

# Having children earns benefit, start competing for dominance in the world by marrying a wife

As Lu Chen had guessed, when he tried to communicate with the Heavenly Dao, he indeed found that the Qi Fortune was insufficient, and the Heavenly Dao did not respond.

However, at this moment, strands of Immortal Sect Qi Fortune flowed toward the Great Qin Dynasty, and with these Immortal Sect Qi Fortune enhancing it, the Qi Fortune of the Great Qin Dynasty changed from purple to colorful.

At the same time, thick dark clouds appeared over the Imperial Capital of the Great Qin Dynasty, with Heavenly Thunder rolling within them.

Though his eyes were closed, Lu Chen could sense the situation in the sky at this moment. He was somewhat puzzled; clearly, the Qi Fortune had changed, yet he still couldn't communicate with the Heavenly Dao.

Instead, the celestial phenomena seemed as if the Heavenly Dao was opposing the rise of the Great Qin Dynasty to an Immortal Dynasty.

Just as Lu Chen thought the establishment of the Immortal Dynasty was going to fail, he suddenly sensed the dark clouds in the sky beginning to disperse, and the entire sky emitted a colorful glow.

This...

The next moment, Lu Chen felt the Immortal Dynasty's Qi Fortune pour into his body, and his Cultivation State instantly broke through to the Golden Immortal Realm, reaching the peak of the Golden Immortal Realm, just one step away from breaking into the Immortal Monarch Realm.

Lu Chen felt a surge of joy in his heart, never expecting it would succeed when he initially thought it would fail.

However, the dark clouds from earlier were indeed strange; judging by the momentum at that time, there should have been a Heavenly Tribulation descending, yet it never came.

Perhaps some unknown reason occurred.

Lu Chen didn't think much on it; after all, the Immortal Dynasty had already been established. As long as it continued to expand and increase its Qi Fortune, his cultivation speed could also accelerate.

With the emergence of the Immortal Dynasty's Qi Fortune, the cultivation and power of the people beneath the altar improved to varying degrees. The people immediately realized that the Daqin Immortal Dynasty had gained recognition from the Heavenly Dao, and they promptly said in unison to Lu Chen below the altar, "Greet the Immortal Emperor! The Great Qin persists eternally! Your Majesty lives forever!"

In this way, the Daqin Immortal Dynasty was officially established.

Meanwhile.

Mysterious Moon Palace, Ice Palace.

Yun Yudie, drowsy, suddenly felt the Immortal Sect's Qi Fortune of the Mysterious Moon Palace rise significantly, bringing her to full alertness.

As her consciousness returned to her body, she realized that Lu Chen, this scoundrel, was still ceaselessly committing mischief, her face instantly showing a trace of coldness.

This bastard sure treats her as some wanton person.

However, Yun Yudie didn't focus too much on these matters for now; her attention was drawn to the suddenly increased Immortal Sect Qi Fortune.

After some investigation, she discovered this surplus Immortal Sect Qi Fortune actually came from the Daqin Immortal Dynasty. At this moment, the Daqin Immortal Dynasty and the Mysterious Moon Palace were almost bound together. After the establishment of the Daqin Immortal Dynasty, its Qi Fortune surged, and the excess parts flowed toward the Mysterious Moon Palace.

The appearance of this Qi Fortune flow indicated that the Daqin Immortal Dynasty's Qi Fortune far exceeded that of the Mysterious Moon Palace.

Yun Yudie wasn't too surprised by this; after all, Lu Chen naturally possessed thick Qi Fortune, so his creation of a dynasty with abundant Qi Fortune was quite normal.

But now that the Daqin Immortal Dynasty's Qi Fortune flowed toward the Mysterious Moon Palace, the future ties between the Daqin Immortal Dynasty and Mysterious Moon Palace would mean mutual prosperity and loss.

Yun Yudie was a bit irritated; she knew this scoundrel was scheming for this outcome, and to her chagrin, he ultimately succeeded.

At this time, Lu Chen also noticed Yun Yudie's gaze; he propped himself up, observing Yun Yudie's cold pupils, "Honored Master, why not continue to exert

energy?"

Yun Yudie said coldly, "You've succeeded in your plot, you may leave."

Lu Chen chuckled, "Honored Master doesn't need to be in such a hurry."

Yun Yudie's face remained cold as she said, "It's enough for today." Seeing Yun Yudie's determination to send him away, Lu Chen could only say, "Alright then."

As he finished speaking, Lu Chen prepared to withdraw, but just as he was about to rise, Yun Yudie suddenly said, "Wait."

Lu Chen looked at Yun Yudie's cold eyes with a puzzled expression, "What's

wrong?"

Yun Yudie was silent for a moment, then said, "Con... continue..."

In her heart, Yun Yudie thought that since he had succeeded, she should gain more benefits from him; otherwise, she would suffer a great loss.

Her affinity with the Slaughter Path was growing higher and she was able to harness more Power of Slaughter; if cultivation continued like this, it might not be long before she fully mastered the Power of Slaughter.

Upon hearing Yun Yudie's words, Lu Chen's mouth turned slightly upward into a smile, and then he said, "Well... maybe it's better to call it off; Honored Master indeed needs to rest."

Yun Yudie's brows furrowed slightly, and a cold gleam radiated from her icy eyes; she had agreed to let him continue, yet this guy was now refusing.

Yun Yudie wasn't foolish; Lu Chen's current attitude didn't seem genuine in wanting to leave; his words were clearly disrespectful.

It sounded as if he was saying, "Did you not tell me to leave? Why want me to continue now? If you want me to continue, then you have to ask. Seeing Yun Yudie's cold stare, Lu Chen continued to act as if he was leaving, "The Daqin Immortal Dynasty has just been established, and there are many matters to handle; I will take my leave first."

Just as Lu Chen was about to get up, Yun Yudie suddenly released Immortal Venerate pressure, directly pinning Lu Chen down, and her jade-like arms encircled Lu Chen's sturdy waist as she simultaneously invoked 'Life is like a

dream!

With a cold snort in her mind, Yun Yudie thought to herself how tired she was of playing this game of 'flirting while retreating'; she couldn't be bothered to bicker further with him, thinking after all, she was Immortal Venerate, and effortless control over him was within reach.

Seeing Yun Yudie's active approach, Lu Chen didn't hold back and likewise began to channel the Spirit Charm Harmony Scripture.

At the same time.

Barbaric, within a small world.

A waning blood moon hung over the sky of this small world, with the entire world stained in blood, creating a particularly oppressive atmosphere. However, beneath the blood moon was a world brimming with vitality; the small world had complete Laws. Within this small world, there were many Immortal Cities, each city had an Immortal King presiding.

At this moment, above a bustling Immortal City, a white-haired man suddenly opened his eyes, and the next moment, an Immortal Monarch appeared beside

him.

The Immortal Monarch respectfully said, "City Lord, the Thunder Serpent Sect has been annihilated."

Upon hearing this, the Frost Moon Immortal King was indifferent; it was just an ordinary sect, extinguished as it was extinguished.

However, with the Thunder Serpent Sect possessing an Immortal King, the force able to annihilate the Thunder Serpent Sect undoubtedly also had an Immortal King, prompting the Frost Moon Immortal King to ask, "Which sect

did it?"

The Thunder Serpent Sect had previously been investigating their Hidden

Moon Sect's matters, something naturally not hidden from the Hidden Moon Sect; however, the Hidden Moon Sect wouldn't immediately expose themselves merely because a sect wanted to join.

Yet the Hidden Moon Sect had already put the Thunder Serpent Sect on the examination list. Had the Thunder Serpent Sect passed the examination, they would have had the chance to join the Hidden Moon Sect, but now it was wiped out, clearly failing the examination.

The Immortal Monarch before the Frost Moon Immortal King didn't speak, instead taking out a Jade Scroll from his Space Ring.

The Frost Moon Immortal King drew the Jade Scroll into his hand from a distance and read the information within.

## **Having children earns benefit, start competing for dominance in the world by marrying a wife**

After reading the intelligence on the jade scroll, the Frost Moon Immortal King furrowed his brow slightly.

The Great Qin Immortal Dynasty?

Not long ago, a Mysterious Moon Palace inexplicably appeared in the Barbaric Realm, and now a Great Qin Immortal Dynasty has emerged. Moreover, the Immortal Dynasty Master of this Great Qin Immortal Dynasty turns out to be an Immortal King wielding the Power of Slaughter?

An Immortal King who proves his path through slaughter doesn't venture to densely populated realms or to the Northern Domain, where large-scale warfare is imminent, but instead chooses to establish an Immortal Dynasty in the Barbaric Realm-what's the purpose?

Could it be that some Super Force has uncovered certain secrets of the Barbaric Realm and planted a pawn here?

The Frost Moon Immortal King pondered for a moment. The intelligence in this jade scroll suggests that the Great Qin Immortal Dynasty seems to have an unusual relationship with the Mysterious Moon Palace.

Perhaps both the Great Qin Immortal Dynasty and the Mysterious Moon Palace are pawns planted by some Super Force into the Barbaric Realm.

The Frost Moon Immortal King pondered for a moment, then said to the Immortal Monarch in front of him, "Find a way to uncover the background of the Great Qin Immortal Dynasty and the Mysterious Moon Palace. Until we determine which Super Force is behind them, do not expose the existence of our sect."

"Yes, City Lord." The Immortal Monarch responded, suddenly thought of something, and then asked, "City Lord, should we report this matter to the Sect Hierarchy?"

The Frost Moon Immortal King replied indifferently, "Until we determine whose pawns these two forces are, there's no need to inform the Sect Hierarchy for the time being."

There are quite a few pawns from other forces planted in the Barbaric Realm. If we have to report to the Sect Hierarchy every time we discover an external force, then there would be no need for the Sect Hierarchy to cultivate.

"Understood, subordinate comprehends." With that, the Immortal Monarch promptly left.

After the Immortal Monarch left, the Frost Moon Immortal King looked towards the exit of the small world and muttered to himself, "Soon, the Tianyan Immortal Domain will become chaotic. The more chaotic, the better..."

In the blink of an eye, twenty years have passed.

During these twenty years, news continuously arrived from the Northern Domain about the Demon Emperor's push southward. The power of the "Demon Emperor" has grown increasingly large, and the Super Forces of the Tianyan Immortal

Domain could no longer remain idle, dispatching armies northward, intending to besiege the "Demon Emperor."

The north witnessed one great war after another, and several Immortal Kings even fell in these battles.

Lu Chen, although attentive to the war occurring in the Northern Domain, had no intention of intervening.

Even though Xuan Qingyun also meets the system's criteria, his current strength isn't sufficient to take her down. He prefers to proceed slowly, suggesting Yun Yudie and the others bear children first.

Under Lu Chen's administration, the Great Qin Immortal Dynasty has gained some reputation in the Barbaric Realm, and Lu Chen now has a deeper understanding of the Barbaric Realm.

During these twenty years, Lu Chen heard a lot about the Hidden Moon Sect, which made him increasingly curious about this organization.

Rumor has it that the Hidden Moon Sect possesses an Immortal Venerate. If the rumored Hidden Moon Sect truly exists, it is undoubtedly a Super Force in the Barbaric Realm, similar to the Heavenly Splendor Hall in the Southern Domain. Yet, such a powerful Super Force remains hidden, which is most peculiar. Ordinarily, Super Forces would intimidate weaker nearby forces. Super Forces as

low-profile as the Hidden Moon Sect are rare, and this prompts Lu Chen to doubt the existence of the Hidden Moon Sect.

The Great Qin Immortal Dynasty, Imperial Capital.

Imperial Study Room.

Lu Chen sat at his desk made of Xianjin, using immortal power to activate one jade scroll after another, reading the intelligence within regarding the Hidden Moon Sect.

At this moment, Lu Chen suddenly thought of something and immediately transmitted a message to the Thunder Serpent Immortal King.

In a short while, the Thunder Serpent Immortal King appeared within the study. "Greetings, Your Majesty! I wonder what Your Majesty needs me for?"

Lu Chen directly spoke, "Thunder Serpent Immortal King should have heard of the Hidden Moon Sect, right?"

Hearing this, the Thunder Serpent Immortal King paused for a moment. He thought deeper, sensing that the Immortal Emperor brought up the Hidden Moon Sect for a reason. Was it because the emperor discovered that the Thunder Serpent

Sect had long been seeking the Hidden Moon Sect, trying to join them-was this a warning for himself?

Seeing Thunder Serpent Immortal King hadn't answered immediately, Lu Chen continued, "Thunder Serpent Immortal King need not overthink. I am simply interested in this rumored Super Force in the Barbaric Realm."

The Thunder Serpent Immortal King directly responded, "To be frank with Your Majesty, initially, I worried that the Mysterious Moon Palace might attack the Thunder Serpent Sect, hence the idea of joining the Hidden Moon Sect. However, those I dispatched never found the Hidden Moon Sect, as if it was merely a rumor and didn't actually exist."

Lu Chen sought out the Thunder Serpent Immortal King precisely because, during his investigation of the Hidden Moon Sect, he discovered that the Thunder Serpent Sect had previously been searching for the Hidden Moon Sect. He wanted to see if the Thunder Serpent Immortal King had more intelligence on the Hidden Moon Sect.

Yet it seems the Hidden Moon Sect isn't easy to locate.

Lu Chen thought to himself that erasing all traces of one's existence suggests

that the Hidden Moon Sect has a terrifying level of control over the entire

Barbaric Realm.

The Thunder Serpent Immortal King then tested cautiously, "Your Majesty, is your inquiry into the Hidden Moon Sect because they have already infiltrated the Great Qin Immortal Dynasty?"

Lu Chen came back to reality and said nonchalantly, "I am merely curious. However, whether the Hidden Moon Sect has infiltrated the Great Qin

Immortal Dynasty remains uncertain."

The Hidden Moon Sect is so well concealed that perhaps they've long infiltrated the Great Qin Immortal Dynasty without their knowledge. However, the Hidden Moon Sect's ability to hide so deeply suggests they possess something or magic that can shield against Soul Search. Otherwise, if even one member of the Hidden Moon Sect were caught by another force, the Hidden Moon Sect would have been exposed to the world, yet it remains only a rumor to this day.

Of course, Lu Chen wasn't worried about this. If anyone around him joined the Hidden Moon Sect, he could immediately detect it without using Soul Search, given his system includes the ability to identify such changes.

The Thunder Serpent Immortal King then added, "Your Majesty, if the rumored Hidden Moon Sect truly exists, then while Your Majesty is investigating them, the Hidden Moon Sect may already be aware that the Great Qin Immortal Dynasty is looking for them. The Hidden Moon Sect is a Super Force, and no one knows their stance towards the Great Qin Immortal Dynasty. Your Majesty should tread carefully."

Lu Chen pondered; indeed, if the rumored Hidden Moon Sect is truly the Barbaric Realm's Super Force, secretly controlling the entire domain, they couldn't possibly be unaware of the Great Qin Immortal Dynasty.

Both the Mysterious Moon Palace and the Great Qin Immortal Dynasty are external forces; if he continues probing into the Hidden Moon Sect, it might make them suspect ulterior motives.

Lu Chen inquired, "Has the Thunder Serpent Immortal King collected much intelligence on the Hidden Moon Sect?"

The Thunder Serpent Immortal King immediately understood Lu Chen's intent, promptly gathering all intelligence he had on the Hidden Moon Sect into a Memory Pearl and presented it to Lu Chen.

The Thunder Serpent Immortal King stated, "If there's nothing else, your Majesty, I'll take my leave."

Lu Chen acknowledged with a "Hmm."

The Thunder Serpent Immortal King then bowed, and subsequently, his body

vanished from the location.

After the Thunder Serpent Immortal King departed, Lu Chen organized the

information he had just obtained from the Thunder Serpent Immortal King about the Hidden Moon Sect.

If those pieces of intelligence are true, then several forces in the Barbaric

Realm should belong to the Hidden Moon Sect. As long as he sends out a few clones to scout, he will eventually encounter people from the Hidden Moon Sect, thus eliminating the need to continue investigating on the matter. Being too conspicuous in investigating the Hidden Moon Sect, however, might attract their attention.

# Having children earns benefit, start competing for dominance in the world by marrying a wife

Lu Chen, after sorting out the intelligence from the Hidden Moon Sect, focused his attention back on Yun Yudie. At this moment, Yun Yudie was no longer employing the illusion of Life is like a dream.

Having cultivated for twenty years, constantly using the illusion made Yun Yudie somewhat indistinguishable between reality and dream. To avoid losing herself in the dream, Yun Yudie had to stop operating Life is like a dream.

However, even if she ceased the illusion, the feeling brought by Lu Chen's cultivation of the Spirit Charm Harmony Scripture still made Yun Yudie struggle to control herself.

By now, Yun Yudie fully understood why Yun Qingshu had been deceived by this scoundrel back then. She believed Yun Qingshu initially had no so-called affection for this rogue.

Perhaps, like herself, she was at first driven by the motive of cultivation, to enhance her strength, and as the dual cultivation with Lu Chen increased, she became more and more unable to extricate herself.

All of this was a plot by this scoundrel. Thinking of this made the Cold Fairy's face show a hint of struggle.

Now that she and Lu Chen had come to this extent, it was probably impossible for her to break away from him, which means she followed in her elder sister's footsteps.

At this moment, Lu Chen seemed to sense something, knelt, straightened up, and gazed at Yun Yudie's icy jade visage.

Seeing Yun Yudie's slightly furrowed brows, icy cheeks tinged with a slight blush, showing a hint of unwillingness, Lu Chen smiled and said, "What kind of expression is this from the Honored Master?"

"In just under twenty years, your understanding of the Slaughter Path has deepened, and the mastery over the Power of Slaughter has become more abundant. How come it seems you're not happy, who's making you unhappy?"

Yun Yudie coldly watched Lu Chen's arrogant demeanor, perceiving his words as akin to a victor's declaration in her heart.

Thinking about this rogue's future occasional humiliation, Yun Yudie felt extremely uncomfortable. She had to find a way to stop such feelings.

Seeing Yun Yudie merely staring at him without speaking, Lu Chen continued, "Could it be that the disciple's divided cultivation is making the Honored Master unhappy?"

"If that's the case, then over the next ten years, I will devote all my energy to the Honored Master, helping you quickly and thoroughly comprehend the Slaughter Path."

Yun Yudie couldn't hold back any longer, directly saying coldly, "Enough!"

"Do you think this way you can humiliate I?"

Lu Chen said, "What does Honored Master mean by this? When did the disciple ever humiliate the Honored Master?"

Yun Yudie coldly said, "If you don't want to continue, you can leave now," Lu Chen thought to himself, that would not do, he hadn't yet entrapped her, leaving now would mean all efforts were for nothing.

Yun Yudie, now in the Immortal Venerable Realm, had strength far surpassing his own. He required her consent to engage in dual cultivation, and Yun Yudie likely agreed to dual cultivation for the Slaughter Path. Once she thoroughly

comprehended the Slaughter Path, she might not allow contact anymore, so this opportunity must be seized to impregnate her.

