Capítulo 2071: Chapter 1761: Xu Jingshu's Child Is Born

Lu Chen suddenly turned his head to look in the direction of Yun Meng Palace and said with a heavy expression, "This is..."

For some reason, Lu Chen sensed a trace of mysterious power within that immortal power. If it were just the mysterious power, he wouldn't be so tense, as he had long suspected that some mysterious creature might have broken through the sealing at the Sunset Mountain Range and infiltrated the Tianyan Immortal Domain.

It's not surprising to have a mysterious creature lurking within an overlord-level force like the Mysterious Moon Palace.

What really worried Lu Chen was that he not only sensed the aura of a mysterious creature but also the aura of his own bloodline.

What does this mean?

It means that the one who released this immortal power is his child.

And since the disturbance came from Yun Meng Palace, it's apparent that Xu Jingshu's child has been born.

While Lu Chen was lost in thought, the cold voice of the system rang in his mind, "Congratulations to the host for a new offspring, reward: True Dragon Stone."

Hearing this voice, Lu Chen snapped back to reality; indeed, a child was born. Without any hesitation, his figure disappeared instantly, heading straight for Yun Meng Palace.

He didn't even look at the reward; since his child was born, he naturally had to see the child first. As for the reward, he could check it later.

He had a very bad feeling right now. Upon birth, his child's immortal power carried a hint of mysterious aura, which made him suspect whether the child could have been influenced by mysterious power or even transformed into a mysterious creature.

If that's the case, then it's troubling, as he does not wish to take action against his own child.

Seeing Lu Chen leave without saying a word, the Heavenly Language Immortal Venerable, Liumei, frowned slightly. However, she also guessed why Lu Chen left.

She thought to herself that it was good he left; otherwise, she might have had to endure his manipulative behavior again.

Yun Meng Palace.

Immortal Venerable Yun Meng was in the small world where Xu Jingshu resided. At this time, Xu Jingshu lay on the bed, and in front of her, a baby girl emitting purple immortal aura floated.

Feeling the immortal aura from the baby girl, Immortal Venerable Yun Meng had a hazy sense of memory being triggered within her divine soul.

Immortal Venerable Yun Meng shook her head and said to Xu Jingshu, “Jingzhu, take a good rest.”

At this time, Xu Jingshu looked at Immortal Venerable Yun Meng and asked, “Palace Master, is Lu Chen still in the Mysterious Moon Palace?”

After all, the child in her womb was Lu Chen's. Now that the child was born, she hoped Lu Chen could see the child as soon as possible. Besides, she hadn't seen Lu Chen for a long time, and she missed him dearly.

Upon hearing this question, Immortal Venerable Yun Meng was about to say something when an Immortal King entered the room and said to her, "Palace Master, Lu Chen wishes to enter."

Hearing this, Xu Jingshu immediately felt excited, but she quickly calmed her emotions and looked at Immortal Venerable Yun Meng. She knew she needed Yun Meng's permission to see Lu Chen, and without it, Lu Chen couldn't come in.

Immortal Venerable Yun Meng glanced at Xu Jingshu on the bed and then said expressionlessly, "Let him in."

Now that Lu Chen was of great use to the Mysterious Moon Palace, Immortal Venerable Yun Meng no longer intended to prevent him from meeting Xu Jingshu. Besides, their patriarch no longer planned to use the Possession Technique; both Xu Jingshu and Lu Chen's child held little value for the palace now.

At present, their greatest value might be as Lu Chen's weaknesses. The Mysterious Moon Palace could use them to threaten Lu Chen, compelling him to work for the palace.

To leverage Lu Chen's attachments to his family to make him work for the Mysterious Moon Palace, they needed to allow more face-to-face interactions to cultivate emotional bonds.

Only when their family ties were deep could the Mysterious Moon Palace better manipulate Lu Chen.

Soon, Lu Chen entered the small world and came to the room where Xu Jingshu was.

As soon as he entered the room, Lu Chen's attention was drawn to the floating baby girl, and seeing the purple immortal aura emanating from her body, his expression became more solemn.

His senses could not be wrong; there was indeed a trace of mysterious power within his daughter.

However, what puzzled him was that his daughter didn't seem to be a mysterious creature since she was emanating a strong immortal aura, and the trace of mysterious power was not dominating in her.

Seeing Lu Chen, Xu Jingshu showed a faint smile, but it quickly faded. She remembered how he had initially abducted her, made her pregnant, and brought her to the Mysterious Moon Palace. All this time without being able to see him made her harbor a trace of resentment.

Immortal Venerable Yun Meng glanced at Lu Chen and said to the other people in the room, "Let's go."

With that, Immortal Venerable Yun Meng led the other women out of the small world.

Once they had all left, Lu Chen approached the bed and smiled at Xu Jingshu, saying, "You've worked hard."

Xu Jingshu said indifferently, "Now that I've given you a child, should you return my freedom?"

When she had been abducted by Lu Chen, she handed over her soul source to him; with just a thought, he could end her life instantly.

Lu Chen used to tell her that if she would bear him a child, he would return her soul source.

Now that the child was born, Lu Chen should fulfill his promise.

Upon hearing Xu Jingshu, Lu Chen smiled and said, “Have I restricted your freedom?”

“Your freedom is restricted by the Mysterious Moon Palace, not by me.”

With her blood-red pupils fixed on Lu Chen, Xu Jingshu said, “You know that’s not what I mean.”

The Mysterious Moon Palace did confine her, preventing her from leaving Cloud Dream Peak, but such confinement was trivial. What truly controls a person is the soul source.

Lu Chen no longer teased Xu Jingshu. With the child born, he had no intention of continuing to control her; Xu Jingshu’s favorability towards him had long reached a hundred.

Being born with natural charm and having cultivated the Evil Technique, Xu Jingshu had already succumbed during their numerous dual cultivation sessions.

Lu Chen then extended his hand, and a red soul source flew from his palm directly towards Xu Jingshu’s forehead. As she completely absorbed the soul source, her expression turned complex as she looked at Lu Chen.

Initially, when she had been abducted by Lu Chen, she was unwilling to dual cultivate with him. However, being an Evil Immortal herself, as their dual cultivations increased, she became more depraved, ultimately becoming reliant on Lu Chen. Even without his initiating dual cultivation, she found herself desiring it.

Previously, she could claim to have been coerced by Lu Chen, using it as an excuse. Now that he had returned her soul source, she could no longer use it as an excuse to say she was forced by Lu Chen.

Thinking about this, she suddenly regretted regaining her soul source so soon.

Lost in thought, Xu Jingshu didn't notice Lu Chen gently enveloping the floating baby girl with life force and slowly drawing her towards himself.

Having children earns benefit, start competing for dominance in the world by marrying a wife

Seeing Lu Chen looking at the baby girl in his arms, Xu Jingshu snapped back to reality and said, "The child doesn't have a name yet. Since she's yours, you should name her."

Lu Chen thought for a moment, then said, "Let's call her Lu Siling."

As Lu Chen spoke, he infused the child with Life Force while probing the mysterious power within her body, trying to understand what it was all about.

Upon probing, Lu Chen's expression grew more serious, discovering that Lu Siling's bones were actually constructed from mysterious power and immortal power, and a trace of mysterious power was mixed deep within her Divine Soul.

In other words, this child could already be considered half a mysterious creature.

How could a normal Immortal like him have a half-human, half-mysterious child?

The blood coursing through Lu Siling's body was his, indeed making her his child.

Lu Chen immediately turned to look at Xu Jingshu on the bed; if it's not his problem, then it could possibly be Xu Jingshu's issue.

Could it be that Xu Jingshu was corrupted by mysterious power during pregnancy, resulting in the child being born as a half-human, half-mysterious entity?

Seeing Lu Chen staring at her solemnly, Xu Jingshu paused inside, "You... why are you looking at me like that?"

A flicker of fierceness shone in Lu Chen's eyes, sending chills down one's spine. Xu Jingshu almost wondered if Lu Chen wanted to get rid of her after she'd given him a child.

After all, she was once an Evil Immortal and also the Saintess of Blood Eagle Hall, which constantly worried her that Lu Chen was only with her to bear a child, and she might be eliminated once that purpose was served.

Lu Chen raised his hand at this point, infusing Xu Jingshu with Life Force.

When Lu Chen raised his hand, Xu Jingshu was startled again, fearing he was going to make a move, but in the next moment, she felt surging Life Force, dissipating all the fatigue and lethargy from childbirth, restoring her energy.

Xu Jingshu finally breathed a sigh of relief, thinking that perhaps this guy wasn't that heartless after all.

While infusing Xu Jingshu with Life Force, Lu Chen also investigated her body, not finding any mysterious power inside, meaning she wasn't corrupted.

What exactly was going on?

Lu Chen was momentarily puzzled, with neither he nor Xu Jingshu having any issues, yet the child they birthed was half-human, half-mysterious.

