

Eternal Life 531

Chapter 531: A Hundred Years (2)

After all the Beast Spirit geniuses in the Heavenly Palace broke through to the Body Integration realm, their cultivation speed would slow down, including those prodigies. Under normal circumstances, it was considered a very fast progress to advance a small realm every 500 years.

Of course, to Body Integration cultivators who had tens of thousands of years of lifespan, 500 years was only a fleeting moment.

He opened the virtual interface. It swept towards the black crown that was like a black hole.

[Beast Spirit Concept: 90% Beast Form (350,000/1,000,000), 80% Beast Skin (50,000/800,000)]

The greatest improvement in a hundred years was still the concept of strange beasts.

Although the concept of the beast form was still at 90%, the level of the beast skin had soared to 80%, increasing by a full 4.0%!

This was the concept of beast skin. Even if other prodigies comprehended the Realm Sea Palace several times, they would probably only have this effect.

However, Shen Ping only used a hundred years to do it.

More importantly, with the support of the virtual interface, the speed of his comprehension of the strange beast concept had already exceeded the might of the strange beast. As a result, with the backfeeding of the concept, his comprehension of the beast scripture at the level of beast skin directly increased from the horn of the beast skin to the whip tail. He was just a trace away from comprehending the complete beast skin.

“There are still more than 300 years until the next Beast Spirit Ranking competition. Based on this speed, I should be able to comprehend the perfect concept of the entire beast form and beast skin, and reach the level of a beast bone. And at the level of a beast bone, I can barely unleash the third form of a high-grade beast spirit treasure!”

In the Beast Spirit Treasure Competition Rankings, if one wanted to pass the seventh stone house grassland or even the front of the wooden house valley, they had to master the power of the third form.

In the first competition, Shen Ping could only master the first form. Even if he had the ability to teleport, he could only stop at the sixth house.

He walked out of the quiet room. His divine sense spread out. He realized that his wife, concubine, and Dao companions were all in seclusion. Ever since Wang Yun gave birth to a bloodline, they were even more enthusiastic about cultivating. They all wanted to break through to the Divine Transformation realm as soon as possible so that they could nurture a bloodline. However, strictly speaking, the easiest to break through to the Divine Transformation realm was Pei Huoyu. She cultivated faster than Yu Yan and Bai Yuying, but because she was focused on cultivating spells, her realm was slower.

“Husband.” Sensing Shen Ping’s aura, Wang Yun flashed to the pavilion by the lake. She had her hair tied up and was dressed in a beautiful palace dress. Although her appearance had long been set at the age when she married Shen Ping, ever since An’er was born, her temperament had become more and more mature. Her every move was obviously dignified and imposing, and she was no longer as submissive as before.

“Where’s An’er?”

“He went to the city. He has been cultivating in the residence for more than 20 years. It’s time for him to go out and take a breather.”

Shen Ping smiled and said, “I’ve already said that there’s no need to be so strict with An’er. With the resources we provide, he doesn’t have to worry about his cultivation. There’s no need to work so hard like us.”

Wang Yun nodded. “Husband is right, but An’er is the eldest son of the first wife. He should behave like one. When he has sisters, I won’t discipline them so strictly.”

Shen Ping was speechless. He could not win against his wife.

“Oh right, husband, when you were in seclusion, Sister Lingluo came once.” Wang Yun changed the topic.

Shen Ping asked, “Did Fellow Daoist Yue say what happened?”

“No, but looking at her brows, she seems to have understood something. She’s much more relaxed than before.” A smile appeared on Wang Yun’s lips. “Looks like we’re going to have another sister.”

Shen Ping admitted generously, “If she can figure it out, you will indeed have another one.”

The corners of Wang Yun’s mouth twitched as she said, “Husband, where’s that sister in the Strange Beast Gate? When can we meet?”

Shen Ping shook his head helplessly. “She’s from a foreign race. I don’t know how long it will take for us to meet.”

They chatted for a while more before he called An Zhiyuan and Jing Yan over. These two were the core members of the True Treasure Pavilion and the earliest members. He glanced around. Among them, An Zhiyuan’s cultivation had broken through to the late-stage Divine Transformation Realm and he was only a trace away from perfection. Jing Yan’s cultivation was even faster. When he first saw him, he was only at the Golden Core Realm. Now that hundreds of years had passed, he had actually reached the Divine Transformation Realm.

“Not bad. Looks like you’ve been working harder on your cultivation over the years.” Shen Ping praised them.

An Zhiyuan smiled and said, “There are more and more Body Integration Guest Elders in the pavilion now. If Fellow Daoist Jing and I haven’t improved, we’ll probably be uneasy!”

What he said was the truth. Although the two of them were in-laws with Shen Ping, those Void Refinement and Body Integration Guest Elders would not give them face. If not for Fairy Luo Xia's protection, they would have suffered setbacks in all aspects.

"Has there been any movement from the Penglai Immortal City in the past few years?"

Speaking of serious matters, Jing Yan's expression turned serious. "Pavilion Master, the Penglai Immortal City has sent a Tribulation Transcendence to the Sword Seal City, but he only stayed for a few years before leaving. Other than the city under the jurisdiction of our True Treasure Pavilion, the other cities have basically been completely occupied by the foreign races. However, the Sword Seal City and the Penglai Immortal City did not continue to attack our True Treasure Pavilion. Even the merchant airship passed by their jurisdiction without any trouble, but..."

Seeing that he was hesitating, Shen Ping said, "It's just what? There's no need to be afraid. Just say what you have to say."

"It's the demons. Recently, they've been attacking the caravans and branches of our True Treasure Pavilion more and more. Moreover, most of the demon cultivators who attacked are in the Body Integration realm. Occasionally, there will be Mahayana Realm cultivators!"

Upon hearing Jing Yan's words, Shen Ping could not help but frown. The demons were indeed a problem. The main reason was that they were not in this world and often fought back and forth. It was impossible to guard against them. He had long been attacked back then..

Chapter 532: A Hundred Years (3)

"Strengthen the defenses. Send Body Integration Guest Elders to guard the important supplies. Give immortal formation resources to some core cities."

The Beast Spirit geniuses on the first level of the Heavenly Palace had a lot of resources on them, especially some first-grade Beast Spirit geniuses. They had immortal spirit stones, immortal arrays, and even immortal artifacts. In the past hundred years, other than cultivating in seclusion, he would enter the Strange Beast Gate every three years. Occasionally, he would fight with Beast Spirit geniuses. He would find first-grade Beast Spirit geniuses and gain a lot.

He had obtained ten immortal formations alone. It would be a waste to leave the immortal formation in the warehouse. It was better to leave it in the branch pavilion.

He was not worried that the Body Integration Guest Elders would steal the immortal formation because the immortal formation had immortal spirit puppets. Not to mention that the puppets belonged to him, just the activation of the immortal spirit stones was enough to leave the Body Integration and Mahayana Realm in the dust.

After dealing with the matter, he spent some time with his wife before he entered the Strange Beast Gate.

Shen Ping arrived at the third level of the underground palace after activating the strange beast mark. Without the mark to resist the repulsive force, the Beast Spirit geniuses could not enter at all.

As for him, who had comprehended 80% of the concept of the beast skin, the pattern of the strange beast mark gradually became clearer. He could stay in the third level of the underground palace for two to three months.

Yin Ting waited at the usual place early in the morning. The mountain rocks here were tall, and there were many caves. The two of them often secretly had sex to resolve their longing. As soon as they met, the two of them did not say anything, but their eyes were burning.

After admiring the white feathers for a few days, they discussed their feelings for each other. When he was done, Yin Ting returned to her purplish-green soft armor, and the redness on her face gradually faded.

“Congratulations on breaking through to the Void Refinement Realm, Fellow Daoist Yin.”

In the past hundred years, Yin Ting had finally broken through to the Void Refinement Realm. Back then, they had come to the third level from the third level of the underground palace together. At that time, they were still at the Divine Transformation Realm. But Shen Ping was already at the mid-stage of the Body Integration Realm and she was only at the Void Refinement Realm. This was actually the speed at which ordinary beast spirit geniuses broke through and advanced.

Even so, Yin Ting still had time to accelerate.

“Fellow Daoist Shen, don’t tease me. If not for the mid-grade and high-grade strange stones you gave me, how could I have broken through so quickly?”

Shen Ping smiled and pulled Yin Ting into his arms. “Last time, I said I wanted to give you a surprise. Guess what this surprise is?”

