

## Eternal Life 621

### Chapter 621: It's Hard to Tell If It's True or Fake (2)

There were no golden-purple insects in this house. Instead, there was a purple door. After stepping through the door, he appeared in a city made of rocks. There were actually many living beings in this city. They were either humans, the Devil Clan, the Spirit Race, and so on, but without exception, there was no fluctuation of magic power or aura.

As the Pupil of Sea Beast opened, he realized that these were actually real living beings. However, among all the living beings in this stone city, there was a golden-purple insect disguised as a living being.

Shen Ping seemed to have understood something. This stone city was very likely to test the distinguishing ability of Beast Spirit geniuses. However, it was still relatively difficult to find the golden-purple worm among so many living beings. After all, other Beast Spirit geniuses did not have a strange beast talent like him.

After entering the city, he walked straight towards the golden-purple insect. The golden-purple insect was disguised as a human old woman. She was squatting on the side of the street with a walking stick and fruits in front of her.

It was very simple to get rid of this old woman. He only needed to use the Primordial Chaos Spear to attack. However, Shen Ping did not act rashly. He felt that this stone city was not so easy. That artifact spirit senior would not be so bored as to set up a large number of living beings just to distinguish the golden-purple insects.

“Granny, how much is this fruit?”

The old woman in disguise quickly replied, “It’s about five copper coins each.”

“I don’t have any money with me. My house is nearby. Can you come with me to get it? I can buy your basket of fruits.” Shen Ping said.

The old woman nodded in agreement. When the two of them arrived at an alley, Shen Ping took advantage of the fact that no living beings were paying attention and directly killed the golden-purple worm with a shot.

After the insect died, it split into three balls of light. Inside the balls of light were the beast blood’s essence and the road map. He put away the beast blood’s essence and paid attention to the living beings outside the alley. Seeing that they did not have any reaction, he immediately left the stone city and headed to the next city.

The second, the third... It was the same as the dilapidated wooden house, until a purple door appeared in the eighth city.

He stood in front of the door. Shen Ping looked at the beast blood’s essence he had obtained and narrowed his eyes. Be it the dilapidated wooden house or the stone city, everything went very smoothly. There was no difficulty during this period. Although he had used the Pupil of Sea Beast, even without this strange beast talent, it was at most a little difficult. “Could it be that the difficulty

of the test for the top geniuses is different?” With this guess in mind, he stepped into the purple door.

Shen Ping was right. The appearance of the palace this time was a multi-layered world. The difficulty of the first two levels was different. The top 100 Beast Spirit geniuses’ progress was basically very smooth. Even in Stone City, they only spent a little more time. The Beast Spirit geniuses ranked in the top 10,000 did not recover much magic powers after killing the golden-purple bugs. They could recover to the Golden Core realm on the first level and only recovered to the Nascent Soul realm after passing the two levels.

If they chose to kill the old woman in the stone city, it would turn the other living beings into golden-purple insects. They had to kill them all to obtain the map of the next stone city.

The Beast Spirit geniuses ranked after 10,000 had a much more difficult process. Other than recovering their magic power slowly, they would also encounter all kinds of problems in the snowy environment of the first level. If they were lucky enough to reach Stone City, they would not be able to obtain the Beast Blood’s Essence and the map even if they killed the old woman. They had to pay money to buy fruits.

Under the dark green ancient tree, the Spirit Race’s Venerable Sovereign frowned. “What’s going on? Why were so many Beast Spirit geniuses of our Spirit Race eliminated?!”

The immortal Venerables smiled bitterly and said, “Venerable Sovereign, most of these Beast Spirit geniuses are ranked after 10,000. According to their report, they encountered a golden-purple worm that can disguise itself as our Spirit Race. It’s very difficult to tell if it’s real or fake. As long as they’re not careful and come into contact with its skin, they will be directly corroded and eliminated.

“There are also those who were surrounded and eliminated by a large number of golden-purple insects in a city. However, at the moment, very few of the top 10,000 are eliminated. In addition, not many Beast Spirit geniuses above the Golden Immortal Realm are eliminated.”

The Venerable Sovereign of the Spirit Race felt a little relieved. “There’s actually such a strange insect. There are also races that are good at disguise among the myriad races. There are one or two special races. It’s said that they can even disguise the aura of living beings, but no matter how they disguise themselves, there will be flaws. These Beast Spirit geniuses are really too careless!

“Our Spirit Race’s greatest advantage is numbers. If they are eliminated, this advantage will decrease. Looks like the rules for the appearance of the palace this time are indeed very strange.”

just like the spirit Race, after the Devil Clan, the Flame Race, and the others discovered that many Beast Spirit geniuses in their clan had been eliminated, they felt a headache. Originally, they had instructed the prodigies to use their numerical advantage to restrict the human race, but in the end, this was the situation.

The only thing that made them gratified was that almost none of the Immortal Kings and Immortal Venerables were eliminated.

He stepped through the door. Shen Ping appeared on a huge stone plate floating in the dark space. There were praying mats on the stone plate. The praying mats were enveloped by multicolored light. He looked at the number of people. It happened to be the number of Beast Spirit geniuses who had entered the palace this time.

Apart from the futon, there was nothing else on the stone plate. He checked around again and confirmed that there was nothing special, so he casually found a place to sit quietly and wait for changes.

Time passed slowly.

Ten days later, a figure appeared on the stone plate.

“Senior Qi!”

“Shen Ping!

The two of them were delighted at first, but then they looked at each other warily. Shen Ping secretly checked with his Pupil of Sea Beast and confirmed that this Senior Qi’s energy aura was different from the golden-purple worm, but he still did not approach it.

Immortal Venerable Qi was the same. “Shen Ping, have you encountered the golden-purple worm that can disguise itself?

“I did.”

Immortal Venerable Qi nodded, “If I’m not wrong, distinguishing the golden-purple worm should be the key to the rules. You and I will maintain a certain distance.”

“Yes, Senior.”

Next was Immortal Venerable Yu, Immortal Venerable Nanji, Lin Yu, Immortal Venerable Yao, Immortal Venerable Bing, and so on. Everyone knew the disguise ability of the golden-purple worm, so they tacitly maintained a distance.

However, Shen Ping knew that half of them were golden-purple insects in disguise.

“Master!” As Lian Xuejin appeared, he heaved a sigh of relief, especially when he saw that she was not an insect in disguise. A look of joy appeared in the corners of his eyes as he secretly sent a voice transmission, “Master, that immortal Venerable Yao, Immortal Venerable Bing, and the others are all golden-purple worms in disguise. You have to be careful.

Lian Xuejin was shocked, but she did not show it on her face. To everyone’s surprise, another Shen Ping appeared on the stone plate. Whether it was his expression or appearance, he was exactly the same as Shen Ping.

Immortal Venerable Qi narrowed his eyes and said, “If I’m not wrong, the test of this stone plate should be able to distinguish between real and fake. Perhaps there will be people like everyone in the future.” immortal Venerable Nanji nodded, “I’ve traveled the myriad races before, but I’ve never seen such a strange insect. The living being it is disguised as is almost the same as a real person. In the dilapidated stone house and stone city, I would instinctively feel disgust when it approached, but

I did not have any reaction on this stone plate. It must be because the stone plate is special that it suppresses this disgust.”

The others nodded thoughtfully. What Immortal Venerable Nanji said made sense. Just as Immortal Venerable Qi had guessed, Immortal Venerable Qi, Immortal Venerable Qi, Immortal Venerable Yao, and the others appeared again.

However, Yan Xueyi, Hui Chang, and the other Beast Spirit geniuses who had been eliminated did not appear. As the last Lian Xuejin arrived, the light from the futon disappeared.

“Everyone, don’t move. If anyone dares to move, don’t blame me for not caring about our clansmen and attacking.” Immortal Venerable Nanji said coldly. Shen Ping’s expression was calm. He had the Pupil of Sea Beast and could tell who was the golden-purple worm in disguise. However, there was someone like him now. Even if he said it, they might not believe it. Moreover, if he rashly attacked, the others would definitely attack him. At the very least, those golden-purple worms in disguise would attack.

“Seniors, how should we distinguish between real and fake?”

Lin Yu was the first to speak.

Immortal Venerable Qi pondered for a moment and said, “Our cultivation levels have only recovered to the Golden Core realm. It’s difficult to use some methods. Previously, we could still rely on disgust to judge, but it’s more troublesome now.”

The others were silent.

Shen Ping said slowly, “Seniors, why don’t you prove your authenticity first?”

## Chapter 622: Shen Ping’s Advantage (1)

Immortal Venerables had cultivated for a long time and were incomparably experienced. Most of them had encountered methods similar to imitation abilities, but they were not as strange and exquisite as the golden-purple worm. There were still ways to see through this, but the premise was that they had to know more information about the golden-purple worm.

