Chapter 641: Top Great Dao Secret Technique (2)

“What about An’er?” He asked.

Wang Yun replied, “An’er is already at the mid-stage of the Divine Transformation Realm. It’s just that it’s very difficult for him to make progress in the beast scripture. Until now, he’s only at the level of the beast skin’s hoof and claws of the array scripture.”

Shen Ping shook his head, and his eyes could not help but reveal a trace of disappointment. His eldest son, Shen An, had the bloodline of a strange beast. Originally, he had high hopes for him and thought that the other party could also become a Beast Spirit. However, after so many years, he was still so slow in the derivation of the Beast Scripture. Clearly, his talent in the Beast Scripture was inferior to the skill geniuses at the headquarters of the Four Seas True Treasure Pavilion.

“Forget it, it seems that An’er’s talent is very ordinary. Yun’er, tell him later that if he’s unwilling to cultivate the Beast Scripture, focus on array formations.”

Wang Yun nodded.

Shen Ping asked the other juniors in detail. The focus was on skills. Among the more than a hundred juniors, only two or three of them had skills and talent. Their progress was not low, and the rest had ordinary talent. This made him sigh. The probability of a family producing true skills or cultivation prodigies was still too low.

Although it was related to the small number of juniors, this fact still made him understand that he was nothing special.

In front of the Human Race’s huge array formation puppet barrier at the defense line of the sea of stars, hundreds of Golden Immortals from the various races gathered.

The leader of the Spirit Race’s Beast Spirits looked at the dozens of Golden Immortals floating in the air and said indifferently, “Fellow Daoist Li, if you humans want that Shen Ping from Gray Stone City to live, hand over the Great Dao secret technique. Otherwise, the day our races break through the defense line will be the day that Shen Ping dies!”

Golden Immortal Li laughed. “Do you Spirit Race people only know how to boast? This array formation puppet defense line has stood in the sea of stars for nearly a thousand years and has yet to be broken through!”

!!..

“Hmph.” Golden Immortal Ling Guan did not say anything else. Instead, with an order, hundreds of Golden Immortals attacked the array puppet with all their might. The leading Beast Spirit geniuses of the four races took out the powerful immortal treasures given by the higher-ups one after another. They waited for the array puppet to be exhausted before breaking through in one go.

Although Golden Immortal Li's words were disdainful, his heart was still very solemn. He knew that the various races would definitely be prepared this time, so he sent a voice transmission to the other Golden Immortals, "If the array puppet barrier is broken, you have to rush to Gray Stone City immediately. Even if we die, we can't let anything happen to Shen Ping."

"Understood!"

The other Golden Immortals nodded heavily. They naturally knew how important Shen Ping was. It could be said that all the Golden Immortals combined were inferior to the other party. If anyone was afraid of death in such a matter, their future cultivation path would basically come to an end.

After all, cultivation mainly relied on resources. The higher-ups had the resources to advance. Unless they did not want to advance, they could only risk their lives. The higher-ups of the Immortal Dao paid a lot of attention to this place.

Boom! Boom! Boom!

The powerful attacks shattered the cosmic space inch by inch. The array formation puppet barrier constantly shook. If an Itinerant Immortal were here, the aftershocks alone could shatter them. In the past, the Golden Immortals of the various races had attacked the array formation, but they did not risk their lives like this.

Clearly, under the gazes of the beast spirits of the various races, the other Golden Immortals did not dare to be perfunctory.

However, Golden Immortal Li heaved a sigh of relief. "According to this level of attack, they won't be able to last for half a year at most. Even if there are any changes during this period, the array puppets and the trump cards left behind by Immortal Venerable can last for a hundred years. A hundred years should be enough to make Shen Ping prepare to retreat."

In fact, this was the final plan of the human race. Once the array puppet was broken through, they would let more than 50 Golden Immortals bring Shen Ping and forcefully break out of the encirclement. Then, they would rush to the cultivation world dominated by the human race. The upper echelons of the Immortal Dao had already built a stronger defense there. Moreover, they could provide endless support.

The environment here in the Abyss of Supreme Darkness was too harsh, and the hastily built defense line was not firm.

Golden Immortals were also greatly restricted. They could not use many methods. More importantly, they could not support the projection of an Immortal Dao expert that exceeded the Golden Immortal realm.

Shen Ping didn't know about the changes in the defense line. After resting for half a month, he went into seclusion again. First, he entered the Strange Beast Gate and spent some time with Yin Ting. Then, he focused on mastering the Dao patterns.

After Yue Lingluo received the news from the Heavenly Immortal, although she was anxious, she did not disturb Shen Ping. After informing Yu Yan and the others, she quickly contacted Lian Xuejin.

“There’s no hurry. At the critical moment, you can temporarily hide in the Nine Continents Tower. No matter how many Golden Immortals there are, it’s extremely difficult to break through the Nine Continents Tower.”

Lian Xuejin was not nervous. In fact, after controlling a trace of the Nine Continents Tower’s authority, she was not too worried about Shen Ping’s safety. In addition, the Venerable Sovereign had accepted Shen Ping as an in-name disciple and must have given him some life-saving items. Therefore, nothing would happen to Shen Ping.

After Wang Yun and Yu Yan learned of this, they relaxed a lot.

A few months later, Shen Ping slowly opened his eyes. After such a long time of familiarity, he had finally grasped the Dao pattern words. He suppressed the excitement in his heart and immersed his consciousness in his sea of consciousness. He looked at the top-notch Great Dao Jade Book.

The Dao patterns flickering on it were finally no longer unfamiliar.

True Book of Dao Origin.

He narrowed his eyes. He could not help but think to himself, “Dao Origin, Great Dao Origin. Could it be that this jade book studies the Great Dao Origin?”

He opened the jade book with his consciousness. What greeted his eyes was the summary. What is the Dao Origin, the Origin of the Dao. The three thousand Great Dao of Heaven and Earth all originated from the Origin of the world. If one grasped the Dao Origin, they could choose any Great Dao of Heaven and Earth.

The contents of the summary were very domineering, as if he had completely grasped the three thousand Great Dao of Heaven and Earth. However, Shen Ping knew that it was not easy to do this.

He flipped through the general outline. The first page of the jade book was filled with pictures. These pictures were similar to the stone bridge diagram, but there were annotations beside the pictures. The six pictures were filled with water, from rain to streams to rivers, lakes, and seas.

After looking at the diagram, he looked at the contents of the annotation. It said that the origin of the Great Dao was endless and stretched for more than a few times. If he wanted to comprehend even a trace, he had to start from the most basic essence analysis.

The annotation was very detailed and straightforward. It was obvious that the almighty who created this jade book had completely comprehended the essence of the Great Dao and mastered it to the point where he could analyze it in the most straightforward and simple language.

However, even if it was straightforward, it was very difficult for Shen Ping to understand. Fortunately, with the foundation of the stone bridge diagram, he could barely understand some of it.

And with a look, he was completely immersed in it. When his consciousness broke free from this state, thirty years had passed in the outside world. It had to be known that when he was looking at the jade book, his consciousness had entered the World Pearl. Therefore, when he really calculated, he had spent tens of thousands of years comprehending.

“I really don’t know how long I’ve been cultivating!” He sighed with emotion. His eyes flickered with excitement. It was only his first time observing and comprehending.

Even if he had yet to comprehend 10% of the first diagram, he had some understanding of the essence of the Great Dao of Heaven and Earth. If he activated the fluctuations of the Great Dao of Heaven and Earth that he came into contact with, he would hide himself without any flaws.

Apart from that, the Heaven and Earth Great Dao patterns revealed by the scales of the Beast Scripture that he had comprehended previously were no longer difficult at this moment. More importantly, those patterns were too simple in the analysis of the essence of the Heaven and Earth Great Dao. It was like the difference between the most basic addition and subtraction and complicated equations.

The only pity was that this True Book of Dao Origin seemed to be a top-notch Great Dao secret technique of comprehension. It did not involve the use of battle.

However, Shen Ping was not disappointed. Among the other Great Dao secret techniques he had obtained, there were combat-type secret techniques that could activate the Heaven and Earth Great Dao.

“As long as I understand the first diagram, the scale level of the Beast Scripture will not be difficult for me!”

He got up and moved around briefly. He immediately immersed himself in studying top-notch Great Dao secret techniques again.

Time passed slowly. In the blink of an eye, another hundred years passed quietly. At the defense line of the sea of stars, the human array formation puppet barrier was on the verge of collapse. Cracks appeared on the surface of dozens of Golden Immortal puppets.

“Send a message to Gray Stone City and tell Shen Ping and the others to be prepared to retreat at any time!”

Chapter 642: Apprehension (1)

Penglai Immortal City.

As the head of the human sects in the western district of the Abyss of Supreme Darkness, the Tai Hua Sect also received the news from the sea of stars immediately. After knowing that the defense line was about to collapse, its Grand Elder, Hua Yun, who was a Tenth Tribulation Itinerant Immortal, immediately gathered the upper echelons of the sect and announced that the sect was sealed.

