

Fantasy I Pick Up Attributes In The Future

Three: You need to pay a large amount of funds to the kingdom, empire, or kingdom of God!

Nothing less than these points will do.

To completely conquer this is going a little too far.

Since they are all completely conquered, why pay funds.

After careful questioning, the leader of Martial Dao found out that as long as you pay the funds to become an officially certified Galaxy lord, you are the heavenly king daddy in this Galaxy.

Also protected by accredited agencies!

That is to say, if Zhao Ling now provokes a world master-level powerhouse, as long as Zhao Ling hides in the Milky Way, that powerhouse cannot do anything.

As long as you do something in the galaxy where Zhao Ling is, this world lord will be hunted down by the Tianyan Kingdom!

Of course, as long as Zhao Ling finds the Milky Way, he will die in the Tianyan Divine Kingdom and no one will pay attention to him.

But this alone has made countless people excited

It is equivalent to finding a great backer for myself.

However, the biggest disadvantage is that this sum of money is extremely huge, and it is not something that ordinary Galaxy owners can afford just to be certified in the kingdom.

In the higher first-level Kingdom of God, only large galaxies where the imperial capitals of some kingdoms are located will pay certification fees.

But now Zhao Ling is protected by the Heavenly Yan Kingdom!

That is to say, as long as the Milky Way Human Race is in the Milky Way, whoever dares to touch them is against the Tianyan Divine Kingdom!

"I passed the first round of the Tianyan strongman battle, and anyone who passes the first round can choose a large Galaxy as their own territory,

So I chose the Milky Way!"

Zhao Ling explained it, and no one dared to question it anymore!

Of course, I didn't doubt it before, but I couldn't believe it.

"Then if we go to participate in the Galactic Elite Competition this time, we will destroy the other three races!"

With Zhao Ling's affirmation, Martial Dao said in high spirits!

"That's right, if the three major races hadn't been for the action of the Star God, they would have destroyed my human race long ago. This time is the time for them to exterminate the race!!!"

"I waited for tens of thousands of years, I never thought I could wait for this day while I was alive!"

"Hahaha, my human race is booming!!!"

All the elders of the older generation flashed countless hatred when they mentioned the three major races.

Only those who have experienced the war powerhouses of the past know how humiliating the human race was.

Now is the time for the human race to show their shame. If necessary, they will not hesitate to sacrifice their own lives!

"Listen to me first!!!"

Zhao Ling looked at these excited old people, his eyes flickered slightly, and he called them!

"In this battle, I don't want to see any strong man of the human race fall. We have come to this point, there is no need to sacrifice at this time, so everyone will find someone who is much weaker than us during the battle. As for the Star Sea Realm Yes, leave it all to me!"

After Zhao Ling finished speaking, the terrifying aura emanating from his body made everyone present feel a threat of Death.

These strong men looked at each other and nodded at Zhao Ling seriously.

No one wants to die, and at this critical moment of the rise of mankind, they all still want to live and finally brag with their own children and grandchildren!

"Very good, by the way, here are some weapons for me, Cultivation Technique, Martial Skill, leader, you can handle all of them, and keep the rest for those who didn't come!"

As he said that, Zhao Ling took out all the countless weapons, including Cultivation Technique Martial Skill, from his storage ring.

"Hiss!! Is this a Star Sea Realm weapon? My human race doesn't have any, there must be at least a few thousand here!"

"Xinghai-level Cultivation Technique? Damn it! Zhao Ling, you stole the treasury of that principality!?"

Shouts of exclamation spread among the crowd, Zhao Ling smiled and watched them divide things.

Although there are many people who come, there is still one piece of staff.

Besides, Martial Dao leader is in control!

The starry sky level is all the low-level weapons and armor of the Star Sea Realm. After all, you can't use the higher-level ones, so of course you have to use lower-level ones.

For Xinghai class, all Xinghai class weapons and armor can be chosen at will.

It can be said that they are all armed to the teeth.

The same is true for Martial Skill, and for Cultivation Technique, they always choose the most powerful Cultivation Technique.

After all, Cultivation Technique does not have too many Talent restrictions.

After looking at the Zhao Ling they were choosing, he went back to the room soon.

This time, the competition has been going on for three consecutive days, and it took me nearly two days to break through here.

According to the speed of the spacecraft, it will arrive in a few days.

Zhao Ling picked up the phone and chatted with his own Little Sister, but found out that in two days it will be the First University of the Imperial Capital of Yanshuang! It's time for the start of school!

"Sigh, I didn't expect things to develop so quickly. In just over a month, I have grown into a powerhouse who can destroy the world.

I feel like this development is a little too much!"

Zhao Ling couldn't help complaining.

It's not that the system is so powerful, but Zhao Ling feels normal in the early stage of city promotion, but in the late stage, the speed will definitely be much slower, but Zhao Ling feels that no matter how slow it is, it won't be too slow.

In the next few days, Zhao Ling fought against the strong in the virtual space.

Zhao Ling hung his own name on the ceiling of the room.

Countless people started queuing up to trouble Zhao Ling!

However, Zhao Ling's opponents are limited to the peak of the Star Sea Realm.

At the same time, it is also limited to the owner of the power of the elements that Zhao Ling has not collected to challenge!

Almost every day Zhao Ling goes through hundreds of fights.

The attributes obtained are trivial, the most important thing is that Zhao Ling has increased the power of own elements to more than 800, and at the same time, 400 have reached 100 times that of ordinary Practitioners.

And when the fifth day came, Zhao Ling's journey finally came to an end!

As soon as Zhao Ling came out of the virtual universe, he felt a powerful aura in the distant starry sky!

These auras have reached the peak of the Star Sea Realm!

And there are a total of 700 or 7 strong players at this level!

"It's a bit wrong. Aren't there only three peak star sea realms of the three major races? What's the situation with the extra four?"

Zhao Ling frowned!

But it's just a few Star Sea Realm peaks without the slightest pressure at all!

Even if you give him thousands of them, they will all be the same.

"Zhao Ling, you finally woke up!!"

When Zhao Ling just came out to control, the leader of Martial Dao smiled slightly and said to Zhao Ling 1

"Well, we're already there!!"

Zhao Ling smiled and nodded.

He saw that there were actually a few more Xinghai-level powerhouses around him, and he immediately knew which emperors who were already at the limit of the starry sky realm relied on the breakthrough that Zhao Ling's Medicine Pill Cultivation Technique had achieved in the past few days!

"Yeah, it's already here, but why do I feel something is wrong!!"

The leader of Martial Dao does not have the powerful perception power of Zhao Ling, so he did not notice the changes of the three major races!

It's just that I still feel a little bit of something wrong.

"There is a small change, but there is no problem at all with this change!"

Zhao Ling smiled and said it's all right!

And Zhao Ling's words made Martial Dao, the leader, relieved!

"Just figure it out!!"

The leader of Martial Dao handed over all the right to speak to Zhao Ling.

Zhao Ling looked out of the spaceship, but found a huge planet not far away!

"Chaotic Galaxy? Looks like it's here!!.

Fantasy I Pick Up Attributes In The Future

Chapter 152: Hand Over Zhao Ling! Or Die! ! (5/5)

Zhao Ling frowned slightly, the diameter of this huge planet in front of him was fully a hundred times the diameter of the earth.

That is to say, its volume is a million times that of the earth, and its gravitational force will be about a hundred times that of the earth.

It's just that the gravity of a hundred times has no effect on the people present!

And Zhao Ling's terrifying vision saw a huge arena in the planet with a width of hundreds of kilometers.

There are seats suspended in the sky in the four directions of the arena!

Three of them, on the seats above, are people of different races! Although these people have a little similarity with the human race, for example, they have hands or feet, but their heads and skins belong to star monks!

"These are the three major races: the Liger Clan, the Xiaoyue Sirius Clan, and the Shadow Snake Clan?!"

Seeing this, Zhao Ling frowned slightly, and he knew that these three races were the ones that nearly wiped out the race!

Just as the spaceship was slowly flying into the Chaos Star, Zhao Ling spoke.

"Do you want to have an elite battle? I'm ugly to say before, if you have an elite battle, you will die!!"

Zhao Ling spoke directly to the elites of the human race who had improved in strength after a few days of special training.

Speaking of which, these talents are the future of the human race.

Zhao Ling's words made the faces of the nine teenagers gradually turn serious!

"Although we are not as powerful as your Talent, our courage will definitely not be smaller than yours!"

"That's right, death is a big deal, but even if I die, I will hold back a strong man from the three major races.

The teenagers directly expressed their innermost thoughts to Zhao Ling's questions.

"Very good, since this is the case, let the people of the three major races be happy first, and then let them all go to meet his ancestors!"

Zhao Ling smiled slightly, he was not afraid that these young talents would fail, he was photographing these young people without any kind of drive.

If the human race wants to develop and grow, it is definitely not just about giving good resources, a good environment, and good education to grow.

Every life and death of the human race has survived so far not because of the fighting spirit of the human race.

At the next moment, the spaceship had already flown into the atmosphere of Chaos Star, and soon Zhao Ling and his party descended on the huge arena.

Under the leadership of leader Martial Dao, thousands of people including Zhao Ling flew directly out of the spaceship!

Zhao Ling's eyes swept slightly!

But he was surprised to find that the four extra powerful auras were all from the Xiaoyue Sirius clan!

But Zhao Ling carefully compared the star sea realm powerhouses of the Xiaoyue Sirius clan and found that they all matched with the data of the human race!

But the four extra Star Sea Realm pinnacles are all the powerhouses of the eighth Ninth Stage of Star Sea Realm!

"Interesting, there is no sign of taking Medicine Pill, which means that their Realm grows by itself?"

Zhao Ling suddenly became curious!

"Young master, this Clan of the Moon-screaming Sirius is not that simple, they are a branch of the Moon-screaming Sirius Galaxy that wandered here.

And the Xiaoyue Sirius clan is a relatively powerful race in the Bloodline Kingdom, which is the current Dry Prison Kingdom!

Its ancestor Xiaoyue Sirius King was already a strong man of the domain master level in the previous era, but it is not known whether he is still alive or not. If he is alive, he will be a domain master rank!

The Xiaoyue Sirius family has a characteristic, that is, whenever a planet is full of moon, they can burst out with power several times before. "

At this moment, Old Soul's voice came from Zhao Ling's ring.

"The Xiaoyue Sirius family? Then they became stronger because of the moon in the sky?"

Looking at the weird moon in the sky, Zhao Ling frowned.

"Huh! I know why it feels wrong!!"

Suddenly, Martial Dao leader looked at the sky and said immediately!

Obviously he also discovered the moon in the sky.

"Full moon, it's impossible, how could there be a moon on Chaos Star."

"This is a man-made moon, no wonder these dogs look at us with a smirk. It turns out that they have planned to use the strength of Xiaoyue Sirius to eradicate us!"

Seeing this scene, each and every one of the lords was furious and cursed shamelessly.

But it is, not many people care.

You know, not to mention the strength of Zhao Ling, even the leader of Martial Dao has reached the quasi-universe level!

To deal with the people of the three major races, they can be said to be easy to catch!

"Hahahaha! Old man Wu, you finally brought your human race here!

I just don't know what you think of this great gift we gave you. "

The leader, Xiaoyue Wolf King, laughed wildly and led a group of younger brothers, as well as strong men from the other two races, flying towards Zhao Ling and his party.

In an instant, Zhao Ling and the others were completely surrounded.

At first they were afraid that Zhao Ling and the others would run away after seeing the moon, but they didn't expect them to sneak in foolishly.

"Oh! Little wolf dog, have you forgotten how I beat you so loudly 20,000 years ago?"

The leader of Martial Dao narrowed his eyes slightly, and said to Xiaoyue Wolf King with a smile!

As soon as his words came out, the surrounding air suddenly became quiet!

Xiaoyue Wolf King's face suddenly turned gray-black, although he was originally gray-black.

And the strong men around seemed to think of the situation when the Xiaoyue wolf king escaped with his tail between his legs, and they almost couldn't help but laugh.

"Pfft!!!!"

However, in the end there was still a Erha-like Xiaoyue Sirius who couldn't help laughing.

"Hahahaha, Dage, you haven't seen your appearance at that time, Coke spoiled me!"

Erha, who was really a little dick, laughed so hard that he almost fell into the starry sky.

"!!!!!!!"

The wolf king Xiaoyue roared and kicked out, kicking the Erha directly to the ground like a missile.

The next moment There was a huge boom, and the huge planet shook violently.

Immediately, the Wolf King Xiaoyue looked angrily at the leader Martial Dao.

"Without further ado!

Old man Wu, today I will give you a choice, one, hand over that Zhao Ling, and leave us alone!"

Xiaoyue Wolf King thought he was in control of the overall situation, so he said coldly to the leader of Martial Dao.

At the same time, he glanced at Zhao Ling with a grim smile.

Zhao Ling's matter is so big, and at the same time, it is being broadcast live across the galaxy.

The leader of Martial Dao suddenly disconnected the news, even the fools guessed the trick.

And as long as there is a little interest released, countless people are willing to sell the news (Qian Zhaozhao) to them!

"Hand over Zhao Ling? Absolutely impossible, what is the second item, let's talk about it together!"

The leader of Martial Dao deliberately teased them, but directly refused!

"Hmph, don't hand it in? That's fine, all of you who are here this time should download The Underworld! Go!"

Xiaoyue Wolf King snorted coldly, and in an instant, he exchanged winks with the patriarchs of the other two races!

At the next moment, all the powerhouses of the three major races burst out with terrifying aura and crushed the Martial Dao leader and his party.

At the same time, the Sirians of the Xiaoyue Sirius clan, who became extremely powerful due to the power of the full moon, also exploded with the strength belonging to the peak of the Star Sea Realm!

"Old man Wu, think about it, we have seven strong men at the peak of the star sea realm, and you only have one, as long as I give an order, your human race will be dead!

But in this case, our three major races will also lose a lot more or less, so we still hope that you can hand over Zhao Ling, wouldn't it be great to exchange his little life for the great unity of our galactic races?"

Fantasy I Pick Up Attributes In The Future

Chapter 153: Lan Lingtian! Reincarnation And Reconstruction? (1/5)

Xiaoyue Sirius made Zhao Ling and his group couldn't help admiring his wit and eloquence when he spoke with reason and emotion.

It is also a talent to be able to say this kind of not wanting face.

"But it's a pity! We don't even have a single person at the peak of the Star Sea Realm here!!"

And at this moment, the leader of Martial Dao spoke helplessly!

As soon as his words came out, the faces of the powerhouses of the three major races changed dramatically!

At the next moment, a terrifying momentum burst out!

"boom!!!!"

The terrifying aura that erupted from Martial Dao's lord instantly sent the powerhouses of the three surrounding races flying backwards in an instant.

Only a few strong men at the peak of the Star Sea Realm quickly stabilized their bodies so that they were not blown away.

"Quasi-Universe order, impossible...how is this possible!!"

The Shadow Snake King screamed, and the huge snake above his head glared bursts of unbelievable light.

"Hey!! Old man Wu actually hides so deeply!!"

The patriarch of the lion and tiger clan also has a cold face!

They knew that this time they waited for others to be planted.

There is a human race who is a quasi Practitioner, and it is definitely not something they can resist now.

"Old man Wu, don't be complacent, even if you have become a quasi-universe level, so what, if you really fight, even if you hold back all of our Star Sea Realm peaks, the Star Sea level powerhouse on our side is yours!" Several times!"

Xiaoyue Wolf King snorted coldly, and frantically said to Martial Dao League 927 Lord.

"That's right, even if you can kill us, all of you human race will die except you."

And the Shadow Snake King's eyes lit up when he heard this, and he quickly threatened.

Sure enough, upon hearing this, the leader of Martial Dao slowly withdrew his aura and frowned.

"You are right, our three major races are all races of Life in the Milky Way, there is no need to hurt the harmony of our own family by fighting!

We should unite so that we can become stronger!

A great man in our human race once said that only when the people unite can we defeat all fascism!"

The leader of Martial Dao began to give a speech in awe-inspiring manner.

It stunned the three major races who were originally a little scared.

Even Zhao Ling among the human race couldn't help but feel that he really deserves to be the leader of the human race, and he is straightforward when talking about the big truth.

"Fuck, I understand. Old man Wu is right. We need to be united. Only in unity can we reach the pinnacle of life!"

Xiaoyue Wolf King suddenly became enlightened.

The patriarchs of the other two races are powerless to complain, a dog is a dog, and the IQ is low!

But in the current situation, they can only go along with it.

In the end, the four major races reached an agreement to resolutely maintain the ecological civilization of the galaxy and firmly support the policy of common prosperity.

"Very good, since everyone has decided not to do anything, let's start this year's Galactic Elite Competition!"

After Xiaoyue Wolf King signed and pledged, he immediately said happily.

The other few also hurriedly nodded and said yes!

It's just that when they looked at Xiaoyue Sirius, they all showed a trace of disdain!

And Xiaoyue Sirius didn't know what the two of them were thinking!

"Two idiots, even fools know that the current human race can't be provoked, and they don't know how to avoid the edge. When I go back and contact the master of my Xiaoyue Sirius clan, the little human race will not be my prisoner by then!! "

Xiaoyue Wolf King's idea is very good, but he doesn't know, he may not survive to return to his race!

And the Galaxy Elite Contest was held as scheduled!

In this year's Galaxy Elite Competition, Zhao Ling was asked not to participate because he had the goal of friendly development.

For this reason, Zhao Ling also performed a performance with his feet and chest pounding.

His acting skills are no less than contemporary actor.

However, without Zhao Ling's intervention, the Terran race was in danger.

But there is a boy who has entered Zhao Ling's eyes!

This young man was not very special before, but this time, he exploded with powerful fighting power!

At this time, the arena was at its best, and a young man was fighting a strong man from the Ahu clan with a spear in his hand.

Surprisingly, everyone originally thought that this young liger could crush and beat the opposite boy.

It can even kill this human youth in seconds.

Because this boy from the liger family is the strongest boy in this class!

However, the youths of the human race were only the bottom few at the beginning.

However, the fact is the opposite. The strong (chdd) fighting power of the current human teenagers has made everyone look sideways!

"Yin & Yang Crazy Dragon Shootout!!!"

With the boy's roar, a black and white dragon burst out from the boy's hand in an instant.

This trick is Zhao Ling's famous stunt, of course, Zhao Ling has never used it in the territory of the human race.

But this moment erupted from the young man's hands, instantly horrifying everyone present!

"Martial Skill at the peak of starlight, ten of his starlight main weight teenagers can learn the Martial Skill of the peak of starlight to such an extent."

"This kind of Talent is definitely not inferior to that Zhao Ling."

All the foreigners looked at this young man in horror.

However, the people of the human race are more frightened than them!

"Damn it, it took a few days to cultivate a star-level peak Martial Skill to this Realm, how is Lan Ling Tian so powerful!"

"It's not right, it's definitely not right, but the Martial Skill that this kid chose before is this one!"

The strong of the human race also couldn't believe it, looking at Lan Lingtian above the ring below the child.

"The power of Yin & Yang elements! This kid actually comprehended the power of Yin & Yang elements!!"

Zhao Ling frowned slightly.

Because he felt a trace of Yin & Yang element power from Lan Lingtian's body.

You must know that both the Yin element and the Yang element are one of the rare elements, and now Lan Lingtian has comprehended the power of both elements.

At the same time, his marksmanship skills are also proficient at the intermediate level!

These two points alone can make Lan Lingtian a well-known genius in the starry sky.

At least in the dry prison universe kingdom, it can also be ranked in the top 100.

It's just that the power of these two elements was absent before, and it seems that it was only awakened in the past few days after the Yin & Yang mad dragon shooting was lifted.

