After Taihua Immortal Venerable finished speaking, Wuya Immortal Venerable immediately said, "Yes, the Mysterious Moon Palace is so vast, no matter which realm it suddenly appears in, it's impossible for there to be no news at all."

"The only possibility is that the Mysterious Moon Palace has appeared in a place where news is scarce."

"For over a billion years, the information we know about the Barbaric Lands has become increasingly scarce, and the news from the Barbaric Lands is also becoming more and more closed off. If the Mysterious Moon Palace and Lu Chen really went to the Barbaric Lands, even if those forces in the Barbaric Lands saw the Mysterious Moon Palace, the news wouldn't spread to the Southern Domain for quite a while."

Between the Barbaric Lands and the Southern Domain, there lies the Sunset Mountain Range, which harbors many dangerous places. Thus, unless there's a necessary reason, people from the Barbaric Lands generally don't come to the Southern Domain, and people from the Southern Domain don't go to the Barbaric Lands either. This results in very little interaction between the people of the Barbaric Lands and other realms, so the other realms naturally don't know what happens in the Barbaric Lands in the short term.

Wuya Immortal Venerable was thinking that ever since he issued a bounty, informing other super forces that Lu Chen might possess a method to restrain the Heavenly Demon Power, those super forces have been searching for Lu Chen and the Mysterious Moon Palace with all their might. Yet, after so many years, there has been no news of Lu Chen or the Mysterious Moon Palace, indicating that they might not have gone to those realms at all.

Now, east, west, south, north, and center-among the five major realms, only the Western Domain, which is the Barbaric Lands, hasn't been searched. Thus, it's very likely that the Mysterious Moon Palace and Lu Chen have truly gone to the Barbaric Lands.

After hearing Wuya Immortal Venerable's words, all the Immortal Venerates were silent for a moment, feeling in their hearts that this possibility might be true.

At this moment, Wuya Immortal Venerable continued, "I will personally go to the Barbaric Lands to find Lu Chen. If we acquire the method Lu Chen holds against the Heavenly Demon Power, then the Demon Emperor will not be a threat."

Upon hearing Wuya Immortal Venerable's words, the crowd of Immortal Venerates frowned slightly. Wuya Immortal Venerable deciding to go to the Barbaric Lands now meant he wouldn't have anything to do with the Northern Domain and wouldn't have to face the Demon Emperor directly, making his calculation rather clever.

But to be fair, if Lu Chen truly possesses a method to restrain the Heavenly Demon Power, it's worth letting an Immortal Venerate personally go.

At this point, the gaze of all the Immortal Venerates focused on the projection of an elder in the middle of the grand hall.

The elder's projection was laced with countless starlight, and looking closely, it seemed like sea of stars.

He was the strongest Immortal Venerate of the Heavenly Splendor Hall, also its Hall Master.

Though none of the Immortal Venerates present were willing to directly face the Demon Emperor in the Northern Domain, as members of the Immortal Domain Alliance Army, they certainly needed to dispatch an Immortal Venerate to support the Northern Domain.

As for which Immortal Venerate to send, it now depended on the Hall Master's decision.

At this moment, Star River Immortal Venerate opened his eyes, glanced at the Immortal Venerates present, and then said lightly, "Taihua Immortal Venerable, you will go to the Northern Domain."

Hearing this, Taihua Immortal Venerable was slightly stunned. After regaining his composure, he responded helplessly, "Yes, Hall Master."

At this moment, Star River Immortal Venerate's gaze fell on Wuya Immortal Venerable. He then said to Wuya Immortal Venerable, "Wuya Immortal Venerable, be sure not to clash with the local forces in the Barbaric Lands on this trip, especially the Hidden Moon Sect."

Wuya Immortal Venerable said, "Rest assured, Hall Master, I know what to do."

The body projection of Star River Immortal Venerate then turned into specks of starlight. "That's it for today."

As soon as he finished speaking, the projection of Star River Immortal Venerate completely dissipated. After he left, Wuya Immortal Venerable immediately set out for the Barbaric Lands.

Southern Domain.

The small world where the Blood Eagle Hall was located.

On a giant skull, there was a small courtyard. At this moment, blood energy surged from the room in the courtyard, and then the eyes of this skull, as large as the sun, suddenly opened wide.

Blood tears flowed from the eyes of the skull, as if crying for some reason. In the room on the small courtyard on the skull, Blood Demon Immortal King abruptly opened his eyes.

Feeling the constantly growing power within him, Blood Demon Immortal King was somewhat pleasantly surprised. He hadn't expected to recover in such a short time, and not only recover, but his cultivation state had also advanced

further.

Blood Demon Immortal King seemed to suddenly understand something; he then flew straight out of the room, coming face to face with the giant skull's

eyes.

Blood Demon Immortal King respectfully said to the giant skull, "Thank you, Blood Ancestor, for your grace. Younger generation will certainly strive to become stronger, not to disappoint the expectations of the Blood Ancestor." The giant skull didn't speak, with blood tears continually flowing from its eyes, forming two waterfalls of blood tears, which ultimately gathered in the sea of blood within the small world of the Blood Eagle Hall, thus thickening the blood energy of the Blood Eagle Hall even further.

Blood Demon Immortal King continued to respectfully ask, "I wonder if Blood Ancestor, upon awakening this time, might have anything needing younger generation to do?"

Once Blood Demon Immortal King finished speaking, the giant skull still didn't open its mouth to speak. Just when Blood Demon Immortal King thought there would also be no response from the Blood Ancestor this time, a venerable voice suddenly appeared in Blood Demon Immortal King's mind.

"Find Lu... Chen..."

This voice exploded in Blood Demon Immortal King's mind like a bell, making

his soul tremble for a moment. Blood Demon Immortal King took a long time to react, and after some time, he came to his senses and quickly said, "Yes, the younger generation will definitely complete the elder's task."

Blood Demon Immortal King was puzzled as to why Blood Ancestor wanted to

find Lu Chen,

Wait, Lu Chen?

The silhouette of a person suddenly appeared in the mind of Blood Demon

Immortal King.

He remembered that the people of the Tianxia Immortal Dynasty had called that Immortal King of the Mysterious Moon Palace the Chen King.

For tens of billions of years, the only renowned Chen King at Tianxia Immortal Dynasty was Lu Chen?

And after confronting them, that person chose to self-detonate directly, which caused such severe injuries to him because of Lu Chen's self-detonation. Now that Lu Chen is already dead, where would he go to find Lu Chen?

Thinking of this, Blood Demon Immortal King hurriedly said to the Blood Ancestor, "Blood Ancestor, Lu Chen seems to have already self-imploded... However, as soon as Blood Demon Immortal King finished speaking, that venerable voice again rang in his ears, "He still... lives..."

Blood Demon Immortal King again felt dizzy, as the direct transmission from the Blood Ancestor indeed made him feel very uncomfortable. After recovering again, Blood Demon Immortal King clenched his fists, since the Blood Ancestor claimed that Lu Chen still lives, it proved that Lu Chen

indeed still lives.

When thinking about how he almost died from Lu Chen's explosion, the hatred within Blood Demon Immortal King's heart was instantly ignited. He originally thought he wouldn't be able to find anyone to take revenge on, but didn't expect that this Lu Chen was still alive.

If he's still alive, then it's easy to deal with.

However...

Blood Demon Immortal King suddenly thought of something; why does the

Blood Ancestor want to find Lu Chen?

The origin of the Blood Ancestor is unclear to him; he only knows that the

Blood Ancestor probably is of ancient times. Originally, they discovered the Blood Ancestor's body in a forbidden place, thinking it was a chance, and thus brought

the Blood Ancestor's corpse back to this small world, finally establishing the Blood Eagle Hall on top of the Blood Ancestor's body.

Having children earns benefit, start competing for dominance in the world by marrying a wife

When the Blood Demon Immortal King and his followers brought the Blood Ancestor's body back to the small world of Blood Eagle Hall, they thought that the Blood Ancestor was merely a corpse.

Although it was a corpse, it was incredibly hard. Initially, they planned to refine it into a War Puppet. They thought that even their Immortal King's power couldn't destroy this body, and once refined into a War Puppet, it would certainly be a significant trump card for confronting other Immortal Kings. However, unexpectedly, not long after they brought the Blood Ancestor's "corpse" back, one day, the Blood Ancestor suddenly opened his eyes, and blood tears gushed from them, forming the current Blood Sea of this small world.

The blood qi emanating from the Blood Sea helped them increase their strength rapidly. Originally, Blood Eagle Hall was not sect of evil immortals. But, influenced by the blood qi, after experiencing the rapid improvement in cultivation, the immortals of Blood Eagle Hall could never go back. Therefore, whether it be the Hall Master, the elders, or the disciples, all became Evil Immortals.

After some time passed, the Blood Ancestor also imparted some evil techniques to them, formally setting Blood Eagle Hall on the path of the Evil Immortal.

However, not long after, the Blood Ancestor fell into slumber again and never interfered with the affairs of Blood Eagle Hall. Thus, Blood Eagle Hall considered the Blood Ancestor as their foundation, but not as their combat power.

At this moment, the Blood Demon Immortal King looked a bit worriedly at the head of the Blood Ancestor. Those eyes, as large as the sun, were unnerving him. He cautiously asked, "Blood Ancestor, do you have any relationship with Lu Chen?"

The next moment, the Blood Ancestor's voice echoed again in the mind of the Blood Demon Immortal King.

"Mortal enemy..."

With those words, the Blood Ancestor's eyes closed once more. Hearing this, the Blood Demon Immortal King finally breathed a sigh of relief. If Lu Chen were some descendant of the Blood Ancestor, his vendetta might not be fulfilled.

Since Lu Chen is the mortal enemy of the Blood Ancestor, it makes things easier. Even if he kills Lu Chen, the Blood Ancestor probably wouldn't say anything.

Wait a minute...

The Blood Demon Immortal King's brain froze.

He just realized it at this moment.

Lu Chen is the mortal enemy of the Blood Ancestor?

The Lu Chen he knows, is it the same Lu Chen the Blood Ancestor is talking about?

The Blood Ancestor is a figure from ancient times, how could he be a mortal enemy of Lu Chen?

If the Lu Chen he knows is indeed the same Lu Chen the Blood Ancestor spoke of, wouldn't that mean Lu Chen is also a figure from ancient times?

Thinking of this, the Blood Demon Immortal King's heart skipped a beat. Could it be that Lu Chen is the reincarnation of some ancient great power?

The Blood Demon Immortal King seemed to understand something. No wonder Lu Chen could suppress their evil qi; it turned out that Lu Chen and the Blood Ancestor were mortal enemies. The Evil Immortal Techniques were taught by the Blood Ancestor, and Lu Chen, being the Blood Ancestor's mortal enemy, must have encountered him countless times during ancient times and perhaps learned how to counteract the evil qi.

The blood qi within the Blood Demon Immortal King surged, regardless of whether Lu Chen is the reincarnation of some ancient power, he hasn't fully matured yet. Besides, since Lu Chen is the mortal enemy of the Blood Ancestor, as long as he finds Lu Chen, the Blood Ancestor will surely take care of Lu Chen personally in the future, and his vendetta can be avenged.

With this in mind, the Blood Demon Immortal King immediately gathered all the elders of Blood Eagle Hall.

Blood Eagle Hall has been secluded for so many years, it's time to step back into the world.

With the words of the Blood Ancestor this time, the Blood Demon Immortal King felt more confident. He thought to himself that if he could help the Blood Ancestor find Lu Chen, perhaps the Blood Ancestor would reward them with higher-grade evil techniques, and maybe becoming an Immortal Emperor in the future wouldn't be impossible.

Thinking of these things, the Blood Demon Immortal King's heart was filled with excitement.

Soon, the Blood Demon Immortal King gathered all the elders of Blood Eagle Hall, ordering them to find ways to track Lu Chen.

Mysterious Moon Palace.

Yun Yudie's bedchamber.

Lu Chen lay on the soft couch, his expression somewhat serious. For some reason, he's had a constant feeling of being watched lately.

At this moment, Lu Chen glanced at Yun Yudie, who was straddling him, cultivating. Yun Yudie had closed eyes, her cold and flawless jade-like cheeks akin to a perfect piece of art. The cool air she exuded made one want to commit misdeeds towards her.

However, Lu Chen no longer had the same vigor as at the beginning. Now, he has started to be more nonchalant.

It's been so many years, and Yun Yudie still hasn't fallen for it. He thought it must be due to the substantial difference in realms, so he wasn't in a hurry now. As for this body, he'd leave it here for Yun Yudie to play with.

Of course, even though he hasn't been actively causing trouble for Yun Yudie recently, the two of them still maintained an intimate relationship, except that Yun Yudie was focused on cultivation.

In Yun Yudie's heart, dual cultivation had already become a routine practice. After all, it had no downsides, and she treated Lu Chen as her own boy toy in

her heart.

At this moment, Yun Yudie, who was cultivating, noticed Lu Chen's gaze fixed on her, indicating that Lu Chen's attention was on her. She opened her beautiful eyes and looked down at Lu Chen, asking, "What's the matter?"

She knew Lu Chen had multiple bodies and was very busy, so if he was focused on her, it meant he had something to discuss.

Lu Chen, with a smile, said, "Nothing, just thinking about how beautiful you are, making one want to..."

Lu Chen hesitated, while Yun Yudie's cold face showed no expression. She glanced coldly at Lu Chen.

She had long been accustomed to this lechery of his, and she knew that Lu Chen was merely enjoying the moment verbally. If he were serious, he would have already made a move, rather than wasting words here.

In Yun Yudie's view, Lu Chen's initial infatuation with her had already faded. After all, they've been together for several decades now, and Lu Chen was more likely thinking about how to get her pregnant with his child.

Not wanting to continue the topic about men and women, Yun Yudie directly changed the subject and asked, "What's the current situation in the Northern

Domain?"

A while ago, Lu Chen had talked to her about affairs in the Northern Domain. Lu Chen had his clones in other places, which gave him a strong foothold in gathering intelligence. Even though she stayed in the Mysterious Moon Hall, constantly engaging in such activities with Lu Chen, she could still learn about major events in the Tianyan Immortal Domain through him.

Lu Chen replied, "The battle between the Dragon Extreme Immortal Venerate and the Demon Emperor continues, but Dragon Extreme Immortal Venerate probably won't hold out much longer. The Mysterious Moon Palace has now joined the Immortal Domain Alliance Army and has dispatched your Honored Master to the Northern Domain to oppose the Demon Emperor." Upon hearing this, Yun Yudie's beautiful brows furrowed slightly. Although she had left the Mysterious Moon

Palace, in her heart, the Heavenly Language Immortal Venerable still counted as her Honored Master.

Now, hearing that her Honored Master was heading to such a dangerous place as the Northern Domain, it's impossible for Yun Yudie's heart to remain

unmoved.

Yun Yudie suddenly thought of something and asked, "She's also your Honored

Master. Will you share the Divine Light Thousand Lamp Scripture with her?"

Lu Chen, with a smile, said, "Nothing, just thinking about how beautiful you are, making one want to..."

Lu Chen hesitated, while Yun Yudie's cold face showed no expression. She

Chapter 1843: Chapter 1533: Aren't You Afraid She'll Harm the Demon Emperor?

Yun Yudie always believed that Lu Chen apprenticed under Heavenly Language Immortal Venerable with selfish motives; since he had intentions towards the Heavenly Language Immortal Venerable, he would not just stand by and watch her go to the Northern Domain to face certain death.

So, he was likely to impart the Divine Light Thousand Lamp Scripture, an Immortal Law capable of subduing Heavenly Demon Power, to the Heavenly Language Immortal Venerable.

However, if the Heavenly Language Immortal Venerable mastered this Immortal Law, it would mean the entire Mysterious Moon Palace would master it as well. Once this Immortal Law gets disseminated, more and more people would be capable of subduing Heavenly Demon Power, making the days of the Demon Emperor difficult.

The Demon Emperor was also an old acquaintance of Lu Chen, which made the situation for Lu Chen like a dilemma between two loyalties.

Upon hearing Yun Yudie's question, Lu Chen directly replied, "Once I head to the Northern Domain, I'll impart the Divine Light Thousand Lamp Scripture to her."

Seeing Lu Chen willing to teach the Divine Light Thousand Lamp Scripture to the Heavenly Language Immortal Venerable, Yun Yudie asked, "Aren't you afraid she might harm the Demon Emperor?"

After all, the Divine Light Thousand Lamp Scripture could suppress Heavenly Demon Power, and since the Heavenly Language Immortal Venerable is also an Immortal Venerate, she might cause some trouble for the Demon Emperor if they face off.

Yun Yudie anticipated that the impending great battle would probably no longer be just a head-to-head between the Demon Emperor and Dragon Extreme Immortal Venerate, for the other Super Forces in the Immortal Domain had been spectators long enough; their Immortal Venerates would certainly join the fray against the Demon Emperor.

Under such circumstances, with the appearance of an Immortal Venerate capable of suppressing her power, her predicament in the near future seemed to be rather unfavorable.

Lu Chen casually said, "With the Demon Emperor's strength, even if defeated, she still has an escape route; she can return to the Chaotic Sea anytime."

Seeing Lu Chen seemingly unconcerned about the Demon Emperor, Yun Yudie began to doubt her initial assumptions, thinking perhaps the relationship between Lu Chen and the Demon Emperor isn't as close as with them; however, Lu Chen seemed entirely unconcerned about the Demon Emperor's safety.

Perhaps this reckless man has too many women, so losing one or two doesn't affect him, which is why he isn't worried about the Demon Emperor's safety.

Thinking of this possibility, Yun Yudie's brows furrowed slightly. In other words, if she ever fell into a life-and-death crisis, Lu Chen might similarly not be concerned at all.

Despite her belief that she lacks any affection for this bastard Lu Chen, the thought that this scoundrel forgets people once he pulls up his pants, being utterly indifferent to her life or death, made Yun Yudie harbor a vague sense of displeasure.

Yun Yudie calmed her emotions and stopped pursuing the matter further since Lu Chen himself was indifferent regarding the Demon Emperor's predicament. There was little point in her probing further.

Currently, her main concern revolved around her own strength.

Seeing Yun Yudie ceased her inquiries, Lu Chen suddenly recalled something and then asked, "Can you teach me Dreamlike Life Sutra?"

Upon hearing these words, Yun Yudie froze for a moment—only the Saintess of the Mysterious Moon Palace could cultivate Dreamlike Life Sutra; what was Lu Chen intending with it? Even with it imparted to him, he couldn't cultivate it.

