

Having children earns benefit, start competing for dominance in the world by marrying a wife

After listening to Lu Chen's words, Yun Yudie fell into silence once again.

This bastard was only cultivating the Reproduction Path, turning her sister into his plaything, his breeding tool.

Now he even plans to turn her into his breeding tool.

Seeing Yun Yudie not speaking, Lu Chen raised his hand, caressing her jade-like face, and said, "If you want me to become an Immortal Emperor quickly, to help you see your sister, then you should help me cultivate the Reproduction Path."

"Once I become an Immortal Emperor, I will naturally bring all my kin from the Chaotic Sea back, and by then, you will be able to see your sister again."

Yun Yudie continued her silence.

Right now, her mind was in turmoil; it was the first time she'd heard of such a preposterous cultivation method.

She knew about dual cultivation between men and women, and she knew of Yin-Yang Balance.

But she had never heard of using offspring reproduction as a cultivation method.

After a long pause, Yun Yudie asked coldly, "Is everything you said true?"

Despite almost being seventy or eighty percent convinced in her heart, there was still a hint of doubt; after all, she had never heard of such a cultivation method before.

Lu Chen said, "I have no reason to deceive you."

Yun Yudie thought for a moment; indeed, Lu Chen had no reason to deceive her with such an absurd excuse. If he truly wanted to dominate her body out of lust, he needed only to use her sister as a threat, and she would likely give in.

Moreover, now that she was suffering a backlash from the Immortal Sect's Qi Fortune, even if her consciousness returned to her body, she might still not be able to kill Lu Chen.

Seeing the Cold Fairy still hesitating, Lu Chen continued with his tasks. Though it was impossible to have Yun Yudie conceive in the dream state, it was at least possible to get her used to the process in advance.

Seeing Lu Chen at it again, Yun Yudie's gaze coldly glared at Lu Chen once more. Although she was slightly enamored by the feeling, her mind had already sobered up; she knew now was not the time for this.

This bastard, truly aiming to cultivate the Reproduction Path, but under the current circumstances, they're just touching as consciousness forms. Their bodies aren't even touching; how could one conceive a child?

Yun Yudie then coldly said, "If I find out you are deceiving me, I'll risk my life to go down with you!"

Upon hearing Yun Yudie's words, Lu Chen then said, "So, does that mean you agree to be my woman?"

Yun Yudie didn't answer; she really didn't want to say it out loud. After all, she was an Immortal King with the pride that belongs to one. To be a plaything for a man and even bear his children felt somewhat unsettling to her.

Seeing Yun Yudie's silence, Lu Chen laughed and said, "Then I'll take it as your silent agreement."

"In front of others, you will be my honored master, but privately, you'll be my wife."

Yun Yudie glared at Lu Chen, "Can you let me out now?"

Lu Chen said, "Not yet."

Yun Yudie's eyebrows furrowed slightly, asking coldly, "What more do you want?"

Lu Chen said, "You haven't made an oath yet."

Yun Yudie was so frustrated she wished to blast this bastard, but unfortunately, she was constrained by him currently.

Yun Yudie couldn't be bothered to argue any further. If she didn't leave soon, who knows, the Profound Moon Palace might already be gone.

With this thought, Yun Yudie directly said, "I hereby swear that upon release, I will not harm Lu Chen."

Upon hearing Yun Yudie's words, Lu Chen finally said, "Such an obedient master baby, I'll let you out now."

Yun Yudie suddenly felt nauseated by this "rebellious disciple." She had lived for billions of years and was referred to as a baby.

She just wanted to leave this damned place quickly to avoid being infuriated to death by this rebellious disciple.

Just as Yun Yudie was thinking that Lu Chen should let her go now, Lu Chen leaned down and said, "One last kiss before you leave."

Yun Yudie was stunned for a moment; the next instant, she felt her mouth once again occupied by this bastard.

"Mmm!!!"

After struggling for a while and realizing her consciousness form, even other places were dominated by this bastard, Yun Yudie ceased to resist.

After all, it was only her consciousness form; being taken liberties with was just being taken liberties. Once she returned to reality, it would be impossible for this rebellious disciple to treat her this way again.

After an unknown amount of time, in Lu Chen's kisses, the flower sea gradually turned into light spots and dissipated, and the consciousness forms of Lu Chen and Yun Yudie also transformed into light spots. Soon, Lu Chen and Yun Yudie's consciousness forms returned to their bodies.

At this moment, Yun Yudie's secluded cave mansion.

When Yun Yudie opened her eyes on the icy platform, her mind was immediately filled with fury. The thought of being a dignified Immortal King and being humiliated by that rebellious disciple, forced to make an oath, and most importantly, that bastard was Lu Chen who wanted her to bear his children.

Subsequently, waves of cold air erupted from Yun Yudie's body, and shortly after, Yun Yudie's icy anger echoed above the Profound Moon Palace, "Lu Chen!!!"

When the people of the Profound Moon Palace heard their Palace Master's voice, they curiously looked towards the direction of Yun Yudie's secluded cultivation.

Lu Chen? Why did their Palace Master shout this name?

If they remembered correctly, wasn't this Lu Chen the Chen King of the Tianxia Immortal Dynasty?

Wasn't Chen King already dead?

Why did their Palace Master shout Lu Chen's name as soon as she emerged from seclusion?

While people were puzzled, Ling Yin Immortal King and a group of elders once again returned to the front of Yun Yudie's secluded cave mansion.

In the next moment, Yun Yudie emerged from within the cave mansion, and feeling Yun Yudie's aura, all the elders were stunned. Their Palace Master's cultivation state had actually plummeted to the Immortal Monarch Realm!

This is a disaster!

Without an Immortal King, their Profound Moon Palace would be even more unable to withstand the assaults from the three forces.

Seeing Yun Yudie directly coming out of the cave, Weixue Immortal Monarch's expression was somewhat complicated. Originally, just a moment ago, he had managed to cover things up, but he didn't expect their Palace Master to directly come out.

At this point, Yun Yudie expressionlessly told everyone, "All except Ling Yin Hall Master, leave."

The identity of Lu Chen, Yun Yudie temporarily did not wish others to know, but she really couldn't swallow this grudge without teaching that bastard a lesson.

Indeed, she swore not to harm Lu Chen, but that doesn't mean others can't harm him. The Profound Moon Palace didn't just have one Immortal King. Besides, Lu Chen had just emerged from the Chaotic Sea, and logically, his strength should not have recovered much.

Otherwise, he wouldn't have taken the alias Chen Lu, hiding in the Profound Moon Palace, and even staged a fake death to deceive the world.

Upon hearing Yun Yudie's words, the elders left with heavy hearts. After Weixue Immortal Monarch and the others left, Ling Yin Immortal King finally asked, "Hall Master, do you have any instructions?"

Yun Yudie coldly said, "Come with me."

As her words fell, Yun Yudie's body and Ling Yin Immortal King simultaneously disappeared from their original spot.

The next moment, the two appeared in Lu Chen's courtyard.

This...

When Yun Yudie brought Ling Yin Immortal King to Lu Chen's courtyard, Ling Yin Immortal King was taken aback.

She recalled Yun Yudie's earlier shout of "Lu Chen." Her heart skipped a beat; could it be that their King's identity had been discovered?

Having children earns benefit, start competing for dominance in the world by marrying a wife

Chapter 1772: Chapter 1462: No Need to Pretend, She Knows My Identity

As Yun Yudie and Ling Yin Immortal King stepped into the courtyard, they immediately noticed Lu Chen sitting on a stone bench.

At this moment, Lu Chen held a teacup, leisurely sipping his tea.

Seeing Lu Chen so relaxed, as if nothing had happened, Yun Yudie's internal rage burned even brighter.

The next moment, a burst of cold energy erupted from Yun Yudie's body. Instantly, the flowing water in the courtyard, the pond, and even the tea in Lu Chen's hand froze into ice.

Lu Chen set down the teacup and looked up at Yun Yudie in the courtyard, smiling as he said, "Honored Master, you're here."

Yun Yudie coldly stared at Lu Chen, then said to Ling Yin Immortal King, "Lock him up!"

However, upon hearing Yun Yudie's words, Ling Yin Immortal King did not move. She tentatively asked, "Hall Master, is there some misunderstanding between you and Chen Lu?"

Yun Yudie's expression remained indifferent as she said, "No misunderstanding."

Upon hearing this, Ling Yin Immortal King's gaze turned toward Lu Chen, as if seeking his opinion.

Lu Chen directly said, "No need to act anymore, she knows my identity."

Hearing this, Yun Yudie was momentarily stunned where she stood.

Lu Chen's words were obviously not directed at her, and standing next to her was only Ling Yin Immortal King, so he was speaking to Ling Yin Immortal King?

Yun Yudie quickly turned her head, looking warily at Ling Yin Immortal King.

Seeing Lu Chen speak so openly, Ling Yin Immortal King showed a hint of an embarrassed smile and then said to Yun Yudie, "Hall Master, I'm sorry, but I'm part of the King's faction."

Upon hearing Ling Yin Immortal King's words, the ice power within Yun Yudie exploded once again, sealing the entire Mysterious Moon Palace in ice, even causing a blizzard to fall.

Yun Yudie was truly infuriated. She never imagined that after following her for so many years, Ling Yin Immortal King would actually be a part of that scoundrel Lu Chen's side.

In a cold voice, Yun Yudie asked, "Since when?"

