

# Chapter 1881 - Capítulo 1881: 1571: Besides Lu Chen, Is There Any Other Immortal King With Such Power?

## Capítulo 1881: Chapter 1571: Besides Lu Chen, Is There Any Other Immortal King With Such Power?

“If there is anything now, Hall Master Star River, please speak directly.”

Immortal Venerate Star River, after Immortal Venerate Yun Meng set up the isolation array, directly asked, “The Divine Light Thousand Lamp Scripture should be an Immortal Law Lu Chen brought out of the Chaotic Sea, right?”

Upon hearing Immortal Venerate Star River mention Lu Chen, Immortal Venerate Yun Meng immediately furrowed her brows. At this moment, she thought that Immortal Venerate Star River came for Lu Chen.

It should be said he came for the opportunities that might exist on Lu Chen’s body.

After all, Immortal Venerate Star River is a Hall Master. Without sufficient temptation, he wouldn’t personally make a trip. Could it be that even Immortal

Venerate Star River believes there might be an opportunity on Lu Chen that could help him ascend to Emperor?

Immortal Venerate Yun Meng then said coldly, “What do you mean, Hall Master Star River? The Divine Light Thousand Lamp Scripture is an Immortal Law given by our ancestor, how did it become an Immortal Law brought out by Lu Chen from the Chaotic Sea?”

Seeing that Immortal Venerate Yun Meng did not admit it, Immortal Venerate Star River chuckled, “Palace Master Yunmeng, let’s not speak in riddles. I’ve heard that on the battlefield of the Northern Domain, your Mysterious Moon Palace appeared someone who severely injured an Immortal Venerate Level Heavenly Demon with just the strength of an Immortal King.”

“I really can’t think of anyone else but Lu Chen, this Immortal King, who could have such strength?”

The scene where Lu Chen severely injured the Immortal Venerate Level Heavenly Demon was witnessed by the Immortals of the Immortal Domain Alliance Army, it couldn’t be hidden.

Immortal Venerate Yun Meng was about to say something when Immortal Venerate Star River continued, “Palace Master Yunmeng, rest assured, I did not come to demand Lu Chen from you today. Although I also covet the opportunities on him, now is not the time to discuss this.”

Immortal Venerate Yun Meng was slightly stunned. She thought Immortal Venerate Star River intended to use Lu Chen to threaten her; if she didn't share Lu Chen's opportunities, he would expose Lu Chen's whereabouts at Mysterious Moon Palace.

If Immortal Venerate Star River didn't come for this reason, then what did he personally come to Mysterious Moon Palace for?

Immortal Venerate Yun Meng then inquired, "May I know the real purpose of Hall Master Star River's visit?"

Immortal Venerate Star River retorted, "Last time, when an anomaly appeared in Tianyan Immortal Domain, Palace Master Yunmeng, you must have felt that mysterious power in the sky, right?"

Immortal Venerate Yun Meng replied, "That's natural."

Immortal Venerate Star River asked, "What do you think of that power, Palace Master Yunmeng?"

Immortal Venerate Yun Meng said, "It should be a world-ending power, a harbinger of impending disaster."

Immortal Venerate Star River then said, “What if I told you that I sensed the aura of that power on someone, I wonder what Palace Master Yunmeng’s opinion would be?”

Upon hearing this, Immortal Venerate Yun Meng’s brows immediately furrowed; she was clearly aware of some ancient history.

Immortal Venerate Yun Meng then asked, “Hall Master Star River isn’t joking with me, right?”

Immortal Venerate Star River said, “Do you think I would come all the way to the Central Domain just to joke with you?”

At this point, Immortal Venerate Star River continued, “Lu Chen may have the opportunity to ascend to Immortal Emperor, but for me, it doesn’t matter who becomes the Immortal Emperor now, as long as the Heavenly Dao can be repaired and lead the Tianyan Immortal Domain to withstand the impending disaster.”

Hearing these words from Immortal Venerate Star River, Immortal Venerate Yun Meng felt he probably wasn’t lying, thus she asked, “May I know who Hall Master Star River sensed that mysterious aura on?”

Immortal Venerate Star River answered, “An Elder of my hall.”

Immortal Venerate Yun Meng was taken aback.

The Elders of the Heavenly Splendor Hall were controlled by that mysterious power?

They are Immortal Venerates, and that mysterious power can control Immortal Venerates, which indirectly indicates that the mysterious power might have already controlled many immortals in the Tianyan Immortal Domain, it's just that they haven't realized it yet.

If even Immortal Venerates can be controlled, how can immortals weaker than Immortal Venerates withstand the corrosive invasion of that mysterious power?

Immortal Venerate Yun Meng immediately realized the severity of the issue. Now she truly understood why Immortal Venerate Star River would personally make the trip, and even said it doesn't matter who becomes the Immortal Emperor now.

The Tianyan Immortal Domain is now facing two major crises: one is the crisis of the cultivation path being eroded, and the other is this mysterious power secretly invading.

These two crises are likely not independent events, perhaps marking the beginning of impending disaster. Under such circumstances, even a fool knows that it is impossible to resist the coming catastrophe relying solely on the strength

of one Immortal Sect. Therefore, Star River Immortal Venerate giving up the fight for opportunities is very sensible at this time.

At this point, continuing to fight for opportunities may only lead to destruction for the entire Tianyan Immortal Domain.

After a brief silence, Immortal Venerate Yun Meng then asked, “When did Hall Master Star River notice that mysterious power on him?”

Immortal Venerate Star River answered, “After he returned from the Sunset Mountain Range.”

Hearing the words “Sunset Mountain Range,” Immortal Venerate Yun Meng’s expression became more solemn, “Some terrifying existences are sealed within the deadlands of the Sunset Mountain Range, it seems the seal has loosened. The mysterious power on that Immortal Venerate likely comes from some deadland.”

Having said this, the two fell into prolonged silence; although Immortal Venerate Star River did not know much about what was sealed in the Sunset Mountain Range, he was aware that the deadlands within were very dangerous.

The reason the Barbaric realm interacts less with other realms is because of the many deadlands within the Sunset Mountain Range, which even Immortal Venerates dared not easily step into.

In the past, there was an Immortal Venerate who did not believe in evil and went to explore those deadlands, thinking there might be opportunities within those deadlands. However, after those Immortal Venerates entered the deadlands of the Sunset Mountain Range, they never came out again. Gradually, people didn't even dare to go to the Sunset Mountain Range anymore, which also led to less interaction between the Barbaric realm and other realms.

After an unknown period of silence, Immortal Venerate Yun Meng finally asked, "Does that Immortal Venerate still retain consciousness?"

Immortal Venerate Star River answered, "Yes, furthermore, he seems very concerned about the Divine Light Thousand Lamp Scripture, repeatedly advising me to capture Lu Chen to prevent his opportunities from falling into the hands of others. After knowing Lu Chen might be in Mysterious Moon Palace, he even wanted me to start a war with Mysterious Moon Palace. I suspect this Immortal Law might have a restraining effect on the mysterious power on him."

"Or perhaps, there is something else on Lu Chen that makes him fearful."

"This is also the reason why I personally came to Mysterious Moon Palace."

Immortal Venerate Yun Meng asked, "Do you intend to find out what he fears about Lu Chen?"

Immortal Venerate Star River said, “Yes.”

Having thought for a moment, Immortal Venerate Yun Meng ultimately chose to trust the words of Immortal Venerate Star River, she directly stated, “Lu Chen is not at Mysterious Moon Palace.”

Immortal Venerate Star River furrowed his brow slightly; he had gotten to this point, and Immortal Venerate Yun Meng still did not trust him?

Just as Immortal Venerate Star River thought Yunmeng Venerate was still trying to hide Lu Chen, she spoke again, “Lu Chen’s main body is somewhere I don’t know, but he has a clone in Mysterious Moon Palace. I can let him come over, and you can tell him about this, whether he decides to share the opportunities he acquired in the Chaotic Sea with you is his decision.”

## **Having children earns benefit, start competing for dominance in the world by marrying a wife**

After Immortal Venerable Yun Meng finished speaking, she transmitted a message to Immortal Venerable Heavenly Language, "Junior Sister, have Lu Chen come to Yun Meng Hall."

Upon hearing the transmission from Immortal Venerable Yun Meng, Immortal Venerable Heavenly Language was slightly displeased. Immortal Venerable Yun Meng had known Lu Chen's identity earlier than she did, yet she never told her, always putting on a pretense of transmitting a message to her first whenever she sought Lu Chen, making it seem as if she truly was Lu Chen's Honored Master.

She could find Lu Chen anyway, why even bother to tell her?

Anyway, Lu Chen as a Direct Disciple was just nominal to her; she never taught Lu Chen anything.

Immortal Venerable Heavenly Language then transmitted a message, "If the Palace Master wants to find him, just speak with him directly."

At this point, Immortal Venerable Heavenly Language transmitted a message to Lu Chen, "The Palace Master is looking for you."

Just upon hearing Immortal Venerable Heavenly Language's transmission, Lu Chen had not yet reacted when darkness fell over his eyes, and his body was pulled into a Space Rift by a force.

When light reappeared before Lu Chen's eyes, he was already in Yun Meng Hall.

Seeing another unknown Immortal Venerate besides Immortal Venerable Yun Meng in the great hall, Lu Chen was a bit curious about what Immortal Venerable Yun Meng was looking for him today.

Lu Chen feigned respect and said, "Greetings to the Palace Master."

"May I ask the reason the Palace Master has summoned this disciple?"

