

Having children earns benefit, start competing for dominance in the world by marrying a wife

Feeling the terrifying aura emanating from the warships outside Donghuang Immortal City, East Splendor Immortal King knew there must be an Immortal Venerable on those ships.

He was merely an Immortal King. Although Donghuang Immortal City had a formation for protection, if the Immortal Venerable made a move, the city's defense formation probably wouldn't last long.

Could it be that surrendering is the only option?

He could surrender, but the other party might not accept.

The resources within the Tianyan Immortal Domain were limited, and in the early stages of any war, the attackers needed to kill some people; partly to intimidate the resisting forces, and partly to reduce the population and, thus, the competition.

Moreover, if he truly betrayed the Xuanxiao Immortal Sect, he might be dealt with by the upper echelons of the Xuanxiao Immortal Sect before he could turn to the invaders.

Just when the East Splendor Immortal King was anxious and uneasy, the aura of an Immortal Venerable appeared within Donghuang Immortal City.

The East Splendor Immortal King was momentarily stunned, as this Immortal Venerable's aura appeared directly within the Immortal City, indicating that someone from the Immortal Sect had arrived.

The East Splendor Immortal King was immediately overjoyed and said to the present City Guard Army leaders, "A distinguished guest has arrived, follow me to pay respects immediately."

Right after speaking, the East Splendor Immortal King led the leaders from the City Lord's Mansion to the Transmission Array.

Upon arriving at the plaza where the Transmission Array was located, they discovered that the visitor was not a special envoy from the Xuanxiao Immortal Sect, nor an ordinary Elder, but the Sect Master himself.

Seeing that Immortal Venerable Xuanxiao had personally come, the East Splendor Immortal King hurriedly approached Immortal Venerable Xuanxiao, "Greetings, Sect Master!"

Immortal Venerable Xuanxiao said calmly, "You've worked hard, leave everything to me next."

Saying this, Immortal Venerable Xuanxiao looked at Lu Chen and said, "Your Majesty, what does the banner of the Daqin Immortal Dynasty look like?"

Upon hearing Immortal Venerable Xuanxiao's words, the leaders of Donghuang Immortal City were all stunned.

Your Majesty???

What Your Majesty?

Immortal Venerable Xuanxiao was the Sect Master of the Xuanxiao Immortal Sect; how could he address someone else as Your Majesty? Even if it were an Immortal Emperor from some Immortal Dynasty, Immortal Venerable Xuanxiao would only address them as "so-and-so Immortal Emperor" in his presence.

Addressing someone as Your Majesty actively implied that Immortal Venerable Xuanxiao's status was lower than that of the person before him.

The people of Donghuang Immortal City cast a glance at Lu Chen, noticing that he was only at the Immortal Monarch Realm.

An Immortal Monarch, whose cultivation state was not even as high as the City Lord of Donghuang Immortal City, how could he bear such a title from Immortal Venerable Xuanxiao?

Even though they were puzzled, the East Splendor Immortal King didn't inquire directly, believing that their Sect Master had his reasons for acting so.

At this moment, Lu Chen raised his hand, and a celestial force was released from his fingertips. In the next second, a massive banner appeared in the sky above Donghuang Immortal City, with the word "Qin" in the center.

The anomaly in the sky above Donghuang Immortal City immediately caught the attention of Dragon Soaring Immortal Venerable on the warships of Azure Dragon Hall. Seeing the word "Qin," Dragon Soaring Immortal Venerable frowned, having an ominous premonition.

He didn't know that it was the banner of the Daqin Immortal Dynasty, but seeing a banner representing another force in the territory of the Xuanxiao Immortal Sect indicated that the Xuanxiao Immortal Sect might have already changed hands.

They were preparing to attack the Xuanxiao Immortal Sect, and the sect changed hands at the same time, and moreover, to a force unknown to them; something suspicious was afoot.

Just as Dragon Soaring Immortal Venerable was about to send someone to investigate, a familiar voice came from above, "Dragon Soaring Hall Master, what a coincidence, we meet again."

"Did you know the Xuanxiao Immortal Sect has already belonged to the Daqin Immortal Dynasty, and you came to ask for passage?"

Upon hearing Lu Chen's words, Dragon Soaring Immortal Venerable was instantly furious.

He had a bad feeling when he saw the "Qin" character; it turned out this "Qin" was the "Qin" of the Daqin.

The Xuanxiao Immortal Sect had already been snapped up by the Daqin Immortal Dynasty?

How did Lu Chen accomplish this?

The Xuanxiao Immortal Sect's strength was even greater than that of the Daqin Immortal Dynasty; how could it willingly become a subordinate power of the Daqin Immortal Dynasty?

Dragon Soaring Immortal Venerable coldly said, "Lu, your tactics are indeed brilliant; the great army of the Daqin Immortal Dynasty hasn't even entered the Southern Domain, and you have seized an immortal sect without shedding a drop of blood!"

Lu Chen's voice then came, "Not at all, it's purely good luck."

At this point, the Immortal Venerables of the Azure Dragon Hall could no longer stay silent. An Immortal Venerable stood in front of Dragon Soaring Immortal Venerable and said, "Hall Master, are we simply going to hand over the Xuanxiao Immortal Sect?"

"The Daqin Immortal Dynasty's army has not arrived yet, and the other Barbaric Powers are still on their way; maybe we should..."

The Immortal Venerable hesitated, believing that Dragon Soaring Immortal Venerable understood his meaning.

Hearing the Immortal Venerable's words, Dragon Soaring Immortal Venerable fell silent for a moment. To give up the Xuanxiao Immortal Sect just like that really made him somewhat unwilling.

But considering Lu Chen's special nature, he might play a significant role in the final battle between Barbaric and the Southern Domain; offending Lu Chen wouldn't necessarily benefit the Azure Dragon Hall.

They still didn't know the Blood Ancestor's true strength. Although they suspected the Blood Ancestor was merely an Immortal Emperor nearing the end of his lifespan with significantly weakened power, an Immortal Emperor is, after all, an Immortal Emperor. Barbaric might need to rely on Lu Chen's Chaos Spirit Ruins Sealing Heaven Array to defeat the Blood Ancestor.

Lu Chen's importance was undeniable.

Dragon Soaring Immortal Venerable coldly said, "Immortal Emperor Qin, the Xuanxiao Immortal Sect is stronger than your Daqin Immortal Dynasty; be careful not to bite off more than you can chew."

Although he knew he couldn't completely offend Lu Chen, being outmaneuvered twice by him left Dragon Soaring Immortal Venerable fuming. He wouldn't feel right without throwing some sarcasm Lu Chen's way.

Upon hearing this, Lu Chen laughed and said, "Thank you for the warning, Dragon Soaring Hall Master, I will certainly be mindful."

Dragon Soaring Immortal Venerable coldly snorted again and said, "Since the Xuanxiao Immortal Sect has already belonged to the Daqin Immortal Dynasty, as Barbaric powers, I presume Immortal Emperor Qin would allow us to pass through?"

The Xuanxiao Immortal Sect controlled many Immortal Cities, and their territory was vast. Detouring would waste a lot of time.

Since now the Daqin Immortal Dynasty is nominally a subordinate power of the Hidden Moon Sect, Dragon Soaring Immortal Venerable didn't believe Lu Chen would refuse their passage request.

Lu Chen said, "Of course, but I hope Dragon Soaring Hall Master can manage the people of Azure Dragon Hall well, so as not to perform actions detrimental to harmony."

Dragon Soaring Immortal Venerable no longer bothered to waste words with Lu Chen, and directly commanded his many Immortal Venerables, "Press on! Also, instruct everyone, the people of Azure Dragon Hall are not to cause trouble in the Xuanxiao Immortal Sect!"

Although the Immortal Venerables of Azure Dragon Hall were full of resentment, since Dragon Soaring Immortal Venerable gave the orders, they couldn't say much more.

Besides, they understood why their Hall Master didn't want to completely offend Lu Chen at this point.

Thus, Dragon Soaring Immortal Venerable continued onwards with Azure Dragon Hall's warships, heading east towards the Southern Domain.

Seeing the warships that blotted out the sky distancing themselves from Donghuang Immortal City, Immortal Venerable Xuanxiao let out a slight sigh of relief; in this way, this calamity for the Xuanxiao Immortal Sect seemed to have passed.

Having children earns benefit, start competing for dominance in the world by marrying a wife

To the east of Xuanxiao Immortal Sect lies the Sea Dominating Immortal Sect. Although there are some smaller forces between them, these minor forces are actually controlled by the two Immortal Sects, effectively making them subsidiary forces of the two Super Forces.

Thus, if the Azure Dragon Hall continues eastward, it will officially be at war with the Sea Dominating Immortal Sect.

The first clash between the Azure Dragon Hall and the Sea Dominating Immortal Sect ended in no advantage for the former; the Sea Dominating Immortal Sect's formation defenses are incredibly formidable.

It's not just their Protective Array that is impressive; their Killing Array is equally formidable. The Azure Dragon Hall lost an Immortal King in a mere probing attack.

Clearly, the Sea Dominating Immortal Sect is currently flush with Qi Fortune, making it nearly impossible to destroy them in a short time.

