Chapter 561: Tai Hua Sect's Avoidance (1)

Although the two Itinerant Immortals were sneering, their actions were not slow at all. Not only did they activate their immortal artifacts, but they also occupied a position that coincided with the Three Tribulation Itinerant Immortal, rapidly increasing the power of the entire White Bone Demon Domain.

Shen Ping could clearly sense that the suppression and corrosion of his magic powers by the demonic aura had increased by more than ten times. He was not surprised by this. After all, no one was a fool when they cultivated to the Itinerant Immortal realm. They might be a little careless when facing a Mahayana Realm expert as this was their first time. However, after seeing him force a Three Tribulation Itinerant Immortal to seek help, they naturally could not underestimate him.

Although the power of the Demon Domain had increased, it was still difficult to penetrate his magical beast barrier.

“This junior is indeed something. The Demon Domain Field that the three of us superimposed can't even break through his avatar.” The strongest Five Tribulation Itinerant Immortal of the Myriad Bones Demon Sect narrowed his eyes, his pupils filled with seriousness. This was their territory. If it were the Itinerant Immortals of the Tai Hua Sect, they would also be affected, yet a Mahayana Realm junior was not affected at all. Just this alone was shocking.

Elder White Bones snorted. “He dares to appear in the hinterland of our sect. How can he not have some tricks up his sleeve?” He shouted in a low voice, “Junior, if word gets out that three Itinerant Immortals of my Myriad Bones Demon Sect dealt with you alone, you can be proud. Before you take action, I advise you to consider it carefully. I don't care what grudge you have with Tai Hua Sect, but it has nothing to do with my Myriad Bones Demon Sect. On account of the fact that you're a human genius, I'll cherish your talent and give you a chance to live. Otherwise, once you take action, you will definitely die without a burial place!”

Updated on B0XJN0VEL.COM

The other two Itinerant Immortals looked at Shen Ping. They knew that Elder White Bones was afraid and was giving the other party a way out. This was because such a prodigy definitely had a powerful master or background behind him. Otherwise, it was impossible for him to be so powerful. Ignoring everything else, just the magic treasure in the other party's hand was definitely an immortal artifact. How could a Mahayana Realm cultivator have such a powerful immortal artifact without any background?

Shen Ping looked at the three Itinerant Immortals, his eyes revealing a hint of excitement. “Cut the crap. Since I'm here, there's no reason for me to return empty-handed.”

When Elder White Bones heard this, his eyes instantly turned cold. “Very good. You're courting death. You can't blame anyone else! Attack, kill!”

Boom!! The three Itinerant Immortals attacked together. A monstrous demonic aura surged. Chains condensed again in an overwhelming manner, and they were even thicker than before. In the sky above the Demon Domain, three huge spears emitting blue flames descended from the sky and stabbed heavily at Shen Ping's location. In the surging demonic aura, they were densely covered with black insects that buzzed and swept over.

Shen Ping, who was in the center of the storm, acutely sensed that three powerful auras had locked onto him. He did not dare to be careless at all and directly activated his enhancement talent. The magical power of the strange beast in his body instantly soared to the early stage of the Tribulation Transcendence.

“Strange Beast Secret Technique—Spirit Transformation.” As he used the strange beast technique, the blood in his body immediately crazily absorbed the strange beast's magic power, causing the density of his bones and cells to quickly increase. His magic power increased again and he jumped to the middle stage of the Tribulation Transcendence.

He felt the vast Tribulation Transcendence magic powers in his body. He focused his eyes and poured his magic power into the surface of the Void Thunder Blade. Instantly, lightning flashed. He raised his hand and held the Void Thunder Blade tightly. Then, he teleported behind Elder White Bones and slashed down. “Die!”

Elder White Bones had been tense the entire time in order to guard against the other party's mystical escape technique. Even so, he did not expect the other party to silently appear behind him in his Demon Domain. Furthermore, there were three Itinerant Immortals' auras and divine senses locked onto him, as well as many methods to attack him.

Bang!

Even though he reacted quickly and condensed a demonic shield, the demonic shield shattered in the face of the Void Lightning Blade that had increased in power. The sharpness of the tearing destroyed Elder White Bones' body that was comparable to a spiritual ancient treasure. The lightning on the surface of the Void Lightning Blade shattered his soul the moment it left his body.

“No!” A miserable scream sounded, but it quickly stopped. The Three Tribulation Itinerant Immortal of the Myriad Bone Demon Sect, Elder White Bones, had died!

The other two Itinerant Immortals, who had missed, could not save him in time. They could only watch as Elder White Bones' body and soul were destroyed.

“Damn it, what kind of treasure is that? It can even easily shatter the soul!”

The two Itinerant Immortals stared intently at the lightning blade in Shen Ping's hand. The reason why it was difficult for Itinerant Immortals to die was that they had many life-preservation means, such as escape divine powers, immortal artifacts, talismans, puppets, and so on. On the other hand, it was because of their powerful souls. Even if their bodies were shattered, they could still rely on their souls to continue controlling their Dharma treasures. They could either escape or fight. Dharma treasures that could kill the soul were extremely rare. Most Itinerant Immortals had to be much stronger than the soul of another Itinerant Immortal to severely injure it.

And what did they see now? The lightning blade in the Mahayana Realm's hand had actually easily destroyed the soul of a Three Tribulation Itinerant Immortal. This was even more shocking than the sudden increase in the other party's magic power.

The two Itinerant Immortals felt fear. He had dharma treasures that could threaten their lives, coupled with the other party's elusive escape divine powers, so they clearly did not have the confidence to kill him, despite being stronger than Elder White Bones.

Swish, swish.

The surging demonic aura dissipated. The two Itinerant Immortals turned around and used their fastest escape divine powers to escape into the sky above the Catacombs..

Chapter 562: Tai Hua Sect's Avoidance (2)

"It's too late to escape now! Mountain River Plate, condense!" Shen Ping knew that Itinerant Immortals were extremely fast. Even if he could easily catch up with them by teleportation, he would not be able to do anything to them if the other party wanted to escape. This was because the other party could use the gaps he provided to escape extremely far. This was different from Tribulation Transcendence.

The Tribulation Transcendence was unable to detect his teleportation location, but Itinerant Immortals could sense it and react in advance.

Splash. As the immortal artifact, the Mountain and River Plate, was taken out, the area within a thousand miles was instantly enveloped by a world of mountains and rivers. The powerful immortal artifact pressure made all the disciples of the Myriad Bone Demon Sect terrified and uneasy.

Although the two Itinerant Immortals of the Demon Sect's escape techniques were not slow, they were not as fast as the immortal artifact's envelopment speed. In a few seconds, they were trapped by the Mountain and River Plate.

"Junior, don't think that we're afraid of you. If we really fight to the death, you'll die here even if you have a powerful dharma treasure!" The Five Tribulation Itinerant Immortal said coldly.

Updated on B0XN0VEL.COM

Shen Ping was unmoved. He teleported to the side of the Fourth Tribulation Itinerant Immortal, but the other party did not even resist and instantly dodged. Although the edge of the lightning blade still injured the Fourth Tribulation Itinerant Immortal, it was not fatal.

He used the same trick again and teleported repeatedly, continuously injuring the Four Tribulation Itinerant Immortal. He secretly controlled the Mountain and River Plate to shrink the area.

When the other Five Tribulation Itinerant Immortal saw this, he did not help the other party. Instead, he floated on the spot with demonic energy rising from his body. It seemed like he was using some powerful technique.

Dong, dong!

After severely injuring a Four Tribulation Itinerant Immortal, terrifying heartbeats suddenly sounded in the entire Mountain and River Plate. Every heartbeat could make space tremble.

But Shen Ping was not affected at all. He stared at the Fifth Tribulation Itinerant Immortal and frowned slightly. After thinking for a moment, he ignored the heavily injured Fourth Tribulation Itinerant Immortal and slashed at the Fifth Tribulation Itinerant Immortal with the Void Lightning Blade.

Boom!

What Shen Ping did not expect was that this void lightning blade that could easily kill a Third Tribulation Itinerant Immortal did not even shatter the demonic energy defense on the surface of a Fifth Tribulation Itinerant Immortal.

“Hahaha, junior, you’re finished. My Myriad Bone Demon Sect is a sect under the jurisdiction of the Demon Race. Naturally, I can contact the powerful seniors of the Demon Race.”

