

Having children earns benefit, start competing for dominance in the world by marrying a wife

As soon as the words of the Heavenly Language Immortal Venerable fell, a chill emanated from her, and simultaneously, an Immortal Venerable level pressure weighed down on Lu Chen.

At this moment, Lu Chen's current body couldn't withstand this pressure, and he was immediately bent over, but there was not the slightest hint of panic on his face.

He struggled to look up at the Heavenly Language Immortal Venerable and said in a calm tone, "I wonder what Master intends to do to his disciple?"

Seeing that Lu Chen was not afraid of her in the least, the Heavenly Language Immortal Venerable realized that this Physical Puppet was indeed not important to Lu Chen. Just a Physical Puppet, after all, probably ruined even if destroyed.

But the more Lu Chen was unbridled, the more irritated the Heavenly Language Immortal Venerable felt.

However, thinking about the many opportunities Lu Chen had from the Chaotic Sea, potentially even opportunities to become an Emperor, the Heavenly Language Immortal Venerable dared not really take action against Lu Chen.

The Heavenly Language Immortal Venerable then said coldly, "Since you managed to come out alive from the Chaotic Sea, it proves Qingshu might also still be alive."

Currently, the Heavenly Language Immortal Venerable cared most about Yun Qingshu's safety. As Yun Qingshu's Honored Master, it's impossible to say she had no feelings for Yun Qingshu, and Yun Qingshu was her first direct disciple. Most importantly, her becoming an Immortal Venerate had a lot to do with Yun Qingshu.

In response to this question, Lu Chen didn't hide anything and answered directly, "She is indeed still alive, but she is still in the Chaotic Sea right now."

Upon hearing Lu Chen's response, Yun Qingshu frowned slightly.

Still alive? But still in the Chaotic Sea?

So, does this mean there are safe places inside the Chaotic Sea that can resist the erosion of Chaos Qi?

Indeed, the Chaotic Sea is a place full of opportunities.

The Heavenly Language Immortal Venerable then asked, "Why didn't you take her with you when you left the Chaotic Sea?"

Lu Chen said, "Safely traversing the Chaotic Sea is not an easy task, and I paid a huge price to return to the Tianyan Immortal Domain."

The Heavenly Language Immortal Venerable watched Lu Chen expressionlessly, seemingly assessing whether Lu Chen was lying.

Suddenly, the Heavenly Language Immortal Venerable thought of something and continued, "Since she survived after entering the Chaotic Sea with you, it proves she resisted the erosion of Chaos Qi."

Although the Heavenly Language Immortal Venerable didn't ask a question this time, Lu Chen caught the implication. The words seemed to question why Yun Qingshu, who could resist the erosion of Chaos Qi, couldn't leave the Chaotic Sea with him.

Lu Chen said, "She indeed withstood the erosion of Chaos Qi, but returning to the Tianyan Immortal Domain is not just about resisting the erosion of Chaos Qi. The most important thing is to find the location of the Tianyan Immortal Domain."

"The Chaotic Sea is boundless. Once you enter it, you get lost with no sense of direction. Even an Immortal Emperor can't find the Tianyan Immortal Domain once inside."

"My escape was solely dependent on the teleportation ability of a certain artifact. Unfortunately, that artifact could only teleport one person."

After listening to this, the Heavenly Language Immortal Venerable could tell that Lu Chen wasn't lying. Indeed, entering the Chaotic Sea was easy, but leaving was difficult, or else there wouldn't be so many Immortal Emperors trapped inside.

But...

If Lu Chen left the Chaotic Sea alone, doesn't that mean he abandoned Yun Qingshu and the women who followed him into the Chaotic Sea?

With this thought, the chill around the Heavenly Language Immortal Venerable intensified. She looked at Lu Chen with indifference, "In that case, did you abandon Qingshu, abandon your beloveds?"

Lu Chen said, "What does Master mean by this? If I don't leave the Chaotic Sea, how can I become stronger, and without getting stronger, how can I take them out of the Chaotic Sea? Once I break through to an Immortal Emperor, I would naturally find a way to save them all."

The Heavenly Language Immortal Venerable said with disbelief, "Even if you break through to Immortal Emperor, who knows how many years that will take. Whether they can wait is uncertain. Even if they can wait, the Chaotic Sea is boundless. Even as an Immortal Emperor, you'll still be unable to navigate and find them. How will you rescue them?"

At this moment, in the mind of the Heavenly Language Immortal Venerable, Lu Chen seemed like a heartless person who abandoned his wife and children. After all, even if Lu Chen became an Immortal Emperor, he would still be lost in the Chaotic Sea and unable to find his way. Lu Chen's idea of waiting until becoming an Immortal Emperor to rescue them was baseless.

Of course, even knowing Lu Chen as heartless, she couldn't do anything about him. In this ruthless world, what Lu Chen did seemed justifiable.

In the world of Immortals, focus was often on profit, and sincere emotions were rare.

Lu Chen said, "Master, why don't we make a bet? If I ever become an Immortal Emperor and save them, Master shall agree to one thing I ask."

Listening to Lu Chen's words, the Heavenly Language Immortal Venerable didn't care since this bet seemed meaningless.

How could she know when Lu Chen could become an Immortal Emperor?

Not to mention whether Lu Chen could even become an Immortal Emperor, if he couldn't, then their bet couldn't proceed at all.

But even though she wasn't interested in this bet, she casually said, "Fine, I shall see if you can become an Immortal Emperor."

Lu Chen then asked, "Does Master have any other matters?"

The Heavenly Language Immortal Venerable once again assessed Lu Chen expressionlessly. To be honest, she was contemplating breaking off the mentor-disciple relationship with Lu Chen.

Lu Chen currently in the Tianyan Immortal Domain was trouble; the great powers were all searching for Lu Chen. If those Super Forces knew Lu Chen was in the Mysterious Moon Palace and at her Heavenly Language Peak, they might come looking for him.

The opportunities in the Chaotic Sea were too enticing, moreover, Lu Chen had already shown a Heavenly Rank Immortal Technique that could suppress Heavenly Demon Power, proving he indeed got some opportunities from the Chaotic Sea.

At that point, many would wonder if he had opportunities to become Emperor. At times of impending disaster, the desire to become Emperor among Immortal Venerates would magnify infinitely, and they would try any means possible.

If they learned Lu Chen might have opportunities to become Emperor, they would undoubtedly rush to the Central Domain and the Mysterious Moon Palace.

This was a hot potato for the Heavenly Language Immortal Venerable. Besides, standing in front of her, Lu Chen was merely a Physical Puppet, leaving her at a loss.

If it were Lu Chen himself, she could just seize the Emperor opportunity and then expel him from the Mysterious Moon Palace.

The Heavenly Language Immortal Venerable hesitated for a moment and ultimately left the words of breaking off the mentor-disciple relationship unspoken. Their Palace Master seemed to have high hopes for Lu Chen, and it wasn't just for his opportunities but also his vast Qi Fortune.

If breaking off the mentor-disciple bond was to occur, she would need to consult their Palace Master's opinion. It's not time yet to confront Lu Chen.

As long as Lu Chen didn't cause any trouble, maintaining this mentor-disciple relationship wouldn't be an issue.

To avoid Lu Chen causing any trouble for her, the Heavenly Language Immortal Venerable said directly, "From today, unless it's something important, you will cultivate on Heavenly Language Peak and are not allowed to leave."

Chapter 1872: Chapter 1562: What Was With Those Memories Just Now?

Hearing the words of the Heavenly Language Immortal Venerable, Lu Chen did not pay much attention. This body of his is merely a puppet physical body; leaving this puppet physical body at Heavenly Language Peak would not affect his actions in any way.

He then said, "Alright, disciple will heed the Honored Master's command."

Seeing Lu Chen agree so readily, the Heavenly Language Immortal Venerable instantly realized that this was just a puppet physical body of Lu Chen, and his

true form was somewhere unknown. Even if he agreed, tossing this puppet physical body at Heavenly Language Peak would not affect his true form at all.

He could go wherever he wanted and do whatever he wished.

The Heavenly Language Immortal Venerable immediately thought, this is fine too. If Lu Chen's true form took action outside, the super forces searching for Lu Chen would focus their attention on his true form, and no one would know that Lu Chen had already joined the Mysterious Moon Palace. In this way, she wouldn't have to worry about anyone coming to Heavenly Language Peak to look for trouble.

Thinking of this, the Heavenly Language Immortal Venerable said no more.

At this moment, Lu Chen also turned and left the Heavenly Language Hall, returning to his own cultivation cave mansion.

After Lu Chen left, the Heavenly Language Immortal Venerable also prepared to start cultivating. However, at this moment, the Heavenly Language Immortal Venerable suddenly felt a moment of mental distraction.

Quickly channeling her immortal power, the Heavenly Language Immortal Venerable tried to recover, and at that moment, it seemed that some images appeared in her mind.

In those images, she saw many women wearing black dresses, each with a frosty appearance and no color on their faces, all emanating a black, ominous power.