Yun Yudie then asked, “What do you want Dreamlike Life Sutra for? Even if I impart it to you, you can’t cultivate it.”

Lu Chen said, “To verify a hypothesis of mine.”

Curious, Yun Yudie asked, “Hypothesis? What hypothesis?”

Lu Chen answered, “I’ll tell you after I verify it.”

Yun Yudie suspected perhaps something amiss was discovered in Dreamlike Life Sutra.

Without hesitation, Yun Yudie condensed the contents of Dreamlike Life Sutra into a Memory Pearl and sent it towards Lu Chen’s forehead, who then accepted the transmission of Dreamlike Life Sutra.

After reading the contents of Dreamlike Life Sutra, Lu Chen attempted cultivation but quickly realized he indeed couldn’t operate Dreamlike Life Sutra.

Yet, his perception of Dreamlike Life Sutra became evident; he noticed Yun Yudie was surrounded by a faint multicolored aura, a unique force gained from cultivating Dreamlike Life Sutra.

Lu Chen then recalled his encounter with Immortal Venerable Yun Meng, where her multicolored aura was particularly pronounced. She seemed to have also cultivated Dreamlike Life Sutra.

Each time in Immortal Venerable Yun Meng's presence, he felt a sense of dissonance, as if the one before him wasn't the true Immortal Venerable Yun Meng.

If Immortal Venerable Yun Meng also cultivated Dreamlike Life Sutra, could it mean she was prepared as a reincarnation vessel by Immortal Emperor Youlan?

Considering this possibility, Lu Chen fell into contemplation—aside from drawing people into illusions, could Dreamlike Life Sutra have other functions?

Why did Youlan's prepared reincarnation vessels need to cultivate this Immortal Law?

After Lu Chen accepted the transmission of Dreamlike Life Sutra without speaking for a while, Yun Yudie asked again, "What did you discover?"

Hearing Yun Yudie's voice, Lu Chen snapped back to reality, his gaze momentarily sweeping Yun Yudie's porcelain-like body as he replied, "I noticed the Palace Master of Mysterious Moon Palace seems to have also cultivated Dreamlike Life

Sutra, which means she might also be a reincarnation vessel of Immortal Emperor Youlan.”

Upon hearing Lu Chen’s words, Yun Yudie hesitated to speak; she thought he had uncovered something extraordinary, but it ended up just being this.

After all, Dreamlike Life Sutra was a transmission from Immortal Venerable Yun Meng; if she couldn’t cultivate it herself, how could she teach it to others?

Lu Chen continued, “I’m merely curious why Youlan’s reincarnation vessels definitely must cultivate Dreamlike Life Sutra.”

“Since you must cultivate Dreamlike Life Sutra, it proves there’s something special about this Immortal Law.”

After hearing Lu Chen’s words, Yun Yudie pondered for a moment and didn’t dwell further on the issue; an Immortal Emperor must know things beyond their understanding. To truly grasp Youlan’s intentions, the swiftest way would likely involve direct inquiry.

Yun Yudie refrained from delving into potential side effects of Dreamlike Life Sutra since having cultivated it already, there was no way to eliminate such effects even if they existed.

Lu Chen's mind paused—how had he forgotten about the system? Since returning to the Tianyan Immortal Domain, his system had become much more intelligent, far beyond its previous task-issued capabilities.

Lu Chen directly asked in his mind, “System, are there any drawbacks to Dreamlike Life Sutra? Why must Immortal Emperor Youlan have her reincarnation vessels cultivate Dreamlike Life Sutra?”

The system's female voice promptly replied, “When the time comes, the host shall naturally know.”

Hearing the system's response, Lu Chen chuckled internally—when the time comes? How long would that take?

He couldn't fathom any reason for such secrecy; perhaps Immortal Emperor Youlan had some connection to the system as well?

Lu Chen didn't linger on these matters; since the system was unwilling to reply, his current concerns wouldn't resolve with brooding anyway. His immediate priority remained figuring how to have his women conceive.

During the following years, Lu Chen focused his energy on Ye Chuyao, Cao Shiyun, and Xiao Xueying. Their Realm was similar to his, besides Cao Shiyun having had experience being pregnant before, Lu Chen believed they had a higher likelihood of bearing his offspring.

Chapter 1844: Chapter 1534: That Chen Lu Is Also Heading to the Northern Domain

Sky Eagle Peak.

In the sleeping palace of the Golden Wing Immortal Monarch, he lay without a care upon several maidens. One fed him food, while another poured him wine, living in boundless pleasure.

Suddenly, a Golden Immortal entered the main hall, exclaiming excitedly, “Master, good news!”

The Golden Wing Immortal Monarch focused his gaze on the Golden Immortal standing in the hall, “Good news? What good news?”

The Golden Immortal immediately replied, “The Palace Master has issued an Immortal Order, Mysterious Moon Palace will also join the Immortal Domain Alliance Army!”

Hearing this, the Golden Wing Immortal Monarch frowned. What did Mysterious Moon Palace joining the Immortal Domain Alliance Army have to do with him? Joining was joining. As the head of Sky Eagle Peak, he wouldn’t be going to the Northern Domain.

To him, it wasn’t exactly good news nor bad news.

At this moment, the Golden Immortal continued, “Representing Mysterious Moon Palace in the Northern Domain will be the Heavenly Language Immortal Venerable!”

“Hmm?”

Upon hearing the Golden Immortal’s words, the Golden Wing Immortal Monarch showed some interest. If it was indeed the Heavenly Language Immortal Venerable, then perhaps it truly was good news for him.

Ever since Chen Lu became the direct disciple of the Heavenly Language Immortal Venerable, he’d never found an opportunity to deal with him. Although it irked him, there was nothing he could do, compelled to endure it.

Last he heard Chen Lu went to Xu Jingshu's abode and had yet to emerge. This frustrated him even more.

The mere fact that Chen Lu stayed there for so long without coming out made it easy to speculate what they were doing inside.

Though filled with anger, there was little else he could do. With the identity of a direct disciple protecting Chen Lu, any action against him would surely offend the Heavenly Language Immortal Venerable. Although he believed the Heavenly Language Immortal Venerable wasn't a match for Sky Eagle Immortal Venerable, causing his own master trouble would likely result in his master's displeasure.

Still, while the Heavenly Language Immortal Venerable was around, he dared not touch Chen Lu. Yet, if the Heavenly Language Immortal Venerable were to leave the Mysterious Moon Palace, his chance might come.

By the time the Heavenly Language Immortal Venerable returned, Chen Lu would already be dead. As long as they eliminated Chen Lu cautiously, the Heavenly Language Immortal Venerable might not be able to figure out it was them.

Even if the Heavenly Language Immortal Venerable suspected that Sky Eagle Peak was responsible, without evidence, he could do nothing against them.

Surely, the Heavenly Language Immortal Venerable couldn't cause trouble for the head of a peak without any proof, right?

Thinking of this, the Golden Wing Immortal Monarch immediately said, "Go investigate, see if Chen Lu is going to the Northern Domain."

No sooner did he speak than the Golden Immortal in the main hall replied, "I've already found out, Chen Lu is going to the Northern Domain as well."

Upon hearing this, the Golden Wing Immortal Monarch was taken aback. Chen Lu going to the Northern Domain?

It wasn't unusual for disciples to venture out with their honored master, but if the Heavenly Language Immortal Venerable were keeping an eye on Chen Lu, eliminating him would be nearly impossible.

The Golden Wing Immortal Monarch fell into deep thought. This indeed posed a problem.

Of course, even if Chen Lu went to the Northern Domain, it still meant an opportunity for them.

The current situation in the Northern Domain is complex. If they send people there discreetly to get rid of Chen Lu, the Heavenly Language Immortal Venerable might assume Chen Lu was killed by those Heavenly Demons or Demon Cultivators.

But the biggest question was whether Chen Lu would separate from Heavenly Language Immortal Venerable upon reaching the Northern Domain. If Chen Lu stayed with Heavenly Language Immortal Venerable, their people would hardly have a chance to act.

After pondering for a moment, the Golden Wing Immortal Monarch instructed the Golden Immortal in the hall, "Find ways to inquire if Heavenly Language Immortal Venerable has any special tasks."

Heavenly Language Immortal Venerable is, after all, an Immortal Venerate, having her own matters to address in the Northern Domain. She couldn't possibly stay with her disciples continuously. If Heavenly Language Immortal Venerable plans to unite with other forces' Immortal Venerates to target the Demon Emperor, then naturally, Heavenly Language Immortal Venerable and Chen Lu would separate.

In battlefields where the Immortal Venerate operates, ordinary Immortals wouldn't be able to remain there. Not to mention regular Immortals, even Immortal Kings might sustain serious injuries if affected.

Once Heavenly Language Immortal Venerable decides to engage the Demon Emperor, Chen Lu would surely stay on the battleship or be secured at their encampment, thus providing them the opportunity to act against Chen Lu.

Having dealt with Chen Lu, they could then disguise it all to appear as the work of Demon Cultivators and Heavenly Demons.

With this thought, the Golden Wing Immortal Monarch rose abruptly, adorned himself with a dazzling golden robe at a mere gesture. The Golden Immortal in the hall respectfully stated, “Yes, I will send someone to investigate right away.”

The Golden Immortal then left the hall, and after his departure, the Golden Wing Immortal Monarch didn’t resume his pleasures in his sleeping palace, disappearing instantly and reappearing outside the Sky Eagle Hall.

Gazing at the disciples outside Sky Eagle Hall, the Golden Wing Immortal Monarch said, “I wish to see Honored Master.”

Upon these words, a disciple at the door quickly responded, “Please wait a moment, Head Seat, we will announce this immediately.”

No sooner had he spoken than a powerful voice emanated from within Sky Eagle Hall.

“Come in.”

The Golden Wing Immortal Monarch then entered the hall, which was adorned with dozens of thousand-foot high pillars, each carved with lifelike golden roc birds as if they might come alive at any moment.

Sky Eagle Immortal Venerate stood in the center of the hall as if in deep thought. Upon the Golden Wing Immortal Monarch's entrance, he said, "Father..."

Before he could finish, Sky Eagle Immortal Venerate snapped back to reality and coldly responded, "How many times have I told you, in Mysterious Moon Palace, address me as Honored Master!"

Quickly correcting himself, the Golden Wing Immortal Monarch responded, "Yes, Honored Master."

Sky Eagle Immortal Venerate asked directly, "Speak. What do you seek from me?"

The Golden Wing Immortal Monarch said, "I heard that the Heavenly Language Immortal Venerable is heading to the Northern Domain?"

Sky Eagle Immortal Venerate replied, "Yes, the Palace Master intends to join the Immortal Domain Alliance Army to oppose the Demon Emperor. Heavenly Language Immortal Venerable was unlucky and drew the lot."

Sky Eagle Immortal Venerate eyed the Golden Wing Immortal Monarch, “Why ask? Are you also thinking of going to the Northern Domain?”

Here, Sky Eagle Immortal Venerate frowned, showing some displeasure.

This time when Heavenly Language Immortal Venerable set out for the Northern Domain, she naturally wouldn't go alone. She would bring many disciples and elders from Mysterious Moon Palace to the Northern Domain.

Though most people were unwilling to venture to the Northern Domain, some considered it an excellent training ground, and more importantly, the largest opportunity domain at present.

Because of the current battle between the Immortal Domain Alliance Army and the Demon Emperor, many Immortals had perished, leaving an unknown number of treasures behind on the battlefield.

At this time, those seeking the battlefield in the Northern Domain might indeed find many opportunities.

The Golden Wing Immortal Monarch quickly said, “No, no, I just think this is an opportunity to eliminate Chen Lu.”

Upon hearing the Golden Wing Immortal Monarch's words, Sky Eagle Immortal Venerate fell silent for a moment, seemingly reminiscing, quickly following up, "Chen Lu? Is that the one you mentioned before as Xu Jingshu's couple?"

Having children earns benefit, start competing for dominance in the world by marrying a wife

The Sky Eagle Immortal Venerate wasn't particularly knowledgeable about Xu Jingshu's matters, but the Golden Wing Immortal Monarch had previously mentioned that Xu Jingshu and Chen Lu were a couple, so the Sky Eagle Immortal Venerate had some recollection.

As soon as the Sky Eagle Immortal Venerate finished speaking, the Golden Wing Immortal Monarch quickly said, "It's him."

After pondering for a moment, the Sky Eagle Immortal Venerate said, "This indeed is an opportunity to remove him."

Although Xu Jingshu also hailed from the Heavenly Language Peak, the Sky Eagle Immortal Venerate hadn't given up on the resources of the Saintess, and the Golden Wing Immortal Monarch had long expressed his desire to pursue Xu

Jingshu. Even though Xu Jingshu was already pregnant, since the child she carried was the Saintess, they valued the child even more.

Under normal circumstances, a man cannot tolerate the woman he loves bearing another man's child, but Xu Jingshu's unborn child possessed the qualifications to become the Saintess.

If he could form a couple with Xu Jingshu, then in the future, the resources of the Saintess would belong to their Sky Eagle Peak. That was the Saintess; even the crumbs of cultivation resources from her fingernails could make a mountain peak prosper for billions of years.

They couldn't help it, for the Saintess was too important to the Mysterious Moon Palace. The resources the Saintess received were second only to those owned by the Palace Master, and she could even access Heavenly and Earthly Treasures that even the Palace Master wasn't qualified to use.

To obtain the Saintess's resources, they were willing to take risks.

The Golden Wing Immortal Monarch continued, "However, I heard that Chen Lu might also follow the Heavenly Language Immortal Venerate to the Northern Domain."

The Sky Eagle Immortal Venerate regained his composure and said indifferently, "That's irrelevant. Him leaving the Mysterious Moon Palace makes it easier for us to act."

"The Heavenly Language Immortal Venerate has her own matters to attend to; she can't possibly always keep an eye on Chen Lu. When the time comes, on the battlefield, dispatching a few people to deal with Chen Lu wouldn't attract anyone's attention."

After all, the Heavenly Language Immortal Venerate was representing the Mysterious Moon Palace in the Northern Domain. Once they merged with the Immortal Domain Alliance Army, the Alliance Army would surely launch a full-scale assault to save the immortals trapped in the Demon Emperor's formation, and all the Immortal Venerates would likely take action, as would the Heavenly Language Immortal Venerate.

After the Heavenly Language Immortal Venerate clashes with the Demon Emperor, she won't have time to spare for those immortals from the Mysterious Moon Palace.

Upon hearing this, the Golden Wing Immortal Monarch felt relieved. He had been most worried that after going to the Northern Domain, Chen Lu would stay by the Heavenly Language Immortal Venerate's side, which would give them no chance to eliminate him.

The Sky Eagle Immortal Venerate then recalled something and said, "Getting rid of Chen Lu is a simple task. The most important thing is whether you have a way to make Xu Jingshu fall in love with you."

"If, after Chen Lu's death, Xu Jingshu falls in love with a man from another peak, wouldn't we just be making wedding clothes for someone else?"

What worried the Sky Eagle Immortal Venerate most was this. Although the Golden Wing Immortal Monarch was undeniably handsome, and most of the female disciples in the Mysterious Moon Palace liked him, exceptions always existed. Who knew if Xu Jingshu would fancy a man like him?

The Golden Wing Immortal Monarch confidently said, "Rest assured, Honored Master. Once Chen Lu is dead, I will find a way to win Xu Jingshu's favor."

The Sky Eagle Immortal Venerate advised, "Xu Jingshu carries the Saintess in her womb. I don't care what means you use, but the bottom line is not to harm the Saintess in her belly."

What they desired were the resources that came with the Saintess. If in the pursuit of Xu Jingshu's favor, they used underhanded methods and harmed the Saintess, it would not be worth it.

Besides, the Palace Master greatly valued this Saintess, and perhaps even the one in the forbidden land did too. If anything happened to her, the Sky Eagle Peak would not have a good outcome.

The Golden Wing Immortal Monarch understood the Sky Eagle Immortal Venerate's point. He wasn't foolish and knew the importance of the Saintess, so he responded immediately, "I will be careful."

The Sky Eagle Immortal Venerate continued, "That's settled, then. I will personally arrange for a few suitable individuals to head to the Northern Domain to eliminate Chen Lu."

"Good, then I will trouble you, Honored Master."

The Golden Wing Immortal Monarch said no more and directly turned and left the Sky Eagle Hall.

Soon, the day for the Heavenly Language Immortal Venerate to depart for the Northern Domain arrived.

This time, the Heavenly Language Immortal Venerate led tens of thousands of disciples and dozens of warships to the Northern Domain.

High above, the clouds were torn apart, and dozens of thousand-zhang-long warships broke through the clouds, slowly advancing towards the Northern Domain.

On the lead golden warship sat a palace, with a carving of a Golden Dragon breathing purple lightning at the bow. On either side of the warship hung two massive banners: one with the Mysterious Moon Palace's moon emblem, and the other emblazoned with the words "Mysterious Moon Palace."

At that moment, the clear and cold voice of the Heavenly Language Immortal Venerate resonated in the sky, "Set off!"

As soon as she finished speaking, the golden warship beneath her feet transformed into a streak of light, and subsequently, the following warships also turned into streaks of light, advancing towards the Northern Domain at their fastest speed.

The Sky Eagle Immortal Venerate stood on a cliff, watching the departing warships, a slight smile playing at his lips.

This time, not only is Chen Lu doomed to die, but perhaps the Heavenly Language Immortal Venerate might also perish in the Northern Domain, considering it's the Demon Emperor.

If the Heavenly Language Immortal Venerate does die, then the master-disciple bond between her and Xu Jingshu will become irrelevant, and if the Golden Wing Immortal Monarch manages to win Xu Jingshu over, Sky Eagle Peak will also have a share in the resources the Saintess in Xu Jingshu's belly will acquire in the future.

...

Sunset Mountain Range.

The Wuya Immortal Venerate hovered high in the sky, looking at a distant valley.

The valley cascaded with dark red lightning, emitting eerie sounds reminiscent of human wails carried by the wind. Within the valley seeped a dense purple-black liquid, exuding a nauseating stench, so foul that even the Wuya Immortal Venerate positioned high above could smell the rancid decay.

Despite being an Immortal Venerate, the Wuya Immortal Venerate had no intention of flying over that valley. There were many dead ends within the Sunset Mountain Range, where even an Immortal Venerate could get trapped if careless, which was why the Barbaric Realm and other Realms didn't have close interactions.