Immortal Venerable Yun Meng did not answer Lu Chen's question; she directly condensed the memory of her conversation with Star River Immortal Venerate into a Memory Pearl and, with a flick of her finger, sent that Memory Pearl onto Lu Chen's forehead.

Once the Memory Pearl entered Lu Chen's forehead, he immediately understood the cause and effect. However, at this moment, he was even more confused; he didn't expect the man sitting inconspicuously in the great hall to be Star River Hall's Hall Master, Star River Immortal Venerate.

The Heavenly Splendor Hall was considered his nemesis, yet now the Hall Master of the Heavenly Splendor Hall had come personally, and Immortal Venerable Yun Meng was even handing him over.

But it was understandable. If the content of the memory he just saw was true, if disaster truly was looming over Tianyan Immortal Domain, then Star River Immortal Venerate might indeed lower his face to seek him personally.

Immortal Venerable Yun Meng at this moment asked, "You have spent billions of years in the Chaotic Sea, surely you've come across quite a few opportunities. We will not ask about your opportunities, but I want to know if any of your opportunities are related to that Mysterious Power?"

"You should have seen the Anomaly that appeared last time in Tianyan Immortal Domain, and likely sensed the aura of that Mysterious Power."

Having read the memory of Immortal Venerable Yun Meng and Star River Immortal Venerate's conversation, Lu Chen knew they were trying to find a way to restrain that Mysterious Power.

To be honest, Lu Chen also first sensed that Mysterious Power when he was in the Northern Domain last time. As for whether the Divine Light Thousand Lamp Scripture had any effect on that Mysterious Power, he himself was not sure, as he hadn't tried.

Besides the Divine Light Thousand Lamp Scripture and a few other Cultivation Techniques to restrain Heavenly Demon Power, he had no other means to counteract evil forces.

As for the low-grade artifact he previously obtained from the system capable of restraining evil forces, it was only effective inside the Chaos Beast's belly; outside of it, that low-grade artifact became ineffective.

Seeing Lu Chen remain silent, Star River Immortal Venerate actively spoke, "Chen King, there were misunderstandings between the Heavenly Splendor Hall and you. Back then, it was Wuya Immortal Venerable who insisted on putting you to death. I was in closed retreat and unaware of these matters. Had I known of the presence of a prodigy like you, I would have done everything possible to recruit you into the Heavenly Splendor Hall and certainly would not have sent people to hunt you down."

"Currently, it's Wuya Immortal Venerable who is the one being corroded by the Mysterious Power, so if you have a way to counteract the Mysterious Power, do let us know. Once we join forces to eliminate him, it would also count as avenging you."

"The grievances between you and the Heavenly Splendor Hall will thus be settled, and henceforth, the Heavenly Splendor Hall will not trouble you again. What do you say?"

Upon hearing Star River Immortal Venerate's words, Lu Chen internally scoffed. Star River Immortal Venerate indeed played the game well, although it was true that the one who acted against him was Wuya Immortal Venerable, but he didn't believe that Star River Immortal Venerate, as Hall Master, had no knowledge of it.

Star River Immortal Venerate now said these words merely to see if he had a method to deal with the Mysterious Power.

The grievances between him and the Heavenly Splendor Hall would naturally not be resolved so easily; however, if the Mysterious Power was truly a harbinger of disaster, being a resident of Tianyan Immortal Domain, he would do his utmost to contribute.

Unfortunately, at present, he indeed did not have any known methods to combat that Mysterious Power.

Lu Chen then said, "Well then, many thanks to Star River Hall Master."

One doesn't hit the smiling face; Lu Chen still had to show a little courtesy.

Lu Chen continued, "However, the greatest opportunity I obtained in the Chaotic Sea was perhaps this Divine Light Thousand Lamp Scripture."

Upon hearing this, Immortal Venerable Yun Meng and Star River Immortal Venerate both wore more serious expressions, clearly not believing Lu Chen's words.

The Chaotic Sea was boundless; Lu Chen spent billions of years there, how could it be that he only obtained this single Heavenly Rank Immortal Technique?

Having never entered the Chaotic Sea themselves, they were filled with various fantasies about it. Coupled with the fact that an Immortal Emperor went into the Chaotic Sea and never emerged, not only Immortal Venerable Yun Meng and Star River Immortal Venerate but most Immortals in Tianyan Immortal Domain believed that the Chaotic Sea was filled with various opportunities.

Even if at first there were no opportunities in the Chaotic Sea, the relics left by an Immortal Emperor would still count as opportunities.

Knowing that the two didn't believe him, Lu Chen actively condensed the memories related to the Chaos Beast into two Memory Pearls, then used immortal power to maneuver the Memory Pearls to the front of Star River Immortal Venerate and Immortal Venerable Yun Meng.

"These are some memories of this junior in the Chaotic Sea. If you don't believe me, you may read these memories."

In the Memory Pearls, Lu Chen had naturally cleared away all traces related to the system, replacing it with a strand of Divine Thought guiding him to grow stronger.

Star River Immortal Venerate and Immortal Venerable Yun Meng, with doubtful expressions, activated the Memory Pearls from Lu Chen, and upon reading his memories within the Chaos Beast's belly, both were stunned.

Were there truly creatures in the Chaotic Sea capable of resisting the erosion of Chaos Qi?

After the initial shock, their emotions became complex. From Lu Chen's memories, it seemed he spent billions of years inside the Chaos Beast; his ability to leave its belly wasn't due to an opportunity but relied on the Demon Emperor's power.

The appearance of the Demon Emperor in Lu Chen's Memory Pearls also left them greatly surprised, no wonder that Lu Chen's return time was similar to the Demon Emperor's return to Tianyan Immortal Domain.

After a long silence, Immortal Venerable Yun Meng said to Star River Immortal Venerate, "Maybe the Immortal Venerate eroded by the Mysterious Power is not wary of what Lu Chen possesses but simply wants to stir up battlefields, plunging Tianyan Immortal Domain into chaos."

Upon hearing Immortal Venerable Yun Meng's words, Star River Immortal Venerate's brows furrowed in confusion; he still felt something was amiss.

**Having children earns benefit, start competing for dominance in the world by marrying a wife**

When Wuya Immortal Venerable returned from the Barbaric lands, Star River Immortal Venerate immediately sensed the strange aura on him that instilled fear, believing that Wuya Immortal Venerable's power now far surpassed his own.

However, under such circumstances, Wuya Immortal Venerable did not return to the Barbaric lands to deal with Lu Chen; instead, he came back to have the Heavenly Splendor Hall attack the Mysterious Moon Palace, which proved he was wary of something.

From Wuya Immortal Venerable's series of reactions, it was evident he considered Lu Chen significant, indicating that the person he was wary of should be Lu Chen.

Of course, at most, Lu Chen was just an Immortal King; Wuya Immortal Venerable couldn't possibly be wary of an Immortal King, so the thing he feared might be something on Lu Chen.

If Lu Chen hadn't acquired any fortuity in the Chaotic Sea, what would make Wuya Immortal Venerable wary of him? One must know that billions of years ago, it was Wuya Immortal Venerable himself who forced Lu Chen into the Chaotic Sea.

Let's not mention that Wuya Immortal Venerable, stained with the Mysterious Power, had grown unfathomably stronger; even if he hadn't been tainted by the Mysterious Power, his strength shouldn't fear Lu Chen.

At this moment, Lu Chen said, "The Divine Light Thousand Lamp Scripture can restrain evil powers, perhaps even the Mysterious Power, which is why Wuya Immortal Venerable wants to kill me."

Star River Immortal Venerate murmured to himself, "Is it really just because of this Immortal Law..."

At this point, Immortal Venerable Yun Meng asked, "What is the Star River Hall Master's next plan?"

"If the Star River Hall Master wants to eliminate that Immortal Venerate tainted by the Mysterious Power, our Mysterious Moon Palace is willing to lend assistance."

If indeed Wuya Immortal Venerable has been corroded by the Mysterious Power, then this matter must be dealt with, otherwise, with more and more Immortals being tainted by this power, before disaster even strikes, the Tianyan Immortal Domain might turn into a living hell.

Star River Immortal Venerate thought for a moment before saying, "This matter requires further deliberation."

Star River Immortal Venerate remained apprehensive towards the strange aura on Wuya Immortal Venerable. If they were able to resolve Wuya Immortal Venerable together, all would be well. But if they failed to kill Wuya Immortal Venerable, creating another Demon Emperor, the Southern Domain might fall to Wuya Immortal Venerable.

After all, the Demon Emperor was someone from Tianyan Immortal Domain, a familiar existence, whereas the Mysterious Power on Wuya Immortal Venerable is a force they never encountered before, and the more mysterious and unknown it is, the more fearsome it becomes.

Compared to the Demon Emperor, Star River Immortal Venerate feared the Mysterious Power on Wuya Immortal Venerable even more.

Immortal Venerable Yun Meng glanced at Lu Chen in the grand hall, "Didn't the Star River Hall Master say he was very concerned about Lu Chen? Then let Lu Chen be the bait."

Upon hearing Yun Meng Immortal Venerable's words, Lu Chen was a bit confused. What did this have to do with him, that he should be the bait? Though he desired vengeance, his vengeance was aimed at the entire Heavenly Splendor Hall, not merely Wuya Immortal Venerable.

Wuya Immortal Venerable's issues pertained to the Heavenly Splendor Hall's internal affairs, and he had no intention of getting involved.

Immortal Venerable Yun Meng seemed to discern Lu Chen's internal thoughts, and before he could speak, she said again, "The strange power from that person must not spread, as no one knows the harm that force could cause. If it spreads, it might bring disaster to the Tianyan Immortal Domain."