The Heavenly Language Immortal Venerable's mind trembled, recognizing that black, ominous power as very familiar, wasn't it the strange power that suddenly appeared in the sky when the anomaly occurred in the Tianyan Immortal Domain?

The scene vanished in an instant, and the Heavenly Language Immortal Venerable quickly came back to her senses. Once she calmed down, a touch of worry appeared between her brows.

What was that scene she had just seen?

Who were those women radiating strange power?

She seemed to see her own figure among those women.

Reaching the Immortal Venerate Realm, the Heavenly Language Immortal Venerable didn't believe that an Immortal Venerate would suddenly have hallucinations. Immortal Venerates have a certain ability to foresee danger, and she felt that the scene just now might be a future scenario, which had to be taken seriously.

However, she didn't understand why so many women were being eroded by that ominous power. Although the vision appeared only fleetingly, she had already committed that scene to memory. Most of the women in that scene she did not recognize, but there were a few she was very familiar with.

In that scene, there were her two direct disciples, their Palace Master, and Xu Jingshu.

The Heavenly Language Immortal Venerable was very puzzled about what she had seen.

At this very moment.

In the Chaotic Sea, Tianchen World.

In an Ice Palace emanating waves of cold air, a cold, stunning fairy sitting on an ice bed suddenly spat out a mouthful of fresh blood, then opened her eyes, filled with a look of confusion.

After Yun Qingshu opened her eyes, she first glanced around the entire Ice Palace, then looked at her own hands and body.

“I am...”

“What were those memories just now?”

Since her child had grown, she had been in seclusion. For her, without Lu Chen, there was not much to do.

Although the spiritual energy in Tianchen World was quite thin, and no matter how much they cultivated, it made little improvement to their strength, it was very boring to just wait for Lu Chen to return.

However, she did not expect that for some reason, just a few days ago, she suddenly sensed a special power, but she could only perceive its presence. It seemed to be hidden in her divine soul.

She originally thought that stimulating that power might restore some of her strength. However, she could only perceive the mystery of that power's existence, unable to mobilize or stimulate it.

But just now, that power suddenly released a wisp of aura from the depths of her divine soul, and it was that sliver of aura that allowed her to see many strange scenes.

She saw corpses everywhere, pieces of the universe and shattered laws and avenues. She also saw some women emanating strange power, and those women she knew very well; they were almost all Lu Chen's wives and concubines.

Yun Qingshu did not think those memories were unfounded. She was now quite suspicious that she might have seen scenes from the future.

After hesitating for a moment, Yun Qingshu finally decided to inform others of this matter.

Immediately, Yun Qingshu sent a message to all of Lu Chen's women.

Since Lu Chen left Tianchen World, most of Lu Chen's wives and concubines chose to go into seclusion. Those with children had their children grown, and those without had even less to do, so they could only choose seclusion.

As Yun Qingshu's message reached the minds of all of Lu Chen's wives and concubines, they were puzzled as to why Yun Qingshu was summoning them out of seclusion at this time.

But in any case, there was not much to do. Even in seclusion, due to the limitations of this world's spiritual energy, their cultivation could only reach the Heavenly Emperor, unable to progress further. And their Heaven and Earth Cultivation in Tianyan Immortal Domain was only equivalent to an ordinary Immortal Realm, so

no matter how much they cultivated, it was useless. They might as well go see what Yun Qingshu wanted.

It was just as well; it had been many years since the sisters had all gathered.

Though Lu Chen had left the Tianyan Immortal Domain many years ago, the relationships among the women remained very harmonious.

Soon, the women arrived at Lu Chen's old palace in Tianchen World.

When Chu Yuqin and the others arrived at the palace, Yun Qingshu was already seated in one of the seats in the main hall.

Seeing the cold-looking Yun Qingshu, the women did not rush to ask her why she had gathered them but exchanged greetings with each other; it had been decades since some had seen others who were either in seclusion or not.

At this time, Chu Yuqin, dressed in a blue palace gown, and Mu Zixuan, in a red gauze, approached Yun Qingshu. Mu Zixuan said, "Sister Qingshu, long time no see."

Yun Qingshu responded with a nonchalant "Mm," and Mu Zixuan did not mind Yun Qingshu's cold reaction, knowing that was just her nature.

Just then, Yun Xianxian, dressed in a long white dress, entered the main hall. Like Yun Qingshu, she had also been in seclusion for decades.

Although Yun Xianxian was considered a clone of Yun Qingshu, she did not see the images Yun Qingshu had seen earlier.

As more women gathered in the main hall, it became increasingly lively. Once it seemed everyone had arrived, Zhou Youyou quietly asked Yun Qingshu, “Sister Qingshu, did you gather us for something important?”

Though Zhou Youyou’s voice was small, the women in the hall were all in the Great Emperor Realm, hearing her clearly, and the entire hall quieted down, as they all curiously looked at Yun Qingshu.

Having children earns benefit, start competing for dominance in the world by marrying a wife

After seeing the entire hall quiet down, Yun Qingshu didn’t hesitate at all and thought of condensing the memories she just saw into a Memory Pearl for them to see. However, just as she was about to do it, she found that she was unable to condense those memories into a Memory Pearl.

This...

Yun Qingshu was slightly stunned.

Yun Qingshu's subtle expression fell into Chu Yuqin's eyes, and she asked, "Qingshu, have you encountered some trouble?"

Yun Qingshu snapped back to her senses and said directly, "Some days ago, when I was cultivating, I vaguely sensed a mysterious and strange force deep in my Divine Soul. I initially thought it was a power I had sealed myself, and I intended to unseal it to see if it could help me improve my strength."

"But I tried many methods and couldn't mobilize that power."

"However, just two hours ago, that power suddenly released a trace of aura, and immediately some memories surfaced in my mind."

"In those memories, I saw all the people present exuding that black and eerie force, with hollow eyes, as if they were walking corpses. That force felt very familiar, yet made one feel uncomfortable."

"I suspect these are future visions, so I gathered you all to discuss them together."

"I was unable to condense the memory from earlier into a Memory Pearl, which further verifies my suspicion."

Yun Qingshu rarely spoke so much, but since she couldn't condense the memory into a Memory Pearl, she could only describe it verbally to the others.

Upon hearing Yun Qingshu's words, everyone present fell into silence. Most of them had now recovered their memories from the Tianyan Immortal Domain, so they also understood what the inability to condense into a Memory Pearl could mean.

Failing to condense a Memory Pearl might either be due to the presence of a restriction preventing the disclosure of those strange forces, or because the memory involved future scenes with strong causal limitations, so Yun Qingshu couldn't show it to others.

If it's due to a restriction, then Yun Qingshu shouldn't be able to say what she saw either, so the most likely scenario is that the scenes Yun Qingshu saw involved strong causal limitations, thus she couldn't display them to others, but she could still talk about them.

If it involves future scenes, does that mean they all are eroded by that mysterious and eerie force that Yun Qingshu mentioned in the future?

Thinking of this possibility, the mood of the women turned very bleak. If that truly was a future scene, they wondered if they could see Lu Chen again before being eroded by that eerie force.

After a while, Chu Qingli spoke, "There's no need to worry. If what Qingshu saw was indeed a future scene, then a force capable of eroding all of us is beyond our capability to resist, so there's no use in being anxious."

"We might as well think about how to leave the Tianyan Immortal Domain; perhaps there's still a glimmer of hope."

Wang Qingci said, "But what if the mysterious and eerie force is something we encounter when trying to leave the Chaotic Sea?"

This...

Chu Qingli was slightly startled.

It's not impossible that they were trying to leave the Chaotic Sea, and then got eroded by that eerie force along the way, turning into the walking corpses Yun Qingshu described.

The current situation seems to place them in a dilemma, where neither leaving nor staying seems feasible.

The women fell silent once more, the hall enveloped in a deathly silence. After an indeterminate amount of time, Chu Yunzhi said, "The Chaotic Sea is boundless; even if we want to leave, we cannot find the direction to the Tianyan Immortal Domain. Moreover, with our current strength, even if we knew the direction, we couldn't withstand the erosion of Chaos Qi. It's better to wait for Lu Chen's return."

On hearing Chu Yunzhi's words, the spirits of the women sank again. In truth, over the years, it wasn't that no one thought of leaving this place.

But as soon as they attempted to leave the area sheltered by the Tianchen World, the aura of Chaos Qi made them feel extremely uncomfortable. With their current strength, entering the Chaotic Sea could mean being completely corroded by the Chaos Qi in no time.

It seems now, they can only sit and wait for their fate.

Yun Qingshu glanced at the women, then said, "Even if the scene I witnessed is likely of the future, it's unknown how far into the future it is, so there's no need for you to be overly anxious."

Although Yun Qingshu said this, everyone present understood that since Yun Qingshu has seen these scenes, it means that the event is imminent.

After all, the future that an Immortal can foresee is related to their strength. The stronger an Immortal's strength, the further they can see into the future, and Yun Qingshu currently has the strength of an ordinary Immortal. Even if she foresaw the future, it's likely the near future.