A thoughtful expression appeared on Yin Ting’s cold face. “A higher-grade strange stone? Or other natural treasures?”

Shen Ping shook his head.

Yin Ting softly replied, “Then I don’t know.” A beast spirit treasure appeared in Shen Ping’s palm. Feeling the aura of the Beast Spirit Treasure, Yin Ting’s eyes widened. “T-this is a high-grade beast spirit treasure?”

“Yes. You like long whip-type magical treasures. My luck is not bad. I happened to obtain a high-grade beast spiritual treasure on the first level of the Heavenly Palace!” Shen Ping smiled.

The Heaven Ascension Hall on the first level of the Heavenly Palace would recover once every 50 years, and its appearance in 300 years meant that he had six chances to obtain it. However, the last time had to be left for those Beast Spirit geniuses who were fighting for it. Therefore, he could obtain it five times every 300 years, a total of ten high-level Beast Spirit Treasures.

There were as many as six attack-type items. It could be said that Shen Ping could form a team with high-level beast spiritual treasures.

“This is a high-grade beast spirit treasure. Fellow Daoist Shen, keep it for yourself!” Although Yin Ting was very tempted, she understood the value of a high-grade beast spirit treasure. Even a mid-grade immortal artifact could not compare to it, especially when facing a genius. This was definitely a treasure that could greatly increase one’s strength.

“I have it on me. This long whip is suitable for you. It’s a waste for me to keep it.. With this high-grade beast spirit treasure, it will be very useful whether you explore the third level of the underground palace or fight for the rankings in the future!”

Chapter 533: Yue Lingluo’s Secret (1)

It was a long whip. But in fact, it was a long vine. After activation, it could quickly grow hundreds of long vines. Not only could it attack the enemy, but it could also trap the enemy. Even among high-grade beast spiritual treasures, it was considered a high-grade vine.

Yin Ting’s divine sense permeated it. After understanding the information, she looked at Shen Ping, her eyes filled with gratitude and joy. In the Winged Race, even if they were related by blood, they would turn against each other for treasures, let alone high-grade beast spirit treasures that exceeded immortal artifacts.

For Shen Ping to give it to her without hesitation, it was obvious that he really took her to heart.

This life was enough to have such a husband. She was very glad that she had met Shen Ping at the Strange Beast Gate. She didn’t say thank you. Yin Ting expressed her heart with her most sincere actions.

He stayed for two months.

Shen Ping had no choice but to leave and return to the first level of the Heavenly Palace. He searched for some strange stones inside and returned to Gray Stone City in reality.

Yin Ting continued to stay on the third level of the underground palace. She had been in seclusion most of the time all these years and would only come to the Strange Beast Gate on the appointed day. This time, she had obtained a high-level beast spirit treasure, so she wanted to take the opportunity to familiarize herself in the underground palace and find some Beast Spirit geniuses to try.

Not long after, she encountered a first-grade Beast Spirit genius of the Demon Clan.

“Fellow Daoist Yin of the Winged Race. Hehe, you want to fight me? You really overestimate yourself!” This first-grade Beast Spirit genius didn’t take Yin Ting to heart at all. But soon, under the powerful pressure of the long whip, he saw Yin Ting’s power. “Damn it, I didn’t expect you to have a high-grade Beast Spirit Treasure. The Winged Clan is really willing to spend a lot for that human Beast Spirit genius!”

“Cut the crap. Hand over the strange stones, immortal spirit stones, and immortal formations on you!” Yin Ting said coldly.

On one hand, she stayed in the underground palace to familiarize herself with it. On the other hand, she wanted to accumulate more immortal spirit stones and immortal formations for Shen Ping. She knew that he needed these things very much.

“Here you go!” The demon beast spirit genius was very unwilling, but he had no choice but to admit defeat in the face of a high-level beast spirit treasure.

Next, Yin Ting continued to plunder the underground palace. Soon, the entire third floor of the underground palace knew that she had a high-grade beast spirit treasure. When she returned to the Winged Clan, her master called Yin Ting over. “Disciple, you have a high-grade beast spirit treasure?”

“Yes. Fellow Daoist Shen of the human race gave it to me. He was lucky enough to obtain one in the Heavenly Palace.” Yin Ting knew that she couldn’t hide it. In fact, it was very difficult to hide a high-grade beast spirit treasure unless she didn’t use it.

Her master was very shocked. “Looks like your relationship with that Beast Spirit genius of the human race is indeed closer than that of a Dao Companion. He actually gave you a high-grade Beast Spirit Treasure. I’ll immediately report this to the higher-ups of the clan. I believe you’ll quickly recover the treatment of a first-grade Beast Spirit genius.”

“Thank you, Master.”

After the Beast Spirit Ranking had ended, the clan had canceled her treatment. But now, it has recovered. Yin Ting no longer thought as highly of it as before.

She left her master’s residence. On the way, she bumped into her clan sister, Yin Yan. She originally wanted to ignore her, but who knew that the other party would flash to her side. “Sister.”

Yin Ting said indifferently, “What’s the matter?”

“Sister, I heard that you used high-level beast spirit treasure to rob many beast spirit geniuses of various races?”

“That’s right.”

“Fellow Daoist Shen gave it to you?”

Yin Yan knew that it was impossible for her race to bestow high-level beast spirit treasures to the other party, and Yin Ting had never been to the Heaven Ascension Hall, so it could only be the Beast Spirit genius of the human race.

Yin Ting nodded. The envy in Yin Yan’s eyes was about to overflow. “A high-grade beast spirit treasure. Your human Dao companion is really generous. In our Winged Clan, only prodigies have high-grade beast spirit treasures. Only two or three first-grade beast spirit geniuses have obtained them. Now, there’s another one.

“Sister, you’re so lucky. I’m really envious of you. The last time the Beast Spirit Ranking ended, you didn’t even help introduce me.”

Yin Ting glanced at her slutty sister. She usually disliked her. Although most of the Winged Clan’s members were more casual in terms of sex, there were also some who kept themselves clean. She was one of them, so she naturally couldn’t stand it.

If it were any other time, she would not have bothered to say it. However, now that her sister wanted her help to get to know Shen Ping again, she was immediately unhappy. “Fellow Daoist Shen doesn’t like female Winged cultivators with impure feathers. Sister, you should give up on this idea.”

Yin Yan’s expression changed. “Sister, what do you mean?”

Yin Ting sized her up and her gaze finally landed on the bottom of her armor. Her meaning was self-evident. She didn’t say anything and left.

Yin Yan’s face turned pale.

A few months later.

It was rare for Shen Ping to be free. Cultivation requires relaxation. In the past hundred years, other than sex, he had been in seclusion to comprehend the Beast Scripture and digest his comprehension of the strange beast concept. Although he would not feel tired with his huge mental strength at the Body Integration realm, it was inevitable that he would feel tired if he focused for a long time.

Under the guidance of his wife, Wang Yun, he came to the Colorful Flower Valley on the outskirts of Gray Stone City to relax. This valley had only appeared in the past hundred years, and the surrounding spiritual peaks were also moved over by the Heavenly Lotus Sect using their great divine power.

“This is Fairy Jinglian.” Wang Yun gave a simple introduction.

Fairy Jinglian was a Body Integration Supreme Elder of the Heavenly Lotus Sect and had always been in seclusion. When she heard that Shen Ping was here, she specially came out to welcome him.

“Thank you, Pavilion Master Shen, for protecting my Heavenly Lotus Sect.” After exchanging pleasantries, Fairy Jinglian sincerely thanked him.

In recent years, the foreign races had wantonly besieged human sects and families in cities outside the jurisdiction of the True Treasure Pavilion. Many sects had been directly destroyed and their inheritance had been severed. Even the sect elders and grand elders had not been able to escape..

Chapter 534: Yue Lingluo’s Secret (2)

The Heavenly Lotus Sect was lucky and retreated in advance. However, if not for the fact that the True Treasure Pavilion had taken over and blocked the foreign races’ attack, no one in the entire sect would have survived.

“We’re all humans. In times of danger, we should help.” Shen Ping said with a smile.

Fairy Jinglian naturally knew that these were just polite words. If it weren't for a true disciple in the sect who happened to get to know Wang Yun, the True Treasure Pavilion would definitely not send experts to support her, let alone let the Heavenly Lotus Sect move to Gray Stone City. "Pavilion Master Shen, today is the Core Disciple Competition of my Heavenly Lotus Sect. I wonder if you want to go and take a look?"

