

Eternal Heart 921

Chapter 921: Not Even Bones Remain?

The noisy battlefield around Chen Yu fell silent for a moment.

Just now, the spirited and arrogant Young Ancestor Feng was suddenly beaten up by Chen Yu, the transformation was indeed monumental.

"Young Ancestor Feng."

King You Ying found it unbelievable, as Young Ancestor Feng was no weaker than himself, how could this have happened?

Dark Feather King was also shocked internally, Chen Yu could actually beat the Bloodline Young Ancestor of the Condensed Star Realm to such a state?

"Retreat!"

People kept shouting.

Though Chen Yu temporarily gained the upper hand, the order to retreat remained unchanged.

Chen Yu also retreated; his pounding of Young Ancestor Feng was mainly because of the latter's overconfidence, thinking he had the victory in hand and Chen Yu was a fish on the chopping board at his mercy.

Chen Yu feigned weakness to lure the enemy, then suddenly launched a counterattack, achieving unexpected results.

Other than that, it was the mysterious heart entering an explosive state, suppressing the Blood Race.

Boom!

A huge sound emanated from within the giant footprint, with a blood-red light shining forth.

The next moment, a beam of blood light surged forward, Young Ancestor Feng, disheveled and with a sinister look, charged directly at Chen Yu: "Chen Yu, today I must kill you."

Young Ancestor Feng was extremely fast, crossing thousands of miles in an instant to catch up with Chen Yu.

Without a word, he summoned the "Burning Snake Sword."

This time, he no longer held a playful attitude but went all out to slay him.

Seeing Young Ancestor Feng attacking once again, Chen Yu gave it his all.

He held the [Burning Sky Demon Halberd] and threw it fiercely.

Boom hiss!

The halberd shot out swiftly, stirring a tremendous storm like a domineering, fierce black dragon crashing towards Young Ancestor Feng.

Under Chen Yu's immense throw, the strike's power was even greater.

Ding pong!

The [Burning Snake Sword] flew out, clashing with the halberd, emitting a crisp loud sound.

Only to see the [Burning Snake Sword] be knocked away, the halberd continued to impact, charging at Young Ancestor Feng.

"This kid's strength is still terrifying."

Young Ancestor Feng's heart tightened, and he dodged away.

His berserk aura was greatly diminished and his speed slowed down after Chen Yu's strike.

Chen Yu did not entangle with Young Ancestor Feng and retreated with the army.

Once back in their territory, the enemy could only flee with their tails between their legs.

Young Ancestor Feng naturally understood Chen Yu's plan: "I must kill him before he returns to his territory."

His speed increased again, quickly closing in on Chen Yu.

At the same time, he waved his palm repeatedly, sending giant blood-colored meteors towards Chen Yu.

The king's attack was terrifying, capable of destroying cities and pools with ease.

However, Chen Yu was very confident in his defensive ability.

At this moment, even a king would find it hard to severely hurt him.

Facing the attack from Young Ancestor Feng, Chen Yu slightly roused the bloodline of the Night Winged Wolf, dodging nimbly.

If they were far apart, his flexibility, coupled with the assistance of the Spatial Realm, meant there was no major issue.

"Go!"

Young Ancestor Feng shouted, and the [Burning Snake Sword] transformed into a bloody stream of light, stabbing forward.

However, at this moment, the [Burning Sky Demon Halberd] had returned to Chen Yu's side, and he casually swung it, repelling the [Burning Snake Sword].

The other people in the retreating army watched the scene in awe.

"The Heavenly Universe Venerable is actually holding his own against a king!"

"It's simply incredible, given the vast chasm between a Condensed Star King and the Sky Sea Realm, how does he do it?"

Regarding the new Deputy Commander, everyone was utterly convinced, even some of Dark Feather King's subordinates greatly admired him.

At this moment, Young Ancestor Feng closed in on Chen Yu.

The Star Essence Power burst forth from his body, coalescing into nine giant blood flame spheres around him, like bloody suns.

Boom!

In the sky above, it seemed like nine suns were falling at the same time.

Facing this, Chen Yu activated the [Burning Sky Demon Halberd], unleashing the power of the Spiritual Artifact, slashing out a fierce domineering Black Gold Flame Slash, cutting those red giant spheres apart one by one.

"Let's see how many times you can activate the Spiritual Artifact."

Young Ancestor Feng shouted angrily.

However, at that very moment, Chen Yu suddenly charged at him.

Thump thump! Thump thump thump!

The mysterious heart entered an explosive state again, Chen Yu's speed and strength multiplied, simultaneously suppressing Young Ancestor Feng.

In direct confrontation, Chen Yu could contend with a Condensed Star Realm but was in a passive state and would be finished once his True Yuan ran out.

However, in close combat, even a Condensed Star Realm would be suppressed by Chen Yu.

"Slash!"

Chen Yu executed the Blood-Transforming Demon Body, swung the halberd, and swept out.

Young Ancestor Feng, surrounded by blood-red primordial force, punched out, but the moment the two collided, Chen Yu shattered Young Ancestor Feng's attack.

Pfft!

The halberd grazed past Young Ancestor Feng's arm, leaving a bloodstain.

Chen Yu continued to press forward, launching a ferocious assault; his entire body was an offensive weapon, his power incredibly formidable, and with the coordination of the Half-step Primordial Power, even Young Ancestor Feng's Star Essence Power could not stop him.

"Damn, I shouldn't have let him get close."

Young Ancestor Feng appeared embarrassed.

Once Chen Yu got close, he was restricted, while Chen Yu attacked wildly like a madman, leaving him at a loss.

Even the fastest combat techniques needed a process to gather and release energy, but Chen Yu's punches and kicks were simple, brutal, and continuously attacked, giving Young Ancestor Feng no chance to breathe.

Boom bang!

Young Ancestor Feng released a massive burst of Star Essence Power, repelling Chen Yu and retreating a fair distance himself.

Chen Yu's body bore numerous scars, but under the restorative power of the medium Immortal Body, they gradually healed.

Meanwhile, he used that momentum to fly backwards.

"Bastard, don't run."

Young Ancestor Feng shouted.

"Haha, earlier you were desperately trying to get away from me, and now you tell me not to leave. What does Young Ancestor Feng really mean?"

Chen Yu mocked.

However, his True Yuan was almost depleted. Unless he engaged in close combat, the situation was unfavorable.

Fortunately, the distance to his side's fortress was getting closer.

"Chen Yu, you've completely angered me."

Young Ancestor Feng was burning with rage, furious beyond measure.

Having broken through to the Condensed Star Realm, and after several clashes, he still couldn't kill Chen Yu. Instead, the opponent got the upper hand. As the Bloodline Young Ancestor, he had never suffered such humiliation.

"Blood Slaughter Slash."

Young Ancestor Feng spat out a mouthful of dazzling blood, which splattered on the Burning Snake Sword. The Spiritual Artifact immediately burst out with an extremely bright bloody light, making one's heart palpitate.

Swish!

Young Ancestor Feng formed a spell, making the Spiritual Artifact spin rapidly in the air, gradually increasing in power, and at a certain moment, shot explosively towards Chen Yu.

Chen Yu had long sensed something amiss and ran towards the nearby Dark Feather King.

"Bastard, what are you doing?"

Dark Feather King's face changed dramatically. Even he was shocked by Young Ancestor Feng's strike.

"Dark Feather King, earlier we fought together, now you also give me a hand."

Chen Yu smiled, not afraid that the Dark Feather King wouldn't make a move.

In terms of survival ability, he was stronger than the Dark Feather King.

"One-Word Ghost Slash."

The Dark Feather King formed a spell, and thirteen short blades linked together as if forming a long sword, charging toward the Burning Snake Sword with a terrifying dark star glow.

Chen Yu also acted immediately, unleashing the Shaoyang Sword Finger and Yangming Sword Point.

With their combined efforts, Young Ancestor Feng's strike was defused, one sword finger piercing through the void, grazing Young Ancestor Feng's leg, swallowing a piece of flesh.

The Dark Feather King immediately shifted the battlefield to avoid becoming Chen Yu's shield again.

However, Chen Yu stuck close to the Dark Feather King, unwilling to let go of this amulet.

"King You Ying, let's join forces to kill them."

Young Ancestor Feng shouted fiercely, his face ashen, his killing intent astonishing.

"Chen Yu, get lost!"

The Dark Feather King roared, extremely annoyed.

But he couldn't attack Chen Yu, nor could he leave him to die, which made the Dark Feather King so angry that he was shaking.

"Go to hell."

At this moment, King You Ying and Young Ancestor Feng attacked together, a torrent of pink petals and blood-red star fire pouring down like an apocalyptic disaster, threatening to destroy the heavens and the earth.

The Dark Feather King flew back, recalling his Spiritual Artifact, the thirteen short blades circling around him, forming a dark feather-patterned light shield.

"This old guy!"

Chen Yu glanced at the Dark Feather King, who would rather be harmed than strike back, intending for Chen Yu to be buried by King You Ying and Young Ancestor Feng's joint attack.

Boom!

The terrifying attack of the King level descended, and Chen Yu used the Demon Scale Armor and Black Demon Guardian Shield, two major defensive combat techniques, to resist.

A sea of pink petals and blood-red star fire devoured everything, falling down.

The numerous Venerables and Half-step Kings fighting below showed fear on their faces and retreated en masse.

Boom!

The ground cracked and exploded with a shocking sound.

"Chen Yu, you will die today. Your Master, poisoned by the Bloodless Poison, is also dead for sure. When the Blood Clan's war order arrives at the Great Yu Realm, all your fellow disciples will join you down there."

Young Ancestor Feng laughed fiercely up at the sky.

Today's revenge washed away his humiliation, and his whole body was celebrating joyously.

...

When the storm dissipated, the view was clear.

Young Ancestor Feng looked down, "Where's Chen Yu?"

He clearly saw earlier that Chen Yu was hit by the combined attack of him and King You Ying.

But at this moment, there was no sign of Chen Yu on the ground.

"No remains?"

King You Ying said doubtfully.

"We must retreat, ahead is their fortress, reinforcements have already arrived!"

Another alien King shouted.

"... Retreat!"

Young Ancestor Feng scanned the area, not finding Chen Yu's body, so he had to retreat.

He didn't notice that a Blood Race man lying on the ground suddenly got up and followed the Blood Race away.

"Brother Yu, you are really hard to kill, being caught in the crossfire of King You Ying and Young Ancestor Feng, yet still managing to escape with your life."

A Blood Race Half-step King looked at Chen Yu and laughed.

"Haha, just lucky!"

"That's right, the Heavenly Universe Venerable of the Human Race was directly hit by the attacks of Young Ancestor Feng and King You Ying, no remains, but you were lucky and merely got caught in the crossfire."

The Blood Race man said no more, but inwardly sneered, "Sorry, the real one is right next to you."

In the chaos earlier, Chen Yu killed a nearby Blood Race Half-step King who got caught in the crossfire and took their place.

Young Ancestor Feng's earlier words provoked Chen Yu, making him decide on a course of action.

He would infiltrate the Blood Race again, searching for the antidote to the Bloodless Poison.

In doing so, disguising himself as a Blood Race, he also avoided the murderous intent from King You Ying and Young Ancestor Feng.

Chen Yu looked at Young Ancestor Feng and King You Ying flying ahead, thinking they would never guess that he was now right behind them.

Given the chance, Chen Yu would definitely kill King You Ying and Young Ancestor Feng.

Chapter 922: Go If You Want

"The enemy has retreated."

Everyone couldn't help but breathe a sigh of relief.

Young Ancestor Feng's sudden attack took them by surprise.

Luckily, Heavenly Universe Venerable blocked the opponent, otherwise, they would have suffered heavy losses.

"Heavenly Universe Venerable... is really dead?"

Someone found it hard to believe, a hint of sadness appeared on their face.

Such an astonishing genius, did he really die just like that?

Though it was hard to accept, it was true that Heavenly Universe Venerable had vanished, with no remains left under the attacks of Young Ancestor Feng and King You Ying.

"Alas, the fall of Heavenly Universe Venerable, I too bear some responsibility."

The leader sighed, expressing deep regret.

If a genius like Chen Yu could have grown, he would surely have become a pillar of the Southern Domain.

"Dark Feather King, why didn't you save Heavenly Universe Venerable?"

The leader glared at Dark Feather King, questioning out loud.

"Leader, the situation was honestly critical, I was injured, truly beyond my ability to help."

Dark Feather King had a helpless expression, then showed a trace of grievance: "Besides, leader, you saw it too, Chen Yu deliberately led Young Ancestor Feng to me, I was almost fatally harmed by him."

But in reality, he was immensely pleased in his heart, wishing he could return to celebrate immediately.

With Chen Yu dead, Silent Blood Valley Master would surely be heartbroken, and the Deputy Commander's position would be vacant again.

"Sir, brilliant."

From not far away, Green Fierce Venerable transmitted a message with great joy in his heart, the Deputy Commander's position would soon be his.

"Send someone to notify Black Demon Valley, Heavenly Universe Venerable is dead."

The leader checked carefully, found no clues, and then ordered.

...

On the other side, Chen Yu followed the Blood Race team back to the enemy's city.

During the journey, Chen Yu pretended to be severely injured and spoke rarely.

However, a Half-step King, who seemed to be on good terms with the Blood Race member Chen Yu was impersonating, kept talking incessantly.

From his words, Chen Yu learned a lot of useful information.

The Half-step King Chen Yu was impersonating was a captain named Yu Da.

"Brother Yu, is the injury serious?"

The Blood Race Half-step King asked.

Chen Yu saw doubt in his eyes, apparently, his behavior didn't quite match the former Yu Da, which made him feel uneasy.

"Quite serious, it was a King's attack, it will probably take a long time to heal."

Chen Yu described the injury as severe so that even if he behaved strangely, it wouldn't draw too much attention.