There's a chance that the event will happen in less than a hundred years.

Chu Yuqin sighed slightly, then said, "Everyone, prepare for the calamity after returning; the inevitable will come. It's also possible that what Qingshu saw was not the future but memories from the past."

Upon hearing Chu Yuqin's words, the women felt a little less anxious.

Yes, some of their memories haven't been fully restored to this day. Perhaps what Yun Qingshu saw was the memory of them being eroded by Chaos Qi after entering the Chaotic Sea?

Upon entering the Chaotic Sea, Lu Chen sealed their Divine Souls to prolong their lives. Perhaps Yun Qingshu, upon waking up early, had seen some scenes of them after being sealed.

Hearing Chu Yuqin's speculation, Yun Qingshu pondered for a moment, considering if indeed it was memories of the past.

But if it were past memories, she should be able to condense it into a Memory Pearl and display the scene for others to see.

However, Yun Qingshu did not refute Chu Yuqin, as thinking this way might keep them from utter despair. If it truly were future scenes, they could only wait for death in despair.

While somewhat self-deceptive, thinking this still allows them to see a glimmer of hope for survival.

Now it all depends on when Lu Chen can return to take them away.

...

At the junction of the Central Domain and Northern Domain lies a vast ocean. At this moment, countless battleships are stationed on the sea; their attack formations are mostly activated, ready to launch an attack at any moment.

The Mysterious Moon Palace has already gathered all the forces of the Central Domain. Being the overlord of the Central Domain itself, no power dares to defy the Mysterious Moon Palace. Immortal Venerable Yun Meng convened a meeting of the leaders of those forces, and then the Central Domain was united.

The Central Domain then formed a united army, constructing a defense line at the junction of the Central Domain and Northern Domain. If the Northern Domain's forces attempt to come south, they will discover this immediately.

Just then, a vast array of warships suddenly appeared on the boundless ocean, speeding towards the defense line of the Central Domain rapidly.

Seeing this scene, the person responsible for monitoring the Northern Domain hastily used a bell-like Immortal Artifact to alert the various forces of the Central Domain.

Having children earns benefit, start competing for dominance in the world by marrying a wife

In the sky above the Central Domain, the sound of bells continuously echoed. Hearing this sound, all the forces in the Central Domain knew that the Northern Domain forces were marching south.

The forces of the Central Domain, without any hesitation, immediately dispatched troops to the north, and Immortal Venerable Yun Meng also led a group of Immortal Venerates to the Boundary Sea between the Northern and Central Domains, waiting for the Northern Domain forces.

Soon after, on the sea, some dragon-headed warships appeared. These warships were immense, with massive dragon heads carved on the prow, and the hulls were engraved with golden dragons crafted from Xianjin.

Seeing these warships appear, the people of the Central Domain knew that the Azure Dragon Hall had arrived.

However, those dragon-headed warships did not forcibly charge forward; instead, they all stopped at a certain distance.

For a moment, the forces of the Northern and Central Domains formed a confrontational stance, looking as if a great battle was about to erupt.

At this moment, the voice of Dragon Soaring Immortal Venerable rang out over the sea.

"Xuanyue Palace Master, we only recently joined forces to resist the Demon Emperor, and your actions make us, as allies, very disappointed!"

Hearing the words of Dragon Soaring Immortal Venerable, Immortal Venerable Yun Meng immediately used immortal power to speak: "Dragon Soaring Hall Master, I'm really sorry, the Central Domain is too small to accommodate so many Immortals, so you should find another place, Dragon Soaring Hall Master."

Immortal Venerable Yun Meng did not bother with courteous words. Anyway, today either the forces of the Northern Domain go to other Realms, or a war breaks out between the two domains.

Although Immortal Venerable Yun Meng did not wish to start a war at such a time, the cultivation resources and Qi Fortune of the Central Domain are limited. She could not allow the Azure Dragon Hall to compete with them, especially considering they currently have an Immortal Emperor Patriarch waiting to reincarnate for a second life.

If Xuanyue Palace's Qi Fortune suffers any setbacks at this time, their Patriarch's plan is likely to fail.

After Immortal Venerable Yun Meng's words, she directly unleashed the pressure from her body.

Feeling the pressure released by Immortal Venerable Yun Meng, Dragon Soaring Immortal Venerable snorted coldly, also releasing the pressure from his body.

However, when the pressures of the two clashed, Dragon Soaring Immortal Venerable suddenly had a moment of confusion, and immediately after, he felt a bit dizzy.

Dragon Soaring Immortal Venerable instantly realized that Immortal Venerable Yun Meng's voice contained a spiritual attack method. Although he wasn't greatly affected, just releasing pressure and saying a word could make him dazed, proving that Immortal Venerable Yun Meng's strength is likely above his.

Dragon Soaring Immortal Venerable was already mentally prepared for this. Having been trapped in the Demon Emperor's formation for so many years, his strength had diminished. Now his strength being inferior to Immortal Venerable Yun Meng was also normal.

Dragon Soaring Immortal Venerable directly said: "Yunmeng Palace Master, you seem a bit too overbearing. The Central Domain doesn't belong to your Xuanyue Palace alone. What, we can't even pass through briefly?"

"Does Yunmeng Palace Master mean to fight us of the Northern Domain to the death just because we want to pass through the Central Domain?"

Hearing the words of Dragon Soaring Immortal Venerable, Immortal Venerable Yun Meng was momentarily stunned.

Pass through?

The Northern Domain's southward movement wasn't to occupy the Central Domain's land?

Where were they passing through to?

If it was just passing through, Xuanyue Palace naturally wouldn't obstruct them. They couldn't fight to the death with the forces of the Northern Domain just for passing through, provided the Northern Domain's forces were truly just passing through.

Immortal Venerable Yun Meng then asked: "Where does Dragon Soaring Hall Master intend to go?"

Dragon Soaring Immortal Venerable replied: "Naturally to the Barbaric."

Dragon Soaring Immortal Venerable also did not want to conflict with the super forces of other Realms. The problem with the Cultivation Path is becoming more serious, and coupled with the strange anomalies appearing in the Tianyan Immortal Domain, all these suggest that a calamity is soon to strike the Tianyan Immortal Domain.

If they were to wage war with the super forces of other Realms at this time, depleting their strength, how would they respond when the calamity strikes?

Therefore, he ultimately decided to take the forces of the Northern Domain that were unwilling to disband directly to the Barbaric. Although the Barbaric has scarce Immortal Aura, its vast lands could fully accommodate these forces of the Northern Domain.

Most importantly, the Barbaric doesn't have any strong super forces. With so many forces from the Northern Domain moving south, the Barbaric has no resistance to them. Once they reach the Barbaric, it will all be theirs.

Of course, going to the Barbaric isn't to stay there forever. Dragon Soaring Immortal Venerable's idea is that once the Cultivation Path is restored to normal, and the calamity passes, they will then wage war to conquer other Realms and leave the Barbaric.

Going to the Barbaric now is merely a temporary measure. After all, the Demon Emperor has already ordered them to either disband or get out of the Northern Domain. If they don't leave soon, the Demon Emperor's Heavenly Demon Army will definitely launch another attack.

Without the Immortal Domain Alliance Army now, relying solely on these forces of the Northern Domain, defeating the Demon Emperor is already impossible. The great momentum is gone, and temporarily avoiding the brunt is the best choice.

As for pledging allegiance to the Demon Emperor, Dragon Soaring Immortal Venerable has no thoughts of doing so at all.

Not to mention that the Azure Dragon Hall was the first force to stand against the Demon Emperor at that time. Just the fact that after the Demon Emperor's return, they were the first to assemble the Immortal Domain Alliance Army to encircle the Demon Emperor means the Demon Emperor would never spare them.

The Demon Emperor hasn't acted against their Azure Dragon Hall yet, most likely because of issues with the Heavenly Dao and the impending calamity, leaving the Demon Emperor with no time to deal with them.

Once the Demon Emperor's Cultivation State is restored, it's highly probable he would settle accounts with them, so they best take this opportunity to leave the Northern Domain quickly.

As for whether the Demon Emperor would settle accounts with them after restoring his strength, it's a manageable concern. As long as they can break through to the Immortal Emperor Realm before the Demon Emperor restores his strength, their Azure Dragon Hall will still have a chance for survival. This is also why Dragon Soaring Immortal Venerable chooses not to fight with those super forces for territory.

After hearing Dragon Soaring Immortal Venerable say they were going to the Barbaric, the masters of the Central Domain forces looked at each other, analyzing in their minds whether what Dragon Soaring Immortal Venerable said was true or false.

Immortal Venerable Yun Meng spoke up at this time: "If Dragon Soaring Hall Master is merely passing through, then the Central Domain naturally welcomes you. But we fear some Northern Domain forces entering the Central Domain may have other thoughts."

Dragon Soaring Immortal Venerable chuckled lightly and then said: "If there are Northern Domain forces wanting to pledge allegiance to your Central Domain, that has nothing to do with the Azure Dragon Hall."