"How could I dare to disobey Fairy Jinglian's invitation?" Shen Ping returned the courtesy. He had come to the Colorful Flower Valley for this matter, but it was mainly because his wife wanted to see it and pulled him over.

Soon, the group arrived at the sect arena. Many elders stood up and bowed. Shen Ping and Fairy Jinglian sat side by side, and Wang Yun sat at the same table.

Not long after, the Heavenly Lotus Sect's true disciple competition began. The people who appeared were all Divine Transformation cultivators. The battle was indeed very exciting. Compared to the Cloud Sword Sect he had been to before, it was even more exciting. After all, most of them were women. The battle was also very pleasing to the eye.

"That Core Disciple Xuan is a Fellow Daoist I got to know when I was guarding the branch of the True Treasure Pavilion. Her character is not bad." Wang Yun whispered into his ear and did not deliberately send a voice transmission.

When Fairy Jinglian heard this, she smiled and said, "Xuan'er is the third disciple of my disciple, Sect Master Xuanji. Although her talent is not the most outstanding in the sect, her personality is very straightforward and righteous. She has the demeanor of a man. It's her blessing to be able to get to know the Pavilion Master's Dao companion."

Now, everyone in the Western District knew that the True Treasure Pavilion had the most resources. Even cultivators with ordinary spiritual roots could advance to Void Refinement and Body Integration.

As expected, no matter how indignant the other core disciples were, there was nothing they could do when Core Disciple Xuan won. After all, this was personally decided by the sect master and elders. They did not dare to go against it.

Shen Ping knew that there was something fishy about it, but he did not say anything. The cultivation world was a place where the strong preyed on the weak. There was no fairness to speak of. If the Heavenly Lotus Sect wanted to develop steadily, they had to express goodwill to the True Treasure Pavilion.

They relaxed in the Colorful Flower Valley for four to five days before Shen Ping and Wang Yun left. On the way back to the city, his wife could not help but ask, "Husband, Fairy Jinglian is quite good-looking. It's said that she has never had a Dao Companion."

When Shen Ping heard this, he said speechlessly, "Yun'er, I'm not such a superficial person that I'll have sex with any female cultivator I know." Actually, he had discerned through the Views of the Gateway that not a single person in the entire Heavenly Lotus Sect had a special physique. To be honest, women with the ten special physiques like Qiu Ying, the Holy Maiden, Yin

Ting, and Yu Qingling were very rare.

“Husband, don’t be agitated. I was just saying.” Wang Yun teased.

The corners of Shen Ping’s mouth twitched. He realized that he seemed to have been tricked, so he started to enforce the family law. Ever since his wife gave birth to Shen An, she was indeed not as submissive as before. She even dared to

joke.

After sex, Wang Yun said, “Husband, An’er seems to have been going to a restaurant often recently. Something’s wrong. I asked the maidservant beside him. There’s nothing special. Should we get the intelligence members in the pavilion to investigate?”

Shen Ping hesitated. “Is there a problem with that restaurant?”

Wang Yun shook her head. “I can’t say. It’s just that An’er has never been so concerned about something.”

“Alright, check it out.”

After all, Shen An was his son. Not only were the foreign races watching him, but there were also many cultivators in the human race who were watching him. He had to be careful at all times. However, he was not worried about Shen An’s safety. He had the Talisman Beast Diagram he had given him. Only Beast Spirit geniuses with the bloodline of strange beasts could activate such a powerful talisman. In addition, there were puppets and immortal formations.

It could be said that even if he encountered a Mahayana Realm expert, nothing would happen for the time being.

“Oh, that’s right. Aren’t you going to Fairy Luo Xia?”

“I am.” Shen Ping replied. Since Fairy Luo Xia had already thought it through, he naturally had to help her figure out the blood Gu hidden in her sea of consciousness.

They spent a few more days together before he arrived at Sword Seal City’s Luo Xia Peak. She seemed to have guessed that Shen Ping would come as Fairy Luo Xia was already waiting in the pavilion. Drunken Void Brew was placed on the stone table. When Shen Ping sat down, she had already drunk many bottles and her face was dizzy. “You’re here.”

Shen Ping nodded. “Fellow Daoist Yue, are you ready?”

“I’m ready. Do it!” Fairy Luo Xia closed her eyes, and she seemed as if she was at his mercy.

Shen Ping did not say anything. A powerful divine sense at the Body Integration realm surged out and quickly enveloped Fairy Luo Xia. It permeated her body and circulated through her meridians to her most mysterious and crucial sea of consciousness.

A cultivator’s sea of consciousness had a mental barrier and a Dharma treasure that was specially used to guard it. If one cultivated some divine sense secret techniques, they would be able to play an extremely important role when other cultivators’ divine senses invaded.

Fairy Luo Xia also had these. But be it the mental barrier or the guarding treasures and secret techniques, they did not resist and allowed Shen Ping's unfamiliar divine sense to invade her sea of consciousness.

Boom. The moment his divine sense entered Fairy Luo Xia's Niwan Palace, a large amount of memory information continuously intertwined and surged into Shen Ping's divine sense like a flood.

The surrounding scene suddenly changed. Shen Ping realized that he had appeared in a remote mountain village, and in front of him was an ordinary farmer's house.

"Lingluo, slow down. Don't fall."

"Hehe, Sister, come and chase me!"

He watched the two girls play.

Only then did he know that Yue Lingluo had an elder sister. Then, it was her growing memories. From a child to the famous Fairy Luo Xia, every fragment, every memory, and every scene was really displayed in front of Shen Ping. There was no concealment.

No matter what kind of privacy or secrets it was, there was no defense. This was also the reason why Yue Lingluo finally accepted it after so many years. And through her memory of a lifetime, Shen Ping knew that Yue Lingluo's sister had fallen to the demonic path because of her relationship problems. Moreover, she had become a demoness that everyone despised. She had even cultivated the Yin Yang Plucking Technique and had an affair with many male cultivators. She had not even let go of devil cultivators. She was simply unrestrained to the extreme.

In the end, it was Yue Lingluo who personally killed her sister. It had become an inner demon that could not cross the threshold in her life.

Shen Ping knew that the so-called Blood Venomous Insect Technique was probably Yue Lingluo's sister. However, it was very difficult to completely remove it. Her sister had been entangled with her for her entire life. If he eliminated her sister, Yue Lingluo's Dao heart would collapse.

What should he do? He was in a dilemma and could only seek guidance from his master.

Lian Xuejin said, "This is easy. I'll teach you an illusion technique now. You just have to cast an illusion in the spiritual world of her sea of consciousness and become that demonic cultivator who has a relationship with his sister.

Shen Ping immediately understood what his master meant. She wanted him to completely resolve her sister's emotional problem and temporarily deceive Yue Lingluo's memories so that she could break through to the Body Integration realm.

He followed his master's plan and used an illusion technique to transform into a demonic cultivator. Moreover, he played with another female cultivator in front of her sister and even bewitched her to be happy with him.

Yue Lingluo's sister was a pure love cultivator back then. How could she tolerate such a thing? She killed her dao companion on the spot and no longer believed in love. She killed every demonic cultivator she saw and became a determined female cultivator who eliminated demons and protected the Dao.

Even though it was only an illusion, this changed Yue Lingluo. The inner demon hidden in the depths of her heart completely disappeared, and the hidden Blood Venomous Insect Technique appeared.

“Damn it, a junior like you ruined my plan. Go to hell!” The remaining mental imprint of the Blood Venomous Insect Technique erupted. Unfortunately, it was no match for Shen Ping and was quickly destroyed.

Accompanied by the Blood Cleansing Art, the Body Integration opportunity that Fairy Luo Xia could not come into contact with had finally arrived.

Shen Ping set up an immortal formation to protect her..

Chapter 535: Change in the Strange Beast Gate (1)

Two months later, the Nine Heavens Purple Lightning seemed to be able to destroy the world as it enveloped down. Streaks of thick lightning struck the top of the quiet room in the palace. The quiet room with shocking defense was directly destroyed by the purple lightning, revealing Yue Lingluo, who was wearing a magic robe.

Magic powers surged around her body, and her spiritual divine sense surged out. A huge soul phantom condensed behind her, causing space to tremble faintly.

Boom!!

As the lightning tribulation descended, the phantom instantly shattered and Yue Lingluo's magic power became unstable.

Shen Ping stood in the distance and did not dare to interfere with this lightning tribulation. He could only watch Yue Lingluo resist the lightning tribulation herself. However, the other party had the immortal array he had given her. It was not a problem for her to resist the lightning tribulation.

