they had done anything wrong, so the spies of the Chiyan Sect only needed to make a few inquiries to learn how the envoy sent to inspect the Mysterious Moon Palace had died.

Chiyan Immortal King felt extremely shocked; Yun Yudie's audacity was astonishing. The Heavenly Splendor Hall was the largest force in the Southern Domain with several Immortal Venerates.

The Mysterious Moon Palace currently only had two Immortal Kings; how could they dare to act against the envoy of the Heavenly Splendor Hall?

This was disastrous. Once the Heavenly Splendor Hall finished their war with the Demon Emperor, they would certainly besiege the Mysterious Moon Palace. If the Chiyan Sect continued maintaining their alliance, they would inevitably be affected; they must quickly sever ties with the Mysterious Moon Palace.

Thinking this, Chiyan Immortal King immediately went to Guihai Immortal Monarch's residence.

At this time, Guihai Immortal Monarch sat in the courtyard, leisurely sipping tea. He wasn't worried at all because he believed Chiyan Immortal King had set people to investigate and would soon discover the matter of the Mysterious Moon Palace killing the envoy. Once Chiyan Immortal King found out, he would naturally know what to do.

Just then, Chiyan Immortal King appeared at the courtyard's entrance. Sensing his presence, Guihai Immortal Monarch set down his tea cup and calmly said, "It seems Chiyan Immortal King already knows what to do."

Chiyan Immortal King immediately entered the courtyard and said, "Thanks to the Special Envoy's warning, I didn't expect us, the Chiyan Sect, to be allied with such a reckless Immortal Sect as the Mysterious Moon Palace. Had it not been for the reminder, the Chiyan Sect might have soon ceased to exist."

Guihai Immortal Monarch calmly said, "All is not lost; Chiyan Immortal King has awoken in time."

Chiyan Immortal King agreed, "The Special Envoy speaks the truth."

Guihai Immortal Monarch continued, “However, your Chiyan Sect did upset the Heavenly Splendor Hall’s plans and was indeed allied with the Mysterious Moon Palace. If the Immortal Venerates of the Heavenly Splendor Hall wish to hold you accountable, Chiyan Sect might still be exterminated.”

Having children earns benefit, start competing for dominance in the world by marrying a wife

Upon hearing Guihai Immortal Monarch’s words, Chiyan Immortal King was suddenly taken aback.

Indeed, just as Guihai Immortal Monarch said, although they turned back, they had allied with the Mysterious Moon Palace. Most importantly, their Chiyan Sect helped the Mysterious Moon Palace hold back the Tianxia Immortal Dynasty, disrupting the Heavenly Splendor Hall’s plan to destroy the Mysterious Moon Palace.

For a Super Force like the Heavenly Splendor Hall, extinguishing a small Immortal Sect like theirs would be effortless. When the day comes that Heavenly Splendor Hall destroys the Mysterious Moon Palace, perhaps the Immortal Venerate of Heavenly Splendor Hall might suddenly remember that it was the Chiyan Sect that foiled their initial plan and casually wipe out their Chiyan Sect.

Seeing Chiyan Immortal King in a daze, Guihai Immortal Monarch immediately said, "If your Chiyan Sect wants to earn forgiveness from the Heavenly Splendor Hall, cutting ties with the Mysterious Moon Palace is only the beginning."

Upon hearing this, Chiyan Immortal King immediately asked, "I wonder if the envoy has any suggestions? Please teach me, and our Chiyan Sect will reward you generously."

Guihai Immortal Monarch replied indifferently: "You just need to join the campaign against the Mysterious Moon Palace. At that time, I will put in a good word for you and tell the upper management that you were bewitched by the Mysterious Moon Palace, and all your previous actions will naturally be written off."

This...

Chiyan Immortal King was momentarily stunned. To be honest, he was somewhat reluctant to betray an ally so quickly.

It's not because he is highly moral, but mainly because they had just allied with the Mysterious Moon Palace not long ago, and then they would immediately betray an ally. If word of this got out, their Chiyan Sect would definitely be pointed at by some Immortal Sects.

If the Chiyan Sect ever faces another crisis that could lead to their destruction, no one would be willing to ally with their Chiyan Sect again.

However, on the other hand, if they don't show a clear stance, the Heavenly Splendor Hall might not let them pass.

Betraying an ally is indeed immoral, and it might affect Chiyan Sect's reputation, but it's better than being destroyed by the Heavenly Splendor Hall.

After thinking deeply, Chiyan Immortal King finally said: "Thank you, envoy. Our Chiyan Sect is also willing to join the crusade, together with others, against the Mysterious Moon Palace!"

Seeing Chiyan Immortal King agree, Guihai Immortal Monarch's lips slightly curled up, having recruited another Immortal Sect. Once the Blood Eagle Hall is settled, with three forces attacking the Mysterious Moon Palace simultaneously, it won't be long before the Mysterious Moon Palace is destroyed.

