Chapter 541: Top Beast Spirit Treasure (1)

When Shen Ping walked in the palace, the gentle light quickly gathered into a figure. Its entire body was enveloped in a black robe, and its ancient voice echoed in the hall. “Little fellow, what treasure do you want to exchange for? Let me remind you that if you don’t have enough strange stones to exchange for it, your outcome will be very miserable. Previously, there were a few little fellows who came but didn’t exchange for it. I can only let them see Master.”

Shen Ping could not help but feel a chill in his heart. There was actually such a rule. No wonder the five major factions surrounding the palace did not send Beast Spirit geniuses in and out of the palace. “Senior, I want to exchange for a top-notch beast spirit treasure.”

A smile appeared on the black-robed phantom’s face. “Not bad. To be able to dig up 20 million spirit stones so quickly, little fellow, you’re not bad.” It waved its hand, and the remaining seven top-notch beast spirit treasures appeared. “Tell me, which one do you like?”

Shen Ping looked at the spear in the ball of light. A huge axe, a round stick, a long whip, a pagoda, a green cauldron. For a moment, he did not know what to choose. After hesitating for a moment, he cupped his hands and asked, “Senior, may I ask which beast spirit treasure is suitable for me?”

The black-robed phantom could not help but laugh. “You’re quite cunning, junior. You actually asked me.” It narrowed its eyes as if it was investigating Shen Ping. Soon, it exclaimed softly, “Eh, interesting. The bloodline of the strange beast in your body is not too thick and pure, but it has activated more than one talent. I really can’t see through it. In that case, this Primordial Chaos Spear that focuses on attack is most suitable for you.

“It has five forms, and they correspond to the beast bone, beast blood, scales, and other levels. However, the conditions to use it are relatively harsh. You have to comprehend the complete beast bone, including the concept and the might. Little fellow, you haven’t even completely comprehended the beast skin level. How you choose is up to you.”

Shen Ping was shocked. He did not expect this senior to be able to see through his trump card directly. Moreover, he even knew the level of the Beast Scripture he had comprehended. He could simply be said to be omnipotent. Was this still an artifact spirit?! He took a deep breath. He hurriedly said, “Senior, I’ll exchange for this spear!”

“Okay!”

The ball of light containing the Primordial Chaos Spear floated in front of Shen Ping.

Shen Ping also took out 20 million strange stones. After exchanging for it, he was not in a hurry to leave. Instead, he used the remaining strange stones to exchange for a Beast Pattern Golden Fruit. Then, he suppressed the joy in his heart and left the palace. There were only ten top-grade Beast Spirit Treasures. The Underground Palace did not have them. This meant that the Beast Spirit genius who had a top-grade Beast Spirit Treasure would be an expert who would compete for the Beast Spirit Ranking in the future.

He returned to the east side.

Immortal Venerable Yu said gently, “Are you done exchanging?”

Shen Ping nodded. “I plan to continue digging for strange stones. Even if I exchange for more beast pattern golden fruits in the end, I’ll still profit.”

Immortal Venerable Yu laughed, “That’s right, but you have to be careful. As the number of treasures in the hall decreases, the competition for the strange stones will become more and more intense. Immortal Venerable Qi and I can’t protect you outside. You can only rely on yourself.”

“Yes!”

Just as he was about to leave, he was stopped by the Immortal Venerable of the Winged Race.

“Fellow Daoist Sheng, what do you mean?” Immortal Venerable Yu frowned.

The Winged Race’s Immortal Venerable smiled faintly, “Fellow Daoist Yu, our four races have joined forces to protect the Beast Spirit geniuses in our race and give them the right to enter the hall to exchange for treasures. They should have the right to know what treasures they are exchanging for!”

Immortal Venerable Yu’s expression turned cold.

Shen Ping hurriedly said, “Senior, I exchanged for a Beast Pattern Golden Fruit.” As he spoke, he took out the Beast Pattern Golden Fruit.

When the Winged Race’s Immortal Dao saw this, he waved his hand and asked Shen Ping to leave. Although a beast pattern golden fruit was important, there was no need to have a conflict with the human race over it.

After walking far away, Shen Ping thought to himself that it was so close. Fortunately, he had exchanged for the Beast Pattern Golden Fruit. Otherwise, it would really be difficult to fool him. If he took out a top-notch Beast Spirit Treasure, he would know that the Winged Immortal Venerable would definitely fight for it.

“Looks like I have to come once every two to three months. Otherwise, after a long time, it won’t be useful to exchange for the Beast Pattern Golden Fruit in the palace.”

What he did not know was that the Feather Race’s Immortal Venerable had specially called Yin Ting over. After knowing that Shen Ping had indeed only dug up more than 10,000 strange stones, he was relieved.

When the two of them gathered, Yin Ting told him about it. “I’m worried that the Immortal Venerables in the clan will use special methods to investigate me. If it really comes to that, Fellow Daoist Shen’s exchange for a top-notch beast spirit treasure will be exposed.” Her face was filled with worry.

This was indeed a problem. Shen Ping couldn’t think of a solution for the time being. He could only say, “Don’t worry, the next time I go to the palace, I’ll find the Immortal Venerable of the clan for help.”

The two of them continued to dig for strange stones.

With more than 500 puppets as manpower, their efficiency was still very fast. In just two months, they obtained another 20 million strange stones. Shen Ping originally wanted to exchange for a top-notch beast spirit treasure for Yin Ting, but Yin Ting shook her head and refused. "It's purely a waste for you to give it to me. With my strength and talent, using a high-grade beast spirit treasure is enough. Moreover, if I have a top-notch beast spirit treasure, even if I hide it now, it won't be a good thing if I take it out in the future. Instead, it will be a disaster."

She looked at Shen Ping and continued, "I know you're good to me. How about this? I'll enter the palace to exchange for a beast pattern golden fruit this time. This way, I can also report to the clan. At that time, the Immortal Venerable might not ask about you again."

Shen Ping sighed. "Alright."

Hence, the two of them rushed towards the palace again. This time, they encountered even more plundering teams on the way. Almost every ten kilometers, they would encounter one. Fortunately, Shen Ping was not weak. He managed to break out of the encirclement safely a few times..

Chapter 542: Top Beast Spirit Treasure (2)

"Fellow Daoist Shen, after exchanging for the Beast Pattern Golden Fruit, I won't follow you. In the current situation, I'll be a burden if I follow you. If you're alone, I believe it'll be easier for you to escape the encirclement of these plundering teams."

Yin Ting smiled and said, "The fact that I can exchange for a Beast Pattern Golden Fruit is enough to report to the clan."

Shen Ping thought about it seriously and agreed to Yin Ting's suggestion. Indeed, if he was alone, he could easily shake them off with his innate teleportation. He came to the palace. Shen Ping still told Immortal Venerable Yu about Yin Ting, "Senior Yu, I obtained more than 10,000 strange stones last time and exchanged them for other treasures, so..."

Although Immortal Venerable Yu was surprised, he did not ask further. When the water was clear, there would be no fish. It was very normal for Shen Ping to hide something. Any Beast Spirit genius would do this. "Bring your Dao companion over."

Soon, Yin Ting stood in front of Immortal Venerable Yu.

"It's indeed not bad that you're willing to hide it for him. Don't resist later. I'll cast an illusion-proof technique on you. If Fellow Daoist Sheng uses an illusion on you, you'll be able to easily sense it." As Immortal Venerable Yu spoke, he tapped his finger lightly, and a fluorescence landed on Yin Ting.

After they were done, Yin Ting walked into the palace. Immortal Venerable Yu looked at Shen Ping and said, "You should be glad that Immortal Venerable Sheng didn't use an illusion on her clansmen. Otherwise, there would definitely be waves."

At this point, he said meaningfully, “You can get tens of thousands of strange stones in two months. The two of you are really efficient. As far as I know, the top 20 prodigies of the Devil Clan and Spirit Clan can only get two to three thousand strange stones every month.”

Shen Ping knew that he had to reveal something. He hurriedly said, “Senior Yu, I cultivate an eye-type divine power method and can roughly determine the location of the strange stones. It’s with this ability that I can dig up many strange stones.”

Immortal Venerable Yu was stunned and could not help but say, “You actually have such a powerful divine power. Pupil-type methods are not too rare. Looks like this divine power should be some ancient method. Your luck is not bad. Unfortunately, if there are a large number of Beast Spirit geniuses in our human race, we can rely on your divine power to quickly accumulate strange stones to exchange for top Beast Spirit Treasures and treasures!”

Hearing this, Shen Ping could not help but ask curiously, “Senior Yu, will a supreme treasure greatly improve the race?”

“Of course! The Nine Continents Tower is a suppression-type treasure, and we humans still have two other treasures, but we lost them. If we can obtain an offensive-type treasure in the palace, our Venerable Sovereign’s combat strength will soar and suppress the Devil Clan and the Spirit Clan. At that time, the Devil Clan and the Spirit Clan won’t dare to be so arrogant.” At this point, Immortal Venerable Yu sighed faintly and said, “If Immortal Venerables can’t have a supreme treasure, their combat strength can also compare to a Venerable Sovereign.”

Shen Ping knew that this was what Immortal Venerable Yu really wanted to say. He suggested in a low voice, ‘We can get the Beast Spirit geniuses of the Winged Clan to help. If they listen to my instructions, although we can’t compare to the Devil Clan and the Spirit Clan, we can probably obtain more than 100,000 strange stones every month.’”

