Hidden Moon Sect Floating Island.

Inside the main hall, the Hidden Moon Sect Leader looked solemnly at the memory images brought back by Luo Wu Immortal Venerable.

The images depicted the scene of the Blood Ancestor sealing those eerie creatures.

Just one clone of the Blood Ancestor easily sealed so many eerie creatures, which made the Hidden Moon Sect Leader more wary of the Blood Ancestor and more eager to obtain the Immortal Law from Lu Chen that could restrain the Blood Ancestor.

He had a premonition that if he could not get the Immortal Law from Lu Chen to curb the Blood Ancestor, after this great war ended, the Blood Ancestor would likely target the Barbaric lands and the Hidden Moon Sect.

If the Blood Ancestor's strength was still at the peak of the Immortal Emperor period, then he was certainly no match for the Blood Ancestor. He had only refined

a Divine Corpse, temporarily gaining the power of the Immortal Emperor, but he was not a true Immortal Emperor.

Moreover, this Divine Corpse was continuously absorbing his Life Force, and now his strength had significantly diminished. If he really got into a fight with the current Blood Ancestor, he estimated he couldn't hold on for even ten years.

The Hidden Moon Sect Leader clenched his fists. He now had no way back; he must destroy the Daqin Immortal Dynasty and speed up the process.

Thinking of this, the Hidden Moon Sect Leader rose from the Immortal Throne, planning to take action himself. The battle of the Immortal Venerates had reached a deadlock, neither side able to eliminate the other. In this situation, only his personal action could break the stalemate.

After leaving the main hall, the Hidden Moon Sect Leader directly controlled the Divine Corpse, heading straight for the Daqin Immortal Dynasty.

In the high skies of the Daqin Immortal Dynasty, when Lu Chen saw the towering Divine Corpse heading directly for the Daqin Immortal Dynasty, his brows furrowed slightly. The Hidden Moon Sect Leader finally couldn't sit still and planned to take action personally.

However, now all the Immortal Venerates of the Daqin Immortal Dynasty were already being held up by those from the Barbaric lands, and besides the

Formation, the royal city of the Daqin Immortal Dynasty seemed to have no other means of defense.

Dealing with someone close to Immortal Emperor strength was not easy.

Just as Lu Chen was considering whether to have Xiyue Immortal Emperor intervene and assist, a prompt suddenly sounded in his mind.

"Congratulations to the host for helping Yun Yudie conceive a child, reward: a wisp of World Origin."

Hearing this prompt, Lu Chen was momentarily stunned.

He helped Yun Yudie conceive a child?

How is this possible?

Ever since they had mysterious power within them, he had tried all sorts of methods, but none could make them conceive. Unexpectedly, at such a time, Yun Yudie, the woman who least wanted to bear his child, became pregnant.

Lu Chen immediately turned his attention to the Red Flower Sedan. At this moment, Lu Chen was looking down at Yun Yudie inside the Red Flower Sedan, his gaze fixed intently on Yun Yudie's abdomen.

Seeing Lu Chen suddenly become motionless, Yun Yudie thought this scoundrel man was planning to let her go. However, at that moment, she suddenly sensed something amiss.

It seemed that inside her body, there was a wisp of vitality that did not belong to her, growing rapidly. Yun Yudie's mind trembled slightly, and she was momentarily dazed. After a moment, she snapped back to reality and hurriedly tried to mobilize her mysterious power to devour that wisp of vitality.

What a joke, all these years she had been diligently guarding her boundary, never letting her guard down, and it turned out that after regaining her mysterious power, she got caught in such a situation.

However, Yun Yudie soon despaired. No matter how she tried to mobilize the mysterious power within her, there was no response. Now she was no different from a mortal, able only to watch helplessly as that wisp of vitality continued to grow.

The next moment, Yun Yudie's icy gaze locked onto Lu Chen, "You! You actually did such a thing to me!"

Lu Chen smiled and said, "Yaoyao and the others have each given me a child. You've been my woman for so many years; you ought to give me one as well."

"If your body becomes fully permeated by mysterious power by then, we might not even be able to have a child."

Yun Yudie said fiercely, "Shameless scoundrel, who wants to bear your child!"

As the Ancestor of the Strange, how could she conceive offspring for the pasture's blood food? If this got out, her reputation in the Deceit Realm would be entirely ruined.

Yet in this situation, she was completely unable to mobilize the power within her to eliminate that wisp of vitality; she could only watch as she bore Lu Chen's child.

If Lu Chen kept her permanently suppressed within the Red Flower Sedan, she might indeed end up having a child for him.

Seeing Yun Yudie's emotions still in turmoil, Lu Chen directly said, "Things have come to this point, whether you're willing or not, it's useless. After all, you're already pregnant and you surely wouldn't be heartless enough to kill your own child, right?"

Yun Yudie said coldly, "It hasn't even formed yet and has no spiritual wisdom, it's not considered life, so why can't it be exterminated?"

"Once I get out, I'll eliminate it right away. If you think I'll bear your offspring, don't delude yourself!"

Hearing the conversation between the two, Ye Chuyao and the other two looked at each other in amazement. From the looks of it, Yun Yudie was pregnant with Lu Chen's child?

Although they too had children with Lu Chen, when they were pregnant, the mysterious power within them had been completely sealed off, making it possible to nurture life.

However, when a seal broke within their Divine Soul, flooding their bodies with mysterious power, theoretically, their bodies should not be capable of nurturing life. After all, mysterious power would erode and devour life force, making survival of a small life in their bodies impossible.

While the three were bewildered, Lu Chen's gaze suddenly turned to them. At this moment, the look Lu Chen gave them was akin to a starving beast eyeing its prey.

Under Lu Chen's fiery gaze, the three women suddenly felt a chill down their spines.

Ye Chuyao said, "Lu... Lu Chen, what... what do you intend to do!"

Lu Chen smiled as he looked at them without saying a word.

Since Yun Yudie could get pregnant, then Ye Chuyao and the others could as well. Lu Chen suspected it was all due to the Red Flower Sedan suppressing their mysterious power that allowed Yun Yudie to bear his child.

However, what puzzled him was that he had previously conducted similar experiments. He and Xiyue Immortal Emperor also spent time in the Red Flower Sedan, but it didn't result in her pregnancy.

At this moment, a bold guess suddenly formed in Lu Chen's mind. Although he had previously been intimate with his women in the Red Flower Sedan, they couldn't conceive his child mainly because they were too cooperative.

The Law of the Red Flower Sedan was such that when they harbored thoughts of resistance, the Power of Laws in the Red Flower Sedan would suppress all powers within them, preventing any use of power, be it immortal power or mysterious power.

And when they cooperated, their internal power would be unaffected. Yun Yudie's pregnancy occurred because she regained past memories, realizing she was an eerie creature and an archenemy of his.

So, when he tormented her, she was unyielding in her heart, which kept her internal power in a suppressed state.

Without any power to cleanse the unwanted elements, and given that her body had been altered by Life Force, her body was equipped to conceive.

Having children earns benefit, start competing for dominance in the world by marrying a wife

Lu Chen thought to himself, if all this is just as he guessed, then he can also take advantage of Ye Chuyao and the others' unwillingness to continue Dual Cultivation with him after recovering their memories to make them bear his children.

As long as they recover their memories as strange creatures, they will definitely reject continuing Dual Cultivation with him. By then, the Power of Laws of the Red Flower Sedan will be triggered, and their powers will be completely suppressed, especially the Mysterious Power.

As long as the Mysterious Power is completely suppressed by the Red Flower Sedan, getting them to give him another child would be an easy task.

And this can not only be used on them but also on the Heavenly Language Immortal Venerate and the Xiyue Immortal Emperor.

Thinking of this, Lu Chen's eyes became even more fervent.

Seeing Lu Chen staring at them so intently, Ye Chuyao said again, "Lu... Lu Chen, don't make mistake after mistake!"

How could they not see it? This scoundrel of a man just wanted them to give him more children. Just now, even Yun Yudie got pregnant by this guy. If it were them, the outcome would probably be the same.

Before, they could ignore it because they hadn't recovered their memories, but now they've regained their memories, knowing they are strange creatures and that Lu Chen is their enemy. Even though they have fond memories of being with Lu Chen, the thought of giving him children now makes them resistant.

Having a strange creature give birth to livestock in the pasture has never happened in their memories.

Lu Chen smiled and said, "Chuyao, you know once I decide to do something, there's nothing you can say to stop me."

"Who among you wants to go first?"

Upon hearing this, the three women tried hard to mobilize the Mysterious Power within them. But like Yun Yudie, they found their Mysterious Power was entirely immobile, rendering them no different from mortals now.

At this time, Xiao Xueying, as if resigning to her fate, let out a deep sigh and said, "Let Chuyao and Shiyun go, I'll do it."

Although she knew, having fused her strange memory, that giving birth to Lu Chen's child would be a humiliating thing, she also understood that under the current circumstances, they couldn't resist at all.

With the Red Flower Sedan as a token, their powers were simply impossible to release unless all of their Ancestor of the Strange gathered together, or disaster struck, causing the token to become ineffective.