...

Mysterious Moon Palace.

Heavenly Language Peak.

Lu Chen was meditating in cultivation when he suddenly sensed several presences outside his courtyard. He wondered in his heart if more assassins had come to kill him.

Thinking of this, Lu Chen immediately opened his eyes and walked straight toward the courtyard entrance. Upon reaching the entrance, he found a group of women standing there.

At this moment, a woman stepped forward and said to Lu Chen: "Junior Brother, these women are the maids awarded to you by the Immortal Sect."

Hearing this, Lu Chen was taken aback. Why would the Immortal Sect award him so many maids?

Lu Chen glanced at the fairies before him; each of them was as beautiful as a flower, with stunning appearances.

Of course, there are hardly any ugly fairies, but the beauty of these fairies surpassed that of most ordinary fairies.

At this moment, Lu Chen used the system to identify the identities of these fairies. Most of them were from the main peak, but there was one person who was not a fairy from the main peak.

Lu Chen's gaze lingered on the woman in red.

[Name: Liu Cai]

[Identity: Sky Eagle Peak]

[Strength: Golden Immortal]

[Loyalty: 0]

Seeing Liu Cai was not a fairy from the main peak, Lu Chen became instantly wary.

Since everyone else was sent from the main peak, and she alone was not, it indicated that this Liu Cai was likely inserted by Sky Eagle Peak with a deliberate arrangement to be here.

At this moment, the Qingyi woman standing in front of Lu Chen continued, "Junior Brother, I'll be heading back now."

Lu Chen said: "Alright, take care, Senior Sister."

After the Qingyi woman left, these fairies uniformly addressed Lu Chen, saying, "Greetings, Young Master."

Lu Chen did not correct their form of address and said lightly, "I don't need so many maids here. If you wish to regain your freedom, you may leave now."

Upon hearing Lu Chen's words, these women remained standing, showing no intention of leaving.

Lu Chen thought within his heart, could it be that the Mysterious Moon Palace sent so many fairies to him because they thought he was not worthy of Xu Jingshu? To make Xu Jingshu give up on him, they purposely selected these women to seduce him?

If he indulged with them on Heavenly Language Peak night after night, someone could report these happenings to Xu Jingshu, letting her see the true face of her partner, making her give up on him.

Of course, this scenario was based on a normal couple's relationship with Xu Jingshu. If they were a normal couple, indeed, indulging in such behavior could lead to Xu Jingshu's disappointment.

But Lu Chen and Xu Jingshu were not a normal couple. Xu Jingshu was indeed his woman, but in this relationship, Lu Chen was in a dominant position, and Xu Jingshu was his captive. Even if he indulged night after night, even if Xu Jingshu knew he had many women, it wouldn't change Xu Jingshu's view of him.

On the contrary, if Xu Jingshu knew he had many women, she might be quite pleased because it would mean his attention was diverted and he wouldn't be as focused on confronting her as before.

Lu Chen then said: "Since you are unwilling to leave, you may come in."

With those words, Lu Chen proceeded towards his room, continuing as he walked: "There are a few rooms in the courtyard. You can pick any one you want to stay in. From now on, don't disturb me in my cultivation if there's nothing important."

Although these fairies were quite beautiful, compared to his other women, their looks were still far inferior, so he had no interest in them.

Upon hearing Lu Chen's words, the women all said in unison: "Yes, Young Master."

Lu Chen then entered his room and resumed his meditation.

After these women picked their rooms, they gathered into one, setting up a formation to isolate any detection.

One fairy spoke: "What do we do now? The Steward wants us to seduce him, but judging by his demeanor, he doesn't seem interested in beauty at all."

"Perhaps he's just pretending. After all, we've just arrived today. Give it a few days, and his true nature might emerge."

"Hopefully so. If we can complete the task, we can become official disciples of the Mysterious Moon Palace."

...

Listening to these women's discussions, Liu Cai remained silent. Her purpose was different from these women. Their goal was merely to entangle Chen Lu with beauty, while her aim was to make Chen Lu leave Heavenly Language Peak and then kill him.

The immediate task was to make Chen Lu interested in her. Earlier, she clearly felt Chen Lu's gaze linger on her for a moment, so surely Chen Lu was already interested in her. She just needed to be a little proactive, and Chen Lu might take the bait.

Chapter 1757: Chapter 1447: Once the Hall Master Emerges, We'll Leave the Southern Domain

Mysterious Moon Palace, Yun Meng Hall.

A beautiful woman wearing a colorful Cloud Robe sat on an Ice Crystal Chair. Her beauty was matchless, exuding an air of nobility and dignity.

At this moment, an Inner Sect Steward entered the hall.

“Greetings, Palace Master!”