She very much wanted to know when Ling Yin Immortal King had allied with this scoundrel, and why she would betray the Mysterious Moon Palace. She believed she had never mistreated her, even promoting her to the second Hall Master after she became an Immortal King. Yet, she was betrayed.

Ling Yin Immortal King responded, "I have been the King's maid from the very beginning, watching him grow up."

Upon hearing Ling Yin Immortal King's reply, Yun Yudie felt somewhat relieved. It appeared that Ling Yin Immortal King was originally one of that scoundrel's people, which meant there was no betrayal involved.

But quickly, Yun Yudie realized something. Since Ling Yin Immortal King was Lu Chen's person from the start, had she infiltrated the Mysterious Moon Palace with the intent to spy on her, thus indicating that the scoundrel had been targeting her from the very beginning?

Thinking of this possibility, Yun Yudie's expression became even colder.

The realization that she had sworn an oath not to harm this scoundrel, and that the only remaining Immortal King in the Mysterious Moon Palace was Lu Chen's person, filled Yun Yudie with unbearable frustration.

She had been humiliated by this scoundrel in such a manner, yet now found herself powerless against him. Naturally, Lu Chen could see that Yun Yudie was extremely aggrieved, but he did not care in the slightest. He smiled as he reminded her, "Honored Master, don't forget, your sister is still in my hands."

Upon hearing this, Yun Yudie's mind went blank, then she coldly replied, "Don't let me find out you're deceiving me."

Lu Chen continued, "Instead of focusing on that, Honored Master should consider how to deal with the three great powers. Now that your cultivation state has fallen to the Immortal Monarch Realm, and with the Immortal Sect's qi fortune greatly weakened, even with the Mysterious Moon Palace's Immortal Sect Great Array, it might not withstand the siege of the three forces."

Yun Yudie remained silent, overwhelmed by anger moments ago, but now, after calming down and considering the situation, she realized it was not the time to trouble Lu Chen.

If she wanted to flee, it wouldn't be a problem, but the disciples of the Mysterious Moon Palace might fall into the hands of those Evil Immortals.

Many of the disciples were ones she had personally brought from the Mysterious Moon Palace. If she left them to escape alone, the matter might become her heart demon in the future.

At this moment, Yun Yudie recalled Lu Chen's words from a dream, suggesting he might have a way to help the Mysterious Moon Palace escape the current predicament.

With her eyes coldly locked onto Lu Chen, she finally said expressionlessly, "Do you have a way?"

Lu Chen replied, "I do have a way, but surely Honored Master won't expect me to work for nothing?"

"After all, saving everyone requires a significant cost from me."

Yun Yudie's brows furrowed slightly, then she asked, "What do you want?"

Lu Chen's fiery gaze traveled over Yun Yudie's long jade legs before settling on her cool and elegant face, "Honored Master should know what I want."

Yun Yudie said nothing, tightening her jade fists, now truly wanting to cut down this rebellious disciple.

After a moment, Yun Yudie coldly said, “Once!”

She couldn’t become his plaything, always at his mercy, but once, she could treat it as being bitten by a dog.

Purity meant little to her; she simply didn’t want to be tormented by this scoundrel. She had the pride of an Immortal King, and the thought of doing humiliating things with Lu Chen in dreams filled her with indignation.

After all, she was an Immortal King; how could she be like those animals?

Lu Chen immediately understood what Yun Yudie meant and shook his head, “Not enough.”

Yun Yudie expressionlessly replied, “Twice!”

At this point, Yun Yudie could barely suppress the ice power within her body, teetering on the edge of eruption.

Lu Chen intended to push his luck, but Yun Yudie suddenly turned away, appearing ready to leave. An Immortal King has their pride; twice was her limit. If Lu Chen didn't agree, she'd find her own way, even if it meant perishing alongside those three factions' Immortal Kings. She wouldn't become a man's complete plaything, especially not Lu Chen's. Moreover, his intentions weren't just for amusement, but to use her as a breeding tool.

Lu Chen knew Yun Yudie still had her pride, much like Yun Qingshu, and that pushing too hard could backfire.

He promptly said, "Alright, I agree."

Seeing Lu Chen agree, Yun Yudie stopped in her tracks, turning to look at him, "What do you plan to do?"

Lu Chen said, "I obtained an ancient transmission array in the Chaotic Sea, which doesn't require a corresponding space transmission array. It can transport anything to any place in the Tianyan Immortal Domain, ignoring space locks."

"However, the transmission requires a great deal of immortal aura. To transport the entire Mysterious Moon Palace, the current immortal aura might not suffice, but it's worth a try."

“And if we can’t transport the entire Mysterious Moon Palace, we can still transport all of its people.”

Yun Yudie’s frosty jade cheeks showed a hint of skepticism; this was the first she’d heard of such a transmission array existing in the Tianyan Immortal Domain.

Chapter 1773: Chapter 1463: This Disciple Still Respects My Master

Yun Yudie asked, “Do you really have such a Transmission Array?”

Lu Chen replied, “Honored Master, at a time like this, I have no reason to deceive you, do I?”

Upon hearing Lu Chen’s words, Yun Yudie immediately responded, “Do not call me Honored Master, I have no rebellious disciple like you.”

Hearing Lu Chen call her Honored Master, Yun Yudie felt awkward. This scoundrel had completely disregarded her as a master in the dream.

Lu Chen smiled and said, “Once a teacher, always a teacher; this disciple still respects the master greatly.”

Yun Yudie only felt she had heard the biggest joke ever. She didn’t believe this scoundrel understood what respecting the master and valuing the Dao meant.

Yun Yudie couldn’t be bothered to argue with him and continued, “If you really have such a Transmission Array, then set it up immediately. I am not lacking in Immortal Crystals.”

As the Saintess who came out of the Mysterious Moon Palace, she lacked nothing less than Immortal Crystals. Of course, she was also aware that if the Formation were as heaven-defying as stated, a single transmission might consume more than half of the Immortal Crystals of the Mysterious Moon Hall.

But to save the Mysterious Moon Hall, to save those who followed her out of the Mysterious Moon Palace, consuming as many Immortal Crystals as needed was worth it.

Immortal Crystals can always be earned again, but if people are gone, everything is lost.

Lu Chen said, “Alright, I will begin setting up the Transmission Array. Then please Honored Master recall the disciples from the Immortal City.”

After hearing Lu Chen’s words, Yun Yudie did not hesitate. She immediately transmitted a message to the people in the Immortal City below the Mysterious Moon Hall, telling them to leave the city at once and return to the Mysterious Moon Hall.

At this moment, Ling Yin Immortal King asked, “Are we taking everyone from the Immortal City?”

Many in the Immortal City below the Mysterious Moon Hall were not Mysterious Moon Hall Immortals, and most of the current city residents were Immortals from previous affiliated forces of the Mysterious Moon Hall.

After those affiliated forces were defeated, those who did not surrender retreated to the Mysterious Moon Hall’s Immortal City to continue helping guard it.

If the Mysterious Moon Hall leaves without them, then eventually, the Evil Immortals might massacre the city, leaving them all dead.

Yun Yudie’s brows furrowed slightly. Honestly, she didn’t want to bother with anyone outside of the Mysterious Moon Hall. In this world of the strong preying on

the weak, those affiliated forces are mere expendables, tools to be discarded at any time.

Yun Yudie could use her own body to exchange for Lu Chen's help to save all the disciples of the Mysterious Moon Hall, already a tremendous sacrifice for her.

Lu Chen looked at Yun Yudie and spoke, "It's only a few million more people. The Mysterious Moon Hall can hold them; it just depends on whether you want to save them, Honored Master."

Yun Yudie pondered for a moment, then coldly said, "If you can transmit them all, then take them. If not, let them stay in the city and leave it to fate."

Lu Chen said, "If the Mysterious Moon Hall's Immortal Crystals are sufficient to transmit the entire hall, then taking these people along is certainly no problem."

The size of the entire Mysterious Moon Hall is roughly equivalent to a planet; if it can be transmitted, bringing along a few million from the Immortal City is no issue.

However, Lu Chen was using the Spirit Realm Crossing Array for the first time, unsure of how much Immortal Aura it would consume.

Yun Yudie didn't say anything further and turned to leave Lu Chen's courtyard. She remained calm; whether dealing with the Mysterious Moon Hall's current predicament or meeting her sister, she needed Lu Chen. Although she harbored deep resentment towards him, she had no choice but to endure.

After Yun Yudie left, Ling Yin Immortal King looked at Lu Chen and asked, "The King and the Hall Master..."

Ling Yin Immortal King hesitated to continue.

Ling Yin Immortal King was puzzled; Yun Yudie was supposed to be in seclusion. How did she suddenly discern Lu Chen's identity after coming out of seclusion and immediately seek him?

Lu Chen calmly said, "While she was in seclusion, her Divine Soul detached and interacted with mine, that's how she recognized me. But now she needs me and doesn't dare act recklessly, so you need not worry."

Ling Yin Immortal King said, "I see."

That explained why Yun Yudie suddenly knew Lu Chen's identity; her Divine Soul collided with his. Divine Souls are hard to disguise, so it's no wonder Yun Yudie could recognize Lu Chen, and Ling Yin Immortal King didn't dwell on it. Instead, she asked, "I wonder what materials are needed for the array you're setting up? I'll get it ready for you."