The people of the Barbaric Realm were unwilling to venture out, and neither did people from other Realms want to traverse the Sunset Mountain Range to reach the Barbaric Realm. If not for seeking Lu Chen and the Mysterious Moon Palace, the Wuya Immortal Venerate wouldn't have ventured into the Barbaric Realm either.

Retracting his gaze, the Wuya Immortal Venerate chose to take a detour and continued heading west.

The Wuya Immortal Venerate's speed was swift, and before long, he arrived at Dragon Land, where he immediately sensed the presence of two Immortal Venerates.

Assuming these were Immortal Venerates from a Super Force within the Barbaric Realm, the Wuya Immortal Venerate planned to pay them a visit, thinking it might help him to locate Lu Chen and the Mysterious Moon Palace faster, with their assistance.

However, as he was about to move, several Golden Immortals flew past him, shouting as they went, "Hurry, hurry, the Inner Sect examination at the Mysterious Moon Palace is starting, and if you miss it this time, who knows how many years you'll have to wait."

Hearing this, the Wuya Immortal Venerate's brow furrowed deeply for a moment, but soon a wild, unrestrained smile spread across his face.

"Interesting, never thought they'd really come here!"

Having children earns benefit, start competing for dominance in the world by marrying a wife

Wuya Immortal Venerable had no hesitation. With a lift of his hand, the next moment, a terrifying suction force pulled the Golden Immortals flying by beside him to stand before Wuya Immortal Venerable.

Those Golden Immortals, feeling the oppressive force from Wuya Immortal Venerable, immediately showed expressions of terror. However, before they could beg for mercy, their bodies instantly exploded, and their Divine Souls floated in the air.

The Divine Souls of the Golden Immortals were frightened and tried to flee, but the next moment, a terrifying power invaded their Divine Souls as Wuya Immortal Venerable used the Soul Searching Technique on them all simultaneously.

Through the soul search of these Outer Sect disciples of the Mysterious Moon Palace, Wuya Immortal Venerable learned what the Mysterious Moon Palace had been doing after arriving in the Barbaric Land.

Wuya Immortal Venerable let out a cold laugh. The next moment, those Golden Immortals' Divine Souls turned to dust and dispersed in the air.

That the Mysterious Moon Palace had managed to establish its foothold in the Barbaric Land so quickly was something Wuya Immortal Venerable hadn't expected. He could clearly sense the aura of at least two Immortal Venerates at Dragon Land, yet the Mysterious Moon Palace dared to expand their influence there, and those Immortal Venerates remained indifferent.

At this time, Wuya Immortal Venerable didn't know that the aura he sensed from one of the Immortal Venerates was actually emanating from Yun Yudie. He assumed that the two Immortal Venerates he sensed were the native Immortal Venerates of the Barbaric Land.

Turning his thoughts over, Wuya Immortal Venerable figured maybe those Immortal Venerates had reached the end of their lifespans and didn't want to trouble themselves, thus being disinterested in what the Mysterious Moon Palace was doing.

If that were the case, then there was no need for him to be too cautious; he could simply go to the Mysterious Moon Palace and force them to tell him where Lu Chen was.

Thinking this, Wuya Immortal Venerable had no hesitation and went straight to the Mysterious Moon Palace.

In just a short moment, Wuya Immortal Venerable arrived outside the Mysterious Moon Palace.

As soon as Wuya Immortal Venerable appeared in Dragon Land, Yun Yudie had already sensed his aura, yet she didn't know who it was.

But Yun Yudie quickly realized that the aura of the Immortal Venerate was heading directly towards the Mysterious Moon Palace, which immediately made Yun Yudie understand that the visitor came with ill intentions.

Upon detecting that the visitor might be an enemy, Yun Yudie immediately ended her dual cultivation with Lu Chen and then got up proactively and put on her clothes.

At that moment, Lu Chen hadn't reacted yet. He was not yet an Immortal Venerate, so he didn't have Yun Yudie's strong perception and didn't know that an Immortal Venerate had already arrived outside the Mysterious Moon Palace.

Seeing Yun Yudie suddenly stand up and dress, Lu Chen puzzledly asked, "What's wrong?"

Yun Yudie responded expressionlessly, "An Immortal Venerate has arrived at the Mysterious Moon Palace."

Hearing this, Lu Chen was slightly taken aback.

An Immortal Venerate?

Could it be an Immortal Venerate from the Hidden Moon Sect?

While Lu Chen was lost in thought, a terrifying pressure suddenly descended from the sky, and everyone in the Mysterious Moon Palace felt this Immortal Venerable level pressure. Then a voice, as powerful as a great bell, rang out, "Hand over Lu Chen!"

Hearing this, Lu Chen's brows furrowed tightly. He initially thought it was an Immortal Venerate from the Barbaric Land, but now it seemed that the person could call out his name directly. It was likely an Immortal Venerate from the Southern Domain, probably from the Heavenly Splendor Hall.

Moreover, this aura and voice felt very familiar to Lu Chen, as if he had sensed this aura and heard this voice before somewhere, though he couldn't quite remember at the moment.

Before Lu Chen could say anything, Yun Yudie's body transformed into countless Ice Butterflies, which flew directly outside the Mysterious Moon Palace.

Upon appearing in the sky above the Mysterious Moon Palace, Yun Yudie immediately released her Immortal Venerate aura. The next moment, the pressure she emanated counteracted the pressure from Wuya Immortal Venerable, and the immortals of the Mysterious Moon Palace instantly felt their bodies become incredibly light.

Seeing the sudden appearance of an Immortal Venerate, Wuya Immortal Venerable's face turned dark instantly, "Who might you be, fellow Daoist, to interfere with my affairs?"

Wuya Immortal Venerable didn't know that the person before him was the Hall Master of the Mysterious Moon Palace; after all, given his high position in the Heavenly Splendor Hall, it was impossible for him to know every Immortal King from the Southern Domain.

He thought this Immortal Venerate was a native Immortal Venerate of the Barbaric Land.

Yun Yudie spoke indifferently, "You come making trouble at my Mysterious Moon Palace, yet don't even know who I am!"

Upon hearing Yun Yudie's response, Wuya Immortal Venerable was momentarily stunned. He remembered the Hall Master of the Mysterious Moon Palace was just an Immortal King, how could they have become an Immortal Venerate after coming to the Barbaric Land?

This place, with its sparse Immortal Aura, was the least suitable for breakthroughs, yet she managed to achieve one here, especially since the Mysterious Moon Palace had recently suffered severe setbacks in the Southern Domain, leading to a significant drop in their Qi Fortune, making a breakthrough seem highly unlikely.

And yet, in this situation, she managed to break through.

Could it be...

Wuya Immortal Venerable immediately thought of a possibility, that it might be related to the opportunity Lu Chen obtained from the Chaotic Sea.

Upon considering this possibility, Wuya Immortal Venerable became even more determined to find Lu Chen.

Wuya Immortal Venerable wasted no time and directly manifested his Law Manifestation. In the next moment, a thousand-zhang tall Golden Body appeared in front of the Mysterious Moon Palace, radiating rings of runes, and an imposing pressure emanated from the Dharma Golden Body.

The immortals of the Mysterious Moon Palace once again felt as if they were being crushed by mountains, and those with lower cultivation states were directly forced to kneel under the pressure.

After releasing the Law Manifestation, Wuya Immortal Venerable spoke, "You just broke through to the Immortal Venerate Realm, yet you wish to challenge me. Does the Hall Master of the Mysterious Moon Palace underestimate me too much?"

As he spoke, the Law Manifestation of Wuya Immortal Venerable punched directly at Yun Yudie in the sky.

Yun Yudie let out a cold snort, without any hesitation, she directly wielded the Power of Slaughter.

In the next moment, the sky they were in was instantly enveloped by a blood-red Barrier, followed by the emergence of Corpse Mountain Blood Sea within the Barrier, causing Wuya Immortal Venerable to feel inexplicably uneasy.

Wuya Immortal Venerable's heart skipped a beat. Was this the Power of Slaughter???

What was going on?

If he remembered correctly, according to the information he had about Yun Yudie, she was an Immortal who cultivated the Ice Dao. How was she able to use the Power of Slaughter???

Yun Yudie was also trying out the Power of Slaughter for the first time, and having dual cultivated with Lu Chen for so long, her control over the Power of Slaughter was already very proficient, though she still lacked combat experience.

Wuya Immortal Venerable's appearance this time just gave her a chance.

Wuya Immortal Venerable quickly calmed down. Being an Immortal Venerable who had lived for tens of billions of years, Wuya Immortal Venerable could instantly see that Yun Yudie's control over the Power of Slaughter wasn't very skilled, and the Slaughter Domain she released seemed very fragile, as if it could vanish at any moment.

With such a Slaughter Domain, she thought to trap him? It was simply laughable.

Wuya Immortal Venerable then laughed loudly, saying, "Let me show you what a true domain is!!!"

"Boundary Sea Infinite!!!"

As his words fell, the surrounding space shattered inch by inch. The fragmented pieces of space surprisingly formed a vast ocean, and within the shattered space fragments, a violent force devoured everything around. The area rapidly expanded, and in the blink of an eye, the "Boundary Sea" created by Wuya Immortal Venerable collided with the edge of Yun Yudie's Slaughter Domain.

Having children earns benefit, start competing for dominance in the world by marrying a wife

When the Boundary Sea created by Wuya Immortal Venerable collided with the edge of the Slaughter Domain, space power and the power of slaughter intertwined, continuously causing explosions.

Perhaps because it was Yun Yudie's first time using the Slaughter Domain, in just the blink of an eye, the domain shattered completely like glass.

At this moment, the Boundary Sea created by Wuya Immortal Venerable was still expanding. The space fragments within the Boundary Sea contained a terrifying pull, and they seemed like blades in a blender. Anything entering the Boundary Sea would be ground into dust by those space fragments.

Yun Yudie's brows furrowed slightly. She hadn't expected her first use of the Slaughter Domain to be broken so easily by someone else. But then again, it wasn't truly her power, and it was her first time using this power in battle, so such an outcome was not surprising.

Yun Yudie didn't take this matter to heart too much. Since the power of slaughter was ineffective, she would just use her own power.

The next moment, a chilling cold emanated from Yun Yudie's body, freezing the expanding Boundary Sea completely.

Feeling the aura exuding from Yun Yudie, Wuya Immortal Venerable furrowed his brow slightly. How did this woman's power seem to surpass his own?

Could her ice power really freeze his space power?

At this moment, Yun Yudie made a series of hand signs, and countless ice butterflies instantly formed in the sky, converging and all rushing towards the momentarily distracted Wuya Immortal Venerable.

Sensing the approaching danger, Wuya Immortal Venerable snapped back to attention and snorted coldly, "Not bad, no wonder you dare to challenge me, but you're underestimating me."

As his words fell, Wuya Immortal Venerable shouted, "Boundary Sea Illusion!!!"

The next moment, he channeled all his strength to drive the Boundary Sea, and within it appeared a person identical to Yun Yudie, emitting the same aura as she did.

Yun Yudie's brows furrowed slightly, and before she could react, the "Yun Yudie" created by the Boundary Sea also used her ice power.

At this time, Lu Chen stood on the rooftop of a palace in the Mysterious Moon Palace, watching the distant battle, wondering what kind of technique this was. Creating an identical person? This Immortal Law is somewhat defying the heavens, isn't it?

Yun Yudie wasn't frightened just because the opponent had copied someone identical to her. She took a step forward and said coldly, "A fake is a fake!"

Immediately afterward, she activated the Ice Dao, and the next moment, illusions of ice mountains appeared in the sky. Then Yun Yudie slowly raised her hand, her jade finger pointing directly at Wuya Immortal Venerable.

"Ice Soul Shattering Soul Technique!!!"

The next moment, countless ice cones materialized out of thin air, all shooting towards Wuya Immortal Venerable.

Before Wuya Immortal Venerable could make any move, the "Yun Yudie" created by the Boundary Sea rushed to Wuya Immortal Venerable's front and also raised her hand, using the Ice Soul Shattering Soul Technique.

Feeling that the power used by the fake Yun Yudie was identical to her own, and even the power was similar, Yun Yudie's brows furrowed slightly.

She originally thought that the copy would have about fifty percent of her strength, but she hadn't expected the opponent to be this formidable.

This situation was a bit troublesome; with this copy, it's as if Wuya Immortal Venerable had two Immortal Venerables on his side.

She must find a way to destroy this copy. Yun Yudie's attention was now fully focused on the continuously expanding Boundary Sea. The Boundary Sea was now restricted by the World Power, making its expansion speed slower.

After all, the Boundary Sea created by Wuya Immortal Venerable had damaged space, and the Tianyan Immortal Domain has its repair mechanisms. The damaged space will soon be repaired, so Wuya Immortal Venerable always needed to counteract the repair power of the Heavenly Dao when using this Boundary Sea, which would consume a lot of his energy in such conditions.

However, this bit of consumption was worth it since the opponent now had two Immortal Venerables.

At this time, a voice entered Yun Yudie's ear, "Not only has Wuya Immortal Venerable comprehended the Space Path, but his space power also contains the Power of Time. The copy he created should be an illusion of your future created with space-time power, but this illusion can also use space-time power to perform the same techniques as you."

Lu Chen's Creation Dao, after all, could evolve all Daos, so he quickly noticed the Power of Time within Wuya Immortal Venerable's space power.

He wasn't too surprised by this, as time and space are inherently one, and comprehending the Power of Time while understanding space power is not unusual.

However, using space-time power to transform Yun Yudie's future attacks into his own was indeed an astonishing Immortal Law. Lu Chen even thought this Immortal Law was more formidable than his Taichu Infinite Scripture.

The Taichu Infinite Scripture absorbs others' magic and then transforms it into his attack, but when the realm isn't high enough, the Taichu Infinite Scripture can only absorb and transform part of the power, and the excess power would still require the user to bear the damage.

However, the Boundary Sea Illusion created by Wuya Immortal Venerable possessed the same strength as the original.

But so it was, wanting to defeat Wuya Immortal Venerable might be challenging, and most importantly, their battlefield was above the Mysterious Moon Palace. If both Immortal Venerables took full action, the entire Mysterious Moon Palace would be affected, and it might be destroyed soon.

Not to mention the Mysterious Moon Palace, even the various forces in Dragon Land might suffer.

The battle should not take place in Dragon Land.

At this moment, after hearing Lu Chen's voice transmission, the worry between Yun Yudie's brows dispersed.

Lu Chen said that the ice power used by the copy was unleashed by utilizing Wuya Immortal Venerable's space-time power, meaning that the copy would also consume Wuya Immortal Venerable's strength when using various Immortal Laws.

If Wuya Immortal Venerable's energy was consumed to a certain degree, wouldn't he be unable to maintain the existence of the copy?

Thinking about this, Yun Yudie prepared to make another move, but just at this time, she suddenly noticed that Wuya Immortal Venerable's Boundary Sea was about to expand to the Mysterious Moon Palace.

If Wuya Immortal Venerable's Boundary Sea continued to expand, the entire Mysterious Moon Palace might be torn apart by the space power contained within the Boundary Sea.

The battlefield must be moved away from the Mysterious Moon Palace. With this thought, Yun Yudie's body transformed into a shadow and flew directly towards the deeper part of the barbaric territory.

Upon seeing Yun Yudie fly away, Wuya Immortal Venerable remained unfazed. He knew Yun Yudie wasn't trying to flee but was worried that fighting here would destroy the Mysterious Moon Palace.

Since Yun Yudie feared the destruction of the Mysterious Moon Palace, he specifically chose to attack here. Only then could he force Yun Yudie to reveal Lu Chen's hiding place.

With this thought, Wuya Immortal Venerable did not move away from the Mysterious Moon Palace. Instead, he continued to drive the expansion of the Boundary Sea, and soon the space around the Mysterious Moon Palace began to form cracks.

Having children earns benefit, start competing for dominance in the world by marrying a wife

After Yun Yudie left for a moment, she discovered that Wuya Immortal Venerable hadn't followed her. Not only did he not follow, but he also urged the Boundary Sea to continue expanding, which instantly changed Yun Yudie's expression slightly.

If Wuya Immortal Venerable doesn't leave, then her move later would definitely affect the Mysterious Moon Palace. The current Immortal Gate Array of the Mysterious Moon Palace could at best defend against attacks at the Immortal King Level, and a strike at the Immortal Venerable Level would easily destroy the array barrier of the Mysterious Moon Palace.

Just when Yun Yudie didn't know what to do, suddenly, the aura of an Immortal King appeared above the Mysterious Moon Palace.

Immediately following, Lu Chen's figure appeared high in the sky.

Seeing Lu Chen appear, Wuya Immortal Venerable hesitated for a moment, and images of battles with Lu Chen from billions of years ago involuntarily surfaced in his mind.

At that time, Lu Chen had just emerged, and was just like now, merely an Immortal King. Yet, Lu Chen, with the strength of an Immortal King, fought back and forth against him, an Immortal Venerate.

Feeling the Immortal King aura on Lu Chen, Wuya Immortal Venerable's expression became slightly serious. He then said, "It's really unexpected that you have such a big fate, able to enter the Chaotic Sea and still come out alive. I am very curious, what kind of opportunity did you obtain in the Chaotic Sea?"

This time he's seeking Lu Chen just for the opportunities on Lu Chen, and he did not conceal his purpose at all.

Lu Chen did not answer Wuya Immortal Venerable's question. At this moment, Yun Yudie's body appeared once again in the air, and Lu Chen directly sent a voice transmission to Yun Yudie, "Transfer your immortal power to me."

Yun Yudie instantly understood what Lu Chen wanted to do.

Seeing Lu Chen not answering his question, Wuya Immortal Venerable's face darkened.

Not even speaking, this clearly showed that he didn't consider him at all.

Since that was the case, then it was time to take action directly. Once he captured Lu Chen, he had countless ways to make Lu Chen talk, and he could even know Lu Chen's opportunities without Lu Chen speaking, as he could perform a Soul Search.

At this moment, a massive array pattern suddenly appeared under Lu Chen's feet. Within moments, this formation expanded and directly enveloped Wuya Immortal Venerable.

Wuya Immortal Venerable's expression instantly turned extremely serious, as he seemed unfamiliar with this formation, so he didn't know its purpose. Precisely because of this, Wuya Immortal Venerable's heart was filled with a sense of danger, and he immediately became highly vigilant.

After all, Lu Chen walked out from the Chaotic Sea, so he always felt that Lu Chen carried countless opportunities, and Lu Chen could produce a teleportation array capable of moving the entire Mysterious Moon Palace; naturally, he could also bring out a terrifying killing array capable of harming him.

