

Eternal Life 281

Chapter 281: Can't Be Deduced With Common Sense (1)

It was night. The moon was bright and the stars were sparse. Spring light rippled in the master bedroom. Although he had been having sex for a long time, every time he enjoyed the scenery of the mountains and rivers, it would be a rare moment of relaxation, especially when his cultivation was boring. The most primitive communication was undoubtedly the best way to relax his mind.

It was five in the morning. The sky was slightly bright. His beautiful wife and family all fell asleep from exhaustion. Shen Ping looked back at the curves that looked like ridges and were of different heights. With a faint smile on his lips, he walked out of the house. He arrived at the main quiet room. Surging and pure spiritual energy enveloped his body.

He sat cross-legged on a cushion. He opened the virtual interface as usual and began to save himself every day. His gaze swept over. The seven-colored frame was dazzling. The purple crown frame flickered luxuriously, and the golden frame shone brightly. Although the remaining silver frame was covered, it still had a unique luster flickering.

He looked at it seriously. His various attributes increased steadily, but the overall increase was not huge. The main reason was that as his various skills, spiritual roots, divine powers, and other things continued to improve, the experience required increased day by day. It was relatively difficult to transform in a short period of time.

Especially the Life Divine Talisman and Life Divine Puppet that were most beneficial to him, the increase was even slower.

Moreover, ever since they arrived at the Fire Spirit Hall, He had not had much fun with his wife, concubines, and Dao companions.

After all, they were in a Level 7 spiritual vein and had all kinds of top resources provided by the Mountain Fire Hall. The wife, concubines, and Dao companions who had always blamed themselves for not being able to share Shen Ping's burden naturally cultivated diligently.

As for Shen Ping, he focused on comprehending the third volume of the beast form, the Strange Beast Hoof and Claws Diagram.

Therefore, it was normal for the number of pleasures to decrease. However, the gains from focusing on cultivation were also huge. The girls' cultivation had improved rapidly during this period of time, and Bai Yuying had officially broken through to the Foundation Establishment realm a few days ago.

This made Shen Ping happy. His wife and concubines' breakthrough in cultivation was even more comfortable than his own. Because there was still a long way to go. As long as his wives, concubines, and Dao companions could continue to improve, he would have plenty of time to make up for it in the future.

He shook his head and suppressed his thoughts. The spirit platform was empty. As the Qianyuan Technique circulated, the spiritual root that had transformed to the earth spirit rank immediately absorbed a vast amount of dense spiritual energy through the acupoints on its body like a whale

swallowing water. In a long breath, the spiritual energy slowly circulated along the cultivation method path and transformed into pure and rich magic power through its dantian.

In the two hours from five to seven, the increase in magic power in his dantian was obvious. After sensing the situation with his divine sense, Shen Ping immediately revealed a satisfied expression. It had only been five to six days since his last breakthrough, but the magic powers in his meridians and dantian were already close to one-third. At this speed, he would be able to break through to the perfected Foundation Establishment realm in at most a month!

This cultivation speed had already exceeded the increase in cultivation from the blue strange beast blood.

At this moment, Shen Ping increasingly felt that an earth-grade spiritual root needed to be in such an environment to unleash its true effect.

“Husband, it’s time to eat.” His wife’s voice sounded outside the quiet room.

It was common for most Foundation Establishment and Golden Core cultivators to go into seclusion to cultivate. However, unless Shen Ping immersed himself in cultivation, he would eat on time every day like a mortal. Firstly, he wanted to adjust his mental state. Secondly, he wanted to understand the cultivation progress of his wives, concubines, and Dao companions during the process of eating and increase their relationship.

After the meal, he began another daily cultivation and copied the third volume of the beast form of the Talisman Beast Scripture, the Strange Beast Hoof and Claws Diagram.

Buzz!

He activated the jade token with his divine sense. He arrived at the palace in the assessment space.

“The new core member, Shen Ping. Please choose the skill you want to train in.” A familiar gentle voice sounded.

“Talisman Dao.” Shen Ping answered without hesitation.

“The highest trial level you can enter now is the sixth level. Please choose!”

“The sixth floor!”

His voice was still crisp. There was only motivation when there was pressure.

Whoosh.

The strange beast pattern in the center of the palace lit up, and a beam of gentle energy enveloped it. In an instant, it was as if the world was hanging upside down and the sun and moon were changing.

When Shen Ping came back to his senses, he was already standing on the sixth level of the trial. He looked around. It was still a mirror-like lake and island. Soon, the defensive spiritual light rune array covered the entire island.

Swish, swish, swish.

Waves surged in the lake, and the sharp sound of the wind tore through the air. Densely packed strange snakes shot out from the lake, and their ferocious triangular heads fluttered their wings that

were thin like cicada wings, and they were like locusts that covered the heavens and the earth as they launched a mad attack towards the defensive grand formation.

Shen Ping was already used to it. He calmly took out the special talisman material to make the Talisman Beast Diagram. His divine sense activated the Life Divine Talisman in his sea of consciousness.

As the talisman scripture appeared, he immediately copied the hooves and claws of the strange beast.

Ordinary talisman masters would make sufficient preparations to make talismans because drawing spirit runes to make talismans consumed a lot of magic power and divine sense. Without the help of medicinal pills, sometimes, when they tried to make talismans for some time, they would have to stop and recover, causing their state to be broken.

On the other hand, outlining and creating the Talisman Beast Diagram consumed more of his spiritual sea. However, with the jade token space, it was much more convenient for the core skill geniuses.

Of course, if one's divine sense was not strong, they would still be greatly exhausted. Shen Ping's divine sense had long reached the early-stage Nascent Soul realm. It could completely support him in continuously trying to copy.

He failed again and again, in the end, he still failed. A large number of abandoned talismans burned, and the power of the remaining Talisman Beast Diagram shook.

Usually, the core skill members would first use talismans to successfully outline the Talisman Beast Diagram before entering the trial assessment space to train. This was because the trial assessment space was filled with divine sense bodies. They did not have a physical body and their magic powers were still at the perfected Foundation Establishment realm.

There were many restrictions. Their control when sketching was not as exquisite as using talismans in reality..

Chapter 282: Can't Be Deduced With Common Sense (2)

Shen Ping did not sketch and make ordinary Talisman Beast Diagrams at all. He copied the Talisman Scripture from the beginning. This was something that neither Perfected Yu, Hall Master Shan Huo, or Hall Master Dan Hai had expected.

Boom!

More than a thousand strange snakes attacked crazily. The spiritual light of the defensive array became dimmer and dimmer. In the end, it could not hold on anymore. The entire rune array completely collapsed. A large number of strange snakes completely drowned Shen Ping.

Shen Ping frowned slightly in the main quiet room. It required extremely strong patience to copy the Talisman Scripture. The complexity of the hoof and claw diagram far exceeded his imagination. It was normal for it to fail.

However, this copy was different from the second volume of the strange beast's single-horn talisman diagram. He kept feeling an indescribable awkwardness. It was this uncomfortable feeling that made it difficult for him to successfully copy it even now.