In order to weaken the Sea Dominating Immortal Sect's strength and prepare for a future all-out assault, the Azure Dragon Hall adopted infiltration tactics, gradually eroding the subsidiary forces of the Sea Dominating Immortal Sect and causing internal havoc to create disorder, thereby weakening the Sea Dominating Immortal Sect's Qi Fortune.

Upon the official commencement of war between the Azure Dragon Hall and the Sea Dominating Immortal Sect, various Barbaric forces also began entering the Southern Domain. Since the Hidden Moon Sect initially stated that territories captured would belong to the captors, these Barbaric forces did not unite to attack a single Immortal Sect.

The Barbaric forces, observing the Azure Dragon Hall's attack on the Sea Dominating Immortal Sect, turned their attention to attacking the Purple Phoenix Immortal Sect and Jade Lion Palace.

This division of forces reduced the pressure on the Southern Domain's various parties. If the Barbaric army truly consolidated into a single entity, the Southern Domain's forces would be compelled to unite, for the Barbaric's overall strength exceeds that of the Southern Domain, and a direct confrontation could potentially lead to the quick collapse of the Southern Domain's alliance.

Soon, Yun Yudie led the army formed by the Daqin Immortal Dynasty and the Mysterious Moon Palace into the Southern Domain.

The Daqin Allied Forces' Immortal Ship had barely flown out of the Sunset Mountain Range when they saw another Immortal Ship ahead, adorned with the flag of the Daqin Immortal Dynasty.

The other side appeared to be there to welcome them.

Seeing this, Yun Yudie was momentarily stunned. What was going on?

At this moment, the figure of the White Rainbow Immortal King appeared at the forefront of the Daqin Allied Forces, "On the orders of Your Majesty, the City Lord of White Rainbow Immortal City specially comes to guide you."

Upon hearing these words, Yun Yudie was slightly taken aback. The City Lord of White Rainbow Immortal City?

The Daqin Allied Forces hadn't even entered the Southern Domain, yet Lu Chen had already taken control of an Immortal City?

Yun Yudie didn't dwell on it further and led the Daqin Allied Forces to White Rainbow Immortal City. Upon seeing the flags of the Daqin Immortal Dynasty hanging over the City Lord's Mansion and the city walls of White Rainbow Immortal City, she confirmed that Lu Chen had indeed taken control of an Immortal City.

Even before the arrival of Daqin's main army, Lu Chen was able to seize an Immortal City, truly showing his capability.

Yun Yudie did not inquire further about the situation with White Rainbow Immortal City. She stayed in White Rainbow Immortal City for a few days, provided supplies to the army, and then continued eastward towards the Southern Domain.

What she didn't expect was that shortly after leaving White Rainbow Immortal City, more and more Immortal Cities bore the flag of the Daqin Immortal Dynasty.

When the Daqin Allied Forces passed by the Xuanxiao Immortal Sect, they were welcomed by the Immortals of the Xuanxiao Immortal Sect.

This...

Yun Yudie was even more surprised. Lu Chen's ability to take over an Immortal City without deploying an army wasn't unusual, given his special identity and the proximity of White Rainbow Immortal City to the Sunset Mountain Range. The other Barbaric forces might not have valued the place.

But the situation with the Xuanxiao Immortal Sect was different; it sat on land rich with Immortal Aura, and the Xuanxiao Immortal Sect was a significant power with deep foundations.

How did Lu Chen manage to take over the entire Xuanxiao Immortal Sect?

Yun Yudie finally decided to ask Lu Chen about it.

On the deck of the Immortal Ship, Yun Yudie, in a white long dress, quietly gazed at the multitude of Daqin warships coming and going from afar.

At this moment, Lu Chen's voice sounded behind her, "I heard you were looking for me? What, we haven't seen each other for so long, and you already miss me?"

Yun Yudie ignored Lu Chen's remark and asked without turning her head, "How did you get the Xuanxiao Immortal Sect to become a subsidiary of Daqin?"

Lu Chen approached Yun Yudie from behind, slipping his arm around her soft waist, then whispered in her ear, "You might not believe it, but the Xuanxiao Immortal Sect came to me on their own."

Yun Yudie wasn't bothered by Lu Chen's embrace, considering how many times they've undergone Dual Cultivation. They had grown accustomed to each other's bodies. Even if Lu Chen's actions were more intrusive, it wouldn't have aroused much of a reaction from her.

After hearing Lu Chen's words, Yun Yudie coldly reminded, "The Xuanxiao Immortal Sect is powerful. You may not be able to control it."

Lu Chen replied, "Don't worry about it, I know they're looking to join Daqin to avoid the war."

"For now, they might not sincerely intend to join Daqin, but once Daqin becomes strong enough, they'll naturally have no thoughts of dissent."

The induction of the Xuanxiao Immortal Sect into the Daqin Immortal Dynasty didn't strengthen the Daqin Immortal Dynasty's Qi Fortune significantly. Lu Chen immediately realized that their intent wasn't genuine; they were merely using the Daqin Immortal Dynasty as a haven from the chaos.

However, he was unfazed. Joining Daqin may have been easy for the Xuanxiao Immortal Sect, but leaving would not be decided by them.

After hearing Lu Chen's words, Yun Yudie didn't pursue the issue, trusting Lu Chen's judgment.

Lu Chen continued in a whisper beside Yun Yudie's ear, "Yudie, with the front lines in such turmoil, perhaps it's best if the Daqin Allied Forces don't engage just yet, and instead rest at the Xuanxiao Immortal Sect."

Upon hearing this, Yun Yudie's brows furrowed slightly. The fellow's low voice, combined with their close proximity, made his intentions clear to her.

Truly a beastly figure, always thinking about such matters.

Though somewhat displeased, Yun Yudie said nothing further, knowing Mutual Cultivation also benefited her.

Yun Yudie then replied, "Alright."

Once her words fell, Yun Yudie waved her hand, taking them into the Immortal Ship's sleeping quarters.

In the decades that followed, the Barbaric forces entering the Southern Domain grew numerous, forever testing the waters to weaken the Qi Fortune of the various factions therein.

However, as time dragged on, the intensity of the war gradually increased, with the number of fallen Immortal Kings also starting to climb.

Yet the Daqin Allied Forces remained at the Xuanxiao Immortal Sect, with Lu Chen and Yun Yudie continually cultivating, seemingly unconcerned with the front line battles.

Northern Domain.

Nine Heavens Institute.

In the sky, clad in a black long skirt, Xuan Qingyun suddenly opened her eyes, casting her gaze towards the Southern Domain, a faint smile on her lips.

"It's begun? How interesting."

The chaos of the Tianyan Immortal Domain was beneficial not only to the Blood Ancestor but also to Xuan Qingyun, a Demon Cultivator who required human negative emotions and despair to enhance her power.

Since discovering that the Heavenly Dao of the Tianyan Immortal Domain had chosen Lu Chen, she harbored a grudge, yet her current strength couldn't overcome the Heavenly Dao, leaving her in stalemate.

Initially, she had planned for the Nine Heavens Institute to head south and provoke war with the Central Domain to stir up chaos within the Tianyan Immortal Domain, thus burgeoning her own strength.

Before she could act, however, war broke out between the Barbaric realm and the Southern Domain.

Having children earns benefit, start competing for dominance in the world by marrying a wife

Xuan Qingyun sensed various negative forces floating above the Tianyan Immortal Domain. She didn't hesitate to use the Heavenly Demon Power within her body, frantically devouring those negative forces.

As she absorbed more negative emotions, the Heavenly Demon Power within her became increasingly violent. However, she still appeared calm, clearly able to easily suppress the Heavenly Demon Power within her.

After an unknown period, a torrent of Heavenly Demon Power erupted from her body, instantly covering the skies of the Northern Domain and transforming it into night.

Even the Demon Cultivators from the Nine Heavens Institute felt a sense of foreboding at the overwhelming Heavenly Demon Power, while the regular cultivators were even more terrified.

However, people were well aware that the only person in the Tianyan Immortal Domain who could release such terrifying Heavenly Demon Power was their Heavenly Girl.

It seemed their Heavenly Girl had broken through. Thinking about how her Realm had further advanced, the Immortals of the Nine Heavens Institute were very pleased.

Some Immortals were already fantasizing about the day when the Nine Heavens Institute would once again rule the entire Tianyan Immortal Domain.

Although the Eastern Domain had already birthed an Immortal Emperor, and the Southern Domain was suspected to have one, these Immortal Emperors were nothing compared to their Heavenly Girl.

Their Heavenly Girl not only mastered the Heavenly Demon Power, but also possessed a strong ability to analyze the Heavenly Mechanism. Sooner or later, she would lead them in ruling over the Tianyan Immortal Domain once more.

Xuan Qingyun didn't know what the Immortals of the Nine Heavens Institute were thinking, nor did she care about their concerns. At this moment, she was focusing on calming the raging Heavenly Demon Power within her.

After an unknown length of time, the anomaly in the Northern Domain gradually faded, and the Heavenly Demon Power slowly returned to Xuan Qingyun's body.

Feeling the surging power within her, Xuan Qingyun looked up at the sky and said expressionlessly, "One day, I will refine you!"