Lu Chen said nothing, as he realized Yun Meng Immortal Venerable was reminding him that this concerned the whole Tianyan Immortal Domain.

Although it was moral coercion, Lu Chen thought about it for a moment and admitted Yun Meng Immortal Venerable had a point.

At that time, in the Northern Domain, when he sensed that Mysterious Power in the sky, he felt inexplicably uneasy.

That power was enough to make someone who might have been a Great Power in a past life feel uneasy, highlighting the significant threat of this Mysterious Power.

Besides, Wuya Immortal Venerable was originally his enemy.

If he could leverage the hands of the Heavenly Splendor Hall and Mysterious Moon Palace to remove this foe, he might consider it.

As for the grievances with the Heavenly Splendor Hall, once he broke through to the Immortal Venerate or restored his cultivation path to normal, he could deal with it then.

Thinking of this, Lu Chen put on a righteous demeanor and said, "This junior is willing to contribute a part for all living beings!"

Upon hearing Lu Chen's willingness to act as bait, a glimmer of light flashed in Star River Immortal Venerate's eyes. If Wuya Immortal Venerable really cared about Lu Chen, then letting Lu Chen be the bait might successfully lure Wuya Immortal Venerable into their pre-set trap.

With this thought, Star River Immortal Venerate smiled and said, "Since the Chen King has such awareness, I cannot let down your good intentions, but where should we lure Wuya Immortal Venerable?"

Immortal Venerable Level battles are tremendously destructive, and the Northern Domain is a prime example. Nearly half of its continent has been devastated, with recovery still needed.

Given the current strength of Wuya Immortal Venerable, likely comparable to the Demon Emperor, if a battle breaks out in the Southern Domain, it could share the Northern Domain's fate, impacting countless people.

Upon Star River Immortal Venerate finishing his speech, Immortal Venerable Yun Meng spoke, "The Barbaric lands."

Hearing Yun Meng Immortal Venerable's suggestion, Star River Immortal Venerate thought for a moment then said, "The Barbaric lands indeed would be a suitable location."

The Barbaric lands are vast and sparsely populated, so even if devastation occurs, they would feel no heartache.

Star River Immortal Venerate continued, "Since that's the case, let it be decided."

Immortal Venerable Yun Meng remarked, "Given the seriousness of this matter, I still need to consult with our ancestor; as for specific actions, we will reconvene in three days. In the meantime, please trouble the Star River Hall Master to stay a few more days at the Mysterious Moon Palace."

Star River Immortal Venerate replied, "Alright, I shall impose then."

Subsequently, Immortal Venerable Yun Meng summoned an Elder to escort Star River Immortal Venerate to reside in the Immortal City beneath the Mysterious Moon Palace.

Though Star River Immortal Venerate was a guest, given that he's the Hall Master of an Overlord Level power, Immortal Venerable Yun Meng couldn't let him remain within the Mysterious Moon Palace. If any of the palace's secrets were revealed, it would be detrimental.

However, the Immortal City under the control of the Mysterious Moon Palace is considered a part of it, and Star River Immortal Venerate, being a leader of an Overlord Level force, naturally understood.

After Star River Immortal Venerate departed the Yun Meng Hall, only Lu Chen and Immortal Venerable Yun Meng remained in the grand hall. At this moment, Lu Chen proactively asked, "Aren't you afraid that the Star River Immortal Venerate might be lying?"

With a calm demeanor, Immortal Venerable Yun Meng inquired, "Are you suggesting the Heavenly Splendor Hall intends to strike against the Mysterious Moon Palace?"

Lu Chen replied, "It's possible that the Heavenly Splendor Hall has been entirely consumed by the Mysterious Power now, and that Star River Immortal Venerate deliberately leaked information about the Mysterious Power to target the Mysterious Moon Palace?"

Immortal Venerable Yun Meng responded, "There's no aura of the Mysterious Power on Star River Immortal Venerate, so he's currently credible. However, your concerns are valid, and I will report to the ancestor before deciding."

"Moreover..."

At this point, Immortal Venerable Yun Meng's gaze fell upon Lu Chen as she continued, "It seems your Memory Pearl was missing quite a bit of memory earlier?"

Lu Chen claimed that the Divine Light Thousand Lamp Scripture was obtained in the Chaotic Sea, yet there wasn't any memory of obtaining this Immortal Law in his Memory Pearl, clearly indicating Lu Chen had hidden many memories.

## **Having children earns benefit, start competing for dominance in the world by marrying a wife**

**Capítulo 1884: Chapter 1574: Disaster Is a Blessing for This Emperor**

Upon hearing Immortal Venerate Yun Meng's question, Lu Chen's expression did not change in the slightest. From the beginning, he had guessed that Immortal Venerate Yun Meng would likely inquire about the origin of the Divine Light Thousand Lamp Scripture.

After all, the Divine Light Thousand Lamp Scripture is a Heaven Rank Immortal Technique. Although each Great Immortal Sect has its own Heaven Rank Immortal Techniques, and possibly even Saint-level Immortal Techniques, the Divine Light Thousand Lamp Scripture is the only known technique capable of restraining the Heavenly Demon Power. This makes it even rarer than Saint-level Immortal Techniques.

At this moment, Lu Chen said, “The memories I removed are related to my wives and concubines. Does the Palace Master intend to spy on my daily life with them?”

Immortal Venerate Yun Meng’s eyebrows slightly furrowed, then she said, “Then from where did you obtain the Divine Light Thousand Lamp Scripture?”

Lu Chen replied, “It was given to me by the Demon Emperor.”

Upon hearing Lu Chen’s absurd response, Immortal Venerate Yun Meng’s expression instantly became extremely serious. She then looked coldly at Lu Chen and asked, “Are you saying that the Demon Emperor gave you an Immortal Technique that restrains her own power?”

Lu Chen said, “I understand that it might be difficult for the Palace Master to believe, but this Immortal Technique was indeed given to me by the Demon Emperor when she left the Chaotic Sea. It was also thanks to the Demon Emperor that I could return to the Tianyan Immortal Domain.”

“The Palace Master might consider, apart from the Demon Emperor herself, who else could have created an Immortal Technique that restrains Heavenly Demon Power?”

Immortal Venerate Yun Meng said, “Oh? In that case, are you a spy the Demon Emperor planted in the Mysterious Moon Palace?”

Lu Chen said, “Does the Palace Master believe that with the Demon Emperor’s power, she would need to plant spies in other Immortal Sects?”

Immortal Venerate Yun Meng replied with indifference, “Not necessarily.”

If it were an ordinary Immortal Sect, there would indeed be no need to plant spies. However, Mysterious Moon Palace is not just any sect, especially considering they have an Immortal Emperor Ancestor awaiting a second life.

Who knows if the Demon Emperor sent Lu Chen to probe the situation of Immortal Emperor Youlan?

Thinking of this possibility made Immortal Venerate Yun Meng even more vigilant. She suddenly felt a bit fortunate that Xu Jingshu’s child had not yet been born. Who knows if the Demon Emperor knows about Immortal Emperor Youlan’s situation and left some restriction within the unborn child’s body?

If Immortal Emperor Youlan were to encounter such a restriction during the Reincarnation, resulting in some unforeseen problem...

At this point, Immortal Venerate Yun Meng dared not think further...

No, Xu Jingshu's child cannot be used as the Reincarnation body for Immortal Emperor Youlan!

Seeing Immortal Venerate Yun Meng's cautious demeanor, Lu Chen knew his words had had an effect.

Lu Chen was not worried at all about being regarded by Immortal Venerate Yun Meng as a spy sent by Xuan Qingyun. After all, this body of his was merely a clone.

Furthermore, Immortal Venerate Yun Meng's profile states that she considers herself a key figure in resisting future disasters. For this reason, even if Immortal Venerate Yun Meng knew of his connection to Xuan Qingyun, she would refrain from acting against her.

As for whether Immortal Venerate Yun Meng would seek out the Demon Emperor to verify the origin of the Divine Light Thousand Lamp Scripture, there was hardly a need to worry. Xuan Qingyun is considered an enemy by Immortal Venerate Yun Meng, so how could she possibly go to him for confirmation?

At this moment, Immortal Venerate Yun Meng found herself somewhat afflicted with a headache. She had never expected Lu Chen to be such a troublesome matter.

Subsequently, Immortal Venerate Yun Meng said to Lu Chen, “You should go back. Once I and Star River Immortal Venerate have formulated a plan, I will send a message to you.”

With those words, Immortal Venerate Yun Meng waved her hand, and Lu Chen was directly sent back to Heavenly Language Peak by a force.

After Lu Chen left, Immortal Venerate Yun Meng hesitated not at all and headed directly to the depths of the Mysterious Moon Palace.

In the deepest part of the Mysterious Moon Palace, there was a massive Underground Palace, among which slopes and plains of indigo orchids adorned the rock walls and ground. Tiny glimmers of fluorescence oozed from their petal tips, dyeing the dim space into a flowing Star River.

In the center of the Underground Palace lay a Crystal Coffin, on whose surface orchid shadows danced, as if there were Yuehua circulating within.

Within the Crystal Coffin lay a fairy of breathtaking beauty, her black hair cascading like a waterfall spread out over white silk, with a few strands tenderly

resting near her cheeks, trembling slightly with the barely perceptible air currents within the coffin.

Her brows were like distant mountains that carried a hint of black pigment, and her long lashes were like butterfly wings that seemed as if they might tremble open at any moment.

The bridge of her nose was elegantly straight like jade, and her lips were a faint pink untouched by cinnabar, with a subtle, enigmatic curve at the corners.