The Chaotic Sea is full of infinite possibilities, and Wuya Immortal Venerable was terrified that what Lu Chen was currently deploying might be a terrifying killing array. When Wuya Immortal Venerable considered temporarily leaving, Yun Yudie directly came to Lu Chen's side and immediately infused him with power.

With the power of Yun Yudie, the Immortal Venerate, in just a moment, Lu Chen activated the Spirit Realm Crossing Array, and in the next instant, Wuya Immortal Venerable, Lu Chen, and Yun Yudie disappeared from their original place.

After Wuya Immortal Venerable vanished, his Boundary Sea also collapsed in an instant due to the lack of power support, while the world power of Tianyan Immortal Domain quickly repaired the shattered space.

Meanwhile, in a boundless desert within the Barbaric, Lu Chen, Yun Yudie, and Wuya Immortal Venerable suddenly appeared in the high air above the Desert Sea.

Wuya Immortal Venerable's face was extremely gloomy. Although Lu Chen hadn't used a killing array, which was a relief to him, he hadn't expected Lu Chen's teleportation array to possess the ability to forcibly teleport. Even he, a master of Space-Time Power, was unable to resist the Teleportation Power, indicating that the level of this teleportation array was extremely high.

If Lu Chen could obtain such a terrifying teleportation array from the Chaotic Sea, he certainly could also gather other powerful opportunities from there. Considering this, Wuya Immortal Venerable did not let down his guard.

Wuya Immortal Venerable raised his hand, snorted coldly, and said, "Do you think leaving the Mysterious Moon Palace means you can freely unleash your power?"

"Do you think unleashing your power to fight me means you can stand against me?"

As his words fell, the Space-Time Power around Wuya Immortal Venerable surged again, then he shouted aloud.

"Boundary Sea Infinity!!!"

In an instant, the space shattered piece by piece, forming a Boundary Sea composed of space fragments in the high air where they stood. The Space-Time Power within the Boundary Sea crazily devoured everything around and continuously expanded.

Yun Yudie immediately released her Law Manifestation, gathered all her immortal power, ready to fight to the death with Wuya Immortal Venerable. Since they were already far from the Mysterious Moon Palace, even if she used all her strength, it wouldn't affect the Mysterious Moon Palace, allowing her to go all out.

However, at this moment Wuya Immortal Venerable repeated his old tricks and again deployed the previous magic.

"Boundary Sea Illusion!!!"

A massive amount of Space-Time Power once again gathered Yun Yudie's illusion. As long as Yun Yudie took action, that illusion would also strike.

Yun Yudie frowned slightly. This illusion was a significant problem for her, though she could exhaust Wuya Immortal Venerable's Space-Time Power through constant

attacks, until she depleted his Space-Time Power, she had no way to deal with Wuya Immortal Venerable.

After all, he is an Immortal Venerate, and the power an Immortal Venerate possesses is not so easily exhausted. It's known that the battle between the Demon Emperor of Northern Domain and the Dragon Extreme Immortal Venerate lasted for decades.

Just as Yun Yudie prepared herself for a battle with Wuya Immortal Venerable that could last decades, Lu Chen suddenly spoke to her, saying, "Go ahead! I have a way!"

After hearing Lu Chen's words, Yun Yudie did not hesitate again, condensed her Ice Power, and shouted, "Ice Soul Shattering Soul Technique!!!"

In an instant, countless ice cones appeared in the sky, covering the entire area.

Seeing this, Wuya Immortal Venerable was indifferent, as the illusion he created using Space-Time Power was Yun Yudie's projection. No matter how fierce Yun Yudie's attack was, the copy would possess the same power.

Defeating him was not such an easy task.

However, just when Wuya Immortal Venerable believed Yun Yudie and Lu Chen had no way to deal with him, suddenly Lu Chen's body erupted with a terrifying Space-Time Power.

Immediately, a massive black hole appeared behind Lu Chen, and consequently, the Desert Sea transformed into an endless starry sky, with Lu Chen situated before the black hole as if he were wielding control over this world.

Wuya Immortal Venerable hesitated for a moment, "Is this the integration of the Space Path and the Time Path???"

"How is this possible!!!"

Feeling both the Space Path might lead to understanding the Time Path and using the Power of Time yet even he could not fully grasp the integrated Space-Time Path.

Why could Lu Chen, an Immortal King, control the complete Space-Time Path? Although he's an Immortal Venerate, his understanding of the Space-Time Path isn't as profound as Lu Chen's, thus he becomes influenced by Lu Chen while mobilizing Space-Time Power.

After Lu Chen summoned the phenomena of Space-Time Path, he directly cut off the Space-Time Power of Yun Yudie's copy, causing it to dissipate into ice crystals without the support of Space-Time Power.

Having children earns benefit, start competing for dominance in the world by marrying a wife

Seeing Lu Chen calling upon Space-Time Power, Yun Yudie, who was preparing to act, was also stunned in mid-air.

Although she had anticipated earlier that Lu Chen had a way to deal with the replica by asking her to make a move, she never expected that Lu Chen would directly summon the Space-Time Path and absorb the Space-Time Power maintaining the replica.

This method is just too straightforward and brutal.

However, Wuya Immortal Venerable is an Immortal Venerate after all; Lu Chen only possesses the Immortal King's Power right now. Although he seems more advanced than Wuya Immortal Venerable in understanding the Space-Time Path, the Power of Dao he can mobilize surely pales in comparison to Wuya Immortal Venerable.

He can mobilize Space-Time Power, and Wuya Immortal Venerable can also mobilize more Space-Time Power.

Knowing that Lu Chen is a significant threat now, Wuya Immortal Venerable realized that if Lu Chen continued to interfere, certain magic would fail to launch due to inadequate power. Hence, the priority was to render Lu Chen combat ineffective.

Fortunately, Lu Chen is merely an Immortal King now; Wuya Immortal Venerable then activated the Boundary Sea, which rapidly expanded toward Lu Chen, seemingly intent on tearing him apart.

Seeing the space fracturing inch by inch, with countless spatial fragments rushing towards him, Lu Chen remained unfazed. He too controlled the Space-Time Power, and tearing his body apart using fragmented space was not an easy task.

Lu Chen quickly mobilized Space-Time Power to mend the fractured space within Wuya Immortal Venerable's Boundary Sea. With the World Power from the Tianyan Immortal Domain continuously repairing fragmented space, combined with Lu Chen actively using Space-Time Power to fix the broken space, Wuya Immortal Venerable's Boundary Sea instantly ceased expanding, and the space within the Boundary Sea visibly recovered.

Seeing this scene, Wuya Immortal Venerable's face turned exceedingly grim. Lu Chen's current strength was far inferior, but this guy was using Space-Time Power.

The key issue was that Lu Chen's comprehension of the Space-Time Path far surpassed his, causing significant interference; if it continued, Wuya Immortal Venerable might not be a match for Yun Yudie.

Wuya Immortal Venerable couldn't understand; if he recalled correctly, when he battled Lu Chen billions of years ago, Lu Chen did not cultivate the Time Path or Space Path; why is Lu Chen so deeply enlightened in the Space-Time Path now? He even surpasses himself, an Immortal Venerate.

Could it be because Lu Chen gained some opportunity within the Chaotic Sea? He must have obtained something that enhances Dao comprehension, like Enlightenment Tea or some similar item.

Thinking about this, Wuya Immortal Venerable's heart burned again; it's just the restriction of Space-Time Power, which is nothing to him.

Since Space-Time Power is restricted, he decided not to use Space-Time Power.

In the next moment, Wuya Immortal Venerable's Law Manifestation emitted golden light, followed by a loud shout from Wuya Immortal Venerable.

"Wuya Dao Domain!!!"

With those words, the Desert Sea disappeared instantly, and in the next moment, they appeared in a dim world, seemingly boundless, where Yun Yudie and Lu Chen felt their internal powers being restrained upon entering the Dao Domain.

Wuya Immortal Venerable coldly observed the distant Yun Yudie and Lu Chen; this was his true realm, where he controlled the rules, severely suppressing Yun Yudie and Lu Chen's powers.

At this moment, Wuya Immortal Venerable said to Lu Chen: "Lu Chen, you should be quite familiar with this domain!"

During the ancient battle between Wuya Immortal Venerable and Lu Chen, Wuya struggled to defeat Lu Chen for a long time, ultimately having to resort to the domain; even then, Lu Chen eventually broke the domain and escaped to the Chaotic Sea.

But this time, Wuya did not believe Lu Chen could break through his domain again.

Feeling the oppressive force of Wuya Immortal Venerable's domain, Lu Chen was not panicked; he quickly thought of a way to leave this domain.

In the next moment, Lu Chen transmitted a voice to Yun Yudie, "Transfer power to me!"

Yun Yudie instantly understood Lu Chen's intention and stepped forward, directly arriving behind Lu Chen and transferring Immortal Power to him.

With an influx of power, Lu Chen did not hesitate and swiftly deployed the Spirit Realm Crossing Array.

Seeing the Formation suddenly appearing beneath Lu Chen's feet, Wuya Immortal Venerable mocked, "Attempting the same old trick again? That's rather naive!"

The domain is an independent space where space has been sealed off; Lu Chen wanting to escape with a Transmission Array was tantamount to dreaming.

However, contrary to Wuya Immortal Venerable's expectation, just as he deemed Lu Chen doomed to fail, the Transmission Array beneath Lu Chen's feet suddenly emitted a dazzling light, followed by a spatial distortion within the Dao Domain, as a black hole appeared before Lu Chen and Yun Yudie.

In the next moment, Lu Chen and Yun Yudie were sucked into the black hole, disappearing entirely from the Dao Domain.

Seeing the empty Dao Domain, Wuya Immortal Venerable was utterly bewildered—how could this be?

It was his domain, and not to mention the space was sealed, the rules were under his command, yet Lu Chen managed to use a Transmission Array to escape his domain???

After leaving Wuya Immortal Venerable's domain, Yun Yudie spoke: "There's no need to leave his domain."

Although their powers would be somewhat suppressed within Wuya Immortal Venerable's domain, even if they escaped, Wuya Immortal Venerable would soon deploy the domain again.

Nonetheless, the recent transmission didn't consume much of Yun Yudie's Immortal Power, as the consumption of Immortal Power for Spirit Realm Crossing Array depends on distance; essentially, they teleported in place, only shifting to another space, resulting in minimal Immortal Power consumption.

As soon as Yun Yudie finished speaking, Wuya Immortal Venerable dispelled the domain, his body reappearing before Yun Yudie and Lu Chen, with the realm's failure highlighting to Wuya Immortal Venerable that the only way to defeat Yun Yudie was through direct confrontation.

In fact, Wuya Immortal Venerable had considered relinquishing temporarily, given Lu Chen's absurd Transmission Array, which could teleport people out of his domain, implying that even if he defeated Lu Chen and Yun Yudie, they could escape again using that Transmission Array.

Yet, thinking about the good stuff Lu Chen possesses, Wuya Immortal Venerable ultimately refused to give up; he must acquire whatever opportunity Lu Chen has, which might be crucial to his ambitions of becoming an emperor.

With this in mind, Wuya Immortal Venerable mobilized his power, "Star Track Sky Fixing Technique!!!"

Instantly, the sky darkened, and stars began shifting, weaving a massive net with emitted starlight, sealing the area around Lu Chen and Yun Yudie.

Seeing this, Lu Chen chuckled softly; having failed to seal them with the domain, did Wuya really think this technique could trap them?

Wuya Immortal Venerable is not a fool. After realizing that space confinement is ineffective against them, he naturally wouldn't continue using similar methods.

The Star Track Sky Fixing Technique isn't just a mere spatial confinement; its most crucial function is to monitor the surrounding space-time like a spider's web.

No matter where Lu Chen and Yun Yudie appear around here next, he can instantly track them down.

At this moment, a long halberd appeared in Wuya Immortal Venerate's hand, and with it, he gathered all his immortal power, "Space-Time Slash!!!"

With one halberd strike, the space-time immediately ruptured, and a black Immortal Aura wrapped in Space-Time Power directly slashed toward Cao Shiyun.

At this moment, Yun Yudie no longer hid her strength. The next instant, her body emanated a gentle white light.

Immediately afterward, a full moon appeared behind her. Yun Yudie then unleashed her Ice Power and Power of Slaughter. As the two volatile forces merged, the space they were in began to tremble.

The next moment, Yun Yudie coldly shouted, "Ice Seal of Ancient Times!!!"

In an instant, a mixed power combining Ice Power and Power of Slaughter was unleashed from Yun Yudie's body. In just a moment, the entire space was frozen, and even the halberd strike from Wuya Immortal Venerate was frozen.

The entire world seemed to stand still. As Lu Chen looked at the motionless surroundings, he immediately realized that Yun Yudie's released power not only froze all things but even froze space-time itself?

How terrifying?

What is that moon behind Yun Yudie?

Before Lu Chen could ask the system, Yun Yudie acted once more, "Ice Soul Shattering Soul Technique!!!"

In an instant, countless ice cones struck the frozen Wuya Immortal Venerate, and before he could react, he was continuously bombarded by those ice cones.

Each of those ice cones contained Power of Slaughter, and when this power came into contact with Wuya Immortal Venerate's body and Law Manifestation, it continuously damaged his body and Law Manifestation.

When the time for Ice Seal of Ancient Times passed, and Wuya Immortal Venerate regained consciousness, his body was already severely injured. He spat out a mouthful of fresh blood and looked in disbelief at Yun Yudie not far away.

The expression on Wuya Immortal Venerate's face was exceedingly grave, his fists clenched, "That's the Moonlight Immortal Body!!!"

"I didn't expect you to actually be an Immortal Body!"

Many factors influence an Immortal's strength, including special attributes. Immortals with special physiques are inherently stronger than those without.

Special physiques are categorized in many ways: Treasure Body, Spiritual Body, War Body, Immortal Body.

The Immortal Body is the most powerful among all physiques. In the Tianyan Immortal Domain, those with an Immortal Body are all leaders of a Super Force.

The Hall Master of the Heavenly Splendor Hall, Star River Immortal Venerate, also possesses an Immortal Body.

Wuya Immortal Venerate realized he had hit a wall today. The power Yun Yudie just released, which froze even space-time, clearly showed that her current strength far surpassed his own.

Could it really end like this today?

Am I just going to leave like this?

No, having come so far, it can't be in vain. With this thought, Wuya Immortal Venerate's gaze turned to Lu Chen. In the next moment, his body suddenly disappeared, and when he reappeared, he was already in front of Lu Chen.

Seeing this, Yun Yudie's expression changed slightly. However, upon remembering that Lu Chen's body was merely a clone, she took no action and continued watching from afar.

Appearing in front of Lu Chen, Wuya Immortal Venerate sneered, "I may not be a match for an Immortal Body, but you are not an Immortal Body!"

As he spoke, Wuya Immortal Venerable swung his big halberd directly toward Lu Chen. Yet, surprisingly, Lu Chen's face showed no fear, causing Wuya Immortal Venerable to have a bad feeling.

Lu Chen then said, "It's about time."

The power of the Immortal King's Remain Curse still had much left. Self-detonation now would severely injure even an Immortal Venerate, especially since Wuya Immortal Venerate was already wounded by Yun Yudie.

Upon hearing Lu Chen's words, Wuya Immortal Venerable was momentarily stunned, unsure of what Lu Chen's sudden words meant.

But soon, Wuya Immortal Venerable understood.

At this moment, a violent force surged from Lu Chen's body. Before Wuya Immortal Venerable could react, Lu Chen's body exploded directly.

The force generated by the Immortal King's self-explosion instantly blew a black hole into the space, blasting Wuya Immortal Venerable, who stood in front of Lu Chen, away with its destructive power.

After all, Wuya Immortal Venerable was still an Immortal Venerable, coupled with the Life-saving Treasure on him. Using a self-explosion without a Divine Soul, to want to blast Wuya Immortal Venerable to death was almost impossible.

Only after being blasted hundreds of kilometers away did Wuya Immortal Venerable gradually recover, though his mind was still a bit dazed, still somewhat stunned.

Direct self-explosion???

Did Lu Chen become so fierce after coming out of the Chaotic Sea?

Recalling the scene of Lu Chen's self-explosion earlier, Wuya Immortal Venerate suddenly felt a pain throughout his body. He spat out a mouthful of fresh blood, his aura significantly weakened.

Wuya Immortal Venerate quickly took a pill to restore his body. He couldn't believe Lu Chen really self-exploded; Lu Chen had self-exploded before in the Southern Domain and was still perfectly fine now.

This must be his clone!

But even if he now knew it was his clone, what could he do? Currently, he was severely injured, and with Yun Yudie being an Immortal Body, he couldn't do anything to them.

Wuya Immortal Venerate ultimately decided to temporarily retreat. Conveniently, he had been blasted away, so leaving now meant Yun Yudie couldn't catch up.

Wuya Immortal Venerate didn't hesitate and immediately tore through space, leaving the Dragon Land.

When his body appeared again, he was already within the Sunset Mountain Range.

At this moment, the residual sun hung like blood, and the Sunset Mountain Range fell into a deathly silence, with no sound at all around, instantly heightening Wuya Immortal Venerate's vigilance.

Wuya Immortal Venerate released his Divine Sense to explore the nearby situation but found nothing out of the ordinary.

No abnormalities meant the biggest abnormality. In such a quiet environment, without even the call of animals, how could there be nothing abnormal?

Wuya Immortal Venerate thought to himself, better to leave this ghostly place as soon as possible and return to the Heavenly Splendor Hall to report the happenings here to the Hall Master.

He couldn't bring Lu Chen back alone, so bringing more Immortal Venerates and the Magic Treasures from their Heavenly Splendor Hall, not even Yun Yudie, despite being an Immortal Body, could protect Lu Chen.

Lu Chen has too many secrets, and it's worth deploying more Immortal Venerates for this.

Just as Wuya Immortal Venerable was about to tear space again to continue on his way, he suddenly realized his inner strength seemed frozen, and he couldn't move at all.

The next moment, a bizarre cold aura rushed from the soles of his feet to the top of his head, making Wuya Immortal Venerable break out in a cold sweat, "What... is... happening..."

As soon as the words left Wuya Immortal Venerable's mouth, everything went black, and he completely lost consciousness, his entire being shrouded in a black mist emerging from the forest of the Sunset Mountain Range.