She had now broken through to the Immortal Emperor Second Heaven. If the Tianyan Immortal Domain became more chaotic, her Realm could advance even faster. When she reached the Immortal Emperor Ninth Layer, she believed she would find a way to deal with the Heavenly Dao of the Tianyan Immortal Domain.

She would make the Heavenly Dao of the Tianyan Immortal Domain realize that lifting the Realm restriction was its biggest mistake.

The commotion of Xuan Qingyun's breakthrough was significant, even reaching the Xiyue Immortal Emperor in the Eastern Domain.

Upon sensing the aura emitted by Xuan Qingyun, the Xiyue Immortal Emperor, who was lying quietly on a soft couch, immediately opened her beautiful eyes.

She turned her head towards the Northern Domain and muttered to herself, "She's broken through again."

Xuan Qingyun's breakthrough caused the Xiyue Immortal Emperor a strong sense of crisis. Xuan Qingyun had already been stronger than her; now with Xuan Qingyun's cultivation advancing another level, what if one day Xuan Qingyun suddenly wants to control the entire Tianyan Immortal Domain and attacks the Eastern Domain?

It's not impossible. Since the Heavenly Dao hasn't been refined, and the Qi Fortune of the Tianyan Immortal Domain is no longer under Xuan Qingyun's control, she will sooner or later attack other realms to refine the Heavenly Dao and gather Qi Fortune.

At the thought of Xuan Qingyun's Realm advancing while her own cultivation was stagnant due to her child, Xiyue Immortal Emperor felt very angry.

At this moment, the Xiyue Immortal Emperor glared fiercely at the "damned creature" beside her.

Seeing the Xiyue Immortal Emperor glaring at him, Lu Chen smiled and asked, "Is something wrong, Immortal Emperor? You seem upset?"

The Xiyue Immortal Emperor coldly said, "I'm considering whether to abort this child."

Hearing this, Lu Chen was stunned for a moment, then asked, "You're not joking?"

The Xiyue Immortal Emperor replied, "You must have felt it too. The Demon Emperor has broken through again, her cultivation advancing rapidly. If our power gap becomes too large, she might invade the Eastern Domain."

"It's all because of you, damned creature, that my cultivation has stagnated."

Hearing this from the Xiyue Immortal Emperor, Lu Chen realized she was just venting, thinking initially that she was serious.

Lu Chen then comforted her: "You don't need to worry. The child in your womb is about to gather consciousness. Once consciousness is established, I'll use Life Force to nurture him, accelerating his growth. He might be born soon."

Understanding the emotional fluctuations of a pregnant woman, Lu Chen comforted her as much as possible.

The Xiyue Immortal Emperor coldly snorted, "It better be that way, as I'm running out of patience."

At this point, the Xiyue Immortal Emperor suddenly remembered something and asked, "How is the situation in the Southern Domain now?"

Lu Chen replied, "Both sides are still probing each other's strength; the Immortal Venerate hasn't yet acted."

The Xiyue Immortal Emperor continued, "What about the Blood Ancestor? Has he emerged?"

Lu Chen said, "No, there's been no news of him recently, but I feel he might appear soon."

Just as Lu Chen finished speaking, a terrifying pressure descended from the heavens, enveloping the entire Tianyan Immortal Domain.

Feeling this pressure, Lu Chen frowned deeply.

The Xiyue Immortal Emperor quickly used Divine Sense to probe and discovered this pressure originated from the Southern Domain. She stared expressionlessly at Lu Chen: "You really are a jinx!"

The pressure came from the Southern Domain, and only the Blood Ancestor was suspected of being an Immortal Emperor there, plus there was a bloody scent within this pressure, making it obvious the Blood Ancestor emerged.

Lu Chen said, "This has nothing to do with me. The Blood Ancestor naturally needs blood energy, and since the Barbaric Realm invaded the Southern Domain, many Immortals have fallen in battle. The blood energy from these fallen Immortals was likely absorbed by the Blood Ancestor, so him breaking through the sealing isn't surprising."

The Xiyue Immortal Emperor asked, "What do you plan to do now? He has resentment towards you; now that he's out, he'll definitely seek you out for revenge first."

Lu Chen had previously told her about his feud with the Blood Ancestor, who sought to kill him and would definitely use Divine Sense to search for his true body now that he's emerged.

If he found Lu Chen's true body, Lu Chen might be near death unless his true body was already an Immortal Emperor.

Lu Chen was silent, pondering how to deal with the Blood Ancestor.

Seeing Lu Chen's silence, the Xiyue Immortal Emperor thought he was out of options. She raised her jade hand, pinched Lu Chen's chin, and slightly looked down at his handsome face saying, "Submit to me, and I can keep you safe."

Lu Chen was her destined person, so she could never watch others kill him, but she wasn't pleased to just protect this guy.

This damned creature had always been so arrogant; now he faced a life-and-death crisis, he should finally bow down to her.

Upon hearing this from the Xiyue Immortal Emperor, Lu Chen burst out laughing.

The Xiyue Immortal Emperor coldly asked, "What are you laughing at?"

"Do you prefer death over submitting to me?"

Lu Chen said, "Who said I have to die?"

Having children earns benefit, start competing for dominance in the world by marrying a wife

Capítulo 2064: Chapter 1754: I Don't Have a Couple Like You

Upon hearing Lu Chen's words, Xiyue Immortal Emperor asked, "Could it be that you have means to counter an Immortal Emperor?"

"Or is your main body already an Immortal Emperor?"

Lu Chen replied, "That's not the case."

Xiyue Immortal Emperor sneered coldly, "You're not even an Immortal Emperor, where does your confidence come from to think you can survive the pursuit of an Immortal Emperor?"

"Do you think Immortal Emperors are weak?"

Xiyue Immortal Emperor always assumed Lu Chen was at least an Immortal Emperor reincarnated and should know the power an Immortal Emperor possesses. Yet here he was, pretending to be at ease; she didn't believe Lu Chen could truly survive the pursuit of an Immortal Emperor.

This wretch is so concerned with appearances, yet unwilling to be her male companion.

Lu Chen said with a smile, "I think even if he breaks the seal, he may not necessarily find my main body."

Strictly speaking, he currently doesn't have a main body, or rather, each of his clones is his main body. Since he comprehended the Creation Dao in the stomach of a Chaos Beast, every body he created is identical.

Once Blood Ancestor comes out, if he uses Divine Sense to search for his main body, there are only two possibilities: one is he cannot perceive where his main body is, or Blood Ancestor finds that the Tianyan Immortal Domain is filled with his main bodies, making it impossible for Blood Ancestor to distinguish which one is his true self.

If Blood Ancestor tries to resolve them one by one, it would waste a lot of his time, especially since he still has clones with Xiyue Immortal Emperor here. Blood Ancestor just got out, probably without full recovery, unlikely to risk his life to kill him and battle an Immortal Emperor.

As long as Lu Chen has one body left, he can create infinite bodies, so no matter how many times Blood Ancestor kills him, he'll survive.

Not only does the Eastern Domain have his clones, previously he deployed several clones in the Northern Domain to gather information about the Nine Heavens Institute and Xuan Qingyun.

Now the Tianyan Immortal Domain is full of his bodies, making it indeed difficult for Blood Ancestor to completely kill him.

Seeing Lu Chen so confident, Xiyue Immortal Emperor's expression turned cold, "Are you really confident you can't die?"

Lu Chen may not fear death, but she is scared. This wretch is her destined one, even if she dislikes him, she won't allow him to seek death.

Seeing Xiyue Immortal Emperor seemingly angry, Lu Chen smiled and said, "Why do you look so angry? Haven't you always hated me? Wouldn't my death fulfill your wish?"

Xiyue Immortal Emperor glared viciously at Lu Chen, "Even if you are to die, you should only die by my hand."

“I don’t care what your identity was in your past life or what cards you have, send your main body to the Eastern Domain at once!”

She didn’t want to engage in idle chatter with Lu Chen; no matter what, this wretch couldn’t die.

Lu Chen asked teasingly, “Are you worried about me?”

Seeing Lu Chen still joking around, Xiyue Immortal Emperor’s expression turned colder.

Xiyue Immortal Emperor continued, “I’m not joking with you, bring your main body to the Eastern Domain immediately, or don’t blame me for taking action against your child.”

Xiyue Immortal Emperor truly felt powerless; she had no idea where Lu Chen’s main body was. If she knew, she would’ve already captured him and brought him to the Eastern Domain.

Now, she could only use the child as leverage against Lu Chen; she didn’t believe he didn’t care about his child.

This...

Seeing Xiyue Immortal Emperor's firm tone, Lu Chen realized she might be serious. He then approached, wrapped his arms around Xiyue Immortal Emperor's waist, and comforted her, "You don't need to worry so much."

Xiyue Immortal Emperor's body suddenly emitted Emperor's Mighty, shaking Lu Chen off, and warned again, "My patience is limited."

"Either your main body comes to the Eastern Domain, or I will take action against this child."

To her, the destined one is far more important than the child. A child can be born again, and now that her body has been transformed by Life Force, having a child is mainly subject to her will.