Hearing Ling Yin Immortal King's words, Lu Chen smiled and said, "Ling Yin Immortal King, I've told you many times, I am no longer the King of the Tianxia Immortal Dynasty, there's no need to keep calling me King."

Ling Yin Immortal King paused for a moment and then quickly responded, "I understand."

Lu Chen continued, "As for the array..."

Lu Chen pondered a moment, then said, "The array just needs a special Array Pattern and requires a large amount of Immortal Aura to maintain; nothing else is needed."

Ling Yin Immortal King was taken aback. The more heaven-defying an array is, the more difficult it is to set up, demanding more materials.

But the array Lu Chen described was so heaven-defying and only required Immortal Aura, not other materials?

What level of array is this?

Lu Chen said, “Alright, go take care of your tasks. Have the Immortals in the city enter the Mysterious Moon Hall quickly; I’ll start deploying the array soon.”

Ling Yin Immortal King responded with a “fine” and then left Lu Chen’s courtyard. Lu Chen then studied the Array Pattern of the Spirit Realm Crossing Array.

The Array Pattern of the Spirit Realm Crossing Array was very complex, requiring various Powers of Dao. Even if someone else had the array, it might not work for them.

If others attempted to use it, they would need Immortals cultivating different Daos to simultaneously inscribe the Array Pattern. But since the inscribers differ, collaboration would be tough, likely resulting in an imperfect Array Pattern, making it unusable.

Upon realizing this, Lu Chen’s expression turned peculiar. It seemed as though the Spirit Realm Crossing Array was tailored specifically for him.

He could use the Creation Power to evolve all Powers of Dao, making it effortless for him to inscribe the Spirit Realm Crossing Array’s Array Pattern. Of course, inscribing is easy, but his current internal Immortal Aura is insufficient. However, this can be offset with the Mysterious Moon Hall’s Immortal Crystals, so it’s not a big issue.

Lu Chen then began practicing the inscribing of the Spirit Realm Crossing Array's Array Pattern.

Meanwhile.

Outside Bihai Immortal City.

A warship exuding overwhelming Evil Qi had all three Hall Masters of the Blood Eagle Hall present.

The warship, several kilometers long, cast a gigantic shadow on the ground.

In the main hall of the warship, the three Hall Masters of the Blood Eagle Hall and numerous Elders were discussing the next battle strategies.

Although the joining of the Chiyan Sect made it easy to advance to Bihai Immortal City, during this time they never encountered anyone from the Mysterious Moon Hall using the Cultivation Technique that Ling Yin Immortal King used to counter Evil Qi, arousing suspicion among the three Hall Masters of the Blood Eagle Hall.

Having children earns benefit, start competing for dominance in the world by marrying a wife

After entering the territory of the Mysterious Moon Palace, the Blood Eagle Hall had been very cautious. After all, the Mysterious Moon Palace possessed an immortal technique capable of restraining evil aura.

However, they had already reached Bihai Immortal City. Once they broke through the few Immortal Cities of the Mysterious Moon Palace, they could attack the Mysterious Moon Palace directly. Yet, no one from the Mysterious Moon Palace had used that immortal technique until now.

There were two possibilities: one was that only a few knew the technique, and the other was a strategic lure. The Mysterious Moon Palace intentionally gave way and kept retreating, aiming to draw them in.

At this moment, the Ghostly Evil Immortal King said, "I believe that only a few may know that immortal technique; perhaps they haven't realized it can restrain evil aura."

"If the Ling Yin Immortal King knew her immortal technique could repress evil aura, she would have likely passed it onto other disciples of the Mysterious Moon Palace by now. We wouldn't possibly not see even one person using it on the battlefield."

Listening to the Ghostly Evil Immortal King's analysis, the elders on the warship fell into deep thought, feeling that his reasoning was indeed plausible.

Then an elder spoke, "If it is as the Third Hall Master says, should we proceed with a full-scale attack next?"

Currently, the forefront army of the Chiyan Sect and the Tianxia Immortal Dynasty has also reached the Immortal City, but their main forces have not yet arrived. If they do, those two forces will not only divide the resources of the Mysterious Moon Palace but may also acquire that immortal technique which restrains evil aura.

For the Blood Eagle Hall, the most important thing now is to prevent that evil-restraining immortal technique from falling into the hands of others, especially the Righteous Immortals, as that would nullify the advantage of the Evil Immortals.

Hence, the Evil Immortals of the Blood Eagle Hall are raring to go, eager to invade the Mysterious Moon Palace at once.

At this time, the elders' gazes fell on the Great Hall Master, the Blood Demon Immortal King, who also wished to attack the Mysterious Moon Palace as soon as possible, believing that Xu Jingshu might have been captured by them.

Xu Jingshu was necessary for him to break through to Immortal Venerate; he was most worried that something had happened to her.

Then, the Netherworld Immortal King spoke, "We could try to win over the elders of the Mysterious Moon Palace and see if they know that immortal technique. If they don't, then it likely means only the Ling Yin Immortal King can use it, and we wouldn't need to worry then."

"No matter how strong she is, she is still just one person."

After the Netherworld Immortal King spoke, the Ghostly Evil Immortal King said, "It might not be easy to win over those elders of the Mysterious Moon Palace."

The Netherworld Immortal King said, "It's hard to say. From what I know, some elders of the Mysterious Moon Palace weren't brought from the Mysterious Moon Palace by the Mysterious Moon Immortal King, so their loyalty to the Mysterious Moon Palace might not be very high."

"Now that the Mysterious Moon Palace is at a critical juncture of life and death, as long as we promise not to harm those elders, there will surely be someone willing to surrender."

"And I have already sent someone to try it, and there might soon be results."

Curious, the Ghostly Evil Immortal King asked, "How did you do it?"

The Netherworld Immortal King replied, "I released those elders of the affiliated forces of the Mysterious Moon Palace, allowing them to retreat to the Immortal Cities of the Mysterious Moon Palace to find ways to contact and win over the elders of the Mysterious Moon Palace."

Now, within the Immortal Cities of the Mysterious Moon Palace, there are many Righteous Immortals from the affiliated forces, quite a number of whom have secretly surrendered to the Blood Eagle Hall.

Just as the Ghostly Evil Immortal King was about to say something, a steward from the Blood Eagle Hall entered the Meeting Hall on the warship.

After the steward saluted the Blood Demon Immortal King and the other two, he quickly said, "There is someone who wants to see you three."

The Blood Demon Immortal King asked indifferently, "Who is it?"

That steward glanced at the elders in the hall and then said, "The person's identity is special, and we do not wish others to know she is here for now."

Hearing this, the Blood Demon Immortal King told the other elders in the hall, "You may all leave."

After the Blood Demon Immortal King gave the order, the elders of the Blood Eagle Hall left the Meeting Hall, though they were all deeply curious about who wanted to see the Hall Master and why it was so mysterious.

Once the elders had left, the Blood Demon Immortal King finally spoke, "Speak, who is this person you mentioned?"

The steward immediately said, "Zuiyue Immortal Monarch, you may come out."

As the words fell, a crescent moon appeared in the hall, followed by a woman dressed in plain white attire wearing a face veil appearing in the hall.

Zuiyue Immortal Monarch immediately paid respect to the Blood Demon Immortal King and the other two, "Greetings to the three Hall Masters!"

The Blood Demon Immortal King continued to ask, "Who are you? Why have you come to us?"

Zuiyue Immortal Monarch answered, "I am an Inner Hall Elder of the Mysterious Moon Palace."

Upon hearing this, the Blood Demon Immortal King and the other two were slightly stunned, especially the Blood Demon Immortal King and the Ghostly Evil Immortal King, amazed at how quickly the Netherworld Immortal King's strategy had worked, as an elder from the Mysterious Moon Palace had indeed come, and it was even an Inner Hall Elder.

After recovering, the Blood Demon Immortal King said, "Do you wish to defect to the Blood Eagle Hall?"

Zuiyue Immortal Monarch said, "Yes, I respectfully ask the three Hall Masters for their grace,"

"To show my sincerity, I bring significant intelligence."

The Blood Demon Immortal King said, "Since you have chosen to defect, we will certainly not make things difficult for you. From now on, you will be part of the Blood Eagle Hall. Speak, what is the intelligence you bring."

Zuiyue Immortal Monarch answered, "The Mysterious Moon Immortal King has failed to break through the realm and has fallen to the Immortal Monarch Realm in cultivation state, and they have already prepared to flee the Mysterious Moon Palace."

Hearing this, the three were shocked, and the Blood Demon Immortal King asked with a serious expression, "Is this really true!?"

Feeling the terrifying pressure released by the Blood Demon Immortal King, Zuiyue Immortal Monarch felt immensely fortunate, clearly having made the right choice in defecting to the Blood Eagle Hall.

Zuiyue Immortal Monarch said, "The Mysterious Moon Immortal King has already ordered all the disciples in the Immortal Cities to return."

Hearing this, the faces of the Blood Demon Immortal King and the other two turned dark; if the people of the Mysterious Moon Palace were to escape, those resources and treasures would likely be lost too.

The Blood Demon Immortal King coldly chuckled, "Truly, Heaven helps me!"

At this moment, the Blood Demon Immortal King suddenly remembered something, "Do you know if the Mysterious Moon Immortal King has brought back an Evil Immortal Woman over the years?"

This...

Zuiyue Immortal Monarch hesitated for a moment and then answered, "Returning to the Hall Master, I have never heard of it."

