Chapter 931: Swallowing Magic Gourd

Chen Yu easily acquired the two mystical artifacts left in the secret realm by the Qingyun Emperor.

To use these mystical artifacts, they need to be refined, otherwise, their power is only slightly stronger than top-grade spiritual artifacts.

The black greatsword and the [Burning Sky Demon Halberd] were both offensive mystical artifacts with similar quality. Since Chen Yu already had the [Burning Sky Demon Halberd] and found it more suitable, he didn't refine the black greatsword for now but chose the jade gourd instead.

In less than half a month, Chen Yu successfully refined it.

"Not bad, not bad, [Swallowing Magic Gourd]!"

Chen Yu gazed with interest at the gourd in his hand, its ancient patterns giving a sense of weightiness.

The [Swallowing Magic Gourd] is an auxiliary mystical artifact, but its effect was beyond Chen Yu's expectations.

It can swallow people's spells and combat techniques.

This surpasses an ordinary defensive mystical artifact by a wide margin.

Defensive mystical artifacts can block enemy attacks to preserve life.

But the [Swallowing Magic Gourd] can swallow the enemy's attack, unexpectedly achieving surprising results.

Of course, using the [Swallowing Magic Gourd] consumes more than using a regular defensive mystical artifact.

"It's time to leave."

Chen Yu stood up and walked out of the Qingyun Cave Mansion.

He still had some matters to attend to in the Eastern Domain, such as visiting the Emperor of the Yin Clan or checking in on the old Meng Family Village to meet Ye Luofeng.

But he decided to return to Black Demon Valley first to remove the Silent Blood King's Bloodless Poison.

After accomplishing all of this, he would then prepare to close off and impact the Condensed Star Realm.

...

During the two years Chen Yu infiltrated the Blood Race, the war continued waging, expanding over nearly a hundred realms with countless casualties.

At that time, Chen Yu, esteemed as the Bloodline Young Ancestor, could avoid combat but was aware of some details.

The Great Yu Realm was in the grip of the Bloodless Poison crisis, fighting back desperately in hopes of gaining some advantage.

The alliance between the Blood Race and the alien races employed a delaying strategy, waiting for the widespread outbreak of the Bloodless Poison among the kings before launching a full-scale counterattack.

But their plans were thwarted half a month ago.

From the mouth of the Black Poison King, the Blood Race high echelons learned that the antidote for the Bloodless Poison was stolen by Chen Yu.

This news shocked the entire Blood Race top brass, even affecting several Great Emperors.

The Black Poison King's status within the Blood Race was repeatedly lowered, and he was eventually expelled from the core area because his previously held value was completely lost; this was his punishment.

As for the entire affair,

The Blood Race did not publicly announce it, as it was a grave humiliation.

They only informed some high-ranking members of the alien races.

This left the Great Yu Realm completely in the dark, still in a dire situation.

Within the Great Yu Alliance, many great powers from the Human Race and Demon Race were discussing how to handle the Bloodless Poison.

"The Bloodless Poison issue has dragged on for over three years; there must be a concrete plan on how to resolve it."

"If Chen Yu hadn't snatched an antidote from Young Ancestor Feng back then, the ordinary type of Bloodless Poison alone could have had a devastating impact on us."

The antidote Chen Yu acquired was studied by numerous Alchemy Masters in the Great Yu Realm and eventually replicated, although its efficacy was significantly reduced since some commonly used Blood Sea Realm herbs were scarce in the Great Yu Realm.

With the antidote developed, those below the king level affected by the Bloodless Poison received alleviation, entering a long-term treatment phase.

But the Bloodless Poison affecting the kings still stood as an insurmountable mountain before everyone.

The Bloodless Poison was created by the mid-stage Star Condensation Realm king in the Blood Sea Realm known as the 'Black Poison King.' He never leaves the Blood Sea Realm, and our people find it extremely hard to sneak in and get close to the Black Poison King—with a one in ten survival chance.

A failed attempt meant death, with a failure rate over ninety percent; no one dared to try.

"Damn it! My Poison King Sect's two kings are afflicted with this poison..."

The Western Poison King Sect, renowned for its poison, faced difficulty due to this poison, which was naturally a grave humiliation.

...

To travel from the Eastern Domain to the Southern Domain, one must pass through the Great Yu Alliance, saving much distance.

"In that case, I'll leave some antidote and give the rest to the Great Yu Alliance."

Chen Yu made up his mind.

He believed that his merit would not go unrecognized by the Great Yu Alliance.

The journey was long, and Chen Yu rode the Earth Dragon Battleship, speeding through the sea of clouds.

However, just after leaving the Lost Mountain Range,

"Blood Race!"

The mysterious heart sensed the approach of the Blood Race, their presence intense.

Having spent so long among the Blood Race, Chen Yu could even determine the opponent's cultivation based on the mysterious heart's perception.

At this moment, Chen Yu sensed that the approaching Blood Race member was a king!

Whoosh!

Chen Yu suddenly dashed out.

In the distance, a frigid purple-red blood light slashed across the sky, shattering the clouds.

The intruder was the Cold Blood King.

Chen Yu's first infiltration into the Blood Race was led by him, and Chen Yu's escape and damage to the Holy Artifact was partially due to the opportunity he provided.

Especially now, aware of what Chen Yu did during his latest infiltration, the Cold Blood King's inner killing intent was boundless.

"Slash!"

Facing the Cold Blood King's lethal strike, Chen Yu wielded the [Burning Sky Demon Halberd], slashing downward. A black metallic light hundreds of feet long shot forth.

Bang!

Their blows clashed fiercely, their energy surging skyward.

"Even today, this guy's strength is already so terrifying; I'm afraid it won't take him ten years to break through to the Condensed Star Realm,"

The Cold Blood King was taken aback.

It was remarkable that Chen Yu, not yet sixty, could become a king within ten years, at seventy.

In nearly a thousand years, the youngest king in the entire Great Yu Realm was only made king at the age of 101.

"Now is the best time to kill him; we must not miss this opportunity."

The Cold Blood King's intent to kill was resolute.

But after blocking the Cold Blood King's strike, Chen Yu turned and fled.

"I didn't expect the Blood Race to move so quickly and to have located me already,"

Chen Yu thought inwardly.

He had been lurking in the Blood Race for so long, naturally he knew, the Blood Race had individuals skilled in divination, and there was a prophet named Prophet Mi with a very high status.

But Chen Yu heard that the previous attempts by Prophet Mi to divine his existence had yielded no good results, which gradually made Chen Yu feel that this prophet was not that capable, lowering his guard.

Unexpectedly, this time, Prophet Mi divined Chen Yu's location through the means Chen Yu used upon leaving.

Immediately, the Blood Race dispatched a strong force, infiltrating the Great Yu Realm, and mobilized all forces lurking within the Great Yu Realm to eliminate Chen Yu.

"Lost Mountain Range... Green Cloud Secret Realm."

Chen Yu immediately returned to the Lost Mountain Range.

Here, fog abounded, severely weakening the five senses, and even Spiritual Sense was strongly hindered, increasing the difficulty for Cold Blood King chasing Chen Yu.

And once Chen Yu returned to the Green Cloud Secret Realm, Cold Blood King would be helpless against Chen Yu.

"According to information from the upper levels of the Blood Race, there might be an ancient Array or a secret realm hidden in the Lost Mountain Range."

Cold Blood King thought to himself.

Upon entering the Lost Mountain Range, his Spiritual Sense could extend less than two thousand feet.

And Chen Yu's speed was not slower than his in the slightest.

"Damn it."

Cold Blood King cursed under his breath, at this rate, he might even lose track.

Boom!

A brilliant purple-red starlight surged around him, making him look like a shining star.

Cold Blood King's speed increased by thirty percent, instantly catching up with Chen Yu.

"Go!"

Cold Blood King moved with incredible speed, summoning a purple blade, its edge like crystal, exuding immense power.

Whoosh!

The purple blade sliced through the air with a brilliant blood-purple glow, directly pursuing Chen Yu.

Facing Cold Blood King wielding a mystic artifact, Chen Yu could only defend using a mystic artifact.

Whoosh, clang! Ding dong!

Chen Yu hurled the Burning Sky Demon Halberd, and the two mystic artifacts collided fiercely in mid-air, unleashing a destructive storm.

Whoosh!

The two mystic artifacts were flung apart, the Burning Sky Demon Halberd returning once again to Chen Yu's hand.

He did not tangle further with Cold Blood King, heading straight towards the Green Cloud Secret Realm.

With his current strength, he could face a King in battle, but achieving victory was exceedingly difficult.

"Let's see how many times you can activate a mystic artifact."

Cold Blood King shouted coldly.

Clang! Bang bang bang!

In the Lost Mountain Range, the booming explosions continued, leaving enormous craters and flattening mountain peaks.

"Damn, how does he have so much half-step Primordial Power?"

Cold Blood King was inwardly astonished.

He could sense that Chen Yu was using half-step Primordial Power to activate mystic artifacts, but there seemed to be too much of it.

Having exchanged five moves, Chen Yu still appeared to have energy to spare.

Just then, Chen Yu reached the location of the Green Cloud Secret Realm.

"Open!"

Chen Yu took out the Token, made a slicing motion, and a deep cyan vortex appeared before him, with space power fluctuations emanating.

Cold Blood King's gaze sharpened, unexpectedly there truly was a secret realm here.

He absolutely couldn't let Chen Yu hide inside.

"Die!"

Cold Blood King's aura surged, endless red-purple currents raged like a storm.

"Absolute Blood Slash!"

Cold Blood King infused a blood-colored mark into the mystic artifact.

The mystic artifact immediately radiated dazzling brilliance, unleashing formidable power, spinning and dancing in the void, then fiercely slashing forth at a certain moment.

Boom!

Infinite red-purple blood light, like a waterfall five to six hundred feet long, poured down from the sky, threatening to drown everything.

"Swallowing Magic Gourd."

A flash of cyan light appeared before Chen Yu, revealing a cyan gourd.

Pa!

Chen Yu slapped his palm on it, channeling half-step Primordial Power into it.

A vast and deep cyan light current flowed out from the gourd's mouth, forming a massive vortex encompassing a thousand feet around.

Whoosh whoosh whoosh!

When Cold Blood King's terrifying strike fell, it twisted, ultimately being absorbed into the vortex.

In a single breath, Cold Blood King's kill strike disappeared without a trace.

"This... Swallowing Magic Gourd!"

Cold Blood King was stunned for a moment, then cried out the name of the Swallowing Magic Gourd, his eyes red with envy.

Whoosh!

Chen Yu entered the secret realm, and the entrance vanished immediately.

"Damn Blood Race."

Chen Yu cursed.

With his strength, he didn't necessarily have to fear Cold Blood King too much.

But Chen Yu knew his actions surely incensed the Blood Race and other races, they would definitely dispatch more than just one Cold Blood King.

If he were halfway through the battle and suddenly more strong foes arrived, it would be over.

So Chen Yu decided to temporarily avoid confrontation.

Hiding in the Green Cloud Secret Realm was not the best plan.

"I originally intended to resolve the Bloodless Poison issue, then go into seclusion to break through to Condensed Star, but now it seems I need to adjust the order."

Chen Yu's figure flashed, entering a closed-door cultivation chamber.

Chapter 932: Breaking Through to Condensed Star

Breaking through to the Condensed Star Realm is a significant matter.

Chen Yu is still young, with his Half-step Primordial Power conversion rate below fifty percent. He originally planned to wait a while longer, then close himself off to consolidate it before attempting the breakthrough.

However, the current situation is special, and it must be done immediately.

Moreover, he still has considerable assurance in his success.

The "Six Elements Returning to Heaven Technique" is different from ordinary cultivation techniques, allowing him a stable foundation.

This means that, without external interference, the success rate of cultivating "Six Elements Returning to Heaven Technique" to break through to the Condensed Star Realm is higher than practicing other techniques.

Furthermore, Chen Yu has a "Flying Star Pill," which can increase the probability of breaking through to the Condensed Star Realm.

Add to that, he also possesses a "Blood Star Holy Pill."

This was a miraculous elixir created by King Wan Yao for himself to break through to the Condensed Star Realm.

Its efficacy is similar to the Flying Star Pill, but its principles differ, enabling it to have a combined effect with the Flying Star Pill.

With these three major protections, Chen Yu is very confident about breaking through to the Condensed Star Realm.

Rumbling!

Chen Yu holds the Green Jade Token, activates the Gather Primordial Array, and extracts the Heaven and Earth Spiritual Qi from the Yuan Stone Vein beneath the cave mansion.

Upon sensing, Chen Yu realizes the energy within the Yuan Stone Vein has significantly depleted.

Perhaps it is because the Blood Sea Realm is too distant, consuming additional energy to open the spatial channel.

Chen Yu doesn't worry much about this, as everything is worth it.

Inside the secret chamber, dense mist fills the air within five breaths' time, a phenomenon resulting from the massive condensation of Primordial Qi.

Chen Yu operates the "Six Elements Returning to Heaven Technique," his body gleaming translucently like divine jade, exuding immense suction power to absorb all surrounding Heaven and Earth Primordial Qi.

...

Outside the Green Cloud Secret Realm.

The Cold Blood King arrives at the place where Chen Yu vanished, observing carefully but finding no flaws.

"Chen Yu, don't think that hiding within the secret realm makes you untouchable to this King."

The Cold Blood King snorts coldly.

"This time, you've gone too far; the Blood Race hasn't sent me alone, even other races have intervened in this matter!"

Murmuring, he retrieves a communication token.

This time, Prophet Mi divined the rough location where Chen Yu left the Blood Race to head towards.

But only a limited few could reach the nearby Mislead Mountain Range first.