But now the Ancestor of the Strange couldn't gather, and the disaster wouldn't arrive for some time—they probably had to give Lu Chen another child.

Xiao Xueying thought of how infatuated she used to be with Lu Chen, believing this was her self-inflicted punishment.

Seeing Xiao Xueying speak up voluntarily, Lu Chen frowned; this was not a good thing.

Because only when they have a resistant mindset do the rules of the Red Flower Sedan take effect, fully limiting their power within.

Now that Xiao Xueying accepted it all, wouldn't her powers be unsuppressible? By then, the Mysterious Power would flow in Xiao Xueying's body, not at all conducive to nurturing life.

Seeing Lu Chen watching her without saying a word, Xiao Xueying was a bit puzzled. She'd agreed, so why didn't Lu Chen take any action?

Ye Chuyao then said, "Xueying, how could you agree with him! Don't forget our identity. If the strange clans find out we've given birth to a bloodmeal, what will they think of us?"

Xiao Xueying calmly said, "What's done is done, and we gave him one child already; what's the difference with more?"

This...

Ye Chuyao didn't expect Xiao Xueying to have such a resigned outlook.

At this moment, Xiao Xueying continued, "Chuyao, I don't know how much of your memory has returned; do you remember your true identity?"

Ye Chuyao, confused, asked, "Why are you asking this?"

Her memory wasn't fully restored, but she knew Lu Chen was her enemy.

Xiao Xueying continued, "Our identity is very special; even if other Mysterious creatures know we've had children with Lu Chen, no one would dare say anything."

Ye Chuyao hesitated to speak; she still didn't understand her special identity within the strange clans, only knowing she was a mysterious creature.

Xiao Xueying then looked at Lu Chen, "Go ahead!"

Seeing Xiao Xueying's death-before-dishonor look, Lu Chen's lips curled, and he suddenly reached out and pulled Ye Chuyao into his arms.

Seeing Lu Chen chose her over Xiao Xueying, Ye Chuyao glared at Lu Chen, saying, "Lu Chen, how dare you!"

"If you dare do that to me, once we're out, I'll definitely mm-mmm..."

Ye Chuyao was thoroughly puzzled. Xiao Xueying had agreed to Lu Chen, so why didn't he go for Xuan Qingyun, but grabbed her instead—what was this scoundrel thinking?

Quickly, Ye Chuyao realized she'd forgotten the guy's personality; the more resistant you act in front of him, the more excited he gets.

Thinking of it this way, Xiao Xueying initiated because she knew if she took the initiative, Lu Chen would definitely lose interest.

Ye Chuyao was slightly upset; why didn't Xiao Xueying give her a heads-up? Now it seemed she was about to become a mother again soon.

...

Daqin Immortal Dynasty.

Above the Imperial City.

Lu Chen sat cross-legged on a white cloud, staring blankly at the system reward in front of him.

World Origin?

How is this used?

Lu Chen then took out the wisp of World Origin from the system rewards. The instant it appeared, it turned into a colorful light and entered Lu Chen's forehead, giving him no time to react.

The next moment, Lu Chen felt his strength rising rapidly, his Cultivation State soaring upwards.

Not sure if the rapid power boost was the cause, Lu Chen felt his Divine Soul about to explode. He quickly realized the power contained in this wisp of World Origin

was too terrifying, and he needed to refine it. If he didn't, his Divine Soul would soon be torn apart by the power of World Origin.

Lu Chen focused all his attention on his body, attempting to refine the wisp of World Origin, but soon discovered the energy contained was too terrifying, and his current strength was not enough to suppress it.

If this continued, his Divine Soul might explode from this terrifying force.

Just as Lu Chen painfully wondered if he was about to perish here today, suddenly he found the Heaven Opening Seal seemed restless, and the Qi Fortune absorbed by his Heavenly Heart could seemingly limit the wisp of World Origin.

Lu Chen hurriedly took out the Heaven Opening Seal, frantically absorbing the Qi Fortune of the Tianyan Immortal Domain. At this time, he didn't care about whether it would expose his ability to absorb Tianyan Immortal Domain's Qi Fortune indefinitely.

If he didn't use Qi Fortune to suppress the wisp of World Origin in his Divine Soul, he might perish; concerns about exposure were meaningless now—survival came first.

Having children earns benefit, start competing for dominance in the world by marrying a wife

As Lu Chen crazily absorbed the Qi Fortune of the Tianyan Immortal Domain, the Qi Fortune of the five realms within it furiously surged toward the Imperial City of the Daqin Immortal Dynasty.

When the Immortal Venerables in the Barbaric regions felt the rapid loss of Qi Fortune from their bodies as they were engaged in battle, they all stopped, their eyes collectively turning toward the direction of the Imperial City of the Daqin Immortal Dynasty.

Even the Hidden Moon Sect Leader paused, looking worriedly at the Imperial City of the Daqin Immortal Dynasty. Not only could he sense the rapid loss of Hidden Moon Sect's Qi Fortune, but he could also feel the Barbaric regions' Qi Fortune rushing madly toward the Daqin Immortal Dynasty.

The sudden surge in Daqin Immortal Dynasty's Qi Fortune indicated that something major happened there, possibly the emergence of a strong figure or a sudden increase in Lu Chen's power.

The Hidden Moon Sect Leader couldn't help but wonder, could it be the arrival of the Xiyue Immortal Emperor?

If so, then it's Blood Ancestor's turn to act; he dared not confront the Xiyue Immortal Emperor head-on.

The Hidden Moon Sect Leader quickly released his Divine Sense, trying to investigate the situation at the Daqin Immortal Dynasty and see if the Xiyue Immortal Emperor was present.

After some probing, he found no terrifying aura within the Daqin Immortal Dynasty, leading him to wonder if the Xiyue Immortal Emperor had concealed her presence, making it undetectable.

The Hidden Moon Sect Leader felt a moment of indecision, unsure whether to continue his attack.

Seeing that the Hidden Moon Sect Leader was hesitant to initiate an attack, the Blood Ancestor, hidden in the shadows, couldn't hold back. Emerging beside the Hidden Moon Sect Leader, he said, "Hidden Moon Sect Leader, what are you waiting for?"

The Hidden Moon Sect Leader replied coldly, "Blood Ancestor, you must have sensed it too; the Barbaric regions' Qi Fortune is converging towards the Daqin Immortal Dynasty. This situation suggests either a sudden power spike in Lu Chen's cultivation state or the appearance of the Xiyue Immortal Emperor in Daqin Immortal Dynasty."

"Either scenario is beyond my capability to handle. If the Xiyue Immortal Emperor has indeed come to Daqin Immortal Dynasty, I'll need your help to restrain her."

Seeing the Hidden Moon Sect Leader considering a retreat, the Blood Ancestor immediately said, "The Xiyue Immortal Emperor has not come to the Barbaric regions. Her aura remains in the Eastern Domain; if she had arrived, I would be the first to sense it."

"The reason for the surge in Daqin Immortal Dynasty's Qi Fortune likely lies in Lu Chen finding a way to deliberately gather the Qi Fortune of the Tianyan Immortal Domain."

The Blood Ancestor knew that the Tianyan Immortal Domain itself was created by Lu Chen, so it's easy for him to gather its Qi Fortune. However, this also indicated that Lu Chen's strength likely had restored significantly, and his memories from before reincarnation had likely returned partially.

Only with the restoration of pre-reincarnation memories did Lu Chen know how to gather the Qi Fortune of the Tianyan Immortal Domain, which was not good news for the Blood Ancestor.

Upon hearing this, the Hidden Moon Sect Leader paused for a moment before asking, "Gathering Qi Fortune actively? How is this possible?"

This was the first time he'd heard of someone able to absorb the Qi Fortune of other forces. Typically, only a sect leader within their own force could gather its Qi Fortune. Yet now, Daqin Immortal Dynasty was merging the Qi Fortune of the entire Barbaric regions. Could it be that the Heavenly Dao considered the entire Barbaric regions to belong to Lu Chen?

The reason for initiating the war was precisely for the Qi Fortune of other forces. If there was a method to steal Qi Fortune without war, the prospects of becoming an Emperor through the vast Qi Fortune were within reach.

Realizing this, the Hidden Moon Sect Leader grew increasingly eager. If what the Blood Ancestor said was true and Lu Chen indeed had a method to actively gather Qi Fortune, he must get it.

Seeing the greed in the Hidden Moon Sect Leader's eyes, the Blood Ancestor's lips curled slightly, then said, "I don't know exactly what method he uses, but I can tell you this: Lu Chen's identity is quite special; he could gather the world's Qi Fortune even before reincarnating."

The Hidden Moon Sect Leader's mind was momentarily stunned. He turned to look at the Blood Ancestor and asked sternly, "Is everything you're saying true?"

The Blood Ancestor replied, "Of course, it's true."

Though he still harbored some skepticism about the Blood Ancestor possibly deceiving him, if true, obtaining the method from Lu Chen for gathering the Tianyan Immortal Domain's Qi Fortune, the chances of breaking through to become an Immortal Emperor increased greatly.