Although the main target of the alien Immortal Dao experts in the sea of stars was Gray Stone City, as the saying went, if a fire broke out at the city gate, it would implicate the fish in the net. Their Tai Hua Sect had no resistance against such a powerful alien Immortal Dao faction. Furthermore, the alien Itinerant Immortals would not let go of such an opportunity. They would definitely take advantage of the situation and destroy the human sects.

Therefore, sealing the mountain was the best choice at this time.

Other than the Tai Hua Sect, the other sects also sealed the mountain and activated the sect's array formation. They also secretly transferred the outstanding disciples in the sect. After all, no one knew if those foreign immortal cultivators would shift their targets to them after dealing with Gray Stone City.

The abnormal movements of the various sects in the Penglai Celestial City quickly attracted the attention of the sects in the other cultivation cities. They sent representatives to investigate, but they did not receive any response. However, a few months later, these sects obtained some news from the frontline battlefield. It was said that the foreign races had been attacking very fiercely on the battlefield recently. It seemed that a large number of strong reinforcements from the foreign races quickly arrived.

Even though they did not know the exact situation, these sects began to make preparations.

Some gossip also spread throughout the cultivation world of the Abyss of Supreme Darkness. It was said that the True Treasure Pavilion was too powerful and had already attracted the attention of the Immortal Dao experts of the foreign races. Before long, the foreign races would send powerful True Immortals and Heavenly Immortals to the lower realm to completely destroy the True Treasure Pavilion.

Although the True Treasure Pavilion did not respond to this, some elders and guest elders received a message from Yue Lingluo, telling them to prepare early. In the future, the cultivation environment in the Abyss of Supreme Darkness might be even worse.

Although they did not say it explicitly, when these words spread, all the cultivators in the cultivation cities under the jurisdiction of the True Treasure Pavilion were in a panic. The usually prosperous scene became deserted in a short month or two. After most cultivators spent their assets to buy enough resources, they left the city and hid in a remote place at the edge of the Black Mist Direlands.

!!..

No matter what, the Black Mist Direlands was a place that foreign races were unwilling to step into. Even if the spiritual energy of heaven and earth here was extremely thin, this was not important compared to their lives.

In the past, when the foreign races formed an alliance to slaughter the humans, many sects did not have time to escape. This time, they received the news in advance. Even if they did not know if it was true, many cultivation families and cultivators were frantically preparing to escape.

The situation in Gray Stone City was slightly better, but it was also becoming more and more deserted. The number of cultivators on the twelve main streets was worse than before. Clearly, many cultivators did not think highly of the True Treasure Pavilion. After all, they were facing foreign True Immortals and Heavenly Immortals this time.

Sword Seal City.

The Body Integration cultivators of the Devil Clan, the Spirit Race, the Flame Race, and other races gathered again. Ever since the rise of the True Treasure Pavilion, their sphere of influence had been suppressed too much over the years. In the end, they could only move around the clan ground. Even the Body Integration Supreme Elder was no exception.

“Is the news that a True Immortal and Heavenly Immortal have descended to the lower realm to destroy the True Treasure Pavilion true?”

The Body Integration elders of the other races looked at the Spirit Race’s Grand Supreme Elder.

The Spirit Race’s Body Integration cultivator stroked his beard and laughed loudly. “The news is true. The Penglai Immortal City personally sent a message asking us to prepare to take over the human faction. Fellow Daoists, don’t miss this opportunity. If we can obtain the resources of the True Treasure Pavilion, it won’t be difficult for us to break through to the Mahayana Realm.”

As soon as he said this, excitement appeared on the faces of the other Body Integration elders.

In the City Lord Manor of Gray Stone City, Yue Lingluo, who was in charge of the affairs of the True Treasure Pavilion, did not care about the changes in the various cultivation cities. She did not have the leisure to manage them. She, Wang Yun, Yu Yan, and the others were waiting anxiously in the pavilion by the lake for Shen Ping to come out of seclusion.

The defense line in the sea of stars was about to collapse. Although they had the Nine Continents Tower as a way out, their husband had not come out of seclusion for a long time. It still made them extremely anxious. After all, the immortal cultivators of the foreign races in the sea of stars were very fast. They would only need a few days to reach Gray Stone City.

If Shen Ping was still in seclusion at that time, it would be too late to retreat. Moreover, even if he retreated to the Nine Continents Tower, the foreign races would sense it.

“What did Senior Lian say?”

Wang Yun, Pei Huoyu, Qiu Ying, Luo Qing, and the other women looked at Yu Yan. Yu Yan was in charge of contacting Lian Xuejin. This was specially instructed by Shen Ping.

In fact, among the many wives and concubines, Yue Lingluo was in charge of external affairs, while Yu Yan and Wang Yun were in charge of internal affairs. They would not interfere with each other.

Yu Yan shook her head and said, “Senior Lian said that Husband should be comprehending an important secret technique. No matter how urgent it is, don’t disturb him.”

Wang Yun could not help but say, “But if the Heavenly Immortals and Golden Immortals of the foreign races come, he will be in danger!”

Luo Qing reminded her, “Sister Yun’er, there’s still the immortal formation. Husband said that this immortal formation can withstand the attacks of Golden Immortals. Moreover, I don’t think the human Golden Immortals at the defense line will ignore it. If they help, this immortal formation can last for a long time.”

Pei Huoyu nodded. “That’s right. Let’s wait patiently. It’s useless to be anxious now.”

Qiu Ying looked at Wang Yun. “All the descendants of my Shen family have returned to the City Lord Manor. We are bound together for good or ill. Even if we really can’t avoid this calamity, it’s our wish to die with him..”

Mu Jin, Yin Honglian, Yu Qingling, Yingyue, and the others nodded. At this level of cultivation, they were not afraid of death, but they were afraid of their husband's death.

Shen Ping closed his eyes and sat cross-legged in the quiet room. A mysterious and obscure aura fluctuation lingered around his body. Time and space seemed to no longer exist. In the World Pearl, the body condensed by consciousness kept collapsing and collapsing. After another hundred collapses, Shen Ping's powerful spiritual sea felt that it could not hold on.

He retracted his consciousness and immersed himself in his sea of consciousness again. Looking at the True Book of Dao Origin that was floating side by side with the World Pearl, he could not help but sigh. He had already comprehended the first diagram on the first page long ago. However, when he was about to continue comprehending the second diagram, he realized that it was difficult for him to comprehend it. Now, after trying more than a hundred times, he had no choice but to stop comprehending.

"I can clearly understand part of the diagram through the second annotation. Why can't I enter the state?"

He suppressed the doubts in his heart. He opened his eyes and looked at his palm. With a thought, a medicinal pill slowly condensed in the center of his palm. This medicinal pill was the Foundation Establishment Pill. Although it was effortless for him to refine such a low-level medicinal pill with his alchemy cultivation, such a situation where he did not need any materials and only relied on his mind to condense a medicinal pill was unheard of in the past. It was simply a divine power that made something out of nothing.

Tens of breaths passed. The Foundation Establishment Pill turned into dust and disappeared.

A smile appeared on Shen Ping's lips. This was what he had gained from comprehending the first painting for nearly 100,000 years. The condensation just now was not made out of nothing, but condensed from comprehending the essence of the Great Dao and communicating with the invisible origin of space. Unfortunately, he had not comprehended the origin of the Great Dao. His body could not contain and absorb the origin of the Great Dao, so he naturally could not create something out of nothing. If he had the origin of the Great Dao, not to mention the Foundation Establishment Pill, even an immortal pill could be instantly condensed.

After all, the world itself evolved from Origin. Every flower, grass, and tree was the Origin.

After comprehending the first diagram, he had already become a true beginner in the fluctuation of the Great Dao. Although he had yet to master the fluctuation, he could activate this fluctuation at any time and even fuse it into his divine power spell techniques, including the Primordial Chaos Spear. "The beast form, beast skin, beast bone, and beast blood in the Beast Scripture are all close to the Great Dao of Heaven and Earth. At the scale level, they have already begun to come into contact with the Great Dao of Heaven and Earth and reveal the true power of the strange beasts. However, this power is still superficial and is far from the true power of the Great Dao of Heaven and Earth!"

He had a deeper understanding of the strange beasts and the Beast Scripture.

He no longer only knew how to comprehend them and did not understand their principles like before. He could even vaguely guess that the Beast Scripture was created by an expert at the Venerable Sovereign level. This was because to create it, he needed to analyze and grasp the

principles of the Heaven and Earth Great Dao contained in the strange beasts. Only then could he combine the Hundred Arts of the Immortal Dao to create it.

Only a Venerable Sovereign who had grasped the Heaven and Earth Great Dao could do this.

He stood up. He stretched his body and stepped out of the quiet room. Although he did not manage to comprehend the second diagram of a top-notch Great Dao secret technique this time, comprehending the first diagram had already caused Shen Ping to undergo a true transformation from the inside out.