Immortal Venerable Yun Meng said indifferently, “Have the arrangements been made?”

The steward immediately replied, "Arrangements have been made. All are fairies of outstanding beauty; he will surely be tempted."

Immortal Venerable Yun Meng said, "Keep a close eye on him. Have them record the moments of intimacy with the Shadowcatch Stone."

"Yes, Palace Master."

At this moment, Immortal Venerable Yun Meng looked towards the direction of Heavenly Language Peak and murmured to herself, "Even if Xu Jingshu cannot become the Saintess, she is not someone a mere Heavenly Immortal can touch."

Ever since Immortal Venerable Yun Meng learned that Xu Jingshu's partner was merely a Heavenly Immortal, she had been thinking about completely severing Xu Jingshu's ties with Chen Lu.

Although Xu Jingshu, due to her pregnancy, was no longer suitable to be the Saintess, she was the mother of the Saintess, and a mere Heavenly Immortal was not worthy of the mother of the Saintess.

However, Immortal Venerable Yun Meng also knew that if Chen Lu were directly expelled from the Mysterious Moon Palace, it might provoke Xu Jingshu's discontent. Xu Jingshu was currently carrying the Saintess, and she did not want any conflict between Xu Jingshu and the Mysterious Moon Palace.

If so, then let Chen Lu make a mistake, let Xu Jingshu see Chen Lu's true colors. Once Xu Jingshu is disappointed with Chen Lu, she will have no objections when he is expelled from the Mysterious Moon Palace.

After thinking of this method, Immortal Venerable Yun Meng immediately sent a few exceptionally beautiful fairies to Chen Lu. While all fairies are beautiful, these were even more so, and she was confident Chen Lu would not resist the temptation, for he is but a man.

In the eyes of Immortal Venerable Yun Meng, all men are the same, mortal or immortal, all are lecherous. As long as they have the chance to enjoy the company of a peerless woman, they will never miss the opportunity.

...

Mysterious Moon Palace.

In the grand hall, Immortal King Ling Yin frowned as he watched a projection on the screen.

At this time, an Elder stood up and said, "That Chiyuan Immortal King is truly a treacherous scoundrel! We just helped the Chiyuan Sect fight off the Tianxia Immortal Dynasty, and now they tear up the alliance!"

Another Elder said, “Strange, why would the Chiyan Sect break the alliance at this time? Do they think they’re safe now that the Blood Eagle Hall has retreated?”

For a moment, the elders in the hall discussed endlessly, most unable to understand the actions of the Chiyan Sect.

After all, they had only temporarily repelled the Blood Eagle Hall, and since their objectives weren’t met, they might return in full force.

At this moment, an Elder said, “Could it be that the Blood Eagle Hall made a secret alliance with the Chiyan Sect?”

Upon hearing this, the elders in the hall were taken aback.

This possibility was very high, as the Blood Eagle Hall could unite with the Tianxia Immortal Dynasty to attack the Mysterious Moon Palace, so they could certainly ally with the Chiyan Sect to attack as well.

In the vast world, all pursue profit; if the Blood Eagle Hall offers Chiyan Sect enough benefits, it’s only natural for them to break the alliance.

If that's the case, the situation for the Mysterious Moon Palace could become dire.

For a moment, the elders fell silent, and the atmosphere in the Meeting Hall became heavy.

Just dealing with the Blood Eagle Hall was already a challenge for the Mysterious Moon Palace. If there was another Chiyan Sect, facing attacks from three forces simultaneously, they might be unable to withstand unless their Hall Master could break through to become an Immortal Venerate.

However, becoming an Immortal Venerate doesn't happen overnight. If it were that easy, the sky would be filled with Immortal Venerates, considering the significant number of Immortal Kings in the Tianyan Immortal Domain.

After a while, Immortal King Ling Yin spoke, "It might not necessarily be because of the Blood Eagle Hall; it could be an order from the Heavenly Splendor Hall."

When Ling Yin Immortal King said this, the elders present immediately realized that after they killed the envoy from the Heavenly Splendor Hall, logically, someone from the Heavenly Splendor Hall should have come to demand an explanation, yet no one had until now.

It now seems that the Heavenly Splendor Hall knew of the Blood Eagle Hall's plans to attack the Mysterious Moon Palace, so they didn't send anyone to deal with it.

Immortal King Ling Yin continued, “I received information a few days ago that an envoy from the Heavenly Splendor Hall went to the Chiyan Sect and has stayed there. It’s likely that this envoy is related to Chiyan Sect breaking the alliance.”

Even within the Chiyan Sect, there are those who are bothered by this breach of alliance. After all, they are righteous immortals, yet they must ally with the Blood Eagle Hall to attack the Mysterious Moon Palace, associating with evil immortals, making them no different from those evil immortals.

