Chapter 3328

At the foot of Xuan Pin Mountain.

Su Zimo and Die Yue lived here in seclusion and did not participate in this extremely important event for the human race.

Living a leisurely and peaceful life far away from the fighting was what the two of them yearned for.

Of course, when they heard the cheers in the distance and realized that the human race had produced a Saint, Su Zimo and Die Yue were overjoyed and celebrated.

As they chatted, Su Zimo suddenly thought of something and asked, "I've seen the sacred clans of the five sacred lands, but I've never seen the sacred clans of the Life Sacred Land in all these years. Could it be that none of their bloodlines have survived?"

"There are no Sacred Race in the Life Sacred Land."

Die Yue shook her head. "According to the mountain elder, there were no Sacred Race in the Life Sacred Land even six billion years ago."

"That's strange."

Su Zimo frowned slightly.

The sign of becoming a Sacred Race was bloodline Ancestral Awakening.

Did the beings of the Life Sacred Land not show signs of Ancestral Awakening?

"Bloodline Ancestral Awakening …"

Su Zimo murmured thoughtfully.

Three days later.

As usual, the two of them worked at sunrise and rested at sunset. It was no different from their usual routine.

But on this morning, the two of them felt something strange at the same time.

Every day at this time, in the nearby villages, many people got up one after another to work, smoke rising from the chimneys of the houses.

The children's running and the adults' scolding intertwined, awakening the vitality of this paradise.

But at this moment, the surroundings were quiet and lifeless.

It was eerily quiet.

A stifling silence.

Su Zimo frowned and exchanged a glance with Die Yue. They both saw the strange look in each other's eyes.

There was definitely no fighting near Xuan Pin Mountain, and there was no smell of blood.

Otherwise, the two of them would have noticed it long ago.

At this moment.

A girl ran over from afar, her face full of tears.

It was she who told Su Zimo about Die Yue in the Ancestral Fire Sacred Land.

Over the years, Su Zimo had heard Die Yue mention it.

This girl was called Haitang.

She was the woodcutter's daughter.

Ten thousand years ago, she had stepped into the Dao Manipulation Realm.

She became a Dao Sovereign.

When she got close.

Haitang threw herself into Die Yue's arms and cried loudly.

"What happened?"

Die Yue gently stroked Haitang's back.

She asked softly.

"Father and the others are trapped inside.

There's no way out. "

Haitang's eyes were already red from crying.

"Hmm?"

Die Yue frowned slightly and asked, "Didn't your father not intend to enter the forbidden area of time and space? What happened? Tell me slowly."

Haitang pursed her lips.

She sobbed again and again.

He tried his best to calm his breathing.

He said, "After Jiang Chao and Hui Ming became Martial Saints, the two Martial Saints became Martial Saints.

The supreme beings of the human race inside.

This will cause the other experts to be extremely hostile. "

"Under the instigation of the people from the Holy Lands, the Supremes of the various clans joined hands.

I want to drive the hundreds of human Autarchs out of the Forbidden Area of Spacetime. "

Su Zimo and Die Yue heard this.

They all frowned.

Haitang continued, "That place is the Life Sacred Land of our human race, so the human race's Supremes are naturally unwilling to leave.

As the two sides faced each other, a conflict broke out. "

Su Zimo asked, "Where are Saints Jiang Chao and Hui Ming?"

"They have already returned to Xuan Mi Mountain."

Haitang said, "After becoming a Saint.

They can't stay in the Life Sacred Land. "

After a pause, Haitang continued, "What's more,

This is a conflict between Supremes. They are Saints.

There's no way to interfere. "

"And then?"

Die Yue asked.

Haitang continued, "Father and the fisherman's three uncles saw that the situation was not good.

They set off to enter the Life Sacred Land.

They prepared to persuade the human Supremes to return. "

"At least when they return to the Great Thousand World, they will have a chance to become a Saint in the future.

If they are buried inside,

They will have no chance at all. "

"But the situation is changing rapidly. By the time Father and the other three arrived,

The situation was already out of control, and both sides were dying! Father and the other three were also trapped.

There was no way out, so they could only lead the human Supremes to fight their way out.

They retreated to the nearest Life City. "

At this point, Haitang started crying again.

"Father and the others can't hold on much longer.

What should we do? "

In a short while,

Su Zimo, Die Yue, and Die Yue had already arrived near the spatial node and saw a large crowd.

An endless crowd.

The atmosphere was extremely stifling, with only the occasional sobbing.

Everyone had sorrowful expressions as they looked at the scene reflected by the spatial node.

Su Zimo and Die Yue also looked up.

They saw that various places in the Forbidden Land of Spacetime were fighting and killing. It was chaos.

The flames of war were everywhere.

In the largest battlefield,

In the City of Life.

In the air above this dilapidated ancient city,

Many Supremes stood in the air, exuding powerful auras as they surrounded the City of Life so tightly that not even a drop of water could pass through!

There were not many empty Great Dao Saint positions. Many Supremes who cultivated the same Great Dao were already hostile to each other.

But the Supremes were still able to restrain themselves, abiding by some tacit understanding and doing their best to maintain a balance.

Before this, all the Supremes had tacitly agreed to a certain rule.

Even if they cultivated the same Great Dao, it would depend on their own ability to see who could succeed in Dao Integration.

And the appearance of the human Supremes to seize Karmic Luck.

This balance was broken.

The birth of two Saints in the human race caused a huge commotion among the myriad races!

Even the Supremes of the Five Great Sacred Lands were not confident.