Shen Ping narrowed his eyes and came to a realization. No wonder he felt that the pressure of the demonic aura had increased a lot. It turned out that he was borrowing the power of the demons. “In that case, I’ll kill you first.”

Bang!

This Fourth Tribulation Itinerant Immortal knew that he could not survive. Before he died, he condensed the magic powers of an Itinerant Immortal that he had cultivated for hundreds of thousands of years into a single point. It produced a destructive power that caught Shen Ping off guard. Even though he had the Crimson Flame Blood Shield, he was still severely injured. His internal organs were torn apart, but his powerful Divine Demon Body allowed him to quickly recover.

Thump, thump, thump! His heartbeat became stronger and stronger. The surging demonic energy completely drowned the entire Mountain and River Plate world.

Shen Ping did not hesitate as he put away the Mountain and River Plate and teleported away. He would not foolishly stay where he was and continue fighting this fellow. Although he had not done his best to kill the two Itinerant Immortals of the Myriad Bones Demon Sect, he had already achieved his main goal.

A few dozen breaths later, a True Demon descended from the monstrous demonic energy. He looked at the place where Shen Ping had left and roared.

“Emissary, it’s my incompetence.” The Fifth Tribulation Itinerant Immortal hurriedly bowed and admitted his mistake.

The True Demon retracted his pressure and said coldly, “This matter is not your fault. This junior is indeed extraordinary to be able to kill two Itinerant Immortals with a Mahayana Realm cultivation. I’m afraid there’s an 80% chance that he’s the Beast Spirit genius of the human race. The lightning blade in his hand should be a high-grade Beast Spirit Treasure. Only such a treasure that snatches the creation of the world can easily destroy the soul of an Itinerant Immortal.”

The Five Tribulation Itinerant Immortal of the Myriad Bones Demon Sect were stunned for a moment before revealing a look of joy. “Emissary, this is a huge joyous occasion. If we can kill this Beast Spirit genius, it will be a heaven-defying contribution.”

The True Demon snorted and said, “The three powerful races of the Devil Clan, the Spirit Clan, and the Flame Clan sent Golden Immortals, Heavenly Immortals, and more than a thousand True Immortals. However, they were stopped by the Immortal Dao experts of the human race. Not to mention whether I can easily kill him, even if I can, as long as I appear in the Abyss of Supreme Darkness, I will be discovered by the Golden Immortals in the sea of stars. I’ll be the one to die then!”

The Five Tribulation Itinerant Immortal immediately cursed in his heart. So what if he could kill the Beast Spirit genius? However, he did not dare to say this.

The True Demon seemed to have guessed the Itinerant Immortal’s thoughts as he said coldly, “If we can really kill the other party before we die, it will be worth it. However, the other party has already become powerful. Just his escape technique is not simple, let alone the immortal artifact on him. As for the other means, I believe the higher-ups of the human race have bestowed them with some. It will definitely be difficult to kill him in a short period of time.”

The Fifth Tribulation Itinerant Immortal hurriedly said, “Emissary is right. We still need to consider this matter at length.”

The True Demon nodded. “In the near future, you have to be more peaceful here. Don’t cause any more trouble. Now that the various races are preparing for the Beast Spirit Ranking, they don’t have time to care about such trivial matters.”

“Yes!”

After the True Demon left, the Five Tribulation Itinerant Immortal took a deep breath with lingering fear. Fortunately, he could contact the Devil Race’s emissary. Otherwise, he would have ended up like the other two Itinerant Immortals. However, this emissary was really timid. He did not even dare to attack a Mahayana Realm expert..

Chapter 563: Tai Hua Sect’s Avoidance (3)

Luo Xia Peak.

Seeing that Shen Ping had returned safely, Fairy Luo Xia hurriedly asked, “Husband, are you alright?”

“I’m fine.” Shen Ping waved his hand. “I underestimated the Myriad Bones Demon Sect. Although I killed two Itinerant Immortals on this trip, the last one summoned a True Demon of the Demon Race. Fortunately, I escaped in advance. Otherwise, I would have died there.” Although he was confident, he knew that he was definitely not a match for a True Demon.

Yue Lingluo was taken aback. “You really killed an Itinerant Immortal?”

“Yes.” Shen Ping nodded and said casually, “If I fully unleash my present strength, I can probably kill Itinerant Immortals below the sixth tribulation. The three Itinerant Immortals of the Myriad Bone Demon Sect are not strong, and the immortal artifacts on them are ordinary.”

Updated on B0XN0VEL.COM

He made it sound easy. However, Yue Lingluo was inexplicably shocked when she heard that. They were Itinerant Immortals, and they were extremely difficult to deal with. Yet, two of them had been killed by her husband. If word got out, the entire Western District would probably be shocked. After digesting this news for a long time, she could not help but say, “Husband, you’re too amazing.”

Shen Ping smiled and said, “Of course. Next, arrange for someone to spread the news of the deaths of the two Itinerant Immortals of the Myriad Bones Demon Sect. If necessary, you can also reveal their famous treasures. I’ll give them to you later and leave them in the treasure vault of the True Treasure Pavilion.”

Yue Lingluo came back to her senses, “Husband, are you trying to intimidate the Tai Hua Sect?”

“That’s right. They will definitely think that it was my master who did it. I believe they won’t dare to do anything else for the time being. I’ll head to the Penglai Immortal City when I’m confident of destroying the remaining Itinerant Immortal of the Myriad Bones Demon Sect.”

There were still more than a hundred years before the Beast Spirit was about to open again. He had to prepare for the rankings.

In the main hall of Tai Hua Sect, Itinerant Immortal Hong Ling widened her eyes. “Is the news true?”

The Sect Master of the Tai Hua Sect nodded seriously. “The two Itinerant Immortals of the Myriad Bones Demon Sect had indeed died. Furthermore, the entire Demon Sect had caused a huge commotion back then. In addition, the treasure vault of the True Treasure Pavilion contained the famous immortal artifacts of the two Itinerant Immortals.”

Itinerant Immortal Hong Ling could not calm down for a long time. She thought that she was extraordinary, but she was only a Fourth Tribulation Itinerant Immortal. If they really fought, she could not even kill Elder White Bones of the Myriad Bones Demon Sect. This was because the Demon Sect was famous for being ruthless and difficult to deal with.

However, the True Treasure Pavilion had actually killed two Itinerant Immortals, including Elder White Bones. It was simply unbelievable. Didn’t that mean that if the other party made a move, he could even kill her?!

For the first time, she felt the power of the True Treasure Pavilion.

“Do you know who did it?”

“It’s rumored to be the Pavilion Master of the True Treasure Pavilion, but this is clearly impossible. It should be Fellow Daoist Xu behind him. He was only at the

Mahayana Realm hundreds of years ago. It's impossible for him to kill an Itinerant Immortal in such a short period of time!"

Sect Master Tai Hua was puzzled.

Itinerant Immortal Hong Ling shook her head. "It's most likely a treasure bestowed by that Heavenly Immortal senior. Send a message. Don't have any contact with the Demon Sect for the time being. Stabilize for a period of time. Restrain the disciples of the sects and the sects outside. Don't have any conflict with the True Treasure Pavilion."

"Yes!"

As the Tai Hua Sect retreated, the rumors about the True Treasure Pavilion were dispelled. Many cultivators attacked the Tai Hua Sect, but they only shouted a few words in the dark and did not dare to really insult them.

Time passed quietly. The cultivators gradually stopped paying attention to the matter of the female cultivators being plundered. The entire Western District returned to calm.

In the blink of an eye, a hundred years passed..

Chapter 564: Second Opening of the Beast Spirit Ranking

In the core territory of the Human Race's Immortal Dao.

Misty Peak.

The Venerable Sovereign swept his gaze across the Immortal Venerables sitting in the air below and had a rare smile on his face, "Everyone, hundreds of years have passed. The eight junior Beast Spirit geniuses of my clan's True Immortals and Heavenly Immortals have made good progress in comprehending the Beast Scripture. Among them, Lin Yu, Hui Chang, and Yan Xueyi have already comprehended the level of beast skin. This speed is not inferior to the prodigies of the Devil Clan and the Spirit Clan. If they are given enough time, they will definitely be able to catch up!"

As soon as he said this, Immortal Venerable Qi, Immortal Venerable Nanji, Immortal Venerable Bing, and more than ten other Immortal Venerables all revealed surprised expressions.