And many powerful figures expect that after reaching here, Chen Yu would head to the Great Yu Alliance, thus ambushing midway.

In summary, the enemies coming to kill Chen Yu are scattered all over!

"Chen Yu is still in the Mislead Mountain Range, hurry here."

The Cold Blood King sends out a message.

The same day, someone contacts the Cold Blood King.

He leaves this place to come outside the Mislead Mountain Range, meeting two Half-step Bloodline Kings.

"Greetings, Cold Blood King, has the lord captured Chen Yu?"

One of them asks.

"The boy is hiding within a secret realm. From now on, you will stay here to welcome others who come here."

The Cold Blood King gives an order, leaving behind a route map, then enters the Mislead Mountain Range.

The two are briefly stunned, feeling as though their roles were reduced to being receptionists despite being two Half-step Kings.

However, the King's order could not be defied.

"Heh, but this time in the encirclement to kill Chen Yu, we can also contribute and receive some benefits."

"Moreover, didn't you hear the Cold Blood King say? Chen Yu is hiding in a secret realm; a secret realm is akin to a treasure trove."

"But if Chen Yu keeps hiding in the secret realm without coming out, what do we do?"

One of them concerns.

...

What Chen Yu did in the Blood Race remained unknown in the Great Yu Realm.

Now, even as Chen Yu returns to the Great Yu Realm, no one is aware.

But as soon as the Cold Blood King sends the message, enemies from various places to kill Chen Yu simultaneously move, heading towards the Mislead Mountain Range.

This naturally draws the attention of some strong figures in the Great Yu Realm.

Elsewhere in the Southern Domain, a Half-step Condensing Star Realm member of the Blood Race gets exposed, kills another Half-step Condensing Star, immediately flees, but gets slain by a Condensed Star King with a single palm strike.

In summary, many powerful figures in the Great Yu Realm sense something is happening, but they don't know what major event is about to unfold.

Five days later.

Within the Mislead Mountain Range.

Apart from the Cold Blood King, two more Kings have arrived.

One is a beautiful lady with snow-white skin and fiery red lips in a black skirt, exuding allure.

The other sports dragon horns and scales, radiating a stately aura.

Besides these two Kings, there are also two Half-step Kings nearby.

To deal with Chen Yu, the lowest cultivation level is a Half-step King; any lower would simply mean sending heads in vain.

"Tsk, tsk, didn't expect Prophet Mi to be right; there is indeed a secret realm here. What skill does this boy have to possess such a place?"

The black-skirted woman, exhibiting slight disdain, says arrogantly.

"Night Toad King, what's the point of saying all that, is there a way to break through?"

The Cold Blood King speaks coldly.

If there's no method to force Chen Yu out, then he can continue to hide indefinitely, leaving them helpless.

This is the Great Yu Realm; the longer the delay, the less favorable it is for them.

"Hehe, since Prophet Mi foresaw it, naturally there's preparation."

The black-skirted woman "Night Toad King" turns her palm, revealing four array flags.

"These are 'Spatial Law Array Flags,' which can reveal other spaces hidden within the spatial realm."

This Spatial Law Array Flag was brought from the Blood Race; if Chen Yu hides within a spatial secret realm, these flags are the means to unravel it.

"To set up this array, four Kings are required; you two work together to control one flag each."

Night Toad King instructs the two Half-step Kings.

"Yes."

The two Half-step Kings nod quickly.

Swoosh—

The crowd dispersed and moved to the four corners of the mountain peak, forming a square.

Five people simultaneously activated the array flags, from which dark red ripples surged, like ripples stirred by a stone falling into water, spreading in all directions, eventually dissipating, merging into the void.

The five continuously formed spells with their fingers, injecting waves of Primordial Power and Half-step Primordial Power into the array flags.

Moments later, the array formed!

The entire square-shaped array radiated a powerful and stable spatial fluctuation.

Above this array, a huge phantom emerged, displaying a landscape of mountains and rivers, where even demon beasts could be seen wreaking havoc.

This scene seemed illusionary.

But everyone present knew that this was the scene within the hidden secret realm space here.

"The spatial array flags require two king-level figures to maintain."

Night Toad King said.

In the end, the two half-step kings and the Dragon Horn King were responsible for maintaining the array.

While Night Toad King and Cold Blood King were responsible for attacking the secret realm.

Once broken through, they could enter and take Chen Yu's head.

"Strike!"

A purple crystal blade appeared in front of Cold Blood King, transforming into a red-purple meteor, striking up towards the sky.

Night Toad King also summoned a black pearl, releasing a vast, pitch-black mist that blasted forth.

...

The world inside the Green Cloud Secret Realm trembled slightly.

All life within faced imminent threat, panicked and fearful.

But inside Qingyun Cave Mansion, Chen Yu was almost unaware, unaffected.

"Blood Star Holy Pill!"

Chen Yu's thoughts moved, and from the Light Silver Crystal Space, he took out an elixir the size of a baby's fist, resembling a miniature magnificent star, emitting a brilliant dark red starlight.

"The master is finally breaking through to the Condensed Star!"

A slightly childish joyous voice emanated from within the Blood Star Holy Pill, which was the Dan Spirit.

Swish!

The Blood Star Holy Pill rushed into Chen Yu's mouth.

When Chen Yu fought for this elixir, whoever dared to swallow the Blood Star Holy Pill would end up exploding to death.

With Chen Yu's current cultivation, the power of the Blood Star Holy Pill swiftly surged through his entire body, eventually entering his Dan Field Qi Sea.

Above the True Yuan Sea, there originally floated a group of white halos, which was the Half-step Primordial Power.

But suddenly, endless streams of blood-red light converged, forming a blood-red crystal ball, emitting dazzling brilliance, even more radiant than the Half-step Primordial Power.

The Flying Star Pill can promote the condensation of the Primordial Power Star, increasing the probability of impacting the Condensed Star Realm.

But the Blood Star Holy Pill is different.

As soon as the blood-red crystal ball appeared, it emitted a powerful suction, pulling in the nearby Half-step Primordial Power, merging with it.

This is the distinct feature of the Blood Star Holy Pill!

It uses the elixir itself as the foundation for condensing the Primordial Power Star!

Gradually, the blood-red crystal ball turned into a perfectly round white light ball, like a brilliant star.

"Flying Star Pill!"

Chen Yu once again took out an elixir and swallowed it down.

The Flying Star Pill was white and transparent, melting upon entering the mouth, becoming warm currents that flowed throughout the body.

After swallowing the Flying Star Pill.

Chen Yu clearly felt that the speed of condensing the Primordial Power Star accelerated slightly.

When all the Half-step Primordial Power was fully condensed into a mass.

The True Yuan Sea below boiled up, turning into strands of True Yuan flow, gathering upward, wrapping around the white star, gradually seeping into it.

Compared to Half-step Primordial Power, the speed of True Yuan blending into the Primordial Power Star was much slower.

Besides the condensation of the Primordial Power Star.

To become a Condensed Star King, one must comprehend the Mystical Level!

At this moment, Chen Yu's soul was in a mysterious state, his spiritual sense spreading out like a shining star, merging into the heavens and the void.

His mind contained insights of the realm, and now Chen Yu was relying on his own realm insights to perceive higher levels of mystical heaven and earth!

Condensing the Primordial Power Star and integrating the Mystical Level into it, that is the Condensed Star Realm!

But these two tasks are incredibly difficult.

This is why the impact on the Condensed Star Realm is so challenging, countless half-step Condensed Stars struggle their entire lives to cross this threshold.

"What's going on, Spatial Realm..."

Chen Yu was slightly startled inside.

Originally, his mind was perceiving the realms of heaven and earth.

He had already understood many realms himself, and several deeply, like the Demon Realm, Blood Intent Realm, Fire Intent Realm, and Spatial Realm.

As long as any one of them ascends to the Mystical Level, he would succeed!

But to Chen Yu's amazed discovery, just shortly after trying, his insights into the Spatial Realm surged out like spring water!

In less than two hours!

Space Mystical Level, accomplished!

This was too fast.

Chen Yu could feel it was the mysterious heart's effect, he even had an illusion that these insights did not originate from his own comprehension but emerged from the mysterious heart.

At this moment, his spiritual sense seemed to touch the space barrier of the Green Cloud Secret Realm.

"The entire space is shaking, someone outside is attacking!"

Comprehending the Space Mystical Level, Chen Yu, in the secret chamber, perceived the whole situation within the Green Cloud Secret Realm!

Chen Yu didn't need to guess, it must be the powerhouses of the Blood Race!

Once these people break through the Green Cloud Secret Realm, they naturally have the ability to invade the cave mansion.

If Chen Yu just hides here, then there would be no escape.

Unfortunately, they do not realize Chen Yu is impacting the Condensed Star Realm!

With the Flying Star Pill and Blood Star Holy Pill, Chen Yu's condensation of the Primordial Power Star was very smooth.

And he smoothly comprehended the Space Mystical Level!

"When I seal my kingdom, I will use you as a blood sacrifice!"

Chapter 933: Nine Stars

A day passed.

Chen Yu was the first to comprehend the profound meaning of space, waiting only for the Primordial Power Star to be fully formed to become a King of the present age!

The condensing of the Primordial Power Star is a slow process.

The larger the reservoir of the True Yuan Sea, the slower this process becomes.

Within the Qi Sea.

The once vast True Yuan Sea had disappeared, shrinking by three to four times, while above it floated a bright white star, radiating dazzling light and an immense aura of power.

Gurgle!

The True Yuan transformed into a continuous stream of white flows, merging into the star, causing it to grow continually.

"The Blood Star Holy Pill fundamentally transforms into the root of the Primordial Power Star, significantly enhancing its cohesion, making the breakthrough more stable. The Flying Star Pill, on the other hand, facilitates the smooth integration of True Yuan into the Primordial Power Star from the outside."

During the process of breaking through to the Condensed Star Realm, Chen Yu thoroughly understood these two types of elixirs.

His breakthrough to the Condensed Star Realm seemed slow, but it was very stable and swift.

Others took five to six days, or even longer, for their breakthrough to the Condensed Star Realm.

Half a day later.

Chen Yu's breakthrough to the Condensed Star Realm seemed to reach a critical moment.

The True Yuan Sea below had turned into a slightly larger lake.

The entire Qingyun Cave Mansion shone with resplendent brilliance; Heaven and Earth Primordial Qi gathered, shrouding the entire mansion in clouds and mist, adding mystery and grandeur.

Outside the secret realm.

Bang!

Night Toad King's jade hand slapped, launching a dark orb surrounded by layers of black light like a black hole, striking into the void.

The gigantic blurry scene trembled violently, with aftershocks spreading in all directions.

"This secret realm is so solid, it definitely wasn't left by a King."

Cold Blood King's icy gaze held a trace of fervor.

The secret realm space was small but so solid, no King could have such means, unless that King was also an Array Master.

Cold Blood King felt this possibility was unlikely.

The Dragon Horn King of the Demon Race had the same suspicion in his heart and couldn't help urging: "Quickly break the secret realm."

This time, not only could they kill Chen Yu, but they could also gain a secret realm, truly an unexpected joy.

Moreover, judging by Chen Yu's appearance, he seemed yet to spread the Bloodless Poison.

In fact, they had also obtained this information from a Blood Race infiltrator.

Therefore, they were determined to get Chen Yu's head.

This concerned not only their own interests but the success or failure of the entire conflict of interfaces!

But just at this moment.

In the gigantic scene, primordial energy surged, light scattered, illuminating thousands of feet, making the grand palace appear like a celestial city.

"This phenomenon... the breakthrough to Condensed Star!"

The Dragon Horn King exclaimed on the spot.

A mere Sky Sea Realm, how could it trigger such a vast earthly phenomenon? Only a breakthrough to the Condensed Star Realm could explain it.

But how could Chen Yu be breaking through to Condensed Star?

How old was he now? How long had he been in the Half-step Condensing Star Realm?

The Dragon Horn King found it hard to imagine.

Night Toad King and Cold Blood King were also stunned for a moment.

Besides the three Kings, there were also four Half-step Condensed Star Realm individuals present, who had just arrived.

Faced with Chen Yu's action, these four Half-step Condensed Star Realms felt utterly embarrassed.

What is genius? This is it!

Even in the Blood Race, the youngest Condensed Star King in a thousand years was eighty-five years old.

Of course, this does not include those from more distant interfaces and the main world's Blood Race.

"You all think too highly of this kid."

Night Toad King suddenly snorted coldly, sounding slightly mocking: "Just breaking through to the Condensed Star Realm scares you like this?"

"Breaking through to the Condensed Star Realm and becoming a Condensed Star King are two different things."

Night Toad King added.

At this time, the others calmed down.

Indeed, Chen Yu was only attempting a breakthrough to the Condensed Star Realm, success or failure was still uncertain.

"Night Toad King is correct. Chen Yu must have been driven to the brink by us to attempt a breakthrough to the Condensed Star Realm, hoping to snatch a sliver of life."

Cold Blood King's expression returned to normal.

A breakthrough to the Condensed Star Realm is extremely important. If the foundation is unstable and with such a mindset, it is bound to fail.

"Cold Blood King has a point. For an ordinary person, breaking through to the Condensed Star Realm takes at least three days for such phenomena to appear. That kid hid in the secret realm, and it's only been a day and a half; how weak could his foundation be?"

"He is destined to fail!"

The Dragon Horn King declared with certainty.

The four Half-step Condensed Star Realm individuals knew little about the breakthrough to the Condensed Star Realm, but the words of a King were highly convincing.

"Once this kid fails, he'll be seriously injured. His cultivation might even regress. Then he'll be like meat on a chopping board, ready for us to butcher."

The Night Toad King couldn't help but laugh, alluring and charming, capturing souls.

