

Fantasy I Pick Up Attributes In The Future

Chapter 121: Evolution! The Legendary Dragon! ! (2/5)

"Roar!!!!"

When a group of star beasts came near Zhao Ling, following the roar of the flaming lion, this group of devastated fourth-order peak star beasts were frightened and frightened, not daring to move.

"Roar!!!!"

The Flaming Lion ran up to Zhao Ling, nodded and bowed his head, asking for credit.

"Forty-five heads, that's all I got when four disappeared, not bad!!"

Zhao Ling nodded in satisfaction, and immediately threw the day vial of the Peak Medicine Pill to Lieyan Xiongshi.

Although he didn't know what it was, the Flame Lion quickly picked it up.

Following the shattering of the porcelain bottle, a large surge of terrifying Spirit Power burst out from the shattered medicine bottle in an instant.

The eyes of the Flaming Lion and the Star Beast beside him are straight!

The Flame Lion quickly took one and ate it.

"!!!!!!"

A terrifying Spiritual Qi wave instantly burst out from the void and poured into his body.

The Flaming Lion hurriedly refined it crazily.

As the refining progressed, the Flame Lion felt that his bottleneck, which was stuck at the peak of the Second Stage in the starry sky, was slightly loose!

Of course, a medicine pill at the peak of the sky level is not so powerful against a star realm, but the flaming lion has been trapped in this Realm for many years.

With the consumption of this Medicine Pill.

The sudden violent Spiritual Qi shattered the bottleneck in an instant!

"Roar!!!!!!"

At the next moment, the flaming lion raised its head to the sky and roared, and the surrounding earth was instantly burned into glass by the terrifying flame power.

Excited, he quickly knelt down in front of Zhao Ling.

Zhao Ling smiled and waved his hands, then looked at the star beasts who had been driven over by Lie Yanxiong!

"Give you a choice, trust me, this kind of Medicine Pill will be indispensable to you at that time! Of course, you can also refuse, if you refuse, you will die!!"

Zhao Ling's icy words made all the Tier 4 star beasts tremble uncontrollably.

Because many star beasts have already recognized that Zhao Ling is the scary boss who called tens of thousands of star beasts back then.

In just an instant, more than thirty star beasts knelt down.

The remaining dozen or so looked at the ferocious eyes of the flaming lion, and immediately knelt down.

"Very well, you guys made a wise decision!!"

Zhao Ling nodded, and then with a wave of his hand, dozens of contract seals were directly printed on the foreheads of more than forty star beasts.

The next moment Zhao Ling waved his right hand slightly, and dozens of Heaven Rank Medicine Pills flew out of his hand.

Seeing that he also got the Medicine Pill, the Star Beast thanked Zhao Ling excitedly.

Soon, all the star beasts swallowed the Medicine Pill.

A series of powerful auras instantly rose from the group of star beasts.

Although there is no breakthrough Realm, their strength is about five or six times that of the fourth-order peak!

With the addition of Zhao Ling's beast-monitoring skills, their strength can directly blow up the general starry sky powerhouse!

The strongest can even kill the powerhouses of the Starry Sky Second Stage.

Such a terrifying reminder also made Leng Dao feel the power of the Beast Master!

But Zhao Ling also knows from the information that the cultivation of beast master skills is infinitely more difficult than spear skills and other skills!

Therefore, for a beast master, it is better to find a few powerful star beasts than to practice skills.

"You also go together with the Flame Lion to bring all the star beasts of the fourth-order peak, and even the eighth-nine star beasts of the fourth-order!"

Zhao Ling thought for a while and saw these star beasts sent out.

Seeing that the Flaming Lions had received so many rewards, they couldn't bear it even after their strength had soared.

Just as Zhao Ling finished speaking, dozens of star beasts exuding a terrifying aura rushed towards the distance.

Lie Yanxiong saw that it was okay, and rushed out quickly.

With so many terrifying existences comparable to fifth-order star beasts joining.

A group of powerful star beasts were sent over.

And Zhao Ling also got a lot of heavenly treasure chests!

Because in order to speed up the efficiency, many animal pets directly brought the star beasts knocked out.

Therefore, the dropped attributes have also increased, and the drop probability of the treasure chest has also become stronger!

It's just that these star beasts Zhao Ling can only be thrown into the beast pet space after they are recovered.

However, when he saw that Zhao Ling had actually opened the beast pet space, Old Hun exclaimed again!

"Boom dong....."

However, just three hours later, the huge blood cocoon next to Zhao Ling suddenly made a vibrating sound!

And at The next moment.

"Crack!!!!"

With a cracking sound, a hole was shattered above the blood cocoon!

"!!!!!!"

However, there was a dragon whistle that made Zhao Ling frowned.

A flood dragon with a pair of horns on its head rushed out of the blood cocoon.

"Fuck! Young master! This is a dragon!! The most powerful dragon among the sub-dragons in the universe! This is a powerful race of seven-star blood!!"

Old Soul's horrified voice came from Zhao Ling's ring.

The flood dragon instantly soared into the sky and flew towards the sky.

The next moment, the boundless clouds in the sky condense together instantly.

At the same time, terrifying thunderbolts began to move rapidly in the clouds!

"Hiss, this is the Dragon Transformation Tribulation. Legend has it that creatures with dragon blood will experience the Dragon Transformation Tribulation when they transform into sub-dragons!!"

Hunlao took a deep breath, this time, he can be sure that Zhao Ling's beast pet has really evolved into a flood dragon!

"Snake-turned-dragon is not a legend!!"

Zhao Ling's eyes flashed slightly, and the legend that has been passed down for countless years among the human race has actually come true today.

However, back in time a few hours ago,

Just when Zhao Ling released the eight fifth-order star beasts.

The face of the monitoring personnel responsible for monitoring Saturn on the earth changed slightly!

"Impossible, haven't they been killed? How could they still be alive!"

Within a radius of ten miles where Zhao Ling is, everything is blank!

But those who know that Zhao Ling is a psychiatrist all know that this is normal.

Therefore, the breath of life that disappears within this range of 453 is counted on Zhao Ling's head!

The life breath of the nine star beasts was recovered by Zhao Ling, which directly destroyed the monitoring equipment in their bodies.

So everyone thought Zhao Ling killed them.

However, now they know that things are far from as simple as they thought!

"Report the situation to the leader!!"

The commander hastily gave a low shout.

The next moment, the news reached the leader, but the reply he got was only one sentence.

"It's up to Zhao Ling, just supervise the others!"

The leader's words made the people in the monitoring room heave a sigh of relief.

Thinking about it, no matter what Zhao Ling did, it was still his first. Besides, Zhao Ling didn't destroy the game at will and kill others!

However, a few hours later, suddenly, the weather conditions over Saturn changed wildly.

They didn't care at first, but at The next moment.

A silver flood dragon with extraordinary appearance suddenly soared into the sky from the place where Zhao Ling had not been moving for several hours.

This time, their cognition was shattered!

"Dragon..... Fuck, this is a dragon! No, this is a flood dragon! The existence in the legend really exists?"

A shock instantly spread throughout the monitoring room.

In the picture, the silver flood dragon rushed directly into the thunder cloud.

The next moment A terrifying god thunder that made the surrounding starry sky flash down!.

Fantasy I Pick Up Attributes In The Future

Chapter 122: Swallowing Heaven Rank! Evolution Succeeded! (3/5)

"hold head high!!!"

Among the thunderclouds, the silver flood dragon frantically resisted the thunderstorms that were coming down towards him.

"Dragon Transformation Tribulation, level three Nine Heavens, a total of twenty-seven levels!

If it has passed, the bloodline has been completely sublimated, and the strength can at least reach the Star Sea Realm!

And as long as the resources keep up, it is not impossible to cultivate a powerful existence of the world master level in the future!

Young master, you have found a treasure!"

Hun Lao's excited voice came from the ring.

Zhao Ling smiled and didn't care.

It doesn't matter whether it's the world master level or the domain master level, wait for her to grow to that level.

Zhao Ling himself has become at least an immortal level powerhouse!

This kind of temptation is not as good as a subordinate of Xinghai class!

While the two were talking, the silver flood dragon in the sky had already successfully withstood twenty lightning calamities.

However, these twenty thunder tribulations are extremely easy to resist!

Because of the addition of Zhao Ling's beast-monitoring skill, the strength of the silver flood dragon directly skyrocketed by thirty-five times.

After improving so much, a Dragon Transformation Tribulation didn't do her any harm at all.

The last thunder tribulation finally condensed.

I saw a light golden divine thunder appearing in the clouds!

But the light golden divine thunder exudes a supreme aura, just after this aura came out, all the star beasts on the entire Saturn, human beings all showed a trace of fear and awe from the bottom of their hearts!

And Zhao Ling couldn't help but frown when he felt this!

"Hmph! Trying to awe me! You're not even close!!"

Zhao Ling snorted coldly, and instantly dispelled the feeling in his heart.

"boom!!!!"

At the same time, this pale golden divine thunder also smashed down.

"?!!!!!!"

After an earth-shattering roar, the silver flood dragon swallowed the pale golden divine thunder in one gulp of anger!

At the next moment, golden thunderbolts were crazily destroying her body, but although the silver flood dragon was in great pain, it was still refining these thunderbolts crazily

"The big demon was born. She actually refined Heavenly Tribulation, young master, this little snake is really brave!!"

Even the well-informed Soul Elder stared dumbfounded at the silver dragon in the sky!

"Well, this kind of Talent, I don't worry if I stay by Xue'er's side!"

Zhao Ling also nodded, and his words immediately made Hun Lao stagger.

The terrifying existence of such a big demon-level Talent is actually used as a bodyguard?

Simply reckless!

At the same time, above the earth, the Martial Dao lord and a group of human race Venerables watched solemnly in the monitoring room against the sky-level silver dragon in the screen.

"A sixth-order star beast, a small ray python has evolved into a sixth-order star beast! How is this possible?"

A Venerable said in disbelief.

They are not fools, of course they can guess the identity of the silver flood dragon.

"Zhao Ling is still alive, and just now Zhao Ling was next to the Bright Serpent, which means that the evolution of the Bright Serpent is related to him?"

Another Venerable suddenly said!

This time, all Venerable's complexion changed a bit.

You know, the importance of starry sky level and star sea level is absolutely different!

"Block all news. If anyone discusses this matter, treat it as if it never happened!"

Suddenly, the dignified words of the leader of Martial Dao came.

The faces of the Venerables who had been supporting him suddenly changed.

The importance of Zhao Ling now is not the same as before.

If Zhao Ling really has the ability to evolve the Bright Serpent, it might be impossible to use it on them!

"boom!!!!!"

However, the next moment, the terrifying aura of Martial Dao leader instantly enveloped the entire monitoring room!

The horror suddenly overwhelmed all Venerables and couldn't lift their heads!

"Half step universe level! It's half step universe level!!"

This horrified voice frantically flashed in their minds!

They finally know why the leader of Martial Dao has never cared whether Zhao Ling will be persecuted by the three major races!

Half step Universe level, this level is not as simple as it sounds!

You must know that the gap between the Universe class and the Xinghai class is extremely terrifying.

Because at the universe level, you need to comprehend the power of law, and the power of law cannot be comprehended after a while!

There are a lot of super geniuses out there.

He reached the peak of the star sea realm at the age of a few hundred years, but at the last step of comprehending the power of the law, he could not break through even if he exhausted his lifespan of 100,000 years!

Therefore, the peak of the Star Sea Realm is already the strongest of many large galaxies!

And the measure of the strength of a large galaxy is not the strength of the strongest, but the number of peaks in the Star Sea Realm.

The Milky Way is not bad, and each of the four major races has a strong man at the peak of the Star Sea Realm.

Although it is not a powerful Galaxy, it is much better than the Galaxy with only one or two star-sea peaks.

As for the Half step Universe class, they have initially comprehended a trace of the power of law, and their strength has undergone a terrifying improvement.

The strength of a Half step Universe level is enough to kill about ten Star Sea Realm pinnacles!

That is to say, all the powerful players present are not opponents who can be slapped by the leader Martial Dao.

"Do you remember what I said?"

The dignified words of the leader of Martial Dao came again.

This time, no one dares to disobey again!

On the contrary, they still have extremely strong excitement in their hearts!

"My human race has developed under the oppression of the three major races for so many years. This time, it's okay if they don't have a different heart. If they have a different heart, then kill dozens of Xinghai-level! If you dare to jump, then Kill all their high-level people!! The rise of my human race is unstoppable!"

The domineering words of Martial Dao's leader made the surrounding powerhouses tremble uncontrollably.

Even the personnel in the monitoring room that Sansheng was lucky enough to listen to were so excited that they almost crushed their own balls.

Don't ask why it's so hot-blooded!

On the other side, the silver flood dragon in the sky finally refined that thunderbolt!

What's more frightening is that because this thunder was refined when her bloodline was promoted, the power of this thunder actually merged into her bloodline.

This kind of almost impossible probability will happen again [the reason is that if the immortals know about it, they will be afraid and can't help but wonder if this little snake is the legendary son of fortune!

""[?!!!!"

After groaning loudly in the sky, the silver flood dragon flew down towards Zhao Ling.

Excited, she danced beside Zhao Ling

"Not bad, unexpectedly (good enough) evolved, this is much better than that Laoshizi's blood-dissolving pill they lied to you!"

Zhao Ling smiled slightly, and talked about the experience of being deceived by the silver dragon!

Embarrassed, she quickly shrank and flew into Zhao Ling's hands!

This made Zhao Ling's eyes clearer.

It does change in size!

This is much more convenient.

"By the way, you are now considered a member of the Dragon Clan, and you should have a name. Let's call you Baizhi in the future!"

Zhao Ling looked at his petite Bai Zhi and said with a smile!

"Squeak!!"

When Bai Zhi heard that she had a name, she cried out happily twice!

After getting smaller, Bai Zhi's voice also became weaker.

Zhao Ling smiled and then received the other party's own sleeve and punished him!

And at this moment, the animal pets who brought the star beasts from afar saw that the terrifying dragon had disappeared and finally dared to bring their own captives over!

In the end, Zhao Ling counted the number of Tier 4 Star Beasts, and it actually reached a terrifying number: 254!.

Fantasy I Pick Up Attributes In The Future

Chapter 123: The Second Round Of The Group Arena Begins! ! (4/5)

You know, these star beasts are all nine-star or peak fourth-order star beasts.

As long as Zhao Ling recovers, his strength will definitely reach the starry sky level!

If you are lucky, one or two of them can directly breakthrough to the starry sky level!

It took Zhao Ling about an hour to finally bring all the star beasts under his command.

At the same time, I gave each star beast of the fourth-order peak Medicine Pill!

Zhao Ling gave an extra one or two to those star beasts who were only close to the goal.

In the end, Zhao Ling had ten star beasts breakthrough to the starry sky level.

The overall strength has reached Star Five Sixth Stage!

Adding the previous eight, the number of star beasts in the Starry Sky Realm has reached eighteen.

There are more than two hundred star beasts, all of which are at the peak of the fourth order!

These fourth-order peak star beasts can all burst out the fighting power of the second stage of the starry sky.

But the most important thing is that Zhao Ling's sleeve is a powerful flood dragon that has already reached the star sea realm with just Realm!

Plus the bonus of taming skills.

Baizhi's strength has reached about the Fifth Stage of the Star Sea Realm.

And as a flood dragon, as long as she learns the powerful skills inherited from Talent, there might not be many opponents for her among the human race.

"Announcement! One day has passed! Attention all students, the alliance spacecraft will come to pick you up from your current location, get ready!"

And at this moment, a huge announcement sounded in the sky.

The next moment, Zhao Ling saw a huge spaceship flying towards own in the distance!

"You all go back to Beast Pet 453 space first!!"

After Zhao Ling finished speaking, he waved his big hand and instantly brought back more than two hundred huge star beasts into the space of own beast pets.

Although more than two hundred star beasts are extremely large, they don't take up much space after being pulled into the beast pet space!

The next moment Zhao Ling soared into the sky! Flying directly towards the spaceship.

Although the spaceship is now flying in the opposite direction to Zhao Ling, Zhao Ling is still catching up quickly at the current speed!

"Crack!!!!" With a loud bang from the cabin door, Zhao Ling also entered the spaceship smoothly!

I saw tens of thousands of seriously injured teenagers in the spaceship!

All of these teenagers were not strong enough, or were forced to withdraw from the assessment when they encountered powerful stars.

However, they are very lucky, and they call for help directly when they feel that their strength is not enough.

Many more students died before they could call for help.

However, Zhao Ling doesn't care about these things, after all, he has no contact with these people!

But what Zhao Ling cares about is the attribute points dropped from them!

Zhao Ling's thoughts burst out in an instant, and at the next moment, blue rays of light rushed towards Zhao Fan.

And these rays of light are also mixed with silver treasure chests!

"Ding... Congratulations to the host for picking up True Qi value: 50000, increase True Qi value: 50000 points."

"Ding... Congratulations to the host for picking up True Qi value: 40000, and increase True Qi value: 40000 points."

"Ding... Congratulations to the host for picking up True Qi value: 30000, and increase True Qi value: 30000 points."

"Ding... Congratulations to the host for picking up the heavenly treasure chest*1"

Following the system prompts one after another, Zhao Ling's True Qi value rose rapidly.

At the same time, Zhao Ling took a seat with Zhao Ling.

As time went by, more and more people were brought up one after another.

These people have more or less suffered some injuries!

But a very small number of people are extremely happy.

You can tell at a glance that it has broken into the top 1,000.

Zhao Ling looked at the list, but found that own points had reached 54.52 million!

And the points for the second place finally reached 30,000!

Such a terrifying gap made everyone around them horrified when they saw Zhao Ling!

There is only one thought in everyone's mind that Zhao Ling is really too young.

A boy who looks like he is only in his teens actually possesses such powerful strength,

No one doubts the authenticity of Zhao Ling's results!

After all, even the leader of Martial Dao was watching this game, Zhao Ling cheated, how could he be able to hide it from the opponent.

With the roar of the spaceship, Zhao Ling and his team also returned to the earth!

When Zhao Ling stepped off the spaceship, the eyes of all the strong people above the stands were all attracted by Zhao Ling alone.

Everyone stood in front of Zhao Ling and instantly eclipsed!

Zhao Ling did not hide all the momentum of own

A terrifying aura as strong as a (chaf) starry sky spread over the entire huge square!

This time, all the doubts that everyone should have had were swallowed into their stomachs.

This is not just a matter of strength and Talent!

To be so indifferent under the watchful eyes of so many powerful people, I am afraid that even these old things who have lived for an indefinitely long time can't do it!

"In the first round, the list of qualifiers is: Zhao Ling! Li Gang, Zhang Zhao....."

As the referee this time, Wu Kuang directly read all the names of the top 1,000!

And the list of 1,000 people is quite long, and it took more than ten minutes to read it!

And in the past ten minutes or so, Zhao Ling has received all the positive energy and treasure boxes scattered on the auditorium into own's body!

"Ding... Congratulations to the host for picking up the True Qi value: 1.5 billion, and increasing the True Qi value: 1.5 billion points.

"Ding.....Congratulations to the host for picking up the sky-level treasure chest*25421, and the star-level treasure chest*154"

"Ding... the host's True Qi value is full, and the system starts to condense the host's True Qi!"

"Ding... the host's True Qi value is condensed at 81 turns (0/100 million)"

Following the system's prompt tone, the condensedness of Zhao Ling's True Qi has been directly increased by 15 turns

In addition, it has been improved by six rotations before, and it has just reached the level of eighty-one rotations!

"The second round of assessment will start immediately. Let me announce first. The second round of assessment rules 1

The second round of assessment will be a group arena, with ten arenas set up, as long as you feel that you have the strength, you can go up!

Anyone has only two chances to choose the challenge!"

Wu Kuang's words were very simple, but just after he finished speaking, the ground suddenly began to shake violently.

The next moment, the huge arena of the Sunzoo emerged from the ground with a roar.

There are ten arenas in total, but these ten arenas are only tens of meters long, wide and high!

"The group arena begins!!!!"

Without any respite, you must know that there are many seriously injured players in the top 1,000.

However, if he went directly to the ring under the condition of serious injury, he might be able to directly announce his abstention.

Not many people are willing to go up to defend the ring directly in the first round. After all, the earlier they go up, the more challenges they will receive.

In many cases, even if you have the strength of the first, if you are the first to go up, you may not even be in the top ten in the end!

Looking at the players around you, you look at me, I look at you, Zhao Ling had no choice but to jump onto the ring!

With Zhao Ling being the first to take the stage, other self-proclaimed strong players also jumped into the ring. After all, even if they lose, they still have one more chance!

The next moment, fierce battles broke out in the arenas except Zhao Ling's!

"emmin|Are these people ignoring me?"

Zhao Ling looked at the players in the audience who didn't even look at him and was speechless.

Immediately, Zhao Ling sat down cross-legged, and entered the virtual universe wearing the helmet of the virtual universe majestically!

"Welcome to, virtual universe!!".

Fantasy I Pick Up Attributes In The Future

Chapter 124: There Are Always People Who Don't Know How To Live Or Die!

With a notification sound in the sky, Zhao Ling found that he had come to own personal warehouse!

"In the future, if you have money, you must buy a large base station and place it in the Milky Way!"

Remembering that I have to wear a helmet every time to enter the virtual universe Zhao Ling is speechless.

But there is no way, after all, access to the virtual universe requires a powerful base station as a backing.

And the Milky Way belongs to the barren Galaxy, and it is impossible for the Dry Prison Dynasty to place an extremely expensive virtual universe access device in this Galaxy!

Therefore, Zhao Ling can only use the virtual-helmet with its own small base station.

If there is a base station, Zhao Ling only needs to have a free access point.

The smallest size of the free connector can be made as big as a fingernail, and it can be placed anywhere on the body!

"Mr. Zhao Ling, the next day's strong match has already started, and you still have 100 matches today, do you want to start the challenge!?"

And when Zhao Ling just entered the virtual universe, the voice of the guide also came from time to time.

"let's start!!"

Zhao Ling's eyes flashed and he started the game directly.

The next moment

Zhao Ling was teleported to a huge arena!

At the next moment, the figure of a young man was teleported to the opposite side of Zhao Ling!

This boy's muscles are extremely huge, as if he has been pumped with gasoline!

"Huh? Is brother one of the top 100 in the Tianyan Qianlong list?"

Suddenly, the boy curiously asked Zhao Ling!

"Well, yes, you too?"

Zhao Ling smiled slightly. It can be said that only those who are in the top 100 of the Tianyan Qianlong list and are extremely lucky heaven-defying can break through here!

It can only be said that Zhao Ling and the others met by fate.

"Haha, yes, I am Wu Zun who is the fifteenth! But Brother Buqian has a very good face, could it be that he is a newcomer?"

Wu Zun asked Zhao Ling with a smile!

"Well, I just reached the top 100 two days ago, and now I'm sixth! Zhao Ling!"

However, as soon as Zhao Ling's words came out, Wu Zun staggered and almost fell!

"You, you, you...you are that Zhao Ling?emmrn, I finally saw a living person!"

Wu Zun looked at Zhao Ling with bright eyes.

It's just that Zhao Ling saw a strong fighting spirit in the opponent's eyes!

"Another battle madness!"

Zhao Ling thought helplessly.

"Brother, I will make the first move as time is limited!!"

Wu Zun couldn't wait to punch Zhao Ling with his fist.

And Zhao Ling also stepped directly on his feet, and his right fist also blasted towards the opponent's fist.

"boom!!!!!!!"

A loud noise spread throughout the arena.

The next moment, I felt an explosive force zone from the place where the two collided!

"Explosion ability!?"

Zhao Ling frowned, and then the power of the supernatural power moved, instantly eliminating this power invisible!

The next moment, the same terrifying supernatural power burst out from Zhao Ling's left hand!

In the next moment, Zhao Ling's left hand was printed on the opponent's chest!

"!!!!!!!"

With a bang!

The unlucky Wu Zun was instantly patted by Zhao Ling's palm and turned into bright spots all over the sky!

"The strength of Starry Sky Third Stage is already very good!"

Zhao Ling smiled and put away the treasure box dropped by the other party.

The geniuses on the Qianlong list are indeed very strong! But age is a huge limitation.

With so many restrictions, it is already very good to be able to reach the strength of the Starry Sky Third Stage

However, although he was lucky on the first day, he met Zhao Ling today.

"Congratulations to player Zhao Ling for successfully passing the first round, and the second round is about to start, please get ready!"

After the voice of the guide in the sky fell, a white light flashed, and another opponent appeared opposite Zhao Ling again!

And just when Zhao Ling's idea came to the crazy battle in the virtual universe, the battle outside has reached a fever pitch!

Except for Zhao Ling's arena where no one is challenging, the other arenas are having fun fighting now!

However, as time went by, some people saw Zhao Ling playing a virtual game and felt a little bit of luck

"If I go up and kill Zhao Ling now, then I'll be famous!!"

The forest is big and there are all kinds of birds, and in the era of Martial Dao, in order to become famous, many people did it even crazier!

But it is, no one wants to be the first to make a move!

Until the end of the game, someone finally moved!

I saw a young man who had only one chance but was not sure of defeating other ring masters, holding a huge axe, and jumped onto the ring in an instant!

At the next moment, the young man directly moved ten axes towards Zhao Ling's head.

This scene instantly made everyone in the audience frown!

"This person has such a petty heart, even if he grows up, he will probably endanger the society!"

"No! This is a group arena after all, as long as you feel capable, you can go there, and he has no illegal rules!"

"Bullshit, if Zhao Ling is awake, he dares to get close to Zhao Ling for a hundred meters? This kind of little person who takes chances, deserves to die!"

*.....

All the powerhouses in the auditorium were talking about it.

However, Zhao Ling didn't react at all to the youth's giant axe.

"Hurry up, killing Zhao Ling means that my strength is not up to the standard, and it will be good to get a good position in the future!"

