

Eternal Heart 25

Chapter 25: Yun Sha Shows Power

...

Copper Foot!

Chen Yu, in midair, delivered a foot as strong as copper and iron directly to the head of the Third Evil.

The outcome was obvious.

The head of the Third Evil was not as hard as the Iron Brown Bear.

This kick from Chen Yu was similar to Le Feng's midair kick at the Iron Brown Bear that day, but with much greater power and force.

This kind of midair kicking technique came from "Cloud Stepping."

Otherwise, for ordinary people, it was difficult to gain force in the air and to be so precise and fierce.

"No—"

The Second Evil helplessly watched as the Third Evil's head was kicked off, blooming in midair.

This was Chen Yu's first time killing someone.

Although he had previously killed many Iron Brown Bears, they were not of the same kind.

At this moment, Chen Yu felt a trace of discomfort in his heart, which was quickly filled with a fierce Evil Qi that he had developed since practicing the "Cloud Evil Fist."

After killing the Third Evil, Chen Yu felt the power of the fist technique was on the verge of reaching a new level.

"You actually killed the Third Sister. I want you dead—"

The Second Evil's eyes turned blood-red, and his emotions seemed somewhat out of control.

Chen Yu did not know.

The Honghu Three Killers were ruthless along the way, and their camaraderie in life-and-death battles was not inferior to that of blood siblings.

There was even a trace of unsaid romantic feelings between the Second and Third Evils.

"I want you dead—"

The Second Evil, disregarding Chen Ying'er, charged at Chen Yu like a runaway wild wolf.

Brother Yu, be careful!

Chen Ying'er called out softly. The speed and power that erupted when the Second Evil lost control activated the body's potential.

Moreover, in terms of direct combat strength, the Second Evil was much stronger than the Third Evil.

"Sky Wolf Claw!"

The Second Evil, with a ferocious look on his face, stretched out his hand to grab Chen Yu's head.

Cloud Evil Fist!

Chen Yu did not flinch; after killing the Third Evil, his body was filled with heightened Evil Qi, and the power of his inner breath and moves had evidently improved.

Bang bang pop!

The two exchanged several blows at their original spot in an instant.

Chen Yu felt a surge of violent, fierce inner breath that he couldn't completely suppress in a short time.

"This kid is simply not human..."

The Second Evil felt a chill in his heart, sensing that the opponent was incredibly strong and his palms felt as hard as steel and copper.

After several hard clashes, his palms were nearly numb.

"Die, you villain!"

Chen Ying'er flew over from behind, forming a pincer attack with Chen Yu.

The heart of the Second Evil sank into the abyss.

He understood that facing an attack from both sides meant certain death.

"Third Sister! I'll join you soon. But before that—"

The Second Evil took a deep breath, his figure suddenly leaping forward with astonishing speed, diving straight at Chen Yu.

In terms of movement technique, the Second Evil was slightly superior to Chen Yu and Le Feng.

Hm?

Seeing the Second Evil's face of utter determination, Chen Yu noticed that he was entirely unconcerned with his attack, rushing directly at his head.

"Going down together?"

Chen Yu's lips curled into a trace of pity, seeing through the Second Evil's intentions.

Faced with the Second Evil's desperate counterattack, Chen Yu neither evaded nor dodged; his body leaped up and faced it squarely.

"Copper Skin!"

Chen Yu used the "Copper Statue Technique," his body expanding a bit, his skin taking on a deep copper metallic sheen, appearing like a copper statue.

Whoosh!

The Cloud Evil Fist Technique operated at its limit, and Chen Yu punched directly at the Second Evil's face.

Simultaneously, his chest was struck by the Second Evil's claw.

The Second Evil's ferocious face showed a pleased expression, but the next instant, his body stiffened in midair.

Clang bang!

His claw felt as if it hit a copper wall, hot and stinging, hardly breaking the opponent's skin.

Under normal circumstances, his claw could cut through a Meridian Passage Stage chest.

Bang crack!

Chen Yu's punch, with surging Evil Qi, echoed with vague roars of a fierce beast and the sound of clouds breaking, smashing onto the Second Evil's face.