However, Lu Chen knew well that to impregnate an Immortal Venerate was as challenging as an Immortal King breaking through to Immortal Venerate.

Lu Chen then said, "I never said such a thing."

Lu Chen did not continue to provoke Yun Yudie. He thought about the matters of the Hidden Moon Sect and then said to Yun Yudie, "I wonder if Honored Master has ever heard of the Hidden Moon Sect?"

Seeing Lu Chen suddenly switch topics, Yun Yudie was momentarily stunned, but soon she reacted and then counterasked, "Why do you ask this?"

Lu Chen said, "Recently, I've been investigating the Hidden Moon Sect. I discovered that if this Hidden Moon Sect indeed exists, then it must be a Super Force in the Barbaric lands. Honored Master, having reached the Immortal Venerable Realm, it might not be long before we make contact with the Hidden Moon Sect."

Yun Yudie said, "I have heard some legends about the Hidden Moon Sect. Although I do not know if the Hidden Moon Sect truly exists, since the day of my breakthrough, I have felt many auras no weaker than my own. The Barbaric lands aren't as simple as we initially thought."

They at the Mysterious Moon Palace assumed that in the Barbaric lands, Immortal Aura would be thin, the land vast and sparsely populated, unlikely to host any Super Forces.

Yet now it seems, the Barbaric isn't devoid of Super Forces, rather, they have all hidden themselves.

Lu Chen said, "Then it appears we must prepare beforehand for contact with these forces."

Upon hearing this, Yun Yudie pondered for a moment. She wondered, having surpassed Immortal Venerate for decades, no Immortal Venerate has ever visited nor released intimidating auras toward herself, proving those Immortal Venerates do not care about an additional Mysterious Moon Palace in the Barbaric.

Certainly, provided the Barbaric doesn't continue to expand; if it expands, those Immortal Venerates might no longer sit idle.

However, that the Mysterious Moon Palace doesn't expand doesn't mean the Daqin Immortal Dynasty won't, Yun Yudie vaguely sensed Lu Chen's ambition.

The Great Qin has an overly strong Qi Fortune, and yet the Daqin Immortal Dynasty currently owns only so little territory. Such a small realm and populace usually embark on a path of expansion.

The Qi Fortune of an Immortal Dynasty possesses a certain prescience; however weak they initially appear, should the Qi Fortune be strong, their potential for development is vast.

An Immortal Dynasty's growth is tied to its territory, number of Immortals, and strength. With Daqin's current small force, they are unworthy of such intense Qi Fortune, hence Lu Chen's future actions can be anticipated.

Thinking about how Mysterious Moon Palace and Daqin Immortal Dynasty are thoroughly connected, any incident affecting Daqin would also impact Mysterious Moon Palace, Yun Yudie felt dissatisfied.

This scoundrel originally said to merely borrow some Qi Fortune, ending up borrowing the entire Mysterious Moon Palace into it.

Yun Yudie doubted whether she'd tread Yun Qingshu's old path; maybe someday all top forces would besiege Lu Chen, causing her to flee to the

Chaotic Sea with him...

Upon reaching this thought, Yun Yudie increasingly wanted to become stronger.

Now, having just reached Immortal Venerate not long ago, breaking through to Immortal Emperor shortly is utterly impossible. The entire Tianyan Immortal Domain has only the "Demon Emperor" as the sole apparent Immortal Emperor, demonstrating how difficult achieving Immortal Emperor is.

If vertical enhancement of strength through cultivation is not feasible, employing other means to boost strength horizontally is required, like mastering the Power of Slaughter or other Dao forces.

Yet, mastering other Dao forces necessitates continual dual cultivation with Lu Chen; otherwise, she cannot comprehend those Dao nor control those Dao forces.

Thinking about being dignified as an Immortal Venerate, to be toyed with by Lu Chen, filled Yun Yudie with immense humiliation.

Yun Yudie coldly asked at this moment, "When do you plan to expand outwardly?"

## **Having children earns benefit, start competing for dominance in the world by marrying a wife**

Yun Yudie knew that the Daqin Immortal Dynasty was bound to expand outward; it was only a matter of time.

Hearing Yun Yudie's question, Lu Chen smiled and asked back, "Honored

Master, how do you know that I will expand outward?"

Yun Yudie said expressionlessly, "The current strength of the Daqin Immortal Dynasty is undeserving of such abundant Qi Fortune."

It must be understood that the Mysterious Moon Palace has her as an Immortal Venerate, and since the Mysterious Moon Palace arrived in the Barbaric, it has already established a foothold. However, when the Daqin Immortal Dynasty was just founded, its Qi Fortune was so abundant that there was leftover Qi Fortune flowing towards the Mysterious Moon Palace.

An immortal dynasty without even an Immortal Venerate, yet its Qi Fortune is thicker than an Immortal Sect with an Immortal Venerate. The terrifying potential for future development of such an immortal dynasty is beyond imagination.

Development implies expansion, and expansion implies war. Yun Yudie now only wants to become strong enough before Lu Chen starts causing trouble. Now she is completely tied to this rascal; wanting to shake him off is already impossible. Just the significant karma of Lu Chen helping her break through to the Immortal Venerate Realm ensures that if Lu Chen finds himself in trouble, she has to intervene.

Not to mention this rascal has completely bound the Qi Fortune of the Mysterious Moon Palace and the Daqin Immortal Dynasty together. Whether for the Mysterious Moon Palace or for herself, she must help Lu Chen.

Most importantly, she vaguely feels she may already be unable to leave Lu Chen. The feeling of rapid power enhancement that Lu Chen brings her deeply captivates her.

Every time Lu Chen engages in dual cultivation with her, her strength improves quickly, making her feel that as long as she dual cultivates with Lu Chen, her

strength can increase. Thus, even if dual cultivation with Lu Chen does not enhance her strength, she internally still desires to dual cultivate with him.

In these twenty years, Lu Chen was not always operating the Spirit Charm Harmony Scripture. To extend the time for dual cultivation, Lu Chen could only delay Yun Yudie's mastery of the Slaughter Path, so every now and then, he would stop operating the Spirit Charm Harmony Scripture.

But even when he stopped operating the Spirit Charm Harmony Scripture, Yun Yudie, due to her habit of long-term dual cultivation, would still feel a connection to him, and she still felt she was engaging in dual cultivation.

Yun Yudie is not a fool. She has already sensed something internally, only unwilling to admit it. As an Immortal Venerate, being obsessed with matters between men and women is a humiliation to her.

Lu Chen said at this point, "The Daqin Immortal Dynasty will indeed expand outward, but not now."

He is currently only at the cultivation state of a Golden Immortal, and although he has Yun Yudie behind him, and believes that Yun Yudie would undoubtedly intervene if he faced any trouble, he prefers solving some issues with his own strength rather than relying on others.

Lu Chen smiled slightly at this moment, gazing into Yun Yudie's icy-blue, gem-like eyes, "Honored Master, if one day I encounter danger, would you help me?"

Yun Yudie responded coldly without a second thought, "No."

Upon hearing Yun Yudie's response, Lu Chen wasn't surprised at all. After answering, Yun Yudie's body tensed for a moment, and given their current intimate state, Lu Chen instantly sensed it. Clearly, Yun Yudie was lying.

Lu Chen smiled, realizing that even the icy beauty would become nervous when lying these days.

Lu Chen said, "If I die, Honored Master can no longer experience the sensation of rapidly increased strength, nor see Qingshu."

Yun Yudie coldly gazed at Lu Chen, then released the pressure of her Immortal Venerate state, bending Lu Chen's body over, and her jade arms wrapped around Lu Chen's strong waist, pressing him down onto her.

This rascal should just focus on cultivation; where does he get so much nonsense from? She then once again operated Life is like a dream.

As Yun Yudie operated Life is like a dream, their consciousness once again appeared in the dreamlike sea of flowers, and the direct touch of their consciousness immediately silenced Lu Chen.

Heavenly Splendor Hall.

Qingyun Palace.

Qingyun Immortal King looked at the Jade Scroll in his hand, his brows furrowed, and he wore a very ugly expression.

"How is there not a bit of news..."

In order to find the Mysterious Moon Palace and Lu Chen, they dispatched a large number of disciples to Central Domain and Eastern Domain, only to still have no results.

Although the Mysterious Moon Palace is just a small Immortal Sect, the entire Mysterious Moon Palace is so grand that wherever it appears, it blots out the sky. So as long as the Mysterious Moon Palace appears in either the Eastern or Central Domain, there should be news about the Mysterious Moon Palace. Qingyun Immortal King thought to himself, surely they wouldn't have gone to the Barbaric?

Thinking of this, Qingyun Immortal King immediately dismissed the idea; no one would go there, that barren wasteland. The Mysterious Moon Palace shouldn't be that foolish.

He thought, perhaps it's because the Central Domain and Eastern Domain are too vast, and with Super Forces existing in these domains, making it inconvenient for Heavenly Splendor Hall's disciples to operate, they hadn't found any information about the Mysterious Moon Palace.

However, if the Mysterious Moon Palace remains undiscovered, Wuya Immortal Venerable might get angry.

While contemplating whether to send more disciples into the two domains, Qingyun Immortal King's vision suddenly went dark. When light returned, he found himself in Wuya Immortal Venerable's sleeping palace.

Seeing the over a hundred zhang tall Wuya Immortal Venerable, Qingyun Immortal King instantly panicked and hurriedly paid his respects, "Greetings,

Honorable One. I wonder what commands you have?"

Wuya Immortal Venerable asked indifferently, "Still no news of the Mysterious

Moon Palace to this day?"

Qingyun Immortal King immediately broke into a cold sweat and quickly

replied, "We have sent over ten thousand disciples to the Central and Eastern Domains, and believe that news will come soon."

Wuya Immortal Venerable huffed coldly, "What a bunch of useless people."

After this reprimand, Wuya Immortal Venerable did not further trouble Qingyun Immortal King, and the next moment, Qingyun Immortal King was

sent back.

Once Qingyun Immortal King was sent back, Wuya Immortal Venerable muttered, "Seems like to find Lu Chen, I'll need to enlist the help of other

domains."

Originally, Wuya Immortal Venerable intended to hoard Lu Chen's secret alone. However, as the situation in the Northern Domain worsens and Demon Emperor's Nine Heavens Institute rapidly expands, it might not take long before Nine Heavens Institute occupies the entire Northern Domain. Wuya Immortal Venerable thought that the power Lu Chen exerts could suppress the Evil Immortal King, and perhaps also the Heavenly Demon Army. After all, Heavenly Demon Power is considered a superior force to Evil Qi.

Wuya Immortal Venerable soon penned a letter to the Super Forces of the Central and Eastern Domains, hoping they could assist in locating Lu Chen, and mentioned in the letter that Lu Chen's power could suppress Evil Qi.

He believed that once the Super Forces of Central and Eastern domains learned this news, they would certainly be keenly interested in the secrets surrounding

Lu Chen's power.

Mysterious Moon Palace.

Yun Meng Hall.

Immortal Venerable Yun Meng, dressed in a Seven-Colored Gauze Skirt, gazed

at the Jade Scroll in her hand, lost in thought.

Although she knew that upon entering the Chaotic Sea, Lu Chen might encounter many opportunities, she did not expect him to have mastered a

means that could suppress evil forces.

At first, she didn't think much of the Demon Emperor, after all, their Mysterious Moon Palace also had an Immortal Emperor, albeit temporarily sealed. But as the Demon Emperor's Heavenly Demon Army advanced unhindered, even causing the Super Force Azure Dragon Hall in the Northern Domain to retreat, Immortal Venerable Yun Meng felt a strong sense of crisis. Their Immortal Emperor would need time to live a second life. If the Heavenly

Demon Army arrived before Immortal Emperor Youlan lived a second life, it would be troublesome.

Immortal Venerable Yun Meng thought, it seems it's time to have a proper conversation with Lu Chen.

**Having children earns benefit, start competing for dominance in the world by marrying a wife**

Thinking about Xu Jingshu's unborn child being Lu Chen's bloodline, Immortal Venerable Yun Meng felt the matter was somewhat tricky.

Lu Chen had great Qi Fortune, plus the opportunities brought by the Chaotic Sea, so his future achievements would certainly be extraordinary. If his child was treated as the seizing body of Immortal Emperor Youlan, it would be troublesome once Lu Chen found out in the future.

Previously, she was not worried about Lu Chen's growth because she thought once Immortal Emperor Youlan lived out his second life, regardless of how good Lu Chen's talent was or how thick his Qi Fortune was, he wouldn't be able to make waves in front of an Immortal Emperor.

However, the letter from Wuya Immortal Venerable gave Immortal Venerable Yun Meng a wake-up call. If Lu Chen even had means to suppress evil forces, could he have methods to prevent soul possession?

After all, soul possession was inherently considered an evil method.

Of course, there was something very important: Mysterious Moon Palace needed Lu Chen's power to deal with the Heavenly Demon Army now.

If the Northern Domain fell, the Demon Emperor's Heavenly Demon Army would surely march south, and the next target would be the Central Domain.

Although this war would not end without taking a thousand years, for immortals, a thousand years was but the blink of an eye.

If there's only a thousand-year window, I'm afraid Immortal Emperor Youlan would not succeed in soul possession before the Demon Emperor's army reached Mysterious Moon Palace.

At this moment, Immortal Venerable Yun Meng spoke directly via voice transmission to Heavenly Language Immortal Venerable: "Junior Sister, have Chen Lu come to me."

Lu Chen was nominally the disciple of Heavenly Language Immortal Venerable, so before summoning him, it was appropriate to inform Heavenly Language Immortal Venerable first.

Upon hearing Immortal Venerable Yun Meng seek Chen Lu, although Heavenly Language Immortal Venerable felt curious, she didn't ask further and quickly transmitted her voice to Lu Chen, "Chen Lu, the Palace Master seeks you- please visit Yun Meng Hall."

Hearing Heavenly Language Immortal Venerable's words, Lu Chen, who was holding Yun Yudie, came back to his senses. Ever since dual cultivating with Yun

Yudie, his body in Mysterious Moon Palace had always been in a silent state, as Yun Yudie, the Cold Fairy, gave him such a strong feeling, making it hard for him to multitask.

Lu Chen stopped his movements then, pondering why Immortal Venerable Yun Meng would seek him-was it possibly due to Xu Jingshu's unborn child?

Seeing Lu Chen suddenly pause, appearing contemplative, Yun Yudie knew this rogue was multitasking again.

Dual cultivating with her while having thoughts elsewhere, it made Yun Yudie feel somewhat uncomfortable.

Lu Chen, having snapped back, saw Yun Yudie's unwavering gaze on him and joked, "Why is the Honored Master looking at me like that?"

Yun Yudie coldly asked, "Do you have something on your mind?"

Lu Chen replied with a smile, "Immortal Venerable Yun Meng just asked me to visit her."

Upon hearing Lu Chen's reply, Yun Yudie was slightly taken aback.

Immortal Venerable Yun Meng???

The one she's familiar with?

Once Yun Yudie regained composure, she coldly asked, "You also have a clone in Mysterious Moon Palace?"

Lu Chen answered, "Yes."

Yun Yudie glanced at Lu Chen speechlessly; this rogue sure had guts, embedding his clone within Mysterious Moon Palace.

Who knows what he's truly plotting?

Yun Yudie continued to inquire, "Does Immortal Venerable Yun Meng know your identity?"

Lu Chen replied, "She knew I was Lu Chen at first glance."

Yun Yudie, curious, further asked, "She didn't take action against you?"

Given Lu Chen had eloped with Mysterious Moon Palace's first Saintess, theoretically, Immortal Venerable Yun Meng should not have good feelings towards Lu Chen.

Lu Chen said, "No, and I am now a direct disciple of Heavenly Language Immortal Venerable."

Yun Yudie: "???"

For a moment, Yun Yudie was at a loss for words.

Being a direct disciple of Heavenly Language Immortal Venerable means she is essentially Lu Chen's senior sister?

Right then, Lu Chen laughed and said, "Why does the Honored Master look so surprised? I recall telling you, unless I've forgotten."

Yun Yudie stared coldly at Lu Chen without speaking, and Lu Chen continued, "By the way, the Honored Master is a direct disciple of Heavenly Language Immortal Venerable, and I am likewise a direct disciple, so in that sense, is the Honored Master considered my senior sister?"

Yun Yudie remained silent, continuing to watch this rogue with a cold

expression.

She didn't know why, but she suddenly had an ill premonition.

She now understands Lu Chen's nature and is aware that the path Lu Chen walks is the Path of Reproduction. Now with Lu Chen in Mysterious Moon Palace, she suspects Lu Chen could be eyeing another fairy from the palace.

Thinking back on how Lu Chen, after becoming her disciple, slowly crossed her bottom line and turned her into his plaything, Yun Yudie suddenly became

sober.

This rogue... is he aiming at Heavenly Language Immortal Venerable???

Although she has left Mysterious Moon Palace, once a master, always a master, and she sincerely acknowledges Heavenly Language Immortal Venerable as her

Honored Master.

Thinking about Lu Chen daring to covet her Honored Master, Yun Yudie's heart

blazed with nameless rage.

Really want to cut this guy...

However, to speak of this fellow, with so many bodies, even if one is cut, it

wouldn't matter much to him.

Seeing Yun Yudie continuously watching him coldly and not speaking, Lu Chen knew Yun Yudie must have guessed some of his intentions for staying at Mysterious Moon Palace. He then said, "Honored Master, if there's nothing else, I'll let my body go to Yun Meng Hall."

Yun Yudie came back and coldly asked, "Do you want to bed Heavenly Language Immortal Venerable?"

Hearing Yun Yudie's forthright words startled even the thick-skinned Lu Chen a bit.

Lu Chen then replied with a smile, "What are you saying, Honored Master? Am I the type to betray my masters and ancestors?"

Yun Yudie said expressionlessly, "You are that kind of person."

Completely consumed her, what else wouldn't he do-he slept with her, an

Immortal Venerable, while at Golden Immortal Realm.

Once Lu Chen's cultivation increased further, reaching Immortal King Realm, bedding Heavenly Language Immortal Venerable wouldn't be impossible, especially given his numerous methods.

Most crucially, Lu Chen had a Dual Cultivation Skill that could enhance others' power and comprehension of the grand path. Yun Yudie believed that even if Heavenly Language Immortal Venerable wasn't fond of Lu Chen, once Lu Chen presented such a skill, she might irresistibly choose to dual cultivate with him.

Once having dual cultivated with Lu Chen, it's unlikely Heavenly Language Immortal Venerable could resist for long.

As one's realm increases, advancing cultivation becomes more challenging, especially upon reaching Immortal Venerate Realm, even minor progress becomes extremely difficult, so upon reaching Immortal Venerate Realm, enhancing power requires either cultivating high-grade Immortal Law or using

some Immortal Artifact to boost strength.