Immortal Venerable Yu shook his head, “Those who are not of our race will definitely have different intentions. It’s true that for the time being, our human race has joined forces with the Winged Race, the Dragon Race, and the Phoenix Race in order to give you the chance to enter the palace, but if they know that you have such a divine power, hmph, they will definitely occupy the magpie’s nest. At that time, the strange stones we obtain might not be ours. Alright, you have to keep this in your heart and not reveal it to anyone else.”

Shen Ping nodded heavily. “Yes!”

“Oh yes. Try your best to exchange for more Beast Pattern Golden Fruits. This time, our human race has suffered because of the number of Beast Spirit geniuses. The Realm Sea Peak is magical and has many palaces. In the future, if there are such opportunities again, our human race will be prepared.”

He left the palace alone.

Shen Ping directly used his talent to teleport to a distant place. As he controlled the strange beast puppets to continue digging for strange stones, he was also thinking about what treasures to exchange for next. There were more than 200 treasures in the palace. In the past four months, the

five major factions had only exchanged for more than 30. Most of them were beast pattern golden fruits, and many precious treasures were still there.

“I have to exchange for a few bottles of Beast Spirit Pills worth a million strange stones. I also have to exchange for treasures that increase the purity of the bloodline of strange beasts... and the secret skill of strange beasts!” While he was deep in thought, he thought of a supreme treasure.

There were three supreme treasures in the ball of light. Each of them was worth hundreds of millions of strange stones. Even he had to work hard to accumulate them for seven to eight months. Moreover, even if he exchanged them, he would not be able to use them. However, these things were very important to the race. If the Devil Clan and the Spirit Clan exchanged them, one could imagine the future situation of the human race.

Therefore, even if he did not need it, he had to exchange it for one. Although every man for himself, the environment he was in was also very important. If the human race was gone, it would be useless no matter how powerful he was.

In that case, Shen Ping felt that he had to be busy for a year, but he was filled with motivation. After all, if he missed this village, he might not have this shop. He had a huge advantage and had to make full use of it. “Let’s work harder!” He looked at the strange beast puppets that were working hard to dig for strange stones.

Shen Ping urged them. These strange beast puppets did not have any complaints and worked even harder to dig for the strange stones.

Time passed bit by bit. In the blink of an eye, half a year passed. In the past six months, the competition between the five alliance forces became more and more intense, especially when the number of top-notch Beast Spirit Treasures was gradually decreasing. Fights were carried out almost every day within a few hundred kilometers of the palace. In just half a year, more than hundreds of thousands of Beast Spirit geniuses had died.

The number of plundering teams in the periphery was also increasing day by day. In the past half a year, Shen Ping had encountered at least hundreds of teams. In order to avoid trouble, he stopped digging for strange stones and used teleportation to quickly change locations after he used the Eye of Sea Beast to check.

It was precisely because of his cautiousness that he was able to focus on digging the strange stones and did not participate in the endless battle. However, the intense battle still affected him. He had only gone to the palace once in half a year. Now, he had already accumulated nearly 80 million wondrous stones.

“Fellow Daoist Shen, there are only four top-notch beast spiritual treasures left. One of the supreme treasures has also been exchanged for. There are still four of the six strange beast secret techniques left.”

He listened to Yin Ting’s message through the communication stone.

Shen Ping was shocked. “One of the supreme treasures was exchanged for? H-how is this possible? It hasn’t even been a year since we came in. The fastest Devil Clan and Spirit Clan can dig up seven million strange stones a month at most. They can’t exchange for it in a year!”

Including the top-notch Beast Spirit Treasures and Beast Pattern Golden Fruits he had exchanged for, as well as treasures like Beast Spirit Pills, he had only accumulated a little more than a hundred million strange stones. This was already very fast, but in the end, there was actually a Beast Spirit genius who was faster than him.

“I’m not sure. The Immortal Venerables in the clan are discussing. However, it should be the special races of the Realm Clan and the Skeleton Clan.”

The exchange ended.

Shen Ping felt the pressure. The implications of a supreme treasure were huge. Whoever could obtain one would have their clan’s foundation and strength skyrocket.

The Immortal Venerables of the Human Race, the Winged Race, and the Dragon and Phoenix Races gathered together with extremely ugly expressions. They did not expect a faction to move so quickly.

“Fellow Daoist Sheng, how many strange stones have you accumulated?” Immortal Venerable Qi asked.

Immortal Venerable Sheng of the Winged Race shook his head. “I’ve only accumulated a top-notch beast spirit treasure now.”

Immortal Venerable Qi frowned. “The four races of the Devil Clan, the Spirit Clan, and the Spirit Clan must have exchanged for top-notch Beast Spirit Treasures, so it’s impossible for them to have the strength to exchange for supreme treasures. Only the special races like the Realm Clan are left, but the total number of Beast Spirit geniuses doesn’t exceed 500.”

The Immortal Venerable of the Dragon Race said, “Two of the special races like the Realm Clan have stepped into the scale armor level. They can definitely obtain a lot of strange stones every day. Moreover, it’s said that they have special talent. Perhaps it’s because of this.”

“There’s an 80% chance that it’s them. There’s no point in talking about this now. There are still two supreme treasures left. We have to get one. Fellow Daoist Sheng, I think we should gather the Beast Spirit geniuses of our races and accumulate the strange stones. This way, we can accumulate the strange stones needed for the supreme treasures faster!”

“Sure..”

Chapter 543: The Final Exchange (1)

On the north side of the palace, the Immortal Venerables of the four major races of the Devil Clan, the Spirit Clan, the Flame Clan, and the Demon Clan were also gathered together. According to

their estimation, the four clans would be the first to exchange for one of the three treasures. In the end, in just a year, the treasures were exchanged.

“Damned special races. If we had known earlier, our four races would have gathered to deal with them first!” The Immortal Venerable of the Devil Clan roared.

The two Immortal Venerables of the Spirit Race frowned. They had always felt that the Devil Clan was an uncivilized living being. Now, even the Immortal Venerable did not have the slightest class, which really made them dissatisfied. However, they could not flare up at such an occasion.

The corners of the Flame Race’s Immortal Venerable’s mouth twitched. “The Realm Clan, the Stone Clan and other special races are talented. Their prodigies’ efficiency in obtaining strange stones far exceeds ours. If this continues, two of the three supreme treasures might be theirs!”

The Demon Immortal Venerable did not say anything. It knew that even if it exchanged for a supreme treasure in the end, it would not be the turn of the Demon Race. After all, among the four races, their Demon Race was the weakest. Moreover, there were very few prodigies in the clan. In the alliance, their right to speak was the weakest.

One of the Immortal Venerables of the Spirit Clan said, “Although we have a lot of strange stones now, we have exchanged for two top-notch beast spirit treasures and some other treasures. There are less than 5,000 strange stones left. With our current accumulation speed, it will take more than a year to accumulate them even if we plunder them.”

“It’s too slow. Not only do we have to guard against the special races, but we also have to look at the Winged Race. If the supreme treasure is exchanged, they will definitely be even more anxious. Therefore, we have to increase the plunder next. Let’s not leave so many Beast Spirit geniuses in the palace. Let them all go out. With more than a hundred of them forming a team, even the strongest prodigy of our race is not their match.”

The other Immortal Venerables agreed. Other than this method, they could not think of anything else.

In the distance of the palace, Shen Ping observed the situation around him through the Eye of Sea Beast. In less than an hour, several teams had appeared within a thousand kilometers of him. This made him shake his head helplessly. This place was already very remote, but in the end, a team digging for strange stones had appeared so quickly.

Although he had a feeling that the competition would be even more intense after the supreme treasure was exchanged, he did not expect it to be so intense.

“The further out we go, the fewer strange stones there are. Moreover, the number of strange stones will also decrease. On the other hand, the closer we are to the palace, the richer the strange stones mine... What should I do?”

He frowned and pondered. If he kept dodging, the efficiency of digging for strange stones would definitely become slower and slower in the end. At the moment, he could still maintain the number

of strange stones that he obtained every month, but if he continued to go out, the number would continue to decrease.

However, if he fought with these teams and did not resolve it as soon as possible, it would attract trouble and affect him.

Faced with such a dilemma, Shen Ping thought about it again and again and decided to continue hiding for the time being. It was mainly because he was alone. If he did not use the Talisman Dao Mystique, it would be very difficult to deal with more than ten teams. This was because those who could dig out the strange stones were at least second-grade Beast Spirit geniuses of the various races. They all carried immortal formations on them.

He teleported away. He changed to another area and continued to dig for strange stones. More than 500 strange beast puppets were activated, and he only obtained slightly more than 8 million in a month. He was already mentally prepared for this.

“After exchanging for the treasure, I won’t have to be too cautious!”

For seven consecutive months, he dug eight million strange stones on an average. Coupled with the strange stones he had accumulated previously, he could exchange them for a supreme treasure in another month. This made Shen Ping even more motivated.

“Fellow Daoist Shen, there’s only one top-notch beast spirit treasure left. There are still two strange beast secret techniques and two supreme treasures. There are more than ten jars of beast blood heavenly spirit liquid, fifteen bottles of beast spirit pills, and more than 30 beast pattern golden fruits.”

