

## **Eternal Heart 1021**

### Chapter 1021: The Emergence of the Supreme Treasure

The elder of the Merfolk Clan and the Blue Water King abandoned the treasures before them and dashed into the spatial rift leading to the unknown space, an action that left everyone astonished.

The Merfolk Clan would not gamble with their lives; if there weren't treasures in that unknown space, they wouldn't rush in so eagerly.

There's another possibility: the treasures inside might be so valuable that they are willing to take risks, even if it's dangerous.

Regardless of the situation.

The Human Race, Flame Human Clan, and Earth Spirit Clan found it difficult to remain indifferent.

Especially Chen Yu, whose mysterious heart was pounding eagerly, indicating that the unknown space had something beneficial for it.

The reason he didn't enter immediately was that it was unknown and could be fraught with danger.

But now, with the elder and Blue Water King of the Merfolk Clan rushing in, half of Chen Yu's concerns diminished.

Whoosh!

Chen Yu darted towards the octopus's corpse to seize the remaining Mystical Crystal Stones and the small dark blue grass.

The Great Commander and members of the other two clans also reacted, dividing the benefits before dealing with anything else.

At this moment, no one engaged in a fight, nor did they have the inclination to do so.

After snatching part of the profits, Chen Yu immediately turned around, looking at the spatial rift that was about to close.

Chen Yu saw more drifting inside.

Two Mystical Crystal Stone Fragments!

"Are these things also from that space?"

Chen Yu widened his eyes, hesitated no more, dashed forward, grabbed the two Mystical Crystal Stone Fragments, and rushed into the spatial rift.

The unknown space had treasures beneficial to the mysterious heart, opportunities not to be missed easily.

Moreover, he possesses the Space Profound Meaning; even if there's danger, he could break space to return to Soul Burial Lake.

"Chen Yu!"

The Great Commander's eyes surged with thunder, and he dashed in as well.

Soon after, two Earth Spirit Clan members also broke in.

However, the remaining two Flame Human Clan members were a step too late, as the rift had already closed.

But they were not disheartened.

"They've all gone in, so we can scour the bottom of Soul Burial Lake; we might still find other treasures."

...

Chen Yu arrived in another space, surrounded by deep blue water exuding a thick ghastly aura, capable of eroding life and affecting the soul's consciousness.

This place was also crawling with innumerable ghosts and fierce spirits, even more than in Soul Burial Lake, with space being unstable and spatial cracks appearing intermittently.

The moment Chen Yu appeared, they shrieked and lunged at him, incredibly frightening.

To Chen Yu, it felt as if he was still in Soul Burial Lake.

But the aura here was entirely unfamiliar, with Heaven and Earth Primordial Qi being extremely sparse, nearly nonexistent, which greatly surprised him.

At this moment.

The Great Commander, Tower Stone King, and another Earth Spirit Clan member arrived, cautiously observing their surroundings.

"The water pressure is immense, likely in the depths of the water domain."

The Great Commander assessed.

"Fight our way up."

The Tower Stone King's eyes were grave.

Upon arriving in the unknown space and discovering no treasures, but countless enemies, he felt some regret.

Fortunately, these ghosts weren't particularly strong, and ghost-kings were rare, posing no current threat.

"No need."

The Great Commander calmly said, suddenly flying to the left.

The Tower Stone King and another Flame Human Clan King looked puzzled.

"That direction seems to be the direction the Merfolk Clan went."

The Flame Human Clan King noted.

Here, with hardly any Heaven and Earth Primordial Qi, the remnants of the Merfolk Clan's aura were quite distinct when they left.

"The Merfolk Clan's behavior was suspicious; they likely knew nothing about this space, like us, but suddenly received a message, as if they had learned something."

The Tower Stone King pondered for a moment.

This implies that someone from the Merfolk Clan might have entered this place and discovered some treasure.

So following the Merfolk Clan's direction would surely lead to where the treasures were hidden.

"But it's too dangerous. If someone from the Merfolk Clan came here, then that's at least three people, and there's that old merfolk whose strength is formidable."

The Tower Stone King was worried.

This was precisely why he wanted to leave the water region, enter the land or sky, and search for other treasures.

"Let's first leave this water region."

The Flame Human Clan member agreed with the Tower Stone King's suggestion.

Thus, they fought their way upwards, deciding to leave the water region first.

At the same time, Chen Yu made his decision, choosing the direction where the Merfolk Clan and Great Commander had gone.

The heart pounded intensely, exuding a strong desire, aligning with the direction the Merfolk Clan and Great Commander took.

"What's going on with this space? It's filled with fierce spirits in water, devoid of Heaven and Earth Primordial Qi, and incredibly unstable."

Chen Yu was baffled.

It was his first time entering such a space; it didn't seem like a place with great treasures.

Whoosh!

He flew with all his might, keeping close to the Great Commander.

Enemies along the way were first cleared by the Merfolk Clan, followed closely by the Great Commander.

Following behind, Chen Yu barely had to act, and occasionally, when a few fierce spirits attacked, he almost ignored them, crashing straight through.

Gradually, he saw the water's bottom, a ruin, with decaying bones and corpses.

"No vitality, no Heaven and Earth Primordial Qi."

This was like a world of death, not seeming like it harbored great treasures, yet fragments of the Mystical Crystal Stones appeared occasionally in the water.

At this moment.

A giant sinkhole appeared ahead.

Inside the hole was dark and deep, with an enchanting and brilliant light permeating out, undulating with astonishing power.

Arriving here, Chen Yu could finally feel the breath of Heaven and Earth Primordial Qi.

His heart pounded more vigorously, as if it were about to leap out of his chest.

The treasure the mysterious heart yearned for was within that sinkhole!

Chen Yu could sense a powerful energy deep within the sinkhole, seemingly capable of destroying everything.

The elder of the Merfolk Clan, Blue Water King, and the Great Commander were at the entrance of the hole.

"You all followed, as expected."

Senior Lai's eyes flickered with black flames, giving off an extremely dangerous aura.

Even the Great Commander had a serious look in his eyes, circulating his internal Yuan power, ready to explode at the slightest misstep.

Chen Yu naturally moved to the side of the Great Commander.

He believed that even though the Great Commander harbored hostility towards him, he would not attack him at this moment, or else the Merfolk Clan would seize the opportunity to kill the Great Commander.

"Only two people?"

Senior Lai seemed to be waiting, asking a question.

"What kind of treasure is here?"

The Great Commander also asked a question.

Neither side answered the other's question.

"It looks that way. In that case, you don't have the qualifications to enter."

Senior Lai's smile turned sinister, filled with killing intent, and a tremendous pressure loomed down.

The Great Commander was extremely shocked, realizing the other party intended to make a move here.

Obviously, the treasure was inside the sinkhole, but the Merfolk Clan had no intention of letting them know, choosing to silence them before seizing the treasure.

"It's not easy for you to kill us."

Chen Yu said calmly.

Even though this was underwater, where the Merfolk Clan had the advantage.

The Great Commander practiced the Thunder Dao, his strength formidable. The Blue Water King had once been defeated by Chen Yu; he was well aware of her strength, and it wouldn't take much effort to deal with her.

At that time, when Chen Yu and the Great Commander joined forces, even Senior Lai would be helpless.

Suddenly.

A merfolk figure flew out from the sinkhole, it was the veiled merfolk who had been swallowed by a spatial rift during the battle with Chen Yu.

Her body was covered with scars, her face disfigured, her once graceful figure and beautiful appearance completely ruined.

"And now?"

Senior Lai chuckled lightly, the Profound Meaning of Death spread, engulfing the surroundings in darkness.

The vitality within Chen Yu and the Great Commander seemed to be extracted, slowly draining away.

Senior Lai's hands suddenly extended, transforming into death black mist surging forward, with two menacing black giant claws at the front, respectively attacking Chen Yu and the Great Commander.

The Great Commander immediately struck a palm, thunder light bursting, blasting out.

As Chen Yu retreated, he activated his Star Element body and the Star Pattern Robe as well.

Bang!

He punched with all his might, colliding with the black giant claw, causing both to dissipate.

"Chen Yu, meet your death."

"Hand over your life."

The Blue Water King and the veiled merfolk simultaneously attacked Chen Yu.

In the water, the Blue Water King's confidence surged, daring to engage Chen Yu. Together with the veiled merfolk, she was confident in killing Chen Yu.

"Ugly freak, I didn't expect you to survive."

Chen Yu mocked.

It seemed the veiled merfolk had just transmitted to Senior Lai and the Blue Water King.

But what on earth was the treasure inside the sinkhole?

"Die."

The veiled merfolk was filled with killing intent, her heart full of hatred and anger, wanting only to kill Chen Yu.

Clang!

A dark red sharp sword whistled through the air, accompanied by a violent and heavy pressure, bearing down.

"Oh? She seems to have gotten stronger!"

Chen Yu was slightly surprised.

It wasn't that her True Yuan had strengthened, nor had her mystical weapon changed, but her mastery of the Water Profound Meaning seemed to have deepened significantly.

"Thanks to you, a blessing in disguise!"

The veiled woman felt proud, her sneer twisted.

Chen Yu's heart stirred, it seemed there was indeed a great treasure within the sinkhole, otherwise, the veiled woman's Water Profound Meaning would not have improved in quality in such a short time.

The [Burning Sky Demon Halberd] appeared in his hand, he swung it fiercely, a Black Flame Light Slash, hundreds of feet long, descended, covering the dark red sharp sword.

"Chen Yu, you're too arrogant, don't forget I'm here too."

The Blue Water King bore deep hatred for Chen Yu and waved her trident, conjuring a violent azure-blue tornado that surged up, attacking Chen Yu from above.

"Just two defeated opponents!"

Chen Yu shouted coldly, ignoring the Blue Water King's attack and charged directly.

"Be careful, this person's defense is strong, and his power is terrifying."

The veiled woman transmitted, using Mysterious Power to create layers of obstacles to bind Chen Yu.

The Blue Water King, having fought Chen Yu before, also used Mysterious Power to form layers of azure-blue water barriers in front, hindering Chen Yu.

In the water domain, the two mid-stage Condensed Stars activated the Water Profound Meaning, suppressing Chen Yu, truly affecting his speed.

Especially the veiled woman, whose Water Profound Meaning had improved.

The two joined forces in a mobile battle, using the power of dual Water Profound Meanings to bind Chen Yu, preventing him from gaining a clear advantage for a time.

At that moment, from the other side came the agonizing cries of the Great Commander.

I saw him surrounded by a heavenly net of countless black threads, a black thread sliced open his arm, causing blood to flow.

"The Great Commander is actually losing?"

Chen Yu was deeply surprised, logically the Great Commander, who grasped the Thunder Profound Meaning, should restrain his enemies, and should not be at a disadvantage.

But when he saw Senior Lai's condition, he understood.

The opponent was enveloped in a dense dark death mist, with ghostly shadows behind him, like the Reaper from Hell, chilling to behold.

This space, with countless deaths and thick death aura, allowed Senior Lai to exert extraordinary strength.

It could be said that this was the most suitable battlefield for him, both in water and filled with death aura, allowing him to unleash his fullest potential.

"I must resolve these two enemies quickly, once the Great Commander dies, my situation will only become more perilous."

Chen Yu thought to himself.

Thump! Thump! Thump!

He activated his mysterious heart, entering a burst mode.

However, just as he entered burst mode, the mysterious heart suddenly created an incredibly strong attraction.

This fierce attraction had a specific target each time, unnoticed by anyone present but Chen Yu.

Yet Chen Yu found that there was nothing present that was the target of the mysterious heart's pull.

Suddenly.

Chen Yu saw that the sinkhole was brilliant and dazzling, with a chaotic, shining orb floating out.

Chapter 1022: Interface Core

During the battle between everyone.

An array of dazzling, colorful lights suddenly radiated from the crevice, as if a chaotic luminous orb was floating out.

This scene caused both sides of the battle to pause briefly.

"How did it come out?"

The veiled woman's eyes widened in astonishment and confusion.

She was the first to arrive here and find this object.

With her abilities, she still couldn't obtain it; otherwise, why would she signal other members of the Merfolk Clan?

"It's really the 'Interface Core'!"

Senior Lai's deep black eyes sparkled brightly.

"What? Interface Core?"

The Great Commander was struck as if by lightning, his breathing quickened and his body trembled slightly.

Chen Yu also felt shaken, not expecting that this treasure would actually be the core essence of an interface.

He could vaguely see that at the center of the colorful light orb, there was a sphere resembling a small sun, within which extraordinary colors played out.

But this sphere seemed to be missing a piece, and it bore obvious cracks.

"I see now."

Chen Yu's confusion about this space was instantly resolved.

This was an interface on the brink of destruction, its life forms extinct, energy depleted, and space unstable.

"Kill them."

Senior Lai hissed.

Since the Human Race had seen it, they must be eliminated.

Chen Yu noticed that everyone was excited, their eyes heavy, their spirits tense, clearly because this treasure was so precious.

He also knew this object was valuable.

The Interface Core, the support point of the entire interface, was born because of it. If it suffered any mishap, the interface would collapse and disintegrate.

It could even be said that the core essence created the entire interface.

The value of such a thing goes without saying.

Yet as to what this thing was actually used for, Chen Yu wasn't clear.

Perhaps it was at a level he could not reach.

After all, treasures like this can only be encountered by chance.

Wait, Chen Yu suddenly widened his eyes, seeing that from the broken part of the interface core, some tiny light spots were floating out.

These were Mystical Crystal Stone Fragments, including a piece of Mystical Crystal as well.

Although he didn't know what this was used for, the fact that the interface core could produce Mystical Crystals and fragments meant its value was incalculable.

What made Chen Yu's breathing even more rapid was that the core interface was drifting towards him.

"How can it run over voluntarily, could it have chosen one of us?"