But high-tier Immortal Law and Artifacts aren't easily obtainable.

By merely dual cultivating with Lu Chen, it can lead to increased comprehension of other grand paths, greatly boosting strength, which ought to be a tremendous temptation for any Immortal Venerate.

Immortals reaching Immortal Venerate Realm have already had different moral perspectives from mortals, and merely sleeping with Lu Chen could boost strength-it presents a great opportunity.

## **Having children earns benefit, start competing for dominance in the world by marrying a wife**

Whenever Yun Yudie thought of Ye Chuyao and herself, and then added the possibility that Heavenly Language Immortal Venerable might also be ruined by Lu Chen, an inner fury burned within her.

Although back then that scoundrel Lu Chen concealed his identity to become her disciple, he indeed served as her disciple for a few days. And now he has become the direct disciple of Heavenly Language Immortal Venerable, their relationship is a complete mess.

Could it be that scoundrel's Reproduction Path of cultivation means wanting to sleep with every beautiful woman he meets, regardless of their identity?

Yun Yudie soon calmed her emotions; there's no need to get angry with that scoundrel. At this point, saying anything is useless, and she doesn't believe Lu Chen will change.

After all, a dog cannot stop itself from eating shit.

Lu Chen suddenly thought of something and asked, "Honored Master, do you know why Mysterious Moon Palace cultivates the Saintess?"

Upon hearing this question, Yun Yudie was somewhat confused. "Why are you asking this?"

Lu Chen replied, "I want to see if you know the core secret of Mysterious Moon Palace."

Yun Yudie looked at Lu Chen more perplexedly. The core secret of Mysterious Moon Palace, what secret is that?

Lu Chen continued, "Your departure from Mysterious Moon Palace was a great thing for both Qingshu and you. Speaking of which, you should thank me."

"If it weren't for me, Qingshu wouldn't have left Mysterious Moon Palace, and you wouldn't have left because of Qingshu's departure."

Yun Yudie asked coldly, "What exactly are you trying to say?"

Lu Chen stated directly, "The reason Mysterious Moon Palace cultivates the Saintess is because they need to prepare a Seizing Body for the Immortal Emperor of Mysterious Moon Palace, who is nearing his end, so that he can live a second life."

Upon hearing Lu Chen's words, Yun Yudie's eyebrows slightly furrowed. She had never heard of such words before and didn't even know there was an

Immortal Emperor in Mysterious Moon Palace.

But since this is the core secret of Mysterious Moon Palace, how did Lu Chen know these things?

Yun Yudie asked, "How do you know?"

Though Yun Yudie felt very shocked, she did not doubt that Lu Chen was deceiving her, as they had reached this point, and Lu Chen had no reason to mock her with such things.

Lu Chen said, "I naturally have some special methods to glimpse into others' secrets."

Yun Yudie immediately thought of the Chaotic Sea. Perhaps it was because Lu Chen obtained something from the Chaotic Sea that could peer into people's minds or see future treasures.

Thanks to Lu Chen, those traitors of Mysterious Moon Palace were exposed. She no longer doubted that Lu Chen had a treasure to recognize people's identities; she thought perhaps that treasure's real function was to read minds. Thinking of this, Yun Yudie's eyebrows furrowed deeper. If that treasure could indeed read minds, then couldn't Lu Chen also read her thoughts?

No wonder she always felt that scoundrel could see right through her. If he knew her thoughts in advance, he could certainly manipulate her.

She thought, and a flash of icy light crossed in her cold eyes. Surely it's better to cut this guy off.

If this scoundrel were to discover she always wanted to do such things with him, who knows how he would humiliate her afterwards? He'd likely be even more unabashed in playing with her body.

At that moment, Yun Yudie exuded a hint of Slaughter Qi. Feeling the fury on Yun Yudie, Lu Chen asked, "Honored Master, what's wrong?"

Yun Yudie directly asked, "Did you know what I was thinking from the beginning?"

She increasingly felt Lu Chen could read her thoughts. When that scoundrel was fooling around with Ye Chuyao, she clearly discovered them, yet he still acted as he pleased.

Logically, after being discovered, he should be somewhat worried. His unabashed actions must mean he peered into her thoughts, knowing that even if she got angry, considering his strong Qi Fortune, she wouldn't heavily punish him, let alone kill him, allowing him to be unrestrained in front of her. Especially after practicing Dual Cultivation with her, that scoundrel became even more audacious, always manipulating her body in various ways.

Lu Chen said, "I don't know any Mind Reading Technique; how could I possibly know what's on Honored Master's mind?"

Yun Yudie did not pursue further. Even knowing Lu Chen could read her thoughts, she seemed helpless against him now.

Forget it, let him do what he wants; as long as Dual Cultivation with him enhances her strength, that's all that matters. As long as strength can be improved, let him play around.

At this moment, the Cold Fairy had completely compromised. As for the so-called dignity of a strong person, it meant nothing to her anymore. She had been humiliated by that scoundrel for dozens of years, where was there any dignity to speak of?

Yun Yudie then said, "Whatever you have to do, do it immediately; I won't cultivate for now!"

Yun Yudie didn't ask Lu Chen to leave immediately. For an Immortal Venerate like her, a few dozen years is nothing; even keeping such a close state with Lu Chen for ten thousand years wouldn't cause any issue.

After all, this is just one of Lu Chen's bodies; even if he stays, it won't stop him

from doing other things.

Seeing Yun Yudie didn't ask him to leave, Lu Chen's lips curved into a meaningful smile. Seeing Lu Chen's sly smile, Yun Yudie guessed what he was thinking and glared at him coldly.

Lu Chen didn't tease Yun Yudie; he leaned down, his body pressing against Yun Yudie's, his whole being lying over hers, resting his head on her jade shoulder, inhaling the delicate fragrance emanating from her.

At the same time, another body of Lu Chen had already set out, heading towards Immortal Venerable Yun Meng's Yun Meng Hall.

Soon Lu Chen arrived at the main peak. Few people recognized Lu Chen, but when the disciples at the main peak saw Lu Chen entering, they looked at him

oddly.

Lu Chen's strength wasn't impressive, yet he wore the garments of a direct disciple, which was usually well-known among the main peak disciples. However, Lu Chen hadn't been Heavenly Language Immortal Venerable's disciple for long, and his body had remained in a state of dormancy, mostly staying in Heavenly Language Hall, so few had seen him.

After Lu Chen passed by, the main peak disciples started discussing curiously.

"Who is that? I've never seen him!"

"Judging by his clothes, he should be a direct disciple of Heavenly Language Immortal Venerable."

"When did Heavenly Language Immortal Venerable take another direct disciple and why wasn't it known to us?"

"This person doesn't seem strong; how did he become a direct disciple? What's he doing at the main peak?"

"Eh, he's heading towards Yun Meng Hall. Could it be that the Palace Master summoned him?"

Lu Chen ignored the disciples' chatter. He soon reached outside Yun Meng Hall and was just about to ask the disciples there to announce his arrival, when suddenly his vision went black.

## **Having children earns benefit, start competing for dominance in the world by marrying a wife**

When light reappeared before Lu Chen's eyes, he found himself inside the Yun Meng Hall.

The Yun Meng Hall was entirely crafted from colorful Immortal Crystals that emitted radiant hues, making the entire hall seem dreamlike.

At this moment, Immortal Venerable Yun Meng was adorned in a multicolored gauzy long dress, standing in the hall with her back to him.

Lu Chen immediately spoke, "Greetings, Palace Master. I wonder what the Palace Master seeks from me?"

Immortal Venerable Yun Meng turned around at this point, cast a glance at Lu Chen, and then said, "Are you getting accustomed to the Mysterious Moon Palace?"

Lu Chen froze for a moment; he didn't believe that Immortal Venerable Yun Meng sought him out to inquire about his comfort at the Mysterious Moon Palace.

Immediately, Lu Chen used the system's recognition function to check

Immortal Venerable Yun Meng's personal information, which had been updated to display her recent schemes against him.

Lu Chen chuckled inwardly, realizing she intended to obtain the Divine Light Thousand Lamp Scripture from him.

Lu Chen then said, "Palace Master, whatever you wish to say, feel free to speak directly."

Knowing Lu Chen was not easily deceived, Immortal Venerable Yun Meng directly said, "You must have heard about the recent events in the Northern Domain, right?"

Lu Chen replied, "I've been in secluded cultivation recently and am not well-informed about outside affairs."

Immortal Venerable Yun Meng said, "Currently, nearly half of the Northern Domain's land is under the control of the Demon Emperor's army. The various major forces of the Northern Domain can barely resist. The suppression of Immortal Power by the Heavenly Demon Power is very apparent. If the Demon Emperor continues to grow and regain full strength, it would be a disaster for the entire Tianyan Immortal Domain."

Saying this, Immortal Venerable Yun Meng glanced at Lu Chen, noticing no change in his expression. She furrowed her brows slightly and continued, "The Heavenly Splendor Hall in the Southern Domain issued a warrant for your arrest, claiming you possess means to counter Evil Power"

"I don't know if it's a cultivation technique or a magic treasure, but if it can counter Evil Power, perhaps it could be used against the Heavenly Demon, possibly having some effect."

Upon hearing this, Lu Chen instantly understood her intent; she wanted to use the Heavenly Splendor Hall to threaten him.

Her implication was that if he didn't hand over the method to counter Evil Power, she might spread the word about his presence in the Mysterious Moon Palace.

Of course, Lu Chen didn't believe Immortal Venerable Yun Meng would actually do that. He was not at all concerned about her threats and immediately said, "That's just a pretext the Heavenly Splendor Hall is using to find me. They think I've obtained many opportunities from the Chaotic Sea and want to get those opportunities from me."

"However, I've escaped to the Central Domain. The Heavenly Splendor Hall likely searched the Southern Domain thoroughly and couldn't find me, so they issued this warrant. If there's no benefit in finding me, other forces will naturally not assist the Heavenly Splendor Hall in their search. But if finding me provides benefits and could help address the current crisis, then all the major forces will send people to search for me."

Hearing Lu Chen's words, Immortal Venerable Yun Meng pondered for a moment. Lu Chen's words were not without reason. The letter from the Heavenly Splendor Hall didn't state that Lu Chen definitely had the means to counter Heavenly Demon Power; it only mentioned suspicions about his ability to counter Evil Power.

If someday other forces helped the Heavenly Splendor Hall capture Lu Chen and then forced him to disclose a method to counter Heavenly Demon Power, only to find that he knew nothing and that even a Soul Search couldn't uncover related memories, then the Heavenly Splendor Hall could simply say they only suspected it and never claimed Lu Chen definitely had such means.

At this moment, Immortal Venerable Yun Meng calmly observed Lu Chen, seemingly trying to discern whether he was lying from his expression.

Lu Chen's expression remained calm, showing no signs of deceit. It seemed he wasn't afraid of a Soul Search. Could it really be as Lu Chen said, that the Heavenly Splendor Hall was just using this pretext to find him?

Immortal Venerable Yun Meng asked, "Are you truly without a method to counter Heavenly Demon Power?"

Lu Chen retorted, "Does the Palace Master have a method to counter Heavenly Demon Power?"

Immortal Venerable Yun Meng answered, "No."

Lu Chen said, "Even a super force like the Mysterious Moon Palace doesn't have one, so how could I possibly have one?"

Immortal Venerable Yun Meng said, "That remains uncertain, especially since you have ventured into the Chaotic Sea."

Lu Chen replied, "The Chaotic Sea contains only dangers, no opportunities."

"If there truly were opportunities in the Chaotic Sea, the Demon Emperor wouldn't have had his cultivation state drop so much upon emerging. Does the Palace Master think a King entering the Chaotic Sea would encounter more opportunities, or an Emperor?"

"If even an Immortal Emperor entering the Chaotic Sea couldn't find opportunities, then how could I, an Immortal King, discover opportunities even

an Immortal Emperor couldn't find?"

At this point, Immortal Venerable Yun Meng couldn't ascertain whether Lu Chen was speaking truthfully. She then said, "Whether the Demon Emperor found opportunities or not, only she would know."

Immortal Venerable Yun Meng didn't explicitly refer to Lu Chen, but the same applied to him; only Lu Chen himself truly knew whether he found any

opportunities.

Immortal Venerable Yun Meng thought for a moment and finally decided not to continue questioning Lu Chen for the time being. She planned to send someone to investigate why the Heavenly Splendor Hall was so ostentatiously issuing the

warrant.

Whether the contents of the letter sent by the Heavenly Splendor Hall were true, or if this was just an excuse they used to capture Lu Chen.

Immortal Venerable Yun Meng said to Lu Chen, "I believe you're not lying. You can go."

Lu Chen then said, "Thank you for trusting me, Palace Master."

With those words, Lu Chen turned and left.

Watching Lu Chen's departing figure, Immortal Venerable Yun Meng still

harbored some suspicions.

Immediately, she summoned a few individuals to go to the Southern Domain

and investigate what had transpired between Lu Chen and the Heavenly Splendor Hall since his return from the Chaotic Sea.

After leaving the Yun Meng Hall, as Lu Chen was about to return to Heavenly Language Peak, he saw a fairy in a red long dress passing by him not far away. At this moment, Xu Jingshu felt something and suddenly turned her head towards Lu Chen. Upon seeing him, she momentarily became slightly dazed. It had been a long time since she last saw Lu Chen, and she missed him greatly. The joyful memories Lu Chen had brought her kept lingering in her mind. Xu Jingshu was considered a significant figure on the main peak, so when she turned to look at Lu Chen, nearly everyone present followed her gaze to Lu Chen. People were curious why the mother of the unborn Saintess would fixate on the Direct Disciple of Heavenly Language Peak.

Realizing her slight loss of composure, Xu Jingshu transmitted a message to Lu Chen, asking, "Can I acknowledge you?"

Life without Lu Chen was somewhat unbearable for this Evil Immortal; she wanted to reunite with him but feared that her current identity might bring trouble to Lu Chen.

With a smile, Lu Chen replied via sound transmission, "Of course."

To Lu Chen, this was merely a physical body. Even if something did happen, it

wouldn't affect him. Thus, he wasn't worried that reuniting with Xu Jingshu would bring him any trouble.

## **Having children earns benefit, start competing for dominance in the world by marrying a wife**

Upon hearing Lu Chen's transmission, Ye Chuyao didn't hesitate and directly said, "Senior Brother, long time no see."

Xu Jingshu wasn't a fool. Although she wanted to acknowledge Lu Chen, she couldn't just tell everyone that Lu Chen was her man in front of all those eyes.

If she dared to do so, Lu Chen's life at Mysterious Moon Palace would be quite difficult in the future.

When Xu Jingshu addressed Lu Chen as Senior Brother, the people around them were taken aback.

Senior Brother?

Since when did Xu Jingshu have a Senior Brother?

Didn't she join the Mysterious Moon Palace just a few decades ago? Moreover, there had never been any talk of her having a Senior Brother in the past.

Most importantly, if Xu Jingshu called this person Senior Brother, it would mean that this person was a direct disciple of Heavenly Language Immortal Venerable before she accepted Xu Jingshu as her disciple. If he was accepted before Xu Jingshu, people wouldn't be entirely unaware.

Just as people speculated about Lu Chen's true identity, Lu Chen spoke up, "Hmm, long time no see. Are you comfortable here?"

Xu Jingshu replied, "I'm quite comfortable."

Xu Jingshu then asked, "I want Senior Brother to convey some words to Honored Master. Could you come to my residence?"

Hearing Xu Jingshu's words, people didn't doubt anything. As a direct disciple of Heavenly Language Immortal Venerable, it's normal for Xu Jingshu to have something to say to Heavenly Language Immortal Venerable.

As for why she didn't personally visit Heavenly Language Peak, her identity is critical now; she's the mother of the Saintess, so any mistake is unacceptable, which means she can't leave the main peak. Having someone else convey messages isn't surprising.

Lu Chen immediately understood why Xu Jingshu was asking him, and with a smile, he said, "Alright, I understand."

However, just then, a fluctuation in space occurred, and a female Immortal King appeared behind Xu Jingshu. She was arranged by Immortal Venerable Yun Meng to protect Xu Jingshu.

According to Immortal Venerable Yun Meng's rules, Xu Jingshu shouldn't be alone with any man before giving birth to the Saintess. Now that Xu Jingshu planned to take this man to her place, it surely couldn't be allowed.

Just as the female Immortal King prepared to stop Lu Chen from going to Xu Jingshu's place, a transmission appeared in her mind, "Allow them to meet alone."

Immortal Venerable Yun Meng thought that if she excessively interfered with Lu Chen and Xu Jingshu's time together, causing Lu Chen to become dissatisfied, he might not reveal the method to restrain the Heavenly Demon Power to Mysterious Moon Palace, even if he truly had it.

Of course, the most crucial thing is that the mood of the mother is extremely important. If Xu Jingshu remains in a repressed state, it's not good for the child in her belly; it could affect the child's growth.

Lu Chen is Xu Jingshu's partner, and after so long apart, she probably misses him greatly. Letting them talk to ease the pain of longing is nothing; the happier the mother is, the healthier the child in her belly will grow.

Just letting them meet shouldn't cause major issues. She didn't believe Lu Chen would harm his own child.

After hearing Immortal Venerable Yun Meng's transmission, the female Immortal King remained silent, and upon seeing her emerge, Xu Jingshu's heart skipped a beat. She knew this Immortal King wasn't just there to protect her but also to monitor her.

Now that the Immortal King suddenly appeared, she was likely trying to prevent Xu Jingshu and Lu Chen from meeting alone. Without that private time, how could she alleviate her longing?

Just as Xu Jingshu was about to say something, the Immortal King vanished without a word.

This...

Seeing this, Xu Jingshu was stunned. Wasn't she here to stop me?

Xu Jingshu was puzzled. If she wasn't here to prevent her from inviting Lu Chen, then why did she appear?

But since the Immortal King didn't stop her, it meant she could lead Lu Chen to her residence.

Then Xu Jingshu said to Lu Chen, "Senior Brother, follow me."

"Alright."

Xu Jingshu then led Lu Chen to her small world residence. The small world was filled with birdsong and fragrant flowers, and at its center was a palace made entirely of Immortal Crystal. Most importantly, the Immortal Aura was extremely dense in this small world.

Lu Chen knew why Mysterious Moon Palace created such an environment. It was no more than cultivating Xu Jingshu's child in her belly as a suitable vessel for reincarnation.

Moments later, Lu Chen and Xu Jingshu entered a room within the palace. As soon as they entered, Xu Jingshu threw herself into his arms and sealed his lips.

This...

Lu Chen was momentarily startled but quickly regained his composure. He hadn't touched Xu Jingshu in a long time; she was an Evil Immortal, and once involved in such matters, she'd naturally keep thinking about it.

Lu Chen didn't resist, after all, she was his woman; whatever she asked, he naturally had to fulfill.

Soon, the two were in a familiar state.