However, this was what they lacked. Therefore, when Shen Ping made the suggestion, Immortal Venerable Nanji, Immortal Venerable Qi, and the other higher-ups of the Immortal Dao looked over.

“Although this kind of insect’s form, appearance, and aura are imitated perfectly, I don’t believe that they can even imitate memories. I believe that all the seniors have some similar memories. With this, we should be able to quickly distinguish them.”

This was the easiest way to think of. The Immortal Venerables nodded.

Shen Ping smiled. “I’ll go first.”

The reason why he did this was firstly because he did not want to expose his methods too early, and secondly, he wanted to see how strong the imitation ability of these golden-purple insects was.

“Before entering the Strange Beast Gate, I once chatted with Master about my wife and concubine. How about we use our magic power to engrave these words in the jade slip and take them out for the other seniors to see before letting Master appraise them?”

Shen Ping, who was disguised as a golden-purple insect, smiled and nodded. “Sure.”

Lian Xuejin watched this scene. She knew that Shen Ping was bluffing the other party. The two of them had never discussed such a topic.

A few breaths later, the jade slip that had been engraved floated in the air. As the fluorescent light on the jade slips disappeared, the two jade slips displayed no words.

Shen Ping’s pupils dilated. The expressions of the other Immortal Venerables turned solemn when they saw this. Even if the golden-purple worm could steal its memories, it was impossible for it to carve a wordless like the real Shen Ping when it was engraved with magic powers.

This meant that the golden-purple worm on the stone plate should have some method to guess or see through the thoughts and actions of the real Shen Ping.

“Looks like memorizing won’t work. Shen Ping, do you have any unique divine powers, spells, and other methods that can be displayed?” Immortal Venerable Qi reminded him.

Shen Ping nodded. “I have a mystical ability that can fuse talismans and array formations.” As he spoke, he took out hundreds of ordinary talismans and used the Sea of Talisman.

The eyes of the other Immortal Venerables lit up.

“It’s a pretty good divine power technique.”

The golden-purple insect also took out a talisman and used the same divine power.

“He can even imitate a unique divine power!”

This time, the Immortal Venerables felt that it was troublesome. Immortal Venerable Nanji seemed to have thought of something and hurriedly said, “Shen Ping, try the methods of the Beast Scripture.”

Shen Ping came to a realization. He took out the Primordial Chaos Spear and used the power of the first form, Blood Light. The disguised golden-purple worm also took out the Primordial Chaos Spear, but the power of the blood light was clearly different from Shen Ping’s.

Immortal Venerable Nanji, Immortal Venerable Qi, and the others laughed, “Haha, so this worm can’t use the power of the Beast Scripture. It only knows how to imitate!”

The power of the Beast Scripture needed to be fused with the concept of strange beasts. Even if the golden-purple insects could use unique energy to imitate the power, the concept inside was difficult to display. Naturally, the power displayed in the end was completely different.

And everyone present was a Beast Spirit genius. As long as they used a Beast Spirit Treasure, they could easily distinguish it.

Pfft! There was no need for Shen Ping to do anything. The Immortal Venerables directly killed the golden-purple worm. This shocked Shen Ping. Although these Immortal Venerables were only in the Golden Core realm, the methods they could use were much stronger.

Immortal Venerable Nanji smiled and said, “You can use immortal artifacts on this stone plate. Otherwise, you really won’t be able to destroy this worm. Alright, it’s my turn next.”

Before he could begin, the disguised Immortal Venerable Nanji suddenly rushed towards the mat. The other golden-purple insects also rushed over. “Hmph, I’ve long been on guard against you!”

“Die!”

A dazzling purple saber light appeared. These disguised golden-purple insects turned into balls of light. The balls of light contained beast blood’s essence. Every golden-purple insect contributed three beast blood’s essences.

After dealing with the bugs, Shen Ping and the other Immortal Venerables revealed relieved smiles.

“This bug is indeed difficult to deal with, but now it seems that its flaws are also very obvious. In fact, even without the Beast Scripture, we can still distinguish it.”

Immortal Venerable Qi, Immortal Venerable Yao, and the others knew what Immortal Venerable Nanji was talking about. They were all Immortal Venerables and naturally comprehended the Great Dao of Heaven and Earth. This method could not be used by imitation.

“Tsk tsk, although these insects are a little difficult to deal with, they contributed a lot of beast blood’s essence. The more the better for us!” Immortal Venerable Bing teased.

The other Immortal Venerables laughed. Then, they told each other about their encounters in the dilapidated wooden house and the stone city. Shen Ping also told them. As soon as they reflected each other, the Immortal Venerables knew the advantage of being ranked at the top.

“In that case, the higher one’s ranking is, the faster they can recover their magic powers. Moreover, they can also use Dharma treasures and other items in their storage. The difficulty of the test is also lower, but the restrictions of us Immortal Venerables who are at the back are not small. Shen Ping, since the stone plate has gathered all the Beast Spirit geniuses of the same race, I’m afraid the subsequent tests will have to be faced together. You have the advantage, but us Immortal Venerables still have to rely on you.” Immortal Venerable Nanji said.

The other Immortal Venerables nodded one after another.

Shen Ping was humble for a while before quickly changing the topic..

As they chatted with each other, they all sat cross-legged on the futon. After waiting for a while, the futon was enveloped by multicolored light again. Then, everyone disappeared.

After his vision recovered, Shen Ping, the Immortal Venerables, his master, Lin Yu, and the others stood on a piece of yellow sand. Looking around, there were sand dunes. The air was dry and hot, and there was no end in sight.

Chi! Chi! Chi!

Before they could investigate carefully, a large number of gerbil-like creatures appeared from the sand dune and surged over from all directions. These gerbils were not strong. With the strength of Shen Ping and the Immortal Venerables, they could easily deal with them. Just as they finished dealing with them, another group came, and their auras were clearly stronger.

Four waves were eliminated in a row. Gerbil's strength had already reached the Body Integration realm.

"Something's wrong."

"These creatures are endless. They're completely consuming our magic power."

"It's very likely an array. Immortal Venerable Yao, you're proficient in arrays. Can you tell what array this is?"

The Immortal Venerables spoke one after another. Immortal Venerable Yao frowned, "If it was an array formation, I would have discovered it the moment we entered, but there are no traces of an array formation around."

Shen Ping could not help but open his Pupil of Sea Beast to check. He realized that a large number of sand mice did not have any energy aura at all. There was no yellow sand either. There was only one source of energy. "Senior Yao, could it be an illusion array?"

Immortal Venerable Yao was stunned. "An illusion array can indeed affect you silently, and it's extremely difficult to detect. Since this illusion array can affect us Immortal Venerables, it will affect you juniors even more. Even a simple illusion attack will cause your divine sense to collapse."

Immortal Venerable Qi reminded, "Fellow Daoist Yao, this is a palace world. If it's an illusion array, it should be targeted at different strengths."

Immortal Venerable Yao understood and immediately looked at Shen Ping. "Is there any Phantom Heart Fluid, Purple Flower Root in your storage treasure?"

"Yes."

These materials were considered high-grade resources. He basically had a backup in his inventory and immediately took out the materials.

Immortal Venerable Yao used the materials to quickly refine pills that could withstand illusion arrays. After consuming them, the yellow sand environment in front of them immediately disappeared, revealing a huge spider-like creature. Seeing that its illusion array had been broken, it opened its bloody mouth and spat out a large amount of spider silk.

The spider silk was extremely fast. Everyone, including Shen Ping, found it difficult to dodge. Moreover, they could not cut through the spider silk with the Dharma treasures in their hands.

“Use fire-elemental magical equipment!” Immortal Venerable Yao reminded them.

Shen Ping hurriedly took out a high-grade fire-element beast spirit treasure and easily cut off the spider silk. Then, he helped the other Immortal Venerables escape and rushed towards the spider. This spider was not strong to begin with and was quickly dealt with by Shen Ping.

However, the spider did not turn into a ball of light like the golden-purple worms from before. His expression changed slightly. He put away the spider creature and prepared to use Soul Parasite. This spider had such a powerful illusion array ability. If it turned into his clone through Soul Parasite, he would have another powerful method.

The other Immortal Venerables did not say anything when they saw Shen Ping put away the spider corpse.

“Here’s a jade plate and a map.” Lian Xuejin made a discovery not far away. Immortal Venerable Nanji, Immortal Venerable Yao, and the others checked and saw that the jade plate was not special, but since it appeared with the road map, it should be useful. After putting it away, they continued along the road map.

They reached the second target point. The group encountered the spiders again. With the medicinal pills refined by Immortal Venerable Yao, they were not too affected. Every spider had a jade plate beside them. Until the eighth target point, they did not see the jade plate or the road map after killing the spiders, nor did a door appear like before.