So, someone leaked information to Immortal King Ling Yin, though not explicitly stating the specific reason for the Chiyan Sect’s breach of alliance, the informant hinted that a disciple from the Heavenly Splendor Hall was in the Chiyan Sect, making it likely that the Heavenly Splendor Hall was the true reason for the alliance breach.

At this moment, an Elder said, “If so, then the reason Tianxia Immortal Dynasty joined Blood Eagle Hall in attacking us was also due to the Heavenly Splendor Hall’s orders?”

As the Elder’s voice fell, the Meeting Hall quieted again, and the elders fell into silence. If this were true, the Heavenly Splendor Hall might rally more forces to besiege the Mysterious Moon Palace until it’s destroyed.

After a long while, Immortal Monarch Weixue said, “We killed the envoy from the Heavenly Splendor Hall, which, in their eyes, challenges their authority. As the overlord of the Southern Domain, they cannot tolerate us.”

“In that case, once the Hall Master completes his retreat, we shall leave the Southern Domain.”

Immortal Monarch Weixue herself was among those who followed Yun Yudie from the Mysterious Moon Palace. Despite having stayed in this place for hundreds of millions of years, for her, wherever Yun Yudie is, that place is their Immortal Sect.

The location of the Immortal Sect is not particularly important. Although abandoning this place may lead to losing the protection of the sect’s Qi Fortune, causing a significant drop in power, it’s better than facing death.

They had moved once with Yun Yudie before, naturally, they could do so again.

As for whether her partner would leave with her, she didn’t care much; if he wished to accompany her, he could, if not, so be it.

Compared to romantic entanglements, Immortal Monarch Weixue preferred to follow their Saintess.

Those who followed Yun Yudie from the Mysterious Moon Palace initially had unquestionable loyalty.

Listening to Immortal Monarch Weixue's words, the hall fell silent again. Since the creation of the Mysterious Moon Palace, they had absorbed many individuals not from the original Mysterious Moon Palace, making Immortal Monarch Weixue and those who came out with Yun Yudie willing to move again, but the elders who weren't originally from the Mysterious Moon Palace weren't so willing to leave the Southern Domain.

Their families and power were in the Southern Domain, as well as their partners.

Chapter 1758: Chapter 1448: Senior Sister, Will You Be My Couple?

After a long time, still no one spoke in the Meeting Hall of Mysterious Moon Palace; they were all thinking about what to do if Heavenly Splendor Hall indeed urged other forces to attack Mysterious Moon Palace.

After all, Heavenly Splendor Hall is the most powerful force in the Southern Domain; a single word from them can make other forces in the Southern Domain do their bidding.

Now Mysterious Moon Palace has only two Immortal Kings, and their Hall Master is in seclusion. If other forces in the Southern Domain join forces to attack Mysterious Moon Palace, they won't be able to withstand it.

It seems that the only path before them now is to leave the Southern Domain.

Just then, Weixue Immortal Monarch spoke: "Strange, why hasn't Chuyao come today?"

Today they were discussing a matter concerning the life and death of Mysterious Moon Palace, something that Ye Chuyao, as the Hall Master's Direct Disciple, should have attended. Yet, she hadn't appeared until now.

Ling Yin Immortal King knew where Ye Chuyao had gone and covered for her, saying: "I assigned her a task, she's currently carrying it out."

Upon hearing Ling Yin Immortal King's words, Weixue Immortal Monarch didn't ask further questions.

At this moment, Ling Yin Immortal King continued: “Let’s leave it here for today. There’s no need to worry too much. The Immortal Sect’s Qi Fortune is currently strong, indicating Mysterious Moon Palace hasn’t reached the point of life and death yet. Perhaps the Hall Master can break through to the Immortal Venerate Realm in a short time due to the strong Qi Fortune.”

“Once the Hall Master breaks through and becomes an Immortal Venerate, all problems can be solved.”

Upon hearing Ling Yin Immortal King’s words, the elders just sighed and said nothing more. Of course, they knew that if their Hall Master broke through and became an Immortal Venerate, all these issues could be resolved. The key problem was that Mysterious Moon Palace didn’t have much time left to wait for their Hall Master to break through to the Immortal Venerable Realm.

Meanwhile.

Bihai Immortal City, Chen Mansion.

Inside the room, Lu Chen was busy with his own matters, and watching her lover so engrossed in such things made Ye Chuyao’s heart feel mixed emotions.

At this time, Lu Chen said with a smile: “Hoo... Senior Sister, you definitely have a special constitution; I actually feel my strength recovering quickly.”

Saying this, Lu Chen's large hand gently brushed over Ye Chuyao's soft abdomen, and hearing Lu Chen's words, the dazed Ye Chuyao snapped back to reality, "Special... constitution?"

"I... uh-huh... do have a special constitution, but... hmmm... my constitution doesn't help others..."