"To be able to reach this level in hundreds of years, it seems that the comprehension of these three juniors in the Beast Scripture is really shocking!" "That's right. Although it's a hundred times faster, this speed is indeed worth celebrating."

Updated on B0XN0VEL.COM

"Comprehending the Beast Scripture is extremely difficult. Every prodigy of the Devil Clan and the Spirit Clan has cultivated for hundreds of thousands of years. At this speed, there will definitely be a place for us humans in the top 20 of the Beast Spirit Ranking in the future!"

“For this Beast Spirit Ranking, they just need to familiarize themselves with the environment. Next time, they should be able to charge into the top 10,000!” “By the way, where’s Genius Shen? I wonder how his comprehension is?” An Immortal Venerable asked about Shen Ping. The smile on the human Venerable Sovereign’s face widened. “This little fellow had already reached the level of a beast bone a hundred years ago. Although his comprehension of the concept of the beast bone is very low, it’s not a problem for him to enter the top 10,000.”

As soon as he finished speaking, the Immortal Venerables were shocked again. They knew very well that Shen Ping from the Abyss of Supreme Darkness had not undergone time acceleration cultivation before this. Although he had later exchanged for a Taiyi Void Immortal Talisman, this kind of immortal talisman could only accelerate ten times. It was far inferior to a treasure that accelerated cultivation by a hundred or even a thousand times.

Therefore, to be honest, his comprehension speed was even faster than Lin Yu and the others.

“Our human race should prosper!” An Immortal Venerable smiled.

“It’s still too early to say that!”

“That’s right. The further one comprehends the Beast Scripture, the harder it becomes. Moreover, compared to the strongest prodigies of the Devil Clan the Spirit Clan, and even the Realm Clan, the difference is too great.”

“Either way, it’s something to celebrate.”

“It’s a pity that my race didn’t obtain the Beast Blood Heavenly Spirit Liquid when the Realm Sea Peak palace appeared last time. Otherwise, the three of them would have comprehended it faster.”

The smiles on Immortal Venerable Qi and Immortal Venerable Yu’s faces weakened a little. The two of them knew that an Immortal Venerable was definitely going to take advantage of this to talk about the spirit liquid.

Indeed, Immortal Venerable Huo, who was beside Immortal Venerable Yao said, “Venerable Sovereign, the Beast Blood Heavenly Spirit Liquid is very ’ important. It’s said that almost all the prodigies of the Devil Clan and Spirit Clan who consumed the Beast Blood Heavenly Spirit Liquid this time have comprehended and broken through a level. It has to be known that they are above the realm of beast bones. A small increase in level is undoubtedly very effective. If my clan’s Lin Yu and the others can also use the Beast Blood Heavenly Spirit Liquid, they will definitely be able to enter the top 10,000 on the Beast Spirit Ranking next time!

“That Shen Ping should have beast blood spirit liquid on him. The last time he proposed a deal, the other party did not agree. But now that Lin Yu and the other two have progressed so quickly, we should naturally propose a deal with him again. At most, we can give him more Taiyi Void Immortal Talismans.” After Immortal Venerable Huo finished speaking, there were other Immortal Venerables who agreed

and echoed, "The Beast Blood Heavenly Spirit Liquid is very important. One bottle is very powerful. If he's willing to trade for two or three bottles, it will be extremely helpful to our race's next Beast Spirit Ranking."

Immortal Venerable Bing, Immortal Venerable Yue, Immortal Venerable Nanji and the other Immortal Venerables did not say anything, but they looked 'tempted.

Immortal Venerable Yu could not help but say, "Fellow Daoist Huo, when a bottle of Beast Blood Heavenly Spirit Liquid is born in the palace, it needs millions of strange stones to exchange for it. Even if Shen Ping has it, he can't exceed three bottles. He doesn't even have enough himself. How can he take it out to trade with the race?"

Immortal Venerable Huo said calmly, "There should be a bottle left, right?" "Hmph. Even if there is, Shen Ping risked his life to exchange for it. Since he doesn't intend to trade, we shouldn't have any ideas about the beast blood spirit liquid. The Devil Clan and Spirit Clan also have it. If Fellow Daoist Huo has the ability, you can trade with them." Immortal Venerable Qi's tone was slightly cold.

Immortal Venerable Nanji smiled and said, "Fellow Daoist Huo is also thinking about the race. However, what Fellow Daoist Qi said is not unreasonable. Shen Ping's comprehension is not low. It's all thanks to him that our race has a junior who can become a Beast Spirit genius. Therefore, we have to consider this matter at length. The most important thing now is the Beast Spirit Ranking that is about to open."

Seeing the Immortal Venerable Nanji come out to smooth things over, the other Immortal Venerables did not speak anymore. When the human Venerable Sovereign saw this scene, he could not say anything. After all, he knew that the Immortal Venerable's words were not for his own benefit.

Under the towering green tree of the Spirit Race, all the Beast Spirit geniuses gathered together and looked at the towering figure before them with reverence and worship.

"Although your rankings on the Beast Spirit Ranking were higher than the other races previously, you did not even occupy half of the top 100. This made me very disappointed. The second Beast Spirit Ranking is about to open in two years, whether our Spiritual Race can shine above the myriad races will depend on you!"

"Yes, Venerable Sovereign."

A moment later in the palace far away from the ancient tree, the Venerable Sovereign looked at the strongest prodigy of the clan, Ling Hao, his eyes filled with gentleness. "Disciple, how's your comprehension of the scale level?"

"It's 30%." Ling Hao replied respectfully, "I have the confidence to pass through the seventh wooden house valley."

The Venerable Sovereign asked again, "What form of the top-notch beast spirit treasure have you mastered?"

"The second form.."

Chapter 565: Second Opening of the Beast Spirit Ranking

(2)

“The power of the form of a top-notch Beast Spirit Treasure is quite difficult. I’m currently in the third form and haven’t even grasped the prototype.”

The Venerable Sovereign nodded. “The power of a top-notch Beast Spirit Treasure is second only to a supreme treasure. It’s stronger than all immortal artifacts. It’s not easy for you to master the second form. With this, you should be able to easily pass through the seventh wooden house valley. However, it’s still a little difficult to reach the top.

“The two strongest geniuses of the Realm Clan and the Stone Clan also have top-notch beast spirit treasures. In the end, you comprehended the scale armor later than them.”

Ling Hao clenched his fists. “I’ll do my best.” He knew the Venerable Sovereign’s expectations of him. If the Spirit Race wanted to be as powerful as the human race back then, they had to be dazzling in all aspects. The Beast Spirit Ranking was undoubtedly important. If they kept ascending to the top, it would be difficult for the Spirit Race to subdue all the races.

Updated on BOXNOVEL.COM

At the same time, the upper echelons of the Immortal Dao, such as the Devil Clan, the Flame Clan, and the Demon Clan, were encouraging the Beast Spirit geniuses in the clan. The appearance of the palace made these upper echelons realize that there was a huge connection between the Realm Sea Peak and the Beast Spirit Ranking, and the ranking of the Beast Spirit Ranking was clearly even more important.

It was the same for the Wingeds’ higher-ups.

The last time the palace appeared, the Devil Clan, the Spirit Race, and the other races ostracized the Winged Race. This made the Venerable Sovereign realize the danger. He knew that if the human race completely declined, the next target of the four races would definitely be the Winged Race. Therefore, during this period of time, he began to interact with the Venerable Sovereigns of the human race, the Dragon Race, and the Phoenix Race. He planned to secretly form an alliance to deal with the Devil Clan and the Spirit Race.

“It’s a pity that the talents of our Winged Clan are ultimately inferior to the humans, the Devil Clan, the Spirit Clan, and other powerful clans. Otherwise, why would our Winged Clan be willing to be neutral?”

Looking at the beast spirit geniuses of the Winged Race below, the Venerable Sovereign sighed in his heart. Back then, when the human race was prosperous, the Winged Race could only become its vassal. Now, in the era of the Myriad Spirit Ranking, although the Winged Race could become one of the top ten races, it was purely because of the legacy of the human race.

“In this Beast Spirit Ranking competition, as long as you can enter the top 100, you can cultivate in my palace. As for the top 10,000, other than the normal treatment of prodigies, you can obtain the resources of the race in the main clan!”

The words of the Venerable Sovereign excited the group of Beast Spirit geniuses.