Shen Ping subconsciously used the Pupil of Sea Beast to check. When he saw it, he was immediately shocked. He saw that the Immortal Venerable Nanji, Immortal Venerable Yao, and the others around him were actually all the energy auras of golden-purple insects.

Puff, puff, puff!

After using the Primordial Chaos Spear to deal with these insects, he used the talent of the Pupil of Sea Beast to lock onto the largest energy source.

Chi! Chi! Chi!

Before he got close, golden spider silk shot from all directions. He kept teleporting and barely dodged the entanglement of the spider silk. He could use the fire attribute beast spirit treasure to attack the spider silk, but he could not cut it off as easily as before.

He thought of the Beast Scripture. He immediately entered the Beast Spirit State, and scales appeared on the surface of his body. Then, he used the power of the second form of the Primordial Chaos Spear, but it was still difficult to cut through the spider silk. “What should I do?!”

In a moment of desperation, he suddenly remembered that the Beast Spirits had come into contact with the essence fluctuation of the Great Dao. Therefore, he hurriedly activated that fluctuation and attached it to the Primordial Chaos Spear. Although his comprehension of the fluctuation was only superficial, his superficial knowledge could easily destroy the golden spider silk.

Then, he attacked the energy source.

Pfft!

With just a few attacks, he easily dealt with the source. As the illusion array disappeared, Shen Pingping looked and discovered that it was actually a golden-purple spider-like creature. The golden-purple insects beside the other Immortal Venerables dissipated.

“Could it be that this golden-purple spider can simultaneously use illusion and imitation abilities?” While he was shocked, his eyes revealed joy. This corpse was much stronger than the spider from before, so he immediately put it away.

When the other Immortal Venerables saw that the people beside them had disappeared, they came back to their senses and realized that they had been pulled into the illusion array again.

“What a powerful illusion array.” Immortal Venerable Yao couldn’t help but say, “Shen Ping, if you hadn’t dealt with the source, I’m afraid all of us would have been eliminated.”

Shen Ping hurriedly shook his head and said, “Senior Yao, I was just lucky to discover it. Moreover, even if I don’t get rid of this golden-purple spider creature, as time passes, all the seniors will sense it.”

He was right. With the vigilance of the Immortal Venerables and the teleportation from the previous two levels to the eighth target point, they would definitely realize that something was wrong. Of course, whether they could not be eliminated depended on their luck.

Not far from the golden-purple spider was a ball of light. Inside the ball of light were three jade plates and 20 beast blood’s essences. After putting away these things, a purple door appeared in front of them.

They entered the door. Layers of light patterns immediately appeared on the surface of the ten jade plates. These light patterns gathered to form a road map.

“If I’m not wrong, the target marked on the road map this time should be the location of the secret technique.” Immortal Venerable Nanji said slowly.

The expressions of the others changed slightly.

Immortal Venerable Qj smiled faintly and said, “If it’s really a secret technique, it should be given to Shen Ping first. Without Shen Ping, I’m afraid we won’t be able to pass the previous level at all. Moreover, the possibility of being eliminated is extremely high.”

Immortal Venerable Bing shook her head, “Although that’s the case, the 52 secret techniques are all Great Dao secret techniques and are extremely precious. Moreover, Immortal Venerable Yao contributed a lot to the previous level. Without her pills, how can we leave the illusion array?!”

Shen Ping’s expression was calm, but he was speechless in his heart. They had yet to see the secret technique, but they had already begun to discuss the ownership of the secret technique. As expected, when there were more people, there were more thoughts and it was easy to have differences. This was also the reason why he rarely took risks to explore in his cultivation. After all, no matter how good it was to befriend friends, there would be differences in the face of benefits. They might even kill each other.

Immortal Venerable Yu glanced at Immortal Venerable Nanji and the others and said, “Everyone, isn’t it too early to discuss the secret technique? I think we should get the secret technique first before talking about anything else.”

“Fellow Daoist Yu is right.”

“I don’t know what kind of test this level is. Although our magic power has recovered to the Void Refinement Realm, we still can’t take out the immortal artifact and other items. When we encounter difficulties, we still have to rely on Shen Ping.” Immortal Venerable Nanji said meaningfully.

Immortal Venerable Yao smiled and said, “Indeed, no matter what the situation is, Shen Ping should obtain a secret technique.”

Lian Xuejin and Lin Yu were weak and didn’t have the right to speak at all. However, the group didn’t continue when they spoke up to here and rushed towards the road map.

With Shen Ping’s help, the human Beast Spirit geniuses were not eliminated in the third level. However, it was different for the other races. Just the yellow sand alone had trapped many Beast Spirit geniuses of the races. Only the top too geniuses’ illusion array would gradually weaken as time passed. Therefore, the number of Beast Spirit geniuses eliminated in the third level increased again..

## Chapter 624: Great Dao Jade Book (1)

The target point of the fourth level was a towering mountain range. From afar, one could not see the peak of the mountain. They could only vaguely see a few huge peaks that shot into the sky through the lingering clouds. The mountain range was as endless and vast as a river.

Although Immortal Venerable Nanji and the others had seen a lot and had long seen countless magnificent sceneries like this, they could not help but frown when facing such a mountain range. If this target point had a secret technique, it would probably not be easy to find a secret technique in such a vast mountain range. Of course, the most important thing was that they could feel their spiritual sense being suppressed and restricted.

“Shen Ping, can your divine sense clearly investigate?” Immortal Venerable Qi asked.

Shen Ping looked at the mountain range shrouded in clouds and shook his head. “Senior Qi, my divine sense can only extend for tens of thousands of feet. Any deeper and I will be disturbed.”

Immortal Venerable Yu said helplessly, “We can only sense dozens of feet away. We haven’t seen far. This suppression is too great.”

Immortal Venerable Nanji said, “Let’s enter the mountain range and see the situation first.”

The group followed the mountain path to the foot of the first mountain in the mountain range. Before they could investigate their surroundings, the jade plate on their bodies floated out again. The surface of the jade plate flickered with light patterns. This time, it actually gathered into a translucent jade book. On the jade book, there were lines of special words.

“T-This is a Dao pattern!!”

“Could it be that the 52 secret techniques are on these jade plates?”

All the Immortal Venerables, including the Immortal Venerable Nanji, looked at the translucent jade book with excitement in their eyes.

Shen Ping, Lian Xuejin, and Lin Yu were confused.

Immortal Venerable Qi glanced at them and explained, “Dao patterns are a language that represents the Great Dao of Heaven and Earth. Be it secret techniques or self-created Great Dao divine powers, they can only be carried by these words. The immortal seal divine runes can only carry ordinary immortal Dao methods.”

Shen Ping came to a realization and could not help but say, “Senior Qi, in that case, as long as we obtain enough jade plates, we can obtain 52 Great Dao secret techniques?”

At this moment, the Immortal Venerable Nanji smiled and said, “That’s right. The Dao patterns on these ten jade plates can’t even be considered a general outline. It should be a remnant of a secret technique. I had guessed that the jade plate was related to a secret technique. I didn’t expect the secret technique to be carried on the jade plate. I think there should be many jade plates in this mountain range. Let’s not waste time. If the geniuses and Immortal Venerables of the other races arrive, it will depend on their own methods!”

The other Immortal Venerables and Shen Ping understood.

Since the jade plate was related to a secret technique, there would definitely be a fight. It was still fine within the Human Race, but if it was between the races, there would be no fear. They would definitely fight. However, along the way, they did not see or sense any Beast Spirit geniuses from other races. This meant that the Human Race might be the first to arrive.

Thinking of this, the group hurriedly entered through the entrance of the mountainside. The interior of the mountain was wider than the divine sense of Shen Ping and the others. However, there were a large number of caves inside. Just like the Ten Thousand Cave Mountain in the western district of the Abyss of Supreme Darkness, they were densely divided. Moreover, every cave was winding and rugged, making it impossible to probe to the end with divine sense.

Everyone looked at Shen Ping. After all, only Shen Ping’s divine sense was suppressed and restrained the least. “There are golden-purple bugs in the twelfth cave on the left!”

“Let’s go over.”

Swoosh! Swoosh! As their magic power surged, Shen Ping and the other Immortal Venerables quickly arrived in the cave. The moment they saw the golden-purple spider, the spider pounced over. A large number of golden spider silk swept from all directions.

Boom, boom.

Immortal Venerable Nanji immediately took out an immortal artifact to attack. However, when the immortal artifact struck the golden-purple spider, there was not even a mark. When the other Immortal Venerables saw this, they also activated their immortal artifacts and magic treasures to attack, but the outcome was the same.