The various forces from the Northern Domain chose to move south, and a key reason is to maintain the integrity of their lineage. Every force has its heritage, and the majority of them would not choose to join other forces unless absolutely necessary. However, there are exceptions; some forces simply do not want to be ruled by the Demon Emperor, hence choosing to move south.

Those Immortals unwilling to be governed by the Demon Emperor, after leaving the Northern Domain, present a good opportunity for other domain forces to strengthen themselves.

Immortal Venerable Yun Meng said: "Dragon Soaring Hall Master, you should know that's not what I meant."

Immortal Venerable Yun Meng felt that some things need to be clarified. If Northern Domain forces join them, they naturally welcome them, since this could strengthen their power. However, their concern is those forces occupying their land.

Having children earns benefit, start competing for dominance in the world by marrying a wife

Dragon Soaring Immortal Venerate directly said at this moment, "The thoughts of those forces are irrelevant to me, Yunmeng Palace Master only needs to know that our Azure Dragon Hall is heading to the Barbaric."

Immortal Venerable Yun Meng pondered for a moment, thinking that Dragon Soaring Immortal Venerate was likely not lying. At this time, starting a war would be unsuitable for any force, as they need to conserve strength for the impending disaster.

Immediately, Immortal Venerable Yun Meng said, "I hope Dragon Soaring Hall Master will keep his word."

Saying this, Immortal Venerable Yun Meng suddenly thought of something and then continued, "Right, to help the friends of the Northern Domain reach the Barbaric faster, I have found you the shortest route."

As soon as the words fell, Immortal Venerable Yun Meng raised her hand. The next moment, a map appeared high in the sky, and on the map was a red line, which was on the western side of the Central Domain, considered the boundary between the Central Domain and the Barbaric.

Clearly, Immortal Venerable Yun Meng was still uneasy about them, not intending to let them enter the core area of the Central Domain, only allowing them to pass by its edge.

The Immortal Venerates of Azure Dragon Hall, seeing that line, were furious, as they felt Immortal Venerable Yun Meng was humiliating them.

Dragon Soaring Immortal Venerate didn't say much, merely let out a cold snort, saying, "Today's matter has been noted by Azure Dragon Hall."

Immortal Venerable Yun Meng didn't care about Dragon Soaring Immortal Venerate's harsh words. She calmly transmitted orders to the immortals of the Central Domain: "Make way!"

As Immortal Venerable Yun Meng's words fell, the warships of the Central Domain slowly moved to the sides, clearing a path for the forces of the Northern Domain.

Dragon Soaring Immortal Venerate transmitted orders at this time: "Let's go!"

Following this, Dragon Soaring Immortal Venerate led the immortals of Azure Dragon Hall into the Central Domain first, but they did not enter the core area of the Central Domain, continuously following the path drawn by Immortal Venerable Yun Meng towards the Barbaric.

Although feeling unsatisfied internally, Dragon Soaring Immortal Venerate also understood now was not the time for a clash with the Central Domain. As they traveled southward, the overall qi fortune of various forces had significantly diminished; their overall strength was inferior to the Central Domain. The Central Domain was fighting on its home ground, with strong qi fortune. If they truly started fighting, the Northern Domain would be at a disadvantage.

The most crucial reason is that disaster is approaching, and they need to conserve their strength.

In the subsequent years, forces of the Northern Domain continued to migrate southward, with some joining other forces of the Central Domain upon entry, and others heading to the Barbaric.

At the first moment of the Northern Domain forces migrating south, Lu Chen informed Yun Yudie of this matter.

In the Ice Palace, two dazzling white figures were cultivating on a soft couch, their bodies flowing with Dao Charm, surrounded by Immortal Aura.

At this time, Lu Chen, lying on the soft couch, suddenly opened his eyes, looking up at Yun Yudie sitting above him, he spoke, "There's big trouble in the Barbaric."

Upon hearing Lu Chen's words, Yun Yudie, with her eyes tightly shut, opened them, gazing down at Lu Chen's serious face, and seeing his expression so earnest, Yun Yudie asked, "Is Heavenly Splendor Hall going to attack Mysterious Moon Palace?"

Lu Chen replied, "No."

"The forces from the Northern Domain have moved south, intending to migrate to the Barbaric. Although the Barbaric is vast and sparsely populated, there aren't many places with abundant Immortal Aura. A battle must inevitably occur."

Upon hearing Lu Chen's words, Yun Yudie was slightly stunned, thinking it was Heavenly Splendor Hall planning to attack Mysterious Moon Palace. She didn't expect the situation to be more severe than she imagined.

If it were just Heavenly Splendor Hall attacking Mysterious Moon Palace, it would be only one Super Force, Heavenly Splendor Hall pulling some other forces to attack them, and Heavenly Splendor Hall possesses a Realm it controls, so they wouldn't come and wage desperate battles.

But it's different for those Northern Domain forces; they were driven out by the Demon Emperor from the Northern Domain, urgently needing a new territory to secure their qi fortune, so they will certainly employ full strength to seize the land they desire.

The location of Mysterious Moon Palace, although quite remote compared to the entire Barbaric, has relatively rich Immortal Aura; certainly, it will be noticed by those forces from the Northern Domain.

If it's just one force, it's manageable, but if multiple forces focus on it, then trouble ensues.

At this moment, Yun Yudie is most worried about being targeted by Azure Dragon Hall.

This place is originally called the Dragon Land, and most immortals of Azure Dragon Hall are members of the Dragon Clan. If Azure Dragon Hall finds out about this place, they might think it's most suitable as their Immortal Sect's base.

Once targeted by Azure Dragon Hall, Mysterious Moon Palace may not be able to hold onto Dragon Land.

Thinking of this, Yun Yudie lost the thought for cultivation; now she is the only Immortal Venerate here. Dragon Land secretly harbors another Immortal Venerate. If Azure Dragon Hall truly eye on Dragon Land, perhaps that hidden Immortal Venerate would join Mysterious Moon Palace to confront Azure Dragon Hall, but there is also a chance he might just watch from the shadows.

Even if that hidden Immortal Venerate chooses to stand with Mysterious Moon Palace, they might not necessarily be opponents of Azure Dragon Hall, being the

overlord of the Northern Domain, those forces going south together with Azure Dragon Hall undoubtedly follow Azure Dragon Hall's commands.

Seeing Yun Yudie fall into silence, Lu Chen smiled and said, "Soldiers will block, water will earth cover. You need not worry too much."

"Now, the Cultivation Path is being eroded increasingly severely. At this time, Azure Dragon Hall might not conflict with Immortal Sects possessing Immortal Venerates."

Yun Yudie returned to herself, saying indifferently, "Let's hope so."

As the conversation concluded, Yun Yudie rose from Lu Chen's body, she could not place her hopes on her enemies. Regardless of whether Azure Dragon Hall would take an interest in Dragon Land, she must make preparations.

After standing up, a light purple gauzy long dress instantly appeared on Yun Yudie, followed by her smooth white hair being bound up, next an exquisite headdress appeared on her head, her whole person emanating a noble aura.

After dressing, Yun Yudie glanced back at Lu Chen lying sprawled on the soft couch. She is increasingly satisfied with this "toy," not only helping her improve her strength but also acquiring information ahead of time.

However, recalling how this shameless person always wished her to fall into traps, Yun Yudie still harbors some cautiousness towards him, though these are minor issues, she doesn't believe this shameless person would cause her trouble.

Yun Yudie said expressionlessly, "If Azure Dragon Hall takes any action, inform me immediately."

As her words fell, Yun Yudie's body turned into ice crystals and dispersed.

Hearing Yun Yudie's words, Lu Chen chuckled softly; this woman truly sees him as a tool now, summoning him with ease.

Lu Chen didn't care much, all attaining one's needs.

After Yun Yudie left the Ice Palace, she convened with the elders of Mysterious Moon Palace to inform them of the matter of the various Northern Domain forces migrating south and jointly deliberated countermeasures.

And at this moment, Lu Chen had already shifted his focus to Ye Chuyao.

In recent years, Lu Chen's primary focus has been on Cao Shiyun, Xiao Xueying, and Ye Chuyao. These three have similar strength to him now, and their

cultivation states are not excessively high, making them the most likely candidates for conception.

The warm sunlight streamed through windows carved from thousand-year warm jade into the room, falling onto the jade couch spread with cloud-patterned soft bedding, the tassels crafted from Immortal Crystal hanging on the edge swayed continuously with the couch's motions.

At this moment, the room echoed with captivating sounds.

Having children earns benefit, start competing for dominance in the world by marrying a wife

A subtle fragrance floated through the air, not as intense as burning incense but more like a natural floral scent. Inhaling it made one feel blissfully comfortable, unable to resist its charm.

Lu Chen held Ye Chuyao's slender waist, burying his head into her lush hair, greedily taking in the fragrance.