And it seems that Lan Lingtian doesn't know that he has awakened the power of two elements.

This kid thought that he had really become the legendary heaven-defying genius.

"However, his ability to comprehend the power of Yin & Yang elements is definitely not related to the awakening of blood!"

You must know that if you don't work hard to comprehend the power of any element, it is absolutely impossible for it to appear by itself.

There are only two possibilities for the power of the elements to appear inexplicably, one is the awakening of the blood.

However, as far as Zhao Ling knew, if one wanted to engrave the power of elements into one's bloodline, one had to reach the bloodline of the holy rank.

And the blood of the human race is just a star blood.

"Is it the second possibility?"

Thinking of the second possibility, Zhao Ling frowned!

Because the second possibility is the reincarnation and rebirth of the strong, which is recorded in the virtual universe, only the strong who have reached the level of immortality have a slight possibility of reincarnation.

"Reincarnation and rebirth! It seems that when you go to Tianyan Shenshan, you have to check to see if there are any strong people among the human race who have practiced the power of the Yin & Yang law at the same time."

As for being worried, Zhao Ling wasn't worried at all. After the reincarnation of such a terrifying character, he would have to start all over again.

And Zhao Ling is not worried that his cultivation speed will be surpassed. .

Fantasy I Pick Up Attributes In The Future

Chapter 154: The Three Races Must Die Today! (2/5)

"boom!!!!!"

Following a huge roar from the audience, Lan Lingtian finally blasted his opponent into bloody spray.

You know, Yin & Yang crazy dragon gun has been cultivated to more than 70% proficiency, and its attack power is extremely powerful in this class.

And with the passage of time, the final result finally came out~.

This game is randomly assigned, only one game, and finally see which race wins-more players!

Among the four major races, three of the Human Race's Tianjiao were killed in the competition! The Tianjiao of other races also ranged from three to four.

All this, Zhao Ling and Martial Dao leader did not take action to stop.

In the end, it was not the human race that won, but the Xiaoyue Sirius clan!

Because of the moon in the sky, the younger generation of Xiaoyue Sirius clan hardly lost.

However, although many people are upset about all this, they can't find an excuse to refute it.

This is the talent of the Xiaoyue Sirius clan, which can be said to be part of its strength, and since the Tianjiao of the human race has chosen to fight, he can only silently accept the consequences of the fight.

That's why Zhao Ling and the others didn't help.

The players who survived all witnessed this cruel battle!

"Battle is like this. If you are weak, you will be beaten. If the leader does not have a breakthrough, let alone them, we will all die here today!"

The military and political marshal looked at the bodies of the three dead contestants and said heavily.

His words made several players finally realize what real reality is.

Reality is not the rosy dream that politicians create every day.

Reality is accumulated with the blood of soldiers.

Zhao Ling stepped forward, holding a trace of the power of the flame element in his right hand!

The next moment, the raging fire completely engulfed the bodies of the three teenagers.

"Okay! Although their death is because they are not as good as others, our human race has to avenge this enmity.

Not only theirs, but also all the frontline fighters of our human race, the players who died in the past dozens of competitions.

Let's end this feud today!!"

When Zhao Ling said this, a terrifying aura erupted from his body instantly!

The Xiaoyue Sirius clan, who were still immersed in the joy of victory, felt this terrifying momentum, and their expressions changed drastically.

"Not good, the human race has to do it!!!"

Xiaoyue Wolf King didn't know what happened.

"Damn it, if you're going to die, let's die together!!!"

The Liger King roared, and his body suddenly became bigger. The next moment, a terrifying liger titan appeared on the planet.

Seeing this, Zhao Ling smiled disdainfully,

"Old Wu, I will leave the starry sky level to you!!"

After finishing speaking, Zhao Ling disappeared in the same place in an instant!

The leader of Martial Dao smiled and then waved his hand!

"Do it!!!!"

After finishing speaking, it stands to reason that he originally rushed towards the Xinghai-level powerhouse, but he actually rushed towards the tens of thousands of Starry Sky-level powerhouses.

You know, the time for the development of the Japanese race is millions of years.

Even tens of millions of years.

The background is extremely powerful, a Xinghai-level powerhouse has more than one hundred thousand Xingkong-level subordinates.

It is nearly ten times that of the human race!

It's just that the words of the strong in the Star Sea Realm don't depend on the background, because the power of the Realm is involved.

Speaking of people of the three major races, their IQ is really not as rich as that of the human race.

Therefore, the number of star sea realms is about the same as that of human races! The sum is three times that of human races.

Although it was impossible for all of them to be present, there were nearly fifty Star Sea Realm powerhouses.

"Empty Sword Formation!!!"

Following Zhao Ling's low cry, a handful of Flying Daggers shot out from the endless void in an instant!

The Kongshen Knife Array and Kongshen Flying Daggers that Zhao Ling is currently using are weapons and Martial Skills once used by the legendary Space God.

As for who the God of Sky is, Zhao Ling doesn't know, he just said so in the introduction of the system.

"Puff puff puff!!!!"

With the sound of body breaking, every Xinghai-level powerhouse of the three races was instantly fatally pierced with a fist-sized blood hole.

At the same time, Zhao Ling came to Xiaoyue Wolf King in an instant, and grabbed his throat!

"Tsk tsk tsk, unite two big races to kill me? Who gave you the courage?"

Zhao Ling looked at the bewildered Xiaoyue Wolf King and smiled.

"You you you... who the hell are you!!"

The Howling Moon Wolf King looked at Zhao Ling in disbelief, and subdued himself who had soared in strength on the night of the full moon with one move!

How could such a person belong to the human race?

"Aren't I the human race Zhao Ling you want to kill? Why are you scared now?"

Zhao Ling's disdainful voice made the Wolf King Xiaoyue's face suddenly terrified.

"Impossible, how could you be Zhao Ling, Zhao Ling is only a teenager according to the information!!"

Xiaoyue Wolf King couldn't move at all, but his subordinates around him didn't care about him at all.

.....ask for flowers.....

Because Zhao Ling didn't know what weapon to use, every moment, a strong member of the clan was killed.

There were more than fifty Xinghai-level powerhouses in just three seconds, and there were only twenty or so people left.

"Teens? That's right, I'm only in my teens right now. By the way, since you're going to die, let me tell you something that should make you happy. That is, I'm just a man who even Martial Dao Ordinary people who didn't step in!!"

Zhao Ling smiled slightly, and then out of Xiaoyue Wolf King's horrified eyes, a law-breaking power burst out from his right hand.

At the next moment, the Howling Moon Wolf King was like shattered glass and instantly turned into debris all over the sky. The debris flew in the sky and disappeared into the starry sky!

"go to hell!!!"

And at this moment, a giant ax slashed towards the back of Zhao Ling's head in an instant!

...O

"!!!!!!"

However, in the next moment, after a huge roar, the lion and tiger king who attacked Zhao Ling instantly burst into blood mist in the starry sky.

It's just that the giant ax in his hand was kept.

After all, it is also a star sea weapon.

"Do you still want to hide?"

Zhao Ling turned to a corner and asked with a smile!

And at this time, all the star sea realm powerhouses of the three clans have all been killed!

Zhao Ling's Sky God Knife Formation instantly came to the crowd of starry sky realm powerhouses and strangled frantically.

The direction Zhao Lingsui was looking at was a family of dark shadow snakes slowly walking out of the darkness.

"How did you find me!!"

The Shadow Snake King looked at Zhao Ling in disbelief.

"Shadow Realm, do you think I won't be able to find you after realizing this?"

Zhao Ling said disdainfully!

Immediately, a powerful force of shadow elements erupted from his body instantly.

The next moment Zhao Ling disappeared into the starry sky.

This time, the Shadow King's face finally changed!

"Impossible, it's just the power of the elements, how can I not find your trace!!"

The Shadow Snake King roared in the void,

At the same time, he was on guard against the surrounding starry sky.

"Snapped!!!!!"

Suddenly, there was a crisp slap.

At the same time, the Shadow Snake King felt a terrible force slamming on Own's face.

The Shadow Snake King spun several times in the void when he was pulled by this huge force.

The fangs in the mouth were all blown away.

"How, it's cool!! Chuan!!".

Fantasy I Pick Up Attributes In The Future

Zhao Ling's figure appeared on the spot in an instant, and at the same time he said to the Shadow Snake King jokingly.

"Damn it boy, even if I die, I will drag you down The Underworld!!"

The Shadow Snake King roared and rushed to Zhao Ling in an instant, and then his slender body swelled crazily like an inflated balloon.

"boom!!!!!"

With a loud bang, a terrifying energy instantly spread crazily towards the surroundings.

However, Zhao Ling, who was in the center of the explosion, was fine, and at the same time, Zhao Xiang had a thought!

The surrounding space was instantly enveloped by a powerful thought force.

The terrorist explosion that was originally expanding towards the outside world was blocked in an instant, and finally stopped expanding.

In the sky, there is only a huge circular ball of flame surging madly!

Zhao Ling shook The next moment with his right hand, and the explosive fireball shrank crazily.

In the end, it turned into a "five or seven zero" fireball the size of a fist.

And the crazy power inside, Zhao Ling felt, might be able to blow up a universe-level powerhouse.

But Zhao Ling doesn't have that much time to maintain the ball with his mind all the time.

Immediately, he kicked this terrifying bomb formed by the self-explosion of a strong star-level star towards the starry sky.

at the same time.....

"This year's Galactic Elite Competition is still held here. It seems that a big race doesn't have much thought at the moment!"

In a single-handed spaceship that is rapidly flying towards the chaotic galaxy, the star god stands in the control room and looks at the chaotic galaxy not far away.

"Alert alert...There are universe-level energy fluctuations, warning warning!"

However, at this moment, Star God sent a crazy notification sound from a universe-class spaceship!

"Universe class? Not good! Something went wrong!!"

The star god didn't know that something big happened, The next moment, he flew out of the universe in an instant!

Not far away, a fireball shining with terrifying power rushed towards him.

"Humph!!!!!"

Following a cold snort, the Star God slapped the fireball instantly.

"!!!!!!!"

After a terrifying bang, this fireball instantly spread to all directions of the universe.

Swallow the Universe that is nearly hundreds of millions of kilometers around.

"Sure enough, it's a universe-level attack. It seems that something happened to Xiao Wu and the others!"

What he sensed from the explosion was not the breath of the Galaxy people.

So this Universe-level powerhouse is not the Galactic Terran.

At the next moment, the star god turned into a stream of light and fled towards the distance in an instant!

The star god whose true strength has reached the fifth sixth stage of the domain master is definitely much faster than his universe-class spaceship.

"There are still 30,000 star-level ones!!"

After Zhao Ling killed the Shadow Snake King, he looked at the 30,000 star-level powerhouses who were besieging and beating the human race.

Because all the star sea realms are on the human side, even though they were besieged by tens of thousands of starry sky-level powerhouses, they still killed more than 20,000 starry sky-level powerhouses.

But the Terran starry sky class is not so lucky.

The energy of those Venerables is limited after all.

Although almost all the starry sky-level powerhouses were held back, there were still nearly 10,000 starry sky-level powerhouses and more than a thousand race emperors fighting.

Fortunately, every strong human race is armed to the teeth, so even if their combat effectiveness is not up to the mark.

Not much life-threatening either.

"Then kill them all with one move!!"

Zhao Ling's eyes flashed slightly, and then a terrifying breath erupted from his right hand.

As soon as this breath came out, the face of the star god who had already arrived at the periphery of the chaotic star suddenly changed.

"Hmph! No matter who it is, I will kill you!!"

The Star God snarled and then accelerated even more.

At the same time, a terrifying aura erupted from his body.

On the Chaos Star, Zhao Ling frowned slightly!

"Who is the aura of the pinnacle of the Universe?"

Zhao Ling's face is slightly serious!

"Could it be the killing of the Xiaoyue Sirius clan?"

Zhao Ling thought to himself, but it's impossible to be so fast!

"It doesn't matter, kill the people of the three clans first!"

Zhao Ling, who has Elder Soul as his backing, doesn't care at all, it's just a universe level!

Immediately, the huge ball of light in Zhao Ling's hand exploded instantly, turning into rays of light that filled the sky.

These lights are like raindrops that instantly enveloped the entire chaotic star.

Seeing this scene, Star God's expression turned cold instantly!

"Boy, go to hell!!!!!"

In his opinion, under a single strike by Zhao Ling, everyone on the entire Chaos Star is dead.

At the same time, even the leader of Martial Dao and the others couldn't hide.

At the next moment, Star God slapped Zhao Ling angrily.

The terrifying momentum seemed to smash the whole world into pieces!

"Young master, this person has the strength above the fifth stage of the domain master!!"

Soul Lao's voice instantly reached Zhao Ling's mind.

And Zhao Ling frowned slightly.

It is also secretly shocking the opponent's strength, but if it is only the domain master Fifth Stage, it seems that he is not the opponent of the old soul.....

"Old Soul, I will trouble you!!"

Zhao Ling said solemnly to Mr. Hun!

Zhao Ling is not yet arrogant enough to fight against the powerhouses of the Domain Lord Fifth Stage.

"Hahaha, it's finally time for the young master to be useful to the old man. I thought I would never have this chance in my life!"

Old Soul's happy voice came from the ring.

It stands to reason that Zhao Ling only had the strength of a Grandmaster when he just obtained the Blood Network Star inheritance.

His blood soul should have the ability to protect and escort Zhao Ling.

However, it is a pity that Zhao Ling's improvement in strength is really terrifying.

It's only been more than twenty days!

At this speed, Blood Soul is guessing that maybe he will be reduced to waste after waiting for a month.

I didn't expect such a star god to appear now!

"boom!!!!!"

The terrifying giant hand transformed by the power of the Star God's Law slammed towards Zhao Ling like a huge mountain shrouding the Heavens covering the sun.

"Humph!!!!!"

Suddenly, a cold snort that shook the world came out from the endless void.

The next moment, a white-haired old man appeared in front of Zhao Ling instantly.

At the same time, the old man pointed out.

The next moment A terrifying energy erupted from the old man's fingertips.

"Annihilation Starry Sky Finger!!!"

Hun Lao let out a low cry, a terrifying energy completely different from the power of human law erupted from his fingertips.

The next moment, a terrifying finger that shrouded the heavens collided with the big handprint of the star god in an instant.

"Boom, boom..." 5.5

The entire Chaos Star was instantly shaken crazily by the terrifying energy collision.

"Not good, if you continue to fight like this, the Chaos Star will explode!!"

Zhao Ling frowned suddenly!

Immediately, the thought burst out instantly and picked up all the attributes of the treasure box that had been dropped from the ground after being bombarded by him.

"Everyone leave Chaos Star first!"

Zhao Ling sent voice to the minds of all human beings.

And the human race, who were still fighting to the death, suddenly saw terrifying energy raindrops falling and killing all the enemies in front of them.

The next moment There was a burst of terrifying energy in the sky.

At this time, they still don't know what happened.

"Zhao Ling, can you stand it?"

The leader of Martial Dao felt two terrifying forces and immediately turned to Zhao Ling, who is huge!

"If you can't stand it, you have to stand it! You guys go away!!".

Fantasy I Pick Up Attributes In The Future

Chapter 156: The Powerful Old Soul! !

And following Zhao Ling's words, the leader of Martial Dao and the others also knew that staying here was of no help, so they all flew towards the universe!

"boom!!!!"

However, at this moment, there was another terrifying roar.

I saw that Hun Lao had already collided with the other party.

The two erupted with terrifying fighting power at the same time.

The surrounding space was bombarded with shocks.

However, at this moment, the much stronger Hun Lao began to explode!

"BLACK HOLE!!!!"

Following Hun Lao's low shout, the next moment was a strange wave in his right eye.

In the starry sky ahead, a void was instantly shattered by a terrifying unknown force!

The next moment, a void black hole produces and sinks instantly.

At the same time, the terrifying attraction instantly sucked the surrounding light and countless meteorites towards the black hole.

Even the huge chaotic stars began to be sucked into the black hole.

"Not good, he is a domain master's peak intelligent life!!"

Star God frowned instantly!

The strength of this level of intelligent life is definitely not something he can beat!

"Huh? Xiao Wu and the others are not dead?!"

Suddenly, the star god finally sensed the breath of the human race, including the leader Martial Dao.

Seeing this, he looked at this intelligent life in front of him in disbelief!

"In other words, the owner of this intelligent life and human beings are not enemies!!"

Xingshen, who finally figured out the whole story, couldn't help but slap himself twice.

He was so excited just now that he didn't even know whether it was an enemy or a friend!

However, Elder Hun on the opposite side waved his hand.

A terrifying electromagnetic force instantly hit the Star God's chest!

"puff!!!"

Star God was instantly blasted so that a mouthful of blood spewed out of his mouth.

But the ray of light that shone on him made Zhao's brows twitch.

"Vajra is not bad magic!!!!"

In an instant, Zhao Ling guessed what this ray of light represented,

"Could he be the Star God!!"

Zhao Ling also guessed the other party's identity in an instant, to have such strength,

At the same time, the opponent's actions just now did not seem to be to save people from the three tribes,

It seems that he thought he killed Martial Dao leader and the others. That's why I went crazy.

"Black hole devours!!!!"

However, just as Zhao Ling figured it out, he heard the old soul in the sky shout 1

"Fuck, I'm dead!!"

Zhao Ling was speechless for a moment, if his own people killed his own people, it would be a huge oolong.

And the star god who was sucked into the black hole by the terrifying suction in the starry sky closed his eyes in despair!

"Old soul, stop!!!"

Suddenly, a loud shout came.

At the next moment, Star God felt a hand grab Own's clothes in an instant, pulling Sun out of the black hole.

Star God opened his eyes and saw an old man lift himself up to a young man!

But the aura emanating from this young man is not much weaker than his own!

At the same time, he felt that this boy was definitely not more than twenty years old!!

"Hiss! Possess universe-level strength before the age of twenty! How is this possible!!"

Xingshen looked at Zhao Ling in front of him in disbelief!

This kind of talent is far inferior to the number one on the Tianyan Qianlong list.

Suddenly, his face changed instantly!

"You...you are Zhao Ling!!!"

Star God looked at the young man in front of him in disbelief.

Zhao Ling's prestige is extremely terrifying in the entire Universe right now.

In the Tianyan Universe Divine Kingdom, people don't know that the sons of the Tianyan imperial family are normal, but they definitely don't know who Zhao Ling is.

"Yeah, I am!!"

Zhao Ling, Shi Yihun, released the old man, and said to the Star God with a smile!

Hearing Zhao Ling's confession, Star God suddenly remembered that Zhao Ling was the one who robbed his own Milky Way, and there really wasn't much wrong here.

As for guessing that Zhao Ling is a Galactic Terran, how is it possible!

He didn't believe that a one-star blood race of his galactic human race would be a member of his galactic human race.

"The next Star God belongs to the Galaxy Human Race. I misunderstood it before and offended me. If Master Zhao Ling wants to blame me, please punish me, and please don't embarrass my Galaxy Human Race!

After knowing Zhao Ling's identity, Xing Hai immediately knelt down on one knee and pleaded guilty to Zhao Ling.

Now he just begs Zhao Ling not to trouble the galactic humans!

Seeing this scene, Zhao Ling felt helpless. The Star God felt how weak the Milky Way was. He still didn't believe so many signs that he was a Milky Way human.

"Star God Senior, get up first, I won't do things like embarrassing the Galaxy people, after all, who has nothing to do to embarrass themselves!"

Zhao Ling raised his hands in the air, and then the Star God was lifted up by a gentle force.

However, the star god can be lifted up at this time, because he is already stunned!

The whole person seemed to be emptied of his soul in an instant, and looked at Zhao Ling with a dull expression.

"Embarrass yourself? Embarrass yourself!?"