The honor of killing a genius that has never appeared in the history of the race will always be considered by some perverted people as a supreme honor!

People with this kind of glory can eat in many places!

It's like those vulgar Internet celebrities these days.

Suddenly, just as his giant ax was about to chop Zhao Ling's ax in half, a stream of light instantly shattered the giant axe.

The next moment This stream of light that no one noticed penetrated his throat again!

"Pfft!!!!"

Along with a blood arrow sprayed out from his neck.

The young man fell to his knees on the ground in disbelief!

"Ka Ka Ka"

Because the throat was pierced, the young man's voice was extremely strange.

"!!!!!!"

However, the matter was not over yet, following an explosion, the young man's head instantly shattered into countless blood plasma that fell on the ground!

"Wow!!!!!!!"

The entire auditorium erupted instantly.

Zhao Ling's violent killing of young people made almost everyone excited!

Of course, those contestants who originally planned to do the same as the youth suddenly felt a chill in their bodies.

Everyone is glad that they are not the first to go up and do it!

"Hmph, a group of rough blanks that can't make it to the stage!"

Looking at the young man who was killed, Wu Kuang, the referee on the summit stage, snorted disdainfully!

The next moment he waved his hand to have the corpse disposed of.

However, the leader at the side has a strong interest in Zhao Ling's weapon!

"What kind of inheritance does this Zhao Ling get? He even has the weapons of the peak of the starry sky!"

The lord guessed the level of the Shadow Blade the moment he saw it!

However, other Venerables do not have weapons of this level except for him as a disciple of the Star God.

After all, the training of a refiner is extremely difficult, and the development of human beings is very late. The most powerful refiner is only a fifth-level junior refiner.

At most, it can only refine low-level weapons in the starry sky, and the success rate is extremely low.

Xinghai-class weapons are even more unnecessary.

You must know that even so, the status of this fifth-level junior craftsman is even lower than that of ordinary lords.

"It seems that when you have time, you can go and discuss with Zhao!"

Fantasy I Pick Up Attributes In The Future

Chapter 125: Vajra Immortal Art (Volume Five)

And with the passage of time in the real world, the champions of the ten arenas have finally been determined!

Zhao Ling has never fought except for the young man who was sent to his death.

But the other nine challengers were almost exhausted to death, and were seriously injured at the same time!

Of course, no one dared to question Zhao Ling's status as the champion.

However, although the group arena had stopped, no one announced the end.

Because Zhao Ling is still sitting in place "playing games"

There were hundreds of thousands of powerhouses above the fifth stage of the starry sky level, plus millions of powerhouses above the starlight level were all staring at Zhao Ling.

The whole venue became extremely quiet!

After this eerie atmosphere lasted for nearly an hour, Zhao Ling finally opened his eyes!

In an instant, a thunderbolt shot out from Zhao Ling's eyes.

The next moment Zhao Ling stood up slowly.

From the terrifying power emanating from his body, it can be known that Zhao Ling's energy and energy in "460" has reached its peak!

"Everyone, the last challenger is born, and the group arena is over! The ten people in the arena are all the contestants who represent our race to participate in the Galaxy Elite Competition!"

Wu Kuang also stepped forward at this time and spoke loudly to all the audience on stage.

"You guys come with me!!"

At this moment, an old man flew to Zhao Dao and the others and said to them!

However, when Zhao Ling was walking, his subordinates did not stop, but immediately picked up the True Qi value and the treasure chest that fell within tens of kilometers around them in an instant.

But this time Zhao Ling didn't make a big show, but hid his own aura a little bit, so he didn't attract anyone's attention.

"Ding...Congratulations to the host for picking up True Qi value: 1 billion, and increase True Qi value: 1 billion points."

"Ding... Congratulations to the host for picking up the sky-level treasure chest*18421, and the star-level treasure chest*112"

"Ding... the host's True Qi value is full, and the system starts to condense the host's True Qi!"

"Ding.....The host's True Qi value is condensed at 90 rpm (100 million/200 million)"

However, when Zhao Ling's True Qi condensed degree reaches 90 revolutions, the required True Qi value is directly doubled!

"Ding... the condensed True Qi above ninety revolutions is no longer something that mortals can achieve, so it consumes more True Qi."

Zhao Ling frowned at the system's words, "mortal world" is another new term.

But when he asked the system, the system didn't answer.

"It seems that the world is much bigger than I imagined!"

Thinking of this, Zhao Ling became more and more excited.

Under the leadership of the old man, a group of people came to a place in the Star God Temple that seemed to be a library.

But the books displayed in this library are all Cultivation Technique!

However, when looking at the books on display and his introduction above, these people were not calm.

"Hiss! Is this the fifth-order Cultivation Technique that our Galaxy Emperor cultivated?"

"This is the first five volumes of the most powerful body training Cultivation Technique of the human race, Vajra's indestructible magic skill, which I have seen in the Martial Dao alliance data?"

"Fuck, it's really true. It is said that the star gods back then were so powerful because they practiced this Cultivation Technique. It's a pity that there are very few people in the first volume of the Cultivation Technique in the past 100,000 years! The second volume and above Furthermore, only Master Xingshen can practice alone.

Zhao Ling was taken aback by their discussion, is Vajra not bad for the first five volumes of Divine Art?

Isn't this the heaven-defying auxiliary Cultivation Technique that was opened in my own treasure chest?

There are actually some in the territory of the human race!

Zhao Ling glanced towards where the Cultivation Technique was.

A Cultivation Technique with a golden cover appeared in front of Zhao Ling's eyes.

On the cover, there are five characters of "Vajra is not bad"!

However, to Zhao Ling's shock, he felt a trace of Vajra's indestructible magic from this Cultivation Technique.

"It really is the real thing!!"

Zhao Ling's eyes flashed slightly!

"Mr. Hun, do you know that this kind of Cultivation Technique means that after you have cultivated a main Cultivation Technique, you can also practice an auxiliary Cultivation Technique, and the effects of the two Cultivation Techniques can overlap!"

You know, any Cultivation Technique, as long as you practice this one, the previous one can only be abolished!

Otherwise, the internal energy will become disordered and the strength will be greatly reduced, and the two Cultivation Techniques will be abolished.

In severe cases, the Spirit Power in the body ran wild, and finally exploded to death.

However, Vajra is not bad, but it is perfectly compatible!

After hearing Zhao Ling's question, the old soul in the storage ring began to think.

"Yes! But this kind of Cultivation Technique is an extremely precious Cultivation Technique in the Kingdom of God! At the same time, it is extremely difficult to cultivate! Some peerless geniuses can't cultivate part of it in their entire lives, let alone all of them!"

Zhao Ling frowned slightly at Old Soul's words.

Even the Kingdom of God is so precious, how did the human race exist!

"By the way, Vajra is not bad, but it is the Cultivation Technique in Jin Yong's martial arts novels! Could it be that those Cultivation Techniques are not made up at will?"

Zhao Ling's eyes flashed when he thought of this!

But now is not the time to discuss this, because Venerable, who is walking in front of the star sea, has spoken!

"You, as the most powerful Talent among the human race this year, can choose any Cultivation Technique in the Star God Martial Skill Pavilion as your reward!

Remember, there is no level limit for the selected Cultivation Technique, as long as you can find it, it can be a Xinghai-level Martial Skill Cultivation Technique, but only one!"

You know, Zhao Ling and other ten people are the most powerful Talents in the human race in the past few hundred years, and these people can also be said to be the hope of the future of mankind. Let them practice the most powerful Cultivation Technique for the future of the human race, so Martial Dao The alliance will never be stingy.....

As soon as the old man's words came out, all the students were extremely excited.

The next moment they found it in the Cultivation Technique Pavilion.

Zhao Ling came directly to Vajra's Immortal Art!

"Ding... found out whether to learn the auxiliary Cultivation Technique: Vajra Immortal Art (the first five volumes, the pinnacle of the starry sky), and the minimum experience value required for learning: 10 million!"

However, Zhao Ling has no experience points!

"System, because I opened all the treasure chests!!"

The next moment Zhao Ling spoke directly to the system.

"Ding... Congratulations to the host for opening the treasure chest: earth-level treasure chest*1540, sky-level treasure chest*32685, and star-level treasure chest 284."

Because there are almost no Grandmasters around, so there are fewer earth-level treasure chests!

"Congratulations to the host for getting the following items:

Earth-level items *1025, sky-level items 15240.

Star Class Weapon*89, Star Class Cultivation Technique, Martial Skill*68, Star 2.8 Space Class Medicine Pill*75

Experience value: 950 million

True Qi value: 150,000"

The next moment Following the system's prompt tone, Zhao Ling's True Qi was directly increased by seven revolutions!

Zhao Ling found that not both True Qi value and experience value will be issued.

Some treasure chests will get True Qi and some are experience points, so the last time Zhao Ling got more True Qi points, but this time it is a lot more experience points!

But what Zhao Ling lacked now was experience points.

Because a Cultivation Technique at the peak of the starry sky requires nearly 100 million experience points.

And Zhao Ling is now waiting to change all the Martial Skills again!

"System, help me refine the God of Destruction body cultivator to the limit! And learn Vajra's indestructible magic!"

Zhao Ling directly ordered to the system, The next moment, the countless knowledge of the two Cultivation Techniques was instantly transmitted to Zhao Ling's mind.

"!!!!!!".

Fantasy I Pick Up Attributes In The Future

Chapter 126: Domain Lord Spaceship! ? (Three More)

With the strange fluctuating sound, Zhao Ling found that own body was changing crazily.

With the sound of waves, Zhao Ling found that own body was getting stronger every inch!

At the same time, the power that can be stored in the cells is getting stronger and stronger.

It's like replacing all 1,000mAh batteries with 10,000mAh batteries.

Not only the battery life has improved a lot, but the strength of the cells in the cells has also increased tenfold!

"Zhao Ling's eyes opened instantly, and a thunderbolt flashed through his eyes in an instant!

The next moment, Zhao Ling squeezed his fists, feeling that the power that can erupt from own's body at this time is much more than before!

"The strength has actually improved so much!"

Zhao Ling's eyes flickered slightly.

But now there are other things to do.

Zhao Ling glanced at the Martial Skill Cultivation Technique in the entire Cultivation Technique Pavilion, but found that, except for Vajra's indestructible magic skill, the other Cultivation Techniques are not very useful. They are all low-level, mid-level and high-level in the starry sky. There are not many of them.

"It's actually not more than half of mine. The current development of the Galaxy people is really backward!"

Zhao Ling's eyes flickered, if he could connect to the virtual universe and connect with the powerful people in the entire universe, no matter how miserable the human race was, at least there would still be a few Star Sea-level Martial Skill Cultivation Techniques.

Immediately, Zhao Ling directly sank own consciousness into the own inventory.

In Zhao Ling's inventory, the starry sky level Cultivation Technique has reached three hundred.

Among the three hundred, there are more than one hundred Cultivation Techniques that have reached their peak.

Zhao Ling found that the system is very magical, and he gave the most Cultivation Technique at the peak.

Maybe it's the riches!

"System, help me learn these Cultivation Techniques!"

Zhao Ling selected a few of them, all of which are suitable for current abilities.

However, Zhao Ling didn't waste his experience points indiscriminately, he only needs to use the powerful Martial Skill and marksmanship to attack.

And the supernatural Cultivation Technique will only be used by Zhao Ling unless it is extremely powerful, or it is an auxiliary Cultivation Technique similar to the treatment!

"Ding... Congratulations to the host for learning the Martial Skill at the pinnacle of the starry sky, expending experience points: 500 million!"

The next moment The experience value that seemed to be quite a lot bottomed out in an instant.

But Zhao Ling doesn't care, these experience points are just for use!

The remaining more than 200 million experience points Zhao Ling used directly to improve his mind skills and marksmanship skills.

Attribute table:

Host: Zhao Ling

Bloodline: ten stars

Martial Dao Realm: True Qi Realm: Pinnacle

Spiritual Realm: Spiritual Rank: Apex

True Qi: 98 rpm (0/200 million)

Ability: 105 kinds

Guardian Spirit: Dark Golden Claw Dragon (Dark Golden Dragon Armor, 70 times)

Power: 100 million

Speed: 5 million m/s

Blood: 100 million

Soul: 10 million

Psychic skill: 40 soul power (0/300 million)

Gun Skills: Master Advanced (0/300 million)

Movement Technique Skill: Master Intermediate (0/100 million)

Ability Skills: Master Intermediate (0/100 million)

Beast Master Skills: Master Intermediate (0/100 million)

Weapons: Shadow Blade*10 (Peak Starry Sky) Blood Devil Gun (Peak Starry Sky)

Cultivation Technique: Vajra Immortal Art (first five volumes, Starry Sky Peak! 100%)
Destroying Divine Body (Starry Sky Peak 100%) Beast Mastery (Starry Sky Peak 100%)

Martial Skill: Glittering Golden Knife Array (100% at the peak of the starry sky) Five Elements Shootout (100% at the peak of the starry sky) Nine Dragon Sealing Technique (100% at the peak of the starry sky).....

Experience: 35 million

Zhao Ling looked at the own attribute table, but found that his current Martial Skill skills had reached the limit.

If you want to improve again, you can only improve Realm.

However, Realm's promotion is only the last short distance for Zhao Ling.

Zhao Ling randomly chose a Cultivation Technique and took it to the old man's side for registration.

Seeing the Cultivation Technique chosen by Zhao Ling, the old man smiled helplessly!

"This kid, doesn't he even have a decent Cultivation Technique?!"

After watching Zhao Ling's battle, the old man didn't know that the weapons Zhao Ling used were all starry sky peak weapons. As for the Cultivation Technique, to be so powerful in the same rank, the Cultivation Technique used is definitely not weak!

"Zhao Ling, my lord, please, I wonder if it's convenient for you to come and see me!?"

After registering the Cultivation Technique that Zhao Ling took away, the old man asked Zhao Ling!

If others knew that the old man, a superpower in the star sea realm, treated Zhao Ling based on his face, they would definitely complain about what kind of monster Zhao Ling was.

However, there is no way, Zhao Ling's Talent, given him a few more years, he might be able to become a strong star in the Star Sea Realm.

At that time, he, an old man who has witnessed the rise and fall of the entire human race for tens of thousands of years, may not be an opponent!

"Alliance?"

Zhao Ling frowned! He had already guessed that the leader would invite him, but he didn't know what the other party would say to him!

"Then let's see each other!!"

Zhao Ling's eyes flashed, and he said directly to the old man!

"Okay, then wait for me here!!"

The old man smiled.

"You guys, when do you still have to choose, be quick!"

Hearing Zhao Ling's promise, how could the old man waste his time on such trivial things as waiting for these youngsters to choose Cultivation Technique!

The group of teenagers who had been scolded for no reason hurriedly picked up their favorite Cultivation Technique Martial Skill and ran to the old man in a daze!

Zhao Ling smiled helplessly at the side.

This old man is spreading hatred for himself.

After registering casually, the old man sent these people away!

"Let's go, Zhao Ling, I'm afraid the leader is waiting impatiently!!"

The old man hurriedly led the way for Zhao Ling, and the teenagers around were aching to see it!

But there is no way, the strength is not comparable to Zhao Ling Talent is not comparable to Zhao Ling, even if they are so much older than Zhao Ling, how can they compare with Zhao Ling!

The good mood of being in the top ten was gone in an instant.

But it also let them know that there are people outside Daoist!

It's not a bad thing.

Under the leadership of the old man, Zhao was led to an attic.

"The leader is inside, so I won't go in!"

The old man left directly after speaking to Zhao Ling.

The next moment, the door opened directly.

Only 843 saw the leader of Martial Dao standing in front of a painting at this time, sensing Zhao Ling coming, the leader of Martial Dao smiled slightly.

"Zhao Ling, finally officially meet!"

Leader Martial Dao turned around, and there was a hint of joy on his old face!

"Didn't the leader meet Junior a long time ago? I just don't know why the leader asked Junior to come here?"

Zhao Ling smiled and said straight to the point.

"Hahaha, you boy is straightforward, yes, there is something I want to ask!"

The leader finished speaking with a smile, and then pointed his fingertips towards the void!

The next moment, a hole was opened in the attic floor for one person to pass through.

"You come with me!!"

After the leader finished speaking, he flew towards the opening.

Zhao Ling checked it and felt that there was no danger, so he flew down!

However, just entering the basement, Zhao Xiang was overwhelmed by the scene in front of him!

I saw an extremely huge spaceship appearing in front of Zhao Ling!

The basement is a huge underground city!

The length of the spacecraft is at least hundreds of kilometers.

Countless scientific researchers inside and outside the spacecraft are studying any corner of the spacecraft!

"Hey, it's actually a domain master-level spaceship!!"

Old Soul's voice reached Zhao Ling's ears!

"Domain master spaceship?"

Zhao Ling's eyes flickered slightly, you must know that the domain master level is a terrifying existence several levels higher than the Xinghai level!

And a spaceship is actually a domain master level spaceship.

"#J....."

Fantasy I Pick Up Attributes In The Future

Chapter 127: Virtual Universe Base Station? ! (Four More)

"It's a pity that this spaceship is almost completely destroyed, and the level is too low. Otherwise, we can see if we can remove some materials that can repair the blood soul ship!"

The old man's words left Zhao Ling speechless. A spaceship that could be snatched by the king of the Universe Kingdom in person, does he actually look down on the old man?

"Hehe, be shocked, in fact, when I saw this spaceship for the first time, I was also incomparably horrified!

There is such a terrifying existence in this world!"

The leader's complacent appearance made Zhao Ling embarrassed to hit him.

"Thinking about it, it seems that the reason why human beings can develop so fast is because of this spaceship?!"

Zhao Ling's eyes flashed, and he asked the leader directly.

"That's right, this spacecraft was originally discovered in the ocean in the Bermuda Triangle area, and the time can be traced back to 2020, but at that time human technology could only detect something under Bermuda.

It was not until 2150 that humans reached that place for the first time, and finally saw this universe spaceship!

After hundreds of years of research, we humans have only grasped a trace of fur and started traveling in the universe.

The leader began to talk about the history of human development to Zhao Ling.

However, after 100,000 years of research, humans have only studied a small part of the basic functions of spaceships.

"Sure enough, I said that the progress of human beings seems to be a bit too fast, reaching this level in 100,000 years.

The other three races have existed in the Milky Way for nearly tens of millions of years, and these tens of millions of years have only reached the level of human beings. "

Thinking of this, Zhao Ling finally knew the reason.

"This is the biggest secret of my human race."

Having said that, the leader looked at Zhao Ling solemnly!

"I know, you seem to have obtained the inheritance of a strong foreign race, of course what I want to tell you today is not some nonsense like asking you to hand over the inheritance.

I just want to tell you that no matter how powerful you become in the future, don't forget that you are a human being. It's not easy for us humans to come to this point. In the future, the future of the human race still needs people like you to defend w.o

Zhao Ling's heart was slightly shaken by the leader's serious words!

"I understand all of these! As long as I am here, I will not let the human race fall. The future of the human race is not just a small alien ghost in the galaxy. There are many territories waiting for my galaxy human race to develop!"

Zhao Ling's eloquent words made the leader laugh heartily.

He could feel that Zhao Ling didn't say anything casually.

"You are right. With an existence like you, our human race will definitely not be confined to the small Milky Way. Let me take you to visit this treasure of the human race!"

After receiving Zhao Ling's reply, the leader quickly brought Zhao Ling into the spaceship.

Zhao Ling had no choice but to accompany him to inspect the structure of a spaceship!

From inside and outside, the human race has watched almost any corner of the spaceship countless times.

But when checking a similar training room, Zhao Ling discovered something incredible!

The hateful side of the training room has been disassembled, and Zhao Ling can see any of the originals.

But in it, Zhao Ling saw a strictly protected sphere that fell on the ground!

"Huh? This thing looks familiar!!"

The moment Zhao Ling saw the sphere, he realized that he seemed to have seen this sphere somewhere before.

"Hey, young master, I found a treasure! This is a small base station of a virtual universe, which can be used in a large galaxy. You can ask if there is an access point. If there is, you will not need to use it every day in the galaxy. Use a personal base station!

The human race has no energy. If it had energy, its scientific and technological strength would have already flown out of the wild galaxy like the Milky Way. "

Hun Lao's words made Zhao Ling's eyes flash.

"Leader, this thing is a good thing, do you have this thing that goes with him?"

Zhao Ling didn't shy away from it, and directly projected a picture, on which was a standard connector.

"Good stuff? Let me see!!"

Hearing Zhao Ling's words, the leader's eyes lit up. People like Zhao Ling who have their eyes above the top are probably good things, so this thing is definitely not weak.

Then he hurriedly looked towards the access device projected by Zhao Ling.

"This thing, yes, it's all here!!"

The leader hastily pressed one point towards the corner, and the next moment a hidden compartment with a size of several hundred meters opened up, and the connectors neatly arranged in crystal boxes appeared in Zhao Ling's in front of you.

Zhao Ling swept tens of millions of access points in front of his eyes!

In fact, the access device is not cheap, it is equivalent to the price of a heavenly weapon!

However, for civilizations with small base stations, the price of a sky-level weapon is really extremely cheap!

certainly. The number of people in such a civilization is also incomparably large.

Therefore, only a very small number of wealthy families have enough money to buy one.

Zhao Ling saw that the number of people in the virtual universe was actually less than one quadrillionth of the entire universe.

"What is this Zhao Ling thing? We took a research, but it just feels like he is a model accessor similar to a mobile phone!"

Looking at the tens of millions of access devices in the dark compartment, the leader looked troubled.

In order to prevent it from being useful after the research is done, as long as there are more than two kinds of things on this spaceship, they will only study one.

And with only one thing, they will not touch him without one percent certainty!

Therefore, such treasures as small base stations have not been destroyed.

You know, the price of a small base station is enough to buy the entire galaxy!

If they really broke the small base station, Zhao Ling will be scolded!

"Senior, what I say next, you should be mentally prepared, because I was shocked when I found out!

Zhao Ling suddenly said seriously to the leader!

And his words brightened the leader's eyes, he knew that Zhao Ling had definitely obtained a powerful inheritance, and now what Zhao Ling was going to say was definitely the top secret among the top secrets.

Zhao Ling used mental power to seal the surroundings.

"Actually, in this universe, there is not only a branch of human race like our galaxy human race!"

Next, Zhao Ling will tell the leader of the division of the universe!

And the longer the leader listens, the wider his mouth will open! (De Zhao)

The Galactic Human Race is actually just a small and insignificant branch.

Moreover, the size of the universe is actually countless times larger than the size of the human studies of the 100,000 galactics.

The human race has struggled for so many years, and even the small Milky Way has not been unified.

However, there is a prison universe king outside the galaxy, and there are hundreds of millions of large galaxies within the territory of the prison universe kingdom!

And these hundreds of millions of galaxies are still the kind of galaxies certified as principalities.

The number of wild galaxies like the Milky Way has to be at least several times higher.

However, is there a universe empire on top of the universe? There is also a universe kingdom on top of it? And there are a total of 100,000 universe kingdoms in the human race.

"My God! Star God, how ignorant we were before!"

The ally leader is starting to feel a little bit pained!

It's like playing a game, you think that level 100 is the full level, but it took you a lifetime to reach level 80 before being told.

"Brother, one hundred is not the end, your end is one hundred million!"

Fantasy I Pick Up Attributes In The Future

Chapter 128: Terran Venerable! Zhao Ling! ! (1/5)

After experiencing a series of setbacks, the leader sighed faintly!

"It turns out that I am a human race, no, the galaxy human race is now just an insignificant point in the universe!"

The leader said helplessly, in fact, many people have guessed this point.

The helpless thing is that when the truth is in front of you, you will find that what you think is indifferent is really hard to accept.

"By the way, you just mentioned that the human race has a virtual universe? Is this related to the virtual universe you mentioned?"

The leader hurriedly said to Zhao Ling excitedly.

"Well, that's right, this is the virtual universe base station I've been wanting to buy on top of the virtual universe! And these are the access points.

With these two, the elite of my galactic race can directly fight against the elite of the universe!"

When Zhao Ling said this, the corners of his mouth couldn't help but rise slightly!

Of course, he didn't feel relieved, he just wanted to see the expressions of these galactic human geniuses after meeting the so-called universe geniuses!

"Hey! Being able to directly communicate with other civilizations in the universe will definitely greatly speed up the development of my human race. "Zhao Ling, can you activate this thing and let me see it!"

The leader's eyes suddenly lit up, and he said to Zhao Ling in embarrassment!

"Well, no problem!!"

Zhao Ling nodded, and directly took out a long energy column from the storage ring.

"What a strong power!!"

Feeling the terrifying energy fluctuations in the energy column, the leader secretly frightened!

"This is also the last universe-level energy column here!

The energy contained in him has reached the full energy of a universe-level powerhouse, and it should be able to supply this small base station for a hundred thousand years!

After a hundred thousand years, he will not be needed anymore!"

When Zhao Ling said this, there was a gleam of confidence in his eyes.

The next moment, he put the energy column in his hand directly on the small base station.

I saw streaks of energy on the energy column pouring down towards the small base station.

Immediately afterwards, the spherical small base station, which could not be opened even after 100,000 years of research, slowly opened a circular opening.

And the round opening can just put this energy column in.

After Zhao Ling put the energy column in, the round mouth closed directly, and the next moment, the small base station of the sphere directly erupted with a powerful force.

This force instantly exploded in all directions.

The next moment, the small base station slowly flew up from the table.

A dazzling light spread from above the small base station.

"Buzzing buzzing..." (chac) Waves of fluctuations spread in all directions, and this powerful force rushed out of the solar system in an instant.

The next moment is out of the mid-sized Galaxy around.

Just ten seconds later, the signal of the entire base station enveloped the entire galaxy in it!

With a thought of Zhao Ling, the next moment, a fingernail-sized access device contained in a crystal box appeared in front of Zhao Ling!