"I must leave here, otherwise my identity will be easily exposed."

Chen Yu began to plan in his mind.

Staying in the army, many people were familiar with him, increasing the possibility of his identity being exposed.

He wanted to investigate the antidote for Bloodless Poison, but it was impossible to investigate here.

Then there was Young Ancestor Feng, who came here to kill Chen Yu, certainly wouldn't stay.

"Go to the Blood Sea Realm again?"

After thinking for a moment, Chen Yu could only think of one place.

For ordinary people, infiltrating the Blood Sea Realm was like ascending to heaven, yet Chen Yu felt as if he could go there whenever he wanted.

After making his decision, Chen Yu found King You Ying, and using the excuse of recovering from injuries, resigned from the captain position and returned to the Blood Sea Realm.

King You Ying was not willing, after all, their overall strength was not as good as the enemy's, and she wished to retain Chen Yu.

But Chen Yu was determined not to stay, leaving King You Ying unable to force him, and she could only agree.

"This Yu Da dares to defy me."

King You Ying felt somewhat displeased in her heart.

If given the chance, she wouldn't mind letting Yu Da know that in front of a Condensed Star King, he should be respectful and obedient.

"In five days, Young Ancestor Feng will also return to the Blood Sea Realm. Then, you shall accompany him to ensure his safety."

King You Ying instructed coldly.

This was unexpected for Chen Yu, likely because Young Ancestor Feng believed him dead, thus planning to return to the Blood Sea Realm.

He wasn't the only one traveling; other Blood Race members were also preparing to return to the Blood Sea Realm soon.

Five days later, all the Blood Race members boarded a battleship and left with Young Ancestor Feng.

"As long as I get along with Young Ancestor Feng, I can launch a surprise attack when he's off guard, and I'll definitely be able to take him down."

Chen Yu mused internally.

However, he still decided to take a trip to the Blood Sea Realm to investigate the Bloodless Poison antidote first.

If nothing is found, then the plan to assassinate Feng Wuxue can proceed.

Within the cabin, Feng Wuxue slightly frowned.

"Chen Yu is clearly dead, why do I feel so uneasy?"

Young Ancestor Feng felt inexplicably irritable, coupled with a very faint, indescribable sense of unease.

"This time returning to the Blood Sea Realm, I must ask Prophet Mi to divine whether Chen Yu is truly dead!"

Young Ancestor Feng pondered, this being the reason he returned to the Blood Sea Realm.

He felt that Chen Yu possessed an indestructible constitution and was adept in defense, so he shouldn't be left without a trace.

In fact, Young Ancestor Feng held deep fear for Chen Yu, and he had to confirm Chen Yu's life or death.

More than a month later, everyone arrived in the Blood Sea Realm.

Because it was Young Ancestor Feng's Condensed Star Realm team, the inspection was not strict, and Chen Yu passed safely, once again becoming a member of the Blood Sea Realm.

"Now my identity and cultivation level is that of a Half-step King, I can reside directly in the first zone."

Chen Yu pondered internally.

With the improvement of cultivation, infiltrating the Blood Race has become more convenient, no longer needing to climb slowly from the third zone to the first zone like last time.

However, Chen Yu did not know where his original residence was.

Thus, he went to the place responsible for managing miscellaneous affairs in the first zone, intending to directly change to a new residence to avoid trouble.

Suddenly, a voice came from not far away.

"Yu Da, you actually came back."

In the distance, there was a tall black bear, with a man and a woman beside it.

"Returning to recuperate."

Chen Yu didn't know who they were, so he spoke calmly according to the norms.

"Hahaha, I think you've got a head injury."

The black bear laughed heartily.

Chen Yu frowned slightly, not expecting that upon arriving at the Blood Sea Realm, he would encounter enemies.

However, Chen Yu didn't know what grudge the other party had with Yu Da.

"You even plan to change your residence, thinking we won't know you've returned?"

The black bear yelled arrogantly.

Chen Yu frowned and immediately snapped, "Get lost!"

Since they were enemies, there was no need for small talk. The opponent's cultivation was also at the Half-step Condensing Star Realm, so there was nothing to fear.

In the Blood Race, the weak are prey for the strong; weakness only invites bullying, but the mighty earn respect.

Chen Yu did not know how cowardly the previous "Yu Da" was, but he would never fall to such disgrace.

The black bear was stunned, surprised that Yu Da would ask him to leave.

"Yu Da, you must have eaten a lion's heart and leopard's gall to dare speak to me like this."

The black bear was enraged, his aura surging.

"If you don't get lost, don't blame me for being rude."

Chen Yu's expression cooled.

"Bastard."

The black bear was utterly furious, as the two people beside him were his guests today.

Being insulted repeatedly by Chen Yu in front of his guests, his dignity was shattered; how could he swallow such humiliation?

Apart from this, the black bear recalled that Yu Da mentioned he returned to heal from injuries, making the bear even bolder.

Bang!

A surge of blood flow erupted within him, wrapping around his claws, and he struck out fiercely, suddenly launching a raging blood-red claw.

The black bear directly attacked, intending to severely discipline Yu Da.

"Rejecting a toast only to drink a penalty."

Chen Yu was momentarily stunned, not expecting the opponent to act so suddenly.

If that's the case, Chen Yu wouldn't show any courtesy either.

Swish!

He retrieved a three-zhang long dark giant hammer from his storage space, the weapon previously used by Yu Da.

Boom bang!

Facing the black bear's strike, Chen Yu lightly mobilized half-step primordial power, swinging out the hammer.

Instantly, the fierce blood-red claw was smashed apart by Chen Yu.

Swish!

Chen Yu swiftly advanced on the black bear, swinging the hammer towards him.

"You tricked me, you aren't injured!"

The black bear's expression changed dramatically; the power Chen Yu displayed didn't reflect an injured state, even appearing stronger than before.

The black bear's internal energy surged, both claws striking out, with half-step primordial power dazzling like starlight.

Boom bang!

Yet in the instant their attacks clashed, the black bear's offense was shattered, that single hammer blow landing on his claw, directly breaking one of his arms.

The black bear's figure flipped over seventy zhang away, crashing into a blood-red pond.

"Yu Da, returning to the Blood Sea Realm without apologizing to 'King Qingcheng' and still daring to harm me, you... just you wait!"

The black bear got up, ashamed and furious, roaring intensely.

After shouting, he quickly retreated.

"King Qingcheng?"

Chen Yu's expression sank.

Unexpectedly, Yu Da's true enemy wasn't the black bear, but a king instead.

Though troublesome, Chen Yu wasn't too worried; at most, he would simply change his identity again.

The man and woman who were with the black bear watched Chen Yu with peculiar gazes, sizing him up closely.

"I heard Yu Da killed 'King Qingcheng's cousin during a mission previously, then fled to the battlefield, never expecting him to return."

"Yu Da is quite bold, coming back only to fight King Qingcheng's people; that's too arrogant."

"Heh, when King Qingcheng returns, he won't be arrogant anymore."

Several Blood Race individuals nearby were drawn in, discussing aloud.

...

Elsewhere, Young Ancestor Feng reached the first core region.

This area was a vast ocean of blood, dotted with numerous small islands and residences.

Prophet Mi's dwelling was atop a small peak, with a simple pavilion at the summit, surrounded by one hundred and eight stone pillars.

"Prophet Mi, this Young Ancestor seeks guidance."

Young Ancestor Feng called loudly from a thousand li away.

A moment later.

"Young Ancestor, please enter."

As soon as the words fell.

The disorderly stone pillars began moving, aligning into two rows, forming a passage in between.

Young Ancestor Feng smoothly advanced to the pavilion.

"What matter does this Young Ancestor have?"

Prophet Mi sat cross-legged on a cushion, his long hair and beard flowing to the ground.

"Prophet Mi, I wish for you to divine the life and death of someone."

Young Ancestor Feng spoke solemnly.

"Who is this person that so deeply concerns the Young Ancestor?"

Prophet Mi opened his eyes, deep and boundless with dark red pupils.

"... Chen Yu!"

Young Ancestor Feng admitted frankly.

Prophet Mi's brows furrowed slightly; he had a premonition previously that he would face a challenge.

Was this it?

Divining a person's life and death was ordinarily simple for Prophet Mi, unless the individual was among the foremost Condensed Star Kings or the Emperor of Xuanming Realm.

Ironically, concerning Chen Yu... he faced difficulties.

In front of Young Ancestor Feng, Prophet Mi was unwilling to admit such a trivial matter was beyond him.

"Let this old one give it a try."

Prophet Mi picked up the wooden staff in front, readying for divination.

Chapter 923: Blood Flame Sparrow

Prophet Mi wielded a wooden staff, lightly tapping a few times in the void.

Pop!

A layer of dark red blood-colored starlight undulated, floating in mid-air, resembling a sea of red stars.

Within it, countless starlights, some brilliant and bright, others dim and dull, constantly changed as if containing celestial secrets.

Prophet Mi lowered his staff, slightly closed his eyes, and began divination.

He had already anticipated that he might encounter difficulties.

However, if the divination target was Chen Yu, Prophet Mi was still willing to try, feeling vaguely that this child's fate had a significant impact on the Blood Race.

Besides, today he was merely divining Chen Yu's life and death.

After a long time, Prophet Mi slowly opened his eyes, his gaze like a solidified dark pool.

"Prophet Mi, what is the result?"

Young Ancestor Feng couldn't help but tense up, asking.

"Alive."

Prophet Mi said simply.

He was not surprised at all by this result.

But Young Ancestor Feng's whole body trembled instantly, fists clenching tightly!

Not dead!

Sure enough, not dead!

He too felt that Chen Yu couldn't have died without a trace just like that!

But where has Chen Yu gone?

"Chen Yu isn't dead, so where is he now?"

Young Ancestor Feng's face was extremely gloomy, murderous intent rising once more in his heart, as he was almost deceived by Chen Yu into thinking he was dead.

"That, this old one cannot ascertain."

Prophet Mi shook his head slightly.

If he knew Chen Yu's exact location, how could the other still be alive?

"However, Young Ancestor, this old one observed that a calamity suddenly emerged in your fate."

Prophet Mi spoke bluntly.

While divining Chen Yu's life and death earlier, he discovered that Young Ancestor Feng had once targeted Chen Yu, believing Chen Yu to be dead when in reality, the Young Ancestor had been deceived.

In the divination, he detected a sudden surge of disaster in Young Ancestor Feng's fate.

"Calamity?"

Young Ancestor Feng's eyes flickered with bloody light, and his expression changed dramatically, looking somewhat terrifying.

"If it can be resolved, you will break the cocoon and be reborn, but if not... you will be beyond redemption!"

Prophet Mi revealed the truth.

Young Ancestor Feng, after all, was the Young Ancestor of the Blood Race, and Prophet Mi hoped the latter option—a rebirth from the cocoon—would be his fate.

Young Ancestor Feng's expression was grave, and he did not doubt Prophet Mi's divination.

He even suspected that his calamity was surely related to Chen Yu.

"Thank you, Prophet. Hmph, the fate of this Young Ancestor is destined to be a rebirth from the cocoon!"

Young Ancestor Feng spoke with firm conviction, a sharp and imposing aura emanating from him.

He must kill Chen Yu to dispel the calamity!

After speaking, Young Ancestor Feng turned and disappeared.

"Alas!"

Prophet Mi sighed, showing a hint of worry, as he had forgotten to mention that the possibility of Young Ancestor Feng achieving a rebirth from the cocoon was extremely low.

His complexion gradually turned pale, blood seeping from the corner of his mouth.

After divining Chen Yu's life and death, he attempted to divine more information and suffered backlash.

However, he did acquire some useful information.

"The Blood Race is in trouble..."

"Could it be that the child has returned to the Blood Sea Realm?"

Prophet Mi mused.

Otherwise, with just Chen Yu at a half-step Condensing Star Realm, it would be hard to affect the Blood Race significantly.

Prophet Mi got up and left his dwelling, heading to Heart Extinguishing Emperor's abode.

The events of today had to be reported.

At the same time, he dispatched someone to follow Young Ancestor Feng. Since the latter was facing a calamity originating from Chen Yu, sending someone to follow might help trace and find Chen Yu!

...

Elsewhere.

The man and woman who had previously arrived with the black bear now approached Chen Yu.

"Quite the boldness."

The man, looking refined and acting in a noble manner, spoke.

"You killed King Qingcheng's cousin. Although there's no conclusive evidence, now that you've fought King Qingcheng's men, King Qingcheng has enough reason to act against you."

The woman, elegant and slightly haughty, stated.

"You both seem to know my affairs quite well."

Chen Yu replied with a smile.

He had to thank these two for helping him understand how "Yu Da" had provoked "King Qingcheng."

"It was revealed during our earlier chat with Brother Liao."

The man explained.

"Although you've offended King Qingcheng, you still have another option besides the dead end: pledge allegiance to 'Young Master Gu' and serve him."

The woman, graceful in demeanor and speech, appeared somewhat conceited.

In her view, Chen Yu would surely seize this opportunity to join Young Master Gu.

"Young Master Gu?"

Chen Yu recalled this rather unfortunate Young Master.

The last time he infiltrated the Blood Sea Realm, he had killed Iron Blood Venerable, who was Young Master Gu's attendant.

Later during the Bloodthirsty Trial, Chen Yu killed two more of Young Master Gu's attendants, causing him to be eliminated in the first round in a very unjust manner.

"Thanks for your kindness, but I currently have no such intentions."

Chen Yu calmly refused.

He came to the Blood Sea Realm with two purposes: the first was to investigate the antidote for the Bloodless Poison, and the second was to get close to Young Ancestor Feng and assassinate him.

Even if he were to pledge allegiance to a Young Ancestor, it would definitely be to Young Ancestor Feng.

If he pledged allegiance to Young Master Gu, it would mean standing against Young Ancestor Feng to a certain extent.

