

Eternal Life 731

Chapter 731: Return (1)

It was undeniable that Jiang You's talent was indeed abnormal. After the end of the ancient era, he could raise his bloodline to five elements and reach 45% of the power of the world. He could be said to be the number one prodigy, but unfortunately, he was limited by the world and could not break through the shackles to reach seven elements. Therefore, he could only admit defeat to the outsider, Shen Ping.

Boom.

With the eruption of 50% of the power of heaven and earth and his Devouring talent, Jiang You was quickly refined into a Divine Realm Blood Bead.

He looked at the blood bead. A trace of emotion flashed across Shen Ping's eyes. This peerless expert who had once suppressed the era for ten thousand years had died just like that. Although he admired him in his heart, he would not show mercy. Only by killing him could he intimidate the other Divine Realm elders.

And that was the truth.

Jiang You did not manage the Holy Hall, but his prestige was not low. He was comparable to the Divine Realm expert from the ancient era. With his death, the other Divine Realm elders did not dare to fight Shen Ping.

"Hmph, so what if you've grasped fifty percent of the power of heaven and earth and have a seven-element bloodline? With so many experts, can't we deal with you?!" The Divine Realm elder from the ancient era shouted coldly, "Let's attack together. He's only one person after all!"

The other Divine Realm elders looked at each other with hesitation. They had lived in the Black Abyss for so many years and did not want to die for nothing. Even though origin blood was very tempting, the prerequisite was that they could survive.

Shen Ping said, "Origin blood can only be condensed with seven bloodlines. None of you can reach such a condition. If you remain neutral, I can spare your lives."

"Don't listen to him. He only has one bloodline that has reached 50%. Once the other bloodlines reach 50%, he will definitely slaughter us."

However, no one listened to this Great Elder, especially at the moment of life and death. Even if a few of them wanted to attack, they knew that they were not their match.

"You're really living until your guts are gone!"

The Great Elder of the ancient era attacked directly, and so did the three of them.

The strongest among them was only slightly more than 40% of the power of heaven and earth. Furthermore, they only had four elements. So they were not Shen Ping's match at all. Although they had the upper hand by suppressing him together, they were quickly defeated by Shen Ping.

He had no choice. The difference was too great. At more than 30%, the difference between each 5% increase in the power of heaven and earth was very obvious, let alone from 40% to 50%. Moreover, Shen Ping did not only have lightning attributes that had reached 50%.

Soon, these four elders all became Divine Realm Blood Beads. Shen Ping looked at the remaining Divine Realm elders. None of them dared to look him in the eye. The other emperor-level experts and the second level of the Star Platforms did not dare to breathe loudly. "Everything in the Holy Land is still the same."

The other Divine Realm elders heaved a sigh of relief and hurriedly bowed. "Yes, Great Elder."

After Shen Ping left, these Divine Realm elders shook their heads and sighed. They really did not expect Shen Ping, who had origin blood, to grow so quickly.

He returned to the cave abode's quiet room. Shen Ping began to absorb and refine the Divine Realm Blood Bead. Even though no one was his match now, he was still unwilling to rashly activate the origin blood to open the greatest fortuitous opportunity at the core of the Holy Land. He was worried that the ancient mighty figure who had established the fortuitous opportunity back then would have other tests.

Two years passed just like that. Through the Divine Realm Blood Bead, the Abyssal Pill, and other resources, his five bloodlines had all reached 50%. He was only lacking the fire and wind attributes.

Ji Ruyue and Lian Nishang stepped into the Black Abyss. They had long reached the second level of the Star Platform. The reason why they had delayed until now was completely to help Shen Ping protect the Great Han Dynasty. The Great Han Dynasty had been established for a thousand years now, and there were also descendants of the Star Platform among the royal bloodline. That was why they left in peace.

On the other hand, Nangong Yao, Ling Yu'er, and the others were still holding on.

"Husband."

When Lian Nishang saw Shen Ping, she could not help but throw herself into his arms. It had been ten years in the Black Abyss, but a thousand years had passed outside. After such a long time, her longing for Shen Ping became stronger.

"Nishang, Ruyue."

There was no hesitation. He carried the two women to the bed and turned all the longing in his heart into violent actions. After more than half a month of sex, it was finally relieved. He hugged Lian Nishang and Ji Ruyue on both sides.

Shen Ping quietly listened to them recount what had happened in the Great Han Dynasty in the past thousand years. During this period, there had been several riots. Most of them were supported by other aristocratic families and the Demon God Sect. However, the girls suppressed them and did not expand the scope.

By now though, the problems and disadvantages that the dynasty had accumulated were increasing. It had already reached a point where it was difficult to recover. Even with Nangong Yao and the others suppressing it, it would only delay the dynasty's lifespan. It could not resolve the local conflict at all.

To put it bluntly, this was caused by the allocation of resources. After all, the best resources were gathered in the royal family. If the other aristocratic families, including the Demon God Sect, wanted to obtain them, they had to compete and snatch them.

As time passed, internal strife would naturally erupt. Whether it was the Great Xia Dynasty or the previous dynasty, they basically could not escape the shackles of a thousand years. It's just a matter of time.

Shen Ping shook his head helplessly. "It's been hard on you. The dynasty and the descendants of the bloodline have their own fate. There's no need to forcefully interfere."

This kind of problem was very difficult to solve. Even if he took action, he would only solve some problems on the surface. The deepest conflict was unsolvable unless he messed up everything and started all over again..

Chapter 732: Return (2)

Ji Ruyue smiled and said, "I told you that my husband is the most open- minded."

Shen Ping pinched her cheek. "Alright, you guys can stay in the Black Abyss in the future. I have the final say here now. No one will bully you."

"Yes, husband."

Life in the holy land was relatively easy. Other than cultivation, there was almost nothing else to do. Even if they went to kill abyssal beasts, a group of experts would fight to do it.

Time passed bit by bit. Another five years passed. Nangong Yao, Ling Yu'er, and Ling Qing entered the Black Abyss one after another. After they left, the Great Han Dynasty gradually collapsed and was replaced by other aristocratic families.

On the other hand, the Shen family's bloodline continued.

Shen Ping slowly opened his eyes in the cave abode's quiet room, and there was a hint of joy in his pupils. After cultivating in the Holy Land for more than ten years, he had finally raised all seven bloodlines to the limit of this world.

50% of the power of heaven and earth. Such strength could be considered to be at the forefront of the cultivation world. Of course, it was only in terms of the Great Dao of Heaven and Earth, but it still made him excited.

"After this world ends, even if I immediately ascend to the Immortal Dao territory, the Devil Clan and the Spirit Race will definitely find it difficult to suppress me."

He was extremely confident.

The Great Dao of Heaven and Earth was the essence of everything. When his comprehension reached 50%, it meant that his strength would skyrocket. Even with the suppression of his realm, he could still defeat his enemies through the use of the Great Dao of Heaven and Earth. Moreover, he had the Great Dao treasure, the Heavenly Star Armor, to protect him. It was difficult to activate its

power previously, but now, it was different. 50% could definitely activate a portion of the power of the Heavenly Star Armor.

At that time, he would not be afraid even if he faced a powerful Golden Immortal in the Immortal Dao territory.

“It’s time to open the greatest opportunity in this world! I wonder what that ancient power left behind?”

He walked out of the quiet room. Shen Ping arrived at the Holy Temple. He was still a little nervous. After all, the commotion caused by this reincarnation was not small. Venerable Sovereigns and Immortal Venerables did not have memories, so it could be seen that the opportunity left behind was definitely extraordinary.

As he activated the origin blood through a special method, somewhere in the core of the Holy Temple immediately sensed it, and the entire Holy Temple shook violently. The Divine Realm elders all floated out.

“It’s Shen Ping.”

“No, it’s the Great Elder. He’s finally going to activate the origin blood!”

The other Divine Realm elders had all kinds of emotions in their eyes, but they suppressed them. They also wanted to know what every Star Rank could vaguely sense. After more than ten breaths, the temple stopped shaking.

A dazzling golden pillar rose and condensed into a passageway. Some Divine Realm elders took advantage of the time when Shen Ping was activating the origin blood to rush into the passageway. Unfortunately, they were shattered as soon as they approached the golden pillar.

This scene frightened the other Divine Realm elders. Shen Ping snorted coldly. He put away the origin blood and entered the golden passageway. The moment he stepped in, he appeared in an oval stone room.

Apart from a green bracelet floating in the middle of the stone room, there was nothing else. He went forward to touch the bracelet. The bracelet instantly flickered and he put it on his wrist.

In the next moment, everything around him disappeared, and he stood in the void. A figure slowly floated out from his wrist. It was the black-robed artifact spirit.

“Congratulations, Shen Ping. You passed the test left behind by Master and obtained the green bracelet.”

Shen Ping suppressed the many distracting thoughts in his heart and hurriedly asked, “Senior, I wonder what use this green bracelet has?”

