Words:2048 Update:23/04/30 23:27:47

Book of Life and Death?

Su Zimo did have a piece of black paper with the name 'Book of Life and Death' on him.

Back then, he took the black paper from the Master of the Underworld and kept it with him. However, he did not find anything useful after studying it for many years.

Although he had seen the old book in the mountain elder's hands many times, he had never associated it with the Book of Life and Death.

The old book was not eye-catching and looked very different from the Book of Life and Death in his hands.

The material of the Human Book in the mountain elder's hands was slightly yellow and looked no different from ordinary paper.

On the other hand, the Book of Life and Death was a piece of black paper that looked eerie.

Su Zimo instinctively took out the Book of Life and Death.

The black paper was originally quiet. However, when it appeared in the forbidden zone of time and space, it seemed to have sensed something and suddenly emitted a pitch-black light!

In an instant, the entire world darkened!

The experts in the forbidden zone of time and space were shrouded by the black light and could not help but feel a sense of fear. It was extremely oppressive!

Even the Sages of the Nine Heavens were not spared!

"Hmm?"

The expressions of the Space-Time Sacred Master and the Yin-Yang Sacred Master changed. They stared at the black paper in Su Zimo's hands and frowned, as if they wanted to see through the power of the black paper.

All of a sudden!

The two of them felt a cold and eerie aura and could not help but groan and shiver.

The two Sacred Masters were shocked and quickly recalled the two Heavenly Dao Sacred Artifacts that were attacking the mountain elder.

Buzz!

The two Heavenly Axiom Saint Artifacts seemed to have sensed something as well. They trembled slightly and shook the void. A powerful ripple spread out, dispersing the cold Qi brought by the black paper.

At this moment, the mountain elder turned his head and looked at the black paper in Su Zimo's hands. He had a complicated expression and sighed deeply.

After a moment of silence, the mountain elder waved his hands.

The black paper seemed to have been summoned by some kind of power and turned into a ray of black light and suddenly flew towards the Human Book in the mountain elder's hands.

In the blink of an eye, the black paper entered the gap in the middle of the Human Book and fit perfectly with the missing page!

Even the edges of the tear fit together perfectly!

From the looks of it, this piece of black paper was indeed torn from the Human Book.

However, this piece of black paper still looked out of place with the slightly yellowed paper of the human book.

But soon, the Human Book began to change!

The black paper emitted a gloomy black light. Like ink, it gradually seeped into the pages of the Human Book, layer by layer.

A moment later, the Human Book was dyed black!

At this moment, the aura of the Human Book had finally reached a level where it could compete with the two Heavenly Dao Saint Artifacts!

Another Heavenly Dao Saint Artifact!

There was no joy on the mountain leader's face.

When Su Zimo saw this, he also felt a faint sense of loss.

The Human Book recovered and returned to its peak.

However, his aura was completely different from before.

Although the original Human Book was in tatters, it emitted a vast, warm, and all-encompassing power.

At this moment, the Human Book was dead silent, gloomy, and murderous!

Meanwhile.

Nether Blood Sea, Holy Ground Land.

The aura of the black-robed man who had been sitting beside the sea of blood suddenly changed, and he slowly stood up.

Wu Dao's main body, who was deducing Dao techniques, seemed to have sensed something and opened his eyes as well.

Over the years, he had already comprehended all the Great Daos left behind in the ruins of the Saints.

When he first comprehended the Great Daos, it took a relatively long time.

However, after comprehending the Great Dao of Metal and the Great Dao of Water, the Great Daos derived from those Great Daos would be twice the result with half the effort.

At this moment, there were already thousands of Great Daos in the Yuan Wu World. They were densely packed and crisscrossed, evolving a unique order.

Of course, Wu Dao's main body was still unable to reach Dao Integration.

As the number of Great Daos in the Yuan Wu World increased, the possibility of Dao Integration to become a Sage decreased.

Wu Dao's main body was certain that his path to Dao Integration to become a Sage was completely cut off!

All these years, he had been thinking about his own path, but he still had no clue.

At that moment, sensing the abnormality from the black-robed man, Wu Dao's main body stopped deducing and looked at the black-robed man's back view thoughtfully.

The black-robed man had clearly become even more terrifying and unfathomable than before!

And this time just happened to be when the Human Book fused with the black paper and completed its transformation!

Wu Dao's main body realized that the black-robed man might be about to leave.

Wu Dao's main body pondered for a moment and suddenly asked, "You're waiting for this moment, right?"

Over the years, Wu Dao's main body had tried to communicate with the black-robed man, but the latter did not respond.

It was just that when Wu Dao's main body was deducing Dao techniques, the black-robed man would occasionally turn his head and stare in his direction with a strange expression.

At that moment, when he heard Wu Dao's main body's question, the black-robed man turned around and walked over, sitting in front of Wu Dao's main body.

"Your Dao technique can't be deduced anymore."

The black-robed man did not directly respond to Wu Dao's main body's words. Instead, he said that with a faint smile.

The long hair that was originally covering his forehead fluttered in the wind and gradually moved to the back of his head, revealing an exceptionally handsome face.

He was younger than Wu Dao's main body had imagined.

His eyes were as deep as the abyss and inadvertently, there would be a hint of vicissitudes, loneliness and desolation.

The black-robed man exuded a sense of loneliness that could not be tolerated by the world.

That sense of loneliness, coupled with that face, formed a unique aura.

Wu Dao's main body had never seen it on anyone before.

That aura was unforgettable after a single glance!

Wu Dao's main body did not reply to the black-robed man and continued, "If I'm not wrong, you're the master of the Reincarnation Sacred Ground!"

"Initially, your Reincarnation Dao was flawed and imperfect because the Heavenly Dao and Human Dao were not within your control."

"However, earlier on, you finally controlled Human Dao with the help of the Human Book!"

That page of the Life and Death Book was indeed a page of the Human Book.

However, the black-robed man refined it into another sacred weapon!

When this sacred weapon merged with the Human Book, it would assimilate the Human Book. The black-robed man would then use this opportunity to control the Human Book and even the Great Dao of Man through the Human Book!

That was also the reason why the mountain elder had always been somewhat resistant to this.

Wu Dao's main body believed that the mountain elder should have sensed the existence of the Life and Death Book when Qinglian's main body came to Xuan Mi Mountain with the Life and Death Book.

However, the mountain elder had never mentioned it.

If the Space-Time Divine Lord and the Yin-Yang Divine Lord had not killed him, he might not have used the Life and Death Book to repair the Human Book and restore it to the level of a Heavenly Dao sacred weapon!

The biggest winner from this would be the Samsara Divine Lord sitting in front of Wu Dao's main body!

"You're only half right."

The black-robed man smiled faintly.

"I'm not the Samsara Divine Lord."

After pausing for a while, the black-robed man smiled and said something shocking. "You've seen the real Samsara Divine Lord and even fought with him."