"You... actually refused our invitation."

A trace of surprise appeared on the woman's proud face.

The scholarly man was also somewhat astonished.

They had contacted Black Bear today to recruit King Qingcheng for Young Master Gu.

However, Black Bear, relying on the king behind him, had an arrogant attitude and haggled, which displeased the two of them.

And just now, Chen Yu defeated Black Bear, displaying great strength, and since Chen Yu was also an enemy of King Qingcheng, the two of them came to recruit Chen Yu.

Unexpectedly, Chen Yu directly refused, giving them even less face than Black Bear did.

"Yu Da, you will regret this."

The woman's tone was somewhat icy.

Chen Yu ignored it and turned to walk towards a large hall not far away, paying the Battle Merit Points, and selected a new cave dwelling.

"I remember Young Ancestor Feng once said, the Bloodless Poison was created by the 'Black Poison King'."

The investigation of the Bloodless Poison antidote must start from this aspect.

However, at the current stage, Chen Yu should first adapt to his new identity and gain a foothold in the Blood Sea Realm.

To perfectly disguise himself as Yu Da, he needed to understand Yu Da as a person. Chen Yu was currently unclear about why Yu Da killed King Qingcheng's cousin.

Finding out everything wouldn't be difficult.

That night, Chen Yu hid his identity, went to the second ring area, found a small organization specializing in selling intelligence, and at a certain cost, obtained detailed information about Yu Da.

"On one mission, only Yu Da returned from the entire team. After King Qingcheng's subordinates investigated, they believed that his teammates might have all been killed by Yu Da, including a cousin of King Qingcheng..."

Chen Yu carefully reviewed the intelligence.

The intelligence speculated that Yu Da and others might have discovered some treasure and killed everyone else to keep the treasure to themselves.

"A treasure?"

Chen Yu found it strange. When he checked Yu Da's storage space, he hadn't discovered any treasure.

But he decided to check again carefully.

Finally, he found something interesting.

Among a pile of Blood Brew, Chen Yu found three bottles that were actually the blood of a Holy Beast.

In one bottle, there was only a tiny amount of dark red blood, but it emitted an extremely powerful bloodline aura.

"Blood of a king-level Holy Beast..."

Chen Yu's eyes lit up, a smile curved at the corner of his mouth.

Previously, when examining Yu Da's storage space, he hadn't checked each bottle of Blood Brew carefully, which was why he hadn't discovered these precious blood samples.

"It seems this is the treasure Yu Da and his companions discovered."

The Blood Race is bloodthirsty, and Holy Beast Bloodline is of immense value to them, not to mention the blood of a king-level Holy Beast.

These would be enough for Yu Da to ruthlessly eliminate his other companions.

"There must be Bloodline Power within, but I don't know what kind of power it is."

The aura of the three bottles of blood was the same, likely belonging to the same type of Holy Beast.

Without further ado, Chen Yu used the mysterious heart to refine the three bottles of blood into Bloodline Power and absorbed them into his heart.

In that faint red mysterious space, two clusters of blood-red figures appeared, like an exotic bird species, entirely engulfed in blood flames.

One of them had a king-level bloodline.

The stronger blood flame bird flew toward the other blood bird, slowly engulfing it.

This was the fusion of the same-attribute bloodline, which could enhance the stronger bloodline, increasing the bloodline quantity.

"Let's test the effect."

Chen Yu decided to try out the bloodline of the king-level Holy Beast.

With a boom!

A surge of scorching blood instantly rushed forth; his entire body became extremely hot, and blood-colored flames sprang up on his skin.

His hair radiated a crystal red, wildly dancing, as blood flames slowly condensed into a pair of wings behind him, and a peculiar bird's cry echoed in the void.

The surrounding temperature suddenly rose, and nearby furniture decorations turned scarlet and burst into flames.

At this moment, Chen Yu felt his power had more than doubled compared to before.

"Could this be... the Blood Flame Sparrow bloodline?"

After carefully feeling the Bloodline Power, Chen Yu made a rough judgment.

The Holy Beast Blood Flame Sparrow is part of the Vermilion Bird lineage of Holy Beasts.

Swish!

The Bloodline Power in Chen Yu's body vanished instantly.

The Blood Flame Sparrow bloodline was not extensive, just a brief experience was enough.

Next, Chen Yu went through other intelligence regarding Yu Da, including his experiences, connections, strength assessment, and some skills.

Chen Yu selected two main skills of Yu Da, "Blood Rage Hammer" and "Domineering Blood Seal Fist," went to the Blood Storage Hall to exchange for combat techniques, and prepared to practice them slightly for cover.

As for connections, Yu Da had only one friend with whom he had a relatively good relationship, named Mu Chenxiang.

"This is good, not having complex connections."

Having understood most of it, Chen Yu felt somewhat relieved and practiced "Blood Rage Hammer" and "Domineering Blood Seal Fist."

Time passed, and three months went by.

In daily life, besides staying in the cave and practicing combat techniques, Chen Yu also gathered intelligence information.

For example, Young Ancestor Feng was gathering his subordinates, seemingly to prepare to kill Chen Yu.

There was also the Black Poison King, about whom Chen Yu had gained some understanding.

The Black Poison King resided in the most core area, held an extremely high status in the Blood Sea Realm, almost akin to a Young Ancestor in identity and privileges.

Moreover, this person wasn't an ordinary member of the Condensed Star Realm but a mid-stage Condensed Star Realm powerhouse!

On this day, a shout came from outside Chen Yu's cave.

"Yu Da, Yu Da!"

Upon a brief inspection, Chen Yu discovered the visitor was Yu Da's only friend with a decent relationship in the Blood Sea Realm, Mu Chenxiang.

Mu Chenxiang occupied a vessel of an alien race.

Upon entering, he hurriedly said: "King Qingcheng has returned from his mission; you should leave quickly, temporarily escape the Blood Sea Realm to avoid trouble."

Chapter 924: Slapped Away

"King Qingcheng has returned from his mission, Brother Yu, you should leave quickly and temporarily avoid the Blood Sea Realm to stay safe."

Yu Da's old friend in the Blood Sea Realm, Mu Chenxiang, advised.

Mu Chenxiang couldn't understand why Yu Da had suddenly returned shortly after leaving the Blood Sea Realm, and moreover, had just arrived back and already fought with King Qingcheng's men.

However, Chen Yu wouldn't easily leave the Blood Sea Realm.

It was difficult enough to regain his footing, and every time he entered or exited the Blood Sea Realm, he would be subjected to strict scrutiny, which might lead to unforeseen incidents.

"No need, King Qingcheng still can't do anything to me."

Chen Yu slightly shook his head, calm and composed.

Even though the Blood Race is chaotic, this is at least an area with order, and King Qingcheng wouldn't dare to kill Chen Yu here.

Of course, he couldn't kill Chen Yu, either.

"Brother Yu, aren't you a bit too calm?"

Mu Chenxiang said with some surprise, Yu Da seemed to be different from before.

"When I was away for refuge recently, I figured this out. King Qingcheng can't do anything to me, and besides, I don't want to keep hiding."

Chen Yu didn't know whether Yu Da had really killed King Qingcheng's cousin, but without concrete evidence, there was nothing to fear.

"Could it be that Brother Yu plans to follow Young Master Gu?"

Mu Chenxiang guessed and asked.

He heard that Young Master Gu's followers once represented him to invite Chen Yu.

"I am still considering this."

Chen Yu made things up. If he told the truth, his identity would surely be exposed.

"Brother Yu, I can't quite see through you now, but since you're confident, I won't say more."

Mu Chenxiang didn't say any more.

As soon as Yu Da returned, he fought with King Qingcheng's men and rejected the invitation from Young Master Gu's faction. Now that his enemy King Qingcheng was back, Yu Da didn't take refuge.

This suddenly made Mu Chenxiang feel that Yu Da had become somewhat unfamiliar.

After Mu Chenxiang left, Chen Yu activated the Cave Mansion Barrier and went into closed-door cultivation.

Currently, his main focus was on refining the Half-step Primordial Power, in addition to practicing the "Blood Surge Hammer" and the "Domineering Blood Seal Fist."

These two cultivation techniques were not overly difficult, and Chen Yu's cultivation progress was moderate.

In less than five days.

Outside the Cave Mansion, Black Bear came again, now proud and full of delight, loudly shouting, "Yu Da, King Qingcheng invites you to visit."

With King Qingcheng back, Black Bear was full of confidence.

Although it was termed a visit, everyone knew this was a trap.

However, after a long time, there was no response from inside Chen Yu's Cave Mansion, and the Cave Mansion Barrier still stood.

Black Bear's face turned gloomy, knowing Chen Yu's plan, he threatened, "Yu Da, you're not giving face to the King's presence?"

There was still no response from inside the Cave Mansion.

Black Bear's face turned dark, though he already had a naturally dark face.

This is a ring area, relatively speaking, with some orders. Chen Yu stayed inside his Cave Mansion, and Black Bear didn't dare force his way in; otherwise, he'd be violating the Blood Race's laws.

"Yu Da, you will die a miserable death."

Black Bear did not linger, to avoid embarrassment, and directly returned to King Qingcheng's Residence.

In a large red hall.

King Qingcheng was bathing in a blood pool, a wine container floating in the air, slightly tilted, its Blood Brew trickling into King Qingcheng's mouth.

"My lord, that Yu Da doesn't know what's good for him, he refused your invitation."

Black Bear's voice came over.

Splash!

King Qingcheng leaped out of the blood pool, landing beside a wolf-like corpse.

The cyan giant wolf stood up, its fur crystal clear, its eyes like cyan gems, radiating intense brilliance, and its kingly aura spread out.

"Oh? Interesting, killed my cousin, fought my men, and declined my invitation as well."

King Qingcheng's lips curled into a cold smile.

That Yu Da was not merely arrogant, he blatantly disregarded him. King Qingcheng's heart harbored a murderous intent; he was determined to torment Yu Da or even kill him.

Based on his investigation and analysis, when Yu Da and the others were on a mission that day, they likely discovered a precious treasure, and it was for this reason Yu Da killed his teammates, including his cousin.

"Since that's the case, I'll personally pay a visit!"

King Qingcheng said with imposing majesty.

If he didn't personally teach Yu Da a lesson, where would the king's honor be?

Soon, King Qingcheng arrived personally outside Chen Yu's Cave Mansion, drawing many onlookers.

"Yu Da, I wish to discuss something with you, would you like to come to my Residence for a chat?"

King Qingcheng floated midair, speaking coldly and arrogantly.

Below, Black Bear wore a smirk. Chen Yu had refused him; now that King Qingcheng personally invited him, would he dare show disrespect?

Yet, Chen Yu indeed showed no respect.

Even if the King personally came, so what?

This scene startled Black Bear, King Qingcheng's face fell, and the surrounding spectators were amazed.

"Yu Da, as the King, I have come to invite you myself, don't be ungrateful."

King Qingcheng's attitude slightly changed, laced with anger, as the surrounding blood mist seemed to freeze, oppressively terrifying.

But Chen Yu's Cave Mansion remained unaffected.

"Hm!"

King Qingcheng let out a cold snort, leaving in anger and frustration.

Black Bear quickly followed but was glared at by King Qingcheng, immediately dropping to his knees, "Yu Da is hiding in the Cave Mansion, why didn't you inform me just now?"

Even as a King, he had no reason to forcibly enter the Cave Mansion.

Had he known, he certainly wouldn't have come personally, to avoid disgrace.

"This... please spare me, my lord."

Black Bear panicked, sweating profusely.

Earlier, he was too angry to report honestly, hoping King Qingcheng would personally come to teach Chen Yu a lesson.

But he didn't expect Chen Yu to be so bold, ignoring even a kingly invitation.

"He can't hide forever. Keep a close watch on him for me."

King Qingcheng whipped up a bloody whirlwind, blasting into the black bear and sending it flying hundreds of feet away.

By the time the black bear got up, King Qingcheng was nowhere to be seen.

"Yu Da, I'll make sure you die miserably."

The black bear, fuming with rage, ran back to his mansion, rallied his men, and kept an eye on Chen Yu's cave mansion.

Inside the cave mansion.

Chen Yu was aware of the events outside, but he didn't care.

Hiding inside his cave mansion, even a king couldn't do anything to him.

But he truly couldn't hide forever; there were important matters to handle.

"What a bother."

Chen Yu frowned slightly, deciding to find a way to resolve this issue. If push came to shove, he could always take on another identity.

Another month passed.

At night, Chen Yu left the cave mansion to gather intelligence.

For now, he wasn't in a hurry to deal with Young Ancestor Feng; it wasn't much of a challenge for him.

The only challenge was how to get close to the Black Poison King and obtain the antidote for the Bloodless Poison.

The Black Poison King resided at the core of the inner ring, a mid-stage Star Condensation King, holding high authority.

Getting close to him was extremely difficult for Chen Yu, let alone earning the Black Poison King's trust to get the antidote.

However, where there's a will, there's a way.

"Looks like I'll have to adopt another identity, one that will free me from the hassle of King Qingcheng and also make it easier to approach the Black Poison King."

Chen Yu devised a method and began planning.

...

"Yu Da is here to visit."

A voice startled the owner of a certain cave mansion.

The barrier dissipated, and a charming, sophisticated woman in luxurious attire stepped out.

"What do you need?"

The woman had a playful yet disdainful look on her face.

She and her companions had once invited Chen Yu to join Young Master Gu, but Chen Yu had ruthlessly declined. Now that Chen Yu was knocking on her door, she felt scornful.

She had also heard that King Qingcheng personally went to trouble Yu Da.

In her view, Yu Da must have come to sweet-talk and seek shelter under Young Master Gu now.

"I have a matter to discuss with Young Master Gu, and I hope to meet with him."

Chen Yu appeared calm.