She wore an emperor's robe with silver patterns of dark embroidery, the hem embroidered with patterns matching the color of the orchids in the tomb. The robe's corner shimmered with tiny glows in the faint light within the coffin. Her skin was lustrously white, almost transparent—but not in the lifeless sense of pallor. Instead, it exuded a lustrous warmth reminiscent of jade stone.

The dew droplets that formed on the Crystal Coffin's walls mirrored her visage and the surrounding orchid shadows, making the entire scene look dreamy and surreal.

Upon entering the Underground Palace, Immortal Venerate Yun Meng immediately bowed to the Crystal Coffin in the center, "Disciple pays respect to Honored Master!"

Following Immortal Venerate Yun Meng's words, there was no response from the woman in the Crystal Coffin.

After some moments, a mass of seven-colored immortal power gathered above the Crystal Coffin, forming two words.

“What is it?”

Seeing the two words floating in the air, Immortal Venerate Yun Meng did not hesitate at all and immediately condensed her recent memories from the Mysterious Moon Palace into a Memory Pearl, sending it above the Crystal Coffin.

The next moment, a seven-colored immortal power activated the Memory Pearl in the air.

Soon, several words gathered above the Crystal Coffin again.

“Do not involve yourself in this matter.”

Seeing these words, Immortal Venerate Yun Meng was momentarily taken aback.

The last time there was an anomaly in the Tianyan Immortal Domain, that mysterious power had terrified even her. If it indeed spread, the entire Tianyan Immortal Domain could be consumed by it, with effects unknown. Yet surprisingly, Immortal Emperor Youlan told her not to intervene.

It seemed Immortal Emperor Youlan sensed Immortal Venerate Yun Meng's thoughts. The next moment, the words gathered again above the Crystal Coffin.

“Disasters are beneficial to this Emperor.”

Reading these words, Immortal Venerate Yun Meng felt even more bewildered. How could disasters become a good thing?

Despite her intense curiosity, Immortal Emperor Youlan did not provide any further explanation.

Likewise, Immortal Venerate Yun Meng did not ask more, understanding that it likely pertained to some of Immortal Emperor Youlan's secrets.

Striving to quell her inner shock, she then asked, “Lu Chen seems to be sent by the Demon Emperor, and it's very likely that Xu Jingshu is also connected to the Demon Emperor. Disciple worries that the Demon Emperor has left some restrictions on Xu Jingshu. Should Disciple find a new Reincarnation body for Honored Master?”

In the next instant, a series of words floated again on the crystal surface.

“This Emperor already has a way to live a second life without needing a Reincarnation body. However, females with the right qualifications are of great use to this Emperor; bring them all to the Mysterious Moon Palace.”

Reading these words, Immortal Venerate Yun Meng became even more astonished. Her master no longer needed a Reincarnation body?

Suppressing her inner shock and curiosity, Immortal Venerate Yun Meng responded, “Disciple obeys.”

“If Honored Master has no other instructions, Disciple will take her leave.”

After speaking, Immortal Venerate Yun Meng waited for a moment on the spot. Seeing no additional words appear above the Crystal Coffin, she turned and left the Underground Palace.

**Having children earns benefit, start competing for dominance in the world by marrying a wife**

After Immortal Venerable Yun Meng left the Underground Palace, she couldn't calm her heart for a long time, as she had vaguely realized something.

The disaster might bring an apocalyptic catastrophe to this world, however, her Honored Master said the disaster is a good thing for her, and most importantly, she also said she already has a way to live a second life.

Although Immortal Venerable Yun Meng is not an Immortal Emperor, she knows some evil methods of life extension through ancient heritage. If the disaster is good for her Honored Master, does it mean her Honored Master plans to use the lives of all beings to extend her own life and live a second life?

But hasn't her Honored Master already developed the Possession Technique? Why would she still need to use those forbidden techniques?

If her Honored Master really uses forbidden techniques, wouldn't her Honored Master be the same as those sealed in the desperate situation of the Sunset Mountain Range?

Thinking of this, Immortal Venerable Yun Meng's emotions became incredibly complex.

Although she didn't quite agree with what Immortal Emperor Youlan might do next, Immortal Emperor Youlan is her Honored Master and the ancestor of the Mysterious Moon Palace.

Immortal Emperor Youlan is the sky of the entire Mysterious Moon Palace; whatever she says, it is so. No one in the Mysterious Moon Palace can defy Immortal Emperor Youlan, even if Immortal Emperor Youlan were to pit the Mysterious Moon Palace against the entire Tianyan Immortal Domain, the Mysterious Moon Palace must comply.

After calming her inner emotions, Immortal Venerable Yun Meng went directly to the Immortal City where Star River Immortal Venerate resided.

At that time, Star River Immortal Venerate was cultivating above the Immortal Pool in the courtyard. After sensing the presence of an Immortal Venerate aura in the sky, Star River Immortal Venerate opened his eyes.

Seeing it was Immortal Venerable Yun Meng, Star River Immortal Venerate was a little surprised. Wasn't it said the discussion would be three days later? Why did Immortal Venerable Yun Meng already come to see him just after he had left?

Star River Immortal Venerate suddenly had a bad premonition.

The next moment, indeed in line with his premonition, Immortal Venerable Yun Meng said with a heavy expression, "Star River Hall Master, I am truly sorry, our Mysterious Moon Palace cannot help with your Heavenly Splendor Hall matter."

Hearing Immortal Venerable Yun Meng's words, Star River Immortal Venerate was first stunned, and then his face turned somber, "Is this your ancestor's will?"

Immortal Venerable Yun Meng did not deny it, "Yes."

Star River Immortal Venerate was silent for a moment. In his view, the ancestor of the Mysterious Moon Palace must know something; that's why she doesn't dare let the Mysterious Moon Palace oppose those tainted by the Mysterious Power.

Star River Immortal Venerate then asked, "Do you know if your ancestor knows something? Could you tell me a bit?"

Immortal Venerable Yun Meng naturally wouldn't say that their ancestor anticipates the coming of the disaster. She opened her mouth and said, "She didn't tell me about the Mysterious Power, only instructed me not to interfere."

Seeing that Immortal Venerable Yun Meng didn't appear to be lying, Star River Immortal Venerate did not continue to question further; however, he suddenly thought of something, and then asked, "Could Lu Chen assist us?"

Now Lu Chen is nominally a member of the Mysterious Moon Palace. Although Lu Chen initially agreed, if the Mysterious Moon Palace doesn't agree, I'm afraid Lu Chen would not agree to serve as bait either.

Immortal Venerable Yun Meng thought for a moment, then said, "Lu Chen's Main Body hasn't joined the Mysterious Moon Palace; the Mysterious Moon Palace cannot constrain Lu Chen."

"Understood, in this case, I bid you farewell."

Although it's a pity that they couldn't find assistance from the Mysterious Moon Palace, the Tianyan Immortal Domain doesn't only have one power at Overlord Level like the Mysterious Moon Palace.

Besides the Mysterious Moon Palace, there are two other Overlord Level powers in the Eastern Domain, and additionally, the Azure Dragon Hall from the Northern Domain just went to the Barbaric, so he might as well look for help from the Azure Dragon Hall, and giving them some benefits later isn't impossible either.

With this thought, Star River Immortal Venerate's body transformed into a stream of light and directly left the Central Domain.

...

Daqin Immortal Dynasty, Lu Chen's Imperial Palace.

Wind Cloud Palace.

The hall was expansive and spacious, filled with swirling Immortal Aura. In the hall, there were more than a dozen Golden Dragon Pillars carved from Xianjin, making the entire hall look magnificent and imposing.

At this moment, in the center of the hall, Wan Xu Immortal Venerable was reporting some matters about the Barbaric to Lu Chen.

Although Lu Chen knew that Wan Xu Immortal Venerable must have been placed under restriction and couldn't directly tell him many things, regarding matters about the Barbaric, as long as they didn't involve too many secrets, he could still tell them.

Lu Chen was also standing in the hall and, after hearing Wan Xu Immortal Venerable's words, he furrowed his brows and said, "So, the Hidden Moon Sect truly exists? But for some unknown reason, it suddenly went into hiding?"

Wan Xu Immortal Venerable had just explained some of the power dynamics within the Barbaric to Lu Chen, allowing him to understand the situation of the Hidden Moon Sect.

With the Northern Domain Power moving south, Azure Dragon Hall is very likely to dominate the Barbaric. Lu Chen is eager to know whether the Hidden Moon Sect would be forced out during such times, so he inquired about it with Wan Xu Immortal Venerable.

Wan Xu Immortal Venerable answered, "Yes, it seems the Hidden Moon Sect discovered some secrets of the Tianyan Immortal Domain and vanished from Barbaric overnight. Only a few people know of the Hidden Moon Sect's existence."

Lu Chen walked a couple of steps in the hall, toward the hall entrance, looking out at the sky beyond the main hall, and fell into thought.

At this moment, he suddenly thought of something, and then tentatively asked, "Do you know what secret the Hidden Moon Sect discovered?"

Wan Xu Immortal Venerable replied, "This subordinate does not know."

Lu Chen said, "Is it that you don't know, or you can't say?"

Lu Chen knew there was a restrictive force limiting Wan Xu Immortal Venerable. He wanted to know the extent of this restrictive force on him, what exactly could be said and what could not be said.

Although he suspected that likely something in his past life's planning led to Wan Xu Immortal Venerable being unable to reveal too much to him now, thereby avoiding him taking action prematurely and disrupting his original plans.