"The strange beast talisman scriptures have almost perfect strange beast charms, but why is it so difficult to copy the hooves and claws...?" Shen Ping could not help but ponder. As he thought about it, he got up and paced away in the quiet room.

The final beast form was the charm of a strange beast. It seemed mysterious. In fact, he had outlined the strange beast's body and charm through the spirit rune of the talisman scripture. Other core skill geniuses had never seen a strange beast before. It was like ascending to the heavens to comprehend the charm with the scales of the Talisman Beast Diagram in the scroll. Therefore, the opportunity to enter the Beast Scripture Pavilion was extremely precious.

He had been cultivating these few days. He had heard from Perfected Yu in detail about resources like the Beast Scripture Pavilion and the Talisman Scripture Pavilion. And the strange beast talisman scripture was undoubtedly his greatest advantage.

However, when it came to the claws, it was difficult to copy.

"What went wrong?" He thought hard. However, the more he thought about it, the more he couldn't think of anything. "Never mind. I'll wait until tomorrow to seek Perfected Yu's guidance."

Shen Ping, who could not figure it out no matter how much he thought about it, helplessly suppressed this thought.

The next day was the sixth day of Shen Ping's cultivation with Perfected Yu.

He did not see the elegant and quiet figure in the side hall, nor did he see Perfected Yu either. Shen Ping looked puzzled, but he did not pay much attention to it. Instead, he sat cross-legged in front of the jade table and picked up the talisman brush to make the drawing of the hooves and claws of the strange beast.

Although it was his first time making an ordinary Talisman Beast Diagram, he had copied many hoof and claw diagrams with charm. He was not unfamiliar with sketching an ordinary Talisman Beast Diagram at all. It was successfully made in one go in just five minutes.

He put away the talisman brush. Just as he heaved a sigh of relief and admired his results, he noticed that Perfected Yu was standing beside him. "Senior Yu!" Shen Ping hurriedly bowed respectfully.

Perfected Yu's expression was very calm. He glanced at the Talisman Beast Diagram on the talisman paper and praised casually, "Not bad. You've successfully created it in just six days. This speed is not bad. Talisman Master Shen, with your talent and comprehension in the Talisman Beast Scripture, you could have done it faster. Do you know why you only completed it now?"

Shen Ping was stunned. He could hear Perfected Yu's dissatisfaction from his words.

Before he could respond, Perfected Yu continued, "Cultivators like us need to be able to endure, sit, and defend in order to pursue the Great Dao of Longevity. Especially when studying the Dao of

Talismans, we need to do this. If we want to do this, we have to have sufficient self-control. Otherwise, there will be distracting thoughts and we won't be able to improve on this Dao."

As soon as he finished speaking, a figure appeared in the hall. At the same time, waves of pill fragrance overflowed.

It was Hall Master Dan Hai. He stroked his beard and said with a smile, "Talisman Master Shen's performance in the past few days is really not bad. Although my disciple, Qingling, is not beautiful, her temperament is extraordinary. She is still young and is at the age of cardamom. I heard that Talisman Master Shen has always been flirtatious. To be able to progress so quickly with Qingling's company, your self-control has already surpassed many new members of the same batch."

Shen Ping could not help but feel strange, but he still hurriedly bowed and said, "Hall Master Dan Hai, you flatter me."

Hall Master Dan Hai smiled. When Shen Ping cupped his hands, he sent a voice transmission to Perfected Yu, "Now is not the time to interfere with his cultivation life. It's not too late to wait a few more months."

Perfected Yu frowned. "Hall Master, if you don't make a decision, you'll only cause trouble. Doing this will delay his cultivation. I still insist on interfering now!"

"Nothing can be rushed. As a Talisman Master, you should understand this principle even more." Hall Master Dan Hai frowned and said, "Don't forget, even the main hall values Talisman Master Shen very much, and he is currently being nurtured by Mountain Fire Hall. Hall Master Shan Huo has yet to express his stance, so I, Hall Master Dan Hai, can't say it clearly. Otherwise, who will bear the consequences?!"

"I know that you've always been stubborn, but you can't do it this time. Now that the Mountain Fire Hall and my Dan Hai Hall have just reached an agreement, it's a critical period. We can't lose big because of a small matter. We have to progress slowly. Talisman Master Shen is less than a hundred years old. We have plenty of time to teach him in the future!"

Perfected Yu's frown deepened. He was very clear about Shen Ping's special status. If it was any other core skill, he wouldn't even have the thought of persuading or teaching him. But now...

"Okay. I'll listen to you!"

Even though Perfected Yu's words were filled with strong dissatisfaction, Hall Master Dan Hai still heaved a sigh of relief. No matter what the situation was, the Mountain Fire Hall could give advice, but it was inappropriate for the Dan Hai Hall to suggest that Shen Ping be separated from his wife, concubine, and dao companions.

After all, the period before the calamity was an important stage in the competition for the inheritance of the Beast Scripture. Even if Shen Ping had no hope, they could not let other factors affect him.

The two of them ended the transmission.

Hall Master Dan Hai smiled and said, “Talisman Master Shen, it’s your first time in the Dan Hai Hall to cultivate the Talisman Beast Scripture with Perfected Yu. If you have any doubts, feel free to ask. There’s no need to worry about anything else. As a teacher, Perfected Yu is responsible for guiding you, teaching and clearing your doubts..”

Chapter 283: Can’t Be Deduced With Common Sense (3)

Perfected Yu’s expression was calm as he flung his sleeves behind him. He didn’t think that Shen Ping would have any doubts.

Shen Ping thought for a moment and asked the question that he could not figure out yesterday, “Senior Yu, when I was sketching and making the Talisman Beast Diagram, I kept feeling that there were some places that were not smooth. I kept feeling that it was difficult to show the power of the strange beast’s hoof talisman diagram.”

Hearing this, Perfected Yu didn’t think too much about it and subconsciously said, “There’s no problem with the third volume of Talisman Beast Diagram you created.”

Shen Ping could not help but say again, “Senior Yu, what I’m talking about is the final beast form of the third volume!”

“The final beast form?” Perfected Yu and Hall Master Dan Hai were stunned at the same time.

“Talisman Master Shen, what you said just now was not smooth. Can you explain it in detail?” Perfected Yu stared at Shen Ping.

Shen Ping said in embarrassment, “I can’t tell you the details.”

“You can outline it on the talisman paper.” Perfected Yu spoke again with an unnatural voice.

Shen Ping nodded. Then, he picked up the talisman brush and focused on creating the final form of the strange beast’s hooves and claws that was different from ordinary Talisman Beast Diagram on the jade table.

Once the first stroke landed, Hall Master Dan Hai and Perfected Yu’s pupils constricted. This was because they could tell at a glance that this first special spirit rune was not a combination spirit rune of scriptures, but a completely focused superimposed spirit rune.

The two of them could not help but look at each other. They could see the shock in each other’s eyes.