Shen Ping thought of the golden purple spider from before and hurriedly shouted, “Seniors, we have to use the methods of the Heaven and Earth Great Dao to attack.”

Although the cultivation levels of Immortal Venerable Nanji and the others were suppressed to the Void Refinement Realm, all of them had comprehended the Great Dao of Heaven and Earth and could barely use a trace of the power of the Great Dao. The consumption was huge. However, after activating it, they indeed easily killed the golden-purple spider.

This time, after the golden-purple spider died, it did not leave a corpse. Instead, a ball of light appeared. In the ball of light, there was a beast blood’s essence and a jade plate.

“Haha, there is indeed a jade plate in the mountain range.” Immortal Venerable Nanji and the others laughed. They did not know that there was a secret technique engraved on the jade plate. Now that they knew, they were naturally excited to see the jade plate again.

Immortal Venerable Yao reminded them, “The golden-purple spider we encountered previously had an extremely powerful illusion ability. We didn’t even notice it at all. In the end, Shen Ping dealt with it and we escaped. This golden-purple spider doesn’t have any illusion ability at all. It should be suppressed by the special environment of the mountain range or deliberately set up by that artifact spirit senior. Its goal is to let us kill the golden-purple worm and obtain the jade plate.”

Immortal Venerable Bing nodded, “Indeed, the test of this mountain range should be to find the golden-purple worm in so many cave tunnels and kill it. I think we can act separately. This way, the efficiency will be higher.”

Immortal Venerable Qi, Immortal Venerable Yu, Immortal Venerable Nanji, and the others looked at each other and immediately understood what Immortal Venerable Bing meant. The jade plate concerned 52 secret techniques. Whoever obtained the most would obtain more Great Dao secret techniques. If they acted together, how to distribute them was a problem..

## Chapter 625: Great Dao Jade Book (2)

“Since we’ve split up, the jade plate will belong to each person. As for these ten jade plates, we’ll split them first. How about that?” Immortal Venerable Qi suggested.

“Sure.”

“Agreed.”

There were a total of six Immortal Venerables present. They were Immortal Venerable Nanji, Immortal Venerable Qi, Immortal Venerable Yue, Immortal Venerable Yu, Immortal Venerable Yao, and Immortal Venerable Bing. The rest were Lian Xuejin and Lin Yu, the two True Immortals. Then it was Shen Ping, a total of nine people.

Therefore, Immortal Venerable Qi continued, “Shen Ping contributed the most among us. He obtained three jade plates. We, the Immortal Venerables, all obtained one of the remaining seven jade plates. Immortal Venerable Yao, you refined pills previously, so you should obtain another one.

The other Immortal Venerables thought for a moment and agreed. After all, there were ten jade plates. It was unreasonable for Immortal Venerables like them to distribute them. As for Lian Xuejin and Lin Yu, they did not contribute at all, so they were naturally ignored. The two of them had no complaints.

After distributing the jade plates, Immortal Venerable Yu and Immortal Venerable Qi both invited Shen Ping to search with them. Even Immortal Venerable Nanji and Immortal Venerable Yao invited him, but Shen Ping rejected them. He planned to go with his master.

The Immortal Venerables did not force him. If they really joined Shen Ping, it would also be a problem how to divide it. Now, they did not want to distribute the jade plate to others.

As the Immortal Venerables left, Lin Yu said with a bitter smile, "Fellow Daoist Shen, I wonder if I can explore with you. If I encounter a golden-purple spider creature, I don't have the ability to kill it. So I don't ask for the jade plate, I only want to obtain more beast blood's essence."

Shen Ping pondered for a moment and nodded. "Alright." He had seen several golden spiders gathered in the cave through the Pupil of Sea Beast. If he had Lin Yu, he could more or less share the pressure and resolve it quickly. "This way."

He randomly chose a tunnel. The three of them headed towards the depths. On the way, Lian Xuejin and Lin Yu used their puppets to scout the way, and during this period, Lian Xuejin sent a voice transmission. "Disciple, it shouldn't be so easy to obtain a Great Dao secret technique. You have to be careful. Those creatures' illusion techniques are extremely powerful, so you have to be vigilant."

The jade plate was indeed engraved with the Great Dao password, but the golden-purple spider had lost its illusion. Although it was still very difficult for other prodigies and Beast Spirit geniuses, this was too easy for Beast Spirits and Immortal Venerables who had come into contact with the Heaven and Earth Great Dao fluctuations and the Heaven and Earth Great Dao.

Shen Ping nodded in agreement. He guessed that there might be other tests inside.

The cave in the mountain peak was very deep. Immortal Venerables relied on their divine sense and other methods to investigate. On average, they could only find a golden-purple spider every half a month and obtain a jade plate. Shen Ping was very efficient. He had the Pupil of Sea Beast and did not need to take too many detours, so he could obtain ten jade plates in half a month.

In the blink of an eye, three months passed.

The strongest prodigies and Immortal Venerables of the other races had also arrived at the fourth level and arrived at the mountain range. There were a total of 20 mountain peaks in the mountain range. After Shen Ping and the others entered the first mountain peak, the other races could not enter anymore and could only go to the other mountain peaks. This meant that once the 20 mountain peaks had Beast Spirit geniuses, those who entered later would have no chance.

"There won't be any golden-purple spiders alone in the future. Master, Fellow Daoist Lin, if we fight, you have to be careful." Shen Ping reminded them. Although the golden-purple spider was easy to kill with its fluctuations, the golden spider silk was everyone. He could not deal with it at the same time.

“Fellow Daoist Shen, you don’t have to worry about me. I’m already very satisfied to have come this far.” Lin Yu said with a smile. During this period of time, he had followed Shen Ping to kill the golden-purple spider and obtained a lot of beast blood’s essence. Therefore, even if he was eliminated, he had gained much more than the others.

Several days passed. The three of them followed a relatively wide tunnel and arrived in front of the three golden-purple spiders. Before they attacked, he secretly gave his master a high-level defensive beast spirit treasure. Actually, Lian Xuejin was already very lucky to be able to reach this place. She wanted to refuse, but Shen Ping insisted, so she could only accept it.

Boom.

As soon as he attacked, the spider silk of the golden-purple spider creature quickly surged over from all directions. Lian Xuejin and Lin Yu shared the attention of the other two. Shen Ping carried the Primordial Chaos Spear and cut off the spider silk that was charging at him. Then, he instant transmitted to the spider creature and quickly killed it.

Although he was fast, Lian Xuejin and Lin Yu still could not withstand the entanglement of a large number of spider silk, especially Lin Yu. He only lasted for a few breaths before his body was wrapped into a cocoon by the spider silk, and his aura instantly melted. However, Shen Ping saw a gentle light surge out of the cocoon before it disappeared. It was this light that teleported him away. Clearly, he had been eliminated.

Shen Ping heaved a sigh of relief. As long as it wasn’t death, it was fine. Lian Xuejin also noticed this scene. When she saw Shen Ping teleport over to help her, she shook her head and said, “Disciple, I’ll be a burden if I continue to stay.” She stopped resisting and let the spider silk wrap around her body.

He watched as his master disappeared. Shen Ping couldn’t care less about being helpless. He hurriedly teleported and dodged the spider silk that surrounded him. A moment later, he obtained the three jade plates. Next, he searched for the golden-purple spider even faster and directly teleported. In less than a month, the jade plates in his hand reached a hundred.

Chi! Chi! Chi!

As the light patterns on the jade plate flickered, the translucent jade book became more and more solid. The Dao patterns on it were densely displayed. After the last line of Dao patterns was displayed, the jade book completely solidified.

Shen Ping raised his hand in joy and grabbed the jade book in his palm. However, as soon as the jade book landed in his palm, the Dao patterns on it disappeared. A faint golden light lock condensed on the surface. A large number of light spots quickly gathered to form a new road map.

“I knew it wouldn’t be that simple.”

He continued forward on the new road map. This road map led to the depths of the mountain. He traveled for half a month before arriving at the target point marked on the road map. This location was an altar covered in special patterns. The bronze cauldron floated in the middle of the altar. There were stone pillars nearby. From the patterns on the stone pillars, he guessed that he had to

place the jade book of the Great Dao secret technique in the bronze cauldron to unlock the light lock of the jade book.

Besides this altar, there were 20 other altars in the surroundings.

“There are 20 mountain peaks in the mountain range, and there are also 20 altars here. Could it be that each mountain can only obtain one jade book?” A hundred jade plates could only condense one type of jade book. Although there were many golden-purple spiders in the mountain peak, there were definitely less than 200 in total. In other words, Shen Ping’s guess was right. This made him feel a little lucky. If not for the Pupil of Sea Beast and teleportation, he would not have been able to condense the jade book so quickly.

