Starting From A Son In Law To Build An Long Lasting Family

Chapter 13: Immortal Beauty Technique!

【Ding, congratulations to the host for obtaining the Immortal Beauty Technique!】

【The reward has been sent to the system space, and the host can check it at any time】.

A translucent jade scroll with patterns appeared, accompanied by the sound of the system message.

“Immortal Beauty Technique?”

Lu Changsheng looked at the reward and frowned slightly.

Why does this name sound so strange?

His mind stirred, and he checked the “Immortal Beauty Technique” in the system space.

Immediately, a stream of information appeared.

“All things in the world have beauty or ugliness, and a person’s appearance, superficial traits, are inherent. However, everyone has the right to pursue beauty.”

【Cultivation Technique: Immortal Beauty Technique】

【Level: Peripherial】

【Explanation: In ancient times, there was an exceptionally talented and stunning individual named “Old Man Tian Ku,” who, due to his naturally ugly and repulsive appearance, suffered scorn and hardship on his cultivation path. Therefore, he painstakingly created the Immortal Beauty Technique. By practicing this technique, one can improve one’s appearance, bone structure, and superficial characteristics, enhance one’s charm, and maintain eternal youth】

“This...”

Lu Changsheng was speechless after seeing the introduction of this technique.

He didn't expect to receive such a mediocre cultivation technique on his second lottery draw.

After practicing The Immortal Beauty Technique, it has no other effect except making people look better, sound better, enhance their temperament and charm, and stay youthful forever.

Lu Changsheng really didn't know what to say.

No matter what kind of skill you get, wouldn't it be better than this one?

"Only someone incredibly boring would create such a mediocre cultivation technique."

"It's really a waste to get a side level skill like this."

Lu Changsheng shook his head in regret.

According to his understanding, in the cultivation world, cultivation techniques are classified as: Primary, Advanced, Profound, Peripheral, and Genuine.

The Return to Origin Technique he practiced was a beginner-level cultivation technique.

And the Lu Family's core cultivation method is considered to be an advanced-level method.

Now, he has obtained a Unorthodox level technique.

A technique that was two levels higher than the Lu family's core technique turned out to be an auxiliary technique that was not helpful in cultivation or combat.

This made Lu Changsheng feel very uncomfortable, even a bit nauseous.

"Well, even though it is mediocre, it can't be said to be completely useless."

"After all, there is the effect of eternal youth, and being handsome and charming makes it easier for others to make a favorable impression. There are quite a few advantages."

"I remember playing a cultivation game in my previous life, and there was a style called 'Soft Rice Flow' where you become handsome and then rely on wealthy women and powerful figures."

"If I can find an immortal lady several thousand years older than me in the future, my path to immortality will be smooth."

Lu Changsheng took a deep breath and began to comfort himself.

Then, with a slight mental movement, he directly used the cultivation technique and inherited it.

Immediately, detailed information about the Immortal Beauty Technique and its cultivation methods poured into Lu Changsheng's mind.

"Tsk tsk tsk, it turns out that being ugly is so difficult. No wonder Old Man Tian Ku had to create such a technique."

After thoroughly understanding the cultivation technique, Lu Changsheng couldn't help but sigh.

According to the records of this cultivation technique, human appearance is divided into seven levels: Repulsive, Ugly, Bizarre, Ordinary, Outstanding, Extraordinary, and Immortal Beauty.

And the appearance of the creator "Old Man Tian Ku" was Ugly and Repulsive.

This also caused him to suffer a lot from the scorn and hardship on his cultivation path.

After all, such an appearance immediately gave people the impression that he was not a good person.

Not only did people avoid interacting with him, but if something bad happens, they will easily become suspicious of him.

There were even some "Face Dogs" who thought he was too ugly and were offended, so they directly tried to kill him.

It was truly a great tragedy.

In his past and present lives, Lu Changsheng is not particularly handsome, but he is far from being considered ugly.

So it is difficult for him to understand the determination of Old Man Tian Ku who created this technique.

But after studying the techniques and knowing the creator's psychological experience, he gained some understanding.

"Fortunately, practicing this technique doesn't require much effort, and it doesn't interfere with cultivation."

“Otherwise, given my current situation, it would be unwise to spend time and energy cultivating such a technique.”