But as long as one is human, there is a curiosity.

Lu Chen was now very curious about what his own identity was in his past life and what he was indeed scheming.

Wan Xu Immortal Venerable immediately understood Lu Chen's question and straightforwardly said, "God Master, this subordinate truly does not know."

Hearing Wan Xu Immortal Venerable's words, Lu Chen did not continue to press on the so-called secret and instead shifted the topic, saying, "Let's set aside the matter of the Hidden Moon Sect for now. What do you think about the Mysterious Power?"

"You should be quite familiar with those desperate situations within the Sunset Mountain Range."

Wan Xu Immortal Venerable promptly said, "God Master, this subordinate cannot speak."

Lu Chen said, "Then speak of what you dare to say."

This...

Wan Xu Immortal Venerable was momentarily unsure where to begin speaking.

Lu Chen asked, "Am I able to resist that power?"

Wan Xu Immortal Venerable answered, "Certainly."

Hearing Wan Xu Immortal Venerable's response, Lu Chen's worries were somewhat alleviated; as long as he could resist it, that was sufficient.

Lu Chen continued to ask, "After that Mysterious Power erodes one's mind, can the original person's consciousness be maintained?"

Wan Xu Immortal Venerable replied, "No."

Lu Chen furrowed his brow; so, it means Wuya Immortal Venerable, after returning from the Barbaric, has become someone else.

Lu Chen continued to inquire, "Do you have a method to restrain that Mysterious Power?"

Wan Xu Immortal Venerable answered, "I do not have one. Deep within my soul is sealed a trace of Divine Power, capable of resisting the erosion of the Mysterious Power, yet this Divine Power cannot restrain the Mysterious Power."

"Moreover, there's no need to restrain the Mysterious Power. The magic, Divine Skills we perform, or Immortal Artifacts, are all capable of harming Immortals who have been eroded by the Mysterious Power."

"The greatest hazard of that Mysterious Power is that it erodes an Immortal's body and mind, turning an Immortal into one of those sealed beings in the desperate situations."

**Having children earns benefit, start competing for dominance in the world by marrying a wife**

Upon hearing these answers from the Wan Xu Immortal Venerable, Lu Chen had a rough understanding of that mysterious power.

It seemed that this mysterious power was similar to Xuan Qingyun's Heavenly Demon Power, capable of eroding the Divine Soul of an Immortal and transforming them into other species akin to a Heavenly Demon.

Of course, there were certain differences between the mysterious power and the Heavenly Demon Power. Without the restraint of the Divine Light Thousand Lamp Scripture, the Heavenly Demon Power would suppress Immortal Aura, whereas the mysterious power likely wouldn't, meaning it didn't require special forces to restrain it.

As long as one's strength was formidable, an Immortal could kill those eroded by the mysterious power.

However, Lu Chen had an ominous premonition. If those eroded by the mysterious power were indeed so easy to kill, then why did the Sunset Mountain Range still harbor so many deadly areas?

Based on the known information he had deduced, there were likely two kinds of beings sealed within the Sunset Mountain Range: one being Innate Divine Spirits and the other being Immortals eroded by the mysterious power.

If what was sealed in the Sunset Mountain Range weren't Innate Divine Spirits but rather beings eroded by the mysterious power, it would imply that those before him couldn't completely eradicate them, only seal them away.

Lu Chen then thought of the Divine Light Thousand Lamp Scripture, immediately condensing the Immortal Law content of it into an Inheritance Memory Pearl, which he then presented to the Wan Xu Immortal Venerate.

"Take a look at this Immortal Law. Have you ever heard of it before? I want to know if this Immortal Law can restrain the mysterious power."

The Wan Xu Immortal Venerate instantly raised his hand, and a wisp of immortal power shot from his fingertip, entering the Inheritance Memory Pearl. The next moment, the Memory Pearl merged into the Wan Xu Immortal Venerate's forehead.

After reading the contents of the Divine Light Thousand Lamp Scripture, the Wan Xu Immortal Venerate replied: "God Master, I have never seen this Immortal Law before."

Hmm?

Never seen it?

How is that possible?

He always suspected that the system was merely his Divine Thought from his past life, so the rewards from the system should have been prepared in his previous life. Since it was something from his past life, someone like Wan Xu Immortal Venerate who had followed him in the past life should have some knowledge of it, yet the Wan Xu Immortal Venerate claimed he had never seen it.

Lu Chen sighed deeply; perhaps he was being too hasty.

He wanted to understand all the issues right now, but his strength wasn't sufficient, and understanding everything would not benefit him.

Moreover, if his strength hadn't reached a certain level, he couldn't absorb so much reincarnation memory.

During his transmutations inside the Chaos Beast's stomach, his strength wasn't enough to bear such a large number of memories. If he accepted all the reincarnation memories, he would also have to accept all subsequent causes and effects in an instant, and that Power of Cause and Effect could be so overwhelming that it might backfire on him, which would be no different from suicide.

The urgent task at hand was still to become stronger, but it was exceedingly difficult for Immortals to conceive, and his regular cultivation was too slow to enhance his Cultivation State.

Lu Chen sighed once more, then shifted his attention to the body beneath Yun Yudie.

At this moment.

Inside the Ice Palace.

Yun Yudie looked down at Lu Chen, her gaze icy cold and her expression indifferent.

"What do you mean by this?" Yun Yudie asked coldly.

Lu Chen responded with confusion, "What's wrong?"

Yun Yudie directly commanded, "Channel your energy!"

She was cultivating with Lu Chen to enhance strength, yet this bastard had become lazier, often slackening off and neglecting energy channeling, as if his mind wandered elsewhere.

If Lu Chen didn't channel his energy, they wouldn't truly be Dual Cultivating; it would merely be indulgence, something Yun Yudie couldn't accept.

Pure indulgence meant nothing to Yun Yudie; only cultivation could excite her.

Lu Chen realized he wasn't intentionally controlling the time for cultivation. It was just that the Spirit Charm Harmony Scripture, a Holy Tier Dual Cultivation Immortal Technique, took up most of his attention during practice.

The feeling brought by the Spirit Charm Harmony Scripture was overwhelmingly intense, making it difficult for him to control other bodies simultaneously. Currently, with various crises appearing in the Tianyan Immortal Domain, he needed to constantly monitor the situation there and couldn't focus all his attention on Dual Cultivating with Yun Yudie.

Hearing Yun Yudie's words, Lu Chen smiled slightly and said, "Alright, I'll channel my energy now."

He understood Yun Yudie's special constitution; under normal circumstances, indulgence held no interest for her. Only under the stimulation of Dual Cultivation Immortal Technique would she become emotionally stirred.

Subsequently, Lu Chen operated the Spirit Charm Harmony Scripture, and the next moment, around the two of them, various Powers of Dao began to circulate.

Just then, waves of green Dao Power surged into Yun Yudie's body. She immediately sensed this green Dao Power and quickly realized it was the Power of the Life Dao.

Following this, images of plants and animals reproducing appeared in her mind.

Yun Yudie slightly furrowed her brows; she had yet to fully comprehend the Slaughter Path, and could only use a small amount of Power of Slaughter. Ideally, she wished to comprehend the Slaughter Path instead.

But regarding cultivation, Lu Chen led the process, and she couldn't argue with that.

However, the Life Dao was not without benefits. If she comprehended the Life Dao, she could use the Life Force to swiftly heal any wounds in the future, and her longevity might surpass that of a regular Immortal Venerable.

Yun Yudie then seriously contemplated the Dao Laws of the Life Dao.

As Yun Yudie ventured further along the Life Dao, she suddenly noticed that her Qi Fortune was also becoming richer. Initially a positive development, it soon became apparent that something was amiss.

In the Tianyan Immortal Domain, the higher the Immortal's Realm, the harder it was to conceive, partly due to the limitations imposed by Heavenly Dao Laws and another reason being that an Immortal's body contained too much immortal power. While immortal power was beneficial, it was not so for the Life Seed.

Even though sugar water is sweet, if a person is thrown into an ocean made of it, they will eventually drown.

After observing some of the Life Force, Yun Yudie found her body was gradually modifying itself to suit the nurturing of life, with the previously rampant Ice Power being somewhat restrained.

Most of the immortal power in this world was harmful to the Life Seed, but the Life Force was not, as it inherently supported the existence of all life through its Dao strength.

In other words, the more abundant the Life Force within her, the easier it would be to fall prey to its effects.

Most importantly, the Heavenly Dao Laws limited high-Realm Immortals' ability to conceive. This law is embedded in the Life Dao, and when Yun Yudie gradually mastered it, she realized she seemed capable of bypassing this restriction.

However, even if she bypassed this limitation and conceived a child, its strength might not be significant, given that while conceiving, the Immortal inherently conducted an initial screening of the offspring. Only offspring resilient enough to withstand such intense immortal power would survive and better adapt to life in the Tianyan Immortal Domain.

If she used the Life Force to aid in conception, it would essentially be cheating, avoiding the initial screening process.

Nevertheless, this represented her having mastered a method to rapidly conceive, despite the possibility of the child's limited innate potential.

## **Having children earns benefit, start competing for dominance in the world by marrying a wife**

**Chapter 1887: Chapter 1577: Honored Master Truly Gave This Disciple a Surprise Today!**

Yun Yudie's brows immediately furrowed. Why did she feel Lu Chen was doing this on purpose, deliberately making her comprehend the Life Dao, then letting the Life Force transform her body, and taking the opportunity to make her bear his child?

In fact, Lu Chen had no idea about such a thing. If he knew that Life Force had such effects, he wouldn't have been worried about his women not being able to conceive.