After the seventh purple lightning struck, a huge magic power pressure enveloped the entire Luo Xia Peak.

“Congratulations on breaking through to the Body Integration realm, Peak Master!” Thousands of Luo Xia Peak disciples floated in midair and bowed to congratulate her.

Yue Lingluo slowly opened her eyes and the aura on her body suddenly rose. In the end, it returned to nothingness and a smile appeared on her lips. After cultivating for more than ten thousand years, she had finally broken through to the Body Integration realm.

Although Void Refinement Realm cultivators had a long lifespan, they only had tens of thousands of years after all. After reaching the Body Integration Realm, their lifespan increased greatly. However, the most important thing was still their strength. In Sword Seal City, only Body Integration Realm cultivators were powerful cultivators who stood at the top.

“Congratulations.” Shen Ping flashed over and said with a smile.

Yue Lingluo did not hide her emotions at this moment. She went forward and leaned into Shen Ping's arms. "Thank you for helping me resolve my inner demons and helping my sister." Of course, she knew about the world deep in her memories.

Shen Ping hugged Yue Lingluo. "This is what I should do. It's a beautiful day. Why don't we talk somewhere else?"

Yue Lingluo replied in a low voice. Shen Ping was overjoyed. After so many years, he was finally going to get what he wanted.

Soon, two figures flashed to the side hall. Even though he knew Yue Lingluo's body very well, he still earnestly explored the scenery in the depths of the Peach Blossom Spring. Moreover, because his divine sense had fused with her sea of consciousness, Yue Lingluo had no secrets in his eyes. This fresh feeling made Shen Ping exceptionally excited.

More importantly, the tolerance of a Body Integration body was very strong. It lasted for a month before Shen Ping ended the exchange reluctantly. He changed his clothes. The two of them came to the gazebo and sat down.

"Fellow Daoist Shen..."

Shen Ping interrupted, "Lingluo, from the moment blood flowed through your body, you were my dao companion."

A blush flashed across Yue Lingluo's face, but it quickly disappeared as she shouted, "Husband."

"That's more like it!"

Yue Lingluo rolled her eyes and got down to business. "This time, I've broken through to the Body Integration realm. I believe I can invite more Body Integration cultivators to join our True Treasure Pavilion and become guest elders. After the foreign races jointly attacked our True Treasure Pavilion last time, the pavilion stopped developing to other cities. I think it's time to continue increasing the foundation of the True Treasure Pavilion."

At this point, she looked at Shen Ping and said, "Husband, I know that you don't care about the territory of the True Treasure Pavilion, but the True Treasure Pavilion has already become a large faction in the western district of the Abyss of Supreme Darkness. Many members in the pavilion hope that the True Treasure Pavilion can develop better. If it doesn't advance, it will definitely cause many internal conflicts and eventually fall apart."

Shen Ping agreed with this. When a faction was constantly developing and expanding, all conflicts were not a problem. However, once they stopped developing, conflicts would definitely appear.

The internal conflict within the True Treasure Pavilion was not small. After all, it had developed too quickly. Even the core members came from different sects. Some sects had hatred to begin with. In addition, there were various factions, rogue cultivators, sects, families, and so on.

Even if he didn't care, he didn't want to see the True Treasure Pavilion that he had painstakingly built reach its end.

Not to mention, he did not have much of a sense of belonging to this world in the past. The only thing he cared about was his wife, concubine, Dao companions, and his master. But now that he had

An'er, everything was different. He had a bloodline born in this world, so he naturally wanted his child to walk more steadily in the future.

In that case, the True Treasure Pavilion was a good safe haven. Therefore, Shen Ping nodded at Yue Lingluo's suggestion. "Alright, you'll be in charge of this. Immortal artifacts, immortal arrays, powerful talisman puppets, and resources. Tell me if you need anything."

Yue Lingluo blinked, "Husband, I've always been curious about something. Where did these resources and powerful magic treasures come from? Did your master give them to you or something else?"

In the past, she definitely wouldn't ask. After all, this involved a cultivator's secret. However, now that they were husband and wife and she had shared the deepest secret in her heart with Shen Ping, she dared to ask.

Shen Ping coughed a few times. Then, he sat up straight and said with a solemn expression, "Since you've asked, I'll tell you something serious. Actually, I don't have a master in the western district of the Abyss of Supreme Darkness!"

As soon as he said this, Yue Lingluo's eyes widened, "What? There's no Master? How, how is this possible?" She knew about Daoist Gui Hai's meeting with Shen Ping's master last time, and she also knew that his master had gone to the Penglai Immortal City. But now, Shen Ping actually told her that there was no master... Wait.

She seemed to have thought of something.

"H-usband, could your master be you?!"

"Congratulations, you guessed correctly!"

Chapter 536: Change in the Strange Beast Gate (2)

Shen Ping smiled and took out an immortal artifact. "This is your reward."

Sensing the immortal spiritual energy on the magic treasure, Yue Lingluo was already used to it. At this moment, she still felt that her brain was not enough, "In that case, you have some method to increase your realm and disguise yourself as a Mahayana Realm expert?"

Shen Ping nodded.

After a long time, Yue Lingluo accepted this unbelievable shocking truth. "B-But in that case, where did your immortal artifacts and the resources of the True Treasure Pavilion come from? Could it be that you have obtained the inheritance of an immortal abode ruin?"

Shen Ping shook his head. "I haven't explored the ruins. As for immortal artifacts, I obtained them from Tribulation Transcendence cultivators of the foreign races that I killed."

"Kill the Tribulation Transcendence?!" Yue Lingluo felt that her brain was not enough. What were Tribulation Transcendence cultivators? They stood at the top of cultivators. Although there were Itinerant Immortals above them, they were already

considered half immortals. It was almost impossible for them to die at such a level unless they could not endure the lightning tribulation when they ascended. In the end, her husband actually killed the Tribulation Transcendence! “Husband, y-you’re not joking with me, right?”

Shen Ping shrugged. “Do you think I’m joking?”

Yue Lingluo stared at Shen Ping and took a few deep breaths. “Alright, even if the immortal artifact was obtained by killing the Tribulation Transcendence, what about those resources, spiritual treasures, medicinal pills, talismans, magic treasures, and all kinds of rare materials? These can’t be plundered from the Tribulation Transcendence!”

Although the Tribulation Transcendence was rich, the things on them were also limited. Moreover, it was impossible for even Level 5 and 6 resources to be stored in their spirit ring.

“Most of these things were obtained by trading with the foreign races!” Shen Ping thought for a moment and told Yue Lingluo about the Strange Beast Gate and the Beast Spirit genius. He could feel that after his divine sense permeated her sea of consciousness and cleared the remnants of the Blood Venomous Insect Technique, Yue Lingluo had unreserved feelings and liked him. It could be said that if he let Yue Lingluo die for him now, she would definitely not hesitate.

In fact, from a certain perspective, Yue Lingluo’s persistence in relationships was the same as her sister’s. Once she set her mind on one, nothing would change.

In the memory world, the reason why he was able to succeed was mainly because his sister didn’t have deep feelings for that demonic cultivator at that time. Moreover, the time he chose was very important.

Of course, the most important thing was that the golden color on the virtual frame had already proved this point.

After digesting it for two days, Yue Lingluo finally accepted the fact that Shen Ping was a Beast Spirit genius. Although she knew that her husband was very powerful, she did not expect him to be the only Beast Spirit genius below the Immortal realm of the human race. Moreover, he had single-handedly made the ranking of the human race on the Myriad Spirit Ranking soar. “Husband, thank you for telling me this.” She knew that these were Shen Ping’s biggest secrets. It was a lot of trust for him to tell her.

Shen Ping held Yue Lingluo’s hand and smiled. “We’re Dao companions. We can accompany each other to the end of our lives. Naturally, we should trust each other.”

“Husband, your words are so nice. Were Yun’er, Ying’er and the others deceived by you just like that?” Although Yue Lingluo’s feelings for him were sincere, she wasn’t a young lady in her twenties. She had cultivated for tens of thousands of years and had seen everything. Therefore, she naturally wouldn’t be touched by such romantic words.

Shen Ping was speechless. "What do you mean by deceived? I relied on my own strength and charm to conquer them, okay? Besides, you've seen it for yourself, right?!"

Yue Lingluo rolled her eyes and said with a smile, "Husband's strength is indeed impressive."

Shen Ping's expression suddenly changed. Lian Xuejin's voice sounded in his ears, "Disciple, quickly enter the Strange Beast Gate."

"Master, what happened?"