Zhao Ling placed the access device above the spherical base station, and at the next moment, a faint energy poured into the access device from the base station.

"Didi.....The activation and authentication is complete, and the base station has been connected!"

Zhao Ling knew that the access device was ready for use as soon as the prompt sounded from the access device!

"senior, you can use this accessor on your smart watch!"

Zhao Ling handed the access device to the leader.

The curious leader directly pressed it on the mountain of own watch, The next moment, suddenly there was an interface of "connecting to the virtual universe" on the virtual interface of his watch!

"You can just click this icon in the future!"

Zhao Ling was also a little strange, but he didn't show it.

"Okay, okay... Zhao Ling, thank you so much, if it weren't for you, the development of our human race would definitely be busy for hundreds of thousands of years!"

The leader said to Zhao Ling excitedly.

Although he wants to go into the virtual universe to have a look now, he still has a clear understanding of the priorities.

Leaving Zhao Ling to explore, he would not do such a low EQ approach.

"Senior, don't flatter me, I also have a small request, that is, I also need a part of the access device! After all, I am still using the most primitive virtual helmet!"

Zhao Ling said helplessly to the leader Martial Dao.

"Hahahaha, Zhao Ling, you are too out of touch, you can take whatever you want, as long as you leave a few for me! By the way, you don't need to call me leader senior anymore, my surname is Wu, you can just call me Mr. Wu!"

Wu Lao smiled and said to Zhao Ling directly.

In fact, having said that, although this access device can make the human race develop rapidly.

But Elder Wu knows that the most precious thing in the galaxy is Zhao Ling!

As long as Zhao Ling doesn't die, becoming a universe-level powerhouse is definitely a certainty.

It is not impossible to become the legendary domain master level powerhouse that he has never heard of!

If Zhao Ling becomes that kind of powerhouse.

The human race can not only unify the Milky Way, but also become the principality of the universe certified by the universe kingdom!

After listening to what Old Wu said, Zhao Ling was not polite, and took a thousand access points directly with a wave.

Some of the connectors are for Yanxing, and one cent is for Zunhuang.

After all these people take care of themselves!

Then Wu Lao took Zhao Ling to visit some places, hoping that Zhao Ling could find some untapped treasures again.

Although Zhao Ling really found some things that can make the human race develop vigorously, but these all need the support of energy sources.

However, Zhao Ling still took out some of the most suitable technological knowledge for the human race at this stage and handed it to Wuling.

This is much better than the Martial Skill Cultivation Technique currently being studied by humans!

After all, the gap in technology is too great, even if you go all out to research, you won't be able to find anything famous!

"By the way, Zhao Ling, this is the Venerable title of my human race. I want to grant it to you. I wonder if you are willing to accept it!?"

Just as Mr. Wu was about to bid farewell to Zhao Ling, Mr. Wu took out something like a token and handed it to Zhao Ling!

Zhao Ling was taken aback after hearing this!

Venerable?

The level of Venerable is under Wu Lao's Martial Dao alliance leader.

Each lord has at least 10,000 medium-sized galaxies as jurisdiction!

And the leader hardly interferes in any matters, he will only come out when the rise and fall of the human race and the development of the major events!

Therefore, the highest position known to the masses below is Terran Venerable!

It can also be said that this position is the most advanced existence among the true human race.

“Is it Venerable? Not bad either!!”

Zhao Ling nodded slightly, having a title is better than not having one!

"Great, this is your Venerable token. I have already talked about your fiefdom with Shuo Jin Venerable, who originally governed the Zunhuang Galaxy. He has given up the Zunhuang Galaxy. At the same time, the 20,000 galaxies around the Zunhuang Galaxy are all It's your jurisdiction!"

Fearing that Zhao Ling would not accept it, Wu hurriedly stuffed the token in Zhao Ling's hand. The next moment.

Explained a series of things at the same time!

Soon hundreds of star-level Practitioners were sent to take Zhao Ling to understand the range of the galaxy he ruled!

By the time Zhao Ling reacted, he had come to a huge square surrounded by these starlight practitioners.

Looking at the tens of thousands of starry sky-level powerhouses exuding a terrifying aura below, Zhao Ling couldn't help but swear!

"This bad old man is really bad!!".

Fantasy I Pick Up Attributes In The Future

Looking at the 20,000 emperors of various galaxies in front of me, with their most capable assistants or most proud geniuses.

Zhao Ling knew that he would be the Venerable of this laoshizi, and the leader of Martial Dao had already arranged it!

Of course, Zhao Ling didn't know that the other party wanted to tie himself to this small broken ship of human beings!

But Zhao Ling is not disgusted, anyway, he has no idea of wanting to betray the human race!

This arrangement is also very good.

However, few of the tens of thousands of emperors below will Zhao Ling To put in one's eyes.

They were all pointing at Zhao Ling, as if they were discussing how such a small guy like Zhao Ling would become Venerable.

"Since I made this Venerable, I'm afraid I have to show a little bit of Venerable's majesty!"

Seeing this, Zhao Ling narrowed his eyes slightly.

At the next moment, a monstrous aura slowly erupted from Zhao Ling's body.

Zhao Ling walked forward step by step.

With every step forward, Zhao Ling's aura will increase by one level!

This terrifying aura enveloped the entire square.

The earth was instantly crushed by Zhao Ling's power!

Originally, those who had reached the peak of the starry sky or those who were eight or nine stars didn't care much about Zhao Ling.

However, at the moment when the momentum descended, they finally realized how terrifying their current strength was!

"Boom boom boom

Some moments when they were slightly weaker were crushed by Zhao Ling's terrifying momentum and fell to one knee on the ground!

"Damn it, Zhao Ling doesn't know how to save some face for me!"

Among the crowd, Hun Li, who was almost kneeling on the ground, and the head of the Martial Dao Department of Zunhuang Academy all had distressed expressions on their faces.

Of course, The next moment, the aura of the two of them disappeared!

But around them, people who followed the emperor like them all knelt down on the ground.

Fortunately, after these people knelt down on one knee, the pressure on their bodies was not so strong.

When they wanted to stand up again, this terrifying power burst out again.

And those emperors were not much better, as Zhao Ling approached step by step, their aura became stronger and stronger!

"boom!!!!!"

"Boom boom boom boom..."

As the first person fell to his knees, the emperors in the entire square fell to their knees on the ground like dominoes!

Just a few seconds later, Zunhuang and the other three stood awkwardly among tens of thousands of kneeling people.

"My lord, should we move!"

Although they were not made to kneel down, they are not feeling well now

After all, there are people kneeling with hideous faces all around!

"Do not talk!!"

Hello Zunhuang, I glared at Martial Dao, the head of the department angrily, because of his words, the people around couldn't help looking at them.

"Everyone!!"

However, at this moment Zhao Ling spoke!

"I, taking over the position of Venerable today, actually said that I was really defenseless, so you may be a little bit upset with me as a little brat!"

Zhao Ling's calm words left these kneeling emperors speechless.

If I had known that you were so fucking powerful, who would be idle to be unhappy with you!

After all, Zhao Ling's strength shown in the assessment is only about Starry Sky Fifth Stage.

Even if Zhao Ling is one of the Venerables appointed by the leader, these emperors who have lived for thousands of years will never recognize it!

After all, the minimum requirement for becoming an emperor is to have the strength above the fifth stage of the starry sky.

Even the powerhouses below the fifth stage of the starry sky can only serve as the assistants of these emperors until they die of old age and fight, or become powerhouses above the fifth stage of the starry sky.

So let them bow down to a young man with the strength of the fifth stage of the starry sky, sorry, this era is the era of Practitioner!

Everyone is planning, until Zhao Ling's strength surpasses his own, he doesn't have to obey Zhao Ling's management, and it won't be too late to kneel and lick when Zhao Ling becomes stronger!

However, the plan is beautiful, the reality is that they are all kneeling on the ground and almost singing conquer!

However, Zhao Ling's current strength also made most of the people present look terrified.

Suppress 40,000 to 50,000 star-level powerhouses, of which 20,000 are above the fifth stage of the starry sky!

Just use momentum! In other words, the current Zhao Ling's strength has far surpassed the group of Venerables.

But what he doesn't know is that the current Zhao Ling's aura is not so awesome!

This terrifying aura was erupted from the Flood Dragon Bai Zhi in his communication sleeve.

Baizhi is equivalent to the terrifying power of the Fifth Sixth Stage of the Star Sea Realm. It is not too easy to suppress these undisciplined Starry Sky Levels!

Moreover, Zhao Ling is a beast master, and Bai Zhi is Zhao Ling's beast pet. It can be said that Bai Zhi's strength is Zhao Ling's current strength.

"Since everyone is unhappy, I will give you a chance. If you have any opinions on me, you can stand up and I will not pursue it!"

After Zhao Ling finished speaking, The next moment's terrifying aura covering the entire venue disappeared without a trace!

Those who have loosened the restrictions, but no one dares to stand up.

..... Ask for flowers...

Just kidding, standing up means saying that you have an opinion on Zhao Ling, and if you have an opinion, do you not pursue it?

They don't want to gamble with their own lives.

And now they really don't have a problem!

Zunhuang and the other three were embarrassed again, and now they all wanted to kneel down.

"Let's go, let's move!"

Helpless, Zunhuang had no choice but to take the soul gift and the two of them to the high platform and stand behind Zhao Ling.

Zhao Ling looked at the tens of thousands of people voluntarily kneeling below, and nodded in satisfaction!

"Get up!!"

Following Zhao Ling's order, tens of thousands of people stood up in relief.

At the same time, they stood in place orderly and waited for Zhao Ling's order!

"I know everyone's thoughts. It's just that I'm afraid that my new official will be fired and cause trouble. In fact, you don't have to worry about it. I don't have time to do these miscellaneous things. My principle is only one, as long as you don't betray me. The human race, do not do anything that harms the interests of the human race.

.....O

You are in your Galaxy, no matter what you do, I will not care about you!

Of course, if you violate these two rules, your end will be like this!"

When Zhao Ling said this, his tone was instantly cold.

The next moment, the body of an emperor in the crowd exploded instantly!

The burst of blood made the faces of the surrounding powerhouses pale!

Everyone looked at Zhao Ling in disbelief, an emperor could kill him at will!

"The person who died was called Emperor Yufeng! And this brother seemed unable to bear the temptation of the liger clan's interests, and sold my information. Unfortunately, the starry sky broken mirror pill in his ring is No life to enjoy!"

Amid the horrified eyes of the crowd, a storage ring flew out from the shattered flesh and blood of Emperor Yufeng.

And a Medicine Pill instantly appeared in the storage ring!

This Medicine Pill is what Zhao Ling called Starry Sky Broken Mirror Pill.

A peak starry sky Medicine Pill that can upgrade a starry sky level powerhouse to a small Realm!

"I remembered, just before the end of the first match, Yulifu said that Yufeng Galaxy had something important to do!

"I also remembered that when he told me that his wife had a difficult labor, he would only believe it if he was a fool."

"Damn it, I believed it at the beginning!"

With the confirmation of an emperor, everyone finally looked towards Zhao Ling in awe.

The next moment!

"Swipe, swipe, swipe..."

All the emperors knelt on the ground respectfully in an instant!

"Meet Lord Venerable! Exit!".

Fantasy I Pick Up Attributes In The Future

Chapter 130: True Seven Hundred Turns! Gang Qi Condensed! ! (3/5)

"Unexpectedly, Zhao Ling regained all the emperors so quickly at such a young age!"

In a conference room, under the leadership of the lord, a wretched old man watched the picture of Zhao Ling recovering tens of thousands of strong men!

"That's right, when I first became a lord, those brats still hated me every day, but now they've all been buried in the ground, it makes me feel relieved to think about it!"

"Hahaha, I'm not buried, master, I'm stronger than you now!"

"Don't be angry with your master, he regretted tens of thousands of years when he accepted you as his disciple!"

A group of Xinghai-level old men are fighting with each other here. Speaking of these people, they are all related.

The oldest leader can be said to be their ancestor!

"This time, making Zhao Ling the lord is also an inspection of him. If he is qualified, my position in the future will be his!"

The leader of Martial Dao spoke quietly!

As soon as his "three three three" words came out, the surrounding Venerables were all silent!

Leader Martial Dao is right, Zhao Ling's talent strength, if coupled with their support, is definitely capable of being a human leader!

"However, I'm absolutely sure. A potential dragon like Zhao Ling is destined not to ascend to the sky in a small pond like the human race. He should swim in the king sun of the universe! Master, you are the throne, or yourself Keep it!"

However, the Generalissimo of the military department spoke up!

As soon as his words came out, everyone understood!

"That's right, only the Universe can support a dragon like Zhao Ling. Alas, what a pity, I thought I could get rid of this mess!"

The leader of Martial Dao sighed regretfully.

You must know that for Martial Dao powerhouses like them, the position of a human race alliance is not something glorious.

But it's a burden.

If it weren't for this burden, he would have already broken through to the universe level.

"By the way, whoever wants it, I'll give it to you!"

Suddenly, the leader of Martial Dao's eyes lit up, and he looked at more than a dozen Star Sea-level Venerables!

"Farewell!"

"Farewell!"

However, there are only two words in response to him!!

Night! Zhao Ling returned to the reception residence under the escort of the Zunhuang three people who were extremely happy.

"emmm, this time I have a long face, Ming Yang, you don't know how respectful the emperor of the eighth stage of the starry sky is when he sees me, just like I treat my lord the emperor!"

Martial Dao, the dean of the department, proudly showing off!

Now, the emperor at the peak of the starry sky will call me Lord Soul Li when he sees me!"

The soul gift is also full of complacency!

After all, he is Zhao Ling's teacher in name, and Zhao Xiang came as a college student when Xie Yi came.

"Okay, aren't you two embarrassing? You still have to make such a fuss about such a trivial matter!"

Zunhuang couldn't help scolding the two of them, however, only a burst of contempt greeted him!

"My lord, you were surrounded by several emperors at the peak of the starry sky, and your mouth is grinning to the ear!"

Hun Li couldn't help making complaints in a low voice.

However, what greeted him was just a fierce white eye!

"But having said that, Zhao Ling, after you become Venerable this time, your status will be the highest among the human race!

So now, there should be a planet belonging to own as a palace! In my Zunhuang Galaxy, I remember a planet with a diameter of 300 million kilometers.

I'll go back and give my subordinates a big remodel, it should be suitable for you as a palace!"

Zunhuang's serious words made Zhao Ling smile!

"No, I'll just live in Yan Mars, and I won't be here for long, I'll explain why later!"

Zhao Ling directly rejected Zunhuang's kindness!

After all, Yan Mars is his birthplace in this life, and he is already very familiar with it!

So Zhao Ling didn't have too many demands.

But the most important thing is that after passing the Tianyan strongman battle this time, he can directly live in Tianyan Shenshan.

And it is said that those who come out of Tianyan Shenshan are at least a powerful world master level powerhouse!

And every few sessions can produce a super strong person of immortality level!

This intrigued Zhao Ling.

Although it will only be held once in a billion years, the number of strong people he produces in each session is definitely the sum of billions of years.

"Is that so? Then you can think about it yourself. You are Venerable now. If you have anything to do, just call us emperors directly!"

The Emperor said with a smile.

Soon, Zhao Ling will be in the own room!

The Galactic Elite Contest of the three races will be held in a week. Tomorrow, Zhao Ling will go to the chaotic Galaxy at the junction of the four races under the leadership of Martial Dao for the Galactic Elite Contest!

"I don't know if the Tianyan strongman battle will be over when the competition starts! If not, it will take a long time!"

Zhao Ling's eyes flashed, and then he put the wooden light on the treasure chest he got from torturing those star-level Practitioners at noon!

"System, help me, all the treasure chests are here!!"

Zhao Ling can't wait!

Because those starry sky level powerhouses were tortured by me almost used up almost all their strength, so although the number of people watching the game was only one-twentieth or thirty-fifth of those watching the game, the True Qi value and treasure chests dropped were not a lot at all..

Now without opening the treasure chest, Zhao Ling's True Qi value has reached 98 turns!

"Ding... Congratulations to the host for opening the sky-level treasure chest *15254, and the star-level treasure chest *751. Congratulations to the host for obtaining the following items:

Sky-level items*8741, star-level items*450

Experience value: 750 million

True Qi value: 1.5 billion!"

Although he got the True Qi value of 1.5 billion, Zhao Ling now only needs the last 200 million!

However, the system stuffed all 1.5 billion True Qi values into Zhao Ling's body in the next second.

"Ding... Congratulations to the host whose True Qi value has reached: 100 rpm, the system has started to condense the Qi!"

Fortunately, the system's notification sound also came over at this time, The next moment Zhao Ling found that the endless True Qi in own's body began to frantically condense towards the position of own Dantian!

The endless True Qi frantically gathered in Zhao Ling's body!

But Zhao Ling's ability to store True Qi is not that scary!

So the next one Zhao Ling found that own voice started to break like crazy!

When his body was broken, Zhao Ling discovered that there was a force that crazily increased Zhao Ling's potential in the dark!

The 2.5 speed that makes Zhao Ling's body broken is getting slower and slower.

But ten seconds later, Zhao Ling's flesh and blood were still turned into dust!

Zhao Ling's soul power surged madly in his eyes, and the next moment began to shatter into Zhao Ling's bones!

And the endless True Qi also began to transform in the center of Zhao Ling's skeleton.

True Qi, which was originally black and cyan, began to transform into pure black.

You know, the general astral qi is white, but Zhao Ling's astral qi is a terrifying astral qi transformed by using 100 revolutions of black and blue True Qi!

The bonus to strength directly reaches a hundred times!

At the same time, it also carries a frightening attribute of destruction!

This destructive attribute directly destroys the surrounding things towards the outside layer by layer!

The building where Zhao Ling is located will soon disappear!

However, the three Zunhuang who felt a trace of fear instantly woke up.

The next moment, a picture that they will never forget appeared!.

Fantasy I Pick Up Attributes In The Future

Chapter 131: Great Master Rank! Destroy Gang Qi! !

I saw that with Zhao Ling's attic as the center, the surrounding space was beginning to collapse layer by layer!

It's like being swallowed by a huge mouth!

"The power of the elements, this feeling seems to be the legendary power to destroy the elements!"

Zunhuang watched in disbelief at the terrifying Realm spreading from the pillars around Zhao Ling!

"What? Legend has it that only the gods of Innate can awaken the power to destroy elements. Could it be that Zhao Ling is the god of Innate?"

Soul Li's face changed slightly, the terrifying area that Zhao diffused gave him a strong Death breath!

He can imagine that if he accidentally touches that area, he will definitely be swallowed up in an instant and turn into nothing at the same time!

"That's right, it's the element of destruction in the legend. The thing that only existed in legends in the history of the human race was awakened by Zhao Ling. It seems that Zhao Ling is really the future of our human race!

If we are lucky enough to gather together to destroy Realm in the future, our human race will be able to walk out of the galaxy!"

Zunhuang looked at the direction of the black hole and was extremely excited!

But because of that area, even light and spiritual thoughts will be swallowed instantly.

So they can't see Zhao Ling's miserable appearance now!

In the endless 27 nothingness, Zhao Ling's skeleton began to shatter layer by layer.

At the same time, the endless True Qi is still pouring in crazily.

Fortunately, the stellar qi in his body is about to be completely transformed.

And slowly over time.

The concentration of Stellar Qi became stronger and stronger, the next moment came with a slight vibration, and all the True Qi wandering in Zhao Ling's broken skeleton finally turned into Stellar Qi!

"Ding.....Congratulations to the host for breaking through to the Grandmaster realm! All True Qi is transformed into Destroy Gang Qi!"

However, with a notification sound from the system, the last trace of Zhao Ling's skeleton also disappeared into nothingness.

Only a trace of soul was left beating slightly.

And in the center of the soul is a pitch-black aura that is flowing crazily!

"Om!!!!!!!"

Suddenly, a wave of fluctuation came from Zhao Ling's soul.

At the next moment, silver bones quickly condensed out of the void!

As time passed, a silver skeleton exuding a terrifying aura began to appear in the void.

The next moment, the flesh grew out of the skeleton.

Soon, flesh and blood covered the entire skeleton.

Zhao Ling's muscles, skin, and hair began to grow slowly.

Soon, Zhao Ling's physical body returned to its original appearance.

The only difference from before is that the current physical body does not have the slightest Impurities.

Even if Zhao Ling doesn't have a system and wants to practice, the speed is definitely thousands of times faster than before!

Suddenly, Zhao Ling opened his own eyes!

At the next moment, a terrifying force of destruction erupted from his eyes and this terrifying force shot towards the endless starry sky.

Instantly bombarded above Mercury before the sun!

The next moment, the gigantic Mercury disappeared into the universe like a pencil drawing being wiped away!

It can be foreseen that if this attack is not blocked by Mercury, if it hits the sun, the sun may be annihilated. Ten holes in the TV University will eventually explode due to instability!

However, this attack by Zhao Ling drove the observatory that monitors every move in the solar system crazy!

Mercury is actually destroyed!

Mercury is one of the eight planets in the solar system, the symbol of human civilization, it was destroyed just like that!

But Zhao Ling, the one who started it, doesn't care at all now.

He slowly stood up from the air,

Looking at the extremely dark space around him, Zhao Ling felt a powerful force surging around.

At the same time, Zhao Ling also felt the mutation in his body.

"boom!!!!!"

Zhao Ling just grasped it casually, and there was a sound of the air being crushed in an instant.

"Ding... Congratulations to the host, the power of the bloodline has been upgraded to the bloodline of the holy rank! The bloodline of the holy rank comes with the power of the law of inheritance! The power of the law of inheritance of the host is: the law of destruction (1% shares

With the prompt sound of the system, Zhao Ling felt that he could involuntarily control a kind of energy around him!

And this energy is incomparably violent from the feeling!

If it erupts, Zhao Ling feels that he can obliterate a star sea level powerhouse!

"The power of law? A terrifying energy that can only be used by a universe-level superpower?"

Zhao Ling's eyes flickered slightly, and he began to comprehend the power of law after the universe level. However, this power of law is not something that anyone can comprehend if he wants to.

Generally speaking, among the tens of thousands of Xinghai-level peak powerhouses, only one can successfully condense a trace of law power.

But to become a real universe class, it is necessary to strengthen the power of this law to a complete one!

This difficulty is beyond the imagination of ordinary people!

Not only does it require the precipitation of time, but it also requires a strong ability to perceive the power of the law!

However, the strength of a quasi-universe-level powerhouse with the power of law is definitely dozens of times that of an ordinary Xinghai-level peak | Even ten people who have comprehended the most rubbish power of law can easily wipe out ten Xinghai-level peak powerhouses .

"System, bring up the attribute table!!"

Attribute table:

Host: Zhao Ling

Bloodline: Holy Order

Martial Dao Realm: Grandmaster: First Stage

Spiritual Realm:Earth Stage: First Stage

Ability: 109 kinds

Power of Law: Law of Destruction (1%)

Guardian Spirit: Dark Gold Nine-Clawed Dragon (Dark Gold Dragon Armor, 70 times)

Strength: 105.2 million

Speed: 5.04 million m/s

Blood: 1,006.66 million

Soul: 10.5 million

Psychic skill: 40 soul power (0/300 million)

Gun Skills: Master Advanced (0/300 million)

Movement Technique Skill: Master Advanced (0/300 million)

Ability Skills: Master Advanced (0/300 million)

Beast Master Skills: Master Advanced (0/300 million)

Weapons: Shadow Blade*10 (Peak Starry Sky) Blood Devil Gun (Peak Starry Sky)

Cultivation Technique: Vajra Immortal Art (first five volumes, Starry Sky Peak! 100%)
Destroying Divine Body (Starry Sky Peak 100%) Beast Mastery (Starry Sky Peak 100%)

Wu 477 Skills: Shining Golden Knife Formation (100% at the peak of the starry sky) Five Elements Shootout (100% at the peak of the starry sky) Nine Dragon Sealing Technique (100% at the peak of the starry sky).....

Experience: 435 million

Zhao Ling upgraded the remaining three skills to the Master level!

And the experience value is still about 400 million.

But these are small things, the important thing is that now Zhao Ling finally break through!

Become a Grandmaster and other masters!

At this moment, Zhao Ling felt as if he had been waiting for a long time.

Excited, he couldn't help bursting out with a little bit of strength.

"boom!!!!!!"

The next moment, the whole earth trembled with the explosion of Zhao Ling's aura, as if it would explode at any moment.

Fortunately, Zhao Ling quickly withdrew his momentum.

"Fuck, the power of the law is really terrifying, I feel that the combat power has been reminded a lot!!"

Zhao Ling was slightly excited.

"Zhao Ling, it's fine for you to breakthrough, but if you make such a big noise, are you trying to destroy the earth?"

At this moment, the figure of the leader flew down from the sky.

He sensed it from the moment Zhao Ling just succeeded in breaking through.

Seeing that Zhao Ling actually comprehended the element of destruction, he was more shocked than anyone else!

He knows how precious the elements of destruction are.

After all, during these few hours, he was learning the basic knowledge of the outside world in the virtual universe.

"However, forget all these things, you didn't tell me that you are the 150th on the Longxiao Qianlong list!!".

Fantasy I Pick Up Attributes In The Future

Chapter 132: The Second Round Of The Tianyan Powerhouse Battle! (5/5)

After knowing the terrifying status of Zhao Ling in the universe, the leader of Martial Dao seems to have seen the rise of the human race.

"It's just a Long Xiao Qianlong list, not a strong list!"

Zhao Ling smiled slightly.

What he said made the leader of Martial Dao speechless for a while, that was the Long Xiao Qianlong list, and even His Royal Highness the Seventh Prince of the Duchy of the Prison Universe only has more than one million!

Zhao Ling actually thinks this is no big deal!