After helping Xu Jingshu recover, Lu Chen looked complexly at the child in his arms, Lu Siling.

Children born from Immortals were possessed of very high Spiritual Wisdom; upon seeing her father's expression, Lu Siling seemed to understand that her father didn't like her, and her small face twisted slightly as tears welled up and flowed down.

Lu Chen immediately realized that Lu Siling's Spiritual Wisdom, nurtured in Xu Jingshu's womb for so long, was already close to a normal person's. Seeing his expression would undoubtedly make her uneasy, believing he disliked his daughter.

Lu Chen quickly said, "Lingling, sweetheart, daddy was just lost in thought and wasn't ignoring you on purpose."

As Lu Chen spoke, he quickened the infusion of Life Force, accelerating Lu Siling's body growth visibly.

Lu Chen placed a piece of clothing on Lu Siling; in mere moments, her size grew to that of a five-year-old child. She pouted and asked babyishly, "Daddy came in so sternly staring at me; does daddy dislike me?"

Lu Chen promptly replied, "No, no. Daddy just noticed that your physique is different from others', which worried him."

Upon hearing this, the revived Xu Jingshu curiously asked, "Physique? Lingling didn't seem to have a special physique?"

When Lu Siling was born, Xu Jingshu checked her body carefully, finding no special physique.

Due to concerns that Lu Siling might inherit her Charming Body, she conducted a very thorough inspection, revealing Lu Siling was much like a normal Immortal.

Why did Lu Chen claim her physique was different now?

Holding Lu Siling, Lu Chen looked toward Xu Jingshu and said, "Her special physique is not something ordinary people can perceive."

This...

Xu Jingshu looked at Lu Chen with suspicion, sensing he might be deceiving both mother and daughter.

Lu Chen continued, "Once this physique is known to outsiders, Lingling will be in grave danger, with many potentially coveting Lingling's life in the future."

Both mother and daughter were stunned by his words.

At this time, Lu Chen used a system scan on Lu Siling.

He found nothing unusual in Lu Siling's personal data, affirming she indeed was his daughter and not a victim of Reincarnation, suggesting her unique physique was congenital.

Lu Chen wondered if it was all the doing of the Mysterious Moon Palace?

Xu Jingshu spent most of her time in this Small World, possibly manipulated by some special method of Mysterious Moon Palace, exposing Lu Siling to mysterious power, thus rendering her half-human, half-mysterious.

However, without proof, asking Immortal Venerable Yun Meng might risk revealing his daughter's half-mysterious nature if the palace wasn't responsible.

The existence of mysterious beings is too sensitive and can't be disclosed for now; he must investigate discreetly.

After a while, Xu Jingshu regained composure, looking earnestly at Lu Chen, asking, "You aren't lying to us, right?"

Lu Chen answered, "Lingling is my daughter; why would I lie to you?"

Xu Jingshu asked, "Then what is her physique?"

Lu Chen said, "I can't tell you; the physique is too unusual, and if disclosed and overheard, Lingling will never have a peaceful life."

Xu Jingshu understood that Lu Siling's awakened physique wasn't normal.

Lu Chen's gaze returned to Lu Siling in his embrace, then tugged her little cheek and said, "No matter what Lingling's physique is, you'll always be daddy's daughter. If you ever feel unwell, don't hide it from daddy, okay? Daddy will do everything to help you heal."

Lu Siling promptly replied, "Thank you, daddy."

Subsequently, Lu Chen stayed with Xu Jingshu and their daughter in the Small World for a day and night, continuously investigating the source of mysterious power.

He thoroughly checked both the mother and daughter's bodies, their residence, even the entire Small World, finding no evidence of mysterious power outside Lu Siling's body.

Moreover, he discovered astonishingly, his daughter could freely use mysterious power as easily as immortal power.

Although mysterious power is corrosive and dulls Life Force, Lu Siling's body seemed to have formed a balance, unaffected by employing mysterious power unintentionally.

Capítulo 2073: Chapter 1763: The Blood Ancestor Takes Action

After repeatedly reminding Lu Siling not to casually use the other force within her body, Lu Chen finally left the small world where the mother and daughter resided.

Lu Siling wasn't foolish; she quickly realized what special physique her father referred to, and subsequently sealed away the mysterious power within her body.

After leaving Yun Meng Palace, Lu Chen returned to his own cave on Heavenly Language Peak. Upon entering, he immediately activated the Isolation Array and then opened the system interface to check the True Dragon Stone rewarded by the system.

[True Dragon Stone: When used, it can activate the Dragon God Bloodline, granting True Dragon Power.]

Seeing the simple system introduction, Lu Chen was stunned for a moment. Dragon God Bloodline? True Dragon Power?

It seemed not too useful?

Lu Chen didn't think much further; he then took out the True Dragon Stone and, in the next moment, bit his finger to let a drop of blood fall onto it.

As his blood dripped onto the True Dragon Stone, it instantly radiated golden light, and then a dragon's roar reverberated throughout Lu Chen's cave.

Fortunately, he had activated the Isolation Array when he entered, so the dragon's roar didn't spread. As the dragon's roar rang out, a golden dragon shadow emerged from the True Dragon Stone, though this dragon shadow was merely a Dragon Qi.

This Dragon Qi circled around Lu Chen a few times before directly entering his chest.

As Dragon Qi entered his body, Lu Chen's Qi Fortune surged, and the Heavenly Heart in the depth of his Divine Soul emitted multicolored light, illuminating the entire cave.

In the next moment, Lu Chen's Immortal King Realm began to rapidly advance.

First Layer Heaven... Second Layer Heaven... Third Layer Heaven...

Until the Seventh Layer Heaven, Lu Chen's realm advancement finally halted.

Feeling the Dragon Qi within, Lu Chen was eager to test his current strength, but there wasn't an opportunity for him to act right now, so he restrained his inner excitement.

With the current pace of realm advancement, perhaps it won't be long before he breaks through to the Immortal Venerate Realm; once he does, he will have more confidence against the Blood Ancestor.

The battle between the Immortal Venerates in the Southern Domain has always been ongoing, and the fight won't end in a short time. In the blink of an eye, decades have passed.

During these decades, the Daqin Immortal Dynasty absorbed nearly a hundred billion people, their Qi Fortune continuously rising, and Lu Chen's cultivation state kept increasing rapidly, soon reaching the Tenth Heaven of the Immortal King Realm, just one step away from reaching the Immortal Venerate Realm.

Yet this final step wasn't easy, and Lu Chen wasn't anxious. He realized that despite the Blood Ancestor having been out of seclusion for so long, he hadn't come looking for him, indicating that the Blood Ancestor was either wary of something or had some scheme in mind. Since the opponent didn't seek him out, it granted him more time to grow.

After the population increase in the Daqin Immortal Dynasty, Lu Chen extensively used the Heaven Opening Seal to absorb Qi Fortune, now rivaling the Qi Fortune of most in Tianyan Immortal Domain. With the surge in Qi Fortune, he could vaguely sense the locations of other Great Qi Fortune individuals.

The first Great Qi Fortune individual he sensed was in the Eastern Domain, evidently Xiyue Immortal Emperor.

In the Southern Domain and Central Domain, he also sensed some entities with substantial Qi Fortune; however, what puzzled Lu Chen was that he didn't find any Great Qi Fortune individuals in the Northern Domain.

Xuan Qingyun had already restored her Immortal Emperor cultivation; she initially controlled Tianyan Immortal Domain's Qi Fortune, yet he couldn't sense any Great Qi Fortune individuals from the Northern Domain.

Lu Chen couldn't help but suspect that Xuan Qingyun might have left the Northern Domain and moved to the Central Domain or Southern Domain.

Even though the war between the Southern Domain and the Barbaric forces continues, signs of defeat have already started appearing in the Southern Domain. The Immortal Venerates there combined don't outnumber those from Barbaric and, with Barbaric's invasion, the factions there suffered significant destruction, causing a decline in their Qi Fortune, subsequently weakening the Immortal Venerates themselves.

The Qi Fortune of Barbaric's Immortal Venerates keeps rising, growing stronger with each battle, whereas the Southern Domain's Immortal Venerates grow weaker. Continuing the fight will inevitably lead to the Southern Domain's defeat.

Nevertheless, the Blood Ancestor has shown no signs of interfering, causing Southern Domain's factions to question his strength again.

Given how far things have progressed, the Blood Ancestor still hasn't taken action. What's he waiting for? Being an Immortal Emperor-level existence, at least he could release some Emperor's Mighty to deter Barbaric's power, granting Southern Domain's factions some relief.

In the Shiyang Immortal Dynasty.

In the Meeting Hall, Stone Sun Immortal Emperor laughed as he addressed the ministers in the hall: "It seems, as expected, that individual's strength isn't quite substantial."

"The war is already at this stage, with three defensive lines thoroughly collapsing, yet he still has no intention of intervening. Clearly, he's afraid to act lest his strength be exposed."