Just then, a King's aura approached.

Everyone stopped what they were doing, their expressions turning serious.

The one approaching might not just be theirs; it could also be a King from the Great Yu Realm.

Soon, a tall middle-aged man appeared. His physique was immensely burly, but his skin was as white as snow, covered with white scales and patterns, giving off a strangely beautiful look.

The moment this middle-aged man appeared, the air felt like a quagmire, thick and heavy, enveloping everyone.

"Is Chen Yu hiding inside?"

As soon as the tall middle-aged man spoke, Night Toad King, Cold Blood King, and others breathed a slight sigh of relief.

This middle-aged man gave them a very powerful feeling, with cultivation reaching the Early-stage Condensed Star Realm Peak.

Fortunately, he was one of them; otherwise, their efforts would have been for nothing.

"Yes, sir, and you are?"

The Dragon Horn King found the man somewhat familiar.

"White Scale King."

The tall middle-aged man said indifferently.

"So, it's the White Scale King of the Snake Body Clan."

The Dragon Horn King revealed a slight smile.

Immediately, everyone present recounted the situation.

"With the White Scale King here, it won't take more than two hours to break through the secret realm, and Chen Yu is doomed to fail in his attempt to condense stars."

The Dragon Horn King had a smile on his face.

Originally, here, the Blood Race held the power of speech.

But with the arrival of the White Scale King, the situation changed.

The Cold Blood King and the Night Toad King merely smiled at the White Scale King, without saying much.

Chen Yu is a disgrace to the Blood Race, and it's naturally better for them to settle this personally. In the end, if the foreign race deals with Chen Yu, the Blood Race would find it hard to maintain their former pride in front of the other races.

The White Scale King's eyeballs were bleak white, exceptionally cold.

He didn't say much, and boldly acted.

Boom!

A dazzling white light over five hundred meters long blasted out, transforming into a giant white-scaled python, and rushed forward.

Hum! Boom!

A force of spatial vibration spread out.

Inside the secret realm, it looked as if the earth was shaking and mountains were swaying. Trees fell, rocks rolled, and storm clouds reversed, as if a natural disaster was descending.

"In one hour, break open the secret realm!"

The White Scale King coldly snorted, taking action again.

Witnessing the White Scale King's strength, the Night Toad King and Cold Blood King also slightly lowered their heads, and strived to take action.

Inside the cave mansion.

Chen Yu was in the midst of condensing his Primordial Power Star. Having already comprehended the profound meaning of space, he was aware of the entire situation within the secret realm, as if knowing it by heart.

"The spatial vibrations have intensified, it seems more powerful beings have joined,"

Chen Yu thought to himself.

But he could also judge the enemies' strength based on the spatial vibrations.

If a Xuanming Realm came personally, just one attack could create a spatial tear.

"Looks like I should speed up appropriately."

For ordinary people, while condensing the Primordial Power Star, their spirit would be undergoing an elevation in intention, comprehending the Earth's profundity, with no extra effort to focus on the Primordial Power Star.

But Chen Yu was an exception, having comprehended the profound meaning of space early on.

This allowed him to concentrate all his energy on condensing the Primordial Power Star, thereby accelerating his advancement.

Outside, countless powerful enemies simultaneously attacked the secret realm.

The entire Green Cloud Secret Realm shook violently, as if about to be overturned.

At that moment, the dazzling white brilliance within the grand hall became even more radiant, Heaven and Earth Primordial Qi trembled fiercely, with phenomena enveloping over three thousand meters.

"How can it be so fast?"

Night Toad King's captivating red eyes flashed with surprise.

From the phenomenon, one could discern the situation of impacting the king realm.

"This child must have sensed the strong enemy attacking the secret realm and accelerated his advancement."

"As per your words, this child's foundation is unstable, anxious for success, and now accelerating his advancement, his path to becoming a king has already collapsed!"

The White Scale King's tone was flat yet carried an undeniable certainty.

The other kings and half-step Condensed Star realm individuals were all smiling broadly, continuing their attack.

But then.

That phenomenon became even more astonishing, lights piercing thick fog, like swords of light.

Moments later.

To everyone's eyes, the entire massive palace seemed to transform into a "city of light."

"Why hasn't it interrupted yet?"

Cold Blood King's face changed unpredictably.

According to the phenomenon, Chen Yu's attempt to condense stars not only did not fail but seemed to have reached the point of success.

This... defies logic.

In the secret realm.

The brilliance was radiant, on the sky above, a vast star sea appeared, day turning to night, continuously changing.

"This... this phenomenon, is it the impact of condensing stars?"

Dragon Horn King's eyes were slightly dazed.

At this moment, Chen Yu's secluded area was like a holy celestial mansion, shining with ten thousand radiances, ethereal light mist, sun, moon, and stars, majestic and boundless.

Even the White Scale King's eyes showed astonishment.

Several half-step kings were dumbfounded.

Through a spatial barrier, they felt an overwhelming pressure, their True Yuan Sea trembled intensely, showing signs of instability.

Boom!

The secret realm quaked.

They weren't attacking; the secret realm was shaken due to Chen Yu's boundary impact.

On that sky where the vast star sea lay, a brilliant star suddenly emerged, dazzling and eye-catching.

Following that, a second star, a third, a fourth... a sixth!

Six radiant stars appeared together, forming a peculiar starry sky map, seemingly containing the principles of Heaven and Earth.

"What is this?"

Night Toad King, amidst shock, was puzzled.

If anyone present had witnessed, a genius cultivating the "Six-Transformation Star" method impacting the Condensed Star realm, they wouldn't be puzzled.

But even the White Scale King hadn't seen such a thing, because it was truly rare.

"I vaguely remember, this phenomenon seems related to cultivation techniques."

The White Scale King was reminiscing but couldn't recall clearly.

At that moment.

Swish! Swish! Swish!

The seventh, eighth, and ninth stars suddenly condensed, radiant and dazzling, bearing Heaven's majesty, suppressing everything!

Inside the cave mansion.

Chen Yu took a deep breath, the endless white starlight around him gradually absorbed into his body.

As he opened and closed his eyes, white brilliance flashed and faded, in his deep black pupils, seemed to hold countless stars.

"Finally done."

Chen Yu curled his lips into a smile, yet his eyebrows showed a hint of confusion: "Huh? Something seems off."

Inside his mind, there originally were six white spheres, which were the cultivation method of the "Six Elements Returning to Heaven Technique."

But unbeknownst to him, three more white spheres appeared here, even the contents inside had changed.

The cultivation method was no longer the same, and was named the "Nine Revolutions Bright Star Technique."

Chapter 934: Kingslayer

"Nine Revolutions Bright Star Technique," no explanation of the cultivation technique's origin, only the method of cultivation.

The cultivation method alone is several times more complex than the previous "Six Elements Returning to Heaven Technique."

And yet...

"Cultivate nine Primordial Power Stars, how is that possible?"

Chen Yu was momentarily stunned, his gaze astonished.

Even the Six-Transformation Star cultivation method is a rare technique in this world.

As for the Nine-Transformation Star cultivation method, Chen Yu had never even heard of it.

He even doubted whether this technique was a sham? Would cultivating it lead to any unforeseen events? After all, Chen Yu had never heard of anyone cultivating the Nine-Transformation Star.

Skepticism was the first thing that surfaced in Chen Yu's mind.

Then came ecstasy.

Ordinary Condensed Star Realm cultivators can only condense three Primordial Power Stars, but this "Nine Revolutions Bright Star Technique" can condense nine Primordial Power Stars.

The difference in combat power is simply unimaginable.

"It seems that just now, when condensing the Primordial Power Stars, the information in my mind about the cultivation technique changed."

But at that time, Chen Yu was focusing all his attention on condensing the Primordial Power Stars, eager to break through.

Chen Yu began to recall.

He felt that the condensation of the Primordial Power Stars triggered some kind of mechanism.

Upon careful examination, he found that due to cultivating the "Six Elements Returning to Heaven Technique," his foundation was solid, and with the Blood Star Holy Pill, his Primordial Power Stars seemed to be more refined and larger than those of the same stage Condensed Star Realm.

"Perhaps, if my first Primordial Power Star was similar to the ordinary Condensed Star Realm, it wouldn't have triggered the mechanism, and the cultivation technique of the 'Nine Revolutions of Heaven Technique' would not have appeared."

Chen Yu came to this conclusion.

This technique was left by the Qingyun Emperor, and such changes must have been set by him.

From the Qingyun Emperor's perspective, he definitely wanted to leave the best cultivation method for Chen Yu.

The Qingyun Emperor did not know what achievements Chen Yu might have. If Chen Yu had average talent and obtained the Nine Reincarnation Technique, he would be unable to cultivate it.

Moreover, one should not hold what is not one's own. The Nine Reincarnation Technique is so precious that once exposed, it might change this entire realm war into a battle for the cultivation technique.

On the surface, Chen Yu was cultivating the Six-Transformation technique, and the requirements didn't seem high. He could achieve great accomplishments in the future.

But once his foundational potential reached a certain standard, the true face of this technique would reveal itself.

The risk is greater, but the reward can also be greater.

"Hehe, hoping for me to cultivate peacefully in the Great Yu Realm, to live a stable life, but leaving such a hand."

Chen Yu couldn't help but smile.

It can be seen that the Qingyun Emperor had high hopes for Chen Yu, provided he had the capability.

Suddenly.

Bang!

A loud noise was heard, the space fluctuated, and a breach was blown open in the secret realm.

"Not good, he's done it!"

White Scale King's expression turned cold, in his pale eyes, killing intent surged like a tide.

The other three kings were also extremely sullen.

Previously, they all had assumed that Chen Yu was destined to fail, but the opponent succeeded in advancing in such a short time, with a phenomenon that was unheard of, leaving people in awe.

Swish!

Above the palace, a figure suddenly appeared, his entire body was as white as jade, seeming to circulate with radiance, emitting beams of starlight from within, like a sage descending to the world.

Having just broken through to the Condensed Star Realm, Chen Yu was still unable to perfectly control his power, the aura of a king dominated the area, and all things in heaven and earth seemed to be worshipping.

"This... what a powerful aura!"

Dragon Horn King felt a chill in his heart.

The instant he witnessed Chen Yu, a sense of fear arose in his heart.

How could this be?

The opponent had just ascended to the King level, while he had been at the Condensed Star Realm for over a hundred years.

"Chen Yu, I never thought your talent to be so exceptional, breaking through to kingship within such a short time. The fall of a peerless genius like you would indeed be a regret of the era."

White Scale King stood proudly in the void, his kingly aura like a vast sea.

The other three kings coldly chuckled as well.

The four kings present, along with one at the peak of the Early Stage of Condensed Star Realm.

Besides, there were six Half-step Condensing Star Realm experts!

And enemies were ceaselessly rushing to this place.

"However, if you are willing to pledge allegiance to the alien race, this king promises that you will gain status among the alien race equivalent to the Bloodline Young Ancestor!"

White Scale King changed his tone.

"White Scale King, Chen Yu is a person we, the Blood Race, want."

Night Toad King and Cold Blood King frowned.

Chen Yu was a great enemy to the Blood Race, someone the Bloodline Emperor had ordered to be captured.

And the alien race actually wanted to recruit Chen Yu!

"Hmph, that depends on how 'King Tianyu' chooses, whether to enter the Blood Race, a place of universal enmity, or come to my alien race and be venerated."

White Scale King snorted coldly, his kingly presence erupted like a storm in the secret realm, increasing the pressure on Cold Blood King and Night Toad King.

Previously, White Scale King only wanted to kill Chen Yu to claim Heart Extinguishing Emperor's bounty and seize this secret realm.

But when White Scale King saw the phenomenon during Chen Yu's breakthrough, he recalled something he had seen in an ancient book, speculating that Chen Yu must have a peerless cultivation technique.

That's why he developed the desire to recruit, with the purpose of obtaining Chen Yu's cultivation method.

Cold Blood King and Night Toad King looked grim.

They thought Chen Yu was doomed, but now the alien race changed their tune and wanted to recruit Chen Yu.

In the face of six Half-step Condensing Star Realm experts and the siege of four kings, to survive, Chen Yu would surely agree to White Scale King's terms.

However, upon hearing this, Chen Yu laughed and said, "If you all surrender to me, I might grant you a path to life."

Chen Yu rejected it!

Cold Blood King and Night Toad King were momentarily stunned, then ecstatic, thinking Chen Yu was courting death.

"Arrogant!"

White Scale King immediately shouted, a terrifying aura swept through, twisting the void as if an invisible sea was pressing down, the ground cracked and sank.

Yet Chen Yu remained unmoved, as steady as a mountain.

"Is that all you've got?"

Chen Yu chuckled lightly.

Boom!

The next moment, an endless white radiance burst out from within him.

Activating the state of Secret Pattern Demon Body, his body transformed between black and white, becoming indistinct, and terrifying energy permeated around him.

After breaking through to the Condensed Star Realm, Chen Yu felt his power nearly skyrocketing!

The Secret Pattern Demon Body was perfected!

The essence power was even purer than that of an ordinary Condensed Star Realm, and the quantity of the Primordial Power Star was the same!

Aside from that, there were also the spatial principles!

The profound meaning was entirely different from the power of the artistic conception, and he also wanted to experience it specifically.

In summary.

Chen Yu's strength greatly increased, brimming with confidence, desiring to slay his enemies heartily, and eager to experience the power he possessed after breaking through the king realm!

"Chen Yu, you infiltrated the Blood Race twice and killed the Young Ancestor. Your fate is already sealed, and death is the only path!"

The Cold Blood King shouted, taking the lead.

Whizz-swish!

A Purple Crystal Long Sword traced a dazzling and icy purple blood arc, churning up torrential waves, charging forth as if to shred everything in this world.