But once the destined one falls, her cultivation state would be affected, and her realm might never improve in the future.

Lu Chen sighed, "This body is my main body."

Upon hearing this, Xiyue Immortal Emperor was taken aback, then immediately said, "Impossible!"

This body is so weak, how could it be Lu Chen's main body?

Lu Chen said, "I remember telling you before, I have no main body, or rather, all my bodies are my main body."

After hearing this, Xiyue Immortal Emperor was slightly stunned and recalled Lu Chen did mention this before, but she never took it seriously, thinking Lu Chen was fooling her.

Xiyue Immortal Emperor said, "Do you think I would believe such an absurd lie?"

Lu Chen replied, "How could I deceive you, you're my couple."

Xiyue Immortal Emperor said coldly, "You're not my couple, you're just my male companion."

Lu Chen ignored Xiyue Immortal Emperor's designation and continued, "I'm not a fool; I wouldn't wait around for Blood Ancestor to kill me."

“I cultivated a rather unique Great Dao. The bodies I create are all my main bodies, and my consciousness can shift to any one of them.”

“So as long as I have one body left, it’s very difficult for me to be killed.”

Xiyue Immortal Emperor scrutinized Lu Chen, trying to see through any lies, but seeing Lu Chen’s serious demeanor, it seemed he wasn’t lying.

This left Xiyue Immortal Emperor conflicted; should she believe such an absurd lie from Lu Chen?

Normally, Lu Chen wasn’t afraid of Blood Ancestor, there must be a reason for his confidence, perhaps this is the source of it.

But her concern is Lu Chen might be bluffing her, having no actual means, simply courting death.

After thinking for a moment, Xiyue Immortal Emperor said to Lu Chen, “Swear an oath.”

Xiyue Immortal Emperor felt this was a good approach; if Lu Chen lied, the Heavenly Dao would surely punish him.

If Lu Chen wasn't lying, he would certainly dare to swear an oath. If he lied and was not afraid of Heavenly Dao punishment, it would prove his main body had reached Immortal Emperor Cultivation, fearless of Heavenly Dao.

Lu Chen, to reassure Xiyue Immortal Emperor, didn't hesitate and said directly, "If my last statement deceives you, then I will never again be able to reproduce descendants."

Seeing Lu Chen has put reproduction as a pledge, Xiyue Immortal Emperor finally felt at ease.

This wretch spends all day thinking about getting others pregnant; he dared to swear such a curse, indicating he probably wasn't lying.

Seeing Xiyue Immortal Emperor's expression slightly soften, Lu Chen moved closer again, wrapped arms around her soft waist once more, and with one hand reached behind her back, and grasped her tail.

Xiyue Immortal Emperor turned her head, glaring fiercely at Lu Chen, "Get away!"

Although she relaxed a bit, her anger hadn't dissipated; this wretch started to misbehave again.

Lu Chen whispered into her ear, "Yueyue, I know you care about me, don't worry, I'll always be cautious about my safety."

Having children earns benefit, start competing for dominance in the world by marrying a wife

Upon hearing the words whispered into her ear, Xiyue Immortal Emperor immediately felt her skin prickling with goosebumps.

Just a mere male companion, yet he dared call her with such intimate terms, disgusting!

Xiyue Immortal Emperor glared at Lu Chen and said, "Stop saying such nauseating things in front of me. I'm just worried the child will have no one to take care of them."

"Get your filthy hands off!"

Lu Chen still wouldn't let go; instead, he gently kneaded the fluffy tail he held with his thumb.

A sensation like an electric shock immediately shot up to Xiyue Immortal Emperor's crown, and her heavenly fox ears couldn't help but tremble slightly. Her expression grew fiercer, her fangs almost emerging.

Seeing the reaction, Lu Chen continued, "Blood Ancestor wants to kill me, but I also want to deal with him. However, he's from Outer Heaven, and getting rid of him isn't easy."

"Now that the Barbaric Land is invading the Southern Domain, Blood Ancestor is likely to act next. It'll depend on whose power is stronger when he clashes with the Hidden Moon Sect Leader."

Based on Lu Chen's speculation, since Blood Ancestor just broke the seal, his strength must not be at its peak. He must have exhausted power to break the seal and will need some time to recover.

Right now, we'll wait for Blood Ancestor to act. Once he does, we'll be able to estimate his strength, and then we'll figure out how to deal with him.

Xiyue Immortal Emperor said coldly, "I've already warned you: if anything happens to you, I won't be coming to save you."

Though she said this, a thread of worry did linger in her heart. Given Lu Chen's Divine Soul, he could control all bodies, but what if one of his bodies got trapped by some prohibition?

She could only hope that Lu Chen would be careful and not act too recklessly.

Suddenly, Xiyue Immortal Emperor thought of something and said to Lu Chen, "Your main body refuses to come, and I won't force you, but you must sign the Unity Seal with me."

In her inherited memories, Xiyue Immortal Emperor had found a contract specifically designed to protect one's destined person.

As long as both parties sign the Unity Seal, Xiyue Immortal Emperor can immediately sense if Lu Chen is in danger and can rush to his location to protect him.

Upon hearing this, Lu Chen asked with curiosity, "Unity Seal? What is that supposed to be?"

Xiyue Immortal Emperor said indifferently, "A contract that allows me to sense your situation at any time."

Lu Chen looked at Xiyue Immortal Emperor skeptically, "You're not trying to control me, are you?"

Xiyue Immortal Emperor scoffed, "Control you? You give yourself too much credit. A mere male companion, do I need to use such means to control you?"

As she spoke, Xiyue Immortal Emperor raised her delicate hand, then condensed a drop of fresh blood, writing the Unity Seal's content in the air.

The gist of it is that after the Unity Seal is signed, both parties can perceive what the other is doing.

Seeing the contract details of the Unity Seal, Lu Chen breathed a sigh of relief, realizing that it was just like this—something he could agree to.

However...

He had a vague sense of foreboding.

After displaying the contract details, Xiyue Immortal Emperor said, "Sign your name immediately."

Lu Chen hesitated for a moment but eventually condensed a drop of fresh blood and wrote his name in the air.

He had just written his name in the air when the blood-congealed Unity Seal contract split into two copies and entered both their bodies, directly embedding into the Divine Soul.

In that instant, Lu Chen felt his vision become incredibly clear, and most importantly, he seemed to sense Xiyue Immortal Emperor's warmth.

Lu Chen was somewhat surprised by the strange sensation, and just as he wanted to say something, he saw Xiyue Immortal Emperor staring directly at him, black-faced.

Lu Chen felt a pang of guilt, "Wh-what's wrong?"

Xiyue Immortal Emperor said coldly, "Serving me, yet having illicit affairs with other women."

After the Unity Seal activated, Xiyue Immortal Emperor immediately sensed what Lu Chen's various bodies were doing, and she noticed three of his bodies busy elsewhere.

This made Xiyue Immortal Emperor incredibly furious. Ever since she learned Lu Chen was her destined one, her possessiveness towards him grew immensely strong.

Though she previously suspected, during their dual cultivation, that when Lu Chen seemed distracted he was indulging with other women, those were just suspicions; he might have been doing other things.

But with the Unity Seal, she could now clearly sense Lu Chen enjoying the charms of another, enraging her.

This bastard! She worried about his safety, yet he's busy with such things.

When he heard Xiyue Immortal Emperor's words, Lu Chen's heart sank.

He had a premonition that Xiyue Immortal Emperor would perceive what his other bodies were doing, and she did.

Lu Chen said awkwardly, "You can surely block the perception, right?"

The Unity Seal isn't always connected; it can be temporarily blocked. However, generally, a Nine-tailed Heavenly Fox won't block perception of their destined one, for fear of being unable to rescue them if something happens.

Although Xiyue Immortal Emperor was annoyed, she realized trying to make him change was impossible, knowing what kind of person Lu Chen was.

Fine, dogs can't change eating dung, as long he stays safe, he can do as he pleases.

Perhaps because she knew what kind of person Lu Chen was from the beginning, Xiyue Immortal Emperor had some mental preparation; despite her annoyance, she could reluctantly accept.

Xiyue Immortal Emperor, expressionless at this moment, said, "With your current Cultivation State, you want to eliminate Blood Ancestor? You're not focusing on improving your cultivation to become Immortal Emperor, rather thinking about frivolous matters. Blood Ancestor could destroy you like a snap."

After sensing Lu Chen's status via the Unity Seal, Xiyue Immortal Emperor confirmed that he was only at the Immortal King Realm, which to an Immortal Emperor is like an ant.

Blood Ancestor wanting to kill Lu Chen is as easy as crushing an ant, while Lu Chen wanting to defeat Blood Ancestor is a fool's dream.

Upon hearing Xiyue Immortal Emperor, Lu Chen smiled slightly and said, "My cultivation path is the Reproduction Path, procreating is cultivation for me."

Listening to Lu Chen, Xiyue Immortal Emperor looked at him speechlessly. She had heard this before, but couldn't help thinking Lu Chen's so-called Reproduction Path was nonsense. Indulging daily leads to becoming an Immortal Emperor?

What would dedicated cultivators think of this?

How bizarre must the Heavenly Dao be to evolve such a Cultivation Path?