After leaving the hall, Yin Ting’s master could not help but exclaim in joy, “Disciple, during this period of time, you’ve already comprehended the level of beast bones’ hooves and claws. Your conception has also improved greatly compared to before. Furthermore, with the high-grade Beast Spirit Treasure in hand, you’ll definitely be able to enter the top ten thousand in this Beast Spirit Ranking. At that time, I’ll be able to benefit from your blessings and obtain the resources of the race to nurture!”

Yin Ting nodded. “I will do my best.”

Most of the Beast Spirit geniuses under her master’s jurisdiction were at the level of Yin Yan. They were neither high nor low. Last time, they did not make it into the top 10,000. It was precisely because of this that her master had always advised her to befriend Shen Ping back then, and even...

“Let me know if you need anything.” Her master smiled and said, “When you enter the top ten thousand this time, I can apply for a hundred times faster time cultivation for you again.”

Yin Ting said softly, “Master, I’m preparing to go to the Strange Beast Gate in the next two years to familiarize myself with the power of the form of a high-level beast spirit treasure. I’ll ask Master to take care of my clan.” Her clan was only a very weak faction of the Winged Race. If not for her, there would not be a Mahayana Realm expert in her clan until now.

“Don’t worry, I’ll take care of it for you. By the way, your clan sister Yin Yan’s bloodline talent is not weak. If you can take care of her, you have to try your best.”

Yin Ting expressionlessly replied, “I understand, Master.”

After she left, Yin Yan appeared not far behind her master.

“Master, the main reason why Sister can improve so quickly is because of that human Beast Spirit genius, high-level Beast Spirit Treasures, Beast Blood Heavenly Spirit Liquid, and Beast Spirit Pills. If I can obtain these resources, I will definitely be more outstanding than her.” Yin Yan gritted her teeth unwillingly.

Her master shook her head, “Since you know the reason, why didn’t you build a relationship with that human Beast Spirit genius? With your attainments in the charm technique, it should be easy. Many ordinary genius cultivators in the clan have been played by you. If you can subdue the human Beast Spirit genius, those resources will be yours.”

Compared to Yin Ting, she thought more highly of Yin Yan. Although Yin Yan couldn’t compare to Yin Ting in terms of talent and appearance, in her eyes, as a Winged female cultivator, the most important thing wasn’t talent, but methods to control males.

For example, Yin Ting’s current achievements were all because of this method. If she could be more charming and unrestrained, she would have gained more.

“There are too few opportunities. Every time I meet that human Beast Spirit genius, my clan sister will always disturb me. Hmph, she’s afraid that I’ll seduce her sweetheart.” Yin Yan clenched her fists and said, “Don’t worry, Master. I’ll definitely succeed.”

There was still half a year before the Beast Spirit Ranking opened.

In the quiet room of the City Lord Manor of Gray Stone City, Shen Ping slowly opened his eyes. There was still the luster of an inexplicable strange beast pattern in his eyes. After calming down and retracting his thoughts, he stood up and walked out of the quiet room.

He opened the virtual interface. He looked at the Beast Spirit Concept column of the black crown.

[Beast Spirit Concept: Beast Form (Full), Beast Skin (Full), Beast Bone (50%)]

He could not help but sigh. After comprehending and digesting from the sex for more than a hundred years, he still hadn’t completely comprehended the concept of the beast bone. Although he had completely comprehended the entire beast bone in terms of the Beast Scripture, the concept was the key.

He put away the virtual interface.

Shen Ping took out the top-notch Beast Spirit Treasure, the Primordial Chaos Spear. He stretched out his hand and touched the spear. He could feel the strange beast fluctuations in the depths of the spear. In this Beast Spirit Ranking competition, he was unable to unleash the power of this top-notch Beast Spirit Treasure. However, it was not that he did not gain anything from reaching 50% of the beast bone. At the very least, he could barely unleash the prototype of its power.

Compared to the third form of the high-grade beast spirit treasure silk blade, the Void Thunder Blade, the power of the first form of the Primordial Spear was far superior.

In other words, if he used the Primordial Chaos Spear to deal with the three Itinerant Immortals of the Myriad Bone Demon Sect, he would not have to fear the True Demon summoned by the other party. Furthermore, the Primordial Chaos Spear could easily pierce through the other party’s summoning state.

“This kind of treasure is really special!” He could not help but sigh. Clearly, the quality and power of the Primordial Chaos Spear had probably exceeded that of a high-grade immortal artifact. If it was an ordinary cultivator, even a True Immortal or Heavenly Immortal would find it difficult to use a high-grade immortal artifact. However, they only needed to comprehend the beast bone level to unleash its form and power.

Swish, swish. He waved it gently two or three times. The spearhead easily pierced through space, producing obvious spatial cracks. He came to the pavilion by the lake. He had already put away the Primordial Chaos Spear.

“Husband.” Bai Yuying was the only one in the pavilion. The other Dao companions were not around.

After sitting down, he took a sip of the spiritual tea that Bai Yuying had poured and asked casually, “Yan’er, where are Qing’er and the others?”

Ever since his wife, concubine, and Dao companions broke through to the Divine Transformation realm and gave birth to his bloodline, they were not as diligent in their cultivation as before. Most of the time, they were teaching and nurturing their children. However, the breakthrough to the Divine Transformation realm was indeed hundreds or thousands of years. His wife, concubine, and Dao companions would naturally be much more free.

“They went to Colorful Flower Valley. The Heavenly Lotus Sect and the three sects near Gray Stone City are preparing to hold a true disciple competition. It’s quite lively. Many Void Refinement and Body Integration will be present to watch the ceremony. Sister Yu Yan and Luo Qing have all been invited.” Bai Yuying smiled.

Shen Ping was enlightened. “Ying’er, why didn’t you go?”

Bai Yuying snorted. “Of course I want to accompany you. Who asked you to be with Sister Yun’er all these years and not touch us?”

Shen Ping coughed a few times and hugged Bai Yuying. He comforted her. “It’s my fault. I’ll let you suffer tonight.”

He had no choice. If he wanted to comprehend the Beast Scripture faster, he indeed had to spend a lot of time with his wife. It was inevitable that he would neglect his other concubines. Of course, he knew that Bai Yuying was only complaining.

Bai Yuying immediately covered her mouth and laughed. “Husband, Ying’er was just joking. The reason why I didn’t go is mainly because my children will be returning from various places in the next few days. Coincidentally, I’ll bring them to the Heavenly Lotus Sect..”

Chapter 566: Powerful Life-Saving Treasure (1)

Compared to himself, his wife and Dao companions had made a lot of friends over the years. They knew most of the Divine Transformation and Void Refinement Realm experts in the western district of the Abyss of Supreme Darkness, other than the Heavenly Lotus Sect, the Cloud Sword Sect, which often went to Sword Seal City, and the Guyue Sect.

Regarding this, Shen Ping did not think that they were abandoning their cultivation. Instead, he was happy to praise them. After all, he had worked hard to cultivate and increase his strength. Wasn’t it to let him and his wife and Dao companions live a carefree life?

“Disciple,” Just as he was about to whisper to Bai Yuying, Lian Xuejin’s gentle voice came from the dazzling crystal.

He hurriedly said, “Master.”

“The second palace of the Strange Beast Gate has appeared.”

“What?” Shen Ping stood up and said in surprise, “The second one? The Beast Spirit Ranking competition is about to begin. Why would the Realm Sea Peak open at this critical point?”

Lian Xuejin said in a solemn tone, “It’s obvious that the appearance of the palace this time is related to the competition for the Beast Spirit Ranking. Venerable Sovereigns and the upper echelons of the Immortal Dao have made this deduction. Quickly enter the Strange Beast Gate.”

“Yes!” The exchange ended. Shen Ping looked at Bai Yuying. “Ying’er, I have to enter the Strange Beast Gate. When Yun’er and the others come back, tell them.”

Bai Yuying nodded. “I understand, husband.”

He returned to the quiet room. He set up the Immortal Array and calmed his mind. He activated the Dharmic formulation and sensed the Strange Beast Gate before stepping in. As soon as he appeared on the first level of the Heavenly Palace, he saw a large number of Beast Spirit geniuses floating in front of Realm Sea Peak.

The light barrier outside Realm Sea Peak had already disappeared. A towering palace was floating out from the depths. Its speed was much faster than the first time the palace appeared.