He refused to believe that gathering the Qi Fortune of the entire Tianyan Immortal Domain wouldn't enable him to become an Immortal Emperor; it also intensified his sense of urgency.

With Lu Chen now actively gathering Qi Fortune, it hinted that Lu Chen was preparing to break through to become an Immortal Emperor. If he didn't stop him soon, once Lu Chen succeeded, they stood no chance against him — a dead end awaited.

He doubted that once Lu Chen became an Immortal Emperor, the Blood Ancestor would continue to stand by him.

Hidden Moon Sect Leader clenched his wrinkled fist, eyes ominously fixed on the direction of the Imperial Palace of the Daqin Immortal Dynasty.

It's imperative; Lu Chen's ascendance to Immortal Emperor must be stopped!

Resolved now, the Hidden Moon Sect Leader did not hesitate and directly controlled the Divine Corpse to charge toward the Imperial Palace of the Daqin Immortal Dynasty.

Witnessing this, Daqin Immortal Dynasty's Immortal Venerables quickly retreated, attempting to prevent the Hidden Moon Sect Leader from approaching the Imperial Palace, yet the Barbaric Immortal Venerables did not give them a chance to retreat.

Although Barbaric Immortal Venerables couldn't defeat Daqin Immortal Dynasty's Immortal Venerables, similarly, those from Daqin could not defeat the Barbaric ones head-on. However, impeding Daqin's Immortal Venerables was quite easy for them.

Currently, only the Wan Xu Immortal Venerable stood within the Imperial City of the Daqin Immortal Dynasty.

As the Hidden Moon Sect Leader neared the Imperial City, he sensed the aura of the Wan Xu Immortal Venerable, but paid no heed to him at all.

Given his current strength, engaging an Immortal Emperor might be strenuous, but dispatching a mere Immortal Venerable was a simple task.

The Wan Xu Immortal Venerable too was aware of the Qi Fortune rushing toward Lu Chen's palace; recognizing Lu Chen's pivotal moment, he voluntarily engaged the Hidden Moon Sect Leader, hoping to buy Lu Chen some time.

Looking at the immense Divine Corpse, the Wan Xu Immortal Venerable held no fear. With hands swiftly forming seals, he shouted, "Sky Ruins Burial Star Technique!!!"

The next instant, a gigantic blood-red setting sun appeared in the skies above the Daqin Immortal Dynasty, beginning to disintegrate as if on the brink of collapse.

Suddenly, the entire world transformed into a wasteland, prompting the Hidden Moon Sect Leader to coldly state, "To dare pull me into your realm; such folly!"

The Hidden Moon Sect Leader then manipulated the Divine Corpse, delivering a punch toward the sun, which exploded rapidly, the resulting shockwave shattering the entire realm.

The Wan Xu Immortal Venerable furrowed his brows slightly; the Divine Corpse's power originated from beyond the realm, one he couldn't withstand alone, yet with their majesty breaking through, whether he could endure or not, he must halt the Hidden Moon Sect Leader's advance.

Having children earns benefit, start competing for dominance in the world by marrying a wife

Wan Xu Immortal Venerable spat out a mouthful of fresh blood from the corner of his mouth, quickly calming the chaotic immortal power within his body, then without hesitation, he burned his Divine Soul.

Immediately after, Wan Xu Immortal Venerable raised his hand, a jade seal exuding a terrifying pressure appearing in his hand, which he then activated.

"Ruins Earth Tribulation Seal!!!"

In an instant, the originally rolling desert transformed again into a world filled with endless ruins.

To prevent Lu Chen from being affected by the battle, Wan Xu Immortal Venerable could only bring the Hidden Moon Sect Leader into his domain, attempting to minimize the battle's impact on Lu Chen.

However, the downside of this was that if critically injured within the domain, the backlash would be more severe.

Moreover, Wan Xu Immortal Venerable knew his domain couldn't possibly restrain this Divine Corpse.

But regardless, he must find a way to delay time.

After the jade seal in Wan Xu Immortal Venerable's hand flew out, it quickly expanded, resembling a massive mountain crashing toward the Divine Corpse controlled by the Hidden Moon Sect Leader.

The Hidden Moon Sect Leader once again mobilized the Divine Corpse's power, and it slowly raised its giant hand toward the sky where the Ruins Earth Tribulation Seal was.

The Divine Power of the Divine Corpse converged in its palm. As the Ruins Earth Tribulation Seal drew closer from above, with one mighty strike, a colossal golden beam burst forth from the palm, instantly penetrating the Ruins Earth Tribulation Seal and shattering Wan Xu Immortal Venerable's domain once more.

The Hidden Moon Sect Leader didn't even need to use any Immortal Law; just by relying on the Divine Corpse's own power, Wan Xu Immortal Venerable was unable to withstand it.

The Hidden Moon Sect Leader didn't plan to waste much time on Wan Xu Immortal Venerable. He clearly sensed that the Qi Fortune of the Daqin Immortal Dynasty was rapidly surging. If he delayed any longer, Lu Chen might indeed break through to become an Immortal Emperor.

The Hidden Moon Sect Leader controlled the Divine Corpse, initiating an attack. In an instant, it appeared in front of Wan Xu Immortal Venerable, and before Wan Xu Immortal Venerable could react, a fist like a mountain came crashing directly towards him, sending his body flying the next moment.

With just this one punch, Wan Xu Immortal Venerable's body developed cracks, nearing its breaking point.

This punch not only attacked his Physical Body but also greatly affected his Divine Soul. After this punch, the space above the Daqin Immortal Dynasty was directly shattered, forming a massive black hole, from which Chaos Qi was frantically pouring into the Daqin Immortal Dynasty.

Meanwhile.

Lu Chen, who was gathering Qi Fortune, had already perceived the battle between Wan Xu Immortal Venerable and the Hidden Moon Sect Leader. There was no denying, the power of this Divine Corpse was indeed terrifying. If it were earlier, without the help of Xiyue Immortal Emperor, they might not have been able to do anything about the Hidden Moon Sect Leader.

But now it's different. As Lu Chen sensed his rapidly increasing Cultivation State, the corners of his mouth couldn't help but slightly turn up. He was already at the Sixth Heaven of Immortal Venerate Realm, and not just any ordinary Sixth Heaven. With his current strength, dealing with the Divine Corpse of the Hidden Moon Sect Leader posed no problem.

Seeing Wan Xu Immortal Venerable being suppressed and attacked by the Hidden Moon Sect Leader, if this continued, Wan Xu Immortal Venerable would inevitably fall. Lu Chen decided not to continue gathering Qi Fortune and planned to first deal with the Hidden Moon Sect Leader.

In the sky, the Hidden Moon Sect Leader looked at the weak-breathing, cracked all over Wan Xu Immortal Venerable and coldly said: "Don't worry, very soon I will send Your Majesty down to accompany you."

As soon as he finished speaking, the Hidden Moon Sect Leader activated the Divine Corps's power, preparing to end Wan Xu Immortal Venerable's life.

However, just as he was about to act, a sense of life-and-death crisis suddenly surged in his heart, followed by the sensation of a terrifying presence suddenly descending nearby.

The Hidden Moon Sect Leader immediately looked in the direction of that aura, only to see Lu Chen, dressed in a white Golden Thread Embroidered Long Robe, floating high in the sky like a gentleman.

Seeing Lu Chen appear, the Hidden Moon Sect Leader instantly felt a bad premonition.

The Hidden Moon Sect Leader steadied his mind and used immortal power to communicate telepathically: "Lu Chen, you finally decided to come out!"

Lu Chen didn't respond to the Hidden Moon Sect Leader's words. Although his gaze was directed towards the Hidden Moon Sect Leader, his eyes seemed to pierce through him, looking at something behind him.

Lu Chen's Divine Thought could already sense half of the Barbaric realm, and he clearly felt a terrifying presence hidden in the space behind the Hidden Moon Sect Leader.

Moreover, that aura was mixed with a heavy scent of blood, and with a flash of insight, Lu Chen knew that the one lurking hidden was the Blood Ancestor.

Lu Chen immediately said: "Blood Ancestor, since you're here, why hide in the shadows? Aren't you eager to kill me? Why not join the Hidden Moon Sect Leader in the attack? Or are you planning to reap the benefits while we fight?"

Upon hearing Lu Chen's words, the Blood Ancestor knew he was exposed and stopped hiding, and his figure slowly emerged.

Blood Ancestor said coldly: "Lu Chen, you don't think a single sentence could drive a wedge between me and the Hidden Moon Sect Leader, do you?"

Lu Chen said: "Drive a wedge? Your relationship doesn't need any driving; even a fool can see what you're thinking."

Hearing Lu Chen's words, the Hidden Moon Sect Leader's face darkened, feeling as if Lu Chen was insulting him.

The Blood Ancestor released his Divine Thought to probe Lu Chen's Realm and discovered that Lu Chen was only at the Immortal Venerate Sixth Layer. He then continued: "Just a mere Sixth Heaven of the Immortal Venerable Realm, not worthy of my action. Do you still think you are the mighty force who could create an entire world single-handedly?"