"Cloud Evil Small Success!"

At the moment of landing a punch, Chen Yu was startled.

Finally, the Cloud Evil Fist Technique broke through to Small Success!

This was an advanced martial art close to top-tier level, typically extremely difficult to achieve even Small Success.

"Ah—"

The Second Evil's body flew backward in midair, his screams abruptly silenced.

Thud!

The Second Evil fell dead!

An exchange of injuries, a trade of life for life, only, unfortunately...he picked the wrong target.

Whew~

After landing, Chen Yu's face flushed briefly with red. He took a deep breath to calm the turbulent energy and blood.

Taking the Second Evil's desperate claw head-on wasn't without consequences; he was even slightly injured.

Looking down, there was a bluish-red claw mark visible on his chest.

Even with Chen Yu's beast-like physique and the strong defense of the "Copper Statue Technique," he couldn't completely fend off the attack.

Of course.

Chen Yu's "Copper Statue Technique" was only at the Copper Skin stage. If he could reach the "Copper Muscle" stage, he could truly ignore the Second Evil's attacks.

Thump thump! Thump thump!

Chen Yu noticed his heart was beating strong and fast.

His wound, the blue-red claw mark, was gradually fading away.

That kind of self-healing was almost palpable, and even observable to the naked eye.

"The self-healing power of this body is indeed extraordinary."

Chen Yu was thrilled.

The brutal approach he took allowed his Cloud Evil Fist Technique to break through to Small Success and further validated the body's incredible self-healing ability.

"Youngster! You actually killed my Second Brother and Third Sister—"

An icy voice came from another part of the battleground.

The Great Evil's eyes were cold like ice, flickering with deadly fierceness and killing intent.

At this moment.

His side of the battleground was deadlocked.

If not for fearing the old man's last desperate counterattack, the Great Evil would have engaged in close combat long ago, instead of merely exchanging feints.

Now.

Seeing the death of the Second and Third Evil, he finally couldn't hold back.

But from the death of the Third Evil to the life-and-death struggle, it had only been a matter of breaths, leaving him no time to assist.

"Sorry. The two fools you mentioned, I killed them. Later, I'll hack down you, the big fool, too."

Chen Yu wiped the blood off his hands.

"You little bastard! I'll tear you to pieces—"

The Great Evil's voice was filled with grief, rage, and murderous intent.

In that instant, his emotions slightly slipped, revealing a flaw, surging toward Chen Yu.

"Where are you going? It's time for you to stay."

An aged voice came from beside him, accompanied by a tide of internal energy.

The white-haired old man's face flared with a final burst of red light, his body lunging forward and delivering a powerful palm strike.

He had been waiting too long for this opportunity.

His injuries were almost unbearable. At this critical moment, Chen Yu's slaying of the Third and Second Evils provoked the Great Evil.

"You old bastard, die for me!"

The Great Evil, unable to dodge, operated a full force of internal energy to withstand the blow.

Heart-pushing Palm!

The strange inner energy swirled into the white-haired old man's pulse, instantly splitting his already broken veins, causing him to vomit blood from his facial orifices and die.

Boom!

The Great Evil was sent flying by the old man's desperate palm strike, spewing a mouthful of blood in the air.

"How is that possible! You took the 'Violent Blood Pill' and suffered such a severe wound, yet the side effects are so mild?"

City Lord Chu Fengyun was incredulous.

The longer one took the Violent Blood Pill, the greater the side effects.

Especially when severely injured, the risks soar, possibly leading to self-destruction.

"Hmph! Who said I took the 'Violent Blood Pill'? I took a more precious 'Blood Essence Pill' from a sect in Qi Country!"

The Great Evil sneered.

"This pill can temporarily enhance combat power greatly but only allows a few uses of transcendent force with much smaller side effects. And in the last fight, I truly used Organ Refining Stage power less than three times..."

Blood Essence Pill!

City Lord Chu Fengyun's face turned ashen.

He finally understood.

Why in the previous fight, the Great Evil chose to evade.