Senior Lai's voice was hoarse and heavy as he spoke.

Everyone had heard some rumors that the core essence influences fate, fortune, and other rules in the unseen.

If it favored someone, then that person's fortune would be boundless, unstoppable, and they could become the strongest ruler of the entire interface.

Rumors are not to be trusted, but what if it's true?

Chen Yu held his breath; if the interface core really approached him, he feared he'd become the enemy of everyone present.

If he were at the Chaotic Sea Plain, he wouldn't be afraid, with the Qingyun Emperor behind him.

But that was definitely not the case here.

Chen Yu immediately ended the outburst technique, suppressing the mysterious heart's generated attraction.

Perhaps due to long fusion, he had gained some control over the mysterious heart, letting it return to calm.

Whish!

The interface core seemed conscious; originally wavering between awe and struggle, without the attraction, it immediately darted back into the crevice.

Once the interface core disappeared, the battle immediately erupted.

The Great Commander's eyes shone with terrifying lightning, releasing two giant Thunder Dragons that roared out, destroying the surrounding "black net lines".

The Merfolk Clan also exuded murderous intent, their attacks fierce.

If they obtained this treasure, the benefits they could gain would surely be astonishing.

Whoosh!

A dark red sharp sword emitted a startling red glow, continuously stabbing toward Chen Yu.

The Blue Water King threw the black Trident in his hand, letting it hover above his head, where it shone brightly, unleashing a blinding beam of blue light.

The two exerted their full strength, causing the surrounding waves to surge and tremble, intending to kill Chen Yu.

"Chen Yu, what use is there in your bitter struggle, this interface essence belongs to our clan."

The veiled woman shouted harshly.

"The Human Race Great Commander will soon die at Senior Lai's hands. Even if your defense is strong, by that time, when all three of us join forces, you will only die."

The Blue Water King sneered arrogantly, attempting to psychologically affect Chen Yu.

"Oh, really? What if I first kill the two of you, then join forces with the Great Commander against that 'Old Black Fish', what then?"

Chen Yu's lips curled up.

From the other side, Senior Lai's angry curses reached them, but Chen Yu ignored it.

The Blue Water King and the veiled Merfolk, seeing that Chen Yu was not in the least affected and even spoke so arrogantly, couldn't help but feel irritated.

Chen Yu's defense was extraordinarily strong, and he mastered the Space Profound Meaning; even teaming up, the two of them struggled to win, let alone kill Chen Yu.

Whish!

A golden tower emerged in Chen Yu's hand, soaring out and rapidly enlarging.

Concerning an earth-shaking treasure, he no longer hid his methods and took out a mid-grade mystical weapon.

The [Golden Mountain Tower] rapidly expanded, reaching an extreme height of three thousand feet, like a vast mountain.

The veiled Merfolk and Blue Water King, wanting to use the Water Profound Meaning to bind the [Golden Mountain Tower], would need to cover an even larger area, consuming more mental effort and energy. How could they deal with Chen Yu?

"Damn, it's that mid-grade mystical weapon again."

The Blue Water King cursed, having already suffered quite a few times from this mid-grade mystical weapon.

Boom!

The [Golden Mountain Tower] emitted golden radiance like a torrent rushing towards the veiled Merfolk, forcing the opponent to evade while attacking and defending.

"Blue Water King, last time I spared your life, I can take it away now."

Chen Yu chuckled lightly, shooting out like a meteor.

The Blue Water King suddenly realized that Chen Yu's speed was a lot faster than before.

In actuality, it wasn't.

The appearance of the [Golden Mountain Tower] blocked the veiled woman behind, separated by thousands of feet, her mysterious power was weak in affecting Chen Yu.

In other words, it's one-on-one now.

Boom!

With a simple punch, the massive light fist exuded a violent aura, causing the Blue Water King to retreat in shock.

Chen Yu's attack was like a storm, the light fists constantly flickered and shot out, like a meteor shower striking the opponent.

The Blue Water King wielded the Trident, continuously hacking forward, the surrounding water flows rolled and collided against Chen Yu's attacks.

But the intensity of their attacks was not on the same level; the Blue Water King shifted from offense to defense, in front of him an ever-condensing eerie blue liquid formed a blackish water wall, solidifying.

Devil descends to the sixth heaven!

Above the Blue Water King, demonic intent gathered, demonic feet materialized, emitting a domineering aura that seemed to crush everything.

These various attacks, Chen Yu integrated them with spatial profound meaning, enough to tear open space fissures.

Bam!

The light fist struck, the demonic feet trampled, water light rolled wildly, explosions affected all directions.

"Die!"

Chen Yu estimated, the Blue Water King couldn't withstand his ferocious assault, just a few more moves, and he could take his life.

Unexpectedly, before the storm dissipated, before he could punch again, the Blue Water King's battered corpse fell.

Dead?

The injuries on Blue Water King's body were more severe than Chen Yu expected, earlier at the bottom of Soul Burial Lake, he was counterattacked by the Octopus Ghost King, severely affected.

"Not good!"

The veiled merfolk had just broken through [Golden Mountain Tower]'s obstruction, rushed over, only to find the Blue Water King already dead.

Even if her Water Profound Meaning was stronger than before, it was difficult to kill Chen Yu.

"Want to leave?"

Chen Yu turned to attack, while [Golden Mountain Tower] intercepted at the veiled merfolk's rear.

With formidable enemies ahead and a middle-grade mystical artifact behind, the veiled merfolk flew to the left, approaching Senior Lai, seeking help.

At such a crucial moment, how could Chen Yu give the opponent a chance?

Unleashing his skills, he performed the "Heart-Slaying Technique".

Dong! Dong! Dong! Dong!

The heartbeats connected, causing the veiled merfolk's heart to resonate intensely, the sudden intense expansion made her unable to respond, her whole body's blood and vital energy disrupted, slowing her speed for a moment.

Her heart showed fissures, blood spewing from her mouth, ears, and nose.

Despite the veiled merfolk's strength improvement, the injuries from the earlier battle with Chen Yu hadn't healed.

At this moment.

Around her, two giant silvery space hands appeared, sealing her retreat path and grabbed towards her.

The veiled merfolk made a desperate defense, the dark red light shield around was squeezed and crushed.

A shadow suddenly loomed over her, the next instance, [Golden Mountain Tower] descended, crushing her into mince.

The not-so-solid ground cracked and burst open.

Chen Yu discovered, after the ground cracked, there was water and skeletons on the other side too.

"This soon-to-be-destroyed interface, everything is ruined, only this bit of land and water remains, huh."

He speculated internally.

"Chen Yu, let's join forces and execute this person."

The Great Commander, seeing Chen Yu kill two merfolk clan, shouted excitedly.

Though Chen Yu didn't trust the Great Commander much, at this moment he could only team up with him to kill Senior Lai.

Boom!

The [Golden Mountain Tower] shrunk, transformed into a beam of golden light shot out, it expanded instantly near the enemy, with boundless power.

The pressure on the Great Commander eased, his palms continuously blasted, lightning beams erupted, with astonishing aura, destroying everything.

Senior Lai's strength was slightly stronger than the Great Commander, but fighting till now also got injured by the lightning.

Chen Yu and the Great Commander teamed up, instantly gained the upper hand, Chen Yu's [Golden Mountain Tower] was responsible for blocking Senior Lai's attacks, with the Great Commander's lightning power unleashed freely, the results were remarkable.

"Bastards, a bunch of trash, and they died so fast."

Senior Lai roared furiously, envious and unwilling.

"Try my strongest kill move!"

The Great Commander suddenly shouted, with lightning spreading, entwining his whole body, he seemed to transform into a bolt of lightning, with an intimidating aura.

"Thunder Dragon Annihilation."

Boom!

All the lightning on the Great Commander blasted out, flew towards all directions, transforming into eighteen winding Thunder Dragons, the entire sea domain flickered with electric light.

However, the momentum on his body weakened rapidly, appearing very feeble, clearly that previous attack consumed much.

Boom!

All Thunder Dragons roared and crashed towards, locking all of Senior Lai's retreats, lightning exploded, forming a shocking thunder pillar, penetrating heaven and earth.

Space was torn.

Senior Lai's charred body lifeless, fell downward.

The remaining ones were Chen Yu and the Great Commander.

The Human Race was victorious.

At this moment.

The Great Commander, who appeared extremely weak nearby, his eyes flickered with sharp gleam, suddenly a small golden arrow appeared in his hand.

The arrow shimmered with golden lightning, the aura was terrifying, as if it could destroy everything.

Swoosh!

What's more alarming, the arrow's speed, in a flash shot out, leaving behind a straight vacuum zone, everything was destroyed by it.

"The treasure is mine."

The Great Commander's mouth curled up.

The Soul Burial Lake wasn't far from the Deep Blue Sea Domain, as long as he got the treasure, returned to Soul Burial Lake, he would dig from underground to the sea domain.

All informants dead, he could also fake his death, with a new identity, live freely.

"Hahaha."

The Great Commander laughed wildly, he was indeed the biggest victor.

Chen Yu's brows knitted, knowing the Great Commander disliked him, unexpected the opponent had held back and launched a killer move on him at the last moment.

This arrow was truly fearsome, their distance wasn't far, it was difficult to dodge the sneak attack.

Whizz!

The golden arrow pierced Chen Yu's heart.

Chapter 1023: Annihilation of the Interface

Whoosh!

The golden arrow pierced Chen Yu's heart, accompanied by intense stabbing pain, and blood dripped from the wound.

Chen Yu did not die.

The arrowhead carried a force of golden lightning, which exploded. Although the mysterious heart endured most of it, the remaining force still spread throughout the body, breaking the defense of the Star Pattern Robe and leaving a scorched patch on Chen Yu's skin.

Fortunately, the injury was not severe.

Moreover, Chen Yu felt that this powerful golden lightning might allow him to open up more than a dozen Star Acupoints after stimulating his whole body.

"Huh?"

The Great Commander was preparing to enter the pit and seize the treasure, but was surprised to find that the golden arrow did not penetrate Chen Yu.

This made him very curious.

That golden arrow was a top-grade profound weapon he acquired during a mission in the first forbidden area, but unfortunately, it was a one-time-use item.

With his ability to activate this profound weapon, it was sufficient to kill two or three Chen Yus.

Yet at this moment, the arrow had pierced Chen Yu's heart but didn't penetrate through, which was abnormal.

The even more abnormal thing happened in the next moment.

Whoosh!

With the arrow still stuck in him, Chen Yu suddenly dashed out like a burning meteor, arriving beside the Great Commander in the blink of an eye.

"You..."

The Great Commander was full of shock, barely uttered a word before Chen Yu punched him.

Bang!

A large hole appeared in the Great Commander's body, destroying his internal organs.

"Ah..."

He glanced down, and with extreme resentment, fell back, dying with his eyes open.

After killing the Great Commander, Chen Yu pulled out the arrow from his heart.

The arrow had lost its luster and become ordinary scrap metal, which he discarded.

"Interdimensional Core!"

Chen Yu muttered in excitement and rushed into the pit.

Inside, was a dark and chaotic space, with occasional space cracks tearing open.

Upon entering this space, Chen Yu found himself severely hindered, moving sluggishly, and his Spiritual Sense was disrupted, making it impossible to use space Profound Meaning.

This chaotic void space was extremely fascinating.

Whoosh!

The Interdimensional Core sensed Chen Yu's arrival and swiftly retreated.

In such a situation, even if Chen Yu wanted to catch it, it would be somewhat difficult.

No wonder the thin veiled merfolk transmitted a call for companions.

But Chen Yu had a mysterious heart that was already eager. The moment Chen Yu stopped suppressing it, the heart began to beat violently, generating a strong suction force.

Buzz buzz!

The Interdimensional Core trembled slightly, its light dimming, feeling awe as it drifted toward Chen Yu.

It resisted internally, holding unknown fear, but found it difficult to resist the powerful suction of the mysterious heart.

Ultimately.

The Interdimensional Core approached Chen Yu and was caught in his hand.

It resembled a perfect, flawless round jewel but was missing a piece and had a few cracks.

Even now with the Interdimensional Core in hand, the suction from the mysterious heart hadn't disappeared, and it seemed even more eager, as if it would absorb Chen Yu's hand as well if he continued holding it.

"Since it's that important, I'll give it to you."

Chen Yu let go of his hand.

Such a precious Interdimensional Core, if he could keep it privately, he certainly wouldn't hand it over.

But he truly didn't know what use it had besides producing Profound Meaning crystals.

Since that's the case, he gave it to the mysterious heart.

He eagerly anticipated what changes would occur after the mysterious heart obtained the Interdimensional Core.

Buzz!

The Interdimensional Core left his palm, seemingly trying to merge with Chen Yu's heart within his body.

Just at this moment.

Whoosh!

A shadow not far behind suddenly shot out, appearing as a dark, deathly figure resembling a merfolk.

"Kid, the Interdimensional Core is mine."

An evil soul's voice resonated.

"You are... Old Black Fish?"

Chen Yu responded, his hair standing on end, his soul trembling.

It turned out that Senior Lai from the Merfolk Clan wasn't dead!

"I'm quite curious, with such an injury, yet you didn't die, otherwise, my current opponent would be your Great Commander."

"He and my soul will's strength is not much different, maybe there's a surprise, but you... heh heh."

It turns out earlier, when facing the combined might of Chen Yu and the Great Commander, Senior Lai had a plan. Somehow, he entered a "feigned death" state, letting Chen Yu and the Great Commander fight to the death, then seized the opportunity to strike, becoming the victor.

He also had the idea of monopolizing the Interdimensional Core and then fleeing far away, living freely.

Whoosh!

The dark, deathly merfolk figure plunged into Chen Yu's body.

"This is Body Seizing?"

Chen Yu discerned.

