

Fantasy I Pick Up Attributes In The Future

Chapter 1: Visible Attributes!

Yan Mars! Shuitian City!

A teenager looked at the huge buildings soaring into the sky, and the hovering bikes flying at high speed in the sky with pain on his face.

"Damn it, don't I just sleep in class? As for making me time travel?"

The boy looked at the people coming and going around him in confusion.

"Om!!!!!!!"

However, The next moment countless messages flooded into the boy's mind.

This is a memory of a brother named Zhao Ling who has the same name as himself.

"Damn it, I actually traveled to a hundred thousand years later."

Zhao Ling couldn't help complaining, time travel! This is something that countless people dream of, but Zhao Ling doesn't feel much happiness.

The reason is that the future human race is not a technology-based civilization as I imagined.

Although the technology is very powerful, the benchmark of this era is Martial Dao.

In this era, human beings have already flown out of the solar system, and after countless years of development, human beings' footprints have expanded to more than half of the Milky Way.

It's just that in the Milky Way, there are countless powerful races.

After 100,000 years of rapid development, the human race barely became one of the major forces in the galaxy.

The human race became one of the major forces not because of the strength of technology, but because of the rapid development of the human race Martial Dao.

This history starts from 100,000 years ago. In 2150, the Third World War broke out.

In 2190, the world war that lasted for forty years ended in China's victory.

In 2518, the human race discovered the first planet where human beings could live, and the life on that planet.

Henceforth, the universe expansion of humanity began.

In the next ten thousand years, human beings experienced rapid development until they encountered another powerful intelligent life force in the Milky Way.

This force is not only powerful in science and technology, but also the individual strong is extremely terrifying.

It wasn't until one time when a strong man of this force took action and shattered several human backbone planets with a slap that human beings realized that individual power was the main driving force for the development of this time.

"You say that it's fine if you travel through time. It doesn't matter if you give me a genius or a rich second generation. Why is it a trash who can't even become a Practitioner?"

Zhao Ling couldn't help complaining.

From his memory, he learned that in this era, if you want to become a Practitioner, you must rely on actual training to increase your own strength to the 300kg limit strength of the breakthrough human body.

In this way, half of your foot has stepped into the entry of Martial Dao, which is to prepare Practitioner.

Only after becoming a preparatory Practitioner can one be qualified to be admitted to a martial arts school.

Zhao Ling is already seventeen years old, that is, a third year of high school, and if he does not pass the preparatory Practitioner in the martial arts examination of the third year of high school, there is almost no hope of becoming a Practitioner in this life.

"Forget it, it's all here, what else can I do? There are still a few days left for the martial arts exam. I don't know if I can finally break through to prepare for the Practitioner."

After thinking about it, Zhao Ling walked towards the school helplessly. What if the Talent becomes stronger after he crosses?

"boom!"

Suddenly, out of the corner of Zhao Ling's eyes, he saw an Arabic numeral 18 falling on the ground, and this number was white.

Suddenly, Zhao Ling picked up the number 18 on the ground, but the white number 18 turned into a white light and appeared in Zhao Ling's body in an instant.

At the next moment, a warm current poured into Zhao Ling's body, rapidly strengthening Zhao Ling's body, and Zhao Ling could clearly feel that own body was strengthening rapidly.

"Ding... The host picked up attributes: strength 18 points, increase strength value: 18"

Suddenly, an electronic sound that shocked Zhao Ling's face rang in his mind.

At the next moment, an attribute table appeared in front of Zhao Ling.

Attribute table:

Host: Zhao Ling

Realm: ordinary people

Strength: 245 (1 point 1kg, 50 for normal people)

Speed: 15m/s (10m/s for normal people)

Vitality: 190 (Defense, Restoration, Bearable Strength, and Root Bone)

Soul: 18 (10 for normal people, Mental Energy, soul strength,)

Cultivation Technique: Basic forging body Fist Technique (no flow)

Martial Skill: None

Seeing this attribute table, Zhao Ling was stunned, especially the 245 above strength, which made Zhao Ling swallow his saliva.

"I remember that the strength before this sad reminder was only 237 or was it tested yesterday, that is to say, the light ball just now made me increase my strength by 18 kilograms?"

Thinking of this, Zhao Ling immediately knew what the hell the own system was.

Can pick up attributes! If I pick up dozens of points a day, then my growth in a day is equivalent to my previous years of cultivation.

"and also!!!!"

Suddenly, Zhao Ling saw a red 20 falling in front of him again.

Zhao Ling hurried over to pick it up.

The next moment, a blood-red light instantly flowed into Zhao Ling's body.

After the Blood Qi poured into the body, it quickly flowed through Zhao Ling's blood vessels, skin and bones.

Zhao Ling could clearly feel that his own physique was rising rapidly.

"Ding... The host picked up the attribute: 20 points of vitality and blood, and increased the value of vitality and blood: 20"

Attribute table:

Host: Zhao Ling

Realm: ordinary people

Strength: 245 (1 point 1kg, 50 for normal people)

Vitality: 210 (Defense, Restoration, Bearable Strength, and Root Bone)

Sure enough, the qi and blood increased by twenty points in an instant!

"Damn it, daddy is developed!"

Seeing this, Zhao Ling suddenly swears!