"Since that's the case, we should proceed with our plans."

As Stone Sun Immortal Emperor finished speaking, a figure appeared in the hall. The visitor was an Immortal Monarch, but upon seeing this person, Stone Sun Immortal Emperor quickly rose from his Immortal Throne.

“Greetings to the Azure Dragon Hall Envoy. May I ask what instructions you bring?”

The Immortal Monarch said, “Our Hall Master has agreed to the Stone Sun Immortal Dynasty’s request, but you’ll need to demonstrate sufficient sincerity.”

“In six months, our Azure Dragon Hall will launch an all-out attack on the Purple Phoenix Immortal Sect.”

Stone Sun Immortal Emperor promptly replied, “Please convey to the Dragon Soaring Hall Master that the Stone Sun Immortal Dynasty will display the utmost sincerity.”

The Immortal Monarch said nothing further and disappeared on the spot.

After he left, Stone Sun Immortal Emperor cast his gaze over the ministers in the hall once more, “You’ve all heard it. Since the Azure Dragon Hall has agreed to our conditions, we must also take action.”

...

Meanwhile,

In the Blood Eagle Hall's small world.

The Blood Ancestor, who was meditating, slowly opened his sun-like eyes.

With a cold snort, he spoke, "Daring to betray me, it seems I need to stir a bit."

Originally, he intended to let the Southern Domain and Barbaric fight to the death so he could quietly absorb the blood energy left after their deaths. But as the Southern Domain's defeat situation worsened, more factions contemplated surrendering, which was bad news for him.

If Southern Domain's factions surrendered, how could he absorb their blood energy? Right now, he didn't want to act personally. If he were to act too much, he might again face the full suppression of the Heavenly Dao.

However, given the current situation, he couldn't refrain from acting; he had to kill a chicken to scare the monkeys, thereby intimidating those factions pondering surrender.

At this moment, the Blood Ancestor directly split out a Divine Thought.

Immediately after, his body's Emperor Mighty was released.

As his body's pressure descended upon the Southern Domain, the Immortal Venerates engaged in battle paused, temporarily subdued by this pressure.

Everyone in the Shiyang Immortal Dynasty, including their Immortal Venerates, was similarly overwhelmed and couldn't move under this pressure.

Stone Sun Immortal Emperor strained, having a vague bad premonition.

At this moment, a powerful voice echoed over the Southern Domain's sky.

“Shiyang Immortal Dynasty has betrayed the Southern Domain. From today onward, Shiyang Immortal Dynasty shall cease to exist!”

Upon these words, the Blood Ancestor's Divine Thought projection appeared over the Shiyang Immortal Dynasty, and the entire Shiyang Immortal Dynasty became shrouded in blood energy. In an instant, screams echoed continuously within the Shiyang Immortal Dynasty, and within moments, tens of billions perished.

Having children earns benefit, start competing for dominance in the world by marrying a wife

Feeling the oppressive power of the Blood Ancestor and the rapidly declining Qi Fortune of the Shiyang Immortal Dynasty, Stone Sun Immortal Emperor's face turned deathly pale, and cold sweat poured from his body.

Is this the power of the Immortal Emperor? He couldn't even muster a single thought of resistance!

No! This can't go on!

He cannot die!

Stone Sun Immortal Emperor hastily pleaded, "Blood... Blood Ancestor, I... I was wrong..."

The Blood Ancestor paid no attention to Stone Sun Immortal Emperor's nonsense. He risked taking action solely to make an example, so how could he spare the people of the Shiyang Immortal Dynasty?

After this move, he would surely face another round of suppression from the Heavenly Dao and wouldn't be able to make a second move shortly. Having already decided to act, he must be swift, accurate, and ruthless!

The next moment, the Blood Ancestor's Divine Thought became tangible, and immediately, he struck a hand towards the Imperial City where Stone Sun Immortal Emperor resided.

As the enormous bloody hand descended, booming explosions echoed through the air, the Immortal Aura in the sky was constantly compressed, and the oppressive force upon the people in the Imperial City became increasingly terrifying.

Some weaker Immortals were crushed by the oppressive power even before the blood hand in the sky descended.

Stone Sun Immortal Emperor now understood clearly that the Blood Ancestor was determined to make an example, and now, nothing he said would be of any use.

Stone Sun Immortal Emperor's eyes widened with blood-red fury, and he frantically burned his Divine Soul in an attempt to flee from this place.

The next moment, he finally withstood the Blood Ancestor's oppressive power, then he attempted to tear open space and escape the Imperial City directly, but at this time, the space of the Shiyang Immortal Dynasty was completely sealed.

Stone Sun Immortal Emperor had to flee westward at his fastest speed, thinking in his heart that if he could just reach the territory controlled by the Barbaric lands, the Hidden Moon Sect Leader might intervene.

Seeing the fleeing silhouette of Stone Sun Immortal Emperor, the Blood Ancestor sneered coldly, and in the next moment, his massive blood hand suddenly accelerated.

Feeling the oppressive force coming from behind, Stone Sun Immortal Emperor was frightened and looked up sharply. The result of this glance nearly scared his soul out of his body.

The enormous blood hand had already appeared above his head. Stone Sun Immortal Emperor knew that no matter how fast he was, he couldn't escape the attack range of this blood hand. So, he desperately burned his Divine Soul and activated all his Protective Dharma Treasures, hoping to withstand the Blood Ancestor's strike.

The Blood Ancestor said indifferently, "Overestimating yourself," and the blood hand descended, turning the entire Shiyang Immortal Dynasty to dust in an instant, the land of Shiyang Immortal Dynasty shattered into pieces, and the Blood Ancestor's palm directly pierced through the entire Tianyan Immortal Domain.

The next moment, Chaos Qi madly surged from the cracks in the earth of Tianyan Immortal Domain, and in just a moment, the entire Shiyang Immortal Dynasty was covered by Chaos Qi, turning into a forbidden land.

After the Blood Ancestor annihilated the Shiyang Immortal Dynasty, the sky above Tianyan Immortal Domain immediately darkened, with countless purple lightning bolts raging among the dark clouds.

Feeling the oppressive power of the Heavenly Dao, the Blood Ancestor frowned; the suppression from the Heavenly Dao was coming.

However, he was not worried. Although the suppression would prevent him from acting for a while, the effect of making an example was achieved, and the other forces in the Southern Domain would have to reconsider before betraying the Blood Eagle Hall.

The Blood Ancestor withdrew his Divine Thought and began to resist the suppression of the Heavenly Dao.

Meanwhile.

Upon feeling the oppressive power of the Blood Ancestor and hearing his voice, all forces in the Southern Domain immediately sent people to investigate the situation at the Shiyang Immortal Dynasty.

The battle between the Immortal Venerates of the Southern Domain and the Barbaric lands also temporarily halted, with both parties' Immortal Venerates withdrawing.

The Barbaric forces also sent scouts to the Shiyang Immortal Dynasty. This was the Blood Ancestor's first attack, and both the Southern Domain forces and the Barbaric lands were highly concerned.

People wanted to know just how powerful the Blood Ancestor truly was.

As scouts from various forces arrived at the edge of the Shiyang Immortal Dynasty, they were all shocked by its devastation; the entire Shiyang Immortal Dynasty had been pierced through, leaving a massive handprint, and Chaos Qi filled the entire Shiyang Immortal Dynasty, leaving it deathly still.

White Rainbow Immortal City.

High above.

After the end of the battle of the Immortal Venerates, the Immortal Venerates from the Barbaric lands gathered again at White Rainbow Immortal City.

The Immortal Venerates stood in the air, silently, having already learned of the devastation at the Shiyang Immortal Dynasty. From the state of the Shiyang Immortal Dynasty, it was clear that not only had the Blood Ancestor destroyed the entire Shiyang Immortal Dynasty with one palm, but also killed several of its Immortal Venerates without any resistance.

This is the power of the Immortal Emperor.

It had already made all the Immortal Venerates present hesitant to proceed.

They had previously believed that the Blood Ancestor might be nearing his end, hence his reluctance to act, fearing exposure of his diminished power. But now, it seemed that the Blood Ancestor likely refrained from acting simply because he didn't feel like it.

If not for the Shiyang Immortal Dynasty's betrayal utterly enraging the Blood Ancestor, he probably wouldn't have acted to make an example.

A cool breeze blew over the high skies of White Rainbow Immortal City, causing the Immortal Venerates' robes to flutter constantly, yet it didn't dispel the heavy atmosphere.

After an unknown amount of time, the Hidden Moon Sect Leader appeared in the sky. He glanced at the silent Immortal Venerates present and then asked, "I presume you all have learned of how the Blood Ancestor destroyed the Shiyang Immortal Dynasty with one palm."

Upon hearing this, one of the Immortal Venerates spoke, "Hidden Moon Sect Leader, given the Blood Ancestor's immense power, if he were to personally confront us, we might not be a match for him, no?"