In the face of Chen Yu, who had broken through to the Condensed Star Realm, he held nothing back, exerting his full force in one strike!

"Such a powerful strike, with a Spiritual Artifact coupled with the Great Success of 'Absolute Blood Eight Forms,' this strike is enough to obliterate me to dust."

A foreign half-step Condensing Star was mentally shaken.

The White Scale King stood with hands behind his back, not in a hurry to strike, wanting to see just how strong Chen Yu was after breaking through to the Condensed Star Realm, while also validating his own speculations.

"Bring it on!"

Chen Yu, like a saint bathed in radiance, enveloped entirely by Star Essence Power, charged forth like a dazzling white light.

Boom!

Chen Yu punched the Purple Crystal Long Sword, and a sound like a great bell rang, resonating through heaven and earth.

Swish-swoosh!

In the void, white light illuminated the heavens and earth as a long arc of purple blood flew back, attacking towards the Cold Blood King.

"Settle!"

The Cold Blood King's eyes condensed, shouting loudly.

His heart trembled as his spiritual artifact strike was surprisingly smashed back by Chen Yu's punch.

What shocked him even more was that he couldn't control the spiritual artifact after it withstood such terrifying power.

Boom!

The Purple Crystal Long Sword struck the chest of the Cold Blood King, creating a dent as he staggered back ten steps, with a trace of blood seeping from the corner of his mouth.

"This..."

Several half-step Kings were flabbergasted.

The might of a punch, so terrifying!

The Cold Blood King was injured by his own spiritual artifact.

"Not bad, not bad."

Chen Yu was very satisfied with this punch.

With the Secret Pattern Demon Body perfected, his entire body was a weapon of attack, and his essence power was more refined and powerful, making him far surpassed ordinary Condensed Star Realms, whether in attack or speed.

Coupled with spatial principles, Chen Yu's speed was unimaginably fast.

The same strike, with different speed, resulted in vastly different explosive power.

However, with so many enemies at present, he couldn't immerse himself in the joy of experiencing his strength.

More enemies needed to be slain!

Swish!

White light flashed, and Chen Yu sprinted out, his speed like a white lightning, reaching the Cold Blood King in an instant.

"Seeking death!"

The Cold Blood King's expression was extremely grim; in the first bout, he was injured.

"Absolute Blood Second Form."

The Cold Blood King's face was fierce, and blood light surged from his spiritual artifact, transforming into an infinite array of blood energy blade light, looking from afar like an endless ocean of blade light descending from the sky, about to crush everything.

"Begone!"

Chen Yu surged with momentum like a rainbow, his body force erupting, essence power enveloping his body, making his speed like a shooting star. The brilliance of his fist shone brilliantly, and his entire body became blurred, hard to discern clearly.

Bang-crash!

A colossal black and white interwoven fist shadow, like a divine pillar, carrying the might of heaven and earth, hurled forth.

This punch was even more frightening than the last one.

The endless ocean of blade light was shattered like dry decayed leaves.

"No!"

The Cold Blood King's face showed horror as he retreated frantically.

But Chen Yu's strike was too fast, equipped with spatial principles, instantaneously reaching him, with nowhere to escape, engulfing his figure.

The Cold Blood King was thrown back hundreds of meters, his vessel becoming ashes and countless scars remained on his true body.

"Not dead yet?"

Chen Yu sensed the Cold Blood King's life force, and he swung another punch, with a massive light beam bursting out again, sweeping everything like the light of destruction.

He gradually became accustomed to the king's power, with every attack increasing in potency.

"Quick, save our Cold Blood King."

The Night Toad King's face drastically changed, shouting loudly.

Who could have imagined that the Cold Blood King would be injured in one move and fall into a dire situation with the second?

Moreover, the king's confrontation was in fact quick; it had only been two breaths between the two exchanges.

"Attack!"

The White Scale King immediately shouted.

Yet when the white brilliance dissipated, the figure of the Cold Blood King was no longer there.

Only a pool of lifeless blood fell scattered below.

"Dead!"

The three kings who were ready to support gasped.

The six half-step kings felt like they were dreaming.

Two breaths, three punches to kill a king!

This must be a dream!

Chapter 935: Battle of the Kings

Originally, the White Scale King and others wanted to see how powerful Chen Yu was after breaking through the Condensed Star Realm, and so they sent the Cold Blood King to test him.

The result of this test was the loss of a small life.

"All together!"

The White Scale King immediately shouted, killing intent surged.

Chen Yu's strength exceeded everyone's expectations.

Under such circumstances, they had no choice but to gang up, otherwise, even he could not be too sure of killing Chen Yu.

"Kill!"

The Night Toad King's heart was filled with terror. After Chen Yu broke through to the Condensed Star Realm, she felt a fear and dread that he must be killed, or there would be endless trouble.

"With just a few of you, you can't kill me."

After killing the Cold Blood King, Chen Yu had a clear understanding of his own strength and became more confident.

"Just broke through the Condensed Star Realm and already so arrogant, let me show you the power of this King."

With a wave of his palms, the White Scale King's body erupted with white watery light, like a volcanic eruption, transforming into a shocking tsunami.

In that white tsunami, there were two gigantic large pythons, each several hundred feet long, carrying with them a world-shattering might, charging towards Chen Yu.

"Early-stage Condensed Star Realm Peak."

Chen Yu instantly felt that the White Scale King's Star Essence Power and Profound Meaning were a level stronger than those of the Cold Blood King.

At the same time, the Dragon Horn King and the Night Toad King launched a pincer attack from both sides.

Further behind, there were six half-step Condensed Star Realm experts.

Swish!

Chen Yu's body flashed white light, shooting upwards, spreading Space Profound Meaning, making him seem able to ignore all obstacles, his form becoming indistinct.

Bang Boom!

The white tsunami missed, leveling a mountain directly.

But the two white-scaled pythons soared into the sky, preparing to strangle Chen Yu.

"Space Profound Meaning, this kid just broke through to the Condensed Star Realm and has already grasped such troublesome Mysterious Power."

The White Scale King's expression sank.

Generally speaking, when one has just broken through to the Condensed Star Realm, they comprehend some simple and coarse Mysterious Powers.

Chen Yu possesses Space Profound Meaning, making him not inferior to the White Scale King in terms of speed, which is troublesome for him.

"Two little snakes, dare to chase after this King?"

Chen Yu shouted loudly, clenched his fists, Star Essence Power swirling around him, and struck downwards.

Bang! Bang!

In the void, it seemed as if two giant white light hammers formed, smashing onto the two white-scaled pythons, erupting in two waves of white light, destroying everything around.

The attack aftermath struck towards Chen Yu, slicing four or five wounds on his body, where cold chill spread, seeping into his body.

"Hmph, after all, just broke through to the Condensed Star Realm, how powerful could he possibly be."

The White Scale King snorted coldly.

But in his heart, he was extremely surprised, that his attack only left Chen Yu with some external injuries.

"This person's strength is not simple, but not fearsome."

Chen Yu glanced at the White Scale King.

With the mid-level Immortal Body, the minor injuries caused by the White Scale King could be healed instantly.

"Kill him!"

The Dragon Horn King and Night Toad King frantically charged forward.

The Dragon Horn King gripped a long halberd, brandished it ferociously, stirring up a blue whirlpool, within it lightning flickered, sweeping out.

The Night Toad King flicked a finger, a black bead released vast dark fog, transforming into a massive black hole, crashing toward Chen Yu.

Bang Boom!

The attacks of the two great Kings struck Chen Yu, unleashing a storm of destruction.

"Follow up with the attack."

Six half-step Kings rushed over, collectively unleashing killing moves, burning half-step Primordial Power.

Bang Bang! Rumble Rumble!

In the sky, the continuous rumbling, various energies roared and flailed horizontally, like a doomsday catastrophe.

"This kid is too arrogant, make sure not to leave him with a whole corpse."

The Dragon Horn King snorted.

The bounty released by the Heart Extinguishing Emperor, capturing alive was valued far above just a head.

Suddenly.

Bang Boom!

The loud noise spread, dazzling white light pierced through the chaotic darkness, turning everything to ashes.

"Just these means, you think you can kill me? Barely like a tickle."

Chen Yu's indifferent and disdainful voice rang out.

It was seen that his whole body shone with flowing black and white light, his body smooth as glazed jade, without a single scratch!

"What?"

The Night Toad King and others were flabbergasted, incredulous, followed by a rush of shame and anger.

They had all teamed up and yet failed to injure Chen Yu.

The White Scale King was equally astonished, not only were the attacks of others ineffective on Chen Yu, but even the wounds he previously inflicted had vanished without a trace.

"It truly is the Immortal Physique."

The White Scale King envied and begrudged internally.

"Deal with this bunch of nuisances first."

Chen Yu's gaze swept over, settling on the six half-step Condensed Star Realm individuals.

Heart Slaying TechniqueHeart Shock!

Dong! Dong! Dong! Dong!

In the void, a thunderous noise reverberated, rhythm extremely fast, shaking the surrounding.

Chen Yu's "Heart Slaying Technique", already cultivated to the second layer perfection, had immense power.

Moreover, he now broke through the Condensed Star Realm!

Immediately.

The hearts of all Spiritual Bodies in the vicinity suddenly changed rhythm, beating violently.

Night Toad King and Dragon Horn King, who were closer to Chen Yu, shuddered immensely, the power gathered within them was scattered instantly, the Dragon Horn King's body slightly bending, almost collapsing, blood seeping from the corners of his mouth.

And the six half-step Condensed Star Realm individuals behind them.

All screamed in agony, each falling down.

It was seen their eyes, ears, mouth, and nose gushed with blood, some had faces ashen, the half-step Primordial Power inside them uncontrollably rampaging, ruining their internal meridians and bones.

"It's the Blood Heart Clan's 'Heart Slaying Technique'."

The Dragon Horn King and Night Toad King stabilized their hearts, retreating backward.

But the six half-step Kings couldn't suppress their heartbeats.

Dong Dong Dong Dong!

One of them, heartbeats too intense and rapid, exploded directly.

One half-step King perished under the 'Heart Slaying Technique'.

Immediately, the second Half-step's heart exploded, and all signs of life vanished as he closed his eyes.

"Die!"

Chen Yu's expression was cold as he struck with his palm.

A gigantic white palm, carrying a terrifying pressure from heaven and earth, rampaged forth, reaching them in the blink of an eye.

An ordinary Half-step King couldn't possibly evade it, especially since their hearts were already out of control.

"Save me, White Scale King!"

"Ah..."

Four Half-step Kings turned to ash on the spot, leaving no remains.

"Bastard!"

White Scale King's face was extremely gloomy, and his eyes shone with a terrifying brilliance, filled with intense killing intent.

Just now, Chen Yu's "Heart Slaying Technique" had also affected him, thus he was too late to counteract Chen Yu's strike.

The result was.

Six Half-step Kings were instantly annihilated.

"Only three of you are left now."

Chen Yu launched a sudden attack.

Killing Half-step Kings was just a casual act, nothing to be particularly pleased about.

Bang!

Chen Yu charged at the Night Toad King, punching out like a detonating sun, incredibly fierce.

If it had been before, the Night Toad King might have fought back aggressively, but now fear engulfed her heart, and she retreated frantically.

Just now, Chen Yu had killed the Cold Blood King right before her eyes; if she fought Chen Yu one-on-one, she might not last six moves.

Meanwhile.

The Dragon Horn King and White Scale King attacked.

"Don't be arrogant."

The White Scale King was completely enraged, a massive scythe suddenly appearing behind him, emitting a monstrous chill.

Slash!

With a slash, it was as if a moon disk suddenly appeared in the air, bone-chillingly cold and filled with killing intent.

The Dragon Horn King controlled a long halberd, raising a layer of blue electric water current, continuously attacking Chen Yu.

The Night Toad King was afraid of Chen Yu, but only feared fighting him alone, so she immediately launched a counterattack at this moment.

Rumble!

Comprehending the Profound Meaning of space, Chen Yu's speed was even faster than the White Scale King's. In addition to his medium-level indestructible body, even the combined assault of the three kings couldn't stop him. At most, they could cause some minor injuries, which healed quickly under his medium-level indestructible body.

"Die!"

Chen Yu's gaze again landed on the Night Toad King.

Swish!

A black light flickered in the void, and the Burning Sky Demon Halberd appeared.

Slash!

Under the infusion of Primordial Power, the halberd's power was unleashed by Chen Yu for the first time, its domineering demonic might stirring all around.

With one slash, the black-and-white intertwined violent strike roared out, making the Night Toad King feel a strong sense of crisis.

The Burning Sky Demon Halberd, as a heavy weapon, was now displaying its true power.

"Brat, do you still want to kill in front of this king?"

The White Scale King shouted coldly.

Swoosh!

A flash of white light, and the White Jade Scythe flew out, attempting to destroy Chen Yu's strike.

"Swallowing Magic Gourd!"

Chen Yu immediately deployed the Swallowing Magic Gourd, a vast and deep azure water current emanating from its mouth, forming an enormous vortex encompassing a thousand feet around.

The White Scale King's mystical weapon attack was constrained by the Swallowing Magic Gourd, and its power was continuously being drained away.

Bang!

At this moment, the strike from the Burning Sky Demon Halberd collided, sending the White Jade Scythe flying, then slashing towards the Night Toad King.

"No!"

The Night Toad King's face showed horror as she formed a spell, the pitch-black bead vibrating with dense black mist, within which appeared the shadow of a Holy Beast.

Bang!

However, when the halberd strike descended, the black mist was instantly dispelled, and the pitch-black bead was knocked aside.

The aftershock blasted the Night Toad King hundreds of feet away, making her spit blood continuously, her breath weak.