Just like that, a day passed. Waiting at the entrance of the small world, the female Immortal King's brow furrowed, her expression somewhat worried. Spending a day inside, she could probably guess what they were doing without needing clarification. The thought of that man possibly being with Xu Jingshu made the female Immortal King worried for the child in Xu Jingshu's belly.

At this point, the female Immortal King directly reported Lu Chen's situation to Immortal Venerable Yun Meng. Upon hearing it, Immortal Venerable Yun Meng wasn't too concerned-it had only been a day, after all. Considering they hadn't seen each other for so long, allowing Lu Chen and her to recount old times seemed natural, so she ignored it.

However, what Immortal Venerable Yun Meng hadn't anticipated was that Lu Chen remained there for six months.

Each month, the female Immortal King reported on Lu Chen and Xu Jingshu, but Immortal Venerable Yun Meng continued to believe Lu Chen wouldn't harm his own child, so she ignored it.

But Lu Chen staying with Xu Jingshu for so long displeased Immortal Venerable Yun Meng, prompting her to use Divine Thought to survey Xu Jingshu's small world, only to find the two engaged in that activity.

Immortal Venerable Yun Meng's expression turned icy cold.

If they had been doing such things for half a year, it could affect the child in Xu

Jingshu's belly.

It's crucial to realize that an Immortal's offspring might condense consciousness early in the mother's belly, meaning the child might be aware of

external happenings.

The Saintess needed by Mysterious Moon Palace must possess a pure soul; if she perceives unseemly matters in her mother's belly, the soul could be tainted and thus unsuitable as a vessel for Immortal Emperor Youlan's reincarnation.

No, they can't continue this.

Immediately, Immortal Venerable Yun Meng raised her hand, and Lu Chen suddenly felt dazed; when he regained his senses, he found himself back in his room at Heavenly Language Hall, away from Xu Jingshu's side.

This... Then, Immortal Venerable Yun Meng's voice resonated, "Until Jingzhu gives birth to the Saintess, you shall not meet again!"

# Having children earns benefit, start competing for dominance in the world by marrying a wife

Upon hearing the transmission from Immortal Venerable Yun Meng, Lu Chen snapped back to reality. It was Immortal Venerable Yun Meng who had sent him back, which meant she knew what they were up to. Indeed, the women of Mysterious Moon Palace all liked to spy on him at work.

However, Lu Chen didn't mind being spied on at all; if they saw, so be it. Xu Jingshu was his woman, and it was normal for them to do such things.

After returning to the Mysterious Moon Palace, Lu Chen once again put his body into a meditative state, and his attention turned to himself.

At this moment, Lu Chen was lying on Yun Yudie's fragrant shoulder, their bodies pressed together, and Yun Yudie had her beautiful eyes closed, comprehending the Slaughter Path.

Just then, she suddenly sensed movement where she was residing. Yun Yudie immediately realized that this rascal had finished things elsewhere.

She opened her eyes and coldly asked, "You're done?"

Lu Chen replied with a simple "Mmm," and then continued busying himself. Yun Yudie continued to ask, "What did Immortal Venerable Yun Meng want with you?"

Lu Chen answered, "Phew... she wanted me to give up the method to restrain Evil Power."

Upon hearing this, Yun Yudie suddenly remembered that when Lu Chen was in the Southern Domain, he was able to crush three Evil Immortal Kings by himself. He likely used some method to suppress Evil Qi, so those three Evil Immortal Kings couldn't be his match.

But then again, how did Immortal Venerable Yun Meng know that Lu Chen had a method to restrain Evil Qi?

Yun Yudie continued to ask, "How did she find out?"

Lu Chen said, "The Heavenly Splendor Hall released a bounty on me and even sent a letter to Immortal Venerable Yun Meng."

Yun Yudie thought, so that's how it is. It seems the Heavenly Splendor Hall wants other Super Forces from the realms to help search for Lu Chen together. Yun Yudie then asked, "Did you tell the Mysterious Moon Palace the method?"

Lu Chen smiled and replied, "No, I said it was an excuse the Heavenly Splendor Hall made up to find me."

Yun Yudie continued to ask, "What do they want the method to restrain Evil Qi for?"

Lu Chen said, "To deal with the Heavenly Demon Army in the north, Evil Qi and Heavenly Demon Power have similarities. They think that if my strength can deal with Evil Immortals, then it might also be able to handle those Heavenly Demons in the Northern Domain."

Yun Yudie probed, "Can the power you use really deal with Heavenly Demons?" Although Yun Yudie hadn't been concerned with the state of the Northern Domain, she also worried that if the coalition of the Tianyan Immortal Domain was defeated by the Heavenly Demon Army, the Heavenly Demons might appear at their Mysterious Moon Palace in the future, and they might not have the strength to resist.

Lu Chen at this point propped himself up, looking down at Yun Yudie's eyes that were a mixture of coldness and curiosity, and smiled, "Does Honored Master want to learn?"

Yun Yudie remained silent. If Lu Chen really had a method to deal with Heavenly Demons, she indeed wanted to learn it. If one day the Heavenly Demon Army invaded the Barbaric lands, she would have the power to resist.

But then again, if the Heavenly Demon Army reached the Barbaric lands one day, the entire Tianyan Immortal Domain might already be under the control of the Demon Emperor. Continuing to resist then might not end well. However, having the power to counter the Heavenly Demons is better than being constantly suppressed by Heavenly Demon Power.

Seeing Yun Yudie not respond, Lu Chen stopped speaking, and the two just gazed at each other. After a while, Yun Yudie finally spoke up, "If you are willing to teach me, I can learn."

If Lu Chen's method can truly restrain Heavenly Demons, then learning it would be worthwhile.

Upon hearing Yun Yudie's words, Lu Chen's face showed a meaningful smile.

"It's an Immortal Law. If I teach you the Immortal Law, wouldn't that technically make me your Honored Master?"

"Why don't you call me Honored Master first?"

Hearing Lu Chen's words, the coldness on Yun Yudie's body instantly erupted, and her expression became extremely cold. She looked at Lu Chen indifferently, seemingly wanting to see if he was mocking her. However, Lu Chen's eyes appeared to be very earnest.

Yun Yudie once again fell silent. She had already undergone various Dual Cultivations with this man, so the so-called dignity of a strong one no longer existed before him. Calling him Honored Master to learn a skill that can restrain Heavenly Demons seemed like a trade that would guarantee profit without loss.

Thinking this, Yun Yudie directly called in a cold voice, "Hon... Honored

Master..."

Although she thought she didn't mind, her mouth hesitated as she called him Honored Master.

After Yun Yudie called him Honored Master, she immediately asked, "Now can you teach me?"

Lu Chen said, "Of course."

As soon as he finished speaking, Lu Chen bent down again and directly kissed Yun Yudie's fragrant lips.

Yun Yudie was suddenly taken aback. Isn't it about teaching her the Immortal Law? Why start with this?

Could this rascal be planning to go back on his word and use this to gloss over

things?

Just as Yun Yudie thought this, she suddenly felt a legacy memory flooding into

her mind.

Yun Yudie's heart immediately calmed down, and she earnestly comprehended the Divine Light Thousand Lamp Scripture.

Next, while in close embrace with Lu Chen, she started cultivating the Divine Light Thousand Lamp Scripture and found that it seemed to be a Heaven Rank Immortal Technique, making her somewhat doubtful.

Although Heaven Rank Immortal Techniques are extremely rare, simply cultivating one such technique to oppose Evil Immortals and restrain Heavenly Demon Power felt somewhat unrealistic to Yun Yudie.

At this moment, Yun Yudie opened her eyes, wanting to ask Lu Chen if he had ever used this Immortal Technique to battle Heavenly Demons. But Lu Chen was busy sealing her lips, as though driven by desire.

Yun Yudie could only control her urge to cut Lu Chen and let him be for now.

After a while, when Lu Chen finished and their lips parted, Yun Yudie finally asked, "Can the Divine Light Thousand Lamp Scripture truly restrain Heavenly

Demon Power?"

Lu Chen previously suppressed three Evil Immortals in the Southern Domain, so the Divine Light Thousand Lamp Scripture should be able to restrain Evil Qi. However, Evil Qi and Heavenly Demon Power are different.

Heavenly Demon Power is much more evil than the power used by typical Evil Immortals. Although the Divine Light Thousand Lamp Scripture can restrain Evil Qi, it might not restrain Heavenly Demon Power.

If Lu Chen provided her with a Saint-level Immortal Technique, she might believe that the technique could restrain Heavenly Demon Power.

Lu Chen said, "Of course it can."

After all, it's an Immortal Law rewarded by the system, and even without the

Divine Light Thousand Lamp Scripture, the cultivation techniques he learned in the Chaotic Sea could also restrain Heavenly Demon Power, although not as effectively as the Divine Light Thousand Lamp Scripture.

Most importantly, the Divine Light Thousand Lamp Scripture has a significant difference from the cultivation techniques he acquired in the Chaotic Sea, which is that once utilized, the Divine Light Thousand Lamp Scripture can absorb evil energy to nourish itself, allowing him to become stronger with the

help of that evil energy.

Yun Yudie continued to ask, "Have you used this Immortal Technique to fight

Heavenly Demons?"

# Having children earns benefit, start competing for dominance in the world by marrying a wife

Seeing Yun Yudie ask this question, Lu Chen knew Yun Yudie didn't truly believe that cultivating the Divine Light Thousand Lamp Scripture could suppress the Heavenly Demon Power.

Lu Chen didn't answer the question but instead directly copied his memories of confronting the Heavenly Demon inside the Chaos Beast's stomach into a Memory Pearl, then sent the Memory Pearl to Yun Yudie's smooth, jade-like forehead.

Lu Chen said, "You can read my memory."

Without hesitation, Yun Yudie immediately read the memories inside Lu Chen's Memory Pearl, When Yun Yudie saw Lu Chen completely crushing the Heavenly Demon inside the Chaos Beast's stomach, she finally believed that cultivating the Divine Light Thousand Lamp Scripture could indeed suppress the Heavenly Demon. However, Yun Yudie didn't know that the Divine Light Thousand Lamp Scripture was much higher than the cultivation technique Lu Chen had learned within the Chaos Beast; this Immortal Law had an even better restraining effect on evil power.

After all, what Lu Chen previously learned was just a cultivation technique, while the Divine Light Thousand Lamp Scripture is an Immortal Law. How could a cultivation technique compare to an Immortal Law?

At this moment, Lu Chen continued, "But speaking of it, although the Divine Light Thousand Lamp Scripture has a certain restraining effect on the Heavenly Demon Power, if the opponent's strength is too strong, even restraining might not be effective."

"If I encounter the Demon Emperor now, the effect that the Divine Light Thousand Lamp Scripture can exert will surely be negligible."

Since leaving the Chaotic Sea, Lu Chen hadn't had a direct confrontation with Xuan Qingyun, so he didn't know how Xuan Qingyun's current strength had recovered. If Xuan Qingyun had recovered to the Immortal Emperor Realm, he would likely stand no chance against her.

Back then, when he entered the Chaotic Sea, he was able to fight back and forth with Xuan Qingyun, the Immortal Emperor, mainly because Xuan Qingyun had been eroded by the Chaotic Sea, causing her strength to greatly decline. Moreover, she was disoriented, so the two fought in the Chaotic Sea for an unknown number of years.

Lu Chen was still self-aware, and now that both of them had left the Chaotic Sea, facing Xuan Qingyun again, there was probably no chance of winning.

But Lu Chen wasn't overly pessimistic, mainly because Xuan Qingyun was also a person recognized by the system, and he had another card up his sleeve. As long as she was a woman recognized by the system, he believed this card would emerge at the right time: the mysterious Red Flower Sedan.

Although he still didn't understand what grade the Red Flower Sedan was as a magic treasure, he had a premonition that the Red Flower Sedan might even suppress an Immortal Emperor.

If Xuan Qingyun really wanted to make a move against him, the Red Flower Sedan would probably come out first to stop it.

Yun Yudie stopped listening to Lu Chen, knowing that since this Immortal Law could restrain the Heavenly Demon Power, she should hurry to cultivate more and strive to fully master this Immortal Law as soon as possible.

But just as Yun Yudie was about to cultivate, she suddenly thought of something and asked, "Why don't you teach this Immortal Law to Immortal Venerable Yun Meng?"

The southward march of the Heavenly Demon Army was not only the disaster of other forces in the Tianyan Immortal Domain, but it might also spread to them in the Barbaric Lands. If one day the coalition formed by several super forces was defeated, and the Heavenly Demon Army came to the Barbaric Lands, Lu Chen's Daqin Immortal Dynasty might also face annihilation.

Thus, handing over the Divine Light Thousand Lamp Scripture to help the super forces of the Tianyan Immortal Domain fight against the Demon Emperor and the Heavenly Demon Army was actually beneficial to Lu Chen. After all, under a fallen nest, no egg remains intact; once the super forces in the Tianyan Immortal Domain are defeated, it will naturally be their turn to face hardship.

Lu Chen said lightly, "The Demon Emperor and I are old friends; giving this kind of Immortal Law to them would be harming my old friend, wouldn't it?"

Upon hearing this, Yun Yudie was immediately stunned.

Lu Chen and the Demon Emperor are old friends?

Is it true?

When did they meet?

Wait a minute...

Yun Yudie suddenly realized that both Lu Chen and the Demon Emperor had been to the Chaotic Sea, and they returned to the Tianyan Immortal Domain at roughly the same time. Does that mean they met in the Chaotic Sea?

Thinking about it this way, it's not strange that Lu Chen and the Demon Emperor know each other. But what's strange is how did they become friends? One is the Demon Emperor, and the other is a Righteous Immortal. Moreover, Lu Chen also possesses an Immortal Law that restrains the Heavenly Demon Power.

If Lu Chen cultivates this Immortal Law, the Demon Emperor would certainly feel very uncomfortable in front of Lu Chen; how could these two still become

friends?

Yun Yudie immediately thought of one more thing: the Demon Emperor is a

woman...

Thinking of this, Yun Yudie looked at Lu Chen with a cold and strange gaze. Seeing Yun Yudie look at him like this, Lu Chen smiled and asked, "Honored Master doesn't believe?"

Yun Yudie coldly asked, "Did you sleep with the Demon Emperor?"

Besides this possibility, Yun Yudie couldn't think of any other. She didn't believe that pure platonic friendship existed between men and women in front of a lecher like Lu Chen; women with intimate relationships with him probably slept

with him.

Lu Chen replied, "Not yet."

Yun Yudie fell silent.

Not yet? So does that mean he already has this idea?

This scoundrel's courage is truly extraordinary, daring even to have designs on

the Demon Emperor.

For such a thing, is he disregarding his own life?

Seeing Yun Yudie remain silent, Lu Chen asked, "Anything else Honored Master

wants to know?"

Yun Yudie directly closed her eyes, putting her thoughts back into cultivating the Divine Light Thousand Lamp Scripture again. Regarding the relationship between Lu Chen and the Demon Emperor, she didn't plan to ask any more questions; she simply didn't believe Lu Chen could sleep with the Demon

Emperor.

This scoundrel managed to sleep with her solely because of being forced by circumstances; she reluctantly let him succeed. But what kind of person is the Demon Emperor? She's someone who likely could again control the Tianyan Immortal Domain.

If Lu Chen wants to sleep with her, he'd better weigh whether he has what it

takes.

Seeing Yun Yudie saying nothing more, Lu Chen began to continue operating the Spirit Charm Harmony Scripture.

Meanwhile.

Hidden Moon Sect.

Frost Moon Immortal City.

Frost Moon Immortal King sat on the throne in the main hall, using immortal

power to activate the Jade Scroll in his hand, reading the intelligence gathered

about the Daqin Immortal Dynasty.

After reading the contents of the Jade Scroll, Frost Moon Immortal King fell

into deep thought.

Then he looked at the Immortal Monarch responsible for intelligence gathering

in the main hall and said, "You mean the Mysterious Moon Palace was directly transmitted from the Southern Domain to the Barbaric Lands?"

They had already gathered a lot of intelligence about the Mysterious Moon Palace and had uncovered events related to the Mysterious Moon Palace in the Southern Domain. However, all this intelligence seemed utterly absurd to Frost Moon Immortal King.

The distance from the Southern Domain to the Barbaric Lands was so far that

even using a Heavenly Grade Transmission Array would consume immense

amounts of immortal crystals to teleport one person.

And yet the entire Mysterious Moon Palace was teleported over, not to mention the consumption of immortal crystals, they seemed to have never heard of such a level of Transmission Array existing in this world.

At this time, the Immortal Monarch in the main hall said, "Master, the Heavenly

Splendor Hall has been searching for the Mysterious Moon Palace all along; should we disclose the information about Mysterious Moon Palace to the Heavenly Splendor Hall?"

Upon hearing this, Frost Moon Immortal King snapped out of it.

If the Mysterious Moon Palace really was teleported directly to the Barbaric Lands using a Transmission Array, then the grade of this Transmission Array must be very high. If they could obtain this Transmission Array, it would greatly help their future plans.

## **Chapter 1831 - 1521: I Will Personally Enter the Battlefield and Fight the Demon Emperor to the Death!**

Frost Moon Immortal King immediately said to his subordinates, "No need, since Heavenly Splendor Hall is searching everywhere for Mysterious Moon Palace, it proves that Mysterious Moon Palace must have something Heavenly Splendor Hall wants."

"Continue sending people to the Southern Domain to investigate, find out why Heavenly Splendor Hall is seeking Mysterious Moon Palace."

"Yes, Master."

Frost Moon Immortal King then waved his hand, and that Immortal Monarch left the main hall directly. After the Immortal Monarchs in the hall left, Frost Moon Immortal King muttered to himself, "I didn't expect Lu Chen, who was famous in the Immortal Domain billions of years ago, is still alive, and even came out from the Chaotic Sea. Could it be that the Transmission Array used by Mysterious Moon Palace was brought out from the Chaotic Sea by Lu Chen?"

"Perhaps Heavenly Splendor Hall wants to find Mysterious Moon Palace for the opportunity Lu Chen brought out from the Chaotic Sea."

Thinking of this possibility, Frost Moon Immortal King had the idea of reporting this matter to the Sect Hierarchy, but he still chose not to report it immediately; he planned to figure out why Heavenly Splendor Hall was searching for Mysterious Moon Palace first.

Anyway, Mysterious Moon Palace is right there now, it won't run away.

The most important thing is that Lu Chen doesn't seem to be in Mysterious Moon Palace right now.

Moreover, through their investigation, they found that Mysterious Moon Palace had some relationship with Profound Moon Palace, he was unsure whether this Mysterious Moon Palace was a chess piece planted in the Barbaric Domain by Profound Moon Palace.

Without thoroughly understanding the relationship between Mysterious Moon Palace and Profound Moon Palace, it's better not to disturb their Sect Hierarchy.

...

Northern Domain.

Azure Dragon Hall.

A man with dragon horns on his head stood in the magnificent hall, looking at the projection in front of him, his face gloomy to the extreme. The aura he emitted made people in the hall not dare to breathe.