Creating his own spirit rune!

Clearly, this was a self-created spirit rune. The lowest realm of a person who could do this was an Almighty expert above the Divine Transformation Realm. However, at this moment, they actually saw it on a Foundation Establishment junior cultivator.

Even though they had seen it with their own eyes, they could not believe their eyes. It was too unbelievable.

Suppressing their shock, they continued to watch. As the spirit runes on the talisman paper were drawn, lifelike lines gradually appeared on some of the scales of the strange beast's claws. No doubt about it. This was indeed the final beast form.

Perfected Yu's aura was no longer stable. He stared fixedly at the lines on the talisman paper on the jade table, his eyes filled with disbelief.

How many days had he cultivated?!

Not only could he create his own spirit rune, but he had also really comprehended the final form of the beast form. Even if he hadn't completed it yet, just the outline of the lines in front had already far exceeded the charm of the strange beast's hoof and claw that he had outlined at the beginning.

Five minutes passed.

Shen Ping stopped. The talisman paper was also destroyed and burned to ashes. Waves of strange residual power shook. "Senior Yu, every time I come here, it's difficult for me to continue." He put down the talisman pen and asked respectfully. However, there was no response. He looked up and saw two stunned figures. He could not help but blink. He raised his voice. "Senior Yu..."

Perfected Yu and Hall Master Dan Hai came back to their senses and hurriedly coughed to hide their loss of composure.

"Talisman Master Shen's talent in the Talisman Beast Scripture is really amazing!" Hall Master Dan Hai sighed with emotion. If he hadn't seen it with his own eyes, he definitely wouldn't believe that a Foundation Establishment Cultivator could do this, not even a Golden Core.

Perfected Yu fell silent. At this moment, he already knew that he was still restricted by his thoughts. Shen Ping was a little monstrous. It really couldn't be judged by common sense. When he came back to his senses, Perfected Yu actually felt a trace of relief in his heart as he looked at the pleading look in Shen Ping's eyes. He was glad that this Talisman Dao genius in front of him was not so monstrous that he exceeded the scope of his understanding. The other party was still puzzled.

"The third volume is a talisman diagram of the hooves and claws of strange beasts. The hooves and claws are also the limbs of humans. The hooves and feet bear the weight of the body and the power.

"When Talisman Master Shen outlined it, you seemed to have paid too much attention to the outline of the entire hoof and claw and lacked imagination. The scale patterns derived from the spirit runes in the strange beast's hoof and claw were only a surface phenomenon. It was like the limbs of a cultivator when they were meditating. Once magic power was injected, the limbs would be different. It was the same for the hoof and claw. Its true charm was not the outline, but the eruption of its strength."

Listening to Perfected Yu's detailed guidance, Shen Ping's eyes lit up. At this moment, he already understood his problem.

Copying Talisman Scriptures could allow one to unleash the might of the Talisman Beast Diagram in an extremely short period of time, but sometimes, if one placed too much emphasis on copying, one would lose their own understanding.

As the saying went, do not blindly believe everything written in books!

This was the logic.

"Thank you for your guidance, Senior Yu!" Shen Ping bowed. Then, he couldn't wait to close his eyes. His divine sense seeped into the jade token space and appeared on the sixth level of the trial space again.

In the environment of Lake Island, Shen Ping did not waste any time. He ignored the densely packed strange snake beasts and immediately took out his talisman brush and special talisman paper. He focused on drawing the talisman diagram of the strange beast's hooves and claws.

It was a failure.

He still failed. However, his face was filled with excitement. It was also a copy of the talisman scripture strange beast, but this time, the strange beast talisman scripture in front of him seemed to be completely alive, especially its hooves and claws. It vaguely felt like it was stepping on the sky..

Chapter 284: The Attitude of the Supreme Throne (1)

In the side hall of the Dan Ilai Hall.

Hall Master Dan Hai and Perfected Yu silently disappeared from the hall as they looked at Shen Ping, who had closed his eyes. When they appeared in the corridor pavilion, the two of them slowly exhaled a long and deep breath one after another. The shock in their faces and eyes was no longer suppressed.

As a cultivator who had cultivated for thousands of years, especially in the headquarters of the True Treasure Pavilion, which was filled with geniuses, whether it was Hall Master Dan Hai or Perfected Yu, they had seen countless talented people. However, they had never seen a monster like Shen Ping.

He created his own spirit rune. He had comprehended the final form of the Strange Beast Hoof and Claws Diagram in a short period of time. No matter which one it was, it could be said to be extremely talented, but now, it appeared on the same cultivator.

If there was really a heaven's chosen one in the world, they would have no doubt that it was this Talisman Master Shen. It was precisely because of this that they, with their cultivation and experience, would lose their composure like this.

They sat in the pavilion. For a long time, the two of them did not speak. They sipped their spiritual tea with a heavy heart. In the end, it was Hall Master Dan Ilai who broke the silence. "Perfected Yu,

are you still going to interfere with Talisman Master Shen's cultivation life?" There was clearly a hint of mockery in his words.

Perfected Yu smiled bitterly and sighed. "Today, I finally know what it means to be a frog at the bottom of a well. I've never seen a more monstrous skill genius, so I used the common sense of most geniuses to measure a monster. If not for your timely dissuasion today, I, Yu Cang, would probably have revealed my ugliness.¹¹

Hall Master Dan Hai immediately stroked his beard and laughed. The laughter reverberated in the pavilion, but it did not leak at all. He had known Perfected Yu for more than a thousand years, so he knew his stubborn temper very well. It was precisely because of this that he knew how difficult it was to make him say such self-deprecating words.

Initially, he thought that he would probably never see this in his life. Unexpectedly, he was changed by a mere Foundation Establishment Cultivator.

"Such monstrous talent in Talisman Daoism can no longer be determined by common sense. Ordinary teaching methods are no longer suitable for Talisman Master Shen. The best way is not to interfere subjectively, but to guide him with the appropriate method!" Perfected Yu ignored Hall Master Dan Hai's laughter and said firmly.

Hall Master Dan Hai's smile remained. "Then in Perfected Yu's opinion, what method would be suitable for Talisman Master Shen?"

"Since Talisman Master Shen is a playboy, that's where we should start. Hall Master, if I remember correctly, there are a few Alchemy disciples from the Moon Lotus Holy Sect who want to come to my Dan Hai Hall to exchange and cultivate the Alchemy Dao, right?" Perfected Yu's eyes were burning.

Hall Master Dan Hai's face twitched. He did not expect the other party to make such a suggestion. He was targeting the disciples of the Moon Lotus Holy Sect.

"For the greater good!" Perfected Yu emphasized.

Hall Master Dan Hai:

It was almost evening.

In the sixth level of the Trial Space, under the crazy attacks of the strange snakes, the defensive array of Lake Heart Island was flickering and on the verge of destruction. At the same time, Shen Ping's outline of the hoof and claw diagram was also coming to an end.