"There's a huge change in the Strange Beast Gate. The Realm Sea Peak has opened!"

"What?" Shen Ping stood up immediately. Ever since Realm Sea Peak appeared, it had been enveloped in a layer of multicolored light all year round. Other than the top ten thousand and the top twenty geniuses and Beast Spirit geniuses, the other Beast Spirit geniuses could not enter at all. Now that it was actually opened, could it be that the multicolored light had disappeared?!

Although he did not know what kind of place Realm Sea Peak was, he could tell how important it was from the importance of the upper echelons of the human race.

"Husband, what's wrong?" Seeing Shen Ping's reaction, Yue Lingluo hurriedly asked.

"I have to enter the Strange Beast Gate immediately. You'll be in charge of the True Treasure Pavilion first. We'll discuss carefully when I return!"

"Okay."

Swoosh.

Back in Gray Stone City.

After setting up an array formation and immortal array in the quiet room, Shen Ping directly stepped into the Strange Beast Gate. He looked up and indeed saw that the light of the Realm Sea Peak had disappeared. The dense beast spirit geniuses on the first level of the Heavenly Palace were all floating in front of the Realm Sea Peak, but they seemed to be blocked by something and did not enter.

He turned into a streak of light and quickly went over.

After walking closer, he realized that in the depths of Realm Sea Peak, there was a towering palace that seemed to have appeared. It was slowly floating out, and the entire mountain peak was invisible and flat. No one could enter. Even prodigies who had the qualifications to comprehend the Realm Sea Palace could not enter.

At this moment, Lian Xuejin sent another voice transmission through the dazzling crystal.

"Disciple, every palace in the Realm Sea Peak is very important. It's a huge opportunity, even for the top experts of the human race. The appearance of the palace is a sign of the opportunity. The disappearance of the light means that every Beast Spirit genius can enter later. Remember, no matter what happens, you must snatch the opportunity!"

"Yes!"

Shen Ping's expression was solemn. The other Beast Spirit geniuses were all excited. Clearly, they knew what the birth of the palace meant.

At this moment.

On the ethereal Immortal Peak in the human Immortal Dao territory, the Venerable Sovereign and many Immortal Venerables floated together.

“What's going on with this Strange Beast Gate? Not only did Realm Sea Peak appear, but a palace also appeared. Could it be that the opportunity is going to be given to these Beast Spirit geniuses who are still juniors?!” An Immortal Venerable could not help but say.

Back then, in the Realm Sea, who were the people fighting for the treasures in the palace? At the very least, they were powerful overlords among Immortal Venerables, or Venerable Sovereigns of various races. Ordinary Immortal Venerables were not qualified.

Immortal Venerable Nanji was also a little envious, “That's right. If there's any treasure in the palace, even if it was given to these Beast Spirit geniuses, it's purely a waste!”

The human Venerable Sovereign did not say anything. A supreme treasure could greatly increase one's strength. For example, the Nine Continents Tower of the human race was a supreme treasure that could even suppress powerful and strange beasts. However, supreme treasures were extremely rare. Back then, the human race had only obtained two or three supreme treasures. Furthermore, they had been taken away by Ling Yun and Hei Tian.

The upper echelons of the Immortal Dao, such as the Spirit Race and the Devil Clan, were also envious. However, no one was jealous. After all, if there was really a supreme treasure in the palace, it would not be the turn of these Beast Spirit geniuses. At most, they would be tools to snatch it.

The palace was still slowly surfacing. Although it was fast, the palace was too big. According to this situation, it would probably take more than a month for it to completely surface. However, none of the Beast Spirit geniuses present moved. They were all staring at the palace.

If anything happened, they could rush in immediately.

Shen Ping was the same. He secretly sized up the other Beast Spirit geniuses from the corner of his eye and realized that even the Beast Spirit geniuses of the Realm Clan, the Stone Clan, the Skeleton Clan, and other special clans had come.

“If we really fight, I'm afraid I'm not a match for these prodigies!” He pondered. The first level of the Heavenly Palace could only accommodate Body Integration cultivators. Mahayana Realm cultivators had to enter the second level of the Heavenly Palace. The most prodigious of the various races were on the third and fourth levels of the Heavenly Palace.

Although they were both in the Body Integration realm, there was a huge difference in strength.

This was especially true for special races like the Realm Clan. They had generally comprehended the level of beast bones and could unleash the power of the third form of high-grade beast spirit treasures.

“When the palace is completely born, I can’t rush too far ahead.”

Opportunities were important. However, his life was also very important. Although Shen Ping was confident in his strength, he would not take the risk rashly.

Time passed slowly. All the Beast Spirit geniuses were staring at the palace in Realm Sea Peak. It was the same for the third floor of the underground palace. Every level had a projection of Realm Sea Peak..

Chapter 537: Eliminated (1)

Boom!

The moment the palace completely appeared, thousands of rays of light burst forth from the palace. Before all the Beast Spirit geniuses could react, they were enveloped by the rays of light. When they appeared again, they had already arrived in the palace.

Shen Ping glanced around. There were more than a million Beast Spirit geniuses gathered together. However, the entire palace did not seem crowded at all. Instead, it was very empty.

“Realm Sea Peak’s palace. Tsk tsk, I wasn’t qualified to enter the Realm Sea back then. I didn’t expect to enter now!”

“Hmph, so what if you come in? There are so many Immortal Venerables present. How can you have a share!”

“If there really is a supreme treasure, the Spirit Race and the Devil Clan will naturally obtain it first.”

He felt the vast pressure. Be it Shen Ping or the other prodigies, the expressions of the Beast Spirit geniuses were very ugly. No one expected that this palace would actually let an Immortal Venerable in. Facing such a top expert at the Immortal Dao level, no matter how dazzling they were or how shocking their potential was, they could only feel dejected at this moment.

At this moment, an Immortal Venerable of the Devil Clan quickly swept his gaze and locked onto Shen Ping’s figure. His face revealed a cold expression. “Junior of the human race, let’s see how you escape this time. Die!”

Boom! A terrifying and vast palm print suddenly slapped towards Shen Ping at an extremely fast speed. Even though Shen Ping’s soul was powerful, he could not react for a moment. However, just as the palm imprint landed, it was shattered by a soaring sword qi. Immediately after, a faint voice exploded in the palace. “Bastard of the Devil Clan, how can the junior of our human race be bullied by you?!”

“Immortal Venerable of the human race!” The Devil Clan’s Immortal Venerable’s expression changed.

The Spirit Race’s Immortal Venerable narrowed his eyes and said, “Immortal Venerable Yu, it’s not your turn to be arrogant in such a place!”

The Flame Race, the Demon Race, and many other Immortal Venerables looked at Immortal Venerable Qi and Immortal Venerable Yu. It was a confrontational situation. The other Beast Spirit geniuses did not dare to make a sound.

Immortal Venerable Qi smiled, "If we fight here, I'm afraid all the Beast Spirit geniuses will die. Ling Zhan, are you sure you want the geniuses of your Spirit Race to die with you?!"

Ling Zhan frowned. He knew that Immortal Venerable Qi was right, but he still said stubbornly, "As long as you humans don't find trouble, I believe the fellow Daoists of the other races won't attack."

At this moment, the entire palace emitted a gentle light.

Immortal Venerable Qi and the other Immortal Venerables of the various races immediately discovered that their magic powers were suppressed, including Shen Ping and the other Beast Spirit geniuses. They could only unleash the combat strength of a Nascent Soul.

Shen Ping thought to himself, That was close. Fortunately, Immortal Venerable Yu took action. Otherwise, he would have died before the light could suppress them. "Thank you for your help, seniors."

Immortal Venerable Qi smiled and said, "Shen Ping, don't be so polite. Speaking of which, we should be the ones thanking you. If you hadn't obtained the Beast Pattern Golden Fruit, Fellow Daoist Yu and I wouldn't have had a chance to enter the Strange Beast Gate."

Immortal Venerable Yu nodded, "That's right. Moreover, we're all humans and you're a junior. As seniors, we should protect you."

Seeing that the two of them were sincere and did not have the airs of Immortal Venerables, Shen Ping smiled and asked about Realm Sea Peak.

"The Realm Sea Peak is located in the Realm Sea. Its origins are mysterious, and its whereabouts are unpredictable. Even the Venerable Sovereigns of the various races find it difficult to find it. Back then, before the strange beast appeared, the Venerable Sovereigns of the various races found the Realm Sea Peak and joined forces to explore it, causing a huge battle. As you can see, there are many palaces in the Realm Sea Peak. Every palace is extremely special. Not only are there strange items, medicinal pills, secret techniques, and many treasures inside, it's very difficult to enter the palace. If it's in the Realm Sea, we Immortal Venerables have to use all our strength to blast open the palace barrier.