Even ordinary walking carried traces of the Great Dao. Of course, this was because he had just comprehended it. However, his strength had indeed increased drastically.

After all, in the past, when he comprehended the Beast Scripture or even became a Beast Spirit to activate the Beast Spirit Treasure, the power he unleashed was only the superficial power of the Great Dao of Heaven and Earth, it might not even be considered as superficial. Even so, the power was terrifying. Now, he had already entered the basics of the Great Dao of Heaven and Earth and could truly unleash a trace of the power of the Great Dao of Heaven and Earth.

Simply put, if the fake power of the Heaven and Earth Great Dao was a bow and arrow, then the true power of the Heaven and Earth Great Dao was a cannon. The two were simply worlds apart.

“I wonder if I can fight a Golden Immortal now.” As he walked slowly, Shen Ping pondered. Golden Immortals were the limit of what the lower realm could withstand. If he could fight Golden Immortals head-on, he would no longer have to fear or worry.

“I have to comprehend a combat-type Great Dao secret technique as soon as possible. Only then can I better use the fluctuations of the Great Dao of Heaven and Earth to form my own combat strength!”

The Primordial Chaos Spear was a top-notch Beast Spirit Treasure. Its first and second forms were actually not very powerful. At the third form, which was to comprehend the power of the scale armor level, there was a true qualitative change. He thought so in the past, but after cultivating a top Great Dao secret technique, he had a different understanding.

Although the Primordial Chaos Spear form was powerful, it was difficult for anyone to truly unleash it. This was because the power in the Primordial Chaos Spear was created by other experts.

Everyone cultivated differently, so it was naturally impossible for them to perfectly display other people’s secret techniques. Therefore, most experts would create their own secret techniques in the end.

Shen Ping had yet to reach the level of creating his own secret technique, but he would try his best to unleash everything he had comprehended and master

It could be said that this was also his greatest gain this time. How could he, who was not good at fighting in the past, understand this?

“Husband, you’re finally out of seclusion!”

Before he reached the pavilion by the lake, beautiful figures flashed in front of Shen Ping.

Looking at the expressions on Wang Yun, Yu Yan, and Pei Huoyu's faces, Shen Ping could not help but ask, "What's wrong?"

Yu Yan hurriedly said, "There's a problem with the defense line in the sea of stars. According to Senior Zhan, who's guarding Gray Stone City, the Immortal Dao experts of the foreign races have increased their attacks this time. The array formation puppet barrier can't hold on and will collapse soon." Shen Ping did not have much of a reaction. He smiled and said, "It's fine. Even if the defense line collapses, those Golden Immortals won't be able to kill their way in with the immortal array in the residence. Moreover, there's the Nine Continents Tower. When the time comes, you can enter the five continents and four seas to ensure your safety."

He had many ways to protect himself. Be it the teleportation, enhancement, Pupil of Sea Beast, Soul Parasite, Great Dao treasures, bronze talismans given by the Venerable Sovereign, immortal formations, and so on, he was not afraid of Golden Immortals. As long as his wife, concubine, and Dao companions were fine, he was not afraid even if the Golden Immortals of the foreign races surrounded him.

Wang Yun, Yu Yan, and the other wives and Dao companions quickly calmed down. Of course, it was not because of Shen Ping's words, but because when Shen Ping came out of seclusion, their anxiety disappeared.

When he came to the pavilion by the lake to rest, Yue Lingluo explained the situation of the cultivation cities under the jurisdiction of the True Treasure Pavilion. In addition, there was the frontline battlefield. This battlefield was caused by the joint attack of the foreign races last time and had become a place for the various races to train their juniors. However, recently, the number of foreign race experts has increased greatly. Among them, there were even Body Integration cultivators who killed human cultivators wantonly. The cultivators of the Demon Race frequently entered and left, and they were very rampant. If it was in the past, Shen Ping did not take it too seriously. However, ever since he gave birth to a descendant with a bloodline, he had completely integrated into this cultivation world. He even treated the Abyss of Supreme Darkness as a place for his family to live and cultivate. Although there was a better human cultivation world, he often wandered around the five continents and four seas. Now, as his cultivation level increased, unless it was necessary, he would definitely not bring his wife, concubine, and Dao companions away. Therefore, he instructed, "Send a message to the guest elders in the pavilion to stabilize the various cities. Prepare to fight the foreign races. No matter how difficult the situation is, our True Treasure Pavilion will definitely resist the foreign races at the front."

Other than giving instructions, he also gave Yue Lingluo a lot of immortal spirit stones and immortal arrays and other resources. He asked her to send people to various cities to settle down.

After making the arrangements, he came to the Immortal Abode Building in the city and found the Heavenly Immortal senior who was presiding over it. "Senior Zhan, I wonder how long the defense line in the sea of stars can last?" The Heavenly Immortal senior shook his head and said, "According to Senior Li, we can last for more than ten years at most. At that time, the Golden Immortal seniors at the defense line will come to Gray Stone City and find an opportunity to break out of the encirclement and head to the cultivation world of our human race."

"More than ten years... is enough!" Shen Ping pondered for a while before leaving the Immortal Abode Building. He returned to the quiet room and first used the Taiyi Void

Immortal Talisman to spend a hundred years sorting out his comprehension. Then, he used half a month to adjust his state before stepping out of the City Lord Manor.

This time, he wanted the Immortal Dao experts of the foreign races to know the outcome of suppressing him, Shen Ping..

Chapter 644: Hunter and Prey (1)

The Abyss of Supreme Darkness was a remote mountain range close to the Black Mist Direlands. It was shrouded in fog all year round. In the past, some cultivators had entered this place to explore ruins, but they never came out. Then, this place gradually became a forbidden area. Later on, a Body Integration cultivator investigated and found out that this place was a special area of the Demon World that was connected to spatial rifts, causing the fog to be filled with poison. This poison could easily kill Golden Core and Nascent Soul cultivators.

At the core of the fog, Shen Ping, who was wearing an armor treasure, stood at the edge of the crack. He was prepared to use the same trick to enter the Canglan Demon World again to relieve the pressure of the defense line in the sea of stars and the Abyss of Supreme Darkness. After all, the target of the Immortal Dao experts of the foreign races was him. As long as he was in the Canglan Demon World, the attention of the foreign races would definitely be diverted.

He looked down at the true treasure armor. The surrounding poison was naturally forced back 100,000 feet by the aura emitted by the armor. Most of the poisonous gas had even been purified, and this was before the treasure was activated. If it was activated, the might of the Great Dao treasure alone could shatter Itinerant Immortals.

The Golden Immortals of the foreign races could not approach at all. It was a pity that with his current cultivation and Great Dao comprehension, he could not activate it at all. Even if he wore it, he could feel an extremely great pressure. If not for the core operating in the Great Dao Treasure and the fact that this treasure was extremely related to the True Book of Dao Origin, he would not even be able to wear it.

“Heavenly Star Armor.”

This was the information he had received when he came into contact with the Great Dao treasure back then. Other than the name, there was also information on how to activate it. If he wanted to erupt with its power, he had to at least begin with the Great Dao of Heaven and Earth. Moreover, he had to cooperate with an energy crystal called the Chaos Stone to support it. If he comprehended the complete Great Dao of Heaven and Earth, he would not need the Chaos Stone.

Shen Ping had checked in the clan’s treasure vault for the Chaos Origin Stone. It was a very precious mineral resource that could only be found in the Realm Sea. The entire clan’s treasure vault only had a hundred Chaos Origin Stones at the moment, and each one was worth ten contribution points.

Although he could not activate it, he could feel the enhancement brought about by the Heavenly Star Armor just by wearing it. Especially when he activated the Great Dao fluctuations to conceal

himself or used the Primordial Chaos Spear, the Heavenly Star Armor could reduce the consumption of his soul to a negligible level.

He did not know what he would encounter on this trip to the Canglan Continent. Therefore, wearing this Great Dao true treasure armor undoubtedly increased his life-saving ability greatly.

The resplendent crystal trembled.

“Master.”

Soon, Lian Xuejin’s gentle voice sounded. “Disciple, do you really plan to go to the Canglan Continent again?”

Shen Ping nodded. “That’s right. Master, don’t worry. My strength is no longer the same as before. The reason why I want to go to the Canglan Demon World is indeed to reduce the pressure on the Abyss of Supreme Darkness. On the other hand, I also want to test my strength.”

If he stayed in the Abyss of Supreme Darkness and waited for the defense line to collapse, he would not only face the Golden Immortals of the Demon Race, but also the hundreds of Golden Immortals of the Devil Clan, the Demon Race, the Spirit Race, the Flame Race, and the other races. They would not fight him one-on-one, and the Golden Immortals of the human race would not let him take the risk.

Therefore, only by going to the Canglan Demon World would he have the chance to use it.