The Blood Demon Immortal King's brows furrowed, his blood-red face twisting in thought.

Never heard of it?

Could it be that Xu Jingshu is indeed not in the Mysterious Moon Palace? So where did she go?

The Blood Demon Immortal King did not believe that the Zuiyue Immortal Monarch before him would dare deceive him, now that she had defected to the Blood Eagle Hall.

The Ghostly Evil Immortal King then asked, "Since the Mysterious Moon Immortal King intends to flee the Mysterious Moon Palace, why have you chosen to defect to the Blood Eagle Hall?"

Zuiyue Immortal Monarch said, "I am originally from the Southern Domain, and so is my family's power. If I leave the Southern Domain, I will have nothing."

Most Immortal Monarchs have a vast network of power behind them, and leaving a certain place means starting all over again. Not everyone can give up those things.

Having children earns benefit, start competing for dominance in the world by marrying a wife

Chapter 1775: Chapter 1465: Sealing Off the Mysterious Moon Palace

After hearing the words of the Zuiyue Immortal Monarch, the Netherworld Immortal King said, “You have made the right choice.”

“The intelligence you brought is very important to Blood Eagle Hall, and this is already a great merit. However, if you can persuade more Immortal Monarchs to surrender to Blood Eagle Hall, your credit will be even greater.”

Since there is a local Immortal Monarch unwilling to leave, other local Immortal Monarchs are likely to have similar thoughts. If Zuiyue Immortal Monarch can entice them to also surrender to Blood Eagle Hall, this will not only greatly weaken Mysterious Moon Palace’s Immortal Sect’s Qi Fortune again but also easily disintegrate the entire Mysterious Moon Palace.

Hearing the words of the Netherworld Immortal King, Zuiyue Immortal Monarch pondered for a moment, then said, "I will do my best to complete this task."

Zuiyue Immortal Monarch thought for a moment, if it's those Elders from Mysterious Moon Palace, she would probably not be able to turn them, but for those unwilling to leave the Southern Domain, she should have no major problem to turn them.

With such merit, once she officially joins Blood Eagle Hall, she will also have a certain status.

At this time, the Blood Demon Immortal King said, "Alright, you should go back first. If there's any movement from Mysterious Moon Palace, notify us immediately."

Zuiyue Immortal Monarch said, "Yes, Hall Master."

As her words fell, Zuiyue Immortal Monarch turned and left.

After Zuiyue Immortal Monarch left, the Blood Demon Immortal King continued, "Do you think there is any deceit in this?"

The Netherworld Immortal King said, “There shouldn’t be any. The Qi Fortune of Mysterious Moon Palace’s Immortal Sect has already greatly diminished. The failure of Mysterious Moon Immortal King’s breakthrough was inevitable.”

The Ghostly Evil Immortal King said, “Didn’t she mention that Mysterious Moon Palace has recalled all disciples of the Immortal City? We can just launch a probing attack now to see if there are any disciples left to defend the Immortal City. If they truly have abandoned the Immortal City, then what she said is probably true.”

The Blood Demon Immortal King pondered for a moment, then conveyed orders to the army of Blood Eagle Hall.

“The entire army, heed my command, from this day, launch a comprehensive attack!”

At this stage, there is no need to launch a probing attack. If what Zuiyue Immortal Monarch said is all true, then they can conquer all Immortal Cities of Mysterious Moon Palace in the next few days.

Even if Zuiyue Immortal Monarch’s words are false, they still need to launch a comprehensive attack because the main forces of Chiyuan Sect and Tianxia Immortal Dynasty are approaching. If they continue to delay, once those main forces arrive, they will definitely seize the treasures and cultivation resources of Mysterious Moon Palace.

Treasures and cultivation resources are secondary. If Tianxia Immortal Dynasty and Chiyan Sect obtain Immortal Laws capable of countering the Evil Immortals, it will be troublesome. In the future, if Blood Eagle Hall wants to expand, it will be difficult, and Blood Eagle Hall might even face annihilation.

With the Blood Demon Immortal King's command, the warships of Blood Eagle Hall started moving towards the Immortal City of Mysterious Moon Palace. Soon, beams of light were blasted from Blood Eagle Hall's warships, shooting towards Bihai Immortal City in front.

The next moment, the protective array of Bihai Immortal City was activated. A golden barrier enveloped the entire Bihai Immortal City, and upon noticing Blood Eagle Hall's attack, the immortals of Bihai Immortal City frantically dashed toward the Transmission Square at the center of the city.

Mysterious Moon Palace had already issued the order to retreat to Mysterious Moon Palace. It was evident that Bihai Immortal City was to be abandoned; no one would continue to defend it.

The City Lord of Bihai Immortal City reinforced the City Protection Barrier, then directly transmitted to the heavenly Mysterious Moon Palace via the Transmission Array.

The defense array of Bihai Immortal City was firm enough; the warships of Blood Eagle Hall bombarded it round after round, yet they couldn't break the Great Array.

The Ghostly Evil Immortal King, unable to tolerate the stalemate, flew out directly from the warship to the front of Bihai Immortal City.

He then gathered all his evil energy and struck with a palm.

Nine Nether Ghost Flame Palm!!!

A giant black palm descended from the sky, smashing towards Bihai Immortal City. However, to his surprise, the golden barrier displayed only slight cracks, which quickly repaired themselves.

The protection arrays of such Immortal Cities are set with the standard of "withstanding the attacks of an Immortal King," so blocking Ghostly Evil Immortal King's strike was not surprising. Moreover, before leaving, the City Lord of Bihai Immortal City poured most of the Immortal Crystals into the defense array to buy time. Supported by the Immortal Aura from those crystals, the array could recover in a short time whenever broken.

Seeing his strike fail to break the array, the Ghostly Evil Immortal King snorted coldly and said, "Continue the bombardment, I want to see how many Immortal Crystals Bihai Immortal City can use to sustain an array of this level."

The higher the defense level of the array, the more Immortal Crystals it consumes. An array that can withstand an Immortal King's strongest strike consumes an enormous amount of Immortal Aura. As long as it's activated, the Immortal Crystals will deplete frantically, and the speed of depletion increases under external attacks.

Upon hearing the Ghostly Evil Immortal King's command, the Blood Eagle Hall warships launched another attack, sending hundreds of light beams towards the grand array of Bihai Immortal City.

Thus, the Blood Eagle Hall's warships bombarded for a full day and night. Seeing that the protective barrier of Bihai Immortal City was growing dim, the Ghostly Evil Immortal King knew the time was about right, so he gathered all his evil energy and unleashed another palm strike.

Nine Nether Ghost Flame Palm!!!

As the giant black hand descended slowly from the sky, Bihai Immortal City's defense array finally couldn't withstand the might of this palm and shattered with a crash.

Once the grand array of Bihai Immortal City was broken, the Evil Immortals rushed towards the Immortal City heedlessly; it was an Immortal City, and whoever went in first would get more treasures or cultivation resources.

Yet soon, the Evil Immortals of Blood Eagle Hall were taken aback by the emptiness of Bihai Immortal City; the entire city was nearly deserted, let alone treasures.

Of course, some families, in their rush to flee, left behind some cultivation items, but the value of those resources was not even worth the Immortal Crystals spent on attacking Bihai Immortal City.

At this moment, the Blood Demon Immortal King and the other two also arrived above Bihai Immortal City. Witnessing the empty city, the Blood Demon Immortal King said, “It seems what that Immortal Monarch said is true.”

“Since that’s the case, we will prepare to seal off the space around Mysterious Moon Palace to prevent their escape.”

Sealing off the space of an Immortal Sect consumes a large amount of evil energy, which is why they didn’t do it immediately.

Now that it’s confirmed Mysterious Moon Palace intends to escape, they must seal the space regardless of the consumed evil energy. If the people of Mysterious Moon Palace escape with their treasures and cultivation resources, Blood Eagle Hall would have waged war in vain.

Hearing the Blood Demon Immortal King's words, both the Ghostly Evil Immortal King and the Netherworld Immortal King hesitated no longer, flying directly to the sky.

Soon, the three passed through the clouds and reached the same height as where Mysterious Moon Palace resided.

Immediately, the three simultaneously made their move, and evil energy surged from their bodies. For a moment, the entire area surrounding Mysterious Moon Palace was shrouded in black mist.

At this moment, Yun Yudie stood on a cultivation square in Mysterious Moon Palace, frowning as she watched the evil energy outside. She knew it was caused by the Blood Eagle Hall's Immortal Kings sealing the space.

Now, if they want to escape, they could only pin their hopes on Lu Chen's Transmission Array. But why hasn't he set up the formation yet?

Chapter 1776: Chapter 1466: Since Everyone's Here, Let's Clean Up First

At this moment, the Elders of the Mysterious Moon Palace gathered around Yun Yudie. Seeing the black aura in the sky, one of the Elders asked, “Hall Master, what should we do now?”

“The space outside the Immortal Sect is now sealed, I’m afraid we won’t be able to transport away.”

Yun Yudie remained silent, not responding.

Just then, Lu Chen walked straight onto the cultivation ground. Seeing Lu Chen’s appearance, Ye Chuyao, who was standing beside Yun Yudie, was slightly stunned.

Could Lu Chen’s cultivation state have already been restored to the Heavenly Immortal Realm?

This...

Could it really be because of the dual cultivation between him and her that he recovered so soon? It hasn’t been that long.