Inside the Soul Sea, another immense deathly soul will appeared, immediately pouncing on Chen Yu, emitting a boundless deathly soul aura, intending to suppress and kill Chen Yu's soul.

But Chen Yu's soul will wasn't weak either and wasn't something that Senior Lai could easily overwhelm with a single strike.

"Futile struggle, you might as well give up resistance and hand over your body to me."

Senior Lai let out a sinister, evil laugh.

Suddenly, upon entering this body, he noticed something unusual about it.

At the heart, there was a colorful, crystal-like heart slowly "devouring" the "Interdimensional Core."

"What... is going on? Your heart... My Interdimensional Core."

Senior Lai was utterly shocked when witnessing this scene, becoming incoherent.

Everything he did was for the Interdimensional Core, but now Chen Yu's heart was about to devour it.

No, Senior Lai suddenly realized.

The mysterious heart had been stabbed earlier by the Great Commander's trump card and remained unscathed, and now it could even swallow the Interdimensional Core.

This might be an even more precious treasure than the interface core.

I've struck it rich!

I must obtain this body.

Boom!

The mysterious heart that devoured the interface core began to tremble violently, emitting an ancient and forbidden aura that permeated out, causing the entire death world to shake, tearing numerous spatial fractures.

Chen Yu sensed that the interface core had fused into the internal space of the heart.

The previously dark red and grayish world suddenly glowed with light and color, and the space was no longer dead silent; life appeared.

Within the heart, it seemed as if an immense power that had slept for ages was awakening.

With each heartbeat, the whole external world trembled, layer upon layer collapsing, heading towards destruction.

And Senior Lai's soul was also suppressed by this supreme aura, trembling and prostrating.

Perhaps because Chen Yu had completely merged with the heart, he alone was unaffected, and felt his soul and body undergoing an unknown change at that moment.

"A good opportunity."

Chen Yu immediately launched a counterattack, his soul's will transforming into a giant black fist, pounding ferociously.

Senior Lai's soul howled in pain, repeatedly begging for mercy.

Boom!

At a certain moment, the mysterious heart violently shook, the entire dreamy crystal heart emitting ten thousand divine glows.

Under the glow of divine light, Senior Lai's soul dispersed like cloud and fog.

Chen Yu's consciousness also suffered a huge impact, as if a small boat in the ocean could be overturned by a massive wave at any time.

Rumble!

Cracks appeared layer by layer in the surrounding space, a spatial storm blowing and destroying everything.

"Leave here."

Chen Yu felt the collapse and destruction of the entire interface.

As soon as he generated the thought of leaving, the mysterious heart released a powerful force, allowing him to leave the place.

On the other side.

The Tower Stone King and the Flame Human Clan, continually heading upward, attempting to leave the waters and reach the sky, felt despair.

The edge of the sea was surprisingly also the edge of space.

They instantly realized that this was an interface on the verge of destruction, shrunk to a very small part, probably with the entire space filled with water, with no land or sky.

They were just about to leave.

Suddenly, enchanting divine glows illuminated from the depths of the interface, making them feel infinite reverence, as if seeing a deity.

Immediately after, the surrounding space tore apart, and both of their bodies were annihilated.

...

Chen Yu felt the surrounding space shaking, and in the next instant, he arrived at the Soul Burial Lake.

This place was affected by the space's destruction earlier, with spatial fractures twisting and spreading around.

Once an interface loses its core, it is bound to be destroyed, not to mention the changes in the mysterious heart have accelerated the destruction.

That interface nearing death, once destroyed, would produce enough force to impact the main world.

Whoosh!

The changes in the mysterious heart were not over yet, and Chen Yu's consciousness was a bit blurry, dragging his body, soaring upwards.

Rumble!

The space at the bottom of the Soul Burial Lake ripped apart, the storm of destruction continuously expanding, swallowing and annihilating everything.

Apart from Chen Yu, there was also an Earth Spirit Clan member and a Merfolk Clan member, who did not enter another space and were exploring the bottom of the Soul Burial Lake.

The suddenly erupting spatial storm instantly exterminated them both.

...

Above the Soul Burial Lake.

The high-levels of four clans were stationed there.

Suddenly, everyone felt a terrifying heart-palpating force erupting from underground.

"What's going on?"

The crown-wearing Merfolk King, his heart skipped a beat, his Spiritual Sense probing into the Soul Burial Lake.

"What are you doing? Didn't we agree not to have any contact with them? Wait for everyone to come out and distribute the benefits according to what they obtained."

Nie Hua immediately shouted.

"Hmph, haven't you noticed something's wrong down there?"

The crown-wearing Merfolk King coldly scolded.

Nie Yuan remained silent, his face grim.

The others also sensed something, preparing to release their Spiritual Sense to check the situation.

But the force from underground was becoming more terrifying, even Nie Hua felt a strong crisis.

Suddenly.

Bang!

Something rushed out, directly colliding and scattering the Spiritual Sense of the four clans' various powerhouses.

Immediately after, they saw a figure, rushing into the sky.

That person was Chen Yu, emanating a suppressive aura, with a faint glow spreading from his heart area.

Nie Hua glanced at Chen Yu, surprised in his heart, what happened just now? It seemed something on Chen Yu's body blasted away his Spiritual Sense.

In the next moment.

"No good, retreat quickly."

Nie Hua's expression changed drastically, shouting suddenly.

The rulers of the other three clans also issued orders one after another.

"Retreat!"

...

Bang boom!

A chaotic spatial storm shot into the sky, shaking all sides.

The entire Soul Burial Lake was destroyed, countless vengeful spirits and blue lake water instantly disappearing without a trace.

Whoosh!

An area of several hundred miles was enveloped in storm dust.

The powerhouses of the four surrounding clans, all tensed up, held their breath, feeling a sense of surviving a catastrophe.

If they hadn't retreated in time just now, they feared everyone would have perished there.

The entire Soul Burial Lake vanished without a trace, the ground beneath deep and dark, like a bottomless pit, still exuding a destructive aura.

Chapter 1024: Emperor's Projection

In the central part of the main world.

An old gray-white tower stands silently, its countless layers seeming to stretch beyond the sky.

At the top inside the gray-white tower, there is a dim, void space.

Suddenly.

A pair of magical eyes appeared, the left eye golden, the right eye silver.

Mysterious whirlpools spun within the eyes, emitting a faint radiance that slightly illuminated the surroundings, causing the being with golden and silver eyes to manifest.

Everything about him was cloaked in a robe adorned with strange patterns, full of mystery.

"The new divine demon parts have awakened? This feeling... is it the Eternal Heart?"

A mesmerizing, dreamlike glow gradually flowed from his eyes.

Whoosh!

He floated mid-air, his robe fluttering.

His eyes emitted a golden and silver divine radiance, as if penetrating this place, penetrating distant voids, seeing the Human Race territory, seeing the Chaotic Sea Plain, seeing...

Suddenly.

Boom! Humming!

A loud noise came from the outside, the entire space trembled, a surge of divine power flooded into this spatial realm, and the scene in his eyes disappeared instantly.

"Reporting, Witch God, there is a disturbance in the God Realm!"

A voice came through.

"Disturbing at this timing, it seems to be related to the Eternal Heart, who exactly is it?"

As the voice fell, this space returned to dead silence, devoid of everything.

...

In the gray misty sea, there is a blood-red island, everything here seems blood-red.

Inside are blood men, blood-colored heads, and enormous blood-red hearts.

Inside the underground palace at the center of the island, there is a pool of black-red water, above it life force had vanished, deathly still.

Suddenly.

The black-red blood water surged up, a streak of blood-red divine radiance pierced through everything, rushing into the sky, alarming the creatures of the entire island.

"What's happening?"

"The Ancestor is manifesting, The Ancestor is manifesting!"

"Finally, the moment has come for our race to sweep over the main world."

Within the island realm, all Blood Race, bodies trembling, prostrated in devotion.

Inside the underground palace, several blood shadows instantly arrived here, resembling dragons or serpents, with a blood-red crystal on their heads.

"To stir the Ancestor's Blood, only the 'Eternal Heart' can do so!"

"If we obtain 'it', who in the main world could resist our race?"

"It seems to have just awakened, we must obtain it..."

...

Soul Burial Lake.

The four great races displayed expressions of utmost shock, staring at a bottomless pit before them.

Moments later, they snapped back to reality.

"What's going on?"

"My god, what happened down there?"

Shouts of astonishment erupted.

What a terrifying power, to destroy the entire Soul Burial Lake so thoroughly and completely.

This is a forbidden area, as well as a treasure land, with many treasures within.

The four major races had even sent masters in to scavenge for treasures.

They were still anticipating that their race's masters would reap many treasures and make a huge profit.

But just now, the entire Soul Burial Lake vanished.

Many lifted their heads to look at Chen Yu in the sky, then looked at the pit below, all faces showing a single thought—just you alone?

"Chen Yu, what was that about?"

Nie Hua snorted angrily.

Chen Yu was momentarily stunned, the abnormality in his heart had disappeared by now.

His thoughts rapidly raced in his mind.

If he pretended oblivion and said he knows nothing, he surely couldn't dispel everyone's suspicion, they would just speculate endlessly.

If so, might as well disclose the truth.

"There was a small dimension on the verge of destruction at the bottom of the lake. During the fierce battle between the Merfolk and Earth Spirit Clan for treasures, the dimension might have been destroyed in advance due to the intense fighting..."

Chen Yu slightly altered the truth.

"What?"

"A dimension on the verge of destruction?"

The top experts were even more surprised, with a little imagination, feeling that what Chen Yu said wasn't baseless.

At least the bizarre change of Soul Burial Lake, and the final explosion, were not contradictory to Chen Yu's account, and the cause and effect could be linked together.

"What about the others?"

Nie Hua asked again.

Though he already had an answer, he wanted to hear it directly from Chen Yu.

"Unclear, General can go down to check.

Chen Yu said calmly.

Nie Hua frowned, his face turned stern.

The aura down below even made him feel frightened, surely everyone else was dead.

"Junior, since they all died, why are you alive?"

The crown-wearing Merfolk King interrogated, a wave swept across the sky and earth at his back, towering thousands of feet high, his violent aura seemed to crush everything.

"Junior humbly believes my cultivation isn't strong, didn't participate in the battle, was searching for treasures mid-lake, sensed danger, and ran out, while they were at the bottom, it's likely too late."

Chen Yu calmly responded, unperturbed by the other's pressure.

This explanation might be believed by the Earth Spirit Clan and Flame Human Clan leaders, but unlikely by the Merfolk Clan leaders and Nie Yuan.

But they had no evidence to refute, with only Chen Yu remaining as the witness.

Unless they performed a Soul Search, they couldn't prove whether Chen Yu was lying.

The high-level leaders of the four major clans were engaged in discussions, displaying varied expressions.

All experts except Chen Yu were dead, the other three clans had no gains, they found it hard to accept this, and the Earth Spirit Clan and Flame Human Clan had even begun some disputes and conflicts.

"Chen Yu, how are your gains?"

Nie Yuan asked.

Chen Yu took out the storage space, allowing the people of the Human Race to inspect it.

Immediately, everyone's eyes lit up, and they couldn't help but gasp.

"Five Mystical Crystal Stones, forty-six Mystical Crystal Stone Fragments, thirteen Ghost Spiritual Grass, and three Bone Corals."

This was undoubtedly a great harvest.

Even Nie Hua's gaze towards Chen Yu softened a bit.

But when he thought of his son's death, his expression turned sharp again.

Chen Yu sighed inwardly; fortunately, he had already stored the Space Profound Meaning Crystal Stone into the mysterious crystal space.

If he had left too suddenly and wasn't prepared, he would have definitely kept some benefits for himself, rather than letting Nie Hua and the others take them.

"Not bad, Chen Yu. According to the rules, you can take thirty percent, and the rest will be distributed by the City Lord Mansion."

Nie Hua said calmly, suggesting to divide the treasures first.

With thirty percent, Chen Yu directly took away four rare and precious Mystical Crystal Stones and nothing else.

This scene made Nie Hua and the other commanders secretly envious.

"Commander Chen, how about this: I let you take fifteen more Mystical Crystal Stone Fragments, and you leave behind that gold-attribute Mystical Crystal Stone?"

Nie Hua spoke in a calm tone.

"No exchange."

Chen Yu coldly refused.

This made Nie Hua's face instantly turn unsightly.

The other three tribes, seeing the shocking haul that Chen Yu had brought out, couldn't help but covet.

When they recalled the fact that all the masters in their tribes had fallen, greed began to burn in their hearts.

But just at that moment.

Boom!

A mighty will, overwhelming the heavens and earth, descended across the sky.

The energy roared, and the void of heaven and earth trembled slightly.

In their sight, a merfolk clad in a blue robe, holding an Ice Crystal Trident, slowly materialized. His blue hair surged like waves, standing amidst boundless water surges, commanding awe in all directions, shaking the world!

All living beings present trembled inwardly, looking up at the thousand-foot giant shadow, astonished.

"The Emperor?"

"Emperor Xuanming's projection? Too terrifying, this is the power of the Xuanming Realm!"

The will carrying its own power, descending from tens of thousands of miles away, could suppress all the strong present!

"Emperor!"

"Greetings to the Emperor!"

The Merfolk Clan bowed their heads in respect.

The crowned Merfolk King was also extremely surprised; how could this matter alarm the Emperor within their territory?

Did he sense the destruction of the small realm here?

"What happened here?"

The Emperor's projection spoke, as if representing the heavens and earth, questioning all beings.

The Merfolk King immediately recounted the situation just now truthfully, without any concealment or alteration.

In the next moment.

The gaze of the Emperor's projection fell on Chen Yu.

Bang!

Chen Yu's body sank, his feet embedded in the ground, the immense pressure squeezing his entire body, making it extremely difficult for him to move or even speak.