Listening to Yin Ting’s message, Shen Ping heaved a sigh of relief. Fortunately, other than the speed at which he exchanged for top-notch Beast Spirit Treasures, the other treasures were still within his tolerance.

Soon, another month passed. He gathered the strange stones needed for the supreme treasure and directly teleported close to the palace. He sent a message to Immortal Venerable Yu and asked him to accept it.

Immortal Venerable Yu brought Shen Ping to the east side of the palace safely and couldn’t help but ask, “Shen Ping, how many strange stones have you accumulated? There’s less than half of the various treasures left, especially the Beast Pattern Golden Fruits. There are only more than 30 of them. I estimate that in half a year, after the other medium-grade treasures have been exchanged, the number of Beast Pattern Golden Fruits will sharply decrease!”

Immortal Venerable Yu was right. Currently, all the Beast Spirit geniuses were eyeing top-grade Beast Spirit Treasures. At the very least, they were eyeing Beast Spirit Pills. No one wanted to exchange for the Beast Pattern Golden Fruit. This thing did not have any support for Beast Spirit geniuses. However, if the other medium-grade treasures were gone, they would definitely settle for the next best thing.

Shen Ping hurriedly said, “There are already more than a million. This time, I plan to exchange for ten Beast Pattern Golden Fruits and the rest for other treasures.”

When Immortal Venerable Yu heard this, a smile appeared on his face, “Good! Ten Beast Pattern Golden Fruits. This way, our human race will have ten more Beast Spirit geniuses!”

He did not ask Shen Ping to take out some of the beast pattern golden fruits, but Shen Ping would do so. After all, if not for the two Immortal Venerables standing up this time, he would not even have the chance to enter the palace, let alone the two Immortal Venerables who had protected him previously.

“Hurry up and enter the palace. Don’t be late and let the other Beast Spirit geniuses exchange for it.” Immortal Venerable Yu urged.

Even though he was an Immortal Venerable, he could not help but lose his cool. He had no choice. The exchange of treasures could be said to be very impressive. All the factions wanted to exchange with all their might, and no one dared to fall behind..

Chapter 544: Final Exchange (2)

Shen Ping entered the palace. He saw the black-robed phantom again.

“Little guy, we meet again. What treasure do you want to exchange for this time?”

Listening to the voice, Shen Ping took a deep breath. “Senior, I plan to exchange for a supreme treasure!”

The black-robed phantom said in surprise, “A supreme treasure costs more than 100 million strange stones. Are you sure?”

“I’m sure!”

B0xn**ovel**.com

“Not bad. Looks like I underestimated you.” Swoosh. Two balls of light appeared in front of Shen Ping. “The two supreme treasures are the Shadowed Heaven World Pearl and the Supreme Spirit Nine Heavenly River. Little fellow, which one do you choose?”

The black-robed phantom smiled and said, “Actually, there’s nothing to choose from. The power of the two supreme treasures is similar. There’s not much difference. It’s just that their functions are different.”

Shen Ping quickly said, “Senior, I choose the Supreme Spirit Nine Heavenly River!” He took out more than a hundred million strange stones.

He had obtained the supreme treasure!

“Little fellow, let me remind you. Only by comprehending the truth of Heaven and Earth Great Dao can a supreme treasure activate its power. You’re still very far from this realm.”

“Thank you for your reminder, Senior. I still want to exchange it.”

“Looks like you have a lot in stock.”

When he left the palace, a relieved smile appeared on his face. No matter what, he had exchanged for the supreme treasure. Even if the Devil Clan and the Spirit Clan had supreme treasures, they could not rely on them to bully the human race. Although he had wasted many opportunities to exchange for other treasures, Shen Ping did not regret it.

There were some things that he had to choose.

“Are you done exchanging?”

“Yes.” Shen Ping stood in front of Immortal Venerable Yu and Immortal Venerable Qi and took out six beast pattern golden fruits, “Seniors, this is a token of my sincerity. If not for you, it would be very difficult for me to enter the palace.”

Immortal Venerable Yu and Immortal Venerable Qi looked at each other and revealed gentle smiles. This junior was not bad. They indeed needed the Beast Pattern Golden Fruits.

In fact, among the two hundred or so treasures in the palace, only the treasures and the Beast Pattern Golden Fruit were useful to them. They could not do anything about the treasures, but they were determined to obtain the Beast Pattern Golden Fruit.

Shen Ping had exchanged for ten and could take out six. He was indeed very sincere.

“Haha, Shen Ping, we seniors won’t stand on ceremony.”

The two Immortal Venerables did not hesitate and directly accepted the Beast Pattern Golden Fruits. They could give this to their disciples or give it to other Immortal Venerables as a favor.

“Shen Ping, do you still want to continue digging for strange stones?”

Shen Ping nodded. “There are still some treasures in the palace. I’ll strive to dig more and see if I can exchange for another bottle of Beast Spirit Pills.”

Immortal Venerable Yu said, “The Beast Spirit Pill is indeed very important to you Beast Spirit geniuses. Go, but you have to be careful. You should know that the competition between the various factions is very intense now. If you’re not careful, you’ll die. You’re alone. To be honest, Fellow Daoist Qi and I don’t recommend you go again.”

Shen Ping smiled and said, “I still have some life-saving methods.” He left the palace again. He teleported to a remote place. The next target he wanted to exchange for was the Strange Beast Secret Technique. It was worth 15 million strange stones. With his speed, he could complete it in two months.

On the north side of the palace, the Immortal Venerables of the Devil Clan, the Spirit Clan, and the other races had gloomy expressions. Just now, they had learned that there was only one treasure left. This was no less than a bolt from the blue to them.

“Who the hell is it!!”

“Could it be the special race of the Realm Clan and Stone Clan?”

“Impossible. No matter how fast they are, it will still take a year. During this period of time, the prodigies of the Realm Clan have gone to the palace twice!” “If it’s not a special race, could it be the Winged Race?”

“That’s possible. The Wingeds only exchanged for a top-notch beast spirit treasure, but judging from the time they exchanged, the possibility is not high!”

“This isn’t it, that’s not it. Could it be those weak races in the south?!”

The Immortal Venerables were puzzled. The number of strange stones obtained by the Beast Spirit geniuses every day was limited and could be estimated. However, the two supreme treasures had disappeared just like that.

The Spirit Race’s Immortal Venerable gritted his teeth and said, “There must be some prodigies with some special talent. The possibility of it being the special races is very high. In my opinion, form a team of 500 and plunder the area where the Realm Clan and Stone Clan and other special races dug up the strange stones. We must teach them a lesson!”

“Two supreme treasures... Damn it!” The Flame Race’s Immortal Venerable said, “How many strange stones have we accumulated now?”

“In the past eight months, including the ones we’ve plundered, We’ve already earned more than 120 million. It’s still a little short of exchanging for supreme treasures.”

“Then keep a close eye on the palace and see who goes in and out. If you find that the supreme treasure is gone, even if we have to start a war, we have to take it back at all costs!”

This group of Immortal Venerables was about to go crazy. The importance of the supreme treasure was self-evident. Originally, they would definitely be able to obtain a supreme treasure. However, before they could exchange for it, they lost two.

The atmosphere was very oppressive on the east side of the palace. The Winged Race’s Immortal Venerable sighed and said, “It’s very difficult for us to exchange for the remaining supreme treasure. Up until now, our race and the Dragon and Phoenix races have less than 50 million strange stones. This is even if we try our best to plunder them.”

Immortal Venerable Qi was puzzled, “Which faction exchanged for the second treasure?”

“I’m not sure. It’s most likely the Devil Clan and the Spirit Clan. Their speed of accumulating strange stones is second only to the Realm Clan and the others.”

The Immortal Venerable of the Dragon Race said, “Since I can’t exchange for treasures, I’ll exchange for top-notch beast spirit treasures. There’s still one left. If it’s any later, it’ll be gone.”

Immortal Venerable asked, “What about the remaining strange stones?”

“Maximize the use of Beast Pattern Golden Fruit, Beast Spirit Pill, Beast Blood Heavenly Spirit Liquid. However, we still have to continue plundering the strange

stones. If we can't obtain the treasure, we have to do our best to fight for the other treasures."

In a remote area.

From time to time, Shen Ping used the Eye of Sea Beast to observe. When he saw a team of 15 Beast Spirit geniuses rushing over, he did not leave. Instead, he put away more than 500 puppets.

"Eh, there's actually someone digging for strange stones here. Wait, isn't this the Beast Spirit genius of the human race?!"

"Kid, hand over all the strange stones on you!"

This team was a joint force of the weak races on the south side of the palace. Although their ranking was not high, they had a huge number. In the beginning, they formed more than ten teams.

However, after being frequently plundered by the Devil Clan, the Winged Clan, the Human Clan, and even the Realm Clan, they gradually developed into a team of a hundred or a thousand Beast Spirit geniuses.

More than ten teams were often just bait.

Shen Ping knew this. If it was in the past, he would have left without hesitation. However, it was different now. Without the pressure to exchange, he had nothing to do. "I should be the one to say this. Hand over your strange stones obediently. Perhaps I can still let you off."

"Haha, you really overestimated yourself!"

"Alright, don't waste your breath on him. Kill!"

More than ten Beast Spirit geniuses smashed over. Shen Ping waved his hand, and the high-grade beast spirit treasure turned into a lightning domain that swept over.