After a while, Dragon Soaring Immortal Venerable spoke, "All of them are useless, the Demon Emperor's strength has fallen to the Immortal King Realm, yet so many people still aren't her match!"

Upon learning that Xuan Qingyun returned to the Tianyan Immortal Domain, Azure Dragon Hall immediately dispatched an army to besiege, integrating the forces of the entire Northern Domain. Dragon Soaring Immortal Venerable initially thought that Xuan Qingyun hadn't restored her strength and that it would be easy to destroy her, but unexpectedly, those sent became Heavenly Demons one by one.

This caused Xuan Qingyun's Heavenly Demon Army to grow larger and larger, and now the Heavenly Demon Army almost controlled half of the Northern Domain. If this continues, the entire Northern Domain might fall into Xuan Qingyun's hands.

After hearing Dragon Soaring Immortal Venerable's words, the Immortal Kings and Immortal Monarchs in the hall immediately bowed their heads, not daring to look Dragon Soaring Immortal Venerable in the eye.

After a while, Dragon Soaring Immortal Venerable spoke, "We can't let her continue to recover. In a year, I will personally go to the battlefield and engage the Demon Emperor in a life-and-death battle!"

Dragon Soaring Immortal Venerable understood that as the war continued to expand, Xuan Qingyun's strength would grow stronger, and negative emotions and powers could allow her to quickly recover. If the war continues to drag on and Xuan Qingyun fully recovers, then Azure Dragon Hall would be in danger.

Azure Dragon Hall was the first force to lead the rebellion against the Nine Heavens Institute back then, and once Xuan Qingyun's strength recovers, they will certainly face retribution.

At this moment, Dragon Soaring Immortal Venerable thought of something and continued, "Immediately send letters to other forces in the coalition, asking them to cooperate with us to launch a full assault on the Demon Emperor's Heavenly Demon Army in a year."

The Heavenly Demon Army developed too quickly, and Dragon Soaring Immortal Venerable was worried that just their Super Force might not be able to completely annihilate the Heavenly Demon Army. Fortunately, the coalition now includes several Super Forces, such as Heavenly Splendor Hall from the Southern Domain, two Super Forces from the Eastern Domain.

If the coalition attacks together, without giving the Demon Emperor any time to breathe, he does not believe they cannot destroy the Demon Emperor this time.

Then Azure Dragon Hall issued a notice throughout the Tianyan Immortal Domain to encircle and annihilate the Demon Emperor and sent letters to several Super Forces.

Even for Mysterious Moon Palace, which hasn't joined the coalition, they sent someone with a letter, seeing Xuan Qingyun's Heavenly Demon Army grow stronger severely stimulated the several Immortal Venerables of Azure Dragon Hall.

With the Demon Emperor still at large, their minds could not be at ease.

The notice from Azure Dragon Hall soon spread throughout the Tianyan Immortal Domain, even Lu Chen in the Barbaric Domain heard about this matter.

Great Qin Immortal Dynasty.

Imperial Palace, Imperial Study Room.

Wearing a Platinum Dragon Robe, Lu Chen looked at the Jade Scroll in his hand, lost in thought. He didn't expect Xuan Qingyun to grow so quickly; he originally thought the war would take thousands of years to determine victory or defeat, unless Xuan Qingyun restored her Immortal Emperor Cultivation.

As long as she restores her Immortal Emperor Cultivation now, the war will end the next day.

But now it seems that even if Xuan Qingyun hasn't restored her Immortal Emperor Cultivation, the Super Forces in the Northern Domain can't stop Xuan Qingyun's Heavenly Demon Army.

Lu Chen thought, with Xuan Qingyun's forces expanding so rapidly, her Cultivation State might also quickly restore. After all, she relies on negative emotions to enhance her strength, and wherever the Heavenly Demon Army goes, countless people die, and many fall into despair. That despair is exactly what Xuan Qingyun needs most.

If Xuan Qingyun truly restores to the Immortal Emperor Realm, without the help of the Red Flower Sedan, it would be nearly impossible for him to obtain her.

As for the Red Flower Sedan, it hasn't appeared in years, and he doesn't know whether it will eventually play a role.

What worries Lu Chen most is whether the Red Flower Sedan can suppress her strength once she becomes an Immortal Emperor. If even the Red Flower Sedan cannot suppress Xuan Qingyun, then pursuing the Reproduction Path with her would be a fool's dream.

After pondering for a moment, Lu Chen collected his thoughts and stopped worrying about these things. Currently, he's not even an Immortal King, thinking about this is useless.

However, Lu Chen recalled another matter and immediately transmitted a message to the officials of the Great Qin Immortal Dynasty to meet at the Hall of Political Affairs.

Shortly after, the core officials of the Great Qin Immortal Dynasty gathered in the Hall of Political Affairs. Lu Chen had not convened a Great Court Assembly for a long time, as the Immortal Dynasty is not a mortal Empire; almost all matters are handled by Immortals. Unless there is a major event that might affect the dynasty, a Great Court Assembly wouldn't be held.

This made everyone curious about what major event Lu Chen was calling them for this time.

When the people were mostly gathered, Lu Chen's figure appeared on the Dragon Throne of the Hall of Political Affairs, and the hall fell silent instantly; then they bowed in unison and said, "Greetings, Your Majesty!"

Lu Chen said mildly, "No need to stand on ceremony."

Lu Chen glanced at the ministers present, noting that most had a Loyalty score of a hundred, except Thunder Serpent Immortal King and Quicksand Immortal King.

However, he held their soul sources, so even if they were unwilling, they didn't dare betray the current Great Qin Immortal Dynasty.

Lu Chen then said, "You should have heard about what happened in the Northern Domain; the Heavenly Demon Army is unstoppable, and the entire Northern Domain will soon fall."

Upon hearing Lu Chen's words, everyone present exchanged glances, thinking that the Immortal Emperor was mentioning the Northern Domain, possibly planning to respond to Azure Dragon Hall's call and send troops to the Northern Domain to join the coalition against the Heavenly Demon Army?

Upon hearing Lu Chen's words, everyone present exchanged glances, thinking that the Immortal Emperor was mentioning the Northern Domain, possibly planning to respond to Azure Dragon Hall's call and send troops to the Northern Domain to join the coalition against the Heavenly Demon Army?

## **Having children earns benefit, start competing for dominance in the world by marrying a wife**

At this moment, Thunder Serpent Immortal King directly asked, "Does Your Majesty intend to send troops northward?"

As soon as Thunder Serpent Immortal King finished speaking, an Immortal Monarch immediately said, "Your Majesty, this must not be done. The Daqin Immortal Dynasty was established less than a hundred years ago, and its foundation is unstable. If troops are sent northward at this time, the Qi Fortune of

Daqin will inevitably be weakened. How can Daqin stand in the Barbaric lands in the future?"

Lu Chen glanced at the speaking Immortal Monarch, then said blandly, "I have no plans to send troops for now, but the Heavenly Demon Army is developing at such a fast pace that we must also make preparations."

"If someday the Immortal Domain Alliance Army cannot withstand the Heavenly Demon Army moving south, then the Daqin Immortal Dynasty will inevitably be affected."

Upon hearing Lu Chen's words, some people breathed a sigh of relief. They thought their Majesty intended to respond to Azure Dragon Hall's call and send troops to the Northern Domain to fight the Heavenly Demon Army. Apparently, they were overthinking.

They did not want Lu Chen to send troops, partly because they worried about damaging the Qi Fortune of the Daqin Immortal Dynasty. After all, the enemy was the Heavenly Demon, and these troops sent out would probably never

return.

The Daqin Immortal Dynasty was established not long ago. If too many powerful individuals were lost, it would certainly affect the Qi Fortune of the Daqin Immortal Dynasty.

Of course, that was just one aspect. The most important thing was that those present feared Lu Chen would send them to the Northern Domain. Facing the Heavenly Demon Army, even Super Forces can't handle the Heavenly Demons. If they went to the Northern Domain, they would be mere cannon fodder. They didn't want to die there.

At this moment, Quicksand Immortal King asked, "What preparations does Your Majesty intend to make?"

Lu Chen then took out a Jade Scroll and said, "This is an Immortal Law that can restrain the power of the Heavenly Demon. As long as you learn this Immortal Law, when the Heavenly Demon invades in the future, the Daqin Immortal Dynasty will have the power to fight."

Upon hearing Lu Chen's words, everyone in the hall looked at each other, an Immortal Law that can restrain the power of the Heavenly Demon?

Really?

How did this Immortal Law appear in Tianyan Immortal Domain? Why don't they know about it?

Thunder Serpent Immortal King immediately asked, "Is Your Majesty serious about this?"

Lu Chen said blandly, "Do you think I'm messing with you here?"

After Lu Chen's words fell, the entire hall became silent. If what their Majesty said was true, one can only imagine the preciousness of this Immortal Law. If this Immortal Law were passed to the Immortal Domain Alliance Army, the Heavenly Demon Army's advance would surely be hindered.

Thunder Serpent Immortal King continued to ask, "Has Your Majesty considered handing this Immortal Law to the Immortal Domain Alliance Army?"

Lu Chen replied, "Giving it to them too early is not a good thing for me." Lu Chen had his ideas; he planned to let Xuan Qingyun's Heavenly Demon Army consume the forces of the various Super Forces in Tianyan Immortal Domain. He had a premonition that if he wanted to become an Immortal Emperor, he might have to absorb all the Qi Fortune of Tianyan Immortal Domain.

If his speculation proved true, then someday he would lead the Daqin Immortal Dynasty to unify the entire Tianyan Immortal Domain. But for now, the Tianyan Immortal Domain had many Super Forces with Immortal Venerates. With the current strength of the Daqin Immortal Dynasty, unifying the entire Tianyan Immortal Domain was simply impossible.

Fortunately, Xuan Qingyun was helping him a great deal.

Once those Super Forces were severely damaged, Daqin Immortal Dynasty would rise, and then one by one, he would eliminate them.

Upon hearing Lu Chen's words, everyone was a little puzzled. Why was it not a good thing to give the Immortal Domain Alliance Army the Immortal Law earlier?

If the Immortal Domain Alliance Army never finds a way to deal with the Heavenly Demon Army, wouldn't they also suffer when the Heavenly Demon Army moves south? Normally, this is the time when this Immortal Law should be taught to the Immortal Domain Alliance Army, letting those Super Forces counter the Heavenly Demon.

Lu Chen did not explain to those present. He continued, "Don't think too much, just learn this Immortal Law first, and then teach it onward. From today on, everyone in the Daqin Immortal Dynasty must learn this Immortal Law"

As he spoke, Lu Chen immediately activated the Jade Scroll in his hand, and the next moment the Jade Scroll emitted bright light, turning into dozens of light clusters flying into the eyebrows of people in the hall.

The Divine Light Thousand Lamp Scripture Lu Chen handed out was not the complete version but had been edited by him, specifically removing the parts about using Evil Power for cultivation.

If these people also possessed the ability to enhance their strength using Evil Power, they might tread the path of Evil Immortal. To prevent this, Lu Chen

directly removed those sections.

Nonetheless, even without those parts, once these people cultivated the Divine Light Thousand Lamp Scripture, they would still be able to restrain Evil Qi.

After teaching these people the Divine Light Thousand Lamp Scripture, Lu Chen blandly said, "This Immortal Law is only taught to the people of the Daqin Immortal Dynasty, and whenever it's taught, they must swear not to spread it outward, only to be taught personally by you."

The crowd replied in unison, "We will obey Your Majesty's command."

People were not foolish, knowing the importance of this Immortal Law. After all, it is the only Immortal Law capable of restraining the power of the Heavenly Demon and potentially reversing the battlefield situation in the Northern

Domain.

Lu Chen continued, "When teaching this Immortal Law, it's best not to tell anyone about its power to restrain the Heavenly Demon."

"Well, that's all for today."

As his words fell, Lu Chen's figure instantly disappeared from the spot, leaving the hall echoing with people's voices, "We bid farewell to Your Majesty!"

At the same time.

Mysterious Moon Palace, Yun Yudie's sleeping chamber.

Yun Yudie lay on Lu Chen's chest, the two still in a state of intimacy. Yun Yudie

was completely indifferent to this now.

At this time, Lu Chen spoke, "Honored Master, teach the Divine Light Thousand Lamp Scripture to all disciples of the Mysterious Moon Palace."

Upon hearing this, Yun Yudie was taken aback. Deep down, she actually had this idea, but since Lu Chen taught her this Immortal Law, a Heavenly Rank Immortal Technique, she was hesitant to teach it to others on her own accord. Lu Chen's initiative to propose this matter did surprise Yun Yudie. Yun Yudie then got up, propping her hands on either side of Lu Chen's chest, her white hair falling from fragrant shoulders cascading onto Lu Chen's chest, and she looked down into Xu Jingshu's eyes, "Are you willing?"

Lu Chen said, "The situation in the Northern Domain is not good. The Azure Dragon Hall has already asked for help from the various Super Forces, preparing for a decisive battle with the Demon Emperor in a few months."

"I feel that the Immortal Domain Alliance Army will likely be defeated in this war."

"If the Heavenly Demon Army moves south in the future, and the people of Mysterious Moon Palace and Daqin Immortal Dynasty have cultivated the Divine Light Thousand Lamp Scripture, they won't fear the Heavenly Demon Army."

Yun Yudie coldly asked, "You said the Demon Emperor was your old flame, do you worry about her attacking you?"

Lu Chen laughed and said, "I never said such a thing. I only said she is my old friend." Yun Yudie looked coldly at Lu Chen, without dwelling on this topic.

Lu Chen continued to say, "Right, although you can teach the Divine Light

Thousand Lamp Scripture to the disciples of the Mysterious Moon Palace, the content about absorbing Evil Power to enhance cultivation must be removed." Yun Yudie understood Lu Chen's meaning, simply worried the disciples of Mysterious Moon Palace would tread the path of the Evil Immortal.

## **Having children earns benefit, start competing for dominance in the world by marrying a wife**

Yun Yudie said coldly at this moment, "I thank you on behalf of everyone at the Mysterious Moon Palace."

This was no ordinary Immortal Law. Even if the Divine Light Thousand Lamp Scripture lacked the ability to counter the Heavenly Demon Power, its value was still immense simply because it was a Heaven Rank Immortal Technique,

something not everyone could learn. Yet Lu Chen was willing to impart this special Heavenly Rank Immortal Technique to everyone at the Mysterious Moon Palace.

Just for this, as the Palace Master of the Mysterious Moon Palace, she should thank Lu Chen in person, although she still harbored some resentment towards this scoundrel.

Hearing Yun Yudie's gratitude, Lu Chen responded with a smile, "Why be so polite between you and me? After all, we've come this far."

Yun Yudie remained silent. To her, one thing was separate from another. Even though she had engaged in Dual Cultivation with Lu Chen, she benefited from it as well. Since she had already gained benefits from Dual Cultivation, Lu Chen teaching the Divine Light Thousand Lamp Scripture to the Mysterious Moon Palace was another favor.

At this moment, Yun Yudie asked expressionlessly, "Is there anything else your other bodies need to do?"

Lu Chen instantly understood why Yun Yudie asked this question and immediately replied, "No."

As Lu Chen finished speaking, Yun Yudie leaned down and kissed Lu Chen, then began to perform Life is Like a Dream. Since Lu Chen had nothing else to do, he might as well focus all his thoughts on her.

And so, the two began another round of confrontations.

As time passed day by day, the day of the great decisive battle between the Azure Dragon Hall and the Heavenly Demon Army finally arrived. Now, the Immortal Domain Alliance Army had stationed millions in the Northern Domain, just waiting for the command from Dragon Soaring Immortal Venerable to launch a full-scale counterattack against the Heavenly Demon Army.

The entire Northern Domain was now shrouded in the atmosphere of war. Dragon Soaring Immortal Venerable stood on a majestic, thousand-zhang-long warship, gazing at the dense warships in the distance.

At this moment, a man wearing a purple robe suddenly appeared beside him. Dragon Soaring Immortal Venerable said casually to the man beside him, "I don't believe we can't destroy the Heavenly Demon Army of the Demon Emperor this time."

Dragon Extreme Immortal Venerate, standing next to Dragon Soaring Immortal Venerable, said, "Better to be cautious; if not absolutely necessary, I will not

make a move."

Although their titles differed by only one character, their strengths were vastly different. Dragon Extreme Immortal Venerate's power far surpassed that of Dragon Soaring Immortal Venerable, but Dragon Extreme Immortal Venerate could not act impulsively.

Dragon Extreme Immortal Venerate's life was nearing its end, and any rash actions might bring about its arrival sooner. This war would be commanded by Dragon Soaring Immortal Venerable.

With Dragon Extreme Immortal Venerate's reminder, Dragon Soaring Immortal Venerable said plainly, "Rest assured, I know my limits."

"I'm not the only Immortal Venerate in this battle."

Although the Immortal Venerates from the super forces in other realms did not arrive, just the Immortal Venerates from the forces in the Northern Domain alone already added up to over a dozen. Besides, the Azure Dragon Hall itself also had several Immortal Venerates.

Of course, Dragon Soaring Immortal Venerable also knew that the Nine Heavens Institute also had Immortal Venerates, but their number was far fewer.

At this moment, Dragon Soaring Immortal Venerable was brimming with confidence. He did not believe a Demon Emperor, who wasn't even an Immortal

Venerate, could withstand the encirclement of millions of army from the super forces of the Tianyan Immortal Domain.

Upon seeing that the time was ripe, Dragon Soaring Immortal Venerable immediately ordered the army to launch a full-scale attack on the Immortal City and forces occupied by the Heavenly Demon Army.

Once the millions of troops from the Immortal Domain Alliance Army were deployed, even the Heavenly Demon Army could only temporarily evade the edge. On the frontline battlefield, the Immortal Domain Alliance Army advanced continuously, reclaiming one Immortal City and force after another that had been occupied by the Heavenly Demon Army, making it seem as though the situation was very favorable.

In the blink of an eye, this war had lasted for five years. During this time, although the Heavenly Demon Army caused some casualties to the Immortal Domain Alliance Army, its main force remained intact.

Despite the Immortals of the Immortal Domain Alliance Army being countered by the Heavenly Demon Power, they could still achieve continuous victories, making it seem as though the outcome of this war was already predetermined. However, at this point, the Immortal Venerates in the Northern Domain began to feel nervous.

As the battle line continuously pushed forward, it wouldn't be long before they could reach the lair of the Demon Emperor, and they would soon confront the Demon Emperor. Although some Immortal Venerates verbally claimed that the

Demon Emperor now had at most the strength of an Immortal Venerate and posed no threat, most Immortal Venerates were still uncertain in their hearts.

After all, it was the Demon Emperor. Even if they won this war, some Immortal Venerates would certainly perish in this campaign, which made the Immortal Venerates even more cautious as the moment approached.

Meanwhile.

In the Mysterious Moon Palace.