Xiyue Immortal Emperor no longer cared for Lu Chen's words, having confirmed that each of Lu Chen's bodies could act as the main body, and with the Unity Seal, none would perish completely as long as one remains with her.

Having children earns benefit, start competing for dominance in the world by marrying a wife

Southern Domain, Blood Eagle Hall.

Outside the Blood Eagle Hall, there stands a massive figure towering ten thousand feet, emanating a thick blood aura. Even from thousands of miles away, people can feel the terrifying blood aura he exudes.

Blood Ancestor looked at the Blood Eagle Hall before him and burst into loud laughter, "I have finally come out!"

Blood Ancestor's voice was as loud as a great bell, causing the ears of those Evil Immortals inside the Blood Eagle Hall to buzz.

After laughing for a while, Blood Ancestor controlled his emotions and then recklessly released his Divine Sense, wanting to find Lu Chen's location.

However, as soon as he released his Divine Sense, a vast Divine Thought swept over his body, making Blood Ancestor instantly feel a chill throughout his body.

This is...

Blood Ancestor immediately retracted his Divine Sense.

That Divine Thought came from the Northern Domain. As far as he knew, only the Demon Emperor resided in the Northern Domain, which means the owner of that Divine Thought was the Demon Emperor, who was probing his condition.

If it were an ordinary Immortal Emperor, he would not be afraid at all, being a person from Outer Heaven. However, he clearly sensed a hint of eerie creatures in that Divine Thought just now.

What's going on?

This moment left him startled.

Not to mention that he had barely broken free from the Heavenly Dao's suppression and hadn't fully restored his strength yet, even if his strength were fully restored, he was afraid he wouldn't be a match for the other party.

Having the power of an Immortal Emperor, combined with the undead nature of eerie creatures, could easily wear him down to death.

Blood Ancestor was somewhat puzzled. Weren't the eerie creatures also suppressed by that person? How could there still be eerie creatures active in the Tianyan Immortal Domain, and even breaking through to the Immortal Emperor Realm?

Could it be that his perception was wrong?

Highly unlikely.

He was extremely sensitive to eerie auras and did not believe he had misperceived.

To inquire about Xuan Qingyun, Blood Ancestor immediately questioned the Blood Demon Immortal Venerable in front of him, "Tell me everything you know about the Demon Emperor!"

Upon hearing this, the Blood Demon Immortal Venerable was taken aback, matters concerning the Demon Emperor?

Why was Blood Ancestor asking about the Demon Emperor?

Could it be he wanted to unify the entire Tianyan Immortal Domain and thus wanted to understand the Demon Emperor's strength?

Without thinking much, the Blood Demon Immortal Venerable directly condensed the memories he knew about the Demon Emperor into a Memory Pearl and presented it to Blood Ancestor.

Blood Ancestor released a strand of blood aura to read the memories within the Blood Demon Immortal Venerable's Memory Pearl. After reading the memories, he fell into contemplation.

The Demon Emperor's cultivation method indeed seemed somewhat similar to eerie creatures, especially the fact that once an Immortal transforms into a Heavenly Demon, they would devour Immortals to gain strength, just like eerie creatures.

Eerie creatures can also grow stronger by devouring the blood, flesh, and Divine Soul of Immortals.

However, the biggest difference is that Heavenly Demons can be eliminated, and the Divine Light Thousand Lamp Scripture spread by Lu Chen seems to have a very strong restraint against Heavenly Demons.

Blood Ancestor fell into a long silence. Whether it was the aura he sensed or the strengthening method of the Heavenly Demons, all pointed toward the connection between the Demon Emperor and eerie creatures.

Even if the Demon Emperor were not an eerie creature, he likely had a significant connection with them. Could it be she was converted into an eerie creature?

If she were indeed an eerie creature, with her cultivation now at the Immortal Emperor level, how could she tolerate Lu Chen's continued existence?

Compared to him, eerie creatures and Lu Chen are the real mortal enemies.

If the Demon Emperor were an eerie creature, upon sensing Lu Chen's aura, she would choose to strike at Lu Chen, eliminating this mortal enemy immediately.

But evidently, the other party did not do so; even the Demon Emperor allowed Lu Chen to reinforce the seals at the Sunset Mountain Range, which seemed quite strange no matter how you look at it.

How could eerie creatures just watch as their own are sealed without any reaction?

At this moment, Blood Ancestor felt somewhat confused. He indeed wanted to kill Lu Chen. If it weren't for Lu Chen, he wouldn't have ended up in his current plight, nor would he have been suppressed by the Heavenly Dao for countless ages.

But now, there's a big problem: if he kills Lu Chen, who will deal with those eerie creatures?

Lu Chen's Chaos Spirit Ruins Sealing Heaven Array should also be something he could inscribe, but he lacked the confidence to seal the Demon Emperor. Most importantly, Lu Chen is a deterrent to the eerie creatures.

If Lu Chen were to be killed now, it might not be beneficial for him.

Blood Ancestor immediately felt extremely annoyed. Lu Chen had caused him to be suppressed by the Heavenly Dao in the Tianyan Immortal Domain for countless ages, with his power siphoned and transformed into immortal power of the Tianyan Immortal Domain. Yet after barely breaking through the seal, he still couldn't kill Lu Chen.

The most crucial point is that Lu Chen's current strength does not seem that formidable; it's evident that he has reincarnated, making this the best time to kill him. If he doesn't kill Lu Chen now, it might be his last chance ever.

After struggling for a while, Blood Ancestor decided to temporarily put the matter of killing Lu Chen aside and first find a way to figure out the relationship between the Demon Emperor in the Northern Domain and the eerie creatures.

If the Demon Emperor were indeed an eerie creature, then he would find a way to push Lu Chen forward. Isn't Lu Chen the mortal enemy of the eerie creatures? He doesn't believe eerie creatures can tolerate Lu Chen's continued existence.

He'd just wait and watch them wear each other down.

As for why the Demon Emperor didn't strike at Lu Chen, it's likely because the Demon Emperor hadn't recognized Lu Chen, or perhaps this Demon Emperor had only recently been transformed into an eerie creature and didn't know how much of a threat Lu Chen posed to eerie creatures or the extent of Lu Chen's enmity with them, which is why no action had been taken against Lu Chen all this time.

If the Demon Emperor were indeed the later transformed being, the next course of action would be to let the Demon Emperor recognize the extent of the danger Lu Chen poses to eerie creatures, thus inciting conflict between them.

Just as well, he could also use this opportunity to gauge exactly what level of strength Lu Chen possessed nowadays.

Lu Chen indeed seemed to have reincarnated, but Blood Ancestor wasn't confident about what level of strength Lu Chen's main body had recovered to now, so seeking revenge on Lu Chen at this moment posed significant risks.

If Lu Chen had regained most of his strength and he rashly went to seek vengeance, he would be courting death; the most crucial thing now is that his strength has not yet fully returned.

The immediate priority is to restore his strength first, and then deal with those barbaric fellows.

Thinking of this, Blood Ancestor immediately said to the Blood Demon Immortal Venerable, "Have the leaders of all the Southern Domain forces come and see me! The intensity of this war is not enough!"

He needed more Immortal Blood Qi to fully restore his strength. Currently, the Southern Domain and the Barbaric Lands were in a state of mutual probing. Although many Immortal Kings had fallen, none of the Immortal Venerable-level beings had taken action, with both sides' Immortal Venerates watching the battle unfold.

This won't do. If he wished to fully restore his strength, it would be best to absorb the blood qi of Immortal Venerates.

Hearing Blood Ancestor's words, the Blood Demon Immortal Venerable immediately felt extremely excited; now that Blood Ancestor had emerged, they were finally able to intimidate those forces.

Having children earns benefit, start competing for dominance in the world by marrying a wife

The leaders of the various forces in the Southern Domain were extremely anxious after hearing that the Blood Ancestor had emerged from seclusion.

Back when they sided with the Blood Eagle Hall, and the Heavenly Splendor Hall attacked the Blood Eagle Hall, all the forces sat idly by, ignoring the Blood Eagle Hall's mobilization.

Now that the Blood Ancestor has emerged, he might catch a few examples and make an example of them, killing the chicken to scare the monkey.

Thinking of this, some leaders, who were feeling guilty, considered betraying the Southern Domain. However, they realized that now, with the Blood Ancestor aiming to establish his authority, betraying the Blood Eagle Hall could make them prime targets for punishment.

Most importantly, betraying the Blood Eagle Hall now, they seemed to lack any protective backing.

Turning to the Barbaric might result in their forces being destroyed by the Blood Ancestor before the Hidden Moon Sect Leader even arrives.

Following the Heavenly Splendor Hall to the Eastern Domain wasn't feasible either, as they hadn't sent envoys to discuss the matter, and Xiyue Immortal Emperor might not clash with the Blood Ancestor for them.

Back then, the Blood Ancestor ignored Xiyue Immortal Emperor's descending Divine Thought in the Southern Domain because he hadn't emerged, and perhaps Xiyue Immortal Emperor knew he hadn't emerged, which is why they just issued a warning.

Now that the Blood Ancestor is out, possessing Immortal Emperor Level power, who would indulge whom?