Although he mastered the Creation Power, and the Creation Dao could evolve all Daos, allowing him to utilize all Power of Dao, he was, after all, a man who lacked the ability to bear children. His understanding of Life Force was different from a woman's.

Lu Chen was someone who possessed power but didn't know how to use it.

However, Yun Yudie was unaware that Lu Chen didn't know about the hidden function of Life Force. In her eyes, Lu Chen was doing it intentionally.

Yun Yudie stopped her actions, lowered her head once again, and glared at Lu Chen coldly, saying, "Still not giving up, are you?"

Hearing Yun Yudie's words, Lu Chen was dumbfounded. He was in high spirits, and Yun Yudie suddenly threw out such a remark.

What does “still not giving up” mean?

He hadn't done anything, right?

Lu Chen looked at Yun Yudie with confusion, “What are you talking about? I don't understand.”

Seeing Lu Chen feign ignorance, Yun Yudie said coldly, “You made me comprehend the Life Dao, let the Life Force transform my body, making it easier for me to conceive offspring, and then you seize the chance to make me bear your child.”

“Did you really think I couldn't see through your little scheme?”

This...

Lu Chen looked confused. Let Life Force transform her body?

He never had such thoughts. In his view, Life Force was always used to heal people, only utilizing it when someone was sick or uncomfortable. This was the first time he had heard of using Life Force to transform someone's body.

Lu Chen fell into deep thought, wondering why Yun Yudie would think this way. Seeing Lu Chen remain silent, Yun Yudie assumed that he was caught, so he didn't know how to argue back.

Just as she was about to continue, Lu Chen showed a hint of a smile and admitted, "I didn't expect you to see through it. I'm curious, how did you find out?"

Lu Chen was still bewildered but planned to lead Yun Yudie on to understand why she had such thoughts.

Yun Yudie continued, "The higher a cultivator's realm in the Tianyan Immortal Domain, the harder it is to reproduce offspring. This law limiting Immortal reproduction is hidden in the Life Dao, and those who cultivate the Life Dao can break this limitation. You had me cultivate the Life Dao, didn't you want me to break this limitation?"

"Once I master the Power of Dao from the Life Dao, I will no longer be influenced by the law that makes it difficult for stronger beings to reproduce. In addition, with the transformation of my body by the Life Force, it will be easier to conceive offspring. By then, making me bear your child will be easy as pie."

"Am I right?"

Saying this, Yun Yudie's icy gaze fixed on Lu Chen's eyes as if she was saying she had seen through his little trick.

Upon hearing Yun Yudie's words, Lu Chen was stunned. Was the rule that made it hard for stronger beings to reproduce hidden in the Life Dao?

He truly didn't know this. Currently, he is still at the Golden Immortal Realm, limited by his realm, and cannot perceive the existence of the Heavenly Dao Laws.

Lu Chen quickly realized that if he wants his wives to conceive more easily, the best method is to let them comprehend the Life Dao and grasp the Life Force, so they won't be restricted by their realm when reproducing?

Thinking of this, Lu Chen almost burst into laughter. He didn't expect Yun Yudie to give him such a pleasant surprise. He had been worrying that the higher the realm, the harder it was to conceive, making it more difficult to earn system rewards, but he hadn't anticipated finding a solution so swiftly.

For a moment, Lu Chen's gaze towards Yun Yudie became even more fiery, his body becoming more restless.

Feeling the unease where she resided, Yun Yudie's brows knitted slightly. Why was Lu Chen so excited after hearing her words?

Yun Yudie thought Lu Chen would feel down after being exposed by her. After all, now that she knew his scheme, she would certainly guard against Lu Chen in the future, making it impossible for Lu Chen to make her pregnant.

But now it seems Lu Chen doesn't care at all.

Just as Yun Yudie was about to say something, Lu Chen suddenly reached out, grabbed her delicate hand, and pulled her into his chest with a swift motion.

Before Yun Yudie could react, Lu Chen flipped her over, pinning her beneath him. He then gazed into her eyes with a smile and said, "Honoured Master has indeed given me a surprise today!"

Yun Yudie didn't have much of a reaction to Lu Chen's actions. After all, they had been together for decades, and they had practiced Dual Cultivation countless times, so it wasn't the first time Lu Chen had her under him.

However, upon hearing Lu Chen's words, Yun Yudie wore a puzzled look.

A surprise? What surprise?

Seeing that Yun Yudie seemed unaware of his realization, Lu Chen took the initiative to ask, "What realm am I in now?"

Hearing Lu Chen's question, Yun Yudie said, "Your main body is not here, how would I know your true realm."

Yun Yudie wasn't particularly familiar with Lu Chen's true strength. This guy usually had many clones around, and most of the clones in front of her had Golden Immortal Cultivation, but when confronted with enemies, he could recover to the Immortal King state, though his Immortal King state seemed unstable and would quickly drop, making it difficult to ascertain Lu Chen's true cultivation.

Of course, what puzzled her was why Lu Chen brought up the realm at this moment.

Lu Chen continued, "I'm currently only at the Golden Immortal Cultivation."

Yun Yudie said nothing, lying beneath Lu Chen, her icy gaze directly meeting Lu Chen's eyes, as if silently asking, "And then?"

Lu Chen went on, "Could it be that the Honored Master could perceive the existence of the Heavenly Dao Laws while at Golden Immortal Cultivation?"

Upon hearing Lu Chen's words, Yun Yudie's heart skipped a beat. She instantly understood what Lu Chen meant by the surprise.

But she still couldn't quite believe that she had unintentionally clued Lu Chen in, "You... you didn't know that the law restricting the reproduction of the strong is hidden in the Life Force?"

Lu Chen gazed at Yun Yudie with a smile, as if to say, "What do you think?"

Seeing Lu Chen's expression, Yun Yudie immediately felt immense regret.

Indeed, Lu Chen was at most of Immortal King cultivation. Only when reaching the Immortal Venerate Realm could one vaguely perceive the existence of Heavenly Dao Laws. By revealing to Lu Chen this Heavenly Dao Law, wasn't she essentially telling Lu Chen how to make her bear his child?

Wasn't this self-inflicted suffering?

Thinking of this, a chill uncontrollably emanated from Yun Yudie's body, and she stared at Lu Chen with unblinking eyes.

**Having children earns benefit, start competing for dominance in the world by marrying a wife**

## **Chapter 1888: Chapter 1578: I Will Never Bear Your Child**

Since Lu Chen already knew how to avoid the influence brought by the Heavenly Dao Laws, there was only one thought left in his mind at that moment, which was to make Yun Yudie fall into the trap.

The thought of the Cold Immortal Venerable Yun Yudie bearing his child made Lu Chen's heart become more agitated. Yun Yudie clearly sensed Lu Chen's excitement.

Feeling Lu Chen's excitement, how could Yun Yudie not know what he was thinking? She immediately warned, "Don't even think about it. I will never bear your child."

Seeing Yun Yudie looking at him cautiously, Lu Chen smiled and said, "What are you talking about? I didn't say I wanted you to bear my child."

Yun Yudie looked at Lu Chen coldly. How could she not know what this scoundrel was planning, given the excitement he was showing?

Yun Yudie then said, "I don't need to comprehend the Life Dao, give me another one."

She felt that if she continued to comprehend the Life Dao and truly mastered the Life Force, she would definitely end up pregnant by Lu Chen. The best way was to give up on comprehending the Life Dao.

Lu Chen said indifferently, “Whether the Honored Master can comprehend which Dao is not something I can choose, but rather it is chosen by the Honored Master herself.”

Yun Yudie looked at Lu Chen with confusion. Chosen by herself?

Lu Chen turned his head to look at the Dao Charm surrounding their bodies and said, “Haven’t you realized that not only is there the Dao Charm of the Life Dao surrounding our bodies but also the Dao Charm of other Daos, yet you chose the Life Dao?”

This...

After Lu Chen’s reminder, Yun Yudie finally realized it seemed that this was indeed the case.

Yun Yudie wasn’t foolish and quickly understood the situation. When she comprehended the Slaughter Path, although she could barely grasp the Power of

Slaughter, because she practiced multiple Daos, the power within her began to show some imbalance and started becoming chaotic.

When she mastered the Life Force, it could repair some Dao Injuries and also balance the power of the Dao within her body.

So it wasn't Lu Chen guiding her to cultivate the Life Dao, but she unknowingly chose the Life Dao.

Seeing Yun Yudie looking at him coldly without speaking, Lu Chen knew Yun Yudie had nothing more to say. He also stopped wasting time, continuing to operate the Spirit Charm Harmony Scripture.

Lu Chen suddenly began to circulate his energy, and the distracted Yun Yudie did not react in time, involuntarily letting out a soft hum. When she realized, Cold Fairy glared at Lu Chen with resentment.

This scoundrel was already preparing to implement his plan, but she was now helpless. After all, she wanted to integrate all Daos to become an Immortal Emperor, so no matter what, she had to cultivate the Life Dao.

As long as she cultivated the Life Dao, her Life Force within her would increase, making her physique prone to pregnancy, and Lu Chen could take the opportunity to make her bear his child.

Thinking of having to bear this scoundrel's offspring made Yun Yudie feel her dignity as a strong person was trampled upon.

Yun Yudie was about to say something when Lu Chen suddenly leaned down, and their bodies instantly pressed together, with Lu Chen directly blocking Yun Yudie's lips.

The thought of being able to make this Cold Fairy bear his child made Lu Chen become very proactive. Now he just wanted Yun Yudie to quickly cultivate the Life Dao and master the Life Force.