At this moment, Yun Yudie suddenly glanced at Ye Chuyao from the corner of her eye. Ye Chuyao immediately noticed Yun Yudie's gaze and couldn't help but feel guilty.

Lu Chen walked up to Yun Yudie and asked, "Honored Master, have all the people from the Immortal City arrived at the Mysterious Moon Palace?"

Yun Yudie responded coldly, "Yes."

Hearing Lu Chen ask Yun Yudie this question, Ye Chuyao was curious about his intent.

At this moment, Lu Chen glanced at the elders beside Yun Yudie and then said, "Since everyone is here, let's first clear things up, so that no one will come out to disrupt when we activate the formation later."

Hearing Lu Chen's words, everyone present was baffled.

Formation?

What formation?

Could it be that Lu Chen is referring to the Transmission Array?

But since the space outside is already sealed, even if the Transmission Array is activated, it won't transport anyone. Why activate the Transmission Array now?

Lu Chen looked at the Elders around Yun Yudie and said with a smile, "My Honored Master once gave me a magic treasure. With this magic treasure in hand, I can identify anyone who has already betrayed."

This...

Hearing Lu Chen's words, some were confused, not understanding why he said this now, while others felt a pang of anxiety.

If Lu Chen really had such a magic treasure, wouldn't their betrayal of the Mysterious Moon Palace and secret allegiance to the Blood Eagle Hall be discovered?

No way!

Lu Chen absolutely cannot be allowed to use that magic treasure!

At this point, Zuiyue Immortal Monarch stepped forward and asked, “Hall Master, do you really have this magic treasure?”

Yun Yudie also had this question. When did she ever give Lu Chen such a magic treasure, and moreover, she didn’t even have such a magic treasure herself, so how could she give one to Lu Chen?

Could it be that he’s trying to bluff these people to see if there are any traitors among them who have betrayed the Mysterious Moon Palace?

Thinking of this possibility, Yun Yudie decided to cooperate with Lu Chen and said, “It is a Heaven Rank Immortal Artifact I brought out from the Mysterious Moon Palace.”

Upon hearing Yun Yudie’s answer, Zuiyue Immortal Monarch was suddenly startled.

This is bad, I didn’t expect Lu Chen to truly have such a magic treasure. Zuiyue Immortal Monarch then gave a signal to the Elder he had covertly allied with.

If Lu Chen truly uses the magic treasure at this time and discovers their betrayal of the Mysterious Moon Palace, Ling Yin Immortal King would quickly deal with them.

Since their identity was destined to be exposed, they might as well carry their plan out to the end and directly seize control of Yun Yudie.

Yun Yudie was severely injured, with her cultivation having regressed to the Immortal Monarch Realm, surely far less powerful than a normal Immortal Monarch. If they could control Yun Yudie, even if people knew about their betrayal of the Mysterious Moon Palace, they wouldn't dare to act against them.

Moreover, the three Immortal Kings of the Blood Eagle Hall were already outside. If they took action, the Immortal Kings of the Blood Eagle Hall would definitely find a way to break the formation. Once they delayed until the Immortal Kings of the Blood Eagle Hall broke through the array, they would be safe.

Thinking of this, the three Immortal Monarchs beside Zuiyue Immortal Monarch suddenly lunged at Yun Yudie.

Seeing this, Weixue Immortal Monarch immediately responded, "Not good! Protect the Hall Master!"

Before Weixue Immortal Monarch could regain his composure, Zuiyue Immortal Monarch thrust a sword at Yun Yudie. Due to their proximity, Yun Yudie couldn't evade this strike no matter what.

Just as Yun Yudie was about to suffer heavy injuries, her expression remained unchanged. She coldly glanced at the Immortal Monarchs coming towards her, seemingly not surprised at all.

The next moment, a terrifying chill erupted from Yun Yudie's body, and immediately afterward, the pressure of an Immortal King level was released from her body.

Feeling this oppression, Zuiyue Immortal Monarch and the others were stunned.

How...

How could this be...

Wasn't her cultivation state supposed to have fallen to the Immortal Monarch Realm?

How could it have recovered so quickly?

While Zuiyue Immortal Monarch and the other traitors were distracted, the burst of cold from Yun Yudie blasted them away.

Zuiyue Immortal Monarch, unwilling to concede, exclaimed, “You... you weren’t injured! You deceived us!”

Zuiyue Immortal Monarch still thought Yun Yudie’s cultivation drop was a false rumor intentionally spread by Yun Yudie to lure out the traitors.

Yun Yudie’s expression was cold and indifferent, without a word in response.

Her realm had indeed regressed, but inexplicably, since agreeing to dual cultivate with Lu Chen twice, the Qi Fortune of the Immortal Sect at the Mysterious Moon Palace had sharply increased, and her cultivation had quickly recovered during that time.

She knew it was due to the influence of the Qi Fortune carried by Lu Chen, which illustrated just how formidable his Qi Fortune was. Even as almost all territories of the Mysterious Moon Palace were falling, he alone could restore most of its Immortal Sect’s Qi Fortune. This was no ordinary child of fate.

In this world, the vast majority of those with great Qi Fortune could only affect themselves. Even if disasters befell the Immortal Sect they were part of, at best

they could ensure their own survival, while the Immortal Sect would still face extermination.

Thus, Lu Chen's ability to influence the life and death of an Immortal Sect evidenced how formidable his Qi Fortune had become.

Without bothering with Zuiyue Immortal Monarch and the others, Yun Yudie simply raised her hand and countless ice cones shot towards them. Zuiyue Immortal Monarch quickly shouted, "Defend together! As long as we can hold out until the three break the Great Array, we'll be safe!"

Upon Zuiyue Immortal Monarch's words, the other Elders quickly formed an Array Formation, protecting themselves within a formation.

The commotion at the Mysterious Moon Palace immediately caught the attention of the Blood Demon Immortal King trio in the sky. Upon realizing Yun Yudie had attacked Zuiyue Immortal Monarch, they understood the Mysterious Moon Palace was experiencing internal strife, yet they had no intention of directly rescuing Zuiyue Immortal Monarch and her companions.

If Zuiyue Immortal Monarch and her allies perished now, it would not only reduce Yun Yudie's strength but also eliminate the necessity of preserving Zuiyue Immortal Monarch's family after the war since their betrayal of the Mysterious Moon Palace was not widely known.

However, Blood Demon Immortal King's expression was somewhat serious. He spoke, "Looking at the Mysterious Moon Immortal King, it seems her cultivation hasn't truly dropped?"

Though separated by the Immortal Sect's Great Array, the pressure of the Immortal King emanating from Yun Yudie could still be felt by the three of them.

Even though Zuiyue Immortal Monarch had already acted against Yun Yudie, it suggested Zuiyue Immortal Monarch shouldn't deceive them, implying Yun Yudie's cultivation should genuinely have dropped in Zuiyue's view.

Could it be, Yun Yudie had deceived Zuiyue Immortal Monarch and the others on purpose? What purpose could this serve?

Having children earns benefit, start competing for dominance in the world by marrying a wife

At the critical moment of life and death for the Immortal Sect, posing as injured as the Immortal Sect Master is nothing but a blow to the morale of its disciples.

If her Cultivation State had not declined, Zuiyue Immortal Monarch and others would not have dared to betray Mysterious Moon Palace, and there would have

been no internal strife now. Yun Yudie's actions are meaningless and have brought trouble to the Mysterious Moon Palace.

Seeing the Barrier, a trace of killing intent flashed in Yun Yudie's eyes. Although most Immortal Monarchs have the ability to hold their ground against an Immortal King for a while, it depends on the strength of the Immortal King attacking.

As a former Saintess of the Mysterious Moon Palace, she is no ordinary Immortal King, and these few Immortal Monarchs still want to buy time in front of her, how laughable.

The next moment, the entire Mysterious Moon Palace turned into a world of ice and snow, with towering frozen mountain visions appearing in the sky. Yun Yudie did not intend to waste much time and directly used the Ice Dao.

In the next moment, a terrifying force of Ice Power transformed into countless ice spikes, rushing towards the Barrier constructed by the traitors like Zuiyue Immortal Monarch. In just a moment, the Barrier was penetrated, and countless ice spikes pierced through the bodies of Zuiyue Immortal Monarch and others, instantly obliterating them.

Witnessing this scene, the expressions of the three Blood Demon Immortal Kings became even more severe.

The Qi Fortune of Mysterious Moon Palace's Immortal Sect has already weakened to this extent, yet Yun Yudie still possesses such strong power, erasing several Immortal Monarchs with a mere exertion of the Power of Dao.

These Evil Immortal Kings would have to exert great effort to simultaneously kill several Immortal Monarchs.

Now they're beginning to suspect that Mysterious Moon Palace is indeed luring the enemy deeper.

While the Blood Demon Immortal King and others were distracted, Yun Yudie withdrew her aura and looked at Lu Chen with cold detachment, asking, "Can the formation be set up now?"

Upon hearing Yun Yudie's words, Ye Chuyao and the remaining Elders looked at her with a face full of confusion.

Set up a formation? What formation? Moreover, judging by Yun Yudie's tone, it's Chen Lu, this Heavenly Immortal, who will set up the formation?

While people were puzzled, Lu Chen smiled and said, "Let's do it."

As he spoke, Lu Chen immediately began to engrave the Array Pattern, and in the next moment, a peculiar Array Pattern appeared in front of him. Following this, various types of Power of Dao were released from Lu Chen's body, outlining the Spirit Realm Crossing Array's Array Pattern.