The woman raised an eyebrow; she had expected Chen Yu to come groveling, but his attitude hadn't changed much from before.

"The Young Master is not someone you can just meet on a whim."

The woman snapped in displeasure.

"Hahaha."

Chen Yu laughed heartily and turned to leave.

This left the woman even more astonished. Her intention was to give Chen Yu a hard time, but he didn't take the bait at all.

"You've got King Qingcheng on your tail, yet you're still too proud to seek shelter with Young Master Gu."

The woman added.

"The Blood Sea Realm has more than one Young Ancestor." Chen Yu replied with a faint smile.

The woman's expression darkened. Indeed, besides Young Master Gu, the most dominant other Young Ancestor was Young Ancestor Feng, who had already become a Condensed Star King.

"Wait, I'll send someone to notify him. Whether you get to meet Young Master Gu depends on your luck."

The woman gritted her teeth, suppressing her anger, and decided to hold him back.

The combat strength of a Half-step King was extremely significant, with potential to become a Condensed Star King in the future.

If Yu Da were to align with another Young Ancestor and later breakthrough to the Star Condensation Realm, Young Master Gu would surely blame her.

"Just tell Young Master Gu that meeting me is absolutely worth it."

Chen Yu said with a faint smile.

The more enigmatic and confident he seemed, the more intrigued Young Master Gu would be.

The woman said no more and immediately sent someone to relay the message.

Chen Yu then entered her cave mansion, waiting for the outcome.

He had barely warmed the seat when a shout came from outside.

"Yu Da, come out here immediately!"

The black bear roared, his voice deafening.

"I thought you stopped being a coward, but you've just holed up in another cave mansion, such a coward."

The black bear continued to taunt, "King Qingcheng personally invited you, and that was a fortune. You blind fool, refusing a king, you're just looking for trouble."

Inside the cave mansion, the charming woman chuckled softly and said nothing.

If the woman closed the cave mansion barrier, Chen Yu wouldn't have to worry and just wait for Young Master Gu to arrive.

But it seemed the woman had grievances and wasn't planning to help.

Chen Yu got up and walked out of the cave mansion.

"Yu Da, if you've got the guts, come out. Stop being a coward."

The black bear was thoroughly enjoying his taunts, but suddenly found Chen Yu walking towards him.

"Shut up and get lost."

Chen Yu's expression was indifferent.

Last time, he had gone easy on him, letting the matter slide, but this black bear repeatedly sought trouble, brazen and forgetful.

"Hehe, Yu Da, so you finally came out. King Qingcheng will be here any moment, at that time..."

The black bear laughed smugly, but before he finished speaking, he saw Chen Yu rushing at him.

Smack!

The black bear's face resounded with a slap as his massive body was sent flying to the side, teeth mixed with blood splattering out.

Chen Yu's strength was overwhelming, the slap nearly disoriented the black bear completely.

Behind, the charming woman walked out to see how Chen Yu would handle this, witnessing Chen Yu directly slap the black bear away.

Chapter 925: Demon Body Perfected

The black bear got up, its face still burning, jaw cracked, unable to speak clearly: "You... dare hit me?"

King Qingcheng had already returned, he assumed Chen Yu wouldn't dare act rashly, thus he was unscrupulous.

Who knew Chen Yu wouldn't restrain himself at all, and immediately dealt a slap.

The black bear hadn't anticipated Chen Yu being so direct and violent and was slapped by him.

"You've already hit me, isn't asking such a question a bit idiotic?"

Chen Yu sneered.

"I'll kill you."

Being slapped in public, the black bear was furious.

"Attack together."

The black bear shouted.

This time, he brought quite a few subordinates, six in all, one being at the peak of the Late Stage Sky Sea Realm, two at the Late Stage of Sky Sea.

The black bear took the lead, a chain appearing in his hand, with a crimson iron claw attached at the end, glowing with half-step primordial power, attacking Chen Yu with unmatched speed.

The rest of the Blood Race also acted, launching attacks from all directions.

"Truly a slow learner."

Chen Yu coldly snorted, charging forward, proactively colliding with the others' attacks.

Boom! Boom! Boom!

The ultimate moves of those brought by the black bear all hit Chen Yu, resulting in a series of explosions.

But Chen Yu was unharmed, like a Vajra Unbreakable body, a three-zhang long dark giant hammer appearing in his hand, bursting with blood-red light, fiercely smashing downward.

This was "Blood Burst Hammer," which Chen Yu had been cultivating recently.

One smash led to exploding blood light, presenting a mighty momentum.

Boom!

A large crater exploded on the ground, the crimson iron claw was sent flying by a single smash from Chen Yu.

The black bear's true form belonged to a very low-level Blood Race, only breaking through to the half-step Condensing Star Realm by aligning with King Qingcheng, its strength quite ordinary.

Thus, the newly cultivated "Blood Burst Hammer" by Chen Yu could surpass the opponent.

Seizing the advantage, Chen Yu pressed close to the black bear, the giant hammer in his hand whirling furiously, clusters of brilliant blood light exploding, forming a blood-colored storm in the void, terrifying in momentum, deterring those at the Sky Sea Realm from approaching.

Under Chen Yu's strong physique power, "Blood Burst Hammer" exhibited formidable strength.

Boom! Boom! Boom!

The black bear retreated continuously, oppressed by Chen Yu into a completely passive position, with seven or eight wounds on his body.

"How has Yu Da's strength improved so much compared to before?"

The black bear was shocked internally.

It seemed that it was true!

Previously, during a mission, Yu Da and others discovered a treasure, so Yu Da killed all his teammates.

"Domineering Blood Seal Fist."

Chen Yu executed another combat technique, with half-step primordial power condensing on his fist, merging with the Blood Intent Realm, turning intensely crimson, transforming into a huge blood-red fist, adorned with peculiar seals.

Boom!

With a punch, the black bear struggled to defend, yet his defense was shattered, taking a punch directly.

His figure was sent flying, crashing into a barrier of a nearby building, spitting a mouthful of fresh blood, then falling to the ground.

Chen Yu possessed a strong Body Dao talent, thus mastering this fist technique at a rapid pace, with ever-increasing power.

"Yu Da's strength is so formidable."

The charming woman behind was flickering with strange light in her eyes.

If Young Master Gu saw this scene, he would certainly recruit Yu Da.

However, Yu Da was too daring, not even officially part of Young Master Gu's faction yet repeatedly assaulted King Qingcheng's men.

At this moment.

A kingly aura descended, coagulating the blood mist in the air, its heaviness permeating every corner.

In the sky appeared a giant wolf with blue hair and blue eyes, wearing a cold expression, overseeing below, its eyes emitting two icy beams, chilling to the core.

"Master, avenge me, Yu Da hit me without a word..."

The black bear immediately complained, crying and sniveling, depicting itself as serving diligently, only to be brutally beaten.

While its resentful eyes occasionally glanced at Chen Yu, as if anticipating Chen Yu's forthcoming miserable state.

"Yu Da, this king kindly invited you to be a guest, you heartlessly refused, yet also beat my men, what is your meaning?"

King Qingcheng's cold and authoritative voice echoed throughout, as if interrogating a criminal.

"Is there such a thing? I have been in seclusion all along, unaware of the king's invitation to be a guest."

"As for beating the king's subordinate? Oh, I didn't know this beast was yours before."

Chen Yu feigned ignorance, denying everything.

The charming woman behind him immediately gave Chen Yu a sidelong glance, thinking he was too good at pretending.

Even King Qingcheng in the sky was slightly stunned, not expecting Chen Yu to respond like this.

Clearly, Chen Yu didn't regard him at all, blatantly brushing him off.

"Now that you know, if you don't give this king an explanation today, I will make you recuperate at home for a hundred years."

King Qingcheng's voice was icy, utterly unreasonable and overbearing.

He couldn't kill Chen Yu, but could use this as a pretext to severely injure Chen Yu, making him stagnate at the half-step Condensing Star Realm for life.

In reality, King Qingcheng didn't care about that worthless cousin but was interested in the treasure Yu Da obtained, initially only wanting a share, but Yu Da had thoroughly infuriated him.

"Both parties should prioritize harmony, we might all be working for Young Master Gu in the future."

The charming woman stepped out to mediate.

In King Qingcheng's eyes, a gleam flashed.

Previously, he was worried Chen Yu was already part of Young Master Gu's faction.

If that's the case, he could act more assuredly.

"Yu Da, how do you plan to explain to this king?"

King Qingcheng's expression suddenly changed, becoming extremely ferocious, a violent, fierce aura, like a bloody wave, surged down, oppressing Chen Yu.

The charming woman behind bent her body, almost kneeling, hurriedly retreating.

Yet Chen Yu remained upright, unmoved.

Having dealt with many Condensed Star Kings, King Qingcheng's kingly might was difficult to overpower him.

"Why aren't you kneeling yet!"

King Qingcheng was furious, and a cyan light beam shot from his eyes like two meteors, blasting towards Chen Yu.

Since his authority couldn't suppress Chen Yu, King Qingcheng directly made a move.

Chen Yu was on alert, his heart gathering power to amplify his strength.

A blood-red and eerie pattern sketched itself across his body surface; it was the secret technique "Secret Pattern Demon Body," causing his power to surge once more.

"Domineering Blood Seal Fist!"

Chen Yu shouted, deploying his fist technique to meet King Qingcheng's attack.

Boom!

As the punch landed, a phantom of bloodline appeared around Chen Yu, and a massive blood-red fist imprint burst forth.

Crash!

The cyan light beam and the blood-red fist imprint clashed, both shattering, sending a storm rippling in all directions.

Swish swish!

Chen Yu retreated several tens of feet, stabilizing himself.

"Oh?"

In the sky, King Qingcheng let out a light exclamation, though inwardly he was greatly shocked.

Yu Da actually blocked his attack, even though he hadn't been serious earlier and had merely struck casually, yet Yu Da truly withstood it.

This made King Qingcheng realize Yu Da's extraordinariness, with a great likelihood of breaking through to the Condensed Star Realm in the future.

The charming woman behind was left speechless, not expecting Yu Da to confront a king, truly astonishing.

"You have great talent but are too arrogant. I will educate you on behalf of your parents and grind down your temperament."

King Qingcheng said coldly, unexpectedly striking again.

Thunk!

He raised his foot, cyan and red starlight shimmering, becoming as heavy as a mountain, stomping fiercely.

In the void, cyan and red brilliance shone, and countless strands of dense cyan and red light fell down from the sky.

Chen Yu's expression slightly darkened, but he did not panic. He drew a trace of the "Blood Flame Sparrow" bloodline from his mysterious heart.

His body glowed red, igniting faint blood-red flames, with his momentum suddenly increasing.

Still using the "Domineering Blood Seal Fist," Chen Yu rallied all his strength for a punch.

Boom!

The blood-colored fist imprint blazed with flames, exploding into brilliant light, soaring up to collide with King Qingcheng's strike.

Bang! Rumble!

In mid-air, a loud crash echoed, as if the void were trembling, the violent aftershocks sweeping across all directions, sending Black Bear's Sky Sea Realm subordinates flying and spitting blood.

When the light and storm dissipated.

Chen Yu stood in a huge crater, his body in tatters but still standing firmly, his gaze sharp and bright.

"The Secret Pattern Demon Body has broken through."

Chen Yu was pleasantly surprised.

His Secret Pattern Demon Body had long reached the peak of its last layer, and just now, it achieved perfection.

Perhaps under the pressure of a king, and with many of his means unusable, Chen Yu managed to squeeze out his physical potential, facilitating a breakthrough.

The perfect state of the Secret Pattern Demon Body further increased his strength and defense.

Even if King Qingcheng attacked again, Chen Yu was unafraid.

"This guy..."

King Qingcheng took a deep breath, a sense of apprehension rising that Yu Da must be eliminated.

Yet at that moment, his bloodline trembled slightly within him.

Not far away, a sturdy man walked over, his skin bronze-hued, none other than Young Master Gu!

"Why are both of you so combative?" Young Master Gu asked.

"Young Master Gu, this kid hit my people and was disrespectful to me. I was just teaching him a lesson."

King Qingcheng said plainly.

"Let's just leave it at that." Young Master Gu said calmly.

"Young Master Gu, this is a personal grudge."

King Qingcheng's expression turned slightly cold.

"He hit your people, but you've now hit my person. For me to say let it go is already forgiving your mistake. What more do you want, King Qingcheng?"

Young Master Gu's gaze sharpened, exuding a sense of ferocity.

Chen Yu allowed a faint smile at the corners of his mouth.

Young Master Gu had arrived just in time and witnessed his battle with King Qingcheng.

With such combat power now, he was certain to break through to the Condensed Star Realm in the future, and at that time, his value might even surpass King Qingcheng's.

Moreover, Young Master Gu had hinted at recruiting King Qingcheng, but having failed, he held little goodwill toward him.

King Qingcheng's expression was dark; he hadn't expected Young Master Gu to choose to help Yu Da.

Now he regretted not having had Black Bear agree to Young Master Gu's recruitment; perhaps today Young Master Gu would side with him in punishing Yu Da.

"In that case, I will abide by the young master's words and let this matter rest."

King Qingcheng left a remark before rapidly departing with his subordinates.

"Are you alright?"

Young Master Gu flashed a hint of a smile.

"Thank you, young master, for your rescue."

Chen Yu expressed his gratitude.

"It was a minor issue. I heard you had matters to discuss with me?"

Young Master Gu was straightforward, cutting to the chase.

He had personally come, already giving Chen Yu much face, and had just saved Chen Yu's life too.

"Haha, as the young master saw earlier, I just wish to ask the young master for protection."

Chen Yu laughed cheerfully.

Upon hearing this, Young Master Gu's countenance turned grim, a shadow overcasting his features.

He thought Chen Yu had something important or perhaps wanted to join him, only to find that Chen Yu merely wanted him to protect his life.