When these guys saw that the situation was not right, they immediately used the immortal formation. At the same time, they began to call for people. The 500 teams behind them quickly rushed over.

Boom!

Shen Ping ended the battle quickly. He used his Talisman Dao Mystique to shatter the immortal formation and killed more than ten Beast Spirit geniuses. He put away the spoils of war and teleported away.

By the time the 500 teams arrived, it was already too late.

For two consecutive months, Shen Ping destroyed more than twenty teams of bait in a row, including the powerful teams of the Devil Clan and the Spirit Clan. His ferocious reputation gradually rose.

Many teams encountered Shen Ping. Unless it was a team formed by a hundred beast spirit geniuses, they would turn around and escape. They did not dare to fight him at all.

"Fellow Daoist Yin, are there any left of the strange beast secret technique?"

“There are two more. There are no Beast Spirit geniuses who exchange for them during this period of time!”

Shen Ping heaved a sigh of relief. Looking at the more than 30 million strange stones in his hand, he smiled. It was still faster to plunder. He rushed to the palace.

Immortal Venerable Yu and Immortal Venerable Qi were not stingy with their praise, “Not bad, Shen Ping. You’ve been famous outside recently. It’s even spread to our ears. As expected of a prodigy of our human race!”

Shen Ping smiled foolishly and scratched his head.

“Let’s get into the palace. There aren’t many treasures left now.”

Upon hearing this, he hurriedly entered the palace. As expected, there were only more than 50 balls of light left, and only ten Beast Pattern Golden Fruits were left. “Senior, I want to exchange for the remaining two strange beast secret techniques..”

Chapter 545: Full Harvest (1)

Originally, Shen Ping did not care about the strange beast secret technique. After all, he had a Talisman Dao Mystique and a top-notch beast spirit treasure. It was enough for him to perfectly unleash the comprehension of the Beast Scripture. However, Yin Ting had told him that the so-called strange beast secret technique was a powerful secret that could increase the strength of his strange beast in all aspects. It could increase his strength by several times in a short period of time.

For example, the Beast Spirit geniuses of the various races who focused on bloodlines would all cultivate a secret technique. However, their secret techniques could only unleash twice their strength and were far inferior to the secret techniques of the strange beasts in the palace. In fact, Shen Ping’s innate enhancement of the strange beasts was an extremely powerful secret technique.

That was why he could not forget the secret technique of the strange beast. However, he couldn’t care less before.

“Little guy, you’re quite lucky. The remaining two strange beast secret techniques can increase your strength by at least five to six times. Moreover, this secret technique can also match your strange beast talent.” The black-robed phantom smiled meaningfully.

Shen Ping was stunned for a moment before revealing a look of joy. “Senior, are you saying that I can still strengthen myself five to six times through the strange beast talent?”

B0xnovel.com

“That’s right.” The black-robed phantom nodded.

This made Shen Ping a little excited. In his enhanced state, he could directly cross a major realm and advance to the mid-stage of the Mahayana Realm. If he erupted with five to six times his strength, he would definitely be comparable to the late-stage of the Mahayana Realm.

“Little fellow, the talent of strange beasts is bestowed to strange beasts by the source of heaven and earth. You can have many strange beast talents. It’s really your own good fortune. Make good use of your talent and don’t waste it.”

Shen Ping hurriedly said, “Thank you for your reminder, Senior.”

“Alright, what other treasures do you want?” The black-robed phantom waved his hand.

Shen Ping exchanged the remaining stones for a bottle of Beast Spirit Pills and two Beast Pattern Golden Fruits. The strange stones he had accumulated were completely gone. When he left the palace, he felt relaxed all over.

This time, he could be said to have gained a lot from the appearance of the palace. Not only did he exchange for a top-notch beast spirit treasure, but he also exchanged for a powerful supreme treasure, two strange beast secret techniques, ten bottles of beast spirit pills, six bottles of beast blood heavenly spirit liquid, and more than ten beast pattern golden fruits. The total value exceeded 200 million strange stones. Although he could not be considered the biggest winner, he definitely earned more than the other prodigies.

Of course, if he hadn’t gone to exchange for the supreme treasure, he could still exchange for top-notch beast spirit treasures and strange beast secret techniques. However, he didn’t regret it at all.

He returned to the east side of the camp. Immortal Venerable Yu smiled and teased, “Shen Ping, you’ve earned a lot this time. Fellow Daoist Qi and I are going to envy you Beast Spirit geniuses.”

Shen Ping said humbly, “I’m just a little lucky. Unfortunately, we humans have too few Beast Spirit geniuses and can’t exchange for top-notch Beast Spirit Treasures. We’ll inevitably be at a disadvantage in the competition in the future.”

Hearing this, the two Immortal Venerables could not help but sigh.

This time, the human race had suffered a huge loss. The prodigies of the Devil Clan, the Spirit Clan, the Winged Clan, the Dragon Clan, and other clans all had top-notch beast spirit treasures. Even the top hundred clans had exchanged for them. However, the human race could only exchange for very low-value beast pattern golden fruits. Although they had beast spirit pills, how could those things compare to top-notch beast spirit treasures?

“From the looks of it, many of the palaces in Realm Sea Peak are probably to nurture Beast Spirit geniuses. All we humans can do is slowly catch up.”

Immortal Venerable Yu did not say much on this topic. He changed the topic and said, “Shen Ping, there are not many treasures left in the palace. It will probably be over in two to three months. Do you plan to go out and continue digging for strange stones, or stay here?”

Shen Ping shook his head. “I don’t plan to go out anymore. The areas where I can dig for the strange stones have basically been dug up. The rest are scattered. Moreover, the competition will become crazy towards the end.”

Immortal Venerable Qi smiled and said, “Fellow Daoist Yu and I are relieved that you think that way.”

The two of them were afraid that Shen Ping would be blinded by greed and still wanted to go out and dig for strange stones. One had to know that the other party was now notorious. Those foreign races would definitely form 500 teams or even 1,000 teams to sweep.

At this moment, Shen Ping took out two beast pattern golden fruits. “Seniors, I want to use these beast pattern golden fruits to exchange for some cultivation resources. Is that possible?”

Immortal Venerable Yu teased him, “We can’t ask for more.”

Actually, even if Shen Ping did not say it, they would have asked when it was over. After all, it was very difficult for them to meet Shen Ping. They could only see him once when the palace was born.

“Shen Ping, if you need anything, just tell us.” Immortal Venerable Qi spoke very generously. As Immortal Venerables, they had a lot of good things on them. Although they were not related to Beast Spirit geniuses, since Shen Ping asked, it was most likely resources needed by ordinary cultivators.

Shen Ping chuckled and said, “Immortal artifacts, powerful immortal arrays, medicinal pills, and so on. Just give me a hundred or eighty of them.”

Immortal Venerable Yu immediately laughed, “Junior, you’re really not polite. Fellow Daoist Qi and I do have immortal artifacts, immortal pills, immortal puppets, and other resources, but we don’t have that much. Moreover, even if we give them to you, ordinary cultivators won’t be able to use them.”

“Tell me, what realm of cultivators do you plan to give it to?”

Shen Ping naturally knew that his wife, concubine, and Dao companions could not use powerful immortal artifacts. Not to mention anything else, even ordinary immortal artifacts could not be refined by Yu Yan, Wang Yun, and the others. The main reason why he spoke was not for this. He scratched his head and said, “Seniors, actually, I wanted to ask if there are any treasures that can speed up the cultivation of Nascent Soul and Divine Transformation cultivators..”

Chapter 546: Full Harvest (2)

Immortal Venerable Yu shook his head and said, “It’s not a good thing for Nascent Soul and Divine Transformation cultivators to cultivate too quickly. You should know that the more solid your foundation is, the higher the success rate of advancing to the Tribulation Transcendence and ascending. If you forcefully pull out the seedlings and encourage them, even if an Immortal guides you to ascend in the end, your strength will be very weak in the Upper World.”

Immortal Venerable Qi also said, “The competition in the Upper World is very cruel. Sometimes, Fellow Daoist Yu and I can’t interfere.”

Shen Ping hurriedly said, “Seniors, you’ve misunderstood. I mean to trade one or two treasures that can accelerate time.”

Immortal Venerable Yu and Immortal Venerable Qi immediately came to a realization. It turned out that he wanted to accelerate his cultivation through time acceleration. This was indeed possible. When the Beast Spirit geniuses of the various races were competing for the Beast Spirit Ranking, they had all undergone time acceleration.

B0xnovel.com

“Such a treasure is very precious. It consumes a lot of energy to use. Not only do you need high-grade immortal spirit stones to maintain its energy, but you also need a special void time sand. Every kilogram of void time sand needs to be collected by Immortal Venerable through the endless void. On average, you can only collect one or two in a hundred thousand years.”

Shen Ping was secretly speechless when he heard that. The price was actually so high. No wonder Yin Ting, a first-grade Beast Spirit genius, only had one or two chances. The Wingeds simply did not give it to her after that.

Immortal Venerable Qi glanced at Shen Ping, “It’s not that Immortal Venerable Yu and I are stingy, but the value of this treasure has far exceeded the value of the Beast Pattern Golden Fruit. How about this? If you really need it, you can use other things to replace it.”