The Hidden Moon Sect Leader replied, "If he truly intended to deal with us personally, he would have acted long before now, instead of allowing us to provoke a battle of the Immortal Venerates."

Upon hearing this, everyone found it curious. Given the power the Blood Ancestor displayed in this attack, if he unleashed his full strength, destroying the entire Southern Domain wouldn't be a problem, let alone dealing with their Immortal Venerates, but why had he not yet taken action?

The Hidden Moon Sect Leader then continued, "Based on the strength he demonstrated this time, he is indeed strong, but that doesn't mean he can always maintain such strength."

"I still believe he is nearing his end. If it weren't for the Shiyang Immortal Dynasty's betrayal forcing his hand, he would never have acted. Had the Shiyang Immortal Dynasty's betrayal gone unpunished, the forces throughout the Southern

Domain would have all betrayed the Blood Eagle Hall, making it easy for us to take the Southern Domain."

"So, he had no choice but to act."

"I know you all have thoughts of retreat, but you should think more; given the Blood Ancestor's strength, why has he only now acted?"

"This move likely consumed a significant amount of his resources, and I believe he probably won't act again anytime soon."

The Immortal Venerates thought about it for a moment, feeling that the analysis of the Hidden Moon Sect Leader was not without reason, but they still felt some concern: even for an Immortal Emperor nearing his end, he was still an Immortal Emperor.

If they continued to press on, ultimately forcing the Blood Ancestor to take action personally, more than half of them might die.

The Hidden Moon Sect Leader also noticed their concerns and directly said, "From my perspective, the Blood Ancestor's one palm is nothing much; I can do the same. If he truly takes action, I will confront him personally."

Upon hearing the words of the Hidden Moon Sect Leader, the Immortal Venerates felt slightly more at ease.

Having children earns benefit, start competing for dominance in the world by marrying a wife

Although the words of the Hidden Moon Sect Leader temporarily appeased the leaders of the Barbaric Powers, the worries in their hearts still remained.

This time, the Blood Ancestor's actions truly shocked them.

Similarly, the Blood Ancestor's actions not only shook the Barbaric Powers but also unsettled the forces of the Southern Domain.

Initially, many forces in the Southern Domain shared the same thoughts as the Stone Sun Immortal Emperor. The only difference was that their ideas of betrayal were still confined to their minds, unable to make contact with the Barbaric Forces in time.

As a result, the Blood Ancestor's strike directly dispelled the tiny intentions within their hearts.

However, this also increased the pressure on the various forces of the Southern Domain. If the Blood Ancestor's actions could intimidate the Barbaric Forces, the Southern Domain might find relief in the coming times.

But if the Barbaric Forces grow fearless despite the Blood Ancestor's actions, then the Southern Domain's forces will face dual pressure: on one side is the Blood Ancestor's deterrence, and on the other is the advancing threat of the Barbaric Forces.

Now they are caught in a dilemma of whether to surrender or not. If they don't surrender, they risk being annihilated by the Barbaric Forces; if they do surrender, they'd likely face the same fate as the Shiyang Immortal Dynasty.

Even the Shiyang Immortal Dynasty had several Immortal Venerates, yet they were suppressed by the Blood Ancestor's strike. How many strikes could these forces withstand against the Blood Ancestor?

Purple Phoenix Immortal Sect, Meeting Hall.

A third of the leaders of Southern Domain's forces were present at this moment, each bearing grave expressions on their faces, creating an extremely tense atmosphere in the hall.

Sitting above the Immortal Throne in the hall, the Purple Phoenix Immortal Venerable glanced at the leaders present. Seeing that they remained silent, he opened his mouth first and said, "You've all witnessed the fate of the Shiyang Immortal Dynasty. I advise everyone not to entertain thoughts you shouldn't have, lest you become the next Stone Sun Immortal Emperor."

Since the start of the war, many leaders of forces have considered surrender, especially those sent to guard the Purple Phoenix Immortal Sect.

Now, the forces attacking the Purple Phoenix Immortal Sect are from the Azure Dragon Hall, whose formidable strength has led many forces to contemplate surrender, with many opting to contribute without exerting effort, which adds to the increasing pressure on the Purple Phoenix Immortal Sect.

Especially after the onset of the Immortal Venerate battles, most Immortal Venerates from other forces have hidden in the rear, fearing being affected.

Now that the Blood Ancestor has acted, proving he's not as doomed as rumors suggested, it completely intimidated those with devious thoughts. The Purple Phoenix Immortal Venerable also took this opportunity to admonish the leaders present.

After the Purple Phoenix Immortal Venerable spoke, an Immortal Venerate said, "The Barbaric Forces should also know about the Blood Ancestor's actions; maybe they've already been intimidated and might withdraw from the Southern Domain."

The Blood Ancestor's strike not only wiped out the entire Immortal Dynasty, it pierced through the Tianyan Immortal Domain, and killed all Immortal Venerates of the Shiyang Immortal Dynasty. With such formidable power, surely the Barbaric Powers would be too afraid to continue their invasion of the Southern Domain.

Most of the Immortal Venerates present actually held such thoughts: although the Blood Ancestor's power intimidated them, it also made them relieved.

With the Blood Ancestor's formidable power, they have more confidence when facing the Barbaric Forces, and they believe once the Barbaric Forces realize the true strength of the Blood Ancestor, they will experience apprehension.

Perhaps, the Barbaric Forces might even retreat because of this.

Just as everyone was pondering, an Immortal King suddenly entered the hall, his face showing a panicked expression. Upon entering, he quickly said, "Sect Leader, the Immortal Venerates from the Barbaric Forces have come again."

Upon hearing this, the Purple Phoenix Immortal Venerable and those present were stunned. The Blood Ancestor had just made his move, yet the Barbaric Immortal Venerates dare invade the Southern Domain?

Don't they fear a single strike from the Blood Ancestor?

Could it be that, in the eyes of the Barbaric Forces, the Blood Ancestor's power is comparable to the Hidden Moon Sect Leader's?

The Hidden Moon Sect Leader only refined a Divine Corpse; is his true strength stronger than the Immortal Emperor Blood Ancestor's?

For a moment, people's faces showed a trace of bleakness.

If the Barbaric Forces continue their assault while the Blood Ancestor remains passive, they'd be caught in the middle.

At this time, an Immortal Venerate looked at the Purple Phoenix Immortal Venerate and asked, "Purple Phoenix Sect Master, what should we do next?"

Though they can barely withstand the Barbaric Immortal Venerates with the formations of the Purple Phoenix Immortal Sect, with the decline of both the Southern Domain's Qi Fortune and their respective forces' Qi Fortune, their strength is growing weaker.

While the strength of the Barbaric Powers keeps increasing, this continuous trend makes their defeat inevitable.

The Purple Phoenix Immortal Venerable fell silent. Seeing him not speak, the leaders present also remained silent until, after an unknown time had passed, the Purple Phoenix Immortal Venerable sighed and said, "It seems we can only resort to that method."

Upon hearing the Purple Phoenix Immortal Venerable's sudden words, everyone was curious.

That method? What method is it?

An Immortal Venerate asked, "Purple Phoenix Sect Leader, have you thought of a way to deal with the Barbaric Forces?"

The Purple Phoenix Immortal Venerable directly said, "Destroy the seal of the Sunset Mountain Range."

His words plunged the entire hall into deadly silence.

The Immortal Venerates present stared at the Purple Phoenix Immortal Venerable in disbelief, seemingly unable to accept this was his suggested method.

The Purple Phoenix Immortal Venerable knew they'd react this way, so he continued, "The Sunset Mountain Range is behind them. Once the sealing is broken and the strange creatures are released, they will be the first to attack them."

"Most importantly, the Sunset Mountain Range is adjacent to the Barbaric territory; whether the strange creatures move east or west, they'll attack them first."

Saying this, the Purple Phoenix Immortal Venerable looked at the Immortal Venerates present, noticing the fear in their expressions, so he added:

"I know what you're worried about. I don't intend to destroy all the seals."

"There are many Forbidden Lands within the Sunset Mountain Range; we can destroy the seals of a few Forbidden Lands. Once strange creatures appear, they will naturally return to seal them."

"Lu Chen's clone is in the White Rainbow Immortal City, and surely he will assist them in reinforcing the seals again."

Upon hearing the Purple Phoenix Immortal Venerable's words, the group fell into contemplation. Many of the Immortal Venerates present had participated in the previous action to reinforce the seals, so they were aware of the situation within the Sunset Mountain Range.

The Sunset Mountain Range doesn't have a single seal, but each Forbidden Land has its own seal. If they only break the seals of a few Forbidden Lands, releasing a small number of strange creatures, then even if these creatures emerge, the Barbaric Forces might be intimidated and withdraw from the Southern Domain, whether or not they help re-seal; the Southern Domain's forces can re-seal them.