He walked in front of the bronze cauldron.

Out of caution,

He still used the Pupil of Sea Beast to check first. In the end, behind the bronze cauldron was the aura of the golden-purple spider. He was first stunned, then smiled bitterly. It turned out that the final test of obtaining the Great Dao secret technique was here. If he placed the jade book in the bronze cauldron without noticing anything, not only would he not be able to unlock the light lock, but he would also lose the jade book that he had painstakingly obtained.

Pfft!

After the Primordial Chaos Spear dealt with the golden-purple spider, the true altar appeared. It was not a bronze cauldron floating in the middle of the stone pillar, but a stone lock in the same shape as the light lock.

Only then did Shen Ping place the jade book under the stone lock. The light lock tightened and with a whoosh, the light lock instantly opened. Dao patterns flickered and appeared before gradually hiding.

It was done. He didn’t understand these Dao patterns and words, but he knew that he had obtained a Great Dao secret technique that led to the peak.

The stone lock disappeared and a purple door appeared.

Shen Ping was about to step into the door when he stopped. He looked at another altar in the distance and could not help but have an idea. Those bronze cauldron altars were transformed from golden-purple spiders, and he had a golden-purple spider. After these days of continuous infiltration by Soul Parasite, that clone already had the ability of a golden-purple spider. If he replaced it, he might be able to obtain another jade book!

Thinking of this, he teleported to another altar and dealt with the golden-purple spider. Then, he took out his clone and replaced it. After it was done, he stepped into the purple door again..

The fifth level of the world was a vast lake with no end in sight. The lake was as calm as a mirror without any waves rolling. Shen Ping arrived through the purple door. Before he could check the environment, he suddenly felt a suppression and restraint. The recovered Mahayana Realm magic power in his body could not be used again, and he seemed to have become an ordinary person again, including his divine sense.

He frowned and looked at the lake. He realized that the entire lake was enveloped by a layer of light, as if it had yet to be activated.

“Looks like this level of the test should be targeted at all the Beast Spirit geniuses.”

The suppression and restraint were so great that it basically eliminated the situation of them attacking and killing each other. Clearly, that artifact spirit senior was biased towards Beast Spirit and prodigies like them. After all, many Immortal Venerables could enter this world. If they really fought, they were not their match.

He casually found a place by the lake and sat down to wait quietly. His consciousness shifted to the golden-purple spider creature clone of the Soul Parasite. Other than him, all the other Beast Spirit prodigies who had entered the mountain had yet to gather a hundred stone plates. He did not mind and waited patiently.

Time passed bit by bit.

In the past five years, what surprised Shen Ping was that the Devil Clan had actually appeared on the second altar he was guarding. Originally, he thought that it would take more than ten years for the other races, even the powerful Spirit Race, to gather a hundred stone plates. After all, they did not have their own strange beast talent. It was very time-consuming to find and kill the golden-purple spiders in the countless tunnels of the mountain peaks that were like a maze.

This Devil Clan's member stood on the altar and looked at the bronze plate floating in the middle. He was not in a hurry to take out the stone plate. Instead, he sized up his surroundings first. He saw the altars on the left and right and the first purple door. His eyes clearly constricted. “I didn't expect there to be a Beast Spirit genius who obtained a hundred stone plates faster than me. There are still 19 altars. In that case, this mountain range can obtain a total of 20 Great Dao secret techniques.”

While its mind was wandering, it continued to investigate the surroundings of the altar. Shen Ping could clearly see that his pupils had changed just like when he used the Pupil of Sea Beast. When he saw this, his heart skipped a beat.

“Haha, it's an illusion again. Go to hell!”

Swoosh.

Before the Devil Clan attacked, he hurriedly circulated the energy in his body and spat out a large amount of golden spider silk to trap the Immortal Venerable of the Devil Clan in front of him. Then, without thinking, he directly fled in the direction of the other altar. Because he was a clone, he could not use his strange beast talent. However, this golden-purple spider creature was very fast. When it encountered these Beast Spirit geniuses, the golden-purple spider did not think of escaping at all. However, after becoming his clone, Shen Ping naturally could not wait for death.

In just two to three breaths, his clone fled to the third altar. Without his illusion, the second altar immediately returned to its original stone-locked altar.

When the Devil Clan's Immortal Venerable saw this scene, he did not continue to chase after Shen Ping's avatar after dealing with a large amount of spider silk. Instead, he focused his attention on the stone altar. He still carefully used various methods to probe and confirm that there was no pit. Then, he aimed the jade book of the Great Dao at the stone lock and unlocked it.

After obtaining the Great Dao secret technique, the purple door appeared. The Devil Clan looked at the other altars in the distance with greed in his eyes. However, he quickly put them away and stepped into the door to disappear.

Shen Ping's clone heaved a sigh of relief. Fortunately, this Immortal Venerable of the Devil Clan did not continue chasing. Otherwise, his clone would not be a match and could only be abandoned in the end.

"To be able to condense the jade book of the Great Dao so quickly, he indeed has special methods. I can't underestimate any expert!" He shook his head, and finished off the golden-purple spider on the third altar and continued to wait.

Time passed quickly.

Although there was an accident on the second altar, the third one was as Shen Ping had expected. This was because the strongest prodigy of the Flame Race had appeared on the altar. Other than the additional care of the Beast Spirit, it was completely lucky to be the third to arrive here. It did not have the means of that Immortal Venerable of the Devil Clan. After putting the Great Dao Jade Book into the bronze cauldron, Shen Ping directly put it away. Then, it transformed into the unlocked Great Dao Jade Book. While this prodigy was excitedly looking at the Great Dao Jade Book, he took the opportunity to place the Great Dao Jade Book he had received under the stone lock.

As the light lock was unlocked, he had obtained the true jade book of the Great Dao. The strongest prodigy of the Yan Clan was still immersed in joy and excitement.

Whoosh.

The purple door appeared. Shen Ping's clone immediately kicked this prodigy into the door. After he disappeared, he could no longer suppress his laughter.

Just as he finished off the fourth altar and was about to use the same trick again, Immortal Venerable Nanji, Immortal Venerable Yao, and Immortal Venerable Qi appeared on the first altar. Clearly, after being unable to find the golden-purple spider creature for a long time, they discovered the path to the altar.

They saw three purple doors and the remaining altars.

The six Immortal Venerables looked at each other and quickly understood the use of the altar. Therefore, they guarded the fourth altar. Clearly, they planned to wait like Shen Ping and intercept the Great Dao Jade Book that the other races had come to unlock.

This made Shen Ping smile bitterly. Unfortunately, it was too late for him to leave now. He could only brace himself and continue to maintain the illusion.

However, the person who appeared on the fourth altar was the Spirit Race, and it was not just one Spirit Race's member. It was all the remaining Beast Spirit geniuses of the Spirit Race, including four Spirit Race's Immortal Venerables..

## Chapter 627: Hundred Boats Competition (2)

"Hmph, Fellow Daoist Qi, Fellow Daoist Nanji, you've made a good plan. You're actually guarding the altar. Looks like you've already obtained the jade book of the Great Dao. Hand it over!"

The Spirit Race relied on their numbers and did not take the six Immortal Venerables of the human race seriously at all.

Immortal Venerable Nanji and the other three did not expect the Spirit Race to appear collectively. However, they would not retreat. They immediately fought the Spirit Race's Immortal Venerables and tried to snatch it.

When Shen Ping saw this, he took advantage of the intense battle to spit out a large amount of spider silk. Then, he seized the opportunity and immediately rushed towards the purple door of the third altar. In fact, when the six Immortal Venerables began to wait, he knew that it was impossible to continue obtaining the Great Dao Jade Book.

Not to mention that the Spirit Race had appeared collectively. They would definitely go to other altars to intercept the jade book of the Great Dao like him.

It couldn't be helped. After all, the Spirit Race was strong. The sudden appearance of the golden-purple spider creature indeed made Immortal Venerable Nanji, the other human Immortal Venerables, and all the Beast Spirit geniuses of the Spirit Race unable to react. When they came back to their senses, Shen Ping's avatar had already arrived near the purple door.

"The altar has changed. It seems that the previous bronze altar was an illusion of the golden-purple spider creature!"

"The other altars should have golden-purple spider creatures!"

Shen Ping was not in the mood to care about what the Spirit Race would do next. After his clone escaped from the purple door, his main body immediately made preparations. The moment his clone appeared, he pretended to kill the golden-purple spider clone and took its corpse.

The Devil Clan's Immortal Venerable and the strongest prodigy of the Flame Race, who were sitting cross-legged at the edge of the lake and waiting like him, only took a glance before retracting their gazes. After all, to them, the golden-purple spider creature had no other value other than obtaining the jade plate previously.