As for why he doesn't know that Zhao Ling is the strongest on the Tianyan Qianlong list, it's very simple. Zhao Ling has been kicked out of the top 100 million ranks of Weijie

Qianlong list because someone challenged him, and he didn't challenge him for more than a day!

The Long Xiao Qianlong list also fell to more than 150 because Zhao Ling was challenged and did not respond.

However, although there are only more than one hundred and fifty, the leader of Martial Dao still proudly holds his head high.

"Very good, after all, this Universe is so big and there are countless geniuses, so don't be complacent.

Of course, this is also because he didn't have a good understanding of the strength of the first place on the two lists!

After all, no matter how talented he is, he always has limits.

At the age of twenty, reaching the strength above the starry sky level is already a top genius in this universe!

Of course, except for those who rely on drugs to improve.

That kind of pseudo-genius virtual universe will be automatically detected, and he is not even qualified to participate in the hidden dragon list.

"Yeah, I'll do my best!"

Zhao Ling looked at the leader of Martial Dao who almost turned on Tang Monk mode, and immediately interrupted him!

After all, he finally sent the other party away!

At this time, the Zunhuang three people in the distance flew over, and now there was only a huge pothole left in the manor, and the three had no choice but to return to Zunhuang's spaceship.

After repeatedly telling Zhao Ling not to get mad and not to attack casually, the three of them finally returned to the room with vicissitudes on their faces!

And Zhao Ling came to the virtual universe!

"It's already the third day, after today, the first round is over!!!"

Zhao Ling's eyes flickered slightly.

The powerhouses selected from the endless powerhouses in the entire Tianyan Universe Divine Kingdom are definitely super powerhouses!

"Welcome Mr. Zhao Ling to the virtual universe again! Today is the last day of the Tianyan strongman battle, do you want to start the last day of the game~"?"

The voice of the usher spread throughout the space.

"let's start!!"

Zhao Ling said!

The next moment Zhao Ling was teleported to the ring again!

Soon a young man appeared in front of Zhao Ling.

It started with a sound in the sky.

Zhao Ling instantly fought with the opponent!

"Boom boom boom boom..."

Horrible roars echoed throughout the space.

The young man immediately exploded with all his combat power, and his strength has reached the terrifying strength of the Eighth Stage in the starry sky!

The strong men who can make it to the third day are all extremely terrifying geniuses.

But Zhao Ling knew that if this young man didn't meet own, he would definitely survive the first round!

However, what he meets now is Zhao Ling!

Following Zhao Ling's punch, a dark golden glove appeared on Zhao Ling's hand.

The next moment, Zhao Ling's strength instantly increased by twenty times!

The terrifying power instantly changed the face of the young man on the opposite side!

The long sword in the young man's hand erupted with a terrifying scorching aura instantly!

"Element of Flame!!"

The young man gave a low shout, The next moment, his long sword collided with Zhao Ling's fist in an instant!

Being able to comprehend the elemental energy of the starry sky level at the peak of starlight, his talent is extremely powerful.

However, Zhao Ling's punch has increased its terrifying combat power by twenty times under normal conditions.

"!!!!!!"

After an earth-shattering loud noise, the young man's long sword shattered instantly, even the terrifying element of flame dissipated into the air in an instant.

The next moment, Zhao Ling's fist shattered the young man's chest under the terrified gaze!

"Boom!!!!"

With a cracking sound, the young man's body instantly exploded into countless light spots and disappeared on the ring!

"Congratulations to Zhao Ling, who passed the first round of assessment! The second round is about to start, please get ready!"

At the same time, the voice of the guide also came down from the sky.

Soon, the second round will start again!

The strength of Zhao Ling's opponents ranges from Starry Sky Sixth Stage to Starry Sky Seventh Stage!

To be honest, it's time for the strong to see their luck at this point in the battle. If they are unlucky, they will meet someone whose strength reaches the top 100 million, and even though they have the strength to enter the second round, in this case, they will have no choice but to Be eliminated!

And the most unlucky one in history, with the strength of the top ten, but encountered the champion of that division in advance!

So unlucky to be eliminated!

Moreover, the Divine Kingdom of Tianyan Universe didn't give him any special treatment because of his talent.

If you don't pass, you don't pass!

In the end, his achievement is that any student who comes out of Tianyan Shenshan is stronger than him!

And as time passed, Zhao finally ushered in the final battle of Own!

As a white light flashed across from Zhao Ling, a middle-aged man appeared in front of Zhao Ling!

And the man exudes a terrifying evil spirit!

Zhao Ling felt that there were countless undead howling in this evil spirit!

"The power of undead elements!?"

Zhao Ling frowned slightly.

After all supernatural beings become starry sky level, they can generally convert the power of own supernatural powers into elemental powers!

Of course, it doesn't mean that a person with supernatural powers can easily become a star-level powerhouse!

It's just a little easier for them to comprehend the power of the same kind of elements as their abilities!

It would definitely be several times more difficult if they had to comprehend the power of other elements first.

And the elemental power of the undead in front of him is one of the elemental powers in the rare category.

And if you want to comprehend this kind of elemental power, you must be a pervert who likes to kill and deal with the dead!

Zhao Ling can tell from the fact that the weapon used by the opponent is a huge ax that seems to be dripping blood!

"The last match of the first knockout round, let's start!!"

Following an order from the sky, endless bloody aura erupted instantly from the opponent's giant axe.

This bloody aura soon enveloped Zhao Ling's whole body!

"Boy, die!!!!"

The middle-aged man gave a perverted smile, then rushed towards Zhao Ling with a smirk!

"Soul-killing Finger! (Did it)!!!"

Zhao Ling suddenly raised his right hand The next moment An invisible power of the soul exploded out,

The power of the soul condenses a finger in the void.

The fingers passed through his body in an instant at a speed that the middle-aged man could not resist.

At the next moment, the middle-aged man who was rushing towards Zhao with a grinning smile crashed to the ground as if he had lost his motivation.

The powerful inertia caused the opponent's body to drag the ground out of a long gully.

And when the opponent's body was about to come to Zhao Ling, it turned into a sky full of light spots and disappeared.

"Congratulations to player Zhao Ling for killing the last opponent in the first round! Successfully advanced to the second round! The second round will start tomorrow. All candidates are requested to come to the virtual universe on time at seven o'clock in the Mingwei Universe to start the first round." Two rounds of strong battle! Battle!"

Following the explanation of the guide in the sky, Zhao Ling also exited the virtual universe.

And now the earth is already dawn.

Then Zhao Ling came to the Star God Hall under Zunhuang's leadership. .

Fantasy I Pick Up Attributes In The Future

Chapter 133: The Battle Begins! Tianyan Tower! ! (1/5)

"This year, in addition to the leader, and you have a total of five Venerables, we, the emperors, also have a thousand places to watch. Speaking of which, I am eager to watch a galaxy elite competition!"

Zunhuang said excitedly on the road.

"Will there be any accidents above the game?"

Zhao Ling asked curiously.

With the four major races fighting together, he doesn't believe that everyone will live in peace!

"There must be, after all, it is the Tianjiao of the four major races who are fighting, and after all, it is a battle, and there will always be casualties, so the time I went, "the four major races fought several times

Zunhuang explained helplessly!

"Then if there are a lot of people killed, will the other party go berserk?"

Zhao Ling narrowed his eyes slightly, but what he said made Zunhuang stunned!

It seemed that he had guessed what Zhao Ling was going to do.

"Of course, what I went to watch was the last session. That time, Tianjiao of the Shadow Snake Clan was tortured and killed four by Tianjiao of the Liger Clan. The strong men of the two races immediately fought, and not only did hundreds of people die from both sides. The star-level emperors, even Tianjiao, were accidentally beaten to death by them,

Tsk tsk tsk, now think about it, if only they were more ruthless!"

Zhao Ling was left speechless by the emperor's gloating appearance!

"The four started fighting. I don't know if they will go berserk if they all die!?"

Zhao Ling smiled slightly!

An urge to destroy echoed in his mind.

473 After Zhao Ling and his group boarded a silver spaceship, the spaceship disappeared into the starry sky with a flashing silver light!

It would take at least ten days to reach the chaotic galaxy from here.

Even the terrifying speed of this spaceship is the same.

This makes it hard for Zhao Ling to imagine how long it will take if he wants to travel the universe in this spaceship in the future!

"Young master, don't worry, as long as the young master successfully passes the Tianyan strongman battle, let alone traveling in the universe, it won't take many years to fly back and forth between the two sides of the universe!"

Hun Lao said with a smile to Zhao Ling.

"I hope so!"

Zhao Ling's eyes flashed and he smiled!

For him now, the Tianyan strongman battle seems to be really not that difficult, but he just doesn't know how long it will take for this Laoshizi strongman battle to end!

Soon, it's time for the next day!

Early in the morning, Zhao Ling came directly to the virtual universe, or in other words, everyone on the spaceship came to the virtual universe!

The huge magic and mystery of the virtual universe makes everyone linger!

Those young geniuses from the Milky Way who were brought directly ran to the arena.

Because they are too old to challenge even the Hidden Dragon Ranking.

But Zhao Ling was directly teleported to a huge square!

On the square, there are countless people waiting here, and there is a countdown in the sky!

Zhao Ling spread out his sea of consciousness directly to pick up attribute points one by one!

"Ding... The host picked up the attribute: Qi and blood 7500 points, increase the value of Qi and blood: 7500"

"Ding... The host picked up attributes: Strength 80,000 points, increase strength value: 80,000"

"Ding... The host picked up the attribute: soul 88 points, increase the soul value: 88"

"Ding... The host picked up the attribute: speed 4550 points, increase speed value: 4550"

"Ding... Congratulations to the host for picking up the treasure chest of spirit rank*1, the treasure chest of sky rank*1, and the treasure chest of starry sky*1"

A system of notification sounds echoed in Zhao Ling's sea of consciousness.

Now Zhao Ling's strength is enough to extract attributes from the body of a Xinghai-level powerhouse.

It's just because it's in the virtual universe and the people around are waiting quietly.

So few of these people will drop attribute points!

However, the number of strong people around is incomparably large,

Therefore, the attribute points obtained by Zhao Ling are enough to be described as massive!

As time passed, time in the sky finally stopped.

And Zhao Ling also picked up more than 400 million various attribute points!

Zhao Ling went straight from Great Master First Stage to become a mighty Great Master Fifth Stage!

The strength has more than quintupled!

At the same time, Zhao Ling also got several Xinghai-level treasure chests.

It's just that Zhao Ling doesn't need to open it now!

"The second round of the strong battle begins!!!"

Following a loud voice in the sky, the next (chfj) moment, Zhao Ling's eyes blurred, and he found himself in a huge empty space.

And a terrifying giant tower stands in front of Zhao Ling.

Zhao Ling could feel that this giant tower was infinitely far away from him, but this giant tower made him unable to see the top of his head at a glance!

However, just as Zhao Ling and the others started the second round of the strong battle, the entire virtual universe began to broadcast this battle between dragons and tigers.

"Everyone, the one in front of you is the Tianyan Tower!"

And at this moment, a loud voice came from the void

The tower is divided into three hundred floors!

And your goal is to break through the tower.

On each floor, different guards will appear randomly!

Remember, what he needs to break into this one is not how powerful you are, but the assessment of your comprehensive combat effectiveness!

The strength of the assessment target that everyone faces is different!

And this year's admission rules will also be changed, as long as they reach the 80th floor, they will be the winners. If you all pass, I, Tianyan Shenshan, will recruit all of you this year!"

As soon as the voice in the sky came out, all the powerhouses were excited!

As long as you break through a hundred floors, you can advance? This kind of good thing was actually encountered by them.

After all, if it is in the form of a ring, there may be players with strong talents who are unlucky to meet someone who is slightly stronger than themselves, and will be eliminated directly in the end.

But the current assessment method is completely based on own ability, there is no such thing as luck or bad luck anymore.

"Okay! You have the rules for this assessment ahead of you. Take a good look at it. It will start after ten seconds!"

The voice that shook the world disappeared after speaking!

A Jade Slip appeared in front of The next moment Zhao Ling.

Zhao Ling directly sank his consciousness into it, and immediately a series of messages appeared in Zhao Ling's mind!

"All the weapons and armor used are of the same level? The Martial Skill Cultivation Technique of the same level of powerhouses is almost the same!

Only this one?"

Zhao Ling was stunned. In such a big competition, you actually only have such a restriction! That is to say, you can't use external force, you can only rely on your own strength!

"The biggest rule is, be fair! That's fine."

Zhao Ling didn't care.

But just after Zhao Ling read the rules, he suddenly felt dizzy.

The next moment, Zhao Ling's figure disappeared instantly.

When Zhao Ling appeared again, he found that he had come to a planet surrounded by flames!

The surrounding temperature is very high, reaching thousands of degrees.

Even when iron comes into this environment, it will melt instantly!

"Let's break through! Please get ready!!"

However, at this moment, a loud sound came from the sky.

The next moment, Zhao Ling found that the countless flame elements not far from him were frantically gathering!

"Moo!!!!"

With a roar, a huge flaming bull appeared in front of Zhao Ling!.

Fantasy I Pick Up Attributes In The Future

Chapter 134: It's So Easy To Pick Your Feet! (2/5)

The giant flame bull tens of meters high stared at Zhao Ling angrily, as if Zhao Ling had put his cow to sleep!

At the next moment, the giant flame bull roared and rushed towards Zhao Ling with a powerful momentum!

"It's actually a Tier 3 Fifth Stage fire bull?"

Zhao Ling frowned! The next moment moves a year, and an invisible wall of thoughts appears in front of the giant cow~!

However, the giant bull who couldn't see the mind wall stared at Zhao Ling, and rushed up directly!

"clang!!!!"

With a loud noise, the surrounding earth-earth trembled!

Poor giant cow, he exhausted all his breastfeeding strength and smashed his whole body directly into his own chest!

The flame elements all over the body were knocked flying in the sky!

"boom!!!!!"

With a loud bang, the flame giant slammed into the ground and slowly merged into the king of the earth!

"Congratulations to Zhao Ling for passing the first floor of the Tianyan Tower!"

The next moment, that loud voice came again.

At the same time, those who watched the game from the outside world saw that almost everyone finished the battle within ten seconds!

Because the first floor is to fight a strong person with the same Realm as yourself!

And the more violent ones have already rushed to the fifth and sixth floors!

Almost every second will increase a level!

"I don't know where the difficulty of this assessment is. You can see how many floors everyone passed through at once. Eighty floors are very easy!"

"Yes, at this speed, the 80th floor will be completed in less than ten minutes!"

"I think so too, but it's not that simple!"

As the time passed by every second, these powerhouses almost all passed in one second and two seconds.

After Zhao Ling left the first floor, he entered the second floor. This time, Zhao Ling came to a huge green planet!

Zhao Ling is standing in a huge forest!

"Huh huh huh

At this moment, there was a rustling of leaves, and the next moment, the two big trees in front of Zhao Ling started to shake.

With the trembling of the big trees, Zhao Ling found that the two big trees began to emit a wave similar to the soul of a creature!

And the strength of this soul fluctuation has reached the Great Master Fifth Stage!

It is also the same as own Realm.

"The second level is to fight with two strong people with the same Realm as me?"

Zhao Ling was a little speechless, but the facts were in front of own.

Such a simple comparison is a bit unbelievable.

Before the two huge trees in front started to rage, Zhao Ling immediately burned them down!

"Congratulations to player Zhao Ling for successfully breaking through the second floor and starting the third floor assessment!"

The next moment Zhao Ling took it up another level.

However, on the third floor are four star beasts of the same level as himself!

Zhao Ling reached the fourth floor directly by instant killing.

The fourth layer is 8

The fifth layer: 16, and so on.

The only difference is that when reaching the tenth floor, there are not 512, but a thousand, but there is not much difference!

It's not just that Zhao Ling has no pressure.

It is the same with the strong outsiders.

In just a few minutes, someone broke into the forty or fifty floors!

Originally I wanted to say that maybe people who will be more difficult to break through later dare not speak!

Because even a fool can see that the difficulty of breaking through the level so far has not stumped any of them!

It's just that for the weakest Body Tempering realm and True Qi Realm, each level up will only increase one opponent. After all, the strong in these two stages don't have many large-scale attack methods.

It would take a long time for a strong man at the peak of Body Tempering to kill a thousand strong men of the same level.

Even if they have the strength not weaker than the general True Qi level.

That is, Zhao Ling has reached the sixty-first floor after a few minutes!

A planet with fluttering snowflakes.

On this planet, a huge snow beast hundreds of meters tall was sleeping not far from Zhao Ling.

However, just when Zhao Ling arrived, the snow beasts suddenly opened their eyes, and at the next moment, a pair of eyes exuding a terrifying Death breath stared at Zhao Ling!

"DL!!!!!!"

The Snow Beast roared and slapped it instantly.

"The strength of Starlight First Stage!?"

Zhao Ling's eyes flashed, and he stretched out a finger to point towards the huge palms on both hands!

An extremely cold ice ability erupted from Zhao Ling's hand, The next moment, the snow beast was instantly frozen by Zhao Ling's ice!

A roaring ice sculpture appeared on this piece of snow!

Zhao Ling stepped forward and flicked his fingertips slightly!

"!!!!!!"

With a soft sound, the huge ice sculpture actually cracked!

"boom!!!!"

The next moment, the whole ice sculpture exploded!

Countless pieces of ice were flying in the sky.

.....seeking flowers O.....

"Congratulations to Zhao Ling, who successfully passed the sixty-first floor and entered the sixty-second floor!"

Still no challenge!

But this is just Zhao Ling's own idea, many outsiders are different!

"Damn it, it's really not easy, the sixty-ninth floor is already a strong man from the sixth stage of a thousand stars! How do we fight this?"

A strong player in the Starlight Realm said in despair.

"It's the seventy-first floor, but who can tell me why the guard on the sixty-ninth floor is a thousand Universe-level Sixth Stage?"

And a strong man at the peak of the Star Sea Realm, who escaped a deadly move from hundreds of Universe Sixth Stages united together, screamed in horror.

With his strength, there is a great hope of entering the top 100 million in the past.

But this time he found that he had no hope!

The sixty-ninth floor is so terrifying, what will happen to the even more terrifying seventy-fifth floor?

That is a thousand universe level Seventh Stage terrifying powerhouse!

Fortunately, the final regulations did not say that they could only challenge once.

It's the same thing they want to challenge a few times before the game is finally over.

But almost everyone has self-knowledge, if it fails once, the chances of passing it the second time and the third time are extremely low!

However, no matter how small you are, you still have to go!

Originally, as long as the method was a little more violent, he would go all the way directly.

Now, those who were originally one layer per second are directly stuck on the sixty or seventy layers and cannot move!

But many slow ones are slowly catching up with the passage of time!

Talent is even more powerful than before!

But at the same time, in a space of nothingness.

A group of strong men exuding a destructive aura stood in the endless void and looked down through the Tianyan God Tower!

If anyone is there, they will find that the group of strong men here whose strength has reached the level of immortality are all the emperors of the Universe Empire within the Heavenly Evolution Universe Divine Kingdom!

The number of people reached hundreds of millions.

Among them, Emperor Long Xiao was used.

However, Emperor Long Xiao's strength is mediocre among so many people!

A middle-aged man was standing at the front.

The people around are extremely respectful to this strong man!

This person is the Great General of the Divine Kingdom of Tianyan Universe!

General Tian Xiao!

He just stood there calmly, and he has already suppressed the aura of hundreds of millions of emperors!

Suddenly, General Tian Xiao frowned slightly!

"This session also produced a genius, Ah Jiu!".

Fantasy I Pick Up Attributes In The Future

Chapter 135: The Universe Is Horrified! !

As soon as General Tian Xiao's words came out, the expressions of the surrounding emperors changed slightly!

It was definitely not easy for General Tian Xiao to call him a genius.

These emperors have a good idea in their hearts, and they are very clear about the players in their own empire.

Absolutely no one can be called a genius!

At least he couldn't be called a genius by General Tian Xiao!

"I don't know, who is General Tian Xiaotian talking about!?"

No emperor dared to ask this question casually, but the few emperors standing next to General Tian Xiao were different!

Their strength is only a thin line away from General Li Tianxiao.

Although this line is a distance like a moat, it is enough for them to be qualified to say a few words!

"Hahahaha, you will find out later!!"

However, General Tian Xiao let it go with a smile!

However, the Emperor Long Xiao in the crowd had his eyes lit up as if he had guessed something!

"September 13"

The Tianyan God Tower is a tall tower on the Tianyan God Mountain that is used to test the talents and combat effectiveness of the students!

Of course what's in the virtual universe is just projections!

There are a total of 300 floors, and the first 80 floors of the 300 floors are not very impressive for those who can enter Tianyan Shenshan!

But after the 80th floor, it's different!

Each layer is like a moat in general!

Different from other assessment methods, the Tianyan Divine Pagoda will not be able to climb higher just because your strength becomes stronger.

On the contrary, if you blindly increase your own Realm, the number of layers you can reach will drop sharply!

However, from the establishment of the Tianyan Divine Pagoda to this era, I don't know how many billions of years have passed, and no one has been able to break through to the 200th floor or above!

Not to mention three hundred floors!

However over time.

One by one super geniuses are also slowly revealed.

Thousands of people have already passed the eightieth floor!

One of the most geniuses has been achieved is the layer height!

And, this person is Zhao Ling!

"Good! Finally reached Starlight Fifth Stage!!"

Zhao Ling looked at the star beast roaring at him and smiled!

Then kick it out!

The star beast that terrified the other powerhouses was directly kicked by Zhao Ling!

The next moment, Zhao Ling came directly to the ninety-second floor!

It's still violent bombardment!

And the ranking of the second place has reached the terrifying eighty-three! It will soon catch up with Zhao Ling!

Forehead!

maybe!

After all, there are still a thousand terrifying powerhouses who are almost one level higher than themselves guarding the goal!

However, when Zhao Ling broke out of the siege, he had already fallen into the eyes of countless strong men in the sky.

At the same time, the fact that a game was broadcast was also spread throughout the 100,000 universes!

But although they remembered the character Zhao Ling

But they really don't have the slightest idea of how difficult it is for Zhao Ling to do this!

Only those superpowers who have graduated from Tianyan Shenshan! They all looked at Zhao Ling's ranking in disbelief!

Killing an opponent a Realm taller than you in seconds? Are you kidding us?

"My god, why did such a monstrosity appear this year?"

"I remember countless times among the students of Tianyan Shenshan in countless billions of years!

There are only a handful of people who can reach the 100th floor when they first entered Tianyan Shenshan!

And without exception, these geniuses have directly become a terrifying immortal-level powerhouse through the study of Tianyan Shenshan for 10,000 years!"

As people who have experienced it, these powerhouses are all immortal level powerhouses!

What is not enough is to serve as emperor in each empire.

Some served as generals in the Divine Kingdom of Tianyan Universe!

However, these terrifying powerhouses who control the operation of a kingdom of God are now incomparably afraid of Zhao Ling,

Russia and Japan are saying that, Zhao Ling's strength has exceeded their imagination!

Because just as they were shocked, Zhao Ling had rushed to the hundredth floor!

As long as he breaks through a hundred floors, it means that Zhao Ling has the potential to become a strong immortal within ten thousand years.

In an endless starry sky!

Zhao Ling suddenly appeared in a certain corner of the starry sky.

"Ho Ho....."

A roar of beasts actually came out from the void!

The next moment Zhao Ling felt a thousand star beasts dormant in the endless void!

"Swipe, swipe..."

With the sound of breaking through the sky, black figures rushed out of the starry sky instantly.

A thousand star beasts with extremely powerful concealment abilities came out of the endless void!

The next moment was surrounded by a thousand star beasts the moment it exploded.

With a beast roar, all the star beasts rushed towards Zhao Zhong frantically!

Seeing this scene, Zhao Ling frowned slightly!

Instantly, the supernatural power of flame exploded on his body!

Endless scorching energy rushed out of Zhao Ling's body in an instant...

The next moment, the starry sky shadow beast that broke into the range of several kilometers around Zhao Ling was instantly enveloped in flames!

The starry sky shadow beast family can be said to be a kind of star beast with relatively strong concealment ability in this universe!

However, they are as bright as lights in the dark night to Shang Zhao Ling, a powerful man with terrifying spiritual power!

In just a few seconds, a thousand starry sky shadow beasts were burned into dust in the starry sky!

"Contestant Zhao Ling, successfully passed the 100th floor! Please pay attention when you are about to enter the 100th floor!"

This loud sound resounded in the sky again!

Everyone in the entire universe who was watching the progress of this competition cheered.

Even those emperors who were hiding in the void and watching this competition all changed their expressions drastically!

"This Zhao Ling's actual combat ability is so terrifying!"

"And I feel like he can break through at least ten more floors!"

"I absolutely, I just don't know where his end will be.

"By the way, which universe empire does this Zhao Ling come from?"

The excited comments of the emperors made the eyes of Emperor Long Xiao in the crowd flicker slightly!

"No, Zhao Ling must be allowed to enter Tianyan Shenshan in the name of my Dragon Roar Empire, and I will be envious of these old things by then!"

Thinking of this, he hastily sent a message to the king of the universe king!

Give him the last few days, if you haven't found the location you are looking for before the opening of Tianyan Shenshan, then there is no need to do it!

This news spread to the prison king who was still proud of 2.0 and other kings bragging that Zhao Ling was the one who jailed the universe kingdom!

The next moment, his face turned into a liver color!

"How many days? How is it possible to find Zhao Ling in a few days!!"

The king of dry prison hastily withdrew from the virtual universe!

In a supreme temple! The king of dry prison opened his eyes instantly!

"Pass down the order! Use all the resources of the entire Dry Prison Kingdom, that is, turn over the entire Dry Prison Kingdom, and ask Zhao Ling to find it for me!!"

A divine voice came out of his mouth!

The terrifying strength of the World Master level directly transmitted this oracle to all corners of the entire large galaxy!