They trust that Lu Chen will surely help because the Daqin Immortal Dynasty, which Lu Chen is a part of, is adjacent to the Sunset Mountain Range. Furthermore, they've heard many forces in the Southern Domain have joined the Daqin Immortal Dynasty, becoming its affiliated forces.

To protect the Daqin Immortal Dynasty, whether Lu Chen stands with the Barbaric Powers or the Southern Domain, he will assist in sealing the strange creatures.

Capítulo 2076: Chapter 1766: What I Feared Most Has Still Happened

At this moment, the Meeting Hall of the Purple Phoenix Immortal Sect was so silent that you could hear a pin drop. No one spoke; everyone was contemplating the feasibility of the method proposed by the Purple Phoenix Immortal Venerable.

They were acutely aware that the so-called method posed significant risks; if the Forbidden Lands were interconnected, then breaking the seal of one might release all the ominous beings sealed in the Sunset Mountain Range.

Once the ominous beings were unleashed, sealing them again might be beyond their capability.

But with the current situation, if the Blood Ancestor offered no assistance, their defeat was only a matter of time. They knew well the Blood Ancestor was viewing the chaos from afar, perhaps wishing for their defeat, which would allow him to consolidate the entire Southern Domain without lifting a finger.

This method was indeed extremely risky, yet it might also be the best solution to resolve the crisis in the Southern Domain.

Seeing no Immortal Venerable present spoke up, the Purple Phoenix Immortal Venerable directly said, "If none of you object, then it shall be decided."

The leaders of the factions looked at each other until one stood to say, "I agree with the method of the Purple Phoenix Immortal Venerable."

"I concur as well!"

“I too agree...”

Once one voiced agreement, others quickly followed suit.

Seeing all faction leaders in agreement, the Purple Phoenix Immortal Venerable continued, “Now we need to devise a way to send people to the Sunset Mountain Range.”

The Southern Domain’s western area was already controlled by Barbaric forces, making it difficult to send people there.

At this moment, an Immortal Venerable suddenly thought of something and immediately said, “I heard the Xuanxiao Immortal Sect has been accepting refugees from the Southern Domain. Perhaps we can use this opportunity to infiltrate them, and subsequently send them to the Sunset Mountain Range.”

Upon hearing this method, the Purple Phoenix Immortal Venerable promptly stated, “This method is feasible; let’s proceed with it.”

He too had heard of the Xuanxiao Immortal Sect’s acceptance of refugees, initially suspecting it was a Barbaric ploy—the Barbaric forces aimed to demonstrate kindness to the refugees, inciting desires of allegiance to them.

After all, if the Barbaric forces treated refugees and even mortals well, their allegiance might promise decent treatment.

Admittedly, this approach by the Daqin Immortal Dynasty had a certain effect. Since openly declaring a willingness to accept refugees, several minor Barbaric factions chose to pledge allegiance, further strengthening the Daqin Immortal Dynasty.

The Purple Phoenix Immortal Venerable sneered, “Smart yet outsmarted themselves. Upon realizing our people infiltrated their rear through the Xuanxiao Immortal Sect, who knows what thoughts they will have?”

By now, the assembled Immortal Venerables eagerly anticipated the panic-stricken faces of the Barbaric ones when mysterious beings launch surprise attacks against them.

Subsequently, the Purple Phoenix Immortal Venerable began organizing personnel to infiltrate the Xuanxiao Immortal Sect. To ensure the plan’s secrecy, Immortal Venerables were sent, and the Purple Phoenix Immortal Venerable intended to create greater commotion on the front line, launching a comprehensive counteroffensive, allowing the Barbaric forces to think they were invigorated by the Blood Ancestor.

In the ensuing years, the comprehensive counterattack on the front by the Purple Phoenix Immortal Sect indeed pressured the Barbaric factions, primarily because

they feared the Hidden Moon Sect Leader could not match the Blood Ancestor, thereby weakening the Barbaric assault considerably.

The sudden Southern Domain counteroffensive prompted the Barbaric factions to ponder if it was the Blood Ancestor's command; if so, the Blood Ancestor might strike any day.

Should the Blood Ancestor act while they are on the frontline, escape could be nearly impossible.

The Blood Ancestor could crush an Immortal Venerable with a single blow, and although the Hidden Moon Sect Leader might contend with him, they might already have fallen before her arrival.

...

White Rainbow Immortal City.

Within the courtyard where Lu Chen resided, he sat alone in the pavilion, watching fish swim hither and thither in the lotus pond, his thoughts unknown.

At this moment, Lu Chen murmured to himself, "Feels like something significant is about to transpire."

Lately, Lu Chen's heart raced, and his Divine Soul felt chaotic, rendering him restless and uneasy.

Suddenly, Yun Yudie, clad in a purple glass long skirt, appeared in the pavilion. With the Southern Domain factions fiercely counterattacking, Yun Yudie refrained from interfering in the Immortal battles and stayed at the rear.

Yun Yudie walked towards the pavilion with graceful, long legs, casually commenting as she approached, "The Xuanxiao Immortal Sect is now in utter chaos; you seem quite relaxed."

Since the Xuanxiao Immortal Sect began taking in refugees, chaos ensued. Initially, they could suppress them with Immortals; however, as more skilled Immortals entered, their ability to manage diminished.

Yet, Lu Chen remained indifferent, as though detached from it all.

Lu Chen lowered his teacup, gazing at Yun Yudie's serene beauty, smiling, "What brings you to me, Honored Master? Missing me?"

Yun Yudie shot him a cold glare—missing him?

“Immortal Venerable Xuanxiao noticed someone of Immortal Venerable Level infiltrating the Xuanxiao Immortal Sect and sent me to warn you,” Yun Yudie stated bluntly.

Originally, Lu Chen had a clone in the Xuanxiao Immortal Sect, but inexplicably withdrew it recently—leaving Immortal Venerable Xuanxiao momentarily clueless, and resorting to Yun Yudie.

Stunned, Lu Chen asked, an Immortal Venerable Level infiltrating the Xuanxiao Immortal Sect?

Could it be a Southern Domain Immortal Venerable seeking allegiance to Barbaric forces, thus sneaking in?

Or did they have other intentions?

Was his recent unease tied to this?

As realization struck, Lu Chen stood abruptly, “No good!”

Given the southern counterattack's intensity, all Barbaric attention focused on the frontline, mistakenly believing the Southern Domain was spurred by the Blood Ancestor, seeking to oust them entirely.

Yet envisioning victory seemed improbable—the Barbaric and Azure Dragon Hall factions alone outnumbered them, rendering defeat likely.

Thus, frontal counterattack very likely feigned an assault—merely a distraction.

As Lu Chen registered shock, Yun Yudie meant to inquire further, when suddenly, the ground quaked, and fierce black light columns erupted from the Sunset Mountain Range.

Subsequently, a dense mysterious force began expanding beyond the mountain range.

Upon witnessing the anomaly in the Sunset Mountain Range, White Rainbow Immortal City's populace turned pale.

Lu Chen stared at the ominous black columns, clenched his fist, "That which I feared most has transpired."

Having children earns benefit, start competing for dominance in the world by marrying a wife

When the Barbaric began invading the Southern Domain, he wondered if one day the forces of the Southern Domain, realizing they couldn't withstand the Barbaric, would engage in a desperate struggle and destroy the Forbidden Land seals in the Sunset Mountain Range, releasing the mysterious creatures.

As the war between the Barbaric and the Southern Domain intensified, his worry grew, so he created many clones, most of which were stationed in the Immortal Cities at the edge of the Sunset Mountain Range.

As long as an Immortal Venerate arrived, his clone could immediately go to assist in carving the Sealing Array and then seal those Forbidden Lands.

Feeling the ominous aura emanating from the Sunset Mountain Range, Yun Yudie immediately understood what Lu Chen meant by "the thing he feared the most." She coldly said, "These people are truly insane."

Lu Chen said, "A group with no retreat will resort to any desperate measures. The priority now is to quickly seal those Forbidden Lands. If those mysterious creatures head towards the Barbaric, the Barbaric might be doomed."

To conquer the Southern Domain, most of the Barbaric forces had entered the Southern Domain. If the mysterious creatures turned towards the Barbaric now, those Barbaric powers might face complete destruction.

At this moment, several Immortal Venerates who were originally stationed in White Rainbow Immortal City appeared above Lu Chen's courtyard. Upon sensing trouble from the Sunset Mountain Range, they immediately came to Lu Chen.

One worried Immortal Venerate said, "How did the seals in the Sunset Mountain Range suddenly break?"

Another Immortal Venerate said, "It's likely not the mysterious creatures breaking the seals but someone deliberately sabotaging them."

These Immortal Venerates weren't fools. They instantly thought of the Southern Domain. Now that the Barbaric was launching a massive invasion of the Southern Domain and the Southern Domain couldn't withstand it, naturally, they'd opt for a desperate struggle, caring little for the world's wellbeing.