At this moment, Ye Chuyao turned her head slightly, looking at Lu Chen with a sullen expression. Ever since she had laid everything bare with Lu Chen, she had

fallen into decline, not knowing how long it had been since she last cultivated properly.

Ye Chuyao wasn't naive. She knew very well why Lu Chen was so diligent; he just wanted her to bear his descendants.

At this moment, Ye Chuyao felt a trace of guilt. At first, she often blamed Wu Junwan in her heart, thinking Wu Junwan was out of her mind for giving up the position of an Immortal Emperor just to follow Lu Chen to the Chaotic Sea.

And now, she found herself in the same situation, neglecting cultivation every day and only engaging in dubious activities with Lu Chen.

She felt as if she was no different from those uncivilized animals right now.

It was all because of this damn man. She fell for his trap and ended up like this.

Seeing Ye Chuyao staring at him intently, Lu Chen gently brushed aside the hair on her face, revealing her perfect beauty, and then said with a smile, "Why is Master Sister looking at me like that, is it not enough?"

After saying this, Lu Chen continued with his actions.

Ye Chuyao's cheeks blushed slightly, and she tried to maintain a cold demeanor, speaking in a frosty tone, "You... what do you take me for... um...?"

Lu Chen said, "Of course, you're my woman!"

Ye Chuyao snorted coldly. She realized that she couldn't maintain her aloofness in front of this bastard. Her body was under his control; how could she be aloof? Whenever she tried, he'd just act out.

At that moment, Lu Chen leaned into Ye Chuyao's ear, whispering, "Yaoyao, you smell so good."

Hearing Lu Chen's deep voice, Ye Chuyao felt as if electricity coursed through her. Lu Chen was also affected, and the next instant, they both fell silent.

After a while, just as Lu Chen was about to say something, a system voice suddenly rang in his ear.

"Congratulations to the host for helping the wife conceive a child, reward: Heavenly Dao Order."

Hearing this sudden system prompt, Lu Chen was momentarily stunned. He didn't expect that they would succeed under such circumstances.

In the past, he tried every method and trick for Ye Chuyao to conceive his child, but nothing seemed to work.

Lost in thought, Lu Chen suddenly noticed Ye Chuyao's body going limp, resting on the bed. He followed her down, still holding her waist.

At this point, Ye Chuyao spoke, "Phew... you still haven't given up. It's not so easy to conceive."

Hearing Ye Chuyao's words, Lu Chen burst into laughter. Seeing her puzzled look, he said, "Why are you laughing?"

Lu Chen whispered in her ear, "It's not easy, indeed, but fortunately, the outcome is good."

Hearing this, Ye Chuyao felt confused. What did he mean by 'the outcome is good'?

She continued to ask, "What do you mean?"

Lu Chen replied, "It means you're going to be a mother."

Hearing Lu Chen's words, Ye Chuyao's heart skipped a beat.

She quickly mobilized her immortal power to check her body, and soon discovered a sphere of Life Force wrapped within her body.

Ye Chuyao was stunned. Did it really happen?

How could it be so quick?

Just a few days ago, she had checked her body and everything was normal.

Regaining her composure, Ye Chuyao coldly said, "Are you satisfied now?"

Lu Chen said nothing. He turned over and pulled Ye Chuyao into his arms, making her lie on his chest. However, Ye Chuyao did not comply; she sat up, straddling Lu Chen and looking down at him.

Seeing the way Ye Chuyao was looking at him, Lu Chen smiled and asked, "So many Immortals yearn for children and can't have them, why aren't you happy?"

Hearing this, Ye Chuyao felt a mix of emotions, unsure whether she should be happy or feel something else.

Lu Chen wasn't wrong, after all. So many Immortals long for children for millions of years without success, yet she and Lu Chen hadn't been together for even a hundred years, and she got pregnant.

But thinking of Lu Chen as Wu Junwan's man, Ye Chuyao felt guilty. She was in no position to criticize Wu Junwan anymore, not after giving herself to Lu Chen and now bearing his child.

Ye Chuyao hastily stopped herself from thinking in that direction. If she thought of having Lu Chen's children, she would surely feel some resentment.

She needed to shift her perspective, telling herself that this child was for her, which made her feel much better.

Seeing Ye Chuyao silent, Lu Chen continued, "From now on, you should focus on taking good care of the baby..."

Hearing Lu Chen's words, Ye Chuyao instantly snapped back to reality, then coldly asked, "What do you mean? Are you planning to leave now that I'm pregnant?"

Ye Chuyao was feeling a bit sensitive. Hearing Lu Chen ask her to take care, she assumed he meant he was leaving, and she'd be left alone to care for herself.

This made Ye Chuyao feel that Lu Chen was unkind, getting her into this state and then planning to disappear.

Lu Chen immediately sensed Ye Chuyao's concern and burst into laughter once more.

Ye Chuyao said coldly, "I warn you, you have to take responsibility, don't think about leaving!"

Lu Chen immediately raised his hand, grasping Ye Chuyao's delicate hand, pulling her into his embrace, and said, "What are you saying, Master Sister? Do I seem like the type of man who doesn't own up to his responsibilities?"

"Moreover, I have many bodies, one of which will always be with you, so you don't have to worry."

It would have been fine if Lu Chen hadn't mentioned it, but now that he did, Ye Chuyao felt even more annoyed. The thought that Lu Chen, while being with her, could have his other bodies fooling around with other women made her uncomfortable.

Yet she had no choice. She'd fallen for his trap, and now even had his child.

Thinking about this, Ye Chuyao sighed softly, saying nothing more, silently lying in his arms, feeling Lu Chen's warmth and heartbeat.

After Ye Chuyao quieted down, Lu Chen gently caressed her back to comfort her, while checking the system's reward.

He was curious about what this Heavenly Dao Order entailed.

After opening the system panel, Lu Chen checked the function of the Heavenly Dao Order.

[Heavenly Dao Order: Upon activation, can summon nearby members of the Heavenly Dao Sect.]

Lu Chen was a bit surprised. He thought that after returning to the Tianyan Immortal Domain, the system would not reward him with any forces.

After all, the forces in the belly of the Chaos Beast, rewarded by the system, were basically his past life's layout.

Yet in the Tianyan Immortal Domain, he had no significant layout or forces, only those like Lu Zhengze.

Apart from this, he had some associations with certain forces in the Tianxia Immortal Dynasty, but they wouldn't recognize him as their master, so the system wouldn't reward them.

What was the origin of this Heavenly Dao Sect? Why did he have no impression of it?

Having children earns benefit, start competing for dominance in the world by marrying a wife

Lu Chen at this moment couldn't help but wonder if his existence in the Tianyan Immortal Domain wasn't his first life. Did he have other reincarnations, and was the Heavenly Dao Sect an organization he left behind from his previous life?

Lu Chen then tried to ask the system, "System, was the Heavenly Dao Sect a power I founded in my past life?"

The system replied, "When the time is right, the host will naturally know."

Lu Chen wasn't surprised by this answer at all.

He continued to ask, "So how many powerful figures are there in the Heavenly Dao Sect? What's their strength?"

The system responded, "The members of the Heavenly Dao Sect are spread throughout the Tianyan Immortal Domain. As for how many powerful figures there are, the host will naturally know in the future."

Upon hearing these responses, Lu Chen didn't bother asking further, as he knew the system operated under certain rules. It's similar to when he was inside the Chaos Beast's stomach and divided a divine thought. When he split that divine thought, he imposed a restriction, ensuring it wouldn't rush things as it guided him. Hence, many things wouldn't be prematurely revealed to him, much like the operation of the system.

The fact that the system wasn't revealing these details to him meant that with his current strength, he wasn't suited to know too much about the Heavenly Dao Sect yet.

This also made Lu Chen further doubt whether this system might be a divine thought left by his previous previous previous previous... incarnations. Yet, even with this speculation, Lu Chen wouldn't seek to verify it now.

He knew very well that when one's strength wasn't sufficient, knowing matters beyond one's control could severely damage one's Dao Heart. So, he'd proceed slowly and uncover what the system truly was when his strength was adequate.

At that moment, Yun Yudie informed the Elders of Mysterious Moon Palace about Northern Domain powers planning to come to the Barbaric lands, causing the Elders to look serious.

For a moment, the entire Meeting Hall was silent enough to hear a pin drop; no one spoke.

The Northern Domain had so many forces, and it's unknown how many Immortal Venerates were present. The most critical issue was the overlord Azure Dragon Hall planning to come to the Barbaric lands. If they were just some weak Immortal Sects, that would be fine, but an overlord-level power like Azure Dragon Hall was beyond what the Mysterious Moon Palace could handle.

The Elders couldn't help but think, might they have to relocate the Mysterious Moon Palace again?

Since they had moved once before, whenever they faced crises they couldn't resolve, their first thought was to move.

After all, Lu Chen's Spirit Realm Crossing Array could take them anywhere.

At this moment, Yun Yudie spoke, "The Dragon Land is located at the southernmost part of the Barbaric region. Azure Dragon Hall may not notice this place, but if other Northern Domain powers continue southward, they are likely to target this area. We need to prepare in advance."