The star god who couldn't believe it kept chanting this sentence.

"Eh, I won't be scared stupid!"

Zhao Ling felt powerless to complain.

After all, he is also a figure in the legends of the human race, such a small matter is unacceptable!

You know Martial Dao leader and they accepted it very quickly!

In fact, the facial expression of the star god is the expression that a normal person would have after understanding the universe.

The more you understand the vastness of the universe and the insignificance of human beings, the more you can understand the horror of Zhao Ling!

The leaders of Martial Dao and the others quickly accepted it. To put it bluntly, it is the same truth as a newborn calf is not afraid of tigers.

They all just know that Zhao Ling is awesome, but they don't know where Zhao Ling is awesome.

"Master Zhao Ling, it's unbelievable that you are actually from the Galaxy Terran. How could my Terran produce such a genius as you!"

Star God asked Zhao Ling at a loss, his excitement can be said that no one can express 527!

Looking at the other party's excited look, Zhao Ling understood a little bit.

"Speaking of Star God senior, I'm still your descendant. I don't care if you're an adult or not. Just call me Zhao Ling with Elder Wu!"

Zhao Ling smiled, and then sent a message to the leader Martial Dao asking them to come over.

At the same time, let the old soul enter the own ring.

"Hahahaha, Zhao Ling is my galactic human race! If I tell those old people this news, I don't know if I will be scared to death.

Alright, now my humans don't have to worry about being bullied!"

Star God laughed loudly, and his laughter shook the surrounding space trembling.

Zhao Ling looked at this slightly vicissitudes of the middle-aged man, knowing that the other party is working hard in the outside world, so that one day the race can stand safely in the universe

Speaking of it, Zhao Ling still admires it.

"Zhao Ling, are you okay!!!"

But at this time, a large group of people flew from a distance, and the leader, Martial Dao, asked Zhao Ling eagerly.

"Xiao Wu, you have become a quasi-universe class!!"

And the moment he saw Martial Dao leader, Star God suddenly smiled!

And his voice suddenly made the leader of Martial Dao, who only had Zhao Ling in his eyes, stiffen.

"Fuck, master, you're still alive!!"

However, the first words of Martial Dao leader made the corners of Zhao Ling and Xingshen's lips twitch slightly.

What a fresh and refined meet and greet!

"You boy, is your skin itchy again?!".

Fantasy I Pick Up Attributes In The Future

Chapter 157: Prison King! ! (Seeking Subscription)

In front of so many people, being asked by my disciples why I am still alive, even your clay figurine will be angry,

"You boy, your skin is itching again!!"

When the Star God said this, he gave Martial Dao a fierce look.

The leader Martial Dao trembled in fright.

It's like going back to the time when I was beaten every day!

"Cough, cough, master, look at my age, if you keep using too much force, you may die. By the way, let me introduce to you, this is Zhao Ling!"

The leader of Martial Dao quickly broke the topic of own, and then a group of people left the chaotic Galaxy in a spaceship while chatting.

Only through the introduction of the star god did Zhao Ling know that looking for Zhao Ling in the current dry prison universe kingdom has turned the sky over.

"It turns out that Star God Senior was the one who robbed me of the Milky Way in the virtual universe? Let me tell you, who would want such a remote planet as the Milky Way except the human race!"

Zhao Ling smiled helplessly. If the two of them could sit down and talk at the beginning, there would be no such misunderstandings now.

"Hahaha, you kid too, I was happy to snatch things from other strong men back then, but I was forcibly snatched by you, you know I was shocked at the time, I actually snatched things from Zhao Ling .

If you use your own power, my little arms and legs can't stand it!"

Star God smiled helplessly.

It's not that he's timid, but that Zhao Ling's reputation is so great. As long as he speaks a word, there must be a large number of powerful people rushing to destroy the Galaxy people.

"Don't talk about you! When you rejected me, I was half dead with anger."

Zhao Ling also smiled.

"Unexpectedly, master Zhao Ling, the two of you had such a misunderstanding before, it really is not acquaintances, but then again!

Master, do you still have a Galaxy to occupy now!?"

Speaking of this, the leader of Martial Dao looked at Master Own with bright eyes.

He was adopted by the Star God since he was a child. In his eyes, the Star God is his father, and the Star God treats him the same way, so he doesn't have many scruples!

"Well, that's right, I was in a hurry to come back this time, and I wanted to move the elite of the Galactic Terran out of the galaxy from the very beginning.

Now that I know that Zhao Ling is my Galactic Terran, it is not so necessary.

Fortunately, I haven't chosen which Galaxy is, otherwise I will be in trouble. "!"

Star God smiled.

And the spacecraft flew towards the solar system at high speed amidst their conversation.

When I went back, because I took the Star God's Universe-class spaceship, it took me more than ten days to get there, but it only took about an hour.

Zhao Ling also has a little understanding of high-level universe spaceships.

"Old Soul, what materials are needed to restore the Blood Soul Ship!"

Zhao Ling asked curiously to Elder Soul, after all, the Blood Soul Ship is a genuine World Master-class spaceship.

If it can be repaired, it may not take a few minutes to travel through a galaxy.

"Young master, you don't need to think about the restoration of the blood soul ship. Maybe it will be very simple after the young master enters Tianyan Shenshan. After all, the blood soul ship is no better than the ordinary world master spaceship!

Hun Lao was also a little helpless.

Zhao Ling also gave up this unrealistic idea after hearing Old Soul's words!

However, at this moment, in the distant starry sky, a glittering world master-class spaceship rushed into the Milky Way in an instant!

"My lord, we have resisted the galaxy where Master Zhao Ling is, and have detected the location of Master Zhao Ling!"

In the control room, a middle-aged man in Chinese clothes with firm eyes was standing in the center of the control room, listening to the reports from his subordinates.

And the strength of the person who reported to him has reached the terrifying domain master level!

As for the middle-aged man, he is a real world master!

And it is also a powerful World Master Seventh Stage.

And he is the king of the Universe Kingdom, the King of Prison!

"Finally found it, no wonder Zhao Ling hasn't been found for so long, I didn't expect this Zhao Ling to be in such a remote galaxy!"

The Prison King looked at the insignificant little Milky Way on the star map, and shook his head helplessly.

The task assigned by Emperor Long Xiao to himself was to find Zhao Ling. However, he didn't know until he finally found out that Zhao Ling's message was sent to his own hands.

He had no choice but to go to the Milky Way in person to register Zhao Ling's Milky Way.

"How long will it take to reach Zhao Ling's location!"

The Prison King asked solemnly!

"One more minute!!"

His subordinates replied.

"One minute? Very good [prepare for the highest standard of reception! Prepare to meet Zhao Ling!!!"

"It's here so soon! Teacher, do you have any spare Universe-class spaceships?"

Looking at the huge earth floating in the universe outside the spaceship, leader Martial Dao couldn't help but said with emotion.

"Hmph! Do you think the universe-class spaceship is a Chinese cabbage? You can have it if you want it!?"

The Star God glared fiercely at the leader Martial Dao.

The surrounding Venerable and the Emperor saw that the Martial Dao lord, who was boundless and serious in the past, was scolded, and immediately hid and laughed.

"Alert, alert! An ultra-high energy field is approaching! An ultra-high energy field is approaching, and it is estimated to be above the realm master level! Please be prepared!!"

And at this moment, the rapid siren of the spaceship came, which immediately changed the faces of the people present!

"The energy field at the level of the lord? Is it the approach of the strong at the lord level? Then prepare the wool and wait for death?"

That was the only thought on everyone's mind!

However, at this moment, a terrifying aura instantly appeared in the starry sky outside!

A terrifying spaceship thousands of kilometers long appeared in the holographic image of the spaceship.

And that destructive aura came from the spaceship.

"Old soul, what level is this person here!?"

Zhao Ling frowned slightly and asked solemnly, as for resistance, Old Hun's strength seemed irresistible!

"Young master, it seems that if it is an enemy this time, it will really be cold. The person who comes here is a genuine world master, and his strength should be above the fifth stage of the world master!"

The old soul's helpless voice came, if the world lord is a Second Stage, he can still use his life to delay it, however, the world lord Fifth Stage,

He could only be slapped to death.

"Is there no other way?"

Zhao Ling frowned slightly!

"Let's see the situation first!!"

(Li Wangzhao) Hun Lao appeared next to Zhao Ling's forehead in an instant, and said with a solemn expression.

And at this moment, the spaceship in the distance slowly opened.

A group of legions exuding a terrifying aura rushed out of the spaceship neatly.

The rigorous pace, movement, and uniform strength of these legions made it obvious at a glance that this was not a fighting team.

More like a guard of honor!

The next moment A melodious music rang and trembled in the universe starry sky.

"Hey! This is the national anthem of the Dry Prison Universe Kingdom! This is the national anthem that can only be played when the Dry Prison Universe Kingdom appears!!"

Star God frowned and said in surprise.

Sure enough, a man exuding a dignified aura flew towards Zhao Ling's spaceship under the bath of the national anthem.

"It's really the king of the universe kingdom!"

Star God looked at the middle-aged man outside in disbelief!

"Your Excellency Zhao Ling, I am the king of the Kingdom of the Universe, and I want to talk to you. May I have time?"

Fantasy I Pick Up Attributes In The Future

Chapter 158: The Power Of A Thousand Elements!

In the virtual universe.....

"Broken star shooting!!!"

With a loud shout, Zhao Ling instantly smashed a Universe Seventh Stage opponent into dots of light all over the sky!

At the same time, a golden pentahedral crystal fell to the ground while the light spots were rising into the sky.

When Zhao Ling moved his mind, the crystal flew into Zhao Ling's body in an instant!

"Ding... Congratulations to the host for picking up the power of the element: light!!"

"Ding... Congratulations to the host for reaching 10000% of the power of the element of light."

After Zhao Ling shattered this star sea realm, it means that Zhao Ling's light element has reached its apex!

After the Prison King found Zhao Ling a few days ago, Emperor Long Xiao also met Zhao Ling in the virtual universe the next day.

Emperor Longxiao is to let Zhao Ling enter Tianyan Shenshan as the Dragon Xiao Empire.

Of course, it doesn't mean that he can get any benefits, but Zhao Yu's talent is very likely to be poached by other empires.

At that time, this honor will not belong to his Longxiao Empire.

At their level, there are not many pursuits anymore, the only pursuit is Face!

Even for some strong people, face is more important than life!

Zhao Ling naturally agreed to the other party, anyway, he is in the territory of Long Xiao Empire.

You don't have to do anything, and you get some benefits!

Speaking of which, Emperor Long Xiao is really generous.

Send people to repair the blood soul ship that day.

All kinds of precious materials were thrown towards the blood soul ship.

In just one day, the blood soul ship 813 not only suddenly became new, but also became much stronger than before, and has completely entered the ranks of spaceships at the peak of the world master rank

At the same time, a hundred galaxies around were drawn to Zhao Ling.

Zhao Ling didn't refuse either, after all, if the human race is just two galaxies, it can't develop too much.

What's more, there is now a star god, a superpower whose strength is comparable to the domain master level, sitting in charge.

Now the human race has the strength to establish a principality!

Of course, Zhao Ling has no time to do these things.

"My current elemental power has reached nine hundred and ninety-nine, and the difference between one is one thousand. The system once said that if Song wants to reach ten thousand elemental power, there will be an unexpected surge.

Just don't know what the surprise is!?"

Zhao Ling's eyes flashed slightly!

"Customize your opponent! Possess the power of the law of flickering, below Universe Seventh Stage! Start drawing!"

Zhao Ling said directly to the sky!

"Understood, start drawing challenges that meet the standards!"

The voice of the guide in the sky sounded again.

"The extraction is complete! Please wait for the summoning to begin!!"

With a notification sound from the sky, a middle-aged figure appeared on the opposite side of Zhao Ling!

"Hahaha, Zhao Ling! I was actually drawn by you!!"

The middle-aged (chch) smiled happily after seeing Zhao Ling.

And Zhao Ling is sure that the other party must be taking pictures and sending them to Moments.

"It's an honor for me to play against senior too!!"

Zhao Ling smiled! Then he made a gesture of please!

The next moment The spear in his hand flicked slightly, and a sharp light shone under the sun!

"It is said that Zhao Ling is a humble person, and now it seems that it is true, since he is so hungry, let's do it first!!"

The middle-aged man smiled slightly, and then a long sword appeared in his right hand!

A strong Sword intent lingers above the long sword!

"Breaking Flash!!!"

With a low shout from the middle-aged man, the whole person instantly disappeared in place!

The reappearance has come to Zhao Ling's back, and his long sword is stabbing towards Zhao Ling!

"Broken Star Spearmanship!!!"

Zhao Ling raised his brows, let out a low shout, and the instant element was activated instantly, and his whole body instantly came to the back of the middle-aged man, and then shot out!

The terrifying force made the face of the middle-aged man change drastically!

"Blinking!!!!!"

With a low shout, the middle-aged man's body flashed aside in an instant.

Instantly avoided Zhao Ling's shot!

The Law of Blink is actually similar to the Law of Moment!

It's just that the law of instant is long-distance transmission, teleportation, and the speed is relatively slow.

And the flickering law is to flash quickly at close range!

Both are components of the legendary power of space law.

And Zhao Ling has reached the limit of using the power of the instant element!

So as the two of them fought frantically back and forth, they were all around.

But it's a pity that the current Zhao Ling is only using one of his countless methods, but his opponent is using all the fighting power!

"Invisible Flash!!!!"

Suddenly, Zhao Ling let out a low shout, and disappeared in place in an instant!

There are traces of Zhao Ling's disappearance before, but this time Zhao Ling really disappeared in an instant.

And it disappeared without a trace!

"Unexpectedly, Zhao Ling is so powerful!!!"

The middle-aged man snorted coldly, then looked at the surrounding space vigilantly!

He knew that if he didn't find Zhao Ling quickly this time, he might lose.

Suddenly, a terrifying breath of Death came down from the sky.

"Not good on top!!"

The middle-aged man suddenly raised his head.

I saw a round of terrifying black giant balls frantically condensing in the sky.

And Zhao Ling's figure is right next to the black giant ball.

"Dark Black Devil Ball! Pro!!!!"

Following Zhao Ling's low shout, he slapped out with a palm, and this huge black magic ball exuding the aura of Death slammed down into the ground like a black planet.

At the same time, the zero middle-aged man was horrified that Own's body was imprisoned by an invisible force!

"Damn it, are you going to lose like this!?"

The middle-aged man looked decadently at the terrifying black ball that fell from the sky.

At this moment, he finally knew why Zhao Ling was able to break through the extremely terrifying Tianyan Divine Tower beyond three major stages.

"Boom, boom....."

After a loud bang that shook the sky, the arena that was tens of millions of kilometers in size was instantly shattered.

If it wasn't covered by the huge shield around it, the explosion would have a range of at least hundreds of millions of kilometers.

Zhao Ling was speechless when he looked at the terrifying deep pit where he couldn't see the bottom.

"Fall so deep, what's the matter?"

Helpless, Zhao Ling could only rush into the ground Flying Daggers hundreds of kilometers deep in the ground to find the power of law dropped by the middle-aged man after his death!

After a few minutes, Zhao Ling finally found a transparent law crystal in a corner.

"Ding... Congratulations to the host for picking up the power of the element: flicker!"

"Ding... Congratulations to the host for flashing element power concentration: 10000%"

Because the opponent is a universe-level Seventh Stage powerhouse, the power of the flickering elements has directly reached its peak.

The elemental crystals dropped by the strong below the Star Sea Realm are generally double to ten times larger.

The universe-level powerhouses are different, the elemental crystals they drop are a hundred times more terrifying!

After all, what you have mastered is the real power of law.

"Ding... Congratulations to the host, you have collected a thousand kinds of elemental power, and the system will condense the elemental power into Realm power for you!"

However, the system sent out a news that excited Zhao Ling.

Condensed into the power of elements? That is to say, Zhao Ling can directly pick up the power of Realm in the future?

Thinking of this, Zhao Ling hastily exited the virtual universe.

"Ding... the power of the Realm is about to start gathering, it may cause some damage, please prepare the host!"

Fantasy I Pick Up Attributes In The Future

Chapter 159: Crystallization Of The Law Origin! ! (Three More)

However, just after Zhao Ling sat down, the system's prompt came!

Now Zhao Ling has returned to Yan Mars.

If it really breakthrough in this place, not to mention the flames, the entire small galaxy will be destroyed in an instant!

"Old soul, help me start the spaceship and leave the galaxy!!"

Zhao Ling spoke directly to the smart watch.

The next moment Zhao Ling flew out of the house, just in time to see Baizhi playing with Xueer.

Zhao Ling didn't disturb them, just glanced at them, got on the spaceship and disappeared into the flames in the next moment.

The blood soul ship has now been completely repaired, and its performance has reached the apex of the master-level spaceship.

It is a small level higher than the spaceship of the king of the universe kingdom.

So it took less than a minute to fly out of the Milky Way.

Finally Zhao Ling entered a barren galaxy-!

In this galaxy, Zhao Ling saw countless Death planets.

"Well, very good, here it is!!!"

Zhao Ling flew out of the spaceship in an instant, and at the same time asked Hun Lao to wait for him not far away.

"The system starts!!!"

After finding a quiet place, Zhao Ling spoke directly to the system.

"Ding... the power of Realm will start to gather immediately, please prepare the host!"

Following the sound of the system's notification, Zhao Ling lost consciousness in an instant!

The next moment, he came to the Sea of Own Consciousness!

In this sea of consciousness, a thousand elemental crystals are flying,

The center of these thousand elemental crystals is surrounded by a huge mind power crystal, and there is also an incompatible giant crystal.

The crystallization of mind power is because mind power is not a kind of law in the first place.

As for the giant crystallization, Zhao Ling seems to be something more advanced and the power of these elements, and it feels more like a bloodline Talent.

As for the power of the Law of Death and the power of the Law of Destruction, it is as if the uncle stood not far away and occupied half of Zhao Ling's sea of consciousness.

That is to say, adding the Psychic Crystals and Giant Transformation Crystals, Zhao Ling now has a total of one thousand and two crystals!

However, while Zhao Ling was still watching, a thousand elemental crystals in the Sea of Consciousness suddenly started to riot wildly.

The power of countless elements lingers in it.

Immediately afterwards, the power of the elements began to spurt out from the elemental crystals one by one crazily.

The power of elements of various colors instantly spread to the entire sea of consciousness.

At the same time, the volume of the elemental crystals is also rapidly decreasing.

Zhao Ling knew that these elemental crystals seemed to be completely vaporized and finally turned into elemental power.

Finally, when all of Zhao Ling's elemental powers were transformed into boundless elemental powers, the mutation began to happen!

The power of a thousand elements is frantically gathering towards the center. And there is a terrifying force crazily compressing the power of these elements!

"Damn it, the system, you said that this is how to condense the power of Realm?"

Zhao Ling watched the system doing things in the sea of own consciousness speechlessly.

However, the system chose to remain silent on Zhao Ling's question.

Under the violent kneading of the system, a crystal clear black-gold hexahedron crystal appeared in Zhao Ling's sea of consciousness.

Zhao Ling looked at this crystal and frowned slightly!

"Does it make any difference?"

Zhao Ling asked suspiciously!

However, the next moment, Leng Yu knew the difference.

I saw the hexahedral black crystal suddenly trembling.

At the same time, runes between heaven and earth floated out from the void, and finally printed on Zhao Ling's and black gold body.

If Power was here, seeing this scene would definitely be beyond shocking.

Because these runes are the original marks of the law between heaven and earth.

The appearance of these marks means that the world has recognized Zhao Ling.

The power of law used through these imprints is several times the power of ordinary law!

Only a small number of people in the countless epochs can get such an honor, and this honor only has a seal of the original law.