Her constitution was the Spirit Wood Immortal Body, which allowed her to recover in a very short period even after suffering severe injuries, but this recovery ability only applied to her.

She had once thought about whether her special constitution could help others heal injuries, but after many experiments, she found that her Spirit Wood Immortal Body indeed only worked on herself, so she gave up researching her special constitution further.

Lu Chen then leaned down, their bodies immediately pressed tightly together, and Lu Chen whispered in Ye Chuyao's ear: "How is there no help? If it weren't helpful, how could I recover so quickly?"

Ye Chuyao said: "This... mm! It should be your constitution being special."

After returning to Bihai Immortal City from Mysterious Moon Palace, Ye Chuyao saw Lu Chen recover to the Mortal Immortal Cultivation and first thought it was Lu Chen's special constitution that enabled such a quick recovery. She never considered it was due to her own constitution.

Seeing Ye Chuyao's disbelief, Lu Chen continued to coax her: "Senior Sister, during these days with you, I feel my cultivation state recovering rapidly, it must be related to you."

"Maybe your constitution requires long-term intimate contact with a Dual Cultivation partner to function. Previously, Senior Sister had no couple, so you didn't know the function of this special constitution."

This...

Hearing Lu Chen's coaxing, Ye Chuyao fell silent, and she couldn't help but begin to wonder if his quick recovery was indeed related to her constitution.

If it truly is related to her special constitution, wouldn't helping him quickly restore his cultivation state simply need constant Dual Cultivation with him?

Thinking of this, Ye Chuyao's emotions became even more complex, for in the current situation, no one could say for sure when their Honored Master would leave seclusion. Once their Honored Master is out, they can no longer maintain this relationship.

At that moment, Lu Chen added: “Senior Sister, if one day Honored Master permits us to be together, would you be willing to become my woman?”

At this question, Ye Chuyao paused, then replied: “Impossible.”

Lu Chen continued asking: “You don’t want to? Why?”

Ye Chuyao said: “Honored Master won’t agree.”

Lu Chen said: “What if?”

Ye Chuyao continued: “Uh-huh... No what-ifs...”

Lu Chen then propped up his body, looking down at Ye Chuyao’s cold and absolutely beautiful face, and asked: “Regardless of whether Honored Master will agree or not, Senior Sister, do you want to be my couple?”

“I...”

Seeing those burning eyes, Ye Chuyao fell into silence.

After enjoying intimacy with him numerous times, she had already come to like that feeling. Not to mention whether they would become a couple, even if not a couple, if circumstances permit, she inwardly still desired Dual Cultivation with him. But thinking of Wu Junwan, she felt conflicted.

Back then, she resented Wu Junwan for giving up the Immortal Emperor position for a man, and since then held great aversion towards men. Now she herself was contemplating forming a couple with a man and continually Dual Cultivating with him.

If she truly did that, wouldn't she be turning into an enemy against her past self?

Seeing Ye Chuyao in silence, Lu Chen ceased speaking as well, quietly yet fiercely acting out.

Ye Chuyao was soon jolted back to reality, looking into Lu Chen's eyes and asking: "Junior Brother, do you... like it?"

Lu Chen replied with a smile: "Naturally, if I didn't like you, how could I do this with you?"

Ye Chuyao said: “Perhaps you just want my body...”

Lu Chen replied: “Precisely because I like you, I constantly want your body. If I had no thoughts or desires for Senior Sister’s body, would you still think I like you?”

Upon hearing Lu Chen’s words, Ye Chuyao fell silent again.

Lu Chen continued: “I like you, and naturally like everything about you, your soul, your body, wanting to be with you all the time.”

At this moment, Ye Chuyao was moved by Lu Chen’s words, but thinking of her Honored Master, her heart started to hesitate again.

Ye Chuyao then said: “Honored Master won’t agree...”

Lu Chen said: “We can be couples in private without Honored Master knowing.”

This...

Ye Chuyao didn't know what to say.

Lu Chen continued to entice: "We're already like this, how is it different from being couples? Senior Sister, do you truly have the heart to sever our relationship forever?"

Ye Chuyao remained silent.

She was still unable to make up her mind.

Having children earns benefit, start competing for dominance in the world by marrying a wife

Ye Chuyao did not want to become the person she once despised, and she was also afraid that one day her relationship with Lu Chen would be discovered by their Honored Master.

Their Honored Master had already given them a chance once. If she continued to maintain an improper relationship with her junior brother in private, and their

Honored Master found out, he would certainly be very angry, and they wouldn't know how their Honored Master would punish them.

Seeing Ye Chuyao fall into silence, Lu Chen continued to tempt her, saying: "Senior sister, as long as we don't say anything, no one will know. Besides, in the future we won't indulge in pleasures within the Profound Moon Palace, making it hard for our Honored Master to discover us."