The black-robed artifact spirit smiled and said, “Don’t be anxious. I’ll tell you slowly.”

The green bracelet was one of the control centers of the Realm Sea Peak left behind by that ancient mighty figure. With it, one could enter the Realm Sea Peak at any time, including many palace worlds in the Realm Sea Peak. The Realm Sea Peak was the greatest treasure land in the Realm Sea, and it was enough to make Venerable Sovereigns go crazy. Not to mention the many treasures inside, just the cultivation environment inside was enough to make countless experts covet it.

“Master left behind a total of five bracelets. Only by gathering all of them can you officially become the new master of the Realm Sea Peak. There are two bracelets in the Realm Sea Peak. Other than this green bracelet, there’s another one. As for the remaining three bracelets, you’ll have to go to the Realm Sea to find them in the future.”

Shen Ping was speechless. “In that case, I only obtained the right to enter and leave Realm Sea Peak at any time.”

The black-robed artifact spirit senior laughed, “Little fellow, you sound depressed. Do you know that just this resource is something countless experts can’t ask for? Even if you obtain five bracelets now, it’ll be difficult for the Realm Sea Peak to recognize you as its master. This is a treasure left behind by Master. Its level far exceeds the Great Dao treasure you obtained previously.”

Of course, Shen Ping knew this. He was just casually complaining. “Senior, can I bring others in? Can I enter the world I entered previously at any time?”

“Sure. However, you can only go to most of the places in Realm Sea Peak alone. The people you bring can only stay in a fixed area.” The black-robed artifact spirit said.

Shen Ping asked again, “What exactly is the Strange Beast Gate?”

The black-robed artifact spirit smiled, “The Strange Beast Gate is only a tower in the Realm Sea Peak. It’s similar to the Nine Continents Tower that you humans obtained. There are a total of 33 levels. It’s where Master originally nurtured strange beasts.”

Even though Shen Ping had some guesses, he could not help but be shocked. “Is the strange beast really nurtured by that ancient senior?”

The black-robed artifact spirit nodded. “Of course. You just experienced the green hall. Didn’t you think that the bloodline inside was a little magical? Back then, when Master studied the bloodline, he casually nurtured strange beasts. However, due to some special circumstances, strange beasts mutated and became the most perfect life form in the world. Therefore, Master specially created the strange beast cultivation system and used it to screen qualified geniuses.

“Little fellow, you’re indeed very special to have the talent of a strange beast. Now that you’ve obtained another bracelet, you’re the genius with the highest chance of becoming the new owner of the Realm Sea Peak. Don’t be careless. There are many people with potential among the myriad races. They might catch up.”

Shen Ping’s heart skipped a beat. He hurriedly said, “Yes, Senior. I will continue to work hard and strive to obtain all the bracelets.”

He knew very well that Realm Sea Peak was definitely the greatest opportunity he had encountered since transmigrating to the Xianxia World. No Great Dao treasure, Great Dao secret technique, or so on could compare to Realm Sea Peak. After all, that ancient mighty figure was definitely a supreme expert who stood at the peak, far exceeding the Venerable Sovereign level.

“Alright, I’ve said everything that needs to be said. Since you’ve obtained the bracelet, the green giant palace world is about to end.”

Shen Ping hurriedly asked, “Senior, do those Venerable Sovereigns and Immortal Venerables really not remember what they experienced in the world?”

The black-robed artifact spirit nodded. “Of course, the green hall was set up by Master. It didn’t take much effort, but it’s impossible for a Venerable Sovereign to break through the restraints. Only if they can reach Master’s level can they recover their memories. The moment you obtained the bracelet, you removed the restraints.”

With that, it disappeared.

Shen Ping heaved a sigh of relief. It was good that they couldn’t remember. Lian Nishang was his master. If she really had memories, he believed she would understand. However, it was different for the others, especially Nangong Yao. She was Immortal Venerable Yao, a powerful existence who was most likely to become a Venerable Sovereign. If she knew about the embarrassing things he had done to her in the world, she would probably want to kill him.

Even the other body would leave a psychological mark.

“By the way, I forgot to ask what happened to the true spirit body that was reincarnated?” He patted his head in frustration. He suddenly felt a powerful suction force spread throughout his body. When he came back to his senses, he was already standing in the hall of the green hall.

He looked around. The Venerable Sovereigns, Immortal Venerables, and Immortal Kings were all floating.

“How is this possible? My understanding of the Great Dao of Heaven and Earth has actually increased so much!”

“What exactly is the treasure in the green hall? Who exactly obtained it?”

“I really can’t recall my previous experience. I only know that I seem to be a little different.”

Chapter 733: Who Profaned This King? (1)

Every Beast Spirit in the hall was carefully sensing the difference in their bodies. Some could clearly sense that the strange beast bloodline contained in their bodies had increased. There were also geniuses who revealed surprised expressions. Clearly, they had improved a lot on the Great Dao of Heaven and Earth. After all, in the green giant hall world, as long as one stepped into the Star Palace Realm, they could come into contact with the Great Dao of Heaven and Earth.

Only the Immortal Kings, Immortal Venerables, and Venerable Sovereigns frowned. Most of them had gained nothing. They already had comprehension of the Heaven and Earth Great Dao. Unless they could step into the second level of the Star Platform, it was very difficult for them to improve.

However, a few of these experts had joy in their eyes.

“Immortal King Ling Die seems to have gained a lot!”

The Beast Spirit geniuses of the Spirit Race noticed Immortal King Ling Die's expression, and some of them could not help but probe. Immortal King Ling Die hurriedly said, "I've improved a little on the Great Dao of Heaven and Earth."

Her strength was really ordinary among the many immortal kings of the Spirit Race. Her comprehension of the Great Dao of Heaven and Earth had only crossed 10%. But because of Shen Ping, she had stepped into the second level of the Star Platform in the giant hall world and was not far from the emperor-level. Therefore, after returning, the information of the Great Dao of Heaven and Earth surged into her true spirit.

The improvement of the Great Dao of Heaven and Earth, even 5%, was considered a considerable improvement. It was precisely because of this that Immortal King Ling Die didn't hide her emotions.

"Congratulations, congratulations!"

The other Immortal Kings could not help but say enviously. This was the Great Dao of Heaven and Earth. Other than cultivating diligently, there was no other way to improve. Just one reincarnation had improved. It was really an opportunity.

Immortal King Ling Die nodded with a smile, "Perhaps I'm a little lucky."

She noticed a gaze and looked up. It was actually Shen Ping, one of the human beast spirit geniuses in the distance. Seeing this, she snorted in her heart. "Looks like this little fellow still hasn't given up. He's thinking about me. Hmph, don't let me seize the opportunity. Otherwise, I'll definitely teach him a lesson.

"I wonder what kind of opportunity there is in this giant hall world that can actually increase the comprehension of the Great Dao of Heaven and Earth. If I can enter, won't I be able to improve quickly?"

Shen Ping naturally did not know what Immortal King Ling Die was thinking. He glanced at it and hurriedly looked away. Through that glance just now, he guessed that Immortal King Ling Die indeed did not have any memories. Otherwise, the gaze she looked back at him would not be calm.

Then, he glanced at the other races. Ling Yu'er was Immortal King Ling Die, Nangong Yao was Immortal Venerable Yao, and the remaining Ji Ruyue and Ling Qing should be Immortal Kings or Immortal Venerables.

He had engraved their auras into his bones, so this sweep quickly locked onto a female Immortal Venerable of the Dragon race. Her aura was exactly the same as Ji Ruyue's true spirit, but he did not know which Immortal Venerable the other party was. At the moment, he only knew the name of the human race's Immortal Venerables.

He didn't find Ling Qing even after scanning her. Shen Ping became nervous. This situation could only mean one thing. Ling Qing's reincarnation was at the Venerable Sovereign level. Only the aura of a Venerable Sovereign was difficult to detect.

"Disciple, did you gain anything this time?"

At this moment, Lian Xuejin walked over. Looking at her gentle and dignified appearance, Shen Ping felt a little guilty and did not dare to look up. “Yes, I’ve improved greatly on the Great Dao of Heaven and Earth.”

Lian Xuejin smiled and said, “Not bad. I’m quite lucky this time. Just now, a lot of information suddenly surged into my sea of consciousness. It’s all about the Great Dao of Heaven and Earth. I’ve even reached 10% in the Dao of Water.”

She could not hide the excitement in her voice. Only those at the Immortal King Realm could cross the threshold of the Great Dao of Heaven and Earth and successfully comprehend it. Under normal circumstances, it would take her tens of thousands of years of cultivation to reach the Immortal King Realm. If she encountered a bottleneck during this period, she was afraid that she would never reach the Immortal King Realm in her life. Yet now, she had only reincarnated once in the palace world and reached this level in the Great Dao of Heaven and Earth. It could simply be called a miracle.