There are only a handful of people in history who can obtain two original imprints!

However, Zhao Ling now has a full thousand kinds.

At the same time, as Zhao Ling comprehends more and more powers of the elements in the future, the black and gold crystals Yue Ling will have imprints of the power of laws!

Finally, as time passed by every minute and every second.

The imprint of the original law that emerged between the heaven and the earth has also been fully integrated into Zhao Ling's black and golden crystal.

Adding the power of the two kinds of laws, a total of 1,020 law origin imprints are engraved on this huge law origin spar.

A kind of noble atmosphere exudes in it.

"!!!!!!"

However, at this moment, the source spar of the law emitted a slight fluctuation.

The fluctuations of these strands enveloped the surrounding space.

Various messages reached Zhao Ling's mind.

Rattt.....

These messages are all about how to use the power of the Realm.

At the same time, Zhao Ling also knows that the power of own elements has been condensed into the power of Realm when the original crystal of law appears!

It's just that I don't know how to use it, but now it's different.

"Ding...Congratulations to the host that all the elemental powers that have reached the limit have been condensed into Realm power! Other elemental power hosts can choose to directly condense into Realm power when they reach the limit!"

"Ding... Congratulations to the host for awakening the crystallization of the source of the law! With the source of the law, the power of the law will increase tenfold!"

However, Zhao Ling was stunned by the beeps from two systems in succession.

The crystallization of the origin of the law? It can actually increase the power of the law by ten times!

Although the current power of Zhao Ling's law only has the power of the law of destruction and the power of the law of Death.

After using the Blood Devil gun for so long, the power of Zhao Ling's Death law has reached 5%!

That is to say, the current Zhao Ling can use the power of Death Law to reach 50%?

And the power of the law of destruction that has reached 18% can use 180% of the power.

And you must know that, as one of the four supreme laws, Zhao Ling has hardly used the power of these two laws.

But even when there was no bonus before, Zhao Ling used the power of these two laws, and the average universe-level peak powerhouse was not his own opponent.

In other words, the current Zhao Ling is already strong enough to fight against domain master-level powerhouses.

Zhao Ling's consciousness came to the center of the Sea of Consciousness, looking at the crystallization of the original law that has become the center, Zhao Ling is not thinking about anything!

Around the current law source crystal, there are two powers of law, mind power crystal and giant crystal.

Even the two supreme laws are now bowing to the crystallization of the original law.

It is enough to see how great Zhao Ling's improvement is now.

"With the current strength, I can also have a little way to settle down in the universe, but I don't know how much strength I can improve when I arrive at Tianyan Shenshan."

Zhao Ling looked at the time, about a day had passed, and today seemed to be the time when the strong man from Tianyan Shenshan came to pick him up!

The next moment Zhao Ling came out of consciousness.

At the same time, the power emanating from his body is more than ten times more terrifying than before!

The surrounding starry sky trembled uncontrollably under Zhao Ling's aura.

"Destroy Realm!!! Mouth!".

Fantasy I Pick Up Attributes In The Future

Chapter 160: Death Threat! Immortal Powerhouse! (Four More)

"Destroy the Realm!!!!"

Following Zhao Ling's low shout, the surrounding starry sky was instantly enveloped by a terrifying energy fluctuation!

Everything in the starry sky within a range of 100 million kilometers began to be turned into nothingness by the Realm burst out by Zhao Ling.

Zhao Ling's thought moved instantly, and the power of this Realm instantly enveloped a huge Death Star not far away.

With a sound of fluctuation, this dead star disappeared into the starry sky in an instant, as if it was wiped directly.

No trace was left at all.

The next moment Zhao Ling instantly withdrew the power of Realm.

"The Realm power that ordinary people have just broken through is only a hundred kilometers in size.

But after growing to the limit, it can reach a thousand kilometers!

It's just that my current other elemental power has reached a hundred times the limit of ordinary elemental power, and as long as I break through, it can reach a diameter of 100,000 kilometers.

And after reaching the "five six three" limit, it can reach 100 million kilometers. "

Of course, although the size is 100,000 times that of ordinary people, the power is not so terrifying, but it is also 100 times that of ordinary people.

However, the Realm, which is condensed from the power of the law of destruction and the power of the law of death, has directly reached its limit.

However, at this moment, the space around me suddenly began to tremble violently.

Zhao Ling's face turned serious instantly.

Because he felt as if something was about to come out of the surrounding space!

But I don't know what to expect!

"boom!!!!!!!"

However, just after a huge roar, the starry sky in front of Zhao Pu burst open a huge gap in an instant.

The next moment a huge space tunnel appeared in front of Zhao Ling.

At the same time, Zhao Ling felt a strong breath of Death coming from the space.

"What exactly is this!?"

Zhao Ling frowned, and at the same time contacted the old soul, the blood soul ship, to come over!

And he also exploded with all his strength and fled towards the distance.

However, he found that the space around him seemed to be shielded, and in his distance, the old soul in the blood soul ship had not received any news!

"o3L!!!!!!!"

The next moment, a huge beast roar came out from the space tunnel.

Immediately afterwards, a huge beast claw shrouding the heavens covering the sun came out from this space with a slap!

The terrifying force locked Zhao Ling in an instant.

The next moment, this terrifying giant claw pinched Zhao Ling in the palm of his hand.

"Damn!!!!"

Zhao Ling couldn't help but swear!

And the huge animal claws immediately retracted into the space tunnel after catching Zhao Ling and disappeared.

And this space tunnel The next moment opened up with great power also disappeared into the starry sky.

"Om!!!!!!!"

A few minutes later, the figure of a middle-aged man appeared on the spot instantly.

"Hmph! You're late, Damn it Zerg! You think you can escape!?"

The middle-aged man snorted coldly, and then blasted his big hand into the void!

"!!!!!!!"

With a loud noise, the space in front of him was instantly smashed into a huge hole.

Just when the middle-aged man was about to rush into the space tunnel, his expression suddenly changed!

"Not good, eternal life in heaven!!!"

The middle-aged man let out an exclamation, and then flashed aside instantly.

"boom!!!!!"

At the next moment, a terrifying energy capable of destroying hundreds of large galaxies blasted out from the space tunnel.

This energy instantly smashed into the endless starry sky, The next moment, an extremely dazzling light instantly enveloped hundreds of large galaxies around it!

Fortunately, Zhao Ling came to this galaxy tens of millions of light-years away from the Milky Way.

The surrounding hundreds of large galaxies are still far away from the galaxy after being destroyed.

And when the explosion started, the middle-aged man put away the blood soul ship.

This blinding light spread across countless galaxies.

This dazzling light can be seen in the entire dry prison universe kingdom.

Those who were so close were even instantly burned by the terrifying light, together with the planet being burned into lava in the starry sky.

Such a terrifying attack naturally attracted the attention of many powerful people.

On the Tianyan Divine Mountain, the Tianyan God Emperor sits in a splendid temple.

Suddenly! God Emperor Tianyan suddenly opened his eyes.

Immediately, he slapped his palm towards the void!

This palm blasted into the endless void in an instant.

"Roar!!!!!!!"

And at the next moment, a shrill scream came from the endless void.

"Zerg! Very good! You actually extended your hand to my Tianyan Empire's territory again!!"

God Emperor Tianyan cast a cold glance at the void, as if seeing the Zerg territory through the endless space!

"Blessings and misfortunes! Zhao Ling, I have already hidden your aura, whether you can come back alive or not is up to you!!"

The God Emperor Tianyan finally gave a faint sigh, and then closed his eyes again...

It's not that God Emperor Tianyan couldn't rescue Zhao Ling, but he couldn't make a move.

Because the powerhouses in the universe that exceed the level of immortality are the hidden powers of various forces, and they are like nuclear weapons at the same time.

It can only be used as a deterrent, but it cannot be shot.

Because for countries that all have nuclear weapons, if you use nuclear weapons, I will use them.

It will eventually lead to chaos in the entire universe, and not only Zhao Ling will still die, but also countless human races will be buried with him.

This is the helplessness of these strong men.

Time returns to the void space a few seconds ago!

Zhao Ling was pinched by that huge palm, just like Sun Wukong was trapped in the golden bowl.

Although it can move freely, the giant claws around it are extremely powerful.

Even Zhao Ling couldn't break through it.

Zhao Ling's eyes flashed!

"It seems that's the only way!!"

Thinking of this, he instantly took out the Blood Devil gun.

"destroy!!!!"

Following Zhao Ling's low shout, a terrifying law of destruction instantly wrapped around the tip of Zhao Ling's spear!

"Broken Star Spearmanship!!!!"

With a low shout from Zhao Ling.

The long spear in his hand exploded instantly, coupled with the power of the Law of Death in the Blood Devil gun, the two powers of the law instantly intertwined and turned into a black and red streamer that instantly bombarded the palm of this giant claw!

"boom!!!!!!"

After a terrifying roar, Zhao Ling found that a layer of skin had been punctured on the opponent's palm.

Even this layer of skin recovered instantly.

"Damn it, are you going to die here?"

Although there was damage, Zhao Ling knew that even if he could not recover, he would not be able to break through this giant claw by attacking for several years!

"Eternal life level powerhouse, Damn it, this level of powerhouse actually makes a move himself! It's not at all uneasy to play cards!!"

Zhao Ling was speechless, you must know that the villains in the novel all sent younger brothers to give experience points.

When it came to him, let it go, the younger brother didn't even see it, and the big boss came directly.

"Roar!!!!!"

Suddenly, at this moment, a scream of a giant beast familiar to Zhao Ling came.

The next moment Zhao Ling felt a strong dizziness.

"!!!!!!"

With a huge vibration around, Zhao felt as if he had fallen to the ground!

"I'll go, who will explain this to me!!".

Fantasy I Pick Up Attributes In The Future

Chapter 161: Blood Devil Gun (Sector Master Peak)

Feeling that the surroundings seemed to have really fallen, Zhao Ling was speechless for a moment.

Combined with the scream of the giant beast just now and the rapidly disappearing life breath around, Zhao Ling has already sensed what is going on around him, what is going on!

"It seems that the star beast has been beheaded!"

Zhao Ling breathed a sigh of relief,

To be able to instantly kill a strong person at the level of immortality, Zhao Ling doesn't know who made the shot with this strength.

But no matter what, the other party saved himself once!

"But since you killed that star beast, why didn't you rescue me? It seems that there is something hidden in it!"

Zhao Ling frowned.

But if it's dead, it's easy to handle!

"Blood Devil gun, Blood Devil gun, it seems that you are lucky this time!!"

Zhao Ling smiled and said to the Blood Devil gun.

Immediately after The next moment, Zhao Ling blasted out the Blood Devil gun in his hand instantly with force.

At the same time, the terrifying power of the two laws erupted instantly!

"boom!!!!!"

With an earth-shattering bang, the originally indestructible giant hand of the star beast was instantly blasted with a small hole by the Blood Devil gun!

However, in this hole, the magic gun seemed to be wrapped in blood.

The endless power of Blood Qi crazily surged towards Zhao Ling's Blood Devil gun.

The Blood Devil gun fired bursts of gunshots instantly.

"Om!!!!"

With a violent vibration from the Blood Devil gun, The next moment Zhao Ling's aura emanating from the Blood Devil gun instantly increased to a higher level!

"Ding... Congratulations to the host, your weapon: the Blood Devil gun, has been promoted to [Universe level peak]

The promotion has been promoted from the middle level of the Universe level to the peak level in an instant.

However Zhao Ling feels like it's not over yet!

As time went by, the aura emanating from the Blood Devil gun became more and more terrifying! More than ten seconds later!

There was another vibrating sound, and at the same time, Zhao Ling found that the power of Qi and blood on the Blood Devil gun had once again increased by a level

"Ding... Congratulations to the host, your weapon: Blood Devil gun! Promoted to (domain master level primary)"

And then there were system notifications one after another, and Zhao Ling could clearly feel that the power of Qi and blood emanating from this huge animal claw hadn't changed much.

"The power of vitality and blood at the level of immortality is really awesome!!"

Zhao Ling couldn't help admiring!

Finally, when the Blood Devil gun was finally upgraded to the World Master level, the energy and blood of this giant hand finally began to be consumed!

"Ding.....Congratulations to the host, your weapon: Blood Devil gun! It has been promoted to (Junior Master Level)"

"Ding.....Congratulations to the host, your weapon: Blood Devil gun! It has been promoted to (Intermediate World Master level)"

"Ding... Congratulations to the host, your weapon" Blood Devil gun! The sound level is [Peak Master Level]

Finally, after the energy and blood in this giant hand was completely exhausted, Zhao Ling's Blood Devil gun was finally promoted to the peak of the World Master level!

But Zhao Ling frowned!

"System, the palm of an immortal-level powerhouse, it is reasonable to say that the energy in it is definitely more than that!"

I was a little confused.

"Ding... The Blood Devil gun is no longer an ordinary weapon since it burned the original imprint of the Law of Death between heaven and earth.

Although he is the pinnacle of the world master level, his preciousness is definitely no less than any low-level or even intermediate-level immortal weapon.

Of course, if the host does not need the imprint of the Law of Death, the system can remove it for you for free!"

The systematic explanation made Zhao Ling nod slightly!

Also, you must know that in the 30,000 era, no one has comprehended the power of the Law of Death since the ancestor of Tianyan refined the Tianyan Divine Pagoda.

Such a precious weapon is absolutely as the system said, no less than any immortal weapon.

"brush!!!!!"

With a slight wave of Zhao Ling's right hand!

The next moment, the Blood Devil's gun returned to his hand in an instant.

It's just that Zhao Ling discovered that a law crystal shining with a blood-red aura actually fell from this kid!!

Zhao Ling grabbed it, The next moment, these ten law crystals instantly merged into Zhao Ling's body!

"Ding... Congratulations to the host for picking up the Crystal of the Law of Death, the integrity of the Law of Death has increased: 50%"

However, Zhao Ling was overjoyed by the system notification sound. It must be known that the integrity of the power of the Death Law and the power of the Destruction Law is the most difficult for Zhao Ling to improve.

Because there is no owner of the power of these two laws in this universe.

Therefore, the power of Zhao Ling's law of destruction can only rely on the use of the dark gold dragon armor, and the battle gradually improves.

Fortunately, as the own strength becomes stronger, Zhao Ling can get more and more power of the law of destruction in each battle.

And the power of the Death law can only be improved by using the Blood Devil gun. However, the level of the Blood Devil gun is not high.

It can only increase the integrity of the law by one thousandth at a time.

However, now it has directly increased to 50% of the completeness of the law for every drop!

"Ding...Because the host's current strength is not up to the standard, the power of law that can be dropped is only 50%. Only when the host's strength improves each time can more power of law be extracted from the Blood Devil gun force!"

Zhao Ling was slightly excited by the system's notification sound again!

It seems that for the time being, I don't have to worry about the improvement of the power of the Law of Death.

"But the most urgent thing is to find out where I am now!"

Zhao Ling's eyes flashed slightly, and then the Blood Devil gun in his hand, which had reached the point of returning to basics without a trace of aura, burst out in an instant.

The next moment The spear in Zhao Ling's hand exploded instantly!

"Broken Star Shootout!!!"

Zhao Ling let out a low shout, The next moment A terrifying force erupted from Zhao Ling's right hand in an instant.

At the same time, Zhao Ling turned into a blood-red glow and instantly hit the giant claw!

"boom!!!!!"

With an earth-shattering roar, the giant claws of the star beast that had been sucked out of Blood Qi by the Blood Devil gun exploded instantly.

290 The giant claws without the power of Blood Qi instantly turned into dust all over the sky.

Amidst the dust, Zhao Ling's figure was standing in it.

Zhao Ling's straight figure exudes a terrifying aura!

The next moment A majestic mental power rushed out in all directions in an instant.

However, Zhao Ling was disappointed, he seemed to be on a desolate planet.

"Where am I now?"

Zhao Ling frowned, he raised his head and looked into the starry sky, but found that he was in a remote galaxy, and there was not even a single inhabited planet around him!

"Can the smart brain lock where I am now!"

Zhao Ling directly called out the own smart brain watch and asked!

"Starting to search online... Failed to connect to the Internet, trying to access the virtual universe, please wait!"

Following the beeps of the smart watch, Zhao Xiang's smart watch frantically searched around.

"Failed to link the virtual universe, master, your current location should be the only Zerg Realm not involved in the human virtual universe!"

Zhao Ling frowned at the words of the smart watch.

The virtual universe of the human race is not only used within the scope of the human race, but also among other racial forces in the universe.

However, there is only one zone, and the virtual network technology of the human race cannot touch it!

That is the uninhabited area governed by the Zerg!

"It turned out that the Zerg attacked me!!".

Fantasy I Pick Up Attributes In The Future

Chapter 162: Zerg Territory! !

Hearing Zhinao's words, Zhao Ling immediately remembered that it is not only the star beasts who have such a huge body and claws.

"The Zerg race is actually attacking the Terran race. It seems that the powerhouses of several major forces in the universe are eyeing me!"

Zhao Ling was a little helpless, but since he was targeted, there was only one way, and that was to kill him back.

"The Zerg race is said to be the force with the largest number of race members. I don't know if this rumor is true!!"

Zhao Ling's eyes flashed, and then he flew directly into the universe starry sky.

Mastering the power of a series of speed-boosting elements, such as the element of instant, the element of fast, the element of speed, and the element of light, Zhao Ling's speed is very fast.

The general domain master Seven Eighth Stage is not Zhao Ling's opponent at all.

Zhao Ling flew out of this deserted little Galaxy in no time!

As for where to go, Zhao Ling can only depend on fate now.

Flying into the dark universe, Zhao Ling quickly fled towards the distance, the blood soul ship lost contact, and he could only rely on his physical strength to fly, no matter how fast he couldn't go anywhere!

Along the way, Zhao Ling saw many Death planets, and these Death planets were similar to the planets Zhao Ling had seen before.

"No, these planets are not natural Deaths!!"

Zhao Ling's eyes flashed slightly, naturally the planets of Death would collapse due to the exhaustion of fuel in the core of the earth!

But these planets seem to have been completely robbed of all energy, even the core of the earth has been robbed.

One by one, they have become empty shells suspended in the universe!

"Zerg, it is said that nothing will be spared, so it is true!"

Zhao Ling frowned slightly.

It has been countless years since the Zerg appeared.

And the galaxies destroyed by them are countless.

Zerg is the kind of race that does whatever it takes to survive, even if it eats up a universe, they don't have any worries!

According to the records of the human race, although the Zerg race only occupy one-third of the universe territory, 90% of all the realms without life activities are destroyed by them!

And these spaces without living things are many times larger than the spaces with living things!

It is enough to see how much damage the Zerg has caused to this Universe.

However, even so, other races have nothing to do with the Zerg.

It doesn't have the strength to destroy the Zerg.

But if the Zerg want to destroy other races, they don't have that strength!

Therefore, the Zerg race, as the largest force in this universe, does not have much prestige, and is even a character that everyone shouts and beats!

"Since you Zerg have already shot at me, I can't justify it if I don't fight back...!"

Zhao Ling's eyes flashed, and then he flew over in the popular direction indicated by the astrological elements.

Time passed day by day, the Tianyan Divine Mountain of the Tianyan Divine Kingdom had been opened for several days, and all the students had arrived, only Zhao Ling disappeared.

And in the entire Tianyan Divine Kingdom, there are rumors that Zhao Ling was killed by superpowers from other forces!

Almost everyone thinks that Zhao Ling is dead, even everyone in the Galactic Terran.

It's just that only one person knows that Zhao Ling is not dead, that is Xue'er, because as Zhao Ling's creature, Bai Zhi was sent by Zhao Ling to protect Xue'er, Zhao Ling is dead or not, no one is better than her, Zhao Ling's animal pet clearer.