Boom!

He only waited for five days before the palace was completely born. Bursts of seven-colored light spread and quickly sucked in all the Beast Spirit geniuses. It was still the same hall.

The difference was that the pressure emanating from this palace was even stronger. Every Beast Spirit genius quickly sensed that their powers were restricted and suppressed, unable to be used at all.

Shen Ping swept his gaze. When he saw Immortal Venerable Qi and Immortal Venerable Yu, he hurriedly went to them. “Senior Qi. Senior Yu.” After he bowed, he discovered the other Immortal Venerables and eight young men and women beside the two Immortal Venerables.

Immortal Venerable Qi smiled and introduced, “Shen Ping, these are the other Immortal Venerables of our race, Immortal Venerable Yao, Immortal Venerable Yue... The remaining eight are Heavenly Immortal and True Immortal Beast Spirit geniuses of our human race this time. I believe your master has already told you.”

Shen Ping was enlightened. He hurriedly bowed to the Immortal Venerables and the eight Heavenly Immortals.

Immortal Venerable Yao had a delicate and dignified appearance. She smiled and said, “Shen Ping, us Immortal Venerables have talked about you a lot. It’s your contribution that our human race can be where we are today. Moreover, the reason why the other Immortal Venerables and I can become beast spirit geniuses is also because of the beast pattern golden fruit you provided.”

Shen Ping said humbly, “This is what I should do for the race.”

Immortal Venerable Bing, who was more than three meters tall, smiled and said, “Looks like Shen Ping is still very sensible. The other Immortal Venerables laughed. Lin Yu, Hui Chang, and the other

eight Immortal Beast Spirit geniuses also smiled. They were still very curious about Shen Ping, but because of this environment, they could not say anything.

“Seniors, what exactly happened this time?”

He had heard from his master that the appearance of the Realm Sea Peak Palace should be for the purpose of nurturing Beast Spirit geniuses. In other words, it was very likely that the situation had changed after the Beast Spirit Ranking.

Immortal Venerable Qi shook his head. “At the moment, we don’t know the exact reason. The only ones who know much about Realm Sea Peak are those special races.”

Immortal Venerable Yu said, “It’s most likely related to the Beast Spirit Ranking. Wait patiently.”

Several days passed before an old voice sounded. “Fellow Beast Spirits, I didn’t expect to meet you again so soon.” It was actually that senior artifact spirit. His face was blurry, but it was a little clearer than last time. He could sense that the other party was smiling.

“Senior, do you still want us to dig up strange stones when the palace appears this time?” A Beast Spirit genius asked.

The black-robed Artifact Spirit laughed, “Of course not. Originally, you shouldn’t have met me so quickly. However, due to some unforeseen circumstances, I appeared in advance. Alright, I believe you will know about these things in the future. Beast Spirits, if you want to enter this palace, you have to enter the top 10,000 of the Beast Spirit Ranking. There’s still some time before the Beast Spirit Ranking opens. Go back and continue cultivating.”

With that, its figure slowly dissipated. All the Beast Spirit geniuses looked at each other. But before they could come back to their senses, they were blasted out of the palace by a repulsive force.

Many Immortal Venerables gathered under the ancient green tree of the Spirit Race.

“Venerable Sovereign, time can’t be delayed. This time, the Realm Sea Peak palace suddenly appeared. According to that artifact spirit, there was an unforeseen event. However, no matter what the unforeseen event was, since the other party said that only the Beast Spirit genius in the top 10,000 is qualified, then it is clear that the resources this time will definitely be more precious than last time!”

“That’s right. Last time, our clan obtained a supreme treasure, causing our clan’s foundation to increase greatly. If we can obtain another one, our foundation will completely surpass the other clans and become the true number one of the myriad clans!”

“I suggest that we immediately use 10,000 acceleration times and let all the Beast Spirit geniuses enter to comprehend. There are still a few months left. Those who are close to the top 10,000 should have a chance to rush in.”

“10,000 times acceleration... This consumes a lot of energy!”

Chapter 567: Powerful Life-Saving Treasure (2)

“In this situation, how can I care so much?!”

Listening to the discussion of the Immortal Venerables, the Spirit Race’s Venerable Sovereign frowned. They could use the special resources in the clan vault for the thousand times time acceleration, but ten thousand times time acceleration had to be activated by him personally. It consumed a lot of energy and the price was very high, but this concerned the Realm Sea Peak Palace. “Immediately send a message to all the Beast Spirit geniuses.”

“Yes, Venerable Sovereign!”

Almost at the same time, the Flame Clan, the Devil Clan, the Winged Clan, the Dragon Clan, the Phoenix Clan, and the other clans began to let the Beast Spirit geniuses in their clans enter time acceleration to comprehend the strange beasts.

It was the same for humans.

“Unfortunately, Shen Ping is still in the lower realm. I can’t let him accelerate time for ten thousand times to comprehend the Beast Scripture!”

“There’s nothing we can do about that. The Devil Clan, the Spirit Clan, and the other Venerable Sovereigns are all watching. Once there’s a big commotion on our side, it will definitely attract attention. At that time, if we’re not careful, that Shen Ping will be in danger of dying.”

“Fortunately, that little fellow’s comprehension isn’t low, and he’ll definitely be able to charge into the top 10,000 this time. So the urgent matter at hand is to allow Lin Yu and the others to comprehend it as soon as possible.”

“Venerable Sovereign, if they have the Beast Blood Heavenly Spirit Liquid, they will have a higher chance of success in ten thousand times time acceleration.”

An Immortal Venerable suggested.

Immortal Venerable Qi and Immortal Venerable Yu looked at each other and did not say anything else. After all, this was an urgent matter. Even if they took care of Shen Ping, it was not appropriate for them to speak up for him at this critical moment.

The human Venerable Sovereign nodded. “I’ll tell his master personally.”

City Lord Manor.

After leaving the Strange Beast Gate, he did not walk out of the quiet room, instead, he thought about what the artifact spirit had said. The first time, there was no restriction on any Beast Spirit geniuses, but this time, only the top 10,000 were qualified. It was obvious that be it this time or in the future, the Realm Sea Peak’s true goal was to nurture powerful Beast Spirit geniuses, so 10,000 was only a threshold.

Moreover, he had a feeling that after this palace, the difference between the top 10,000 and the Beast Spirit geniuses after 10,000 would probably completely disappear.

“The various races should take advantage of the remaining time to do their best to nurture Beast Spirit geniuses. I’ve already comprehended the beast bone in the Beast Scripture and have reached 50% of the beast bone concept. Coupled with enhancement, teleportation, and divine powers, I would definitely be in the top 10,000. However, just being in the top 10,000 is not enough. I have to do my best to rush forward.” Shen Ping pondered. Since there was a ranking, some things in the palace might be related to the ranking.

“Disciple,”

“Master.”

Lian Xuejin’s voice was slightly hesitant. “Do you still have beast blood heavenly spirit liquid on you?”

When Shen Ping heard this, he instantly understood. He could not help but sigh in his heart. In fact, if it was him, he would also do the same. This was because compared to the race, his personal interests were really nothing. Moreover, he was very likely to be in the top 10,000. Under such circumstances, the race would definitely consider other Beast Spirit geniuses.

“Yes.”

He did not want to lie to his master against his conscience.

Lian Xuejin sighed and said, “Venerable Sovereign personally appeared and chatted with me for a long time. This time, the appearance of the palace requires a ranking, and the Immortal Venerables can’t enter the palace. Everything depends on you. Therefore, if the other eight can enter together, it will be helpful to you and the human race.

“I know that you’ve already done a lot for the race. Logically speaking, I shouldn’t let you take the beast blood heavenly spirit liquid anymore. However, this time is extremely important. Even if Venerable Sovereign doesn’t appear, I’ll still persuade you. If you go in alone, it’ll be difficult for you to do it alone.” Shen Ping was silent for a while. He knew that his master was right. The last time the palace appeared, if not for the protection of the two Immortal Venerable seniors, he would not even have the qualifications to enter the palace to exchange for it. He would even have been destroyed by the Immortal Venerables of the other races in the main hall.

But to be honest, he was very unwilling. There was very little beast blood heavenly spirit liquid to begin with. Although he didn’t need it himself, he still had to give it to Yin Ting and his children.