Anyone would be excited.

“Congratulations, Master!” Shen Ping smiled and teased, “You can already comprehend the basics of the Heaven and Earth Great Dao at the True Immortal realm. Master is the number one genius of the myriad races. If the Venerable Sovereigns and Immortal Venerables find out, they will definitely fight to take you in as their disciple.”

Lian Xuejin rolled her eyes at Shen Ping. “Disciple, don’t tease me. What about you? Tell me how much you’ve improved.”

It was obvious that she still hoped that Shen Ping would gain a lot.

Shen Ping coughed dryly. “When I go back, I’ll tell Master in detail.”

“Okay.”

While Shen Ping and Lian Xuejin were chatting, Venerable Sovereign Tian Hong was also chatting with Immortal Venerable Yao, Immortal Venerable Bing, Immortal Venerable Qi, and Immortal Venerable Yu.

“If I’m not wrong, the opportunity in the palace world this time should be the comprehension of the Heaven and Earth Great Dao. Among you, Immortal Venerable Yao has gained a lot. She has reached nearly 20% of the fire-element Heaven and Earth Great Dao. She has also comprehended the rest. Although it can’t compare to your own comprehension, with every additional Heaven and Earth Great Dao, her future path will be easier.”

The other Immortal Venerables nodded.

Immortal Venerable Yao said, “I wonder what the greatest opportunity in this world is. I just asked the Immortal Venerables and Immortal Kings of the Dragon and Phoenix Races who are on good terms. They also have a comprehension of the Heaven and Earth Great Dao. This means that it’s

much easier to comprehend the Heaven and Earth Great Dao inside than outside, so it can't be the greatest opportunity."

She looked at Venerable Sovereign Tian Hong. "Can't you recover your memories, Venerable Sovereign?"

Venerable Sovereign Tian Hong sighed. "The methods of that ancient mighty figure from Realm Sea Peak are far from imagination. I find it difficult to recover."

Immortal Venerable Qi, Immortal Venerable Nanji, and the others were silent..

Chapter 734: Who Profaned This King (2)

At this moment, the phantom of the black-robed artifact spirit appeared in the sky above the hall. All the Beast Spirit geniuses looked over.

"Fellow geniuses, this trip to the world has ended. I believe that you have all gained something. I hope that you will continue to work hard from now on." The entire Realm Sea Peak produced a repulsive force. When all the Beast Spirit geniuses came back to their senses, they had already returned to their respective Heavenly Palaces. Only Shen Ping was still in the palace.

"Senior, I wonder how the reincarnation of the true spirit in the world is?" The black-robed artifact spirit smiled and said, "Naturally, it will turn into pure energy and be absorbed by your main body. The living beings inside will gradually forget. Without the bracelet, the Great Dao of the world will gradually retreat."

Shen Ping thought to himself that it was a pity. It was very easy to comprehend the Great Dao of Heaven and Earth in the palace world. As long as one stepped into the Star Palace level, they could come into contact with it. Originally, he wanted his wife, concubine, and Dao companions to take this bloodline path. Now, it seemed that it was impossible.

As if guessing Shen Ping's thoughts, the black-robed artifact spirit said, "When you really become the new master of the Realm Sea Peak, you can use this method casually."

The corners of Shen Ping's mouth twitched. Just by looking at the green bracelet, he knew that it was definitely not easy to obtain the other bracelets. Moreover, there were three bracelets that were not in the palace world of Realm Sea Peak. He did not know how long it would take to gather them all. He could not afford this.

However, having a green bracelet was indeed very convenient. At least in the future, he could bring his wife, concubine, and Dao companions to Realm Sea Peak to cultivate at any time. The cultivation environment here was much stronger than the World Pearl.

He bade farewell to Senior Artifact Spirit and returned to the second level of the Heavenly Palace. Not in a hurry to return to the Abyss of Supreme Darkness, Shen Ping came to a remote place where he often stayed with Yin Ting and saw her waiting.

She was covered in purple soft armor, and the four pairs of white wings on her back were as holy as angels. Especially the triangular lines gathered below her flat abdomen, they seemed to carry a kind of magic.

He had stayed in the palace world for hundreds of years. Although he didn't lack sex during this period of time, he still missed his wife, concubine, and dao companions very much. Without hesitation, he picked Yin Ting up and began to carefully admire every white feather on the surface of the white wings. When the feathers became fluffy, he let Yin Ting go. When they cuddled, Shen Ping asked about Yin Ting's gains. In fact, he had searched for Yin Ting's true spirit in the world, but he had not found it. Clearly, she was not born in the Great Xia Dynasty. With Yin Ting's strength, it was very difficult for her to step into the Star Palace level before the end.

"Other than the bloodline power being a little stronger, I didn't gain much in other aspects." Yin Ting did not care about this. She leaned against Shen Ping's chest and said reluctantly, "I don't know when we'll meet again. When I go back this time, I still have to go into seclusion and strive to advance further on the Beast Spirit Ranking."

Before entering the world of the green giant hall, there were only about 300 years left before the Beast Spirit Ranking opened. After coming out, only 100 years had passed outside.

Although the Beast Spirit Ranking was not very helpful to Shen Ping, a large number of Beast Spirit geniuses from the myriad races would still fight for it. Every few ranks advanced, other than the support of the effects of their own rankings, their own race would also give them abundant resources.

Yin Ting's treatment in the Winged Race had long been raised to the level of a prodigy, but she was still quite a distance away from being a first-rate prodigy and a top prodigy.

Shen Ping suddenly thought of the blood beads. He had comprehended 50% of the Great Dao of Heaven and Earth and had exhausted the Divine Realm blood beads, but he still had many Star Palace and Star Realm blood beads on him. Since the power of his bloodline increased the bloodline of strange beasts, these blood beads should be helpful.

"Ting'er, refine and absorb these blood beads and comprehend the strange beast. See if it can help?"

He took out a Star Palace-level blood bead and handed it to Yin Ting. Yin Ting nodded. Without even putting on the soft armor and inner lining, she sat cross-legged on the spot. A few months later, she slowly opened her eyes, and there was a trace of joy in them. "Husband, these blood beads can allow me to clearly comprehend the power of strange beasts. Just two of them increased the beast blood by 10%."

This made Shen Ping very happy, but he quickly became helpless. If he had known this earlier, he would have gotten more blood beads. Now, the Great Dao of Heaven and Earth in the green hall was gradually declining. There would probably be fewer Star Platforms and even Star Palace Realm experts in the future.

He gave the remaining Star Palace Realm Blood Beads to Yin Ting. "Go into seclusion after you return and refine these Blood Beads as soon as possible."

Yin Ting had already reached 4.0% of the beast blood in terms of the might of the strange beast. With these Blood Beads, she would definitely be able to completely comprehend the level of the beast blood before the next Beast Spirit Ranking and reach the level of a first-rate genius.

Beast form, beast skin, beast bone, and beast blood. In the past, as long as one comprehended beast blood, they would be the top prodigies. However, after experiencing many opportunities in the palace world, comprehending beast blood could only be considered a first-rate prodigy. Only by stepping into the scale armor level and comprehending the Great Dao of the world would one be a top prodigy.

Now, Shen Ping has reached 50% of the Heaven and Earth Great Dao in the metal, wood, water, fire, earth, lightning, and wind. If he comprehended the Beast Scripture, he could easily enter the level of a single horn.

Every strange beast represented a complete Great Dao of Heaven and Earth. After comprehending the strange beast, one could step into the Venerable Sovereign realm.

This was also the most attractive thing about the strange beast cultivation system. After all, according to the normal spiritual root cultivation system, one had to cross countless barriers and bottlenecks to reach the Venerable Sovereign realm. Only a few people could succeed in the end.

Therefore, the strange beast system gave many cultivators with such talent a sense of hope. At the very least, it was easier for them to step into the Great Dao of Heaven and Earth than Immortal Kings.

In the Butterfly Immortal Palace, as Immortal King Ling Die returned from the Strange Beast Gate, the servants in the immortal palace became busy. The Immortal Dew that was concocted from various Immortal Treasure Fragrance Powder gathered into the Immortal Spring.

The clothes on Immortal King Ling Die disappeared one by one. Then, she slowly walked into the Immortal Spring. The wings on her back that were as thin as cicada wings also disappeared into her skin.

“I never expected that my reincarnation this time would actually allow me to attain almost 20% of the Great Dao of the Wood. In the past, the other Immortal Kings had mocked me a lot. This time, they can only be envious!” She closed her eyes and enjoyed herself. As an Immortal King of the Spirit Race, she had a long lifespan and abundant cultivation resources. There were many disciples in the palace, and there were many Immortal Kings who admired her appearance and figure. However, in terms of the Great Dao of Heaven and Earth, she did not have the slightest bit of comprehension talent. She was still struggling at the entry level. Now, she had caught up to the other Immortal Kings.