Upon hearing Yun Yudie's words, Weixue Immortal Monarch asked, "Hall Master, the powers from the Northern Domain spread south through the Barbaric region. Shouldn't we try to unite with other Immortal Sects in the Barbaric region to resist the Northern Domain's forces together?"

Yun Yudie replied, "I indeed have such plans. There's an Immortal Venerate in the Dragon Land. I'll try to communicate with him and see if he's willing to join us in resisting the Northern Domain's powers."

As for the Immortal Venerate hidden in the Dragon Land, Yun Yudie didn't have high hopes, as when she broke through to become an Immortal Venerate, that Immortal Venerate didn't appear as if she was nonexistent.

This likely indicated that the Immortal Venerate was nearing their end and had shut themselves in a death retreat. Even knowing the Northern Domain powers were heading south, the Immortal Venerate might not step forward.

If that Immortal Venerate were truly going to stand up against foreign forces, then when the Mysterious Moon Palace moved to the Dragon Land, they would have come forth to drive them away. If they didn't then, they likely wouldn't intervene in the future.

Perhaps to that Immortal Venerate, it didn't matter which power controlled the Dragon Land.

Even knowing it might be impossible to get that Immortal Venerate to come forward, Yun Yudie decided to give it a try.

...

Heavenly Splendor Hall.

Within Star River Hall, Star River Immortal Venerate stared at the memory projection belonging to Taihua Immortal Venerable, lost in thought.

At this moment, Taihua Immortal Venerable spoke, "Heavenly Language Immortal Venerable claims the Divine Light Thousand Lamp Scripture is the Immortal Law passed down by their ancestor, but I suspect it might be the Immortal Law Lu Chen brought out from the Chaotic Sea."

"Also, on the battlefield, we spotted someone resembling Lu Chen, who with Immortal King Realm strength severely wounded a Heavenly Demon of Immortal Venerable Level. Besides Lu Chen possessing such power, I can't think of another Immortal King with such strength."

Saying this, Taihua Immortal Venerable raised a hand, and another segment of memory projection appeared within the hall.

The scene within the hall was exactly Lu Chen's full-force strike heavily injuring the Immortal Venerable-level Heavenly Demon.

Upon viewing the scene, the Immortal Venerates of Heavenly Splendor Hall began to discuss.

"Isn't Lu Chen in the Barbaric region? When did he go to the Northern Domain?"

"Might Lu Chen have left a clone in the Barbaric region?"

"Lu Chen is undoubtedly connected to the Mysterious Moon Palace; otherwise, how could he join the Mysterious Moon Palace? If I'm not mistaken, the Xuan Yue is Heavenly Language Immortal Venerable's Direct Disciple."

"Thus, wouldn't all the opportunities from the Chaotic Sea fall into the hands of Mysterious Moon Palace?"

...

At this moment, Wuya Immortal Venerable had a gloomy expression as he watched the looping projection in the hall.

Star River Immortal Venerable's gaze occasionally swept over Wuya Immortal Venerable, noticing his unpleasant expression. Star River Immortal Venerable tapped his finger repeatedly on the armrest, seemingly deep in thought.

After a while, Star River Immortal Venerable finally spoke, "What do you think Heaven Splendor Hall should do next?"

The most recent anomaly in Tianyan Immortal Domain with mysterious black power infiltrating from the heavens, Star River Immortal Venerable had confirmed the aura of the mysterious power on Wuya Immortal Venerable matched the black power infiltrating from above.

This realization led Star River Immortal Venerate to suspect the impending disaster likely involved Wuya Immortal Venerable.

Thus, Star River Immortal Venerate dared not act recklessly.

Yet upon seeing Wuya Immortal Venerable's displeased expression, Star River Immortal Venerate was almost certain the Divine Light Thousand Lamp Scripture was indeed the Immortal Law Lu Chen brought from the Chaotic Sea.

Perhaps this Immortal Law could suppress the evil power within Wuya Immortal Venerable.

At this moment, Wuya Immortal Venerable spoke, "Hall Master, the opportunity for becoming an Immortal Emperor cannot fall into others' hands. I suggest sending troops to attack the Mysterious Moon Palace, forcing it to surrender Lu Chen and the opportunities Lu Chen acquired in the Chaotic Sea!"

Upon hearing Wuya Immortal Venerable's statement, Star River Immortal Venerate wasn't surprised.

If the Divine Light Thousand Lamp Scripture posed a threat to Wuya Immortal Venerable, he surely wouldn't allow the Immortal Law to spread.

Moreover, Lu Chen likely possessed more items capable of threatening Wuya Immortal Venerable.

After Wuya Immortal Venerable spoke, another Immortal Venerate stood up, saying, "Hall Master, I agree with the Third Elder's suggestion. An Immortal Emperor can only rise from Heavenly Splendor Hall. If another power births an Immortal Emperor, our Immortal Sect will inevitably become a tributary."

As soon as this Immortal Venerate finished speaking, Star River Immortal Venerate calmly said, "Instead of worrying about Mysterious Moon Palace birthing an Immortal Emperor, we should be more concerned about the rejuvenation of the Demon Emperor's strength."

Having children earns benefit, start competing for dominance in the world by marrying a wife

When they heard the words of Star River Immortal Venerate, all the Immortal Venerates were taken aback. The Immortal Domain Alliance Army has now disbanded, and the various forces of the Northern Domain have started migrating south. The Demon Emperor has become a significant threat, and his recovery is only a matter of time. Why would Star River Immortal Venerate bring up the Demon Emperor?

Star River Immortal Venerate continued, "Regardless of whether the Heavenly Splendor Hall can defeat the Mysterious Moon Palace, launching a reckless war would result in heavy losses for the Heavenly Splendor Hall. With the Tribulation of the Great Dao worsening and greater disasters looming, starting a war for an uncertain opportunity to become the Celestial Emperor would be tantamount to seeking one's own doom."

"More importantly, the Demon Emperor is still watching intently from the Northern Domain. If the Central and Southern Domains suffer mutual destruction in their conflict, wouldn't this just benefit the Demon Emperor?"

"In my view, it doesn't matter who becomes the Immortal Emperor as long as they can repair the Cultivation Path and lead the various forces against the Demon Emperor."

Upon hearing these words from Star River Immortal Venerate, Wuya Immortal Venerable's face grew even darker. He didn't expect Star River Immortal Venerate to be indifferent to the opportunity of becoming the Celestial Emperor. From his memory, Star River Immortal Venerate wasn't such a magnanimous person.

Billions of years ago, when Lu Chen rose to prominence, Star River Immortal Venerate was the first Immortal Venerate to see Lu Chen as a threat.

At that time, Lu Chen was only an Immortal King, yet he was considered a threat. Now that the Mysterious Moon Palace might gain the opportunity to become the Celestial Emperor, Star River Immortal Venerate suddenly puts on a grand facade.

Star River Immortal Venerate then said, "The Mysterious Moon Palace proactively taught us the precious Divine Light Thousand Lamp Scripture. We must show our gratitude in return. I intend to choose a Heavenly Rank Immortal Technique to visit the Mysterious Moon Palace and express my thanks."

Once again, all the Immortal Venerates were taken aback. Despite the value of a Heavenly Rank Immortal Technique, as a Hall Master, there was no need for Star River Immortal Venerate to personally make the trip just to express gratitude.

Star River Immortal Venerate then said, "That's all for today."

As his words fell, the figure of Star River Immortal Venerate dissipated into points of starlight. The Immortal Venerates in the grand hall looked at each other.

At this moment, Wuya Immortal Venerable also left the grand hall with a dark look on his face. After he left, the remaining Immortal Venerates began to discuss.

"What does the Hall Master mean by this?"

"Is it possible that the grand hall truly intends to hand over the opportunity to become the Celestial Emperor?"

"Given the current situation, it's indeed unsuitable to start a war."

...

At this time, Taihua Immortal Venerable spoke, "Why think so much? Didn't you hear the Hall Master say he would personally visit the Mysterious Moon Palace to thank them?"

Hearing Taihua Immortal Venerable's words, the Immortal Venerates were stunned. They quickly understood.

Lu Chen might indeed possess the opportunity to become the Celestial Emperor, and such important information mustn't leak out.

If Lu Chen really has the opportunity, then the Mysterious Moon Palace probably knows already. Their Hall Master's visit to the Mysterious Moon Palace may be a reminder that the Mysterious Moon Palace shouldn't monopolize the Celestial Emperor's opportunity, and that the Heavenly Splendor Hall is aware of this matter.

Thus, their Hall Master's visit to the Mysterious Moon Palace is essentially about Lu Chen's opportunity?

If the Mysterious Moon Palace insists on keeping it to themselves, then the Heavenly Splendor Hall might spread the news of Lu Chen's presence in the Mysterious Moon Palace. Then, they could unite with other Super Forces to pressure the Mysterious Moon Palace to share the opportunity Lu Chen brought from the Chaotic Sea.