What was happening? Could it be the other party sensed he lied?

Impossible, even if it was the Emperor of the Xuanming Realm, he hadn't witnessed what happened at the bottom of the Soul Burial Lake.

"Young one, only you escaped. I will search your soul to find the truth."

The Merfolk Emperor's projection didn't ask but directly told him what he would do next.

Overbearing, tyrannical!

Even if you refuse, it would be futile.

Many people of the Human Race present were indignant; why should the Merfolk mess with the Human Race?

Chen Yu looked at Nie Hua, who remained indifferent, allowing the Merfolk to act.

Suddenly, two more powerful wills, surging across the world, descended, transforming into two enormous projections.

One figure was like a giant mountain, its entire body composed of black boulders, with ancient and mysterious patterns, exuding an incredibly heavy aura.

The other figure was shrouded in infinite flames, with a white body, lips, eyes, and hair crimson like fire.

"Greetings to the Emperor!"

The Flame Human Clan and Earth Spirit Clan all bowed their heads.

They were also incredibly startled; why were the Emperor's mighty figures stationed in the Chaotic Sea Plain paying attention to what was happening here?

Their reasons were unknown, but the three Emperors understood perfectly.

Earlier, a presence was born here, a terrifying presence that shook even their hearts, otherwise why would the three Emperors focus on this place?

They wanted to ascertain, ultimately, who or what treasure emitted such a terrifying aura!

From everyone's descriptions, they speculated that a treasure had emerged from the Soul Burial Lake.

Perhaps it was the core of that shattered small world, or some other unknown treasure.

Chen Yu was the only survivor.

So the treasure was very likely on Chen Yu!

Finally, the projections of the three Emperors made a unanimous decision.

"Young one, open your soul, we want to search your soul!"

The three Emperor projections exchanged glances; if they truly discovered a treasure, the other might be an enemy.

The strong ones from the three tribes also gradually felt that Chen Yu was hiding something.

Even if the final result was true.

Their Emperors had arrived, and by then they could force the Human Race to hand over the spoils for the four tribes to share.

Nie Hua watched this scene, his heart increasingly disturbed.

"Damn, Chen Yu must've hidden something earlier. If I'd known, I should have taken him away earlier to interrogate him alone."

Nie Hua felt some regret and was also powerless at the moment.

If only the Merfolk Emperor's projection was present, he could resist, but he couldn't counter the decision made by the three Emperors.

Just as the three Emperor projections were about to act.

A fourth Emperor projection quickly materialized behind Chen Yu...

Chapter 1025: Heart Transformation

Behind Chen Yu, a massive silhouette of cyan light, towering a thousand feet high, gathered, clad in a cyan and white robe, with a towering figure and eyes as deep as the abyss, exuding an aura that shook the eight directions.

Regarding the appearance of the Human Clan Emperor's projection, the other three clan emperors had anticipated it long ago.

Since they sensed that fleeting terrifying aura, the Human Clan Emperor naturally sensed it too.

If both parties were curious, then let the four great powers explore the information together.

If the Qingyun Emperor wanted to monopolize the benefits, then the three of them would join forces to suppress.

But before the three great emperors could speak.

The projection of the Qingyun Emperor shouted fiercely: "Without this emperor's consent, if you touch my human race, get lost!"

On the body of the projection, a violent aura swept in all directions.

The word "get lost" formed a giant wave of cyan light, like an endless ancient beast rushing forth.

The souls of the kings present trembled, their minds echoing with this domineering and majestic word, ultimately submitting to the pressure of this word.

Bang! Bang! Bang!

The projections of the other three great emperors were directly shattered and vanished under the impact of that layer of cyan light wave.

Between heaven and earth, only the projection of the Qingyun Emperor remained, standing proudly and intimidating in all directions.

"Return!"

He uttered a word lightly, and his figure dissipated.

The powerful individuals of the human race stood in place, stunned, with their minds still in shock.

Upon hearing this word, he reacted and led the human race away from this place.

At this moment, everyone in the human race had only one thought in their hearts: such dominance.

The other three clans had the same thought, watching the human race leave, not daring to make a sound.

At the same time.

In the mermaid palace's important location of the Sea Clan.

The Mermaid Emperor, sitting on the throne, trembled, his energy and blood boiling, taking a few breaths to suppress it.

"Such strong power directly shattered the projections of the three great emperors."

The Mermaid Emperor's face was solemn.

Only with a huge disparity in strength could this be possible.

"This person is probably not simple, hiding so deeply. I don't know if joining forces with the Earth Spirit Clan and the Flame Human Clan's three great emperors could contend with him..."

...

On the way back to the human clan, Nie Hua and the others couldn't help but secretly observe Chen Yu, with complex thoughts in their hearts.

Everyone could see that the Qingyun Emperor made a move against the other three great emperors because of Chen Yu.

They marveled in their hearts, wondering why the Qingyun Emperor valued Chen Yu so highly.

This made Nie Hua, who had deep hatred against Chen Yu, most entangled, not knowing how to deal with Chen Yu.

Although Chen Yu was also filled with emotion and relief, at this moment, he had no extra time to think about these.

He only wanted to know what kind of transformation the mysterious heart underwent after absorbing the interface core.

Chen Yu's consciousness immersed into the internal space of the heart.

It was no longer dead silent here, filled with color and vitality.

The moment he arrived, he had the illusion of arriving in the real world.

There were brown hard rocks here, in many places, some weeds were growing, and small straight trees, a clear stream not far away, roaring winds above, and flashing lightning...

After the mysterious heart absorbed the interface core, these natural scenes unexpectedly appeared.

These natural scenes were very simple and monotonous, resembling the initial birth of heaven and earth.

"But what do these things mean? What use do they have?"

Chen Yu asked himself in his heart, unable to think of an answer.

Apart from the birth of these simple scenes, the Light Silver Crystal Space expanded several times, with a length and width of two thousand feet.

Chen Yu explored briefly, discovering no other changes.

"Just like this?"

He was somewhat disappointed, having spent so much effort, absorbing the interface core, it seemed to bring him no great benefit.

It feels like a loss.

If he kept the interface core, he might get many profound meaning crystals, which are very valuable.

"The Qingyun Emperor might know something, I can only ask him..."

Chen Yu sighed, leaving countless doubts in his heart.

At this moment, he recalled the occasional recurring dreams from a long time ago.

Chen Yu always believed that the dream might be true, or might not be true.

Just like the mysterious heart, which he found in the Yunyue Sect, so upon first arriving at the City Lord Mansion, he didn't reveal it, as this was his biggest secret, known to no one else until now.

But combined with that dream, Chen Yu felt that the appearance of the mysterious heart, picked up by him, might not be a coincidence.

The Qingyun Emperor might know something.

Half a day later.

Chen Yu returned to the City Lord Mansion.

The first thing he did was to head to the forbidden area where the Qingyun Emperor resided.

"If there's anything you want to know, ask."

The Qingyun Emperor seemed to have been waiting for Chen Yu again, seeing him, he spoke plainly.

Chen Yu thought that the Qingyun Emperor would dodge and hide, but seeing him so straightforward, Chen Yu was somewhat surprised.

"At the bottom of Soul Burial Lake, I obtained an interface core."

He first confessed this opportunity.

After all, the Qingyun Emperor protected him, otherwise the other three great emperors would have soul searched, learning everything, and the secret of the heart would be exposed, leading to his certain death.

After stating this point, Chen Yu asked: "What is the use of this treasure?"

"The interface core is an incredibly precious treasure for even the Emperor Xuanming, let alone a Condensed Star King."

"The interface core is the origin power of an interface, enough to increase the probability of a late-stage Condensed Star King breaking through to the Xuanming Realm by more than fifty percent."

"In addition, whether for a Condensed Star King or an Emperor Xuanming, the interface core can be used to cultivate and enhance profound meanings, keeping one's strength at the forefront of the same realm."

Qingyun Emperor explained one by one.

Breakthrough to the Xuanming Realm, with a probability increase of more than fifty percent?

Chen Yu's breath quickened.

Not only that, the interface core also has the effect of assisting in cultivation.

Chen Yu felt as if he had lost out; keeping such a thing for himself would have been so beneficial.

As for finding another interface core, this idea was quite unrealistic.

In the vast universe, there are countless interfaces.

But large interfaces have top powerhouses, and even if one has enough power, annihilating all the creatures of an interface is exceptionally difficult. Moreover, each interface is backed by even stronger forces.

Seizing the core of a small interface is also unrealistic.

In the vast universe, small interfaces are like streams, large interfaces like rivers, and the main world like a vast sea.

From a small interface to a large interface, and then to the main world, is like going downstream.

From the main world to a large interface, then to a small interface, is like going upstream.

The stronger one's cultivation, the greater the spatial resistance encountered when traversing interfaces.

There once was a super-power who forcibly traveled to a small interface, causing the interface to collapse, the space to shatter. Not only did he die, but even people related to him were retaliated against by the forces backing the small interface.

"Besides, the interface core has some unconventional uses, which you don't need to know about."

Qingyun Emperor concluded with a final sentence.

"You know about the mysterious heart within me, don't you? What is its origin?"

Chen Yu continued to ask.

"That heart was something I acquired by chance; as for it merging with your body, it was all destined in the unseen realms."

Qingyun Emperor, without evasion, explained honestly.

Acquired by chance? Chen Yu was very surprised, how could his luck be so good? Could it be that the luck of geniuses is always this good?

"As for its origin, you've probably heard of the legend of the Chaos Demon, haven't you?"

"Chaos Demon?"

Chen Yu had learned of this legend within the Blood Race, and at that time, he boldly speculated that the mysterious heart might be related to Chaos Demon. He never thought it was actually true.

In ancient times, the main world once gave birth to a "Chaos Demon." His appearance instilled fear among all races, causing the gods to tremble...

But even an existence like this, for some unknown reason, eventually fell.

"Indeed, this 'Eternal Heart' comes from the Chaos Demon."

Qingyun Emperor gave a definitive answer.

Chen Yu never expected that the heart he had merged with had such an astonishing origin.

Fortunately, he had always guarded the secret about the heart well, or else it might immediately bring about a calamity.

"The benefits the heart brings you surpass those of the interface core; you just haven't noticed yet. As the power of the Eternal Heart continues to awaken, the benefits you receive will also increase."

Qingyun Emperor seemed to see through everything and spoke with a smile.

Chen Yu could sense that as the mysterious heart continuously changed, he was gaining more and more benefits.

It's just that this time, the mysterious heart had swallowed the interface core, seemingly without bringing any noticeable benefits, perhaps as Qingyun Emperor said, he hadn't discovered them yet.

He closed his eyes slightly to perceive, and immediately felt something was amiss.

His Spiritual Sense swiftly fused with the heavens and the earth, and many insights into profound meanings emerged in his mind, with the most being spatial profound meanings.

At this moment, Chen Yu felt that his speed of comprehending the profound meanings had nearly increased tenfold!

Suddenly.

Chen Yu's comprehension of space profound meaning seemed to reach another realm.

His consciousness merged into space, seemingly able to grasp everything nearby. With a single thought, a thousand-zhang space seemingly existed independently; the wind could not blow in, and flowing waterfalls were blocked outside.

"Not bad, so quickly, your spatial profound meaning has reached the second level."

Qingyun Emperor witnessed this scene and expressed satisfaction.

It seems that the Eternal Heart gave Chen Yu this advantage.

In fact, he didn't fully understand the Eternal Heart; otherwise, he would have said so earlier.

Feeling the breakthrough and enhancement in spatial profound meanings, Chen Yu was in a good mood.

He suddenly discovered that the "simple world" within the mysterious heart's internal space had undergone some changes; this world's space seemed to have expanded somewhat, becoming more stable.

"As my comprehension of profound meanings improves, does this world change?"

Chen Yu marveled in his heart.

This situation is akin to the gradual creation of a world by an interface core.

However, the broken interface core he obtained clearly did not possess this capability, destined to slowly head towards destruction.

But after being absorbed by the mysterious heart, it gained this capability, gradually creating a world.

"Perhaps not long from now, the mysterious heart will create an independent interface!"

Chen Yu reached this conclusion.

Moreover, he discovered that he possessed a certain degree of control over this simple world, able to alter the geographical environment.

Currently, he summarized several aspects of the mysterious heart's transformation:

First: His speed of comprehending profound meanings has increased nearly tenfold, especially spatial profound meanings, directly breaking through to the second level.

As long as Chen Yu wishes, he can immediately grasp other profound meanings.

Most in the Condensed Star Realm only grasp one profound meaning, with no extra time to comprehend others.

Second: The mysterious heart is creating an independent world; as Chen Yu's strength improves, it will continuously perfect itself, and in the future, this will become his independent world.

Third: The post-battle weakness not only disappeared, but the body is filled with infinite power, a feeling of boundless energy. Recovery and physical strength have greatly increased.

The specific amplification and current strength need to be tested to know.

Chapter 1026: Visit from the Holy Clan

"Try it here, as your father, I also want to see how much change the awakening of the Eternal Heart's power has brought to you."

Qingyun Emperor spoke.

Chen Yu originally planned to leave Chaotic Sea City and test outside, but since Qingyun Emperor spoke, he did not hesitate.

Buzz!

The star acupoints on his body simultaneously activated, starlight rapidly emerged, and a powerful force pressure surrounded his body, suppressing everything.

Without punching, the force within him circulated, opening star acupoints according to the Cultivation Method of the Star Symbols Divine Body.

After a few breaths.

New star acupoints lit up on his body.

In the battle at Soul Burial Lake, his physical body was tempered, especially the last arrow from the Great Commander, which was neutralized by the mysterious heart, resulting in full-body refinement by lightning.

In a moment, Chen Yu opened twenty star acupoints.

At this point, he stopped, clenched his fist, mobilized all his strength, and punched.