"Die!"

A soft command was heard.

In the void, a ghostly purple cold arc flashed past, faint and elusive.

Even the White Scale King, caught off guard, couldn't intercept it in time.

Puff!

The Taiyin Sword Point hit the Night Toad King, instantly extinguishing all vitality within her.

The Night Toad King, dead!

"Yet another king has died!"

The Dragon Horn King was appalled.

In such a situation, Chen Yu remained so ruthless; killing kings seemed so easy, which was truly terrifying.

"Only two left."

Chen Yu chuckled softly.

Upon hearing this, the Dragon Horn King and White Scale King shivered uncontrollably.

"Kill!"

Chen Yu immediately dashed forward, wielding the Burning Sky Demon Halberd, like an invincible Demon God. With every move, he emitted a tyrannical and terrifying mighty force.

Clang bang!

The Dragon Horn King controlled his halberd, constantly shooting blue water electric lights, all of which were easily destroyed by Chen Yu.

A crisis loomed, and the Dragon Horn King retreated swiftly.

"Damn it, I will kill you."

The White Scale King roared in fury, unleashing a fearsome and terrifying aura. His lower body turned into a snake's tail, his body doubling in size.

"Hehe, you don't have the capability."

Chen Yu chuckled lightly, burning with vigor and blood inside, a blood-red eerie pattern sketched on his body surface.

This was the secret technique, "Blood Transformation Demon Body."

After using the secret technique, Chen Yu's physique would erupt with even more terrifying strength.

Facing one against two, what was there to fear!

Bang! Boom! Rumble!

The Demon Halberd moved across, its power unrivaled.

In five moves, the White Scale King bore a ten-foot-long gruesome wound.

The Dragon Horn King's dragon horn and a leg were cut off by Chen Yu, his face turned pale, his eyes reflecting fear, and his whole body shivering involuntarily.

Chapter 936: Annihilation

The White Scale King and the Dragon Horn King never expected that the final result of this ambush on Chen Yu would be like this.

In just a short moment, only the two of them were left.

Even the White Scale King, at the peak of the Early-stage Sky Sea Realm, was injured.

The Dragon Horn King's injuries were even more severe, his spirit crushed. Facing Chen Yu, fear uncontrollably spread, and he couldn't stop trembling.

In contrast, Chen Yu, who fought against two kings, also suffered some injuries, but they had all healed.

How could it be like this?

The two kings were full of fear and helplessness.

"White Scale King, let's retreat."

The Dragon Horn King transmitted his voice.

If it wasn't for the strong demon White Scale King here, he would have retreated long ago.

But even with the White Scale King here, he felt no sense of safety.

"No, I must kill this brat."

The White Scale King roared, his massive snake tail tumbling, Evil Qi soaring to the sky and killing intent boiling.

He had never suffered such a loss, being humiliated and injured by someone with lower cultivation than him.

Whizz!

Chen Yu initiated an attack.

The Blood Demon Body was activated, presenting a vast bloodline phantom, followed by the Burning Sky Demon Halberd with its demonic power surging to the sky, drawing an unparalleled brilliance, and striking down.

"So strong!"

The White Scale King's heart sank, feeling an oppressive force from Chen Yu's strike.

Just as the White Scale King was mobilizing Star Essence Power to prepare for an emergency.

"I'm not fighting anymore..."

The Dragon Horn King shouted with a shivering voice, turned around, and retreated at the fastest speed he'd ever achieved.

He felt that, staying here any longer, it was surely a path to death.

With his life at stake, he had no mind for anything else.

"Ran away?"

Chen Yu was stunned for a moment.

"Damn it, why are you running!"

The White Scale King was even more furious, swearing out loud.

This was truly humiliating!

Their side was utterly defeated by Chen Yu, and his last teammate was scared off.

Now, only the White Scale King was left to face Chen Yu's attack.

He roared, and Star Essence Power surged out, pouring into the White Crystal Scythe.

Swish! Hiss!

The White Crystal Scythe spun out, turning into a shining moon disk, and cut forth.

The nearby two peaks were cut in half, the cuts smooth as a mirror.

Bang! Rumble!

The two attacks clashed fiercely, black and white brilliance flashing blindingly.

A violent wave blew everywhere, hitting Chen Yu but unable to harm him.

At that moment.

Chen Yu sensed a powerful mental wave.

Boom!

A massive, transparent snake, carrying chilling spiritual aura, charged forth.

At the critical moment, Chen Yu activated the Soul Stabilizing Pearl, and a layer of dark light membrane appeared around him.

The phantom giant snake charged, crashing into the dark light membrane, quickly turning into a ripple of watery light, slowly dissipating.

Whoosh!

Chen Yu swung the demon halberd, tearing apart the storm in front of him, only to see the White Scale King had already fled.

"Escaped?"

Chen Yu naturally wouldn't let these enemies off easily.

If he didn't kill them now, they might appear in front of Chen Yu as enemies again in the future.

Moreover, they had broken into the Green Cloud Secret Realm.

Swish!

Chen Yu unleashed the power of the Space Profound Meaning, immediately feeling as if he were weightless, unobstructed, and swiftly shuttled forward.

In no time, the figure of the White Scale King appeared within Chen Yu's Spiritual Sense range.

"Caught up so quickly!"

The White Scale King felt Chen Yu's Spiritual Sense pass through him, as if the hand of death was touching him, making him tremble all over.

He had to admit, in a one-on-one fight, he was no match for Chen Yu.

Additionally, with Chen Yu possessing the Space Profound Meaning, his speed was even faster than his own. Prolonging the fight, he might even face the possibility of falling.

Whizz! Swish!

In the void, two white figures, one chasing, one fleeing, like auroras, like lightning.

As time passed, their distance kept closing.

Yangming Sword Point, Shaoyang Sword Finger!

Chen Yu continuously executed two finger techniques.

Boom! Boom!

Two blood-red Sword Qi, surging like rainbows, instantly pierced through space, grazing past the White Scale King, leaving two charred wounds.

At this moment.

Boom!

From behind came an astounding whistling sound, and a jet-black demonic light swiftly flew over—it was the Burning Sky Demon Halberd.

The White Scale King fled rapidly.

But under Chen Yu's control with his Spiritual Sense, the Burning Sky Demon Halberd could change direction, as if locked onto the White Scale King, stabbing forward.

Ding! Bang!

The White Scale King swung the scythe, two divine weapons clashed, erupting with a sharp, ear-piercing screech.

Rustle, rustle!

The White Scale King retreated swiftly, his arms went numb, bones seemingly about to fracture, and the large wound on him tore a bit more.

"Damn, don't push me too hard. Even if you truly have the ability to kill me, I promise, you'll follow me down to the Netherworld."

The White Scale King threatened.

"Is that so?"

Chen Yu seemed to pay no mind to this threat, continuing his pursuit.

Seeing the distance gradually closing, the White Scale King now had no will to fight, only wanting to escape for his life.

"Snake Shadow Escape!"

White Scale King spat out a mouthful of fresh blood, which transformed into white flames as it burned.

At the same time, the Star Essence Power that erupted inside him also turned into white shimmering flames, covering his entire body.

Swish!

He sprang forward like a ray of light, his figure becoming completely indistinct, his speed increasing by over fifty percent compared to before, nearly approaching the mid-stage of Star Condensation Realm.

Thump thump! Thump thump thump!

Chen Yu refused to be outdone, his heart exploding with power, rapidly increasing his speed, transforming into a streak of light that shot forward.

"Damn it, how is your speed so fast?"

White Scale King screamed.

He had thought that by using his secret speed technique, he could successfully escape, but Chen Yu was like a nightmare, still trailing behind him, unable to be shaken off.

At this moment.

A figure appeared further ahead; it was Dragon Horn King.

"I left White Scale King behind to escape; he will surely seek revenge on me."

Dragon Horn King felt uneasy.

Suddenly, he sensed a powerful energy rapidly approaching from behind; a sweep of his Spiritual Sense revealed White Scale King.

"White Scale King, thank goodness you're okay. I had no choice but to run earlier; together, we definitely can't kill Chen Yu."

Dragon Horn King immediately explained.

But he noticed something off about White Scale King, who looked tense and did not slow down at all, not even acknowledging him.

"Chen Yu!"

Subsequently, he sensed another King's aura.

Dragon Horn King finally understood why White Scale King was in this state.

He didn't expect White Scale King couldn't shake off Chen Yu and was chased all the way here!

Dragon Horn King felt a chill run through his pores, and once again exploded at the fastest speed to escape.

However.

Soon after their escape, four figures appeared ahead.

"Human Race!"

White Scale King's face immediately showed despair.

He didn't expect at this time other Human Race members would arrive, and among them was clearly the presence of a King's aura.

"Audacious alien race, dare to act recklessly in the Great Yu Realm. Prepare to die!"

One of the green-bearded elders immediately unleashed a brilliant gaze, a purple sword light shooting into the sky, instantly transforming into tens of thousands of sword rain, enveloping them.

This green-bearded elder was at the early stage of the Star Condensing Realm.

Beside him, there was also a middle-aged man who was likewise a Condensed Star King; he waved his hand, and a black long spear, carrying endless black flames, struck towards White Scale King.

"Your head is mine."

The middle-aged man, with a cold and dignified expression, waved his hand, the long spear stirring up earth-shaking flames with astonishing power.

Behind the two Kings were a young man and woman, younger in age but with high cultivation, both at the late Sky Sea Realm.

"Human Race Kings?"

Chen Yu slowed down.

Unexpectedly encountered Human Race Kings; the severely wounded White Scale King and Dragon Horn King had no chance of survival.

This place is the territory of Human and Demon Race; once their identity is revealed, they'll face endless pursuit and sure death.

"Get lost!"

White Scale King roared, though his expression was extremely fearful.

The green-bearded elder's gaze darkened slightly, not expecting the opponent to be at the peak of the early-stage Sky Sea Realm.

But fortunately, both aliens were gravely injured, significantly reducing their combat strength.

"Die!"

The middle-aged man shouted.

The pitch-black spear pierced through the heart of the Dragon Horn King; as the spear rotated, it redirected its attack towards White Scale King.

Faced with the encirclement of two Kings, the already wounded and weakened White Scale King, caught in his secret technique, was utterly hopeless and despondent.

Had he known this would happen, had he known Chen Yu was so powerful, he would have retreated at the outset.

Not far away, the young man and woman who came with the two Kings watched from a distance.

"So powerful, the Palace Master killed an alien King so quickly!"

A man with sword-like eyebrows and starry eyes exclaimed.

"Hehe, this alien King will also die at the hands of the Palace Master and our Master!"

The maiden in a pink dress looked with utmost reverence.

This is the power of a King, like a god, splitting mountains and overturning seas, effortlessly!

At this moment, the maiden in the pink dress saw a young man in black clothes approaching, and immediately shouted, "Don't get close if you value your life!"

"Haha, does this person's head have problems? Approaching the King's Battlefield foolishly!"

The man with sword-like eyebrows scoffed.

"I am unwilling..."

White Scale King howled towards the sky, covered in wounds, blood splattering continuously.

"I want you dead!"

White Scale King turned and lunged at Chen Yu behind him, in his dying moments wanting to drag Chen Yu down to the Netherworld with him.

Heart Slaying TechniqueHeart Shock!

Thud! Thud! Thud! Thud!

Chen Yu remained unafraid, his heart pulsing violently, transmitting a strange and powerful shock force to White Scale King's heart.

In White Scale King's current state, this move was enough to shatter his heart and send him to the Netherworld.

"No..."

White Scale King's body suddenly stiffened, roaring with twisted features, blood gushing violently from his mouth.

Pff! Pff!

A purple treasure sword and a black spear stabbed from behind, piercing through White Scale King's heart.

White Scale King perished!

"Palace Master's divine might!"

"Master is truly amazing!"

The young man and woman approached.

"Kid, you'd better thank our Palace Master for saving your life."

The man with sword-like eyebrows looked at Chen Yu.

"If not for Master acting swiftly just now, you'd be dead at the hands of the alien King."

The maiden in the pink dress wore an expression of pride.

In reality, Chen Yu's secret technique had already killed White Scale King.

But these two did not know, thinking the green-bearded elder and middle-aged man dealt the final blow to White Scale King.

Chapter 937: Dispute

The middle-aged man and the green-bearded elder fixed their eyes on Chen Yu.

Among them, one was the palace master of Jiuding Palace, and the other was the supreme elder of the palace.

The two disciples of Jiuding Palace couldn't discern Chen Yu's true cultivation level; it was impossible for them not to see it.

This was clearly a Condensed Star King!

Such a young Condensed Star King left both of them exceedingly surprised.

"Hehe."

Faced with the words of the two disciples from Jiuding Palace, Chen Yu didn't take them to heart, dismissing them with a laugh.

As a Condensed Star king, he wasn't interested in arguing with the young venerables.

However, the sword-browed man and the woman in pink dress felt more dissatisfied upon seeing Chen Yu's attitude.

"What are you laughing at? If Master hadn't acted in time to take the life of the foreign king just now, you might have died."

The woman in the pink dress was somewhat annoyed, thinking her master, the green-bearded elder, had saved this person in vain.

The sword-browed man showed even more disdain: "Is this person a fool, just having escaped from the gates of hell, yet is completely oblivious and continues to foolishly laugh?"

"Silence."

The middle-aged man immediately shouted, his aura overwhelming.

As the palace master of Jiuding Palace, he was feared more within the palace than even the supreme elder.

"Palace Master?"

The sword-browed man hesitated.

Why would the Palace Master reprimand him for an outsider?

He was a genius of Jiuding Palace, ranked among the top ten prodigies of the Eastern Domain's 'Prodigy Ranking.'