But without strength, they could only silently pray for Zhao Ling's safe return.

However, Zhao Ling, who everyone thought was dead, finally saw the first inhabited planet!

After several days of trekking, Zhao Ling directly crossed the territory of several large galaxies, and finally came before a small galaxy.

"Damn it, it's finally here, these Zergs really have shit brains, they ate up all the planets that could be inhabited, and finally starved themselves to death!

Is it awesome to play like this!?"

Speechless Zhao Ling couldn't complain, but not far from him at this time, there was a star that didn't seem to have any traces of creatures on the surface, but with a sweep of divine sense, he could tell that there were countless creatures inside this planet. The Zerg are frantically devouring the minerals on this planet.

Even a simple piece of iron is not spared, let alone a powerful and rare ore!

"Very good, my first stop is here!!"

Zhao Ling couldn't help smiling.

Immediately, the blood-red spear in Zhao Ling's hand let out a gunshot!

"Broken Star Shootout!!!!"

A loud shout spread throughout the starry sky!

At the next moment, Zhao Ling's whole body instantly turned into a fiery red meteor and fell towards the ground.

As if feeling the breath of Death, countless Zerg rushed out of the ground!

However, these Zergs are almost all ordinary-level Zergs, and the strength is so great that ordinary people of the Human Race can trample several to death with one foot.

"Hiss hiss....."

Countless zerg hisses spread across the planet!

At the same time, a group of Zerg who were a little bit stronger and had reached the Great Master or Starlight level flapped their wings and rushed towards Zhao Ling crazily.

However, their movements like moths to a flame have no effect.

After their figures touched Zhao Ling, they instantly turned into ashes all over the sky.

Only one attribute point is left!

"Boom, boom..."

With a loud noise from the ground, this extremely huge planet exploded instantly.

At the same time, the endless flames and the terrifying aftermath of the explosion instantly wiped out almost all the Zergs on the planet.

And the ones that didn't die were almost all mutilated.

"Ding... The host picked up the attribute: 50 points of vitality and blood, and increased the value of vitality and blood: 50"

"Ding... The host picked up the attribute: strength 40 points, increase strength value: 40"

"Ding... The host picked up attributes: 4 points of soul, increase soul value: 4"

"Ding... The host picked up the attribute: speed 3 points, increase the speed value: 3"

"Ding... Congratulations to the host for picking up the mortal treasure chest*1"

Almost all Zergs on a planet are the lowest Zergs.

This kind of Zerg will not provide any attribute points even after death!

However, even so, Zhao Ling still raised hundreds of billions of attribute points at this moment!

"Ding... Congratulations to the host Realm for being promoted to: Starlight Realm Eighth Stage!!"

Attribute table:

Host: Zhao Ling

Bloodline: Holy Order

Martial Dao Realm: Starlight: Eighth Stage

Spiritual Realm:Eighth Stage: Eighth Stage

Elemental power: 1045 types

Power of Realm: Limit: 254 types

Power of Law: Law of Destruction (25%) Law of Death (Li Wang Zhao) (62%)

Guardian Spirit: Dark Gold Nine Claw Dragon (Dark Gold Dragon Armor, 150 times)

:15000/Z

Speed: 75 billion m/s

Blood: 1.5 trillion

Soul: 150 billion

Psychic skill: 60 soul power (0/10 billion)

Gun Skills: Grandmaster Intermediate (0/10 billion)

Movement Technique Skill: Grandmaster Intermediate (0/10 billion)

Ability Skills: Grandmaster Intermediate (0/10 billion shaking)

Beast Familiar Skills: Grandmaster Intermediate (0/10 billion)

Weapons: Sky God Knife Array*10 (Peak of Xinghai class) Blood Devil gun (Intermediate Universe class)

Cultivation Technique: Vajra Immortal Art (first six volumes, Xinghai Peak! 100%) Ten Gods Picture Record (Xinghai Peak 100%) Ten Thousand Beasts (Xinghai Peak 100%)

Martial Skill: Empty Sword Formation (100% at the peak of the Star Sea), Star Shooting (100% at the Peak of the Star Sea), Nine Dragon Sealing Technique (100% at the Peak of the Star Sea).....

Experience: 2.5 billion

Fantasy I Pick Up Attributes In The Future

Chapter 163: Power Soars! Madly Slaughter! !

"Ding... The host picked up the attribute: 1 point of blood, increase the value of blood: 1"

"Ding... The host picked up the attribute: 4 points of strength, increase the value of strength: 4"

"Ding... The host picked up attributes: 4 points of soul, increase soul value: 4"

"Ding... The host picked up the attribute: speed 3 points, increase the speed value: 3"

"Ding... Congratulations to the host for picking up the mortal treasure chest*1"

The system notification sound in Zhao Ling's ear gradually weakened.

The power emanating from Zhao Ling's body has increased by about ten times!

You know, the previous Zhao Ling only had 80 billion attribute points.

However, now it has directly increased to a terrifying level of more than one trillion.

And this is just a relatively ordinary planet!

"For this kind of planet killing, Realm is generally promoted, but there is not much change in Talent promotion!"

Zhao Ling's eyes flashed, and then he directly grabbed a starlight-level Zerg that was still alive, and pulled out its soul.

Immediately, Zhao Ling searched directly for the other party's soul.

"Sure enough, there is a slightly stronger army nearby!!!"

Thinking of this, Zhao Ling's eyes flashed instantly.

The next moment Zhao Ling disappeared into the universe starry sky in an instant!

053.....

The territory of the Zerg is more than two or three times that of the Human Race.

At the same time, the population has reached countless times that of the human race.

The Zerg does not have the harsh living conditions like the Terran.

As long as it is any planet, even the Death Star, there will be Zerg living on it.

Some hot planets live with fire-type Zerg, while cold planets live with ice-type Zerg.

Each planet has its own unique Zerg species.

However, the only thing they have in common is that the Zerg are vermin that only know to take from the Universe.

Countless galaxies have been devoured by Zerg into Death Stars for countless years.

Or even disappear.

And most of the Zerg also followed Death after the death of the planet.

There are also very few people who have overcome the living environment of the universe and start to wander in the universe, continuing to search for the next planet to continue to cause disasters.

The existence of any race is meaningful, but no one knows the meaning of the existence of Zerg!

After searching the memory of the Zerg, Zhao Ling also knew where he was.

Of course, this location is only in a small area, Zhao Ling still doesn't know how far he is from the territory of the human race.

AZE.....

"finally reached!!!"

Zhao Ling looked into the distance, dozens of huge planets revolving around a huge Star smiled slightly!

"This is the nearest eighth-level insect nest of the Zerg. I don't know how many domain master-level powerhouses there are in this insect nest!"

Zhao Ling learned from the memory of the starlight-level Zerg that he searched for souls, Zhao Ling knew that the gathering place of Zerg is generally called a Zerg Nest!

And the insect nest has a strict hierarchy!

According to the ranking of the strongest in this worm nest, the worm nest can be divided into ten levels in total.

The first-level insect nest is the lowest-level insect nest in the universe, and the largest insect race will also quench its own environment!

This kind of nest is the least among the Zerg.

Almost nonexistent, after all, the level is too low.

The strongest Zerg in the second-level nest is the True Qi environment Zerg.

Then by analogy, the insect nest that Zhao Ling killed before was a fourth-level insect nest.

A fourth-level insect nest gave Zhao Ling a qualitative leap in strength, and now Zhao Ling is looking forward to it, if he destroys the eighth-level insect nest in front of him To what extent can own strength reach!

Of course, the weakest Zerg within the range where the eighth-level insect nest is located are above the starlight level.

No matter how low it is, you can't survive at all.

And this huge galaxy is only the temporary residence of this eighth-level insect nest, and after a few years at most, they will eat up the planet and eventually emigrate.

"The Zerg at the domain master level is really huge!!"

Zhao Ling secretly sighed as he looked at the terrifying monsters tens of thousands of meters high on the planet with a diameter thousands of times that of the earth.

"There are so many, it seems that you can make a good move!!"

Thinking of this, Zhao Ling smiled, and immediately rushed towards one of the huge planets.

"Boom!!!!"

Soon, (chcb) Zhao Ling crashed into the atmosphere above the planet.

Zhao Ling's figure instantly turned into a giant ball of flames and smashed towards the ground.

With an earth-shattering bang, a huge crater tens of thousands of meters was smashed out by Zhao Ling.

And under his feet is a huge Zerg corpse!

"Ding...Congratulations to the host for picking up the Universe-level treasure chest*1!"

"Ding... Congratulations to the host for picking up the power value: 30 million and the maximum power value: 30 million"

Among these two attribute points, there are also attribute points dropped by countless weak Zerg after being bombarded and killed.

Following the system's prompt, Zhao Ling's power value instantly increased a lot!

"hiss!!!!!"

"Roar!!!!!"

The next moment, the loud beast week came from afar.

Zhao Ling instantly saw the endless star beasts rushing towards own direction not far away.

Seeing this, Zhao Ling suddenly laughed!

"Since you want to die, then come!!"

The Blood Devil gun in Zhao Ling's hand erupted with a burst of shocking blood!

The next moment Zhao Ling turned into a stream of light and rushed towards a huge domain master fourth stage Zerg.

At the same time, the Blood Devil gun burst out from Zhao Ling's hand!

"hiss!!!!"

The Zerg let out a hissing sound, and the next moment its huge tentacles slammed towards Zhao Ling.

"!!!!!!!"

With a violent collision.

The tentacles of the Zerg were instantly smashed into debris by Zhao Ling's shot as if they had encountered a nemesis.

"hiss!!!!"

The domain master level Zerg screamed, but he had no fear, and a terrifying energy ball was still thrown out of his mouth.

"drink!!!!!"

Zhao Ling yelled, and blasted out the energy ball with a single shot, instantly shattering into energy starlight spots all over the sky!

"Blood light strangle!!!!"

The next moment Zhao Ling let out a low cry, and the spear in his hand erupted with a terrifying bloody aura instantly, and the bloody light directly enveloped the Zerg tens of thousands of meters high.

Seeing that they were trapped, the Zerg suddenly screamed.

However, in the next instant, his body was instantly smashed into dust all over the sky.

Among them, the Blood Essence has been completely swallowed by the Blood Devil gun at that moment.

"hiss!!!!!"

"hiss!!!!!"

However, the Zergs are always Zergs, and they will not be afraid at all because Zhao Ling killed a domain master.

They all rushed towards Zhao Ling crazily.

The boundless swarm of insects enveloped Zhao Ling instantly!

"Humph!!!!!"

Zhao Ling snorted coldly, and slapped the ground with a palm in an instant.

"boom!!!!!"

With a terrifying roar, the earth exploded instantly.

The power of endless flames spurted out violently from the ground.

In an instant, almost all the Zerg within hundreds of thousands of kilometers centered on Zhao Ling were killed.

That is, the entire planet was nearly half shattered by Zhao Ling.

Countless attribute points fell on the ground.

With Zhao Ling's thought, the boundless attribute points were poured into Zhao Ling's body like a sea of attributes. .

Fantasy I Pick Up Attributes In The Future

Chapter 164: Crazy Breakthrough!

"Ding... The host picked up the attribute: 50,000 points of vitality and blood, and increased the value of vitality: 50,000"

"Ding..... The host picked up attributes: Strength 40,000 points, increase strength value: 40,000"

"Ding... The host picked up the attribute: soul 4000 points, increase the soul value: 4000"

"Ding... The host picked up the attribute: speed 3000 points, increase speed ~ speed value: 3000"

"Ding... Congratulations to the host for picking up the heavenly treasure chest*-1"

Terrifying energy points surged towards Zhao Ling's voice.

Zhao Ling could only feel the endless power exploding in Own's body.

Of course, Zhao Ling felt that the most frightening and exciting thing was not the improvement of physical strength.

It's an increase in the power of various elements!

In just an instant, Zhao Ling's elemental power increased from the original one thousand and one to more than one thousand and three hundred.

"Ding... Congratulations to the host Realm for reaching the peak of the starlight realm! The power value has reached: 10 trillion"

"Ding... Congratulations to the increase in the power of the host's destruction law: 20%"

At the same time, a notification sound came from the system.

The body is terrifyingly improving, and at the same time, I feel that the power of own soul is slowly sublimating.

At the same time, Zhao Ling also felt a terrifying momentum from a distance rushing towards own.

These auras all rushed over from more than a dozen other planets, and Zhao Ling knew that these powerhouses came only after sensing the existence of own.

But will Zhao Ling care!?

"destroy!!!!"

With Zhao Ling's low shout, the surrounding space is transformed instantly!

At the same time, everything within dozens of kilometers centered on Zhao Ling, including light, was instantly turned into nothingness by the terrifying and destructive power that Zhao Ling erupted!

The tens of kilometers centered on Zhao Ling were all plunged into endless darkness.

"Roar!!!!!"

"!!!!!!"

At the same time, a Zerg at the head domain level in the sky rushed towards Zhao Ling crazily.

However, Zhao Ling, who was surrounded by the law of destruction, was unmoved at all!

"Boom boom boom boom!!!"

Soon, the huge roar of the sun reached Zhao Xiang's ears!

And Zhao Ling, who was in the dark space, saw the power of attributes one by one, and treasure chests falling from the sky one by one.

"Ding.....Congratulations to the host for picking up attribute Qi and blood: 200 million, and increasing the value of Qi and blood: 200 million"

"Ding.....Congratulations to the host for picking up the attribute soul: 30 million, and increasing the soul power: 30 million"

"Ding... Congratulations to the host for picking up a lot of power of law: Fire! The diameter of the Realm of Fire has reached: 100 million kilometers!

At the same time, with the sound of the system's notification sound, Zhao Ling's other attribute values have reached their peak!

At the same time, the power of various realms is also increasing rapidly.

You must know that the Zerg attacking Zhao Ling now is the Zerg of the domain master level, and the concentration of the power of law falling from them is very terrifying.

Therefore, as long as the power of any law can directly increase the power of Zhao Ling's Realm to the limit.

"Ding... the strength of the host has reached the limit of the starlight realm, is it a breakthrough!"

At this moment, the system beeped, and at the same time, the attribute values falling from the sky fell on Zhao Ling's body and were instantly bounced off.

Because Zhao Ling's strength has reached saturation value!

"Let's break through!!!"

Zhao Ling's eyes flashed, The next moment, Ridao's terrifying aura rushed out of Zhao Xiang's body.

The violent body instantly shattered the terrifying planet tens of thousands of times larger than the earth under his feet!

The countless Zerg races on the planet were all killed instantly.

The dead Zerg instantly turned into attribute points shining with countless rays of light, law element crystals, and treasure boxes.

At the next moment, the power of countless attributes surged towards Zhao Ling crazily.

It's just that Zhao Ling, who hasn't broken through yet, is just shrouded by a huge attribute mountain.

And Zhao Ling's body is surging crazily now.

All the cells crazily surged with one after another powerful forces, and these forces crazily transformed every cell of Zhao Ling.

At the same time, Zhao Ling's cells were also compressed under these forces, and they were still rapidly dividing while being compressed.

As time goes by Zhao Ling knows that now own body is evolving.

The direction of evolution is very simple, that is, to evolve towards a higher level of life.

Just a small breakthrough is completely unable to make a qualitative improvement in his body.

But one thing is certain, that is, the current Zhao Ling's physical strength has increased crazily during this evolution.

Each of Zhao Ling's cells was compressed to one-tenth of its previous size, and each cell split into a thousand cells to fill the gaps in the previous cells.

In other words, Zhao Ling's physical strength has directly increased by ten times now.

At the same time, the explosive power of the body has more than doubled

There is also the breath of life, which has also increased by more than ten times.

..... Ask for flowers...

Following a slight fluctuation from Zhao Ling's body, a terrifying shock wave erupted from Zhao Ling's body instantly!

This shock wave rushed out in all directions in an instant.

Soon, this shock wave rushed out of the envelope of Zhao Ling's Law of Destruction.

This place wrapped in Zhao Ling's law of destruction is like a huge black hole suspended in the universe.

Just without a hint of gravity.

Because even gravity is destroyed by the law of destruction.

And the originally countless Zerg lingered in front of this giant ball of the law of destruction.

Because the Zerg that rushed in disappeared.

Since each of them is a tall creature tens of thousands of meters tall, this giant ball can't fit much.

However, one of the master-level powerhouses in the Zerg domain will die as soon as they enter.

Such a terrifying death rate has already let them, the Zerg with low IQ, know that this giant black ball here is untouchable.

However, just in time, the Zerg's instinct reminded them that a huge danger was coming.

"Roar!!!!"

The leading Zerg at the peak of the domain master level burst into a roar in an instant!

At the next moment, the other Zerg who heard his voice hurriedly fled towards the distance.

However, it was too late.

A wave of air exuding destructive power rushed out of the giant black ball in an instant.

"Boom, boom, boom"

With a terrifying roar, this wave of air instantly drowned all the Zerg!

"hiss!!!!!"

With screams of horror, these domain master level Zerg and other Zerg who were submerged by the terrifying blast instantly turned into dust in the universe.

"Roar!!!!!"

The furthest domain master-level peak Zerg roared, and then rushed behind a huge planet!

And the next moment, the terrifying air wave erupted by Zhao Ling instantly hit this huge planet.

"boom!!!!"

After an earth-shattering bang.

This huge planet exploded instantly and turned into ashes.

The air wave carrying countless universe dust instantly swept this planet into it.

"Roar!!!!!"

After the Zerg at the peak of the domain master let out a final roar, they instantly turned into ashes under the blast.

However, this air wave did not stop his pace. Rush directly to the distant confluence of stars

Dozens of huge planets instantly turned into dust in the universe under the impact of this terrifying air wave. .

Fantasy I Pick Up Attributes In The Future

The First Sixty-Five Chapters: Mysterious Galaxy!

Dozens of huge planets instantly turned into dust in the universe under the impact of this terrifying air wave.

At the same time, the air wave instantly destroyed the huge Star in the middle of the planet.

The endless power of destruction instantly flooded the surrounding endless starry sky.

This air wave rushed out towards the depths of the starry sky, getting farther and farther away, and finally disappeared.

The instigator, Zhao Ling, still had his eyes closed.

At the same time, the terrifying attribute points around him like a mountain are frantically rushing into his body.

Just like a marshmallow dropped into the water, it disappeared without a trace.

The only evidence of the existence of these attribute points is the system prompt that keeps ringing in Zhao Ling's ears.

At the same time, there is also the Realm in Zhao Ling's body that is constantly beeping!

Finally, Zhao Ling finally absorbed all the attribute points around him into his own body!!

At the beginning, Zhao Ling absorbed all the attributes dropped by all the "five-five-zero" creatures on half the planet, and their attributes increased by 10 trillion.

And this time it absorbed all the creatures on the fifteen planets, and their attributes have been raised to a terrifying level of 300 trillion!

And Zhao Ling also felt the terrifying power erupting from his body.

Coupled with the evolution of his body, Zhao Ling is now enough to kill tens of thousands of his previous self with a wave of his hand.

It's just that Zhao Ling, whose power of law has not been improved, still can't fight against the world lord level powerhouse!

Because the gap between the two can no longer be smoothed out with a hundred-fold increase in strength.

Maybe Zhao Ling's strength can be increased dozens of times to directly blow up the power of the opponent's law.

Practitioners must understand the power of laws if they want to reach the universe level.

Therefore, before Zhao Ling comprehends the power of the law, it is almost impossible for Zhao Ling to kill a universe-level powerhouse.

Unless Zhao Ling's power can directly blow up the power of the opponent's law.

If this is the case, Zhao Ling did it!

After all, Zhao Ling's power is not of the same magnitude as that of Universe.

So Zhao Ling can defeat it even without using the power of law.