He stared at the talisman scripture, he waved his right hand and spirit runes outlined and fused into it. The hoof and claw diagram on the talisman paper became more and more lively, and the feeling of stepping through the sky became even stronger.

Suddenly, Shen Ping vaguely saw a huge creature waving its hooves and claws at the sky. It pressed forward with indomitable will, and the sky was torn apart like cloth.

Phew!

Shen Ping's essence, energy, and spirit had also climbed to the peak at this moment and erupted. He suddenly waved his right hand. The last spirit rune fused perfectly.

Buzz!

A terrifying aura erupted from the claws on the talisman. In an instant, Shen Ping felt as if his heart had been beaten like a bell and drum. A suffocating and dizzy feeling surged.

Swoosh!

The divine light between his brows shone. The Life Divine Talisman in the depths of his sea of consciousness suddenly lit up, suppressing the pressure emitted by the hoof and claw.

Shen Ping heaved a sigh of relief. However, the shock in his eyes was still there. The terrifying aura just now had far exceeded the previous two volumes. If not for the suppression of the Life Divine Talisman, the consequences would have been unimaginable.

Next, it was time to test its power. The moment the defensive array was destroyed, Shen Ping's claw talisman flew out. The talisman began to burn. It caused spiritual energy to condense in the sky.

As if sensing the threat, the strange snakes clearly became anxious and uneasy. Their bloody tongues spat out and let out scalp-numbing hissing sounds. Their movements became even crazier, and their speed when pouncing on Shen Ping was more than twice as fast as before.

Shen Ping stood calmly. He calmly looked at the burning talisman. When the last corner turned into black smoke and dust that scattered down, the spiritual energy condensed in the sky also erupted, turning into a huge claw that stepped down.

Boom!

Violent spiritual energy exploded, forming a huge shock wave that spread. Especially at the center where the hoof and claw stepped, the hard scales on the surface of the strange snake's body were like decorations, and even its body was annihilated. In an instant, more than a thousand strange snakes died under its claws.

"The power is not bad!" A smile appeared on Shen Ping's lips as he allowed the thousands of strange snakes to drown him.

Hall Master Luayun's hall.

The two cultivators on duty were chatting with each other under the floating rankings.

"Sigh, I really miss the days when the core jade token just changed!" The cultivator on the left sighed.

Hearing this, the other member on duty agreed. The jade token was upgraded and the rankings were opened. During that period of time, all the core members worked hard to get into the rankings. Therefore, the change in the rankings had already become the most watched existence.

The huge main hall where the rankings were placed was even more crowded all day. It was not as cold as now..

It was no wonder. The rankings had been open for so many days, and the rankings had gradually stabilized. It was very difficult for there to be any major changes, so it naturally did not attract attention.

Only when they knew that someone was rushing to the rankings would people come to watch.

“Hey, by the way, Fellow Daoist Zhou, you said that Talisman Master Shen of Mountain Fire Hall has been cultivating with Perfected Yu for some time. Why hasn’t there been any activity recently?”

“Pfft! Do you think cultivation is a leisurely stroll? It’s undeniable that Talisman Master Shen’s natural talent in the Dao of Talismans is indeed extraordinary, but no matter how monstrous he is, there has to be a limit. He has only arrived at the headquarters for a short few dozen days, so what do you want him to do? Fellow Daoist Wang, you’ve cultivated for more than a thousand years after all. How can you say such ignorant words?” Daoist Zhou sneered.

Daoist Wang didn’t think much of this and changed the topic. “How long do you think it will take Talisman Master Shen to outline the third volume of the Talisman Beast Scripture?”

“In my opinion, it will take at least two to three months,” Daoist Zhou replied without thinking. It was not too difficult for a Class A core to comprehend ordinary Talisman Beast Diagrams. For example, Talisman Master Jing Yu of the Mountain Fire Hall had not used much time.

“Two to three months? It shouldn’t take that long. Don’t forget, he only used four hours to comprehend the second volume and the final beast form.”

“Heh, can the second volume compare to the third?” Daoist Zhou’s lips twitched. Seeing that Daoist Wang was somewhat unconvinced, he couldn’t help but continue, “Fellow Daoist Wang, since you think so highly of Talisman Master Shen’s talent, how about this? If he can complete the third volume of the beast form in two months, I’ll give you the Purple Fire Vine Root that you’ve been coveting for a long time. Vice versa, you’ll have to give me the jar of Hundred Flowers Spirit Dew you treasured. How about that?”

“This...” Daoist Wang hesitated.

“Why? Are you afraid?” Daoist Zhou continued to provoke him.

“Who’s afraid? It’s a deal!” Daoist Wang hated the other party’s self-righteous face the most. He immediately gritted his teeth and agreed. Then, he ignored him.

“Haha, that’s great... Take care of it first. I’ll go back and get something.” Patting Daoist Wang on the shoulder, Daoist Zhou said these words and was about to leave.

But as soon as he moved, he sensed that something was wrong. Daoist Wang ignored his words and was staring at the floating list. "Fellow Daoist Wang, Fellow Daoist Wang... What are you looking at?"

Daoist Wang suddenly woke up. Then, he pointed at the rankings and took a deep breath. "Fellow Daoist Zhou, please help me see if I'm seeing things. Why did that Talisman Master Shen from Mountain Fire Hall suddenly rush to the 47th place on the Glory Ranking?"

"Haha, 47th on the Glory Ranking? How is that possible..." Daoist Zhou could not help but laugh.

Those who could be on the Glory Ranking were all geniuses among geniuses. Even moving up a few ranks was as difficult as ascending to the heavens. And that Talisman Master Shen's previous ranking was 65. How long had he been in the headquarters? No matter how monstrous he was, it was impossible for him to jump to nearly 20 in one go!

"But look for yourself, it's really 47!"

"I already said that it's imposs—" Daoist Zhou stopped mid-sentence. He was stunned. His pupils slowly dilated. After a while—

"Quick, inform the elders!"

At the same time.

The communication jade tokens of the members of the various halls in the headquarters of the True Treasure Pavilion were trembling crazily. The news that Shen Ping had risen to the 47th place on the Glory Ranking in just a few days spread like a storm.

Many members of the hall rushed to the various halls. In an instant, the halls of the various halls were filled with people as they stared at the huge floating rankings.

"How long has it been since Talisman Master Shen arrived at the headquarters? His ranking actually changed again. Moreover, it actually rose by nearly 20 this time. Could it be that in just a few days, Talisman Master Shen has already successfully comprehended the third volume of the beast form?"

"It's impossible for an ordinary strange beast's hoof and claw diagram to easily kill a strange snake beasts on the sixth level of the trial space. Even if that Talisman Master Shen has other methods, it's definitely impossible for him to soar so high in the rankings!"

"Exactly. Under normal circumstances, only the might of the fourth volume of the beast skin can annihilate a strange snake beast. Talisman Master Shen's ranking has soared, so he must have comprehended the final beast form like last time."