Saying this, the Blood Ancestor then spoke to the Hidden Moon Sect Leader: "Hidden Moon Sect Leader, he only has the Cultivation State of the Sixth Heaven, surely you should be able to handle him easily, no?"

The Hidden Moon Sect Leader did not answer the Blood Ancestor's words, he too perceived that Lu Chen might indeed have only the Cultivation State of the Immortal Venerate Sixth Layer, but the sense of impending crisis was extremely intense, suggesting that Lu Chen's true strength had either reached or even surpassed his own.

Lu Chen's true strength couldn't possibly be just the Sixth Heaven of the Immortal Venerate Realm.

The Hidden Moon Sect Leader didn't waste any more words, immediately mobilizing all the power of the Divine Corpse, planning to quickly settle the matter with Lu Chen. As he began to manipulate the Divine Corpse, his Life Force was rapidly depleting, and if continued, he feared he might not have time to defeat Lu Chen before his Life Force was completely drained by the Divine Corpse.

At that moment, the Divine Corpse shone with golden light all over its body, following which it punched towards Lu Chen's position.

The pressure from this punch even made Lu Chen's heart palpitate, yet Lu Chen remained still, intending to use this opportunity to test his current strength.

The next moment, the Immortal Slaying Sword appeared in Lu Chen's hand. Immediately, he gathered all his immortal power and swung the sword, "Sky Shaking Soul Slash!!!"

After this sword slash, what Lu Chen imagined as a grand spectacle didn't occur, and even the Sword Qi failed to manifest.

Even Lu Chen himself was momentarily stunned.

However, the Hidden Moon Sect Leader and Blood Ancestor on the opposite side had their expressions drastically change. Though they too didn't witness any Sword Qi from Lu Chen's slash, a looming sense of calamity gripped their hearts.

Having children earns benefit, start competing for dominance in the world by marrying a wife

Upon seeing Lu Chen swing his sword, no Sword Qi appeared, and up in the sky, everything remained calm and quiet; suddenly, Blood Ancestor thought of something.

The next moment, his body transformed into a cloud of blood mist, quickly dissipating into the air.

Meanwhile, the Hidden Moon Sect Leader had yet to react. Although he sensed a life-and-death crisis, he was clueless about where the dangerous feeling originated.

Just at that moment, a sharp pain arose deep within his Divine Soul, and it was only then that he saw the sword swung by Lu Chen moments ago.

The Sword Qi from that slash connected heaven and earth, heading directly toward his Divine Soul, and the face of the Hidden Moon Sect Leader dramatically changed.

Oh no, this is an attack targeted at the Divine Soul; no wonder when Lu Chen swung that sword there was no Sword Qi, it turned out to be an attack specifically aimed at the Divine Soul.

However, even though the Hidden Moon Sect Leader already understood at this point, it was too late; the invisible Sword Qi of the Sky Shaking Soul Slash instantaneously pierced through the Divine Soul of the Hidden Moon Sect Leader, directly splitting it in two.

The Hidden Moon Sect Leader's eyes widened in disbelief, staring at Lu Chen, "No... impossible..."

With just one sword, merely one sword, his Divine Soul was shattered...

He had refined the Divine Corpse, wielding strength near the Immortal Emperor Level, yet he was defeated by an Immortal Venerate Sixth Layer.

The Hidden Moon Sect Leader knew well that he only possessed near-Immortal Emperor strength, but his Divine Soul Strength did not reach the powerful level of an Immortal Emperor, making all attacks targeting the Divine Soul deadly for him.

He was just unwilling, having obtained near-Immortal Emperor strength but dying at the hands of an Immortal Venerate Sixth Heaven.

With the shattering of the Hidden Moon Sect Leader's Divine Soul, his corpse fell straight down from the sky, and as he perished, the Divine Corpse under his control also tumbled backward.

The Divine Corpse fell into the desert, shaking the entire Daqin Immortal Dynasty; the dust in the desert rose tens of thousands of feet high.

Lu Chen stood in mid-air, simply watching the fallen Divine Corpse; truthfully, he felt quite surprised, thinking he should have been evenly matched with the Hidden Moon Sect Leader, yet unexpectedly, he slew him with just one sword.

Was the power of the Sky Shaking Soul Slash really so terrifying?

Moreover, the Sky Shaking Soul Slash was quite peculiar, only targeting the Divine Soul without damaging anything other than the Divine Soul, living up to its reputation as a Holy Tier sword technique.

Now that the Hidden Moon Sect Leader is dead, Barbaric is leaderless; unifying the entire land will likely be much easier.

But now there remains a major problem, which is Blood Ancestor hiding in the shadows.

Thinking about this, Lu Chen immediately released his Divine Sense, probing the Daqin Immortal Dynasty, discovering after some investigation that there was no trace of Blood Ancestor.

Blood Ancestor left the Daqin Immortal Dynasty when he swung that sword, possibly even leaving Barbaric.

Lu Chen couldn't help but think that Blood Ancestor was being overly cautious; if Blood Ancestor had truly attacked him, given his Immortal Venerate Sixth Heaven Cultivation State, he probably wouldn't have been his match.

Yet, conversely, it was because of Blood Ancestor's caution that he had enough time to grow; had Blood Ancestor gone all out against him initially, he might still be running for his life.

Lu Chen retracted his Divine Sense, his gaze falling on the monumental Divine Corpse on the ground; now, with the Hidden Moon Sect Leader dead, the Divine Corpse had become ownerless.

Lu Chen pondered whether to refine this Divine Corpse, thus gaining an additional ally.

Thinking this, Lu Chen approached the Divine Corpse's forehead, releasing his Divine Thought to probe its condition.

After some probing, he found that the Divine Corpse contained very little remaining "Divine Power"; without it, the Divine Corpse's most significant use might be serving as a shield, merely as a shield hence refining it seemed unnecessary.

Considering this, Lu Chen intended to collect the Divine Corpse; however, just then, he noticed an issue: the Divine Corpse was exceptionally intact, maintaining a youthful state, and didn't appear to have fallen due to reaching its end of life.

The cause of death seemed to be something that attacked its Divine Soul, and after its Divine Soul shattered, its body was perfectly preserved.

Considering this, Lu Chen immediately looked toward the distant remains of the Hidden Moon Sect Leader.

The cause of death for this Divine Corpse seemed to be the same as the Hidden Moon Sect Leader; could it be that the one who killed this Ancient God was also him? To be precise, an incarnation from his past life.

Thinking about it now seemed futile; better to take control of the entire Barbaric first, speaking this, Lu Chen directly transmitted his voice, "The Hidden Moon Sect Leader has been slain by Me; henceforth, Barbaric belongs to Great Qin!"

Upon hearing Lu Chen's voice, those Immortal Venerables restraining the Daqin Immortal Dynasty in Barbaric were all stunned.

The Hidden Moon Sect Leader was slain by Lu Chen?

How could it be?

When the Hidden Moon Sect Leader controlled the Divine Corpse, he possessed near-Immortal Emperor Level strength; how could Lu Chen have killed him?

Could it have been Xiyue Immortal Emperor? Yet they hadn't sensed any presence of Xiyue Immortal Emperor, and Blood Ancestor was always beside the Hidden Moon Sect Leader; if Xiyue Immortal Emperor appeared, Blood Ancestor should have intervened.

Could it be they fell for Blood Ancestor's trick, being betrayed by him?

Thinking of Blood Ancestor's history of betrayal, selling out the entire Southern Domain once before, the forces of Barbaric were anxious.

The Immortal Venerates swiftly released their Divine Sense, intending to survey the Hidden Moon Sect Leader's condition, soon realizing that the towering Divine Corpse had fallen in the desert and the Hidden Moon Sect Leader's presence had vanished.

Consequently, what Lu Chen said was indeed true; the Hidden Moon Sect Leader really was dead, regardless of whether Lu Chen personally killed him, the Hidden Moon Sect Leader was certainly deceased.

Without the Hidden Moon Sect Leader, they, lacking Immortal Emperor's backing, had no chance against the Daqin Immortal Dynasty.

Hence, some forces' Immortal Venerates immediately chose to halt the conflict, expressing their willingness to align with the Daqin Immortal Dynasty on the spot.

At this moment, above a certain desert, Dragon Soaring Immortal Venerable stared straight at Taihua Immortal Venerable and the others ahead.

Just then, an Immortal Venerable from Azure Dragon Hall approached Dragon Soaring Immortal Venerable, and asked, "Hall Master, what should we do next?"

With the Hidden Moon Sect Leader dead, if Blood Ancestor is unwilling to aid, Barbaric is like sand scattered, unable to resist the Daqin Immortal Dynasty.

Also, they couldn't trust Blood Ancestor; he once watched the forces of the Southern Domain being wiped out by Barbaric without intervening, so he is unlikely to help Barbaric, having no substantial relation with it.

Perhaps Blood Ancestor hopes for continuing conflict between Barbaric and the Daqin Immortal Dynasty.