Ye Chuyao's heart was slightly swayed. Indeed, dual cultivation with Lu Chen made her very happy. Deep down, she also wanted to continue the relationship with him, but she was just worried that their affair would be exposed again someday.

Seeing Ye Chuyao still not speaking, Lu Chen stopped talking as well. He began doing his own things with determination, knowing Ye Chuyao needed some time to make a decision, and he was not in a hurry now.

With Lu Chen's determination, Ye Chuyao gradually came back to her senses. She looked at Lu Chen with a complex expression, and finally said: "Junior... Junior brother, I... I can agree."

Upon hearing this, Lu Chen excitedly asked, "Really? Senior sister, you really agreed to be my partner?"

Ye Chuyao said: "But I have conditions."

Lu Chen said: "What conditions, senior sister, please tell me."

Ye Chuyao said: "We cannot indulge in pleasures within the Profound Moon Palace. Besides that, if our Honored Master isn't in seclusion, we also cannot have any contact. Even if we're in the midst of it, as long as the Honored Master emerges, we must separate. You must not act violent towards me in front of the Honored Master as before."

Ye Chuyao knew her rogue junior brother too well. Previously, even when their Honored Master came, they wouldn't let her go.

She did not want such things to happen again.

After hearing Ye Chuyao's conditions, Lu Chen agreed without hesitation, saying: "Alright, I agree, senior sister. As long as the Honored Master emerges, I promise not to entangle you."

Seeing Lu Chen agree, Ye Chuyao immediately felt much lighter, and at this time, Lu Chen excitedly said: "Great, senior sister, you finally belong to me!"

As he spoke, Lu Chen became more and more aggressive, and Ye Chuyao looked at Lu Chen with resentment, but in the end, she still couldn't resist the joy Lu Chen brought her.

Thinking about the betrayal of her former self, Ye Chuyao couldn't help but sigh. In the past, she always resented Wu Junwan for running away with a man, unable to live without one. Now, she herself became someone else's woman, and the key is that this Chen Lu and Lu Chen are alike, both lecherous, and not lacking in women.

Ye Chuyao couldn't quite understand herself. She should not, in theory, like such a lecherous man, yet she fell into this guy's hands in the end.

Perhaps, from the beginning, she shouldn't have gotten involved with this guy because of Lu Chen's affairs. Now she felt that the idea of sacrificing purity to expose Lu Chen was purely enchanting.

She past hated men so much, she shouldn't have had such thoughts. Her ideas about her junior brother must have been due to having feelings for him in her heart, leading to the thoughts of sacrificing her purity, which in reality was just an excuse, an excuse that allowed her to enjoy relations with him in peace.

Forget it, just consider this guy as her concubine.

Most people in the Profound Moon Palace have partners, having one more concubine wouldn't matter, after all, this would not affect her cultivation. Instead of affecting it, it could help enhance her cultivation state, as long as it wasn't discovered by their Honored Master.

Thinking of this, Ye Chuyao stopped worrying much and comfortably enjoyed the joy Lu Chen brought her.

...

At a certain Blood Eagle Hall outpost.

Seeing Guihai Immortal Monarch arrive again, the Demon Monkey Immortal Monarch frowned slightly. Before finding a cultivation technique to counter the evil immortals of the Profound Moon Palace, their Blood Eagle Hall would not contemplate attacking it. Yet, Guihai Immortal Monarch showed up again.

Clearly, Guihai Immortal Monarch came to urge them.

The Demon Monkey Immortal Monarch directly said: "Special Envoy, our Hall Master has already said that only when the Profound Moon Palace's Qi fortune is weakened will the Blood Eagle Hall launch an attack. Coming to me now won't do any good."

Hearing the Demon Monkey Immortal Monarch's words, Guihai Immortal Monarch snorted coldly and said: "You suddenly halted because you think the benefits from Heavenly Splendor Hall are insufficient. Qingyun Immortal King said, as long as

the Blood Eagle Hall is willing to destroy the Profound Moon Palace, any condition could be proposed, as long as it can be done, you'll be agreed to."

This...

The Demon Monkey Immortal Monarch was momentarily stunned, not expecting Heavenly Splendor Hall to feel they were raising the price. But then again, initially, their Blood Eagle Hall was so active, but then suddenly retreated entirely after one defeat, with no destruction in Profound Moon Palace's territory, looking indeed like price-raising.

The Demon Monkey Immortal Monarch fell into thought, not answering immediately. If Heavenly Splendor Hall offers more benefits, Blood Eagle Hall might just take the risk.

But such a decision wasn't something an Immortal Monarch could make alone, so he said: "I need to report this to our Hall Master, please stay for a few days, and once there's news, I'll notify the Envoy immediately."