“Master, I’m afraid the competition for the Beast Spirit Ranking this time will be incomparably intense. Even with the comprehension of the beast bone level, it’s very difficult to enter the top 10,000!”

Lian Xuejin continued, “Disciple, out of the eight Heavenly Immortals and True immortals Beast Spirit geniuses, three of them have extremely outstanding comprehension. If they have the Beast Blood Heavenly Spirit Liquid, it’s possible for them to comprehend the beast bone level under ten

thousand times the acceleration of time. Venerable Sovereign said that the race owes you a favor this time.”

Shen Ping shook his head. He had already said so much. If he didn’t take it, how could he establish himself in the human race in the future? “Master, I can give the race three bottles, but I have a request.”

“What request? Tell me.” “Master you know what I care about the most. Wang Yun and Yu Yan’s spiritual root talent and aptitude are average. Their cultivation levels can’t keep up with mine. If there’s a crisis and I don’t have time to take care of myself, I hope they can be absolutely safe.”

“Alright, I’ll contact the Venerable Sovereign.”

He waited for a while. Lian Xuejin’s voice sounded again, “Venerable Sovereign has a treasure in his hand. It’s called the Soul Heavenly Pearl. It was obtained from the palace of the Realm Sea Peak and is extremely precious. It can preserve the blood essence and divine sense memories of cultivators. If one dies, they can rely on this blood essence and divine sense to be reborn. At most, they can preserve twenty of them. Moreover, their cultivation cannot exceed the Golden Immortal realm.”

Shen Ping’s eyes lit up. With such a treasure, he did not have to worry about anything happening to his wife, concubine, and Dao companions. “Master, I’m willing to trade.”

A few days later, he looked at the azure pearl in his hand and revealed a happy expression. He had really profited greatly from this transaction. Although the Soul Heavenly Pearl had a cultivation limit, it was definitely a precious life-saving item. It was almost equivalent to a second life.

“There are really many treasures in the palace in the Realm Sea Peak. There’s actually such a treasure that can be said to be seizing good fortune. If not for the fact that the Beast Spirit Ranking is the key to the competition, I’m afraid Venerable Sovereign wouldn’t have used this treasure to trade with me!” The three bottles of beast blood heavenly spirit liquid were indeed precious, but no matter how precious they were, they were only resources and consumables. They were far inferior to the Soul Heavenly Pearl.

in the following days, he took advantage of the time when he was having sex with his wife and Dao Companions to preserve their blood essence and divine sense in the Soul Heavenly Pearl. As for his children, he had no choice but to think about it in the future.

Time passed day by day. To most cultivators, half a year passed in the blink of an eye. However, to the Devil Clan, Spirit Clan, Flame Clan, and other Beast Spirit geniuses, thousands of years had passed.

In a remote area on the third floor of the underground palace in the Gate of the Strange Beast, Shen Ping saw Yin Ting again. She was still wearing that purple-green soft armor. Her golden body also had white wings, especially the inverted triangular area. The shape inside was fascinating. Even though he had admired it many times, his blood would boil every time he saw it.

He first admired the white feathers. Only then did the two of them talk about serious matters.

“I’ve already reached 40% of the concept on the beast bone level, and I’ve completely comprehended the might of the strange beast. According to Master, more than 50,000 people have comprehended the beast bone level this time, especially the Spirit Race. There are more than 5,000 beast spirit geniuses at the horn level of the beast bone, and they’ve basically comprehended 10 to 20% of the concept. However, comprehending the beast bone level is indeed difficult I was able to make such progress because of the beast blood heavenly spirit liquid you gave me. Other geniuses don’t have it.” Yin Ting smiled and said, “According to Master, I will definitely be able to enter the top ten thousand this time.”

Shen Ping held Yin Ting’s slender waist. “That’s good. When the time comes, we can enter the palace together.”

Boom! At this moment, a vortex appeared in the sky. The Beast Spirit Ranking officially opened for the second time.

Yin Ting hurriedly urged, “Hurry up and go back.”

Shen Ping nodded and immediately returned to the first level of the Heavenly Palace. The last time the Beast Spirit Ranking opened, he was still in the third level of the underground palace. This time, after entering the vortex, he came to the White Jade Square of the Beast Spirit Ranking. Compared to the number of Beast Spirit geniuses in the third level of the underground palace, there were more in the first level of the Heavenly Palace.

Most of the Beast Spirit geniuses were basically in the first three levels of the Heavenly Palace. The prodigies of the various races were divided into the second and third levels. The number of Beast Spirit geniuses above the fourth level of the Heavenly Palace decreased drastically.

He listened to the various voices in his ears. His gaze swept across the huge Beast Spirit Ranking. The divine runes on it were displaying the countdown. “Last time, I stopped at the sixth stone house grassland. I wonder how many wooden houses I can reach this time..”

Chapter 568: Change in Attitude (1)

The moment the countdown on the immortal seal divine runes ended, the huge rankings emitted light and completely enveloped all the Beast Spirit geniuses. The noise in Shen Ping’s ears instantly disappeared, and his vision was drowned by light. When he recovered, he was already in a stone house covered in moss.

He felt the restraint of his dantian. He could not help but take a deep breath. Immediately, a rich strange beast energy spread and enveloped his body.

“Mm? This is the first one?”

Although such a strange beast’s energy was more abundant than the first level of the Heavenly Palace, it was clearly not the sixth or seventh level. This made his eyes reveal some surprise. He

originally thought that the second ranking would continue like last time, but now it seemed that he had to start from the beginning.

He pushed open the stone door. There were a large number of bovine-like creatures on the vast green grassland. In the distance, there were layers of darkness, but the environment had not changed.

Shen Ping lowered his head and looked at his arm. Indeed, the ranking of the immortal seal divine runes on it had been reset.

Rumble-

At this moment, these bovine-like creatures were like sharks that had smelled blood. They rushed towards the stone door crazily, and their speed was much faster than the first time. He looked enlightened. "The difficulty of clearing the rankings has increased."

As the Reckless Bull creature was inches away, he suppressed the distracting thoughts in his mind and a high-grade beast spirit treasure silk blade appeared in his palm. Then, he used the Void Thunder Blade. In the blink of an eye, the silk blade shattered into a large number of small silk blades that gathered into a lightning blade surrounded by lightning.

He held the lightning blade in his hand as he charged straight at the wild bull-like creature. The first time he rushed to the rankings, he used Falling Rain. This time, be it his comprehension of the Beast Scripture or the power of the Beast Spirit Treasure form, they had all increased greatly. Naturally, he did not need to attack from afar.

Puff, puff, puff!

The strength of the barbaric bull-like creature in the first stone house grassland was not high. Under the attack of the lightning blade, it was as brittle as paper. Basically, he swept through a large area in less than five minutes. Although this speed could not compare to Falling Rain, Shen Ping was extremely excited to fight at close range.

Then came the second one.

The third one...

Even the sixth house's Reckless Bull-like creatures that had reached the Void Refinement Realm found it difficult to approach the terrifying lightning blade.

Standing in the stone house, Shen Ping looked at the immortal seal divine runes on his arm. The rankings were displayed.

[Total ranking: 15,642]

[Heavenly Palace's first level ranking: 457]

He did not show any surprise on his face. The last time he passed through the sixth stone house grassland, he had directly rushed into the 10,000th circle. After 500 years, coupled with the appearance of the palace, the improvement of the other Beast Spirit geniuses was also not small.

He looked away. He resolutely stepped into the purple door.

Whoosh. As soon as he appeared in the seventh stone house, the surging energy of the strange beast pounced on him. It was several times richer than the sixth stone house. In just half a breath, it could fill the magical power of the Nascent Soul strange beast in his body.

He walked out of the stone house. The ground trembled. The barbaric bull-like creature in the distance only took two breaths to cross in front of him. Its speed could be said to have soared, and its aura fluctuation had reached the Perfected Void Refinement Realm.

Shen Ping did not overestimate himself and immediately activated his Strange Beast Talent, Enhancement.

In an instant, his magic powers at the early-stage Nascent Soul realm increased to the mid-stage Divine Transformation realm. Then, he used the Strange Beast Secret Technique, Spirit Transformation, allowing his magic powers to reach the late-stage Divine Transformation realm.

Puff! Puff! Puff!

The soaring magic powers increased the power of the Void Lightning Blade, and the power of the third form was still very fast even when killing the seventh house's barbaric bull creatures.