Lu Changsheng breathed a sigh of relief and prepared to cultivate this Immortal Beauty Technique.

Although he has no obsession with his appearance, if he can be more handsome and remain youthful forever, why not do it?

After he becomes handsome, there might be “fairies” who will take the initiative to approach him in the future.

Besides, there’s an old saying in his past life: “Since you’re here, why not?”

Now that he’s received the technique, it would be a loss if he didn’t practice it, right?

The main reason is that it is very easy to cultivate, and there are two methods.

One is to absorb spiritual energy through meditation, and then let the spiritual energy circulate in your body, slowly refining and improving the defects and flaws in your appearance.

The other cultivation method is to use the essence of the five elements-metal, wood, water, fire, and earth-to build the foundation.

This method does not require personal cultivation. The essence of the five elements in the body will automatically operate the technique, baptize the body, and improve one’s appearance.

To put it simply, a person will become more and more beautiful as time goes by.

And the essence of these five elemental materials has no special requirements; ordinary first- and second-tier spiritual materials are sufficient, and there is no need for rare and precious spiritual items.

However, Lu Changsheng can only use the first method for now.

He can’t afford first-class spiritual materials.

Soon Lu Changsheng began to cultivate the Immortal Beauty Technique.

After one night, on the second day, Lu Changsheng looked at himself in the mirror.

Although his appearance was the same as before, he felt that he had become much more handsome.

After staring at himself for half a moment, Lu Changsheng didn't continue.

Knowing himself well, he knew that this was an illusion.

It's like feeling thinner after every run.

Besides, even though this Immortal Beauty Technique is considered an Unorthodox technique, it's not that miraculous.

It doesn't mean that you can go from being ugly and disgusting to being Immortal Beauty after you cultivate.

Just by practicing it, a person's appearance, bone structure, skin, and so on will silently improve in a positive direction.

When the modification reaches a certain point, after reaching the limit, there is no further effect.

It's not a matter of how many layers you have; reaching a certain level doesn't automatically make you Immortal Beauty.

Wouldn't it be inconvenient if there was a standard for Immortal Beauty and everyone who practised the technique looked the same?

This group of practitioners would all end up looking the same, and they wouldn't be worthy of being called Immortal Beauty.

In the blink of an eye, more than a month has passed.

With the revelation of his talisman-making talent, Lu Changsheng's life has become more comfortable, and his overall physical and mental condition is also good.

This month, with a little effort, he successfully impregnated one of the two maids who had not yet become his concubines.

Lu Changsheng didn't wait for Uncle Fu to take the initiative, but went to see him and announced his intention to take concubines.

After all, things like making talismans are more or less enough.

Taking a wife, having concubines, and having children is the right way.

Through two system lotteries, Lu Changsheng also tasted the sweetness.

When Uncle Fu found out about Lu Changsheng's intentions and heard his words, he fell silent.

Even though a year and a half had passed, other Immortal Seedlings were still somewhat resistant to the idea of getting married and having children.

However, Lu Changsheng not only did not resist, but also actively expressed his desire to take concubines, leaving Uncle Fu somewhat perplexed.

After a moment of silence, he agreed.

He inquired about Lu Changsheng's preferences and said that he would send two later.

However, he explained that including these two, Lu Changsheng had already married nine people, so there would be no more in the future.

And because of Lu Changsheng's talent in making talismans, Uncle Fu also advised him not to be too obsessed with women and to focus more on the path of talismans.

Because of his talent for making talismans and his background as a farmer, Lu Changsheng had performed well in the past year and a half, and the Lu family was considering taking him into their ranks.

Whether he produces fifty or not is not that important.

If Lu Changsheng's obsession with women caused him to neglect his main duties and ruin himself at this time, it would be hard to explain to the people in charge.

Of course, Lu Changsheng promised to concentrate more on the path of talismans.

He thought that nine would probably be enough.

If he gives birth to one every year, he can have nine children in one year.

Ten days later, as promised, Uncle Fu brought two young women from the Lu family to serve as his concubines.

At the same time, he also brought four elderly women to take care of Lu Changsheng's family, doing laundry, cooking, and taking care of the children.

When Lu Changsheng saw the four women in their forties and fifties, he sighed deeply.

He felt a little insulted.

In the past, the maids and servants were young girls, but now they have become old women.

It seems that these are the last two.