Thinking of this, Dragon Soaring Immortal Venerable said outright, "Azure Dragon Hall was coerced by the Hidden Moon Sect Leader to attack the Daqin Immortal Dynasty; now that the Hidden Moon Sect Leader is dead, we naturally wish to submit to the Daqin Immortal Dynasty."

After hearing Dragon Soaring Immortal Venerate's words, Taihua Immortal Venerate let out a sigh of relief. Confronted directly by Dragon Soaring Immortal Venerate, he had been taking a defensive stance, and if not for wanting to impress Lu Chen, he would have long fled.

Taihua Immortal Venerate smiled and said at this time, "This is the most correct decision you have made. But speaking of it, Dragon Soaring Hall Master, do you really have no intentions toward the Barbaric?"

Even though Azure Dragon Hall had left the Northern Domain, it was still once its overlord. The foundation remains, and with the restrictions in Tianyan Immortal Domain being lifted, the strength of Azure Dragon Hall has greatly increased.

Now Azure Dragon Hall's overall strength is similar to Hidden Moon Sect, but the biggest difference is that Hidden Moon Sect had a Sect Leader with Immortal Emperor strength. However, since the demise of Hidden Moon's Sect Leader, Azure Dragon Hall replacing Hidden Moon Sect is not impossible.

Upon hearing Taihua Immortal Venerate's words, Dragon Soaring Immortal Venerate sneered coldly and then replied, "Does Taihua Hall Master think this Venerate is a fool?"

Just now, Lu Chen had clearly stated that henceforth the entire Barbaric belongs to the Daqin Immortal Dynasty. If Azure Dragon Hall were to step out now to seize the overlord position, the Daqin Immortal Dynasty would gather the Barbaric's other forces to attack Azure Dragon Hall.

Lu Chen has an Immortal Emperor backing him. The Daqin Immortal Dynasty can easily enlist the Barbaric's other forces. Most importantly, Lu Chen has the support of an Immortal Emperor, and without an Immortal Emperor, Azure Dragon Hall has no qualification to contest the overlord position of the Barbaric with the Daqin Immortal Dynasty.

Upon hearing Dragon Soaring Immortal Venerate's words, Taihua Immortal Venerate smiled and said, "This Venerate just thinks that Azure Dragon Hall, having once been the overlord of a Realm, might feel a bit unwilling."

Dragon Soaring Immortal Venerate said expressionlessly, "Azure Dragon Hall was once the overlord of a Realm, and was not Taihua Hall Master's Heavenly Splendor Hall also once an overlord of a Realm? Now Taihua Hall Master also stays honestly in the Eastern Domain."

Upon hearing Dragon Soaring Immortal Venerate's sarcastic remarks, Taihua Immortal Venerate didn't care at all. The rule of Tianyan Immortal Domain is that strength is supreme.

At this moment, Dragon Soaring Immortal Venerate suddenly thought of something and continued, "I am just curious, Taihua Hall Master had a good allegiance to the Immortal Emperor, yet why join the Daqin Immortal Dynasty instead? Just because Lu Chen is the couple of that person?"

"You should know very well, the couple relationship is not very stable. Maybe they get along well now, and she will protect Lu Chen, but if their feelings fade or they have a conflict one day, your Heavenly Splendor Hall will also suffer."

Taihua Immortal Venerate said indifferently, "You need not worry about this."

Dragon Soaring Immortal Venerate felt there was a deeper reason, but Taihua Immortal Venerate wouldn't tell him, so he could only give up.

Azure Dragon Hall chose to submit to the Daqin Immortal Dynasty, and the Barbaric's other forces undoubtedly followed. Soon, the various forces of the Barbaric publicly declared their willingness to be subsidiaries of the Daqin Immortal Dynasty, thus Lu Chen completed the unification of the Barbaric.

After the war ended, Lu Chen immediately summoned the leaders of the Barbaric forces. After setting simple rules for them, he focused on cultivation and childbearing.

Now, relying on the Red Flower Sedan to suppress all powers within Ye Chuyao and the others, they are able to conceive again, and Lu Chen doesn't plan to miss this opportunity.

No one knows what may happen next, so it is essential to seize the time and strive for Ye Chuyao and the other three women to conceive before a new crisis appears in Tianyan Immortal Domain.

Not just Ye Chuyao and the three women, Lu Chen also plans for Xiyue Immortal Emperor and Heavenly Language Immortal Venerate to bear his children.

As for the Blood Ancestor, he does not plan to deal with him for the time being. As long as Blood Ancestor doesn't cause trouble, he won't immediately attack him. Time is on his side. Although both he and Blood Ancestor will become increasingly powerful with time, he is confident he will grow stronger than Blood Ancestor.

Tianxi Palace.

In the bedchamber of Xiyue Immortal Emperor, the fragrance is swirling. At this time, Lu Chen's figure appeared in the grand hall. Seeing no trace of Xiyue Immortal Emperor on the divan, Lu Chen immediately used the Unity Seal to probe Xiyue Immortal Emperor's location.

However, just as Lu Chen used the Unity Seal, he felt a terrifying mysterious aura rushing towards his Divine Soul. Lu Chen quickly stopped sensing Xiyue Immortal Emperor's location.

What is going on?

Lu Chen looked at Xiyue Immortal Emperor's maidens in the palace and asked, "Where is your Palace Master?"

The maidens replied, "Master, Palace Master said she has gone out for something and may not return for a thousand years. If Master encounters any danger, she will naturally appear."

Upon hearing this, Lu Chen was momentarily stunned. Could it be that Xiyue Immortal Emperor is hiding from him?

Could it be Xiyue Immortal Emperor has already guessed his thoughts, knowing he intends to have her bear another child, thus finding an excuse to hide?

Even if he guessed that Xiyue Immortal Emperor was making excuses to hide, he couldn't do anything about Xiyue Immortal Emperor. Now, this Unity Seal seems useless.

The rift on the sealing deep within Xiyue Immortal Emperor's Divine Soul is getting larger. If he uses Unity Seal to probe Xiyue Immortal Emperor, the mysterious power deep within her Divine Soul would directly enter his Divine Soul, and he does not want his Divine Soul to be eroded by the mysterious power.

Meanwhile.

Mysterious Moon Palace.

Deep within the forbidden area, Xiyue Immortal Emperor stood before Immortal Emperor Youlan's Crystal Coffin, gazing at Immortal Emperor Youlan clad in a black dress floating above the Crystal Coffin.

Immortal Emperor Youlan asked indifferently, "How much of your memory have you recovered now?"

Xiyue Immortal Emperor replied, "Seventy to eighty percent."

Immortal Emperor Youlan continued to ask, "Do you now desire to kill that lecher?"

Upon hearing this question, Xiyue Immortal Emperor's fair hand couldn't help but clench tightly.

When her memory was only three to four tenths recovered, she didn't take Lu Chen seriously because back then she merely knew she was a strange being but didn't know her actual identity.

However, as the seal deep in her Divine Soul slowly unraveled, she gradually understood she wasn't just any strange being but one of the Ancestor of the Strange.

As a dignified strange being, she was actually ridden by a blood meal and even bore him a child. This was an enormous humiliation for her.

Despite her rage and desire to slay Lu Chen right away, remembering their covenant with Lu Chen, she could only swallow the anger.

Seeing Xiyue Immortal Emperor silent, Immortal Emperor Youlan continued, "It's not your fault. No one anticipated that this lecher would take advantage of our sealed memories and powers to do such a thing."

"Once we leave this world, I shall immediately kill him to avenge you."

Hearing this, Xiyue Immortal Emperor's emotions were complex. Even though seventy to eighty percent of her memory as an Ancestor of the Strange has returned, it hasn't entirely overwhelmed her memories as Xiyue Immortal Emperor. Most crucially, her latest memories as Xiyue Immortal Emperor contain a hint of emotion towards Lu Chen.

Having children earns benefit, start competing for dominance in the world by marrying a wife

Seeing that Xiyue Immortal Emperor remained silent, Immortal Emperor Youlan frowned coldly and then asked, "Could it be that you have developed feelings for him, this blood food?"

Xiyue Immortal Emperor immediately snapped back to reality and coldly retorted, "Do you think I would develop feelings for a blood food?"

Immortal Emperor Youlan replied, "Indeed, it seems I was overthinking."

Mysterious creatures inherently have no emotions, they only know to absorb vitality. Especially as Ancestors of the Strange, they are even more indifferent. In their eyes, all lives are just their blood food, essential for maintaining their immortal existence.

Just as Immortal Emperor Youlan wanted to ask something further, Xiyue Immortal Emperor was the first to speak, saying, "He and I have a child."

Upon hearing this, Immortal Emperor Youlan's golden eyes fixed on Xiyue Immortal Emperor, remaining silent for a long time.

As far as she knew, not only did Xiyue Immortal Emperor have a child with Lu Chen, but Xu Jingshu and a few from the Barbaric lands also had children with Lu Chen.

After a while, Immortal Emperor Youlan finally spoke, "Once we leave this world, just kill your child then."

They are Ancestors of the Strange, supreme rulers of the strange race. How could they bear children with a blood food? Therefore, in Immortal Emperor Youlan's view, the children of Xiyue Immortal Emperor must be killed.