However, he had to be on high alert at all times in such a close combat. Be it his divine sense or reaction speed, they had to be extremely precise. Otherwise, if he was just a little off, he would be blasted by the barbaric bull-like creature. Even if he had a protective beast spirit treasure, he would be severely injured and affect his combat strength.

It took twenty minutes to kill more than ten thousand bull-like creatures at the Perfected Void Refinement Realm. It was relatively difficult at first, but as the number of bull-like creatures decreased on a large scale, he became at ease. The reason why it took so long was mainly because Shen Ping was training for his killing experience.

After passing through the seventh stone house grassland, he looked at the divine runes of the Immortal Seal Scripture again. As expected, he had already rushed to more than 8,000 in overall ranking, but he did not enter the top 100 in the division ranking. This made him sigh with emotion that the first level of the Heavenly Palace was really impressive.

He kept going. He stepped through the purple door. The scene in front of Shen Ping suddenly changed. The surroundings were no longer mottled green stone walls, but special wood. He could even smell wood. There was a small wooden window on the left side of the door. Through the wooden window, he could see the endless mountain range outside.

"The Wooden House Valley! It's said that the difficulty of the first wooden house valley is the sum of the previous seven stone house valleys. In the first Beast Spirit Ranking, those who can pass through the wooden house valley are basically the prodigies of various races. There are less than 3,000 of them."

He narrowed his eyes. If he wanted to pass the seventh stone house grassland this time, he had to comprehend the level of the single horn of the beast bone. Moreover, he had to comprehend a trace of the beast bone concept.

He adjusted his state. He pushed open the wooden door. The air was soon filled with a fishy smell. In the valleys that led to the depths of his vision, densely packed giant scorpion-like creatures were

surging towards the wooden house. These giant scorpions were about two meters tall. Their shells had strange beast scale patterns. Shen Ping could vaguely sense a strange beast concept from them.

Kill!

They charged straight at him. He held the huge lightning blade and ruthlessly slashed at the thick carapace of a giant scorpion-like creature..

Chapter 569: Change in Attitude (2)

Bam.

The lightning blade had only severely injured the giant scorpion-like creature, but it had not killed it. Even though Shen Ping was mentally prepared, he could not help but be shocked at this moment. After all, these giant scorpion-like creatures were only in the Nascent Soul realm. Now that he was in a completely explosive state, it could be seen how powerful they were.

He quickly dodged. He looked for an opportunity to attack again before he killed a giant scorpion-like creature.

Shen Ping secretly heaved a sigh of relief. Although the defense of the giant scorpion-like creature was strong, its speed was much slower than that of the Barbaric Bull. In addition, the terrain of the valley was vast, and there were mountain walls to dodge. Therefore, as long as he was careful and could kill it, he could pass through this one.

However, only the third form of a high-grade beast spirit treasure could pose a threat to it. If it was the second form, it would probably be very difficult to kill. Therefore, he quickly estimated that if he wanted to pass through this stage, he would need the level of the beast bone's whip tail and more than 30% of the beast bone concept.

Chi! Chi! Chi!

Every slash of the lightning blade was surrounded by purple lightning. These lightning bolts only had a slight effect on the giant scorpion-like creature, but if it was an ordinary cultivator, even those at the Tribulation Transcendence

Realm would be injured.

There was an endless stream of scorpion-like creatures. There were twice as many as the barbaric bulls. There were a total of 20,000 of them. If not for their slow speed, Shen Ping was not confident that he could kill them all unscathed.

An hour later, the last scorpion-like creature fell. He returned to the wooden house. While resting, he looked at the immortal seal divine runes on his arm.

[Total ranking: 4,3521

[Heavenly Palace Level 1 Ranking: 78]

He grinned. "It seems that the first wooden house valley is indeed very difficult.

It actually soared by nearly half of the rankings. I'm afraid more will be eliminated in the next one."

The first one was already so difficult. Most of the Beast Spirit geniuses who were stuck at the beast bone level basically could not pass the second one. If he did not have top-notch beast spirit treasure and strange beast talents, Shen Ping would have stopped at this one and would not have continued.

The Spirit Race.

Under the towering ancient tree, many Immortal Venerables had smiles on their faces.

“Not bad. This time, our Spirit Race’s Beast Spirit geniuses are all very hardworking. A few days have passed, more than 90% of the Beast Spirit geniuses have stopped rushing to the rankings. Only the top 10,000 are still continuing, and our Spirit Race takes up 40%!

“That’s right. Our clan even occupied half of the top hundred. Although there are only two in the top ten, this result is not bad.”

“The difficulty of the Beast Spirit Ranking has increased this time around, especially the wooden house valley. Therefore, the focus is on the competition between the top 100 and the top 10.”

“It all depends on our race’s strongest prodigy, Ling Hao!”

“It’s hard to say. The two strongest prodigies of the Realm Clan and the Stone Clan have improved quite a bit, especially at the scale armor level. The difference in every step is huge. Moreover, there’s the Devil Clan’s Bai Xin.” “Forget about Bai Xin. How can he be compared to my clan’s Ling Hao?!

Listening to the arguments of the Immortal Venerables, the Venerable Sovereign did not speak. He actually did not care much about the strength of the rankings. What he really cared about was the benefits of the rankings.

Devil Clan.

In the palace that was as majestic as a star, the Devil Clan’s Venerable Sovereign frowned slightly. The strongest prodigy in the clan, Bai Xin, was now ranked eighth. Although the rankings had not ended, the Devil Clan had paid a huge price to let him comprehend the scale level. They wanted him to enter the top five.

“I hope you won’t let me down.”

Human Race’s Misty Peak.

Compared to the Devil Clan, the Spirit Clan, the Flame Clan, and other clans, the ranking of the Beast Spirit geniuses of the human race was much uglier. The eight juniors whom they had high hopes had not even entered the top 10,000. The best was Lin Yu, who was ranked more than 18,000.

“How can this be? Even if the other Beast Spirit geniuses can’t do it, Lin Yu, Hui Chang, and the others used the Beast Blood Heavenly Spirit Liquid. They have already comprehended the level of the beast bone in a few months under the ten

thousandfold acceleration. Why was it actually difficult for them to enter the top ten thousand?”

“It can’t be helped. The competition this time is very intense. You have to comprehend a trace of the concept of the beast bone. More importantly, you have to have a high-level beast spirit treasure. The three juniors don’t have high-level beast spirit treasures, only low-level beast spirit treasures. It’s already very good to have such an effect!

“No matter what, we’ve done our best!”

“That’s right. Beast blood Heavenly Spirit Liquid can be traded with Shen Ping, but high-level beast spirit treasures can only be chanced upon by luck!

“Looks like we can only place our hopes on Shen Ping. He has already entered the top 5,000. I didn’t expect him to be so powerful. His master is probably hiding something from us!”

“He hid it well. Those eight Beast Spirit geniuses won’t do. Fortunately, there’s Shen Ping. Otherwise, my clan probably wouldn’t even have the chance to enter the palace for the second time.”

“Shen Ping is a prodigy of our human race. After the Beast Spirit Ranking ends this time, I have to think of a way to extradite him to the Immortal Dao territory. Only then can he obtain better nurturing.”

“I’m afraid it’s very difficult. Not to mention that the extradition will damage his potential, just the attention of the various races is troublesome. Most importantly, when he reaches the core territory, unless he stays by the Venerable Sovereign’s side, it’s very easy to be attacked by the spies of the various races.”

After the Immortal Venerables saw Shen Ping’s ranking, their attitudes changed. Originally, they felt that choosing a few outstanding juniors from the Immortal Dao territory to become Beast Spirit geniuses could be better nurtured and was in line with their own interests. However, they did not expect that after such a long period of cultivation, the eight juniors were still inferior to Shen Ping.

Therefore, considering the big picture, it was clearly most suitable to focus on nurturing Shen Ping. The human Venerable Sovereign shook his head and said, “Let’s not talk about the extradition for now. Let’s see what the situation is like in the second palace.”

He glanced at the Immortal Venerables and said slowly, “Shen Ping can charge into the top 5,000, which means that he has already cleared the first wooden house valley. He must have comprehended the entire beast bone in terms of the Beast Scripture. His concept is more than 30%. He hasn’t used Time Acceleration much. He’s a true prodigy of our human race and the strongest prodigy!”