In a room on the Heavenly Language Peak, Lu Chen pondered over the contents of the Jade Scroll in his hands, mulling over whether Xuan Qingyun

was truly going to lose.

According to the intelligence he gathered, although the Heavenly Demon Army had wiped out over a million from the Immortal Domain Alliance Army, its main force remained, and the experts within had yet to make their moves.

Now, practically the entire front had been pushed by the Immortal Domain Alliance Army to the vicinity of the Nine Heavens Institute. At this rate, it might

not take another twenty years for the Immortal Domain Alliance Army to breach the small world where the Nine Heavens Institute resided.

Lu Chen pondered for a moment. He felt that the Heavenly Demon Army couldn't be this weak, perhaps Xuan Qingyun was deliberately making the Heavenly Demons retreat, preparing a trap for the Immortal Domain Alliance

Army in the

front.

Lu Chen quickly affirmed this possibility. Since the Heavenly Demon Power could suppress Immortal Aura, the Heavenly Demon Army shouldn't be so weak. Even if the Immortal Domain Alliance Army managed to advance, they should have incurred some casualties; it couldn't have been this effortless. That said, if he could see that Xuan Qingyun might have set up a trap, it surely shouldn't be possible for the many Immortal Monarchs of the Northern

Domain not to notice, right?

The Heavenly Demon Army had initially made sweeping advancements, occupying nearly half of the Northern Domain in a very short time. Yet, as soon

as the Immortal Domain started its counterstrike, the Heavenly Demon Army fell apart, which seemed quite suspicious.

Lu Chen set the Jade Scroll aside, believing that with Xuan Qingyun's abilities,

even in defeat, she would be able to escape. There was no need for him to

overly worry about her safety.

Rather than being concerned for her, it was better to seize the time to improve

his own strength.

Thinking of this, Lu Chen turned his thoughts again towards Dual Cultivation

with Yun Yudie.

Before he knew it, ten years had passed. Besides the continuous advance of the

Northern Domain Alliance, nothing significant had occurred elsewhere in the Tianyan Immortal Domain during this decade.

However, during these ten years, a plan targeting the Daqin Immortal Dynasty and the Mysterious Moon Palace was quietly set in motion.

At the Hidden Moon Sect.

In Frost Moon Immortal City.

The Frost Moon Immortal King sat high in the sky above the Immortal City,

looking at the disciples of the Hidden Moon Sect before him, and then said to them, "You know what to do upon entering the Daqin Immortal Dynasty and the Mysterious Moon Palace, correct?"

The disciples replied in unison, "We understand."

Since they were to infiltrate the Daqin Immortal Dynasty and the Mysterious

Moon Palace, it was nothing more than hiding their identity. If discovered, they would immediately self-destruct.

Their soul sources were in the hands of the Frost Moon Immortal King, and even if they didn't self-destruct, being discovered meant a certain death. The Frost Moon Immortal King then said, "Since you know what to do, then set

off."

As the Frost Moon Immortal King finished speaking, the people in the sky transformed into several streams of light and left the small world of the Hidden

Moon Sect.

## **Chapter 1834 Chapter 1524: Perhaps Even the Immortal Emperor Won't Be a Match for Me in the Future**

Seeing the streaks of light in the sky, Frost Moon Immortal King thought, relying on these people, it should be possible to ascertain the situation of Daqin Immortal Dynasty and Mysterious Moon Palace.

Currently, they have already figured out most of the situation in Mysterious Moon Palace, but they cannot discern the relationship between Mysterious Moon Palace and Mysterious Moon Palace.

Although it seems Yun Yudie has separated from Mysterious Moon Palace and appears to have no relation with Mysterious Moon Palace, she was, after all, the former Saintess of Mysterious Moon Palace.

The most suspicious aspect is that after being besieged in the Southern Domain, Mysterious Moon Palace did not transfer to the Central or Eastern Domain but instead went to the most barren Barbaric area. This inevitably raises suspicion that Mysterious Moon Palace might have deliberately used the pretext of being besieged to flee to the Barbaric land.

Mysterious Moon Palace was besieged, and then fled the Southern Domain, which seems normal, but the problem lies in why they fled to the Barbaric land. Since the relationship between Mysterious Moon Palace and Mysterious Moon Palace cannot be confirmed, Frost Moon Immortal King plans to send people into Mysterious Moon Palace to investigate its internal situation. Once the internal situation of Mysterious Moon Palace is understood, the Hidden Moon Sect can then make their move.

The Hidden Moon Sect has its own matters to attend to, so they cannot reveal themselves to the world just yet.

Frost Moon Immortal King contemplated for a moment, realizing this matter needs to be reported to the Sect Leader.

Thinking thus, Frost Moon Immortal King took out a piece of moon-shaped jade, directly using immortal power to activate it. In the next moment, an old man's projection appeared before Frost Moon Immortal King.

Just a projection alone made Frost Moon Immortal King feel a terrifying pressure, breaking out in a cold sweat instantly.

Frost Moon Immortal King quickly stood and bowed to the projection of Hidden Moon Sect Leader in the sky, saying, "Greetings, Sect Leader!"

The old man's projection sat with eyes closed, asking, "What is it?"

Frost Moon Immortal King immediately organized the information concerning Mysterious Moon Palace into a Memory Pearl and presented it before the projection of Hidden Moon Sect Leader.

At this time, Hidden Moon Sect Leader still had his eyes closed as a wisp of immortal aura entered the Memory Pearl, then read the memories Frost Moon Immortal King had related to Mysterious Moon Palace.

Seeing Hidden Moon Sect Leader unresponsive, Frost Moon Immortal King continued, "I cannot ascertain the relationship between Mysterious Moon Palace and Mysterious Moon Palace, therefore I have not acted recklessly, only sending people to infiltrate Mysterious Moon Palace and Daqin Immortal Dynasty!"

Upon hearing Frost Moon Immortal King's words, Hidden Moon Sect Leader said indifferently, "You have done well. Mysterious Moon Palace already has an Immortal Venerate. If you acted rashly, not only would you fail to resolve Mysterious Moon Palace, but you would also expose Hidden Moon Sect thoroughly."

The moment Frost Moon Immortal King finished speaking, Hidden Moon Sect Leader's divine thought probed the situation in Dragon Land. Without special formations to shield one's aura, Immortal Venerates can easily sense each other. Of course, Hidden Moon Sect Leader dared to probe directly because their small world has special formations.

He can explore the outside situation, but outsiders cannot track his location through his divine sense.

Upon hearing Hidden Moon Sect Leader's words, Frost Moon Immortal King was stunned. Mysterious Moon Palace already has an Immortal Venerate?

He knew nothing of this intelligence, and suddenly felt fortunate that he did not act recklessly, only sending people to investigate the situation within Mysterious Moon Palace.

If Hidden Moon Sect were completely exposed, affecting Hidden Moon Sect Leader's plan, he might have been dealt with by Hidden Moon Sect Leader

before being killed by Xuan Yue.

Hidden Moon Sect Leader continued, "Refining the Divine Corpse is at the most critical moment, no mistakes can occur at this time. Continue observing Mysterious Moon Palace, report immediately if there is any movement."

Frost Moon Immortal King promptly replied, "Yes, Sect Leader."

As Frost Moon Immortal King finished speaking, Hidden Moon Sect Leader's projection dissipated, and Frost Moon Immortal King also breathed a heavy sigh of relief.

Meanwhile, in a small world filled with Corpse Mountain Blood Sea, a white-haired old man, sitting cross-legged in the air, opened his eyes.

In his sight were numerous giant skeletons, each spanning hundreds to thousands of lengths, yet these skeletons weren't the largest.

Behind these skeletons was a colossal head, and before this head, Hidden Moon Sect Leader looked like a speck of dust.

Just this head alone measured over a thousand lengths, not to mention the size of the body beneath. At this moment, the head's eyes suddenly opened, instantly illuminating the entire small world, as if two giant suns appeared in the sky of the small world.

Hidden Moon Sect Leader said with satisfaction, "Finally able to barely control it. Once the Divine Corpse is refined, even Immortal Emperor might not be a

match for me."

This enormous body contained terrifying power. Even using just a trace of it was enough to cause massive damage to this world. Now, he hadn't completely refined the Divine Corpse, at best able to control its eyes to open and move.

Yet even so, Hidden Moon Sect Leader was already very satisfied. After all, this was a Divine Corpse from beyond the heavens, which wasn't easily refined.

Northern Domain.

Yunling Mountain.

On a thousand-length-long warship, Dragon Soaring Immortal Venerable stood at the ship's bow, gazing at the endless mountains, smiling as he spoke, "Demon Emperor, so this is all you are."

"Once we cross Yunling Mountain, we'll be close to Demon Emperor's lair."

At this time, Dragon Soaring Immortal Venerable was full of vigor, already envisioning obtaining the chance to become emperor from Xuan Qingyun after defeating him.

However, at this moment, distant peaks suddenly began to tremble, followed by a black pillar shooting skywards, reaching ten thousand lengths in moments, surpassing the flying height of the Immortal Domain Alliance Army's warship in

an instant.

Seeing this sight, Dragon Soaring Immortal Venerable frowned, having already anticipated that there might be a trap. After all, as they were about to strike Demon Emperor's lair, the Demon Emperor couldn't be unprepared, yet Dragon Soaring Immortal Venerable chose not to worry, pressing on for the

final assault.

With the chance to eliminate Demon Emperor once and for all, he wouldn't retreat at this crucial moment due to fear of potential traps. Immediately, Dragon Soaring Immortal Venerable communicated, "Prepare for

battle!!!"

With Dragon Soaring Immortal Venerable's command, all warships of the Immortal Domain Alliance Army activated their protective arrays, readying for attack. The Immortal Venerates swiftly flew into the sky, prepared to engage at

any moment.

At this point, more black pillars emerged from the ground, encircling most of the Immortal Domain Alliance Army.

In the next moment, before people could react, the black pillars released Heavenly Demon Power, instantly forming a black barrier.

As the black barrier formed, everyone present, even Immortal Venerates, found their cultivation abruptly suppressed.

Feeling his cultivation being pressed down to the Immortal King Realm, Dragon Soaring Immortal Venerable's expression turned grim. This could not continue; even if the Demon Emperor may only possess Immortal King level strength now, he employs Heavenly Demon Power, which suppresses their immortal

power. Without surpassing the Demon Emperor by a realm, Dragon Soaring Immortal Venerable felt uncertain about defeating the Demon Emperor. Subsequently, Dragon Soaring Immortal Venerable ordered everyone to attack the black barrier.

Just as Dragon Soaring Immortal Venerable issued the order, countless Heavenly Demons emerged from underground, flooding toward the warships of the Immortal Domain Alliance Army.

## **Having children earns benefit, start competing for dominance in the world by marrying a wife**

Seeing the wave-like Heavenly Demons, the Immortal Domain Alliance Army's warships hurriedly launched an attack. For a moment, various Arrays unfolded, and beams of light shot out from the warships.

However, the number of Heavenly Demons was just too great, and these Heavenly Demons seemed to have no fear of death. In some places where the Heavenly Demons had just been cleared, more would immediately surge forward from other directions.

Seeing so many Heavenly Demons, even the Immortals of the Immortal Domain Alliance Army, who had continuously secured victories in this war, felt a tinge of fear.

At this moment, Dragon Soaring Immortal Venerable said to the other Immortal Venerates, "Let's strike together and break through this Barrier."

As Dragon Soaring Immortal Venerable's voice fell, he immediately unfolded his Law Manifestation. His Law Manifestation took the form of a golden giant dragon, towering a thousand feet high. Nevertheless, in front of the wave-like Heavenly Demons, even his Law Manifestation appeared fragile.

Dragon Soaring Immortal Venerable shouted loudly, "Azure Dragon Divine Gang Palm!!!"

Immediately after, he unleashed a powerful palm strike, which instantly

transformed into the shape of a dragon claw. The golden dragon claw collided directly with the black Barrier in the sky.

However, this strike was like a pebble thrown into the sea, having no effect on the Barrier.

Seeing this scene, Dragon Soaring Immortal Venerable's expression froze. Although the strike was merely a tentative attack, it had used sixty percent of his strength, yet it didn't leave even a crack.

This Barrier was more robust than he had anticipated, but luckily he wasn't the only Immortal Venerate present. Additionally, other Immortal Venerates were outside this Barrier, and if they all struck at once, breaking this Barrier shouldn't be too problematic.

Then Dragon Soaring Immortal Venerable gathered all his strength and shouted, "Dragon Chant Nine Heavens Technique!!!"

As his voice fell, the Dragon Body Dharma Aspect behind Dragon Soaring Immortal Venerable let out waves of dragon roars. The roar waves contained terrifying energy, transforming into substantial power visible to the naked eye and continuously striking the Barrier in the sky.

Seeing Dragon Soaring Immortal Venerable taking action, other Immortal Venerates within the Barrier also took action. Various Magics and Immortal Aura frantically collided with the black Barrier in the sky.

However, no matter how the Immortal Venerates attacked, the Barrier remained firm, without any crack appearing.

For a time, a sense of despair spread among the Immortals of the Immortal Domain Alliance Army. With so many Immortal Venerates unable to break open this Barrier, could they still escape?

At this moment, suddenly an Immortal Venerate said, "Look quickly, this Barrier seems to have become even more sturdy."

Upon hearing this, the Immortal Venerates immediately focused their attention on the Barrier, and indeed, it had reinforced itself as mentioned by that Immortal Venerate.

At this time, Dragon Soaring Immortal Venerable seemed to realize something: the Barrier could absorb the negative emotions of the Immortals of the Immortal Domain Alliance Army and fortify itself. In other words, the more fearful and terrified the Immortals became, the stronger the Barrier would be. This couldn't continue. He had to stabilize the emotions of the Immortals within the Immortal Domain Alliance Army; otherwise, they truly wouldn't be able to break this Barrier.

Thinking of this, Dragon Soaring Immortal Venerable transmitted his voice to the other Immortal Venerates, explaining that this Barrier was powered by negative emotions, and urged them to immediately stabilize the Immortals within their factions.

Upon hearing Dragon Soaring Immortal Venerable's transmitted voice, the Immortal Venerates realized what was happening. Subsequently, some of the Immortal Venerates stopped continuing their assault on the Barrier and instead went to aid the army's Immortals, defending against the wave-like Heavenly Demons.

Though even with the full efforts of the Immortal Venerates, they couldn't break the Barrier, Immortal Venerates were indeed Immortal Venerates. When they acted, large swaths of Heavenly Demons were turned to ash. For a moment, all Heavenly Demons within the Barrier were cleared away. Seeing the Heavenly Demons being instantly cleared by the Immortal Venerates, the confidence of the Immortals in the Immortal Domain Alliance Army soared. The thought that as long as so many Immortal Venerates were present, no matter how many Heavenly Demons there were, they couldn't be their match warmed their hearts.

At this time, upon seeing that the Barrier of the Great Array was no longer being reinforced, Dragon Soaring Immortal Venerable immediately transmitted a voice to those Immortal Venerates, saying, "Transfer your power to me!"

Upon hearing Dragon Soaring Immortal Venerable's voice transmission, the Immortal Venerates present didn't hesitate at all and unanimously transferred their immortal power to Dragon Soaring Immortal Venerable.

In no time, the immortal power within Dragon Soaring Immortal Venerable's body surged. The Dragon Body Dharma Aspect behind him also swelled several thousand feet. At this moment, Dragon Soaring Immortal Venerable gathered all his strength.

"Dragon Soul Heavenly Venerate Curse, Break!!!"

A golden "Break" character spat out from Dragon Soaring Immortal Venerable's mouth, and then it expanded a thousand times, rushing directly towards the black Barrier in the sky.

When this "Break" character contacted the black Barrier, the black Barrier finally trembled, and a several-hundred-foot crack was opened.

But this was still far from enough. Dragon Soaring Immortal Venerable continued gathering immortal power, "Azure Dragon Divine Gang Palm!!!" Another palm strike launched, a dragon claw aiming once more at the crack that had appeared, about to shatter the Barrier. However, at this moment, countless more Heavenly Demons suddenly surged from underground. These Heavenly Demons didn't attack those Immortal Venerates or Immortal Kings; they specifically targeted those Immortals with lower Realms. Additionally, the Heavenly Demons emerging this time were stronger than the previous ones, each with an aura at least at the True Immortal Realm. Adding their innate Heavenly Demon Power that inherently restrained Immortals'

Immortal Aura made their actual combat power reach the level of Golden Immortals.

Seeing this scene, the expressions on the Immortal Venerates' faces turned very serious. Continuing like this, as despair spread among the army's Immortals, the Barrier would likely become even firmer, and the cracks they had painstakingly opened would quickly mend.

Just as the Immortal Venerates worried about the cracks mending, sure enough, the cracks in the black Barrier in the sky started to shrink

continuously.

Dragon Soaring Immortal Venerable immediately transmitted his voice to those

Immortal Venerates, instructing them to help clear out the emerging Heavenly

Demons.

Subsequently, except for the Immortal Venerates from the Azure Dragon Hall, the other Immortal Venerates began to clear the Heavenly Demons on the

ground once more.

Though the quantity and strength of this wave of Heavenly Demons had both increased, Immortal Venerates being Immortal Venerates, they acted decisively. In just a moment's time, the Heavenly Demons on the ground were cleared

once again.

In fact, even without requiring these Immortal Venerates' intervention, the strength of the Immortal Domain Alliance Army was sufficient to clear out these Heavenly Demons. However, this would end up costing many lives in the Immortal Domain Alliance Army, and most importantly, instill panic and despair among the army's Immortals.

Initially, having more people was advantageous for the Immortal Domain

Alliance Army, but under present circumstances, it had instead become a

weakness.

At this point, the Immortal Venerates also realized why their initial counterattack had gone so smoothly. It turned out that the Demon Emperor had been waiting for them to gather together.

Meanwhile, outside the Chaos Evil Thought Array.

Above the black Barrier, a black warship manifested from Heavenly Demon

Power quietly hovered, with Xuan Qingyun standing on it, impassively watching

the Immortal Domain Alliance Army forces not covered by the black Barrier in

the distance.

At this very moment, the Immortals outside the Barrier, feeling the terrifying pressure emanating from Xuan Qingyun, did not dare to move.

## **Having children earns benefit, start competing for dominance in the world by marrying a wife**

Outside the Chaos Evil Thought Array, an elderly man with white hair appeared outside the Immortal Domain Alliance Army. His expression was exceedingly grave as he looked at the black barrier before him.

Everyone had guessed that the Demon Emperor would lay a trap at the decisive battle, but even so, they chose to launch an offensive to completely eradicate the threat posed by the Demon Emperor.

Originally, they believed that with the strength of their many Immortal Venerates, even if they encountered the Demon Emperor's trap, it wouldn't have much impact on them. Now, however, it seemed they had underestimated the Demon Emperor.