Besides, the suppression and restraint were too great on the fifth level. Even if one's physique was powerful, it was impossible for them to fight like before.

After Shen Ping sat down quietly again, the corners of his mouth curled into a smile. Although he did not continue to obtain the Great Dao Jade Book on the altar behind, it was already very profitable for him to obtain another Great Dao secret technique.

Swish, swish, swish.

Not long after, Immortal Venerable Nanji, Immortal Venerable Yao, Immortal Venerable Qi, and the others appeared. However, their expressions were gloomy. Clearly, they had not gained any advantage in the battle with the Spirit Race's Immortal Venerables. After all, they were suppressed and restrained. Even if the six of them were powerful, they were not a match for the hundred or so Beast Spirit geniuses of the Spirit Race.

"Damn the Spirit Race. It's very likely that they'll snatch the Great Dao Jade Book from the other altars!" Immortal Venerable Nanji gritted his teeth.

Immortal Venerable Qi glanced at the lake and saw that there was only one Immortal Venerable of the Devil Clan and the strongest prodigy of the Flame Race. He shook his head and said, "Not necessarily. The other Immortal Venerables of the Devil Clan and the Flame Race haven't come over. When they gather, they might split the rest with the Spirit Race."

Immortal Venerable Yao said, "If the remaining Winged Race, Dragon Race, Phoenix Race, and other races also act collectively, the Spirit Race might not be able to obtain the Great Dao Jade Book."

Immortal Venerable Bing sighed. "We humans still have too few Beast Spirit geniuses."

The other Immortal Venerables could not help but sigh. This time, they finally experienced the helplessness of having fewer people. Immortal Venerable Yu came to Shen Ping's side and asked, "Shen Ping, did you obtain the Great Dao Jade Book of the first altar?"

The other Immortal Venerables looked over. Shen Ping did not hide it. In fact, it was very difficult to hide such a thing.

"Fortunately, my race obtained one."

Although Immortal Venerable Nanji and Immortal Venerable Yao were envious, they were not jealous or greedy. After all, this thing indeed relied on their own strength.

"Alright, let's continue to wait. There are a total of 52 secret techniques and only 20 altars. There are still 32 secret techniques left. We might have a chance."

Immortal Venerable Qi and the others also casually found a place to wait. As for Immortal Venerable Nanji, he asked about the golden-purple spider creature that had escaped from the purple door. After knowing that Shen Ping had killed it, he did not continue asking.

As time passed, more and more Immortal Venerables and Beast Spirit geniuses gathered by the lake. Although the various races had been eliminated by the golden-purple spiders on the fourth level, there were still nearly a thousand races that had passed the altar.

Among them, the Spirit Race was far in the lead. The Devil Clan was second, followed by the Realm Clan, the Stone Clan, the Skeleton Clan, the Winged Race, the Dragon Clan, the Phoenix Clan, and other clans. Other than the humans, the average number of remaining clans exceeded 20.

Of course, the human race had the most Immortal Venerables. However, the human race did not have Beast Spirit geniuses at the level of Immortal Kings. Other than the strongest prodigies and top prodigies, the other races had more Immortal Kings.

What was worth mentioning was that the Spirit Race, the Devil Clan, the Flame Race, and the others had jointly intercepted the jade book of the Great Dao and did not obtain much. Facing special races like the Realm Clan and the Stone Clan, they were even more defeated.

Psst.

After all the remaining Beast Spirit geniuses passed through the purple door, the vast lake finally dissipated. Twenty islands gradually appeared in the distance of the lake.

“If I want to obtain a Great Dao secret technique on this level, I should have to ascend the island. Moreover, this is the first time so many races are gathered together. They might compete and kill each other.”

“Our magic powers and divine sense are all suppressed and restricted. Those who have more people have an advantage!”

Immortal Venerable Nanji, Immortal Venerable Qi, and the others frowned. It was the same for Shen Ping. Most of the people in the first four levels acted alone, including on the altar. He could rely on his talent to gain an advantage, but it was difficult to use his advantage in the lake.

Immortal Venerable Yue said softly, “I don’t think so. They might have the advantage in numbers, but we should have a chance. Otherwise, we can just be eliminated.”

As the few of them discussed, the Beast Spirit geniuses of the Devil Clan and the Spirit Race began to move. They went to the tall trees not far from the lake to cut trees. Although they no longer had magic powers and divine sense, the physiques of Immortal Venerables, Immortal Kings, and others were astonishing. Even the strongest prodigies and some top prodigies had physiques that far exceeded ordinary people. In a short while, they made the trees into rafts.

Fortunately, the trees by the lake were dense. When the other races saw this, they also went to cut the trees. They still had the Dharma treasures in their hands, but they had lost their magic power and could only use them as tools. Shen Ping also used the Primordial Chaos Spear to cut trees.

Immortal Venerable Nanji’s Dharma treasure was a pseudo-treasure axe. When he cut trees, he was much more efficient than the others. However, as he cut the trees, he said speechlessly, “I never thought that there would be a day when I would use this Heaven-Opening Axe to cut trees.”

Immortal Venerable Qi was slowly cutting the leaves of the trees with his sword. He teased, “Fellow Daoist Nanji, axes are meant to cut trees.”

Immortal Venerable Yao and Immortal Venerable Yue were a little obsessed with cleanliness. They were unwilling to use their magic treasures to cut trees and could only help make the raft. Immortal Venerable Yu smiled and said, “How long has it been since we experienced such cultivation after we became Immortal Venerables? Just treat it as a pleasure.”

Immortal Venerable Bing changed the topic. “I’m afraid it’s not easy to board the island. We have to make a stronger raft. It’ll be troublesome if we fall into the lake.”

“From the previous test, there must be something in the lake.”

The group chatted as they made rafts. They were few in number, but the number of rafts they needed to make was also small. Their efficiency was faster than the Spirit Race, the Flame Race, and the Devil Clan.

“There are seven rafts. We can take care of each other. If the other rafts are destroyed, we can immediately move to the remaining rafts.”

After placing the rafts on the lake, Shen Ping and the others began to row the raft towards the island. The Realm Clan, the Stone Clan, and other special races were also on the lake. Because the lake was extremely vast, after the Devil Clan and the Spirit Race followed, they did not do anything else.

Chi! Chi! Chi!

After rowing the raft for five minutes, layers of waves rose on the calm lake in the distance. Shen Ping used his Pupil of Sea Beast to check. He saw that the dense energy aura under the lake in the distance was quickly surging towards the lake.

“Be careful, something is coming!”

In fact, there was no need for him to remind them. Immortal Venerable Nanji and the others clenched the magic treasures in their hands tightly and revealed vigilant expressions. They were prepared to fight at any time.

Swish, swish, swish.

Just as the waves were about to reach them, big fish with long swords on their backs jumped out of the lake.

Puff! Puff!

As they flew, these swordfish spat out water arrows to attack Shen Ping and the others..

## Chapter 628: Carp King Shen Ping (1)

The space on the raft was limited, but Shen Ping and the others' physique and reaction speed far exceeded that of ordinary mortals. In addition, the speed of the water arrows was not too fast, so they easily dodged the first wave of swordfish attacks.

After the swordfish finished attacking, it rushed towards the other races at the back. He looked at the distant islands. Immortal Venerable Nanji frowned and said, “If these swordfish attack continuously, I'm afraid it won't be easy for us to board the island.”

Immortal Venerable Qi nodded, “I don't know what difficulties there are on the island. We can only take it one step at a time. Everyone, keep a distance to avoid being directly crushed by the waves swept up by the sword fish.”

The group rowed the raft, splashing layers of water on the surface of the lake.

Ten minutes later, the second wave of swordfish swept over at an extremely fast speed. Not only were the numbers doubled, but the speed at which they spat out water arrows also increased.

Although an attack of this level was still within everyone's tolerance, if it continued to increase, they would not be able to hold on sooner or later. Moreover, the swordfish only attacked them with water arrows and had not hit the raft. Once a large number of swordfish surrounded the raft, it would be very difficult for them to maintain the raft.

Everyone knew this very well. But they did not have a good solution for the time being in the face of such a problem. They could only brace themselves and continue rushing towards the island.

Another ten minutes passed.

The third wave of swordfish came. This wave of swordfish was clearly different from the previous two waves. When the swordfish jumped up, no water arrows were spat out.

Immortal Venerable Qi, who was at the front, suddenly shouted, "Quick, kill these swordfish!" As he shouted, he waved his magic treasure and quickly attacked the swordfish that flew past the raft. Although the others, including Shen Ping, did not know what was going on, they reacted extremely quickly and killed the swordfish together.