As the water of the Immortal Pool rippled, fragments suddenly flashed across her sea of consciousness. These fragments were also in the water, but she was soaking in a very shameful posture. There was also a broad and strong figure behind her.

Whoosh. The sound of water splashing seemed to ring in her ears. The corners of Immortal King Ling Die’s lips almost instinctively muttered, but she quickly straightened her body, and there was a hint of embarrassment and anger on her flushed face.

“Impossible. Even if I’m reincarnated, it’s impossible for me to submit to someone... Wait, why can I recall these fragments? Didn’t they say that even Venerable Sovereigns can’t recover their true spirit memories?!”

She bit her lips hard and clenched her fair palm tightly. Her satisfied mood just now was completely ruined at this moment. “Damn reincarnation!”

Abyss of Supreme Darkness.

In the quiet room of the City Lord Manor of Gray Stone City, as a huge aura descended, a figure appeared in the quiet room.

“I’m back!”

Shen Ping stood up and walked out of the quiet room. Looking at the familiar environment around him, he could not help but take a deep breath. Although he had only experienced a few hundred years of reincarnation, he was completely experiencing a second life. Everything in the past was still vivid in his mind, making him unable to forget it.

This was one of the drawbacks of reincarnation. If one’s mental state and will were not high, they would easily be affected by these memories and develop inner demons. When they underwent the Tribulation Transcendence and ascended, they would be invaded by the inner demons.

He came to the pavilion by the lake. There was not a single figure.

Shen Ping was stunned for a moment before he laughed involuntarily. That was right. It had only been more than a hundred years. Wang Yun, Yu Yan, and Bai Yuying must still be cultivating in the World Pearl.

Just as he sat on the stone bench in the pavilion, a vast pressure descended..

Chapter 735: Almost Exposed (1)

Before he could react, Shen Ping’s consciousness was pulled into a mysterious place by this vast pressure. The surroundings were dark and empty, but in the distance, there seemed to be spots of resplendent light like stars. Immediately after, these resplendent spots of light swept over like raindrops and completely drowned him.

In the next moment, his consciousness returned to his body. In his line of sight, there was a sparkling lake in the mansion, and a large number of strange trees formed a beautiful scenery.

“W-what was that just now?” Amidst his surprise, a huge amount of information suddenly appeared in his sea of consciousness. Shen Ping closed his eyes and spent five minutes absorbing and digesting this information. “It’s actually a talent bestowed by the origin of heaven and earth!”

Only then did he remember what his master, Venerable Sovereign Tian Hong, had said. As long as one stepped into the threshold of the Heaven and Earth Great Dao before ascending, they would be bestowed by Heaven and Earth. For example, the reason why the ten strange beasts had intrinsic

talent was mainly because they were all perfect living beings. They had grasped the Great Dao of Heaven and Earth from birth, so every strange beast's talent was extremely powerful.

And now, Shen Ping had also received such a gift. He combed through it carefully. This talent was called the World Realm. During battle, one could use one's talent to create a Mirror Doppelganger. This doppelganger could possess all the strength and talent of the original body, except for the soul talent. However, the more doppelgangers one created, the weaker the doppelganger would be. At most, one could create six doppelgangers.

Most importantly, in a crisis, he could transfer his soul consciousness to his doppelganger at any time. This was similar to the Soul Parasite talent.

"As expected of a gift from the heavens. With this talent, it's equivalent to having six more helpers in battle. I can even use my clones to escape at the critical moment."

Shen Ping was in a good mood, but he was not too excited. If it were any other Tribulation Transcendence cultivator, they would have long forgotten themselves in excitement. After all, this was a talent bestowed by the heavens and earth. It was stronger than any talent or even powerful immortal technique. However, he had many talents. Another one was just icing on the cake.

Moreover, enhancement, teleportation, Pupil of Sea Beast, Soul Parasite, and devouring were all not weaker than the World Realm.

"Now that I've obtained talent, I can start to ascend. Before I ascend, I have to consider the continuation and future of the family. I have a wife, concubine, and Dao companions. It's best if they can ascend with me."

He fell into deep thought. After ascending, it would not be convenient to deal with matters in the lower realm. Even if he could go to the lower realm, he would be restricted by the rules. Although the strength that Golden Immortals could unleash in the lower realm was not low, it was still inconvenient.

Apart from that, there was no junior in the family who could stand alone now. It was very easy for the family to decline after he left with his wife, concubine, and Dao companions. Different from the bloodline of the green giant hall world, he had put in a little effort into the bloodline descendants of this world.

At this moment, several familiar auras appeared. It was Wang Yun, Yu Yan, Pei Huoyu, Yu Qingling, Bai Yuying, Mu Jin, Luo Qing, Yue Lingluo, Qiuying, Ying Yue, Yin Honglian, Jing Huilan, and An Yue.

"Husband."

The aura of Shen Ping coming out of seclusion could not be concealed. The descendants of the bloodline in the residence naturally immediately informed their mothers. He looked at the wives and concubines who pounced on him.

A smile appeared on his face. Although he already had many women, and every one of them had accompanied him for more than a thousand years, compared to those large families, this number of wives, concubines, and Dao companions was really pitiful.

This was because if a large cultivation family wanted to continue for tens of thousands of years, they had to constantly give birth to geniuses. The best way was for the strongest cultivators in the family to accept Dao companions and give birth to new bloodlines.

For example, the Shen family had barely produced Shen Tiantai after more than 4,000 years. The main reason was that Shen Ping had too few direct descendants.

“Hehe, hubby is finally back.” Bai Yuying, who was wearing a light blue dress with green patterns, sat on Shen Ping’s left leg. Her body was filled with a fragrance, and the ribbon tied to her chest was especially eye-catching under the two bulging curves. The skin on her neck was as fair as suet, and her face was flawless. After her strength broke through to the Body Integration Realm, her aura became deeper and deeper, making her look like an otherworldly fairy.

Shen Ping habitually hugged her slender waist and pinched her delicate nose. “Why? It’s only been more than a hundred years and you missed me?”

Bai Yuying moved closer to her face and whispered, “Ying’er thinks about it every day.”

“Is that so? Let me see if you really want to.”

He lifted the silk skirt. The other wives, concubines, and Dao companions had smiles on their lips. They were already used to this. After a while, the orioles in the pavilion sounded with laughter.

Shen Ping used his unique method to spend more than half a month getting closer to his wife, concubine, and Dao companions.

Realm Sea.

There were palaces on the majestic mountain range floating in the void, and in front of each palace, there were carvings of strange beasts. This mountain range was where the Realm Clan lived and reproduced.

“Reporting to Realm Ancestor, in the green hall world this time, many geniuses of our Realm Race, including clansmen at the Immortal Venerable and Immortal King levels, did not obtain any opportunities inside. The results of the deduction of the heavenly secrets are also concealed and can’t be investigated.”

An Immortal Venerable of the Realm Clan said respectfully..

Chapter 736: Almost Exposed (2)

The Realm Clan’s Venerable Sovereign looked down with a hint of disappointment in his eyes.

“Before entering the world, my Realm Clan did our best to increase your luck so that you prodigies would have the advantage and obtain opportunities. Unfortunately... you really disappointed me.”

The prodigies standing on both sides knelt down in fear.

“This opportunity concerns the master of the Realm Sea Peak. That’s a powerful existence that far exceeds a Venerable Sovereign. Even if we obtain a trace of it, it can benefit our race endlessly and even dominate the myriad races. Investigate. No matter what the price is, we have to find out who obtained the opportunity.” It waved its claws, and special golden charms floated down. “This charm was made by my ancestor. As long as it’s related to the Realm Sea Peak, it will react.”

“Yes, Realm Ancestor.”

It was not only the Realm Clan. The Stone Clan, the Skeleton Clan, and the other special clans in the Realm Sea all used their respective foundations to go to the top prodigies in the myriad clans who might have obtained opportunities to investigate. Unlike the Devil Clan and the Spirit Race, these special clans knew some inside information.

Nine Continents Tower.

Five continents and four seas.

On the island of the True Treasure Pavilion’s headquarters, some intermittent memory fragments appeared in Lian Xuejin’s sea of consciousness. Although the scenes in the fragments made her feel very ashamed, she could not see the figure behind her clearly. It was as if there was a restriction.

Unlike Immortal King Ling Die, she did not fly into a rage out of humiliation. After all, reincarnation was filled with variables. It was normal for her to have a dao companion and do many intimate actions.

What puzzled Lian Xuejin was why these scenes appeared.

“Disciple, can’t you remember anything about the reincarnation memories in the green hall?”

When he heard a gentle voice coming from the resplendent crystal, Shen Ping, who was cuddling with Luo Qing, was shocked and hurriedly said, “Master, didn’t that artifact spirit senior say that our true spirits are sealed and can’t be recalled? Could it be that you still have your memories?”