The Dragon Extreme Immortal Venerate stared at the array barrier before him. The Heavenly Demon Power emanating from the barrier made this veteran Immortal Venerate feel a slight tremor in his heart.

Moreover, he could clearly sense that the array seemed to be constantly strengthening. He immediately identified the source of power for the array; it was evident that the array drew power from the negative emotions of the Immortal Domain Alliance Army.

The more fearful and despairing the Immortals inside the barrier became, the stronger the barrier itself grew.

The Dragon Extreme Immortal Venerate thought to himself that it looked like he had no choice but to intervene.

Wearing an outfit with a white base and black edges, Xuan Qingyun flew into the air. Subsequently, a mysterious black power suddenly surged from the barrier

below, rushing directly into Xuan Qingyun's body, and with this power, her strength rapidly restored.

The Chaos Evil Thought Array beneath her was not merely meant to trap the Immortal Domain Alliance Army; it had many functions. First, it absorbed negative emotions to reinforce the barrier. Beyond this, the array could continuously release evil thoughts, affecting the emotions of the immortals inside the barrier, stirring their inner evil thoughts and amplifying their negative emotions.

Most importantly, when the negative emotions of the immortals in the Chaos Evil Thought Array were absorbed, they transformed into Heavenly Demon Power, which flowed into Xuan Qingyun's body, thereby helping Xuan Qingyun swiftly restore her cultivation state.

Xuan Qingyun had been waiting for the Immortal Domain Alliance Army to gather precisely for this moment. In just a blink, Xuan Qingyun's cultivation state quickly restored to the pinnacle of Immortal Venerate.

Feeling the oppressive force on Xuan Qingyun's body rapidly rising, the Dragon Extreme Immortal Venerate's expression instantly changed dramatically as he promptly discerned the true role of the array.

The Dragon Extreme Immortal Venerate hesitated no longer and directly released his Dragon Body Dharma Aspect.

Then, the dragon claws of the Dragon Body Dharma Aspect behind him raised and directly struck towards Xuan Qingyun, who was absorbing the Heavenly Demon Power, "Dragon Abyss Shattering Claw!!!"

The dragon claws of the golden dragon dharma aspect descended,

accompanied by a thunderous sound of shattering space, and the surrounding space issued a sound like cracked glass.

As the dragon claws were about to strike Xuan Qingyun's body, Xuan Qingyun merely raised her head, her eyes transformed into an entire blackness in an instant. The next moment, the Heavenly Demon Power on her body surged out, forming a giant palm that immediately blasted upward towards the dragon claw.

The collision of two formidable powers instantly generated a fierce explosion; however, upon contact with the Heavenly Demon Power, the Dragon Body Dharma Aspect of the Dragon Extreme Immortal Venerate instantly suffered corrosion from the Heavenly Demon Power, and the originally radiant golden dharma aspect gradually became extremely illusory.

The expression of the Dragon Extreme Immortal Venerate grew more grave. It was his first strike, but his dharma aspect had already suffered such severe damage. If it happened several more times, he might be destroyed in both spirit and soul.

Is this the Demon Emperor's strength?

It seems I must use that power.

Thinking of this, the Dragon Extreme Immortal Venerate shouted loudly, "Dragon God Bloodline, activate!!!"

As the words fell, a violent force instantly filled the Dragon Extreme Immortal Venerate's whole body. Subsequently, the golden dragon dharma aspect behind him also turned blood red and became more solid.

Sensing the violent force emanating from the Dragon Extreme Immortal Venerate, a trace of surprise finally appeared on Xuan Qingyun's previously calm face. She instantly realized that the force on the Dragon Extreme Immortal Venerate didn't belong to the Tianyan Immortal Domain.

Soon, Xuan Qingyun reverted to a blank expression; even if the force used by the Dragon Extreme Immortal Venerate didn't belong to this world, how could it matter? The Heavenly Demon Power she wielded also didn't belong to this

world.

Then, the two Immortal Venerates began to go all out. As they struck, everything around them was leveled to the ground, except for the Chaos Evil Thought Array.

The immortals of the Immortal Domain Alliance Army outside had no choice but to distance themselves from the battle to avoid being affected. This battle was fought with all their might; the sky and earth changed colors, and space constantly shattered and repaired. Everywhere they fought was filled with fragmented terrain.

Between Immortal Venerates, unless the power was overwhelmingly dominant, it was difficult to determine a victor in a short amount of time. After activating the Dragon God Bloodline and using the Dragon God Power, Xuan Qingyun's Heavenly Demon Power could no longer suppress the force on the Dragon Extreme Immortal Venerate's body, putting them in a state of balance. This battle lasted for decades. If it weren't for the constant restoration of the world power of the Tianyan Immortal Domain, the center of the battlefield would have been torn apart long ago.

Their battle was such that other Immortal Venerates could hardly intervene, nor did anyone dare. Upon learning that the Immortal Domain Alliance Army fell into a trap, various forces within the alliance once again sent Immortal Venerates personally to the Northern Domain to investigate. But upon witnessing the two ferocious, vicious powers continuously clashing at the center of the battlefield, they were too frightened to approach.

The battle between the Demon Emperor and the Dragon Extreme Immortal Venerate quickly spread throughout the Tianyan Immortal Domain. Upon hearing that the Demon Emperor and the Dragon Extreme Immortal Venerate were evenly matched, some were pessimistic, while others believed that since the Dragon Extreme Immortal Venerate could go head-to-head with the Demon Emperor, the Demon Emperor was no more than this.

In the eyes of the pessimists, the Demon Emperor hadn't fully restored his strength yet and was already so formidable. If the Demon Emperor further restored his cultivation state, no one in the Tianyan Immortal Domain might be

able to challenge him.

However, the optimists believed that since the Dragon Extreme Immortal

Venerate alone could hold his own against the Demon Emperor, if all the Immortal Venerates of the Tianyan Immortal Domain joined forces, perhaps the Demon Emperor wouldn't be an unbeatable opponent.

Mysterious Moon Palace.

Heavenly Language Peak, Lu Chen's Cultivation Cave Mansion.

Lu Chen sat cross-legged on a stone bed, using immortal power to activate the jade scroll in his hand. After reading the intelligence within, a slight notion stirred in him to go to the Northern Domain for a look.

He had spent these decades tirelessly dual cultivating with Yun Yudie, yet there

was no sign in Yun Yudie's belly, leading him to doubt whether it was due to his own cultivation state being insufficient.

This rumor circulated in the Tianyan Immortal Domain, suggesting that if there

was a significant gap in realm between immortals, the difficulty of spawning offspring would increase.

Thus, Lu Chen planned to focus his efforts on Cao Shiyun and the others. Having reached Golden Immortal himself while Cao Shiyun and the others were True Immortals, perhaps it would be more likely for them to conceive.

Of course, Lu Chen hadn't given up on Yun Yudie either. To him, it was merely a

matter of controlling one more physical body.

Compared to spawning offspring, Lu Chen was now more eager to go to the Northern Domain and see the commotion.

According to collected intelligence, the battle between Xuan Qingyun and the Dragon Extreme Immortal Venerate was fierce beyond measure. If not for the robust world power of the Tianyan Immortal Domain, the entire Northern

Domain might have fallen apart.

After

moment of contemplation, Lu Chen then created a physical body, thinking to himself that if Xuan Qingyun truly lost, perhaps his chance would come. Presently, only one Immortal Venerate had acted against Xuan Qingyun; if other Immortal Venerates joined, Xuan Qingyun might not be their match. Lu Chen now harbored a certain hopeful mindset.

## **Chapter 1837 Chapter 1527: If We Join the Battle, Who Should Be Sent to the Northern Domain?**

Lu Chen was not worried that Xuan Qingyun would die. In his view, even if Xuan Qingyun was defeated, he had the power to protect himself, and escaping would not be a problem.

At worst, he could directly flee to the Chaotic Sea.

After creating a new body, Lu Chen then controlled it to travel to the Northern Domain.

It would take some time to travel from the Central Domain to the Northern Domain, but he was confident that even if he used the Immortal Ship to fly to the Northern Domain, the battle between Dragon Extreme Immortal Venerate and Xuan Qingyun would still not be over. Although their battle had lasted for decades, both sides seemed to still have ample strength, and expecting it to end in the next few years was unlikely.

Meanwhile, inside the Chaos Evil Thought Array.

Dragon Soaring Immortal Venerable looked at the barrier above with an extremely gloomy expression. He did not expect that after decades, several Immortal Venerates still had not broken through this barrier.

Now they had discovered other functions of this barrier. More and more Immortals from the Immortal Domain Alliance Army were attacking other Immortals, and fear and despair were spreading in the hearts of the Immortals.

Even these Immortal Venerates were affected by this formation. Some Immortal Venerates even thought that if they killed all the Immortals of the Immortal Domain Alliance Army, would the power maintaining this formation completely disappear, and they could finally leave this damned place.

The Immortal Domain Alliance Army itself was not entirely unified. It could be said that before the return of the common enemy, the Demon Emperor, there were various conflicts among the different super forces within the Alliance.

If it were not for the common enemy of the Demon Emperor, and the lead of several super forces in the Immortal Domain, those forces might not have united.

Under the influence of the Chaos Evil Thought Array, the evil thoughts in the hearts of the Immortals were magnified, making those forces, which originally had conflicts, more discontent with each other. Some forces even began to engage in large-scale battles, making the entire Immortal Domain Alliance Army more chaotic.

The number of Heavenly Demons was endless. Even with the help of Immortal Venerates to clear them, the Heavenly Demons quickly reappeared. Although decades were not a long time for Immortals, in such a high-pressure situation with no hope in sight, even Immortals felt as if decades were lasting for billions of years.

Dragon Soaring Immortal Venerate used his Divine Thought to scan the situation of the Immortal Domain Alliance Army and found that most people's mental states were poor.

He even had the thought of eliminating all these Immortals. Without these Immortals, there would be no negative emotions, and thus the power source maintaining this barrier would be cut off.

Dragon Soaring Immortal Venerate made an effort to calm his emotions and then transmitted his voice to other Immortal Venerates, telling them to stabilize their minds and restrain their inner evil thoughts.

Dragon Soaring Immortal Venerate believed that, at a critical moment, the Dragon Extreme Immortal Venerate outside would take action. Dragon Extreme Immortal Venerate was far more powerful than he was. If Dragon Extreme Immortal Venerate took action, the current Demon Emperor might not be a match for him, considering Dragon Extreme Immortal Venerate had power that did not belong to this world.

What Dragon Soaring Immortal Venerate did not realize was that Dragon Extreme Immortal Venerate was already engaged in combat with Xuan Qingyun, and their battle had been ongoing for decades.

The Immortals trapped in the Chaos Evil Thought Array had become Xuan Qingyun's source of power. Whenever Xuan Qingyun's power was nearly exhausted, he would replenish his strength through the Chaos Evil Thought Array.

But Dragon Extreme Immortal Venerate was different. The power within him did not belong to this world. Most importantly, that power within him could not be replenished; using a bit would decrease it a bit. After fighting Xuan Qingyun for decades, he had already consumed a large amount of Dragon God's Power.

In the foreseeable future, if Dragon Extreme Immortal Venerate and Xuan Qingyun continue to consume their power like this, the one who will undoubtedly be defeated is Dragon Extreme Immortal Venerate.

At this moment, Dragon Extreme Immortal Venerate also realized this. However, his strength was not vastly different from Xuan Qingyun's, and Xuan Qingyun might even be slightly stronger than him. If he relied solely on himself, it would be very challenging to defeat Xuan Qingyun.

Dragon Extreme Immortal Venerate was already somewhat anxious. He had sensed that his own Life Force was nearly depleted. His lifespan was nearing its end, and his life was primarily sustained by the Dragon God's Power. Now that the Dragon God's Power was nearly exhausted, his lifespan would naturally approach its end sooner.

If he were to be defeated, those trapped in the formation would likely never come out. However, although Dragon Extreme Immortal Venerate was somewhat agitated, his strength was limited to what it was, and forcibly enhancing his strength was almost impossible, unless he chose to burn his Divine Soul. But if he truly did that, he would fall within ten years.

Meanwhile.

Mysterious Moon Palace.

Main peak, Yun Meng Hall.

Wearing the Seven-Colored Radiant Skirt, Immortal Venerable Yun Meng sat on

a chair made of Seven-Colored Immortal Crystals, her gaze fixed on the

projection replaying within the great hall.

Several Immortal Venerates and more than ten Immortal Kings were gathered in the hall, all eyes focused on the replaying projection.

The projection showed the scene recorded by the Immortals of the Immortal Domain Alliance Army, depicting the battle between Dragon Extreme Immortal Venerate and Xuan Qingyun.

Seeing the land shattered and space torn in the images, everyone present fell

into silence; no one spoke.

After an unknown amount of time, Immortal Venerable Yun Meng finally spoke, "The Demon Emperor's recovery speed is faster than we anticipated. If we continue to let it slide, by the time the Ancestor awakens, the Demon Emperor's cultivation will have fully recovered."

Right now, Xu Jingshu's child is yet to be born, and even if the child is born, nurturing will take decades or even a hundred years before it can serve as a suitable reincarnation vessel for Immortal Emperor Youlan.

Meanwhile, the power the Demon Emperor now displays has already far surpassed that of a typical Immortal Venerate. It's worth noting that Dragon Extreme Immortal Venerate's strength ranks among the top in the Tianyan Immortal Domain. If not for his nearing end, the standing of the Azure Dragon Hall in the Tianyan Immortal Domain would be even higher. After all, when the Demon Emperor left back then, it was the Azure Dragon Hall that led the Immortal Domain powers in overthrowing the rule of the Nine Heavens

Institute.

The most crucial point is that the power used by Dragon Extreme Immortal Venerate clearly does not belong to this world. His power is not suppressed by the Heavenly Demon Power, and even when not restrained, he is still unable to harm the Demon Emperor, who only grows stronger with each fight.

Considering the current situation, there can only be one outcome for the battle between the Demon Emperor and Dragon Extreme Immortal Venerate: Dragon Extreme Immortal Venerate falls, and the Demon Emperor claims ultimate

victory.

If the Demon Emperor absorbs Dragon Extreme Immortal Venerate's power, she will likely become even stronger, and her recovery in cultivation will

accelerate.

This is certainly not good news for the Mysterious Moon Palace. Immortal Venerable Yun Meng gathered the Peak Masters to discuss how to deal with the

Demon Emperor.

Initially, they didn't think much of the Demon Emperor, since their own Mysterious Moon Palace had an Immortal Emperor. However, the rapid recovery rate of the Demon Emperor has given rise to their concerns. At this moment, one of the Immortal Venerates said, "The Palace Master is

right; we cannot allow the Demon Emperor to continue growing unchecked. Yet, if we are to intervene, who should we send to the Northern Domain?"

# Having children earns benefit, start competing for dominance in the world by marrying a wife

The Immortal Venerates of the Mysterious Moon Palace are not concerned about whether they will participate in the war; they are concerned about who will go to the Northern Domain.

There are so many Immortal Venerates, it's not possible for all of them to head to the Northern Domain, right?

As for Immortal Venerable Yun Meng, she is the Palace Master, and she must oversee the Mysterious Moon Palace, so she definitely will not go to the Northern Domain.

Thus, the Immortal Venerates going to the Northern Domain will be selected from among the Peak Masters.

The Immortal Venerates present are not willing to confront the Demon Emperor directly. On one hand, their powers are restrained by the Heavenly Demon Power. Moreover, from what has been seen from the battle between the Demon Emperor and Dragon Extreme Immortal Venerate, the Demon Emperor's strength far

exceeds most of the Immortal Venerates present, making it likely for them to fall in the Northern Domain if they were to confront him.

At this time, the Immortal Venerates present cast glances at one another. Meanwhile, Immortal Venerable Yun Meng spoke up: "I know none of you wish to go to the Northern Domain, so I have decided on a draw of lots."

Upon hearing this, everyone was momentarily stunned. A draw of lots is certainly a decent method. While some Immortal Venerates can calculate future events, with ordinary draws, they could foresee the results in advance. However, Immortal Venerable Yun Meng has a very strong ability to shield the Heavenly Mechanism, making it impossible for the Immortal Venerates to peek into the results of the draw she leads.

At this moment, with a graceful wave of her jade hand, a lottery tube emitting a colorful glow appeared in the hall.

Sky Eagle Immortal Venerate was the first to raise his hand. With a distant grasp, a jade lot fell into his hand, which revealed nothing upon it.

Seeing the blank lot, Sky Eagle Immortal Venerate breathed a sigh of relief, and the other Immortal Venerates began drawing lots as well.

Soon, only Heavenly Language Immortal Venerable remained, yet all other lots showed no words. Seeing this, Heavenly Language Immortal Venerable already knew the outcome without drawing a lot.

Heavenly Language Immortal Venerable slightly furrowed her brows and then raised her hand, allowing the last jade lot to fall into her hand, which indeed had "Go to Northern Domain" written at the bottom.

Seeing that Heavenly Language Immortal Venerable drew the lot, some Immortal Venerates present couldn't help but rejoice in her misfortune, as the Saintess has always come from the Heavenly Language Peak, making those Immortal Venerates already somewhat displeased with Heavenly Language Immortal Venerable.

At this moment, Immortal Venerable Yun Meng spoke again: "Since the Heavenly Language Peak Master drew the lot, the Heavenly Language Peak Master should prepare accordingly; depart for the Northern Domain in six months."

Heavenly Language Immortal Venerable bowed and replied: "Yes, Palace Master."

Heavenly Language Immortal Venerable didn't know if this was by chance or if Immortal Venerable Yun Meng intentionally orchestrated this, but since she drew the lot, she could only head to the Northern Domain.

Immortal Venerable Yun Meng then continued, "Today ends here. I will later announce publicly that the Mysterious Moon Palace, starting today, joins the Immortal Domain Alliance Army to jointly crusade against the Demon Emperor."

Everyone responded in unison, "Yes, Palace Master."

Subsequently, the Immortal Venerates dispersed, but after everyone left, Heavenly Language Immortal Venerable remained in the hall. She directly asked, "Palace Master, was the result of this lot orchestrated by you, or did I truly draw it?"

Heavenly Language Immortal Venerable was curious about this point: how it happened that she, drawing last, ended up with the lot to go to the Northern Domain.

Given Immortal Venerable Yun Meng's capabilities, manipulating the lot result would certainly be within her ability. But if she had truly intended to manipulate the result, why bother with the draw? She could have simply designated her directly.

Perhaps it was due to her own unwillingness to go, hence she orchestrated this elaborate draw.

Upon hearing the question, Immortal Venerable Yun Meng calmly replied, "Since it was a draw, then naturally it relies on fortune."

Immortal Venerable Yun Meng then recalled something and continued, "However, before you drew the lot, I indeed foresaw the result of the draw." Heavenly Language Immortal Venerable sighed inwardly and then prepared to leave the hall and return to Heavenly Language Peak to make preparations. At that moment, Immortal Venerable Yun Meng continued, "Did you not notice that after you drew the lot, your Qi Fortune suddenly enhanced substantially?" Upon hearing this, Heavenly Language Immortal Venerable was slightly stunned and then examined her Qi Fortune. It turned out her Qi Fortune had indeed increased significantly.