Having children earns benefit, start competing for dominance in the world by marrying a wife

In the Desert Sea, Yun Yudie glanced at the large crater caused by Lu Chen's explosion in front of her, then looked into the distance. After not sensing Wuya Immortal Venerable's aura, she knew he must have escaped.

As for Wuya Immortal Venerable, she did not plan to pursue him. After all, Wuya Immortal Venerable grasps the Space-Time Path and can manipulate Space Power.

If he wanted to flee, he could simply activate Space Power and traverse space, making it likely she wouldn't be able to catch him.

Yun Yudie immediately returned to the Mysterious Moon Palace.

She had just returned to her bedchamber when one of Lu Chen's Heavenly Immortal body appeared in the hall.

Lu Chen glanced around and said with a laugh, "I didn't expect Honored Master to still be an Immortal Body."

Ignoring Lu Chen's words, Yun Yudie said, "He escaped. When he returns to the Heavenly Splendor Hall, he may bring more Immortal Venerates with him. You'd better think carefully about how to handle what's coming."

If there were only one Immortal Venerate, she could handle it herself, but if several more Immortal Venerates came, especially with powerful Magic Treasures, she certainly couldn't withstand it alone.

Lu Chen said, "What is there to fear, he..."

Before Lu Chen finished speaking, he felt a sudden tightness in his chest, and an inexplicable panic surged in his heart, making him very uncomfortable, as if he was being targeted by some great enemy.

Lu Chen suddenly turned to look in the direction of the Sunset Mountain Range; that feeling came from the Sunset Mountain Range. Could it be that the Heavenly Splendor Hall sent stronger Immortal Venerates here?

The feeling was not exclusive to Lu Chen. At this time, Yun Yudie also felt it, and she also looked toward the direction of the Sunset Mountain Range, releasing her Divine Thought to investigate what was happening in the Sunset Mountain Range.

However, after releasing her Divine Thought, she found nothing; everything in the Sunset Mountain Range was calm.

Turning to look at Yun Yudie, Lu Chen asked, "Did you feel it too?"

Yun Yudie withdrew her Divine Thought and responded, "Yes."

Lu Chen muttered to himself, "It's a bit strange; there's no aura, yet it incites fear. What exactly is in the Sunset Mountain Range?"

If a strong figure appeared in the Sunset Mountain Range and released an aura, causing fear among people would be quite normal. But the sudden feeling of dread cloaked Lu Chen's heart, as if a catastrophe was imminent, and most importantly, he detected no aura from any powerful figure.

This situation seemed a bit eerie.

Lu Chen looked at Yun Yudie and asked, "Did you perceive anything?"

With a solemn expression, Yun Yudie answered, "No."

She too had a gut feeling that there was some danger within the Sunset Mountain Range, but her Divine Thought detected no abnormalities. Of course, the anomaly might be deeper within the Sunset Mountain Range.

After all, the Sunset Mountain Range is vast, and her Divine Thought couldn't possibly cover it completely.

After considering for a moment, Lu Chen said, "Why don't we take a look?"

With that, Lu Chen prepared to use the Spirit Realm Crossing Array. Seeing this, Yun Yudie, without waiting for Lu Chen to speak, began channeling immortal power toward him.

In the next moment, the Spirit Realm Crossing Array activated, and their bodies disappeared from the hall. When they reappeared, they were above the Sunset Mountain Range.

The Sunset Mountain Range was extremely extensive, and within it were many dire locations, so even an Immortal Venerate's Divine Thought couldn't fully investigate it.

Lu Chen had only transmitted them to the fringe of the Sunset Mountain Range and did not venture deep inside.

Once in the air above the Sunset Mountain Range, they looked towards its depths. At this moment, the Sunset Mountain Range was full of life, a realm of birds and flowers, showing no signs of anything being amiss.

However, Lu Chen and Yun Yudie trusted their senses; if one person experienced an illusion, that would be understandable, but it was impossible for both of them to have the same illusion simultaneously. There must be something bizarre within the Sunset Mountain Range, yet they were unable to perceive it.

After pondering for a moment, Lu Chen told Yun Yudie, "Let's go back, this place is indeed strange."

While speaking, Lu Chen once again arranged the Spirit Realm Crossing Array, and they instantly returned to the Mysterious Moon Palace.

Back at the Mysterious Moon Palace, Lu Chen asked Yun Yudie, "What do you think that was?"

Yun Yudie didn't answer immediately; a thoughtful expression appeared on her cold jade-like face. After a while, she said, "Perhaps a strong presence from the Sunset Mountain Range's dire locations has emerged."

The Sunset Mountain Range holds many dire locations that even Immortal Venerates dare not easily tread. What's within these places remains unknown, but there are suspicions that some sealed primordial immortals reside in them.

Of course, whether this is true or not, no one knows, as nobody has verified it.

Lu Chen thought for a while; the fact that without releasing an aura, it could induce a sense of crisis suggested that whatever was in the Sunset Mountain Range—be it human or non-human—it would inevitably impact him in the future. He needed to keep a constant watch on the Sunset Mountain Range.

...

Half a year later.

At the Heavenly Splendor Hall.

Star River Immortal Venerate sat atop the Xianjin-crafted throne at the forefront of the Star River Hall, discussing recent events with other Immortal Venerates.

At this moment, one Immortal Venerate said, "I believe immortals from other realms should have noticed as well."

Another Immortal Venerate commented, "This is somewhat similar to the previous situation with the Reproduction Path, maybe it's only temporary."

Recently, Immortal Venerates gradually discovered that the paths they tread on were being eroded by some strange force, reducing the Power of Dao they could mobilize. Almost all immortals, whether Immortal Venerates or ordinary immortals, experienced a significant decline in power.

This plunged all immortals in the Southern Domain into panic, as if an age of fading laws was approaching. Though they had never experienced such an age, ancient records detailed some occurrences akin to a fading era.

Listening to the discussions among Immortal Venerates in the hall, Star River Immortal Venerate pondered; his cultivation had already reached the pinnacle of Immortal Venerate, allowing him to sense more clearly the eerie erosion power affecting the path he cultivated.

Then, another Immortal Venerate said, "I think Immortal Venerable Tianfeng has a point; hasn't the Reproduction Path faced issues before, yet ultimately it returned to normal—it should be temporary this time too."

When the Reproduction Path faced problems, reproduction in the Tianyan Immortal Domain became very difficult, overwhelming all forces with panic. Various immortal sects began focusing resources on raising mortals to supplement their ranks.

But decades ago, the Reproduction Path in the Tianyan Immortal Domain returned to normal, leading some Immortal Venerates to suspect this situation might also be temporary, possibly normalizing soon.

However, "soon" could mean hundreds of years, or a few billion years, as the Reproduction Path's issues persisted for tens of billions of years.

Having children earns benefit, start competing for dominance in the world by marrying a wife

Listening to the discussion among the Immortal Venerates, Star River Immortal Venerate had his brows furrowed the whole time, looking grave.

He was evidently less optimistic than the Immortal Venerates present; the Star River Path he cultivated possesses certain deduction abilities, and with the Power of Stars, he could even glimpse into situations of other Daos.

Back then, when reproduction within the Tianyan Immortal Domain became difficult, he was the first to discover that the Reproduction Path was being eroded by a mysterious force. He was also the first to suspect there was a problem with the Reproduction Path, leading to the difficulty in reproduction within the Tianyan Immortal Domain.

At this moment, the Immortal Venerates in the hall were still discussing, appearing optimistic. As they noticed the silence of Star River Immortal Venerate, everyone stopped their discussion, focusing their attention on him.

The entire hall fell silent for a moment. After a while, one Immortal Venerate asked, "Does the Hall Master have any findings?"

Star River Immortal Venerate snapped back to reality, speaking solemnly, "Cultivation Path is not only about people's Cultivation States and power; it is also linked to the operating rules of the world."

"Since there is a problem with the Reproduction Path, causing difficulty in the world's pronation, if the Life Dao encounters issues, does it also mean that our lifespans might face challenges? Perhaps, if this continues, all Immortals' limits may come prematurely."

Upon hearing the Star River Immortal Venerate, the face of the Immortals present changed dramatically, realizing they had forgotten this crucial aspect. The Cultivation Path of Tianyan Immortal Domain resembles the operating law of the domain itself; once a certain Dao faces problems, it affects more than just their strength.

If the Life Dao is also eroded, it would be a massive disaster for the Immortals of Tianyan Immortal Domain. At that time, who knows how many Immortals approaching their limits could perish because of the erosion of the Life Dao.

Even if the Life Dao eventually recovers, numerous Immortals might have died during the problematic period, and even when the Life Dao returns to normal, there's no reviving those fallen Immortals.

They, the Immortal Venerates, might be among the first ones facing premature limits.

Upon pondering this, the Immortal Venerates in the hall could no longer stay calm, showing panic on their faces one by one.

If Star River Immortal Venerate's speculation is correct, it would spell disaster for Tianyan Immortal Domain. Importantly, the troubled Dao is not just the Life Dao, meaning future challenges will not only be about premature limits.

What to do now?

Back when the Reproduction Path faced issues, they had no way to solve it, ultimately waiting for the Power of the Reproduction Path to return to normal.

Now that so many Daos face problems, they are even less capable of resolving it.

Seeing the Immortal Venerates in disarray, Star River Immortal Venerate said, "This is merely conjecture from myself, no need to be extremely tense. I will write to other Super Forces, inviting them to jointly discuss how to address this tribulation."

The issues concerning the Cultivation Path are beyond what one Super Force of the Heavenly Splendor Hall can resolve - it relies on whether other Super Forces have ways to tackle this matter.

Even so, Star River Immortal Venerate did not hold much hope internally, knowing they're still a group of Immortal Venerates unable to directly interfere with the Heavenly Dao Laws of Tianyan Immortal Domain.

As Star River Immortal Venerate prepared to adjourn the meeting, a golden figure suddenly appeared in the hall, and the people noticed the arrival.

Seeing Wuya Immortal Venerable had returned, an Immortal Venerate asked, "Wuya Immortal Venerable, did you capture Lu Chen?"

Wuya Immortal Venerable glanced around at the Immortal Venerates before speaking nonchalantly, "No, the Hall Master of Mysterious Moon Palace has already become an Immortal Venerate; I am no match for her."

Upon hearing Wuya Immortal Venerable's response, everyone was momentarily shocked. They knew Wuya Immortal Venerable's strength, especially his mastery of Space-Time Power that could replicate the opponent's future illusions. Just with that, few Immortal Venerates in Tianyan Immortal Domain could match him.

He actually lost to someone who had just broken through to become an Immortal Venerate?

Star River Immortal Venerate immediately realized something and asked, "Does she have a special constitution?"

Wuya Immortal Venerable replied, "Yes, she possesses the Moonlight Immortal Body."

This...

Upon hearing Wuya Immortal Venerable's response, the Immortal Venerates in the hall fell silent instantly. A Immortal Venerate possessing the Immortal Body holds strength akin to their Hall Master, making Wuya Immortal Venerable's escape commendable, with defeat reasonable.

At this moment, Immortal Venerable Tianfeng spoke, "Considering the Dao facing problems, the best solution is to assist someone in becoming an Immortal Emperor; only an Immortal Emperor can connect with the Heavenly Dao and alter the laws of nature."

"Lu Chen emerged from Chaotic Sea, indicating he might possess the opportunity to become an Immortal Emperor. Despite slim chances, we have no better solutions to the Dao's issues now."

Upon hearing Immortal Venerable Tianfeng's words, the Immortal Venerates present found some logic; with no viable solution to the Dao's issues currently, they might as well seize Lu Chen and see if he holds the opportunity to become an Emperor.

If indeed Lu Chen possesses the opportunity to become an Emperor, or knows where such opportunity lies, once someone among them becomes an Immortal Emperor, the Dao's problems should resolve accordingly.

In truth, the Immortal Venerates present mainly desired the opportunity to become an Emperor; the Dao issues were merely incidental mentions.

Now, the gaze of the Immortal Venerates fell upon Star River Immortal Venerate, seeking to know his next course of action.

After all, with the Immortal Venerate of the Mysterious Moon Palace holding an Immortal Body, only Star River Immortal Venerate possessing the Star Immortal Body could contend.

Star River Immortal Venerate looked at Wuya Immortal Venerable, furrowing his brows, and after a moment of silence asked, "Wuya, how formidable do you think the Mysterious Moon Palace's Hall Master is?"

Wuya Immortal Venerable replied, "Very strong."

Star River Immortal Venerate continued, "Compared to myself?"

Wuya Immortal Venerable responded, "Naturally, the Hall Master is more formidable."

Star River Immortal Venerate fell into contemplation once more, eventually speaking, "Now that Tianyan Immortal Domain faces the Tribulation of the Great Dao, it's not time for strife. I will write to the Hall Master of Mysterious Moon Palace, elucidating the crux of the matter, to see whether Lu Chen holds the opportunity to become an Emperor. I believe faced with the Tribulation of the Great Dao, the Hall Master of Mysterious Moon Palace should know what to do."

Upon hearing Star River Immortal Venerate's words, the Immortal Venerates were dumbfounded. Write to the Hall Master of Mysterious Moon Palace?

If Lu Chen indeed holds the opportunity to become an Emperor, would he relinquish it due to the Tribulation of the Great Dao?

Impossible, given their pursuit of Lu Chen from the outset, the situation with Lu Chen and Heavenly Splendor Hall has reached a point of irreconcilable conflict, unlikely to part with the Emperor opportunity due to a mere letter from their Hall Master.

The crowd was deeply puzzled, unclear what their Hall Master intended.

Northern Domain.

In the center of the battlefield, the void is filled with fragments of space, forming a chaotic vortex with a diameter of hundreds of thousands of kilometers. The speed of repairing the World Power cannot keep up with the destruction speed of Xu Jingshu and Dragon Extreme Immortal Venerate.

The Chaos Qi from the Chaotic Sea gradually spread to the battlefield, forcing the Immortals of the Immortal Domain Alliance Army to retreat to a distance to observe. Such a level of battle is no longer something ordinary Immortals can intervene in.

Outside the battlefield, there was a warship bearing the flag of the Mysterious Moon Palace, and the Heavenly Language Immortal Venerate stood on the deck of the warship, gazing at the broken void in the distance, lost in thought.

At this time, the other Immortal Venerates from various forces of the Immortal Domain Alliance had all arrived at the warship where the Heavenly Language Immortal Venerate was.

At this moment, an Immortal Venerate spoke up: "Heavenly Language Immortal Venerate, I wonder what plans you and the Mysterious Moon Palace have?"

The Heavenly Language Immortal Venerate looked at the broken void in the distance and calmly responded, "What plans does the Immortal Domain Alliance have?"

An Immortal Venerate from the Eastern Domain said, "I fear Dragon Extreme Immortal Venerate won't last many more years. We must take action; otherwise, once Dragon Extreme Immortal Venerate falls, we will be even less of a match for the Demon Emperor."

"Moreover, the strength of the Demon Emperor increases daily. If she regains her cultivation state, the Tianyan Immortal Domain will once again fall into the dark rule of the Demon Emperor."

Upon hearing those words, the Heavenly Language Immortal Venerate pondered for a moment and then recalled that Chen Lu had not yet taught her the Immortal Law that could restrain the Heavenly Demon Power.

Since she was going to confront the Demon Emperor soon, it was time for Chen Lu to teach her that Immortal Law. However, she did not know if that Immortal Law could indeed restrain the Heavenly Demon Power.

Coming back to her senses, the Heavenly Language Immortal Venerate continued to ask, "When do you plan to take action?"

An Immortal Venerate from the Eastern Domain replied, "In a year. During this year, we will try to enhance our strength as much as possible and make thorough preparations."

The Heavenly Language Immortal Venerate said indifferently, "Very well."

Seeing the Heavenly Language Immortal Venerate also agreed, the other Immortal Venerates felt a bit more confident.

Just then, several streams of light suddenly appeared in the sky, and the next moment, several Communication Jade Scrolls appeared in front of the Immortal Venerates.

Seeing the Communication Jade Scrolls, the Immortal Venerates were momentarily stunned. What had happened? Why did they all receive Communication Jade Scrolls simultaneously?

Without any hesitation, everyone picked up the Jade Scrolls in front of them, then used their immortal power to activate the Jade Scrolls and read the contents inside.

After reading the letters in the Jade Scrolls, the expressions on the faces of the Immortal Venerates present became extremely solemn, and for a moment, the air around seemed to freeze.

After an unknown amount of time, an Immortal Venerate finally spoke, "With the Demon Emperor yet unresolved, unexpectedly, a Tribulation of the Great Dao has appeared in the Tianyan Immortal Domain. No wonder I have felt my strength declining recently; I thought it was the influence of the Heavenly Demon Power."

At first, the Immortal Venerates in the Northern Domain did not know there was a problem with the Great Dao. Although they too sensed a decline in their strength, being in the Northern Domain, they subconsciously attributed the decline to the influence of the Heavenly Demon Power.

After all, the current Northern Domain was filled with the Heavenly Demon Power, which had always been suppressing their celestial power, making the decline in their strength inevitable.

However, the Star River Immortal Venerate had sent them a message, saying there was an issue with the Great Dao.

If there is indeed a problem with the Great Dao, then they must promptly resolve the Demon Emperor; the power used by the Demon Emperor isn't the world's power, and the Dao she cultivated seems unrelated to this world.

After the Cultivation Path in the Tianyan Immortal Domain had issues, the strength of other Immortal Venerates would be affected and decline, while the Demon Emperor was unaffected. If the Dao was further corrupted, the strength of these Immortal Venerates would decline even more. At that time, even if the

Demon Emperor did not recover to an Immortal Emperor Cultivation, she could once again dominate the Tianyan Immortal Domain.

Thinking of this, the Immortal Venerates could not wait any longer. One Immortal Venerate immediately said, "We don't know when the Tribulation of the Great Dao will end or how much it will weaken us. It seems we can't afford to wait. Let's go back and prepare. Next month, we'll join forces to deal with the Demon Emperor."

Upon hearing this, the other Immortal Venerates all agreed, although they were reluctant to face the Demon Emperor directly. However, if the negative effects of the Tribulation of the Great Dao grew larger and their strength declined too much, they would almost have no chance of eliminating the Demon Emperor.

They had to eliminate the scourge of the Demon Emperor while their strength had not declined too drastically.

Then the Immortal Venerates dispersed to make preparations. After they had left, the Heavenly Language Immortal Venerate contacted Lu Chen directly, asking him to come to her palace.

In the palace on the warship.