Lian Xuejin could feel the confidence in Shen Ping’s words. She knew that her disciple must have made some progress in comprehending the Great Dao secret technique. However, she still said in a solemn voice, “Disciple, I know you’re confident, but don’t forget that you caused the Demon Race to be covered in dust the last time you went to the Canglan World. They will definitely be on guard. Don’t underestimate any powerful race. I’m worried that once you enter, you won’t be able to return.”

Shen Ping knew what Lian Xuejin meant. He naturally would not be arrogant. “Master, I left a clone in Gray Stone City. If necessary, I can use the clone to save my life. I’ll just throw away some external items.”

His Soul Parasite talent could transfer his consciousness. This was the greatest confidence he had in daring to go to the Canglan Demon World alone. Even if he encountered a desperate situation, he could abandon his body in time. Although he would lose the Heavenly Star Armor and other treasures, as long as his soul was still around, he would have a chance to start over. Moreover, he still had the Bronze Talisman with him. “A young eagle has to grow up and experience the wind and rain!” He said something else.

Lian Xuejin immediately fell silent. After a long while, she sighed and said, “Alright, but you have to be extremely careful. Don’t be rash.”

Shen Ping smiled. “Yes, Master. Yun’er, Yan’er, and the others will have to rely on you.”

The exchange ended. He looked at the spatial rift in front of him and stepped in resolutely.

At the defense line of the sea of stars, Golden Immortal Ling Guan looked at the array formation puppet barrier that was continuously weakening with a calm expression. He turned his gaze to the

Demon Race's Beast Spirit genius and asked, "Has everything been arranged on the side of the Canglan Demon World?"

"A Void Spirit Immortal Restriction Array has been set up. This immortal formation can seal most of the spatial rifts. Although it's very costly and requires hundreds of years to set up, as long as that human prodigy dares to enter the Canglan Demon World, he will definitely not be able to return!" The Demon Race's Beast Spirit genius said confidently.

Golden Immortal Ling Guan nodded, "We can't be careless. Last time, that human Beast Spirit genius disappeared under the nose of your Demon Race's Ancient Demon. Clearly, he has a method to hide his detection. This time, the upper echelons of our race value him extremely. If we fail, we won't have a good time in the race in the future."

The Beast Spirit genius of the Demon Race smiled and said, "Don't worry, that human prodigy won't be able to escape this time!"

In fact, the main purpose of the foreign races attacking the defense line in the sea of stars with all their might was to rush Shen Ping to the Canglan Demon World. This was because if they were in the Abyss of Supreme Darkness, with the protection of the Golden Immortals of the human race, even if they broke through the array barrier, they might not be able to kill Shen Ping. However, it was different in the Canglan Demon World. That was the lower realm of the Demon Race. The Immortal Dao experts of the Demon Race naturally had the advantage. They were not restricted much and could use many methods. As long as they sealed the spatial rift, many Golden Immortals would definitely be able to completely deal with Shen Ping..

Chapter 645* Hunter and Prey (2)

Canglan Demon Realm.

At the core of the Void Spirit Restriction Immortal Array, more than 50 Level 2 Ancient Demons of the Demon Race had gathered, which was at the Golden Immortal level. The remaining Ancient Demons and True Demons numbered nearly a thousand. It could be said that the Demon Race had invested a lot to deal with Shen Ping.

With so many Ancient Demons and True Demons, they could completely guard the small spatial cracks that the immortal formation could not take care of. Although such cracks could only accommodate people below the Nascent Soul realm, they still arranged a large number of True Demons and Ancient Demons here just in case.

The immortal formation could also lock onto the aura fluctuations of the foreign races to a certain extent. Suddenly, the 50 Level 2 Ancient Demons sitting cross-legged opened their eyes at the same time. Just now, the immortal formation had reacted.

"That human Beast Spirit prodigy is here. Everyone, our chance to make a contribution has arrived. As long as we can deal with him, we can all enter the core Holy Land of the Demon Race to cultivate!"

As soon as the leader finished speaking, the eyes of the other Level 2 Ancient Demons flickered with desire. As long as they could cultivate in the core Holy Land, they could break through their current cultivation and take another step forward.

Swish, swish, swish.

Soon, the Level 2 Ancient Demons disappeared one after another. Not long after, they appeared at the array nodes of the entire Cangluan Demon World. In such a location, they could use the array formation to investigate Shen Ping's movements.

Previously, because they had acted in a hurry and had underestimated that Beast Spirit prodigy, they had not done anything. After learning their lesson, as long as the other party made any movements, they would be able to sense it immediately.

"Everyone, don't be anxious. Let him in first. When the time comes, we'll catch a turtle in a jar!!"

All the Level 2 Ancient Demons hid their aura fluctuations and waited quietly like withered trees. Unfortunately, they did not know that there was a strange beast talent in this world called the Pupil of Sea Beast.

On the other side of the spatial rift, a large amount of demonic aura mixed with poisonous gas with extremely strong corrosive abilities surged towards Shen Ping from all directions, but they were all blocked by the Heavenly Star Armor. Even the dense demonic aura could not affect him.

Swoosh.

He teleported out of this special area. He opened the Pupil of Sea Beast, and layers of red patterns immediately appeared in his eyes, forming circles of light that spread extremely far away. Almost instantly, figures with different energy auras appeared in his vision. "Tsk tsk, one, two... twelve!"

In the range of his Strange Beast Talent, Shen Ping quickly discovered twelve powerful Ancient Demons with powerful energy auras. Without a doubt, they were all second-stage Ancient Demons comparable to Golden Immortals. In addition, there were a large number of weaker Ancient Demons and True Demons. "You're really patient. You actually set up an array formation to deal with me."

The Pupil of Sea Beast could still see the energy aura of the array. Shen Ping, who was good at Pill, Talisman, Weapon, and Arrays, naturally could tell at a glance that the energy that enveloped an extremely wide area was an immortal array. "This array formation should be able to lock onto my aura. I wonder if the fluctuations of the Great Dao of Heaven and Earth can be concealed. I'll find a True Demon to try first."

Shen Ping narrowed his eyes and immediately urged the fluctuation of the Heaven and Earth Great Dao to enhance his body. His aura instantly disappeared completely. Unless one saw it up close, no divine sense could detect it. If they also had comprehension of the Heaven and Earth Great Dao, they could easily sense this fluctuation. However, these ancient demons did not have the ability to comprehend the Heaven and Earth Great Dao. They were at the immortal king level.

As the Void Spirit Immortal Restriction Array lost Shen Ping's location, all the Ancient Demons had ugly expressions. Although they knew that the other party had such a concealment method, they were completely prepared this time. Coupled with such a powerful immortal array, the other party could still hide his aura. This method really shocked them.

“It must be a treasure given to him by the upper echelons of the human Immortal Dao!”

Thinking of this, the ancient demons could not help but feel jealous. They could not even obtain such a treasure as a second-stage ancient demon, but a little fellow at the Mahayana Realm could. This world was really unfair!

There’s no need to panic. As long as he makes a move, the array will still be able to detect him. Let’s continue waiting!” The leader of the Ancient Demons sent a voice transmission. All the Ancient Demons continued to sit quietly and wait.

In a cave far away from the spatial rift, the True Demon guarding here was also sitting cross-legged. Even when Shen Ping arrived outside the cave, it did not notice anything.

“It’s you!” A cold smile appeared on his lips. Then, a silver-white Primordial Chaos Spear appeared in his palm. As the energy of the strange beast and his magic power infused into the strange beast pattern on the spear, he immediately augmented it with the fluctuations of the Heaven and Earth Great Dao.

Boom!!!

The first form of blood light erupted. The terrifying blood-colored light instantly destroyed the entire mountain range, and the world seemed to dim at this moment. With the enhancement of the Great Dao of Heaven and Earth, the blood light truly displayed the might of a strange beast.

Although it was not Shen Ping’s full strength, this attack killed the true demon on the spot before he could react. Its powerful body and soul were completely annihilated.

He looked at the huge pit in front of him. Shen Ping was extremely shocked. Even he was shocked. It had to be known that the original power of the blood light could only injure a True Demon when he unleashed his full strength. This time, he did not use many methods like enhancement and the Beast Spirit State to directly kill a True Demon. “Is this the power of the Great Dao of Heaven and Earth?!”

He came back to his senses. His eyes revealed unconcealable excitement. As a top ten Beast Spirit prodigy, even if he had a Mahayana Realm cultivation, killing a True Demon was actually nothing. After all, the strongest prodigies of the various races could fight Golden Immortals at the True Immortal realm, but killing a True Demon was completely different from instantly killing them. The former meant that he had such strength, while the latter meant that his strength had far exceeded that of a True Demon.

Although he knew that after he cultivated and comprehended a top-notch Great Dao secret technique, his strength would undergo a qualitative change like a fish leaping through the dragon gate, at this moment, Shen Ping still felt like he was dreaming.

Swoosh swoosh swoosh.