The next moment Countless fleets passed through space wormholes and disappeared into the universe starry sky.

However, at this time, thousands of people on the spaceship that Zhao Ling was on had already exited the virtual universe.

"My god, is Zhao Ling so awesome!?!".

Fantasy I Pick Up Attributes In The Future

Chapter 136: One Hundred And Ninety Floors! ! (4/5)

Rao is because these Venerables and emperors have the heart, after seeing the horror of the virtual universe, they all have a precise understanding of the insignificance of the human race!

However, the more they realize the vastness of the Universe, the more they realize how terrifying Zhao Ling is now!

"No one can spread this matter in the virtual universe!

Zhao Ling's safety is the top priority of my galaxy, if Zhao Ling's safety is not guaranteed.

My human race has no hope of rising in the future!"

Leader Martial Dao's solemn words made the people around him nod solemnly.

As long as Zhao Ling doesn't die, the Galactic Terran will be great in the future!

At the same time, a pair of fleets exuding a terrifying aura also flew towards the Milky Way!

The second race is still on!

After ten hours of competition, tens of thousands of experts have already reached the eightieth floor of the Tianyan Divine Tower!

Besides Zhao Ling, the most powerful Talent has now reached the ninety-eighth floor!

His opponents at this level are two hundred and fifty-six experts who are one level stronger than him.

However, he had rested on the upper floor for nearly an hour after the battle on the previous floor.

For the next level, he is not sure!!

27 "Phew! I don't believe it, my current rank is not number one!!"

Tian Ni said with a look of disdain!

He is Tianyu's cousin, and his strength is at the pinnacle of the Body Tempering realm!

For the difficulty of breaking through the Tianyan God Tower, no one knows better than him!

Ninety-seven floors! This floor is like a moat, not to mention this year, even if it is the sum of previous years, not many people can break through to this floor.

It can be said that if there is no Zhao Ling for him now, there is absolutely no suspense about being number one.

Of course it was him, all because his strength was only in the Body Tempering realm, and he was not yet an eight star.

In addition, he is from the Tianyan royal family, so with his current strength, he can defeat so many experts who are nearly a Realm higher than him!

These powerhouses are not only bloodlines but also eight stars.

At the same time, if it is above the fifty-ninth floor, even the Body Tempering realm will have to deal with a thousand opponents after reaching the fifty-ninth floor!

In the original Body Tempering realm, it is very easy to fight against enemies even if it is a larger Realm.

However, because of the low strength, there are not many means when fighting in a sea of people!

You must know that for domain master-level powerhouses, there is not much difference between dealing with a domain master First Stage powerhouse and a thousand opponents!

So to reach the ninety-seventh floor, it is already the limit against Yi Tianni!

But it's a pity that he doesn't know the ranking now.

Otherwise, it would be impossible for him to say such simple words!

At this time, the three hundred and ninth floor!

"DL!!!!!!"

After a loud noise that shook the heavens and the earth, several thousand-meter-high terrifying monsters besieged a young man on a khaki planet!

However, even though it is a siege in name, take a closer look but Zhao Ling is playing with them!

"A thousand star beasts from the sixth stage of the starry sky, if all of them are living bodies, they can all be domesticated!"

Zhao Ling thought of this and punched out, colliding with a giant ape-like beast!

"!!!!!!"

With a loud noise, the gigantic ape thousands of meters high exploded like a watermelon falling on the ground!

The next moment Zhao Ling waved his right hand, and tens of thousands of Flying Daggers appeared in the sky instantly!

The Flying Daggers quickly revolved around Zhao Ling in the surrounding space.

A terrifying flying Dao Long whirlwind appeared on the ground!

As long as these giant beasts approached Zhao Ling, they would be dismembered instantly.

At the same time, countless attribute points fell from the sky!

There are also star-level treasure chests mixed in!

"Ding... The host picked up the attribute: Qi and blood 75000 points, increase the value of Qi and blood: 75000"

"Ding... The host picked up attributes: strength 80,000 points, boost value: 30,000"

"Ding... The host picked up the attribute: soul 8800 points, increase the soul value: 8800"

"Ding... The host picked up the attribute: speed 4000 points, increase speed value: 4000"

"Ding... Congratulations to the host for picking up the starry sky treasure chest*1"

These star beasts are not fake, but projections of real star beasts!

So they can actually drop attributes like normal people!

One must know that Zhao Ling has played a custom group arena before.

It's a pity that although those virtual people are not weak in battle, they still can't drop attribute points in the end!

"Virtual Universe, it feels more and more mysterious!!"

Zhao Ling's eyes flickered slightly.

Immediately, the terrifying flying Dao Long tornado instantly spread to a range of hundreds of kilometers.

In just a few seconds, hundreds of starry sky-level behemoths have all turned into light spots all over the sky!

"Congratulations to Zhao Ling for successfully passing the one hundred and ninetieth floor!"

However, what is interesting is that now Zhao Ling has been promoted to Grandmaster Seventh Stage!

Therefore, one of the opponents on the 190th floor was Starry Sky Fourth Stage, but as Zhao Ling's strength improved.

The opponent's Realm is also improving.

"The assessment of the one hundred and ninety-first floor is about to begin, players please pay attention!"

However, just when Zhao Ling passed the one hundred and ninetieth floor, those immortal powerhouses who could see the details of the game after the endless void suddenly boiled over!

"One hundred and ninety floors have passed, a new record, how is this possible!"

"Zhao Ling hasn't entered Tianyan Shenshan yet, he can pass the one hundred and ninetieth floor now, and I see him looking relaxed!"

"It's not easy, it's fun!!!"

The immortal-level powerhouses looked at the video of Zhao Ling's breakthrough in horror [They felt that Zhao Ling was fully capable of solving the battle quickly, but in the end Zhao Ling still took a long time to end it.

It seems as if they want to abuse these star beasts!

Of course, no one cares about this little thing 720.

After all, star beasts and humans have always been enemies, especially those who are at the top of the human race have a clear understanding!

If it is possible for the human race and the star beast to erase each other, they will definitely not let each other go!

After all, the resources of a universe are limited.

At this time, Tian Xiao, who was the leader, looked at Zhao Ling and frowned!

In Zhao Ling's current battle, it can be said that he has hardly used his full strength.

But the current Zhao Ling is just a Grandmaster, a Grandmaster can kill a thousand starry sky sixth-level superpowers without using all his strength!

The difference is tens of thousands of times!

Such a terrifying difference in strength is no longer explained only by Talent's strong power!

"What kind of bloodline is this Zhao Ling? I actually feel a slight sense of oppression from his body!"

You know, the bloodline of the Tianyan royal family has reached the terrifying eight stars!

Not only is the physical strength much stronger than that of the same rank.

Even Talent is quite powerful.

However, the current Zhao Ling gave him a sense of oppression from above his bloodline.

This is kind of scary!

"However, one thing is for sure, the present Zhao Ling, if you give him enough room for development, then his achievements in the future will definitely not be inferior to mine!"

Thinking of this, Tian Xiao raised the corners of his mouth slightly!

Countless years, maybe you can accept a disciple for fun.

However, at this moment, an aura covering the entire world came from the endless void!.

Fantasy I Pick Up Attributes In The Future

Hundreds of millions of Immortal-level powerhouses all changed their expressions drastically!

I saw in this void, a phantom that traversed the sky and the earth appeared in the sky!

"God Emperor Tianyan!!!"

An exclamation burst out from the mouth of an emperor.

The next moment, these emperors bowed respectfully towards that phantom!

"Father! Why should you be so important when you come here at this time?"

After a faint sigh, Generalissimo Tian Xiao looked towards the sky, but there was no respect in his eyes at all.

"This talent is not bad. The Universe Ten Thousand Races War is coming soon. I will give you a thousand years to train him to become an immortal! Then participate in the Universe Ten Thousand Races Contest!"

God Emperor Tianyan directly ignored the hundreds of millions of emperors, but said directly to Tian Xiao in a cold voice!

None of the surrounding emperors dared to speak!

Everyone in the top management of Tianyan Divine Kingdom knows about the situation of the two fathers and sons!

Because General Tian Xiao's mother never came back after going out with God Emperor Tianyan countless years ago!

However, God Emperor Tianyan ignored his mother's death at all, and never mentioned the beginning and end of the matter.

Therefore, until General Tian Xiao had become the most powerful person in the Tianyan Divine Kingdom besides the Tianyan God Emperor, he still treated his father indifferently!

Of course, it is still better to face each other in front of people, just like now.

"It depends on whether he is willing or not. If he is not willing, I will not force him!!"

However, General Tian Xiao's words left the surrounding emperors slightly speechless!

The other god emperors of the human race would probably not reject God Emperor Tianyan so directly.

Of course, it didn't mean that General Tian Xiao would only be so crazy in Tianyan Divine Kingdom, on the contrary, he was even more rude to the god emperors outside.

It's just that for some unknown reason, those god emperors generally ignored General Tian Xiao's rudeness.

God Emperor Tianyan glanced deeply at General Tianxiao.

The quiet air made those emperors feel suffocated for a while.

"it depends on you!!!"

After God Emperor Tianyan finished speaking, the phantom in the sky slowly disappeared into nothingness.

However, the appearance of God Emperor Tianyan, if spread, will definitely cause turmoil in the entire universe!

You must know that superpowers who have reached the level of a god emperor belong to the existence of myths in the entire universe.

Only once every time unless it is extremely important!

The rest of the time seems to be Closed Door Training.

And such things as the Tianyan strongman battle, it seems that it is not a major event.

It's like a country's small solar terms such as the winter solstice.

It's not the turn of the head of state to come out and make a special speech!

However, this time, he appeared.

Not only that, but he specially asked General Tian Xiao to train Zhao Ling.

If they hadn't seen this kind of thing with their own eyes, they would never believe it!

We must know that no matter how talented Zhao Ling is, he is just a little Grandmaster now.

Genius, if you want to call it a growth, you need to reach the level of immortality at least!

After seeing the disappearance of God Emperor Tianyan, General Tian Xiao glanced indifferently at the place where the other party disappeared!

However, within a period of time when God Emperor Tianyan appeared and spoke.

Zhao Ling has reached the 221st floor!

However, now Zhao Ling's Realm has reached the peak level of Grandmaster.

Before the breakthrough, Zhao Ling knew that if he would improve his own very quickly after the breakthrough!

As expected, Zhao Ling is in this situation now!

But when it reached the 221st level, Zhao Ling had already defeated a thousand experts from the Second Stage of the Star Sea Territory.

"Congratulations to player Zhao Ling for breaking through the 220th floor, and is about to enter the 221st floor, please get ready~!"

With a notification sound The next moment in the sky, the picture in front of Zhao Ling changed instantly!

Zhao Ling appeared in a starry sky, and in front of Zhao Ling was a dazzling huge Star!

It is the first time to see this huge Star Zhao Ling so close!

However, Zhao Ling seemed to feel a trace of powerful life energy from this Star.

"Roar!!!!!"

Suddenly, a deep voice came from the starry sky.

Zhao Ling found that the huge Star in front of him began to surge.

"Damn it, it can't be that Life is above Star!!"

Zhao Ling frowned slightly as he watched the flame power surging above the planet.

"Roar!!!!!"

Another loud roar came from above the Star.

The next moment Zhao Ling found a huge star beast exuding a terrifying aura roaring and rushing out of the front of Star, rushing towards Zhao Ling.

The star beast exuding terrifying flames is like a fire Qilin.

This is the famous Star Flame Beast in the starry sky!

This kind of star beast Life is among the stars, and it is born to comprehend the element of fire.

Talent's powerful comprehension is the element of fire, one of the rare elements.

But his figure is as high as tens of thousands of meters!

If it is placed on the earth, it can break through the sky.

A senior year in high school is like a stone on the side of the road in front of him.

"Hey!! Humans, it's you again!!!"

The huge star beast roared at Zhao Ling!

The hot breath emanating from the whole body seemed to melt everything.

Apparently he has not realized that he has been dragged into the virtual universe!

The next moment, with a furious roar, the Star Salamon rushed towards Zhao Ling furiously, and the next moment slapped it down with its paw.

The flame element emerging from the hand directly incinerated the tiny meteorites flying around!

Zhao Ling's eyes were slightly serious.

Immediately, a blood-red spear appeared in his right hand!

This is Zhao Ling's first time using a weapon!

"Yin & Yang Crazy Dragon Marksmanship!!!"

Following Zhao Ling's low shout, the power that the next moment Zhao Ling erupted directly soared dozens of times!

At the next moment, a terrifying dragon in black and white threw down a bite of the palm that the Star Flame Beast had taken.

At the same time, the terrifying gun light instantly penetrated the opponent's palm!

"Damn it's humans! Call of Fireland!!!"

The Star flame beast roared angrily, The next moment,

A Realm of Flame erupted directly from his body!

Sensing the strange fluctuations around him, Zhao Ling found that except for the element of fire that was still active, the other elements of heaven and earth had disappeared!

Even if the element of fire is mobilized by itself, it becomes extremely difficult!

Fortunately, before that, Zhao Ling had bombarded and killed countless Star Sea Realm powerhouses, and just a Flame Realm couldn't affect Zhao Ling.

All of a sudden, the long spears above Zhao Ling's hands slammed out.

The blood-smelling long spear instantly hit the Star flame beast's chest with terrifying force.

"!!!!!!"

"Roar!!!"

With a huge roar, the Star flame beast screamed and flew backwards.

However, Zhao Ling's attack is not over yet.

"drink!!!!!"

With a sharp shout, the surrounding Flame Realm was instantly shattered by the terrifying Five Elements power in the starry sky.

At the next moment, the endless power of Five Elements surged towards Zhao Xiang's spear crazily!

Zhao Ling's blood-red Blood Devil gun exploded with terrifying aura!

"Five Elements fall and shoot!!!"

The Star Flame Beast that was flying backwards suddenly heard a sharp shout, and a strong Death breath enveloped him.

It raised its head quickly, but the scene that caught his eyes made him despair instantly!.

Fantasy I Pick Up Attributes In The Future

I saw a terrifying spear piercing through the sky and the earth in an instant across the starry sky, and nailed his eyebrow squarely!

"boom!!!!"

With an earth-shattering loud noise, the entire Star flame beast instantly exploded into endless flame elements like an exploding Star.

However, just after Zhao Ling picked up an attribute value above the ground, he discovered the system's notification sound.

"Ding... Congratulations to the host Zhao Ling for picking up the attribute: Strength: 300,000! The host Realm has reached the Grandmaster limit!"

If you want to improve again, you need to condense the power of supernatural powers into the power of elements.

Breakthrough to the Astral Realm. "

Ding...Because the host Realm has reached the peak of Grandmaster, the system will start to extract the elemental power of creatures, and any creature will have a certain chance to drop elemental power!"

A series of system prompts made Zhao Ling a little confused!

"Although I have the power of supernatural powers and a trace of the power of the law of destruction, it seems that I don't have the power of elements yet!"

Zhao Ling was a little curious.

What kind of bonus will the power of the elements have on own strength.

"No, the power of elements can only be comprehended by those who have advanced to the starry sky? I am only in the Starlight Realm now!"

Zhao Ling asked the system suspiciously, this is a big question!

Ding.....The host of the system must be different!?"

However, the answer given by the system is far-fetched!

But Zhao Ling doesn't care, although he doesn't know much about the power of element 057.

But didn't the system just say that there is a chance to fall from someone else's body.

"The power of the elements, I don't know how strong the bonus to strength is!"

Zhao Ling's eyes flashed slightly, as for the power of the law of destruction, Zhao Ling has never used it until now.

It's not that he doesn't want to use it, but he checked it.

The power of the law of destruction belongs to the law in the legend.

The entire universe doesn't know how many years it will take to have one.

Or as an absolute hole card as well!

"Congratulations to Zhao Ling for passing the 221st floor, next, enter the second floor!!"

In the sky, the sound of prompting also sounded.

The picture in front of Zhao Ling flashed again!

This time Zhao Ling came to the endless desert!

However, in this desert, Zhao Ling felt two powerful auras dormant in the ground!

When Zhao Ling appeared, these two powerful auras seemed to have shocked Zhao Ling ten times!

"Boom, boom.....

Following the violent roar, Zhao Ling felt that two terrifying auras in the earth were about to erupt.

Zhao Ling's right hand tightened slightly!

"Yin & Yang Crazy Dragon Gun!!!!"

The next moment drank with a low (chfd).

Zhao Ling threw out his right hand suddenly, heading towards the earth!

"boom!!!!!"

After a roar that shook the world, a huge pit with a diameter of several thousand meters was blasted out by Zhao Ling.

And a huge lizard in the deep pit was blown in the head by Zhao Ling!

"Hiss..."

Suddenly, with the sound of a snake, Ri Zhi rushed out of the ground with a big mouth and bit towards Zhao Yi.

Just when the opponent was about to engulf Zhao Ling, Zhao Ling's whole body instantly turned into a terrifying fireball.

The terrifying heat from the fireball directly ignited the python entirely.

The next moment With the rapid spread of the flames, the giant python will soon only have a skeleton left!

After the skeleton slowly fell to the ground, it instantly turned into dust all over the sky.

However, at this moment, the day school spar fell from the sky.

Originally, Zhao Ling thought it was something from the giant python!

However, after seeing the earth character Zhao Ling written on the spar, I understood it.

"So it's the element of earth?"

When Zhao Ling thought of this, he immediately received this spar into his own body as soon as he moved his mind.

"Ding... Congratulations to the host for picking up the power of the element: earth!"

"Ding... the current concentration of the power of the earth element is: 100%"

With a system prompt, Zhao Ling was a little confused!

What does this 100% concentration mean!?

The curious Zhao Ling asked the system directly.

Ding... The power of elements, when the Starlight Realm is just condensed, the concentration is only 1%. If you are at the peak of the Starlight Realm, if you want to break through to the Starry Sky Realm, you need to increase your element concentration to more than 10%. In this way, you will be able to reach the Tenth Stage!

If you want to reach the Second Stage, increase the concentration of ㊦ to 20%, and so on. When the concentration of elemental power reaches 100%, it can be used to set up a Realm, and eventually become a powerful Star Sea Realm powerhouse!

However, a very talented person can break through a 100% limit!

As for the upper limit, a Talent with the host's holy bloodline can increase the concentration of elemental power to a maximum of 100 times that of ordinary people. "

The system's explanation made Zhao Ling nod slightly, and he probably understood the meaning of the system.

However, if he had a choice, he wouldn't suffer like a fool to increase the power of his own element to a hundred times.

Unless you can increase your elemental power while improving your strength!

"Ding... Congratulations to the host for successfully condensing the power of the elements! The host can now upgrade to Starlight Realm at any time!"

And at this moment, the system's notification sound also reached Zhao Ling's mind!

"No, I'll pass this assessment first!!"

Zhao Ling shook his head, and then went on to break through the level!

On the 223rd floor, the strong guardians have become four star beasts with the same strength as the previous giant python and earth lizard.

The only difference is that the power of the Realm possessed by these four star beasts is of the water system!

When he saw the four star beasts, Zhao Ling pointed out, and a burst of elemental power instantly burst out from Zhao Ling's fingertips!

And with the addition of Zhao Ling's dark gold dragon armor, it stands to reason that with 100% elemental power, its strength is at most equivalent to a blow from a starry sky realm powerhouse.

However, this strike directly turned the four star beasts into quicksand.

At the same time, Zhao Ling pointed out a huge desert in the surrounding ocean.

This feeling of turning a stone into gold makes Zhao Ling feel pretty good.

But what Zhao Ling cares about is that there are still two blue crystals in the desert that he pointed out!

With a thought, Zhao Ling grabbed the two crystals in an instant!

"Ding... Congratulations to the host for picking up the power of the element: water!"

"Ding...Currently the concentration of water element power has reached: 200%"

Following the system's two prompts, another azure blue crystal appeared in Zhao Ling's sea of consciousness, but the brightness of this crystal was twice as bright as the earth element crystal suspended beside it!

At the same time, Zhao Ling also felt that his control over the surrounding water elements became stronger.

In fact, why is it easier to become a star realm powerhouse if a person with supernatural powers reaches the peak of the starlight realm.

The reason is that the power user is in contact with the power of the surrounding elements the moment he awakens from the power!

Therefore, Innate is familiar with this element a lot.

The power of elements is actually the evolution of the power of supernatural powers!

What the power of abilities can do is similar to what the power of elements can do, but the consumption is much higher.

And it's much less powerful.

After feeling this, Zhao Ling just smiled helplessly.

This ability is definitely a novelty for a pure Practitioner.

But for a supernatural person, it only improved his strength.

"It's about time to see how many floors I can get to!".

Fantasy I Pick Up Attributes In The Future

Chapter 139: Concentration Of Elemental Strength! (2/5)

When Zhao Ling said this, there was a gleam of light in his eyes!

The next moment Zhao Ling went directly to the next floor.

At the same time, a pair of armor appeared on Zhao Ling's body instantly!

The terrifying aura revealed by this pair of dark golden armor instantly changed the expressions of the immortal-level powerhouses watching Zhao Ling's breakthrough in the void!

"Guardian spirit! Is this the legendary guardian spirit?"

"How is it possible? A guardian spirit that has never appeared in our human race!!"

"And I think the guardian spirit's strokes are not low!"

"Well, Zhao Ling's aura instantly increased a lot, it's really not low!"

Hundreds of millions of emperors are watching Zhao Ling's current game in awe!

However, Long Xiaodi-Jun, who already knew that Zhao Ling had a guardian spirit among the crowd, just smiled disdainfully!

"Zhao Ling's strength is far more than that!! Once he uses the giant power, you will know why I chased and killed the territory of the Star Beast Clan!"

Emperor Long Xiao couldn't help but sigh again when he thought of the bloody death situation!

You must know that although the original blood network is far inferior to Zhao Ling.

But if his giant transformation ability is activated to the peak, he will definitely blow up the strongest of this year's world master level!

Unexpectedly, a super strong player who had the hope of becoming the number one in the Tianyan strongman battle would die like this.

If he was still alive, together with Zhao Ling, the two would definitely become the strongest of the younger generation of the entire human race.

I don't know why he thinks that way.

But Zhao Ling in the Tianyan Divine Tower smashed his opponent to pieces with a single punch the moment he appeared!

Hundreds of millions of emperors couldn't help admiring the terrifying power that erupted from that punch!

"Zhao Ling's punch definitely has the strength above the Star Ocean Sixth Stage!"

"That is to say, if Zhao Ling doesn't stop breaking through, he can break through to the Star Sea Realm above the Sixth Stage!?"

"Sigh, the guardian spirits are extremely mysterious in the legends handed down from ancient times.

Now that it really appears, I realize how terrifying it is, and I really don't know how much Zhao Ling's strength can reach if he grows to the level of immortality!"

The only theme of the conversation between the emperors was that the reason why Zhao Ling is so awesome is because of the guardian spirit.

You must know that the guardian spirit is among the current human race, and only the adult in the legendary guardian temple of the human race has it.

The horror of that lord is said to be that all the Lords of the Kingdom of God combined are no match for the opponent.

And whether Zhao Ling can become the adult of The next moment!

"Zhao Ling, Zhao Ling, I really can't see through you more and more!"

General Tian Xiao also had a slight look in his eyes.

And the breakthrough of Tianyan Pagoda is still going on slowly!

Soon more than a day passed!

Nearly two days have passed since the second round of the Tianyan Powerhouse Competition.

It's the last day after the last three-day late stage!

And apart from Zhao Ling, the number one player, there are only more than 50,000 players who have successfully entered the eighty-first floor!

And the 50,000 can be said to have reached saturation!

You know, there are a total of 100,000 finalists of all levels in previous years!

However, this year there were only a rare 50,000 people.

But regarding this result, General Tian Xiao, who was the planner, breathed a sigh of relief!

"I didn't expect Talent to be so strong this year. I don't know if it's good or bad! According to my estimate, only about 10,000 people can reach the standard at most!"

General Tian Xiao's words made the reinforcements around him speechless!

This time, 50,000 talented teenagers were cut off from the back road near Tianyan Shenshan. Thinking about it, it was really cruel.

But also can not blame others.

If you are not strong enough, you can only say that you are not good enough. The way has been given to you, but you are not good enough.

No one can refute this.

However, on this day, Zhao Ling has already reached the 260th floor!

After Zhao Ling reached the 250th floor, his speed slowed down sharply.

Because the current Zhao Ling uses marksmanship and the dark gold dragon armor to burst out the strength that is at most only the strength of the Sixth Stage of the Star Sea Realm!

You must know that although Zhao Ling's strength reached the Star Sea Realm First Stage's strength when he first entered the Grandmaster realm.

But Zhao Ling Grandmaster, every time the first-level is improved, the strength increased is only 100 million kilograms!

But if you don't upgrade the First Stage in Star Sea Realm, your strength will be doubled!

Even if Zhao Ling Realm is promoted to Grandmaster, if Zhao Ling does not comprehend the power of the elements, the combat power is only weak between the Third Stage and the Fourth Stage of the Star Sea Realm.

However, even without using the gigantic ability, more than 200 Sixth Stages on the 259th floor can be killed.

This is the improvement brought to him by the power of the elements.

After all, for him now, the power of the most powerful wind element has reached 2500% concentration after killing a thousand wind star beasts on the 250th floor!

With this strength, it can be said that just relying on the combat power of the element of wind itself, it can kill a strong man of the fourth stage of Star Sea Realm at will!

..... ask for flowers)-

Coupled with Zhao Ling's own strength.

It is not difficult to kill the Sixth Stage of Star Sea Realm!

The emperors who originally thought that Zhao Ling's ultimate combat power was only in the Sixth Stage of the Star Sea Territory were amazed!

But no one felt slapped in the face.

Because the face was swollen from the beating as early as the previous guess.

"Congratulations to player Zhao Ling for reaching the 260th floor! The opponent is about to come, wait!!"