When the Practitioner reaches the peak of the universe level, the power of the law will reach 100% completeness!

After that, it is necessary to condense the comprehended power of law into a complete thread of law.

At this time, you have reached the domain master level!

The domain master level needs to condense the law thread into a thousand strands!

At this time, you can use the power of this thousand strands of law to condense the own law rune!

The more law threads you have, the more powerful the law rune will be!

So at the peak of the domain master level, everyone is working hard, wanting to comprehend more threads of law!

Only the more law threads are condensed, and the strength will become stronger after condensing the own test rune.

Therefore, almost everyone will be almost the same in the domain master stage. Only when the own life is exhausted will they choose to breakthrough to the domain master.

Of course, the timing of the breakthrough must be well grasped, because once you get too old and want to breakthrough again, you will not be able to breakthrough due to lack of energy.

In the end, he was depressed and died of old age.

Closer to home.

After the law rune is condensed, it can greatly increase the strength of the power of the law

At the same time, it can assist the owner to fight! A strong First Stage Realm Master can kill hundreds of thousands of peak realm masters with one palm.

This is why a strong player at the peak of the domain master can generally only destroy a small galaxy, but a domain master can smash a large galaxy with a wave of his hand!

"call!!!!!!"

After the power of the last attribute merged into Zhao Ling's body, Zhao Ling slowly opened his eyes.

"Finally breakthrough to starry sky level!!!"

Feeling the huge power in his body, Zhao Ling sighed slightly!

At the same time, he could feel the terrifying power in Own's body.

"Ding... Congratulations to the host for breaking through to the Starry Sky Realm: Fifth Stage!"

"Ding...Because the strength of the host has reached the starry sky realm, it can directly pick up the power of law!

The system's prompt tone also reached Zhao Ling's mind.

The power value of three trillion trillion is about to reach the sixth stage of the starry sky!

But this is not what makes Zhao Ling happiest!

If it is not systematic, it is almost impossible to understand the power of laws by leaps and bounds.

Only a very small number of geniuses can reach this level.

"Actually forgot to leave alive!"

Zhao Ling looked at the starry sky around him that had been emptied by himself and complained helplessly

"However, the Zerg from before still has some worm nests not far away in his mind, but I don't know what level these worm nests have reached!!"

Zhao Ling's eyes flashed, and he flew towards a bug nest not far away in his memory.

Yet, at the same time, just three hundred thousand light-years away!

A small group of galaxies floating in the Universe!

This small Galaxy is a little smaller than the one Zhao Ling saw.

However, such a small Galaxy does exude more than 10,000 terrifying auras!

The levels of these auras have reached the peak of the domain master level!

However, in the middle of these ten thousand auras, there is a noble aura that is silent!

The strength of this momentum is not very strong, but it is extremely pure!

I saw that there is only a small star in this small galaxy, and then there is a planet that is a little bigger than the earth floating outside the star..

It can be said that this planet is inconspicuous in the Universe.

No one would have thought that on such a small planet, there would be 10,000 Zerg experts whose strength had reached the domain master level or above!

The sole purpose of so many domain masters is to protect that noble aura!

"It should be nearby. The Zerg seems to have been here a few years ago."

Zhao Ling learned from the mind of the Zerg that the Zerg was warned by a terrifying aura when it passed by here.

According to Zhao Ling's analysis, the level of this warning breath has reached the domain master level.

Therefore, it is inferred that there are definitely domain master-level powerhouses here.

"I don't know if it's still there! I hope to leave a little trace!"

As long as he can find one Zerg, Zhao Ling may be able to find a bunch of Zerg.

Soon, Zhao Ling came to the periphery of a small galaxy.

However, Zhao Ling frowned when he saw this little Galaxy.

"This kind of small galaxy, I'm afraid there won't even be a Zerg in the Starry Sky Realm, how could there be a Zerg of the first order!"

Zhao Ling frowned in disbelief.

Even if the Zerg has an incomparably many 4.4, it is impossible for such a small Galaxy to have such a large number.

"But everyone who came here is here, let's take a look first!!!"

Zhao Ling had no choice but to return empty-handed!

The next moment A terrifying divine sense spread like a flood in all directions.

"hiss!!!!!"

However, the next moment, something unexpected happened to Zhao Ling.

Just when Zhao Ling scanned one of the planets, a Zerg hiss sounded instantly.

The next moment A majestic divine sense scattered Zhao Ling's divine sense.

Zhao Ling, who was unprepared, frowned suddenly.

"Domain master-level peak Zerg!?"

Zhao Ling's eyes suddenly lit up, there really is, own is very lucky!

Thinking of this, Zhao Ling's feet suddenly clicked, and his whole body instantly rushed towards the place where the Zerg's divine sense erupted!

"Human race, get out if you don't want to die!!!".

Fantasy I Pick Up Attributes In The Future

Chapter 166: Zerg Mother Worm! The Powerful Law Of Life Force.

The next moment, Zhao Ling was taken aback by a roar.

"Talking Zerg? Interesting!!"

Zhao Ling smiled!

He's killed so many Zergs that he hasn't even spoken to a single Zerg.

You must know that although the Zerg race has low intelligence, they can still learn a human universe language after living for countless years.

"Brother, I'm here to ask for directions!!"

Zhao Ling said loudly to the front,

However, it's a pity that the other party didn't pay attention to what Zhao Ling was here for, and saw a terrifying monster tens of thousands of meters high rushing towards Zhao Ling in an instant.

This Zerg looks like a beetle.

It's just a silver light shining on the body!

And from the memory of the Zerg that I have searched for, I know that the name of this Zerg is: Silver Wing Demon King!

Born to be a universe-level terrifying existence.

This one looks like it's just grown up!

"Die, human!!!"

The silver-winged demon worm roared at Zhao Ling and ran towards Zhao Ling with a look of discord.

If the terrifying power collides with a Star, it can be instantly smashed to pieces!

"Regret God Fist!!!!"

However, the next moment Zhao Ling let out a low shout, and punched out with a loud punch in his right hand.

The incomparably terrifying power in Zhao Ling's hands made the surrounding space tremble.

"boom!!!!"

With an earth-shattering bang, Zhao Ling and the silver-winged demon worm collided instantly.

Countless planets around were reduced to ashes at this moment!

The terrifying force in Zhao Ling's hands instantly sent the silver-winged monster flying hundreds of millions of kilometers backwards!

"hiss!!!!"

At the next moment, the silver-winged demon worm let out a shrill scream!

I saw the huge horn on his head shattered instantly under Zhao Ling's punch.

"flame!!!!"

At the next moment, Zhao Ling let out a low shout, and a terrifying flame burst out from his right hand, enveloping the Silver Winged Demon Insect in an instant!

"Damn it, human, you dare to kill me!?"

Seeing Zhao Ling's actions, the Silver Winged Demon Worm roared angrily.

However, this ignored him.

With a thought, the terrifying power of the flame instantly increased to the extreme.

"hiss!!!!!!"

With screams, the body of the silver-winged demon worm was quickly burned to ashes.

Zhao Ling The next moment's feet came to the body of the silver-winged devil worm in an instant. The next moment, Zhao Ling pulled the soul of the silver-winged devil worm out of his body that had turned into fly ash.

However, just when Zhao Ling was about to read the memory of the other party, bursts of terrifying aura suddenly came from the distant planet.

Zhao Ling frowned instantly.

"Peak-level Zerg of the domain master, at least a thousand or more!!!"

Seeing this, Zhao Ling immediately knew that there was definitely something tricky about this seemingly ordinary Galaxy. And Zhao Ling knew that he definitely broke into the secret place of the Zerg.

"Very good, I was worrying that I didn't have time to get to know the Zerg well, but now it's a blow to my door."

Zhao Ling The next moment instantly rushed his terrifying soul power towards the soul of the silver-winged demon worm.

The huge soul gap allowed Zhao Ling to invade the soul of the silver-winged demon worm in an instant.

Just when Zhao Ling touched the memory core of the silver-winged demon worm, the mutation happened instantly.

I saw a formation imprint unexpectedly appearing out of thin air, and in an instant the formation blocked Zhao Ling's soul power from his sea of consciousness.

The next moment, this formation is activated instantly, intending to destroy the soul of the silver-winged demon worm.

"Hmph, do you think I'm just a decoration?"

Zhao Ling snorted coldly, The next moment, a terrifying mass of destruction gushed out.

The law of destruction is one of the four supreme laws, and the terrifying aura contained in it can be said to be able to destroy anything in the world.

A small formation power, although it is a formation of the world master level, but in the face of Zhao Ling's 230% complete destruction law, this formation power is instantly destroyed into nothingness.

However, during this period of time, a series of terrifying auras rushed in front of Zhao Ling.

Zhao Ling's eyes focused and Song saw that Zhao Ling was surrounded by thousands of terrifying star beasts that were tens of thousands of meters high.

These terrifying powerhouses are capable of destroying a small kingdom.

However, this terrifying lineup was used to obliterate Zhao Ling.

"Nearly 10,000 peak domain masters!? Isn't that a little too much for me, Zhao Ling.

Zhao Ling smiled, this time, he became more and more interested in the secrets of this galaxy, and then Zhao Ling's terrifying soul power instantly flooded into the mind of the silver-winged demon insect in his hand

In an instant, countless memories flooded into Zhao Ling's mind.

"The Zerg female is born to understand the existence of the law of life force, and it is unexpected that there is such a thing among the Zerg.

It turns out that the silver-winged demon worms, these domain master-level peak zergs, are all hiding here to protect the king of the zergs: the mother worms of the zergs.

Although the reproductive ability of the Zerg is strong, if a Zerg eater wants to grow up, it needs the flesh and blood of countless companions as nutrition.

Therefore, even if the Zerg has tens of thousands of births, only one can grow into it in the end.

Therefore, this reproduction rate is almost the same as that of humans.

But the reason why the number of the Zerg race is countless times greater than that of the Human race lies in a special individual among the Zerg race. .

That's the Zerg Mother Worm.

The Zerg female who possesses the law of life force that belongs to the law of life not only has a very strong reproductive ability, but also the individuals she gives birth to will have great strength as long as they take shape.

For example, the female worm that the silver-winged demon worms are guarding now is a domain master-level female worm, and the individuals she produces can directly reach the terrifying starry sky level.

As long as they are adults, they are at least universe-level existences.

You know, the number of Zerg that can be produced by a female insect in a day has reached a terrifying tens of thousands.

And these Zerg almost all live to adulthood.

That is to say, in 987, tens of thousands of universe-level terrifying Zerg are born every day, and there are nearly ten million universe-level ones in a year.

It must be known that there are only a million or so universe-level powerhouses appearing in the Universe Kingdom every year.

In other words, the number of universe-level powerhouses produced by such a female worm in a year has reached ten times that of the universe kingdom of dry prison.

Such a terrifying number plus domain master-level female insects can live for millions of years.

In other words, during the survival of the Zerg Queen, he can produce ten trillion universe-level heads.

Among so many universe levels, there are at least tens of thousands from breakthrough to domain master level.

However, this is just a Zerg mother queen of the domain master Realm, and above it is the realm master level, which is the immortal level, or even higher level.

Zhao Ling understood the horror of the Zerg even more at this moment.

"Hmph, since there is such an existence, then give me Death today, I don't know if the law of life force can explode for me.

Zhao Ling was looking forward to it. Although the law of life force is not as terrifying as the law of life, it is still a rare force of law.

There are also many Practitioners among the human race who have comprehended the power of life, but almost all of these Practitioners use the power of life as an auxiliary battle rule, and the human race with the power of life can be said to be almost invincible.

As long as it is not killed instantly, it can recover quickly.

However, Zerg mothers are used to bear children.

"D3L!!!!!!!"

Fantasy I Pick Up Attributes In The Future

Chapter 167: Bombing And Killing The Master-Level Peak Zerg Of The Ten Thousand Heads Domain.

However, at this moment, a terrifying beast roar came from a distant place, and the next moment saw nearly ten thousand Zerg experts rushing towards Zhao Ling.

These terrifying Zerg powerhouses erupted with a terrifying aura at the same time, and these auras directly destroyed all the planets within a range of billions of kilometers around them instantly.

It seems that they also know that this Galaxy is no longer safe and plan to move after killing Zhao Ling.

"Interesting, do you want to start?"

Seeing this, Zhao Ling's right hand shook slightly The next moment a blood-red spear appeared in Zhao Ling's hand.

?? "Clang!!!!!!!"

After an earth-shattering gunshot, the Blood Devil gun erupted with a palpitating aura.

"hiss!!!!!!!"

This momentum instantly caused countless Zerg experts to let out anxious hisses.

But at the next moment, all Zerg strongmen shot at the same time.

One after another, the power of terrifying laws that could tear apart the heavens and the earth blasted towards Zhao Ling.

Zhao Ling frowned instantly.

"Dancing!!!!!!!"

Zhao Ling let out a low cry, and the Blood Devil gun in his hand erupted with infinite aura instantly. Zhao Ling blasted out, and the terrifying gun light instantly smashed the full force of nearly ten thousand Zergs.

The power of law that exploded instantly rushed in all directions.

In an instant, hundreds of Zerg were broken by the power of these laws like raindrops, their bodies and souls were instantly killed.

Many Zerg also suffered varying degrees of damage during this strike.

However, these injuries not only

"Broken Star Shootout!!!!!!!"

Zhao Ling looked already

At the next moment, Zhao Ling turned into a bloody ray and rushed into the siege of the strong Zerg in an instant.

"!!!!!!!"

After a huge roar, dozens of strong Zerg were instantly smashed into countless fragments by Zhao Ling's shot.

"Human, you are courting death!!!"

"go to hell!!!!!"

Seeing Zhao Ling's terrifying attack power, those domain master-level Zerg's expression changed instantly.

But the next moment, they all roared and rushed towards Zhao Ling.

Thousands of terrifying laws of power crushed towards Zhao Ling in an instant.

Seeing this, Zhao Ling's expression froze, and then a terrifying destructive force erupted from his body instantly.

The endless destructive force instantly enveloped thousands of kilometers around Zhao Ling.

The Zerg rushing forward instantly felt something was wrong.

However, when they saw their team of thousands of people, they suddenly became courageous.

I have nearly 10,000 domain master-level peaks, and many of them are quasi-world masters.

If there are so many Zergs that can't even defeat a small human youth, they might as well just crash to death.

However, at the next moment, they were really shocked to discover that when the terrorist attacks erupted by more than 9,000 domain master-level peak Zerg hit the destruction law Realm set by Zhao Ling, these terrorist attacks were enough to make a careless realm master fall. It was instantly annihilated in the starry sky, as if it had never appeared before.

"Gun of Destruction!!!^々!"

At the next moment, Zhao Ling gave a low shout, and the terrifying law of destruction instantly condensed more than 3,000 long spears exuding a destructive aura in the nothingness that no one could see.

However, because of the law of destruction, even his own sense of existence was destroyed by him.

Therefore, all the strong Zerg just felt a strong breath of Death.

But no Zerg knew what Zhao Ling did.

However, the danger that cannot be seen is the most frightening.

"!!!!!!!"

As soon as such a thought came to mind, all the Zerg fled towards the distance in an instant.

However, there are still many who escape slowly.

"poof

Following heart-pounding sounds, the domain master-level Zergs in the void were suddenly pierced through their bodies by a force of nothingness.

"hiss!!!!!"

The next moment After screaming in horror, each and every Zerg strong started from the injured part and annihilated in the void.

In an instant, more than 3,000 Zergs were annihilated, and at this moment, all the Zergs knew that Zhao Ling was not something they could provoke.

"Hiss! Take the mother worm away!!!"

The Zerg leader, a quasi-world master, neighed and brought more than a thousand Zerg experts with him in an instant. He rushed towards Zhao Ling.

Under its order, a large part of the Zerg hurriedly came to the place where the Zerg mother was, and hurriedly took the Zerg mother away.

However, the huge body of the Zerg female worm made their originally terrifying escape speed drop to an extremely slow point in an instant.

"Humans, go to hell!!!"

But Zhao Ling didn't have time to pay attention to the fleeing Zerg Mother Queen and his gang at this time.

Now he has been surrounded by a thousand Zerg.

Zhao Ling was disdainful at first, and Zhao Ling couldn't be dealt with when there were 10,000 heads, not to mention that they only have 1,000 heads now.

However, the next moment, the actions of this group of Zerg made Zhao Ling frown.

I saw dozens of Zerg closest to Zhao Ling rushing towards Zhao Ling.

When Zhao Ling raised his gun and was about to kill them, a change happened.

"Boom boom boom boom.N

The next moment, a series of terrifying loud noises exploded around Zhao Ling instantly.

I saw that dozens of star beasts exploded in an instant.

A terrifying energy shock wave enveloped Zhao Ling in an instant.

However, the attack was not over yet, the next moment, more Zerg came towards them like raindrops.

An earth-shattering loud noise shook the entire starry sky until it trembled.

""Continue to attack!!!!"

The quasi-world master Zerg's eyes lit up when they saw the effect. The next moment, hundreds of Zerg rushed towards the place where the explosion was.

"Damn, did you give me a face?"

However, at this moment, a cold snort rushed out from the explosion all over the sky.

The next moment The quasi-world master Zerg was horrified to see the blood-red spikes, and instantly stabbed them out of the explosion.

These spikes stabbed the hearts of hundreds of his men in an instant.

"Hisss..."

A series of sharp screams erupted from the mouths of these pierced Zerg.

At this time, all their Zerg looked at Zhao Ling not far away in horror.

Because they felt the terrifying suction force emanating from the spikes that pierced them was sucking out the souls in their bodies, and Blood Qi (Wang's Zhao) was sucked out.

Feeling the rapid passing of life, all the Zerg screamed in horror.

"Damn it humans!!!!"

The quasi-world master Zerg rushed towards Zhao Ling angrily.

The next moment he directly mobilized all the power in his body to die with Zhao Ling.

"Pfft!!!! No!"

However, The next moment

With the sound of the body being pierced, this quasi-world master-level Zerg instantly felt his body was hollowed out.

"Thinking to commit suicide in front of me, have you asked my Death Law?"

Zhao Ling's disdainful voice came from the side of the quasi-world lord Zerg.

The power of the law of Death, in front of the power of this law, Death is no longer under your control.

It can be said that as long as Zhao Ling refuses to agree, no immortal level powerhouse will be able to die in front of him.

PS: Heavenly Dao apologizes to the dead fish, because I don't have much time and code words outside, and I don't want eunuchs or anything. I will go home the day after tomorrow, and I will definitely resume updating when the time comes.

Fantasy I Pick Up Attributes In The Future

Chapter 168: The Law Of Vitality

"Humans, how did you get to this place? With your strength, you simply cannot break through the boundless army of my Zerg.

Feeling the rapid consumption of life force, the quasi-world master Zerg roared and asked Zhao Ling.

Hearing this, Zhao Ling smiled.

"I'm here, it seems to be the credit of your Zerg, but now you come to ask me.

Zhao Ling smiled dismissively, and then waved his hand.

"boom!!!!!!"

With a loud noise, nearly a thousand Zerg in front of Zhao Ling's eyes exploded instantly, turning into dust all over the sky.

"Ding.....Congratulations to the host for picking up a large amount of power of the law of water: the integrity of the law of water has reached: 10000%"

"Ding... Congratulations to the host for picking up a lot of power of the law of light: the integrity of the law of light has reached: 10000%"

"Ding.....Congratulations to the host for picking up a large amount of power of the law of ice: the integrity of the law of ice has reached: 10000%"

Originally, Zhao Ling only had two kinds of power of law. After only a few days after coming to the Zerg territory, not only his strength has improved, but also the power of law has also increased a lot.