After Shen Ping's spear stabbed a swordfish, it immediately exploded into light, and a beast blood's essence and jade plate appeared in the light. He immediately came to a realization. Then, he hurriedly waved the Primordial Chaos Spear in his hand. However, the number of swordfish that flew past the raft was limited. One wave only took three breaths, and there were only more than ten swordfish in total. Furthermore, some of the swordfish did not have beast blood's essence and a jade plate.

As a large number of swordfish rushed back, Immortal Venerable Nanji, Immortal Venerable Qi, and the others turned around and stared at these swordfish reluctantly, looking like they wanted to rush over and continue killing.

When the two waves of swordfish rushed over, they had complained that they had entered the water too early and helped the Devil Clan, Spirit Race, and other races behind resist the first wave of attacks. Now, they wished they could get closer. This way, they might be able to obtain more jade plates.

It had to be known that they had obtained many jade plates from the altar of the mountain peak. For example, if Immortal Venerable Nanji obtained more than 50 jade plates, he would be able to gather a Great Dao secret technique. Therefore, they wanted the jade plate more than Shen Ping.

"The swordfish are too fast. Otherwise, we could have chased after the third wave of swordfish and killed them."

Previously, killing the swordfish and obtaining the jade plate purely depended on luck.

Immortal Venerable Nanji was relatively unlucky and only obtained three jade plates. Immortal Venerable Yao was lucky and obtained seven. Shen Ping was the same and obtained five. The other Immortal Venerables also obtained four to five each. This efficiency was clearly much faster than the altar.

Immortal Venerable Yu smiled and said, “The rule of the lake should be that after every two waves of swordfish, a jade plate and beast blood’s essence will appear. Let’s hold on until the sixth wave and row towards the place with the most fish.”

The other Immortal Venerables nodded. Judging from the previous swordfish attack, the fish groups were not evenly divided. Some areas were very dense.

The other races quickly understood the rules of the lake world. Just like Immortal Venerable, they were all waiting for the sixth wave of swordfish. Moreover, the race behind was speeding up the raft and sprinting forward, wanting to be closer to the front.

This was especially true for the Spirit Race. Their race had the most Beast Spirit geniuses, so they naturally obtained more jade plates. If they could be at the front, their chances of obtaining the jade plates would be even greater.

However, everyone was suppressed and restrained now. No matter how hard they tried, it was difficult to catch up to the raft in front of them in a short period of time.

The appearance of the fourth wave of swordfish was delayed from ten minutes to twenty minutes. At the fifth wave, the time was delayed again. They endured two waves of swordfish attacks in a row.

Shen Ping and the others finally saw the sixth wave of swordfish. This time, they were prepared. Be it Immortal Venerable Nanji, Immortal Venerable Qi, or the others, when they saw the swordfish pass by the Realm Clan and Stone Clan at the front and rush over, they rowed the raft with all their might towards the dense area of the swordfish.

They could no longer care about the raft being destroyed. They only wanted to obtain more jade plates.

Shen Ping did not follow the Immortal Venerables. He opened the Pupil of Sea Beast to see if he could find the difference between a swordfish that contained a jade plate and a swordfish that did not. Unfortunately, he could not tell. It could only depend on luck.

Puff! Puff! Puff!

The Primordial Chaos Spear stabbed out continuously and even slapped the swordfish that had flown out of the lake onto the raft to kill as many swordfish as possible. The other Immortal Venerables did the same.

After the swordfish passed, they quickly killed the swordfish on the raft. This time, the Immortal Venerable Nanji’s luck was not bad. He obtained a total of ten jade plates and smiled brightly..

## Chapter 629: Carp King Shen Ping (2)

“Yo, Fellow Daoist Nanji, you’re so lucky!” Immortal Venerable Qi teased him.

Immortal Venerable Yao gently brushed away the black hair falling from her forehead and said with a smile, “Fellow Daoist Nanji must have secretly divined.”

Immortal Venerable Bing was extremely envious. His luck was bad and he only got two jade plates. "Fuck, you must have stolen my luck."

Immortal Venerable Yue glared at Immortal Venerable Nanji resentfully, "And mine. Of so many swordfish, only one has a jade plate!"

The Immortal Venerable Nanji laughed loudly, "This is called karma."

However, when it came to the ninth wave of swordfish, the smile on his face disappeared and turned into an iron pot. He did not get a single jade plate from the wave of swordfish. This made Immortal Venerable Yao and Immortal Venerable Yue cover their mouths and laugh secretly.

"Eh, look ahead. The Beast Spirit geniuses of the Realm Clan and the Stone Clan have all scattered." Immortal Venerable Qi suddenly said. Shen Ping and the others couldn't help but look at the Realm Clan and Stone Clan at the front. They saw them scatter and get further and further away. "Could it be that there are some changes ahead?"

While they were guessing, the group rowed the raft for a while and arrived at this area. Soon, they noticed that the water quality was different from before. The water in this area was even more turbid, and it was extremely difficult to see the scenery under the lake. At the same time, the raft was more buoyant.

"There are swordfish under the water. The rules must have changed."

Immortal Venerable Qi sized up the actions of the Realm Clan and Stone Clan and carefully observed the bottom of the water. After a while, he discovered that the swordfish were swimming. There were much fewer of them than before.

The Immortal Venerable Nanji looked into the distance and narrowed his eyes. "The surface of the water is extremely turbid and wide. It's about an hour of water travel. This area might be a test of vision and luck."

Immortal Venerable Yao added, "Although the previous test relied on luck, the advantage is too great for the Spirit Race, the Flame Race, and other large races. Especially the Spirit Race, there are more than a hundred Beast Spirit geniuses. Even if every one of them obtains a jade plate, they can gather a Great Dao secret technique in one wave."

Shen Ping quietly activated his Pupil of Sea Beast to look at the turbid lake water. Energy auras immediately appeared in his vision. Although these auras were very weak, they were swordfish. In other words, other geniuses could only rely on luck and vision in this area, but he could see the location of every swordfish with his talent.

"The appearance of the Pupil of Sea Beast in this palace is too helpful to me!"

His expression did not change, but he was filled with emotions. Every strange beast talent was very useful. In this palace world, it could give him a huge advantage.

"While the Devil Clan, the Spirit Race, and the others have yet to catch up, let's seize the time to split up and search for the swordfish. Remember to be careful." As Immortal Venerable Nanji spoke, he looked at Shen Ping. "Shen Ping, especially you.

If the Devil Clan and the Spirit Race have the chance, they will definitely surround you and eliminate you.”

“I’ll be careful.”

The group dispersed and began to search for swordfish in the water.

Shen Ping rowed the raft forward. He only activated his talent when he was far away. The swordfish under the turbid lake were not far from the surface of the water. The longsword could stab them, let alone the Primordial Chaos Spear.

Therefore, he killed the swordfish one by one with a spear. His efficiency was extremely high. The others, including the prodigies of the Realm Clan, the Stone Clan, and the others, could only find and kill one in five minutes on average. However, he could find more than ten in the same amount of time. If he was lucky and the swordfish were all nearby, he could find more than 30. In this turbid water, one out of every three swordfish would contain a jade plate.

Which meant, he could obtain five to ten jade plates every five minutes. Twenty minutes later, he had already obtained 32 jade plates. In addition to what he had obtained from the three waves of swordfish, he now had nearly 50 jade plates.

Shen Ping kept rowing the raft. He could see the position of the swordfish clearly, so to him, time was like a jade plate. He could not waste a single second.

Another five minutes passed.

The Devil Clan, the Spirit Race, the Flame Race, the Demon Race, and the others arrived at the turbid water. After understanding the rules, they also scattered to find the swordfish. This stretch of water was so wide that even if thousands of Beast Spirit geniuses were to scatter, they would not be conspicuous.

Suddenly, an energy aura ten times that of the other swordfish appeared in Shen Ping’s line of sight. His eyes lit up and he hurriedly rowed the raft over. Even though this big fish was on the turbid water, the waves produced by its swimming were very obvious. When he approached, the beast spirit geniuses of the other races also discovered it.

Even the distant Immortal Venerable Nanji, Immortal Venerable Qi, and the others noticed the commotion on the water.

The big fish swam towards a genius of the Realm Clan. He simply activated the enhancement. His physique strengthened, and the strength of his arms suddenly increased. His arms waved the wood pulp like fire wheels and slashed crazily.

That Realm Clan prodigy was also risking his life. However, it was ultimately inferior in skill and could not kill the swordfish before Shen Ping caught up.

Ad

Pfft. This swordfish was completely golden in color. After killing it, a ball of light surged out. There were actually 25 jade plates inside, making the eyes of the Realm Clan prodigies and the Beast Spirit prodigies in the distance turn red.