With the sound in the sky, Zhao Ling came to a dark space in an instant!

However, in this space, Zhao Ling couldn't feel any aura!

Even Divine Sense cannot be used!

So Zhao Ling is like being blinded!

But the special feeling that Zhao Ling has saved him several times all the time made him realize that there is a breath of Death around him!

O

"This is the Shadow Realm!!"

Instantly Zhao Ling guessed what was going on!

The power of the shadow element is one of the special elements.

Those who understand this element are born killers.

As long as it is targeted by the owner of the shadow element, there are only two things that own can do.

One is to be killed, and the other is to kill the opponent unexpectedly without being able to see or sense, and at the same time being restricted by all the power of the elements.

However, as long as the difference in strength is not too great, it is almost always the first case.

What's more, what Zhao Ling met now was a superpower who had condensed the shadow elements into a shadow realm.

The number is still a thousand!

"Hey! Want to kill me?! Feeling a little tender!"

Zhao Ling's eyes flashed!

Then a cold smile appeared on the corner of his mouth!

At the next moment, countless Flying Daggers with sharp wind blades flew out of Zhao Ling's hands instantly.

"Puff puff puff..."

The next moment Countless crushing sounds came.

And the power of the surrounding shadow elements is rapidly fading as time goes by!

Zhao Ling knew that the owners of these shadow elements were already dying at a rapid rate.

But what Zhao Ling cares about is not this, but the power of the shadow elements that these people exploded!

Zhao Ling's consciousness directly emerged within a range of hundreds of kilometers around.

Finally found black crystals one by one in the endless darkness, Zhao Ling's thoughts exploded in an instant, and collected all the crystals.

"Ding... Congratulations to the host for picking up Elemental Power: Shadow! Three!".

Fantasy I Pick Up Attributes In The Future

Chapter 140: Giant Transformation! Scary Talent! ! (3/5)

One after another, shadow element spars flew towards Zhao Ling.

At the same time, Zhao Ling's comprehension of shadow elements is getting stronger and stronger!

The surrounding space, which was originally extremely dark to Zhao Ling, slowly became clear.

But after all, the opponent is a superpower who has condensed the Shadow Realm, so Zhao Ling's current strength can only allow him to capture a trace of light and shadow!

However, that's enough!

Zhao Ling's eyes froze.

Instantly locked onto a shadow that was dodging Zhao Ling Flying Daggers.

In an instant, a Flying Daggers quietly appeared in front of the opponent's forehead,

The next moment, the other party turned into light spots all over the sky!

After killing one, Zhao Ling didn't stop.

Locked on a shadow again, The next moment, another burst of light on the sky!

With each swing of Zhao Ling's knife, the shadows turned into spots of light.

As time goes by "Zero Four Zero", these light spots disappear faster and faster.

They finally found out that Zhao Ling could capture them!

However, it was too late.

Originally, a thousand people couldn't kill Zhao Ling.

Now there are only a few hundred, against Zhao Ling only one dies!

The next moment exploded with Zhao Ling Flying Daggers.

The powerhouses of these comprehended Shadow Realm died tragically under Zhao Ling's hands one by one.

Finally, these shadow powerhouses began to counterattack towards Zhao Ling crazily.

All the powerhouses exploded immediately after they came near Zhao Ling.

They seem to know what state they are in, so they have no fear!

Their only purpose is to kill Zhao Ling!

However, no matter how powerful their trials are, even though their numbers are hundreds of times more than Zhao Ling, after facing Zhao Ling, there seems to be only one result for them! That is death!

The endless earth elements around Zhao Ling erupted into a desert fortress hundreds of meters thick, completely enveloping his surroundings!

"Boom boom boom boom!!!!"

The next moment A huge roar appeared in the starry sky!

Although the element of earth that wrapped Zhao Ling was instantly bombed out of huge potholes.

But these potholes are being repaired rapidly!

However, the Flying Daggers that Zhao Ling erupted mercilessly instantly killed those who hadn't self-destructed.

finally.

When Zhao Ling killed the last shadow, the loud voice in the sky came out again!

"Congratulations to player Zhao Ling for successfully passing the 260th floor! Please note that you only have 24 hours to pass the level, after 24 hours you will be teleported out of the Tianyan Tower

Zhao Ling frowned slightly at the notification sound!

It can be said that when he breaks through this level, he has used most of his strength except for the power of giantization and the law of destruction!

If you are going on, you can only use canalization!

"The current juhua can increase the combat power by forty times. If it explodes completely, it can reach a hundred times, but I can only use one move. If I break through to the three hundredth floor, the opponent will be a thousand people at the peak of the Star Sea Realm. !

Can you increase your strength by a hundred times and kill a thousand Star Sea Realm peaks with one move?!"

Thinking of this, Zhao Ling feels like he's screwed up!!

However, it means that the big hole card of own may be exposed to the high-level people of the human race.

"However, I seem to have exposed it long ago. As long as the power of the law of destruction is not exposed, there is no problem!!"

Thinking of this, Zhao Ling's thoughts instantly sank into his sea of consciousness.

Then he instantly found the light ball with giant transformation ability in his sea of consciousness!

Although this sphere of light looks not much different from other spheres of light, upon careful inspection, Zhao Ling found that this sphere of light is not like those supernatural spheres of light!

He is a bit like the material of the element spar!

No, it should be said that it was his appearance before or the appearance of the supernatural light ball.

But with the growth of time, now he has grown into an elemental force!!"

Thinking of this, Zhao Ling's eyes flashed slightly.

That is to say, as long as Zhao Ling's strength increases again in the future, his power of giant power will also increase accordingly.

At the late stage, it may become the power of the law of giant force!

After that, Zhao Ling is not sure.

But one thing is certain, Juli will definitely not gradually break away from Zhao Ling's pace just because Zhao Ling's strength becomes stronger.

"Giant!!!!"

Thinking of this, Zhao Ling let out a low drink.

The next moment, the whole person soars ten times in an instant!

He instantly reached a terrifying height of eighteen meters.

At the same time, the aura erupting from Zhao Ling's body instantly increased tenfold!

The surrounding starry sky trembled slightly under Zhao Ling's terrifying aura!

In the eyes of the group of emperors who fell into the endless void, they instantly walked a few steps forward in horror.

"This is the giantization of Talent! The giantization of Talent owned by that bloodline back then!?"

"Isn't it possible that all the owners of this Talent were killed by the Star Beasts? How could it be possible that it appeared again now!"

The change in Zhao Ling's appearance instantly changed the expressions of those emperors who knew the blood civilization

You must know that the blood network back then was not only active in the Long Xiao Empire...

At the same time, they are all well-known among the empires around the Longxiao Empire.

His fame was tens of thousands of years ago, he had the strength to enter the realm of domain masters for the first time, and he not only survived the pursuit of ten peak domain masters.

At the same time, five of them were killed.

In the end, he was defeated because of serious injuries.

That battle took place in another empire bordering the Longxiao Universe empire.

And the reputation of the bloody bloodline in the battle instantly spread to thousands of surrounding empires!

A hundred years later, when Xueluo came back again, he was already a powerful World Master rank powerhouse with terrifying strength!

Those who chased him back then and the forces behind them were all killed!

And he was also granted the Bloodline Galaxy, which is now the land of the Dry Prison Universe Kingdom, as a territory by Emperor Long Xiao!

It's a pity that the strong members of the Star Beast Clan knew of the existence of the Blood Network for some reason, and eventually destroyed the Blood Network and the Blood Network civilization!

Back then, the angry Emperor Long Xiao chased and killed the star beast immortality master directly from the territory of the human race to the territory of the star beast clan.

It also spread the reputation of Xueluo even further.

"It's actually the descendant of the blood! Unexpectedly, the kid that the father and king have mentioned, there is actually a descendant left behind.

However, what the surrounding emperors didn't know was that General Tian Xiao actually knew about the blood vessels.

At the same time, even God Emperor Tianyan knew about the existence of such a small blood channel 1.3!

"Contestant Zhao Ling is about to enter the 261st floor, please prepare!!"

With a beep, the environment around Zhao Ling changed again!

In a blink of an eye, Zhao Ling came to a continent full of light.

On this endless continent, Zhao Ling saw a huge cross towering into the sky.

The next moment Zhao Ling's eyes fixed on a man nailed to the cross for an instant.

"This can't be Jesus!!"

Zhao Zhao thought wickedly.

However, at the next moment, this Jesus-like man suddenly opened his eyes!

Shocked, Zhao Ling punched out instantly!!

"boom!!!!!"

With a loud noise that shook the sky and the earth, the man who cosplayed Jesus and his cross and half of the continent were instantly smashed into dust in the starry sky. .

Fantasy I Pick Up Attributes In The Future

Chapter 141: The Last Floor! Extreme Giantization! (4/5)

"Congratulations to player Zhao Ling for killing the opponent, next is the 262nd floor!"

Zhao Ling entered the next floor without waiting.

The next moment The picture in front of Zhao Ling instantly changed to another continent!

Two roaring dogs rushed out from the ground and bit Zhao Ling.

Zhao Ling is still punching out!

In an instant, this continent still disappeared!

Next, it's time for Zhao Ling's violent bombardment!

Although there are more and more opponents and more and more powerful ones, for the present Zhao Ling, it is still a matter of one punch!

It's just that in the back, Zhao Ling Blood Devil's gun became as huge as his body.

With each shot, as long as it is a planetary or continental celestial body, it cannot escape the fate of being smashed by a blow.

"Two hundred and sixty-seven... two hundred and seventy-one...

Two hundred and eighty-one... two hundred and eighty-nine...."

Every ten layers of Zhao Ling's increase will increase the bonus of Juhua again!

When Zhao Ling reached the 290th floor, Zhao Ling had increased his strength to forty times!

Reached the peak combat power of the normal form!

"Ang!!Ang!!!"

However, Zhao 27ling, the opponent at this level, is a little familiar!

That is a flood dragon hovering in the sky.

The wisdom of these flood dragons is extremely powerful, as if they know that Zhao Ling is not easy to mess with!

However, even if it is not easy to mess with, they still have to tear a piece of meat off Zhao Ling.

However, the imagery is wonderful!

As Zhao Ling grew to forty times the terrifying level.

These flood dragons panicked, and Zhao Ling simply ignored their feelings.

The Blood Devil gun in his hand instantly turned into a blood-red mad dragon, smashing a thousand dragons in the sky into pieces in just an instant All the Blood Qi in the next moment was absorbed into the body of the Blood Devil gun !

Unfortunately, although Zhao Ling can pick up attributes in the virtual universe, the Blood Devil gun cannot absorb any Blood Qi!

He moves like Zhao Ling eating in a virtual universe!

Although the taste is exactly the same as the outside world, you can only taste the taste and not fill your stomach.

Next, Zhao Ling, who was incarnated as a 72-meter titan, ascended all the way from the 291st floor to the 299th floor!

To be honest, although the strength has become stronger after juhua, Zhao Ling doesn't like juhua!

"It's kind of weird to grow so big!!"

But when he reached the 300th floor, he instantly put this thought behind him.

Because what appeared in front of him was the real titan!

A thousand Titans at the pinnacle of the Star Sea Realm!

Each of these titans has a height of several thousand meters, and Zhao Ling, who is more than 70 meters tall, is like a Thumbelina in front of them!

And these titans all exude a powerful aura!

He also wears standard armor. It's like being a soldier of a country!

"Hey, isn't this the Titan family under the jurisdiction of my empire? It was chosen!"

A strong man in the endless void was stunned when he watched Zhao Ling break into the last floor.

"The Titan family? Is that the race born with great powers?"

The surrounding emperors asked curiously.

Then the emperor slowly explained.

For the Taita family, the most terrifying thing is the flesh body.

Their only fighting skill is their terrifying strength.

The Taita family are Grandmasters from birth, and almost all of them are strong in the Star Sea Realm when they grow up!

Anyone with a little talent can become a universe class.

Of course, it is incomparable with the legendary race that is born into the starry sky and the sea of stars and grows up to be the domain master and world master level in the legend!

But there are also many strong people in the Titan family.

There are hundreds of world masters in the clan, and there is also an ancestor of immortality.

In charge of everything in the Kingdom of Titans.

However, meeting the Titans at this level, it can be said that Zhao Ling is really a bit cold this time!

"The ancestors of the Tianyan clan once handed down a saying! Anyone who can break through the 300th floor of the Tianyan Tower will bring about major changes to the entire universe!

"That's right, this rumor has been passed down from countless epochs. Countless opportunities have passed, and the highest record is still 180 floors countless years ago! There are more than 100 people!"

"Hahaha, me too. When I entered Tianyan Shenshan to practice, the highest level was still 175 levels. I didn't expect that after so many years, this level has only increased by five levels!"

The emperors looked at Zhao Ling facing the last thousand Titans, and they were both excited and worried!

Excitingly, they are all witnesses of this historical moment.

They knew that if Zhao Ling failed this time, even if countless epochs passed, it would be impossible for someone who could break through the three hundred floors to appear again!

However, it is that prophecy that is worrying.

Big change for Universe!

As long as there is change, even a powerhouse like them at the Nagai level will not have the slightest room for resistance!

Perhaps many will die in this change.

But what is certain is that as long as the transformation is successful, everyone in this universe will receive unexpected benefits.

If it is a prophecy left by some strong man, they generally don't care!

But the one who left this language is the ancestor of the Tianyan clan, Tianyan!

The Tianyan family is famous for the law of destiny. Although no one in the family has comprehended the law of destiny for countless epochs, the Weishu family's Weiyan technique is in awe of the entire universe.

Nine times out of ten this prophecy is true.

The leader, Tian Xiao, was still looking at Zhao Ling's breakthrough with his hands behind his back, but from his slightly clenched hands, he could tell that he was not in a calm mood right now.

"Huh? Why is there a doll here!!"

On Titan Star 050, those summoned Titans looked at Zhao Ling curiously!

Although Zhao Ling's figure is not as scary as theirs, it is about the same size as a baby of the Titan family.

"Which family gave birth to a dwarf, I'm ashamed to say it!"

"Hahahaha, it's possible!"

A group of terrifying Titan soldiers pointed at Zhao Ling and laughed.

Zhao Ling looked at the group of big fools with black lines all over his head.

The next moment Zhao Ling's right hand shook slightly, and a spear appeared in his hand instantly!

"Yin & Yang Crazy Dragon Shootout!!!"

Following Zhao Ling's low shout, a destructive gun light erupted from his hand in an instant, and this spear light instantly pierced the titans closest to Zhao Ling!

"boom!!!!!"

At the next moment, the gun light exploded, and several Titan soldiers were instantly bombed into countless fragments!

These fragments turned into light spots all over the sky in the next second.

"Hey! This kid is here to find trouble, kill him!!"

"If you dare to do something, you're looking for death!"

With roars, all the Titan soldiers rushed towards Zhao Fan with huge weapons in their hands!

Seeing this scene, Zhao Ling's eyes lit up instantly.

"Extreme Megamax!!!!"

With a low shout, Zhao Ling's body instantly turned into a 180-meter terrifying titan!

The next moment the Blood Devil gun in his hand also instantly became larger.

"Five Elements Destroy marksmanship!!!!".

Fantasy I Pick Up Attributes In The Future

Chapter 142: Nine Dragons Pull The Coffin! Xeon Sealing Technique! (5/5)

With an earth-shattering shout, the Blood Devil gun in Zhao Ling's hand surged with terrifying Blood Qi violently!

As Zhao Ling's right hand thrust out suddenly, a terrifying gun light piercing through the world instantly erupted.

This spear shot instantly approached the center of more than 900 Titan soldiers!

The next moment, the gun light exploded instantly.

Endless terrifying power instantly enveloped more than 900 Titan soldiers!

Feeling the terrifying power of 1, the face of the Titan soldiers changed drastically in an instant!

"run!!!"

The captain of the Titan team, who was even taller and taller, let out a roar, and the next moment hurriedly rushed towards the distance!

The other titans also wanted to run, but it was already too late!

"Boom, boom.....

With an earth-shattering bang.

The terrifying Titan star, which is tens of thousands of times larger than the earth, burst into a huge mushroom cloud in an instant!

Three quarters of the Titan star shattered in this instant!

At the same time, large swaths of light spots shot up from the place where the explosion happened.

Zhao Ling, who played this strike, has been drained of all his strength.

Zhao Ling flew directly into the universe starry sky to prevent being attacked by the undead titan.

However, with the blood of the holy rank, he directly mobilized the terrifying power between the heavens and the earth towards the beam of light in Own's body!

As time went by, Zhao Ling's aura became stronger and stronger.

"Damn it boy, I want you dead!!!"

However, at this moment, a roar came from above the earth!

I saw the captain of the Titan squad directly soaring into the sky,

And half of his current body has been shattered by the explosion just now.

There is also a huge ax in the other half of the body!

"Smashing Sky Slash!!!!"

With the roar of the Titan team leader.

The terrifying giant ax in his hand slashed out!

This terrifying slash rushed towards Zhao Ling like a crescent moon!

Feeling the terrifying power contained in the slash, Zhao Ling frowned slightly.

The next moment the spear in Zhao Ling's hand disappeared!

At the same time, countless seals in his hands are rapidly condensing!

At this time, his body has become normal.

If you want to perform giant transformation again, it will be impossible in a short time!

However, this does not mean that Zhao Ling has lost!

"If you still have a younger brother or are still in full bloom, I may only be able to use the law of destruction this time! However, you are not my opponent now! ㄗㄗ!"

Zhao Ling thought to himself.

At the same time, Zhao Lin's posture of forming seals with both hands stopped instantly.

The next moment, Zhao Ling shot it with one palm!

"Kowloon Sealing Technique!!!"

"??....."

After a sharp shout, following the roar of the nine dragons, the next moment the nine dragons dragged a huge coffin out of Zhao Ling's hands in an instant.

Each dragon is tens of thousands of meters long.

At the same time, they all exude a terrifying aura!

"?!!!!"

With an instant roar, Jiulong broke free from the animal pen above his neck.

The next moment roared and charged directly at Captain Titan.

And the giant ax slashing along the way was instantly shattered by the nine-headed dragon.

The next moment The nine-headed dragon rushed to the side of the captain of the Titan team, roaring and directly grabbed a part of the other party.

At the same time, terrifying seal power burst out from above the Kowloon.

"Damn it, what the hell is this!!"

The captain of the Titan squad looked in horror at the Shenlong who was tearing Own's broken body and pulling it towards the huge bronze coffin, roaring angrily.

However, no one responded to him!

Just as he was approaching the huge bronze coffin, a crack opened slowly in the huge bronze coffin.

At the same time, breaths of Death emanated from the crack.

"No, don't let me in!!"

As if seeing something terrifying, Captain Titan screamed in horror.

However, he who was sealed by the nine-headed dragon had no ability to resist at all.

Not far away, Zhao Ling frowned slightly as he looked at the huge bronze coffin he had summoned.

"This giant bronze coffin feels a bit wrong! System, what the hell is this Martial Skill you gave me?"

Zhao Ling frowned and said in doubt.

"Ding... The huge bronze coffin in the Nine Dragon Coffin summoned by the Nine Dragon Sealing Technique is the Minor World evolved by the ancient Heavenly Emperor. Of course, what the host summons is just a phantom, don't worry, and Although this sealing technique is only at the pinnacle of the starry sky, if the host becomes stronger, it is very easy to seal immortal-level powerhouses!"

The systematic explanation made Zhao Ling nod slightly.

If it's just a phantom, don't worry about it. Of course, although the power of this Martial Skill Zhao Ling seems to be quite terrifying after using it, it's better to use it less in the future.

"Boom boom!!!!"

After Captain Titan was completely sealed into the huge bronze coffin, the huge bronze coffin was slowly closed!

"?!!!!"

At the next moment, after the nine-headed dragon let out a roar, it pulled up the huge bronze coffin again, and flew into the formation that Zhao played again.

The formation also slowly disappeared into the starry sky at The next moment.

"Won!!!!"

Zhao Ling breathed a sigh of relief.

A thousand powerhouses at the peak of the Star Sea Realm are definitely not as good opponents as imagined.

And that Captain Taita has definitely reached a quasi-universe Realm!

If Zhao Ling hadn't summoned the Nine Dragon Seal Technique, he might not have been able to kill the opponent.

" "Om!!!!!!"

However, just when Zhao Ling broke through the 300th floor, which is the last floor of the Tianyan Tower, Zhao Ling instantly felt that he was enveloped by a strange wave.

And outside the virtual universe, beyond the infinitely distant starry sky where Zhao Ling is, there is a floating in a different space.

On the terrifying mountain that is several light-years high and tens of light-years wide, a sun tower standing on the mountain suddenly vibrated crazily at this time.

At the same time, bursts of light emanated from the divine tower, covering the entire Tianyan Divine Mountain!

However, no one noticed this scene!

Because all the powerhouses on Tianyan Shenshan have now gone to the virtual universe to see Zhao Ling breaking through.

After a slight flash of this divine light, it disappeared, and at the same time, the vibrating Divine Pagoda slowly returned to silence.

As if nothing had happened!

And Zhao Ling felt that after being swept by that strange wave, that (good) wave disappeared.

However, nothing unusual happened.

"I thought there was some special reward!"

Zhao Ling shook his head helplessly, The next moment, he picked up the attribute point treasure box and element crystals falling not far away.

"Ding... Congratulations to the host for picking up the power of the element: Juli"

"Ding... Congratulations to the host for picking up the Xinghai-level treasure chest*89"

Zhao Ling broke through 300 floors in total, got more than a thousand sky-level treasure chests, more than a thousand star-level treasure chests, and more than a thousand star-sea-level treasure chests!

These more than a thousand treasure chests are enough for Zhao Ling to replace most of the commonly used skills with Star Sea-level Martial Skill Cultivation Technique.

"Congratulations to player Zhao Ling for breaking through the Tianyan Divine Tower, the 300th floor, you have successfully passed all the Tianyan Divine Towers, now you can choose to exit the tower or go through it again."

The prompt sound in the sky also came.

If it was someone else, they would definitely not choose to go through the Tianyan Divine Tower once.

However, it is different for Zhao Ling. .

Fantasy I Pick Up Attributes In The Future

One Hundred And Fortieth Chapters: Break Again! Unattainable Talent! (1/5)

"The guardians of each floor of the Tianyan Divine Tower have comprehended the power of different elements, that is to say, as long as I break through, I can get more power of elements and increase my current concentration of power of elements ?"

Thinking of Zhao Ling here, his eyes flickered The next moment Zhao Ling directly chose to try again.

However, the outside world at this time is already boiling!

Zhao Ling actually broke through the 300th floor, and left the second place, the 9,000th floor, far away.

Tian Ni, who is on the ninety-eighth floor, has spent nearly a day on the ninety-eighth floor.

However, this time, he failed again!!

"Damn it, there are more than one hundred True Qi peaks on the ninety-eighth floor, why are they so terrifying!!"

Tianni snorted coldly!

He just killed more than a dozen and was killed by others.

In other words, now his strength is not an opponent at all!

You know, with his current strength, if he is fighting an ordinary Practitioner, even a Great Master First Stage, he can kill one or two!

However, the opponent in the Tianyan Tower is not an ordinary Practitioner.

Some of them have strong skills, some have strong bloodlines, and some have strong Cultivation Technique. Putting it all together, each of them has a Grandmaster who is not weaker than the comparison!

Therefore, no matter what kind of genius he is now, when he meets this kind of opponent, he is not against the people!

The Tianyan Tower is not as easy to break through as imagined!

"Forget it, with my current strength, I absolutely can't break through the ninety-eighth floor. It seems that if I want to break through the hundredth floor, I have to wait until I enter Tianyan Shenshan!!"

Tian Ni shook his head helplessly.

Immediately after this failure, he chose to continue to break through the level, but quit the Tianyan Divine Tower!

"Ninety-eight floors, I don't believe it, this time I'm not the third!!"

Tianni's Talent has almost surpassed his cousin Tianyu.

And as a member of the royal family, he knew that the Tianyan strongman battle was coming.

Therefore, he did not choose to breakthrough own Realm, but stayed in the Body Tempering realm for several years!

At the age of fifteen, he feels that his life has reached the pinnacle now!

The next moment, his eyes blurred, and he found himself on a huge square!

On this square stood rows of players.

Among them, there are powerful domain masters and world masters, as well as weak starry sky and star seas, and even Body Tempering True Qi Realm!

So many powerhouses are standing still and staring at the list in the sky in a daze!

"Terrible, actually broke into this floor!"

"Monster, this kid is definitely a monster. I have no strength to break through after reaching the seventieth floor. I didn't expect him to be able to break through to this level."

The horrified praises made Tian Ni, who came out of the big brother, feel like he was about to fly.

In his opinion, they must all be praising him!

"It's over, it's actually cleared, damn it, he really succeeded!"

"Zhao Ling is amazing, this time the battle of the strong Tianyan will definitely be recorded in the annals of history!!"

"Hahaha, I passed the assessment, maybe I can also be honored, and eventually passed down through the ages"

However, the style of painting soon changed.

An unremarkable name burst out from the mouths of countless people around at this moment.

"Zhao Ling? Who is Zhao Ling!?"

No matter how young Tian Ni is, this time he knows that they are not talking about him!

Then he quickly raised his head.

But it was discovered that the top 100 million powerhouse list should have been recorded, but this time there was only one huge name.

"Zhao Ling: 300 floors! Status: passed!"

This line of eye-catching characters instantly shattered Tian Ni's original inner pride!

"Three hundred floors? How is this possible? Can humans reach three hundred floors?"

You know, the Tianyan God Tower seems to break through a hundred floors, but it only needs to cross a big Realm to kill people!

After all, it is absolutely not difficult for the three levels of Body Tempering realm, True Qi realm, and Grandmaster realm to surpass a big stage.

However, this assessment is far from as simple as imagined.