Seeing the different types of Power of Dao being released from Lu Chen, not only the people present but also Yun Yudie's cold jade face showed an expression of astonishment.

Most Immortals focus on cultivating a single Dao, and some Immortals will additionally cultivate other Daos. However, to avoid conflict among the Power of Dao within the body, additional Daos are not cultivated deeply.

Yet Lu Chen can use so many types of Power of Dao!

How many Daos has he cultivated?

As the Array Pattern gradually formed, people felt a strong spatial fluctuation. Despite Lu Chen not yet using the Formation, the Spirit Realm Crossing Array's Array Pattern had already caused distortions in the surrounding space.

Meanwhile, seeing the scene, the trio of Blood Demon Immortal Kings became incredibly solemn.

The Blood Demon Immortal King said, "Who is this person? How can he use so many types of Power of Dao?"

Ghostly Evil Immortal King and Netherworld Immortal King said nothing, as they also did not know who Lu Chen was.

With the Spirit Realm Crossing Array's Array Pattern gradually forming, the three suddenly developed a bad feeling, as they clearly sensed the spatial distortion which ignored their spatial blockade.

Netherworld Immortal King said, "Why do I feel this is a Teleportation Array?"

Ghostly Evil Immortal King said, "The space has already been blocked by us, even if they set up the best Teleportation Array, it cannot transport anything, just a desperate struggle."

Blood Demon Immortal King frowned and said, "No, the formation hasn't been activated and it can already distort space. If let him activate it, our spatial blockade will likely fail."

Upon hearing this, Netherworld Immortal King and Ghostly Evil Immortal King realized the dreadful nature of the Spirit Realm Crossing Array.

Blood Demon Immortal King immediately said, "We absolutely cannot let them activate this Teleportation Array!"

"All hands on deck, break Mysterious Moon Palace's Immortal Gate Array!"

The moment his voice fell, Blood Demon Immortal King shouted.

"Corpse Mountain Blood Sea!!!"

The next moment, torrents of blood-red waves appeared in the sky, crashing directly onto the Immortal Gate Barrier of the Mysterious Moon Palace.

Seeing Blood Demon Immortal King make a move, Netherworld Immortal King and Ghostly Evil Immortal King also acted immediately.

Nine Nether Ghost Flame Palm!!!

Blood Sacrifice Demon Refining Seal!!!

One palm and one seal cooperated with Blood Demon Immortal King's Corpse Mountain Blood Sea, crashing onto Mysterious Moon Palace's Immortal Gate Array.

However, since this is an Immortal Gate Great Array, even the Great Array of the Immortal City beneath Mysterious Moon Palace can withstand the attacks of an Immortal King, let alone the Immortal Gate Array.

Normally, an average Immortal Sect does not possess such a solid Immortal Gate Great Array, but since Yun Yudie comes from Mysterious Moon Palace and took away many treasures back then, especially the resources previously given to the Saintesses, Mysterious Moon Palace is relatively well-fortified.

The Immortal Gate Array used by Mysterious Moon Palace was derived from the Heavenly Grade Array Yun Yudie brought from Mysterious Moon Palace, which is not easily broken.

Seeing how solid the array was, Blood Demon Immortal King no longer held back and used Demonic Body. Immediately, a towering Demonic Body over a hundred meters appeared in the sky.

The Demonic Body exuded black Evil Qi, and at the moment of its appearance, a terrifying pressure pierced through Mysterious Moon Palace's array, pressuring everyone present.

This pressure induced by Evil Qi has a mind-corrupting effect, and upon feeling this pressure, some of the disciples with less firm Dao Hearts in Mysterious Moon Palace instantly lost their sensibility, causing chaos within Mysterious Moon Palace.

However, only some disciples lost their senses, which does not greatly affect Mysterious Moon Palace.

At this moment, Blood Demon Immortal King shouted again, "Evil Qi Overflow!!!"

In the next moment, the Evil Qi emanating from the Demonic Body of Blood Demon Immortal King seemed to be igniting, becoming more intense. Witnessing this, Lu Chen, who was outlining Array Patterns, couldn't help but frown.

Blood Demon Immortal King is burning Evil Qi?

Immortals in desperate battles might burn Essence Blood, or their Life Force, but it was Lu Chen's first time hearing about the burning of Evil Qi.

Quickly Lu Chen realized the Evil Qi being burned by Blood Demon Immortal King seemed not to be ordinary Evil Qi, but purer.

At this moment, Blood Demon Immortal King's voice again rang out like a bell.

"Corpse Mountain Blood Sea!!!"

Numerous corpses appeared out of thin air, frantically impacting Mysterious Moon Palace's Immortal Gate Array, followed by a colossal wave that blotted out the sky, crashing onto the Immortal Gate Array.

This time, the power of Blood Demon Immortal King's Corpse Mountain Blood Sea was greatly enhanced, and when the Blood Sea wave slammed onto Mysterious Moon Palace's Immortal Gate Barrier, it created a crack stretching dozens of kilometers.

Realizing the strength of Blood Demon Immortal King had significantly risen, Yun Yudie hastily acted to stabilize Mysterious Moon Palace's Immortal Gate Array.

Fortunately, she acted promptly, preventing the crack from expanding further.

Having children earns benefit, start competing for dominance in the world by marrying a wife

Just as Yun Yudie thought she had blocked the strike of the Blood Demon Immortal King, the evil qi released by the Blood Demon Immortal King surged into the Mysterious Moon Palace through that crack.

As the evil qi poured in, more and more disciples of the Mysterious Moon Palace lost their sanity, and for a moment, the entire palace became even more chaotic. Even some elders began to become dazed.

This evil qi not only affected those in the Mysterious Moon Palace, but crucially, as it invaded, even the great array of the immortal sect came under its influence.

This evil qi could suppress Immortal Aura, obstructing its flow. As such, the Immortal Aura maintaining the great array naturally decreased, causing the array to grow dimmer.

Seeing this, Yun Yudie immediately told the other elders, "Maintain the array!"

Upon hearing Yun Yudie's words, the Ling Yin Immortal King and the other elders took action, actively channeling immortal power into the great array to keep it operating.

However, despite their proactive efforts, because the evil qi released by the Blood Demon Immortal King had already infiltrated the Mysterious Moon Palace, now only the Ling Yin Immortal King's immortal power was unaffected by the evil qi, while the others' immortal power was compromised.

As a result, a considerable portion of the immortal power infused into the great array was devoured by the evil qi, leaving almost no effect on the array.

Seeing this, the Blood Demon Immortal King snorted coldly and said, "A futile struggle!"

Then, just as the Blood Demon Immortal King was about to strike again, the array pattern in Lu Chen's hand suddenly expanded rapidly, directly enveloping the entire Mysterious Moon Palace.

The next moment, the space around the Mysterious Moon Palace experienced extensive distortion.

Lu Chen immediately reminded Yun Yudie, "The formation is ready, quickly channel immortal power into it!"

Hearing Lu Chen's words, Yun Yudie's brows furrowed slightly. They needed to actively infuse the great array with immortal power to maintain it. If they channeled immortal power into any other formation now, the great array might shatter in the next moment.

Coming to her senses, Yun Yudie unhesitatingly extracted one-tenth of the Immortal Crystals from the Mysterious Moon Palace. In an instant, the entire cultivation ground was piled into a mountain of Immortal Crystals.

The next moment, the Immortal Aura within these Immortal Crystals was madly absorbed by the Spirit Realm Crossing Array, and the crystals visibly disappeared while the space around the Mysterious Moon Palace became increasingly distorted.

Seeing this, the Blood Demon Immortal King quickly realized that at this rate, the entire Mysterious Moon Palace might vanish. Although he didn't understand what the formation was, it clearly had the terrifying spatial distortion ability to teleport the entire palace away.

The Blood Demon Immortal King's face turned extremely grim. This was the first time he encountered a teleportation array of such magnitude. He then told the Ghostly Evil Immortal King and the Netherworld Immortal King, "Attack with all your might, don't let them activate that formation!"

Upon hearing the Blood Demon Immortal King's words, the Netherworld Immortal King and the Ghostly Evil Immortal King released their Demonic Bodies and then the three of them attacked simultaneously.

In an instant, the barrier of the Mysterious Moon Palace was blasted with an even larger crack, allowing more evil qi to surge in, accelerating the collapse of the great array.

Lu Chen glanced at the Spirit Realm Crossing Array, and a three-dimensional model resembling the entire Tianyan Immortal Domain suddenly appeared in his mind.

As Lu Chen's consciousness focused on this model, it was as if he were hovering above the Spirit Realm Crossing Array.

Lu Chen instantly realized that this was the effect of the Spirit Realm Crossing Array. All he needed to do now was to choose a location, and once enough Immortal Aura had been absorbed, the teleportation could begin immediately.

Lu Chen zoomed in on the Tianyan Immortal Domain and pondered briefly. The Southern Domain was certainly not an option now, but if the teleport distance was too far, more Immortal Aura would be needed. Not to mention whether the Mysterious Moon Palace's Immortal Crystals were sufficient, even if they were, the Spirit Realm Crossing Array needed time to absorb them, and if the adversaries attacked during this time, the teleportation might be interrupted.

So, he should choose a location that's relatively close, yet out of reach of the Southern Domain's powers for the time being.