The True Demons and Ancient Demons, who had sensed the fluctuations in the distance, were rushing over at an extremely fast speed. Shen Ping swept his sleeve and put all the things left behind from killing this True Demon into his Storage space. Then, he concealed his aura and

quickly teleported away. A few breaths later, the auras caused the space to tremble as the Ancient Demons descended.

“Hartu’s dead.”

“It’s only been three breaths since we sensed the aura fluctuation and rushed over. Hartu actually couldn’t even last three breaths!!”

The Ancient Demons were shocked.

The Beast Spirit prodigy had killed a True Demon previously, but they did not take it too seriously. After all, the other party was the strongest prodigy of the Human Race. It was normal for him to have some abilities, but now, it was completely different. Even Ancient Demons like them could not kill a True Demon in such a short period of time.

After the other true demons reacted, they all felt fear in their hearts. Their strength was about the same as Hartu’s. If they faced Shen Ping, they would probably not end well.

“Five True Demons form a small team and guard a point. The Ancient Demons will coordinate from the side. If you discover the other party, don’t fight with him and hold him back first!” After the leader of the Level 2 Ancient Demon team found out, he quickly responded, “Don’t be careless. This strongest human prodigy is not an ordinary cultivator.”

“Yes!”

Shen Ping quickly discovered the changes in the Ancient Demon and True Demons of the Demon Race. Previously, in order to guard all the blind spots, they were each in charge of a region. This region was not far, and they could arrive in three to five breaths. However, after seeing his strength, they clearly did not dare to make such arrangements. They still narrowed the area they were guarding. “You think you can restrain me like this. Heh.”

His gaze landed on the Level 2 Ancient Demons within the range of the Pupil of Sea Beast, and he revealed killing intent as if he was looking at prey. Killing a True Demon was not enough to intimidate this group of Demon Race experts..

Chapter 646: Complete Outburst (1)

Whoosh.

Under the cover of the Heaven and Earth Great Dao fluctuations, Shen Ping teleported several times like a ghost to the node of the Void Spirit Immortal Sealing Array. Every node was guarded by a Level 2 Ancient Demon. They would never have thought that the human beast spirit prodigy they were looking for would actually take the initiative to find them.

After all, no matter how peerless a genius was, it was impossible for him to fight a Golden Immortal at the Mahayana Realm, let alone kill one in an instant. As long as these Level 2 Ancient Demons could withstand four to five breaths of time, the Level 2 Ancient Demons at the other nodes could

rush over through the immortal formation. At that time, Shen Ping would definitely die when facing many Level 2 Ancient Demons.

It was precisely because of this that these Level 2 Ancient Demons still dared to guard the node alone after knowing Shen Ping's powerful strength. He looked at the Level 2 Ancient Demon that was already in the attack range.

Shen Ping's heart could not help but beat faster. Golden Immortals were experts even in the Immortal Dao territory. They were existences who could become the lord of a city in a remote immortal city, and now, he was going to challenge such an expert.

Beast Spirit state activated.

Enhancement talent activated.

Spirit Transformation secret technique activated.

Boom! His late-stage Mahayana Realm cultivation had climbed to the peak of the Tribulation Transcendence realm, and his aura was much stronger than a Five Tribulation Itinerant Immortal.

The Level 2 Ancient Demon, who was sitting cross-legged and waiting quietly, also sensed the aura fluctuation at the first moment. He was not shocked but delighted. "Hahaha, human junior, you're really bold. You actually dare to come to my door. Since you took the initiative to die, stay!"

Splash. In half a breath's time, the area within hundreds of thousands of kilometers of the node was enveloped by a terrifying demonic aura pressure. There was a demonic domain with extremely strong suppression and restraint.

"Die!!!" The Level 2 Ancient Demon condensed a fist and smashed it fiercely at the source of the aura. In an instant, his fist was the size of a towering mountain. Not only did it lock onto Shen Ping, but it also sucked up all the demonic aura in a radius of thousands of feet.

Even when facing a Mahayana Realm junior, it used its full strength. If it were an ordinary Mahayana Realm cultivator, they would not be able to withstand the pressure alone.

However, Shen Ping's expression did not change at all. The Great Dao treasure on his body, the Heavenly Star Armor, had blocked the pressure of the Demonic Qi Domain. He was not affected at all. Under the powerful cultivation, magic power, and strange beast energy at the peak of the Tribulation Transcendence, the fluctuations of the Heaven and Earth Great Dao, and the enhancement of the Beast Spirit, the silver spear body of the Primordial Chaos Spear had already completely turned purple.

As the fist of the Level 2 Ancient Demon pressed down, the purple Primordial Chaos Spear suddenly erupted with a purple aurora that seemed to be able to penetrate space. This was the power of the third form, Extreme Purple Divine Brilliance.

Roar!

As the purple aurora burst forth, waves of shocking beast roars condensed behind the dazzling light. Time and space seemed to have stagnated, and even the towering mountain-like fist stopped.

Bang!!

The purple aurora directly pierced through the fist, and at the same time, it instantly struck the Level 2 Ancient Demon with an unparalleled terrifying power.

Crack.

The mid-grade immortal artifact armor on its body instantly shattered, and its body, which could easily withstand the attack of an immortal artifact, cracked. However, this Level 2 ancient demon did not die. As its eyes revealed shock, it hurriedly took out a bottle of liquid and drank it. Its ruptured body barely suppressed the terrifying and sharp destructive power.

Immediately after, it burned its life and soul and fled crazily to another node at an incomparable speed. It also sent a message to its leader, "T-That human junior has the strength to kill a Level 2 Ancient Demon!!"

Shen Ping held the Primordial Chaos Spear and teleported to chase after it. Although he could no longer unleash the power of the third form, he could easily kill this Level 2 Ancient Demon who was seriously injured and on the verge of death. Just as he was about to take out the high-level beast spirit treasure that bound the enemy, the Level 2 Ancient Demon suddenly emitted a green fog. This fog actually corroded his divine consciousness and mind. He had no choice but to immediately expel and suppress the fog.

In the time it took to breathe, the second-stage Ancient Demon had fled far away.

Shen Ping, who had dispersed the fog, sensed a huge aura coming from afar. He frowned and could only teleport away first.

It had only been four breaths since he attacked. He did not expect the other Level 2 Ancient Demons to support him so quickly. Most importantly, the Level 2 Ancient Demons had more methods. They even had poisonous fog that could corrode the soul.

If it was just a method targeted at his body, with the armor supreme treasure, he did not have to care. However, his soul was different. That was his greatest weakness.

However, Shen Ping was not too disappointed that he could not kill the second-stage Ancient Demon this time. Other than intimidation, his main goal was to test his strength. Now, through this second-stage Ancient Demon, he estimated that all his methods should be comparable to a Golden Immortal.

However, due to the power of the Great Dao fluctuations and the special nature of the strange beast energy, it was difficult for Golden Immortals to resist.

After all, the power of the Great Dao was generally only used by Immortal Kings. This was a direct suppression of the energy level.

His teleportation and aura concealment methods were the key. Without these two abilities, no matter how strong he was, it would be difficult for him to approach the Level 2 Ancient Demon immediately. The other party would have enough time to deal with it.

"This time, I think these experts of the Demon Race will be afraid of me. They might even ask for help from the Star Sea defense line or the upper echelons of the Demon Race's Immortal Dao. It's impossible to attack the Level Two Ancient Demons next. I can only target the Ancient Demons and True Demons guarding the spatial rift.."

Chapter 647: Complete Outburst (2)

Shen Ping's goal was very clear. Although he had tested his strength this time, he was not blindly arrogant. The spatial rift was the most important. As long as the Demon Race was not guarded enough, he could come and go as he pleased.

"Gu Li, how are your injuries?" The leader of the team who rushed over looked at the injured Li Gu and suppressed the shock in his heart.

Gu Li shook his head. "My life isn't in danger for the time being. It's just that it's difficult for me to continue guarding this place. That human junior's strength is unexpected. If I didn't have some trump cards, I'm afraid I would have died in the Canglan World this time."

There was a trace of fear in its voice. Poison that could corrode the soul was relatively rare. He had also paid a considerable price to obtain it. He originally planned to use it to explore the ruins, but it was used in the lower realm. The other Level 2 Ancient Demons could not help but ask, "Gu Li, what method did that human junior use to injure you to this extent?"

Gu Li was a Golden Immortal. Only cultivators at the advanced-stage of the Mysterious Immortal Realm or even the peak of the Mysterious Immortal Realm could almost kill him in a few breaths.

They really could not imagine that a Mahayana Realm Beast Spirit prodigy would be so terrifying.

Gu Li shook his head and recalled the previous situation. He said in a low voice, "I'm not sure about the exact situation. The other party should have a top-notch beast spirit treasure in his hand. As for what method he used, I'm not a Beast Spirit genius and can't detect it. However, the power that the other party erupted with is at the Golden Immortal level. However, its penetration is extremely strong. It's the kind of penetration that can't be blocked at all. My armor directly shattered. If I hadn't used resources to strengthen my body, my body would probably have collapsed immediately."