...

After Yun Yudie finished instructing the elders on how to set up the defensive line, she left the Mysterious Moon Palace.

High above, Yun Yudie looked down over the endless mountain ranges.

There seemed to be great terror within the Sunset Mountain Range. Just by gazing at it, she felt unsettled, and she vaguely heard something inside the range calling to her.

Yun Yudie quickly steadied her mind and then released her Divine Sense recklessly, searching for the Immortal Venerate hiding in the Dragon Land.

At the same time, she sent a voice transmission: "Senior, may I have the honor to meet you?"

Yun Yudie adopted a very humble stance. Although the other person's age might not differ much from hers, they became an Immortal Venerate before her, so addressing them as senior was understandable.

However, Yun Yudie's voice echoed in the Dragon Land for quite some time, and the Immortal Venerate didn't come forth.

Yun Yudie frowned slightly, sensing another Immortal Venerate's presence in the Dragon Land aside from herself, but she couldn't pinpoint where that presence was.

Unable to see the other person, Yun Yudie wondered if this Immortal Venerate was indeed at the end of their lifespan and unwilling to involve themselves in external matters anymore.

At this moment, in Ye Chuyao's room, Ye Chuyao was nestled comfortably in Lu Chen's arms, feeling the warmth radiating from him.

Upon hearing Yun Yudie's voice, Ye Chuyao awoke, slowly sat up, and curiously glanced out the window, saying, "Is that Master's voice? Who is she calling?"

Lu Chen replied, "She must be calling that hidden Immortal Venerate."

As Lu Chen's words ended, Yun Yudie's voice once more echoed in the sky.

"Senior, may I have the honor to meet you!"

Hearing Yun Yudie's voice again, Ye Chuyao said, "It seems that Immortal Venerate doesn't wish to come out."

Lu Chen said, "I'll go take a look."

Hearing this, she frowned, turned to gaze at Lu Chen, then laid back down, hugging his strong waist tightly, indicating she didn't want him to leave.

She had been troubled by issues created by Lu Chen earlier, and her spirit was still sensitive, not wanting him away from her side.

Seeing Ye Chuyao like this, Lu Chen smiled and asked, "Senior Sister, what are you doing?"

Ye Chuyao then said, "Your body isn't allowed to leave."

Without Lu Chen by her side, she felt no sense of security.

Lu Chen said, "Uh... I never said I would let this body leave."

With so many bodies, keeping one by Ye Chuyao's side was no problem for him.

In the next moment, Lu Chen controlled another of his bodies in the Mysterious Moon Palace to fly over to Yun Yudie's side.

By now, Yun Yudie had called out a third time, yet the Dragon Land remained silent.

Lu Chen stood by and said, "When the Mysterious Moon Palace first moved here, that person didn't come out. They probably don't want anything to do with external affairs anymore."

Yun Yudie, expressionless, said, "If the Immortal Venerates of the Barbaric don't involve themselves in external matters, the Mysterious Moon Palace will have to face the forces of the Northern Domain alone."

Yun Yudie's concern wasn't just about the Immortal Venerate in the Dragon Land remaining unseen, but also that other Immortal Venerates from the Barbaric who were hiding might not reveal themselves either.

Since her breakthrough, she sensed not just one Immortal Venerate's presence, yet none approached their sect, which was a foreign Immortal Sect.

If other foreign forces settled near the Mysterious Moon Palace and had an Immortal Venerate, she would definitely visit that force to know their intentions.

Yet the hidden Immortal Venerates from the Barbaric showed no interest in the Mysterious Moon Palace's arrival, not even visiting when an Immortal Venerate was born.

Hearing Yun Yudie's words, Lu Chen suddenly thought of something and said, "They might not have to face them alone, perhaps we have other allies."

Having children earns benefit, start competing for dominance in the world by marrying a wife

Upon hearing Lu Chen's words, Yun Yudie turned to look at him, her gaze full of doubt as she watched his deep, dark eyes.

"Other helpers?"

Yun Yudie was somewhat curious about who Lu Chen referred to as other helpers. At this point, where would they find any helpers?

Lu Chen did not answer Yun Yudie's question. Instead, he took out the Heaven's Order Token from the System Space. As soon as the Token was brought out, a vortex-shaped cloud covered the sky over the Dragon Land.

Between the clouds, lightning flashed and thunder roared. Strikes of purple lightning descended from the sky, hitting the desert. The vortex-shaped cloud dropped lower and lower, as if the sky were about to collapse.

Seeing this scene, Yun Yudie's expression became extremely serious, her gaze fixed on the seven-colored Token in Lu Chen's hand.

Lu Chen looked at the Token in his hand, thinking that it probably required blood recognition as well. Without any hesitation, he gathered a drop of soul blood and placed it on the Heaven's Order Token.

As soon as his blood touched the Token, the anomaly in the sky vanished in an instant, not even a blink later, leaving the skies calm, as if nothing had happened.

This is...

Yun Yudie was slightly taken aback. What kind of Token was it, to cause such a dramatic change in the skies just by being taken out, only for the anomaly to disappear instantly after blood recognition?

Yun Yudie didn't rush to ask. She believed that since Lu Chen had brought out this Token, he would definitely use it, so she decided to wait and see.

At that moment, Lu Chen began to infuse immortal power into the Heaven's Order Token. Though Lu Chen was unsure if the Heaven's Order Token could summon members of the Heavenly Dao Sect, as the System indicated it could only summon those nearby.

However, at the instant Lu Chen activated the Heaven's Order Token, a surge of the Immortal Venerate's aura suddenly rose in the distance, followed by a purple-black beam that shot into the sky.

The next moment, a distressing aura spread instantly throughout the Dragon Land.

Feeling this Immortal Venerate's aura, Yun Yudie furrowed her brow—this is...

If she wasn't mistaken, this should be the Immortal Venerate hidden within the Dragon Land.

She had called this person just a moment ago, yet they hadn't appeared, so why now?

As Yun Yudie pondered in confusion, a mass of black mist appeared high above, and an elderly man clad in a black robe emerged from the mist.

The black mist contained Destruction Path Dao Charm, making Yun Yudie extremely uncomfortable, yet she forced herself to say, "Senior, I do not know you..."

Before Yun Yudie could finish her sentence, the elder bowed to Lu Chen and said, "Elder of Heavenly Dao Sect, Wan Xu, pays respects to the Divine Lord!"

Hearing this title, Yun Yudie was stunned. Not only Yun Yudie, but Lu Chen himself was also bewildered.

Divine Lord???

Where in the Heavenly Evolution Immortal Realm could there be a god?

Yun Yudie snapped out of it, looked at Lu Chen with an unusual expression. She had called out to this Wan Xu Immortal Venerable three times earlier, yet he hadn't appeared.

But Lu Chen only activated a Token, and Wan Xu came out directly, even calling Lu Chen Divine Lord!

What on earth is Lu Chen's background?

Is he really just an ordinary prince of the Tianxia Immortal Dynasty?

Though there are no gods in the Heavenly Evolution Immortal Realm, there are some ancient records about gods, but they are merely ancient rumors.

According to the rumors, the difference between gods and immortals is that gods possess innate powers, while immortals cultivate from mortals. However, nowadays, few immortals are willing to admit their ancestors were once lowly mortals.

In the Heavenly Evolution Immortal Realm, there are scarce records of gods, and some mentions are merely brief notes, only enough to indicate that the realm possibly once had beings like gods.

At this moment, the one most bewildered was Lu Chen himself, as he suspected he might have a previous life, but didn't expect such a significant identity.

Divine Lord, does that mean the master of all gods?

So his previous life was so powerful?

It turns out the System might really be something left behind by his former self? Perhaps it's even a manifestation of his Divine Thought?

After a moment, Lu Chen recovered, coughed lightly, and said, "Aside from you, are there other members of the Heavenly Dao Sect nearby?"

Wan Xu Immortal Venerable responded, "Reporting to Divine Lord, I am the only one in the Dragon Land."

Lu Chen curiously asked, "What are you doing in the Dragon Land?"

Wan Xu Immortal Venerable answered, "Monitoring the Sunset Mountain Range."

Lu Chen continued, "What in the Sunset Mountain Range needs monitoring?"

Wan Xu Immortal Venerable replied, "The Sunset Mountain Range contains the sealing of extraterrestrial beings."

Extraterrestrial beings?

So, beyond the Heavenly Evolution Immortal Realm, there is an even larger world? Lu Chen wasn't surprised, though he was curious about who sealed these extraterrestrials in the Sunset Mountain Range.

Could it be his previous self?

Lu Chen asked once more, "Was it me who sealed those extraterrestrials?"

Wan Xu Immortal Venerable was about to speak but found he couldn't open his mouth. A mysterious force sealed his speech, making Wan Xu immediately

understand and say, "Divine Lord, there is a restriction. Some words cannot be divulged."

Lu Chen instantly understood Wan Xu Immortal Venerable's meaning, and did not pry further.