The woman in the pink dress also showed confusion and then carefully examined Chen Yu.

"Qi Dong, apologize to this king."

The green-bearded elder stroked his beard and said calmly.

"What?"

The sword-browed man was stunned and took a while to react.

Apologize to the king?

His shocked eyes focused on Chen Yu, carrying disbelief.

The longer he stared at Chen Yu, the more he felt an invisible oppression accumulating within, making it difficult to breathe, his body sweating all over.

Even the supreme elder spoke, suggesting the other party was indeed a king.

"The junior was blind to Mount Tai, offending greatly, please forgive me, King."

The sword-browed man lowered his head in apology.

"He's a king?"

The woman in the pink dress also slightly opened her lips, her expression a little dazed.

Such a young Condensed Star King was truly unbelievable.

However, the other party might have a special cultivation method or could have altered their appearance; he might be hundreds of years old.

"I wonder which sect or faction you belong to?"

The Jiuding Palace Master asked.

This king was so young, he didn't recognize him, which was truly strange.

"Southern Domain, Black Demon Valley, Chen Yu!"

Chen Yu introduced himself.

"So, he's from the Southern Domain's Black Demon Valley."

The green-bearded elder seemed thoughtful, recalling that Black Demon Valley in the Southern Domain wasn't considered a top force, yet unexpectedly had such a young king.

"No, Chen Yu, this person..."

The woman in the pink dress suddenly recalled something, trying hard to remember.

"Chen Yu... wasn't he already dead two years ago?"

Suddenly, she widened her eyes and said in surprise.

Chen Yu was number one on the 'Contribution Ranking.' The green-bearded elder was the supreme elder of the sect and stayed in seclusion for years, so not knowing was understandable.

But as a genius of the younger generation of Jiuding Palace, she always aimed to achieve higher rankings. Naturally, she knew of Chen Yu, number one on the 'Contribution Ranking.'

Moreover, she greatly admired this unmatched prodigy.

Unfortunately, two years ago, news came from the battlefield that Chen Yu had died. She lamented over it for days.

Is the person before her Chen Yu?

And he's a Condensed Star King? A Condensed Star King under one hundred years old!

"Just a fake death."

Chen Yu casually explained.

He could surmise that in such a situation back then, the commander would definitely have assumed Chen Yu was dead.

After saying this, Chen Yu casually took away the corpse of White Scale King.

Slaying enemies lurking in the Great Yu Realm brought immense contributions.

Moreover, White Scale King was at the peak of the early-stage Condensed Star Realm, with considerable wealth.

"Hold on, this foreign being was slain by us. What are you doing?"

The Jiuding Palace Master immediately spoke.

The green-bearded elder also furrowed his brows.

They valued such contributions immensely; once it spread, their prestige and the reputation of Jiuding Palace would rise significantly.

As for White Scale King's possessions, they greatly desired them.

"White Scale King's life was ended by me, wasn't it?"

Chen Yu simply explained.

The Jiuding Palace Master and the green-bearded elder's expressions sank slightly. They indeed felt, at the moment their attacks hit White Scale King, the opponent's life had already ceased.

Yet, they highly coveted the credit and treasures from White Scale King's body and did not wish to relinquish them easily to Chen Yu.

Furthermore, they had two kings, many people and great strength.

And this place is the Eastern Domain, not the Southern Domain!

"You exaggerate too much. If not for the supreme elder and me delivering the fatal blow to the foreigner earlier, who knows, his dying strike might have dragged you into death."

"You show no gratitude and yet want to seize the spoils belonging to Jiuding Palace. Isn't this too reckless and arrogant?"

The Jiuding Palace Master snorted coldly, full of authority, exhibiting the majesty of a Palace Master.

"Two alien races have fallen here. I can allow you to take credit for one, but this Condensed Star Realm early-stage peak alien was killed by us together. You cannot steal our achievement."

The Green-Bearded Elder spoke calmly, adopting a senior's stance, showing tolerance and concession.

"Hmph, truly clueless, ungrateful to us and yet trying to claim credit."

The sharp-eyed man muttered discontentedly.

He was already somewhat dissatisfied and jealous of Chen Yu.

Besides, just now it was obviously the Palace Master and Supreme Elder who jointly killed that alien.

"Hahaha, it's only because you also contributed that I let you claim credit for the other alien king. Otherwise, without my crippling them first, with your power, killing this early-stage alien would be impossible."

Chen Yu laughed loudly, disdaining formalities, speaking bluntly.

In fact, Chen Yu had the ability to claim the heads of both alien races just now.

He saw a human race king intercept White Scale King and his ally, thus planned to share some credit with them.

Unexpectedly, these kings were so shamelessly greedy for treasures and reputation.

"Junior, stop your nonsense. You merely stumbled upon these two aliens, yet claim to have crippled them yourself. Such obvious lies and yet you speak with confidence. Thick-skinned indeed."

The Jiuding Palace Master's face was gloomy, feeling that Chen Yu's character was extremely poor and displeasing, with an even firmer stance.

"Initially I thought, Chen Yu, ranked first on the Contribution List, was a representative genius of the younger generation in Great Yu Realm, but unexpectedly his character is so vile."

The sharp-eyed man was even more disdainful.

A young man just broke through to the Condensed Star Realm, claiming to have crippled two alien kings, including one at the early-stage peak. Isn't that a joke?

"You claim to be Chen Yu, but Chen Yu, who died two years ago, was not a Condensed Star King. I am growing suspicious of your identity now."

The Jiuding Palace Master gazed coldly.

Though pressing Chen Yu, he felt it indeed possible.

Perhaps this Chen Yu now is an enemy in disguise.

"Think whatever you like. This early-stage peak king fell by my hand, the spoils are mine. If dissatisfied, feel free to try and take them."

Chen Yu disdained further words, preparing to leave.

The Jiuding Palace Master and Green-Bearded Elder glanced at each other, seeing surprise and anger in each other's eyes.

The person before them was truly audacious, disrespecting two veteran kings.

They even considered joining forces to kill Chen Yu.

Yet the identity of the person before them was a renowned prodigy in Great Yu Realm, with unknown actual strength. A slip-up would be troubling later.

While the two kings hesitated.

Swoosh!

Chen Yu had already departed.

"Ran away?"

The two kings immediately pursued; how could they let Chen Yu leave like that? Once word spreads about this, their dignity would be lost.

However, upon chasing, they found that Chen Yu's speed was faster than theirs.

"This is... the Profound Meaning of Space!"

The Green-Bearded Elder's expression was uncertain.

This was a profoundly powerful meaning, enhancing speed beyond peers of the same level.

"What, are you planning to snatch forcefully?"

A cold glimmer flashed in Chen Yu's eyes.

If these human kings intended to attack, Chen Yu wouldn't mind annihilating them all.

"You exaggerate. We're all human race; how could we commit such acts?"

"I presume you're heading to the Great Yu Alliance; we'll accompany you as we are on the same path."

The Green-Bearded Elder smiled slightly.

Chen Yu ignored them, turned and left.

"Supreme Elder, this brat doesn't even regard us."

The Jiuding Palace Master's face was chilly.

"However, he comprehended Space Profound Meaning, possessing speed advantage. If we attack, we may not be able to kill him."

The Green-Bearded Elder shook his head slightly.

"Makes sense. Let's go to the Great Yu Alliance; I suspect this brat's identity, better have the Blood Slaying Organization investigate."

The Jiuding Palace Master said.

Two years ago, the news of Chen Yu's death had widely spread.

Now two years later, Chen Yu suddenly appeared, even becoming a Condensed Star King, surprising all.

Youngest Condensed Star King in a millennium for Great Yu Realm was 101 years old.

Even if Chen Yu had just broken through the Condensed Star King, he could not grasp such profound Space Meaning.

In short, the Jiuding Palace Master believed Chen Yu had significant issues, possibly harboring other treasures.

"In the Great Yu Alliance's Battle Hall, I have friends. Others would more likely believe the Condensed Star Realm early-stage peak king was jointly killed by us."

The Green-Bearded Elder spoke calmly.

Then took out a flying tool, the four followed Chen Yu to the Great Yu Alliance.

Half a month later.

Chen Yu arrived at the Great Yu Alliance.

"Hey, why does this person resemble Chen Yu so closely?"

"Probably just similar looks, Chen Yu died on the battlefield two years ago."

Amid people entering and leaving the Great Yu Alliance, someone noticed Chen Yu.

"Seems I should prove I'm not dead first."

Chen Yu chuckled.

But once reaching the Battle Hall, his resurgence in the Great Yu Realm would surely spread.

"I advise handing over that alien's corpse. Even the Battle Hall's leader wouldn't believe you killed that alien."

The Jiuding Palace Master approached, speaking calmly.

Chapter 938: It's Actually Alive

"I advise you to hand over the corpse of that foreign race. Even the person in charge of the Battle Hall wouldn't believe that it was killed by you."

The Jiuding Palace Master walked up, speaking calmly.

"That's none of your concern."

Chen Yu didn't even glance at the Jiuding Palace Master and walked straight ahead.

At this moment, the Green-Bearded Elder approached and whispered, "Don't worry, the one in charge of validating battle achievements now, Hall Master Zhao, once received my favor."

"That's a relief."

The Jiuding Palace Master nodded and followed behind Chen Yu.

"Li Yang, killed three late Sky Sea Realm, completed two ambush missions..."

"Total reward of ninety thousand contributions!"

Such announcements of battle achievements were incessant in the Battle Hall.

People were long accustomed to it, with only some astonishing geniuses or seasoned strongmen drawing their admiration.

"Have you heard, in the Northern Domain, there's a king whose lifespan is dwindling? To steal the antidote for Bloodless Poison, he infiltrated the Blood Race, but his identity was exposed and he was killed by them."

"Sigh, I've heard about this. This mission is essentially a death sentence."

"This task is still posted, but almost no one wants to take it."

...

The young girl in the pink dress heard these discussions, showed a look of compassion, and asked, "Master, is there really no cure for Elder Li Taishang's poison?"

Jiuding Palace's Elder Li Taishang also got infected with the Bloodless Poison, and it has been years since he's shown his face; the disciples of Jiuding Palace aren't even certain if he's alive or dead.

"Currently, only the 'Black Poison King' of the Blood Race can cure this poison. But this person hides deep in the core area of the Blood Sea Realm, making him hard to approach. His cultivation has reached mid-stage Star Condensation Realm, greatly formidable."

"Perhaps an Alchemy Master from the Great Yu Realm might develop an antidote, but that could take decades or even a century."

The Green-Bearded Elder sighed; by then, Elder Li Taishang would be long gone.

"Yan'er, don't rely on the antidote!"

"Once I become a Condensed Star King, I'll head to the battlefield and kill all the enemy experts to avenge Elder Li Taishang."

The man with sword-shaped eyebrows spoke spiritedly.

After seeing Chen Yu achieve the title of king at such a young age, his mindset changed. He believed breaking through to Condensed Star Realm wasn't that hard, and he wasn't much inferior to Chen Yu.

"Qi Dong is right. The current strategy of the Great Yu Realm is to kill the enemy with all might, to compensate for the massive losses the Bloodless Poison will cause."

The Green-Bearded Elder gave a slightly approving look at the man with sword-shaped eyebrows.

The girl in the pink dress and he were both Jiuding Palace talents, but the girl lacked a strong heart, while the man's future path was undoubtedly longer.

Just then.

Chen Yu walked to the front of the Battle Hall and took out a battle token.

The battle token recorded his information and could serve as identification.

"Chen Yu?"

When Hall Master Zhao, who recorded the battle achievements, read the information from the battle token, he was momentarily stunned.

Wasn't Chen Yu already dead?

Immediately afterward, Chen Yu presented proofs of his battle achievements, mainly some corpses of his enemies and their identification. If no remains existed, he needed to present a memory of the scene...

First, Chen Yu took out the corpse of the White Scale King.

"This is an early-stage Condensed Star Realm peak foreign race!"

Hall Master Zhao took a sharp intake of breath.

That is the corpse of a powerful king. Just the king's flesh is a treasured supplement for a Venerable.

"Hall Master Zhao, this young brother came with us. At that time, this early-stage Condensed Star Realm peak foreign race was killed by our two Jiuding Palace kings, but this boy claims this Condensed Star early-stage peak king was killed by him."

The Green-Bearded Elder suddenly spoke with a smile from the back.

"Ah, so it's Senior Song."

Hall Master Zhao stood up and gave a slight bow upon seeing the Green-Bearded Elder.

He had once received grace from this senior and immediately understood the other's meaning when the Green-Bearded Elder spoke.

In principle, he shouldn't help fabricate such things for the Green-Bearded Elder.

But in his view, what the Green-Bearded Elder said must be true.

This is a Condensed Star early-stage peak king; it must be the two Jiuding Palace kings who killed him. How could Chen Yu have killed him? The thought seemed impossible.

"You must think clearly; falsely reporting battle achievements will result in severe punishment."

Hall Master Zhao stared at Chen Yu with a warning in his eyes.

Yet, as he gazed intently, his heart suddenly skipped a beat, for he realized that the faint aura emanating from Chen Yu was much stronger than his own, evidently a king's aura!

Chen Yu had actually broken through to the Condensed Star Realm and became a king!

Those around who heard the Green-Bearded Elder and Hall Master Zhao's conversation instantly showed interest.

"Hahaha, it's hilarious. This is a Condensed Star early-stage peak king; no way could a kid like you kill him."

"Speaking without thinking, such glaring lies, who would believe them?"

Most people immediately sneered.

In comparison, they considered what the Green-Bearded Elder and Hall Master Zhao said to be highly convincing.

That was a Condensed Star King, and from the opening of the war until now, the number of fallen kings on both sides wasn't many either.