The power of an ordinary Talisman Beast Diagram was purely to form a pattern from the spirit rune of the Talisman Scripture. Although its power far exceeded that of talismans of the same level, it was much inferior to the final form with the charm of a strange beast.

The final form of the strange beast talisman diagram already had a trace of the true power of the strange beast. If it was used by a Divine Transformation cultivator, its power would surpass the power of divine powers.

Although most of the members of the various halls were not skill geniuses, they were more or less familiar with the power of the various scriptures derived from the Beast Scripture. Therefore, when they saw the changes in the Glory Ranking, they were all shocked.

After all, the difficulty of comprehending the third scripture was famous.

Many core skill geniuses had been delayed for a long time in this volume. They originally thought that Talisman Master Shen, who could be said to be the strongest Talisman Dao genius since the establishment of the True Treasure Pavilion, would also be delayed for a period of time. They did not expect that in just a few days, not only had he comprehended ordinary Talisman Diagrams, but he had also comprehended the incomparably difficult final form of the beast form.

In Hall Master Shan Huo's hall.

The members of the hall also rubbed shoulders. Li Yin and Jing Yu were among them. The two of them were shocked when they saw Shen Ping's name at the back of the rankings, especially Jing Yu. He stared at the rankings and clenched his fists..

Chapter 286: The Attitude of the Supreme Throne (3)

Before Shen Ping appeared, he was a core member of the Mountain Fire Hall. His status was outstanding and he was respected. However, everything had changed since this person appeared.

In the past, the two of them were still fighting for ranking on the Hidden Dragon Rankings, but now, the other party had already left him far behind. Moreover, the difference was like a chasm.

Until now, he completely understood that he would no longer be able to catch up to and surpass the other party. Unwillingness, disappointment, and other complicated expressions appeared in his eyes.

Li Yin unintentionally caught a glimpse of this scene. If it was in the past, he would be indifferent. However, it was already a foregone conclusion that Shen Ping had become the core of the Mountain Fire Hall. No one could move him. So when he saw Talisman Master Jing Yu's emotions, he could not help but explain, "A cultivator's mental state is rather important. There are some things that you don't have to be too obsessed with. If you become obsessed, I'm afraid it will affect your future cultivation."

Jing Yu said nothing. However, he lowered his head and left silently. His back gradually elongated under the sunlight, looking lonely and bleak.

Seeing this, Li Yin could not help but sigh. He had already said his piece. As for whether the other party would listen or not, it was up to him.

At the peak of the headquarters island.

The ethereal and magnificent halls were faintly discernible in the dense spiritual fog, like a peerless immortal realm.

Suddenly, space rippled. Several figures appeared in the hall. They were either wearing brocade jade robes or plain clothes.

“It’s only been a few years since we last met. Fellow Daoists, your auras have become more stable and thick. It seems that your cultivation has improved greatly!” The person on the left spoke calmly. Her voice was clear and sounded like a jade plate and pearl.

As soon as she finished speaking, one of the burly men said in a low voice, “There’s no need for pleasantries. I came here to ask about the background of Talisman Master Shen. Recently, this name has indeed appeared too often. I believe the other Fellow Daoists are the same. After all, we’ve been in seclusion all year round and have rarely heard of the outside world.”

“I’ve understood it a little. It’s said that this person is less than 100 years old, but his talent in the Dao of Talismans is extraordinary. He comprehended the final form of the first and second volumes of the beast form. The most important thing is the speed of his comprehension. It’s said that he only used four hours to comprehend the second volume.” The beautiful female cultivator in a thin veil slowly spoke.

What? The other two cultivators trembled slightly when they heard this. Their eyes flickered. Even though the Beast Form Volume was only the first level of the Beast Scripture, comprehending the second volume of the Beast Form in four hours and comprehending the final form was too monstrous.

At this moment, the female cultivator continued, “Today, Talisman Master Shen made another breakthrough. He rose from the original 65th place on the Glory Ranking to the 47th place. I believe both Fellow Daoists know what this means.”

The cultivator surnamed Tong slowly said, “The final form of the third volume’s Hoof and Claw Diagram.”

“That’s right.” The female cultivator looked over and said softly, “According to the information I know, this person has only been in contact with the third volume of the beast form for a few days.” She suddenly paused and did not continue.

The auras of the other two figures in the hall had already fluctuated violently. Thick magic powers surged with the three of them as the center and spread in all directions. The dense fog in the hall rolled and surged. The array patterns on the sleeve of the cultivator surnamed Tong lit up with spiritual light. As it flickered, it seemed to represent his heart.

No one spoke for a long time. The atmosphere was slightly oppressive and solemn.

“Looks like our True Treasure Pavilion has really produced an unprecedented monster.”

“I’ve been busy with my seclusion and breaking through these days. I’m a little unfamiliar with my skills. Fellow Daoists, please do as you please. I’ll take my leave

first!" Suddenly, the cultivator who spoke first said indifferently. Then, with a spatial ripple, he stepped on the spot and disappeared.

After him, the cultivator surnamed Tong also wordlessly walked out of the hall. In the blink of an eye, only the beautiful female cultivator in a thin veil was left in the huge hall. She stood on the spot and shook her head helplessly. "I haven't seen them for so many years, yet they're still the same. They're not honest at all. However, to be able to make these two feel pressured... Talisman Master Shen, I really look forward to what kind of surprise you will bring next."

The white jade tower floated quietly at the core of the Ethereal Hall. More than ten throne phantoms surrounded it. Even though the light on the sixth level of the tower had long dimmed following Shen Ping's failure, no one left. Their eyes, which were still staring at the sixth level, could not calm down for a long time. The scene of the hooves and claws descending repeatedly appeared in their minds.

"Hall Master Yueling, are you sure this little guy has only been in contact with the third volume for a few days?" A gentle voice suddenly sounded.

The gazes of more than ten phantoms gathered on Hall Master Yueling. Not daring to be negligent, Hall Master Yueling hurriedly replied respectfully, "Head Hall Master, it's absolutely true. Talisman Master Shen indeed came to the headquarters before Daoist Yu of the Dan Hai Hall taught him the third volume of the beast form."

The Hall Masters did not suspect anything. The importance of the Beast Scripture to the True Treasure Pavilion was self-evident. It was not an exaggeration to say that it was the foundation of their foundation. The rules for imparting the scripture were very strict, and they were all recorded. Private impartation would not exist at all.

It was precisely because of this that they were so shocked.

There were a total of five volumes in the beast form.

Among them, the difficulty of the second to third volumes had clearly increased. It was a watershed for skill geniuses to comprehend. Usually, the core of the A, B, and C, D levels, would have a gap on this volume.

Even though they had long known about Shen Ping's monstrous talent, the fact that he had comprehended the Greater Mastery of the final beast form of the Hoof and Claw Diagram in just a few days still refreshed their understanding of his talent..

Chapter 287: Attitude of the Supreme Throne (4)

"Head Hall Master, I want..." At this moment, Hall Master Yueling spoke hesitantly.

"Hall Master Yueling, what do you want to say? Just say it."