"Are you toying with me?" Young Master Gu said coldly.

Chapter 926: Taking His Place

"Are you playing with me?"

Young Master Gu's face turned grim.

Just now, someone delivered a message, saying Yu Da had an urgent matter to discuss with him, assuring it would be worthwhile to meet.

He assumed Chen Yu had something significant to say or maybe wanted to pledge allegiance to him. However, after rushing over, Chen Yu said he merely wanted him to save his life.

Young Master Gu thought Chen Yu's guts were not ordinary; he had offended King Qingcheng earlier, and now he was offending him.

"No, I do genuinely want to discuss this matter seriously with the Young Ancestor."

Chen Yu said with a slight smile.

Young Master Gu's face turned even colder, with a hint of murderous intent, "Do you know the consequences of offending me are far more dire than offending King Qingcheng?"

King Qingcheng dared not kill Chen Yu in one round, but Young Master Gu, with his wide network, had ways to have Chen Yu killed.

The charming woman beside them also couldn't understand Chen Yu. Such a great opportunity, and Chen Yu wasn't seizing it but instead seemed to be toying with Young Master Gu, which was sheer folly.

"Young Ancestor Gu, please hear me out."

Chen Yu smiled and shook his head, showing no concern for Young Master Gu's anger.

"You saving my life isn't without benefits."

Chen Yu's words made Young Master Gu's expression slightly relax, but his face still carried an icy and authoritative presence.

If Chen Yu was just asking Young Master Gu to save his life, then he was merely playing with Young Master Gu.

However, if Chen Yu had prepared suitable benefits, then that would be a different story.

Though, Young Master Gu's status in the Blood Sea Realm was much higher than Chen Yu's, and he could usually acquire what he needed, so he didn't think Chen Yu could offer anything particularly valuable to him.

Relatively speaking, he valued talent more, and if Chen Yu could submit to him, that would be fine.

"What benefit?"

Young Master Gu asked coldly.

"Doesn't Young Ancestor Gu want to know the secret of why I have become so powerful?"

Chen Yu lowered his voice and gave a mysterious smile.

After speaking, he turned and walked away.

Young Master Gu, standing in place, trembled slightly, his pupils dilating.

Why did he want to help Chen Yu just now?

Of course, it was because he valued Chen Yu's formidable combat strength!

In the Half-step Condensing Star Realm, he could contend with King Qingcheng without suffering much loss. If Chen Yu became a King, he would only grow stronger.

Thinking from another perspective, there must be some secret as to why Chen Yu suddenly became so powerful!

Previously, "Yu Da" was just an ordinary member among the Blood Race's Half-step Condensing Star individuals.

But now, Yu Da stood at the pinnacle of the Half-step Condensing Star level!

What secret lies within this?

"Wait, what is the secret?"

Young Master Gu directly inquired.

"If Young Ancestor Gu wants to know, meet me at Hengshan Ridge at noon tomorrow, and I will definitely disclose everything to Young Ancestor Gu."

Chen Yu transmitted the message and then flew away, disappearing from sight.

"Young Ancestor Gu, this person is too arrogant."

The charming woman immediately said.

She didn't know the last message Chen Yu transmitted to Young Master Gu.

Young Master Gu ignored the charming woman's words and asked, "Why was King Qingcheng targeting this person? Tell me about his affairs."

Thus, the woman recounted some matters regarding Yu Da, one by one.

"It seems this person indeed obtained some incredible treasure during that mission, which is why his strength surged so quickly. And King Qingcheng must have acted against Yu Da because of this treasure."

Young Master Gu mused inwardly.

To allow someone in the Half-step Condensing Star level to increase their strength so substantially, as someone in the Half-step Condensing Star Realm himself, Young Master Gu naturally wanted to know Chen Yu's secret.

"I will personally handle this matter."

Young Master Gu left with a final remark.

He hadn't shared Chen Yu's transmitted words with the charming woman, as Young Master Gu still wasn't sure what that secret was, so the fewer people who knew, the better.

Witnessing Young Master Gu's departure, the charming woman frowned and murmured, "The Young Master is acting strangely, is he just letting Yu Da go?"

In the past, anyone who dared to so offend Young Master Gu would never meet a good end.

But Young Master Gu had already stated that he would personally handle this matter, so the charming woman dared not intervene further, lest she incur Young Master Gu's displeasure.

Elsewhere.

"Sir, why would Young Master Gu speak on behalf of that boy?"

Black Bear lamented, full of resentment.

If Young Master Gu hadn't appeared today to spare Chen Yu's life, the other party would have been in a difficult situation.

King Qingcheng's face was sullen, without a word, but at this moment he also understood.

He had been used by Yu Da.

Young Master Gu must have seen the confrontation between him and Yu Da and thus became interested in Yu Da, sparing him.

Without any surprises, Yu Da must have already pledged allegiance to Young Master Gu.

"This Yu Da is truly abhorrent, daring to offend the sir, he's worthy of death."

Black Bear incessantly spoke ill of Chen Yu.

"Tomorrow, go deliver a message to Young Master Gu, our King will personally pay him a visit on another day."

After contemplating for a moment, King Qingcheng said.

He planned to have Young Master Gu choose between him and Yu Da.

By that time, Young Master Gu would surely choose the King, abandoning Yu Da. Then, once Yu Da lost protection, King Qingcheng could deal with him however he wished.

"Yes."

Black Bear didn't understand what King Qingcheng was planning and asked, "Sir, are you planning to ally with Young Master Gu?"

"Correct, but I will present a condition: between Yu Da and the King, Young Master Gu can only choose one."

King Qingcheng declared proudly.

No matter how formidable Yu Da was, he was still only in the Half-step Condensing Star Realm. Crossing into the Condensed Star Realm carried too many uncertainties.

"Sir, you're wise. By then, Young Master Gu will surely choose you, while Yu Da will be abandoned and ridiculed. Afterward, you'll easily deal with him."

Black Bear's eyes gleamed.

No wonder King Qingcheng withdrew earlier, but after some time, he would visit Young Master Gu again.

He wants Yu Da to first rely on Young Master Gu, only to be ruthlessly abandoned later.

The next day.

When the black bear arrived at Young Master Gu's residence, the steward informed him that Young Master Gu had gone out in the morning and it was unknown where he went.

So, the black bear could only wait here; otherwise, he couldn't complete the task assigned by King Qingcheng.

The circle area was vast.

Most of the land had not been explored.

Hengshan Ridge was a desolate place with no inhabitants, where rocks crisscross and vegetation is dense.

Upon arriving at this location, Young Master Gu sensed an aura and immediately flew over, soon seeing Chen Yu.

"Young Master Gu is indeed punctual."

Chen Yu glanced at Young Master Gu with a slight smile.

"Tell me, what treasure have you obtained?"

Young Master Gu calmly asked, getting straight to the point.

"It seems Young Master Gu has done some research on my matters."

Chen Yu's mouth maintained a faint smile.

"Enough with the nonsense. If the treasure in your hand doesn't interest this Young Master, your fate will still be miserable."

Young Master Gu's face was full of authority.

He was very dissatisfied with Yu Da's fearless attitude.

Even if the other party possessed treasures, they shouldn't treat him with such an attitude. If Young Master Gu wanted Chen Yu's treasure, he could even snatch it.

"Alright, if that's the case, then please let Young Master Gu see if the treasure in my hand can move you."

Chen Yu gave a mysterious smile and took out an object from the storage space.

In his hand suddenly appeared a weapon, pitch-black, covered in scale patterns, exuding boundless demonic pressure.

"This is... a Magic Weapon!"

Young Master Gu's gaze froze.

Magic Weapons are precious, and this one is of excellent quality.

Not right!

Young Master Gu suddenly felt something was amiss; this Magic Weapon, what connection did it have with Yu Da's sudden increase in strength?

When Yu Da fought King Qingcheng before, he hadn't even used a Magic Weapon.

Moreover, this Magic Weapon looked familiar to Young Master Gu!

This is... Chen Yu's Magic Weapon!

He suddenly recalled the intelligence information about Chen Yu.

Boom!

Chen Yu held the Burning Sky Demon Halberd, and Half-step Primordial Power surged into it, shooting out a pitch-black demonic light, exuding endless demonic flames, covering a thousand feet around.

Without a word, he slashed out with the halberd, its power was shocking.

"You..."

Young Master Gu was shocked and retreated frantically.

He never thought Yu Da would dare harm him, so he madly believed in himself and came alone.

Young Master Gu was unprepared; at this moment, Chen Yu suddenly attacked, and he couldn't escape in time.

Facing Chen Yu's terrifyingly murderous and awe-inspiring strike, Young Master Gu immediately burned Bloodline Power and performed a secret technique.

Boom!

A blood-colored phantom, like a snake or dragon, erupted out, encircling him, forming a protective layer.

Boom bang!

Chen Yu's halberd descended, causing a sky-shaking explosion, covering everything, and creating a gigantic chasm on the ground.

Chen Yu's mysterious heart sensed that Young Master Gu was not dead.

Boom boom! Boom boom boom!

Chen Yu's heart entered an explosive phase, his speed and strength doubled, transforming into a pitch-black streak of light, heading straight for Young Master Gu's location in the distance.

At this moment, Young Master Gu's container was destroyed, leaving behind a pitch-black scar on him.

Seeing Chen Yu rapidly approaching, he showed despondency.

With his Half-step Condensing Star Realm cultivation, coupled with severe injuries, facing Chen Yu, there was no chance for survival.

Boom!

Seeing the Magic Weapon attack descending again, Young Master Gu thought his life had come to an end.

But the power of Chen Yu's strike wasn't as strong as imagined, sending him flying more than two hundred feet away without killing him, though the injuries worsened, his strength reduced to less than thirty or forty percent.

He looked up at Chen Yu with despair: "Why don't you kill me?"

If Chen Yu killed him, the Blood Race would surely notice, by then Chen Yu would be buried with him.

Boom boom! Boom boom boom!

Chen Yu's heart remained in an explosive state, generating a strong suction, pulling out the bloodline from Young Master Gu.

The heavily injured Young Master Gu in front of Chen Yu suffered further suppression from the mysterious heart, without any resistance.

The bloodline of the Blood-sucking Clan descendant within Young Master Gu gradually extracted, his body became dull and even slightly emaciated.

His face showed terror, and he roared, "No, my bloodline..."

He couldn't imagine how Chen Yu could directly extract his bloodline, it was simply unimaginable, unthinkable!

Bang!

Chen Yu struck a palm, crippling Young Master Gu's True Yuan Sea.

From then on, Young Master Gu became a powerless waste.

"Not killing you now, because you still have a use, enjoy your last moments of life."

Chen Yu said coldly.

"Chen Yu, you dared to come to the Blood Sea Realm, dared to attack this Young Master, the Blood Race will surely trace back to you, you are doomed."

Young Master Gu wildly roared, his madness and murderous intent blatant.

"Are you joking?"

Chen Yu sneered, only to see his face instantly change, becoming identical to Young Master Gu's container, even his aura highly similar.

Young Master Gu stared blankly at Chen Yu, dumbfounded, silent.

Chapter 927: Black Poison King

Now the Young Master Gu, his cultivation is gone, a useless person.

Chen Yu injected True Yuan into his body, thoroughly sealing him, making him unable to die even if he wanted to. Then he stored Young Master Gu in the mysterious crystal space.

After finishing all this, Chen Yu returned to the First Ring Core.

He had been a Young Ancestor before, so disguising himself was quite handy.

After half a day's work, he returned to the First Ring Core and arrived at Young Master Gu's residence.

"Young Master Gu."

At this moment, a black bear approached, kneeling down.

"What is your business?"

Chen Yu glanced at him indifferently.

The black bear couldn't help but shiver, surprised in his heart. Although he feared Young Master Gu, he hadn't expected that just making eye contact with him would cause a nameless fear, as if he had been tortured and humiliated by Young Master Gu before.

"King Qingcheng sent me to report to the Young Ancestor that he will personally visit soon."

The black bear spoke very respectfully.

"Got it, scram."

Chen Yu said casually.

"Yes, yes."

The black bear retreated in fear.

Back at the cave residence, Chen Yu began interrogating Young Master Gu.

The current Young Master Gu had no cultivation at all. Chen Yu had previously studied the Soul Path Secret Technique of the Yin Clan and, after some interrogation, obtained a lot of useful information, allowing him to disguise himself perfectly.

"The first step of the plan is successful, the second step is to approach the Black Poison King."

Chen Yu pondered the method internally.

With his current identity, standing on equal footing with the Black Poison King, it was not difficult to approach him.

But gaining the Black Poison King's trust and getting clues to the antidote would not be that easy.

Chen Yu was in no hurry; he knew that haste makes waste.

Now, as the Young Ancestor, he had a high status in the Blood Race and could enjoy superior resources and treatment for free, without affecting his cultivation progress.

Three days later.

King Qingcheng's visit.

"Greetings to Young Master Gu."

King Qingcheng gave a slight bow, then sat down.

"I wonder what brings King Qingcheng here personally?"

Chen Yu asked casually.

In fact, he had already guessed King Qingcheng's intentions.

"I wonder if there is still an opportunity for cooperation between this king and the Young Ancestor?"

King Qingcheng didn't beat around the bush.

"There are certainly opportunities; it depends on whether King Qingcheng is willing."

Chen Yu said with a smile.

King Qingcheng was very pleased with Chen Yu's attitude. Being able to receive help from him, Young Master Gu was indeed delighted.

"However, I have a condition that is not too harsh."

King Qingcheng stated confidently.

"Speak."

"There is a conflict between me and Yu Da, and it is impossible for us to work together. I hope the Young Ancestor carefully considers who to keep by his side."

King Qingcheng spoke very tactfully.

"Haha, this is easy to say. Naturally, King Qingcheng's assistance is more important."