The man with sword-shaped eyebrows felt quite delighted seeing Chen Yu questioned and ridiculed.

"It really was me who killed him."

Chen Yu affirmed.

Hall Master Zhao frowned, not believing it at all.

How could this be possible?

The ridicule around grew stronger, all believing Chen Yu to be utterly shameless.

"Hall Master Zhao, it's best to have someone verify it and let the facts speak for themselves."

The Green-Bearded Elder commented emotionally, showcasing an attitude of magnanimity by not bothering with the younger generation.

"Someone, take this corpse to the examination room!"

Hall Master Zhao ordered, and then someone took the White Scale King's body away.

Behind the scenes, he had already instructed them to barely check it and just go through the motions.

"Speak, what other achievements do you have?"

Hall Master Zhao asked again.

"I killed six Half-step Condensing Star Realm individuals."

These six Half-step Condensing Star Realms came with the White Scale King and others to besiege Chen Yu, all dying in the Green Cloud Secret Realm, with some even leaving no trace other than some severed limbs.

There was no doubt from Hall Master Zhao on this achievement, so he recorded it.

"Killed two early-stage Condensing Star Blood Race!"

Chen Yu said again.

"Are you sure?"

Master Zhao questioned with doubt.

The others immediately laughed.

"This kid is boasting again."

"First it was an early-stage peak Condensed Star Realm king, now he says he killed two early-stage ones."

"Does he really think kings grow on trees and can be cut down casually?"

But suddenly.

Chen Yu took out two king corpses, precisely the Cold Blood King and Night Toad King.

A kingly aura still emanated from them, causing the surrounding energies to churn, a heavy, oppressive atmosphere spreading forth.

Everyone gasped in astonishment, taking deep breaths.

Including people from Jiuding Palace, even Master Zhao was very surprised.

"How does this kid have king corpses?"

The Green-Bearded Elder thought to himself in shock.

"Where did he pick them up from?" This was the Jiuding Palace Master's thought.

Master Zhao refrained from questioning further and continued to inquire.

The rules here were to first record achievements and then verify them one by one. If there were fraudulent achievements, triple achievements points would be deducted, including other penalties.

Chen Yu thought for a moment. Aside from those enemies he killed recently, it seemed he had no other achievements...

He'd been lurking in the Blood Sea Realm for two years, mainly aiming to steal the antidote to Bloodless Poison, so he remained rather low-key and hadn't done anything attention-grabbing.

"This must be it now."

The Green-Bearded Elder thought in his mind.

These are two Blood Clan king corpses! Plus the seven half-step Condensing Star Realm ones before—that's a contribution of over a million points!

"Oh, I almost forgot..."

Chen Yu's eyes suddenly brightened, and then he remembered, he still had the Bloodline Young Ancestor hidden in the Light Silver Crystal Space.

The Blood-sucking Clan Young Ancestor would also be worth quite a lot.

Thinking about this, Chen Yu released Young Master Gu.

The Bloodline Young Ancestor had been hidden in the Light Silver Crystal Space by Chen Yu for two years, wanting to die but unable, and unable to escape, long despairing.

But suddenly, he realized he was outside of that space now.

"Chen Yu, I shall never be reconciled with you! The Blood Race will never let you off!"

The Young Ancestor roared immediately, eyes bloodshot and filled with endless anger and humiliation.

But suddenly.

The Young Ancestor noticed something was amiss, why were there so many humans and monsters? Where is this place?

"Capturing the Bloodline Young Ancestor alive should bring more contribution than killing one."

Chen Yu chuckled.

"..."

Silence reigned in the surroundings!

A moment later, a thunderous cacophony erupted.

"Oh my god, it's a Blood-sucking Clan descendant!"

"Really? I've never seen a Blood-sucking Clan descendant in real life!"

"I've seen dead ones, but this time it's alive—a living descendant of the Blood-sucking Clan!"

Excited voices, shocked voices, and shouts resounded nonstop.

"You... Chen Yu... where is this? What do you intend?"

The Young Ancestor felt the glowing intense gazes around him, his entire body shaking, enveloped in dread.

At this moment, the Young Ancestor seemed like a rare treasure being scrutinized.

Master Zhao even curiously picked up the Young Ancestor, touching him everywhere—it was the first time he had seen the true form of a living Blood-sucking Clan descendant.

"Chen Yu, I hate you!"

The Young Ancestor shouted hoarsely, feeling stripped like a helpless woman exposed to everyone's mercy... He had never suffered such humiliation in his life.

Even the Jiuding Palace summoners were stunned.

"How is this possible? Where did he get a living Blood-sucking Clan descendant!"

The Jiuding Palace Master exclaimed in disbelief.

A live capture not only demonstrates Great Yu Realm's prowess, but also boosts morale and holds research value.

"Impossible, how did this kid accomplish that?"

The Jiuding Palace Master's expression turned astonished.

The number of Blood-sucking Clan descendants is much rarer than Condensed Star Realm kings, each with incredible skills, capturing them alive is a tall order.

The sword-eyed man and the pink-dress woman were also left gaping, staring incredulously at Chen Yu.

Previously, they were already shocked when Chen Yu presented two king corpses, yet now, he produced a living Blood-sucking Clan descendant.

"Its previous status was Young Ancestor Gu, its cultivation at half-step Condensing Star Realm."

Chen Yu added a sentence.

After all, Young Ancestor Gu's cultivation had become abolished.

"Got it, got it."

Master Zhao was flabbergasted, looking at Chen Yu, suddenly feeling apprehensive.

Previously, he thought that the White Scale King was killed by Jiuding Palace's king, even when Chen Yu later brought out two king corpses, he still suspected them to be fakes.

But now, Chen Yu had brought out a living Young Ancestor.

To capture a living Young Ancestor, killing Condensing Star Realm became plausible, Master Zhao at this moment even wondered whether that early-stage peak Condensed Star Realm king had genuinely been killed by Chen Yu.

Thinking of this, Master Zhao felt a bit frightened.

"Do you have any more achievements?"

Master Zhao asked.

"Certainly none this time!"

The Green-Bearded Elder was inwardly absolutely certain.

But he noticed, Chen Yu smiled confidently, saying, "There's one last achievement!"

Chapter 939: No One Can Save You

Chen Yu's final achievement is certainly the antidote for the Bloodless Poison. Such a great contribution must be presented last.

He opened his palm, and a metal box appeared.

The crowd's eyes focused on it.

Today, Chen Yu had already given them too many surprises.

But judging by Chen Yu's demeanor, the contents of this box were the main event.

The box opened, and an ice crystal jade bottle floated out, containing black powder inside.

"This is... medicine powder?"

"It's just a bottle of medicine powder. Is there a need to be so cautious?"

The crowd was puzzled.

"Pretending to be mysterious, just a bottle of medicine powder, what kind of achievement is that?"

The Jiuding Palace Master couldn't help but snort.

"May I ask, what is this medicine powder?"

Master Zhao asked.

Now, his impression of Chen Yu had greatly changed, and so did his attitude.

The people of Jiuding Palace had conflicts with Chen Yu; he did not. He wouldn't oppose another king just because he had received some favors from others in the past.

"This bottle of medicine powder can cure the Bloodless Poison affecting the Condensed Star King!"

Chen Yu's calm words were like countless thunderbolts crashing down, causing chaos on the scene, and continuous exclamations of surprise.

The antidote for the Bloodless Poison!

At this moment, the entire Great Yu Realm was troubled by this issue, and many powerful figures were helpless!

In the eyes of many, this poison had already become incurable!

But now, Chen Yu claimed that a small bottle of black medicine powder in front of him could cure the Bloodless Poison.

"Is this true?"

Master Zhao's eyes widened instantly, his mind boiling with an unimaginable surge.

"The antidote for the Bloodless Poison?"

The girl in the pink dress was dumbfounded. Her master just told her not to hope for an antidote for the Bloodless Poison.

"Young man, what nonsense are you talking about!"

"Fabricating such lies might bring you attention, but do you think we're all fools? If you forged an antidote for the Bloodless Poison to deceive the masses, you will face the wrath of the Great Yu Alliance!"

The Jiuding Palace Master immediately rebuked.

Since he hadn't found a suitable reason to suppress Chen Yu before, now the opportunity came, and he immediately accused Chen Yu of various crimes.

"I think all his previous achievements were fabricated. Now he's making a fuss over the Bloodless Poison, truly reckless."

The man with sword-like eyebrows sneered repeatedly, eager to see Chen Yu embarrassed.

"Nonsense, the antidote for the Bloodless Poison is only in the possession of the Black Poison King of the Blood Sea Realm."

The Bloodline Young Ancestor sneered disdainfully.

Hearing even the Bloodline Young Ancestor say so, more accusations followed.

It's too hard to believe. They'd rather believe that Chen Yu killed that early-stage Condensed Star Realm peak king than that the antidote for the Bloodless Poison is right here.

"Why all the noise?"

A voice of anger came out, accompanied by a terrifying aura that swept like a storm of Evil Qi.

Suddenly, silence fell outside the hall.

That aura was truly terrifying, suppressing them all from uttering another word.

The next moment, an old man with white hair dressed in a black robe stepped out with a majestic and angry expression. His withered face was full of wrinkles, and his dark eyes were like the Ghost Evil of Hell, filled with sinister Qi.

"Elder Jiang."

Master Zhao stood up and bowed.

The rest present also paid their respects.

This man before them was the person in charge of the Battle Hall, having authority over almost everything here.

"Hey? Is it you, kid?"

Elder Jiang glanced at Chen Yu.

A few years back, when Chen Yu first arrived at the Battle Hall, he caused quite a stir, and Elder Jiang eventually resolved everything.

And this time, it was again caused by Chen Yu, even more intensely than before.

But back then, Elder Jiang had heard that Chen Yu had died on the battlefield and had lamented for a while.

Now it seems there was more to the story.

Not only did Chen Yu not die, but he also turned misfortune into fortune and became a Condensed Star King.

A hint of brilliance flashed in Elder Jiang's eyes.

Such a young king is truly rare.

"What happened this time?"

Elder Jiang questioned Master Zhao.

Master Zhao shivered instantly; Elder Jiang's attitude towards Chen Yu was a bit too favorable, leading to some dissatisfaction with him, as if blaming him for not handling the situation well and causing such a disturbance.

"Reporting to Elder Jiang, Chen Yu claims he has obtained the antidote for the Bloodless Poison to cure the king's poison!"

Master Zhao glanced at Chen Yu, seeing no reaction from him, so he spoke bluntly.

"You say... what?"

Elder Jiang was taken aback by these words, quickly concealing his emotions and lowering his voice.

"Indeed, Elder Jiang, this is the antidote for the Bloodless Poison, which can easily cure the poison affecting the king."

Chen Yu replied with a smile.

He also knew that ordinary people might not believe it. Everything was within his expectations, so Chen Yu remained very calm throughout.

Swoosh!

The ice crystal jade bottle instantly vanished, the next moment appearing out of nowhere in Elder Jiang's hand.

"Chen Yu, do you know that if you deceive me and trick the high-levels of Dayu, you will face capital punishment!"

Elder Jiang's face was stern and cold, emitting a chilling aura like a devil from Nine Nether Hell.

This was the last inquiry.

"Rest assured, Elder Jiang."

Chen Yu remained calm.

"Good!"

Elder Jiang restrained his imposing manner, his gaze lingered on Chen Yu for two seconds, and then he instantly disappeared.

Elder Jiang's cultivation was at least the Mid-stage Star Condensation Realm, possibly even later stages. That terrifying pressure made them unable to move, almost suffocating.

Now, as he left, everyone present felt relieved, with many taking several deep breaths.

But more people looked at Chen Yu with continuous sighs.

"Not only has Elder Jiang been alarmed, it's feared that other high-level officials of the Great Yu Alliance will also be disturbed. Let's see how this kid will handle it then."

"Given the importance of this issue, deceiving the Great Yu high-ups can only end in death. What other outcome could there be?"

At this moment, no one still believed in Chen Yu.

Only the Black Poison King from the core of the Blood Sea Realm had the antidote to the Bloodless Poison. Are they expecting the Blood Race to obediently hand over the antidote? It's impossible, even if the sky falls.

"If you have anything to say, better say it now, because you might not have the chance later."

The Jiuding Palace Master said with a mocking smile.

"After all, we've met once. If you have any unfulfilled wishes, speak them out; maybe we can help you."

The Green-Bearded Elder remarked with a poignant tone, with a hint of ridicule in his words.

At this point, concerning the merit of that alien battle power, they no longer bothered to argue with Chen Yu. Anyway, Chen Yu was about to die soon, and then the merit would be theirs.

...

Great Yu Alliance, Discussion Hall.

A dozen people gathered there; each one was a dominant kingpin in the Great Yu Realm.

"The Silent Blood Valley Master of Black Demon Valley and Fairy Tian Lan of Yuxia Sect are already critically ill. I'm afraid they can only hold on for three months!"

"After three months, if there is no antidote, we'll have to request help from the Xuanming Realm expert!"

The hall fell silent.

Finally, it was time to make a critical decision.

The number of kings affected by the poison would only increase, while the war would enter the decisive stage.

Should we let the Xuanming Realm take action to heal them, or let the poisoned kings fend for themselves?

Regarding this decision.

No one gave an immediate answer, as it related to the war's outcome and the survival of the Great Yu Realm.

If the decision was wrong, it would be an eternal crime.

Thus, whenever this topic was mentioned, the high-level officials present invariably fell silent.

"Why not send someone to infiltrate the Blood Sea Realm and obtain the antidote!"

A king, shrouded in shadows, spoke.

He was the Demon Valley Master.