The Heavenly Language Immortal Venerate sat at the green jade table, her ink-black cloud-patterned robe set off her fair skin like snow on a mountain peak, with her slightly drooping dark hair reflecting a cold luster.

At this moment, Lu Chen appeared in the hall, came to the green jade table where the Heavenly Language Immortal Venerate was, and his gaze involuntarily fell on the pale golden ornament at her forehead.

The eye shape of the Heavenly Language Immortal Venerate was extremely graceful, with slightly long eye ends that were not seductive but carried a noble quality, watching over all living things, giving her an aura of high elegance, dignity, and majesty.

Lu Chen said with a smile, "I wonder what business brings Honored Master to call upon your disciple?"

The Heavenly Language Immortal Venerate lifted her eyes, glanced at Lu Chen, and then tossed the Jade Scroll in her hand to him.

Lu Chen caught the Jade Scroll using celestial power, then activated it to check its contents.

Upon seeing the information inside the Jade Scroll, Lu Chen was slightly taken aback.

Tribulation of the Great Dao?

Why does this situation seem somewhat familiar?

Scenes of the Reproduction Path being corroded by a mysterious force immediately appeared in Lu Chen's mind.

Back then, the Reproduction Path was also subjected to some mysterious force's corruption, and later, it seemed due to him, the mysterious force on the Reproduction Path disappeared.

Of course, he wasn't entirely sure if it was because of him. His initial guess was that because no one practiced the Reproduction Path, its power gradually waned. After all, only when many people tread a path does it become wide and strong.

But now it seemed his guess was wrong; not only those less-traveled paths, even popular paths like the Sword Dao were experiencing problems.

Lu Chen quickly regained his composure and asked the Heavenly Language Immortal Venerate, "If the Cultivation Path is having issues, it indicates a problem with the Heavenly Dao of the Tianyan Immortal Domain. What plans do the super forces have?"

The Heavenly Language Immortal Venerate said, "They plan to join forces against the Demon Emperor in a month. As the Cultivation Path is corroded, our strength

will drastically decline, while the Demon Emperor does not use the power of this world. If we do not quickly eliminate the scourge of the Demon Emperor, and if our strength falls to the Immortal King Realm, no one will be able to contend with the Demon Emperor."

Upon hearing the Heavenly Language Immortal Venerate's words, Lu Chen immediately understood why she had summoned him at this time.

Chapter 1854: Chapter 1544: Palace Master, Heavenly Splendor Hall Has Sent an Emissary

"Honored Master wants me to teach that Immortal Law which restrains the Heavenly Demon Power?" Lu Chen gazed into the eyes of Heavenly Language Immortal Venerable and asked.

With Lu Chen staring at her so intently, Heavenly Language Immortal Venerable felt a little strange and replied indifferently, "If your Immortal Law truly can restrain the Heavenly Demon Power, once this war is over, you will be a meritorious contributor, and the Palace Master will surely reward you."

Lu Chen said, “Forget about the reward, this is what a disciple should do.”

Saying that, Lu Chen condensed part of the content of the Divine Light Thousand Lamp Scripture into a Memory Pearl and then handed it to Heavenly Language Immortal Venerable.

Heavenly Language Immortal Venerable immediately used her immortal power to absorb the Memory Pearl into her forehead, and after reading the Immortal Law content within, she promptly tried to operate the Divine Light Thousand Lamp Scripture.

As soon as she operated it, the immortal power she emitted from within instantly dispersed the Heavenly Demon Power in the palace.

Their current location in the Northern Domain was filled with Heavenly Demon Power, even the palace of Heavenly Language Immortal Venerable was no exception, so since arriving in the Northern Domain, Heavenly Language Immortal Venerable always felt as if a mountain was pressing on her, making her feel uncomfortable.

But as she operated the Divine Light Thousand Lamp Scripture, she immediately felt her body become extremely light, and seeing herself dispersing the Heavenly Demon Power in the air just by channeling energy, Heavenly Language Immortal Venerable was stunned.

This effect is so significant?

Does this Immortal Law restrain Heavenly Demon Power that well?

Where did Chen Lu obtain this Immortal Law?

Could there be a hidden Super Force backing him?

Just as Heavenly Language Immortal Venerable was in a daze, Lu Chen asked with a smile, “Honored Master, how do you find this Immortal Law?”

Heavenly Language Immortal Venerable didn’t ask much; she knew that even if she asked Chen Lu, he wouldn’t tell her the origin of this Immortal Law.

She believed Immortal Venerable Yun Meng might know of Chen Lu’s origins.

Thinking about this, Heavenly Language Immortal Venerable said, “With this Immortal Law, our chances of defeating the Demon Emperor have increased.”

Lu Chen said with a smile, “That may not be the case.”

When Lu Chen and Xuan Qingyun clashed in the Chaotic Sea, although he hadn't had a face-to-face battle with Xuan Qingyun after awakening the system, he could sense that the Heavenly Demon Power on Xuan Qingyun was very different from ordinary Heavenly Demon Power.

The Divine Light Thousand Lamp Scripture does restrain Heavenly Demon Power, but as for the Heavenly Demon Power on Xuan Qingyun, its restraining effect might not be as significant.

It's like water can extinguish fire, but if the fire is too large, pouring one cup of water may not put out the fire.

Hearing Lu Chen's words, Heavenly Language Immortal Venerable asked, "What do you know?"

Lu Chen said, "Water can extinguish fire, but if there's too little water, it will just be evaporated."

Heavenly Language Immortal Venerable immediately understood Lu Chen's meaning, "I can pass this Immortal Law to other Immortal Venerables."

The power of one Immortal Venerable is indeed limited, but if other Immortal Venerables possess a power that restrains Heavenly Demon Power, then the Demon Emperor would naturally be insignificant.

However, Lu Chen said, “If possible, disciple hopes Honored Master will not pass this Immortal Law to others.”

“Honored Master should have sensed it; this is a Heavenly Rank Immortal Law.”

Heavenly Language Immortal Venerable slightly furrowed her brows; at this critical moment with the Tribulation of the Great Dao looming and the Demon Emperor growing stronger, Chen Lu was still thinking of withholding it?

Heavenly Language Immortal Venerable immediately said, “If the Demon Emperor survives, it will be a disaster for the entire Tianyan Immortal Domain. Do you wish to see her harm the people?”

Lu Chen said with a smile, “Disciple does not regard the Demon Emperor as a threat.”

This...

Heavenly Language Immortal Venerable was once again stunned. If she hadn't sensed no Heavenly Demon Power from Lu Chen, she would have suspected her disciple was also a Demon Cultivator.

Heavenly Language Immortal Venerable then asked, "Are you a Demon Cultivator?"

Lu Chen said, "Of course not."

Heavenly Language Immortal Venerable asked coldly, "Then why did you say such absurd things?"

Lu Chen said, "Disciple just feels the Demon Emperor was once an Immortal Emperor of the Tianyan Immortal Domain, and people call her Demon Emperor merely because they don't want to see her restore her Cultivation State to rule the Tianyan Immortal Domain again."

Heavenly Language Immortal Venerable fell into silence. What Lu Chen said wasn't wrong. Although the power used by the Demon Emperor might not belong to this world, the Demon Emperor indeed ruled the Tianyan Immortal Domain for countless years. Strictly speaking, she could be considered the master of the Tianyan Immortal Domain.

However, regardless of whether the power used by the Demon Emperor is righteous or evil, her existence is already a threat to other factions, especially the

Mysterious Moon Palace. The Mysterious Moon Palace itself has an Immortal Emperor; the Tianyan Immortal Domain cannot have two Immortal Emperors. If the Demon Emperor were to restore her strength, Immortal Emperor Youlan's chance of living a second life would be tough.

This is a matter of standpoint, so for the Mysterious Moon Palace, the Demon Emperor must die.

Heavenly Language Immortal Venerable looked at Lu Chen indifferently. Although she didn't know what Super Force was behind her disciple, no matter what Super Force it was, it could not disrupt the plans of the Mysterious Moon Palace.

Thinking of this, Heavenly Language Immortal Venerable said, "Even if you disagree, this Immortal Law will still be passed to other Immortal Venerables by me."

Upon hearing this, Lu Chen was not surprised at all. He had deleted some of the contents because he knew Heavenly Language Immortal Venerable would surely pass on the Divine Light Thousand Lamp Scripture to other Immortal Venerables.

Let it be; if Xuan Qingyun truly loses, then his opportunity arises. In this war, no matter which side wins, he has a chance to benefit.

If Xuan Qingyun wins, Heavenly Language Immortal Venerable might suffer a severe injury, and then he can practice Dual Cultivation with her to help her recover.

If the Immortal Domain Alliance Army wins, he can find Xuan Qingyun and, similarly, use the excuse of helping her restore her Cultivation State to practice Dual Cultivation with her.

Anyway, regardless of the outcome, he suffers no loss. The more fiercely Xuan Qingyun and the Immortal Domain Alliance Army fight, the easier it will be for his Great Qin Immortal Dynasty to unify the Immortal Domain in the future.

Heavenly Language Immortal Venerable didn't give Lu Chen another chance to speak; she directly said, "I have matters to attend to, you should leave first."

With these words, she used her immortal power to send Lu Chen out of the palace.

Lu Chen stood on the deck of the warship, looking at the palace of Heavenly Language Immortal Venerable, a smile appeared on his face as he awaited to see who would be stronger, Xuan Qingyun or the Immortal Domain Alliance Army.

Meanwhile.

In the Mysterious Moon Palace.

Yun Yudie crossed her slender legs, sat on the ice bed, her beautiful eyes gently closed, comprehending the Power of Dao.

She recently noticed that there seemed to be a mysterious eroding force continuously eroding the Ice Dao, causing her strength to decline significantly.

She thought only the Ice Dao was like this, which worried Yun Yudie greatly.

If the Ice Dao continued to be eroded, her cultivation state and strength would definitely continue to decline, and the Mysterious Moon Palace might not be able to face enemies of the Immortal Venerable Level anymore.

At this moment, a female voice came, “Palace Master, an envoy from the Heavenly Splendor Hall has arrived.”

Hearing this, Yun Yudie, who was cultivating, instantly opened her eyes.

Heavenly Splendor Hall? Sent an envoy?

Chapter 1855: Chapter 1545: Making Amends? If Force Doesn't Work, Try Soft Tactics?

Yun Yudie was wondering if she had misheard.

The Heavenly Splendor Hall had just sent an Immortal Venerate to cause trouble for the Mysterious Moon Palace, and now they're sending an envoy?

Could this envoy also be here to cause trouble for the Mysterious Moon Palace?

However, she hadn't sensed any other Immortal Venerable Level presence appearing in the Dragon Land.

Is the envoy sent by Heavenly Splendor Hall not an Immortal Venerate?

Yun Yudie immediately used Divine Thought to investigate the situation at the Mysterious Moon Palace.

In the grand hall of the Mysterious Moon Palace, indeed there was some unfamiliar aura, and an Immortal King had appeared. Judging by the attire, that person should be the envoy sent by Heavenly Splendor Hall.

Yun Yudie then said to the messenger at the door: "I understand."

The messenger said nothing more, as whether their Hall Master would meet the envoy from Heavenly Splendor Hall was up to him or her.

At this moment, Yun Yudie raised her hand, and in the next instant, Lu Chen's body was summoned into her Ice Palace from a distance.

Seeing Yun Yudie summon his body, Lu Chen smiled and asked, "Honored Master, why have you summoned me? Could it be for Dual Cultivation?"

Yun Yudie looked at Lu Chen coldly and then said, "Heavenly Splendor Hall sent an envoy; what do you think they want to do?"

Upon hearing this, Lu Chen was slightly taken aback. Heavenly Splendor Hall sent an envoy to Mysterious Moon Palace?

They had just sent an Immortal Venerate to cause trouble for Mysterious Moon Palace and now quickly send another envoy?

Since they sent an envoy, perhaps they intend to reconcile, but considering the relationship between Mysterious Moon Palace and Heavenly Splendor Hall, is reconciliation even possible?

Not to mention, Heavenly Splendor Hall once sought to stop Lu Chen's rise, besieged him, and drove him to the Chaotic Sea; Heavenly Splendor Hall previously even aimed to destroy Mysterious Moon Palace.

With all these new and ancient enmities combined, reconciliation between the two Immortal Sects hardly seems feasible.

After pondering for a moment, Lu Chen immediately thought of the Tribulation of the Great Dao, which might have changed Heavenly Splendor Hall's attitude toward Mysterious Moon Palace.

After all, who can predict what kind of disaster the Tribulation of the Great Dao would bring? Even if there are conflicts, it is wise to pause and figure out how to restore Heavenly Dao to normal; continued fighting would yield bad outcomes for all.

Last time the Reproduction Path faced issues, those Immortal Sect forces with conflicts in Tianyan Immortal Domain immediately chose to put down their feuds. Such things are not surprising, as it concerns life and death survival, and the impact of the Tribulation of the Great Dao doesn't just affect one Immortal Sect.

Thinking of this, Lu Chen said, "Perhaps the Tribulation of the Great Dao prompted them to seek temporary reconciliation with Mysterious Moon Palace."

Upon hearing Lu Chen's response, Yun Yudie asked quizzically, "Tribulation of the Great Dao?"

Though she discovered issues with the Ice Dao, she didn't know the mysterious force was not only eroding the Ice Dao; Lu Chen then explained: "Nowadays, various Cultivation Paths have fallen under the invasion of a mysterious force that erodes the Dao. As this force destroys the Cultivation Paths, Immortals' strength and Cultivation States are also declining. The forces throughout the Immortal Domain call this incident the Tribulation of the Great Dao."

This...

A grave look flashed across Yun Yudie's icy eyes; she had thought only the Ice Dao faced issues, but it turns out the mysterious force is eroding even other Cultivation Paths.

What kind of force could it be, eroding all Cultivation Paths?

Lu Chen then said, “The disturbance in the Cultivation Paths likely ties back to Heavenly Dao, and something has presumably happened to the Heavenly Dao in Tianyan Immortal Domain. The Reproduction Path also faced similar issues before, only the mysterious force eroding the Reproduction Path eventually dissipated.”

Yun Yudie suddenly recalled a previous conjecture by Lu Chen; Lu Chen had told her that perhaps his return was the key to restoring the Reproduction Path, allowing life in the Immortal Domain to normalize its reproduction.

Back then, Lu Chen speculated that a lack of travelers along the Reproduction Path was causing its decline and triggering issues.

Yet now, with so many Immortals traveling other paths, why are there problems? Thinking this way, perhaps the previous issue with the Reproduction Path is unrelated to Lu Chen’s conjecture, and its restoration might be due to other reasons.

Seeing Yun Yudie deep in thought, Lu Chen suggested, “Let’s first meet the envoy from Heavenly Splendor Hall and see what they intend to do.”

With the Cultivation Paths facing issues, it’s a disaster sweeping across the entire Immortal Domain; in times like these, continuing to fight is unwise. Of course, this doesn’t mean feuds will be forgotten.

Undoubtedly, Mysterious Moon Palace will still hold Heavenly Splendor Hall accountable, but when to settle scores depends on when the Tribulation of the Great Dao ends.

Yun Yudie then raised her hand, and in the next instant, she and Lu Chen appeared in the Mysterious Moon Palace's grand hall. Sensing the Immortal Venerate pressure emanating from Yun Yudie, Mengyang Immortal King, Heavenly Splendor Hall's envoy, immediately realized this woman was the Hall Master of Mysterious Moon Palace, and without hesitation, he immediately saluted Yun Yudie.

“Envoy of Heavenly Splendor Hall pays respects to the Hall Master of Mysterious Moon Palace!”

Yun Yudie directly asked, “Speak, what has your Hall Master sent you to do?”

Feeling the Ice Qi emitted by Yun Yudie, Mengyang Immortal King was incredibly uneasy, fearing Yun Yudie might act against him, given that Heavenly Splendor Hall's Immortal Venerate had caused trouble for Mysterious Moon Palace, killing an Immortal King to vent anger was certainly possible, with both parties in an antagonistic state.

Hurriedly, Mengyang Immortal King took out the Jade Scroll given by Star River Immortal Venerate and then told Yun Yudie: “Inside this Jade Scroll is a letter from our Hall Master. Amidst the sudden arrival of the Tribulation of the Great Dao, with Heavenly Dao abnormal, our Hall Master hopes our two Immortal Sects

cease to be adversaries; all Immortal Sect forces in the Immortal Domain should unite in seeking solutions against the Tribulation of the Great Dao.”

Yun Yudie used immortal power to capture the Jade Scroll from Mengyang Immortal King’s hand, then using immortal power to activate the Jade Scroll, a letter written by Star River Immortal Venerate appeared floating in the air.

Seeing the content of the characters floating in the air, Yun Yudie coldly remarked, “Reconcile? If hard doesn’t work, now they want to try soft?”

Star River Immortal Venerate made it clear in the letter that he wanted Lu Chen, suggesting that since Lu Chen emerged from the Chaotic Sea, he surely knows some opportunities to become an Immortal Emperor, and if he shares such opportunities, aiding those Immortal Venerates close to breaking through to Immortal Emperor status could lead to new Immortal Emperors emerging, who might then discover the reason for the Heavenly Dao’s problems.

Clearly, Star River Immortal Venerate seeks to morally coerce Mysterious Moon Palace and Lu Chen.

With a wave of her hand, Yun Yudie turned the contents of the Jade Scroll and the Jade Scroll itself into ash.

Witnessing this, cold sweat poured from Mengyang Immortal King, just as he feared for his life Yun Yudie suddenly spoke: “Go back and tell your Hall Master, if

Lu Chen truly had the opportunity for becoming an Immortal Emperor, this Venerate would have used it herself, rather than keeping it till now.”

Capítulo 1856: Chapter 1546: Do You Think Becoming an Immortal Emperor Is Easy?

Upon hearing Yun Yudie’s words, Mengyang Immortal King actually felt relieved; it seems Yun Yudie plans to let him go back and deliver a message, his life is saved.

Mengyang Immortal King immediately said, “I shall return and convey your words to our Hall Master.”

As soon as he spoke, Mengyang Immortal King thought about leaving this troublesome place as quickly as possible. However, just as he was about to leave, Lu Chen beside Yun Yudie suddenly said, “Wait.”

Upon hearing these two words, Mengyang Immortal King’s heart skipped a beat; could it be that Yun Yudie regrets letting him return?

But the speaking person was not Yun Yudie. Mengyang Immortal King turned to look at Lu Chen, striving to maintain calm as he asked, “I wonder what else this young friend might have?”