He said with lingering fear, "Moreover, that power goes straight to the soul. In a crisis, I used the Nine Deaths Heavenly Soul Liquid to nourish the soul and body to barely save my life."

All the Level 2 Ancient Demons, including the leader, felt their hearts sink. "Doesn't this mean that if we don't have such methods or have strengthened our bodies, we will be directly destroyed like the True Demons when facing that human junior?"

Many Level 2 Ancient Demons were afraid. They did not come to the Canglan Continent to die. Although they would obey the orders of the higher-ups, they would not die for nothing. And now, the strength of the human junior had clearly exceeded their understanding.

The leader glanced at the other Level 2 Ancient Demons and said solemnly, "I'll report this matter and ask for help at the same time. I believe the higher-ups will quickly react. From now on, three people will guard a node. Although we can't see everything, as long as the immortal formation reacts, we can rush over quickly."

The other Level 2 Ancient Demons nodded one after another. Just as they were about to do something, the immortal formation reacted. It was the spatial crack, and they immediately rushed

over. When they arrived at one of the small spatial cracks, they saw that the true demons and ancient demons guarding it had all died. Only the traces of the battle were left.

The Level 2 Ancient Demons looked at each other. Only now did they realize the seriousness of the matter. With the other party's strength, they could make arrangements to deal with him, but what about the True Demons and Ancient Demons? Once the spatial crack could not be defended, the immortal array would lose its meaning.

"That human junior couldn't have left, right?"

"Let's go back first and inform the Ancient Demons and True Demons to gather together!"

At the defense line of the sea of stars.

Outsider Alliance Main Hall.

When Golden Immortal Ling Guan heard the words of the Demon Race's Beast Spirit Prodigy, his eyes revealed disbelief, "How is that possible? That human junior is still on the first level of the Heavenly Palace. He's clearly not a True immortal yet. At most, he'll reach the Tribulation Transcendence Realm. Even if he has a secret technique that can increase his cultivation, he'll at most be comparable to a True Immortal. How can he almost kill a second-stage Ancient Demon of your Demon Race?!"

The Beast Spirit Prodigy of the Demon Race said helplessly, "Don't forget that he has a top-notch Beast Spirit Treasure. A treasure of this level is very powerful. Moreover, he should have reached the scale level. According to the strongest prodigy of the clan, the power activated by the scale level can injure a Golden Immortal if it's activated by a Heavenly Immortal.

"That human junior must have other methods that we don't know about. He's the strongest prodigy of the human race now. It's very likely that the higher-ups of the human race or the Venerable Sovereign will bestow him with some powerful treasures."

Golden Immortal Ling Guan still could not believe it. After all, the strongest prodigy of their Spirit Race, Ling Hao, was at the early-stage Heavenly Immortal realm. He had used many methods to barely defeat a Golden Immortal, but it was basically impossible to kill a Golden Immortal.

Compared to True Immortals and Heavenly Immortals, the overall strength of Golden Immortals had already undergone a qualitative change. Be it immortal artifacts or other immortal Dao spells, they were much stronger. Otherwise, Golden immortals would not have been able to become the master of an immortal city in the immortal Dao territory.

The Beast Spirit Prodigy of the Demon Race continued, "At the moment, it's meaningless no matter how many Level 2 Ancient Demons we send to the Canglan World, unless we let Level 2 Ancient Demons guard the spatial rift. But that means we can't guard it properly, as one is not enough to guard it. Fellow Daoist Ling Guan, you should know how many spatial rifts there are in the Canglan World that connect to the Abyss of Supreme Darkness. The larger ones can be guarded, but there are too many small ones. It's impossible for our Demon Race to send too many Level 2 Ancient Demons.

The competition between the myriad races in the Immortal Dao territory was very intense, especially the competition for the cultivation places in the territory. It happened almost every moment. Although the Demon Race was a powerful race, their territory was vast and there were many neighboring races. Once too many Level 2 Ancient Demons were transferred, it would definitely cause the defense line of the entire territory to slip. If the human race took the opportunity to invade at this time, the Demon Race would definitely fall into a passive state. After all, Level 2 Ancient Demons were not True Demons.

When Golden Immortal Ling Guan heard this, he could not help but say, "How many Level 2 Ancient Demons can the Canglan Demon World dispatch? As long as it did not exceed more than a hundred, can it affect your Demon Race?" The Beast Spirit Prodigy of the Demon Race shook his head and said, "This is the decision of the upper echelons of my Demon Race. The Canglan World can only be in a stalemate for the time being. If there's a chance, my Demon Race will definitely deal with the other party."

Golden immortal Ling Guan really wanted to say that he could not work with him. However, when he thought of how the Demon Race had always liked to screw up, he endured it. The higher-ups of the other party were just planning to exhaust the Spirit Race because the Spirit Race was the main force in the defense line. "I'll report this to the higher-ups." He flicked his sleeves and left.

Not long after, the upper echelons of the various races knew of Shen Ping's actions in the Canglan Continent. Apart from being shocked, they were even more curious about this new prodigy of the human race.

The upper echelons of the Spirit Race urged the Starry Sea to speed up their progress. They had to destroy the defense line in a short period of time. Even if Shen Ping escaped to the Canglan Demon World or the Black Mist Direlands, they had to deal with his cultivation cave abode in the Abyss of Supreme Darkness.

To put it bluntly, it was to prevent the other party from cultivating without any pressure.

Through his master, Lian Xuejin, Shen Ping knew that his actions did not reduce the pressure on the Starry Sea. He was silent for a moment before saying, "Master, do the higher-ups of the human race have any suggestions?" Lian Xuejin sighed and said, "Give up on the Abyss of Supreme Darkness and go to the Supreme Mystery Realm of our human race. That's the most prosperous cultivation place in the lower realm of our human race. Many immortal Dao experts have left their orthodoxies there. The foreign races don't dare to attack easily."

Shen Ping did not say anything. Speaking of which, he had stayed in the Abyss of Supreme Darkness for the longest time since he transmigrated. Although he did not have deep feelings for the Abyss of Supreme Darkness compared to the five continents and four seas, he had already treated Gray Stone City and the True Treasure Pavilion as the foundation of his family's reproduction.

Moreover, he was indeed tired of this kind of life of being on the run.

"Is there no other way?"

Lian Xuejin said, "Hide in the Nine Continents Tower and head to the Black Mist Direlands. The environment of the Black Mist Direlands is special. The Golden Immortals of the various races are even more restrained there. They won't be able to detect the Nine Continents Tower."

She seemed to understand Shen Ping's thoughts at this moment and could not help but say patiently, "Disciple, this is the safest method. There's still a long way to go. There's no need to take the risk for other reasons.

"Master, I understand. I will consider it seriously..

Chapter 648: Tribulation Transcendence (1)

After knowing the plans of the Devil Clan, the Spirit Race, and the other foreign races, there was not much meaning in continuing to stay in the Canglan Continent and kill the Immortal Dao experts of the Demon Race. Therefore, Shen Ping returned to the western area of the Abyss of Supreme Darkness through a spatial rift that day. He first went to the frontline battlefield.

The battle here was incomparably intense. Many guest elders of the True Treasure Pavilion, as well as some sect elders and Void Refinement and Body Integration cultivators who were on good terms with them, came here to fight the foreign races. However, most of the human sects sealed their mountains and did not come out. Only a portion of the guest elders in the pavilion chose to leave.

Shen Ping did not let Yue Lingluo force them. After all, this was a matter of life and death. If it was anyone else, they would prioritize their own lives. As for the guest elders who dared to fight the foreign races, he had already asked Yue Lingluo to remember them. After the crisis passed, he would give these guest elders additional resources.

He floated in midair. He looked at the battlefield. However, none of the Hall Masters and some main hall-level Body Integration experts retreated and entered the battlefield.

They had fought with Derivative Beasts in the five continents and four seas. Facing the foreign races, none of them retreated. Originally, he hated some of the hall masters, but at this moment, the disgust in Shen Ping's heart disappeared a lot.

"Lingluo." When he arrived at the rear camp set up by the True Treasure Pavilion on the battlefield, he entered one of the barracks and saw Yue Lingluo, who was wearing armor and magic treasures. The strongest strength of the other wives and concubines was only at the Void Refinement Realm and could not participate in such a battle. As for Yue Lingluo, she was at the Body Integration Realm and would not have much of a problem here. Furthermore, as the person in charge of the True Treasure Pavilion, if she did not appear under such circumstances, it would definitely be a huge blow to the morale of the human race.

"Husband!" When she saw Shen Ping, Yue Lingluo revealed a look of joy. She naturally knew that Shen Ping had gone to the Canglan Demon World. Although her husband was very powerful, no one could guarantee that they would win in a battle between cultivators. Now that she saw her husband return safely, the worry in her heart instantly dissipated.