As he spoke, two talismans that emitted a special aura appeared in his palm. “This is a Taiyi Void Immortal Talisman. It can also allow a cultivator to enter a state of time acceleration. It’s very convenient to use. The only flaw is that it can only accelerate once. It can last for a hundred years each time, equivalent to a thousand years in the outside world.”

Immortal Venerable Yu also took out two. “It’s quite troublesome to make these immortal talismans. Fellow Daoist Qi and I are both Immortal Venerables. We rarely use such immortal talismans, so we don’t have much on us.” Shen Ping asked, “Seniors, can this Taiyi Void Immortal Talisman only be used by one person?”

“That’s not the case. Its range is 1,000 feet. As long as a cultivator is within

1,000 feet, they can enter the time acceleration. What you have to pay attention to was that this was created by cutting through the void. Cultivators have to try their best not to move inside. Otherwise, it will easily cause the void to tremble and the entire immortal talisman might collapse. Of course, you don’t have to worry about danger. Even if the void collapses, cultivators will only break free.” Shen Ping heaved a sigh of relief. It was fine if it was not used alone. Four Taiyi Void Immortal Talismans were equivalent to 4,000 years. It was very worth it for him to trade two beast pattern golden fruits.

After the transaction was done, the two Immortal Venerables felt a little embarrassed. After all, this thing was useless to them and its value was extremely low. It was usually bestowed to their disciples.

“This is a high-grade immortal formation. Although Nascent Soul and Divine Transformation cultivators can’t refine and activate it, they can temporarily activate a portion of the power of the array formation with enough immortal spirit stones. Even Golden Immortals will find it difficult to break through its defense. You’re in danger in

the Abyss of Supreme Darkness. With the protection of this immortal formation, you'll be much safer." Immortal Venerable Qi said.

Immortal Venerable Yu gave Shen Ping a thousand high-grade immortal spirit stones.

In the next two months, Shen Ping stayed obediently in the eastern encampment. As he had expected, the battle outside was incomparably tragic. There was blood everywhere within a few hundred kilometers of the encampment. The teams of the five major factions were almost red-eyed from the killing. In order to plunder more strange stones, they were already filled with hatred for each other. In the end, a team of ten thousand Beast Spirit geniuses were formed. The two sides fought outside the palace, and the light of various immortal formations and beast spirit treasures flew everywhere.

Even the strongest prodigies of the various races did not dare to participate in such a scene.

Rumble-

Suddenly, the palace emitted light and converged into a huge black-robed phantom. It looked indifferently at all the Beast Spirit geniuses and its voice resounded in everyone's ears. "All 242 treasures have been exchanged. The palace is about to close. It's a huge opportunity for you to become Beast Spirits. Treasure it well and look forward to our next meeting!"

As soon as he finished speaking, the entire world shook. The teams that were fighting looked at each other.

"Fuck, I still have some strange stones that I haven't exchanged for!" "Damn it, there were more than ten treasures a few days ago. Who fucking exchanged them?!"

"Ahhh, I'm furious. I still have hundreds of thousands of strange stones. I originally wanted to exchange for Beast Spirit Pills, but you're telling me that they're gone?!"

A large number of Beast Spirit geniuses wailed endlessly. They had been working very hard during this period of time, wanting to take advantage of the last moment to obtain one or two treasures. Who knew that before they could finish spending the strange stones, the treasures would be gone?

However, the upper echelons of the Devil Clan, the Spirit Clan, and the four races had smiles on their faces. This time, they had exchanged for a supreme treasure and top-notch beast spirit treasures. They had gained a lot.

"With a top-notch Beast Spirit Treasure, our race's strongest prodigy will be like a tiger that has grown wings. In the future, he will firmly occupy the front of the Beast Spirit Ranking. The human race will no longer have the possibility of rising!"

"That's right. There are only so many top-notch beast spirit treasures. Humans don't have them anymore. We just have to be wary about the special races. This time, the two supreme treasures have benefited them."

"In the past, I didn't take the special races seriously. Now, it seems that they are the greatest threat!"

“When we return, report this matter to the Venerable Sovereign. No matter what, we have to suppress the special races. We can’t let them ride on the heads of our four races!”

At the eastern encampment, compared to the relaxation of the Devil Clan, the Spirit Clan, and the other four races, the Winged Race’s Immortal Venerable frowned. Originally, their Winged Race was neutral. Most of the time, they were biased towards the Devil Clan and the Spirit Race, and the humans would not have a conflict with them. It could be said to be a win-win situation. However, when the palace appeared this time, in the face of huge benefits, the four races excluded the Winged Race and could only cooperate with the humans. This was not good news.

Most importantly, he did not manage to get his hands on the supreme treasure. In the future, the Winged would naturally lower their heads when facing the Spirits.

Boom!

As the world shook violently, a seven-colored vortex suddenly appeared in the sky above the palace. Following that, a huge repulsive force kicked every Beast Spirit genius out.

When he came back to his senses, Shen Ping was stunned to discover that he had already left the Realm Sea Peak. He checked his spirit ring. The beast pattern golden fruit, supreme treasure, top-notch beast spirit treasures, beast spirit pills, and beast blood heavenly spirit liquid were all intact.

He heaved a sigh of relief and looked up at the towering mountain in the distance. He wondered where this Realm Sea Peak came from and why it wanted to nurture a Beast Spirit genius. However, he quickly suppressed it. Something that even Venerable Sovereigns could not figure out would only add to his worries.

The most important thing now was to comprehend the Beast Scripture as soon as possible and comprehend the entire beast bone. From there, he could activate top-notch Beast Spirit Treasures and the strange beast secret technique. These were the foundations that could allow his strength to soar. Before he left, he went to the third level of the underground palace to meet Yin Ting. “This is a Taiyi Void Immortal Talisman that can maintain a hundred years of acceleration. I hope that the next time I see you, you’ll have already broken through to the Body Integration realm!”

Yin Ting shook her head. “It’s a waste to give me this immortal talisman. It doesn’t make much difference to me if I break through to the Body Integration realm earlier or later. You also know that the most important thing for Beast Spirit geniuses is their comprehension of the concept and might of strange beasts. Leave it to your wife and concubines. They needed this the most.” Shen Ping flipped over, and two bottles of Beast Spirit Pills and Beast Blood Heavenly Spirit Liquid appeared. “If you refuse again, I’ll admire the feathers ruthlessly next time. It’s useless even if you beg for mercy.” He had long guessed that Yin Ting would reject him, so he took out the Taiyi Void Immortal Talisman first.

Yin Ting’s cold face flushed red. She glared at Shen Ping and only took a bottle of spirit pills and spirit liquid. “These are enough for me to use for a while.” After saying that, she hugged Shen Ping and disappeared.

He looked at Yin Ting’s previous position. Shen Ping shook his head and sighed. He knew that Yin Ting was relatively cold and arrogant. It was already a huge concession for her to accept his gift.

As the beast spirit geniuses of the various races left one after another, the news of the treasure exchange in the palace quickly swept through the upper echelons of the immortal Dao of many races. When they found out that there were supreme treasures in the treasures and the Beast Pattern Golden Fruit, many immortal Dao experts could not sit still.

In the human Immortal Dao territory.

The immortal abode of Immortal Venerable Qi and Immortal Venerable Yu had been visited by other Immortal Dao experts in just a few days. There was an endless stream of people visiting. They all asked for the same, the beast pattern golden fruit..

Chapter 547: Clan Contribution (1)

There was no doubt about the strength of a Beast Spirit genius. A True Immortal-level prodigy could cross two major realms to fight a Golden Immortal. Even if their comprehension of the concept and might of strange beasts was not high, they could rely on the magical power of strange beasts to seize the natural luck of heaven and earth and have a huge advantage in battles of the same level. Especially with a Beast Spirit Treasure, this advantage would be even greater.

Not to mention that the Strange Beast Gate had the secret to transcending longevity.

Therefore, it was not only the foreign races. The Immortal Dao experts of the human race all wanted to obtain the Beast Pattern Golden Fruit and become Beast Spirit geniuses. However, there was a limit to the number of Beast Pattern Golden Fruits. With so many people looking for them, even Immortal Venerable Qi and Immortal Venerable Yu could not deal with them. In the end, they could only hand this problem to the Venerable Sovereign.

Misty Peak.

Dozens of Immortal Venerables gathered at the Venerable Sovereign's residence.

B0xnovel.com

Immortal Venerable Yu said helplessly, "Everyone, Fellow Daoist Qi and I only obtained ten Beast Pattern Golden Fruits in the Realm Sea Peak Palace this time. The Beast Pattern Golden Fruit concerns the future of our human race, so Venerable Sovereign, please decide who it belongs to."

The other Immortal Venerables revealed smiles of agreement on the surface, but they were speechless in their hearts. They thought to themselves that Immortal Venerables Yu and Qi weren't polite. There were clearly ten of them. Even if they could not take them all down, more than half of them could become Beast Spirit geniuses. If there were ten more Immortal Venerable Beast Spirit geniuses at once, the ranking of the human race on the Myriad Spirit Ranking would soar.

The human Venerable Sovereign swept his gaze, as if he could see through the thoughts of these Immortal Venerables. He said indifferently, "You should know that the strength of Beast Spirit geniuses lies in their comprehension of the Beast Scripture. From the cultivation realms of the geniuses of the various races, it's not suitable for those above Golden Immortals to comprehend the Beast Scripture. Currently, our human race's Myriad Spirit Ranking is not too far behind, so instead

of letting you consume the Beast Pattern Golden Fruit this time, it's better to leave it for the outstanding juniors of our human race." Immortal Venerable Qi and Immortal Venerable Yu said repeatedly, "Venerable Sovereign, you're right."