Soon, Lu Chen's gaze fell on the southwestern corner of the Tianyan Immortal Domain, where a continuous mountain range called the Sunset Mountain Range lay. Beyond the southwest corner was the Western Domain, known to the people of the Tianyan Immortal Domain as the Barbaric Lands. Although the environment in the Western Domain was harsher compared to the Southern Domain, it was a safe haven for them now.

Even if the Southern Domain's forces knew they had been teleported to the Barbaric Lands, they would still have to cross the unending Sunset Mountain Range to attack them.

Most importantly, the distance to the Barbaric Lands was relatively short, so just a little more absorption by the Spirit Realm Crossing Array would suffice to teleport the entire Mysterious Moon Palace there.

With this in mind, Lu Chen immediately chose the northern slope of the Sunset Mountain Range as the teleportation destination.

With the teleportation point selected, it was now just a matter of waiting for the Spirit Realm Crossing Array to absorb enough Immortal Aura to complete the teleportation.

Lu Chen's consciousness returned to reality, and seeing the barrier in the sky on the verge of collapse, he quickly told Yun Yudie, "Everyone, channel your Immortal Aura into the teleportation array. I'll hold off the three of them to buy you time."

As soon as he finished speaking, Lu Chen harnessed the power of the Immortal King's Remain Curse, and the next moment, an Immortal King's pressure emanated from his body.

Upon hearing Lu Chen's words and feeling the Immortal King's pressure from him, almost everyone present froze, except for those who knew Lu Chen's identity.

Especially Ye Chuyao. She could hardly believe that her junior protégé brother was an Immortal King???

Her eyes were filled with confusion. Was this really her junior protégé brother?

While everyone was in a daze, Lu Chen, without hesitation, transformed into a streak of shadow and swiftly flew out of the Mysterious Moon Palace through the crack in the sky barrier.

Seeing the suddenly appearing male Immortal King, the Blood Demon Immortal King and his companions were taken aback.

What was happening?

When did the Mysterious Moon Palace gain a male Immortal King?

At this moment, the Blood Demon Immortal King suddenly recalled that the place where Xu Jingshu disappeared seemed to have the aura of an Immortal King. The one who could silently erase the life-saving techniques he left for Xu Jingshu was most likely an Immortal King, which was why he initially suspected that Xu Jingshu had been captured by Yun Yudie.

Yet the Zuiyue Immortal Monarch insisted Yun Yudie had never apprehended any Evil Immortal.

Now that another Immortal King has appeared in the Mysterious Moon Palace, could it be that this Immortal King took Xu Jingshu, leaving the Zuiyue Immortal Monarch, an elder of the palace, completely unaware?

With a darkened face, the Blood Demon Immortal King asked, "Who are you? I haven't heard of a male Immortal King in the Mysterious Moon Palace."

Lu Chen directly manifested his Dharma Golden Body, smiled, and said, "The one who will kill you all!"

With that, Lu Chen cast his Immortal Law.

Divine Light Thousand Lamp Scripture!!!

The next moment, countless oil lamps appeared in the sky above the Mysterious Moon Palace. Witnessing this, the Ghostly Evil Immortal King's expression changed drastically.

"Not good, this is the Immortal Law I mentioned!!!"

Having children earns benefit, start competing for dominance in the world by marrying a wife

Chapter 1779: Chapter 1469: Why Does This Person Seem Even More Like an Evil Immortal Than Us?

Upon hearing the Ghostly Evil Immortal King's warning, the Blood Demon Immortal King and Netherworld Immortal King were slightly stunned but quickly reacted; their expressions were extremely grave.

Even without the Ghostly Evil Immortal King's reminder, the Blood Demon Immortal King and Netherworld Immortal King already felt the oppressive sensation brought by those oil lamps.

Once those oil lamps illuminated the sky, they felt the flow of evil energy within their bodies slow considerably, and the evil energy permeating the sky was also slowly dissipating.

At this moment, the faces of the three Blood Demon Immortal Kings turned dark, their expressions intensely grave as they gazed at the oil lamps in the sky.

What exactly is this Immortal Law, how does it have such terrifying suppression over evil energy?

No, we absolutely cannot let this Immortal Law fall into others' hands. If other righteous immortals obtained this Immortal Law, there would be no place for evil immortals like us in the Tianyan Immortal Domain.

Thinking of this, the Blood Demon Immortal King immediately said to the Ghostly Evil Immortal King and Netherworld Immortal King, "This person is not easy to deal with, attack with all your might!"

Immediately, the Blood Demon Immortal King took out a Heaven Rank Immortal Artifact, the Ghost King Cauldron, and activated it. Instantly, countless souls of the Golden Immortal level surged from the Ghost King Cauldron.

In an instant, the sky above the Mysterious Moon Palace was filled with Golden Immortal souls, and then these Golden Immortal souls seemed to fuse together,

forming an entity even larger than the Blood Demon Immortal King's demonic body.

Subsequently, the Blood Demon Immortal King activated the Ghost King Cauldron, and the giant formed by the gathered Golden Immortal souls suddenly emitted an aura near the Immortal Venerate level.

Immediately after, that giant swung a palm towards Lu Chen, while the Netherworld Immortal King and Ghostly Evil Immortal King also took action.

Lu Chen immediately exerted his power, and in the next moment, those oil lamps in the sky emitted a bright red glow. Following that, red Immortal Aura was released from the oil lamps, quickly converging to form a red silk that covered the sky.

Subsequently, this red silk descended upon the giant formed by the souls, and the moment the red silk touched the giant, various wails emanated from the red silk. In just a moment, all the evil souls released by the Blood Demon Immortal King turned into wisps of green smoke.

Witnessing this scene, the three Blood Demon Immortal Kings stood dumbfounded in mid-air.

They hadn't yet reacted when the light from those oil lamps in the sky became even brighter; instantly, the entire sky turned blood-red under the radiance of those oil lamps, appearing extremely eerie.

The three Blood Demon Immortal Kings came to their senses at this time, and looked doubtfully at Lu Chen in the distance.

Why does the person in front of them seem more like an evil immortal than they do???

They could clearly feel that the souls just now were absorbed and transformed by the Immortal Technique employed by the opponent, transformed into fuel for those oil lamps, hence the lamps becoming so bright.

At this very moment, seeing this scene, the people of the Mysterious Moon Palace were greatly uplifted. They never expected that their Mysterious Moon Palace was harboring an Immortal King with such terrifying strength, easily blocking the attack from the three Hall Masters of Blood Eagle Hall with one single move.

Yun Yudie was slightly dazed upon witnessing this, thinking, is this the man once lauded as the most talented in the history of the Tianyan Immortal Domain?

Even after going to the Chaotic Sea and suffering the erosion of Chaos Qi, he still possessed such a terrifying strength.

At this moment, Ye Chuyao's mind went completely blank, more confused than ever, wondering what exactly was happening, how her junior disciple suddenly became so formidable?

Could it be her junior disciple had long died, and this was just an Immortal King invited by their Honored Master to impersonate her junior disciple to confuse others?

While Ye Chuyao and the crowd of elders and disciples of the Mysterious Moon Palace were lost in thought, Yun Yudie's voice sounded, "Everyone, immediately infuse immortal power into the Great Array!"

Hearing Yun Yudie's cold words, people snapped back from their shock, and unanimously began infusing immortal power into the Great Array.

Feeling the space around the Mysterious Moon Palace becoming increasingly distorted, the faces of the three Blood Demon Immortal Kings became even more unsightly. At this point, the Blood Demon Immortal King asked, "Who are you, sir, and why are you aiding the Mysterious Moon Palace?"

Lu Chen said indifferently, "You don't need to know that."

The Blood Demon Immortal King sneered, “Do you really think we fear you? You’re alone; how can you withstand the mighty army of our Blood Eagle Hall!”

Immediately, the Blood Demon Immortal King transmitted his voice to the elders and disciples of Blood Eagle Hall, “Everyone come to the Mysterious Moon Palace, use the Blood Moon Formation!”

Upon receiving the Blood Demon Immortal King’s message, in just a moment, numerous warships from Blood Eagle Hall appeared around the Mysterious Moon Palace. When the elders and disciples of Blood Eagle Hall saw those oil lamps in the sky emanating a blood-red glow, they couldn’t help but feel a sense of trepidation.

For a while, the disciples and elders of Blood Eagle Hall fell into panic; they could clearly feel their evil energy being greatly suppressed.

The three Hall Masters of Blood Eagle Hall were Immortal Kings, their evil energy in their bodies relatively abundant, so they could barely resist that suppressive effect.

However, those evil immortals with lower cultivation states had comparatively weaker evil energy in themselves, and with the suppression from the Divine Light Thousand Lamp Scripture, the evil energy they could manipulate became even scarcer.

In no time, the strength of both the elders and disciples of Blood Eagle Hall was significantly diminished.

Seeing the elders and disciples of the Blood Eagle Hall plunged into terror, the Blood Demon Immortal King shouted, “Form the array!”

With the words, the Blood Demon Immortal King took out a fully prepared array plate, with pre-inscribed array patterns, ready to activate the Great Array under specific conditions.

The Blood Moon Formation is the Blood Eagle Hall’s most powerful killing formation; they have relied on this killing formation to solve many troublesome Immortal Kings.

In this killing formation, the enemy’s strength would be greatly diminished, and most importantly, it would affect the enemy’s mind.