"The Blood Race must have anticipated our situation, and their defenses must be tight. Trying to infiltrate and get the antidote now is at least ten times more difficult than before, a mission with no return!"

The Moon Robed Female King, enveloped in hazy moonlight, sighed softly.

The hall fell silent again.

At this moment.

"Pardon the intrusion."

A low shout came from outside the hall, followed by a figure rushing in, startling everyone inside.

"Elder Jiang, aren't you supposed to be stationed in the Battle Hall?"

"What happened that made Elder Jiang so urgent?"

The kings within the hall asked.

"Is anyone here afflicted with Bloodless Poison?"

Elder Jiang scanned everyone present.

The high-level officials exchanged looks, and the Moon Robed Female King stood up: "I too am afflicted with the Bloodless Poison, but my condition is relatively mild."

"Not sure why Elder Jiang is asking about this..."

Before the female king could finish, Elder Jiang interrupted: "I have a bottle of an unknown substance here, which might be an antidote."

Elder Jiang spoke cautiously.

"What?"

Exclamations filled the hall, and some kings immediately rose, moving to Elder Jiang's side.

"Elder Jiang, are you serious?"

The Moon Robed Female King's expression was excited.

"Elder Jiang, where did you get this substance?"

Under the questioning gaze of the kings, Elder Jiang confessed and recounted the whole story.

"Didn't expect that kid to still be alive, but about this antidote..."

The Demon Valley Master murmured, his face slightly grave, doubting the antidote before them.

"Elder Jiang, how could the item that kid randomly brought out be the antidote?"

"It's utterly nonsensical."

"I can't judge this medicinal powder immediately, but based on its properties, it indeed seems to counteract the Bloodless Poison."

A king knowledgeable in alchemy spoke.

"I am willing to try it."

The Moon Robed Female King volunteered, accepting the bottle from Elder Jiang.

All the kings' eyes were on the Moon Robed Female King. Although few believed, there was a glimmer of hope in their hearts that a miracle might occur.

...

Outside the Battle Hall, no one dispersed, and even more people gathered when they heard about the incident.

"An antidote for Bloodless Poison? How could that be possible?"

"This matter has already alarmed Elder Jiang and numerous high-level officials; this kid might not survive today!"

Yet Chen Yu stood before the Battle Hall, unfazed by the outside voices, his expression calm, even exuding confidence and joy.

This must be an earth-shattering achievement. I wonder how much benefit can be obtained then.

"How can you still remain so calm, today you actively seek death; who can save you."

The Jiuding Palace Master did not like Chen Yu's current demeanor, spoke mockingly with a cold and arrogant expression.

"Elder Jiang is here!"

Someone exclaimed.

A black-clothed figure, radiating immense Evil Qi, quickly approached, the kingly aura suppressing the area.

"You're doomed."

The Jiuding Palace Master's lips curled up, waiting for Elder Jiang to sentence Chen Yu to death.

But suddenly, his expression changed dramatically, and those around him gasped.

Another king appeared behind Elder Jiang.

No, there were three!

No, no, it's ten!

In an instant, seventeen kings, all high-level decision-makers of the Great Yu Alliance, gathered here, bringing absolute silence!

Chapter 940: Repentance and Admission of Guilt

At this moment, the usually rare sight of the towering kings arrived together.

The void seemed to freeze, and the chaotic and diverse aura brilliance intertwined in the sky, dazzling to the eyes.

In front of the Battle Hall, which was bustling just now, fell silent in an instant, even the sound of breathing and heartbeat was clearly audible.

"What... is this about?"

The Jiuding Palace Master stood stiffly in place.

Although he was also a Condensed Star King, he was just an ordinary type, without the qualification to be part of the Great Yu Alliance's high level.

But now, the numerous king-level high-ups of the Great Yu Alliance had actually arrived, more than a dozen of them.

Those seventeen kings, like the blazing sun hanging in mid-air, while others could only crawl at their feet.

"With all the high-ups present, it seems Chen Yu's lie has completely angered them."

The Green-Bearded Elder transmitted sound, also reassuring himself.

Upon hearing this, the Jiuding Palace Master felt more at ease, believing that was indeed the case, with no other possibility.

It must be Chen Yu using a fake antidote to tease the high-ups, provoking their fury, hence they came personally.

"Chen Yu, why don't you kneel down and apologize, daring to tease the kings, truly unaware of the danger."

The Jiuding Palace Master immediately shouted, showing off in front of many Great Yu Alliance high-level kings present.

"I've long advised you, to be honest, yet you act recklessly, always fabricating lies since arriving at the Battle Hall. Now you've made a big mistake, kneel down and apologize!"

The Emotion Elder adopted a lecturing posture as a senior toward Chen Yu.

"Ha ha!"

The sword-browed man sneered repeatedly, enjoying Chen Yu's embarrassment, feeling satisfied internally.

Gradually, reprimands began to echo around.

Suddenly.

"Shut up!"

Elder Jiang shouted abruptly.

His densely wrinkled face turned ashen, murderous, like a peerless fierce god.

The scene fell silent again.

The Jiuding Palace Master and the Green-Bearded Elder looked at Elder Jiang in surprise, a bad feeling suddenly surfaced in their hearts.

"What nonsense are you spouting?"

Elder Jiang questioned.

Those who mocked Chen Yu earlier had already begun to suspect something, standing dumbfounded and dazed, shrinking under Elder Jiang's immense might.

"Chen, this time you have accomplished a great merit for the Great Yu Realm."

Elder Jiang's attitude suddenly changed, speaking with deep emotion.

The Jiuding Palace Master and the Green-Bearded Elder's hearts instantly sank.

"Chen is truly a top genius among the younger generation of the Great Yu Realm, breaking through to the position of King at a young age and achieving such astonishing merits. Even I am ashamed in comparison."

These words were spoken by a king at the Early-stage Condensed Star Realm Peak, who had always been arrogant but now admitted inferiority to Chen Yu.

"King Tianyu, when you have time, come to my Death Spirit Sect as a guest. The sect will certainly entertain you well, allowing you to enjoy yourself."

Death Spirit Sect, a four-star ruling force in the Western Region.

"I wonder if King Tianyu has a Daoist couple. My little daughter, although a bit unruly, possesses beauty and talent..."

Another king had other thoughts.

"Thank you, kings, for your praise!"

Chen Yu clasped his fists in salute.

The Jiuding Palace Master and the Green-Bearded Elder were completely dumbfounded, watching the usually aloof high levels of the Great Yu, each smiling and talking with Chen Yu, expressing gratitude, with some even planning to betroth their daughters to him.

Could the antidote be real?

The question arose in the minds of the two, unwilling to admit, but the present facts had already proved everything.

More people had to incredulously accept the previously denied occurrence.

Master Zhao snapped out of his daze, looking at Chen Yu, full of admiration.

Yet suddenly, he recalled some previous matters, cold sweat dripping from his forehead.

He seemed to have assisted Jiuding Palace's kings in targeting Chen Yu earlier.

Could that Condensed Star Realm Peak foreign king really have been slain by Chen Yu?

"Master Zhao, the autopsy results are out."

At this time, an attendant hurried over.

Without stepping out of the main hall, without seeing the dozen kings outside the hall, exclaimed, "According to the autopsy results, the fatal wounds of the Early-stage Condensed Star Realm Peak king were caused by sword and spear."

Master Zhao stood rooted, his eyes widening as he looked at this attendant, feeling an overwhelming urge to kill.

Now with so many high-level kings of the Great Yu Realm happily chatting with Chen Yu, whether that foreign king was slain by him or not, they would attribute it to Chen Yu.

"Oh? So, does Master Zhao think I falsely reported my battle achievements?"

Chen Yu curved a playful smile, "Since that's the case, let's credit this battle achievement to Jiuding Palace's King!"

Elder Jiang and other kings hadn't paid much attention to the words of that attendant earlier.

Now as Chen Yu spoke, they understood this matter related to him.

Falsely reported battle achievements?

How could it be!

Just obtaining the antidote for the Bloodless Poison was a battle merit, his honor and contributions surpassed anyone involved in the war, needing no false reporting of other achievements?

Master Zhao sensed the change in expression among many kings, his heart trembling.

The Jiuding Palace Master and the Green-Bearded Elder felt like crying but had no tears, now they didn't dare want this battle merit even if they wished.

"How long has it been, ask the autopsy room to carefully examine, don't wrongly accuse 'King Tianyu'."

Master Zhao immediately commanded.

The attendant showed a peculiar expression, wondering if Master Zhao's mind had gone awry, so he replied, "Master Zhao, there will be no mistakes, the results are as such."

Master Zhao was completely bewildered, feeling an urge to kill.

Initially considering this attendant quite smart, planning for significant cultivation, now seemingly blind in judgment.

"Little Zhao, what's going on?"

Elder Jiang said in a deep voice, his formidable presence pressing like a gigantic mountain.

Thud!

Master Zhao kneeled on the ground, his voice trembling as he said, "This is a misunderstanding."

"Quickly have the forensics re-examine it."

Master Zhao shouted.

Only then did the attendants realize the towering figures floating outside in the void, finally sensing something was wrong, and they took immediate action.

"No need for re-examination, Chen would not falsely report military achievements."

Elder Jiang snorted coldly, a single sentence determining the outcome.

As the person in charge of the Battle Hall, he had this authority.

"Elder Jiang, how can I accept this honor, as a junior, I cannot take the military achievements of the two seniors from Jiuding Palace."

Chen Yu said leisurely with a smile.

Having been repeatedly humiliated by the people from Jiuding Palace before, Chen Yu was no saint and would not easily let them off now.

"No, King Tianyu, you are too kind. These achievements rightfully belong to you."

"It was our fault before, King Tianyu, please forgive us."

The Jiuding Palace Master and the Green-Bearded Elder showed bitter expressions, bowing to apologize.

"Everyone, come in and chat."

At this time, an old man wearing a black wizard hat spoke up, taking the lead to enter the Battle Hall.

Chen Yu noticed that this cloaked man, whose face couldn't be seen, seemed to hold a very high status, as the other kings all followed his orders and flew into the Battle Hall.

"You two, come in and have a chat as well."

Elder Jiang looked towards the Jiuding Palace Master and the Green-Bearded Elder.

Originally they thought the matter had finally ended, but with Elder Jiang's words, they were left in tears and entered the Battle Hall.

Inside the Battle Hall.

Upon entering, the Demon Valley Master introduced each of the kings present to Chen Yu.

The old man wearing the wizard hat was a core elder of the Great Yu Alliance and also the vice sect hierarch of the Four-star Force, Death Spirit Sect, in the Western Region, with unfathomable strength.

"Chen, where did you get the antidote from?"

The old man in the wizard hat asked.

The other kings looked over, as this was indeed their biggest question.

Even the Jiuding Palace Master and the Green-Bearded Elder were extremely curious, as they had essentially fallen because of this matter today, and still felt very unwilling in their hearts.

"I infiltrated the Blood Race for two years and got close to the Black Poison King, obtaining it from him."

Chen Yu explained simply.

The kings, after hearing this, were slightly silent.

What Chen Yu recounted was a plan they had attempted countless times, only to end in failure.

It was only Chen Yu who managed to succeed without them knowing.

"Chen had infiltrated the Blood Race before, and now managed to infiltrate again, remarkable, truly remarkable."

"I heard King Tianyu even captured a Bloodline Young Ancestor alive, truly impressive methods."

With their doubts resolved, the kings reverted to their prior demeanor, smiling and praising.

The Jiuding Palace Master and the Green-Bearded Elder were left aside, ignored, feeling both grateful and sorrowfully pained.

"The antidote that Chen brought back has been verified and can cure the Bloodless Poison affecting the kings."

"However, we need to keep some antidote for the alchemists to study and strive to produce replicas as soon as possible."

A king said.

"Can I make a request?"

Chen Yu asked.

"Speak."

"Since some antidote is needed for research, the remaining antidote is difficult to save all the kings, so please treat the severely ill kings first!"

"As for those whose conditions are not severe, there's no rush."

Chen Yu said calmly, and after the last sentence, directly stared at the two kings from Jiuding Palace.

The kings present, of course, understood what Chen Yu meant.

"I agree."

The Demon Valley Master spoke.

"Chen's words make sense."

The old man in the wizard hat said plainly, and the other kings voiced their agreement without dissent.

The Jiuding Palace Master and the Green-Bearded Elder were stunned, for a king from their Jiuding Palace was also poisoned and seriously ill.

That was a king-level combat power, and once lost, it would have a great impact on the sect.

Moreover, if the other sects' kings could receive the antidote and theirs could not, Jiuding Palace's status in the Eastern Domain would likely plummet, and their half three-star title would be in jeopardy.

"King Tianyu, within our Jiuding Palace, Elder Li Taishang's condition is extremely serious, and can only hold on for at most half a year."

The Jiuding Palace Master pleaded.

"Please, King Tianyu, grant Jiuding Palace the antidote."

The Green-Bearded Elder sighed and implored.

The kings present seemed oblivious, staying silent.

"No."

Chen Yu remained calm and confident, refusing the antidote needlessly.

Before, at the Great Yu Alliance, these two even wanted to make a move on Chen Yu to silence him and seize the military achievement.

In front of the Battle Hall, they also taunted, hoping for Chen Yu's early death.

"King Tianyu, it was my fault before. I offer you my apologies here. In the future, whatever your orders, the Jiuding Palace will ensure it is accomplished..."

The Green-Bearded Elder bowed his head in apology, representing Jiuding Palace, giving a firm promise.

This was not only for the antidote but also to ease relations.

Chen Yu had made such a significant achievement, and with his cultivation talent, he was bound to become a pillar of the Great Yu Realm in the future, someone Jiuding Palace could not afford to provoke.