"Thank you, Head Hall Master." Hall Master Yueling first bowed respectfully, then continued, "There's no need to say more about Talisman Master Shen's talent in the

Dao of Talismans, so I think it's a waste to keep him in a hall-level force to nurture his talent. Why don't..."

"Hall Master Yueling wants Talisman Master Shen to enter the main hall? No, this is against the rules of the True Treasure Pavilion. Head Hall Master, please consider carefully."

Before Hall Master Yueling could finish speaking, he was interrupted by the other Hall Masters. As soon as he finished speaking, a Hall Master immediately added, "That's right. We all understand Hall Master Yueling's desire for talent. It's fine if it's just a small matter, but this proposal concerns the rules of our True Treasure Pavilion. How can it be broken by him alone?"

The requirements to become the core of the main hall were extremely high. Other than Shen Ping's outstanding talent in Talisman Daoism, the other conditions were far different. If he rashly advanced, it would definitely attract many troubles.

Although talent was important, for a top faction like the True Treasure Pavilion, rules were the foundation.

As the saying went, nothing could be done without rules. Without strict restrictions, even with the foundation of the Beast Scripture, the True Treasure Pavilion would definitely not be able to reach its current status, let alone obtain its current status.

Hall Master Yueling did not speak again. Now that he had said it, it was up to the Head Hall Master's attitude.

Under the gaze of the Hall Masters, the phantom of the highest throne slowly said, "Rules and talents are very important to me. Since that's the case, let's give that little fellow better resources without breaking the rules!"

All the Hall Masters were stunned and then shocked. This was because they had already vaguely guessed the Head Hall Master's thoughts.

"Hall Master Yueling."

"Head Hall Master, please instruct me!" Hall Master Yueling stood up and bowed.

"From now on, other than the number of times he enters the Beast Scripture Pavilion to comprehend and the Beast Spirit Pool, the rest of the resources, including the restricted level, can be provided as long as that little guy needs them. There's no need to report to me."

As soon as the Head Hall Master finished speaking, many throne phantoms could not help but frown. Even though they knew that the Head Hall Master thought highly of Shen Ping, they did not expect her to think so highly of him. She could even provide restricted resources at will. Even the core members of the main hall did not have such treatment.

It seemed like he was not allowed to enter the main hall, but his treatment had already surpassed that of the core members of the main hall. In that case, the biggest difference between Shen Ping and the cores of the main hall was that there was no higher-level spiritual vein to cultivate.

However, for a cultivator whose cultivation was only at the late stage of Foundation Establishment, a Level 7 spiritual vein was enough. In other words, this was clearly exchanging steamed buns for a golden mountain. It had to be said that this was no longer something that could be described with just luck.

However, compared to these auxiliary resources, they were most concerned about another matter.

Although the Head Hall Master did not say it explicitly, the meaning behind her words was clearly that he could even discuss the number of times he entered the Beast Scripture Pavilion to comprehend. This was the most important point.

All the skills in the True Treasure Pavilion originated from the Beast Scripture. It was obvious how precious the opportunity to enter the Beast Scripture Pavilion to comprehend was. Ordinary core members and even the cores of the main hall, other than the number of times they originally comprehended, it was as difficult as ascending to the heavens to obtain them.

Now, for Shen Ping, the Head Hall Master had actually relaxed to such an extent. For a moment, other than Hall Master Yueling, the other hall masters of the main hall had complicated expressions.

“Thank you, Head Hall Master!” Hall Master Yueling bowed slightly.

“The inheritor of the Beast Scripture is extremely important. Before the calamity descends, if the other skill cores on the Glory Ranking perform well, they can also receive the same treatment.” The warm voice was still echoing on the spot, but the phantom of the highest throne had already disappeared.

When the other throne phantoms in the hall heard this, their brows relaxed slightly, but there was a hint of contemplation on their faces..

Chapter 288: No More Obstacles to the Divine Transformation Realm (1)

As the sea of clouds churned, the phantoms of several main hall-level experts gradually condensed. They looked at the powerful defensive rune arrays flickering and interweaving above the island. They were silent for a moment before transmitting their voices one after another.

“What do you think of today’s discussion in the hall?”

“The Head Hall Master seems to be a little anxious about the inheritor of the Beast Scripture. That little fellow’s Talisman Dao talent is indeed rare in the world, but resources like the Beast Scripture Pavilion and the Beast Spirit Pool are related to the foundation of our True Treasure Pavilion. It’s really abnormal to break the rules for him.”

“That’s right. The reason why our True Treasure Pavilion can stand tall in the five continents and four seas for so long is because of the rules. Although the inheritor of the Beast Scripture is important, everything can be done slowly. Why is she in such a hurry?”

The clouds fell silent again. In fact, ever since the core jade token changed, they had sensed that the Head Hall Master seemed to be accelerating the nurturing of the core skill geniuses in the headquarters. She did not even hesitate to use restricted resources to distribute the rewards for the Glory and Hidden Dragon Rankings every half a year. In their opinion, this was undoubtedly encouraging them.

And today, she had also loosened up on the opportunity to comprehend the Beast Scripture Pavilion and the resources of the Beast Spirit Pool. It undoubtedly revealed her urgency.

Although the release of resources this time was extremely beneficial to the top ten in the various main halls, compared to the inheritors of the Beast Scripture, these main hall phantoms wanted to know the reason behind this.

“The fluctuation of the barrier and the arrival of a calamity... Could it be related to this?”

“I’m afraid there will be some connections. However, with our True Treasure Pavilion’s foundation, even if the barriers of the five continents and four seas collapse, we have nothing to fear!”

“That’s right. We’ve all faced those demon beasts in the white jade tower in the Year of Radiant Sun. Not to mention the other top factions of the Zhongsheng Continent, our True Treasure Pavilion alone can deal with them.”

As they transmitted their voices, their brows became even more solemn. The Head Hall Master would not act in a hurry for no reason. Currently, the only thing they could deduce was a calamity. Clearly, something unexpected had happened in this calamity.

Dan Hai Hall.

In the pavilion in the long corridor.

Yu Qingling, who had an elegant and calm face and a sword-shaped mark between her brows, was leaning against the railing and looking at the Lake Spirit Lotus. Her divine sense withdrew from the jade token space, and traces of worry surged from the corners of her brows.

The reason was that Fellow Daoist Shen’s ranking had increased. The gap between the two of them widened again. The dazzling top 50 made the pressure in her heart increase.

Even though Fellow Daoist Shen’s attitude was the same as before when they met in the jade token exchange space, Yu Qingling was unable to ignore the difference in status between the two of them. She had an elegant personality, but she was strong in her bones.

Seeing that the only fellow Daoist she had made friends with was constantly improving, she could not help but feel a little dejected.

“Fortunately, I don’t have to go to the side hall tomorrow.” Yu Qingling sighed lightly, but that trace of worry was still difficult to dissipate.

“Ling’er.” At this moment, a beautiful woman walked over from the long corridor.