This punch did not utilize True Yuan.

Boom!

The void rumbled, a massive force twisted the view, and landed on a towering peak in the distance.

Bang!

The sound of the explosion shook the heavens and the earth, the mountain peak disappeared, and the ground shook violently, leaving a giant pit.

The entire City Lord Mansion trembled.

Those close to Qingyun Emperor's residence even thought an enemy was attacking and hurried outside.

Inside the General Mansion.

Nie Hua, who looked worried, was startled by the vibratory room.

He rushed out, determined the source was Qingyun Emperor's place, and did not interfere further.

Once, he dared to refute Qingyun Emperor directly.

After witnessing Qingyun Emperor's prestige earlier, he does not have the courage to meddle in the Emperor's affairs now.

"Not bad, this punch, if directly hit a Mid-stage Star Condensation Realm being, might kill with one blow."

Qingyun Emperor casually commented, a smile appearing on his face.

Mind you, this punch from Chen Yu is purely strength, without utilizing force.

Pure strength, if hitting a Mid-stage Star Condensation, could kill in one blow!

If combined with force, it might threaten Mid-stage Star Condensation Peak's life.

"Next is defense testing."

Chen Yu was somewhat expectant.

The mysterious heart's enhancement to the body mainly focused on strength and defense, with little speed improvement.

Chen Yu's right hand formed a blade, force converging into a white blade, smooth as a mirror.

Tink!

He slashed at his left arm, emitting a sound of cutting metal.

On the left arm, a shallow blood mark appeared, which healed instantly.

Chen Yu's slash used part of physical force and force, surpassing a usual Mid-stage Star Condensation attack, but only left a shallow mark on himself.

"A typical attack from Mid-stage Star Condensation might not hurt me at all; if added with the Star Pattern Robe's defense, even a Mid-stage Star Condensation Peak attack might only cause slight injury."

Chen Yu concluded.

His defensive power had multiplied several times.

Now, if engaging with a thinly veiled merfolk, the opponent might not even damage his skin.

Mid-stage Star Condensation Peak at best could cause slight injury to Chen Yu.

Furthermore, the self-healing of the mark was almost instantaneous.

The self-healing ability might have improved greatly.

"Given my current situation, if I add the second level of spatial profound meaning, I might contend with Late Stage Star Condensation."

Chen Yu speculated.

After all, he has not yet seen a Late Stage Star Condensation perform fully.

However, with Mid-stage Star Condensation Peak, even with all the methods deployed, they could not threaten him, thus drawing this conclusion.

"Close enough."

Qingyun Emperor said calmly.

Chen Yu felt Qingyun Emperor's tone was off, initially delighted with praise, but the final evaluation was rather simple.

In truth, Qingyun Emperor was comparing Chen Yu to his younger self; during his time in the Great Yu Realm, he was the unrivaled genius of the era.

Even upon reaching the main world, he was one of the Human Race prodigies of the era.

Yet, he found his Early-stage Condensed Star Realm Peak was far less potent than Chen Yu's current combat strength.

As a genius, he naturally compared himself to other geniuses.

But Chen Yu is his son, so Qingyun Emperor was pleased, saying with a smile: "You have just reached the Early-stage Condensed Star Realm Peak, and in at least five to six years, it is unlikely you will break through; there is still considerable room for enhancement."

These words were not wrong, Chen Yu thought so too.

Just the first layer of the Four Symbols Divine Body has lots of room for improvement.

Once the first layer of the Star Symbols Divine Body is complete, Chen Yu's physical strengths will reach astounding heights.

"This is a spatial combat technique; at your current level, it is challenging to cultivate, but you can at least understand something."

"With your spatial talent, it won't be long before you can cultivate."

Qingyun Emperor took out a jade slip.

"Sky Splitting Emperor Fist!"

Chen Yu scanned with Spiritual Sense, seeing several bold, fierce characters.

"This is an Emperor-level Battle Technique!"

Chen Yu, after browsing the content, exclaimed in surprise.

This is a technique only the Emperor of the Xuanming Realm can deploy!

Chen Yu felt this was somewhat distant from him, and the preciousness of this combat technique is self-evident.

For example, the former Five Great Families, the strongest Xu Family likely possesses only one or two Emperor-level battle techniques, preserved as family heritage.

"Spatial-type battle techniques are quite rare; I don't have any of the lower-level ones."

Qingyun Emperor explained, and Chen Yu sensed a hint of boasting.

After the test was completed.

Chen Yu returned to his residence and began his seclusion.

Originally, he should have been cultivating in seclusion, but the matter of Soul Burial Lake caused a delay.

"Currently, the two greatest areas of improvement are the Stellar Body and the cultivation of Yuan power."

These two aspects can progress simultaneously without interference.

In terms of the Stellar Body, he has currently developed four hundred and ninety-eight Star Acupoints.

At the last auction, Chen Yu acquired many resources, the majority being rare body refining materials.

Even if these were used up, he still has a vast amount of Primordial Stones to continue his search.

The possessions of several members of the Merfolk Clan, along with those of the Great Commander, were quite substantial.

Just ten days into his seclusion,

He developed forty more Star Acupoints, showing remarkable progress.

"The speed of cultivating the Body Dao Technique is quite beyond expectations."

Chen Yu speculated whether this too was a change brought by the Mystic Heart?

With the passing of time, the cultivation speed of the Stellar Body slowed down, but this was normal; any cultivation technique would slow down as it advanced.

"If I can develop seven hundred and twenty Star Acupoints, the Stellar Body will reach perfection, allowing me to harness the power of all Star Acupoints to unleash an exceptionally powerful offensive battle technique."

Chen Yu looked forward to it internally.

While cultivating the Stellar Body and developing Star Acupoints,

Chen Yu also attended to his cultivation level.

In terms of body refinement, he possessed an exceptional talent, progressing rapidly.

In comparison, even though he had the Blood Spirit Body aptitude, progress in cultivation was somewhat challenging.

After all, the "Nine Revolutions Bright Star Technique" that Chen Yu was cultivating was the pinnacle of Nine Revolutions cultivation methods, extremely difficult.

Regarding the "Sky Splitting Emperor Fist" received from Qingyun Emperor, he reviewed it briefly but found the difficulty to be immense, far too profound, and beyond his current capacity, so he had to set it aside temporarily.

But according to Qingyun Emperor,

When Chen Yu reaches the third level of spatial profound meaning, he might be able to attempt this Emperor-level battle technique.

From Qingyun Emperor, Chen Yu learned that profound meanings are actually divided into nine levels.

However, at the Condensed Star Realm level, one usually comprehends up to the third level; at most, geniuses in spatial aspects comprehend the fourth level.

Normally, only by the Late Stage Star Condensing Realm can one comprehend the third level of profound meaning and attempt Emperor-level battle techniques.

But with Chen Yu possessing the Mystic Heart, his talent in spatial aspects cannot be measured by common standards.

Without reaching the Late Stage Star Condensation, Chen Yu might be able to cultivate the "Sky Splitting Emperor Fist."

Time passed slowly.

Chen Yu remained secluded in the City Lord Mansion, detached from external affairs.

He now had only one goal: to enter the Three Great Religions.

Before this, everything was merely preparation for this goal.

Two years later,

After being in seclusion with almost no disturbance, someone suddenly came to visit Chen Yu.

"Commander Chen, predecessors from the White Tiger Sacred Clan are here to see you, so come out quickly."

Outside the door, the butler of General Nie Hua, "Black Bone King," shouted.

Though he feared Chen Yu, standing beside him were high-level members of the White Tiger Sacred Clan, giving him newfound boldness.

"If you have nothing important, you can leave."

A calm voice came from inside the mansion.

The Black Bone King was extremely frustrated but dared not retort.

Beside him were five members of the White Tiger Sacred Clan.

Among them, three young people at the mid-stage Condensed Star Realm made the seasoned strongman Black Bone King, who was also a mid-stage Condensed Star, feel uneasy, doubting whether he could compete against them.

Their leader was a robust elder, his white hair and youthful complexion, clad in a black robe, his black eyes shone with divine light, and when Black Bone King glanced at him, he felt overwhelming pressure, a terrifying aura that dominated the world, causing cold sweat to break out on his back.

"Senior Bai Jun, I will take my leave first."

Black Bone King bowed his head and quickly departed.

Not far from leaving, he encountered General Nie Hua.

"General, doesn't the White Tiger Sacred Clan have a grudge against Chen Yu? Why did Senior Bai Jun come personally to visit?"

Black Bone King asked, startled.

"Perhaps it's courtesy before warfare."

Nie Hua said gravely.

Initially, members of the White Tiger Sacred Clan had come out seeking Chen Yu, claiming he was a sinner of their clan.

Nie Yuan was very eager to see the Emperor Bai Jun of the White Tiger Sacred Clan personally take action to kill Chen Yu.

He believed Qingyun Emperor wouldn't clash with Bai Jun Emperor over Chen Yu, especially since Chen Yu was considered a criminal.

"Esteemed guests of the White Tiger Sacred Clan, please come in."

The grand doors of Chen Yu's hall opened on their own.

Emperor Bai Jun, along with four others, stepped inside to see a handsome young man come out, exuding a strong presence.

While Emperor Bai Jun remained unfazed, the three talented members of the White Tiger Sacred Clan felt their blood and Qi stagnate, their bodies heavy.

The white-clad lady who had met Chen Yu several times before, stared at him, shocked.

It had been just a moment, yet the invisible aura emanated by Chen Yu now imposed such overwhelming pressure on her.

The other pair, a man and a woman, were both curious about just how skilled the human genius described by the white-clad woman "Ling Ting" was.

Upon first encountering Chen Yu, they found themselves overawed by his aura, significantly diminishing their momentum.

Chapter 1027: Defeating Three Opponents in Three Moves

In the great hall, a few people sat down.

"Chen Yu, this is our Holy Clan elder, Emperor Bai Jun."

The woman in white, "Ling Ting," introduced the robust elderly man with crane-like hair and a youthful face.

"Greetings, senior."

Chen Yu glanced at Emperor Bai Jun. Although his demeanor was calm, Chen Yu could sense the terrifying power lurking within him.

"Young friend from a lower realm, to achieve such a climate, obtaining our Demon Race's inheritance, your fortune is remarkable."

Emperor Bai Jun sighed lightly, praising Chen Yu.

Ling Ting and the other three Holy Clan geniuses felt a bit uncomfortable hearing their elder praise someone else.

After some polite exchanges.

Emperor Bai Jun asked, "Chen, the cultivation technique you acquired, is it the 'Four Symbols Divine Body'?"

Upon returning to the White Tiger Sacred Clan, Ling Ting and the others had reported the details. The higher-ups of the Holy Clan then consulted ancient texts and eventually discovered that the Skywalking Demon God had indeed created a Body Refining Technique known as the 'Four Symbols Divine Body.'

Once the White Tiger Sacred Clan learned about the 'Four Symbols Divine Body,' they were even more shocked.

This Body Refining Technique actually integrated core cultivation techniques from the four major sacred clans of the Demon Race, naturally including the White Tiger Sacred Clan.

Such cultivation techniques and combat skills are extremely rare in the history of the Demon Race.

Currently, the Demon Race is not united, with each sacred clan pursuing its own interests. If the Demon Race could unify, it would definitely be considered a major force in the main world.

If the White Tiger Sacred Clan could obtain the 'Four Symbols Divine Body,' they could deduce many lost sacred clan combat skills from its content, gaining an edge over the other sacred clans.

Furthermore, if they could deduce the lost combat skills of the Azure Dragon, Vermilion Bird, and Xuanwu Sacred Clans, the status of the White Tiger Sacred Clan would rise accordingly, potentially becoming the strongest sacred clan of the Demon Race and even uniting the Demon Race.

"Exactly."

Chen Yu nodded.

Emperor Bai Jun's expression remained calm as he slowly spoke, "This time, on behalf of the White Tiger Sacred Clan, I am here to obtain the cultivation techniques rightfully belonging to the Demon Race. Name your price, Chen."

"Let me name my price? Then senior should be prepared."

Chen Yu said with a smile.

"Let's hear it."

Emperor Bai Jun raised an eyebrow slightly, not expecting Chen Yu to be so composed in front of him, showing little respect or fear.

"I want... five hundred Profound Meaning Spirit Stones."

Upon hearing the term Profound Meaning Spirit Stones, the White Tiger Sacred Clan didn't think much of it. It was very difficult for a loose cultivator like Chen Yu to have a source of Profound Meaning Spirit Stones.

But when they heard the amount, everyone was greatly shocked, even Emperor Bai Jun gave a low grunt.

"And besides..."

Without waiting for Chen Yu to finish speaking.

The three White Tiger Sacred Clan geniuses immediately stood up, alarmed. Not only did Chen Yu demand a high price of five hundred Profound Meaning Spirit Stones, but he also had other requirements.

"Chen Yu, are you joking?"

"Five hundred Profound Meaning Spirit Stones, do you know how precious that is? Even most Four-star Forces can't afford that number."

Ling Ting stood up on the spot, scolding.

Chen Yu naturally knew the value of five hundred Profound Meaning Spirit Stones. For example, in the Soul Burial Lake incident, obtaining a single Profound Meaning Spirit Stone was already a great satisfaction for the ordinary Condensed Star Realm.

"Your appetite is really huge, aren't you afraid of bursting?"

"Five hundred Profound Meaning Spirit Stones! Aren't you afraid of blinding yourself?"

The other two White Tiger Sacred Clan geniuses started mocking.

In their daily lives, it was extremely difficult for them to even receive a single Profound Meaning Spirit Stone as a gift from their clan, and yet Chen Yu dared to demand five hundred.

"It seems, sir, you're not sincerely here to trade."