Lian Xuejin’s dignified face blushed, but her voice did not change. “I was just curious, so I naturally did not hold back.”

“That’s good.”

“What do you mean?”

“Ah, what I mean is that the reincarnation experience might not be as good as expected. If there’s a miserable background, wouldn’t that be very vexing? Therefore, it’s best not to hold back.”

Lian Xuejin felt the same way. “What you said makes sense.”

The exchange ended. She frowned. These memories were definitely not a coincidence. There must be a reason. Otherwise, it was impossible for her to have memories alone, and it was such a shameful scene.

In the bedroom, Shen Ping heaved a sigh of relief, but then he frowned. Senior Artifact Spirit had clearly said that it was impossible for him to keep their memories. Why would his master suddenly ask such a thing? Clearly, the other party had remembered something.

“Could it be related to the virtual interface?”

He thought about it and this could only be the reason.

“Calm down. Even if Master and the others remember, they won’t know that the person on the bed is me. After all, we’re not in the world and can’t sense the true spirit aura!”

Thinking of this, his brows relaxed.

Luo Qing, who was only wearing a brocade white undergarment, could not help but ask, “Husband, what’s wrong?”

“Nothing. Let’s continue.”

After quickly completing it, Luo Qing could tell that her husband was distracted, so she did not continue to force him. She comforted him and said, “If you have anything to do, go and deal with it first.”

“It’s fine. I’m fine.”

It was not easy for Shen Ping to accompany Luo Qing for once. How could he ruin this good thing because of this interlude? Therefore, he regrouped and lowered his waist to prepare to explore Ethereal Opening. However, he did not succeed time and time again. An awkward expression appeared on his face.

Luo Qing, on the other hand, was understanding. “Husband, you should deal with this first.”

“Qing’er, I’ll definitely accompany you well next time.”

Shen Ping left helplessly. He was indeed worried that such a thing would be exposed. Although he was very strong now, his realm was still too low. If the experts he provoked like Immortal King Ling Die really sensed it, even ten of him would not be their match.

“No, I have to hide in the lower realm for a while. After confirming that I’m fine, I’ll ascend.”

The lower realm was bound by rules. Immortal Kings and Immortal Venerables could only send a trace of their projections down. They would also be restricted, so he was absolutely safe here.

Immortal Venerable Yao was also annoyed. If she was really reincarnated and brought down to the mortal world to train, she would definitely make all kinds of preparations. Even if it was another body, she would not let her innocence be tainted. Therefore, the embarrassing scenes and actions in her memory made her even more ashamed and angry than Immortal King Ling Die.

However, after asking the other Immortal Venerables and some friends, she was depressed. She thought to herself that she was unlucky. Why did she have to encounter such a terrible thing?

On this day, in the Jade Pool Sacred Mountain with ethereal immortal qi, Immortal Venerable Yao had invited the Phoenix Clan's Immortal Venerable Luan over as a guest mainly to relieve her frustration. She and Immortal Venerable Luan had gotten to know each other when they were Golden Immortals. Their good friend relationship had always been at the Immortal Venerable level and they usually talked about everything.

She drank a few bottles of immortal wine. Immortal Venerable Yao explained her distress. Immortal Venerable Luan was stunned at first, then she said in surprise, "Sister Yao actually has such memories?"

"What? From Sister Luan's tone, could it be that you...?"

Immortal Venerable Yao blinked her beautiful eyes in disbelief.

Immortal Venerable Luan's beautiful face revealed a blush, but it quickly disappeared. As a Luan that had cultivated for countless years, although she had yet to experience such a thing, she was no longer as shy as a virgin. She immediately nodded and said, "There has been such a thing recently. I thought it was just a coincidence. I didn't expect Sister Yao to have it too."

Immortal Venerable Yao's expression was solemn, "If Sister Luan has such an encounter, it seems that this isn't a coincidence. I wonder if Sister Luan can explain the scene in detail."

"This... Alright." Immortal Venerable Luan endured her embarrassment and described, "The man in the image is really a promiscuous person. He actually let my true spirit body serve him with other women. His various actions are really indescribable."

Immortal Venerable Yao's expression was ugly. Immortal Venerable Luan seemed to have thought of something, "Sister Yao, the fragments and actions you remember can't be similar to mine, right?"

Immortal Venerable Yao said expressionlessly, "From the details of our actions, I'm afraid that you and I have indeed served this person in the giant hall world at the same time."

The Jade Pool that was surrounded by immortal mist fell silent. The two Immortal Venerables looked at each other and could not help but feel strange. Until the immortal tea turns cold and the smell of the immortal wine floats out, they come back to their senses.

Immortal Venerable Luan couldn't help but say, "Sister Yao, for this person to be able to do both of us at the same time, I'm afraid he's someone with great luck. From the feedback obtained from the true spirit, our gains in the giant hall world are even richer than that of a Venerable Sovereign."

Immortal Venerable Yao nodded. "That's right. Perhaps he's the Son of Providence of the giant hall world. Otherwise, it's impossible for us to serve him at the same time."

"Sister Yao, could it be another Beast Spirit genius?"

"It's impossible. Although that artifact spirit senior has a great method to seal our true spirit's memories, it's still the reincarnation of a true spirit. With our true spirits at the Immortal Venerable level, our talent and aptitude are definitely extraordinary. Only Venerable Sovereigns can catch up to Immortal Venerables from the beginning. How can Venerable Sovereigns be as unrestrained as him!"

Immortal Venerable Luan felt that these words were indeed very reasonable. Every Venerable Sovereign had cultivated for countless years and had long lost interest in the matters between men and women. Only by pursuing the Great Dao of Heaven and Earth could they feel the sublimation of life. Even the reincarnation of a true spirit would be more or less affected by this obsession and will.

In the memory fragments, that kind of method and immersion were definitely divine hands among flowers.

“Sister Luan, no matter what, this is the memory of the reincarnation of a true spirit. If I bear it alone, I will inevitably be affected. After saying this to you, I feel much more at ease.”

“Sister Yao, it’s the same for me. Since I have nothing to do, why don’t we go to the Realm Sea together to relax? I heard that you obtained a lot of maps at the Realm Sea Peak last time. We can explore them.”

Immortal Venerable Yao readily agreed, “I’ve indeed discovered a lot of maps of the Realm Sea. I originally had plans in this aspect, but I haven’t been able to find time. Since Sister Luan has mentioned it, there’s no time to lose. Let’s set off now.”

“Okay..

Chapter 737: Number One Beauty in the Heavenly Mystic World (1)

As Wang Yun, Yu Yan, and Bai Yuying entered the World Pearl to cultivate in seclusion again, Shen Ping came to the Dao Platform to sharpen himself.

Once he crossed the mist barrier, the guardian appeared. After more than a hundred years of fighting, he could be said to be very familiar with the guardian of the Dao Platform. However, it had always been difficult for him to last more than five minutes in the other party’s hands. Although the guardian had also used his strange beast talent and various abilities that he had grasped, with the enhancement of the Great Dao of Heaven and Earth, it was very difficult for Shen Ping to win.

“Take out all your strength. If you defeat me, you can head to the next level.”

He listened to the guardian’s never-changing opening statement. A smile appeared on his lips. Things are different now. He had grasped 50% of the power of the seven Great Dao of Heaven and Earth. This time, he would not be defeated by this guardian.

Boom.

The moment enhancement and teleportation were activated, the lightning domain enveloped the entire arena. Almost at the same time, the guardian actually used the Lightning Domain, and there were other Great Dao of Metal, Wood, Water, Fire, and Earth above the Lightning Domain.

Shen Ping immediately felt a heavy pressure enveloping him. Be it the magic power or divine sense in his body, they were restricted. Without hesitation, he increased the power of the lightning domain from 10% to 20%, but he could barely resist the lightning domain cast by the guardian.

Clearly, the guardian's usage of the Great Dao of Metal, Wood, Water, Fire, Earth, Lightning, Wind, and Heaven and Earth was even more exquisite. It even exceeded the Jiang You he had encountered in the green giant hall world.

Bam! Bam!

The power of various methods produced by the Heaven and Earth Great Dao collided, causing the arena to shake slightly. Shen Ping did not increase the power of the Heaven and Earth Great Dao. After all, he had consumed the essence of the beast blood and the strange stone to enter the arena. His main goal was to improve by sparring with the guardian.

Soon, five minutes passed.

This was the first time he had lasted so long, but even 20% of the power of the lightning-element Heaven and Earth Great Dao could not defeat the guardian. Moreover, he was at a disadvantage.

Not only was Shen Ping not depressed, but he also became more and more excited. This was because if he could master the superimposed domain power of many Heaven and Earth Great Dao, his strength would increase exponentially. The fact that the guardian could use 10% of the Heaven and Earth Great Dao to gain the upper hand already proved this.