"I didn't expect to enter it in the Strange Beast Gate. I think the appearance of the palace this time should still be the operation of the Strange Beast Gate to nurture Beast Spirit geniuses." Immortal Venerable Qi explained.

Shen Ping came to a realization and asked again, "Seniors, do you know the origin of the Strange Beast Gate? Why does it nurture a Beast Spirit genius?"

"I'm not sure about this. The various races don't know either. I'm afraid only the Realm Clan, the Stone Clan, and other special races know some secrets." While the three of them were talking, a phantom suddenly appeared in the center of the

palace. All the Beast Spirit geniuses looked over. The phantom was blurry. Even Immortal Venerables could not see its true appearance clearly. At this moment, the phantom emitted an ancient voice, "After countless reincarnations, a Beast Spirit finally appeared. You don't have to be vigilant. I'm the artifact spirit of this palace."

Immortal Venerable Qi and the other Immortal Venerables of the various races were shocked. They had never heard of the existence of an artifact spirit in Realm Sea Peak's palace.

The phantom voice continued, "Since you guys have appeared here, it means that the Strange Beast Gate has already opened and the Realm Sea Peak has also appeared. My mission is to nurture you!" A large number of balls of light appeared above the phantom's head. These balls of light reflected treasures of different forms.

"These treasures include natural treasures, medicinal pills, secret techniques, and strange items that can extend your lifespan by more than 10,000 years. At the same time, there are treasures that can greatly increase the combat strength of Immortal Venerables and top-notch beast spirit treasures that can transform Beast Spirits!"

Their gazes became burning. Even Immortal Venerable Qi and Immortal Venerable Yu could not help but reveal excitement.

Treasure.

That was a powerful treasure that even Venerable Sovereigns needed. It could be the guardian treasure of a race.

Ling Hao, the prodigies of the Realm Clan, and the other beast spirit geniuses, stared fixedly at the beast spirit treasures in those balls of light. In the Heavenly Palace and the underground palace, the best beast spirit treasure was a high-grade beast spirit treasure. For prodigies who had comprehended the level of beast blood, though, the power of high-grade beast spirit treasures could not help but be a little weak, especially prodigies of the Realm Clan and the Stone Clan who had reached the level of scale armor. It was even more difficult for high-grade beast spirit treasures to unleash their strength..

Chapter 538: Eliminated (2)

Therefore, they were in urgent need of top-notch beast spirit treasures.

"Senior, may I ask how to obtain these treasures?" An Immortal Venerable could not help but ask.

The phantom smiled faintly. "As long as you pass the test, you can obtain these treasures." A seven-colored vortex suddenly appeared in the center of the palace. "Do you see that vortex? On the other side of the vortex is a world. This world is similar to the Strange Beast Gate you're in. It has abundant strange beast energy, so it naturally condenses many strange stones. However, these strange stones are very secretive and are even harder to find than in the Strange Beast Gate. Only

Beast Spirits with deeper comprehension of strange beasts can sense the strange stones and obtain them. Your test is to obtain the strange stones and use them to exchange for these treasures!

“The more strange stones you have, the more treasures you can exchange for. Let me remind you that there’s a limit to the treasures. You have to hurry up and obtain the strange stones!”

The phantom disappeared after saying that. More than a million Beast Spirit geniuses were stunned at first. Then, they became excited and rushed into the vortex crazily.

“Shen Ping, let’s go in quickly!”

Swoosh swoosh swoosh.

The seven-colored vortex was not wide. The Beast Spirit geniuses surged in and immediately became crowded. The Immortal Venerables of the various races led the way. Although they could only unleash the strength of the Nascent Soul realm, their methods were very powerful. However, it was still not enough in front of the prodigies.

Shen Ping had the protection of two Immortal Venerables. He only waited for dozens of breaths before rushing into the vortex.

Once they stepped into the vortex, they appeared in a barren world. At the core of this world was a palace. Above the palace, the phantom had long been waiting. Its voice transmitted to the ears of every Beast Spirit genius who entered the vortex. “If you want to obtain treasures, you can only exchange them in this palace. This is also a test!”

Immortal Venerable Qi and Immortal Venerable Yu’s expressions were ugly.

“Damn it, this test is extremely disadvantageous to us humans!”

“That’s right. There are only three Beast Spirit geniuses in our human race. The Devil Clan, Spirit Clan, and Flame Clan are definitely not stupid. When the time comes, they will definitely join forces and surround this palace. Even if we obtain a lot of strange stones, it will be very difficult for us to enter the palace to exchange for treasures!”

Of course, Shen Ping had also guessed this. He frowned tightly and thought for a moment before suggesting, “Seniors, can we rope in those weak races?”

Immortal Venerable Qi shook his head, “It’s very difficult. Before the appearance of the Myriad Spirit Ranking, those weak races respected us humans. However, as the Spirit Race and Devil Clan rose, these weak races did not take us humans seriously at all. Or rather, they did not dare to offend the Spirit Race and Devil Clan.”

“Where about the Winged Clan? They have a good relationship with our human race. We should be able to maintain our cooperation here!” Shen Ping said again.

Immortal Venerable Yu sighed, “Although the Winged Clan are on good terms with our human race, their interests are related. I’m afraid they won’t cooperate with our human race. Forget it, I’ll give it a try. Fellow Daoist Qi, protect Shen Ping!”

Before Immortal Venerable Qi could speak, Shen Ping hurriedly said, “Don’t worry about me. All the Beast Spirit geniuses have their strength suppressed. If we really fight, those Immortal Venerables might not be my match!” Immortal Venerable Yu smiled and said, “That’s right. I almost forgot that you rushed into the top 10,000 in your first Beast Spirit Ranking competition. Alright, I’ll immediately find the Immortal Venerable of the Winged Race.” After Immortal Venerable left, Immortal Venerable Qi brought Shen Ping far away from the palace and found a quiet place. He tried to sense it and shook his head. “My comprehension of the Beast Scripture is too low. I can’t sense the strange stone at all. Shen Ping, try it!”

Shen Ping nodded and calmed himself down to sense carefully. After twenty minutes, he vaguely sensed the energy of a strange beast underground not far away. He immediately took out a beast spirit treasure and began to dig. Soon, he dug up two strange stones.

“Not bad. Your comprehension of the Beast Scripture is indeed stronger than mine and Immortal Venerable Yu’s.” As he spoke, he carefully looked at the strange stone and found that it was different from the one in the Heavenly Palace. The energy inside was very violent and difficult to absorb. “It seems that it was condensed specially for the test. In that case, if we want to exchange for treasures, we can only obtain them from this world!

There were many strange stones on the top floor of the Heavenly Palace. Immortal Venerable Qi originally wanted to use the strange stones on him to exchange for them, but now, he dispelled this thought.

“I’m afraid I’ll have to rely on you to find the strange stones next. Immortal Venerable Yu and I will probably not be able to find much.”

He felt a little helpless. The higher one’s cultivation realm was, the more difficult it was to comprehend the Beast Scripture. This was because in the Immortal Venerable realm, one already had their own understanding of the Great Dao of Heaven and Earth. It was very difficult to change it.

“Senior, don’t worry. I’ll do my best!”

There were Beast Pattern Golden Fruits in those balls of light. If he could exchange for it, then his wife, concubine, and Dao companions would be able to become a Beast Spirit genius.

While Immortal Venerable Yu was discussing with the Immortal Venerable of the Winged Race, the Immortal Venerables of the Devil Clan and the Spirit Clan were all discussing. When the phantom mentioned the exchange rules, they thought of joining forces, not to target the humans, though. After all, there were only three Beast Spirit geniuses in this test. The humans had clearly been eliminated in advance. There was no need for them to deliberately target them. “There are nearly 100,000 Beast Spirit geniuses in the four races. If we join forces and form a defensive line around the palace, no matter how many strange stones the Beast Spirit geniuses of the other races find, they will fall into our hands. If anyone refuses to hand them over, we will destroy them!” -As for the treasures in the palace, we’ll distribute them according to how much effort we put in. How about that?”

The Spirit Race’s Immortal Venerable looked at the other Immortal Venerables.

“Sure.”