Emperor Bai Jun spoke, and an invisible pressure permeated, causing the great hall to solidify and everything seemed to come to a standstill.

Unexpectedly, under his oppression, Chen Yu remained calm and composed, not at all concerned about his anger.

"I think it's actually the White Tiger Sacred Clan who aren't sincere in wanting a deal."

Chen Yu said calmly, then closed his eyes, nonchalantly exuding an indifferent attitude.

Emperor Bai Jun was somewhat surprised, it seemed Chen Yu knew the real value of the 'Four Symbols Divine Body.'

Initially, the White Tiger Sacred Clan thought that such a precious cultivation technique falling into the hands of an ordinary Condensed Star Realm would be fine. They could offer some benefits and easily obtain it.

But the outcome was completely unexpected.

Chen Yu knew the real value of the 'Four Symbols Divine Body,' and his exorbitant demand left them unprepared.

Five hundred Profound Meaning Spirit Stones is no small amount, even Emperor Bai Jun couldn't make that decision.

"It seems there's someone wise advising you behind the scenes."

Emperor Bai Jun sighed.

Otherwise, how would an ordinary king from a lower realm like Chen Yu understand the value of the 'Four Symbols Divine Body,' and be so assertive in naming the price?

"However, five hundred Profound Meaning Spirit Stones are indeed too high. Could you possibly reduce it a bit, as a gesture of goodwill towards the White Tiger Sacred Clan?"

Emperor Bai Jun's tone softened again.

Ling Ting and the several geniuses were taken aback; they didn't expect that Emperor Bai Jun, instead of getting angry, would actually relent.

"Very well, then four hundred and fifty Profound Meaning Spirit Stones. Besides that, the White Tiger Sacred Clan owes me a favor."

Chen Yu slightly lowered his price and supplemented the words he hadn't finished earlier.

"Chen Yu, don't be greedy."

Ling Ting angrily remarked.

Chen Yu spared the White Tiger Sacred Clan four hundred and fifty Profound Meaning Spirit Stones, and still insisted they owe him a favor, obliging the Sacred Clan to aid him in the future.

"The price you propose is still too high."

Emperor Bai Jun shook his head.

"In that case, we can only call it off." Chen Yu did not insist.

If the White Tiger Sacred Clan wouldn't trade, there were still the other three sacred clans he could negotiate with.

Emperor Bai Jun said nothing, and the transaction seemed to come to a halt.

Just then, apart from Emperor Bai Jun and the three geniuses, another elder of the White Tiger Sacred Clan spoke, "Ling Yun, Ling Jiao, weren't you both curious to see Chen's skills? Why not take this opportunity to seek his guidance?"

The handsome man and the spoiled girl showed a slight reluctance.

They had indeed wanted to witness the prowess of the human race genius who had made Ling Ting falter.

But upon meeting Chen Yu, they were already intimidated by his aura, internally admitting they were inferior.

Since they weren't a match for him, why invite humiliation?

But with their elder speaking, they had to at least try.

"I am Ling Yun, wishing to witness your skills, please instruct me."

The handsome man stepped forward.

Since they were guests from afar, although Chen Yu thought they weren't worthy to be his opponents, he was still willing to provide some guidance.

"Only three moves."

Chen Yu stood up.

The meaning was clear: attack with your full strength, you only have three chances.

Ling Yun felt humiliated instantly. He was a genius of the White Tiger Sacred Clan, yet he was being underestimated by a human like this.

Fine, he would use his strongest three moves to make Chen Yu reevaluate him.

But at that moment, Emperor Bai Jun spoke: "Chen, how about this: let a junior of my clan spar with you, and if by chance he wins, you lower the price further."

"Him?"

Chen Yu glanced at Ling Yun.

Ling Yun's face was filled with shame and anger, as Chen Yu was looking down on him so much.

"You seem confident, my friend. Why not let three of my clan's juniors attack together?"

Emperor Bai Jun's tone was inquisitive.

"What?"

Ling Ting and Ling Jiao, who were sitting below, looked astonished. Why would Emperor Bai Jun say this, letting the three of them team up? Even if they won, there would be no sense of accomplishment.

And if word reached the Demon Race, they would be accused of bullying with numbers.

Emperor Bai Jun didn't care about this, as long as he could obtain the "Four Symbols Divine Body." The reputation of several juniors paled in comparison to that.

"This... is fine too, but if I win, the price reverts to the original five hundred."

Chen Yu also made a demand.

The talented ones like Ling Ting didn't expect Chen Yu to agree, appearing so confident, which made them even more annoyed.

Ling Yun, Ling Jiao, and Ling Ting stepped forward to join forces against Chen Yu.

"Let's change the location, or else your house will be gone."

Ling Ting's face was cold.

"No need, it will be over quickly."

Chen Yu shook his head in refusal.

This attitude made the three prodigies even more furious. They had never been so lightly regarded by someone whose cultivation was lower than theirs.

"This guy is too arrogant. I may not be his match alone, but with the three of us, we can easily defeat him."

Ling Yun transmitted his thoughts to the other two, intending to give Chen Yu a good lesson.

"Let's level his shabby house."

Ling Jiao's gaze was intimidating.

"It has begun."

Chen Yu said blandly.

Swish!

As soon as the words fell, he flashed out, leaving only a fragmented afterimage.

Chen Yu instantly approached Ling Jiao, whose expression froze as she sensed a strong threat. The massive white tiger claw, shimmering with elemental force, was thrust out fiercely.

But Chen Yu's finger, as quick as lightning, arrived first.

The star acupoints on his body glowed, and a finger shone with white starlight, piercing into the palm of Ling Jiao's hand.

Bang!

A mighty force erupted, and Ling Jiao was hurled backward, flying out of the grand hall.

The battle had just begun, and one of the White Tiger Sacred Clan's three had already fallen.

This scene placed immense pressure on Ling Yun and Ling Ting.

How could Chen Yu's speed be so fast? How could his strength be so strong? They didn't even sense any elemental force fluctuation just now, and Ling Jiao was defeated!

"Go!"

Ling Yun and Ling Ting attacked simultaneously, their elemental force bursting forth, their physical strength in operation, exuding an intense and ferocious aura.

But suddenly, they found themselves ensnared by an invisible space barrier, trapping them in place, with even their power aura sealed inside.

"This is the dual-layered profound meaning of space!"

Ling Yun looked as if he had seen a ghost.

He was at mid-stage Condensed Star, and even his profound meaning of metal hadn't reached the dual-layered level.

Bang!

Chen Yu's glowing fist suddenly flickered towards him, striking Ling Yun's abdomen.

Ling Yun staggered backward, spat out a mouthful of blood, and finally was sent flying out of the grand hall.

The second one defeated.

Sizzle!

On the other side, gold rays burst out from Ling Ting's body, shattering the space barrier around her.

She had the highest talent among the three, with her profound meaning of metal reaching dual-layered strength.

Boom!

With her White Tiger Beast claws, she tore out five streaks of gold and white glittering light, aiming to slice everything apart.

Chen Yu advanced instead of retreating, actively meeting Ling Ting's attack.

Bang!

The five gold and white streaks landed on Chen Yu's chest, causing a fierce flare of sparks but didn't harm Chen Yu in the slightest.

Seeing this, Ling Ting was completely dumbfounded.

What was Chen Yu's body made of? It's practically the Vajra Body.

"Not good!"

Ling Ting felt a huge threat.

Being the last one standing, she was by no means a match for Chen Yu, but she couldn't be defeated by him in a single move, or else the White Tiger Sacred Clan's face would be completely lost.

Faced with Chen Yu's incoming punch, Ling Ting had no way to dodge and could only confront it head-on.

She burned her elemental force, and countless gold and white radiance bloomed on her claws.

Bang!

Chen Yu's fist, surrounded by white light, struck against Ling Ting's defending crossed claws.

Ling Ting immediately felt her claws go numb and lost all sensation, as a massive force surged towards her.

She was blown backward and crashed outside the grand hall.

Three moves defeated three people!

Outside, Nie Hua and Black Bone King hadn't left yet and suddenly saw the three prodigies of the White Tiger Sacred Clan being sent flying out one by one, their faces pale, their expressions disheartened.

What happened inside?

Chapter 1028: Departure

The hall was silent.

Emperor Bai Jun and another elder were stunned for a few seconds before they accepted the reality.

Originally, Emperor Bai Jun thought their side had a better chance of winning.

The combined attack technique of the White Tiger Sacred Clan, executed by Ling Ting and the others, unleashed power strong enough to hold against a late-stage star condensation opponent.

But Ling Ting and the others underestimated their opponent too much.

Chen Yu took the initiative, thoroughly leveraging his advantage in the confined space, and quickly defeated one person.

As a result, the three could no longer execute the combined attack technique and were bound to lose.

But they could lose without it being so humiliating.

However, with only Ling Ting and Ling Yun left, each fighting independently and with panic and fear, Chen Yu defeated them one by one quickly.

Three moves to defeat three people!

After the battle ended.

Chen Yu's room remained undamaged, which was another testament to his strength.

Just now, during the battle, Chen Yu used the profound meaning of space to isolate everything, protecting the surroundings.

Only the second-level profound meaning of space could achieve this level.

Moreover, during the battle, Chen Yu used the space profound meaning skillfully, even enveloping each finger and punch with it, compressing the power to its limit.

"This young man is extraordinarily talented."

Emperor Bai Jun was amazed internally.

Such a genius is definitely one of the outstanding talents of the Human Race today, yet why is he not well-known, and I haven't heard of him?

"No wonder it's the Four Symbols Divine Body."

The elder from the White Tiger Sacred Clan sighed, attributing Chen Yu's formidable strength to the cultivation technique of the Demon Race.

Outside.

Ling Ting and the other two were standing in place, lost and unable to accept the disastrous defeat from this battle.

Reflecting now, Chen Yu made the hall the battlefield, placing the four of them in a narrow space, maximizing the advantage of body cultivation.

But no matter what, they lost, and they didn't even damage Chen Yu's room.

If they had known, they should have insisted on changing to a spacious battlefield, approached it cautiously from the beginning, and used the combined attack technique with all their might...

But alas, nothing can be redone.

The three of them stood there dazedly, not going back inside, not wanting to humiliate themselves further.

"What happened, you three?"

Black Bone King asked.

Ling Ting and the others remained silent, as it was already so embarrassing, they naturally wouldn't mention their defeat.

Nie Hua also spoke, "If there's anything to say, my general will handle it fairly and uphold justice for you."

It was quite obvious that a fight had occurred in Chen Yu's place just now, and the three geniuses of the White Tiger Sacred Clan suffered a loss.

Things were developing in the way he hoped.

"Nothing, we just sparred with Commander Chen for a bit."

Ling Ting said with a stern face.

"Commander Chen is too much, using such heavy hands and driving you out?"

Black Bone King continued to ask, clearly siding with the three from the White Tiger Sacred Clan.

"You have come from afar as guests, my general will take you inside to have a good talk with Commander Chen."

Nie Hua and Black Bone King were echoing each other.

But in the eyes of Ling Ting and the other two geniuses, Nie Hua and Black Bone King were simply there to sneer and disgust them.

Being so disgracefully defeated by Chen Yu and losing the face of the White Tiger Sacred Clan, what was the point of going back in?

In the hall.

"What have you considered, Senior Bai Jun?"

Chen Yu sat down and asked with a smile.

Initially, Ling Yun requested to consult, and he agreed to allow them three moves, as a courtesy to the White Tiger Sacred Clan.

But since Emperor Bai Jun proposed for their three geniuses to spar with Chen Yu, he didn't have to be so courteous anymore.

Hence, he ended the battle at the fastest speed, defeating all three in three moves.

Through this battle, Chen Yu also felt the results of his cultivation over the past two years.

His space profound meaning had advanced further, and his execution of it had become more proficient.

Besides, his Star Acupoint Body had already established 648 star acupoints, with physical strength and defense far exceeding the initial.

Precisely because of the rapid progress over the past two years, he couldn't completely restrain his aura; when they first met, the aura emanating from his body had already intimidated the three geniuses of the White Tiger Sacred Clan.

"Were your moves not too heavy just now, huh!"

Another elder from the White Tiger Sacred Clan expressed extreme dissatisfaction.

Emperor Bai Jun was present, yet Chen Yu dared to let the White Tiger Sacred Clan lose face so disgracefully—truly bold.

"If I had really struck heavily, they wouldn't be able to stand now."

Chen Yu said indifferently.

Emperor Bai Jun stared at Chen Yu, with what seemed like fierce glare in his eyes, making Chen Yu's hair stand on end, feeling uneasy under the gaze.

This was Emperor Xuanming; if he decided to act, Chen Yu wouldn't be able to resist.

But finally, Emperor Bai Jun sighed and said, "The matter of the five hundred profound meaning crystals is quite significant; I need to discuss it with the other high-ups."

After speaking, he got up and left the hall.

"Let's go!"

Emperor Bai Jun walked out of the hall, casting a cold glance at Ling Ting and the others.

Ling Ting and the other two shivered all over, not daring to meet Emperor Bai Jun's eyes.

Nie Hua and Black Bone King watched the White Tiger Sacred Clan leave, feeling somewhat inexplicable.

"What's going on? Why didn't they start fighting?"

Black Bone King was full of doubts.

Nie Hua also found it hard to imagine that the White Tiger Sacred Clan left just like that, with their people being humiliated by Chen Yu, and Emperor Bai Jun didn't seek justice for his people and just let it go?

In Nie Hua's impression, the White Tiger Sacred Clan was always bad-tempered, the kind to fight at any disagreement.

"Hmph, with your current level, there's no need to participate in the God Sect assessment three years later."

Emperor Bai Jun snorted coldly, extremely dissatisfied with Ling Ting and the others' performance earlier.

Clearly having a considerable chance of winning, yet losing in three moves solely due to various reasons, was disgraceful.