They had originally planned to give it to their disciples. If not for the favor, they would not have handed such an important thing to the Venerable Sovereign to decide.

The other Immortal Venerables were silent.

Immortal Venerable Nanji glanced at the others and braced himself to say, "Venerable Sovereign, letting an outstanding junior at the True Immortal and Heavenly Immortal level of our race consume it can indeed greatly increase the competitiveness of our race in the Strange Beast Gate. If our human race has a beast spirit prodigy when the palace appears this time, we might be able to obtain a top-notch beast spirit treasure. However, it's too late to nurture it now. Moreover, the Devil Clan, Spirit Clan, and other races have also obtained many beast pattern golden fruits this time. If they hand it to Immortal Venerable, our race's strength at the top of the Heavenly Palace in the Strange Beast Gate will be at a disadvantage. If another palace appears, relying on Immortal Venerable Qi and Immortal Venerable Yu, I'm afraid it will be difficult to protect our beast spirit genius."

When the other Immortal Venerables saw the Immortal Venerable Nanji stand up, they echoed each other.

The human Venerable Sovereign's expression did not change. "What Nanji said makes sense. The top level of our Heavenly Palace cannot be weak. How about this? Take out two Beast Pattern Golden Fruits to increase the combat strength of the top level. The remaining eight will be given to the True Immortal and Heavenly Immortal juniors of our race. As for who will consume it, you can discuss it yourselves."

Venerable Sovereign had already said so. The other Immortal Venerables immediately had no objections. It was already very good to be able to obtain two Beast Pattern Golden Fruits this time.

"Immortal Venerable Nanji has always been in charge of the battlefield in the Abyss of Supreme Darkness. He has contributed a lot. I think one of them should be consumed by Nanji."

"I agree. The Beast Spirit genius that Immortal Venerable Nanji protected in our lower realm should indeed have one."

"Immortal Venerable Yao's combat strength is not weak. I think she should consume the other fruit."

"Immortal Venerable Bing is not weak either."

There was not much controversy about one of the two beast pattern golden fruits belonging to Nanji, but they could not compete for the other one. This was because other than Immortal Venerable Qi and Immortal Venerable Yu, four of the remaining dozen or so Immortal Venerables were evenly matched. The human Venerable Sovereign did not interfere the entire time. Of course, he knew that the ownership of the Beast Pattern Golden Fruit was a problem. If he took it all out, he would definitely not be able to take care of every Immortal Venerable. That was why he suggested taking out two. This way, even if there was a dispute, it would not be too big.

Immortal Venerable Qi and Immortal Venerable Yu looked at each other and revealed some relief. If they were the ones to distribute, no matter what the final decision was, it would make some Immortal Venerables dissatisfied.

Seeing that there was no result after so long, an Immortal Venerable suggested, “Venerable Sovereign, why don’t we add four more? Let Immortal Venerable Yao, Immortal Venerable Bing, Immortal Venerable Yue, and Immortal Venerable Hong take them and become Beast Spirit geniuses. This will undoubtedly allow our race to have a huge advantage in the top level of the Heavenly Palace. At that time, if another palace appears, our right to speak will be greater and we can obtain more benefits for our race.”

The human Venerable Sovereign shook his head. “The four Immortal Venerable Beast Spirit geniuses already have a huge advantage. It’s a waste to increase it. Our human race is already far behind the various races. If we don’t work hard to nurture more geniuses, the gap between us and the various races will become greater and greater in the future. I believe everyone has seen it. The opportunity of Realm Sea Peak is more to nurture Beast Spirit geniuses, and the prodigy level is the key.”

The Immortal Venerable hurriedly said, “Venerable Sovereign, you’ve misunderstood me. The four beast pattern golden fruits didn’t come from these ten. I heard that Shen Ping from the Abyss of Supreme Darkness obtained many beast pattern golden fruits this time. Why don’t you let him take out four? The clan can compensate him. The clan can give him whatever he wants.” Several Immortal Venerables nodded one after another.

Immortal Venerable Qi and Immortal Venerable Yu frowned. When they thought about how Shen Ping had used two beast pattern golden fruits to exchange for the Taiyi Void Immortal Talisman, it meant that the other party indeed had a need, so they did not say anything..

Chapter 548: Clan Contribution (2)

The human Venerable Sovereign reminded them, “Shen Ping has already done a lot for the race. Half of the credit for Immortal Venerable Qi and Immortal Venerable Yu being able to obtain ten beast pattern golden fruits this time is his. How can the race ask him for more?”

Immortal Venerable Bing said, “Venerable Sovereign, this is not a request, but a transaction. If Shen Ping doesn’t have any other needs, we’ll naturally give up.” At this moment, Immortal Venerable Yu suddenly said, “I think we should give Shen Ping a clan contribution.”

As soon as he said this, the scene instantly fell silent. All the Immortal Venerables looked at Immortal Venerable Yu. Among them, Immortal Venerable Yao, who was as beautiful as a painting, frowned and said, “Immortal Venerable Yu, do you know what you’re talking about? Only Venerable Sovereigns and Immortal Venerables can obtain the contributions of the race. Although Shen Ping is the first Beast Spirit genius of our race and has made our race’s ranking soar and obtained two Beast Pattern Golden Fruits, don’t forget that he’s only a Body Integration cultivator. What right does he have to obtain the contributions of the race?”

“That’s right. How important is the contribution of the race? How can we give it to a Body Integration junior? If word gets out, won’t the foreign races laugh at us humans?”

“Let’s talk about contributions after he becomes an Immortal Venerable in the future.”

B0xnovel.com

“Immortal Venerable Yu, you’ve become a genius of the Beast Spirit and have a good impression of this junior. There’s karma between you, but you can’t speak nonsense!”

For a moment, Immortal Venerable Yu became the target of public criticism. The human Venerable Sovereign interrupted, “Alright, the contribution of the race is very important. Don’t talk nonsense.”

Immortal Venerable Yu hurriedly said, “Yes, Venerable Sovereign.” The Venerable Sovereign continued, “As for the ownership of the other Beast Pattern Golden Fruit, let’s give it to Immortal Venerable Yao. The Beast Pattern Golden Fruit in Shen Ping’s hand belongs to him. Even if we want to trade, we have to get his approval. I’ll send a message to his master and ask her about this.”

After it ended, Immortal Venerable Qi went to Immortal Venerable Yu’s immortal abode to drink.

“Fellow Daoist Yu, why did you propose the contribution of the race today? Is there any other meaning?” Immortal Venerable Qi asked in confusion. Even if Immortal Venerable Yu thought highly of Shen Ping, he would not mention it at such an important occasion.

Immortal Venerable Yu raised his head and drank a few mouthfuls of immortal wine. He smiled and said, “Although Shen Ping has contributed a lot, the contribution of the race naturally can’t be said. The reason why I suggested it is mainly to stop others from talking.”

Immortal Venerable Qi came to a realization. “You mean that someone might use their clan contribution to privately trade with Shen Ping and obtain the Beast Pattern Golden Fruit?”

“That’s just one part of it.” Immortal Venerable Yu sighed. “Venerable Sovereign’s thoughts are the most important. Shen Ping’s strength is still too low. If Venerable Sovereign mentions it, even if the other Immortal Venerables object, they won’t be able to say it directly. Instead, they will let Shen Ping stand out in the forest. This is not a good thing for him.

“We both owe him a favor. And this time, the reason why you and I can obtain so many beast pattern golden fruits is because of Shen Ping. Therefore, I really don’t want to see such an outstanding junior of the human race destroyed.” Immortal Venerable Qi raised his wine cup, “Fellow Daoist Yu, you’ve really put in a lot of effort.”

Immortal Venerable Yu smiled, “You and I should be carefree, but with the appearance of the Myriad Spirit Ranking, the future of our human race is unpredictable. Moreover, in our realm, although we have selfish motives, we should take care of the overall situation.”

Immortal Venerable Qi nodded. Actually, after hearing this, he basically knew what Immortal Venerable Yu's goal was. The entire human race was not united. Even if the Myriad Spirit Ranking united the human race, the spies of the foreign races had long been hidden deep inside. Even the Immortal Venerables could not be fully trusted, and Immortal Venerable Yu was taking precautions.

Sword Seal City.

Luo Xia Peak.

When the humans were discussing the ownership of the Beast Pattern Golden Fruit, Shen Ping was also thinking about this problem. He now had a total of 11 Beast Pattern Golden Fruits in his hands. They could make Wang Yun, Yu Yan, and the Dao companions become Beast Spirit geniuses. However, his son and future children would not have such a chance.

Of course, no one could predict what would happen in the future. He might even be able to obtain the Beast Pattern Golden Fruit again. However, there were some things that had to be done first. If he could become a genius of the Beast Spirit earlier, he would be able to gain the upper hand in comprehending the Beast Scripture.