Many Immortal Venerables' expressions immediately turned cold. They knew what the Venerable Sovereign meant. Since he was the strongest prodigy, they had to prioritize his cultivation resources in the future and not other Beast Spirit geniuses.

On the third floor of the underground palace.

White Jade Square in front of the Beast Spirit Ranking.

Yin Ting looked at the rankings and could not help but smile. She had passed the seventh stone house grassland and was now ranked 9,300th. Although she was at the bottom of the 10,000, the rankings had basically not changed much. Only the top rankings would change. What really made her happy was Shen Ping's ranking. He had actually rushed into the top 5,000. This meant that his comprehension of the might and concept of the strange beast was not inferior to a prodigy at all.

"Congratulations on entering the top 10,000." Yin Yan appeared beside Yin Ting. Her eyes were filled with envy, and there was even a hint of jealousy in the depths of her pupils. The competition for the second Beast Spirit Ranking was intense. Not to mention the qualifications to enter the top ten thousand, just the value of it was higher than the first time. It could be foreseen that after this, Yin Ting would definitely receive the focused nurturing of the clan.

If all of this was obtained through Yin Ting's own hard work, she would at most be a little jealous. However, the truth was that she relied on that human prodigy. Naturally, it made her even more jealous. After all, if it was her, she would also be able to have her current achievements.

Yin Ting could hear the emotions in his voice. She said indifferently, "Your ranking is not bad either."

"It's much worse than you."

■"Your human Dao companion is really powerful. He's more than 4,000 and is already ranked at the prodigy level." Yin Yan said enviously.

Yin Ting smiled. "He's always been so powerful. I believe that 4,000 plus isn't his end!"

Yin Ting was stunned. "Sister, do you mean that he can still advance? Could it be that he can break through the second wooden house in the valley?"

Yin Ting did not say anything. Instead, she stared at the gigantic Beast Spirit Ranking.

In the valley of the second wooden house, abundant and rich strange beast energy kept surging over from all directions. He pushed open the wooden door. The densely packed scorpion-like creatures rushed forward. Their speed was clearly much faster than the first one. The defense of their shells was stronger as well. It needed four attacks of a high-grade beast spirit treasure at the level of the beast bone concept to kill one.

Shen Ping simply changed to the top-notch Beast Spirit Treasure, the Primordial Chaos Spear. Although he could rely on his strange beast talent and spend a long time to clear this one, after the previous battle, he had more control over the usage of the Beast Scripture and Beast Spirit Treasure. He did not need to waste any more time..

Chapter 570: The Winged Race Is Very Wronged (1)

After the Primordial Chaos Spear, which had a silver-white spear tip and blood-colored patterns, was injected with the magical power of the strange beast, its surface emitted fluorescence. As it waved, there was a faint beast roar. When it struck the huge scorpion-like creature, it easily broke through its

defense.

Even though Shen Ping knew that top-notch beast spiritual treasures were powerful, he still underestimated such treasures when he really used them. Even the giant scorpion-like creature that contained a trace of the strange beast concept was as fragile as paper when it was barely able to withstand the indestructible spear tip.

He even felt like he was crushing ants.

Pu! Pu! Pul Pul

As the spear shadows flashed, a large number of giant scorpion-like creatures fell. He killed them easily like harvesting wheat. In less than five minutes, 20,000 powerful scorpion-like creatures were completely slaughtered.

Shen Ping put away his spear and stood up. Looking at the corpses all over the ground, he could not help but feel wanton and carefree. He reached out and stroked the silver spear, his eyes filled with surprise.

“The difference in power between a high-grade beast spirit treasure and a top-grade beast spirit treasure is simply not small. This is only an ordinary attack. If it’s in form, I’m afraid it will be even stronger!”

It had to be known that the third form of a high-grade beast spirit treasure exceeded an immortal artifact and was comparable to a mid-grade immortal artifact, while a top-grade beast spirit treasure’s ordinary attacks were comparable to a high-grade immortal artifact. If it were to fight an Itinerant Immortal, the scene would be...

He wished he could carry a top-notch beast spirit treasure and find an Itinerant Immortal to test it out, but he quickly suppressed his excitement. Then, he continued to the third wooden house valley.

He passed!

The fourth one... passed!

He arrived at the fifth wooden house valley.

Shen Ping was not in a hurry to go out. Instead, he looked at the divine runes on his arm.

[Total ranking: 1351

[Heavenly Palace Level 1 Ranking: 3]

A smile immediately appeared on his face. Although he had not entered the top WO, his combat strength had already reached the level of the top prodigies of the various races. And all of this was because of a top-notch beast spirit treasure and the fact that it did not have any form power.

“The fifth one should be the limit. From the strength of the fourth house’s scorpion-like creature, to pass the fourth one, one has to at least have 30% of the concept of beast blood and reach the might of the beast blood’s claw. As for the fifth one, one has to comprehend the entire beast blood and have more than 50% of the concept.”

He had heard his master mention that most of the top 100 on the Beast Spirit Ranking had stopped at the fifth house. Only the top 10 had passed the sixth house.

Phew.

Ha.

He adjusted in the wooden house for three days. After his mental state and magic power reached their peak, he resolutely pushed open the wooden door.

In the White Jade Square in front of the Beast Spirit Ranking, most of the Beast Spirit geniuses who had finished their advancement to the rankings were gathered here. They could only leave the plaza when the last person was done. There were already very few people who were still advancing to the rankings. Therefore, every change in ranking could attract attention.

“Look, it’s that human Beast Spirit genius. Oh my god, he has rushed to the top hundred. This is the level of the top prodigies of various races. Even in powerful races like the Devil Clan and the Spirit Clan, he can be ranked at the front.”

“It’s said that it’s been less than a thousand years since he entered the Strange Beast Gate. I didn’t expect him to reach this level. It’s too unbelievable!”

“Is this the potential of the human race?”

“The human race is really terrifying. No wonder the upper echelons of the race are very afraid of the human race. Even if they are declining and lonely, they don’t dare to easily offend the human race.”

As she listened to the discussions in her ears, Yin Ting’s eyes were filled with joy. She knew that Shen Ping had exchanged for a top-notch beast spirit treasure, so she was not too surprised. However, she was still happy for him. “Over a hundred? H-How is this possible? Sister, didn’t you say that he only had the comprehension of the beast bone level?!”

Yin Yan’s eyes widened. Rankings of over four thousand were not on the same level as over a hundred. The difference was huge, and only about twenty of the Wingeds’ geniuses could enter the top two hundred this time. Every one of them was a top-notch genius of their race. Normally, she would not even come into contact with them. Who would have thought that her clan sister would become Dao companions with such a top-notch genius?

Yin Ting ignored her and continued to stare at the Beast Spirit Ranking. Her fair hand clenched into a fist. “Husband, you can do it!”

On the top floor of the Heavenly Palace, the Immortal Venerable Beast Spirit geniuses of the various races also gathered in front of the white jade square. Originally, the Immortal Venerables of the other weak races were more or less flattering the prodigies of the Spirit Clan, the Devil Clan, and the Flame Clan. However, after Shen Ping's ranking rushed into more than a hundred, the sound in the square became much softer.

After all, everyone knew what it meant to be in the top 100.

"Immortal Venerable Qi, you humans have really hidden it well. That Shen Ping was only ranked in the top 10,000 last time. His comprehension of strange beasts is at most beast bones. Even with these 500 years, it's impossible for him to advance to the level of beast blood. It seems that the last time the palace appeared, you exchanged for a top-notch beast spirit treasure for him!" "Hmph, it's impossible for you humans to exchange for it. It can only be the Winged Race."

The immortal Venerables of the Devil Clan and the Spirit Clan all looked coldly at the Winged Clan's Immortal Venerable.

The Winged Race's Immortal Venerables were speechless. They were still puzzled. Back then, they had only given the two Immortal Venerables of the human race some beast pattern golden fruits. Top-notch beast spirit treasures? There was only one for the prodigy of their race. How could they give it to the human race?

Immortal Venerable Qi was stunned at first, then he came to a realization. So it was a top-notch beast spirit treasure. He completely understood that when the palace was exchanging for it, Shen Ping had indeed gone to exchange for it a few times. Moreover, he had told him that there was a special way to see strange stones. He thought that the other party could at most exchange for some beast spirit pills, beast blood heavenly spirit liquid, and beast pattern golden fruit. He did not expect it to be a top-notch beast spirit treasure..