“This test has the same effect as the competition for the Beast Spirit Ranking. It’s mainly based on the level of comprehension of strange beasts. The prodigies of the four races should be able to discover strange stones more easily. However, there’s a gap when compared to the prodigies of the Realm Clan and the Stone Clan. In my opinion, we have to guard against them!

“That’s right. These special races are the biggest threat to us. We can’t let them exchange for it!”

The prodigies of the Realm Clan, Skeleton Clan, Stone Clan, and other special clans were not stupid. They naturally knew that compared to the Devil Clan, Spirit Clan, and Flame Clan, they had too few people. If they did not join forces, they would not be able to enter the palace.

Therefore, they could only join forces.

The Winged Race’s Immortal Venerable was originally patronizing Immortal Venerable Yu. He didn’t want to cooperate with the human race. The human race only had three Beast Spirit geniuses and two were Immortal Venerables. This test was basically useless. However, when he heard that the Devil Clan, the Spirit Clan, and the other Immortal Venerables of the four races had already joined forces, his attitude changed. The other four races left the Winged Race aside. Clearly, they didn’t plan to bring the Winged Race along. Facing this situation, no matter how indignant the Winged Race’s Immortal Venerable was, he could only pinch his nose and accept it.

“Immortal Venerable Yu, our two races are still too weak. In my opinion, we have to rope in some weak races and form an alliance. Only then can we guarantee that we can exchange for treasures!”

Immortal Venerable Yu naturally had no objections to this suggestion. They immediately contacted the Immortal Venerables of the other races. After Yin Ting learned that the two races had joined forces, she excitedly contacted Shen Ping. In this world, communication stones could also be used.

Not long after, Shen Ping saw Yin Ting in purple and green soft armor. Before he could be happy, he saw a few people following behind Yin Ting, including Yin Yan, whom he had seen before.

“Greetings, Senior!”

Yin Ting, Yin Yan, and the other Winged Clan’s Beast Spirit geniuses hurriedly bowed.

Immortal Venerable Yu smiled and said, “There’s no need to be so polite. Since you juniors have gathered, I won’t stay here any longer. I’ll leave the matter of the strange stones to you.” With that, he left.

Just now, Immortal Venerable Qi had sent him a message. He said that he had already contacted three to four foreign races’ Immortal Venerables and wanted to go to the palace to occupy a spot in advance so that the four races of the Devil Clan and Spirit Clan would not occupy it.

Until now, the Immortal Venerables basically knew that with their comprehension, it was very difficult to sense the location of the strange stone. After Immortal Venerable Yu left, Yin Yan and the

others looked much more relaxed. Although this world had an extremely great suppression and restriction, they were still very nervous when facing Immortal Venerable..

Chapter 539: Exchange for Treasures (1)

“Fellow Daoist Shen, I’ve long heard of your name in the Strange Beast Gate. Now, we can finally meet!”

“Fellow Daoist Shen can make two Immortal Venerable Beast Spirit geniuses appear in the human race alone. It’s really admirable!”

“This is nothing. Fellow Daoist Shen even gave Sister Yin Ting a high-grade beast spirit treasure!”

Listening to these compliments, Shen Ping’s expression did not change, but he frowned in his heart. However, he did not blame Yin Ting. She would definitely not be willing to bring them over.

“Let’s cut the pleasantries. We should find the strange stones as soon as possible. That’s the most important thing now.” Yin Ting didn’t give them a good look. In terms of strength, she was one of the best among the Winged Clan’s Beast Spirit geniuses.

“You’re right.” Yin Yan smiled.

The group immediately sensed their surroundings carefully. Only Shen Ping, Yin Ting, and Yin Yan had found a few strange stones in the past hour.

“What’s their relationship with you?” Shen Ping asked telepathically.

Yin Ting replied, “Our Winged Clan’s Beast Spirit geniuses were all under the responsibility of the immortal cultivators in the clan. They, including Yin Yan, belong to the same master as me.” When he heard that, Shen Ping was enlightened. Yin Ting continued, “These guys are probably here to test you. I can’t send them away.”

Shen Ping smiled and said, “Leave it to me.” He ended the transmission. He looked at Yin Yan and the other Winged Race’s Beast Spirit geniuses and said, “You should return to the palace. If you encounter the Beast Spirit geniuses of the other races later and fight, Fellow Daoist Yin and I won’t be able to protect you. If anything happens, it will be too late to regret. Furthermore, our team is too big a target. It’s very easy to attract the Beast Spirit geniuses of the other races.”

Yin Yan didn’t want to leave. It wasn’t easy for her to find a chance to stay with Shen Ping. However, it was different for the other Beast Spirit geniuses. They actually did not want to come. After all, Shen Ping was too famous. Previously, in the palace, the Immortal Venerable of the Devil Clan had directly attacked him. If they followed him, they would definitely be surrounded.

Therefore, when they heard this, they all felt that it made sense. After exchanging pleasantries, they immediately left.

“Clan sister, why are you still here? Do you want me to protect you?” Yin Ting looked at Yin Yan and said coldly.

“You...” Yin Yan gritted her teeth and followed the other Beast Spirit geniuses. She knew that if they were to fight, Yin Ting would definitely abandon her.

Seeing these guys leave, Shen Ping smiled. “Alright, it’s just the two of us now.”

Yin Ting noticed Shen Ping’s gaze and could not help but say, “This is not a place to do things. Moreover, time is tight. Let’s hurry up and find the strange stones!”

Shen Ping hugged Yin Ting and kissed her red lips for a while. “Don’t worry, I’m not someone who doesn’t know my limits.” A demonic look appeared in his eyes. The Eye of Sea Beast was activated. He looked at the ground. A large number of rocks and soil had disappeared, but there was an invisible energy covering them. He could not see the strange rocks underground.

He was not discouraged. He activated his enhancement talent. The Eye of Sea Beast immediately became the Pupil of Sea Beast. The invisible energy barrier gradually faded, and pieces of strange stones containing the energy of the Berserk Strange Beast were exposed to his vision.

Yin Ting watched silently. When she saw a hint of excitement flash across Shen Ping’s lips, she said in surprise, “Fellow Daoist Shen, could it be that you can see those strange stones through eye-type methods?”

Since Shen Ping had used it, he had no intention of hiding it from Yin Ting. Moreover, although pupil-type divine powers and even some innate divine eyes were rare in the cultivation world, they were not unheard of. In addition, if he wanted to quickly obtain strange stones to exchange for treasures, he could not help but expose some things. Using such pupil-type methods could hide his talent.

Therefore, he nodded and replied, “That’s right. My method is very powerful. In the underground palace, I relied on this to cooperate with special beast spirit treasures to quickly find the strange stone.”

Seeing Shen Ping reveal his methods so trustingly, Yin Ting was touched, but at the same time, she was happy for Shen Ping. “That’s great. With such a method, our efficiency in searching for the strange stones will be very high.” “A thousand feet to the left, below... two thousand feet ahead...” As Shen Ping kept talking about the location of the strange stone, Yin Ting was like a diligent bee, constantly digging for the strange stones.

An hour passed.

The two of them obtained more than a hundred strange stones.

“Among the treasures of the ball of light in the palace, the Beast Pattern Golden Fruit requires the least strange stones to exchange for it, but it also needs 10,000 strange stones. According to our speed, we should be able to obtain more than 2,000 in a day!”

Yin Ting’s cold face was filled with excitement. She knew very well that the test in the Realm Sea Peak palace this time was not only about the comprehension of strange beasts, but also the number

of beast spirit geniuses who had reached the level of beast skin. This was because as long as it was at the level of beast skin, one could vaguely sense the strange stone.

Originally, the human race had already been eliminated in advance. However, with her husband's methods, the human race had the advantage.

Shen Ping was also excited. Before using the Pupil of Sea Beast, he was not very confident. After all, the Realm Sea Peak was something left behind by an ancient powerhouse, and the test inside was extraordinary. In the end, the talent of the strange beast was really impressive.

However, he still remained calm.

"Let's go to another place."

The palace's surroundings had already been divided into five regions. On the north side, there was a joint faction led by the Immortal Venerables of the Devil Clan, the Spirit Clan, the Flame Clan, and the Demon Clan. On the east side, there was a joint faction of the Human Clan, the Winged Clan, the Dragon Clan, the Phoenix Clan, and other powerful clans. On the west side, there were the Realm Clan, the Skeleton Clan, the Stone Clan, and so on. The remaining south side was occupied by two joint factions. They were the top 100 clans, and the many clans after the 100th..