The Demon Race was allied with the Human Race, and the two sides were in close contact.

This time, the three of Ling Ting came here to participate in the assessment of the three major Emperor Sects of the Human Race, to cultivate within them.

"Elder, please forgive me. In these three years, Ling Ting is determined to focus on closed-door cultivation and enter the Divine Sect in three years!"

Ling Ting said with her head bowed.

"Master, why did you not take action just now and capture that boy to force out the 'Four Symbols Divine Body'?"

The elder of the White Tiger Sacred Clan asked.

Chen Yu had just humiliated the White Tiger Sacred Clan, being so brazen and bold, yet Emperor Bai Jun was unusually calm, not resorting to threats.

"This is the Human Race's territory, with a Human Clan Emperor stationed here. Moreover, it's rumored that there's some connection with this child; otherwise, I would have acted long ago."

Emperor Bai Jun said with an indifferent expression.

In fact, when he entered Chen Yu's residence, he felt a strong will watching him.

The other party was observing his every move, giving him invisible pressure.

When Emperor Bai Jun was about to make a move, that pressure suddenly increased, making him feel a sense of crisis, which was why he didn't act.

"Five hundred Profound Meaning Crystal Stones, I wonder if the others in the clan will agree."

Emperor Bai Jun sighed inwardly.

...

After the people of the White Tiger Sacred Clan left, Chen Yu didn't concern himself further and continued his closed-door cultivation.

Even if the White Tiger Sacred Clan didn't trade, he could still trade with the three major Sacred Clans: Azure Dragon, Vermilion Bird, and Xuanwu.

On the other hand, he was now well-off and lacked nothing, or else he would have been willing to lower the price and complete the transaction just now.

After entering the secret chamber, Chen Yu closed the door again.

The battle just now made him feel the success of his two years of cultivation, which was quite significant.

This was partly because he had only just broken through his cultivation two years ago and had a great opportunity, allowing ample room for improvement.

There were nearly three years left until the recruitment of disciples by the three major Divine Sects.

For the next three years, Chen Yu estimated that his progress would be hard to surpass the previous two years.

The Star Acupoint Physique had already developed six hundred and forty-eight star acupoints, becoming increasingly difficult and slower to progress further.

In addition, he had initially developed all the ordinary acupoints, leaving the more difficult "unusual points" for later.

In three years, he didn't have much confidence in fully mastering the first layer of the 'Four Symbols Divine Body'.

In terms of cultivation, Chen Yu could only take it slow, with no immediate significant effect expected.

Regarding the comprehension of space's Profound Meaning, Chen Yu didn't let up either.

Only by quickly improving his understanding of the space's Profound Meaning could he comprehend the Emperor Level martial technique 'Sky Splitting Emperor Fist'.

Time passed swiftly.

Two and a half years passed in the blink of an eye.

Inside the secret chamber.

Chen Yu's body shone with star acupoints, like a mysterious star chart.

"A total of seven hundred and ten star acupoints have been opened, just ten more to go."

He ended his cultivation.

The last ten star acupoints were all "unusual points" with significant difficulty, unlikely to succeed in the short term.

"Half a year remains until the recruitment of disciples by the three major Divine Sects."

He walked out of the secret chamber, preparing to set off.

On this day, Chen Yu visited the residence of Qingyun Emperor.

"Leaving?"

Qingyun Emperor suddenly appeared outside the main hall.

"Yes."

Chen Yu nodded.

Unknowingly, he had been here for nearly five years.

During this time, he had great opportunities, his heart underwent metamorphosis, and he saw great improvement.

Five years ago, when facing the three major Divine Sects, Chen Yu might have been a bit apprehensive, but now, he had full confidence.

"Have you made your choice?"

The three major Divine Sects of the Human Race are the Heavenly Martial Sect, Wanxiang Sect, and Night God Temple!

"Heavenly Martial Sect."

Chen Yu inquired, Lin Yuxuan of the Lin Family, his fiancée with whom he had a matrimonial arrangement, was at the Heavenly Martial Sect.

If there's a chance, he wishes to discuss matters with the concerned party. If they reach an understanding and mutually agree, they could dissolve the matrimonial arrangement, sparing Chen Yu a trip to the Lin Family.

Suddenly.

Qingyun Emperor extended his palm, dazzling light with runes swirling, and he slowly pushed it towards Chen Yu.

Buzz!

A layer of azure patterned light merged into Chen Yu's body, disappearing without a trace.

"I helped you conceal the aura of the 'Heart of Eternity'."

He explained simply.

The Heart of Eternity isn't completely undetectable by others; it's just that those Chen Yu encountered before lacked this capability.

But once entering the Human Race's most transcendent cultivation Holy Land, the situation would change, as it is filled with hidden talents, even with God Realm experts.

Bidding farewell to Qingyun Emperor, Chen Yu embarked on his journey to the Heavenly Martial Sect.

On the city wall.

Nie Hua watched Chen Yu depart, filled with hatred, yet lacking the courage to confront Chen Yu.

After five years of contact, Nie Hua found it increasingly difficult to gauge Chen Yu's depth, making him believe that the relationship between Qingyun Emperor and Chen Yu was far from ordinary.

He had a sense of illusion that making a move would result in severe consequences.

"Even if I do not act against you, there are ways to deal with you."

Nie Hua thought to himself.

"Have someone spread the word that Chen Yu is the offspring of the Human Race's sinner, Qingyun Emperor."

Nie Hua passed a message to the Black Bone King.

"General, is this true?"

The Black Bone King asked in great surprise.

"If enough people believe it, it becomes true."

Nie Hua said quietly.

Chapter 1029: The Stalker

Recently, the three great human sects are recruiting disciples, causing a sensation among the entire Human Race.

Numerous talented young members from various family forces, escorted by their elders, headed to the three great sects to participate in the sect assessments.

Even many disciples from Four-star Forces withdrew from their sects beforehand, preparing to participate in the assessments of the three great sects.

Additionally, some factions of the Demon Race also participated.

Chen Yu, riding the "Smoke Cloud Crane," headed straight to the central region of the Human Race, to the Heavenly Martial Sect after leaving the Chaotic Sea Plain!

Every cultivation city he passed by was bustling with people, with news everywhere about the three great sects recruiting disciples. Occasionally, he could also spot young kings with the same goal as Chen Yu.

Around the Heavenly Martial Sect, nearly twenty cultivation cities were under its control. Entering this range was equivalent to entering the Heavenly Martial Sect's field of vision.

If an enemy wanted to infiltrate the three great sects, the difficulty was doubled.

After reaching this range, Chen Yu flew slowly towards the Heavenly Martial Sect on the Smoke Cloud Crane.

"It's only five days' journey left to the Heavenly Martial Sect."

Chen Yu flew through the Yunhai on the Smoke Cloud Crane.

He released the Profound Meaning of Space, merging into the space of the world, spreading around.

Now, his Profound Meaning of Space had nearly reached the level of two and a half, which was incredible for someone at Chen Yu's realm.

"The trackers are getting closer."

Chen Yu sensed three people following silently from thirty miles behind.

As for why there were trackers, Chen Yu was also unclear.

After staying for three days in the last cultivation city, he was followed when he left.

"Could it be Nie Hua?"

The likelihood was too low. If Nie Hua sent people to attack him, they would've acted already.

He had traveled for several months from the Chaotic Sea Plain without encountering any enemies.

Chen Yu gently patted the Smoke Cloud Crane's head: "Slow down a bit."

Before long, a large black metal flying sword approached from behind, with three figures sitting on the blade.

The most eye-catching was a woman in purple clothes, with a seductive figure and an enchanting demeanor, red eyes flickering like ripples, captivating hearts.

Her cultivation was at the same level as Chen Yu, at the peak of Early-stage Star Condensing.

Next to her, a burly man with a cold expression, deep eyes, and powerful aura, was at the Mid-stage Condensed Star Realm.

The last was an elderly man in black, with an ordinary appearance, a kindly smile, and an Early Stage of Star Condensing cultivation.

Whoosh!

The flying sword whizzed past Chen Yu.

Suddenly.

The seductive woman in purple looked at Chen Yu, her red eyes blinking: "Is this young master also participating in the assessment of the Heavenly Martial Sect?"

"Is the lady as well?"

Chen Yu looked at the woman, his eyes brightening, sizing her up from head to toe, appearing as a lecherous person.

"The young master guessed right. I see the young master is quite young, calm, and composed, with great confidence in entering the Heavenly Martial Sect. Could it be that you are a genius from a great family force?"

The seductive woman seemed very curious, wanting to learn more about Chen Yu.

"I am the genius of the Chen Family."

Chen Yu had a proud demeanor of a family genius.

"The Chen Family?"

The three on the black sword looked contemplative.

Among the powerful family forces of the Human Race, there seemed to be no Chen Family...

"The lady is as beautiful as a flower. Upon first sight, I felt a sense of dj vu. If the lady doesn't mind, may I accompany you on your journey as a guardian to ensure your safety?"

Chen Yu spoke eloquently, looking like a lecherous dandy.

"Giggle, sure, I'll be troubling Young Master Chen."

The woman in purple laughed sweetly, revealing her long, fair jade legs beneath the purple dress, leaping onto Chen Yu's Smoke Cloud Crane.

She looked shy and delicate, moving close to Chen Yu.

But suddenly.

Chen Yu's hand shot out quickly like lightning, grabbing the neck of the woman in purple.

This change made the faces of the cold man and the kindly old man on the black sword change suddenly, both staring at Chen Yu.

"What is sir doing?"

The kindly old man questioned.

"Young Master? What are you doing... Even if you wanted me, you could have just said it, no need to threaten me like this."

The woman in purple looked pale, her voice delicate and pitiful.

Her pitifulness was feigned, but her panic was real.

With her neck gripped, her life in someone else's hands, how could she not panic?

She couldn't understand where she went wrong, leading Chen Yu to notice something was off.

"Tell me, what is your purpose in following me?"

The playful expression on Chen Yu's face vanished.

"Sir misunderstood. We were just passing by."

The kindly old man appeared to be wronged.

Chen Yu shook his head, looking at the woman in purple: "Why don't you tell? After all, your life is in my hands."

The woman in purple looked troubled.

She had deliberately approached Chen Yu, intending to capture him, but he acted faster and captured her instead.

"Sir, please spare 'Yu Ying.' She cultivates the art of harnessing yin to supplement yang and was tempted seeing your vigorous yang energy and exceptional demeanor."

"I apologize on behalf of her. As long as you release Yu Ying, we're willing to compensate you."

The kindly old man's posture was very humble.

"Young Master, I was wrong. I shouldn't have targeted you."

The woman in purple looked pitifully at Chen Yu.

If it were an ordinary person, they might spare the woman in purple and take some benefits in return.

Boom!

With a burst of immense power from Chen Yu's hand, the woman in purple's neck snapped, her head flying off.

"You..."

The kindly old man's eyes bulged in disbelief that Chen Yu dared to strike so ruthlessly.

The cold, burly man's entire body exuded killing intent, and the black greatsword beneath his feet emitted an astonishing Sword Intent, resonating in all directions.

Just at that moment.

A small blue boat flew in from the distance, carrying two men and a woman.

"This is the territory of the Heavenly Martial Sect, and in broad daylight, you dare to commit murder wantonly."

The lead man's sharp eyebrows rose, giving him an air of heroism and valor.

The man beside him also readied his mystical weapon.

Behind the two men, a woman in a green dress glared angrily at Chen Yu with watery eyes, filled with righteous indignation: "They already admitted their mistake to you, yet you killed that lady in purple without a word."

"Brother Dongshan, you must not let this murderous demon go."

The woman in green dress's eyes were earnest as she called to the man with the sharp eyebrows.

The man with the sharp eyebrows, "Kong Dongshan," sighed.

Normally, he would not involve himself in such matters, but his innocent cousin, upon seeing evildoers committing robbery and murder, insisted he "draw his sword to assist when seeing injustice."

Chen Yu glanced once at the suddenly appearing group of two men and a woman, unexpectedly encountering such "enthusiasts" who liked to meddle in affairs.

In truth, it was the other party that intended to harm him, only Chen Yu acted first.

"You all don't know the full story, it's better not to interfere,"

Chen Yu advised.

The kindly old man looked at Chen Yu with utter hatred and said, "Thank you all for your assistance. This person is ruthless and killed my daughter cruelly. Please help me capture him, and I'll bring him back to our family to atone for his crimes."

"Old man, we are from the Kong Family of Yuling Mountain, and we will help you catch this murderer,"

The woman in green dress said.

Swoosh! Swoosh! Swoosh! Swoosh!

Except for the woman in green dress, four people present flew out and surrounded Chen Yu.

Chen Yu felt somewhat speechless, "Heh, are you certain you want to help the Blood Race?"

"Blood Race!"

The three members of the Kong Family's expressions changed simultaneously, staring at the kindly old man and the cold man with the black sword. Were they from the Blood Race?

The kindly old man's expression changed in shock.

How was this possible?

Had his identity been discovered?

The kindly old man was indeed a disguise of the Blood Race.

He had been lurking within the cultivation city, gathering intelligence, when he suddenly sensed a familiar and distinctive aura.

This reminded him of a secret order issued by the Blood Race a few years ago.

The kindly old man, accompanied by two experts, covertly followed Chen Yu, planning to capture him alive, but things had escalated to this point.

"Don't listen to his nonsense. He's the one disguised as the Blood Race, infiltrating us humans for no good reason. Quickly capture him!"

The kindly old man shouted loudly.

As soon as he spoke, Chen Yu launched an attack, sending out a white palm strike that flew rapidly forward.

The kindly old man sensed the danger and wanted to dodge but found the space locked in place, and with the swift arrival of the strike, he couldn't evade it.

Boom!