Why would Xiyue Immortal Emperor confront another Immortal Emperor for their sake?

After much internal struggle, the leaders of the Southern Domain's forces ultimately decided to head to Blood Eagle Hall.

Blood Eagle Hall.

In the sky, warships rapidly approached the Blood Eagle Hall.

As the leaders approached the Blood Eagle Hall, they could see the towering figure of the Blood Ancestor piercing the sky. Even without exerting pressure, the Immortal Venerates felt immense pressure as they got closer.

The leaders of the Southern Domain's forces proactively lowered their altitude and approached the Blood Ancestor, paying their respects. Once all the leaders had gathered, the Blood Ancestor glanced at the present Immortal Venerates, then spoke to the Blood Demon Immortal Venerable: "See who hasn't come."

Hearing this, the Immortal Venerates were shocked. Was he planning to settle accounts with those who didn't show up? Fortunately, they came, or they might have been the chicken in the proverbial "killing the chicken to scare the monkey."

The Blood Demon Immortal Venerable glanced at the present Immortal Venerates and then said to the Blood Ancestor, "Blood Ancestor, except for the low-level Immortal Sects we have already conquered and those that have sided with the Barbaric, almost everyone has arrived."

Hearing this, the Blood Ancestor suddenly unleashed his Emperor's Mighty, forcing all flying Immortal Venerates to the ground.

Merely unleashing his Emperor's Mighty, cracks appeared on the ground, as if the Southern Domain could disintegrate at any moment.

Feeling the pressure from the Blood Ancestor, the Immortal Venerates were drenched in sweat, trembling.

Is this the power of an Immortal Emperor?

They once harbored the illusion that the Blood Ancestor might be nearing the end, his power diminished.

Recalling their absurd notions, the Immortal Venerates wished they could slap themselves.

If they had steadfastly stood by the Blood Eagle Hall, helping against the Heavenly Splendor Hall, their status among Southern Domain's forces would undoubtedly be higher than most.

Regret was futile now; they could only try to perform well before the Blood Ancestor going forward.

The Blood Ancestor coldly asked, "Which forces have sided with the Barbaric?"

The Blood Ancestor's voice thundered, making ears buzz, and hearts almost stop in the audience.

The Blood Demon Immortal Venerable responded, "Mostly low-level Immortal Sects have sided with the Barbaric. However, one top force initially chose to ally with the Barbaric."

"That force is the Xuanxiao Immortal Sect. When the Barbaric first invaded the Southern Domain, they chose to join the Daqin Immortal Dynasty, becoming an affiliate."

Hearing this, the Blood Ancestor paused.

"Daqin Immortal Dynasty? If I recall, Lu Chen founded that dynasty, right?"

The Blood Demon Immortal Venerable replied, "Yes."

The Blood Ancestor fell silent momentarily; he did not wish to conflict directly with Lu Chen yet, hoping Lu Chen would deal with the Northern Domain's Demon Emperor.

Coming to his senses, the Blood Ancestor coldly snorted, "Ignore the Xuanxiao Immortal Sect for now. As for those who joined the Barbaric, I want them completely gone within a month."

Upon hearing this, the Blood Demon Immortal Venerable felt puzzled. The Blood Ancestor had always shown intense animosity towards Lu Chen, so why refrain after emerging?

He thought the Blood Ancestor would strike the Xuanxiao Immortal Sect first to make an example.

Then, all the Immortal Venerates spoke in unison: "We heed the Blood Ancestor's command!"

The Blood Ancestor released his Divine Thought again, scanning the entire Southern Domain, more restrained this time.

He quickly detected a threat near the Sunset Mountain Range, but it was just a body, seemingly refined by someone.

The Blood Ancestor smirked disdainfully. Was this Barbaric's confidence in attacking the Southern Domain?

To think they'd attack the Southern Domain after refining an Outer Heaven person's corpse.

Even a mighty so-called Divine Corpse, without a Divine Soul, is far less formidable. Only those with a Divine Soul are truly powerful; a soulless body has very weak lingering strength.

Who knows how long that body has existed. The Heavenly Dao in the Tianyan Immortal Domain has always siphoned Outer Heaven people's power to convert it into Immortal Aura, weakening them over time.

Moreover, that corpse was just refined by an Immortal Venerate. Killing them would render the corpse uncontrollable.

The Blood Ancestor didn't regard the "Divine Corpse" as a threat.

Of course, he didn't plan to kill the Hidden Moon Sect Leader controlling the corpse just yet; his power hadn't fully recovered after escaping the Heavenly Dao's suppression.

The Blood Ancestor addressed the Immortal Venerates, "I've heard that some among you initially resisted the Blood Eagle Hall's Immortal Order?"

Hearing this, the Immortal Venerates panicked internally. Were they about to settle accounts, make an example?

Just as the Immortal Venerates expected the Blood Ancestor to act against them, he spoke, "I'll give you one last chance. If you excel in the coming war, I'll overlook past deeds, but if you remain as before, your forces won't need to exist, and I'll act myself."

Hearing this, the Immortal Venerates were stunned. The Blood Ancestor wouldn't make an example?

The Blood Ancestor seeks them to fight fiercely in the war ahead; they're more valuable alive.

He believed the leaders would know what to do after his warning. However, if any continued defying commands, the Blood Ancestor wouldn't hesitate to personally deal with them.

The Blood Ancestor then spoke further, admonishing the leaders, before dismissing them.

Having children earns benefit, start competing for dominance in the world by marrying a wife

The leaders of the Southern Domain forces were all surprised that the Blood Ancestor was so easy to talk to, not using violence as a deterrent, nor settling accounts with them.

This led some to wonder if the Blood Ancestor was just putting on a facade, and perhaps wasn't as powerful as claimed, merely bluffing.

After all, the Blood Ancestor is an Evil Immortal, and everyone knows what kind of person an Evil Immortal is. The Blood Ancestor is the head of all Evil Immortals in the Tianyan Immortal Domain, comparable to an Immortal Emperor - how could he be so easily swayed?

Perhaps it is because the Blood Ancestor's time is up, and his strength is diminished, so he dare not make a move against them, knowing any action would betray his weakened state.

Stone Sun Immortal Dynasty.

In the Meeting Hall, officials of the Immortal Dynasty were discussing how to approach the Barbaric Power.

Since returning from Blood Eagle Hall, the Stone Sun Immortal Emperor had been pondering whether to continue following the Blood Ancestor or to directly join the Barbaric Power.

With the Blood Ancestor not making a move to deter others or display his power at this point, it seems the rumors are true - his time might well be up.

Thinking from the angle that his time is up, many things make sense, such as why he doesn't act, settle accounts, or commands them to counterattack the Barbaric Power.

It is because he is failing, that he resorts to mobilizing Southern Domain forces for his own gain.

Otherwise, with his cultivation state as an Immortal Emperor, he could easily send a divine thought to the battlefield to intimidate the Barbaric Power. Yet, he does nothing, instead letting Southern Domain forces stand at the forefront of Blood Eagle Hall.

The Stone Sun Immortal Emperor predicts that the Southern Domain will lose this war, and thus hesitates on whether to join the Barbaric Power now.

The Stone Sun Immortal Dynasty is considered a top-tier force, with three Immortal Venerates, though two are nearing their end, the overall strength of the dynasty remains formidable.

The Stone Sun Immortal Emperor worries that joining the Barbaric Power now might not ensure the survival of the Immortal Dynasty; if dissolved, joining the Barbaric Power would be meaningless.

Whether to defect depends on the profit enough. If they can preserve their current territory and receive some benefits, he would be willing to side with the Barbaric forces.

As the discussions in the Meeting Hall continued, an Immortal Monarch entered the hall, "Your Majesty, Upper Sect Immortal Order!"

Those words silenced the discussions instantly. The Stone Sun Immortal Emperor raised his hand, and the jade scroll flew into the hall's air, slowly opening to reveal text projected midair.

The order from Blood Eagle Hall was simple: the Stone Sun Immortal Dynasty must immediately send troops to the Purple Phoenix Immortal Sect, to help resist invaders.

Upon reading the command, the Stone Sun Immortal Emperor asked, "Beloved officials, what do you think I should do next?"

An Immortal King replied, "If Your Majesty has decided to join the Barbaric forces, then we won't send troops, just to confirm if that one is truly powerless now."

Hearing this, the Stone Sun Immortal Emperor's fingers tapped continuously on the armrest of his Dragon Throne, as if contemplating something important.

He also intended to use this opportunity to test the Blood Ancestor. If he disobeyed the Immortal Order and still the Blood Ancestor did nothing, then it would prove the Blood Ancestor's power indeed had waned.

However, such action was risky, with great danger. If the Blood Ancestor were still strong, their defiance might prompt him to act against them, using it to intimidate other Southern Domain forces.

At this moment, silence reigned in the Meeting Hall, as all eyes were on the Stone Sun Immortal Emperor, awaiting his decision.

After an unknown amount of time, the Stone Sun Immortal Emperor spoke, "No need to defy the Immortal Order. Since Blood Eagle Hall commanded us to send troops, we shall, taking this opportunity to demonstrate our worth to the Barbaric forces."