He teleported and changed his position. But the guardian could sense it in advance and avoided Shen Ping's attacks every time. Just like that, another ten minutes passed. He was accidentally hit by the guardian, and the mist barrier quickly dissipated.

Shen Ping could only leave the first level of the Dao Platform. Although he had failed, his face was filled with joy. As long as he kept sparring and fighting with the guardian, he believed that he would be able to master this domain method of many Heaven and Earth Great Daos sooner or later.

"I have to get more beast blood essence."

If he wanted to improve through sparring as soon as possible, he had to go to the Dao Platform often. As a member of the top ten of the Beast Spirit Ranking, he had an additional chance every month. However, this one chance was really a drop in the bucket for Shen Ping.

In fact, many Beast Spirit geniuses, including those Immortal Venerables and Immortal Kings, were in urgent need of beast blood essence. However, this thing could only be obtained in the palace world. Every race did not have much stock. Only Shen Ping had obtained a lot before, but it had almost been consumed before entering the green hall.

However, now that he had obtained the green bracelet and had a trace of authority over Realm Sea Peak, the situation was completely different.

He took out the green bracelet.

As he muttered in his heart, Shen Ping immediately entered the palace worlds that the Realm Sea Peak had already opened. Without the other Beast Spirit geniuses, he could continuously obtain the essence of Beast Blood with teleportation. In just a few months, he obtained a hundred.

Just as he was about to enter the next world to obtain the essence of the beast blood, the black-robed artifact spirit appeared. “Shen Ping, you have a green bracelet. You can enter the Dao Platform for free.”

Shen Ping was stunned for a moment before he revealed a look of joy. However, he still said, “Senior, will obtaining beast blood essence from the world destroy the balance?”

The black-robed artifact spirit smiled and said, “Not really. I’m just reminding you that the more beast blood essence there is, the better. You’ve fused with the origin blood, and the strange beast bloodline in your body has long reached a perfect state. You don’t need the beast blood essence to increase your strength anymore. Of course, if you want to use it to trade for resources, you can continue.”

After saying that, he gradually disappeared.

Shen Ping indeed did not know that the origin blood had such an effect. He left the Realm Sea Peak and returned to the quiet room. He closed his eyes and sensed it. Soon, he clearly sensed the fluctuations of the Heaven and Earth Great Dao. If the clarity before was high-definition, it was equivalent to the quality of blue light now. It was as if a fish could feel the flow of water at any time in the water.

“In terms of talent in comprehending the Great Dao of Heaven and Earth, I’m probably the first!” He could not help but sigh. The perfect state of the strange beast bloodline was almost equivalent to the favor of the world. If he had the origin blood before, he could quickly step into the threshold of the Great Dao of Heaven and Earth even if he did not go to the green hall world.

“Since the beast blood essence is useless to me, I can use it to trade and obtain the Primordial Stone and increase the time flow of the World Pearl to a hundred times as soon as possible.”

Shen Ping immediately used the resplendent crystal to contact his master, Lian Xuejin. With his current identity as a Venerable Sovereign’s registered disciple, he could easily contact other Immortal Venerables and Immortal Kings. However, he still wanted his master to be the medium. This would benefit his master.

At the very least, those immortal kings and Immortal Venerables would value Lian Xuejin more..

Chapter 738: Number One Beauty in the Heavenly Mystic World (2)

After learning that Shen Ping wanted to trade for the Primordial Chaos Stone, the immortal kings of the human race immediately contacted Lian Xuejin. Previously, nearly half of the immortal kings of the human race were not qualified to go to the huge green hall. Therefore, they had been obtaining Primordial Chaos Stones at the edge of the Realm Sea for more than a hundred years.

After all, this was the only resource that could be traded.

In the blink of an eye, ten years passed.

Through trading beast blood essence and beast pattern golden fruits, Shen Ping obtained more than 50 Primordial Chaos Stones from the Immortal Kings and Immortal Venerables of the human race, the Dragon Clan, and the Phoenix Clan. After throwing them into the World Pearl, the time flow in it increased by ten times again, becoming 45 times faster.

This meant that cultivating in the World Pearl for a hundred years was equivalent to 4,500 years in the outside world. Most importantly, there was no consumption during this period.

As long as his wife, concubine, and Dao Companions could continue cultivating inside, even if their talent and aptitude were ordinary, they could rely on the rare resources he had given them to break through to the Mahayana Realm or even Tribulation Transcendence.

“Even Bai Yuying has reached the Body Integration realm, at this cultivation speed, they should be able to break through to the Mahayana Realm in at most a thousand years.”

Gray Stone City.

After thousands of years of operation by the True Treasure Pavilion and Shen Ping’s reputation, this city had become the most prosperous cultivation immortal city in the Abyss of Supreme Darkness more than a hundred years ago. It was even more desirable to countless human cultivators than the Heavenly Immortal City. Even experts in the Mahayana, Tribulation Transcendence, and Itinerant Immortals of the dragon and phoenix races were willing to live in this city.

After all, the immortal spiritual energy emitted by the City Lord’s Mansion made the spiritual energy in this city incomparably abundant, especially near the City Lord’s Mansion. The concentration of the spiritual energy was even stronger than a Level 9 spiritual vein land. Even an ordinary pavilion in such a place was extremely expensive.

On this day, a caravan formed by Void Refinement and Divine Transformation cultivators was being inspected at the heavy and tall city gate.

“As expected of the holy land of cultivation that many cultivators in the Abyss of Supreme Darkness yearn for. Just the concentration of spiritual energy at the city gate is not lower than an eighth-grade. Cultivating inside for a year is equivalent to decades in other cultivation places!”

The woman wearing the purple veil had a voice that was like an orchid in a clear valley. Her body was filled with a refreshing fragrance. Beside her were two personal maidservants, both of whom were at the Late Void Refinement Realm.

After an examination, the caravan walked through the city gate and stepped on a spacious street that could accommodate more than twenty carriages side by side. When they arrived at an inn in the west city, the caravan stopped at the entrance of the backyard.

“Greetings, Young Valley Master.”

When they walked into the backyard, the innkeeper bowed respectfully. The woman with the purple scarf had a slender figure and a bright white forehead. She nodded gently and came to a guest room.

After sitting down, the innkeeper said, “Young Valley Master, it will probably be difficult for you to meet City Lord Shen, who is said to be able to kill an Itinerant Immortal.”

The maid beside him could not help but say, “Young Valley Master has traveled thousands of miles from the Heavenly Mystic realm of cultivation to the Abyss of Supreme Darkness. No matter how difficult it is, we have to meet him. Moreover, Young Valley Master is the number one beauty in the Heavenly Mystic realm. As long as we can meet, we will definitely make City Lord Shen fall head over heels for us.”

The innkeeper hurriedly said, “I don’t suspect this. It’s just that City Lord Shen is in seclusion all year round and rarely leaves City Lord Manor. It’s the same for his wife, concubines, and Dao companions. They rarely hold banquets to invite friends to City Lord Manor. Not to mention us, even Itinerant Immortals and Tribulation Transcendences living near City Lord Manor find it difficult to enter City Lord Manor.”

“Right now, the only way is for the Young Valley Master to make a name for herself in Gray Stone City. Perhaps he can attract some attention.”

The purple-scarved woman looked at the shopkeeper with her bright eyes. “In that case, I’ll let you arrange it.”

“Yes.”

After the shopkeeper left, the maid beside her said, “Young Valley Master, City Lord Shen’s ability to kill an Itinerant Immortal is probably not groundless. We have heard many rumors in the Abyss of Supreme Darkness. If the matter is exposed, it will be very difficult for Young Valley Master to escape unscathed.” The purple-scarved woman said with a smile, “It’s fine. We’re just meeting him once. It’s not like we have any bad intentions. Besides, I’m only at the Early Void Refinement Realm. How can I make City Lord Shen guard against me?

With that, she walked out of the window and pushed open the wooden window. She closed her eyes and sniffed the fresh air. She could not help but mutter, “This city is really a good place to cultivate. How good would it be if I could live here in peace?”

Time passed.

A hundred and twenty years passed.

Realm Sea Peak.

The Dao Platform.

Shen Ping looked at the guardian opposite him and instantly activated the lightning domain. Unlike more than a hundred years ago, the lightning domain he used this time had the superimposition of the three Heaven and Earth Great Dao – Metal, Wood, and Fire. Under 20% of the power of the Heaven and Earth Great Dao, the lightning domain of the guardian’s seven Heaven and Earth Great Dao immediately collapsed.

A few dozen breaths later, the guardian was defeated. He did not step into the second level, but left the Dao Platform. After such a long time of sparring, he already understood that the overlapping domain of the guardian was actually a relatively high-level Great Dao, but it was incomplete. The reason was that it lacked other Great Dao of Heaven and Earth.

However, it was extremely difficult to study it.