Seeing Lu Chen being so proactive made Yun Yudie even angrier inside.

This scoundrel just wants her to give birth to his child that much.

...

In order to enable Yun Yudie to master Life Force as quickly as possible, Lu Chen dedicated most of his efforts to Yun Yudie over the following years.

During these years, the Northern Domain's power continuously advanced southward, occupying large swaths of land in the northern part of the Barbaric land.

At the same time, the problem of the cultivation path worsened, especially with the Life Dao, which finally brought about the very concerns that the Immortal Venerates feared the most.

Some Heavenly Dao Laws were hidden within the various cultivation paths, and as the paths were eroded, the Heavenly Dao Laws gradually began to collapse.

After the Life Dao was eroded by the Mysterious Power, the lifespans of the Immortals began to shorten. In just a few years, many Immortals perished due to their lifespans ending prematurely, and even in the Eastern Domain, a few Immortal Venerates fell, which made the top powers of Tianyan Immortal Domain uneasy.

If this continues, the lifespan of Immortals might become increasingly short. To cope with this calamity, major forces in Tianyan Immortal Domain dispatched Immortal Venerates to the Central Domain to discuss how to confront the Tribulation of the Great Dao.

Forces from all over gathered in the Central Domain to discuss a matter, something that hadn't happened in over a billion years. The last time the major forces of Tianyan Immortal Domain set aside their differences to come together for discussions was when the Reproduction Path had issues.

But that meeting, the major forces of Tianyan Immortal Domain reached only one conclusion, which was to lift the restrictions on the various Immortal Sects, helping mortals become Immortals, thus increasing the number of Immortals, and for the forces to cease any battles and halt all wars.

Now the path is once again problematic, and after extensive discussions and exchanges, Tianyan Immortal Domain's major forces decided to adopt the same strategy as over a billion years ago. After all, the issue of the paths being eroded was beyond the solution of Immortal Venerates, and worrying over it was futile.

Now, they could only strive to find ways to extend their lifespans, to see if those paths might one day restore themselves just like the Reproduction Path did. As for the Immortal Venerates who were close to falling, they had no choice but to gamble, to see if they could make a breakthrough to the Immortal Emperor Realm in their final moments.

The representatives of Tianyan Immortal Domain's major forces discussed in the Central Domain for a year without arriving at a good solution, and most of the representatives ultimately returned to their forces.

However, representatives from three forces did not leave immediately, one of which was the Star River Immortal Venerate from the Heavenly Splendor Hall.

The other two forces that temporarily did not leave were both from the Eastern Domain, and both were Super Forces of the Eastern Domain, one named Qingyun Academy and the other named Beast Alliance.

Qingyun Academy was primarily based on the literary path, while Beast Alliance was mostly composed of Beast Immortals.

The relationship between these two forces in the Eastern Domain wasn't good, and large-scale conflicts would often arise. However, since the issue with the Reproduction Path emerged over a billion years ago, the two of them had temporarily set aside their conflicts, resulting in no force asserting dominance in the Eastern Domain.

If it weren't for the issues with the Reproduction Path, the Eastern Domain would likely end up like other Realms, with only one Overlord Level force.

Finally, the Reproduction Path returned to normal, and both forces were preparing to compete for the dominant position in the Eastern Domain again, only for the Demon Emperor to resurface, compelling both forces to set aside their conflicts once again, joining the Immortal Domain Alliance Army to head north against the Demon Emperor.

And now, with the Tribulation of the Great Dao occurring, and both forces having lost Immortal Venerates due to it, the two powers again had to reconcile.

Mingxiao Immortal City.

In one of the residences of the Immortal City, the Vice Dean of Qingyun Academy, the Vice Leader of the Beast Alliance, and the Hall Master Star River Immortal Venerate of Heavenly Splendor Hall were all present.

At this moment, the Vice Leader of the Beast Alliance, Immortal Venerable Cang Ya, spoke first, “Star River Immortal Venerate, this is your Heavenly Splendor Hall’s own matter. If you want our assistance, you ought to provide some benefits, right?”

Star River Immortal Venerate had already disclosed the matter of the Mysterious Power’s spread to the two of them. Upon hearing that Star River Immortal Venerate sought their help, both Immortal Venerable Cang Ya and Immortal Venerable Lingxu of Qingyun Academy frowned, clearly unwilling to get involved in this.

## **Having children earns benefit, start competing for dominance in the world by marrying a wife**

**Chapter 1889: Chapter 1579: Then I Shall Await Good News from the Two of You**

Whether it was Immortal Venerable Cang Ya or Lingxu Immortal Venerable, both had personally witnessed the anomaly that appeared last time in the Tianyan Immortal Domain. When the anomaly appeared, the aura emitted by the mysterious power in the sky made both of them feel a deep unease.

Both of them were well aware that this mysterious power could very likely bring calamity to this world, and as the second-in-command of the two major super forces in the Eastern Domain, they also knew some secrets about the Tianyan Immortal Domain.

In fact, as long as they were somewhat ancient forces, they knew quite a few secrets about the Tianyan Immortal Domain. Although Heavenly Splendor Hall was the largest force in the Southern Domain, it was still quite immature compared to other overlord-level forces. The largest super force in the Southern Domain back then wasn't Heavenly Splendor Hall, but that super force eventually disbanded, leading to the rise of Heavenly Splendor Hall.

Thus, the knowledge held by Heavenly Splendor Hall wasn't as extensive as that of overlord-level forces in other realms. Fortunately, Star River Immortal Venerable possessed the Star Immortal Body, allowing him to detect dangers in advance. This enabled him to remain calm, even without understanding the mysterious power, and refrain from immediately taking action against Wuya Immortal Venerable.

If it had been other Immortal Venerables, they might have already acted against Wuya Immortal Venerable upon sensing the mysterious power on him.

At this moment, seeing that Immortal Venerable Cang Ya and Lingxu Immortal Venerable seemed unwilling to help Heavenly Splendor Hall, Star River Immortal

Venerate said, “Dear friends, if that mysterious power continues to spread, it might affect not just the Southern Domain but the entire Tianyan Immortal Domain. Helping Heavenly Splendor Hall is also helping yourselves; do you really want to just watch as that mysterious power spreads out?”

Hearing Star River Immortal Venerate’s words, Immortal Venerable Cang Ya chuckled and said, “Star River Hall Master, you don’t need to scare us. That mysterious power will indeed bring disaster to this world, but the Southern Domain is some distance away from the Eastern Domain. Even if it spreads, it won’t reach the Eastern Domain immediately.”

Immortal Venerable Cang Ya and Lingxu Immortal Venerable understood the mysterious power, naturally knowing how terrifying it was. Precisely because of this understanding, if they were to help Heavenly Splendor Hall against those corrupted by the mysterious power, they would be taking a great risk.

Although helping Heavenly Splendor Hall is also for the sake of the Tianyan Immortal Domain, the Immortal Domain is not comprised of just a few super forces. If there are no benefits, why should they exert such effort?

Upon hearing Immortal Venerable Cang Ya’s words, Star River Immortal Venerate furrowed his brows immediately, realizing that Heavenly Splendor Hall couldn’t ask for help from these two forces without offering something in return.

Just as Star River Immortal Venerate was about to say something, Lingxu Immortal Venerable spoke, “Star River Hall Master, have you notified the Xuanyue Palace Master about this? What is her stance on this matter?”

The Central Domain is adjacent to the Southern Domain; if the mysterious power spreads and something happens in the Southern Domain, the Central Domain will be next. Thus, Lingxu Immortal Venerable was eager to know the attitude of Xuanyue Palace, which stands as a dominant force in the Central Domain.

Star River Immortal Venerate directly replied, “The ancestor of Mysterious Moon Palace is unwilling to help.”

Upon hearing Star River Immortal Venerate’s response, Immortal Venerable Cang Ya and Lingxu Immortal Venerable were instantly stunned. The Central Domain borders the Southern Domain; if the Southern Domain becomes corrupted by the mysterious power, the Central Domain will follow suit. How could a dominant force like the Mysterious Moon Palace refuse to aid Heavenly Splendor Hall?

What is the ancestor of Mysterious Moon Palace thinking?

After regaining his composure, Immortal Venerable Cang Ya said, “Star River Hall Master, you see even Mysterious Moon Palace doesn’t want to get involved in this matter, which should tell you just how frightening this mysterious power is. We from the Eastern Domain are willing to assist you, but at what cost?”

“Consider this: that mysterious power has already corrupted your hall’s Immortal Venerate. If even an Immortal Venerate cannot resist the corruption, can immortals of a realm lower than the Immortal Venerable Realm withstand it?”

“You don’t think that just by coming to the Southern Domain, we’re only helping you eliminate the Immortal Venerate corrupted by the mysterious power, do you?”

“I dare say, as soon as we act against that Immortal Venerate, those immortals affected by the mysterious power are bound to wage war.”

“When that happens, the entire Southern Domain will be thrown into chaos. Do you believe that, with the power of Heavenly Splendor Hall alone, you can resolve all issues involving immortals influenced by the mysterious power?”

This...

Star River Immortal Venerate fell into silence; Immortal Venerable Cang Ya’s guesses were indeed likely. If it were only Wuya Immortal Venerable corrupted by the mysterious power, it would have been manageable by simply dealing with him. However, the fear was that more than just Wuya Immortal Venerable had been corrupted.

The mysterious power could even corrupt an Immortal Venerate, and one can’t help but wonder how many immortals in the Southern Domain had already been affected.