Chen Yu laughed heartily.

Yu Da was already dead, so this condition was effectively nonexistent and posed no difficulty.

King Qingcheng was very satisfied and smiled.

Young Master Gu chose him, so Yu Da would inevitably be abandoned, leaving him at King Qingcheng's mercy.

But King Qingcheng could never have guessed that the person he was about to follow was actually the enemy he had once hated deeply.

Chen Yu also greatly enjoyed the current situation. The previously arrogant and oppressive Blood Clan King was now respectful and had become his subordinate. Truly, the world is unpredictable.

"King Qingcheng, I have a task for you now. If you can accomplish it, you will be well rewarded in the future."

Chen Yu showed a serious expression.

King Qingcheng furrowed his brows. He chose to follow Young Master Gu because he valued his future potential, hoping to rise with him.

But just after the agreement, the Young Master Gu assigned him a task, and it didn't seem like an easy one.

However, refusing now would appear insincere.

Recalling Young Master Gu's friendly attitude and decisive choice just now, King Qingcheng gradually set aside his dissatisfaction: "Please speak, Young Master Gu."

"Infiltrate Young Ancestor Feng's ranks and become my inside agent."

Chen Yu smirked.

He had no fondness for this old guy and naturally wouldn't give him an easy job.

Young Ancestor Feng was also his target.

At that time, using King Qingcheng to deal with Young Ancestor Feng, or having Young Ancestor Feng help him deal with King Qingcheng, would all be at Chen Yu's discretion.

"Young Master Gu, this... might not be appropriate."

King Qingcheng furrowed his brows deeply.

Young Ancestor Feng had previously infiltrated the Great Yu Realm, achieving considerable military accomplishments before breaking through to the Condensed Star Realm. Now, his status in the Blood Sea Realm was very high.

Even King Qingcheng dared not offend Young Ancestor Feng.

"There is nothing to worry about. It won't be long before I break through to the Condensed Star Realm. At that time, I will definitely confront him head-on, but the ultimate winner will surely be me."

Chen Yu showed a look full of confidence.

King Qingcheng was shocked by Young Master Gu's ambition.

"Rest assured, King Qingcheng, if we can't topple Young Ancestor Feng, your identity will not be exposed. I wouldn't want to lose a capable aide like you either."

Chen Yu continued to persuade, offering assurance.

King Qingcheng hesitated for a long time before nodding in agreement, believing Young Master Gu wasn't joking and genuinely wanted to surpass Young Ancestor Feng as a rival.

If the situation didn't look favorable, he could still betray Young Master Gu to ensure his own safety.

The two chatted briefly before King Qingcheng left to carry out Chen Yu's assigned task.

He had changed his identity.

Chen Yu first familiarized himself with the environment and his numerous subordinates.

Through his subordinates, Chen Yu could easily gather any intelligence he wanted.

After becoming familiar, and fully adapting, Chen Yu's main focus was on cultivation.

The Star Condensation Path was something he was determined to achieve.

Having participated in the Food God's banquet and possessing Elixirs like the Flying Star Pill and Blood Star Holy Pill, which increased the chances of a breakthrough, Chen Yu had a strong grasp on advancing to the Condensed Star Realm.

What he needed to do now was to refine Half-step Primordial Power, approaching the level of the Condensed Star Realm.

This retreat lasted for three months.

During this period, Chen Yu also figured out a way to approach the Black Poison King.

That day, he left the cave and, carrying two subordinates, headed toward the Black Poison King's residence.

"Where is the Young Ancestor planning to go?"

The Charming Woman inquired.

The other, a scholarly man, was also curious.

These two subordinates were the man and woman who had previously invited Chen Yu to work for Young Master Gu.

"Recently, I have developed some interest in the Poison Path and plan to seek advice from the Black Poison King."

Young Master Gu replied with a faint smile.

"The Black Poison King!"

The Charming Woman and the scholarly man's bodies couldn't help but tremble, showing a look of fear.

Although the Black Poison King had never been to the battlefield and had always refined poisons in the Blood Sea Realm, he still had a notorious reputation.

He often used some Medicine Slaves to test his poisons, most of whom were captives brought back from the battlefield. When Medicine Slaves were insufficient, the Black Poison King even used his subordinates for poison testing.

It is said that all subordinates working for the Black Poison King have undergone poison testing; some have even become living corpses.

Regarding these matters, Chen Yu had investigated earlier when looking into the Black Poison King.

Among the Human Race and Demon Race, it was unknown how many people had been captured and died from poison testing.

The Black Poison King's cave mansion was built on a small island at the center of the Blood Sea.

The entire cave was shrouded by a barrier and filled with dark gases.

The waters around the island were colorful and chilling.

"Salutations, Young Master Gu."

Four guards knelt down.

"Open the barrier; the Young Ancestor has matters to discuss with the Black Poison King."

Chen Yu spoke coldly.

The guards dared not delay and quickly opened the barrier, allowing the three to enter.

Upon entering, the Charming Woman and the scholarly man felt uncomfortable all over, and even their spirit was affected.

The two immediately released True Yuan to isolate the surrounding gases, feeling slightly better.

As for Chen Yu, thanks to his strong constitution and resistance to toxins, he was hardly affected.

"This way, please."

A dull-faced, dim-eyed old man approached.

He led Chen Yu and his two subordinates to a main hall and then left, seemingly to report to the Black Poison King.

The scholarly man and the Charming Woman, having witnessed the old man's departure, were covered in goosebumps, realizing that the Black Poison King's followers were all controlled by drugs, becoming living corpses just as the rumors said.

They did not wait long.

Suddenly, from outside the hall came a hoarse, chilling voice: "What is the purpose of Young Master Gu's visit?"

Soon after, a gigantic spider crawled in.

The spider was covered in black needle-like hair, with eight eerie green eyes, its back bearing a white human face, grotesque like a demon's visage.

This spider was the Black Poison King!

Its true form was of the Blood Heart Clan, and its host vessel was the Holy Beast "Human-faced Evil Spider."

Upon the Black Poison King's appearance, the entire hall fell silent; Chen Yu's two subordinates were frozen in place, not daring to move, with even Chen Yu feeling a chill down his spine.

The Black Poison King exerted no oppressive force, yet the atmosphere felt as if sitting on pins and needles; this was a King at the Mid-stage Star Condensation Realm.

Chen Yu had previously investigated, knowing Young Master Gu had no connection with the Black Poison King, so he was not afraid of this mid-stage Condensed Star king discovering any flaw.

"This Young Ancestor has suddenly become very interested in the Poison Path. If I can additionally cultivate in this path, my strength will surely leap to a new level."

Chen Yu smiled.

The Black Poison King held the highest attainment in the Poison Path within the Blood Race, so Chen Yu's enthusiasm for the Poison Path would certainly win favor.

"What the Young Ancestor says is true. When one cultivates the Poison Path to a high level, no one of the same rank dares to provoke them; even surpassing ranks to kill enemies isn't difficult."

The Black Poison King grinned wickedly, his smile chilling.

"This Young Ancestor is aware that the Black Poison King has attained the highest expertise in the Poison Path within the Blood Sea Realm, and I wish to follow you for some learning. If I can achieve even a tenth of the Black Poison King's skill, I would be very satisfied."

The Black Poison King, flattered by Chen Yu's words, continued to grin wickedly, feeling quite pleased.

If an ordinary Half-step Condensing Star Realm person said so, he wouldn't even bother, but Chen Yu's identity as the Bloodline Young Ancestor made it an entirely different matter.

"Young Master Gu's fleshly body seems rather unique, with quite potent toxin resistance."

The Black Poison King's dark green eyes scrutinized Chen Yu: "However, in terms of toxin resistance, it's far inferior to Young Master Gu's true body."

"That's natural."

Chen Yu exhibited a proud expression.

The Blood-sucking Clan was indeed terrifying.

"Since the Young Ancestor wants to learn poison, I have no reason not to teach. In the future, the Young Ancestor is welcome to visit here anytime, although this King spends most time refining poisons, so the

Young Ancestor should be cautious not to touch anything randomly. If accidentally poisoned, this King is not to blame."

The Black Poison King agreed.

"I shall impose upon you henceforth."

Chen Yu chuckled.

Given Chen Yu's current status, approaching the Black Poison King wasn't difficult; gaining the trust of this old poison master for the Bloodless Poison antidote was the true challenge.

At that moment.

The old servant from before approached.

"My lord, Young Ancestor Feng has come to visit."

Chapter 928: Related to Chen Yu

A moment later, Young Ancestor Feng arrived inside the grand hall.

He immediately saw Young Master Gu.

In fact, Young Ancestor Feng didn't regard Young Master Gu very highly, but for some reason, this time he found him particularly displeasing and felt a strong hostility towards him.

"I don't know why Young Ancestor Feng is visiting the Black Poison King? For what matter?"

Chen Yu spoke proactively.

Young Ancestor Feng wasn't interested in Young Master Gu, but Chen Yu was very interested in Young Ancestor Feng.

"Young Master Gu is also here, I wonder what you're here for?"

Young Ancestor Feng's face was cold and arrogant, showing no disguise of his hostility.

"Hehe, this king's place is not suitable for the two young ancestors to quarrel."

The Black Poison King chuckled lightly.

Young Ancestor Feng respected the Black Poison King somewhat more and didn't pay any more attention to Chen Yu, showing a slight smile, "Black Poison King, this young ancestor has come this time for the matter of the Bloodless Poison."

Bloodless Poison!

Chen Yu's heart stirred slightly.

"This young ancestor is preparing to head to the Great Yu Realm again, so I came to ask for some Bloodless Poison to give the Great Yu Realm a headache."

Young Ancestor Feng sneered wickedly.

His main purpose of going to the Great Yu Realm this time was to kill Chen Yu, and if there was an opportunity, he would continue to spread the Bloodless Poison.

"Young Ancestor Feng is too courteous, the Bloodless Poison I refined is meant to let the Undying Blood Clan use it to kill enemies on the battlefield."

The Black Poison King smiled a bit proudly.

After all, the poison he refined had played a huge role in this war.

Because of this, his status in the Blood Race had rapidly risen.

After the Black Poison King finished speaking, he prepared to take Young Ancestor Feng to the alchemy room.

"The Bloodless Poison is something I've heard of for a long time, and I've been curious for a while."

Chen Yu smiled and spoke.

"Since this is the case, both young ancestors, please come to my king's alchemy room together."

The Black Poison King understood Chen Yu's intention and did not refuse.

If it were an ordinary person, they wouldn't have such privileges.

Through several corridors, everyone arrived at a secret room.

"Both young ancestors, once inside, don't touch anything recklessly. Although I can detoxify all the poisons inside, best to avoid suffering."

The Black Poison King sneered wickedly, opening the door to the secret room.

Immediately, a strange, cold aura wafted out from inside, making everyone feel uncomfortable.

The secret room contained many unseen instruments, numerous rare poisonous substances sealed within array barriers, and several pill furnaces emitting thunderous rumblings.

There were also a few medicine slaves controlled by drugs, diligently working.

"Come with me."

The Black Poison King led the two young ancestors ahead.

Before long, the two suddenly heard roars and howls coming from a secret room on the left.

"Why is it so noisy?"

The Black Poison King opened the secret room, and inside an array were a Human and a Demon locked up.

"Ah..."

"Antidote..."

Both the human and the demon looked crazed, with blood-red eyes, their skin mottled with red and green spots, and emitting a foul stench.

"Give them the antidote, and then reduce the dosage of Fierce King's Flower Poison by twenty percent before feeding them again."

The Black Poison King stared for a moment and instructed.

"Yes."

A servant responded.

"So this is what's called testing poison on medicine slaves!"

Chen Yu felt a chill in his heart, anger burning inside him.

To test poison for the Black Poison King was indeed a fate worse than death.

"This way, young ancestors."

The Black Poison King smiled, leading Young Master Gu and Young Ancestor Feng into another secret chamber.

The secret chamber was smaller, without even a servant inside.

There were many instruments here, and many blood-soaked hearts, some still beating, some blackened and filled with dead air, and some completely withered away.

Whoosh!

A jade bottle floated in front of the Black Poison King.

It contained a transparent liquid, appearing very ordinary.

"This is the ordinary Bloodless Poison, below the rank of king, just three drops are needed, without an antidote, they are certain to die unless a king intervenes."

Having said that, the Black Poison King handed this jade bottle to Young Ancestor Feng.

Only three drops were needed, and without an antidote, one was certain to die unless a king intervened, yet even a king would be affected by the Bloodless Poison.

"This is the Bloodless Poison for a Condensed Star King."

The Black Poison King took out another jade bottle, with very little liquid inside, possibly just a dozen or so drops.

"A Condensed Star King, if taking three drops, even at the late stage of the Star Condensing, without an antidote, they are certain to die unless someone at the Xuanming Realm intervenes."

The Black Poison King's eyes glimmered with admiration, this was his most satisfying masterpiece.

"The Black Poison King's accomplishments in poison art are indeed admirable. To think such an ordinary-looking liquid holds such terrifying power, I wonder what rare toxic treasures were used to concoct this Bloodless Poison?"

Chen Yu praised, while slyly trying to gather information.

If he could figure out the materials and methods used to concoct the Bloodless Poison, developing an antidote wouldn't be too difficult.

"Does Young Master Gu think such a formidable Bloodless Poison can be concocted so easily?"

Young Ancestor Feng mocked with a sneer.

Chen Yu internally criticized, wondering why Young Ancestor Feng had to interrupt while he was gathering information.

The Black Poison King smiled without elaborating; each drop of the Bloodless Poison for the Condensed Star King was unimaginably valuable.

"Haha, I never said such a thing."

Chen Yu sneered coldly.

"Just now, I heard the Black Poison King mention Young Master Gu's intention to cultivate in poison arts?"

Young Ancestor Feng wore a disdainful expression on his face.