With that, the Demon Monkey Immortal Monarch prepared to leave, but Guihai Immortal Monarch suddenly remembered something and said: "One more thing, inform your Hall Master that the Chiyan Sect has now dissolved its alliance with Profound Moon Palace, and they will soon join the campaign against it."

Upon hearing this, the Demon Monkey Immortal Monarch was surprised, unaware of this. If the Chiyen Sect also joined the siege against the Profound Moon Palace, Blood Eagle Hall's efforts might not be much needed. With three forces allied, even if Profound Moon Palace possessed Immortal Law that counters evil immortals, the other two forces would be sufficient to handle it.

Thinking to himself, the Demon Monkey Immortal Monarch left a "I will report truthfully" before returning to Blood Eagle Hall.

Very quickly, the Demon Monkey Immortal Monarch relayed what Guihai Immortal Monarch said verbatim to the three Hall Masters of Blood Eagle Hall.

At this moment, in the Meeting Hall of Blood Eagle Hall.

After listening to the Demon Monkey Immortal Monarch's report, the three Blood Demon Immortal Kings showed puzzled expressions on their faces.

At this point, Ghostly Evil Immortal King said: "Why is Heavenly Splendor Hall so eager to destroy the Profound Moon Palace?"

The Blood Eagle Hall wanted the Profound Moon Palace's territory, to plunder its cultivation resources, so their attack had a clear objective, but Heavenly Splendor Hall seemed to have no reason to aim for its destruction.

This was a mystery to them from the start.

The Netherworld Immortal King said: "Perhaps they find the Profound Moon Palace disobedient, so they want to destroy it."

Having children earns benefit, start competing for dominance in the world by marrying a wife

Chapter 1760: Chapter 1450: You Call This Lowly Charm Skill, and Expect Me to Fall for It?

Upon hearing the words of the Netherworld Immortal King, the Ghostly Evil Immortal King spoke, "Even so, there's no need to be in such a hurry, right? Even we aren't in a rush, so why is the Heavenly Splendor Hall acting so urgently?"

The Netherworld Immortal King continued, "Perhaps it's because a great battle with the Demon Emperor is imminent, and the Heavenly Splendor Hall wants to make an example to intimidate the Southern Domain forces into following their commands."

The Ghostly Evil Immortal King pondered for a moment, finding the reasoning somewhat plausible.

At this moment, the Blood Demon Immortal King speculated, “Maybe it’s because the Mysterious Moon Palace has something the Heavenly Splendor Hall wants.”

Upon hearing the Blood Demon Immortal King’s words, the first thought that came to the Ghostly Evil Immortal King and the Netherworld Immortal King’s minds was the Immortal Law that could restrain their Evil Immortals.

But on second thought, they realized that the Heavenly Splendor Hall wouldn’t go as far as robbing the Mysterious Moon Palace of the Immortal Law just to deal with them. If they really wanted that Immortal Law, they wouldn’t be collaborating with these Evil Immortals.

The Blood Demon Immortal King continued, “After all, the Mysterious Moon Immortal King came from the Mysterious Moon Palace, and she might have brought out a lot of good things from there, like that Immortal Law that can restrain us Evil Immortals could very well have come from the Mysterious Moon Palace.”

Hearing the Blood Demon Immortal King’s words, the Netherworld Immortal King and the Ghostly Evil Immortal King realized that they wanted to destroy the Mysterious Moon Palace mainly because Yun Yudie came from the Mysterious Moon Palace, and so there must be plenty of cultivation resources. Plus, the Mysterious Moon Palace even possesses such special Immortal Laws that restrain Evil Immortals, making them think there might be even more valuable Immortal Laws and treasures there.

Perhaps among those treasures or Immortal Laws, there's something the Heavenly Splendor Hall desires, which is why they're so anxious.

It's no wonder the three Immortal Kings thought this way, as the Heavenly Splendor Hall was exceedingly urgent, even going so far as to turn the Chiyan Sect against them. If not for the purpose of acquiring something from the Mysterious Moon Palace, why would the Heavenly Splendor Hall be so eager to destroy the Mysterious Moon Palace? They could easily wait until after the war with the Demon Emperor to take down the Mysterious Moon Palace just the same.

At this time, the Blood Demon Immortal King continued, "Regardless of what the Heavenly Splendor Hall intends to gain, since they have even recruited the Chiyan Sect, even if the Mysterious Moon Palace has an Immortal Law that restrains us, we must seize this opportunity."

"That Immortal Law cannot fall into the hands of other Immortal Sects, especially the Chiyan Sect."

The target of the Blood Eagle Hall from the beginning had been the Mysterious Moon Palace and the Chiyan Sect. Although, due to the intervention of the Heavenly Splendor Hall, the Chiyan Sect has now become their ally, they will most certainly destroy the Chiyan Sect after vanquishing the Mysterious Moon Palace.