"Ding... Congratulations to the host for destroying the 4958 head domain master peak Zerg, the destruction method 433 integrity increase: 4958%, the Death law integrity increase: 4958%"

In addition to the previous kills, Zhao Ling has wiped out nearly 5,000 domain master-level peak Zerg.

Therefore, as long as killing and destroying, the law of death and the law of destruction can be improved, and the completeness of the law has been increased by more than forty times.

The completeness of the law, which is one hundred times the limit value, is not much worse.

The next moment, Zhao Ling took a look at the fleeing Zerg and the Zerg mother surrounded by them.

In just a few seconds, they had already run to a place where Zhao Ling could hardly see.

"The Law of the Moment....."

Zhao Ling gave a low shout, The next moment, Zhao Ling's figure came several light years away in an instant.

The thousands of Zerg who were still fleeing suddenly saw a huge palm descending from the sky.

And this huge palm with a length of billions of kilometers exudes a terrifying aura.

These auras contain terrifying destruction and the breath of Death.

"Damn it's human race, everyone!!" (chbe) The female worm who was forced to escape roared, and then all the 5,000 or so zerg around him burst into terror with all their strength and shot towards Zhao Ling A palm blasted past.

A series of terrorist attacks that could destroy some small galaxies instantly hit this huge palm in the sky.

"Boom boom boom....."

After the power of thousands of terrifying laws collided with the huge palm that Zhao Ling hit, roaring sounds echoed in the universe starry sky.

However, these terrorist attacks, which combined to destroy a medium-sized galaxy, were completely annihilated after smashing into this palm.

The terrifying aftermath of the explosion quickly disappeared into the destructive power of the palm.

"Damn it's Terran!!!"

Seeing this scene, the female worm roared in horror, however, no matter how they roared, Zhao Ling would not let them go.

Now they can't run even if they want to run:

Because Zhao Ling has long used the law of forbidden copper to lock the surrounding starry sky.

They want to run, unless they have the terrifying strength of the Master Jie.

"Boom!!!!"

In the end, under the impact of the huge palm, the five thousand star beasts were instantly submerged by the terrifying palm formed by the power of destruction and the power of Death.

Thousands of ordinary Zerg powerhouses were destroyed in an instant, but as a c female insect with the power of life, it actually struggled for a full five seconds in this terrifying attack, because Zhao Ling's terrifying attack destroyed it a little Flesh and flesh, it grows a trace of flesh and blood here.

In the end, the female worm turned into flying ash due to exhaustion of energy.

The earth-shattering bang spread throughout the surrounding area for thousands of light years.

The shock wave not only destroyed this small Galaxy in an instant, but also completely destroyed the medium-sized Galaxy where this small Galaxy was located.

Such a terrifying impact has reached the level of the weakest world master level.

"Ding... Congratulations to the host for picking up a lot of power of the law of speed: the proficiency of the law of speed has reached: 10000%"

"Ding..... Congratulations to the host for picking up a lot of power of the dark law: the proficiency of the dark law has reached: 10000%"

"Ding... Congratulations to the host for picking up a lot of power of the law of life: the proficiency of the law of life power has reached: 10000%"

Among the series of system prompts, there is a power of law that makes Zhao Ling curious.

That is the life force of one of the special laws.

"boom!!!!!"

As the law of life force entered Zhao Ling's body, a muffled roar instantly spread throughout Zhao Ling's body. The next moment Zhao Ling found that all the cells in his body were being crazily transformed.

The activity in the cells was rapidly increasing, and at the same time, Zhao Ling found that a steady stream of life force was surging in his body.

Zhao Ling feels that as long as he is not killed instantly, no matter how serious the injury is, even if his body is destroyed, he can recover in a very short time.

"I didn't expect this law of life force to be so terrifying, no wonder it can persist for so long under my Death palm.

If she had enough energy, wouldn't she be able to survive. "

Feeling here, Zhao Ling looked directly towards the sea of own consciousness.

In the Sea of Own Consciousness, the number of imprints of the origin of the law engraved on that large crystal of the origin of the law has reached a total of more than 2,100.

Originally, there were only two Supreme Law Crystals, Psychic Power Crystals, and Juhua Crystals around the Law Origin Crystal, but now it has become more than 1,700 Law Crystals.

These crystals are slowly rotating around the source crystals of the law.

Among them, Zhao Ling saw the law of life force.

At the same time, the attributes Zhao Ling picked up in this battle have pushed his strength to the starry sky Ninth Stage.

There is not much distance from Star Sea Realm.

"Om!!!!!!!"

At this moment, a force that made Zhao Ling's heart palpitate was generated out of thin air. The next moment Zhao Ling saw a terrifying red light blast towards him from the place where he had just killed the female insect.

"The power of immortality level!!!"

Zhao Ling frowned suddenly. .

Fantasy I Pick Up Attributes In The Future

Chapter 169: Scary Red Glow, Wanted Mark! !

Zhao Ling frowned after feeling the terrifying power of the red light.

"I didn't expect that the soul of this Zerg mother insect actually had a backhand planted by the immortal Zerg.

Although Zhao Ling quickly guessed the origin of this terrifying light.

"But it's just an energy without self-awareness, trying to kill me, it's too tender.

Having said that, Zhao Ling instantly erupted all his Death Laws and Destruction Laws.

The power of the two laws instantly combined into one Realm. A realm capable of destroying anything was planted around Zhao Ling.

At the same time, the power of more than a thousand laws instantly enveloped Zhao Ling's tens of thousands of miles around.

The next moment, the red ray of light rushed to the Realm of more than a thousand laws around Zhao Ling's body at a speed Zhao Ling couldn't react to.

"boom!!!!!!!"

After a huge roar that shook the sky and the earth, this terrifying red light instantly shattered the Realm condensed by Zhao Ling's Thousand Laws.

Of course, although the red light is an attack of immortality level, this kind of attack sealed in other people's bodies will diminish over time.

But even so, this attack still kills ordinary world masters.

The power of a thousand laws around Zhao Ling had almost no resistance at all, and was instantly shattered.

The next moment, the red light flashed away, and instantly hit Zhao Ling's two major law realms,

"boom!!!!!!"

After another loud noise that shook the world, the red light still shattered Zhao Ling's defense in an instant, but this time, he was not as relaxed as the last time. When smashing Zhao Ling's Law Realm, almost 90% of the power was directly consumed.

Zhao Ling didn't panic, he still had cards he didn't use. The next moment, Zhao Ling directly communicated with the giant blood in his body.

"The power of giant transformation, the ultimate giant transformation!!!"

Zhao Ling gave a low shout, The next moment, his whole body expanded wildly in an instant, and spread in all directions.

The terrifying figure instantly soared to two hundred times the previous terrifying level.

The aura on Zhao Ling's body also became extremely terrifying at this moment, and the surrounding starry sky was shaken by this aura.

However, Zhao Ling is not over yet.

"The power of protection! Dark gold dragon armor!!!"

With a low drink, a terrifying force erupted around Zhao Ling's body, and this force instantly enveloped Zhao Ling's body.

The next moment A pair of dark golden dragon pattern armor that made the starry sky tremble appeared on the outside of Zhao Ling's body and wrapped Zhao Ling's entire body in it.

"Blood Devil Gun!!!!!!"

Following Zhao Ling's low shout, the next moment, the Blood Devil gun instantly turned into a 400-meter spear and appeared in Zhao Ling's hand.

"drink!!!!!"

The next moment Following Zhao Ling's low shout, the spear in his hand collided with that ray of red light instantly.

This strike is already Zhao Ling's final battle. If he wins, he has won. If he loses, Zhao Ling can only pray that his defense can withstand it.

"boom!!!!!!!"

There was another loud bang, and after the Blood Devil gun collided with this terrifying attack, the surrounding light-year range was instantly enveloped by this terrifying red light.

Even from an extremely distant place, a powerful battle can be seen breaking out here.

The Zerg not far away were all staring in this direction in horror.

However, Zhao Ling, who was at the center of the explosion, did not have a good time at all.

Even though the Dark Gold Divine Dragon Armor resisted almost all the impact, the impact under him could still kill any domain master level powerhouse.

Fortunately, Zhao Ling, who has practiced Vajra Immortality, is far stronger physically than domain masters.

Therefore, this power just burned a part of Zhao Ling's body, and he, who possessed the power of life, quickly repaired the damaged part of his body.

Of course, even if Zhong had the Law of Life Force, Zhao Ling didn't dare to directly resist this terrifying attack with his own body.

Because this attack has reached the point of directly destroying Zhao Ling's physical body.

If Zhao Ling directly used the law of life force to resist, he might disappear into the starry sky in an instant.

Finally, after Zhao Ling collided with this attack for nearly ten seconds.

Zhao Ling finally felt the power from his hand is rapidly decreasing

"Hmph, it's just an unowned energy. I thought I could turn the world upside down."

Zhao Ling, who almost capsized in the gutter, cursed secretly.

This time he could finally breathe a sigh of relief.

However, at this moment, a change occurred, and the red light scolded by Zhao Ling seemed to know that he was despised.

The originally stable form instantly expanded.

..... Ask for flowers...

"No, it's about to explode."

Zhao Ling's complexion changed slightly.

He hastily mobilized all his law power and mind power again, wrapping up all the places around him.

"!!!!!!!"

There was another loud noise that shook the sky and the earth. At this moment, the red light exploded instantly.

The terrifying explosion instantly submerged Zhao Ling's body.

Zhao Ling's dark gold dragon armor turned into light spots all over the sky. Obviously, with Zhao Ling's current strength, the dark gold dragon armor turned into could not resist the terrifying power brought by the instant burst of red light.

"puff!!!!!"

The submerged Zhao Ling instantly vomited blood and flew backwards, his body was being destroyed crazily at this moment.

At the same time, under the effect of the force of life, it is also frantically repairing.

O

...

What made Zhao Ling breathe a sigh of relief was that the power of own life seemed to have the upper hand.

Although there are severe pains coming from the body, but fortunately, there is no need to worry about life.

However, Zhao Ling found that something was wrong, that is, a trace of power from the energy that completely enveloped him actually merged into his body.

"Ding... Congratulations to the host, you have been marked by the master of this attack, as long as you are not far from this strong man, the other party will be able to detect your position.

At the same time, as long as other Zerg see the host, they will know that you are the wanted person. "

However, the system's notification sound instantly let Zhao Ling know what was going on.

"Fuck, congratulations to daddy being wanted! System, are you out of your mind!"

Zhao Ling cursed angrily when he heard the system's words.

But the system ignored Zhao Ling.

After the explosion lasted for more than three seconds, the terrifying aftermath finally disappeared slowly.

And Zhao Ling also clearly felt the position of his mark.

"To be wanted, it seems that he was careless, but this power doesn't seem to last long, it seems that it should only last a few days."

Zhao Ling was also relieved to see this.

There is no way, this attack has already consumed 99.99% of the power of Zhao Ling, so there is almost no energy left.

"However, I should be careful recently. It seems that I can only act after this mark disappears. 27

Thinking of this, Zhao Ling directly flew to the hidden location he knew from the memory of a domain master-level peak Zerg. .

Fantasy I Pick Up Attributes In The Future

Chapter 170: Selling Stolen Goods After The War! Horror Strength Increase!

On a barren planet, Zhao Ling sits on the magma in the center of the earth.

"It's been almost four days and it still hasn't subsided."

Zhao Ling frowned. It has been four days since he came to this planet, but the imprint has only faded by nearly 50%.

Looking at the power of imprint slowly wandering in own body, Zhao Ling was slightly speechless.

Because the current mark is not hostile to him at all, it is only equivalent to a mark, so Zhao Ling can only wait for him to fade away slowly.

"But fortunately, in the past few days, I finally recovered all the power and energy of the law!"

Zhao Ling let out a breath.

Zhao Ling didn't consume much power to wipe out 10,000 domain master peak Zerg and a Zerg female, but it consumed a lot of energy when fighting against the red energy

Zhao Ling's energy reserve far exceeds that of the average World Master level powerhouse.

Although this prevents Zhao Ling from being exhausted during the battle, it will take a long time to recover.

But fortunately, after having the power of life, Zhao Ling's energy recovery speed has reached a speed that ordinary people can't match.

So only four days passed and Zhao Ling's energy was fully recovered!

"By the way, I still have a lot of treasure chests that haven't been opened yet!"

Zhao Ling suddenly remembered that there are still many treasure chests in the own inventory that have not been opened.

Then he quickly sank his consciousness into the inventory.

"System, help me open all the treasure chests!"

Zhao Ling spoke softly to the system.

"Ding...accept the command and start opening the treasure chest!"

"Ding... Congratulations to the host for opening: ordinary-level treasure chest*3.5 billion, spirit-level treasure chest*125 million, earth-level treasure chest*12.54 million, sky-level treasure chest*250,000, starry sky-level treasure chest*34520, star-sea level treasure chest* 24152, universe-level treasure chest*5222, domain master-level treasure chest*3542, congratulations to the host for obtaining the following items!

Ordinary level ~ Universe level items * 2.1 billion

Martial Skill, Cultivation Technique, Weapon, Medicine Pill, Material 1258

Experience value: 1000 billion

Attributes: Power: 1 billion, Speed: 500 trillion, Vitality: 1 billion, Soul: 1000 trillion!"

"!!!!!!!"

As the system beep ends,

The endless colorful light instantly enveloped Zhao Ling.

Because of the crazy infusion of attributes, Zhao Ling's physical body increased tenfold in an instant!

Reached the pinnacle of the starry sky level in an instant!

At the same time, even if Zhao Ling deliberately suppressed the endless blood power, it would instantly shatter the starry sky around Zhao Ling!

Within a light-year range of Zhao Ling's center, he was instantly shattered into nothingness by this terrifying power of Qi and blood.

Zhao Ling's eyes opened suddenly, and a terrifying force of destruction shook the surrounding starry sky trembling!

"Ding... Congratulations to the completeness of the power of the host's destruction law: 10000%!"

At the same time, the system's notification tone also reached Zhao Ling's mind.

The power in his body let Zhao Ling know that he finally has the strength to fight against the world master-level powerhouse.

Then Zhao Ling set his sights on all the Cultivation Techniques!

Now Zhao Ling's main fighting method has become the power of law.

As far as physical combat power is concerned, it is only about ten times stronger than ordinary domain master-level peaks.

It is no match for any world master.

But as long as Zhao Ling uses the power of law, own combat power can definitely be raised several notches.

Even the powerhouses of the World Lord Second Stage will not be own opponents.

There seems to be only a little difference between the two, but the difference in combat power is definitely more than hundreds of times.

This is the horror of condensing the seal of one's own laws.

Of course, the reason why there is such a big gap in physical strength is that the current Zhao Ling has not kept up with the Cultivation Technique Martial Skill, and the current Zhao Ling is still using the Xinghai-level Martial Skill Cultivation Technique!

"System, help me learn all these Martial Skills and Cultivation Technique!"

Zhao Ling picked from the pile of Martial Skills and quickly selected several satisfactory Cultivation Techniques and Martial Skills.

"Ding... Congratulations to the host for learning the Martial Skill: Destroyer Shooting (the first form, the peak of the city lord level)! Stone City Force Array (the peak of the city lord level)

Seal of Destruction (Peak of Domain Master): The seal condensed by the Law of Destruction can burst out extremely powerful destructive power.

And some Cultivation Techniques of the power of laws!

Each Cultivation Technique consumes experience points: 10 billion, total consumption: 200 billion experience points"

"Ding... Congratulations to the host for learning Cultivation Technique: Vajra Immortal Magic (Volume 8): 10 billion, Thousand Gods Record (Peak Domain Master Level): 100 billion, Beast God Book (Peak Domain Master Level) :10 billion"

All Martial Skill Cultivation Technique instantly consumed Zhao Ling's 320 billion experience points.

The next moment Zhao Ling directly used the remaining experience points to improve his skills.

"Ding... The system is about to start improving the power of skills.

Psychic skill: 60 soul power (0/10 billion)

Gun Skills: Grandmaster Intermediate (0/10 billion)

Movement Technique Skill: Grandmaster Intermediate (0/10 billion)

Ability Skills: Grandmaster Intermediate (0/10 billion)

Beast Familiar Skills: Grandmaster Intermediate (0/10 billion)"

"Ding consumes 50 billion experience points, and upgrades all skills to Grandmaster level! Combat power can be increased: 70 times"

"Ding... Consume 150 billion experience points, and upgrade all skills to the peak of Grandmaster! Combat power can be increased by 80 times"

"Ding... Consumes 500 billion experience points, and upgrades all skills to epic primary level! Combat power can be increased: 100 times!"

With the prompt tone of the three-tone system, Zhao Ling's skills directly reached the terrifying epic level.....

You must know the power of epic skills. At present, there are not many people in the entire universe who have reached this level of skills.

Because the power of skill does not increase with the improvement of strength.

The power of technique is not only to bring out any part of the own body to the extreme.

At the same time, we must have a very high Talent and work hard all the time.

If one of these items is missing, either the power of skill cannot be improved, or even if it is improved, the skill will decline as time goes by as the strength increases.

Countless powerful people will start to study the power of skills after reaching immortality, but even the power of Grandmaster skills is extremely difficult, let alone the power of terrifying epic skills.

Perhaps only those terrifying existences that have existed for an unknown number of years can raise the power of skills to the epic level!

"Phew! If I had opened these treasure chests before, I wouldn't be so embarrassed!" 3.3 Zhao Ling said helplessly.

However, the situation at that time did not allow Zhao Ling to do so. After all, Zhao Ling had just killed 10,000 Zergs who were at the peak of the domain master at that time, and he was attacked by the energy sealed in the body of the female insect before he had any reaction time. up!

"But it seems that you can't stay here anymore. If you are accidentally seen by any Zerg, your identity will be exposed!"

Although Zhao Ling is not afraid of the Zerg Universe, strong domain lords, and weak domain lords are not his opponents, but if he meets a high-level strong world lord, or even the owner of the red glow, then he is It's dangerous.

Zhao Ling directly urged all the power of law that increased the speed to escape into the distance.

However, shortly after Zhao Ling left, "Ten Zerg masters with terrifying auras appeared at the position where Zhao Ling was just now!

"That's right, I finally found it, it's here!!".

Fantasy I Pick Up Attributes In The Future

Chapter 171: The Pursuit Of The Three Major World Lords!

These three Zerg experts are subordinates sent by the Zerg Immortal Level expert: Great Dark Zerg Emperor to find Zhao Ling's location!

One must know that what Zhao Ling killed was not an ordinary zerg but a female worm of the domain master level.

The status of this kind of female worm is much more precious than most of the world master zerg.

During the hundreds of thousands of years that the female worm survived, it brought a lot of troops to the Great Dark Worm Emperor.

Of course, this amount of troops is nothing, but if this is not handled well, it will make other female insects feel that Life is not safe in the territory of the Great Dark Worm Emperor.

There will be a great possibility of defecting to other worm emperors.

"That's right, it's the breath of the human race. I didn't expect a human race to break into my Zerg race. What's going on?"

The giant eyes on the head of the Zerg triangular head that looked like a mantis narrowed slightly!

"There are countless heavy soldiers on the outskirts of my Zerg territory. I didn't expect a human of the regional master level to come to this place! If the Great Dark Worm Emperor said that the opponent's strength is only at the domain master rank, I would never believe it! "27

A huge scarab next to the giant praying mantis said in a low voice.

"However, to be able to withstand the power of the Great Dark Worm Emperor's one blow seal protection, the opponent must also have a powerful hole card bestowed by the strong human race. Although we are the first team to find the opponent, we still have to be vigilant!"

The leading praying mantis spoke to the scarab and the silent earthworm-like Zerg beside him.

At the next moment, the three of them chased in the direction of the breath left by Zhao Ling.

"Has it finally been found!?"

Zhao Ling sensed something was wrong when the three Zergs started following him.