Shen Ping grinned and put away the jade plate and the essence of the beast blood. The Realm Clan prodigy's face darkened. Although he could not tell, Shen Ping could guess that it was in a bad mood. However, this prodigy did not do anything else. After all, everyone was suppressed and restrained. If they really fought on the water, no one was confident of eliminating the other party.

"Damn it."

"Damn human junior!"

"This guy is really lucky."

"No, I can't let this junior obtain more jade plates!"

The Immortal Venerables of the Devil Clan and the Spirit Race immediately arranged for some top prodigies and other prodigies to approach Shen Ping.

"Shen Ping, be careful."

When Immortal Venerable Nanji, Immortal Venerable Qi, and the others discovered this, they hurriedly approached Shen Ping and reminded him.

"Seniors, don't worry. This water area is vast. It won't be easy for them to catch up and surround me." Shen Ping smiled. He had an enhancement talent. Just now, he had relied on this talent to quickly catch up to the big fish. If the water area was narrow, he might be surrounded. However, in such a wide water area, even if all the Beast Spirit geniuses of the Devil Clan, Spirit Race, and other races surrounded him, they would not be able to catch him.

He exerted strength in his arm, and the raft quickly distanced itself from the Beast Spirit genius of the Devil Clan and the Spirit Race.

The two Immortal Venerables were relieved.

Time passed bit by bit.

An hour later, Shen Ping was once again 'extremely lucky' to kill a big fish. Now, he had already accumulated more than 170 jade plates. He could be said to be rich.

"Impressive!"

"You got two big swordfish in a row. Shen Ping, your luck is unparalleled!"

"Haha, Shen Ping, good job."

Even the human Immortal Venerables were envious, and the Devil Clan and Spirit Race were so jealous that they wished they could kill Shen Ping a thousand times.

"Seniors, the water is clearing. I'm afraid it's almost time."

Even without Shen Ping's reminder, Immortal Venerable Nanji and the others had also discovered this. Therefore, they all sped up their search for the swordfish. As the water quality changed, it was easy to see the swordfish under the lake, but the number decreased at a visible speed. Many swordfish had even gathered in one area.

Another twenty minutes passed. Many Beast Spirit geniuses began to fight for it. This situation only lasted for a while before the water surface completely became clear and the swordfish gradually disappeared.

Shen Ping had already arrived at the front in advance. After the water quality changed, he quickly rowed the raft towards the island.

Now, after these two rounds of swordfish competition, every race could basically gather a hundred jade plates. For example, Immortal Venerable Nanji, Immortal Venerable Qi, and the others each obtained more than 30 jade plates. The Spirit Race and the Flame Race obtained even more.

Therefore, the island became the key. Whoever boarded the island first would be able to unlock the Great Dao Jade Book Light Lock condensed from the jade plate.

The waves on the lake rippled, and thousands of rafts rushed crazily towards the island. Shen Ping was the fastest. Relying on his talent, he shook off the teams of the Realm Clan, the Devil Clan, the Spirit Race, and the others behind him in ten minutes.

Shen Ping was about to be the first to reach the island.

The Immortal Venerables and geniuses of the Devil Clan, Spirit Race, and other races could only grit their teeth and stare..

## Chapter 630: Final Choice (1)

Splash.

The raft quickly moved on the lake.

Although Shen Ping's magic powers and divine sense were restricted, his enhancement talent could still last for ten minutes. His arms moved like the wind, and when he was about to reach the edge of the island, he had already shaken off all the Beast Spirit geniuses behind him for a full two minutes.

The island was enveloped by multicolored light. He took out the Great Dao Jade Book gathered by a hundred jade plates and directly boarded the island. The light enveloping the edge of the island disappeared.

The island was not big. In the center, there was a stone altar similar to the fourth level.

He quickly came to the altar and placed the jade book of the Great Dao under the stone lock. Immediately, the light lock was unlocked. Lines of Dao patterns flickered and finally hid.

He had obtained the third Great Dao secret technique!

However, Shen Ping suppressed the excitement in his heart. He couldn't care less about his joy and hurriedly ran out of the island with all his might. Then, he rushed towards the other island. There was only ten minutes between the two islands. He still had time to undo the other Great Dao Jade Book.

When the Devil Clan, Spirit Race, and other Beast Spirit geniuses saw this scene, they all cursed non-stop.

This was a Great Dao secret technique that led straight to the peak. No one would complain about having too many. After all, even if they could not use it, they could exchange it for resources. At the very least, they could contribute it to their race in exchange for other resources that were helpful to them.

Not to mention, every additional Great Dao secret technique of the race meant an additional foundation. Therefore, every missing altar meant that it was difficult for the race to obtain it.

“Despicable junior!”

“Damn it, if I had known earlier, I would have gotten rid of this junior even if I had to risk being eliminated!”

Unfortunately, no matter how angry they were, they could not stop Shen Ping.

As the second Great Dao Jade Book was unlocked, Shen Ping had obtained the fourth Great Dao secret technique. Immortal Venerable Nanji, Immortal Venerable Qi, and the others watched this scene with envy and joy. No matter what, it was better for Shen Ping to obtain a secret technique than for other races.

He put away the Great Dao Jade Book.

Shen Ping did not step into the purple door. Instead, he left the island and drove towards Immortal Venerable Nanji and the others. This was because the six Immortal Venerables of the human race had more than 200 jade plates in total. Previously, because he was far away and was in a hurry to ascend the island, he did not meet up with the Immortal Venerables. With the enhancement of his talent, he could first gather these stone plates and continue to unlock them.

When they watched Shen Ping return, Immortal Venerable Nanji and the others immediately understood Shen Ping’s goal.

“Among us, Immortal Venerable Bing rowed the fastest. Quickly hand all the jade plates to him!”

They no longer thought about their personal gains and losses. They had to obtain the Great Dao secret technique first before talking about anything else. It had to be known that if they really arrived at the island with the Immortal Venerables of the Devil Clan, the Spirit Race, and the others, it would be very difficult for them to snatch an altar.

Soon, all the jade plates were gathered in Immortal Venerable Bing’s hand. Then, Immortal Venerable Nanji, Immortal Venerable Yao, and the others used magic treasures to push Immortal Venerable Bing’s raft, making it speed up.

When the Immortal Venerables of the other races saw this, they quickly reacted and began to gather the jade plate. Then, they helped one or two Immortal Venerables snatch the island.

The various races could not interfere with the harassment at all. They could only compete in speed.

Whoever was faster would obtain the Great Dao secret technique.

Immortal Venerable Bing tried his best to row the raft, but his position was not close to the front. Fortunately, Shen Ping was fast enough. Even though the fastest Immortal Venerables like the Realm Clan and the Spirit Race had already surpassed them, Shen Ping did not take it to heart.

“Shen Ping, it’s up to you!” After Immortal Venerable Bing handed the Great Dao Jade Book to Shen Ping, he heaved a sigh of relief, his eyes filled with anticipation.

Shen Ping smiled confidently and said, “Senior, don’t worry. It’s fine even if I give them ten minutes’ head start!”

Immortal Venerable Bing couldn’t help but laugh when he heard this. In the past, he didn’t pay much attention to this newly risen human junior. He even said many things to target him because of some benefits. But he felt that this Shen Ping was really not bad and was very compatible with his temper.

Waves surged on the surface of the lake. Dozens of rafts quickly approached the island. Initially, Shen Ping was still lagging behind. But he rushed to the first place again after five minutes. The Realm Clan, Spirit Race, Devil Clan, and other Immortal Venerables who were left behind had ugly expressions. Especially when they saw the speed of Shen Ping’s raft, they had a feeling that this guy had recovered his magic power.

The race at the back of the raft wanted to cry but had no tears. Originally, at the altar on the mountain peak, their Great Dao secret technique had been intercepted by the Spirit Race, Devil Clan, and other powerful races. When they arrived at the lake, they encountered an unreasonable human.

However, no matter how bitter it was, they had to endure it. After all, even if he could not obtain these 20, there were still 12 left. Moreover, three of them were top-notch Great Dao secret techniques. That was the key.

Not long after, Shen Ping boarded the third island. However, after unlocking the light lock, it was already too late to board the fourth and fifth islands. The Realm Clan and the Winged Race’s Immortal Venerable were very close to these two islands. He had no choice but to quickly board the sixth island.

With the extremely fast speed of the raft, he finally reached the sixth island before the Spirit Race. After unlocking the light lock, he stepped into the purple door without hesitation. The Spirit Race’s Immortal Venerable looked at the altar and suppressed his anger as he rushed towards the remaining islands.

The sixth level.

As soon as Shen Ping’s vision recovered, he felt a heat wave surge over his body. He looked up and immediately saw that his surroundings were filled with roiling magma. At this moment, he was standing on a rock. This rock floated on the surface of the magma, and there were also rocks not far away..