First, he feared the white-haired old man's desperate counterattack.

Secondly, the limitations of the "Blood Essence Pill" didn't allow the Great Evil to recklessly use force.

After all, there were still skilled opponents to deal with and various emergencies to handle.

"Father!"

The woman in front of the tree stump exclaimed.

At this moment.

Taking the opportunity, Chen Yu and Chen Ying'er rescued the City Lord's daughter.

The City Lord's daughter was about sixteen, with a slender figure, her torn dress revealing slender legs, prompting daydreams in the hazy night.

However.

When Chen Yu saw her face clearly, his thoughts extinguished immediately.

The City Lord's daughter was not ugly, just "too ordinary," with a broad, slightly dark face, slightly sunken eyes, and a drooping nose.

"Young Hero, it was you who saved me. Yun'er will repay you!"

The City Lord's daughter, with an adoring and hopeful look, gazed affectionately at Chen Yu.

Chen Yu felt his skin crawl under her gaze.

"Ying'er, quickly take her to the back."

Chen Yu hurriedly said. Whether the City Lord's daughter was beautiful or not, she couldn't be used by the enemy.

At this moment.

The other side of the battle took a sudden turn.

Swoosh!

City Lord Chu Fengyun suddenly turned and fled.

Don't be fooled by his plump figure; when he started running, his movement technique was remarkably nimble.

This scene left Chen Yu and Chen Ying'er stunned.

"Hm?"

Even the Great Evil was surprised.

Chu Fengyun had stepped forward, supposedly to save his daughter, but now, he actually abandoned her to save himself.

"Hahaha...Chu Fengyun! I thought you had familial love, but you turned out to be a coward after all."

The Great Evil laughed up to the sky.

Seeing Chu Fengyun escape, a sinister glint flashed across his face.

The Great Evil did not pursue Chu Fengyun.

Leap!

He soared into the air with furious inner energy, charging straight at Chen Yu and Chen Ying'er.

"Chu Fengyun! You, as a father, don't care about your daughter's life, so don't expect us outsiders to."

Chen Yu almost cursed out loud.

But at this moment, the Great Evil's formidable strike, imbued with distant inner force, came crashing down.

Chen Yu and Chen Ying'er had no choice but to operate all their inner energy, jointly facing the Organ Refining Stage-level attack.

Boom boom!

The overwhelming palms' force, like monstrous tides, sent Chen Yu and Chen Ying'er flying several feet back.

"Haha!"

The Great Evil swiftly flashed and grabbed the City Lord's daughter.

"Father, save me—"

The City Lord's daughter cried out desperately with tears.

However, Chu Fengyun showed no intention of turning back to save her.

"Two Young Heroes, kill the Great Evil with all your might, and you can still earn the reward. As for the girl's death, you need not worry at all."

Chu Fengyun spoke.

What!

Chen Yu and Chen Ying'er exchanged surprised and incredulous glances.

"Do you really not care about your daughter's life? Do you believe I will abuse and kill her in front of you, her father?"

The Great Evil's eyes flashed with a fierce light.

Yet, Chu Fengyun on the other side remained unmoved.

This scene left both Chen Yu and Chen Ying'er cold-hearted. That City Lord didn't care about his daughter's life at all?

Crack!

The Great Evil, with cruelty in his face, tore off the City Lord's daughter's arm, and she fainted immediately.

Not to mention, he also shredded her skirt...

Faced with this, the City Lord did not get angry but instead laughed.

"Hahaha..."

The City Lord laughed up to the sky, his face full of ridicule.

"What are you laughing at?" The Great Evil was momentarily stunned, realizing something was wrong.

"Chu Lifeng, have you noticed that this girl looks somewhat like you?"

The City Lord laughed heartily.

"Wha...what!"

The Great Evil's body jolted, involuntarily scrutinizing "the City Lord's daughter's" face.

Upon a closer look.

The City Lord's daughter had a dark complexion, unlike the City Lord's fair and plump figure.

However, the facial contours and skin tone were very similar to the Great Evil's rough, middle-aged features...