He had once asked his master about this. There were many Great Dao of Heaven and Earth. For example, metal, wood, water, fire, and earth were all Great Dao of Heaven and Earth. However, this Great Dao of Heaven and Earth was considered a relatively weak Great Dao. The Five Elements Great Dao formed by metal, wood, water, fire, and earth was quite powerful in the Great Dao. Venerable Sovereign Tian Hong suggested that Shen Ping walk the Five Elements Great Dao.

However, even if he walked this Great Dao of Heaven and Earth, he had to start comprehending it from a single Great Dao of Heaven and Earth. He could not do it overnight.

He sat in the pavilion by the lake.

Shen Ping fell into deep thought. Which Heaven and Earth Great Dao path to take was actually a relatively difficult matter to choose. Even Immortal Venerable Yao, Immortal Venerable Nanji, and the others had once been confused because it was very difficult to find something suitable for them.

If it was easy, it meant that it had the talent of the Great Dao. If it was in the past, it would be very easy for him to choose. However, now that he had the perfect strange beast bloodline brought by the origin blood, he was very compatible with any Great Dao of heaven and earth.

Of course, it was even easier to walk a single Heaven and Earth Great Dao. In the future, he would comprehend a complete single-element Heaven and Earth Great Dao and have a higher chance of becoming a Venerable Sovereign. But in that case, he would be relatively weak when he reached the Venerable Sovereign realm. After all, there were strong and weak Venerable Sovereigns. The most direct reason was the Heaven and Earth Great Dao he comprehended.

After thinking for a few days, he decided to follow the path of the guardian of the Dao Platform. Even though this path was very difficult, he had many resources and advantages. If he chose a shortcut, it would be a waste of his opportunities. Moreover, the True Book of Dao Origin went straight to the essence. Shen Ping believed that he could succeed.

At this moment, footsteps sounded behind him, followed by a pair of cool and beautiful hands covering Shen Ping's eyes. "Great-grandpa, guess who I am?" Shen Ping smiled. Among the descendants of the Shen family, only Shen Qinglian, who had just been born, dared to do this.

The other juniors were all afraid of him.

"Little Lian'er, are you slacking off again?"

Seeing that he had guessed it correctly, Shen Qinglian let go of her small hand and pouted. "Great-grandfather was right again. Lian'er didn't slack off. Lian'er has already completed her homework today."

Shen Ping turned around and swept his gaze around. Seeing that the spiritual energy in her body had increased a lot, he smiled and carried Shen Qinglian. ■■Not bad. Little Lian'er completed her homework so early. What reward do you want?"

Shen Qinglian said coquettishly, "Great-grandfather, Lian'er wants to go to the city."

He pinched her little face.

“You’re gluttonous again, right? Alright, I’ll bring you out to play today.” Speaking of which, ever since he returned from the east side of the Abyss of Supreme Darkness, he had never left the City Lord Manor. He was either in seclusion cultivation or in the Strange Beast Gate or the Realm Sea Peak. He rarely asked about the True Treasure Pavilion and the matters in the City Lord

Manor.

When Shen Qinglian heard this, she immediately beamed with joy. She immediately pulled Shen Ping out of the City Lord Manor. When the guards at the door saw Shen Ping, they hurriedly bowed respectfully. The maidservant in charge of looking after Shen Qinglian was also sent a voice transmission by Shen Ping not to follow.

Along a street not far from the City Lord Manor, Shen Ping looked at the cultivators coming and going and felt the bustling scene.

Thousands of years ago, when he first arrived at Gray Stone City, there were not many human cultivators on the entire street. Now, human cultivators came and went like a tide, and there were even rows of shops on both sides of the street. It could be said that all of this was brought about by him..

Chapter 739 - Exposed (1)

Jade Pink Cake, Water Yin Gourd, Seven-Colored Immortal Brew.

All kinds of delicacies made of natural treasures and the essence of demon beast flesh filled the streets with a fragrance. Just as he turned two streets, Little Qinglian beside Shen Ping pulled him into the shop. When the shopkeeper saw this, he hurriedly bowed.

Shen Ping was not surprised at all. After the Tribulation Transcendence Ceremony, his appearance and aura had long been remembered by many cultivators in the Abyss of Supreme Darkness. It was even more so in Gray Stone City. Almost everyone knew him. Even if they did not know him, there would be elders who would tell them.

“How much is the jade pink cake?”

“20 spirit stones.”

It sounded very expensive, but in fact, this price was very cheap. After all, the cost of making such pastries was not low. Coupled with the fact that this was a prime location in the city, the rent of the shop was very high.

“Has anything interesting happened in the city recently?” Shen Ping asked casually as he threw out the spirit stones.

The shopkeeper smiled and said, “If we’re talking about recent interesting things, it’s the Immortal Swan Pavilion. I heard that a female cultivator from the Heavenly Mystic Realm has come. She has an excellent figure and looks and is very good at dancing. Even the Body Integration seniors praise her dance and are fascinated.

“What’S this female cultivator’s name again? Zi, oh yes, Zi Mei’er. I heard that she’s ranked first on the Heavenly Mystic Realm’s Beauty Rankings.”

Shen Ping looked a little surprised. “Why are the cultivators of the Heavenly Mystic Realm in the Abyss of Supreme Darkness?”

The Abyss of Supreme Darkness was relatively remote among the 3,000 lower realms. The resources and spiritual energy here were medium-grade. The spiritual energy near the Black Mist Direlands was even thinner. At most, it could nourish Golden Core cultivators, so very few human cultivators from other realms came.

The shopkeeper said in admiration, “All of this is thanks to you, City Lord Shen. Ever since you dealt with the foreign races in the eastern area of the Abyss of Supreme Darkness, the humans of our Abyss of Supreme Darkness have interacted more with the cultivators of other worlds. Some sects even restored the interface passage. When the other worlds heard of your reputation, they came to Gray Stone City to see your true appearance. Of course, they want to settle down in Gray Stone City more as there’s immortal spiritual energy here.

Little Qinglian also looked up and said, “Great-grandfather, some time ago, Father was traveling with a cultivator from another world.”

Shen Ping was enlightened. “I see.”

He often cultivated in seclusion, so he really did not know that Gray Stone City had already developed into a famous immortal city. Even cultivators from other worlds came because of its reputation.

They left the shop and shopped for another hour. Little Qinglian rubbed her stomach and grinned. “Great-grandpa, are we going to the Immortal Swan

Pavilion?”

Shen Ping patted her head. “How did you know that Great-grandfather wanted to go?”

Little Qinglian giggled and said, “I heard from Mother that Great-grandfather used to like to watch fairies dance.”

Shen Ping’s face darkened. “Who told your mother?”

Little Qinglian made a face. “Hehe, I won’t tell my great-grandfather.” As they chatted, they walked in the direction of the Immortal Swan Pavilion.

“This little girl is so goofy.”

He shook his head, and he looked at the Immortal Swan Pavilion in the distance and could not help but recall the dance moves he had admired in the past. In fact, it was not that he liked to watch fairies dance, but there were really not many entertainment methods in this Xianxia world.

Moreover, dance was an extremely enjoyable art. Especially the solo dance, it was even more beautiful.

Who wouldn’t like it?

The shopkeeper of the Immortal Swan Pavilion naturally knew Shen Ping. He immediately arranged a VIP room for him and Little Qinglian, and it was the one with the best seat.

“Oh? There’s a performance today?”

“City Lord Shen, you don’t know, but Fairy Zi performs in the Immortal Swan Pavilion every day. That’s why we’re so lively.”

Shen Ping looked at the full seats below and nodded in realization. As for why the other party wanted to perform every day, he did not ask. Every cultivator’s cultivation method was different. Perhaps the other party could only improve herself by immersing herself in dance.

The Immortal Swan Pavilion was not a brothel. It was just a platform for entertainment. It was mainly to satisfy the needs of a large number of cultivators to relax. There were many performances inside, like the opera house.

And Fairy Zi’s performance was at five in the evening.

After she went on stage, the atmosphere in the building reached the highest. Many cultivators, including the Body Integration and Mahayana Realm cultivators in the nearby private rooms, were filled with anticipation.

This piqued Shen Ping’s interest.

Boom.

As spiritual energy spread, immortal fog floated above the entire seat. There was even the sound of immortal cranes. Then, all kinds of mutated beasts flew up. As the immortal fog lingered, an ethereal figure slowly danced in the immortal fog.

A pleasant sound rang in the ears of every cultivator. It was like the flowing of spring water in a mountain stream or the swaying of the wind in a bamboo forest. It was very easy to empty one’s mind and cast away all distracting thoughts.

Shen Ping smiled. It turned out that Fairy Zi’s dance actually contained a divine sense technique. Although it was not offensive at all, it was indeed very mysterious to be able to immerse a Body Integration and Mahayana Realm experts.