Thus, the Immortal Law of the Mysterious Moon Palace that can restrain Evil Immortals must not fall into the hands of the Chiyan Sect. If the Chiyan Sect were to obtain that Immortal Law, it would be a great threat to the Blood Eagle Hall.

The Blood Demon Immortal King immediately sent a message throughout the Blood Eagle Hall, “The war will resume in three days, all elders gather in the council hall to discuss.”

Hearing the words of the Blood Demon Immortal King, the Evil Immortals became excited once more. They had thought the war had halted, but unexpectedly, their Hall Master restarted the war so soon. This way, they could once again indulge in slaughter to enhance their strength.

Three months later.

Mysterious Moon Palace.

Dressed in a pink long dress and flamboyantly adorned, Liu Cai stood at the door of Lu Chen’s room, displaying a strange expression.

They had been brought to Chen Lu’s courtyard for a long time, yet throughout this period, Chen Lu had not laid a hand on them, nor did he summon them to serve him, leading these fairies to start doubting their own allure.

Liu Cai pondered silently, not just her but the fairies sent from the main peak, each a beauty, could it be that Chen Lu truly had no interest?

If Chen Lu was a cultivation fanatic uninterested in women, that would be troublesome. It would mean she couldn't use her charms to entice Chen Lu, luring him away from the Heavenly Language Peak.

If she couldn't lure Chen Lu away from the Heavenly Language Peak, there would be no way to kill him.

If she failed the task, her own outcome would likely be grim.

No, she couldn't continue to waste time like this. The Golden Wing Immortal Monarch had already sent someone to urge her a few days ago; if this went on, when the Golden Wing Immortal Monarch lost patience, she, too, might be dealt with by the Golden Wing Immortal Monarch.

Thinking of this, Liu Cai took the initiative to knock on the door, speaking in a gentle voice, "Master, may this servant enter?"

Lu Chen, who was cultivating, heard Liu Cai's voice from outside and chuckled slightly, finally, she came.

Lu Chen then asked, "What is it?"

Liu Cai said, “Can this servant come in to speak?”

Lu Chen coldly responded, “If you have something to say, say it at the door.”

Hearing this, Liu Cai frowned slightly; speaking at the door, how could she use her Charm Skill on Chen Lu?

Liu Cai immediately said, “The matter this servant must speak of is important, it’s better to discuss it inside.”

Lu Chen said, “Very well then.”

As his words fell, the door to Lu Chen’s room slowly opened. Seeing the door open, Liu Cai felt a surge of joy in her heart, finally finding an opportunity. She then stepped directly into Lu Chen’s room.

Once inside Lu Chen’s room, Liu Cai promptly closed the door and set up a restriction within the room.

Lu Chen then asked, “Speak, what’s the matter?”

Liu Cai, with a smiling face, said, “Master, now that your couple reside in two distant locations, finding it difficult to meet, haven’t you thought of finding another?”

Saying this, Liu Cai began to employ her Charm Skill on Lu Chen, as a pink Immortal Aura instantly permeated the entire room.

Liu Cai thought to herself, she was at least a Golden Immortal, and a Golden Immortal’s Charm Skill, affecting a Heavenly Immortal, should be a simple matter.

Sensing Liu Cai’s Charm Skill, Lu Chen sneered, “This kind of low-grade Charming Skill, and you think it will affect me?”

Upon hearing Lu Chen’s words, Liu Cai was stunned.

Low-grade???

Her Charm Skill could even affect ordinary Immortal Monarchs, yet this mere Heavenly Immortal belittled her Charm Skill as low-grade?

Hold on...

How could he, a Heavenly Immortal, resist her Charm Skill?

Unwilling to concede, Liu Cai frantically operated her Charming Skill, trying to captivate Lu Chen, but even after a long time, Lu Chen remained unaffected.

Lu Chen continued, “You might not be aware, but Xu Jingshu has a natural Charming Body, her Charming Skill is a hundred times stronger than yours, and even she cannot control me. Do you think you can control me with your acquired Charming Skill? It’s sheer delusion.”

“Confess, what did the Sky Eagle Peak send you for?”

Hearing Lu Chen’s words and having him directly identify her origin from Sky Eagle Peak, Liu Cai became dumbfounded again.

Her Charm Skill was ineffective, but how could Chen Lu know she came from Sky Eagle Peak?

She infiltrated with the fairies sent from the main peak, so there’s no way Chen Lu should have known her identity.

At this moment, Lu Chen suddenly thought of something and said, “Looks like, the previous attempt by a disciple from Heavenly Language Peak to assassinate me was orchestrated by your Sky Eagle Peak?”

Since the other women came from the main peak, yet this one came from Sky Eagle Peak, Lu Chen couldn't help but suspect that she might be the assassin sent by Sky Eagle Peak to kill him.