Xiyue Immortal Emperor said calmly, "Don't you want to know why we can conceive offspring with a blood food?"

Hearing the question, Immortal Emperor Youlan thought for a moment. "Perhaps because your mysterious power was sealed, your body lacks death qi, thus having the conditions to breed life."

Xiyue Immortal Emperor replied, "Incorrect. Even if my mysterious power was sealed, I am still a mysterious life, and the supreme rules of the Deceit Realm dictate that we cannot combine with a blood food to create life."

Mysterious life is mysterious life, mysterious life itself is dead matter, while Lu Chen belongs to the Spirit Realm, a living being, and living beings cannot birth life with dead matter, which is a cosmic supreme law.

In fact, it is not unheard of for mysterious life to associate with the Spirit Realm people. After all, some mysterious life have peculiar hobbies, but Xiyue Immortal Emperor has never heard of mysterious life conceiving offspring with humans.

They were able to conceive offspring with Lu Chen either because the cosmic supreme rule failed, or because Lu Chen himself is not human, but also mysterious life.

However, Xiyue Immortal Emperor signed the Unity Seal with Lu Chen, clearly sensing that Lu Chen's divine soul is indeed a human soul, proving he is not mysterious life.

This implies that the supreme rules may have failed here, allowing them to conceive life with Lu Chen.

Listening to Xiyue Immortal Emperor, Immortal Emperor Youlan pondered for a moment, then asked, "Are you saying the Rule Power of the Deceit Realm failed here?"

Xiyue Immortal Emperor replied, "I'm afraid so."

Immortal Emperor Youlan said, "In that case, even if we don't kill your offspring with Lu Chen, once they leave this world, they might be obliterated by the Rule Power."

The children conceived with Lu Chen were born bypassing the rules. If they appear in the restricted Deceit Realm or Spirit Realm, cosmic supreme rules would obliterate them immediately.

Hearing Immortal Emperor Youlan's statement, Xiyue Immortal Emperor fell silent. Her heart ached at the thought of her child perishing.

Xiyue Immortal Emperor felt perplexed; she was undoubtedly mysterious life, supposed to lack emotions, so why was she feeling this way?

Could it be...

Xiyue Immortal Emperor quickly realized that perhaps mysterious life lacking emotions was also a product of cosmic supreme rules, but in this world, cosmic supreme rules are ineffective, thus allowing her as mysterious life to gradually develop emotions?

If this is the case, then once they leave this world, perhaps their inner feelings would be obliterated again, returning them to being the cold and impassive Ancestors of the Strange.

At this time, Immortal Emperor Youlan continued, "Lu Chen is no threat, my greatest concern is still the outsider."

Upon hearing Immortal Emperor Youlan's words, Xiyue Immortal Emperor snapped back to reality, saying, "Our mysterious power leaked ahead of time; I'm afraid he has already sensed it."

Xiyue Immortal Emperor said, "His goal is solely to erase all our memories, so even if he perceived the mysterious power we released, he likely wouldn't care."

Immortal Emperor Youlan sneered coldly, "Trying to erase our memories and then control us—wishful thinking."

"Once I leave this world, I will definitely seal him away, preventing him from absorbing the vitality of any blood food ever again!"

...

Southern Domain.

In Blood Eagle Hall, high above, Blood Ancestor's mountain-like form sat cross-legged, suspended above the clouds.

At this moment, Blood Ancestor furrowed his brows, his gaze constantly fixed on the direction of the Barbaric lands.

Lu Chen's one sword strike that killed Hidden Moon Sect Leader indeed startled Blood Ancestor. Initially, when Hidden Moon Sect Leader attacked the Southern Domain, he pressured Hidden Moon Sect Leader, yet could not kill him until the very end.

Although Lu Chen was merely an Immortal Venerable Sixth Layer, his strength was astoundingly formidable.

If he were to face Lu Chen, he likely wouldn't stand a chance either; what intrigued him most was Lu Chen's sword technique.

If he wasn't mistaken, Lu Chen used the Sky Shaking Soul Slash, which consumes a large amount of pure "Spiritual Power."

The Spiritual Power here doesn't refer to the world's power. Although Tianyan Immortal Domain has "Immortal Domain" in its name, it's essentially an ordinary Small World; in this world, both Spiritual Energy and Immortal Aura are transformations of Spirit Realm's Spiritual Power.

After coming to this world, Lu Chen killed some Spirit Realm individuals who accompanied him, establishing this world, and then suppressed the remaining Spirit Realm people under Tianyan Immortal Domain, using a special formation to continuously extract their Spiritual Power, turning it into this world's Spiritual Energy and Immortal Aura.

The difference here is that Immortal Aura contains more abundant energy, but both Immortal Aura and Spiritual Energy lack the purity of pure Spiritual Power.

For this reason, many Spirit Realm cultivation techniques cannot be used in this deceptive Immortal Domain, as the world's power can't activate those techniques, including Lu Chen's sword technique.

To wield Sky Shaking Soul Slash at the Immortal Venerable Sixth Layer signifies that Lu Chen's body has already condensed pure Spiritual Power.

If this is true, then Lu Chen becomes even more formidable to reckon with.

Lu Chen's Sky Shaking Soul Slash targets the Divine Soul, and because it uses pure Spiritual Power, the world cannot perceive Lu Chen's Sword Qi. Chaos Qi appears to strongly reject pure Spiritual Power, which is why Lu Chen initially converted pure Spiritual Power to this world's "Spiritual Energy" and "Immortal Aura."

In the Barbaric lands, when Blood Ancestor saw Lu Chen's sword without generating Sword Qi, he immediately realized Lu Chen's sword utilized pure Spiritual Power, not the world's power.

Having children earns benefit, start competing for dominance in the world by marrying a wife

The Blood Ancestor clenched his fists, feeling utterly unwilling. Was he really going to just watch Lu Chen restore his Cultivation State?

If Lu Chen truly restored his powers, he would undoubtedly capture the Blood Ancestor again for suppression, then extract the force from him to sustain this world.

In the Tianyan Immortal Domain flooded with Chaos Qi, pure Spiritual Power was constantly being corroded, necessitating a continuous supply of new Spiritual Energy and Immortal Aura to the world.

But this world was isolated from the outside; the only sources of energy left were those Great Powers who entered this world together with Lu Chen.

However, as time passed, the Spiritual Power within those suppressed under the Tianyan Immortal Domain by Lu Chen had likely been depleted entirely.

There might be very few Great Powers still alive even; each revival of Immortal Aura in the Tianyan Immortal Domain signified the fall of a Great Power from the Spirit Realm. In the moment of their fall, their remaining pure Spiritual Power would instantly convert into the Spiritual Energy and Immortal Aura for this world, which is what Tianyan Immortal Domain calls Immortal Aura revival.

If those Great Powers were all dead, Lu Chen would certainly seek new resources to maintain the existence of the Tianyan Immortal Domain.

Recalling Lu Chen's past brutal acts made the Blood Ancestor feel deeply terrified.

He was not a Righteous Immortal himself, yet he felt he was more benevolent than Lu Chen. Back when they entered this world, the countless Spirit Realm Great Powers were all suppressed by Lu Chen.

And those weaker ones of the Spirit Realm were all exterminated by Lu Chen, becoming the first batch of nourishment for the Tianyan Immortal Domain.

Thinking of this, a violent surge of blood energy erupted from the Blood Ancestor.

No, he absolutely couldn't sit around waiting for death. If he continued to drag it out, once Lu Chen's strength was restored, he would be doomed.

Acting now against Lu Chen might still give him a chance to defeat him; waiting for Lu Chen to grow stronger meant complete ruination.

Since no one was willing to help, he would have to act himself. With this determination, the Blood Ancestor directly communicated with all Evil Immortals of Blood Eagle Hall.

"From today on, Blood Eagle Hall wages war against the Daqin Immortal Dynasty!"

The Daqin Immortal Dynasty also controlled a significant portion of territory in the Southern Domain – land taken by Lu Chen during the Barbaric assault on the Southern Domain.

The Blood Ancestor planned to seize this part of Daqin land, to see if he could stop Lu Chen from absorbing the Qi Fortune of the Southern Domain. He didn't hold much hope, though, knowing full well the Heavenly Dao of the Tianyan Immortal Domain favors Lu Chen, being his creation. Weakening Lu Chen's Qi Fortune would not be easy.

His only hope lay in Lu Chen's strength not having restored much yet; perhaps when Lu Chen slew the Hidden Moon Sect Leader, that sword consumed his last bit of pure Spiritual Power, and if so, Lu Chen wouldn't be able to wield a second sword, giving him a great chance.

At the Daqin Immortal Dynasty.

High above the Imperial City, Lu Chen sat cross-legged on the clouds, eyes closed, feeling the frenzied growth of power within him.

Having unified the whole of the Barbaric, he no longer needed to proactively absorb its Qi Fortune; it gathered to him naturally, further enhancing his power.

Just then, a system alert sounded in Lu Chen's ears.

"Congratulations, Host, for helping Ye Chuyao conceive a child, awarding a strand of World Origin."