"The Northern Domain Power is about to head south, you should gather other members of the Heavenly Dao Sect and bring them to the Dragon Land."

Wan Xu Immortal Venerable quickly stated, "Divine Lord, since the Heavenly Dao Sect dissolved, only the Heaven's Order Token is recognized. I do not know where they have dispersed, or their identities."

This...

Lu Chen said, "Enough, remain in the Daqin Immortal Dynasty, that'll be all for today."

Lu Chen realized no more could be learned from Wan Xu Immortal Venerable about his past life, so he didn't pursue the matter further.

Wan Xu Immortal Venerable respectfully bowed and said, "I shall obey the divine lord's command."

With that statement, Wan Xu Immortal Venerable's figure vanished into thin air.

Once Wan Xu Immortal Venerable departed, Yun Yudie finally felt much relief. Wan Xu Immortal Venerable cultivated the Destruction Path, and just sensing the aura emanating from him felt disagreeable.

At this moment, Yun Yudie's gaze followed Lu Chen intently. First it was the Heavenly Dao Sect, then addressing Lu Chen as Divine Lord. It's clear Lu Chen's background is not merely as a prince of the Tianxia Immortal Dynasty.

She even wondered if she had been fooled by Lu Chen. Perhaps this wasn't the real Lu Chen, but someone impersonating him?

Seeing Yun Yudie looking at him like this, Lu Chen smiled and said, "Why is Honored Master looking at me?"

Yun Yudie replied coldly, "Is there anything you'd like to say to me?"

Lu Chen retorted, "Say what?"

Yun Yudie straightforwardly asked, "Who exactly are you?"

Lu Chen answered, "Of course, your disciple."

Yun Yudie coldly remarked, "I don't care who you are, I only want to know whether you are the Lu Chen I know?"

Her greatest worry now is that the current Lu Chen isn't the real one and the things he previously said to her were false. If that's the case, then her sister might already be dead, and the memory scenes he showed could also be fake.

Having children earns benefit, start competing for dominance in the world by marrying a wife

Hearing Yun Yudie's words, Lu Chen guessed what Yun Yudie was suspecting now, and he immediately said, "The disciple is naturally Lu Chen."

Yun Yudie said indifferently, "I do not believe an ordinary prince of the Immortal Dynasty can make an Immortal Venerate obey."

Lu Chen said, "This probably has something to do with my previous life."

Upon hearing Lu Chen say this, Yun Yudie felt relieved. She was also thinking that Lu Chen's identity was most likely real, except that he might be the reincarnation of some great power.

After all, judging from Lu Chen's growth experience, his talent could be considered the best in the history of the Tianyan Immortal Domain, and from this point alone it's clear that there is a great possibility he is a great power reincarnated.

Moreover, just now Wan Xu Immortal Venerable had addressed Lu Chen as God Master, which further indicates the complexity of his previous life's identity.

For a moment, Yun Yudie suddenly didn't know how to face Lu Chen. She originally thought of using Lu Chen as a tool to enhance her cultivation state, but now she was told that Lu Chen's background might not be simple.

Although the act with Lu Chen is the same, the different identity brings her different psychological feelings.

When Lu Chen is weaker than her, she thinks that this guy is weaker than herself, he cannot force her, and only when she is active can he be intimate with her, so in front of her, he is just a tool to enhance her cultivation state and a plaything.

Over the years, she had formed this mindset, so whenever she was intimate with Lu Chen, she felt no psychological burden.

But if Lu Chen's identity and origin are not simple, and there's a powerful force behind him, and if Lu Chen is stronger than her, then she would feel like she's been entirely used by Lu Chen.

Ultimately, it's a matter of the dignity of the strong.

Her man can be weaker than her, but he cannot be stronger. If he's stronger, she feels like she becomes the other's plaything.

In Yun Yudie's mind, whoever is weaker is the plaything of the other and can be manipulated unscrupulously.

Yun Yudie then asked, "He addressed you as God Master, were you not an Immortal in your previous life, but an Innate Divine Spirit?"

Lu Chen said, "I have not recovered the memories of my previous life, and as for my previous life's identity, I don't know yet."

Yun Yudie did not doubt Lu Chen's words. When a great power reincarnates, it indeed takes a long time to recover the memories of the past life.

Lu Chen sighed at this moment and said, "When one's strength is insufficient, knowing too much is not a good thing either."

"Just like those aliens in the Sunset Mountain Range, if those aliens break through the sealing, I'm afraid that it's not something we can deal with now. Knowing this only adds to our worries."

Hearing Lu Chen's words, Yun Yudie finally came back to her senses and recalled what Wan Xu Immortal Venerable had said earlier.

Her expression quickly became serious, and she couldn't help but look into the distance at the continuous mountain range.

The Sunset Mountain Range has always given her a sense of danger. After all, the Sunset Mountain Range itself is home to many forbidden grounds. She did not expect there to be sealed aliens within the Sunset Mountain Range, and those places sealing them are perhaps precisely those forbidden grounds of the mountain range.

In this way, they face a crisis not only from the Northern Domain's forces to the south but also must keep an eye on any disturbances in the Sunset Mountain Range.

For a moment, the desire in Yun Yudie's heart to enhance her strength became more urgent. As she learned more, she increasingly felt her current strength was insufficient.

Soon Yun Yudie snapped back to reality, her gaze instantly locking onto Lu Chen. Then, with a wave of her hand, the figures of the two disappeared instantly.

The next moment, they returned to Yun Yudie's sleeping palace.

Yun Yudie now thought it through, regardless of who Lu Chen is or what great power he was in his previous life, and no matter his purpose of wanting her, he is now merely her cultivation tool.

After all, improving strength is never wrong, as for how Lu Chen will treat her and play with her after recovering his past life memories and strength, that's something for the future.

As soon as they returned to the sleeping palace, Yun Yudie utilized her immortal power, and the next moment, Lu Chen's clothes shattered into ice crystals.

Before Lu Chen could react, Yun Yudie immediately pushed him onto the soft couch and pressed down on him, kissing him.

Lu Chen was taken aback, wondering what was going on with Yun Yudie, suddenly becoming so proactive?

At this moment, Yun Yudie felt the immortal power inside her boiling, and she didn't know why, but thinking about Lu Chen possibly being a reincarnated great power, and now this great power could only be squeezed by her, she couldn't help but get excited.

Yun Yudie couldn't help but think, what God Master? He's still her cultivation tool now.

Following this, Lu Chen experienced how proactive a woman can be when she is truly moved.

Although Yun Yudie maintained a cold beauty demeanor throughout, the flush on her face was enough to prove how passionate her heart was.

...

Mysterious Moon Palace, Yun Meng Hall.

The Yun Meng Hall floated amid a sea of clouds, with countless colorful glazed tiles covering the hall's roof. When the sunlight slanted, it emitted seven-colored rays, stunningly beautiful.

At this moment, in the grand hall, Star River Immortal Venerate sat at the right side position of the hall. Yun Meng Immortal Venerable was quite surprised at the arrival of Star River Immortal Venerate.

After all, Star River Immortal Venerate is the leader of an overlord-level power and wouldn't leave his own power for anything but something particularly important.

Yun Meng Immortal Venerable asked, "I wonder what brings Star River Hall Master to the Mysterious Moon Palace this time?"

Star River Immortal Venerate glanced at the other Immortal Venerates in the hall, then said to Yun Meng Immortal Venerable, "This time, I'm here for two reasons. First, to thank the Mysterious Moon Palace for imparting the Divine Light Thousand Lamp Scripture, a precious immortal law, to our Heavenly Splendor Hall's Immortal Venerate, allowing us to have means to restrain the Heavenly Demon Power."

Saying this, Star River Immortal Venerate took out a jade scroll inscribed with a Heavenly Rank Immortal Technique, which floated into the air of the hall.

"This is a Heavenly Rank Immortal Technique, as a gift from our Heavenly Splendor Hall in return."

Yun Meng Immortal Venerable said, "Star River Hall Master is too polite. The Demon Emperor is the common enemy of all Tianyan Immortal Domain powers, and imparting the Divine Light Thousand Lamp Scripture to you was something we should do."

"I wonder if Star River Hall Master has anything else apart from this matter?"

Speaking, Yun Meng Immortal Venerable raised a hand, and the hall's jade scroll was received by her. Since it's a return gift, there's no reason not to accept it.

Seeing Yun Meng Immortal Venerable accept the jade scroll, Star River Immortal Venerate then said, "Could I ask everyone present to leave for a while? The matter I need to discuss with Yun Meng Hall Master requires privacy."

Upon hearing this, Yun Meng Immortal Venerable looked over Star River Immortal Venerate. She didn't think Star River Immortal Venerate would come to Yun Meng Hall to cause trouble, it must be something truly important.

Thinking of this, Yun Meng Immortal Venerable told the other Immortal Venerates, "You may leave now."

As soon as the words fell, the Immortal Venerates present all left.

Once those Immortal Venerates departed, Yun Meng Immortal Venerable arranged a formation to isolate any probing.