If they wanted to join the Barbaric powers, Stone Sun Immortal Dynasty must show sincerity. If they simply defected, the Barbaric forces might not believe their genuine surrender, nor would they offer benefits, while allowing the dynasty's continuance. Why accept their allegiance?

Only by playing a significant role in the war could the Barbaric forces agree to their terms.

Sending troops was a chance to demonstrate the Stone Sun Immortal Dynasty's value. Striking the Purple Phoenix Immortal Sect from behind, breaking their defenses internally, would clearly show the dynasty's worth.

The Stone Sun Immortal Emperor promptly ordered the mobilization of armies towards the Purple Phoenix Immortal Sect, while secretly sending envoys to negotiate the dynasty's allegiance with the Hidden Moon Sect in Barbaric-controlled areas.

Many realm leaders had similar thoughts as the Stone Sun Immortal Emperor, but most didn't dare take the gamble. After witnessing the Blood Ancestor's oppressive aura, some believed even if he was nearing his end, his remnant strength could still crush them, so upon receiving the Blood Eagle Hall's Immortal Order, they followed obediently without any intent to join the Barbaric forces.

As a result, the war between the Barbaric forces and the Southern Domain intensified. Following the Southern Domain's counterattack, the number of fallen Immortal Kings increased.

The Immortal King is the cornerstone of a power, each having potential to become an Immortal Venerate. Witnessing the continuous fall of Immortal Kings, some Barbaric forces grew restless, wanting their Immortal Venerates to act directly.

The Barbaric forces have far more Immortal Venerates combined than the Southern Domain, plus the ongoing war has considerably diminished the various forces' qi fortunes in the Southern Domain. Hence, some Barbaric Immortal Venerates believe it's time for full-scale war.

Southern Domain, White Rainbow Immortal City.

Above the Immortal City, dozens of Immortal Venerates hovered in the air, discussing the Southern Domain's war.

Just then, the ground began to tremble, drawing everyone's gaze towards the Sunset Mountain Range, where a colossal divine corpse gradually approached the White Rainbow Immortal City. Each step it took left a massive footprint upon the ground.

The divine corpse halted before White Rainbow Immortal City, and the Hidden Moon Sect Leader atop its shoulder surveyed the Immortal Venerates before speaking, "Now that everyone is here, let us begin."

With those words, the Hidden Moon Sect Leader raised his hand, forming an isolation array overhead.

Once the array was set, the Hidden Moon Sect Leader spoke, "Recently, Southern Domain forces have started to counterattack. Our deduction suggests it may be related to the Blood Ancestor coming out of retreat."

Hearing this, the Immortal Venerates present grew extremely grave. Their greatest fear was the Blood Ancestor truly possessing the power of an Immortal Emperor.

If the Blood Ancestor was indeed an Immortal Emperor, and at the peak of his powers, the Hidden Moon Sect Leader alone likely couldn't be a match.

Having children earns benefit, start competing for dominance in the world by marrying a wife

For a moment, the atmosphere in the sky felt somewhat oppressive.

At this time, Dragon Soaring Immortal Venerable spoke: “I have gathered some information about the Blood Ancestor. After the Blood Ancestor emerged from seclusion, he immediately summoned the leaders of the various forces in the Southern Domain.”

“Initially, those forces in the Southern Domain thought the Blood Ancestor intended to settle accounts with them, to make an example by killing some, but in the end, the Blood Ancestor didn’t take action. He didn’t kill any of the Immortal Venerates or strike at anyone; he simply used the Emperor’s Might to intimidate them.”

“Just think, an Evil Immortal, and an Immortal Emperor at that, if at the peak of his power, could he really tolerate those ants not following his orders?”

“Therefore, I believe his time is near, and he doesn’t dare to act. Once he does, his strength will be revealed as less than an Immortal Emperor.”

After hearing these words from the Dragon Soaring Immortal Venerable, the Immortal Venerates present fell into deep thought. They had more or less heard about the Blood Ancestor summoning the leaders of the various forces in the Southern Domain, and indeed, the Blood Ancestor’s actions seemed peculiar.

Just summoning those leaders without settling accounts, the Blood Ancestor, being an Immortal Emperor, couldn't possibly be so accommodating.

At this moment, Dragon Soaring Immortal Venerable continued, "We should go all out and not delay any longer."

The Azure Dragon Hall has now occupied much of the Southern Domain's land, and the Azure Dragon Hall's Qi Fortune has begun to rise as a result, allowing the Immortal Venerates of the Azure Dragon Hall to taste success, so the Azure Dragon Hall has always advocated for a full attack.

Of course, it's not just the Azure Dragon Hall. Many Barbaric Powers also hope to advance comprehensively, though some are concerned that starting an Immortal Venerable level war will result in Immortal Venerates' demise.

And for some forces that have fewer Immortal Venerates, or perhaps only one, if their Immortal Venerate falls, they will quickly perish in this chaotic era.

A force like Azure Dragon Hall, which has multiple Immortal Venerates, naturally wouldn't worry about initiating an Immortal Venerate war. Even if some of their Immortal Venerates fall, it wouldn't shake their position.

Dragon Soaring Immortal Venerable then looked towards Lu Chen in the not-so-distant, continuing: “Moreover, we have Lu Chen. If the Blood Ancestor is strong, we can use Lu Chen’s Chaos Spirit Ruins Sealing Heaven Array to seal the Blood Ancestor.”

Hearing this, everyone’s gaze turned to Lu Chen.

Lu Chen just quietly listened to Dragon Soaring Immortal Venerable, not saying a single word.

At this point, the Hidden Moon Sect Leader spoke: “There is some truth to Dragon Soaring Immortal Venerable’s words. In that case, let’s initiate the Immortal Venerate war.”

The Hidden Moon Sect Leader could hardly wait. As the Hidden Moon Sect’s territorial influence expanded, its Qi Fortune became very thick, quickly increasing his power.

He is now at the Fourth Layer Heaven of Immortal Venerate, leading all Immortal Venerates in the Tianyan Immortal Domain. Feeling the fast growth in power from his rapid advancement, he increasingly desires to break through to the Immortal Emperor Realm.

Now that the Blood Ancestor has emerged and has not settled accounts with the Southern Domain forces that previously opposed the Blood Eagle Hall, this

suggests that the Blood Ancestor is likely strong on the outside but weak on the inside. He is very eager to know if eliminating the Blood Ancestor could provide him with the Emperor Formation Method.

Hearing the Hidden Moon Sect Leader's words, some were pleased while others were worried, but Lu Chen showed no expression throughout. He seemed to be watching the show, as if none of it related to him.

Lu Chen has also gained many benefits from this war, and the Qi Fortune of the Daqin Immortal Dynasty has been rapidly rising, though the rapid expansion has also brought many problems.

Many of the affiliated forces joining the Daqin Immortal Dynasty actually share the same mindset as the Xuanxiao Immortal Sect; they see the Daqin Immortal Dynasty as a safe haven, rather than truly allegiance to the dynasty.

After the war ends, these forces may very well collude with other Barbaric Powers and betray the Daqin Immortal Dynasty.

However, these are not major issues for Lu Chen. He aims to expand primarily because he holds the Heaven Opening Seal, which allows him to absorb the Qi Fortune of all people. To absorb their Qi Fortune without being noticed, he must continue to expand.

Even if these forces don't sincerely pledge allegiance, he can still absorb their Qi Fortune.

After deciding, the Hidden Moon Sect Leader made some arrangements, then sent the Immortal Venerates back to the front lines.

Once the Hidden Moon Sect Leader allowed Immortal Venerates to engage, Barbaric Immortal Venerates quickly attacked the Immortal Sects in the Southern Domain, fully launching the war between Barbaric Powers and the Southern Domain.

With Immortal Venerates involved, the war's intensity escalated to another level. Numerous small forces in the Southern Domain disintegrated overnight, countless Immortal Dynasties destroyed, and death tolls reached billions.

Both Immortals and mortals, even if Immortal Venerates did not target them deliberately, could still be affected by the aftermath of battles between Immortal Venerates.

Some weaker forces in the Southern Domain, seeing the war's escalation, had no choice but to migrate north. In no time, massive numbers of Immortals fled north, seeking refuge in the Central Domain.

But the Blood Eagle Hall clearly won't allow these people to leave the Southern Domain. To prevent another Heavenly Splendor Hall situation, they had long sent

people to set up defenses along the northern Boundary Sea, ensuring no one could leave the Southern Domain.

As the Immortal Venerate war expanded, the Southern Domain became riddled with wounds, its Qi Fortune declining, and a thick Death Qi hung over its skies.

Since the Immortal Venerate war began, the whole Southern Domain has been covered in a gray haze daily, without sunlight, gloomy and oppressive.

The lack of sunlight poses no problem for Immortals, but it is a disaster for mortals; food crops began to fail, leading to widespread famine in the mortal world and countless deaths, further accelerating the loss of the Southern Domain's Qi Fortune.

To Immortals, mortals are like ants, and with the lifting of some restrictions on Immortals bearing offspring, mortals become even less valuable, so the death of countless mortals does not bother Immortals.

Nevertheless, the fact that others do not care does not mean Lu Chen remains indifferent, as the larger the population, the more Qi Fortune he can absorb.