Upon hearing the alert, Lu Chen immediately directed his attention inside the Red Flower Sedan.

At that moment, Ye Chuyao glared at Lu Chen with great resentment, feeling the life growing within her, she viciously threatened, "Once we're out, I will rip you to pieces and devour you!"

Lu Chen chuckled and retorted, "Aren't you already devouring me now?"

Hearing this, Ye Chuyao showed a hint of disgust on her face.

Lu Chen ignored Ye Chuyao, moving her aside, while his gaze turned to Cao Shiyun.

Seeing Lu Chen took interest in her, Cao Shiyun hastily said, "Lu Chen, we aren't suitable, humans and strange life are different... mm!!"

Before Cao Shiyun could finish, Lu Chen pulled her into his arms and silenced her.

Seeing Lu Chen proceed one by one, Yun Yudie coldly spoke from the side, "What's the point of this? Do you think we'd have any affection for a child? Once we leave this world, we'll dispose of our children immediately."

"Don't you know there's no emotion in the Strange Tribe? Do you intend to threaten us with children?"

Yun Yudie genuinely didn't understand why Lu Chen kept wanting them to bear his children. Though unexplained, her being a Mysterious Life able to conceive for Lu Chen was peculiar; even so, having his child wouldn't threaten them.

Among the Strange Tribe, the notion of parental devotion didn't exist; they were merely lifeless beings.

Upon hearing Yun Yudie's words, Lu Chen slowly parted his lips from Cao Shiyun's, then turned to Yun Yudie and said, "Honestly, I don't know why I'm so intent on having you all bear children. Initially, I thought you'd set a trap for me."

Up till now, Lu Chen hadn't figured out the system's origins or the reason behind it wanting him to produce offspring with Mysterious Lives, but given the circumstances, overthinking seemed futile; once his memory was recovered, the truth might become clear.

Upon hearing Lu Chen's remark, Yun Yudie and the others were slightly startled. Had they set a trap for him?

Yun Yudie replied, "With the contract token in place, it's impossible for us to trap you."

Lu Chen asked, "Speaking of which, do you know why the token is the Red Flower Sedan?"

Lu Chen was curious as to why they'd chosen the Red Flower Sedan as the token when making the contract, instead of using something else.

Upon Lu Chen's inquiry, Yun Yudie quickly responded, "That was your suggestion."

Lu Chen pondered for a moment; was it really his suggestion? Could the system be somehow related to his own planning?

The Red Flower Sedan, a celebratory item, typically wouldn't be used as a token unless it served a specific purpose.

As for the reason, only memory recovery could provide answers. To accelerate memory recovery necessitated rapid power enhancement.

Thinking thus, Lu Chen unhesitatingly descended, with Cao Shiyun immediately threatening, "You scoundrel, I'll definitely make you... mm..."

Lu Chen once more sealed her lips, and though Cao Shiyun felt humiliated, she could do nothing with the Red Flower Sedan as a token.

They began to regret having ever made such a pact with Lu Chen, now unable to resist him.

Being so dishonorably humiliated by a blood feast, they—descendants of the Ancestor of the Strange—had lost all pride.

Having children earns benefit, start competing for dominance in the world by marrying a wife

After Ye Chuyao became pregnant, Lu Chen's attention once again returned to cultivation.

Above the clouds, Lu Chen looked at the World Origin on the system interface. He didn't hesitate at all and directly extracted that thread of World Origin.

The next moment, that thread of World Origin turned into multicolored gas and instantly merged into his forehead. Immediately, Lu Chen felt his cultivation state rising crazily.

Just as his cultivation was rapidly increasing, Lu Chen suddenly sensed something and abruptly opened his eyes to look towards the direction of the Southern Domain.

Southern Domain.

White Rainbow Immortal City.

In Lu Chen's residence, his other physical form also opened its eyes. At this time, the voice of White Rainbow Immortal King came from outside once again.

"Your Majesty, there is bad news!"

Lu Chen then controlled that form to come out of the cultivation chamber. He arrived at the yard and directly asked, "What happened?"

The White Rainbow Immortal King quickly said, "Blood Eagle Hall has initiated a war, wanting to annex all of Great Qin Immortal Dynasty's territory in the Southern Domain and expel Great Qin Immortal Dynasty from the Southern Domain."

Upon hearing this, Lu Chen was a bit surprised. He thought Blood Ancestor would continue to be so cowardly, waiting for him to become strong before coming to find Blood Ancestor to settle accounts. Unexpectedly, Blood Ancestor initiated the war early.

Does Blood Ancestor think his strength hasn't fully recovered, so currently, he has a chance of winning?

Or is he worried that if he continues to grow, eventually he will not be able to match himself, so he could only initiate the war early.

No matter what the reason, since Blood Ancestor has already started the war, then the war between the Southern Domain and Barbaric should also come to an end.

Currently, the Great Qin Immortal Dynasty and its affiliated forces have over a hundred Immortal Venerates, and he has the Spirit Realm Crossing Array, which can immediately transport the various Barbaric forces to the Southern Domain. Blood Eagle Hall's attempt to annex the Great Qin Immortal Dynasty's territory won't be so easy.

However, Lu Chen is still a bit worried internally. After absorbing this thread of World Origin, it is unclear whether he can break through to become an Immortal Emperor; digesting this thread of World Origin also requires some time.

If he doesn't break through to become an Immortal Emperor, he might not be a match for the Blood Ancestor. Currently, Xiyue Immortal Emperor's whereabouts are unknown; if he's not a match for Blood Ancestor and Xiyue Immortal Emperor doesn't come to help, then there will be trouble.

At the moment, it's urgent to quickly digest that piece of World Origin and promptly break through to become an Immortal Emperor.

Thinking of this, Lu Chen once again relies on the Heaven Opening Seal to crazily absorb the Qi Fortune of Tianyan Immortal Domain, and use it to refine that thread of World Origin.

Meanwhile, Lu Chen's other physical form summoned the leaders of various Barbaric forces.

Seeing Lu Chen summon them again, the leaders of Barbaric forces were curious about what Lu Chen intended to do, as Lu Chen had recently gathered them, and now quickly summoned them again. If there wasn't a major matter, it wouldn't be possible to gather them for a Great Court Assembly so frequently.

Great Qin Immortal Dynasty, Imperial Palace.

In the Hall of Political Affairs, Lu Chen glanced at the leaders present and was about to speak when Dragon Soaring Immortal Venerable was the first to ask, "Your Majesty, I wonder what matter you have to gather us this time?"

He originally planned to take this opportunity to break through the Fifth Heaven of Immortal Venerate, but Lu Chen summoned them, disrupting his retreat. Dragon Soaring Immortal Venerable was quite unhappy about this; however, although he was displeased, he didn't dare to turn against Lu Chen. He just wanted to know what big matter had prompted Lu Chen to gather them again.

Lu Chen glanced at everyone again. He clearly sensed the resentment on these people's bodies. After Great Qin Immortal Dynasty unified the entire Barbaric, Barbaric's overall Qi Fortune welcomed a wave of increase; these Immortal Venerates present intended to use this opportunity to retreat properly, but they were called here at this time, so it's normal for them to feel some resentment.

Lu Chen directly said, "Blood Eagle Hall is attacking the Southern Domain land occupied by Barbaric, intending to completely expel Barbaric forces from the Southern Domain."

Upon hearing this, the leaders present were momentarily stunned.

The top forces present also have some territories in the Southern Domain; various forces left some people behind in Barbaric to guard the Southern Domain territories they occupied.

If their domain is invaded, the people they left behind will surely report back immediately. Now they don't know about this matter, mainly because the Sunset Mountain Range has been shrouded by Heavenly Demon Power, and the people who transmit messages need to detour through the Central Domain, which is why the news hasn't been transmitted back promptly.

Lu Chen continued, "It is time for this war between Barbaric and the Southern Domain to end."

At this time, an Immortal Venerate said, "Your Majesty, if we now gather the army to head to the Southern Domain, it's estimated that before we reach the Southern Domain, the territories we occupied in the Southern Domain will already have been captured by Blood Eagle Hall. If they have preemptively set up a Great Array waiting for us, we may suffer heavy losses then."

Currently, most of Barbaric's Immortal Venerates don't want to continue this war, mainly because their enemy is Blood Ancestor. The last time Barbaric attacked the Southern Domain, they didn't gain any advantage against Blood Ancestor.

Besides, they need a lot of time to head to the Southern Domain. By the time they arrive at the Southern Domain, the Southern Domain would definitely be unified by Blood Eagle Hall again. At that time, the entire Southern Domain's Qi Fortune would be in Blood Ancestor's hands, and Blood Ancestor's strength would certainly increase significantly, making him even harder to deal with.

Anyway, the current Southern Domain is already fragmented, with many areas filled with Chaos Qi. Those places can be taken or not taken; they might as well stay in Barbaric and take advantage of the surge in Barbaric's Qi Fortune to quickly enhance their cultivation.

Upon hearing that Immortal Venerate's words, Lu Chen calmly said, "You don't need to worry about this. I have arranged the Holy Rank Transmission Array in the Southern Domain, capable of directly teleporting you to the Southern Domain."