Yu Qingling turned around and saw the beautiful woman, and she hurriedly stood up and bowed. "Greetings, Mother."

She looked at his daughter. Mother Yu quickly sensed the emotions in the corners of her eyebrows and was about to ask why she was here when she swallowed her words. She turned to ask gently, "Ling'er, you seem to have something on your mind?"

Yu Qingling hurriedly shook her head. "I'm just a little confused about cultivation."

Mother Yu, who had always known her daughter's personality, could not help but smile and wave her hand. When the two of them sat at the stone table in the pavilion, she flicked her fingertips.

Spiritual tea appeared. Soon, the fragrance of tea filled the air. The two of them took a few sips. Mother Yu reached out and held her daughter's wrist. "Ling'er, Foundation Establishment is the foundation of cultivation. This realm is especially important. If you have any questions, you can tell me."

"I—" Yu Qingling hesitated for a moment. In the end, she bit the corner of her lips and said, "Mother, is my natural talent very ordinary?"

When Mother Yu heard this, her eyes moved slightly. She had already guessed the reason in her heart. She said gently, "Ling'er, alchemy, talismans, weapons, arrays, and other cultivation techniques are all different. Your talent in alchemy is unquestionable. If not for this, how could you become Hall Master Dan Hai's personal disciple?"

"Regardless of whether it's in the five continents or the four seas, or in the True Treasure Pavilion, the main use of alchemy is to assist cultivation. It's slightly insufficient in terms of attack. On the other hand, talismans, arrays, weapons, and other skills are strong. Naturally, they can break through the rankings faster.

"The alchemy geniuses on the Glory and Hidden Dragon Rankings are originally ranked lower, so Ling'er, don't worry. No matter how strong their other skills are, they still need medicinal pills to assist their cultivation. This is alchemy."

Mother Yu's tone became even gentler. "Did Ling'er feel the pressure of cultivation because of the change in Talisman Master Shen's ranking?"

Yu Qingling nodded slowly.

Seeing this, Mother Yu could not help but sigh in her heart. Just from this sentence, she could already tell that her daughter was probably a little concerned about Talisman Master Shen. Previously, the Talisman Master Jing Yu of the Mountain Fire Hall was also outstanding. He attracted the discussion of the various halls on the Hidden Dragon Ranking, but she did not see her daughter's reaction at that time.

They were both female cultivators. How could she not know the reason for this situation? Only by caring would there be pressure. She thought for a moment. Mother Yu did not point it out, nor did she continue on this topic. Instead, she asked, "Ling'er has been cultivating in the side hall for the past few days. What do you think?"

Yu Qingling subconsciously said, "Not bad." After saying that, she blushed and quickly lowered her head.

Mother Yu smiled and said, "Since your cultivation is alright, you can cultivate with Talisman Master Shen in the side hall in the future. Your master pays special attention to that Talisman Master Shen and often stays around the side hall. If you have any doubts about alchemy, it's convenient for you to ask for guidance."

"All..." The corners of Yu Qingling's eyes revealed joy, but she quickly became shy and didn't dare raise her head.. She stammered in a small voice, "But, but Mother, Father..."

Chapter 289: There Are No More Obstacles to the Divine Transformation Realm (2)

"Ling er, don't worry. Just go tomorrow. That Talisman Master Shen's comprehension of the Talisman Beast Scripture is incomparable. Although the scriptures derived from the Beast Scripture are different, all kinds of techniques have the same goal. In the future, you have to communicate with him more or be inspired to speed up your cultivation?"

When she heard that, Yu Qingling nodded repeatedly, and the worry in the corners of her brows instantly melted. She made a decision in her heart.

In the side hall.

Shen Ping sat cross-legged on a cushion made of Thousand Silk Spirit Grass. He slowly opened his eyes. It was quite tiring to copy the diagram of the strange beast's hooves and claws. After consuming a medicinal pill to adjust, he had already recovered nearly 50%.

Just as he was about to infiltrate the jade token space with his divine sense again, a voice came from behind.

"Talisman Master Shen rushed into the top 50 of the Glory Ranking this time. It seems that you have comprehended the final state of the strange beast's hoof and claw talisman diagram."

He turned to the side and saw Hall Master Dan Hai and Perfected Yu smiling at him not far away. Shen Ping did not dare to be negligent. He hurriedly stood up and cupped his hands. "Greetings, Hall Master. Greetings, Senior Yu."

Hall Master Dan Hai waved his sleeves lightly and stroked his beard. "There's no need to be so polite when you see me in the future. Previously, you were a little confused about the final form of your beast form in the third volume. I didn't expect you to comprehend it in the blink of an eye. Such comprehension talent is indeed extraordinary."

His words were full of praise.

Shen Ping bowed and said humbly, “Hall Master Dan Hai, you flatter me. If not for Senior Yu’s careful guidance, I’m afraid it would be very difficult for me to comprehend a trace of the beast form.”

A smile appeared on Perfected Yu’s calm face. He was proud to be able to guide such a monstrous genius. However, he knew very well in his heart that even without his guidance, he would be able to comprehend it sooner or later with his comprehension ability and natural talent.

“Oh yes, I just heard that I’m in the top 50 of the Glory Ranking... To be honest, on the sixth level of the trial, I only killed more than a thousand strange snakes. I didn’t expect to rise so much.” Shen Ping was puzzled. According to his estimation, it would be good enough if he could reach the top 50. In the end, he was already within 50.

Hall Master Dan Hai did not say anything. Perfected Yu smiled and said, “The sixth level of the trial and above are extremely difficult. Currently, only one person has passed the eighth level, there are two people on the eighth level, 20 people on the seventh level, and the remaining sixth level includes the top 50 of the Glory Ranking. Therefore, the more monsters you kill on the sixth level, the closer you will be to the front.”

Shen Ping suddenly understood. In that case, if he wanted to charge into the top three in the Dao of Talismans, he had to pass the seventh level.

Seeming to have seen through Shen Ping’s thoughts, Hall Master Dan Hai said, “If Talisman Master Shen wants to pass the seventh level, you need to comprehend the complete final form of the beast form, and you have to reach the Greater Mastery stage. But it’s not hard for you.”

Perfected Yu nodded in agreement. Before that, even though Shen Ping had a precedent of comprehending the final form of the second volume of the beast form in four hours, no one thought that he could rush forward with the Dao of Talismans before the calamity descended. The main reason was because of the strange beast hoof and claw diagram and the last complete fifth volume of the strange beast talisman diagram.

But now, the members of the various halls in the headquarters and those core skill geniuses no longer had such thoughts. In just a few days, he could rely on the third volume of the Talisman Beast Diagram to rank 47th. With such talent, it was not difficult for him to comprehend the complete final form of the beast form.

Shen Ping had already used his actions to prove this fact. It was precisely because of this that the top three of Glory Ranking felt a trace of pressure.

Buzz.