After a moment of contemplation, Star River Immortal Venerate regained his focus and looked at Immortal Venerable Cang Ya and Lingxu Immortal Venerable, asking, “What would the Beast Alliance and Qingyun Academy require to be willing to help the Southern Domain?”

Lingxu Immortal Venerable replied, “This is something I still need to discuss with Qingyun Academy.”

Immortal Venerable Cang Ya also said, “I also need to inform the Alliance Hierarchy.”

After all, they were the second-in-command, although they had decision-making authority to some extent, assisting Heavenly Splendor Hall was no trivial matter, especially as it involved the mysterious power. They needed to have it discussed by the elders of their respective forces before making a decision.

Star River Immortal Venerate said, “Alright, then I shall await good news from you both.”

Without saying anything more, Immortal Venerable Cang Ya and Lingxu Immortal Venerable promptly left the courtyard to report the information they received from Star River Immortal Venerate to their respective forces.

...

Qingyun Academy.

In the morning, the mist had not yet dissipated, and the flying eaves of Qingyun Academy were already bathed in a touch of dawn's glow.

Although Qingyun Academy contained the words "Academy" in its name, it is, in fact, an Immortal Sect, much like any other Immortal Sect, located high up in the sky.

The entrance to Qingyun Academy is adorned with a plaque inscribed with the four large characters "Qingyun Academy," which constantly radiates a faint golden literary energy. When immortals of Qingyun Academy pass through the gate, this literary energy enters their bodies, making them feel exceptionally relaxed.

At the highest point in Qingyun Academy stands the Book Collection Pavilion, the building with the largest area in the academy. The pavilion rises layer upon layer, piercing the sky like a Heaven-Reaching Tower.

On the top floor of the pavilion, a white-haired elder sat lotus-style on a cushion, his body surrounded by a flowing Dao Charm. He was the dean of Qingyun Academy, Immortal Venerable Wan Jie.

At this moment, a bird flew from between the clouds, landing on the window sill of the loft.

Immortal Venerable Wan Jie opened his eyes and raised his hand, whereupon the bird transformed into a ball of light and flew into Immortal Venerable Wan Jie's palm.

After reading the contents of the light ball, Immortal Venerable Wan Jie's brow furrowed deeply.

The reason he was called Immortal Venerable Wan Jie was that he had survived countless catastrophes in the Tianyan Immortal Domain and lived until today, earning such a title.

Originally, with his Immortal Venerate lifespan, he would have long reached the end of his life, but he once obtained a stalk of Immortal Herbs capable of prolonging life, allowing him to continue living.

Having lived a long life, he knew quite a few secrets about the Tianyan Immortal Domain, such as its eerie creatures.

## Chapter 1890: Chapter 1580: The Great Calamity Approaches, I Must Leave Seclusion

At this moment, the attic was very quiet. Immortal Venerable Wan Jie's expression was extremely grave as he gazed out the window toward the direction of the Sunset Mountain Range.

The mere thought of those creatures exuding a mysterious power filled Immortal Venerable Wan Jie with a deep sense of fear.

When the calamitous event occurred years ago, he was only in his twenties, just an ordinary Mortal Immortal. He witnessed with his own eyes his own relatives, friends, and fellow sect members perish in that catastrophe.

That disaster began in the Eastern Domain. Although there was a mysterious force causing people to forget those memories, he remembered it clearly in the depths of his heart.

Currently, Immortal Venerable Wan Jie was somewhat puzzled. The news returned by Lingxu Immortal Venerable indicated that the ancestor of the Mysterious Moon Palace was unwilling to help the Heavenly Splendor Hall.

The Mysterious Moon Palace, with its long history, was already the foremost power in the Central Domain when that disaster occurred. It is not surprising that other forces do not know, but the Mysterious Moon Palace surely had someone aware of the horrors of those mysterious creatures. Why would the ancestor of the Mysterious Moon Palace oppose aiding the Heavenly Splendor Hall?

Could there be some hidden truth behind this? Or possibly some conspiracy orchestrated by the Heavenly Splendor Hall?

After a moment of contemplation, Immortal Venerable Wan Jie directly released a wave of Literary Energy, which swept across the entire Qingyun Academy with him at its center.

When the people of Qingyun Academy felt this imposing wave of Literary Energy, they realized their dean had emerged, causing them some concern. What significant event had occurred for their dean to emerge?

Just like the Alliance Hierarchy of the Beast Alliance, their dean had existed for countless eras, and it was uncertain when the end might come. Therefore, they wouldn't emerge for anything trivial and mostly remained in a state of self-sealing to minimize the loss of vital energy and delay the end's arrival.

Now, everything at Qingyun Academy was decided by Lingxu Immortal Venerable. Though he was the vice-dean, there was no real difference from the dean. If the end came for Immortal Venerable Wan Jie, Lingxu Immortal Venerable could immediately assume the position of dean.

If Immortal Venerable Wan Jie emerged, there must be a crisis that could threaten the very existence of Qingyun Academy.

You should know, even when the Demon Emperor returned, their dean did not emerge, but now he has, indicating that the threat Qingyun Academy is about to face could be even greater than the Demon Emperor's return.

The Immortal Venerates of Qingyun Academy hesitated not at all, proceeding to the Meeting Hall to await, as Immortal Venerable Wan Jie's release of Literary Energy was a signal to gather for important discussions.

When the Immortal Venerates of Qingyun Academy had all arrived in the Meeting Hall, Immortal Venerable Wan Jie's figure also appeared there, and all the Immortal Venerates simultaneously saluted him, "We greet the Dean!"

After the salutation, an Immortal Venerate urgently asked, "Dean, what has occurred to cause you to emerge?"

Immortal Venerable Wan Jie directly stated, "A great calamity is approaching, which compelled me to emerge."

Upon hearing this, everyone in the hall exchanged uncertain glances.

A great calamity?

What great calamity?

Is it about the Demon Emperor?

An Immortal Venerate asked, “Does the great calamity you speak of relate to the Demon Emperor?”

Hearing this, Immortal Venerable Wan Jie swept his gaze over the assembled in the Meeting Hall. These Immortal Venerates were born far after the era of the arrival of mysterious creatures, so they were largely unaware of their existence. Additionally, the Tianyan Immortal Domain had a force erasing traces of the past, leaving few aware of the mysterious creatures.

Immortal Venerable Wan Jie directly stated, “When this self was just a Mortal Immortal, the world experienced a catastrophe.”

“Initially, a mysterious black force appeared in the sky. People did not know what this black force was. Many Immortal Venerates and Immortal Emperors personally investigated, but found nothing.”

“Though mysterious, since this force did not impact the Heavenly Dao of the Tianyan Immortal Domain, at first people didn’t pay much heed, thinking it might be a prelude to the evolution of a new Cultivation Path within the Tianyan Immortal Domain.”

“Until one day, countless cracks appeared in the sky, and creatures exuding that black force emerged from them. After descending into this world, they began slaughtering all living beings.”

“The calamity began in the Eastern Domain, and the Immortal Sect where this self belonged at that time was destroyed during it.”

“After the arrival of those mysterious creatures, the major powers of the Tianyan Immortal Domain quickly united to crusade against them. Fortunately, though strong, their numbers weren’t many initially, so they were quickly besieged in the Eastern Domain.”

“Unexpectedly, suddenly, disciples from certain Immortal Sects began being stained by this black mysterious power, and once corrupted by it, they would become part of the mysterious army.”

“Under the corrosion of this mysterious power, the defense lines established by various Immortal Sects were quickly broken. In just a few years, the mysterious army invaded other Realms...”

Here, Immortal Venerable Wan Jie paused, seemingly reluctant to continue recalling that calamity.

After hearing Immortal Venerable Wan Jie’s words, the Immortal Venerates in the hall fell silent, entirely unaware that such a calamity had occurred in the Tianyan Immortal Domain.

However, listening to the dean’s narration, they found the method of spreading of that mysterious army quite similar to the Heavenly Demon Army, where many in the Northern Domain were converted into Heavenly Demons by the Demon Emperor, multiplying their ranks.

Could it be that the mysterious creatures and Heavenly Demons were of the same species?

After a long while, an Immortal Venerate finally asked, “Dean, are the Heavenly Demons and mysterious creatures the same species?”

Upon hearing this, Immortal Venerable Wan Jie shook his head, saying, “There was no Demon Emperor back then, and the power of the Heavenly Demon was nothing compared to the mysterious power.”

“Heavenly Demon Power relates to humans’ negative emotions and desires. Even though the Heavenly Demon Path is not a Cultivation Path of the Tianyan Immortal Domain, the source of Heavenly Demon Power is still the people of the Tianyan Immortal Domain, whereas the mysterious power is a life-devouring destructive force and doesn’t belong to this world.”

When Xuan Qingyun rose to power, Immortal Venerable Wan Jie also thought that the Demon Emperor was an Immortal Emperor backed by mysterious creatures, but soon realized there were significant differences between Heavenly Demon Power and mysterious power.

Xuan Qingyun cultivated Heavenly Demon Power, relying on the negative emotions and desires of the people from the Tianyan Immortal Domain, while the mysterious power couldn’t be obtained through cultivation. As for its origin, Immortal Venerable Wan Jie did not know. Not only him, but even the Immortal Emperors who resolved the calamity back then were unaware.

After Xuan Qingyun converted people into Heavenly Demons, they were considered alive, but after the mysterious power transformed people into mysterious creatures, there was no vital energy in those creatures whatsoever. Despite appearing alive, they were no different from the dead.

Most importantly, after Xuan Qingyun became an Immortal Emperor, like other Immortal Emperors, he merely ruled over this world and never considered its destruction.