Their powers were about to be wiped out. What did the world's wellbeing have to do with them? Clearly, the breaking of the Sunset Mountain Range seals had much to do with the Southern Domain.

One Immortal Venerate said, "The priority now is to quickly reseal those Forbidden Lands. Otherwise, if the mysterious creatures all come out, the Tianyan Immortal Domain is finished."

Recalling the Immortal Venerates who were devoured by the mysterious power before, the faces of the present Immortal Venerates turned pale, but for their respective powers, they still planned to head to the Sunset Mountain Range and reseal the Forbidden Lands.

Lu Chen at this time took out an Immortal Ship, then leapt onto it, saying, "Let's go!"

Seeing Lu Chen move, the other Immortal Venerates quickly followed, heading straight for the dark light beams in the Sunset Mountain Range.

Meanwhile, deep within the Sunset Mountain Range.

An Immortal Venerate was frantically fleeing, with waves of mysterious power surging behind him. He was the Immortal Venerate sent by the Purple Phoenix Immortal Sect to destroy the Forbidden Land seals. Originally, he thought this was a task he could easily complete. He just needed to break the Forbidden Land seals and he'd tear open space to escape. But unexpectedly, the moment the Forbidden Land seals broke, the entire space of the Sunset Mountain Range was sealed.

What terrified him more was the rapidly spreading dense mysterious power, reaching him in the blink of an eye. Even with Immortal Venerate speed, he couldn't shake off the wave of mysterious power.

At this moment, several black tentacles suddenly emerged from the mysterious wave, instantly wrapping around the Immortal Venerate's body. Without hesitation, he self-destructed his body.

The self-destruction of an Immortal Venerate's body caused immense destruction, and in a short time, several more Forbidden Land seals exploded, adding more black light beams to the Sunset Mountain Range.

After the explosion, a golden Divine Soul shadow burst from the mysterious wave. The Immortal's true body is the Divine Soul; as long as the Divine Soul remains, even if the body dies, there's no issue.

The Immortal Venerate created a fleeting opportunity to escape by self-destructing his physical body. However, this chance quickly vanished. As his Divine Soul rushed out of the mysterious wave, several thick black tentacles pulled him back in.

"No!!!"

In the blink of an eye, the Immortal Venerate's Divine Soul was completely devoured by the mysterious wave.

Lu Chen and his group were witnessing all of this unfold at the edge of the Sunset Mountain Range.

Seeing that not even self-destruction could escape the fate of being devoured by the mysterious wave, an Immortal Venerate beside Lu Chen anxiously said, "Just our few people can't possibly seal those mysterious creatures."

Another Immortal Venerate sighed and said, "Now it depends on whether those Immortal Venerates from the Barbaric are willing to retreat. If they don't retreat and continue attacking the Southern Domain, not only the Southern Domain but all Barbaric powers will face destruction."

Now that multiple seals in the Sunset Mountain Range were broken, a few Immortal Venerates couldn't possibly subdue these mysterious creatures. They couldn't even enter the depths of the Sunset Mountain Range, let alone seal those mysterious creatures.

At this moment.

On the front lines of the Southern Domain battlefield.

The Barbaric Immortal Venerates' faces changed sharply after detecting the anomaly at the Sunset Mountain Range.

Dragon Soaring Immortal Venerable glared angrily at the nearby Purple Phoenix Immortal Venerable, "This is all your doing, isn't it?"

Dragon Soaring Immortal Venerable had already guessed what was happening. He wondered how the Southern Domain forces had launched such a fierce counterattack recently, even leading to Purple Phoenix Immortal Sect's Sect Leader taking action personally.

Typically, a leader of a power doesn't act unless absolutely necessary. If anything were to happen to the leader, it could severely lower the entire power's Qi Fortune.

Seeing Purple Phoenix Immortal Venerable take action, Dragon Soaring Immortal Venerable first assumed it was a command from the Blood Ancestor. But now, it seemed clear that the Southern Domain forces' counterattack was to divert their attention, allowing someone to destroy the Forbidden Land seals in the Sunset Mountain Range.

Purple Phoenix Immortal Venerable laughed loudly, saying, "Dragon Soaring Hall Master, hope the Barbaric enjoys our gift!"

Dragon Soaring Immortal Venerable snorted coldly, then transmitted a message across the battlefield, "Full retreat!"

As the words fell, Dragon Soaring Immortal Venerable shouted out, "Dragon Abyss Sky-breaking Claw!!!"

In the next moment, a massive dragon claw appeared out of thin air, reaching straight for Purple Phoenix Immortal Venerable, who hurriedly defended with all his might.

Dragon Soaring Immortal Venerable didn't intend to drag this out. After using this move, he immediately led the Azure Dragon Hall to retreat from the front lines.

Their path was now blocked by mysterious creatures, and they urgently needed to find a way to handle them.

The Barbaric Immortal Venerates rapidly regrouped in a short time and soon hovered over White Rainbow Immortal City. Sensing the Barbaric Immortal Venerates' arrival, another clone of Lu Chen flew into the sky.

All the Immortal Venerates gazed at the distant black light beams with heavy expressions, remaining silent.

Eventually, the Hidden Moon Sect Leader arrived, his face dark as he appeared before them.

He initially thought this time he could quickly take the Southern Domain, but didn't expect the Southern Domain to pull such a stunt.

The Hidden Moon Sect Leader glanced at Lu Chen before asking, "Lu Chen, can your Chaos Spirit Ruins Sealing Heaven Array seal those mysterious creatures?"

Having children earns benefit, start competing for dominance in the world by marrying a wife

Upon hearing the question from the Hidden Moon Sect Leader, Lu Chen immediately replied, "Naturally, but too many seals have been destroyed. To seal the strange creatures that have emerged, it would likely require many Immortal Venerates."

"Immortal Venerates have almost no power to resist in the face of the strange waves, and entering the Sunset Mountain Range below Immortal Venerates is almost no different from seeking death."

As Lu Chen spoke, he condensed a Memory Pearl, projecting the scene of the strange waves devouring the Southern Domain's Immortal Venerate not long ago.

Seeing Lu Chen's memory projection, the Immortal Venerates of the Barbaric Wilderness fell completely silent.

When reinforcing the seals in the past, almost none of the Immortal Venerates from the Barbaric Wilderness were involved, and therefore they had not experienced the terror of the strange waves.

But after seeing Lu Chen's memory projection, they truly realized how terrifying the strange waves are.

An Immortal Venerate could not escape even by self-detonating his physical body in front of the strange waves, without even a shred of resistance. The dreadfulness of these strange creatures can well be imagined.

After a long silence among the Immortal Venerates, finally one Immortal Venerate couldn't help but curse, "Those dogs in the Southern Domain! Are they trying to destroy the entire Tianyan Immortal Domain?"

Upon hearing this, none of the Immortal Venerates present spoke. The Barbaric Wilderness had almost wiped out all forces of the Southern Domain, so it was not surprising for the Southern Domain to act in desperation. Most people had anticipated that the Southern Domain would eventually do such a thing.

The Hidden Moon Sect Leader then spoke in a deep voice, "Alright, it's useless to say anything now; from now on, we will temporarily cease fighting and cooperate with Lu Chen to seal the strange creatures in the Sunset Mountain Range."

Then, the Hidden Moon Sect Leader began to make arrangements, dividing them into groups of ten Immortal Venerates to enter the Sunset Mountain Range to reinforce the seals.

Since these Immortal Venerates had no experience, the Hidden Moon Sect Leader specifically reminded them to follow Lu Chen's orders before leaving.

The Hidden Moon Sect Leader still trusted Lu Chen, after all, the Daqin Immortal Dynasty of Lu Chen was right beside the Sunset Mountain Range, and he didn't believe Lu Chen would side with the Southern Domain.

Lu Chen had been involved the entire time when reinforcing the seals last time and had some experience in sealing the strange creatures. Following his lead couldn't go wrong.

Under Lu Chen's leadership, the Immortal Venerates of the Barbaric Wilderness entered the Sunset Mountain Range.

When facing the strange waves directly, the Immortal Venerates from the Barbaric Wilderness felt their soul trembling constantly, as if they had encountered something incredibly terrifying.

...

Eastern Domain.

Tianxi Palace.

The beautiful woman lying on the soft couch suddenly opened her phoenix eyes, looking towards the direction of the Southern Domain.

Sensing the mysterious power leaking out, Xiyue Immortal Emperor glanced at Lu Chen beside her, "What's going on? Why has the seal of the Sunset Mountain Range suddenly broken?"

Lu Chen said indifferently, "The forces in the Southern Domain were pushed to desperation."

Hearing this, Xiyue Immortal Emperor laughed coldly and then said, "Didn't the Barbaric Wilderness consider that the Southern Domain would be like a cornered dog before invading? Yet they didn't send anyone to guard the Sunset Mountain Range."

Lu Chen said, "The Sunset Mountain Range is vast, and with many Forbidden Lands within, even if they sent Immortal Venerates to watch, they wouldn't be able to guard it all."