The opponents of the first three levels in the Tianyan Divine Tower are definitely not ordinary opponents. The opponent's Talent, as well as some skills and bloodlines are almost equal to the players.

After reaching the star level, the gap between each First Stage is directly doubled!

So let alone a higher level, even half a Realm is extremely difficult.

However, Zhao Ling broke through the 300th floor! It means that the current Zhao Ling directly leapfrogged the three big Realms and bombarded the opponent!?

What kind of monster is this.

"Is this the Zhao Ling that my cousin told me not to provoke? I am Cao (chef)!!"

Tianni couldn't help taking a sip!

He didn't care about his cousin's words at first.

Now he finally understands why his father said that although his own Martial Dao is stronger than Tianyu, but he can't even match his cousin's little finger in the Insight of Tianyan.

"I've said it long ago, you need to change your temper!!"

And at this time [the voice of ten sunshines never came from behind.

Tian Ni was stunned when he heard this body!

The next moment he turned around quickly.

But it turns out that Own's cousin Tianyu is standing behind Own!

"Cousin? Why are you here?"

Tianyan was stunned, the fact that cousin own is here means he passed the first round?

But how is this possible!

"Tianyan Qianlong list, there is a restriction that you can't take Medicine Pill to increase your Cultivation Base, but there is no limit to Tianyan strongman battle! Because taking Medicine Pill, my potential has dropped a bit, and I can only enter the eighty-fourth floor!"

Tianyu said helplessly.

However, his words stunned Tian Ni for an instant.

He quickly checked his cousin's Tianyan Qianlong list, and sure enough, the original top ten have all been changed!

And the first one became Zhao Ling!

But Zhao Ling has dropped out of the top 100 million before!

In other words, the top billion players on the Tianyan Qianlong list all took Medicine Pill directly to increase their own Realm because of the Tianyan strongman battle.

"I'll go, there are such things!?"

Tian Ni felt a burst of egg pain.

Originally, I wanted to get the first place and then show off with my cousin.

Unexpectedly, now the number one is gone, and my cousin has also passed the Tianyan strongman battle!

"However, Zhao Ling's Talent is really beyond my reach! I don't know if I can survive a move if he fights with me!"

Thinking of this, Tian Ni sighed slightly!

In fact, not to mention him, the talent of the entire human race is the strongest. Under the premise of being one Realm with Zhao Ling, or even two Realms higher, it is hard to say whether he can survive Zhao Ling's ten moves.

"Hey! How did Zhao Ling's name reach the first floor again!!!"

"Yeah, back to the first floor again! What's going on? Does Zhao Ling want to come again?"

"I feel like it should be!!"

However, at this moment, the two brothers were awakened by a sound of exclamation.

The two looked up.

But I discovered that the 300th floor behind Zhao Ling's name in the sky has directly become the 1st floor!

However, the next moment, Zhao Ling's layers began to increase crazily.

Almost every second, Zhao Ling's layer will be increased by one layer!

Such a terrifying speed is completely different from the slow increase before!

In just two or three minutes, Zhao Ling reached the 150th floor.

However, the speed of Zhao Ling's breakthrough has not slowed down in the slightest!

At the same time, Zhao Ling in the Tianyan Divine Pagoda started collecting a kind of elemental power frantically. .

Fantasy I Pick Up Attributes In The Future

Chapter 144: The Power Of More Than 500 Elements! ! (2/5) Subscribe

"Ding... Congratulations to the host for picking up the power of the element: fire!!"

"Ding... Congratulations to the host for picking up the power of the element: light!!"

"Ding... Congratulations to the host for picking up the power of the element: snow!!"

After reaching the 100th floor, Zhao Ling's opponent finally became a starry sky level, and before that, Zhao Ling killed the opponent, originally it just dropped some useless treasure chest attributes.

But after reaching the starry sky level, what the opponent drops is the element spar.

It's just that, at the starry sky level, because he has just comprehended the power of elements, the concentration of elemental power in the dropped element spar is the same as his level.

For example, the first stage of the starry sky only drops 10% elemental power!

Only the starry sky grade Tenth Stage, that is, the starry sky grade peak, the drop concentration will reach 100%

But there is one thing Zhao Ling guessed right.

That is, the attributes of the opponents that appear on each floor are not the same.

But a part of it overlaps with the previous round!

Zhao Ling broke through two hundred floors, only about a hundred attributes that have never appeared before!

Of course, because starlight level will not drop attributes, Zhao Ling only added fifty kinds of elemental power in the second round!

"System, how many kinds of elemental powers are there in the world? It can't be countless kinds!?"

Zhao Ling killed the opponent on the 211th floor with one punch, and then asked the system curiously.

"Ding... In the Great Thousand World, everything has countless forms, and there are also countless kinds of supernatural powers! But the power of elements is different!

The power of elements is actually a simplified version of the power of law, and there are only 3,000 kinds of power of law in a universe!

Cultivating the power of each law to the extreme can become a strong person at the Dao level!

Therefore, there is a saying that the three thousand roads lead to the same goal by different routes!

So as his simplified version.

There are also three thousand types of elemental power!

Among them, there are 2,900 basic common elemental powers, and 94 rare elemental powers, followed by the four supreme laws and two legendary laws.

The four supreme laws include: Destruction, Death, Life, and Destiny!

The two legendary laws are: time, and space!"

The systematic explanation finally let Zhao Ling know why the law of destruction he comprehended is the power of the law in the legend in this universe!

So he belongs to one of the four supreme laws?

"There are so many powers of law! What's the use if I understand more?"

Zhao Ling asked suspiciously!

If other powers of law can be picked up using the method of picking attributes, Zhao Ling doesn't mind spending a little time and picking up all the powers of law.

But this is a huge amount of work. If there is not enough benefit, it is just a waste of time to pick it up by yourself!

"Ding... Although the three thousand roads lead to the same goal, even at the end of the Martial Dao, there are still strong and weak in the end!

Let's put it this way, the current host may think that your current strength is already good, and there is no one stronger than you in the entire universe in this Realm, but among the countless universes in the world, there are countless ones who are stronger than the host Talent!

It is also now impossible for the Overlord to rewind the Realm and reforge its roots!

Therefore, if the host has an idea in the future and competes with many strong men in the world, he can use the power of the law of three liters to condense the immortal body.

At that time, the host will have enough strength to compete with those powerhouses in the world!"

The words of the system made Zhao Ling fall into deep thought!

What he meant Zhao Ling understood very well, that is, either, Zhao Ling would become the strongest among the strong, or he would become an ordinary strong, and he would dominate the Fang universe!

However, if he chooses the latter, what can Zhao Ling do if other powerhouses from the Great Thousand Worlds come? Is it just to sit and wait for death? Then he will be bombarded and killed in the end?

Thinking of this, Zhao Ran is cheerful!

"System, if I keep practicing in this Tianyan Tower, how much elemental power can I get?"

Zhao Ling asked the system solemnly.

Now my number one place is a certainty, no matter how powerful others are, they are at the same level as me.

But if Zhao Ling thinks about it, it should be impossible!

So entering the Tianyan Divine Pagoda is already a certainty!

At that time, I should be able to enter the Tianyan Divine Tower as many times as I want.

"Ding... The Tianyan Divine Pagoda is a weapon refined by the ancestor of Tianyan, which has reached the Holy Spirit level!

In the entire universe, he can record the fate trajectory of the strong below the immortal level, and evolve it at the same time.

Therefore, as long as it is a person who appeared in this universe within 30,000 epochs, he can evolve any elemental powers!

That is to say, except the law of space, the law of time, the law of life [and the law of Death!

In addition to the power of these four laws, he can condense the power of other laws!"

Rattt.....

The system responded to Zhao Ling's words.

"That is to say, apart from the power of these four laws, I can get everything else?"

Hearing this, Zhao Ling breathed a sigh of relief.

The rule of three thousand, if you really want to find in the virtual universe, you can only customize and challenge your opponent. However, this method Zhao Ling knows that he can only find part of it in the end.

No matter how many people there are in the universe, if you define them yourself, they may not necessarily define themselves!

After all, everyone wants to pick an opponent who is helpful to their own strength.

"Very good, since this is the case, then get some more elemental power before the time comes!!"

Thinking of this, Zhao Ling directly exploded the Dark Gold Divine Dragon Armor, and at the same time, the explosive power in his hands became infinitely more powerful in an instant.

.....O...

The opponents on the next floor were blown up as soon as they came out!

Nearly half an hour later, Zhao Ling has reached the 285th floor

It took Zhao Ling nearly half an hour to clear the last fifteen floors!

"One hour and seven minutes, the 300-story Tianyan Divine Pagoda has been cleared like this?!"

"Sure enough, the first time is raw and the second time is familiar! I feel that he won't be able to use it for an hour next time!"

As Zhao Ling cleared the Tianyan Tower again, countless people who watched this match were filled with emotion!

Unexpectedly, there was such a monster this year!

It's just that compared to the strong men in the Tianyan Divine Kingdom, the nearly 100,000 people from the Divine Kingdom don't care much.

I just know that the Tianyan Divine Kingdom held a grand competition, and at the same time, Zhao Ling is the first person, which is much stronger than the second place.

But almost everyone didn't know how much stronger Zhao Ling was than the second Talent.

According to their understanding, it should be two, three, three or four times!

After all, one hundred floors and three hundred floors don't seem like many!

However, what they don't know is that there is a million times difference between the talent of the 300th floor and the 100th floor!

However, with the passage of time, the strong men who were struggling in the Tianyan Divine Tower came out one by one!

Like the others, they felt endless horror when they saw the huge word Zhao Ling in the sky.

Others are struggling on the first 80 floors, you just come to the 300th floor! It's a bit too much!

However, just after the three-day assessment time ended, a bright voice in the sky came again!

Fantasy I Pick Up Attributes In The Future

Chapter 145: The Tianyan Strong Battle Is Over! (3/5)

"When the time is up, all those who passed the assessment will be removed from the Tianyan Divine Tower! Please be prepared!"

Just when this loud noise was remembered.

Zhao Ling is still messing around on the 220th floor!

"Is it finally over!?"

Zhao Ling's eyes flashed slightly, during this last period of time, Zhao Ling broke through the Tongtian Tower more than 20 times!

In the end, more than 600 kinds of elemental powers were obtained!

Among them, more than 300 kinds have reached a hundred times the concentration of elements!

Therefore, Zhao Ling's strength has also increased greatly. The 1,000 Star Sea Realm peak powerhouses on the 300th floor originally needed Zhao Ling to be extremely giant.

Now you only need to use ordinary giants to kill them all.

But in order to save time, Zhao Ling always maximizes, and then destroys them all with one punch.

And Zhao Ling fought again and again, but those emperors in the endless void were guessing what Zhao Xiang was doing!

However, no matter how high the IQ of the "Four Six Zeros" was, they would not dare to guess that Zhao Ling could deprive others of their elemental power.

Feeling a repulsive force around him, Zhao Ling shot out quickly!

"Yin & Yang Crazy Dragon Marksmanship!!!"

At the next moment, a roaring black and white dragon roared out from the tip of Zhao Ling's spear in an instant.

At the same time, the black and white dragon instantly killed a thousand star beasts in front of it!

At the same time, a power of thought swept across!

"Ding... Congratulations to the host for picking up the power of the element: Shun!"

"Ding...Congratulations to the host's instant element concentration: 2500%"

With a sound from the system, Ying Zhao Ling's figure also disappeared in place!

When Zhao Ling reappeared, he had arrived in the empty space before entering the Tianyan Tower.

The only difference is that under Zhao Ling's feet, there is a floating continent

In front of Zhao Ling, there is a terrifying tower several light-years high.

The next moment, the divine tower slowly rotated in the void.

At the same time, the tower body is also rapidly fading away.

Soon, it disappeared into the void.

"Everyone! Congratulations to you for finally passing the final assessment of the Tianyan Powerhouse Battle!!!"

And at this moment, in the sky, a figure like a god appeared above this continent.

"Hiss!!! This is the Great General Tian Xiao of my Tian Yan Universe Divine Kingdom!!!"

"How is this possible? General Tian Xiao would condescend to be the referee for this year!"

"Great, I actually met my idol!"

Countless contestants shouted excitedly after seeing General Tian Xiao's appearance.

Any industry has its idols, or a group of top people!

However, these top people are the benchmarks of this industry, and they have been regarded as role models almost since childhood!

Now that this kind of person is standing in front of you, even if you don't chase stars or worship him blindly, you will feel a little excited in your heart!

This is like Andy Lau walking in front of you, countless people around are screaming, and you can't help feeling a little yearning in your heart.

And that figure in the sky that looks like heaven and earth is the idol of countless Practitioners in the Tianyan Divine Kingdom!

"General Tianyan, it is said that he is the second strongest in the Tianyan Divine Kingdom!"

Zhao Ling looked at the figure in the sky and frowned slightly.

Because he felt the terrifying power from the opponent!

This power is like a world standing in front of you!

Zhao Ling felt that no matter how many attribute points he picked up, he couldn't reach this Realm!

"Sure enough, the system said that after a strong player reaches the Universe level, his fighting methods will only be based on the power of law.

Unless my fist can break the power of law, otherwise, I will definitely not have the slightest threat to the upper universe powerhouse!"

However, thinking of this, Zhao Ling smiled helplessly.

"Are you kidding, break the power of the law? The power of the law is condensed from the heaven and the earth. I want to break it? I'm afraid even the immortal-level powerhouse can't break it!"

After laughing at himself, Zhao Ling had a higher yearning for the law.

Looking at the jet-black destructive power in his consciousness, the corners of Zhao Ling's mouth slightly raised!

Although this ray of power seems incomparably weak, but the terrifying power contained in it is even Zhao Ling is a little startled!

"Everyone, all the competitions in this competition have come to an end! There may only be two rounds, but I believe that the ones who can win the two rounds will be the elites among the elites of the human race in my Heavenly Evolution Universe!

But don't be discouraged if you don't pass the second round, each of you will be rewarded accordingly.

Anyone who passed the first round!

You can now choose any large galaxy within your empire as your reward!

This Galaxy will be protected by my Heavenly Yan Kingdom for 100 million years!!"

As soon as General Tian Xiao's words came out, in an instant, the 100 billion contestants boiled instantly.

A large Galaxy, this reward is an incomparably terrifying honor for those below the World Master level.....

Zhao Ling's eyes are also shining, any large galaxy as a territory? At the same time, there is the 100 million-year protection of the Tianyan Divine Kingdom?

In other words, as long as he chooses the Milky Way, the Milky Way is his personal private property.

"Then this time the Galactic Elite Contest is still playing a fart!"

Thinking of this, Zhao Ling smiled slightly!

Originally, I thought that I could improve my strength by going to the Galaxy Elite Competition in Lao Shizi.

Now think about it, there are not many stars in the Milky Way galaxy.

There are still many strong outsiders!

As long as you bring the Milky Way into your own jurisdiction, you still have 100 million years as a shelter

Then I can go to Tianyan Shenshan with a little peace of mind!

And Zhao Ling also knows that Tianyan Shenshan is only the first step, and after he has taken this step, his next goal is the real human race! Even the entire universe!

"You will receive a notification about the matter of the Galaxy. Next, I will talk about the second thing. Because it involves Tianyan Shenshan, those who have not passed the second assessment should leave first!!"

After General Tian Xiao finished speaking, he ignored the disappointed contestants, and with a wave of his hand, only 50,000 people were left in the originally endless sea of people!

The next moment Fifty thousand people were gathered in the same place in an instant.

And General Tian Xiao also slowly flew down from the sky and landed in front of fifty thousand people.

"The opening of Tianyan Shenshan will be in ten days! You have ten days to prepare!

And ten days later, the mentor of Tianyanshen 0.7 Mountain will open up the time-space wormhole and pick you up on your planet, and then you will become students of Tianyanshenshan!

Remember, after entering Tianyan Shenshan, unless your strength has reached the immortal level, or you have a mission to go out, or you graduate after ten thousand years, otherwise, you cannot enter Tianyan Shenshan at will!

I can tell you this, starting today you will be raped by the Star Beasts.

And the Star Beast Clan, if they seize the slightest chance, they will never let any of you go!"

General Tian Xiao's words made everyone feel the strong breath of Death!

"Okay, then see you in ten days!!"

After General Tian Xiao finished speaking, his whole body instantly turned into dots of light and disappeared in front of Zhao Ling and the others.

"Ten days? I don't know if ten days is enough for me to wipe out the three major races!".

Fantasy I Pick Up Attributes In The Future

Thinking of this, Zhao Ling wanted to leave as soon as he thought about it!

"Brother Zhao Ling, do you have time to talk!"

And at this moment, a boy's voice reached Zhao Ling's ears!

Zhao Ling frowned and turned around!

I saw a boy who was about the same age as me, and another boy who was a little younger came to own!

The two are Tianyu, the prince of Tianyan Divine Kingdom, and after all, they are the Little Brother of General Tianxiao!

And the son of Duke Zhen, Tianni!

Seeing Zhao Ling turned back, Tianyu quickly introduced himself and his cousin Tianni to Zhao Ling. !

"You are Tianyu? The son of God Emperor Tianyan?"

Zhao Ling's eyes flickered slightly, God Emperor Tianyan didn't know how long he lived, but this son is actually just a son of Lori!

Zhao Ling is a little confused about this!

"Brother Zhao may be curious, in fact, the stronger a person is, the more difficult it is to have children, so many people will have more children when their strength is weak!

It's a pity that when my father was young, he was busy practicing and didn't think about this."

Tianyu explained to Zhao Ling without hesitation!

"Thank you Brother Tianyu for clarifying the confusion, but I don't know why you two are looking for me?"

Zhao Ling thanked him, and then asked straight to the point!

After hearing Zhao Ling's words, Tianyu smiled and took out a Jade Slip and handed it to Zhao Ling!

"This is some information about Tianyan Shenshan. I hope Brother Zhao can accept it. At the same time, our two brothers came to you simply to make friends!"

Zhao Ling frowned slightly at Tianyu's sincere words.

Make friends? So easy?

But no matter how Zhao Ling perceives it, he can't perceive the malicious meaning of this Tianyu!

Of course, Tian Ni's words on the side just looked at him with admiration.

Zhao Ling's divine sense swept over this kid before, and it's been like this since he appeared!

It's like a nympho girl looking at idols.

See Zhao Ling goosebumps!

"Since God Son Tianyu thinks highly of me, I'll call Zhao Ling and make you my friend, but I have something important to do, so I'm leaving first!"

Zhao Ling took Jade Slip and arched the cupped hands.

"We are the ones disturbing Brother Zhao, please go ahead, Brother Zhao!!"

Tianyu laughed when he heard Zhao Ling agree.

The next moment Zhao Ling took a deep look at the two brothers and then disappeared in place!

"This Zhao Ling, it's hard to say what he will achieve in the future! With my Heavenly Diffraction Technique, I can't even see a trace of his fate face to face. Who is this Zhao Ling!"

After seeing Zhao Ling disappear, Tianyu's eyes flashed.

"Let's go!!"

After shaking his head helplessly, Tianyu greeted his cousin Own, but there was no response from the other party!

Turning his head to look, he found that the other party was staring at the place where Zhao Ling disappeared!

"What are you kid doing!!?"

Tianyu saw that the other party fell ill again, and was speechless immediately!

"Cousin, I have decided, Zhao Ling will be my goal from now on!!"

However, the words of The next moment made Tianyu's face darken immediately!

The goal to pursue? When did this kid start messing around?

Thinking of this, Tianyu quickly distanced himself from the opponent.

"Cousin, what's your expression? Damn, you don't think I'm going to chase Zhao Ling! I'm talking about chasing, Martial Dao, you..."

Tian Ni looked at his cousin's appearance and didn't know that he seemed to have said something wrong, so he quickly explained.

"It's okay, it's okay...you can do whatever you want! I have to leave beforehand!!"

Tianyu didn't dare to listen to the other party's explanation, he quickly waved his hands. The next moment disappeared in place!

"Damn! Tianyu, stop right now, and explain clearly to me!"

Tianni didn't believe Tianyu's nonsense, and chased after him angrily!

Returning to his personal warehouse, Zhao Ling looked at the Jade Slip in his hand!

"System, there is nothing tricky here, right?"

Zhao Ling curiously asked the system!

"Ding..... In addition to the basic information of Tianyan Shenshan and some core information, there is nothing else!"

The cold electronic sound of the system is the most reliable thing for Zhao Ling right now!

"That's good!!"

With a flash in Zhao Ling's eyes, he immediately put it on a storage shelf!

Wait until he has time to see.

"Dear Mr. Zhao Ling, you have successfully passed the first round of the Tianyan strongman battle, so you can choose a large Galaxy as your personal item!"

That is, at this time, the voice of the guide in the void also sounded!

"It's also about solving the matter in the Milky Way first!"

Zhao Ling smiled slightly, and then said to the sky: "The Galaxy I chose is the Galaxy I was born into, and the Milky Way is my private property!"

After hearing Zhao Ling's words, a star map instantly appeared in the sky!

And in the star map is the Milky Way like a silver quicksand river!

"Beginning to detect Galaxy ownership!!"

The cold electronic shadow of the guide is spreading in the sky!

However, Zhao Ling's face darkened instantly at the next sentence of the guide!

"I'm sorry, Mr. Zhao Ling, the Milky Way you selected has been selected as a private property by a contestant who also passed the first test a few minutes ago!"

After making some inquiries, the guide gave Zhao Ling such an answer!

You must know that the Galaxy selected by the players who passed the first match of the Tianyan strongman battle, even if you are the imperial capital of a universe kingdom, you can only let it out.

However, if it has already been chosen first by the strong of this year, there is no other way!

"Chosen? Who would choose the galaxy!?"

Zhao Ling frowned slightly!

"There is no way to help me contact the other party, I will talk to him myself!"

Zhao Ling was helpless, since the other party had already made a choice, he could only negotiate with the other party in private.

"Okay, Mr. Zhao Ling 007, your request has been sent!"

The usher spoke again.

Zhao Ling breathed a sigh of relief, as long as he can contact the other party!

"Sorry, Mr. Zhao Ling, the other party refuses to hand over the right to use the Milky Way!!"

However, the words sent back by the guide after a few seconds made Zhao Ling's face ugly.

"Reject? You tell him, what conditions can let him hand over the Milky Way, I can pay any price!!"

Zhao Ling snorted coldly! If the other party doesn't know how to compliment, he must let the other party know what can be snatched and what can't be touched!

And on the other side of Zhao Ling's negotiation, a middle-aged elegant man was originally happy because he got the ownership of the Milky Way, but when he was told that someone wanted to trade with him!

Despite the atmosphere, he still rejected the other party.

However, just after rejecting it for a few seconds, the other party sent a message again, can you exchange it with anything?

"Hmph, the Milky Way, not everyone can get their hands on it, tell him, if you don't want to die, don't hit the Milky Way!!

After the middle-aged elegant man finished speaking coldly, a terrifying lawful calendar erupted from his body instantly!

This force of law is full of terrifying dark power.

However, this news was quickly spread to Zhao Ling's side!

"Hmph! You'd better pray that you don't pass the second round of the Tianyan strongman battle!"

Zhao Ling snorted coldly.

"Mr. Zhao Ling, actually, the matter is not impossible!"

Fantasy I Pick Up Attributes In The Future

Chapter 147: Breakthrough. Starlight Realm! ! (5/5)

However, at this moment, Zhao Ling was stunned by the instructor's words!

"Is there any way to say it quickly!"

Zhao Ling quickly asked!

"Respected Mr. Zhao Ling, as the final winner of the Tianyan Powerhouse Contest, he is also the number one, so he has the right to be the number one to obtain any Galaxy.

Although this Galaxy has already been snatched away by others, with Mr. Zhao Ling's status, it can be plundered directly!"

The instructor's words made Zhao feel like a million fools!

"Didn't you say something like this earlier? It made me go to the door!

Zhao Ling was speechless for a moment.

There wouldn't be so many things if the usher had said it earlier!

"Because Mr. Zhao Ling's first choice is to use the method of negotiation, so I choose to let you negotiate first, peace is the most important thing after all!!"

The facilitator spoke clearly and logically, but Zhao Ling was still powerless to complain about the other party!

"Okay, now that the other party doesn't want to negotiate anymore, just grab it for me!!"

The corners of Zhao Ling's mouth raised slightly, and he said in a cold voice!

Since you don't want any money from him, you can only come and grab it.

"Understood, start changing the ownership of the galaxy!!"

The guide's voice sounded from the sky.

And at the same time, in another personal warehouse!

The middle-aged man who was about to leave the virtual universe heard a piece of news that made him extremely angry!

"Hello, Mr. Xingshen, the Milky Way that you confirmed to own was chosen by Mr. Zhao Ling, the first place in the Tianyan strongman battle, so according to the selection order, your right to choose is invalid.

So please re-select the planet you want to own!!"

"!!!!!!"

After hearing the news, a terrifying aura erupted from the Star God's body instantly, and this aura directly shook the surrounding space until it shivered slightly!

"Zhao Ling!! It's actually him."

That's right, this person is the founder of the Martial Dao Alliance of human beings, the star god who led the human race to the era of the great universe!

I heard that it was Zhao Ling who chose the Milky Way.

Star God's face suddenly became ugly!

As a person who participated in the second round of assessment, Star God is very clear about Zhao Ling's current status!

Now maybe the emperor of the Long Xiao Empire is probably not as high as Zhao Ling!

It can be said that Zhao Ling's current status is so high that he can't even compare to the other party 1

After all, I just barely made it to the second round!

"Hey, I hope this Zhao Ling is just a whim!!"

In the end, the Star God just let out a faint sigh!

With Zhao Ling's strength and status, Talent cannot shake a point at all.

"Looks like it's time to go back to the Milky Way, let Xiaowu and the others keep a low profile!!"

After working hard for tens of thousands of years, the current star god has become a powerful universe peak powerhouse.

And his mediocre domain master level is really not his opponent!