This...

Upon hearing these words, the leaders present frowned. They had actually already guessed that Lu Chen might possess a formation capable of cross-realm teleportation; those Immortal Venerates from the Eastern Domain could come to Barbaric silently, which already indicated the issue.

However, hearing Lu Chen directly reveal this, they still felt somewhat shocked, and also a bit helpless. With the existence of cross-realm teleportation formation, they can't evade.

Dragon Soaring Immortal Venerable then thought of something and immediately asked, "Your Majesty, will Xiyue Immortal Emperor participate in this battle?"

If there is only Lu Chen alone, they are indeed very worried that Barbaric is not a match for Blood Eagle Hall. Although currently Barbaric plus Great Qin Immortal Dynasty have over a hundred Immortal Venerates, Immortal Venerates are merely Immortal Venerates; without Immortal Emperor, no matter how many Immortal Venerates, they are merely providing nourishment for Blood Ancestor's blood energy.

But if Xiyue Immortal Emperor is added, even if Barbaric is not a match for Blood Ancestor, they would be able to retreat from the battlefield while Xiyue Immortal Emperor stalls Blood Ancestor, preventing a one-sided slaughter.

Lu Chen replied, "At crucial times, she naturally knows to take action."

Lu Chen is also unsure if Xiyue Immortal Emperor will take action; currently, it's unknown where Xiyue Immortal Emperor has hidden herself, and even the Unity Seal cannot sense her.

Nevertheless, Lu Chen believes if he truly encounters danger, she should also act. Even if Xiyue Immortal Emperor has restored her memories of being strange, holds no feelings for him anymore, isn't there still some alliance in existence between them?

They initially united to plot something; before their plan is realized, Xiyue Immortal Emperor certainly wouldn't just watch him get into trouble.

Having children earns benefit, start competing for dominance in the world by marrying a wife

After the Blood Ancestor launched the war, the Evil Immortals of Blood Eagle Hall immediately began large-scale massacres in the Southern Domain, which was occupied by the Barbaric forces.

Although many forces from the Barbaric region left a significant number of people to guard the Immortal Cities they occupied, the Evil Immortals of Blood Eagle Hall were overwhelmingly powerful, and since only a few Immortal Venerates were left behind by the Barbaric forces, they found themselves in full retreat.

Many of these Barbaric forces chose to surrender to Blood Eagle Hall. Now, they had nowhere to run; the Boundary Sea to the north was already blocked by Blood

Eagle Hall, and the Sunset Mountain Range was shrouded by the Heavenly Demon Power, leaving the Immortals of the Barbaric region in the Southern Domain with nowhere to go.

These people had only two choices: fight to the death or surrender to Blood Eagle Hall. Surrendering would at least allow them to live; continuing to resist would only lead to a dead end.

Soon, the Immortal Cities occupied by various Barbaric forces in the Southern Domain fell into the hands of those Evil Immortals from Blood Eagle Hall once again.

White Rainbow Immortal City.

In the sky, the Immortal Kings of the Barbaric region anxiously watched Lu Chen from a distance. At this moment, one Immortal King said:

"Lu Chen, you have a clone in the Barbaric region, hurry and inform the Hidden Moon Sect Leader about the situation in the Southern Domain."

These Immortal Kings were not yet aware that the Hidden Moon Sect had been destroyed and that Lu Chen had become the highest ruler of the Barbaric region. They were hoping that the Hidden Moon Sect would quickly send troops to the Southern Domain, otherwise they believed they would surely perish.

Lu Chen calmly said, "You don't need to worry, reinforcements will arrive soon."

Upon hearing this, worry was still reflected on the faces of the Immortal Kings. In their view, even if Lu Chen immediately informed the Hidden Moon Sect Leader about the situation in the Southern Domain, it would still take considerable time to gather forces from all over the Barbaric region and bring them to the Southern Domain.

By the time the Barbaric army reached the Southern Domain, they feared that they would already have been wiped out.

Just as these Immortal Kings fell into silence, a huge Array Pattern suddenly appeared in the sky above White Rainbow Immortal City. Seeing this Array Pattern, the Immortal Kings present immediately braced themselves as if facing a formidable enemy, mobilizing all their immortal power, thinking that the Evil Immortals of Blood Eagle Hall had come for them.

However, at that moment, a strong beam of white light flashed, and in the next moment, powerful auras appeared above White Rainbow Immortal City, with the oppressive presence of Immortal Venerates being unleashed without restraint over the city.

When the Immortal Kings regained their senses, seventy to eighty Immortal Venerates had already appeared in the sky over White Rainbow Immortal City,

with warships occupying the entire sky, making it seem as if the city had entered a night-like darkness.

Upon seeing so many Immortal Venerates and warships, the Immortal Kings who remained in the Southern Domain were dazed for a long time; after who knows how long, an Immortal King suddenly discovered that the Sect Leader of his Immortal Sect appeared in the sky and couldn't help but excitedly say, "It's the Sect Leader, our Sect Leader has arrived!!!"

With those words, the other Immortal Kings also awoke from their daze, "Our Sect Master is here too!"

"Great, our Hall Master is here too!"

...

For a moment, the Immortal Kings present were overjoyed, and they immediately returned to their respective forces to report the current battle situation in the Southern Domain to their leaders.

After the forces from the Barbaric region teleported to the Southern Domain, they quickly organized a counterattack. The Daqin Immortal Dynasty now had a large number of Immortal Venerates, whereas Blood Eagle Hall had only about a dozen. Under the offensive of the Barbarian army, Blood Eagle Hall was powerless to

fight back, and in less than two years, they had retaken most of the land in the Southern Domain.

However, it was puzzling that during these two years, the Blood Ancestor did not take action, not even appearing once.

This made the Evil Immortals of Blood Eagle Hall very uneasy, knowing the Blood Ancestor's history; previously, he had abandoned the Immortals in the Southern Domain, using them as nourishment to restore his Cultivation State.

Now, with the Blood Ancestor hiding again, people couldn't help but suspect that he intended to do the same, planning to sacrifice all the Evil Immortals to increase his power once more.

But even knowing that the Blood Ancestor might sacrifice them, those Evil Immortals had no alternatives. Being Evil Immortals, the Righteous Immortals couldn't accept them, and even if they wished to surrender, the forces from the Barbaric region wouldn't trust them.

Blood Eagle Hall.

In the Small World, waves of dense blood energy converged from all sides into the Blood Ancestor's body, turning him completely blood-red, exuding a terrifying aura.

The Evil Immortals' suspicions were correct; the Blood Ancestor indeed planned to sacrifice them for further power enhancement. In his view, the Immortal Venerates of the Barbaric region were not worth fearing. Even a hundred Immortal Venerates, or another hundred, wouldn't be enough for him to kill.

His only enemy was Lu Chen; as long as he dealt with Lu Chen, those Immortal Venerates would be easy prey.

The death of those Evil Immortals was inconsequential; it was their honor to become nourishment for power enhancement.

What the Blood Ancestor didn't know at the time was that while he was improving his strength, Lu Chen was rapidly enhancing his own as well. Within two years, Lu Chen had completely refined that strand of World Origin he obtained.

Daqin Immortal Dynasty.

Above the clouds, the aura around Lu Chen was continuously rising, and a formidable pressure emanated from his body, instantly spreading across the entire Tianyan Immortal Domain.

Lu Chen opened his eyes, excitedly observing his own body, which was now radiating various Dao Charms, and all kinds of Great Dao Anomalies were manifesting in the sky of Tianyan Immortal Domain.

Lu Chen muttered to himself, "Finally, I've become an Immortal Emperor!"

At the moment of breakthrough, Lu Chen could clearly sense the Heaven's Consciousness of Tianyan Immortal Domain. It was then that he realized the reason he could control all his bodies was because his consciousness was a part of Heaven's Consciousness, omnipresent.

Although he hadn't yet recovered the memories of his past life, Lu Chen could now make a good guess at what was going on.

At that moment, a system notification sounded in his mind, "Congratulations to the host for helping Cao Shiyun conceive, awarding a strand of World Origin."

Hearing this, Lu Chen was overjoyed. He had a premonition that by absorbing this strand of World Origin, he would be able to merge again with the Heavenly Dao and completely break all the seals of the Reincarnation Stone, restoring all his previous memories.

Most importantly, his power would be sufficient to activate the Cross-border Stone, allowing him to meet his wives once again.

But once he thought about Yun Yudie and her companions being Mysterious Lifeforms, his joy instantly vanished. Since Yun Yudie and her companions were Mysterious Lifeforms, it's likely his wives were too, possibly already having recovered all their memories. If he returned to the Tianchen World now, he wasn't sure if they would still acknowledge him.

Thinking of this, Lu Chen couldn't help but sigh. Nonetheless, he had to return and see them, regardless of the circumstances.

But before that, there was something he needed to take care of.

At this point, Lu Chen's gaze turned toward the direction of the Southern Domain. Now that he had become an Immortal Emperor, it was time to settle his vendetta with the Blood Ancestor.