Initially, White Rainbow Immortal City had several Immortal Venerates watching over the Sunset Mountain Range, patrolling it from time to time, but for figures at the Immortal Venerable level, sneaking into the Sunset Mountain Range posed no difficulty at all.

At this moment, Xiyue Immortal Emperor dispatched a strand of divine thought, landing directly in the Southern Domain.

She didn't care whether the Blood Ancestor had emerged from seclusion; for her, the invasion of the Tianyan Immortal Domain by strange creatures was of great importance. Even if her divine thought landing in the Southern Domain would provoke the Blood Ancestor's dissatisfaction, she wasn't concerned. She did not want to see the Tianyan Immortal Domain occupied by strange creatures.

As soon as Xiyue Immortal Emperor's divine thought descended on the Southern Domain, the strange waves in the Sunset Mountain Range seemed to sense it, and the strange waves instantly became more ferocious, expanding at an increasingly rapid pace.

The Immortal Venerates in the Sunset Mountain Range witnessing the sky-darkening strange waves were so terrified that they could not move in mid-air. In fact, the strange waves didn't have much pressure; it was just that when the Immortal Venerates saw the strange waves, it was as if a fear deeply embedded in

their soul was awakened, causing them to remain frozen in the air, unable to move.

Xiyue Immortal Emperor's divine thought swiftly locked onto one of Lu Chen's clones; she was just about to instruct Lu Chen's clone to carve out the Chaos Spirit Ruins Sealing Heaven Array when Lu Chen shouted, "Don't be distracted, immediately infuse me with immortal power!"

The next moment, Lu Chen's fingers traversed rapidly through the air; in just a fleeting moment, the array pattern map of the Chaos Spirit Ruins Sealing Heaven Array appeared completely at Lu Chen's fingertips.

Seeing the speed at which Lu Chen carved out the Chaos Spirit Ruins Sealing Heaven Array, even Xiyue Immortal Emperor was stunned; she recalled that the last time the seals were reinforced, Lu Chen had not been this quick in carving the Chaos Spirit Ruins Sealing Heaven Array.

This indicated that Lu Chen's Divine Soul had become stronger; although she had a Unity Seal with Lu Chen, allowing her to sense Lu Chen's state, she could not gauge just how powerful Lu Chen's Divine Soul was.

At this moment, the Immortal Venerates behind Lu Chen came to their senses, and they immediately infused Lu Chen with immortal power. Lu Chen raised his hand, and the array pattern map of the Chaos Spirit Ruins Sealing Heaven Array flew into the sky, rapidly enlarging.

The moment the Chaos Spirit Ruins Sealing Heaven Array appeared, it immediately suppressed the strange waves, forcing them to retreat continuously towards the Forbidden Land.

Just as the Immortal Venerates thought the Forbidden Land before them was about to be sealed, an Immortal Venerate suddenly exclaimed, "Look! There's something in there!"

Hearing this reminder, everyone's gaze turned towards the inside of the strange waves, and sure enough, they saw countless black dots amidst the pitch-black strange waves.

Those black dots were darker than the strange waves, resembling countless pairs of eyes.

Seeing this scene, the Immortal Venerates felt a chill down their spines as if they were being watched by something incredibly terrifying.

Lu Chen merely glanced at those black eyes without taking much notice, then shouted, "Subdue!!!"

The Chaos Spirit Ruins Sealing Heaven Array descended slowly, and the black eyes that were originally hidden within the strange waves gradually disappeared, with the mysterious power steadily retreating back to the Forbidden Land.

...

Mysterious Moon Palace.

Lu Chen's clone was meditating, when suddenly Xu Jingshu's voice transmission exploded in his mind, "Come quickly, Lingling is in trouble!!!"

Upon hearing this, Lu Chen abruptly opened his eyes and, without a word, hurried to Yun Meng Palace.

Now that Immortal Venerable Yun Meng had lifted restrictions, Lu Chen could freely enter and exit the Small World where Xu Jingshu resided.

Upon entering the Small World, Lu Chen was immediately acutely aware of the strong mysterious power.

This...

Lu Chen frowned and quickly made his way to Lu Siling's room.

At that moment, Lu Siling was suspended in mid-air, emitting a black mysterious power from his body, a power so domineering that it even distorted space.

Lu Chen thought to himself, could it be that the breaking of the seals in the Sunset Mountain Range caused a resonance with the strange creatures, and since Lu Siling, strictly speaking, was also half a strange creature, the mysterious power on his body erupted.

Xu Jingshu looked at Lu Siling with a worried face and said, "What do we do now?"

Xu Jingshu now also realized how terrifying this power on Lu Siling was; she originally wanted to get close to Lu Siling, but as soon as she approached, she felt her life force rapidly draining.

Clearly, the mysterious power on Lu Siling's body was capable of devouring life force.

Having children earns benefit, start competing for dominance in the world by marrying a wife

Lu Chen didn't immediately answer Xu Jingshu's question. He stared at Lu Siling for a while and noticed that Lu Siling's body was constantly transforming between flesh and bone, then back from bone to flesh.

It seemed her body was continuously transforming between an Immortal and a strange creature.

One moment an Immortal, the next a strange creature.

The mysterious power on Lu Siling didn't affect her; she was merely in a state of destruction at the moment.

After confirming that Lu Siling was not in any life-threatening danger, Lu Chen finally spoke to Xu Jingshu, "She's fine, don't worry."

"Besides, this power on her is not immortal power. Do not touch it, or your life force will be completely devoured."

Xu Jingshu was not reassured by Lu Chen's words; her face was full of worry, and she gazed deeply at Lu Siling.

"Is this the special constitution you mentioned?"

Lu Chen replied, "Yes."

Xu Jingshu continued to ask, "What kind of constitution is this?"

Lu Chen thought for a moment, didn't directly answer, and instead said, "This power doesn't belong to this world; it's a forbidden power."

Upon hearing the words "forbidden power," Xu Jingshu immediately thought of the mysterious power.

Although she had been staying at Cloud Dream Peak since she arrived at the Mysterious Moon Palace, she was still aware of the happenings in the outside world.

For a moment, her snow-like face turned deathly pale without any trace of color.

She vaguely guessed what kind of power was on Lu Siling.

Xu Jingshu's mind went blank; how could her child be eroded by a mysterious power? She never came into contact with mysterious power herself.

What on earth was going on?

Returning to her senses, Xu Jingshu looked at Lu Chen, hoping to find answers from him.

"Is what you said true? How could she possess that kind of power?"

Lu Chen answered, "I don't know either. I initially thought you had been contaminated with that power, which led to her developing this constitution, but I checked your body, and you don't have that forbidden power in you."

Hearing this, Xu Jingshu looked at Lu Chen with suspicion. Since she wasn't contaminated with this power, was it possible that Lu Chen was contaminated with the mysterious power, which led to Lu Siling being born with it?

Noticing Xu Jingshu's suspicious look, Lu Chen immediately guessed her thoughts and said, "I don't have that power in me either. All my other children are normal, only Lingling is different."

Xu Jingshu was left stunned, unsure of what to say.

The two of them were perfectly fine, yet they gave birth to a half-human, half-mysterious being. It was too strange.

Lu Chen continued, "What confuses me the most is that her constitution should have formed while she was inside you, but the forbidden power in her hasn't devoured your life force."

The ability of mysterious power to devour life force was terrifying. Yet Lu Siling had stayed in Xu Jingshu's womb for so many years without harming her, the mother body. Could it be that Lu Siling learned early on how to suppress the mysterious power within her, which kept the mother and daughter safe?

Hearing Lu Chen's words, beads of cold sweat immediately formed on Xu Jingshu's forehead. Just getting slightly closer to Lu Siling had caused an unknown amount of her life force to be devoured.

If Lu Siling had suddenly released the mysterious power while inside her womb, she might have perished long ago.

The thought alone was terrifying.

Xu Jingshu looked at her daughter, who was still floating in mid-air, and said worriedly, "What should we do now? Are we to let her remain like this?"

"If the Palace Master enters the small world, they will surely notice this power on her."

Lu Chen thought for a moment before trying to awaken Lu Siling, "Lingling, Lingling, wake up."

After speaking, Lu Chen used his immortal power to send a message to Lu Siling, "Lingling, it's Daddy, wake up."

Lu Chen had no good way to deal with the mysterious power either. He dealt with the strange creatures of the Sunset Mountain Range by using the Chaos Spirit Ruins Sealing Heaven Array, but Lu Siling was his daughter, and he couldn't possibly seal his daughter with the Chaos Spirit Ruins Sealing Heaven Array.

The best option now was to awaken Lu Siling. Once she woke up, she might be able to suppress the mysterious power within her again, allowing him not to take further action.

However, no matter how Lu Chen called out to Lu Siling, she remained asleep, and the mysterious power on her grew more intense.