Mengyang Immortal King did not recognize Lu Chen, and since Lu Chen’s body was only at the Heavenly Immortal Realm at this moment, he thought this person was just another disciple of Yun Yudie.

Even though Lu Chen was just another disciple in his eyes, Mengyang Immortal King dared not offend him as he was still there, his life still in Yun Yudie’s hands.

Lu Chen directly asked, “Has Wuya Immortal Venerable returned to Tianhua Hall?”

Mengyang Immortal King replied, “Yes.”

Lu Chen continued, “Wuya Immortal Venerable just returned to Tianhua Hall, and you have arrived at the Barbaric Wilderness. Isn’t your speed a bit too fast?”

The Tianyan Immortal Domain is very large, and the Sunset Mountain Range is very vast. Even Mengyang Immortal King, as an Immortal King, could not possibly reach the Barbaric Wilderness from the Southern Domain in such a short time.

This made Lu Chen suspect that there is a transmission array directly leading to the Barbaric Wilderness in the Southern Domain.

Mengyang Immortal King immediately understood Lu Chen's implication. He said straightforwardly, "When we came to the Barbaric Wilderness, we passed by an absolute place in the Sunset Mountain Range. We were sucked in by that absolute place, and when we woke up again, we were already in the Barbaric Wilderness."

Lu Chen said, "I see."

Regarding Mengyang Immortal King's answer, Lu Chen did not doubt it much. The Sunset Mountain Range indeed has many absolute places, and the Tianyan Immortal Domain also has many naturally occurring space transmission points. If they happened to encounter a transmission point leading directly to the Barbaric Wilderness, they indeed might arrive at the Barbaric Wilderness in a short time from the Southern Domain.

However, on the contrary, this is not really good news for them. In the future, people from the Southern Domain wanting to come to the Barbaric Wilderness could directly look for those natural transmission points, allowing them to reach the Barbaric Wilderness in an extremely short time.

Should one day Tianhua Hall attack Mysterious Moon Palace, Mysterious Moon Palace might not have any time to prepare.

Lu Chen continued, “Could you tell us where you were transmitted from?”

Mengyang Immortal King said, “Of course. However, when we opened our eyes, there was no space rift in the place where we were.”

Mengyang Immortal King spoke as he condensed the memories of being transmitted to the Barbaric Wilderness into a Memory Pearl.

Lu Chen directly used immortal power to capture Mengyang Immortal King’s Memory Pearl into his hand, then proceeded to read the memories within the Memory Pearl.

Mengyang Immortal King cautiously asked, “I wonder if this young friend has any other questions?”

Lu Chen replied, “No, you may leave now.”

Mengyang Immortal King breathed a sigh of relief again, and hastily led the Tianhua Hall group to turn and leave the hall.

After they all left, Yun Yudie came to Lu Chen, then took the Memory Pearl from Lu Chen's hand, similarly reading the memories inside.

Seeing that Mengyang Immortal King and the others were suddenly directly transmitted from one side of the Sunset Mountain Range in the Southern Domain to the Barbaric Wilderness, Yun Yudie said, "This is somewhat similar to your Spirit Realm Crossing Array's transmission method."

Mengyang Immortal King and his group directly arrived at the Barbaric Wilderness from that absolute place in the Sunset Mountain Range. The most important thing is that there was neither a transmission array on the Barbaric Wilderness side nor any space rift, which is very similar to the Spirit Realm Crossing Array's transmission method.

The Spirit Realm Crossing Array also does not require a transmission array at the destination to enable direct transmission.

Lu Chen said, "The Sunset Mountain Range's absolute places are inherently mysterious, and having a transmission point leading directly to the Barbaric Wilderness is not surprising."

"From Mengyang Immortal King's memories, they inadvertently entered that absolute place, and now they probably have no idea where that absolute place is. If they wanted to use that absolute place to directly transmit to the Barbaric Wilderness again, it might not be easy."

Yun Yudie said, “Besides that, what you should focus on now is the Tribulation of the Great Dao.”

Even though Yun Yudie is now an Immortal Venerate, she has absolutely no clues regarding the Tribulation of the Great Dao, completely unaware of how to address it.

In the current situation, it seems they can only wait for the Heavenly Dao to return to normal, but they have no idea when the Heavenly Dao will recover.

The most crucial thing is that if the Heavenly Dao can recover, everything will be alright, but the greatest fear is the Heavenly Dao cannot fix itself.

Hearing Yun Yudie’s words, Lu Chen turned and looked at Yun Yudie, smiling as he said, “Honored Master, the strength of this disciple’s main body is only at Golden Immortal now, and my original cultivation state was only at Immortal King Realm. Asking me to focus on this is not something I can solve for the Heavenly Dao.”

Upon hearing Lu Chen’s words, Yun Yudie finally realized she had always placed Lu Chen at an equal standing with herself, completely forgetting that Lu Chen is still just a Golden Immortal.

Indeed, asking Lu Chen to ponder addressing the Tribulation of the Great Dao is truly making things difficult for him, as even she as an Immortal Venerate has no

leads, how could a Golden Immortal with a past cultivation state of Immortal King have a solution?

This moment, Lu Chen glanced at Yun Yudie, who was dressed in an icy blue gauze, exuding a noble and cold aura.

Seeing Lu Chen staring directly at her body, Yun Yudie slightly frowned, immediately reading from Lu Chen's gaze what he wanted to do.

Sure enough, the next moment Lu Chen said, "But on the other hand, even though I can't solve it, if I could assist Honored Master in becoming an Immortal Emperor, then presumably the problem with the Heavenly Dao should be solved."

Yun Yudie asked coldly, "Do you think becoming an Immortal Emperor is an easy task?"

Since the birth of the Tianyan Immortal Domain, countless Immortal Venerates have emerged, but only a few have ultimately broken through to become Immortal Emperors. If becoming an emperor were so easy, the Tianyan Immortal Domain would be full of Immortal Emperors.

Although dual cultivation with Lu Chen could indeed horizontally enhance her strength by gaining more profound insights and using other powers of Dao, this only enhances strength horizontally, not vertically improving her cultivation state.

Lu Chen said, “How would you know if you don’t try? What if Honored Master comprehends all the Dao from me and discovers a brand new Dao, forging an emperor’s path unknown to others?”

Upon hearing Lu Chen’s words, Yun Yudie suddenly felt that this seemed somewhat plausible, as every Immortal Emperor’s ultimate emperor path in the Tianyan Immortal Domain has been different.

Take for example the Demon Emperor’s Heavenly Demon Power; this force clearly does not belong to the Tianyan Immortal Domain. It is quite possible that Heavenly Demon Power is a unique force created by the Demon Emperor after forging a different path.

If I truly comprehend all the Dao of the world, perhaps there truly is a possibility of creating another emperor’s path.

Having children earns benefit, start competing for dominance in the world by marrying a wife

Chapter 1857: Chapter 1547: The Star River Immortal Venerate’s Inner Worries

After hearing Lu Chen's persuasive words, Yun Yudie now just wanted to quickly take Lu Chen to her Ice Palace; she increasingly felt that Lu Chen's method was feasible.

Only by comprehending all the great paths of the world did she have hope of summarizing the rules from these paths and thus creating an entirely new path.

With this thought in mind, Yun Yudie did not hesitate and directly used Space Teleportation. In the next moment, Yun Yudie and Lu Chen were back in the Ice Palace.

Before Lu Chen could say anything, Yun Yudie raised her hand, and in the next instant, all of Lu Chen's clothes disappeared.

Just when Yun Yudie was about to continue, she suddenly thought of something and stopped.

Seeing Yun Yudie, who was anxious just a moment ago and suddenly stopped, Lu Chen asked, puzzled, "Honored Master, what is this...?"

Yun Yudie looked at Lu Chen coldly and then said, "The highest cultivation state you can manifest now is Golden Immortal?"

Lu Chen said, “Yes.”

Yun Yudie continued to ask, “Then why can you erupt with the cultivation state and strength of an Immortal King?”

In front of her, Lu Chen had used the power of an Immortal King more than once.

Lu Chen said, “That’s because I used a Secret Technique, and that power is only temporary.”

Hearing Lu Chen’s answer, Yun Yudie did not doubt much.

Secret Techniques that temporarily boost a person’s strength are countless in the Tianyan Immortal Domain. Lu Chen, as someone who emerged from the Chaotic Sea, having such a Secret Technique is not surprising. It is possible that Lu Chen obtained some great opportunity in the Chaotic Sea, acquiring that type of Secret Technique capable of greatly enhancing a person’s power in a short time.

Lu Chen asked, puzzled, “Why did Honored Master suddenly ask this?”

All the clothes were destroyed, and it looked like they were about to get started, but then suddenly this question came up.

Yun Yudie did not speak. She directly released her Divine Sense, and in the next moment, her Divine Sense swept over Lu Chen's Daqin Immortal Dynasty.

At this time, Lu Chen's Golden Immortal body, which was handling affairs in the Daqin Immortal Dynasty, just sensed Yun Yudie's Divine Sense. In the next moment, his Golden Immortal body was directly grabbed by Yun Yudie across space.

Lu Chen was taken aback. He thought Yun Yudie was no longer satisfied with just one person; however, in the next moment, he realized he was clearly overthinking.

Yun Yudie then sent away his Heavenly Immortal body, leaving only the Golden Immortal body. She thought that if she cultivated with a stronger body of Lu Chen's, perhaps her speed in comprehending other great paths would be faster?

If so, she would cultivate with the strongest body of Lu Chen's in the future.

Lu Chen understood Yun Yudie's intention immediately after she sent away his Heavenly Immortal body. In fact, Yun Yudie's thought was indeed correct. The higher Lu Chen's cultivation state, the more abundant the immortal power within him, the more evident the effects when operating the Spirit Charm Harmony Scripture.

However, the stronger the cultivation state, the stronger some of Lu Chen's capabilities would be.

Of course, a mere Golden Immortal couldn't stir up any waves in front of Yun Yudie, the Immortal Venerate. Moreover, when they cultivated, Yun Yudie would operate Life is like a dream; in the dream realm, both would indulge in that kind of ethereal sensation, with no significant impact on how their bodies in reality would behave.

Looking at the Cold Fairy's eyes, filled with a thirst for strength, a feeling of being exploited suddenly arose in Lu Chen's heart.

He was always the one in control; all his women were afraid of him. Why now was he the tool for Yun Yudie's cultivation?

But it didn't matter. As long as he could maintain a close relationship with her, he believed that one day Yun Yudie would be ensnared.

Currently, other cultivation paths are all being eroded by mysterious forces, but the Reproduction Path is still intact. As long as the Reproduction Path is fine, Yun Yudie might eventually bear his offspring one day.

Whether it takes one hundred years or a thousand years depends on fortune, which he cannot control.

Just when Lu Chen was absent-minded, Yun Yudie abruptly toppled his body onto the soft couch, then leaned over.

At this moment, Lu Chen's brain paused.

Wait...

Luck (pregnancy)?

He suddenly seemed to think of something. Back when he was inside the belly of a Chaos Beast, in order to help his wives and concubines give birth to child worlds, he absorbed Qi Fortune from other Empires to assist them.

Although child worlds aren't offspring, the method of producing child worlds and offspring isn't much different. If he absorbed Qi Fortune from other Immortal Dynasties, or during that act, infused some Dynastic Qi Fortune, wouldn't the chance of success be higher?

After all, Qi Fortune is profoundly mysterious, and since matters concerning Immortal pregnancies already involve luck, once the Qi Fortune is abundant, the pregnancy luck would naturally be better too.

With this in mind, Lu Chen immediately began to experiment, gathering Daqin Immortal Dynasty's Qi Fortune onto himself, and then, while proceeding, transferring the Qi Fortune to Yun Yudie as well.

Yun Yudie naturally noticed Lu Chen's subtle actions, but she didn't care much. She was quite aware of what Lu Chen intended to do, yet she didn't believe that Lu Chen could succeed.

First, she was always on guard against Lu Chen, dispelling toxins while cultivating. Moreover, she had her immortal power safeguarding her body, and such matters were inherently challenging. With so many factors in play, no matter how much of his Immortal Dynasty's Qi Fortune he expended, it would be to no avail.

Heavenly Splendor Hall.

Star River Hall.

In the grand hall, stars twinkled brilliantly, making the whole place seem like it was in the starry sky.

Star River Immortal Venerate looked gravely at the Jade Scroll in his hand.

The content in the Jade Scroll related to the Sunset Mountain Range. Recently, he sent quite a few people to investigate anomalies in the Sunset Mountain Range, though he didn't specify what anomalies they were supposed to find out.

As someone possessing a Star Immortal Body, when Wuya Immortal Venerable returned to Heavenly Splendor Hall, he noticed the strange aura on Wuya Immortal Venerable.

But he didn't expose Wuya Immortal Venerable because he wasn't sure if he was a match for him. That eerie aura filled him with great fear, even more terrifying than the Heavenly Demon Power.

He strongly suspected that Wuya Immortal Venerable had already perished and that the one who returned wasn't the real Wuya Immortal Venerable. It was the first time since he broke through the realm of Immortal Venerate that he felt such profound fear.

Even when the Demon Emperor returned to the Tianyan Immortal Domain, he wasn't this terrified. But the aura surrounding Wuya Immortal Venerable made him extremely uneasy.

This inevitably reminded Star River Immortal Venerate of some ancient legends about the Sunset Mountain Range, where it's said that some great terrors exist. These originate from beyond the world and, for some reason, fell into a slumber.

However, whenever these great terrors awaken, the entire Immortal Domain would face an apocalyptic disaster.

Star River Immortal Venerate now suspected that the issues with the Heavenly Dao were due to one of these great terrors awakening.

Of course, these are merely ancient legends, never confirmed.

Nevertheless, as a precaution, Star River Immortal Venerate still sent people to secretly investigate the Sunset Mountain Range, yet nothing was discovered.

Chapter 1858 - Capítulo 1858: 1548: The Greatest Threat to Heavenly Splendor Hall Is Not Xuan Yue, but Him

Capítulo 1858: Chapter 1548: The Greatest Threat to Heavenly Splendor Hall Is Not Xuan Yue, but Him

Star River Immortal Venerate looked at the intelligence report within the jade scroll in front of him and murmured to himself, “There’s not a trace of anomaly. Could he not be from those perilous areas of the Sunset Mountain Range? And why did he infiltrate the Heavenly Splendor Hall?”

Star River Immortal Venerate was now somewhat conflicted, unsure of how to deal with Wuya Immortal Venerable.

On one hand, he couldn’t determine Wuya Immortal Venerable’s current state or whether Wuya Immortal Venerable was possessed by a mysterious figure or if the current Wuya Immortal Venerable was another mysterious figure disguised.

But regardless of whether the other party was a possession or a true self masquerading as Wuya Immortal Venerable, the fact that he came to the Heavenly Splendor Hall proved that this powerful being must have an agenda.

Star River Immortal Venerate was curious about what in the Heavenly Splendor Hall would be coveted by this mysterious powerhouse.

While Star River Immortal Venerate was lost in thought, suddenly the voice of a guard came from outside the hall, “Hall Master, the Third Elder requests an audience.”

Upon hearing this, Star River Immortal Venerate slightly furrowed his brows. He then put away the jade scroll in his hand and said, “Let him in.”

The next moment, Wuya Immortal Venerable entered the hall, and Star River Immortal Venerate directly asked, “Wuya, what do you need?”

At this time, Star River Immortal Venerate appeared very calm, as if he knew nothing, being an old fox who had lived for tens of billions of years. Even knowing that the mysterious powerhouse before him was a terrifying being from a perilous place, Star River Immortal Venerate could still maintain his outward calm.

Wuya Immortal Venerable directly asked, “Hall Master, you also know that Lu Chen likely holds the chance to become an emperor. Aren’t you the least tempted by it?”

Upon hearing Wuya Immortal Venerable mention this, Star River Immortal Venerate felt somewhat puzzled. Could it be that this powerhouse is also interested in the emperor’s opportunity on Lu Chen?

Could it be that his real cultivation state is only at the Immortal Venerable Realm?

Thinking of this, Star River Immortal Venerate said, “No one would remain indifferent to the chance of becoming an emperor.”

Wuya Immortal Venerable said, “Then why did you send an envoy to reconcile with Mysterious Moon Palace?”

“Mysterious Moon Palace and Heavenly Splendor Hall have already reached a point of no return. Even if both sides pretend to reconcile temporarily, Mysterious Moon Palace would never hand over Lu Chen.”

Star River Immortal Venerate said, “The Tribulation of the Great Dao is getting increasingly severe. Before the heavenly dao restores to normal, rashly taking action against an Immortal Venerate with an immortal body might severely harm our Heavenly Splendor Hall.”

“The most important thing now is to address the Tribulation of the Great Dao; other matters can be set aside for the time being.”

Wuya Immortal Venerable said, “The Tribulation of the Great Dao is related to the heavenly dao. If one can become an emperor, they could communicate with the heavenly dao, thereby finding and fixing the problems of the great dao. Then we need the emperor’s opportunity on Lu Chen even more.”

Star River Immortal Venerate said, “I have already explained the advantages and disadvantages in the letter. I trust the Mysterious Moon Palace Master knows what to do.”

Wuya Immortal Venerable said, “Why does the Hall Master think the Mysterious Moon Hall Master, an Immortal Venerate, would hand over the emperor’s opportunity? Doesn’t she wish to become an emperor herself?”

Star River Immortal Venerate said, “At this point in time, it doesn’t matter who becomes emperor as long as we can solve the Tribulation of the Great Dao.”

Upon hearing Star River Immortal Venerate’s words, Wuya Immortal Venerable’s brow furrowed deeply, “Since when did the Hall Master become so selfless? If the Mysterious Moon Hall Master becomes an emperor, their first target of revenge will be the Heavenly Splendor Hall, and by then, we would face an existential threat.”

Star River Immortal Venerate wasn’t provoked by these words. He naturally understood this logic, but he was puzzled why Wuya Immortal Venerable came to say these things.

If it were Wuya Immortal Venerable himself trying to persuade him, he could understand, but the current Wuya Immortal Venerable had already been possessed by a mysterious powerhouse and might not even be the original.

Star River Immortal Venerate calmly asked, “What do you think we should do next?”

Wuya Immortal Venerable said, “Mobilize all forces, eliminate Mysterious Moon Palace, seize the emperor’s opportunity from Lu Chen, and get rid of the threat that Lu Chen poses.”