"So what if it is? Does Young Ancestor Feng look down on the path of poison?"

Chen Yu retorted.

"I didn't say that."

Young Ancestor Feng borrowed Chen Yu's words just now, then added, "But among the myriad doctrines, without talent, no matter the path, one cannot achieve anything."

"So Young Ancestor Feng is implying that I lack talent? However, that's of no concern to you."

Chen Yu said coldly.

"I'm simply offering a kind reminder, lest Young Master Gu wastes time in vain."

...

The Black Poison King hadn't intervened in the argument between the two Young Ancestors, but seeing it intensify, he spoke to stop them: "Gentlemen, please don't lose your temper. If you fight, my alchemy room will be destroyed."

Only then did Chen Yu and Young Ancestor Feng cease their quarrel.

Chen Yu would still have many future interactions with the Black Poison King, so he certainly couldn't afford to make him averse to him.

"Black Poison King, I'll take my leave now."

Having obtained what he wanted, Young Ancestor Feng prepared to leave.

"Young Master Gu, I'm also looking forward to what successes you might achieve."

Young Ancestor Feng sneered before leaving.

Chen Yu wasn't actually angry but feigned great indignation and said to the Black Poison King, "Black Poison King, Young Ancestor Feng goes too far. If I don't show some results, he will keep belittling me. I'll need your guidance in the coming days."

Thanks to Young Ancestor Feng's disruption, Chen Yu found a reason. Even frequent visits to consult the Black Poison King about poison would not arouse suspicion.

"Hahaha, if Young Master Gu is interested, I certainly won't be stingy."

The Black Poison King laughed heartily, not taking it seriously.

Then, Chen Yu also left.

Initial contact, just enough for now.

After departing, Chen Yu arranged to meet King Qingcheng.

Since the latter had already pledged allegiance to Young Ancestor Feng, their meeting had to remain undiscovered.

"King Qingcheng, why didn't you inform me that Young Ancestor Feng plans to leave the Blood Sea Realm and head to the Great Yu Realm to seek out Chen Yu?"

Chen Yu's expression was cold.

"My king learned of this only recently and thought it wasn't a big deal, so I didn't report it to you, Young Ancestor."

King Qingcheng spoke with a hint of guilt.

As an inside agent, his own safety was his priority, so he wasn't very diligent.

"You must accompany Young Ancestor Feng to the Great Yu Realm and quietly leak the information so that Young Ancestor Feng returns empty-handed, or better yet, never returns at all."

Chen Yu's icy words echoed.

King Qingcheng's heart trembled. He hadn't expected Young Master Gu to be so ruthless.

Nonetheless, if Young Ancestor Feng perished in the Great Yu Realm, King Qingcheng would no longer need to act as an inside agent, and Young Master Gu would have one less formidable competitor, smoothing his path forward.

This was indeed beneficial.

"Understood."

King Qingcheng nodded.

Chen Yu chuckled coldly to himself.

He didn't need to do anything—letting King Qingcheng and Young Ancestor Feng engage in a struggle, regardless of the outcome, Chen Yu stood to lose nothing.

"Young Master Gu, do you know the whereabouts of Yu Da?"

King Qingcheng asked actively.

Not long ago, he planned to cause trouble for Yu Da, but couldn't find him.

"No idea. That night Yu Da didn't pledge allegiance to me; I haven't seen him since he left."

Chen Yu unequivocally denied.

King Qingcheng was momentarily stunned. Yu Da hadn't allied with Young Master Gu, rendering his previous efforts pointless.

A significant loss, King Qingcheng thought to himself with some frustration.

Their meeting was brief, and after a few words, they parted ways.

Three days later.

King Qingcheng left the Blood Sea Realm with Young Ancestor Feng.

Five days later.

It was discovered that Yu Da had fallen, investigated by the Blood Race.

The mysterious demise of a Half-step Condensing Star was indeed significant.

The Law Enforcement Team investigated for a long time without any conclusion.

Suddenly, Prophet Mi declared, "Yu Da's death is linked to Chen Yu."

This statement struck the Blood Sea Realm like a thunderclap, causing an uproar!

Although Prophet Mi didn't say Chen Yu was lurking in the Blood Sea Realm, that was the implication.

If Chen Yu wasn't in the Blood Sea Realm, how could he have killed Yu Da?

Instantly, the entire Blood Sea Realm was sealed off, with entries and exits subjected to inspections triple the rigor of before.

Meanwhile, inside the Blood Sea Realm, everyone became vigilant, eager to capture Chen Yu and claim the Heart Extinguishing Emperor's bounty.

However, the Blood Sea Realm is a vast domain, making it challenging to locate a single individual.

Inside his cave, Chen Yu relied on his subordinates to keep a meticulous watch over the entire Blood Sea Realm's dynamics.

He wasn't worried, as his actions in disguising as Yu Da were exceedingly discreet, and barely anyone knew of his visit to Hengshan Ridge.

Moreover, few would dare to investigate Young Masters.

"Expel all servants from the cave. Anyone approaching my cave must be strictly inspected."

Taking advantage of the situation, Chen Yu dismissed the Blood Clan members from his residence, significantly lowering the chance of exposure.

In the days to come, he mostly focused on cultivation, occasionally visiting the Black Poison King to inquire about poison-related matters, leading a relaxed and enjoyable life.

"Young Master Gu, what you said earlier was incorrect."

The Black Poison King frowned.

He had assumed that offspring of the Blood-sucking Clan would be highly talented, capable of learning anything quickly.

But Young Master Gu was too dull-witted, unlikely to achieve much.

In truth, Chen Yu wasn't genuinely delving into poison but used it as a pretext to approach the Black Poison King.

"Black Poison King, you must assist me; otherwise, Young Ancestor Feng will certainly ridicule me. I lack talent, but I'm doubly determined. I'll seek your guidance often."

Seeing Chen Yu's determination, the Black Poison King was unable to refuse, though it meant frequently answering some very simple questions, which was a burden.

Chapter 929: Take Action!

Inside the cave dwelling, Chen Yu sat cross-legged, cultivating and refining Half-step Primordial Power.

The amount of True Yuan was significantly less than before, and floating in the True Yuan Sea, a dazzling orb of light emitted a strong white halo—this was the Half-step Primordial Power that Chen Yu had refined.

A year had passed in the Blood Sea Realm.

Chen Yu's True Yuan conversion was already thirty percent complete.

The further he progressed, the slower it became, with few able to convert half of their True Yuan into Half-step Primordial Power.

"With my current strength, not even Young Ancestor Feng can do anything to me now, right?"

Chen Yu's confidence surged.

The increase in Half-step Primordial Power allowed him to use mystic weapons more frequently, greatly enhancing his strength.

"Someone, go fetch another set of the cultivation materials I need."

Chen Yu shouted, and his subordinates outside began to act.

As the Bloodline Young Ancestor, each month he could consume a certain value of rare materials for free.

In the Blood Sea Realm, Blood Path rare materials were the most precious, while other cultivation materials were much cheaper. For Chen Yu, the treatment he enjoyed here was even better than in the Great Yu Realm.

Soon, a pile of rare materials and Elixirs was delivered.

Chen Yu only consumed a portion of these, but he took whatever he could. Whatever he couldn't use, he stored in his storage space, planning to sell it upon returning to the Great Yu Realm.

Next, Chen Yu began practicing the "Heart Killing Technique."

The "Heart Killing Technique" had four layers; Chen Yu had perfected the first layer and was now entering the second layer.

The second layer of the "Heart Killing Technique" had even greater heart-shaking power, with the heartbeat speed tripling and the vibrations becoming more forceful. When suddenly unleashed, those with weaker physiques could have their entire body's blood and True Yuan thrown into chaos, bleeding from the seven orifices.

"Just the second layer is so powerful; I wonder what the 'Heart Splitting' of the third layer will be like."

Chen Yu anticipated internally.

But this Secret Technique was quite difficult, and progress in cultivating it was slow.

However, after investigation, he found that his cultivation speed of the "Heart Killing Technique" was among the top in the entire Blood Sea Realm.

The "Heart Killing Technique" couldn't be practiced continuously for too long; otherwise, it would harm the heart and body.

A day later.

Chen Yu ended his cultivation and habitually headed to Black Poison King's cave dwelling.

"Black Poison King, I'm here to consult you again, Young Ancestor."

Chen Yu walked in with a full smile.

This year, he frequently interacted with Black Poison King, gradually becoming familiar with each other.

The originally excited Black Poison King's face instantly turned down: "Young Ancestor, you used to come once a month; this time, you came early..."

Every time, Chen Yu would ask some very simple questions, and Black Poison King had to explain them very carefully.

To think a master-level poison refiner like him had to address such childish and low-level questions.

"I think the path of poison is too difficult; why don't you teach me poison refining, Black Poison King."

"If I could create some mysterious poisons, Young Ancestor Feng would have no reason to humiliate me anymore."

Chen Yu laughed.

"...You can try it."

Black Poison King pondered for a moment and said.

Although he didn't think highly of Young Master Gu initially, many poison cultivators have ended up creating world-famous mysterious poisons from tinkering around.

He only hoped that Young Master Gu would achieve his goals soon and wouldn't bother him in the future.

Three days later, Chen Yu left Black Poison King's cave dwelling.

"Fortunately, this kid is quite focused when refining poison and won't bother me."

Black Poison King watched Chen Yu leave and returned to the alchemy room.

Just today.

Chen Yu heard good news.

Young Ancestor Feng returned to the Blood Sea Realm, but he suffered a severe setback during his trip to the Great Yu Realm, with many of his subordinates dying.

Allegedly, someone among Young Ancestor Feng's retinue betrayed him, deliberately leaking information, leading to Young Ancestor Feng being chased by the Great Yu realm's king, barely escaping with his life.

Young Ancestor Feng's cave dwelling.

"Damn it, Young Master Gu, I won't let you off."

Young Ancestor Feng roared, wild blood flames rampaging through the hall, turning the entire hall into a charred ruin in an instant.

"Young Ancestor Feng, since Young Master Gu has harmed you like this, shouldn't we do something?"

Beside him, a Half-step Condensing Star Realm person asked.

"This Young Ancestor will not let him off!"

Young Ancestor Feng, filled with rage, said with a hideous expression, "But this is the Blood Sea Realm, so even this Young Ancestor cannot directly strike him."

"We're just going to let it go like that?"

His subordinates were also very unwilling.

This time, Young Ancestor Feng was utterly set up and suffered heavy losses.

In the eyes of outsiders, it seemed he had lost to Young Master Gu this time.

"Let's first spread the matter about King Qingcheng."

Young Ancestor Feng said with utmost gloominess.

This time when he went to the Great Yu Realm, it was King Qingcheng who leaked the information, and it was also found out by him.

Young Ancestor Feng severely injured King Qingcheng on the spot.

However, they were immediately surrounded by the Great Yu realm's kings. Young Ancestor Feng used King Qingcheng as bait to escape.

"This way, Young Master Gu's reputation will be ruined."

His half-step Condensing Star Realm subordinate chuckled.

Soon, a piece of news spread.

It claimed that Young Master Gu sacrificed King Qingcheng to frame Young Ancestor Feng.

Sacrificing a king to deal with Young Ancestor Feng made those following Young Master Gu shiver.

Subsequently, a Law Enforcement Elder came to investigate Chen Yu.

But with King Qingcheng dead and without proof, Chen Yu denied everything, and the incident was left unresolved.

"It's a pity that Young Ancestor Feng isn't the one who died."

Chen Yu sighed inwardly, as he hoped Young Ancestor Feng was the one who died.

However, you can't force things, and since Young Ancestor Feng didn't die in the Great Yu Realm, Chen Yu would personally take his life in the future.

Currently, Chen Yu focused his primary energy on cultivation and the Bloodless Poison.

...

Another year passed, and it was Chen Yu's second year infiltrating the Blood Race.

"The Black Poison King said that today I will witness the process of crafting the Bloodless Poison."

Chen Yu, full of energy, walked out of the cave and headed to the Black Poison King's residence.

Getting closer to the ultimate goal, Chen Yu felt that it would soon be within reach, and then he could slip away.

"Young Master Gu arrived early today."

The Black Poison King smirked sinisterly.

After learning poison crafting from the Black Poison King, Chen Yu had put in some effort and was no longer bothered by him, which put him in a good mood. Just as he needed to craft the Bloodless Poison, he allowed Chen Yu to watch.

The Black Poison King didn't think Chen Yu would learn much.

"Naturally, it's my great fortune to witness the crafting process of the legendary Bloodless Poison today. I couldn't wait any longer."

No more words were exchanged.

The Black Poison King began the poison crafting.

"Even the process of crafting ordinary Bloodless Poison is extremely complex, taking a total of twelve days, and only fifty drops can be made each time."

The Black Poison King placed thirty-nine different materials into the furnace.

Then, he released a ghostly green flame, the "Corpse Corrosion Flame," ranked ninety-eighth on the True Fire Spirit Flame List.

The potency of the Black Poison King's toxins has the Corpse Corrosion Flame to thank, in part.

Twelve days later.

The Bloodless Poison crafting was complete.

Bubbling!

Chen Yu shook the jade bottle in his hand; the liquid inside flowed like a clear stream, without revealing its nature as a fearsome poison.

"Black Poison King, what is the difference between ordinary Bloodless Poison and the one targeting Kings?"

Chen Yu inquired.

It was not a naive question; the Black Poison King chuckled and said slowly, "The Bloodless Poison targeting Kings contains the power of the Bloodline Ancestor's blood, making it difficult to expel even for those in the late stage of the Condensing Star Realm."

A glint shone in Chen Yu's eyes.

To think it contained the power of the Ancestor's Blood... the amount must be quite sparse, or Chen Yu could have sensed it.

"Moreover, I've incorporated a curse technique, meaning even those at the Xuanming Realm trying to cure it will be afflicted and influenced to some extent."