After Yue Lingluo found out about this, she shook her head and said, "Husband, I suggest you ask Sister Yun'er and the rest for their opinions. I know you're thinking of us, but the Beast Pattern Golden Fruit might not be suitable for us." She said seriously, "Whether it's me, Wang Yun, Bai Yuying, or the others, their comprehension and talent are very ordinary. To be able to cultivate to this extent, they mainly rely on resources. And you told me that although Beast Spirit geniuses can also rely on resources, they have a huge requirement for comprehension and the bloodline of strange beasts.

"I don't deny that becoming a Beast Spirit genius can increase our combat strength, but it's very difficult for us to reach your level. We can't even compare to that sister from the Wingeds. Therefore, to me, instead of becoming a Beast Spirit genius, I might as well be an ordinary cultivator and transcend the Tribulation Transcendence."

Shen Ping was stunned. He really did not think of this, or rather, he subconsciously ignored it. He always wanted to give his wife and concubines the best sense of security. Now that he heard Yue Lingluo's words, he finally reacted.

"Husband, Yun'er, Sister Ying'er and the others are actually under a lot of pressure. With a husband as talented as you, they really want to chase after and help you."

Shen Ping fell silent. In the end, he smiled bitterly and said, "Lingluo, you're right. I was too naive. However, I still have to ask Yun'er and the rest for their opinions." He immediately brought Yue Lingluo back to the City Lord Residence of Gray Stone City.

Most of his wife, concubines, and Dao-companions were in seclusion. However, Shen Ping still asked them to end their seclusion temporarily. Pei Huoyu and Qiu Ying were at the critical moment of breaking through to the Divine Transformation Realm and could not be disturbed.

Wang Yun, Yu Yan, Bai Yuying, and the other women sat on chairs in the spacious main hall. He did not let his son, Shen An, come.

Shen Ping told them about the Beast Pattern Golden Fruit. Indeed, Wang Yun and Yu Yan's thoughts were similar to Yue Lingluo's. They did not want to become Beast Spirit geniuses.

"Husband, the Beast Pattern Golden Fruit is extremely precious. It's a complete waste to use it on us. Why don't we use it to nurture An'er and our other children in the future?"

"That's right. When we were in the True Treasure Pavilion, we got to know many geniuses who comprehended the techniques of strange beasts. Every one of them was extremely talented. Even they found it difficult to study them thoroughly after spending a lot of time, let alone us. Even if it's an ordinary Immortal Dao Hundred Arts, it's a headache for us to study and comprehend them."

"Doesn't An'er have the bloodline of a strange beast? It's most suitable for him." He saw that his wife, concubines, and Dao-companions were all like this. Therefore, Shen Ping could only helplessly dispel this thought. He glanced at the cultivation levels of Yu Yan, Bai Yuying, and the other women. He took out the Taiyi Void Immortal Talisman and said, "You're not far from the Divine Transformation Realm. This immortal talisman can speed up the flow of time. When you enter seclusion, cultivate under this immortal talisman. I believe that when you come out of seclusion, you'll already be at the Divine Transformation Realm."

Bai Yuying, Yu Yan, Luo Qing, and Mu Jin's talent and comprehension were indeed average. Although they had taken a lot of spiritual treasures over the years, some of them had improved their aptitude, Divine Transformation was still a big threshold for them. He arranged for his wife, concubines, and Dao companions.

Just as he was about to ask about his son, his master's voice came from the resplendent crystal.

"Disciple, do you have any extra beast pattern golden fruits on you?" Lian Xuejin said, "Previously, although the higher-ups of the race agreed to let you deal with the Beast Pattern Golden Fruit on your own, this treasure concerns the future of the race. If you have any excess, you should try your best to contribute it to the race."

Shen Ping was speechless. His master was good at everything, but she was too concerned about the overall situation. However, he would not blame his master for this because if not for his master's personality, the five continents and four seas would have long collapsed. He would not have been able to become a genius of the Beast Spirit. "Master, did the higher-ups of the race ask you to contact me?" He asked.

Lian Xuejin nodded. "Venerable Sovereign sent me a message personally." "Venerable Sovereign?" Shen Ping became serious. He did not expect the Venerable Sovereign to personally appear. No matter what, he had to give the Venerable Sovereign face. "I do have extra, but I can only contribute one!" It was not that he was stingy. When he was in the palace, he used two to trade with Immortal Venerable Qi and Immortal Venerable Yu to take care of the race..

Chapter 549: You Have to Have Some Dreams (1)

The dignified and gentle Lian Xuejin couldn't help but frown slightly. She still had some understanding of her personal disciple's personality. Since the other party said that she could take out a Beast Pattern Golden Fruit, it meant that he indeed had many Beast Pattern Golden Fruits in his hands. Thinking of what the Venerable Sovereign had said to her, she hesitated and said, "Disciple, with every additional Beast Spirit genius in the race, the ranking on the Myriad Spirit Ranking will increase. This is very important to the entire human race. Moreover, the Venerable Sovereign means that as long as you're willing to take out the Beast Pattern Golden Fruit, no matter what needs you have, the race will try its best to satisfy them."

Shen Ping looked troubled. "Master, it's not that I'm unwilling to take more, but the beast pattern golden fruit is precious. I plan to leave it for my children and even one for you."

When Lian Xuejin heard this, he could not help but say in relief, "I'm very happy that you think of me. However, it's most suitable for the upper echelons of the race to take it as much as possible. How about this? Take out the one you prepared for me. There are a total of two. How about that?"

Hearing his master say this, Shen Ping had no other reason to refuse, but he said bluntly, "Master, I can take it out, but every Beast Pattern Golden Fruit has to be traded with a Taiyi Void Immortal Talisman."

Lian Xuejin smiled and said, "Alright, I'll contact the Venerable Sovereign now and tell him your needs."

Soon, the human Venerable Sovereign sent Shen Ping's request to Immortal Venerable Yao, Immortal Venerable Bing, Immortal Venerable Yue, and Immortal Venerable Hong, four Immortal Venerables with similar strength. "Two beast pattern golden fruits and the one from the race. Whoever takes out more Taiyi Void Immortal Talismans can obtain these three."

The four Immortal Venerables heaved a sigh of relief. The Taiyi Void Immortal Talisman was not too precious, but it was quite troublesome to make. Therefore, they began to collect the immortal talismans. Among them, Immortal Venerable Yao even found an Immortal Venerable who was good at making immortal talismans to help.

Not long after, Immortal Venerable Yao, Immortal Venerable Bing, and Immortal Venerable Yue took out the most Taiyi Void Immortal Talismans.

The human Venerable Sovereign smiled and said, "Fellow Daoist Hong, you don't have to feel disappointed. As the number of Beast Spirit geniuses in our race increases, we will definitely have a chance to obtain the Beast Pattern Golden Fruit again."

After the Immortal Venerable quota was discussed, the remaining outstanding junior quotas were not too difficult. After all, the Beast Pattern Golden Fruit was obtained by Immortal Qi and Immortal Venerable Yu. Therefore, the race would definitely prioritize the disciples recommended by the two Immortal Venerables before considering the extremely famous prodigies of the race.

Half a year later, the number of human beast spirit geniuses increased by twelve at once. Among them, four Immortal Venerables directly caused the ranking of the Myriad Spirit Ranking to soar to the top 300, causing the myriad races to be shocked.

In fact, such a ranking was nothing. The impact of the Myriad Spirit Ranking's ranking on the expansion of the race was mainly concentrated in the top 100. Although the last 100 to 1,000 had an effect, the range was relatively small. At most, it would increase the probability of geniuses being born among the living beings reproduced in the race. It did not have much effect on comprehension and talent.

However, it was different in the top 100. Not only would there be geniuses with extraordinary comprehension, but there would also be a chance to give birth to peerless prodigies who crushed the era.

The reason why the human race was once prosperous was because there was an era where geniuses erupted. Top figures who suppressed one or two eras appeared. For example, Venerable Ling Yun and Venerable Sovereign Hei Tian erupted from the golden era of the human race.

Of course, although there was a chance, it was actually just a hope. The Myriad Spirit Ranking had appeared for so many years, but they had never seen such a figure appear from the Spirit, Devil Clan, and Flame Clan.

However, the various races still valued the Myriad Spirit Ranking very much. After all, no one dared to take the risk.

Therefore, when many weak races saw the human race's ranking suddenly soar again, they were shocked and uneasy. This was because they had all experienced an era dominated by human geniuses.

"Is the human race really going to rise again?"

"Fortunately, our race did not offend the human race too much previously. Even if the human race rises again, they will not kill us!"

"300th place? The human race is really stubborn. We all thought that they had no hope in the era of the Myriad Spirit Ranking. I didn't expect that in just a few hundred years, they would actually rush from the bottom to the top 300!"

"When will our Fire-Winged Insect Clan be able to rise in rank like the humans?!"

Most of the races hurriedly held a high-level meeting to discuss a change in strategy towards the human race. At the very least, they could not have the same attitude as before.

As for the four major races, the Devil Clan, the Spirit Clan, the Flame Clan, and the Demon Clan, they did not appear as nervous and uneasy as before. Instead, they deduced that the humans had exchanged for many beast pattern golden fruits in the palace world. They only sneered at this.

"Hmph, it's only in the top 300. Even if all the Immortal Venerables of the human race become Beast Spirit geniuses, they can't rush into the top 100. The higher the ranking, the harder it is to increase it. It doesn't just rely on the number of techniques, but also prodigies!"