As soon as the Blood Demon Immortal King finished speaking, the elders and disciples of Blood Eagle Hall immediately spread out and encircled Lu Chen.

Subsequently, the Blood Demon Immortal King activated the array plate in his hand, and a blood-colored pattern flew out from the array plate, instantly expanding tens of thousands of times to envelop Lu Chen.

At this moment, the Blood Demon Immortal King said, “I admit you are very strong, but unfortunately, no matter how powerful you are, today you will fall here!”

Saying this, the Blood Demon Immortal King shouted again, “Array, activate!”

The next moment, a round blood-red moon appeared in the high sky. The instant this blood moon appeared, the color of the sky turned even redder, into a dark crimson, making the entire sky look extremely eerie and terrifying.

Seeing this, Lu Chen was unconcerned; he found that along with the appearance of this Profound Moon, the light of the oil lamps in the sky also became brighter.

The oil lamps were converting the evil energy into special Immortal Aura, which then flowed into his body, and his cultivation state began to slowly rise.

Feeling the aura on Lu Chen’s body growing stronger and stronger, the Blood Demon Immortal King and others were startled again; they quickly realized that the oil lamps were converting the evil energy into Immortal Aura and channeling it into Lu Chen’s body, causing his strength to increase dramatically.

In other words, the more evil energy, the stronger this person becomes???

Goodness, is he truly the evil immortal, or are we?

A flash of murderous intent crossed the Blood Demon Immortal King's eyes, and he immediately activated the Blood Moon Formation.

They couldn't let this continue; if he absorbed any more evil energy, perhaps soon they really wouldn't be his match.

Having children earns benefit, start competing for dominance in the world by marrying a wife

After the Blood Demon Immortal King activated the Blood Moon Formation, it seemed that a series of oppressive forces appeared within that blood moon. For a moment, even the people from the Mysterious Moon Palace were affected by this pressure, their vision seemingly starting to distort as countless monsters with tentacles appeared before their eyes.

At this moment, the fears within the hearts of those mentally weak in the Mysterious Moon Palace were instantly magnified. They believed these monsters were real and began to attack the monsters in front of them. However, these monsters did not actually exist and were merely the other disciples of the Mysterious Moon Palace.

For a time, the disciples of the Mysterious Moon Palace began to slaughter each other.

Upon realizing this, Yun Yudie snorted coldly, and then a terrifying cold aura emanated from her. In a short moment, the entire Mysterious Moon Palace was frozen, and the disciples who were originally engaging in mutual slaughter were also frozen, unable to move.

Though this temporarily stopped the mutual harm among the disciples of the Mysterious Moon Palace, if it continued, even the Elders might be affected. Even Yun Yudie was beginning to see hallucinations before her eyes.

Lu Chen felt the oppressive force released by that blood moon and immediately took out the Immortal Slaying Sword. Gathering all the Immortal Aura in his body, he struck out with a sword.

Green Fall Cyan Dragon Roar!!!

A giant blood-red dragon flew directly towards the enormous red moon in the sky. Sensing the oppression of Lu Chen's sword, the three Blood Demon Immortal King members' faces changed drastically, realizing this sword strike was no weaker than an attack from an Immortal Venerate.

How can it be this powerful!

Originally, Lu Chen's strength was not this formidable, but the Evil Qi around was too thick. After the oil lamps of the Divine Light Thousand Lamp Scripture absorbed the Evil Qi from the air, it not only further suppressed the Evil Qi but also transformed a large amount of it into Lu Chen's power, making him even mightier.

Lu Chen's sword qi, transforming into a dragon, fiercely crashed into the blood moon in the sky, and immediately the space began to shatter like glass.

The Netherworld Immortal King shouted out, "No, the space lock is about to be broken!"

The Blood Demon Immortal King and his companions had to abandon maintaining the Blood Moon Formation to reinforce the space lock. If the space lock was broken, the people of the Mysterious Moon Palace wouldn't have to wait for the formation they were constructing to fully form; they could directly use the original Transmission Array to escape the Mysterious Moon Palace.

Meanwhile.

Bihai Immortal City.

Seeing the empty Immortal City before them, the late-arriving Chiyan Immortal King and Lu Jing frowned. The Blood Eagle Hall initiated the attack before them, so the good things in the Mysterious Moon Palace might have already been plundered by the Blood Eagle Hall.

At this moment, the enormous blood moon in the sky caught the attention of Lu Jing and the Chiyan Immortal King.

The two were delighted, as it seemed like the Blood Eagle Hall and the Mysterious Moon Palace were still in fierce combat. The Mysterious Moon Palace hadn't yet been defeated. If they rushed over now, they might still get a share of the spoils.

Thinking of this, Lu Jing and the Chiyan Immortal King immediately ordered the army to commence a full-scale attack.

Shortly thereafter, the warships of the Tianxia Immortal Dynasty and the Chiyan Sect rose into the sky, surrounding the entire Mysterious Moon Palace. However, because the Evil Qi above the Mysterious Moon Palace was too thick, they dared not approach too closely, maintaining a considerable distance from the Mysterious Moon Palace with their warships.

Seeing the thick black energy in the sky, the Chiyan Immortal King discontentedly said to Guihai Immortal Monarch, "Special Envoy, the Blood Eagle Hall has released so much Evil Qi that we can't get close. It's clear they want to monopolize the treasures of the Mysterious Moon Palace."

Guihai Immortal Monarch naturally understood what the Chiyan Immortal King meant. The Chiyan Immortal King wanted the envoy to pressure the Blood Eagle Hall so that the Chiyan Sect could get closer to the Mysterious Moon Palace.

But Guihai Immortal Monarch was no fool. Their relationship with the Blood Eagle Hall wasn't good to begin with, and if it weren't for the higher-ups wanting to exterminate the Mysterious Moon Palace, they wouldn't have chosen to collaborate with the Evil Immortal Sect of the Blood Eagle Hall.

This group of Evil Immortals was selfish and ruthless; he didn't believe that in the face of immense benefits, these Evil Immortals would recognize him as the envoy.

If he rashly went in front of the Blood Eagle Hall's Hall Masters to say something, he might instantly become a corpse.

Moreover, for him, as long as the Mysterious Moon Palace was destroyed, his mission would be complete. He didn't care how many treasures the Blood Eagle Hall would seize from the Mysterious Moon Palace.

Guihai Immortal Monarch then said to the Chiyan Immortal King, "If you want treasures from the Mysterious Moon Palace, take them yourself. Don't tell me."

Upon hearing Guihai Immortal Monarch's words, the Chiyan Immortal King and Lu Jing immediately furrowed their brows. If even the special envoy from the

Heavenly Splendor Hall didn't dare to speak to the Blood Eagle Hall, why would they dare to rush in?

At this moment, the Chiyan Immortal King suddenly noticed the oil lamps in the sky frantically absorbing Evil Qi. Initially, they thought these oil lamps were also released by the Blood Eagle Hall, but now they see that the lamps probably have nothing to do with the Blood Eagle Hall.

At this moment, a loud dragon roar echoed in the sky, and in the next moment, they saw a blood-red giant dragon charge towards the blood moon in the sky.

The clash between the blood dragon and the blood moon resulted in a violent explosion, and in an instant, the Blood Moon Formation of the Blood Eagle Hall was broken, restoring some clarity to the sky.

However, the entire sky remained blood-red, though it was brighter than before. At this moment, Lu Jing stood dumbfounded on the warship's deck, his pupils contracting sharply, and his mind went blank.

With the light becoming adequate, Lu Jing could also clearly see Lu Chen's appearance.

Although it had been billions of years, Lu Jing still remembered what Lu Chen looked like, and moreover, he had recently read memories of people who had been to the Land of Chaos, so Lu Chen's features were still familiar to him.

Lu Jing muttered to himself, "How... how is this possible..."

"Wasn't he dead???!!!"

Feeling the Immortal King pressure emanating from Lu Chen, Lu Jing panicked.

Although he had eliminated all the Princes of the Tianxia Immortal Dynasty who had the potential to become Immortal Emperor, even now, many people still didn't acknowledge him. If the people of Tianxia Immortal Dynasty learned that Lu Chen was still alive and that his cultivation state remained in the Immortal King Realm, some might entertain other thoughts.

Thinking of this, Lu Jing quickly calmed his emotions. With the envoy from Heavenly Splendor Hall here, he couldn't panic, nor did he need to. After all, the Heavenly Splendor Hall had also participated in the battlefield against Lu Chen back in the day, and they even sent an Immortal Venerate.

Therefore, the Heavenly Splendor Hall would never allow Lu Chen to be alive, let alone allow him to return to the Tianxia Immortal Dynasty to become the Immortal Emperor!

Yet, just as he thought this, another possibility popped into his mind. What if Lu Chen chose to join the Heavenly Splendor Hall?

He still remembered that the reason Heavenly Splendor Hall had sent an Immortal Venerate back then was mainly because Lu Chen refused to join them.

If Lu Chen, returning this time, was willing to join Heavenly Splendor Hall and willingly share some secrets of the Chaotic Sea, would they choose to spare Lu Chen and even support him in becoming the new Immortal Emperor of the Tianxia Immortal Dynasty?

While Lu Jing was lost in thought, the Chiyan Immortal King and Guihai Immortal Monarch also noticed his abnormality.

Seeing the terrified expression on Lu Jing's face, Guihai Immortal Monarch curiously asked, "What's wrong?"