However, this method could only affect the Mahayana Realm. It was useless towards him who had a powerful divine sense, but he still admired it. In the end, when Zi Mei’er, who was wearing a purple veil, walked out of the immortal fog, the feeling reached its peak, making him feel that this trip was not in vain.

“Not bad.” He clapped and praised. In fact, when one reached a certain level of cultivation, beauty was almost all based on temperament. Faces and such were not worthy of the attention of great cultivators. After all, they had cultivated for more than a thousand years. As long as they were not those who had been in seclusion, they would see many female cultivators who looked like Heavenly Immortals. Therefore, it was impossible for them to be infatuated with her just by looking at her face..

Chapter 740 - Exposed(2)

However, cultivators were also humans. Such a vague and hazy beauty that was half-covered by the pipa was the most moving. Coupled with some divine sense methods, they naturally felt that the other party was as beautiful as a Heavenly Immortal.

Soon, Shen Ping left with Little Qinglian. Although he could tell through special methods that Fairy Zi was not one of the ten special physiques, he still used the Purple Eye Divine Pupils to confirm before he left. Indeed, she was not. So he did not feel anything in his heart.

There were many beautiful cultivators in the world. He had even seen immortal kings and Immortal Venerables, let alone a female cultivator who was only at the Void Refinement Realm.

It did not take long for Zi Mei'er to learn that Shen Ping had come to the Immortal Swan Pavilion to admire her dance. Although the other party did not invite her to meet him, this was considered a huge progress for her.

Several years passed. After Shen Ping came to the Immortal Swan Pavilion for the fifth time to watch the dance, he received an invitation from Fairy Zi.

"Fairy Zi only wants to see City Lord Shen because of his reputation." The shopkeeper of the Immortal Swan Pavilion said respectfully.

Shen Ping sipped his tea and said casually, "Alright, let's meet."

The other party's dance skills were not bad. It was fine to meet her. The meeting place was in the VIP room of the Immortal Swan Pavilion. After a while, Zi Mei'er stood in front of Shen Ping and bowed. "Greetings, Senior Shen."

"There's no need to be so polite. For you to be able to dance in the Immortal Swan Pavilion every day, your perseverance is really good. Tell me, what do you want from me?" Shen Ping looked at Zi Mei'er and said calmly.

Zi Mei'er said softly, "I don't have any other requests. I've just admired your reputation for a long time. I came to the Abyss of Supreme Darkness from the Heaven Mystic World to see City Lord Shen."

Shen Ping raised his eyebrows. "Just to meet me?"

"Yes."

"Now that you've seen me, you can leave."

He picked up his tea.

Zi Mei'er hesitated and said, "I wonder if Senior Shen is still willing to come to the Immortal Swan Pavilion to watch my dance in the future?"

Shen Ping smiled and said, "Fairy Zi's dance can indeed relax people. I'll come when I'm free."

"Thank you, City Lord."

After saying that, Zi Mei'er left. When her figure disappeared, Shen Ping was puzzled instead. In his opinion, the other party must have other motives for doing this. In the end, the other party did

not hesitate at all, as if she really just wanted to meet. “Forget it. Whether it’s playing hard to get or other methods, they’re all useless.”

She was not the ten special physiques, so he was indeed not very interested.

Late at night, in the backyard of the West City Inn, the shopkeeper praised, Young Valley Master is still the best. I didn’t expect to see City Lord Shen so easily.”

Zi Mei’er smiled indifferently. “There’s nothing to praise about this. However, I didn’t expect him to like to admire dances. I thought he was coming for my body.”

There was a hint of disappointment in her tone. She could tell from that expression that the other party was indeed not interested in her.

“Young Valley Master, what are your plans next?”

“Continue to stay in the Immortal Swan Pavilion. City Lord Shen is now the number one cultivator in the lower realm of our human race. It’s extremely precious to be able to obtain his appreciation.”

At the same time.

Realm Sea.

In the palace of the majestic mountain range, the Realm Ancestor slowly opened his huge eyes, “Very good. You actually found the Beast Spirit who obtained the greatest opportunity in the green hall so quickly.

“Human Shen Ping, huh... It’s a problem. This little fellow was able to kill so many Golden Immortals of the Devil Clan, Spirit Race, Demon Race, and so on in the Abyss of Supreme Darkness. This time, he also obtained the opportunity left behind by the Master of the Realm Sea Peak. His strength probably soared, and he probably even comprehended the Great Dao of Heaven and Earth. It’s ‘very difficult to snatch the opportunity from him in the lower realm.

“Let’s wait. As long as he ascends, it will be his death!”

The Realm Ancestor closed his eyes again.

In the blink of an eye, another hundred years passed.

Immortal King Ling Die was soaking in the immortal pool. Amidst the fog, one could vaguely see her snow-white skin and proud figure. Her black hair that was like a waterfall floated casually on the surface of the pool. At this moment, her beautiful eyes were closed, and a large number of unsightly memories flickered in her sea of consciousness.

At first, she felt ashamed and angry every time she recalled it, but now, she was used to it. Just like the true spirit body in her memory, she was used to the violent impact of the broad figure behind her.

“His strength actually increased so quickly. He shouldn’t be a native of the green hall. He must be a reincarnated Beast Spirit. Moreover, his talent is even stronger than an

Immortal King or Immortal Venerable. It's very likely a Venerable Sovereign. Which Venerable Sovereign is it?"

Immortal King Ling Die frowned. Through the memory fragments, she could vaguely sense the other party's aura. It was just that it was difficult to sense the True Spirit, but she could determine the increase in the man's strength from his aura. Therefore, after such a long time, she could roughly guess that the other party had probably obtained the greatest opportunity of the green hall.

This is an important message. If she could find out which beast spirit cultivator the other party was, she could inform the Venerable Sovereign of the Spirit Race and plan for that greatest opportunity.

"I hope it's not a Venerable Sovereign of the Spirit Race. I might know who it is the next time the Realm Sea Peak Palace opens!"

Realm Sea.

Immortal Venerable Yao and Immortal Venerable Luan were the same. After all, the memory fragments kept surging out. After such a long time, they had basically revealed everything about their lives with each other.

"In the green hall world, he grew so quickly. He must be a Beast Spirit like us.

It's very likely that he's a Venerable Sovereign." Immortal Venerable Yao's brows flickered with seriousness. "If it's really a Venerable Sovereign, I'm afraid things won't be easy."

Immortal Venerable Luan shook her head. "No matter who it is, we have to find out. Only then can we be prepared."

Immortal Venerable Yao knew what Immortal Venerable Luan meant. If the other party obtained the huge opportunity of the green hall, his strength would definitely advance by leaps and bounds. One had to know that that world was related to the Great Dao of Heaven and Earth. If they did not investigate this matter and take precautions in advance, the situation of the myriad races would change.

The next time the palace opens, we have to check it carefully."

Nine Continents Tower.

Five continents and four seas.

True Treasure Pavilion's headquarters

Charming, dignified, holy, enchanting... Lian Xuejin sat on the throne in the main hall with thousands of appearances. As she watched the other new hall masters disappear one by one, she could not help but sigh softly. When she recalled the broad figure in her memory, her face could not help but turn red. As Shen Ping's master, although she had not interacted with him for a long time, she more or less understood this disciple's aura and other habits.

Therefore, she was 80% sure that the man in her memory was Shen Ping's reincarnation. Only the other party would be so immersed and ridiculous in the path of men and women.

"If it's really him... How should I face him in the future?!"

Lian Xuejin's expression kept changing, and various emotions appeared.

Although she was not too affected by the memories of reincarnation, Lian Nishang's reliance and love for Shen Ping were still seeds that she could not erase.

"I hope he doesn't have that memory."

She sighed again. She couldn't help shaking her head. In the past, she would chat with her disciple for a long time through the dazzling crystal every 30 years. However, more than 200 years had passed by this time.

Buzz.

At this moment, the resplendent crystal suddenly reacted. Lian Xuejin's body trembled slightly. After hesitating for a long time, she still took it out. Soon, a familiar voice came from the crystal. "How's Master's progress on the Beast Scripture?"

"I-I'm still stuck at the beast bone level."

With that, she put away the resplendent crystal.

Shen Ping could tell that something was wrong, but he did not think too much about it. He replied a few words and entered the Strange Beast Gate.

In a few years, the Beast Spirit Ranking would open again. He wanted to encourage Yin Ting before it opened.

It was still the same place on the second floor of the Heavenly Palace. About half a month later, Yin Ting arrived. The two of them spent a few days together. Then, they got down to business.

Yin Ting's brows were filled with joy. "It's all thanks to the Blood Bead that you gave me. After absorbing and refining it, I've already completely comprehended the Beast Blood and have some comprehension of the scale armor level. This time, I should have a chance to enter the top too of the Beast Spirit Ranking."

Shen Ping couldn't help but feel happy for Yin Ting. Although the top too of the Beast Spirit Ranking did not have many benefits, they were definitely among the top prodigies in the Winged Race.