They stood out to incite the Supremes of the myriad races to expel the human Supremes from the Forbidden Land of Spacetime.

This action was equivalent to breaking the tacit rule in the hearts of the Supremes!

If they could use force to clear the obstacles ahead and seize the Great Dao Saint position, then others could do the same!

At this point, the Supremes of the various races fell into a chaotic battle for the Great Dao Saint position!

Although the Supremes of the Five Great Sacred Lands were not of the Sacred Race, they were still above the myriad races and had unshakable status and prestige.

Under their orders, more and more Supreme-Being experts gathered under their command, and they quickly formed the five largest forces!

The current situation was becoming clearer and clearer. Only by joining one of the Five Great Sacred Lands would one not be targeted.

Even if some Supremes did not have any hostility towards the human race, they would still choose to join the Five Great Sacred Lands in order to protect themselves.

At this moment, the number of Supremes around the City of Life had already reached 300,000.

And this number was still rapidly increasing!

Even though they were looking at this scene through the spatial node, they could still feel the pressure brought about by the dozens of Supreme-Being experts. It was suffocating!

At this moment, the Supremes of the myriad races gathered here with only one goal.

The hundreds of Supremes of the human race in the City of Life!

Under the repeated attacks of the Supremes of the myriad races, the City of Life had long been destroyed and reduced to ruins.

Even the originally crumbling palace had collapsed.

There was only a Stone of Life left in the ruins.

There was also a group of human Supremes surrounding the Stone of Life!

The city was broken and the palace collapsed, but the people were still there!

"Saint Jiangchao, Saint Huiming, please step forward and bring them back!"

"That's right, only you can resolve this situation."

The human cultivators could not stand it anymore and turned to look at the two Saints Jiangchao and Huiming who had just stepped into the Sage Stage.

Saint Jiangchao had a troubled expression. "The other races have Saints, and so do the Five Great Sacred Lands. Once we step forward and break the balance, the Saints of the various races and even the Saints of the Five Great Sacred Lands might appear. When that time comes …"

At this point, Saint Jiangchao lowered his head slightly and sighed.

Saint Huiming did not dare to meet the gazes of the many humans. He lowered his head with a guilty expression.

The main reason why they did not dare to step forward was because they were worried that if they interfered, they would offend the Sacred Lands and attract heavenly punishment.

"Are we just going to watch our Supremes of the human race die in there?"

"Is there anyone who can come and save them?"

More and more cries came from the crowd.

Mountain Elder frowned with a bitter expression. He did not say anything and the sorrow in his eyes intensified.

Within the Forbidden Grounds of Time and Space.

The Supremes of the human race were already covered in injuries. However, every single one of them had fearless expressions as they stood with their heads held high without any intention of retreating in their eyes!

Even against enemies ten or a hundred times stronger than them, the Supremes of the human race did not yield!

The difference between the two sides was too great.

They were already prepared to die. Even though they knew that there was no hope, they did not give up on resisting!

It was as though there was an invisible force supporting them.

"He's so silly. Why isn't he willing to back down?"

A woman with a big belly could not help but cry out when she saw her Dao partner fall into the trap. "The people of the Sacred Lands said that as long as he's willing to cripple his own Dao, he can save his life …"

"What are they holding on for? Is it worth it? "Someone asked in a daze amidst their heartache.

"Dignity and glory."

A woman's voice was heard. It was calm but powerful.

Everyone turned towards the source of the voice and saw Su Zimo and Die Yue walking through the crowd.

Everyone was deep in thought and vaguely understood something.

When they turned back to look at the Supremes of the human race in the forbidden zone of time and space, they felt an impact that struck their hearts and tears filled their eyes instantly!

Those people stepped on the ruins of the ancient city and protected the dignity of the human race with their lives. With the Life Stone behind them, they protected the glory of the human race with their blood!

Su Zimo and Die Yue exchanged glances and understood each other's thoughts at the same time.

Die Yue had died once and was reborn. She was already tired of fighting and killing.

In fact, she did not care much about the Sage realm or eternal life and was indifferent to them.

Su Zimo had been cultivating and finally found Die Yue. After living a peaceful and leisurely life, he was already tired of fighting and killing.

However, when they saw that the human race was in trouble and was being bullied, they did not hesitate at all and decided to join forces once more to head to the forbidden zone of time and space!

Die Yue brought Haitang to the mountain elder and bowed slightly.

"Sister Die, w-where are you guys going?"

As though she realized something, Haitang asked with a trembling voice.

"We're going to bring your father back."

Die Yue smiled gently.

"Don't, it's too dangerous inside!"

Although Haitang was worried about her father, she did not want Die Yue to be in danger.

"You're only at lesser mastery of the Dao Manipulation realm. Are you confident?"

Lin Xuanji came over as well and looked at Su Zimo, asking softly, "How about you stay outside and not be a burden to them?"

Su Zimo smiled and did not explain. Walking together with Die Yue, he headed towards the dimensional node of the forbidden zone of time and space right in front of everyone's shocked gazes.

Even the two Saints, Jiang Chao and Hui Ming, raised their heads and looked at them in disbelief.

Against dozens of Supreme experts, entering at this moment was equivalent to courting death!

The human Supremes inside had no way out and were willing to die for their dignity and glory – that was understandable.

But why were those two doing it?

"Mountain elder, please persuade them!"

Haitang could not help but ask with a worried expression.

Mountain Elder looked at the backs of the two and remained silent. However, the worry in his eyes seemed to have faded a little.