Upon hearing Wuya Immortal Venerable's words, Star River Immortal Venerate fell into thought. After a moment, Star River Immortal Venerate said, "You seem to have great resentment towards Lu Chen?"

Wuya Immortal Venerable said, "Lu Chen possesses great qi fortune. In my opinion, the greatest threat to the Heavenly Splendor Hall isn't the Mysterious Moon Hall Master but him."

Star River Immortal Venerate once again fell into silence, contemplating why this person desires so much to eliminate Lu Chen—whether it's for the emperor's opportunity or if there's something threatening about him?

Seeing Star River Immortal Venerate not speaking, Wuya Immortal Venerable continued, "During the confrontation with the Mysterious Moon Hall Master, I discovered that the dao Lu Chen cultivates is no longer the previous dao, but the Space-Time Path, and his understanding of the Space-Time Path already far surpasses mine. If allowed to continue growing, even without becoming emperor, he won't be easy for us to deal with."

"The Hall Master should know the terror of the Space-Time Path. If Lu Chen had only cultivated the Time Path or the Space Path, his threat wouldn't be so great, but he's already merged the two paths into one."

"If allowed to grow, one day he might reverse time and space, and by then, it will be difficult for us to make a move against him."

Star River Immortal Venerate chuckled lightly and then said, “Even you haven’t achieved reversing time and space, how could he achieve it?”

Wuya Immortal Venerable said, “The Hall Master underestimates him. His understanding of the Space-Time Path already far exceeds mine. If he grows, I have no doubt he has that capability.”

Star River Immortal Venerate said, “Let me think about it. Our envoy is already on the way to Mysterious Moon Palace, and they should return soon. Let me see what attitude the Mysterious Moon Hall Master has towards reconciliation.”

Upon hearing Star River Immortal Venerate’s response, Wuya Immortal Venerable squinted his eyes slightly but didn’t continue to persuade further.

Star River Immortal Venerate then asked, “Wuya, you needn’t worry too much. Currently, the great dao is being eroded by mysterious power, affecting everyone’s strength and cultivation state, including Lu Chen. It won’t be easy for him to grow.”

Wuya Immortal Venerable said, “The Hall Master is right; perhaps I overthought it.”

Star River Immortal Venerate then asked, “Do you have anything else?”

Wuya Immortal Venerable said, “Nothing else; I won’t disturb the Hall Master any further.”

As his words fell, Wuya Immortal Venerable’s body vanished on the spot. After Wuya Immortal Venerable left, Star River Immortal Venerate’s fingers kept tapping on the armrest of the Ice Crystal Throne, contemplating what about Lu Chen might elicit Wuya Immortal Venerable’s animosity.

He now couldn’t determine whether Wuya Immortal Venerable had his own consciousness or if this person wasn’t Wuya Immortal Venerable at all. Although he detected something amiss in Wuya Immortal Venerable’s aura, he couldn’t discern Wuya Immortal Venerable’s specific situation.

Wuya Immortal Venerable emitted a faint space-time power, and he utilized space-time power when leaving, but his space-time power also contained a peculiar aura.

This peculiar aura was one he had never seen before, nor had he heard of such a mysterious power.

Capítulo 1859: Chapter 1549: This Immortal Law Can Counter Heavenly Demon Power

Facing Wuya Immortal Venerable, Star River Immortal Venerate dared not act rashly; even though he possessed an immortal body, he was deeply fearful of the power that made his heart palpitate.

His Star Immortal Body had a certain ability to foresee the future, and the fact that he could sense danger proved that this existence was definitely stronger in terms of power. As for how much stronger, he would only know if he took action, but clearly, he did not dare to act.

Since Wuya Immortal Venerable was so concerned about Lu Chen, perhaps he could start with Lu Chen.

Just as Star River Immortal Venerate was thinking about sending someone to Mysterious Moon Palace again, his mind froze.

Wait...

Whether Wuya Immortal Venerable was possessed by a mysterious entity, or if he himself was merely impersonating that mysterious entity, his strength was far greater than his own.

With such a powerful existence, if he wanted to seize the opportunity from Lu Chen to become an emperor, or kill Lu Chen, wouldn't he act personally?

Moreover, since he cultivated the Space Path himself, going to Mysterious Moon Palace wouldn't require too much time.

Why wouldn't Wuya Immortal Venerable act himself, instead of coming here to persuade him to have Heavenly Splendor Hall attack Mysterious Moon Palace?

Was there something in Mysterious Moon Palace that made Wuya Immortal Venerable fearful, or was he afraid of Lu Chen himself?

Lu Chen at most had the power of an Immortal King now, why would he be feared, simply because his understanding of the Space-Time Path surpassed Wuya Immortal Venerable?

Afraid of Lu Chen...

At that moment, a thought suddenly struck Star River Immortal Venerate's mind.

Originally, they wanted to find Lu Chen because Lu Chen single-handedly crushed the three Evil Immortal Kings, leading them to believe that Lu Chen possessed methods to restrain evil power.

They wanted to see if those methods could be used to suppress Heavenly Demon Power.

If Lu Chen really possessed the power to restrain evil forces, could the mysterious power mastered by Lu Chen also suppress the bizarre power within Wuya Immortal Venerable?

After all, having lived for billions of years, Star River Immortal Venerate quickly deduced possibility after possibility in his mind.

Next, all he needed to do was verify them one by one, starting with whether Lu Chen's mastered power could restrain the bizarre power within Wuya Immortal Venerable.

At this moment, in the eyes of Star River Immortal Venerate, compared to the Tribulation of the Great Dao and Wuya Immortal Venerable, the threat of the Demon Emperor seemed to be the smallest now; the real hazard was the unknown bizarre power within Wuya Immortal Venerable.

Star River Immortal Venerate fell into prolonged silence before finally making a decision. He must personally make a trip to the Barbaric place and ask Lu Chen if he truly had a method to counter evil power.

Of course, this kind of thing couldn't be done openly; if Wuya Immortal Venerable became aware of anything, he would surely act against him in advance.

...

Northern Domain.

On the battleship of Mysterious Moon Palace.

When the Immortal Domain Alliance Army's Immortal Venerates gathered to prepare to take action against Demon Emperor, Heavenly Language Immortal Venerable stepped forward and said: "Before attacking Demon Emperor, this Venerate has an immortal technique to impart to everyone."

Immortal technique?

A group of Immortal Venerates looked puzzled at Heavenly Language Immortal Venerable, wondering what immortal technique was going to be taught to them?

At this point, what would be the use of learning an immortal technique?

An Immortal Venerate asked: “I wonder what purpose does the immortal technique that Heavenly Language Immortal Venerable is imparting to us serve?”

Heavenly Language Immortal Venerable, without holding back, directly answered: “This immortal technique can restrain Heavenly Demon Power.”

Upon hearing this, all the Immortal Venerates present were stunned, each of them staring at Heavenly Language Immortal Venerable with disbelief.

Restraining Heavenly Demon Power?

Unbelievable?

They had heard before about methods to restrain Heavenly Demon Power; the rumors came from Heavenly Splendor Hall, saying Lu Chen had methods to restrain Heavenly Demon Power, but they never found Lu Chen, and people gradually gave up hope.

How did Mysterious Moon Palace have an immortal technique to restrain Heavenly Demon Power?

Could it be that Mysterious Moon Palace found Lu Chen?

At this point, Taihua Immortal Venerable from Heavenly Splendor Hall couldn't help but step forward and ask: "Heavenly Language Immortal Venerable, have you found Lu Chen in Mysterious Moon Palace? As far as this Venerate knows, only Lu Chen might possess the method to restrain Heavenly Demon Power?"

Heavenly Language Immortal Venerable responded coldly: "No, this immortal technique comes from our Mysterious Moon Palace's Supreme Elder."

Inside, Heavenly Language Immortal Venerable felt a jolt; for these decades, Heavenly Splendor Hall had been sending people to find Lu Chen, claiming Lu Chen might have the method to restrain Heavenly Demon Power.

Moreover, various realms' Super Forces also helped Heavenly Splendor Hall search for Lu Chen, but ultimately, they did not find Lu Chen; now it turns out Chen Lu brought out an immortal technique that can restrain Heavenly Demon Power.

Chen Lu... Lu Chen???

Heavenly Language Immortal Venerable's mind froze, instantly understanding everything.

If Taihua Immortal Venerable hadn't reminded her, she wouldn't have thought in this direction from the start.

Suddenly, Heavenly Language Immortal Venerable felt a surge of anger internally.

If not for Lu Chen back then, Yun Qingshu wouldn't have lost her purity, nor been expelled from Mysterious Moon Palace.

Unexpectedly, Lu Chen dared to come to Mysterious Moon Palace, even became her direct disciple.

Upon hearing Heavenly Language Immortal Venerable's words, Taihua Immortal Venerable showed a bit of doubt, did Mysterious Moon Palace really not capture Lu Chen?

Heavenly Language Immortal Venerable tried to calm her emotions, as now wasn't the time to think about how to handle Lu Chen, especially when their Palace Master likely knew Lu Chen's identity long ago.

If even their Palace Master hadn't dealt with Lu Chen, it proved that in their Palace Master's eyes, Lu Chen was still useful, at least not to be dealt with now.

After it's all over, she'll go back and ask their Palace Master's opinion, and see what their Palace Master says.

Thinking of this, Heavenly Language Immortal Venerable came back to her senses and then directly condensed the immortal technique of Divine Light Thousand Lamp Scripture into Inheritance Pearls, delivering them to each Immortal Venerate in front.

A few Immortal Venerates, suspicious, used immortal power to activate the Inheritance Pearls, reading the contents of the immortal technique. When they started operating the Divine Light Thousand Lamp Scripture, they indeed found that Heavenly Demon Power around their bodies scattered.

In an instant, the Immortal Venerates present were excited.

“It works! It really works!!!”

“Great, with this immortal technique, we no longer need to fear Demon Emperor's Heavenly Demon Power!!!”

“Unexpectedly, Mysterious Moon Palace’s foundation is so profound, with such a miraculous immortal technique!!!”

“Mysterious Moon Palace selflessly offered such precious Heaven Rank immortal technique to confront Demon Emperor. We must also ensure Mysterious Moon Palace doesn’t suffer losses. After handling Demon Emperor, I will personally choose a treasure to give Mysterious Moon Palace as a thank you gift.”

“After eliminating Demon Emperor, I too will select a Heavenly Rank immortal technique to gift Mysterious Moon Palace.”

...

The Immortal Venerates present weren’t foolish; they didn’t pursue why Mysterious Moon Palace didn’t initially use such an important immortal technique against Demon Emperor. After all, this was a Heaven Rank immortal technique, and one that could restrain Heavenly Demon Power, and everyone understood the rarity of such an immortal technique.

At this moment, what the Immortal Venerates thought was, if this Divine Light Thousand Lamp Scripture truly belonged to Mysterious Moon Palace, then this single immortal technique alone was enough to prove Mysterious Moon Palace’s deep foundation. It’s worth noting, no other immortal sect or forces had ever offered an immortal technique that could restrain Heavenly Demon Power before.

Having children earns benefit, start competing for dominance in the world by marrying a wife

The Immortal Venerates present naturally also thought that the Divine Light Thousand Lamp Scripture might not originate from the Mysterious Moon Palace but from Lu Chen.

If the Divine Light Thousand Lamp Scripture came from Lu Chen, it would prove that the Mysterious Moon Palace has already captured Lu Chen, and it might have gained more opportunities from the Chaotic Sea through Lu Chen. Hence, forming a good relationship with the Mysterious Moon Palace wouldn't be a loss.

No matter the reason, after defeating the Demon Emperor, the forces they belong to would need to maintain a good relationship with the Mysterious Moon Palace.

As for using coercive methods to threaten the Mysterious Moon Palace, such actions are currently impossible. Given the Tribulation of the Great Dao has appeared, it's unsuitable to initiate wars between Immortal Sects until the Heavenly Dao is restored to normal.

Hearing the flattering words of the Immortal Venerates present, the Heavenly Language Immortal Venerable paid them no heed, clearly seeing their intentions.

The Heavenly Language Immortal Venerable then reminded, "Everyone should quickly familiarize themselves with this Immortal Technique; Dragon Extreme Immortal Venerate can't hold on much longer."

As soon as the Heavenly Language Immortal Venerable's words fell, a massive explosion resounded from afar. In an instant, the continent that had just been repaired was shattered, and everywhere were space fragments, while Chaos Qi from the Chaotic Sea surged in.

At this moment, Dragon Extreme Immortal Venerate's body was full of cracks, and his Law Manifestation behind him appeared and disappeared as if it could crumble at any moment.

Dragon Extreme Immortal Venerate floated high in the sky, casting a glance at the Chaos Evil Thought Array in the distance. He knew Xuan Qingyun's power came from the Immortal Domain Alliance Army's Immortals within the Chaos Evil Thought Array.

If that Formation isn't destroyed, Xuan Qingyun's power will only grow stronger, and he can't hold on much longer; he must find a way to destroy that Formation.

Dragon Extreme Immortal Venerate then shouted loudly, "Dragon Flame Burning World Technique!!!"

As soon as the words fell, his body was enveloped in roaring flames, and the Dragon Body Dharma Aspect behind him also ignited with purple flames. But as the flames burned, his body and Law Manifestation flickered, clearly indicating that Dragon Extreme Immortal Venerate was burning his Divine Soul desperately.

Feeling the explosive power on Dragon Extreme Immortal Venerate, Xuan Qingyun remarked with a hint of surprise, "Emperor Tier Immortal Technique? Interesting."

At this moment, it wasn't only Xuan Qingyun; even the Heavenly Language Immortal Venerable and others observing from afar were utterly astonished. Some Super Forces didn't even possess Saint-level Immortal Techniques, yet the Dragon Extreme Immortal Venerate used an Emperor Tier Immortal Technique?

The Azure Dragon Hall indeed deserves to be the first to oppose Nine Heavens Institute's rule; their resources are extraordinarily deep. Unfortunately, his strength isn't enough to unleash the Emperor Tier Immortal Technique's power.

Taihua Immortal Venerable frowned at this moment and cautioned, "This might be Dragon Extreme Immortal Venerate's final move; we can't wait any longer, destroy that Formation first!"

Dragon Extreme Immortal Venerate can see the Chaos Evil Thought Array providing power to Xuan Qingyun, and the other Immortal Venerates can also see it. Their idea is the same: first destroy that Formation and release the Immortal

Domain Alliance Army's Immortals within it. They must not allow them to keep supplying power to Xuan Qingyun.

As soon as Taihua Immortal Venerable's words fell, the Immortal Venerates immediately flew towards the center of the battlefield.

At this moment, the Dragon Flame Power from Dragon Extreme Immortal Venerate surged towards Xuan Qingyun, and wherever the Dragon Flame Power passed, everything turned to ashes. Even the surrounding space was twisted by this force, resembling melted glass.

However, Xuan Qingyun did not dodge in the face of this force, coldly saying, "Too bad you're not an Immortal Emperor; you can't unleash the Emperor Tier Immortal Technique's full power."

As she spoke, the Heavenly Demon Power from Xuan Qingyun surged forth, followed by her chilly voice again.

"Blood Prison Demon Scripture!!!"

At that moment, the space around was shrouded by dense Heavenly Demon Power, and red-black blood flowed from the shattered void, quickly forming into an ocean.

The black blood sea seemed to have immense attraction, frantically drawing the blood and immortal power from other Immortal Venerates.

Feeling their blood and immortal power uncontrollably being drawn away, the Heavenly Language Immortal Venerable urgently reminded, "Circulate your power immediately!"

The Immortal Venerates instantly came to their senses and hurriedly circulated the Divine Light Thousand Lamp Scripture. In moments, countless red oil lamps appeared above the blood sea.

However, unlike Lu Chen's use of the Divine Light Thousand Lamp Scripture, these oil lamps did not absorb Heavenly Demon Power. The light from these oil lamps dispersed the surrounding Heavenly Demon Power and blood aura, and the bodies of the Immortal Venerates eased significantly.

This commotion immediately drew Xuan Qingyun's attention, and seeing the oil lamps in the sky blocking the Heavenly Demon Power, Xuan Qingyun voiced her suspicion.

"Hmm?"

Feeling the annoying immortal power, Xuan Qingyun instantly understood the situation. Although she hadn't fought Lu Chen head-on when killing the Chaos

Beast, she knew of his actions within the Chaos Beast's stomach and his power's restraint on Heavenly Demon Power.

Back when she was inside the Chaos Beast's stomach, many Heavenly Demons she created were dealt with by Lu Chen's power.

After feeling the power from the Immortal Venerates, she immediately thought of Lu Chen.

Xuan Qingyun said coldly, "It seems you're eager to fight me again!"

She immediately deduced that the Immortal Technique used by Taihua Immortal Venerable and the others was taught by Lu Chen. Having spent countless years in the Tianyan Immortal Domain, only Lu Chen possessed such Immortal Technique—who else but Lu Chen could have taught it?

However, she didn't care much.

Seeing the Heavenly Demon Power around their bodies dispersed, Taihua Immortal Venerable's confidence soared, and he immediately told the other Immortal Venerates, "We will cover Dragon Extreme Immortal Venerate!"

As he spoke, Taihua Immortal Venerable used the Divine Light Thousand Lamp Scripture again, and immediately, the number of red oil lamps in the void increased rapidly, directly rushing to Dragon Extreme Immortal Venerate's side, dispersing the surrounding Heavenly Demon Power for him. Without the obstruction of the Heavenly Demon Power, the Dragon Flame released from Dragon Extreme Immortal Venerate instantly reached Xuan Qingyun.

Meanwhile, the other Immortal Venerates began their efforts, and seeing the increasing number of oil lamps in the void, Xuan Qingyun merely snorted coldly.

If it were ordinary Heavenly Demons, facing this Immortal Technique, they would indeed likely be suppressed. But unfortunately, what they encountered was her.

Just then, the Heavenly Demon Power on Xuan Qingyun suddenly changed, the originally black Heavenly Demon Power ignited, and after burning, emitted white light, which radiated a holy aura.

When the Immortal Venerates saw this scene, they were all stunned in the void.

How is this possible...

Isn't she the Demon Emperor?

She's a Demon Emperor; why can she release such holy force?

Xuan Qingyun looked indifferently at the group of Immortal Venerates and said, "Although the Heavenly Demon Power burns away with some loss, it's more than enough to deal with you."

As her words fell, the force formed after burning the Heavenly Demon Power gathered in front of Xuan Qingyun, and she coldly chanted.

"Desire Devouring Heart Curse!!!"