The Black Poison King said with a sense of pride.

"The power of the Ancestor's Blood is so formidable; I reckon there's no antidote in this world."

Chen Yu exclaimed.

"Heh heh, the poison I craft, how could there be no antidote."

The Black Poison King said arrogantly.

"Black Poison King, don't try to fool me."

Chen Yu shook his head in disbelief.

"Heh heh, Young Ancestor Gu, you can consider yourself as my disciple, so let me show you."

The Black Poison King chuckled wickedly.

After all, he had invested a lot of energy in Chen Yu. Although Chen Yu wasn't particularly promising, having learned little, his unique position within the Blood Race made the Black Poison King still value him.

The Black Poison King approached a heart experiment; half of it had already withered, blackened, and throbbed sluggishly.

He took out a metal box and opened it.

Inside was a jade bottle like an ice crystal, containing black powder.

Could this be the antidote?

Chen Yu's heart raced faster.

As the black powder fell on the heart, it liquefied instantly, sinking deep inside.

The blackened part of the heart quickly receded, gradually restoring vitality.

Whew!

A layer of black gas was expelled from the heart's vessels.

"This..."

Chen Yu displayed a look of shock.

He was certain that the black powder could neutralize the poison of a Condensed Star King.

Previously, Chen Yu had obtained pills from Young Ancestor Feng, which targeted the ordinary Venerable's Bloodless Poison.

"To think the Black Poison King carries the antidote... It complicates matters."

Chen Yu's thoughts raced.

The only way to obtain the antidote was to strike against the Black Poison King.

But the Black Poison King was at the mid-stage of the Condensed Star Realm, possessing formidable strength.

If he missed this chance, there might not be another.

"You've seen it, right?"

The Black Poison King smiled smugly, sealing the crystal jade bottle back into the metal box.

Chen Yu's eyes were riveted on the antidote, and his heart began to beat faster.

He speculated and weighed the options in his mind.

Suddenly.

Chen Yu made up his mind—to seize the antidote!

"I'm impressed. May I ask what precious materials were used for the antidote?"

Chen Yu respectfully inquired.

Before he even finished the question, he had taken out the Burning Sky Demon Halberd.

In fact, Chen Yu had long since prepared; the mysterious weapon was stored within a mysterious crystal space, so he summoned it with just a thought.

The Black Poison King was about to answer Chen Yu's question when he suddenly sensed something was wrong, his face turning to surprise.

Slash!

Chen Yu infused half-step primordial power into the mysterious weapon, activating it instantly, and slashed down fiercely.

Simultaneously, Chen Yu also slammed the Bloodless Poison in his hand into the Black Poison King's mouth.

The space of the alchemy room was small; Chen Yu was less than one meter away from the Black Poison King, and that bottle of potion was shoved into the Black Poison King's mouth in an instant.

Bang!

Chen Yu felt the mysterious weapon slam directly into the Black Poison King's head; a terrifying power instantly erupted, engulfing the entire alchemy room.

Chapter 930: Fleeing in Panic

To be able to live in the core area, one must be among the top high-level members of the Blood Sea Realm, high-ranking kings, or even the Emperor Xuanming.

Bang!

A deafening explosion came from the residence of the Black Poison King, and black flames shot out.

This loud noise disturbed many kings living nearby.

Most of the Blood Clan kings did not pay attention. The Black Poison King himself is an alchemist, and explosions during the potion-making process are considered normal.

However, a mid-stage Star Condensation king who was relatively close to the Black Poison King felt that something was wrong. Even if it was a potion explosion, the power was too strong.

Whoosh!

A shadow with astonishing momentum broke through the air, eager to investigate.

...

Chen Yu unleashed the [Burning Sky Demon Halberd] with full force, immediately leveling the small secret room.

This was, after all, the Black Poison King's alchemy room for crafting Bloodless Poison. The instruments, rare materials, and Bloodless Poison here were invaluable, but now nearly everything was destroyed.

Whoosh!

Chen Yu quickly retreated.

Although his mystic weapon hit squarely on the Black Poison King's head, he sensed that the opponent was not dead.

After all, the opponent was a mid-stage Star Condensation king and a descendant of the Blood Heart Clan; strong in vitality, not easy to kill.

Chen Yu immediately took out a Green Jade Token from the mysterious crystal space.

This token was left by the Qingyun Emperor. It can open a space passage directly to the Green Cloud Secret Realm.

This is why Chen Yu dared to strike boldly.

"Chen Yu!"

Within the black flame storm, a furious roar exploded like thunder in the heavens, bursting forth with endless anger.

From Chen Yu's previous strike, the Black Poison King guessed Chen Yu's identity.

He never imagined that the Young Ancestor he's been frequently interacting with for the past two years turned out to be Chen Yu!

The dignified mid-stage Star Condensation king in the poison path was being toyed with by a young junior; how could he not be angry?

Whoosh!

The storm was torn apart, the ruins turned to flying ash, revealing the Black Poison King.

The head of the Human-faced Evil Spider was smashed open by Chen Yu, exposing a hidden huge dark red heart inside.

Moreover, a blood mark was left on that dark red heart.

Chen Yu's sudden attack injured the mid-stage Star Condensation king!

Suddenly.

Black Poison King felt a spatial fluctuation.

"Not good, this kid has a spatial escape technique."

The Black Poison King's expression changed drastically.

He was originally just angry but not worried; if Chen Yu dared to attack him, he was undoubtedly going to die.

But what if Chen Yu used a spatial technique to escape the Blood Sea Realm?

It makes sense that if Chen Yu had no way to leave the Blood Sea Realm, he wouldn't be foolish enough to attack him.

Definitely can't let Chen Yu leave the Blood Sea Realm!

Buzz!

The token in Chen Yu's hand emitted a blue light cluster, constantly rotating, tearing space apart.

"Don't even think about leaving!"

The Black Poison King roared angrily, and the giant bloody heart glowed with a brilliant red light, as if a terrifyingly powerful force was about to burst out, unsettling Chen Yu's heart.

Chen Yu's eyes narrowed, sensing danger.

Possibly before the token opens the passage, the Black Poison King's attack will descend and crush him.

In this critical moment.

Chen Yu's mysterious heart entered the explosion method.

And at this instant, he activated the "Heart-Slaying Technique".

Over two years, Chen Yu's "Heart-Slaying Technique" had reached the second level of perfect realm, enhancing its power more than double.

Thump! Thump! Thump! Thump!

In the void, a thunderous blast sounded at incredible speed, shaking the surroundings.

The Black Poison King's true form, a heart, was greatly affected, violently jolted, with a terrifying kingly force spilling out.

Thump!

The Black Poison King's true form trembled again, three quick beats scattered all the power accumulated, turning into a turbulent black current, spreading everywhere.

"This is... Blood Heart Clan's Secret Technique 'Heart-Slaying Technique'."

The Black Poison King exclaimed in shock.

He naturally knew this as a powerful Secret Technique of the Blood Heart Clan, though he tried learning it long ago and later abandoned it to focus on the poison path.

His shock was clearly due to Chen Yu's "Heart-Slaying Technique", which unexpectedly affected him so greatly, scattering the accumulated Star Essence Power.

What's more, he had just consumed a bottle of Bloodless Poison. Though meant for venerables, it's effective against kings as well.

This poison targets the heart, and since the Black Poison King's true form is a heart, its lethality is immense.

And under the effect of the "Heart-Slaying Technique", the Black Poison King's inner blood and energy became chaotic, letting the Bloodless Poison instantly seep in.

That was a full fifty drops of Bloodless Poison, swallowed entirely by the Black Poison King.

Soon, one could see the Black Poison King's giant heart body starting to show black spots, its aura weakening.

Swish!

At this moment, a complete space passage appeared before Chen Yu, and he instantly stepped inside.

The next moment, the entrance to the passage vanished.

"No..."

The Black Poison King screamed to the sky, and his entire mansion erupted in continued explosions, finally collapsing into ruins.

Compared to his current fury, his mansion and alchemy room were insignificant.

He was sneak-attacked by a young junior of the Human Race and allowed that opponent to escape right in front of his eyes!

The Black Poison King was somewhat maniacal, longing to immediately go poison a few billion human beings.

Just then, a shadow descended from the sky.

"Black Poison King, what happened?"

The mid-stage Star Condensation king looked surprised at the mansion turned to ruins.

This is the core of the Blood Sea Realm, the mansion of the Black Poison King. Who dared to destroy it?

Even though both were at the mid-stage Star Condensation Realm, the Black Poison King mastered various strange poisons; even he was reluctant to offend this vicious and venomous King.

Just at this moment, some powerful figures began to arrive here.

"Chen Yu, Young Master Gu was disguised by Chen Yu. He ambushed me."

The Black Poison King said angrily.

The expressions of the powerful figures instantly showed shock, unimaginable!

Over the years, the Blood Sea Realm has been strictly guarded, and internal inspections have been conducted several times, but nothing was discovered.

Who would have thought Chen Yu actually disguised himself as Young Master Gu!

They searched over and over, yet didn't expect Chen Yu would have the audacity to disguise as Young Master Gu.

"Black Poison King, even if Chen Yu ambushed you, you're a mid-stage Star Condensation Realm King; how did it come to this?"

"Was there no damage done?"

The Black Poison King was stunned for a moment, he swept with his Spiritual Sense, then his expression changed dramatically.

The antidote for Bloodless Poison... is gone!

He looked ashen, his figure frozen!

Bloodless Poison was meticulously arranged by the Blood Clan for decades, playing a decisive role in the outcome of the war.

But now, this plan might come to an abrupt end.

Swish!

In the void, a long-haired elder in a black robe sped over.

His gaze was as deep as a blood-red starry sky, exuding age and wisdom.

"Prophet Mi!"

The Kings gave a respectful salute.

The Prophet Mi was quite far from here, but the moment Black Poison King's mansion exploded, he sensed the ominous situation and hurried over.

The Prophet Mi ignored the Kings present, he waved his wooden staff, and a wave of strange and unpredictable power surrounded him.

He seemed to be in a vast sea of blood-red stars.

Everyone knew the Prophet Mi was deducing.

The crowd held their breath, waiting quietly, not daring to disturb the Prophet Mi.

Suddenly.

The Prophet Mi opened his eyes and said, "Eastern Domain of the Great Yu Realm, Tian Nan Sea, Lost Mountains!"

This time, the aura from the spatial passage used by Chen Yu lingered; the Prophet Mi smoothly deduced Chen Yu's approximate location!

"No matter what, we must kill him!"

"This brat is too audacious, he thinks the Blood Sea Realm is his backyard!"

The Kings were extremely indignant.

Just at this moment, the Black Poison King unexpectedly said, "The antidote for Bloodless Poison has been stolen by him."

As soon as this statement came out, everyone present was greatly shocked, their minds were terrified.

On the other side, Young Ancestor Feng now had a high status in the Blood Sea Realm, and he was extremely concerned about Chen Yu's matters.

On the day when the news reached his ears, Young Ancestor Feng was stunned for a moment.

"Damn it, Chen Yu, Young Master Gu, I was deceived by you!"

Young Ancestor Feng gnashed his teeth, eyes widened in anger.

He tried every means possible to get rid of Chen Yu, only to find out that Chen Yu was right in the Blood Sea Realm, near him, even interacting with him, yet he was oblivious.

At this moment, he thought of the King Qingcheng incident, instantly filled with rage.

A member of the Human Race using the Blood Clan's power to deal with the Blood Clan, what a disgrace and humiliation.

"I will surely kill him with my own hands."

Young Ancestor Feng remembered Prophet Mi's divination earlier, shivered all over, and a sense of crisis arose in his heart.

...

On the other side, Chen Yu returned to Qingyun Cave Mansion.

"Hahaha!"

He couldn't help but laugh aloud.

This time, the Blood Clan yielded even more than the first time.

Not only did he kill a Young Ancestor, causing a Blood Clan King, King Qingcheng, to die a miserable death, Young Ancestor Feng suffered heavy losses, barely escaped with his life, but he himself was also revered within the Blood Clan, resources were inexhaustible, and in the end, he snatched away the antidote from the Black Poison King.

Swish!

A metal box suddenly appeared before Chen Yu, he opened it, inside lay an ice-crystal jade bottle containing black powder, it was the antidote for Bloodless Poison.

The Black Poison King didn't expect Chen Yu would suddenly attack him, nor did he anticipate Chen Yu would steal the antidote right under his nose.

In the moment of attacking the Black Poison King, Chen Yu quickly stored the metal box in the mysterious crystal space.

"Master, your illness can be cured!"

Chen Yu's eyes gleamed with brilliance.

"Yet, the mid-stage Star Condensation is indeed terrifying; if I had been a moment later, the result might not have been like this."

Chen Yu's heart gradually calmed down.

Facing the Early Stage of Star Condensing, he feared nothing, but the mid-stage Star Condensation gave Chen Yu an extremely dangerous feeling.

Of course, this is just for now.

In two years in the Blood Sea Realm, his cultivation never ceased, and his level was now very close to the Star Condensation Realm.

"Return to Black Demon Valley first, to detoxify my Master."

Chen Yu made a decision.

He hadn't checked on the Silent Blood King for quite some time, the other was deeply poisoned, not knowing the current situation.

Before setting off.

He arrived at a medicine garden, his gaze fell on the last field covered by an array barrier.

Taking out the Burning Sky Demon Halberd, with one strike, the array barrier shattered.

The precious materials inside were beneficial to Star Condensation Realm Kings.

Chen Yu picked some rare materials that enhance cultivation and assist in breaking through to the Star Condensation Realm.

Next, he entered a secret chamber storing two mysterious artifacts, respectively a green jade gourd and a black greatsword, also covered by an array.

Initially, Chen Yu was unable to take these two mysterious artifacts, but now it was easily done.