If this continued, with Lu Siling releasing more and more mysterious power, it might leak out of the small world. If the people of the Mysterious Moon Palace detected it, it would be troublesome.

Just when Lu Chen didn't know what to do, Xu Jingshu suddenly felt dizzy and began to sway unsteadily beside him.

Xu Jingshu clutched her forehead and said weakly, "Lu... Lu Chen, I feel..."

Before Xu Jingshu could finish speaking, she started to fall to the ground, and Lu Chen quickly turned to catch her, letting her collapse into his arms without hesitation.

"Jingshu, are you okay?"

While asking, Lu Chen infused life force into Xu Jingshu and checked her body.

After examining Xu Jingshu, Lu Chen found her body to be perfectly fine, even surprisingly good.

Moreover, Xu Jingshu was on the verge of breaking through to the Immortal King Realm.

When they first met, Xu Jingshu was only at the Golden Immortal cultivation state, and in less than a thousand years, she was about to break through to the Immortal King Realm.

Compared to Lu Chen, Xu Jingshu's cultivation speed was naturally slower, but when compared to ordinary people, reaching the Immortal King Realm in less than a thousand years made Xu Jingshu a genius among geniuses.

Lu Chen's rapid cultivation progress was due to the system's help, but Xu Jingshu had no such system, so her rapid advancement was suspicious.

Even if the Mysterious Moon Palace provided Xu Jingshu with ample cultivation resources, the process of leveling up takes time, especially considering Xu Jingshu only had the Charming Body constitution, with no other special constitution to quickly enhance cultivation.

As Lu Chen was curious about Xu Jingshu's rapid cultivation improvement, a wild force suddenly erupted from her body, and in the next moment, Xu Jingshu's cultivation directly advanced to the Immortal King Realm.

But the next moment, Xu Jingshu's body flew into the air, and waves of black mysterious power surged from her body.

Seeing this, Lu Chen was completely dumbfounded.

Lu Chen had checked Xu Jingshu's body countless times. With his sensitivity to mysterious power, he would have detected if she was contaminated with it. Previously, he never sensed any mysterious power in Xu Jingshu's body.

Where did this mysterious power come from?

Now Lu Chen finally understood why his daughter was half-human, half-mysterious. It turned out Xu Jingshu herself was contaminated with mysterious power.

Having children earns benefit, start competing for dominance in the world by marrying a wife

What Lu Chen couldn't understand the most right now is when Xu Jingshu got contaminated by the Mysterious Power, and why he hadn't noticed it at all.

The Mysterious Power on Xu Jingshu seemed to have suddenly appeared on her.

At this moment, Xu Jingshu was suspended in the air, and under the erosion of the Mysterious Power, half of her body had turned into white bones, her eyes were hollow, and she looked like a corpse about to rot, very terrifying.

Lu Chen frowned, not knowing what to do next. After all, Xu Jingshu was his woman, and she had given birth to a child for him. Could he really seal her?

If Xu Jingshu wasn't sealed, the Mysterious Power emanating from her would eventually affect others, unless Xu Jingshu could freely control this power.

Just as Lu Chen was hesitating on what to do, Xu Jingshu's originally hollow eyes regained brightness, and in the next moment, the Mysterious Power on her body surged back into her, like a tide. In just the blink of an eye, the Mysterious Power she emitted disappeared completely, not leaving a trace behind.

When Xu Jingshu woke up and found herself suspended in the air, she realized she had already broken through to the Immortal King Realm, and couldn't help but be startled.

"Why... did I break through?"

Seeing that Xu Jingshu seemed entirely unaware of what had just happened, Lu Chen fell into deep thought again. It now seemed that Xu Jingshu should be unaware of the Mysterious Power within her.

He doesn't know about it, others can't detect it either. What exactly is this Mysterious Power?

Lu Chen formed a bold conjecture in his mind: Could it be that many people in the Tianyan Immortal Domain possess the Mysterious Power within them, but it's sealed by some kind of restriction, so even they don't know they are Mysterious Beings?

However, as the Mysterious Beings sealed in the Sunset Mountain Range escaped, the Mysterious Power emitted by those beings resonated with the Mysterious Power within the people of the Tianyan Immortal Domain, exposing the Mysterious Beings hidden among the crowd.

If this is the case, then the Mysterious Beings will probably become increasingly difficult to deal with.

Someone like Xu Jingshu, who can't be seen to have anything to do with the Mysterious Beings in the crowd, doesn't even know she possesses the Mysterious Power. How could anyone else discern her true identity?

But from the current perspective, Xu Jingshu should be standing on the side of the Tianyan Immortal Domain, yet the problem is, as Xu Jingshu is eroded by the Mysterious Power inside her, will her mind also become like those of the Mysterious Beings?

This is what Lu Chen is most worried about. If Xu Jingshu completely becomes a Mysterious Being, then he will have no choice but to seal her.

Seeing Lu Chen continuously staring at her without speaking, his expression extremely solemn, clearly something had happened that she didn't know about, Xu Jingshu immediately asked, "What just happened?"

Lu Chen snapped back to reality and said blandly, "Nothing, I was thinking about how to control Lingling's power."

Xu Jingshu slowly descended from the air, her gaze once again turning to Lu Siling. She felt no joy at her breakthrough; even after becoming an Immortal King, she was helpless against the Mysterious Power.

Xu Jingshu felt incredibly troubled inside; could she just watch her daughter be eroded by the Mysterious Power and eventually turn into a Mysterious Being who only knows how to devour life?

Lu Chen glanced at Xu Jingshu with the corner of his eye, seeing her anxiously watching Lu Siling, he thought that she indeed didn't know what had just happened; otherwise, her attention wouldn't always be on her daughter.

Lu Chen tentatively said, "You've just broken through, adjust yourself well, I'll watch over you."

As he spoke, Lu Chen proactively extended his hand to hold Xu Jingshu's delicate hand and began to infuse her with Life Force, showing a concerned demeanor.

While infusing Xu Jingshu with Life Force, Lu Chen was also probing her body with immortal power, trying to find the source of the Mysterious Power inside her, but no matter how he searched, he couldn't find a trace of Mysterious Power.

The enormous Mysterious Power that Xu Jingshu had emanated just now had all disappeared without a trace, which was quite eerie.

Xu Jingshu absentmindedly said, "It's alright, we'll talk when Lingling wakes up."

Unaware that Lu Chen was probing her body, Xu Jingshu merely felt that Lu Chen was stabilizing the immortal power within her.

After repeated examinations, when Lu Chen could still not detect any Mysterious Power, he finally gave up.

However, at this point, he already had a clue; since Xu Jingshu's body didn't contain any trace of Mysterious Power, the source could only be the Divine Soul.

It was impossible for a force to appear out of thin air in Xu Jingshu's body; it was just that even if he knew the Mysterious Power might exist within Xu Jingshu's Divine Soul, Lu Chen dared not directly probe it.

If he directly told Xu Jingshu he wanted to probe her Divine Soul, she would surely notice something amiss. At present, Lu Chen wasn't sure why the Mysterious Power appeared in Xu Jingshu's Divine Soul nor whether a rash probe would provoke the Mysterious Power within her Divine Soul.

For a moment, the room became exceedingly quiet as both their gazes turned towards Lu Siling, hovering in the air, releasing Mysterious Power.

After an unknown length of time, Lu Siling slowly opened her eyes, discovering she was hovering in the air and continuously releasing Mysterious Power. Even she was startled.

"Ah!"

Lu Siling regained her senses, her eyes sweeping around the room to find both her mother and father watching her. A look of panic appeared on her small face.

"Father, Mother, I didn't do it on purpose!"

As she spoke, Lu Siling immediately withdrew the Mysterious Power.

Seeing that Lu Siling could do as she pleased with the Mysterious Power, Lu Chen finally breathed a sigh of relief; as long as she could voluntarily control the Mysterious Power, all was well. What he feared most was Lu Siling being completely consumed by it.

Lu Chen said, "As long as you're okay."

After retracting the Mysterious Power, Lu Siling descended immediately, and Lu Chen reached out directly to catch Lu Siling, letting her fall into his arms.

Lu Chen comfortingly said, "Can you tell Father what happened before this?"

Lu Chen had already guessed that the Mysterious Beings from the Sunset Mountain Range had been released, causing the Mysterious Power within Lu Siling to resonate. However, he still needed further confirmation.

Lu Siling thought for a moment and said, "I don't know what happened either; earlier, I suddenly felt very sleepy, and then a door appeared in front of me, with Mother's voice coming from behind it. Out of curiosity, I entered the door."

"After that, I don't remember anything."

Upon hearing this, Xu Jingshu paused for a moment, "Heard my voice?"

Lu Chen gave Xu Jingshu a meaningful glance with the corner of his eye.

It seemed he must now leave a clone by their side, so he could know firsthand if anything happened.

The Mysterious Power within Xu Jingshu's body would likely erupt again, and he had to stay vigilant at all times.