“The value of the Beast Pattern Golden Fruit is the lowest. The human race can only exchange for such unpresentable things. Without top-notch beast spirit treasures, the human race is nothing to worry about.”

“We still have to be careful. No matter what, the increase in the number of Beast Spirit geniuses at the Immortal Venerable level will give them an advantage on the top level of the Heavenly Palace. In the future, if there are similar palace worlds, we have to be careful.”

“The prodigies are the most important. So what if there are many Immortal Venerables? Could it be that the human race still dares to let the Immortal Venerables take the lead?”

“That’s right. Even if we give them a hundred Beast Spirit geniuses, it will be difficult for them to catch up to our clan. This time, with a top-notch Beast Spirit Treasure, the strongest prodigy of our clan will undoubtedly increase in strength.. It’s not something humans can catch up to at all!”

Chapter 550: You Have to Have Some Dreams (2)

“That’S right. The ones we have to be careful of now are the special races. They’re the real threat. Don’t forget about the Beast Spirit Ranking.” Top-notch Beast Spirit Treasures and the supreme treasure made the four races understand one thing. In the Strange Beast Gate, prodigies were the future.

The Venerable Sovereigns of the various races even specially instructed the prodigies of their races, “There are still more than 300 years until the next Beast Spirit Ranking competition. You must seize the time to comprehend the concept of the strange beast and the power of the strange beast. If there’s a chance for Realm Sea Peak to comprehend it, use it as soon as possible.”

The disturbance in the Immortal Dao territory had nothing to do with Shen Ping. After taking out two Beast Pattern Golden Fruits and giving them to Venerable Sovereign, he received more than a hundred Taiyi Void Immortal Talismans. This was much more than trading with Immortal Venerable Qi and Immortal Venerable Yu in the palace world. Of course, the two of them had obviously given him other things to make up for it.

“Master, aren’t 100 immortal talismans a little too little?”

Shen Ping felt that it was too little.

Lian Xuejin said speechlessly, “These are immortal talismans. They’re different from ordinary spirit talismans in the lower realm, especially the Taiyi Void Immortal Talisman. Although it’s not troublesome to make, the materials are very precious. Having a hundred of them has already

emptied the accumulation of those Immortal Venerables. However, don't worry. The Venerable Sovereign said that due to time constraints, he can only give you a hundred temporarily. If you need them in the future, he will continue to give them."

Only then was Shen Ping satisfied. A hundred Taiyi Void Immortal Talismans were enough for a period of time. The gap between him and those prodigies would gradually shorten. After all, Yin Ting had said that in the Winged Race, Beast Spirit prodigies could cultivate in accelerated time. They could treat a year as a hundred years, and some were equivalent to a thousand years. "Disciple, how's your comprehension of the Beast Scripture?" After chatting for a while, Lian Xuejin asked what she was most concerned about.

Shen Ping did not hide anything. "I have already mastered the concept of the beast skin level. I believe that in another hundred years, I will be able to perfectly comprehend the concept of the beast skin and enter the beast bone level."

Lian Xuejin was stunned. "You've already mastered the concept of beast skin?" She knew that her disciple was a genius in the aspect of the Beast Scripture, but this was too fast. One had to know that this was true Beast Scripture. Under the circumstances of time acceleration, the prodigies of the various races could only make a small improvement in a certain level after comprehending for a thousand years.

"Good, very good. According to the situation on the Beast Spirit Ranking last time, those who comprehended the beast bone are basically in the top 10,000. Initially, I thought that after you broke through to the Body Integration realm, it would be very difficult for you to compete for the top 20 of the first level of the Heavenly Palace. From the looks of it, there's still hope for you, disciple!" Shen Ping said humbly, "There's still a huge gap between me and that Spirit Race prodigy who has reached the level of scales."

Lian Xuejin teased, "Why? From what you said, do you want to catch up to that prodigy in a short period of time?"

Shen Ping coughed a few times and said, "People have to have some dreams." Lian Xuejin couldn't help but laugh. "It's good to have dreams, but you can't bite off more than you can chew. The strongest prodigy of the Spirit Race has cultivated for many years, but you've only cultivated for hundreds of years. The last time Venerable Sovereign told you this news through me, it was mainly to let you know the difference and have a goal to catch up to."

"By the way, eight of the beast pattern golden fruits of the race this time were given to True Immortals and Heavenly Immortals. Three of them are said to have extremely high comprehension. They have also comprehended the Beast Scripture. Without the blood of the suppressed strange beasts, they have already comprehended the level of beast bones. Of course, they are not real beast bones, but beast bones from the derivative skills."

“Now that they’ve become Beast Spirit geniuses, their speed of comprehension will be even faster with the help of the strange beast blood in their bodies. You have to be careful not to be caught up by them.”

Shen Ping was shocked. He had used the blood of strange beasts before. Back then, among the restricted resources he had obtained in the True Treasure Pavilion, there was the blood of strange beasts. This thing was obtained from the suppressed strange beasts. Without the blood of strange beasts, forget about comprehending the Beast Scripture, it was extremely difficult to even comprehend the derived skill scroll.

These three immortal seniors were truly geniuses to be able to comprehend the beast bone level. They were much stronger than him, a fake genius who relied on the virtual interface.

However, he didn’t feel any pressure. On the contrary, the more geniuses there were in the clans, the happier he became. It was because this way, there would be someone to share the importance of the immortal dao higher-ups of the various clans.

He ended his communication with his master. He was not in a hurry to use the Taiyi Void Immortal Talisman to comprehend the Beast Scripture. In fact, even if he did, it would not be of much help to him. After all, he was relying on the comprehension of the strange beast obtained from his wife, Wang Yun’s black crown, to quickly comprehend it. Under normal circumstances, comprehending it would be very slow.

Therefore, even if he used an immortal talisman, he would use it to sort out his digestion and comprehension.

City Lord Manor.

The scenery here at the pavilion by the lake had not changed for a hundred years. In the center of the sparkling lake, there was only one pavilion that could admire the beautiful aurora on the lake. The fragrance of tea filled the air. Snowflakes gradually fell from the sky.

This was not the natural snow scenery in the western district of the Abyss of Supreme Darkness, but the four seasons evolved from the immortal formation that enveloped the City Lord Manor.

The Immortal Array was a high-grade Immortal Array obtained by trading with Immortal Venerable Qi and Immortal Venerable Yu. With this array, even the Golden Immortals of the lower realm would find it difficult to destroy it. Even though it basically consumed an immortal spirit stone every year to maintain it, Shen Ping still directly took out the Immortal Array because the Immortal Array had another function. That was to make the cultivation environment of the City Lord Manor like a true immortal residence.

His wife, concubines, and Dao companions would be in seclusion in such an environment. Their cultivation speed would be twice as fast. He did not work hard to cultivate to be an ascetic. If there were good things, he naturally had to enjoy them in advance.

“Husband, the information of An’er has already been investigated. It’s a cultivator from the Seven Butterfly Sound Valley. An’er is obsessed with the current sect master of their sect, so he often goes there. This sect is good at music cultivation and illusions.”

He listened to his wife. Shen Ping was a little stunned. "You're saying that our An'er has a sweetheart?"

Wang Yun nodded, but she said worriedly, "I'm afraid he's been bewitched. The True Treasure Pavilion is currently famous. The cultivators of the various sects want to enter the pavilion through their connections and obtain resources. This Seven Butterfly Sound Valley is no exception. Most of them are female cultivators. The sect has already been destroyed by the foreign races. They most likely want to use our True Treasure Pavilion to rebuild the sect."

Shen Ping said nonchalantly, "Since you have doubts, investigate." Wang Yun did not expect Shen Ping to be so supportive. She said in a low voice, "I'm prepared to interrogate the current sect master personally and get the Body Integration guest elder who's good at illusions in the pavilion to take action."

Shen Ping said casually, "You can make the decision on this matter. However, there's one thing you have to pay attention to. Don't be too extreme. After all, this is An'er's first time. Be careful not to backfire."

"Understood." Wang Yun's brows relaxed. With her husband's support, she did not have to worry.

This was a small matter to Shen Ping. However, not long after, his son actually personally brought the current sect of the Seven Butterfly Sound Valley to the City Lord Manor and brought it to him.

Shen Ping carefully sized up this sect master. Her appearance and figure were indeed excellent. She wore a purple face cloth and had a vague beauty. However, from the lines of her eyebrows and the outline of her figure, she should have cultivated a bewitching technique.

His son, Shen An, wanted to say something, but when he met Shen Ping's gaze, he did not dare to say anything. On the other hand, this sect master bowed and said, "Junior Mei Yue greets Pavilion Master Shen."

Shen Ping nodded and said calmly, "Why did you come to see me?" Although he had restrained his aura, his voice contained an inexplicable pressure. Under this pressure, the Sect Master of the Seven Butterfly Sound Valley seemed to have been completely seen through. She did not dare to hide anything and directly revealed her goal.

"Pavilion Master Shen, please save my master's life. My master was occupied by an Itinerant Immortal from the Penglai Immortal City. They promised to take care of my Seven Butterfly Sound Valley, but until the foreign race cultivators destroyed the sect, we did not see any help from the Penglai Immortal City."

Shen Ping could clearly feel the hatred in Mei Yue's words. "In that case, you deliberately approached my son, Shen An, so that I could save your master?"

"Yes!"

"What if I don't agree?"