Xuanxiao Immortal Sect.

In the Meeting Hall, Lu Chen sat on the Immortal Throne in the main seat.

At this point, Immortal Venerable Xuanxiao was the first to ask: “I wonder what matter Your Majesty has summoned us to discuss?”

Since Xuanxiao Immortal Sect pledged allegiance to the Daqin Immortal Dynasty, Lu Chen has adopted a laissez-faire approach, scarcely managing the Xuanxiao Immortal Sect. If something required Xuanxiao Immortal Sect’s cooperation, he merely transmitted instructions to Immortal Venerable Xuanxiao.

Today marked the first time he gathered all the Elders of Xuanxiao Immortal Sect.

Lu Chen said flatly, “Now, the war between Barbaric Powers and the Southern Domain has broken out in full, and the battles between Immortal Venerates have brought great disaster to the Southern Domain, with countless perishing in the war.”

Upon hearing Lu Chen’s words, everyone in the hall paused, unsure of why Lu Chen mentioned this.

Having children earns benefit, start competing for dominance in the world by marrying a wife

Capítulo 2070: Chapter 1760: Should I Call You Grandmaster?

Immortal Venerable Xuanxiao spoke at this moment, “Your Majesty, battles between Immortal Venerates are like this. Even if there’s no intention to target certain powers, the aftermath of an Immortal Venerate’s battle can still affect others.”

Lu Chen continued, “So, I have decided to evacuate the population wishing to avoid the chaos of war from the Immortal Venerates’ battlefield to give them a path to survival.”

This...

Lu Chen’s words genuinely surprised those present. Was their emperor really so kind-hearted?

Lu Chen further said, “This matter will be entrusted to the Xuanxiao Immortal Sect. Next, you will release the news externally, saying that the Daqin Immortal Dynasty is willing to shelter the world’s common people. Anyone wishing to escape the war, whether an Immortal or a Mortal, can go to the Xuanxiao Immortal Sect, and then through the Xuanxiao Immortal Sect, reach the Barbaric regions.”

Upon hearing Lu Chen's words, the elders of the Xuanxiao Immortal Sect couldn't help but furrow their brows slightly.

Currently, in the Southern Domain, many people want to leave, but Blood Eagle Hall has set up a line of defense to the north. It's not easy to leave the Southern Domain.

And with the Barbaric regions and the Southern Domain at war, fleeing towards the Barbaric regions carries too much uncertainty. Additionally, the battles between Immortal Venerates affect such a broad area that they might be crushed by the pressure released by the Immortal Venerates before reaching a peaceful zone.

But even so, as long as the Xuanxiao Immortal Sect released the message that they were willing to protect the world's common people, a large number of refugees from the Southern Domain would still flood into the Xuanxiao Immortal Sect.

This was not something the Xuanxiao Immortal Sect wanted to see.

Too many people entering would cause uncontrollable chaos within the Xuanxiao Immortal Sect, and it was possible there could be spies or lackeys of the Blood Eagle Hall among them.

What if the people from the Blood Eagle Hall took the opportunity to enter the Xuanxiao Immortal Sect and cause destruction?

Immortal Venerable Xuanxiao hesitated for a moment before saying, “Your Majesty, if this news is released, a large number of refugees will flood into the Daqin Immortal Dynasty, which might overwhelm it.”

Lu Chen dismissively said, “I just want more people to come to the Daqin Immortal Dynasty. For me, the more people there are, the stronger the Qi Fortune of the Daqin Immortal Dynasty becomes, which is a great thing.”

Immortal Venerable Xuanxiao asked puzzledly, “If Your Majesty is looking for population, you could simply allow only Immortals to enter the Daqin Immortal Dynasty. There’s no need to accept Mortals, right?”

In the past, when there was an issue with the Great Dao of Reproduction, all forces in the Tianyan Immortal Domain took Mortals very seriously, but now that the issue is resolved, Mortals are negligible to them, and there’s no need to pay attention to Mortals.

Lu Chen said indifferently, “You don’t need to concern yourselves with this. You just need to obey my orders and release this message.”

Seeing Lu Chen’s firm attitude, although Immortal Venerable Xuanxiao felt somewhat displeased, he couldn’t say much. After all, their Xuanxiao Immortal Sect was now nominally a subsidiary force of the Daqin Immortal Dynasty, so they had to listen to Lu Chen, this Immortal Emperor.

Immortal Venerable Xuanxiao then said, “Yes, Your Majesty.”

“Alright, that’s it for today. Focus on absorbing the refugees next.”

With that, Lu Chen turned and left the grand hall.

After Lu Chen left, the elders in the hall looked at each other, and then their eyes fell on Immortal Venerable Xuanxiao.

An elder asked, “Sect Master, do we really have to follow his orders and release this message?”

Ever since the Barbaric regions and the Southern Domain went to war, the armies from the Barbaric regions have been passing through the Xuanxiao Immortal Sect, causing significant trouble for the Xuanxiao Immortal Sect. Now that the Immortal City of Xuanxiao Immortal Sect is becoming more chaotic, if refugees from the Southern Domain are let in, the Xuanxiao Immortal Sect might become even more chaotic.

Immortal Venerable Xuanxiao, with a dark expression and a stern face, said, “This is the will of the Immortal Emperor. Do you have any objections?”

Immortal Venerable Xuanxiao was also displeased, but they were currently hiding under the large banner of the Daqin Immortal Dynasty, so they had to comply for the time being. It wasn't easy for them to switch allegiances at this time.

Immortal Venerable Xuanxiao knew what those present were thinking, so he reminded them, "The Barbaric regions and the Southern Domain are about to have a decisive battle. Until the war ends, His Majesty holds a crucial position in this war."

Hearing these words, the elders immediately understood Immortal Venerable Xuanxiao's meaning.

Lu Chen's Chaos Spirit Ruins Sealing Heaven Array could potentially be used to seal the Blood Ancestor. So until the Blood Ancestor is sealed, Lu Chen holds a high status in the Barbaric regions, and all the powers in the Barbaric regions would treat Lu Chen courteously on the surface.

If the Xuanxiao Immortal Sect didn't follow Lu Chen's orders and considered switching allegiances at this time, no Barbaric power would be willing to accept them. Not only would they not accept them, but they might even assist Lu Chen in eliminating traitors.

So, even if Lu Chen's orders would bring great trouble to the Xuanxiao Immortal Sect, they had to accept it for now.

After reminding the elders of the Xuanxiao Immortal Sect, Immortal Venerable Xuanxiao immediately issued a directive, instructing all city lords of the Xuanxiao Immortal Sect's Immortal Cities to open their gates to the refugees of the Southern Domain and to absorb them en masse.

As soon as the news that the Xuanxiao Immortal Sect would accept refugees was released, refugees from the Southern Domain, both Immortals and Mortals, began pouring into the Xuanxiao Immortal Sect frantically.

Currently, the Xuanxiao Immortal Sect was located in the rear of the warzone, making it much safer than other places and an ideal refuge for those who didn't want to be involved in the war.

The influx of a large population brought significant trouble to the governance of the Xuanxiao Immortal Sect, as initially anticipated by Immortal Venerable Xuanxiao and others. Conflicts among Immortals within the Xuanxiao Immortal Sect increased rapidly, and things became increasingly chaotic, causing the sect's Qi Fortune to decrease significantly.

In the blink of an eye, several decades had passed.

Mysterious Moon Palace.

Heavenly Language Peak.

Heavenly Language Immortal Venerable sat cross-legged on a cushion in her chamber, clad in a purple Immortal skirt, surrounded by Immortal Aura, exuding a graceful and noble air.

Just then, she suddenly sensed an aura intruding into her quarters. In the absence of her command, no one in the Mysterious Moon Palace could enter her chambers without permission.

Of course, Lu Chen was an exception.

Heavenly Language Immortal Venerable suddenly opened her eyes, looking warily at Lu Chen approaching her, and coldly asked, "What are you doing here?"

Although she occasionally engaged in Dual Cultivation with Lu Chen over the years, which indeed enhanced her Cultivation State, she still felt somewhat resistant internally.

Especially since this guy always humiliated her during those acts, making her feel deeply demoralized. Moreover, she gradually realized that Lu Chen engaged in Dual Cultivation with her not just to help improve her Cultivation State. He purely wanted to impregnate her, making her bear offspring for him.

After understanding Lu Chen's intentions, Heavenly Language Immortal Venerable remained vigilant against him.

Upon hearing her words, Lu Chen smiled and said, "Of course, I came to help my Honored Master advance her Cultivation State."

Heavenly Language Immortal Venerable coldly replied, "I am not your Honored Master."

Lu Chen said, "Then how about calling you Grandmaster?"

Upon hearing this title, Heavenly Language Immortal Venerable felt even more uncomfortable. Thinking about both herself and Yun Yudie being ruined by this guy, her inner sense of humiliation deepened.

Just as Heavenly Language Immortal Venerable was about to say something, all of a sudden, a surge of blood-red immortal power erupted from where Yun Meng Palace was located.

Sensing this immortal power, Lu Chen felt a chill run down his spine, his hairs standing on end.