This means that heading to the Northern Domain, rather than encountering danger, she might encounter some fortuitous opportunity?

But confronting the Demon Emperor directly, how could there be an opportunity? This left Heavenly Language Immortal Venerable feeling

somewhat puzzled.

Immortal Venerable Yun Meng was similarly bewildered by why Heavenly Language Immortal Venerable's Qi Fortune increased after drawing the lot to go to the Northern Domain. Regarding the Immortal Venerable's opportunities, even she finds it hard to deduce the result.

Nevertheless, this indicates that Heavenly Language Immortal Venerable is likely not in danger in the Northern Domain, making her dispatch very suitable.

Immortal Venerable Yun Meng continued, "Heading north this time, you should avoid danger. If unable to withstand the Demon Emperor, you may directly return to the Central Domain."

Heavenly Language Immortal Venerable responded, "I understand."

"If the Palace Master has no other matters, I will return to prepare."

"Alright."

Following Immortal Venerable Yun Meng's words, Heavenly Language Immortal Venerable's body vanished in place.

After Heavenly Language Immortal Venerable departed, Immortal Venerable Yun Meng gazed solemnly in the direction of the Heavenly Language Peak. She could glimpse some future events in her dreams. Over recent days, she frequently saw the figure of a man in these dreams, a man wielding a longsword, standing amidst the void, confronting the eerie black mist engulfing the entire Tianyan Immortal Domain.

She did not clearly see the man's face, but for some reason, she sensed the man's silhouette strikingly resembled that of Lu Chen's silhouette. Moreover, Lu Chen's Qi Fortune is inherently very abundant, substantiating her vision as

likely being Lu Chen.

Immortal Venerable Yun Meng had a vague feeling that Heavenly Language Immortal Venerable's fortuitous encounter might be related to Lu Chen.

If this is truly the case, then she may need to consider selecting a different

Saintess.

Immortal Venerable Yun Meng suddenly thought of something, and promptly transmitted a message to Heavenly Language Immortal Venerable, "Heavenly Language Peak Master, have Chen Lu come to me at the Main Peak."

Upon hearing Immortal Venerable Yun Meng's transmission, Heavenly Language Immortal Venerable, just returned to the Heavenly Language Peak, paused for a moment. Again summoning Chen Lu to the Main Peak? What is this for? If she remembered correctly, previously Immortal Venerable Yun Meng had summoned Chen Lu to the Main Peak, where he stayed for a long

period.

Though curious, Heavenly Language Immortal Venerable did not ask further. She then transmitted a message to Lu Chen, instructing him to proceed to the Main Peak immediately.

Upon receiving Heavenly Language Immortal Venerable's transmission, Lu Chen prepared to head to the Main Peak. Suddenly, his vision turned dark, and as it cleared, he found himself already inside Immortal Venerable Yun Meng's Yun Meng Hall without needing to come over personally.

Lu Chen, neither humble nor arrogant, directly asked, "May I inquire why the Palace Master seeks me?"

Immortal Venerable Yun Meng replied, "We have decided to join the Immortal Domain Alliance Army to head north and confront the Demon Emperor." Upon hearing this, Lu Chen, puzzled, asked, "Why is the Palace Master telling

me this?"

Though his identity is indeed special, he is merely a direct disciple in the Mysterious Moon Palace. Such matters concerning the Immortal Sect would not necessitate notifying a single disciple, would it?

Could it be, Immortal Venerable Yun Meng has discovered some connection between Xuan Qingyun and him? Hence deliberately reminding him, seeking to discern if there is any secret involvement between him and Xuan Qingyun?

Is this a test? Thinking this, Lu Chen quickly opened the system to review Immortal Venerable Yun Meng's profile. At this point, Immortal Venerable Yun Meng's profile has altered.

Seeing the profile of Immortal Venerable Yun Meng, Lu Chen thought to himself, so that's how it is. I wonder what exactly Immortal Venerable Yun Meng saw in her dreams.

At that moment, Immortal Venerable Yun Meng continued speaking, "This time, representing the Mysterious Moon Palace going to the Northern Domain is your honored master, Immortal Venerable Tianyu."

Hearing this, Lu Chen was slightly stunned, but he quickly regained his composure and continued to ask, "I still don't understand what the Palace Master is trying to say."

Immortal Venerable Yun Meng directly said, "If you have a method to restrain the Heavenly Demon Power, presumably you would teach it to your honored master, right?"

Hearing these words, Lu Chen finally realized that Immortal Venerable Yun Meng still believed he possessed a method to restrain the Heavenly Demon Power, although he indeed had an Immortal Law that could restrain the Heavenly Demon Power.

Lu Chen said, "Is the Palace Master so sure that I have a method to restrain the Heavenly Demon Power?"

Immortal Venerable Yun Meng said, "I sent someone to the Southern Domain to investigate. When you faced three Evil Immortal Kings, you crushed them with your power alone. This indicates that the power you used can indeed restrain Evil Qi."

Lu Chen smiled and said, "Being able to restrain Evil Qi doesn't mean it can restrain the Heavenly Demon Power. Evil Qi is no match for the Heavenly Demon Power"

Immortal Venerable Yun Meng said, "Before finding a method to restrain the Heavenly Demon Power, any possibly useful method must be tried."

Lu Chen said, "I understand. I will have my clone accompany my honored master to the Northern Domain.""

Hearing Lu Chen's words, Immortal Venerable Yun Meng continued, "If the method you provide proves useful, I can grant you one request."

Lu Chen immediately asked, "Is the Palace Master's word true?"

Immortal Venerable Yun Meng said, "As long as it is within my power."

Lu Chen then said, "Then replace the Saintess with someone else. I don't want my daughter to become the Saintess."

Hearing Lu Chen's words, Immortal Venerable Yun Meng's brows slightly furrowed.

It's known that the position of Saintess in the Mysterious Moon Palace is quite high, with ample resources. Moreover, since it's Lu Chen's daughter, the higher her position in the Mysterious Moon Palace, the higher Lu Chen's position would be in the palace. If it were an ordinary person, they would definitely wish for their daughter to become the Saintess.

But Lu Chen is unwilling. Could it be that he discovered something and knows that the Saintess has another role in the Mysterious Moon Palace?

If Lu Chen's background is not simple, then he might indeed know some things about the Mysterious Moon Palace.

Seeing Immortal Venerable Yun Meng fall silent, Lu Chen continued, "Being the Saintess of the Mysterious Moon Palace isn't that easy!"

Immortal Venerable Yun Meng looked at Lu Chen coldly and asked, "What do you know?"

The matters concerning Immortal Emperor Youlan are core secrets of the Mysterious Moon Palace. Such things must not be leaked out. If someone with intentions found out, some forces might find ways to prevent Immortal Emperor Youlan from living a second life.

Lu Chen said calmly, "Although the position of Saintess is high, it is both bitter and tiring. I just want my child to grow up happily!"

Hearing Lu Chen's words, Immortal Venerable Yun Meng was once again startled. Could it be that she was overthinking it? Lu Chen doesn't want his daughter to be the Saintess just because he doesn't want her to lead a tiring life?

Immortal Venerable Yun Meng said, "We'll discuss this later."

Seeing that Immortal Venerable Yun Meng did not agree directly, Lu Chen asked, "Does the Mysterious Moon Palace have to have a Saintess?"

Immortal Venerable Yun Meng answered indifferently, "This doesn't concern you. You may make another request."

Lu Chen said, "I only have this one request. If the Palace Master doesn't agree, then never mind."

Immortal Venerable Yun Meng's brows slightly furrowed, her expression becoming serious. She increasingly felt that Lu Chen knew something. She even considered using a Soul Searching Technique on him.

However, she could sense that Lu Chen was in a state of consciousness detachment. The body in front of her was not the main body, and his Divine Soul seemed not to be present. If she really used a Soul Searching Technique on him, she would not only fail to Soul Search him but would also completely fall out with Lu Chen, and she would never obtain the method to restrain the Heavenly Demon Power.

Most importantly, Lu Chen was likely the person who could counter future disasters. Just thinking of this made her not dare to completely offend Lu Chen.

Immortal Venerable Yun Meng thought to herself that she would have to find a new body for her honored master's reincarnation.

With that thought, Immortal Venerable Yun Meng said, "I can temporarily agree with you. Until a new Saintess is found, the child in Xu Jingshu's belly will remain as the Saintess. If someday there is another suitable candidate for the Saintess, the Mysterious Moon Palace will have a different Saintess." Hearing Yun Meng Xianzun's response, Lu Chen said, "Then I hope the Palace Master will keep her word. I believe with the vast size of the Tianyan Immortal Domain, the Mysterious Moon Palace will surely find someone suitable to be

the Saintess."

Immortal Venerable Yun Meng asked, "Are you now willing to teach Immortal Venerable Tianyu the method to restrain the Heavenly Demon Power?"

Lu Chen said calmly, "I will also go to the Northern Domain. At that time, I will directly tell Immortal Venerable Tianyu the method to restrain the Heavenly Demon Power."

Hearing Lu Chen's words, Immortal Venerable Yun Meng increasingly felt that Immortal Venerable Tianyu's opportunity was related to Lu Chen. However, since Lu Chen had already agreed, she had nothing more to say.

Then Immortal Venerable Yun Meng said, "I hope you will keep your promise. If Immortal Venerable Tianyu can hold off the Demon Emperor and return to the Mysterious Moon Palace alive, the credit will be yours."

"That's all for today"

With that, Immortal Venerable Yun Meng immediately used Space

Teleportation to send Lu Chen back to Heavenly Language Peak.

When Lu Chen returned to his room, Immortal Venerable Tianyu suddenly appeared inside. The last time Immortal Venerable Yun Meng sought Lu Chen, Immortal Venerable Tianyu was already very curious. This time, with Immortal Venerable Yun Meng looking for him again, Immortal Venerable Tianyu really wanted to know why she was seeking Lu Chen at this time.

Seeing Immortal Venerable Tianyu in his room, Lu Chen immediately saluted and asked, "Greetings Honored Master, may I ask why you have come to this disciple's room?"

Immortal Venerable Tianyu directly asked, "What did the Palace Master want

with you?"

Hearing Immortal Venerable Tianyu's question, Lu Chen thought for a moment. He did not intend to hide it, as he would teach the Divine Light Thousand Lamp Scripture to Immortal Venerable Tianyu once they reached the Northern

Domain.

Lu Chen replied, "The Palace Master said that Honored Master is going to the Northern Domain to confront the Demon Emperor. She wants me to teach Honored Master the method to restrain the Heavenly Demon Power" Hearing Lu Chen's response, Immortal Venerable Tianyu was momentarily stunned. She could

understand every word Lu Chen said, yet putting them together, she felt she didn't understand them.

Chen Lu has a method to restrain the Heavenly Demon Power?

What a joke.

So far, even the Super Forces haven't found a method to restrain the Heavenly

Demon Power. Instead, their Immortal Aura would be suppressed by the

Heavenly Demon Power.

Even those Super Forces lack a method to restrain the Heavenly Demon Power,

so how could this disciple possibly have one?

# Having children earns benefit, start competing for dominance in the world by marrying a wife

Heavenly Language Immortal Venerable has now realized that Immortal

Venerable Yun Meng approached Chen Lu twice and talked to him alone, which is unlikely to be just for Xu Jingshu's matter.

Furthermore, Chen Lu also stated that Immortal Venerable Yun Meng sought him to obtain a method from him to restrain the Heavenly Demon Power, and Heavenly Language Immortal Venerable does not believe her disciple would trifly with her.

Since Chen Lu has mentioned that Immortal Venerable Yun Meng sought him for the method to restrain the Heavenly Demon Power, it is most likely true, but the question is, where did Chen Lu get this method from?

Could it be that Immortal Venerable Yun Meng misunderstood something? Or perhaps, Chen Lu's origin is quite extraordinary.

At this point, even a fool would realize that Chen Lu's identity might be problematic.

Thinking of this, Heavenly Language Immortal Venerable turned to look at Lu Chen, and asked sternly: "Do you have a method to restrain the Heavenly Demon Power?"

She is representing the Mysterious Moon Palace to go to the Northern Region, and is likely to face the Demon Emperor directly. If she could obtain a method to restrain the Heavenly Demon Power, even if she isn't a match for the Demon Emperor, she should have the power to put up a fight; at least retreating unscathed should not be a big problem.

However, after asking this question, even Heavenly Language Immortal Venerable felt she might be overthinking, how could Chen Lu possibly have a method to restrain the Heavenly Demon Power.

At this moment, Lu Chen spoke: "Disciple indeed has an Immortal Law that can restrain the Heavenly Demon Power"

Upon hearing Lu Chen's definitive answer, Heavenly Language Immortal Venerable's brow tightened, her expression became even more serious, her cold eyes stared piercingly at Lu Chen, as if she was trying to see through Lu Chen entirely.

After some time, Heavenly Language Immortal Venerable opened her mouth to ask: "Where did you obtain this Immortal Law from?"

Even those super forces in Tianyan Immortal Domain do not have a method to restrain the Heavenly Demon Power, not even the Mysterious Moon Palace that possesses an Immortal Emperor and has a profound heritage, yet Chen Lu possesses such an Immortal Law.

Heavenly Language Immortal Venerable is increasingly suspicious of Chen Lu's true identity.

Before Lu Chen could say anything, Heavenly Language Immortal Venerable asked again: "Who exactly are you?"

Heavenly Language Immortal Venerable initially thought Chen Lu was merely a prince from some Immortal Dynasty or a noble son from some force, but now she believes, if Chen Lu truly can produce an Immortal Law that restrains the Heavenly Demon Power, then the force backing him might not be weaker than the Mysterious Moon Palace, might even be deeper than the Mysterious Moon Palace's heritage.

Seeing Heavenly Language Immortal Venerable watching him with vigilance, Lu Chen calmly said: "Naturally, I am the Honored Master's disciple."

Seeing Lu Chen unwilling to answer, Heavenly Language Immortal Venerable did not continue to press, as everyone has their own secrets; she believes that since Immortal Venerable Yun Meng has already approached him twice alone, she should have some understanding of his true identity.

After all, Immortal Venerable Yun Meng is the Palace Master, plus she has the ability to foresee the future, even if Heavenly Language Immortal Venerable does not trust the man before her, she trusts Immortal Venerable Yun Meng.

Immortal Venerable Yun Meng has not driven Chen Lu out of the Mysterious Moon Palace, which proves that the force behind Chen Lu, or Chen Lu's identity, poses no harm to the Mysterious Moon Palace.

At this moment, Lu Chen continued: "This time I will go to the Northern Region with the Honored Master, and once we enter the Northern Region, I will teach Honored Master the Immortal Law that can restrain the Heavenly Demon Power."

Upon hearing this, Heavenly Language Immortal Venerable felt somewhat curious, why must she wait until she has gone to the Northern Region to teach her the Immortal Law, can't it be taught to her now?

Heavenly Language Immortal Venerable suddenly thought of something and then asked: "Are you worried I might tell others about this Immortal Law?"

Lu Chen said: "It's not that, disciple just thinks the Honored Master hasn't reached the Northern Region yet and temporarily doesn't need this Immortal Law, so there's no need to rush."

Seeing Lu Chen unwilling to teach her now, Heavenly Language Immortal Venerable said no more, after all, the Northern Region must be visited, even without his Immortal Law that restrains the Heavenly Demon Power, she would go to the Northern Region.

If he is willing to teach the Immortal Law to her, it's naturally a good thing for her, but even if it is not taught to her, she won't feel any lack.

After all, that is an Immortal Law that can restrain the Heavenly Demon Power, once news about the Immortal Law that restrains the Heavenly Demon Power spreads, countless super forces would probably come looking for him.

Heavenly Language Immortal Venerable then said: "Half a year later, this exalted one will depart for the Northern Region. If you want to go to the Northern Region, then you should prepare well during this half year."

With her words finished, Heavenly Language Immortal Venerable's figure vanished on the spot.

She wants to ask Immortal Venerable Yun Meng about Chen Lu, but she thought since the Palace Master hasn't told her, it means it's not time yet, so she decides not to ask.

However, she has a premonition that when she returns to the Mysterious Moon Palace after the Northern Region, perhaps she will learn Lu Chen's real identity.

Tianyan Immortal Domain, Southern Domain.

Heavenly Splendor Hall.

Wuya Immortal Venerable activated the Jade Scroll in his hand, after reading the intelligence within the Jade Scroll, his expression became extremely grave. The battle between Dragon Extreme Immortal Venerate and the Demon Emperor has lasted for decades, although there has been no decisive outcome yet, every Immortal on the front lines can see that Dragon Extreme Immortal Venerate is almost at his limit.

If this continues, Dragon Extreme Immortal Venerate is sure to be defeated. Despite Heavenly Splendor Hall being located in the Southern Domain, if the Northern Region falls to the Demon Emperor, it will take a long time for the Heavenly Demon Army to reach the Southern Domain, and Heavenly Splendor Hall is also likely to be the last super force to confront the Heavenly Demon Army in direct warfare.

But the Demon Emperor's cultivation recovery speed is too fast, although Heavenly Splendor Hall is located in the Southern Domain, the leaders of Heavenly Splendor Hall have started to worry, they are also considering whether to dispatch an Immortal Venerate to the Northern Region for support. At this time, in the Meeting Hall of Heavenly Splendor Hall, several Immortal Venerates' projections gathered together, as Immortal Venerates, most of their time is spent on cultivation, unless it's a matter of life and death, their main

body will not appear.

At this moment, one of the Immortal Venerates' projections spoke: "Now only Dragon Extreme Immortal Venerate's power is not countered by the Demon Emperor; if Dragon Extreme Immortal Venerate falls, then the fall of the Northern Region is just a matter of time."

"We must dispatch an Immortal Venerate to the Northern Region to support

Azure Dragon Hall."

When involving personal interests, especially matters related to the Demon Emperor, none of the Immortal Venerates present are willing to go to the Northern Region, but they are also very aware, if none of them go, when the Demon Emperor recovers completely, then the entire Tianyan Immortal Domain will once again be dominated by the Nine Heavens Institute.

At this moment, Wuya Immortal Venerable spoke: "Not necessarily only Dragon Extreme Immortal Venerate's power is unafraid of being countered by the Heavenly Demon Power, the power used by Lu Chen most likely is also unafraid

of the Heavenly Demon Power."

Upon hearing Wuya Immortal Venerable's words, one Immortal Venerate said:  
"Although that's so, but it's been so many years, we still haven't found Lu Chen's  
trail, he probably found a small world to hide, looking for him is easier

said than done."

Wuya Immortal Venerable immediately said: "No, we still have one place we  
haven't sent anyone to search."

Taihua Immortal Venerable asked: "Are you speaking of the Barbaric?"