The two of them hugged briefly and got down to business.

“Husband, you don’t have to worry about the battlefield. Although the foreign races have sent many Body Integration cultivators and Mahayana Realm experts, our True Treasure Pavilion has a very strong foundation. We rely on various powerful array formations, puppets, spirit insects, and other methods to gain the upper hand.

“Especially some Void Refinement and Body Integration cultivators from your hometown. They have many methods and are extremely strong in combat. Furthermore, they are very good at techniques. In less than a few months, more than 20 Void Refinement cultivators died in their hands. Even one of their Body Integration cultivators died.”

Yue Lingluo paused for a moment and continued, “The only thing we need to consider is the defense line in the sea of stars. If it collapses, will the foreign races send True Immortals and Heavenly Immortals to help the foreign races? Although you left behind a powerful immortal array, it will probably be very difficult for us to activate it to resist the True Immortals and Heavenly Immortals with our cultivation.”

Shen Ping nodded and said in a low voice, “The power of those immortal formations is indeed not low. They can resist True Immortals and Heavenly Immortals. How about this? I’ll talk to the Starry Sea and ask them to send a few True Immortals and Heavenly Immortals to maintain it.”

Yue Lingluo smiled and said, “Thank you, husband. With a True Immortal and Heavenly Immortal presiding over this place, as long as the Golden Immortals don’t attack forcefully, this place will be safe.”

They chatted for a while more before Shen Ping kissed Yue Lingluo’s red lips and said softly, “It’s been hard on you this time.”

Among his wives and concubines, Yue Lingluo was the only one who could help him. Yingyue and Pei Huoyu actually wanted to help, but their strength was still too low. Here, Yue Lingluo could not do anything.

“Husband, for us cultivators to be able to die in a battle with the foreign races can be considered a worthy death. It can’t be said to be difficult. Moreover, this is what I should do.” Yue Lingluo said frankly.

“If you’re in a desperate situation, send me a message!” Before leaving, Shen Ping said solemnly.

“I understand, husband.”

Back in Gray Stone City, Shen Ping walked slowly on the main street of the city that was as cold as a ghost market. His heart calmed down instead. Looking at the closed shops around him, he seemed to recall the days when Cloud Mountain Parlour had encountered a calamity. However, the difference was that he was an ant at that time. He could only try his best to find various ways to leave.

Now, he was indeed a powerful Beast Spirit prodigy who could fight a Golden Immortal. As the saying went, if the sky collapsed, there was a tall person holding it up. He was that tall person.

He walked back to the City Lord Manor. As soon as he arrived at the corridor, he saw a few worried maids. These maids were all Golden Core cultivators, but even if they were maids, there were many female Golden Core cultivators who wanted to enter the City Lord Manor.

But now, the City Lord Manor has become the most dangerous place.

“Greetings, Pavilion Master!”

When these maids saw Shen Ping and bowed, their eyes were filled with surprise and joy. Previously, the residence was empty. They thought that the Shen family had already left and left them here to fend for themselves. They did not expect the pavilion master to still be here.

Shen Ping nodded. When he passed by them, he sensed that the maidservants’ footsteps were brisk. They were clearly much more relaxed than before. He stood still and wanted to say something, but his lips moved a few times, but he did not say anything.

If Cloud Mountain Parlour had an expert guarding it back then, he probably wouldn’t have been under much pressure.

He came to the Scenery Pavilion not far from the lake. He walked up the tall building and placed his hands on the railing. He looked down at the scenery in the residence and some buildings in the distant city and suddenly felt a heavy pressure in his heart. He understood that this was responsibility. This responsibility was not only the concern of his wife, concubine, and Dao companions, but also a sense of belonging to the maidservants in the residence, the many cultivators in the city, and all the human cultivators in the Abyss of Supreme Darkness after he integrated into this world..

Chapter 649: Tribulation Transcendence (2)

“I can escape for a while, but can I escape for the rest of my life?!” As he muttered, Shen Ping’s gaze became more and more determined. He actually knew that he had never thought of leaving from the beginning, and now, he had only firmed his heart.

He stepped into the quiet room. He closed his eyes and pondered. “The main target of the Golden Immortals of the foreign races will definitely be me. As long as I don’t leave or hide in the residence, these Golden Immortals will definitely pursue me relentlessly. This way, the pressure on the frontline battlefield will be much less. The other cities will also be safer. I will have to face some True Immortals and Heavenly Immortals. When the time comes, the humans will just send True Immortals and Heavenly Immortals over.”

It was definitely impossible to solve the crisis just by escaping. After all, he still had to cultivate, comprehend the Great Dao of Heaven and Earth, and enter the Strange Beast Gate. The goal of the foreign races was to make him keep escaping. Therefore, he had to face them head-on and kill those foreign race Golden Immortals until they were terrified.

Thinking of this, he carefully recalled the situation when he fought the Level 2 Ancient Demon in the Canglan Demon World. Without a doubt, in the lower realms like the Abyss of Supreme Darkness and the Canglan World, his strength could indeed kill Golden Immortals. Because of the

restrictions of the interface, Golden Immortals could not unleash their true strength. If he went to the Immortal Dao territory and faced Golden Immortals again, it would be useless no matter how many methods he had.

However, most Golden Immortals had trump cards. Moreover, the foreign races already knew his strength. After the defense line collapsed, they would definitely not act alone. Therefore, it was unrealistic to kill a Golden Immortal.

Even if his strength increased, there would be accidents. That would instead make the Golden Immortals of the foreign races even more vigilant.

■'How can it be foolproof?' Shen Ping thought hard and sorted out his many methods over and over again. Suddenly, his eyes lit up. "That's right. How could I have forgotten about the Soul Parasite talent!"

He came to the Soul Parasite avatar. This avatar had formed its own avatar through the Soul Parasite talent in the palace. Its illusion technique was extremely strong, but its strength was ordinary. In the palace world, it had restrictions and suppression, so it could naturally trap most cultivators. In reality, it was very useless. However, it could rely on illusion techniques to make some arrangements.

Apart from that, the Soul Parasite talent could allow him to have three clones at the same time. As long as he killed a Golden Immortal and successfully Soul Parasite his corpse, he could perfectly turn this Golden Immortal into his clone.

One had to know that the clone formed by the Soul Parasite talent, other than the most basic soul aura being different from the original, its other forms, appearance, magic power, and so on were the same as the original.

In most cases, no one would specially investigate a cultivator's mind and soul. Moreover, many cultivators would not casually let other cultivators investigate. Therefore, as long as he could successfully use Soul Parasite, there would be a lot of room for him to operate it.

"No matter what, I have to give it a try. However, before that, I have to increase my cultivation level to the Tribulation Transcendence. This way, I'm more confident."

Shen Ping's eyes lit up. His cultivation had long reached the late-stage of the Mahayana Realm, and the Beast Spirit genius had basically not broken through the restrictions of his cultivation. As long as he had enough strange stones and Beast Spirit Pills to increase the magical power of the strange beast in his body, it would be fine.

Of course, if one relied on strange rocks to cultivate, the speed would be very slow, especially at the Body Integration, Mahayana Realm and Tribulation Transcendence. Even if there were enough strange rocks, every minor realm increase would take tens of thousands of years. This was considered fast.

The purer the bloodline of the strange beast, the faster its cultivation speed would be.

In addition, there were also Beast Spirit Pills. These pills could greatly increase the cultivation of Beast Spirit geniuses. The reason why Yin Ting of the Winged Race could break through so quickly was because of the Beast Spirit Pills he gave her.

He checked the Beast Spirit Pill. It was enough. Shen Ping was not in a hurry to sit quietly and cultivate. He got up and went to the Immortal Abode. “Senior Zhan!”

When he bowed, Senior Zhan hurried forward. “Fellow Daoist Shen, there’s no need to be so polite. You almost killed a Level Two Ancient Demon in the Canglan Continent. It’s really amazing. With your strength, you can just be friends with someone of the same generation.”

Shen Ping’s every move was closely watched. He naturally could not hide his matter in the Canglan Continent. Moreover, this kind of thing was too shocking. The speed at which it spread was extremely fast. The Demon Race also wanted to seal the news. This was because the stronger Shen Ping was, the more important the various races would be.

The tallest tree in the forest will be destroyed. The other races knew this.

“Fellow Daoist Shen, why are you here?” Shen Ping quickly explained his purpose for coming. He mainly wanted the defense line to send some True Immortals and Heavenly Immortals to the frontline battlefield. Senior Zhan smiled and said, “That’s right. I’ll send a message to Senior Golden Immortal Li now.”

Five minutes later, Golden Immortal Li replied. “Dozens of True Immortals and three Heavenly Immortals have already gone over.”

Shen Ping felt at ease. Although there were not many Golden Immortals in the lower realm, there were many True Immortals and Heavenly Immortals. It was more than enough to transfer a portion. Moreover, True Immortals and Heavenly Immortals could not affect the situation.