You must know that he is a super strong man who has reached the seventy floors of the Tianyan Divine Tower.

It was just a little bit short of being able to enter Tianyan Shenshan, but in the end it was still a step short!

The next moment he exits the virtual universe directly.

Immediately, a spaceship flew out from a planet not far from the Milky Way!

He flew towards the Milky Way not far away.

"Mr. Zhao Ling, the ownership of the Milky Way has been brought into your name, and the information has been sent to the database of the Dry Prison Universe Kingdom where the Milky Way is located! The Dry Prison Universe Kingdom will issue the letter of appointment to you within ten days hands!"

The instructor's words made Zhao Ling nod slightly.

As for Zhao Ling, who has already passed the Tianyan strongman battle and exposed his own position, he has already ignored it!

As Tian Xiao said, when the students of Tianyan Shenshan who passed the second round pass the second round, their information will be passed on to several major forces in other universes.

That is to say, from that time on, Zhao Ling's enemies were the other major forces.

Only within the human race, there is not much threat.

After all, Tianyan Divine Mountain is the Sacred Land of Tianyan Divine Kingdom

Those Sacred Land personnel were all killed, and the Tianyan Divine Kingdom will definitely investigate to the end!

Therefore, within the territory of human beings, even the powerhouses of other kingdoms of God dare not do anything to Zhao Ling and the others!

Not to mention anything else.

Zhao Ling The next moment consciousness exited the virtual universe directly!

Zhao Ling opened his eyes again, and he has returned to his own room in the spaceship!

"Huh! This time I have gained a lot!"

Zhao Ling looked at the more than 20,000 Star Sea Realm treasure chests in his own storage bar, the corner of his mouth slightly raised!

But before opening the treasure chest, Zhao Ling has to breakthrough his own Realm first!

The next moment Zhao Ling closes his own eyes and communicates with the power of the elements in his body!

Then the power of the elements erupted from Zhao Ling's body instantly like ignited gunpowder.

The next moment, endless elemental power instantly filled Zhao Ling's body!

At the same time, Zhao Ling also felt that his own body was rapidly improving under the tempering of various elemental forces!

"Ding... the power of the host's elements has reached 100, let's start to forge the body with elements!!"

Suddenly, with a beep from the system, The next moment came and I felt my own body being tempered crazily!

Originally reached a strength of one billion kilograms, the body has reached its limit

But now this limit has been broken!

Zhao Ling feels that the potential of own body is rapidly improving!

At the same time, Zhao Ling's soul limit is also growing rapidly under the scouring of one element force after another.

Comprehend the power of a hundred elements! No one in the universe has ever thought of this kind of thing, let alone do it!

This is not only a matter of time, but also Talent, and the mutual exclusion of various elemental powers!

The difficulty of condensing the power of two elements is several times that of condensing the power of one element!

Therefore, no one in the universe knows that after comprehending the power of a hundred elements, the body can become extremely powerful!

And with the increase of Zhao Ling's physical limit, Zhao Ling felt that the original feeling of being able to break through disappeared in an instant.

"Ding... Congratulations to the completion of the host element body forging, the host's physical limit has reached 10 billion kg!"

If the physical limit of 10 billion kg is used to break through the starlight realm, the physical strength of the first stage of the starlight realm will reach a terrifying amount of 10 billion kg!

And at the peak of Starlight, it is a thousand times that of Starlight First Stage (Nuo De Zhao), that is to say, own power is a terrifying 1 trillion kg!

Thinking of this, Zhao Ling took a deep breath!

"System, help me open the treasure chest containing the power of nine billion kilograms!!"

Zhao Ling spoke directly to the system!

The next moment, almost all the star-level treasure chests in Zhao Ling's Sea of Consciousness were taken out!

"Ding...Congratulations to the host for opening the starry sky treasure chest *34522 and getting the following items!

Star-level item*15482

Experience value: 5 billion

Attribute points: strength: 9 billion, vitality: 9 billion, speed: 450 million, soul: 900 million

Just after the system's notification sound ended, the next moment, endless light spots enveloped Zhao Ling's whole body.

Zhao Ling's body is being strengthened rapidly!

At the same time, Zhao Ling's soul power is also increasing rapidly.

Infinite power emerged from the inside of the flesh.

"Ding... Congratulations to the host breakthrough starlight realm bottleneck, Realm has been promoted to starlight realm First Stage!".

Fantasy I Pick Up Attributes In The Future

With the promotion of Realm, Zhao Ling felt the sublimation of his body.

Even the breath of own life has also been greatly improved.

After all, a Grandmaster can only live for five hundred years, but a star-level one can live for a thousand years!

A thousand years old, you must know that before Zhao Ling traveled, China's civilization was only 5,000 years old!

"The system helps me, open all the treasure chests!"

Breakthrough has already occurred, so if you open the treasure chest, the treasure chest will not be wasted!

"Ding... Congratulations to the host for hitting the sky-level treasure chest*32622, the star-level treasure chest*4511, and the star-sea treasure chest*21540, and got the following items!

Sky-level items*15482, starry sky-level items*1982, star-sea level items*8451

Experience value: 30 billion

Attribute points: strength: 70 billion, vitality: 70 billion, speed: 3.5 billion, soul: 7 billion"

As the system's notification sound ended, Zhao Ling's body was rapidly improving.

However, while improving his strength, Zhao Ling turned his own eyes to the Xinghai-class Cultivation Technique that he just opened!

"Vajra Immortal Magic (Volume Six): Auxiliary Cultivation Technique, which can be superimposed with existing Cultivation Technique.

After practicing the first six volumes to achieve great success, you can increase your physical defense power: 30 times! Martial Dao combat power: 6 times!

For every 10% increase in proficiency, 740 experience points need to be consumed: 100 million!

Among them, there is actually the Vajra indestructible magic skill that Zhao Ling needs more now!

With this Cultivation Technique Zhao Ling feels that his own strength has definitely taken a huge leap!

Zhao Ling quickly clicked to learn.

Zhao Ling, who has 35 billion experience points, is not stingy at all.

Zhao Ling continued to search.

Soon Zhao Ling found a replacement Cultivation Technique.

"Illustration of Ten Gods: (Peak of Xinghai level) recorded the divine bodies of ten gods in ancient times. If you can visualize Dacheng, you will realize that you belong to your own powerful physique! Physique strength can increase combat power: 10 times! Every percentage increase A tenth of the proficiency needs to consume 1 billion experience points!"

This Cultivation Technique can be said to be extremely powerful, however, the experience points he needs are ten times that of ordinary Cultivation Techniques!

But now Zhao Ling is not short of money, so he doesn't care!

Directly smashed 10 billion experience points.

"!!!!!!!"

After Zhao Ling used 10 billion experience points to learn the Cultivation Technique, Zhao Ling found himself in a closed space in an instant.

The next moment, ten Tongtian gods appeared in front of Zhao Ling!

These ten god-like figures all exude a terrifying aura!

Among these breaths, Zhao Ling felt a (chdj) mysterious feeling.

In an instant, a method of transferring elemental power appeared in Own's mind.

Zhao Ling felt that if he could operate the power of his own elements in this way, there would be unexpected gains!

The next moment Zhao Ling was kicked out of this space with a great force!

Zhao Ling, whose consciousness returned to his body, was speechless, and just took a look, and he spent 10 billion experience points?

However, Zhao Ling didn't rush to complain, and quickly started own cultivation according to the flow of elements he had comprehended from the bodies of the ten gods!

As Zhao Ling used the power of his own element over and over again, Zhao Ling felt that his own body was undergoing qualitative changes!

Streams of crystal clear precious light flowed in Zhao Ling's body.

The next moment Zhao Ling felt that own physical strength seemed to be increasing rapidly.

But Zhao Ling looked at the own attribute table, the own power value is still so much!

Time passed by every minute and every second, and soon two days passed.

Now Zhao Ling exudes endless precious light!

There is a trace of frightening power in this layer of light.

From this strand of power, Zhao Ling felt that if the physical power of own was exerted through the current physical body, it would definitely have several times the previous power.

This is not because Zhao Ling's physical strength has improved, but Zhao Ling's physical explosive ability has improved.

"Ding... Congratulations to the host for comprehending the operation method of the Xinghai divine body! The explosive power of the body has increased by ten times."

Following the system's beep, Zhao Ling slowly opened his eyes!

And his eyes burst out with a terrifying aura in an instant!

At the same time, there is also the aura of those ten gods in this aura.

"System, help me with the rest. Learn these Cultivation Techniques!"

After Zhao Ling finished speaking, he took out all the Cultivation Techniques he had selected, and clicked to learn.

"Ding... Congratulations to the host for spending one billion experience points to learn Cultivation Technique: Ten Thousand Beasts (Peak of the Star Sea)"

"Ding... Congratulations to the host for consuming one billion experience points to learn Martial Skill: Sky Sword Formation (Peak of the Star Sea 100%)"

"Ding... Congratulations to the host for spending one billion experience points to learn Martial Skill: Broken Star Shootout (Peak of the Star Sea 100%)"

In addition to Ten Gods Slaughter, there is also the sixth volume of Vajra's Indestructible Magical Art, and some Martial Skills that can use the power of elements,

Just learning Cultivation Technique, Martial Skill Zhao Ling uses 20 billion experience points. Because < 15 billion experience points.

But the good thing is that Zhao Ling's strength is also crazily improving in the process of learning!

"The remaining experience points of the system are all used to improve the power of skills!"

Zhao Ling called out the property panel directly, and found that the supernatural skills in it had been changed to elemental skills!

Psychic skill: 40 soul power (0/300 million)

Gun Skills: Master Advanced (0/300 million)

Movement Technique Skill: Master Advanced (0/300 million)

Element Skills: Master Advanced (0/300 million)

Beast Master Skills: Master Advanced (0/300 million)

"Ding... the system starts to upgrade the power of all skills: the power of all skills has been raised to the peak of Master! Consumed experience points: 1.5 billion, and the strength is increased by 45 times"

"Ding.....The power of all skills has been upgraded to the first level of Grandmaster! Consumption of experience points: 5 billion! The real bonus is fifty times"

"Ding...the experience points are not enough, the system selects the mind power skills and marksmanship skills to upgrade to Grandmaster intermediate level, the consumption experience points: 6 billion! The strength bonus is sixty times."

Following the sound of the system's prompt, Zhao Ling was instantly pulled into a dark space. In this space, Zhao Ling seemed to have spent countless epochs, repeating the fighting methods of practicing these skills countless times .

In this dark space, Zhao Ling does not know how long it has passed!

It's just that Zhao Ling knows that his understanding and application of these skills are improving rapidly!

It is completely different from the so-called skill points in the novels, it will be used naturally after adding it!

Zhao Ling's system is like a forced cultivation method, drag yourself into a place where there is no concept of time, and then force yourself to practice!

One year is not enough for ten years, ten years is not enough for a hundred years, a thousand years is not enough,

If not, billions of years!

There is always a day when you practice to the limit!

This is the case with Zhao Ling now.

Fortunately, Zhao Ling can't feel the passage of time at all!

As if it never happened.

Otherwise, if you are trapped in that kind of place for countless years, even Iron Man will go crazy!

When Zhao Ling finally cultivated the power of these techniques to the proper level, The next moment was kicked out of that dark space.

"Ding... The skills have been improved!!"

Following the system's beep, Zhao Ling slowly opened his eyes.

At this time, the kind of sharpness exuded by Zhao Ling is completely unmatched by the previous self!

"It's finally over. If you want to go to Tianyan Shenshan this time, it's time to leave something for the people!".

Fantasy I Pick Up Attributes In The Future

Although the previous Zhao Ling had countless Martial Skills and the like, they didn't help the human race much, and he couldn't use them himself!

But now it's different. Now Zhao Ling can be described as rich and powerful!

It can be said that if Zhao Ling bought all his Cultivation Technique Martial Skill and weapons, he would definitely be richer than some principalities!

The next moment Zhao Ling took all the items in his inventory into the storage ring and prepared to give them to the people at once.

buzz

However, at this moment, there were bursts of violent vibrations in Zhao Ling's storage ring!

"Blood Devil gun? What is he doing?"

Zhao Ling saw the Blood Devil gun in his ring vibrating crazily.

At the same time, the Blood Devil gun flew up in Zhao Ling's storage ring and rushed towards the pile of items that Zhao Ling took out.

The next moment, Zhao Ling found that the Blood Devil gun came next to some Blood Essence Dans!

"Blood Essence Dan? You want to absorb the Blood Essence-?"

Zhao Ling immediately guessed that the Blood Devil gun can devour Blood Qi to improve its own level, and these Blood Essence pills are all refined with the Blood Essence of star beasts.

The only use is to restore Qi and blood, so Zhao Ling didn't care much.

"If you want to absorb it, absorb it. I want to see how far you can hit it!!"

Zhao Ling's eyes flashed, and then he directly smashed all the Blood Essence pills in the direction of the Blood Devil's gun.

"Om!!!!!"

The excited Blood Devil gun got the approval of Zhao Ling, and instantly burst out a strong suction force, locking all the Blood Essence Dans below the starry sky level!

These Blood Essence Pills add up to hundreds of thousands of pieces!

It can be said that Zhao Ling has accumulated from the beginning until this time.

In an instant, as a suction burst out from the tip of the Blood Devil gun, the Blood Essence Pills locked by him instantly turned into blood mist and covered the Blood Devil gun.

The Blood Devil gun instantly sucked all the Blood Qi into own's belly!

"boom!!!!!"

At the next moment, a terrifying aura erupted from the Blood Devil gun.

This aura instantly surpassed the starry sky level peak weapon, directly breaking through to become a star sea level weapon.

However, the breakthrough was not over yet, waves of terrifying aura still radiated from the bloodline gun.

Soon, the Blood Devil gun broke through to the middle Xinghai class.

After a few seconds, I broke through again to the high-level Star Sea Realm!

By this time, the Blood Essence Dan he had absorbed had been consumed.

However, there are more than a thousand Star Sea Realm Blood Essence Pills floating in the void.

But the terrifying aura emanating from the more than one thousand Blood Essence Pills is hundreds of times greater than the previous tens of thousands of Blood Essence Pills!

The terrifying Blood Qi made the previous Blood Devil guns dare not touch it.

However, just after he digested the previous Blood Essence Pill, he instantly locked on to this thousand Star Sea Grade Blood Essence Pill!

The next moment The terrifying suction instantly smashed these Blood Essence pills into endless Blood Qi power!

Phantoms of powerful star beasts roared and danced in Blood Qi!

Although these terrifying Blood Qi phantoms seem powerful, they are still only the power of Blood Qi.

The Blood Devil gun suddenly let out a gunshot, and a powerful suction burst out from his gun in an instant.

Quickly sucked endless Blood Qi into the own gun body!

"boom!!!!!"

A terrifying aura emanated from Zhao Ling's storage ring.

Zhao Ling frowned slightly, feeling that something was wrong, and with a quick thought, he took out the Blood Devil gun.

The next moment A terrifying coercion instantly filled the entire spaceship!

"Stay dumb....."

With a bang bang bang bang bang, Zhao Ling knew that if he didn't take out the Blood Devil gun, the spaceship would explode!

At the same time, the leader and his party who were waiting for Zhao Ling to come out outside Zhao Ling's room suddenly changed their expressions when they felt the terrifying aura erupting from Zhao Ling's room!

"No, the spaceship can't take it anymore!!"

A Venerable screamed.

"boom!!!!!"

The next moment Zhao Ling's door burst open like a bomb!

The shattered alloy door instantly pierced the surrounding hapless emperor, Venerable, to the point of bleeding.

The next moment A black shadow rushed out of the hatch in an instant.

"Open the hatch!!!"

Zhao Ling's calm voice came.

After hearing the voice, the people in the control room opened the hatch involuntarily.

The next moment Zhao Ling disappeared directly into this spaceship.

Zhao Ling, who rushed out of the spaceship and flew into the universe, slapped the Blood Devil gun into the endless starry sky!

"!!!!!!!"

Finally, because the Blood Devil gun that absorbed a lot of Blood Qi's power finally exploded!

A terrifying Blood Qi burst out from this blood-red spear in an instant!

At the same time, his aura is also growing rapidly!

Soon, his aura reached the level of those Star Sea Realm weapons in Zhao Ling's inventory.

.....seeking flowers... o

"Peak of Star Sea Realm!!!"

Zhao Ling's eyes flashed, but Zhao Ling knew that it was far from over.

The next moment Blood Devil's gun has been boosted by another level!

Straight to the terrifying Universe level elementary!

After reaching the universe level, a power of law that made Zhao's heart palpitate instantly came from the Blood Devil gun!

"Ding... Congratulations to the host, your weapon Blood Devil gun has evolved the law of origin: the power of the law of Death"

The system's notification tone also reached Zhao Ling's mind at this time!

"The law of Death, one of the four supreme laws!?!"

Zhao Ling frowned slightly!

The Tianyan Divine Pagoda stood in the universe for 30,000 epochs, and in the end, apart from the power of the law of destiny, it only inscribed the power of the law of destruction!

o

And Zhao Ling feels that the power of this law of destruction is own.

That is to say, there has not been any person who has comprehended the supreme law in the time universe of the 30,000 epoch.

However, now that Zhao Ling found his own weapon, he has evolved the power of the law of Death!

How incredible is this?

"It seems that the potential of the Blood Devil gun is far more than that!!"

Zhao Ling's eyes flashed slightly!

And at this moment, the Blood Devil's spear in the distance finally stopped increasing its power!

"Blood Devil Gun (Intermediate Universe Level): A weapon forged from Blood Devil stones, the Blood Devil Gun itself has the ability to devour Blood Qi's upgrade! Now, for some reason, the power of the Law of Death has been engraved on it, and its power is already overwhelming. It's better than the average universe-level pinnacle weapon!"

The explanation of the Blood Devil gun also made Zhao Ling's eyes twinkle, which means that he doesn't seem to need to change his own weapon anymore.

After all, a weapon that can evolve by itself is definitely much stronger than those ordinary ones.

Want to hit here Zhao Ling stretched out his right hand, the Blood Devil gun in the distance felt Zhao Ling's call

The next moment The Blood Devil gun turned into a blood-red light and instantly appeared in Zhao Ling's hand!

Zhao Ling sized up the long spear exuding a terrifying aura.

"A good gun, just relying on the gun intent can kill the average Star Sea Realm peak!"

Zhao Ling nodded in satisfaction.

The next moment Zhao Ling's gaze is aimed at a star that emits endless light in the distance!

"Clang!!!!!"

Zhao Ling waved his long spear lightly, and a crisp sound of gunfire erupted from the tip of the Blood Devil's gun.

"Broken Star Shootout!!!! And!".

Fantasy I Pick Up Attributes In The Future

Following Zhao Ling's low shout, The next moment, Zhao Ling's whole body instantly turned into a dazzling meteor and shot towards the distance.

This ray of light rushed into the incomparably huge Star in an instant!

"Boom, boom..."

The next moment, a frightening terrifying roar erupted from the Star that Zhao Ling rushed into.

At the same time, the entire Star trembled crazily.

"boom!!!!!"

With a loud noise that shook the sky, there was a burst of dazzling white light.

The entire Star exploded in an instant.

The endless fire light instantly illuminates the entire small Galaxy around it.

The leader of Martial Dao and his party in the spaceship far away from the small Galaxy looked at the distance with a pair of terrifying words, and their faces suddenly turned white with fright!

"Explode a star thousands of times larger than the sun? Zhao Ling's strength is already so terrifying!!"

Among the crowd, Zunhuang, who knew Zhao Ling best, couldn't help but click his tongue secretly.

"Three Nine Zero" Zhao Ling fought with him last time, it seemed more than ten days ago.

In just ten days, Zhao Ling achieved an achievement that no one else could beat for more than 100,000 years!

"hiss!!!!"

All the strong men gasped.

It was the leader Martial Dao who secretly compared his chances of winning if he used the power of law to fight Zhao Ling.

The final conclusion is that there is nothing.

Although he didn't want to admit it, he knew that the current Zhao Ling's strength has far surpassed that of Zhao Ling!

"The rise of our human race is just around the corner! Master, have you seen it?! This is the strongest genius of our human race now!"

Leader Martial Dao looked excitedly at the scene of the explosion in the distance. If the Star God was there, he would definitely be tens of thousands of times happier than himself.

It's a pity, since I broke through to the peak of the Star God Realm, Master Own has never returned, and how many years have passed by now.

In the endless void, Zhao Ling stood in the ruins of the Star that he shattered.

At the same time, the power of endless fire elements surrounded him.

But at this moment, the Blood Devil gun in Zhao Ling's hand dropped a crystal shard exuding the breath of Death.

Zhao Ling frowned slightly, and then stretched out his hand to lift it up.

"Ding... Congratulations to the host for picking up: Fragment of the Power of the Law of Death*1"

"Ding... Congratulations to the host for reaching (1/10) the completeness of the power of the Death Law"

The beep from the system confused Zhao Ling!

The Blood Devil gun actually has the power of law!!

"system what does that mean?"

Zhao Ling asked the system suspiciously.

"Ding... The level of the Blood Devil gun has reached the level of self-coagulation of the power of law. As long as this weapon is used for a battle, it will drop the power of law, because the level of the Blood Devil gun is too low , so only one fragment of the power of law can be dropped!

The power of one law is one percent of the integrity of the law!"

The explanation of the system made Zhao Ling's eyes shine. Doesn't this mean that as long as he keeps fighting with the Blood Devil gun in the future, the power of his own Death law will increase!?'

Zhao Ling remembered that the more times he used the Dark Gold Dragon Armor to fight, the stronger the law of own destruction would be.

It is equivalent to the legendary battle upgrade!

"Very good, then I will use you more to kill the strong!"

Zhao Ling touched the Blood Devil gun in his hand, and then put it into his own storage ring.

Then Zhao Ling flew towards the spaceship.

At this time, the strong people in the spaceship are still discussing what level Zhao Ling will reach in the future, and many old men are planning to marry their granddaughters to Zhao Ling after countless generations!

And at this moment, Zhao Ling's figure appeared in front of Martial Dao leader and his party outside the spaceship.

"Open the hatch!!" Martial Dao leader said hastily.

"System, open the attribute table!!"

Zhao Ling spoke to the system consciously while flying towards the hatch of the spaceship.

Attribute table:

Host: Zhao Ling

Bloodline: Holy Order

Martial Dao Realm: Starlight: Fourth Stage

Spiritual Realm: Heavenly Order: Fourth Stage

Elemental power: limit: 115 types, growing: 423 types

Power of Law: Law of Destruction (5%) Law of Death (1/10)

Guardian Spirit: Dark Gold Nine-Clawed Dragon (Dark Gold Dragon Armor, 100 times)

Power: 80 billion

Speed: 4 billion m/s

Vitality: 80 billion

Soul: 8 billion

Psychic skill: 60 soul power (0/10 billion)

Gun Skills: Grandmaster Intermediate (0/10 billion)

Movement Technique Skill: Grandmaster primary (0/3 billion)

Ability Skills: Grandmaster Elementary (0/3 billion)

Beast Familiar Skills: Grandmaster Elementary (0/3 billion)

Weapons: Sky God Knife Array*10 (Peak of Xinghai class) Blood Devil gun (Intermediate Universe class)

Cultivation Technique: Vajra Immortal Art (first six volumes, Xinghai Peak! 100%) Ten Gods Picture Record (Xinghai Peak 100%) Ten Thousand Beasts (Xinghai Peak 100%)

Martial Skill: Empty Sword Formation (100% at the peak of the Star Sea), Star Shooting (100% at the Peak of the Star Sea), Nine Dragon Sealing Technique (100% at the Peak of the Star Sea).....

Experience: 2.5 billion

This time Zhao Ling changed almost all of the Cultivation Technique and Martial Skill.....

It can be said that while Realm has improved, Zhao Ling's potential has improved.

Now Zhao Ling can easily break through the 300-story Tianyan Tower!

Even Zhao Ling, who is on the fifth sixth stage of the universe, is no match for an all-out attack.

Of course, because at the universe level, the power of law has become the most important fighting method, so Zhao Ling can only use the power of law.

It's just that the power of Zhao Ling's law of destruction is only 5%, which can compete with 100% of the power of ordinary laws.

"Zhao Ling, I didn't expect you to hide so deeply!!"

Zhao Ling was surrounded by a group of old men as soon as he stepped into the spaceship.

Helpless, Zhao Ling can only deal with it with a smile!!

"Listen first, everyone, I have a few words to say!!"

Surrounded by so many people, Zhao Ling felt a little uncomfortable, but had no choice but to speak!

Sure enough, as soon as Zhao Ling spoke, all the elders of the human race around him fell silent and listened to what Zhao Ling had to say 1

Although they are much, much bigger than Zhao Ling.

But Zhao Ling's status is far different now, not to mention that they are the leader of Martial Dao and even Lord Star God, they are far inferior to Zhao Ling!

"Everyone, our human race has developed to this point, it is already very difficult to go further, and the first thing that restricts our development is resources, and the second is vision! The third is the cultivation method Martial Skill o.o!"

Everyone present knows Zhao Ling's words, but now with the virtual universe base station that Zhao Ling helped activate, they can already develop rapidly in terms of vision!

But resources and Cultivation Technique Martial Skill cost a lot of money, and the virtual universe does not recognize all the currencies of the galactic people.

"In terms of resources, the easiest thing for us now is to grab the territory of the other three major races. Although they have taken root in the Milky Way for countless years, the non-my race must have a different heart.

At the same time, I have now become the lord of the Milky Way, even if we don't take action, the Tianyan Divine Kingdom will send people to wipe out their three major races, it's just something we can do by ourselves, why let others do it for us!"

However, as soon as Zhao Ling's words came out, the strong people around were stunned!

What did Zhao Ling say? He became Lord of the Galaxy?

As long as you wait for a while, Tianyan Divine Kingdom will send people to clean up other races except his galaxy human race!?.