Just as Hall Master Dan Hai was about to ask about Shen Ping’s puppet techniques, his brows moved slightly as a dignified voice sounded in his ears. “From today onwards, restricted resources will no longer be distributed half a year according to the Glory Ranking for Talisman Master Shen. If he needs anything in the future, he can apply.

“Other resources such as the Beast Scripture Pavilion and the Beast Spirit Pool can also be fought for with other conditions. The requirements would be included in a message when he applies to enter the Beast Scripture Pavilion.”

As soon as he finished speaking, Hall Master Dan Hai's eyes revealed some shock. This time, Shen Ping revealed his talent again. He had expected that the main halls and the head hall would take some action, but he did not expect them to let go of restricted resources. Moreover, he could even obtain extremely precious resources like the Beast Scripture Pavilion.

This was simply unprecedented. It seemed like the Head Hall valued Shen Ping more than he had expected. While his heart was in shock, Hall Master Dan Hai was even more delighted. Because from the message just now, regardless of whether Shen Ping could become the inheritor of the Beast Scripture in the future, it was very likely that he would grow to the upper echelons of the main hall.

He raised his eyes again and looked at Shen Ping with an even more amiable attitude. "Talisman Master Shen, I just received a message from Hall Master Yueling."

Hearing the contents of the message, Perfected Yu's pupils constricted. The Head Hall had actually released restricted resources for Shen Ping! It was unbelievable. Hall Master Dan Hai and the other late-stage Divine Transformation Realm experts did not care about the restricted resources.

However, as a perfected Nascent Soul, he knew very well how precious such resources were. It could be said that the most important thing for a Nascent Soul to successfully break through to the Divine Transformation Realm was high-level restriction resources, such as the resources rewarded by the top three on the Glory Ranking.

in the five continents and four seas, it was very difficult for a Nascent Soul to break through to the Divine Transformation Realm. Even the Zhongsheng Continent, which had a rich cultivation environment and resources, was the same.

For example, in order to break through to the Divine Transformation realm, the ancestor of the Wei Kingdom's Golden Sun Sect from the Twelve countries of the South Flame Continent had used all kinds of methods. He schemed against everything and did not hesitate to sacrifice many cultivators.

Although the True Treasure Pavilion had the supply of resources, it was also extremely difficult to obtain high-level restricted resources to break through to the Divine Transformation Realm.

For example, in order to advance to the Nascent Soul realm, Pei Huoyu lowered her status and competed for the position of Dao Protector. Not to mention advancing to the Divine Transformation Realm..

Chapter 290: No More Obstacles to the Divine Transformation Realm (3)

Even Perfected Yu, who had a good relationship with Hall Master Dan Hai, needed thousands of years of preparation.

Nascent Souls could live for a thousand years. A Nascent Soul cultivator cultivated for 3,000 years. It seemed like a lot. However, in the midst of accumulation, it was very likely that he would exhaust his potential and regret it for the rest of his life.

But now, Shen Ping was only at the ninth level of Foundation Establishment, yet he could actually apply for any restriction level. What kind of opportunity was this?

Perfected Yu was envious and could not help but feel jealous. With this condition, not to mention Shen Ping, even cultivators with ordinary aptitude would not have any obstacles in reaching the Divine Transformation Realm. “Hall Master Dan Hai, is this true?” Shen Ping could not help but reveal a shocked expression. Of course, he knew how precious and powerful restricted resources were.

Not to mention anything else, just a low-level restricted resource like the Seabeard Ginseng Leaf made his wife, concubines, and Dao companions break through to the Foundation Establishment Realm in a short period of time. He also consumed the blood of the blue strange beast and other supplementary restriction resources and quickly reached his current realm.

From the Foundation Establishment stage until now, he had not even experienced ten years of cold and heat! If it were any other Foundation Establishment cultivator, it would probably take at least 60 years.

Hall Master Dan Hai smiled and said, “Hall Master Yueling personally sent a message. How can it be fake? Congratulations, Talisman Master Shen!”

Perfected Yu came back to his senses and hurriedly congratulated him. Restricted resources. How many cultivators in the headquarters dreamed of it?

However, Shen Ping could get it easily. It was indeed worth celebrating.

Shen Ping could not help but take a few deep breaths in front of Hall Master Dan Hai and Perfected Yu. Then, he suppressed his excitement and cupped his hands. “Hall Master Dan Hai, may I ask if I can apply for these resources to be used by my wife and Dao companions?”

He could apply to give his wife, concubine, and Dao companions the ranking reward he had obtained in Linhai Immortal City.

Hall Master Dan Hai pondered for a moment, “Your wife, concubine, and dao companions are not members of the hall. Logically speaking, they can’t obtain mid to high-level restricted resources, and the main hall won’t agree to the application. However, there were no examples of restricted resources that could be obtained at will previously, so...”

Before he could finish speaking, Shen Ping already understood what Hall Master Dan Hai meant. As long as he revealed more and was more outstanding, everything would be possible!

There was usually no one around, and it looked very cold in the Fire Spirit Hall. However, it was especially lively today. It was rare that his wife and concubines did not cultivate and gather here. The fragrance lingered in the air.

“Sister Yu Yan, then is what Deacon Wang said true? Has Husband entered the top 50 of the Glory Ranking?” Bai Yuying was wearing a white, blue, and purple embroidered pink dress. Her waist was tied up and outlined her slender figure, vividly displaying her delicate curves. After hearing that Shen Ping’s ranking on the Glory Ranking had risen, she could not help but ask repeatedly.

In Linhai Immortal City, they did not know many things about Shen Ping, let alone the two rankings of the True Treasure Pavilion. When they arrived at the Fire Spirit Hall, they learned a lot. Of course, most of it was told to them by the enthusiastic Deacon Wang in the hall.

Yu Yan's eyes were filled with joy. "Of course it's true. I went to the main hall of Mountain Fire Hall once and saw the floating rankings with my own eyes. Furthermore, many members in the hall are watching. They're all talking about Husband."

Bai Yuying, Wang Yun, Luo Qing, Mu Jin, Yin Honglian and Qiuying looked at Yu Yan and listened to the rest.

"It's said that Husband is an unprecedented Talisman Dao genius in the True Treasure Pavilion." Yu Yan smiled and repeated.

Bai Yuying clapped her hands and cheered. "Hehe, Husband is so awesome." "Husband has always been so powerful!" Wang Yun said gently.

Yin Honglian, who was wearing a fiery red palace dress, smiled and said, "Husband is very powerful in every aspect!"

After the girls heard this, they all laughed. Yu Yan looked at Yin Honglian and crossed her arms. "Among us, Sister Honglian and Sister Qiu Ying know how powerful our husband is the best."

Bai Yuying chuckled. "Yes, Husband usually likes butterflies and golden core threads the most."

Qiu Ying's graceful and charming face could not help but blush. However, Yin Honglian smiled openly. "Sister Ying'er, you're wrong. Husband likes to catch butterflies on the fertile grassland the most!"

"That's not right, he's looking for hoof prints while catching butterflies." Mu Jin smiled sweetly.

Instantly, the hall was filled with laughter again..