After dealing with the matter, Shen Ping entered seclusion and cultivated without paying attention to the outside world at this critical moment. With the Taiyi Void Immortal Talisman, his cultivation had reached the peak of the Mahayana Realm in just eight years.

In the quiet room, waves of aura kept rising, and there was a huge spiritual fluctuation in the aura. This fluctuation even began to affect the surrounding space. Moreover, there was a spiritual phantom that was similar to the Cosmic Form behind him.

From the Mahayana Realm to the Tribulation Transcendence, the most important thing was the improvement of the soul. The improvement of magic powers was secondary. In order to fuse with the essence of the beast blood, Shen Ping had long consumed some natural treasures in the Immortal Dao Domain to nurture his mind and greatly increase his mental strength. Therefore, this key realm was not too difficult for him. He only needed to constantly use his huge mental strength to repeatedly temper his soul.

Boom!

His spiritual aura collided with the wall of the quiet room.

The array patterns engraved on the wall kept flickering. Fortunately, he was a Beast Spirit genius. There was no lightning tribulation when he broke through. Otherwise, just the commotion of the lightning tribulation would attract a lot of attention. However, when he was about to break through, a vast amount of immortal spiritual energy gathered in the immortal array, causing many maids and guards in the residence to look at him.

Another half a year passed.

Shen Ping's soul refinement was successful. The phantom behind him became solid, and a huge mental projection appeared. It was as flawless as a Nascent Soul. The moment this mental projection appeared, the surrounding space trembled, as if it was about to shatter at any time.

A few days later, this state slowly returned to calm. He opened his eyes and his divine sense seeped into his body. The golden magical power of the strange beast lingered in the sea of consciousness in his dantian. A faint strange beast pattern gradually appeared in his body. At the same time, he sensed the extremely weak nomological pressure in the interface, as if he was about to leave this world and ascend at any time. "Is this the Tribulation

Transcendence?"

Compared to Mahayana Realm cultivators, experts at the Tribulation Transcendence realm rarely walked around. Moreover, they rarely explored ruins to fight and kill. Originally, he did not understand, but at this moment, he knew the reason. This level had already reached the top level of cultivation in the lower realm. Be it attacking or using his magic powers and soul, it was very easy to attract lightning and transcend in advance.

It had to be known that most cultivators did not have the confidence to successfully transcend the lightning tribulation. It was already very good for them to become Itinerant Immortals in the end. More than half of them had died under the might of the lightning tribulation.

He sorted out his senses. He slowly activated his enhancement talent. In the blink of an eye, the magical power and aura of the strange beast rose rapidly to the level of an Eight Tribulation Itinerant Immortal.

"Spirit Transformation!"

His magic power and aura fluctuated again, and he was already comparable to a Tenth Tribulation Itinerant Immortal.

Lastly, there was the Beast Spirit state. All aspects of his body strengthened again, and he was faintly comparable to an Eleventh Tribulation Itinerant Immortal. However, these were all Shen Ping's own estimations. He would only know the exact strength after a real battle.

He sensed it carefully.

Not long after, Shen Ping's magic power aura returned to the early stage of the Tribulation Transcendence. He stepped out of the quiet room and looked at the sea of stars. Killing intent gradually condensed in his eyes..

Chapter 650: Divergent Thoughts (1)

Every region of the Abyss of Supreme Darkness was separated by a gorgeous and vast nebula. In these nebula regions, spatial turbulence would appear from time to time. Therefore, even experts at the Tribulation Transcendence and Itinerant Immortal realm had to take a special large flying ship to cross the nebula. As the nebula was extremely wide, it was called the sea of stars by many cultivators.

The Penglai Immortal City in the Western District was located at the edge of the sea of stars and was not far away. If a Mahayana Realm expert rushed and flew, it would take more than a month. However, Shen Ping only needed one or two teleportations to arrive at the end of the sea of stars, the Flying Cloud Crossing.

Originally, there would often be several large flying ships docked here. As long as the number of cultivators reached a certain level, the flying ships would set off to cross. However, this place had already been completely taken over by the immortal Dao experts of the human race.

For nearly a thousand years, almost no cultivator could approach.

As soon as Shen Ping appeared, a hidden immortal formation sensed him. In the blink of an eye, a True Immortal appeared. When he saw the appearance of the cultivator, this True Immortal was first stunned, then he probed in surprise, “Are you Fellow Daoist Shen from the True Treasure Pavilion?”

All the True Immortals, Heavenly Immortals, and Golden Immortals in the sea of stars knew Shen Ping’s appearance, form, and aura. However, because there was still Fellow Daoist Xu, other than the Golden Immortal level, the other True Immortals and Heavenly Immortals did not know who the strongest beast spirit prodigy of the human race was.

“I am Shen Ping.” As he cupped his hands, the unique beast energy on his body emitted.

The True Immortal in front of him immediately became respectful. “Greetings, Fellow Daoist Shen.”

A moment later, Shen Ping entered the range of the Immortal Array and quickly arrived at the Immortal Array Puppet barrier in the center of the sea of stars.

He saw the person-in-charge of the human race, Golden Immortal Li, who had been guarding the defense line for a long time. The other party was wearing purple-gold immortal treasure armor. The armor was engraved with a pattern similar to a Qilin. Although he deliberately restrained his aura, he still emitted a faint heavy pressure.

“Shen Ping, why are you at the defense line?” Golden Immortal Li had a calm expression and a slightly thin face. At this moment, he was rather surprised, and his tone was filled with confusion. One had to know that the defense line in the starry sea could be broken through by the foreign races at any time. At that time, they would have to face hundreds of Golden Immortals from the Devil Clan and the Spirit Race. It was undoubtedly dangerous for them to come over at this time.

“Senior Li, although there is an Immortal Venerable in my residence, it’s not a place to guard for long. Therefore, I feel that instead of waiting for death, it’s better to take the initiative to attack.” Shen Ping said respectfully.

When Golden Immortal Li heard that, his first reaction was that he was fooling around. Taking the initiative to attack? Wasn’t this a joke? There were more than 300 Golden Immortals in the foreign races. There were only 50 of them. Even if they had puppets, there were only nearly 70 Golden Immortals. Their defense was slightly insufficient, let alone taking the initiative.

However, the other party was the strongest prodigy of the human race after all. He was highly valued by the higher-ups of the human race. He had heard that even the Venerable Sovereign praised him. Therefore, not to mention a Golden Immortal like him, even an Immortal King had to be polite towards him.

Therefore, he patiently explained the difference between friend and foe to Shen Ping in detail. Then, he said earnestly, “Shen Ping, the battle between immortals is not child’s play. Although your combat strength is strong and you almost killed a second-stage Ancient Demon in the Canglan Continent, the defense line in the sea of stars is different. If the foreign races discover you, they will definitely chase after you with all their might. At that time, the other Golden Immortals and I might not be able to protect you safely.”

How could Shen Ping not know this? Therefore, he briefly explained his plan. There was no choice. If he wanted to successfully kill the Golden Immortal of the foreign races, he really could not bypass this Golden Immortal Li. After all, the other party’s goal here was to protect him. He would definitely not let him do it alone.

When he heard that, Golden Immortal Li frowned slightly. He looked at Shen Ping and could not help but ask, “Shen Ping, are you really confident?” Without waiting for Shen Ping to answer, he continued, “You have to understand that once anything happens to you, not to mention that we Golden Immortals will suffer punishment, just the losses of the human race will be huge!”

Shen Ping said firmly, “Senior Li, no matter what the consequences are, I want to give it a try. Moreover, I have a life-saving item given to me by the Venerable Sovereign.”

As soon as he said this, Golden Immortal Li’s expression changed. He knew that Shen Ping was highly valued. He did not expect that the Venerable Sovereign would give him a life-saving item. However, on careful thought, it made sense. Shen Ping was the strongest Beast Spirit prodigy of the human race, and such prodigies from the other races were all at the core of the race and were heavily protected. “In that case, we’ll follow your plan, Shen Ping. But let me make it clear first. If it doesn’t succeed, you have to listen to my instructions next.”

Seeing Golden Immortal Li relent, Shen Ping smiled and said, “I understand!”

The next day, he appeared at the Immortal Array Puppet barrier of the Starry Sea Defense Line. Looking at the constantly shaking array formation barrier, he shouted, “Bastards of the foreign races, if you want my life, feel free to break through the array. I’m not afraid to tell you that the armor I’m wearing is a Great Dao treasure obtained from the Realm Sea Peak palace. Such a treasure is even helpful to Venerable Sovereigns!”

The expressions of the Beast Spirit prodigies from the various races changed slightly as they stared fixedly at Shen Ping. They had not expected this human Beast Spirit prodigy to actually come here and even provoke him so brazenly. Such actions were simply stupid.

“What is this guy trying to do?”

Many Golden Immortals of the foreign races were confused. They did not have to do this even if they were courting death..