Chapter 540: Exchange for Treasures (2)

Originally, Immortal Venerables of the Devil Clan and the Spirit Clan wanted to occupy the entire palace. Unfortunately, they had overestimated their influence. In the face of the benefits of supreme treasures and top-notch beast spirit treasures, many clans would not give up even if they were afraid of the Devil Clan and the Spirit Clan.

Therefore, under the pressure of many Immortal Venerables and a large number of other Immortal Dao Beast Spirit geniuses, the Devil Clan, Spirit Clan, and other joint forces had no choice but to retreat.

"Damn it, these weak races actually dare to threaten us. After we get out, we'll definitely settle scores with them one by one!"

"Now is not the time to talk about such things. Right now, only those with comprehension above the level of beast skin and claws can clearly sense the location of the strange stones and obtain it. Moreover, our four clans have the most Beast Spirit geniuses at this level. Therefore, we have to ensure that our four clans obtain all the treasures this time!"

"I'm afraid it's unrealistic to exchange for all the treasures. The Winged Clan, Dragon Clan, and Phoenix Clan are not weak either."

"That's right, especially the Dragon Clan. Every one of their clansmen is extremely strong. Even in the prosperous era of the human race, they have to give face to the

Dragon Clan. If not for the fact that they have too few Beast Spirit geniuses, I'm afraid they would have to ride on the neck of our Devil Clan!"

The Immortal Venerable of the Devil Clan gritted his teeth and said. In fact, the Devil Clan had always wanted to include the Dragon Clan and the Phoenix Clan in their race. After all, these two clans were also devils. However, the Dragon Clan and the Phoenix Clan did not admit it at all. They did not want to mix with those bumpkin bloodlines of the Devil Clan.

"Even if we can't exchange them all, we have to include most of them. In my opinion, we can organize the Beast Spirit geniuses under the beast skin and claws to form a team and plunder the strange stones obtained by the other races. This way, we can definitely obtain more strange stones for the four races."

"That's a good suggestion, but it's very likely that the alliance of the other races will also organize quickly. At that time, everyone will compete to see who has more Beast Spirit geniuses."

After their cultivation levels were suppressed to the Nascent Soul realm, even Beast Spirit geniuses like Ling Hao who had stepped into the scale armor realm would find it difficult to break through the immortal formation. As long as they were first-grade Beast Spirit geniuses, they basically had immortal formations on them. This meant that numbers were the king.

While the Devil Clan and the Spirit Clan were discussing, the Immortal Venerables of the Human Race, Winged Race, and the other two races did not idle either. They gathered together to discuss this test.

"The Devil Clan and the Spirit Clan have the advantage in the number of Beast Spirit geniuses. Although we have taken the east side, I'm afraid it's not easy to exchange for supreme treasures and top-notch Beast Spirit Treasures." "We can only leave these things to those geniuses. The only thing we can do is to firmly occupy this place and give them a chance to exchange."

"Although that's the case, I'm afraid that the Devil Clan and the Spirit Clan will make a move."

"Let's see what tricks they can play first. When the time comes, we'll just deal with them accordingly."

In the blink of an eye, ten days passed.

Shen Ping and Yin Ting had worked tirelessly and obtained a total of nearly 30,000 strange stones. This efficiency was definitely very high. However, there were only two of them. In the end, they could not compare to the geniuses of the Devil Clan, the Spirit Clan, and the other Beast Spirits.

"The prodigies of the Devil Clan, the Spirit Clan, and the four races have already entered the palace once. I'm not sure what treasure they're exchanging

for.”

This was the information Shen Ping had obtained from Immortal Venerable Qi.

Yin Ting couldn't help but say, “Fellow Daoist Shen, the strange stones in our hands can already be exchanged for a treasure. If it's the Beast Pattern Golden Fruit, we can exchange for two. Why don't we go?”

Shen Ping shook his head. “Right now, all the races are watching the palace. If we enter, we will definitely attract attention. At that time, the joint forces of the Devil Clan, the Spirit Clan, and the other races will send teams to surround and kill us.”

Yin Ting frowned and said, “But there are only two hundred or so treasures in total. If they exchange them all, it's useless no matter how many strange stones we have.”

Shen Ping smiled and said, “Don't worry. Under normal circumstances, even Beast Spirits at the beast bone level can only obtain a hundred strange stones a day. Currently, only the Beast Spirit geniuses in the top 10,000 of the Beast Spirit Ranking can reach this level. After exchanging 200 treasures, the total requirement is more than 400 million strange stones. Therefore, it's impossible to exchange them all in a short period of time.

“We'll exchange for it in a month!”

Yin Ting nodded. “Alright, I'll listen to you.”

The two of them continued digging. In fact, although Shen Ping said it casually, he was very nervous in his heart. This was because there were more than 2,000 Beast Spirit geniuses in the top 10,000 of the Devil Clan, Spirit Clan, and Spirit Clan. This meant that if they gathered their resources, they could obtain more than 200,000 strange stones every day.

Now, in ten days, they could exchange for the treasures needed for a million strange stones. And there were only eight top-notch beast spirit treasures. Each item required 20 million strange stones. The Devil Clan, the Spirit Clan, and the other four clans could raise enough in three months. However, no matter how efficient he and Yin Ting were, it would take several years.

“What should I do? How should I increase the number of strange stones? The biggest restriction now is that I don't have enough manpower. My cultivation is suppressed to the Nascent Soul realm, and I can barely dig the ground of this world. Even if I use other methods, it will only increase slightly. Moreover, it will consume a lot of magical power from strange beasts. If I let the Winged Race's Beast Spirit geniuses join, it can indeed be greatly accelerated, but this will definitely cause trouble.”

Shen Ping pondered in his heart. He did not trust the other beast spirit geniuses of the Winged Race at all. “By the way, the strange beast puppets should be able to dig it up. How could I have forgotten about this?”

Even though there were too many restrictions in this world, and one had to possess the magic power of a strange beast to dig into the ground, the strange beast puppets were made of strange beast materials.

Thinking of this, he hurriedly took out the strange beast puppet from his spirit ring and passed an order to it to dig out the strange stone. Not long after, a strange stone was dug out. “Haha, it’s indeed useful. Moreover, because of the special material, the efficiency of the Strange Beast Puppet is even higher than Yin Ting and me!”

In his excitement, he took out all the strange beast puppets he had made. Although there were only five complete beast skin puppets, there were more than five hundred of them at the other levels, especially at the level of beast-shaped patterns.

There were also puppets in Yin Ting’s Spirit Ring, but they were not strange beast puppets and could not dig the ground at all.

With the help of more than 500 puppets, his and Yin Ting’s efficiency in digging for strange stones was even higher. On average, they could dig up more than 300,000 strange stones a day. It was mainly because of the limitation of the number of strange stones in the region that they had to frequently change places to search. Otherwise, there would be even more.

But Shen Ping was already very satisfied.

In the blink of an eye, a month passed.

Shen Ping and Yin Ting had already accumulated more than nine million strange stones. At this moment, Yin Ting suggested, “Fellow Daoist Shen, let’s wait a little longer. Top-notch beast spirit treasures are very important to you. It’s not too late to save up one first before exchanging for it.”

“Okay!”

Thus, the two of them and the five hundred odd beast puppets continued to dig. Just like that, another month passed, and the twenty million odd stones were finally accumulated.

It had been nearly three months since these Beast Spirit geniuses had entered. According to his previous estimation, no matter how efficient the Devil Clan, Spirit Clan, and other Beast Spirit geniuses were in obtaining the strange stones, they could at most accumulate a top-notch Beast Spirit Treasure.

“Let’s go to the palace!” Shen Ping suppressed his excitement and put away more than 500 puppets. He brought Yin Ting and rushed towards the palace. However, the closer they got to the palace, the more teams the various factions organized. They wanted to stop those who were close to the palace.

After communicating with Immortal Venerable Qi, the team that belonged to the Winged Race, Dragon Race, and Phoenix Race brought them to the east side of the palace.

“How is it, Shen Ping? How many strange stones have you obtained these days?” Immortal Venerable Yu asked with a smile.

Shen Ping replied, “I can already exchange for a treasure.”

Immortal Venerable Qi and Immortal Venerable Control looked surprised, “So fast? Not bad, not bad. Since you can exchange for it, enter the palace. It’s said that the Devil Clan and the Spirit Clan have already exchanged for a top-notch

Beast Spirit Treasure.”

The two of them did not pay much attention to it. They subconsciously thought that the treasure Shen Ping was talking about was the Beast Pattern Golden Fruit. Although such a treasure was not bad, it was far inferior to other treasures..