The kindly old man's hand clawed upwards, releasing a blood-red wave of light, accompanied by overwhelming bloodthirsty Evil Qi, colliding with Chen Yu's palm strike.

Bang!

Chen Yu's seemingly ordinary palm strike instantly pierced through the blood-red wave, hitting the kindly old man's head.

Blood spurted as his head flew off, and his body fell.

This scene left the woman in the green dress from the Kong Family looking away in discomfort.

Kong Dongshan and the other man believed Chen Yu had deliberately deceived them and killed another person, feeling somewhat irritated as they prepared to take action.

Yet, at that moment.

From the kindly old man's corpse flew out a blood-red bat, fleeing towards the distance.

"You damned brat, the Blood Race will never let you off."

The blood-red bat flapped its wings, emanating a bloody glow into the sky and increasing its speed.

"Blood Race!"

The three from the Kong Family's expressions changed again, keeping their eyes fixed on the blood-red bat.

It turned out to be the Blood Race!

They had almost assisted the Blood Race, and thinking of this, the two men felt a bit angry, while the woman in the green dress was even more ashamed.

The two men of the Kong Family immediately attacked the other cold man wielding the black sword.

Chen Yu charged forward, activating the Profound Meaning of Space, trailing a layer of silver-white light, pursuing the blood-red bat.

Yangming Sword Point!

He pointed forward, sending out a Blood Flame Sword Pillar infused with scorching yang energy, swiftly piercing through, hitting the blood-red bat.

"Ah..."

The blood-red bat let out a tragic scream, its body burning away in the blood flames.

On the other side, the two of the Kong Family were engaged in fierce combat with the burly man holding the black sword.

The sharp-eyebrowed man, Kong Dongshan, was in the Mid-stage Condensed Star, while the other was at the Peak of Early-stage Star Condensing; both possessed formidable strength, completely overwhelming the black sword wielder.

Within thirty moves, Kong Dongshan sliced the black sword wielder into two halves.

Neither the black-sword man nor the purple-clad woman were of Blood Race, yet they worked for them, which made Chen Yu despise them even more.

"I never thought there were Blood Race spies hidden among us,"

Kong Dongshan murmured.

"We almost wrongly aided the Blood Race just now. We're truly sorry. May I ask for your name?"

The other man expressed his apology.

"Chen Yu,"

Chen Yu coldly replied.

"We are sincerely sorry for wronging you earlier,"

The woman in the green dress, hiding on the small boat, said with some panic, full of guilt.

Chapter 1030: Beneath Martial God Mountain

"I was truly sorry just now, I wronged you."

The woman in the green dress hiding in the small boat said with some panic and shame.

"Mind your own business less in the future."

Chen Yu said indifferently.

These people came to cause trouble and ruined his plans, primarily because of the woman in the green dress.

Even if it was an unintentional mistake, it was still wrong.

Besides, what Chen Yu said was also true. The heart is vicious; when you are out, don't meddle in other people's affairs, or you won't even know how you die.

"How can you say that? Although my cousin mistakenly blamed you, she has already apologized."

"Besides, if it weren't for us intervening, you would still be in crisis now."

Kong Dongshan looked directly at Chen Yu, dissatisfied with his attitude.

The amiable old man was a Blood Race disguise, and there was also a man with a black sword beside him, at a Mid-stage Condensed Star cultivation level.

Chen Yu, only one person, at Peak of Early-stage Star Condensing, even if he was a genius from a large family, faced with two strong enemies, ultimately couldn't be their match.

In Kong Dongshan's view, if it weren't for him and his clan brother intervening, killing the man with the black sword, Chen Yu would indeed fall into a dangerous situation.

So, although they wrongly blamed Chen Yu, they also saved him, neutralizing the merits and faults. Kong Dongshan felt no trace of remorse.

"You're overthinking. Without you, I wouldn't have been in trouble."

Chen Yu shook his head with a faint smile.

Kong Dongshan and his clan brother, hearing this, felt a bit displeased.

Just as they were about to retort, Chen Yu had already flown onto the Smoke Cloud Crane, riding the wind away.

"Ungrateful."

Kong Dongshan snorted softly and then looked at the woman in the green dress: "Qiuye, we drew our swords to help, but others may not appreciate it. From now on, follow my lead and avoid causing trouble."

The woman in the green dress, "Kong Qiuye", was a genius of the Kong Family, who broke through the Condensed Star Realm at a young age. However, given Kong Qiuye's current cultivation level and strength, she couldn't pass the God Sect examination.

This time, Kong Qiuye purely came to broaden her horizons and increase experience; her goal was to be recruited by the Heavenly Martial Sect in the next batch.

"Brother Dongshan, that person was very strong, he might be telling the truth."

Kong Qiuye said.

"Qiuye, don't speak nonsense. Even Brother Dongshan alone, facing those two, would fall into a crisis."

Another man from the Kong Family said.

"But just now, that person easily killed the Blood Race."

Kong Qiuye said seriously.

Earlier, when Kong Dongshan and his clan brother were fighting the man with the black sword, they didn't pay attention to Chen Yu's situation.

But Kong Qiuye, who did not join the fight, saw that Chen Yu merely pointed a finger and killed the Blood Race pretender, showing extraordinary strength.

"That was because the Blood Race was first injured by that kid's sneak attack, then panicked with fear, eager to escape. Otherwise, with the Blood Race's capability, how could they be killed easily?"

Kong Dongshan analyzed.

"But..."

Kong Qiuye felt Kong Dongshan's analysis was incomplete.

"Enough of that, let's hurry on our way."

Kong Dongshan interrupted her.

...

After flying for a few days, Chen Yu saw afar a towering giant mountain radiating infinite brilliance, emitting an awe-inspiring pressure that intimidated the heavens and earth, instilling a sense of reverence.

This mountain was called "Martial God Mountain."

It was rumored that during Ancient Times, the Human Race's great power "Martial God" lived on this mountain and broke through to the God Realm here.

Later, the Martial God returned to this place, established a sect, and founded the Tianhe Sect, one of the three Human Race God Sects.

Approaching the Tianhe Sect, there were people everywhere around.

Most of them came to participate in the God Sect examination, while some came just to watch the excitement.

"The three God Sects recruit disciples once every twenty years, each time recruiting only one hundred people. Look around you—to participate in the examination are more than a thousand people, and the vast majority of them are doomed to be eliminated!"

"Each batch of disciples from the three God Sects can be considered that generation's brightest genius figures of the Human Race, while the world's top prodigies generally emerge from among them—I wonder who will be the ultimate prodigies in this year's Tianhe Sect, Wanxiang Sect, and Night God Temple."

"Perhaps not so soon. Among those participating in the examination, there are quite a few seasoned kings of slightly older age. True prodigies also need time to exceed them and gradually become famous."

"Take for example Lin Yuxuan from the Lin Family, who participated in the Tianhe Sect examination twenty years ago, her final result was only eighth place but within a few short years, she surpassed everyone else from the same batch, became the first, truly the Human Race's current prodigy!"

Chen Yu sat on the Smoke Cloud Crane, floating in the Yunhai, listening to the discussions around him, obtaining lots of useful information.

The eight Emperor Sects recruit disciples once every twenty years, with an age limit not exceeding one hundred and fifty years.

Thus, a significant number are close to one hundred and fifty years old or just happen to be one hundred and fifty, top kings.

For example, the Tianhe Sect's inner gate genius "Sun Tianlong," who is now one hundred and forty-nine years old, with Late Stage Star Condensation cultivation, recently left the sect preparing to join the Tianhe Sect examination.

Those close to the age limit are the most formidable in the examination. Even certain top geniuses facing them won't have good outcomes.

In this world, strength is honored. Even geniuses, if not grown up, are still weak.

"Lin Yuxuan seems to be beautiful, strong in power, and talented..."

By staying here for a while, Chen Yu had heard the name Lin Yuxuan mentioned at least a hundred times by nearby people.

Moreover, quite a few people came to participate in the Tianhe Sect examination just to see Lin Yuxuan.

"Once I dissolve the marriage contract with Lin Yuxuan, you all will have a chance..."

Chen Yu thought to himself with a smile.

Suddenly, Chen Yu heard commotion coming from behind.

"The Lin Family's people are here."

"Could it be the Demigod Lin Family from Purple Immortal Mountain?"

Chen Yu was also alerted, sending his Spiritual Sense to scan behind him.

Only to see in the rear space, thirteen Purple Crystal Geese like purple crystals, flying rapidly in a "person" shape.

Thirteen Purple Crystal Geese stirred up a purple whirlwind around them, intimidating all directions.

On each Purple Crystal Goose sat a Lin Family Disciple.

Leading them was a short-haired man in deep purple, standing upright, hands behind his back, with fresh eyebrows and bright eyes, exuding an extremely powerful aura.

"Lin Tianfeng, a Lin Family genius, just reached one hundred years old, at Peak of Star Condensing Middle Stage—has the potential to catch up to the top genius Lin Yuxuan!"

"I thought the Lin Family was lucky enough to have Lin Yuxuan, and now there's Lin Tianfeng."

The Lin Family rose to become a demigod family only in the past few decades.

Families like these emerge periodically, but only a few can truly establish themselves.

With the emergence of a top talent like Lin Yuxuan, as long as nothing happens to her, the Lin Family's reputation as a demigod family would be solid. Now with Lin Tianfeng, another talent comparable to Lin Yuxuan.

Apart from Lin Tianfeng, there were other Lin Family members on the Purple Crystal Geese, all extraordinary talents.

"I wonder if I can reach Lin Yuxuan through them."

Chen Yu was pondering another matter.

Since he wanted to dissolve the engagement, it was best not to make a big scene; resolving the issue privately would be ideal.

If he could meet Lin Yuxuan through Lin Tianfeng, the two could talk privately, dissolve the engagement, and everyone would be happy.

At this moment.

Three people approached Chen Yu.

They were members of the Kong Family.

"Young Master, we've met again. Are you here for the Heavenly Martial Sect examination too? Why are you alone? Didn't come with your clan?"

Kong Qiuye approached and spoke up, asking many questions.

Kong Dongshan and another person remained expressionless.

"I'm just by myself."

Chen Yu felt a bit awkward.

"We don't even know your name. Maybe later you could become fellow disciples with Brother Dongshan and Brother Xia Mu."

Kong Qiuye, rarely leaving her family, admired Chen Yu's strength and had a mind to befriend him.

"Chen Yu."

"Qiuye, the examination hasn't started yet, whether one joins the Heavenly Martial Sect isn't up to you."

Kong Dongshan said abruptly.

It was evident that Chen Yu wasn't from any notable family, but a loose cultivator, and whether he could pass the rigorous examination of the Heavenly Martial Sect was uncertain.

"With Brother Dongshan's prowess, he'll certainly join the Heavenly Martial Sect,"

Kong Qiuye defended.

Kong Dongshan felt slightly speechless, his earlier words referred to Chen Yu, not himself.

Chen Yu glanced aside, ignoring the Kong Family trio.

Kong Dongshan and Kong Xia Mu clearly showed no interest in befriending Chen Yu, and he was uninterested in the Kong Family trio.

"Brother Chen, where are you going?"

Kong Qiuye suddenly realized Chen Yu was leaving without a word.

"That guy seemed focused on the Lin Family's people; I think he's aiming for Lin Xue'er. Her looks rank second in the Lin Family."

Kong Dongshan laughed.

Indeed, among those thirteen on Purple Crystal Geese, there was a stunningly beautiful woman attracting everyone's attention, whom Kong Dongshan had been watching.

"Even if he's interested in Lin Xue'er, is he trying to approach her?" Kong Xia Mu asked curiously.

"As a mere loose cultivator, he can't possibly associate with the Lin Family."

Kong Dongshan scoffed as Chen Yu walked towards the Lin Family and others, showing more disdain.

Many tried to associate with the Lin Family; even talents from a four-star big family like Kong Dongshan wouldn't dare approach casually, risking being chased away, which would be humiliating.

"Maybe Brother Chen knows the Lin Family?"

Kong Qiuye said.

Kong Dongshan and Kong Xia Mu chuckled, unanimously saying: "Impossible."

Amidst everyone's gaze, Chen Yu moved to the group of Lin Family geniuses on his Smoke Cloud Crane.

"Who are you? What do you want?"

A short man beside Lin Tianfeng immediately shouted as Chen Yu approached.

"I am Chen Yu, and I have some connection with the Lin Family."

Chen Yu introduced himself.

The thirteen Lin Family geniuses all looked over, showing some curiosity about Chen Yu.

"This token was given to me by Lin Chen, a senior of the Lin Family, who traveled far to deliver it."

Chen Yu took out a jade token.

This was a mark of a spot in the Eight Emperor Sect and a qualification for participating in the Three Divine Sect examination.

"Uncle Chen? Indeed, I heard Uncle Chen traveled far to host a contest for spots..."

Lin Tianfeng recalled something.

He learned this while inquiring about Lin Yuxuan.

Seeing Lin Tianfeng speak, the other Lin Family geniuses recognized Chen Yu.

"I am Lin Hai. May I know your esteemed name, sir?"

The earlier short man asked with a smile.

"Chen Yu."

After some brief conversation, Chen Yu became familiar with the Lin Family geniuses.

Many around witnessing felt greatly surprised.

Who was this young man chatting with the Lin Family geniuses?

The most shocked were the three from the Kong Family.

"Brother Chen is talking to Lin Tianfeng,"

Kong Qiuye exclaimed excitedly.

She had long admired Lin Tianfeng from the Lin Family.

Kong Dongshan and Kong Xia Mu widened their eyes, enviously watching Chen Yu converse and laugh with the Lin Family geniuses.

"I misjudged him; he actually knows Lin Tianfeng."

Kong Dongshan felt some regret, wishing he had befriended Chen Yu earlier and gotten to associate with the Lin Family.