After all, the blood power of the three-headed Zerg is too powerful.

Zhao Ling also has several special methods of sensing the presence of others, so Zhao Ling quickly noticed the presence of the other party.

It's just that Zhao Ling now knows that he can't act rashly.

After all, the strength of the opponent is much stronger than oneself.

It can only be done with some means!

"Looks like the only way to use this!!

Zhao Ling's eyes lit up, The next moment, his figure instantly disappeared into the starry sky!

The power of the hidden law, the power of the shadow law, the power of the shadowless law!

There are also several powers of law hiding Zhao Ling's figure.

Zhao Ling's breath disappeared instantly.

It can be said that as long as the current Zhao Ling does not take the initiative to appear, even if the other party knows that he is here, they will not know where he is hiding.

Nine Heavens ten lands! Wanfa is the only one..."

Zhao Ling began to mutter a sentence of formulas silently, and at the same time, there were hidden handprints in his hand that he punched into the void!

Countless handprints disappeared after entering the void.

A few minutes later, the three giant Zerg who had shrunk to a height of tens of meters finally found the vicinity according to the power of the imprint on Zhao Ling's body!

However, just after arriving in this starry sky, their faces suddenly turned ugly.

Because the position displayed by the power of E on Zhao Ling's body was broken after it came to the inside.

In which direction Zhao Ling went, they didn't know the slightest bit!

"Damn it, where did this kid go!?"

The scarab snorted coldly, scanning its huge eyes in all directions.

"With our strength and the imprint power of Lord Great Dark Worm Emperor, we can't find this kid's whereabouts. It seems that there are only two possibilities!"

The antennae of the praying mantis trembled slightly, thinking.

"Which two possibilities? It's impossible for him to disappear out of thin air!?"

The scarab asked curiously. The earthworm beside him didn't speak, but was still looking around.

"The first possibility is that this kid used teleportation to escape, but I think this possibility is great. After all, he was able to come to this place directly from the human territory without being discovered. If there is no powerful formation teleportation, then His strength is that he never came here from birth to death."

Praying Mantis explained his own analysis.

Scarab nodded, this possibility is really great.

"What about the second one?"

The scarab asked curiously again, after all, if it was the first possibility, they would have to go home, wash and sleep.

"The second possibility is that the power of the imprint on this kid has disappeared, and he has already escaped!"

Mantis once again expressed his own second guess.

"Then we didn't come here for nothing?"

The scarab stared, and if it was true what Mantis said, as long as one of the two possibilities was established, Zhao and the others could go home, wash and sleep.

"Perhaps there is a third possibility!"

At this moment, a hoarse voice came, and the earthworm, who had barely spoken, actually spoke!

As soon as his words came out, the eyes of the other two world master level Zergs brightened!

"What's possible!!!"

Mantis quickly asked, you know that although earthworms don't like to talk very much, every time they talk is important news!

However, the giant earthworm did not speak.

The next moment, the terrifying power of the law of the earth erupted from his body crazily.

There is also a khaki-yellow seal wrapped in the power of these laws of earth!

This seal engraved all his understanding of the law of the earth!

"Earth Realm Comes!!!!!"

With a hoarse roar, the surrounding distance within one light-year was completely shrouded by the terrifying power of the Ten Laws.

Countless quicksands were created out of thin air.

The quicksand is crazily washing every inch of the surrounding starry sky!

You must know that any method that can hide your figure is just a way to deceive your eyes, senses and even your mind.

In fact, the hidden person itself is there, but he cannot perceive it.

Therefore, the earthworm's approach can be said to be enough to instantly find anyone hiding in the void!

"found it!!!"

Suddenly, the earthworm let out a low cry, and the eyes of the two Zerg beside him suddenly lit up, and the terrifying power of law erupted from the tentacles at the same time!

Among the three, Mantis is the most powerful, having fully reached the fourth stage of the world master, the other two are the third stage of the world master Qiu Yi, and the second stage of the scarab world master!

The next moment The three shot at the same time and blasted towards a corner not far away.

If Zhao Ling wasn't in that position, the attack would pass through that position, hitting the latter with a blast from a distance, but...

"boom!!!!!!"

With a loud noise that shook the sky and the earth, three attacks hit one place at the same time, and a loud noise that shook the sky and the earth spread throughout the entire starry sky in an instant!

"bingo!!!!"

The corners of the three Zerg's mouths smiled unconsciously!

"What did you say!?"

However, at this moment, a cold voice came from behind the three of them.

The complexion of the three-headed Zerg powerhouse suddenly changed.

It is about to attack from behind.

However, an attack exuding the air of Death broke through the starry sky in an instant, and bombarded the scarab's carapace in an instant!

"Pfft!!!!"

There was a piercing sound, and Zhao Ling held a blood-colored spear in his palm and instantly pierced the scarab's carapace!

At the next moment, a terrifying suction erupted from the Blood Devil gun, and this suction absorbed most of the scarab's blood in just an instant.

"Boy, you are looking for death!!!!".

Fantasy I Pick Up Attributes In The Future

Chapter 172: Breakthrough Xinghai Class, Law Silk Thread! (1/5)

Looking at the scarab whose breath suddenly weakened and whose face was extremely frightened.

The mantis on the side roared, The next moment, his huge scythe hand burst out with terrifying power and slashed towards Zhao Ling!

"Hmph! Take care of yourself first!"

Zhao Ling snorted disdainfully, The next moment, kicked the scarab in front of him towards the mantis.

The eyes of the mantis flashed, and at the next moment, he slashed out with a bang, instantly splitting the scarab whose body had been cracked after losing its vitality and blood into two halves.

The next moment he rushed towards Zhao Ling from the scarab's corpse!

"Ho Ho Ho Ho Ho!!!"

However, at this moment, a series of roars came out from the void.

The faces of the praying mantis and the earthworm who was secretly poking around and preparing to attack Zhao Ling suddenly changed!

Because they felt the terrifying breath of Death from these roars.

The mantis turned around quickly, and saw nine terrifying dragons pulling a huge coffin and bumping towards Own.

If it hits him, he will not die but will also be disabled.

"Mad Demon Saber Technique!!!"

The mantis roared The next moment The machete in his hand slashed forward like a terrifying whirlwind.

The terrifying sword light blasted towards the Jiulong coffin in an instant.

But after the chopping, the mantis quickly moved to the side to hide.

"DL!!!!!!"

The nine-headed dragon roared and disappeared in a flash for an instant!

The expressions of the mantis and the worms suddenly changed!

"boom!!!!!"

Suddenly, with a loud crashing sound, the cockroach felt Own being hit by a terrifying star on his waist.

"puff!!!!!!"

A mouthful of green blood spurted out of his mouth.

His lower body was blown to pieces by the Nine Dragons pulling the coffin who appeared behind him at some point.

"Damn it, boy what the hell did you make!!"

The upper body of the mantis is flying in the starry sky in terror!

He is a powerful fourth stage superpower in the hands of this ghost, but he has no power to resist.

"Boom!!!!!!"

However, it was not Zhao Ling who responded to him, but a huge roar.

I saw the huge bronze coffin pulled by the nine-headed dragon slowly opened.

A wild force erupted from this huge bronze coffin.

The strong Death breath enveloped the giant praying mantis.

"run!!!"

The mantis snarled, and hurriedly fled towards the distance.

It's just that what he didn't know was that the giant earthworm escaped when his lower body was smashed.

"Roar!!!!!!"

However, just when the praying mantis flew less than 10,000 kilometers away, there was a roar.

His body was instantly bitten by dragons.

"Damn it, let me go!!!"

Mantis frightened and quickly used the huge sickle in his hands to chop the nine-headed dragon.

However, his attack is like tickling the dragon!

You must know that as Zhao Ling's strength increases, the power of the nine-headed dragon will also increase accordingly.

And because the nine-headed dragon is a summoning object, it only needs Zhao Lingyi's power to summon a terrifying dragon with ten fighting powers!

The current Zhao Ling has consumed half of his own power, and directly summoned the nine dragons whose strength is close to the fifth stage in the fourth stage of the starry sky!

"No, these ghosts can still absorb my power!!"

Mantis was horrified to find that his own power was being absorbed rapidly!

And he couldn't do it even if he wanted to blow himself up, because a series of terrifying sealing power erupted from the teeth of the nine-headed dragon.

And these words of sealing power are rapidly suppressing the power of the giant praying mantis!

"Roar!!!!!"

In the end, with the bite of the nine-headed dragon, the body of the giant mantis was quickly dragged into the huge bronze coffin!

When the coffin door was slowly closed, Yintou Shenlong pulled the huge coffin again and flew towards the treasure of endless void.

Finally disappeared!

"Huh! Finally sealed the strongest!"

In the void, Zhao Ling breathed a sigh of relief!

"But there is one more that I can only rely on myself!!"

Zhao Ling's eyes flashed, and then the power of the two laws scattered on the ground, as well as the attribute points were all fused into his own body!

"Ding... Congratulations to the host for picking up a seal of the law of the wind, the system is broken down into a lot of power of the law of the wind!"

"Ding... Congratulations to the host for reaching the completeness of the wind law: 10000%"

"Ding... host, your Realm has reached the peak of the starry sky level, and the integrity of the power of the law has also reached the limit, do you want to upgrade to the star sea level!"

At this moment, the system's notification sound also reached Zhao Ling's mind!

Zhao Ling's eyes lit up when he heard this! It's only been less than ten days since he came to the Zerg territory, and he didn't expect his own strength to rise rapidly.

In just such a short time, own Realm has been promoted from Starlight Realm to Star Sea Realm!

"In this case, let's break through!!"

Zhao Ling's eyes flashed, and he directly mobilized all the power in his body to rush towards his own bottleneck.

You know, the Xinghai class can only condense the power of elements into the power of Realm, but the current Zhao Ling has already transformed the power of elements into the power of law.

***[!!!!!!]"

However, with a dull bang, Zhao Ling felt that his own bottleneck was instantly broken through like paper!

The surging energy poured into Zhao Ling's body, and Zhao Ling felt that his own body was sublimating rapidly.

Bursts of powerful force washed Zhao Ling's body.

Zhao Ling can clearly feel that his power of life is increasing. An ordinary star-level powerhouse can live for 10,000 years, but Zhao Ling who has the power of life can live for a full million years. At Xinghai level, Zhao Ling's lifespan has increased tenfold again!

It can be said that the current Zhao Ling can be compared to the average domain master level powerhouse just by his lifespan.

Not to mention the strength, it is enough to obliterate any domain master level powerhouse.

With this level of strength, one can already win a universe kingdom in the territory of the human race and become the ruler of countless human races!

Of course Zhao Ling's gaze will not be so superficial.

"Ding... Congratulations to the host, you have successfully broken through and become a star sea level powerhouse, all the law powers that have reached the limit of integrity will be condensed into a law (the king's) silk thread

As the system raised the sound, the power of law in Zhao Ling's body suddenly exploded in an instant!

All the power of law that has reached the limit, including the law of destruction and the power of the law of Death, condensed into crystals, instantly broke away from the shackles of the original crystal of the law, and flew into Zhao Ling's sea of consciousness!

At the next moment, all the law crystallizations have turned into the power of the law, and these endless power of the law are directly condensed in Zhao Ling's sea of consciousness.

The integrity of Zhao Ling's law power is one hundred times that of ordinary people, of course, one hundred times does not mean quantity, but quality!

The power of Zhao Ling's law was originally much purer than other people's law threads.

Now a hundred times the power of law is rapidly condensing in Zhao Ling's sea of consciousness. It can be imagined that the thread of law condensed by the power of law of this intensity is much stronger than other people's in essence!

"boom!!!!!!"

PS: The update will resume tomorrow, sorry for the readers these days!.

Fantasy I Pick Up Attributes In The Future

Chapter 173: The Laws Of Life Can Be Merged! ? (2/5)

With a loud noise, Zhao Ling felt that all the law power in his sea of consciousness was suddenly hit by a huge hammer.

The power of the law, which was originally a few thousand meters in diameter, was instantly reduced to a size of more than a hundred meters under this hammer!

"boom!!!!!!"

Hum Kuai, after another huge roar, Zhao Ling's force of law, which was more than 100 meters in size, was instantly smashed and became smaller again by a large amount.

It has become a size of more than ten meters in diameter!

Next, there were waves of terrifying forging sounds echoing in Zhao Ling's sea of consciousness.

With every blow of the hammer, Zhao Ling's power of law will be condensed, and at the same time, its size will shrink a lot!

"Boom boom boom....."

The terrifying loud noise reverberated in Zhao Ling's sea of consciousness for nearly a minute.

This loud noise directly forged Zhao Ling's power of more than a thousand laws into a rope of laws as thick as a thumb.

However, it is not enough!

To know the size of a legal thread, it is generally only the size of a human hair.

Although it can be said that it is extremely difficult for Zhao Ling to forge the power of own law to this level.

But it still can't meet the normal standard!

"Psychic Hammer!!!"

Zhao Ling's eyes flashed, and he gave a low shout!

The next moment, Zhao Ling finally started to actively forge the power of law!

Thousands of giant hammers transformed into 637 mind power appeared in Zhao Ling's sea of consciousness.

"!!!!!!!"

The next moment With a loud noise that shook the sky, thousands of hammers hit the power of more than a thousand kinds of laws at the same time.

In an instant, the power of law that was originally the size of a thumb was crushed and became two meters thick.

You know, the strength that Zhao Ling erupts when he actively uses his own power to forge the power of the law is far stronger than the eruption that erupts when the will of heaven and earth is automatically forged.

As time went by, after the terrifying roar of the hammer, Zhao Ling finally felt that the own law thread had become a strand smaller than a strand of hair.

But the terrifying power contained in it is hundreds of times greater than that of ordinary law threads!

"Ding... Congratulations to the host for successfully condensing the law crystal into a law thread! From now on, if the power of law that has been condensed into a law thread increases again, it will directly condense into a law thread!

Others that have not condensed into law threads will automatically condense into law threads after reaching the limit!"

"Ding... Congratulations to the host for successfully breaking through to Star Sea Realm First Stage!"

As the system's notification sounded, Zhao Ling also slowly walked out of the void.

With a glance of Zhao Ling's eyes, he saw a seal shining with white light falling around the body of the scarab that he killed first.

"Ding.....Congratulations to the host for picking up the seal of the law of light, and the silk thread of the law of light has been upgraded to: 100 strands!"

At the same time, the power of law left after killing the giant praying mantis also increased Zhao Ling's law of the wind to more than 400 strands!

After all, the strength of the mantis is much stronger than that of the scarab.

"By the way, there is also a big earthworm, I don't know if it can run far!!"

Zhao Ling frowned, knowing that he had been breaking through here for nearly four or five minutes,

According to the normal speed of a world master level, it has gone out for an unknown number of light years.

Maybe it has already flown out, it may not be thousands of years!

With such a long distance, if Zhao Ling has no back-up, he will really be run away by the opponent!

"Fortunately, I put a mark on it!"

Zhao Ling's eyes flashed, and then he looked into the distance for an instant.

The next moment, Zhao Ling's body surged with the terrifying power of the law of wind and the power of the law of light!

As Zhao Ling's most powerful force of the two laws.

At the same time, speed is still the main focus, Zhao Ling's figure disappeared in the same place in just an instant!

Zhao Ling's speed is more than ten times faster than before!

Turning into a ray of light, Zhao Ling instantly flew into the distance!

At this time, it is three thousand light years away from where Zhao Ling was just now!

A huge earthworm is running away like crazy!

Although he knew that he had run so far, it was almost impossible for Zhao Ling to catch up with him, but there was no way, Zhao Ling's strength made him feel a little scared in his heart!

If you are lucky, you will not be reconciled to death.

"No, this matter must be told, Lord Dark Worm Emperor, this (chad) kid is too evil! Only the strength of the domain master level can kill the mantis at will, this kind of talent is a genius among the human race ,

This kid must have a purpose in coming to my Zerg territory!

Thinking of this, the earthworm quickly took out a piece of jade from own's storage ring, and at the next moment he directly recorded what own knew about Zhao Ling on it.

"Om!!!!"

The next moment, this piece of jade flew towards the distance at an incomparably terrifying speed.

Seeing Own send the jade away, Earthworm heaved a sigh of relief

"Pfft!!!!"

However, at the next moment, a broken body sound came, and at the same time, a burst of severe pain caused the earthworm's face to change dramatically!

"It's pretty fast, it's a pity, if you comprehend the laws of the speed system, I'm afraid it will really let you escape!"

Zhao Ling's playful voice came from behind the earthworm.

At the same time, there is an endless sense of powerlessness!

The earthworm was terrified to feel its own blood, and its soul was being absorbed rapidly.

"Damn it, who are you and why did you come inside my Zerg, aren't you afraid of death?"

Earthworms know they can't live, but they still want to be a fool before they die!

"Why did I come here, I still want to ask you Zerg!!"

Zhao Ling is speechless, he is also a victim, well, if it wasn't for the fact that the human power secretly helped him, and he also had the Blood Devil gun and the system, he would be dead alone now!

Now I was actually asked by a Zerg why I came to the Zerg territory?

Zhao Ling himself has no reason to go!

Zhao Ling also didn't have time to talk to this idiot, because the longer he stayed in one place, the more danger he would have, at least he had to wait until his own tracking mark was erased by himself.

"boom!!!!!"

The next moment Zhao Ling slapped out a palm, a terrifying force erupted from Zhao Ling's hand, and the earthworms were instantly killed by this terrifying force!

At the same time, a khaki seal and a green rule crystal fell from the earthworm.

"Huh? The power of two laws? This earthworm actually has such a talent!"

Zhao Ling was immediately amazed. Speaking of which, the reason why it was so easy for him to bombard and kill the giant earthworm was because Zhao Ling's strength had greatly improved after the breakthrough.

At the same time, Zhao Ling also shamelessly attacked!

That's why the earthworm died so aggrieved, and was hollowed out by the Blood Devil gun without even a chance to fight back.

"Ding... Congratulations to the host for picking up the Seal of the Law of Earth, the number of Silk Threads of the Law of Earth has reached: 200 strands!"

"Ding... Congratulations to the host for picking up the crystal of the law of differentiation and comprehending the power of the law of differentiation. The proficiency has reached: 10000%"

"Ding...the power of the law of differentiation is condensed into a thread of law, quantity: 10 strands!"

"Ding... Congratulations to the host for having comprehended the subordinate laws of the law of life: power of life, activity, wood, restoration, differentiation...etc. fifty-one subordinate laws, if the host gathers all seventy-two When planting the power of the subordinate law, the system can fuse it into the power of the law of life for you!!".

Fantasy I Pick Up Attributes In The Future

Chapter 174: Secret Realm, The Inheritance Of Immortality! (3/5)

However, at this moment, the system's notification sound echoed in Zhao Ling's mind!

"What? The power of the law of life can be fused with the power of these laws!?"

Zhao Ling was horrified immediately. You must know that the power of the law of life is one of the supreme laws in the legend. Now Zhao Ling has comprehended two of the most powerful supreme laws. out of fusion.

"System, does that mean that if I can comprehend the power of the law of destiny, and even all the subordinate laws of the law of space and time, will it be possible to synthesize these three~powers of law?"

Zhao Ling was a little excited - asked the system!

"Ding... That's right, the system can do it, the premise is that the host can gather all of them, and at the same time increase the power of these laws to at least 10,000 strands of law silk!"

The system prompt made Zhao Ling even more excited.

I didn't expect that I could really gather all the power of the law.

You must know that before I said that I wanted to gather all the power of laws, I was just talking. After all, the law of space, the law of time, and the other four supreme laws have it, but the entire universe does not have it. Where can I get it?

"It seems that we really need to work hard!!"

Here, Zhao Ling has pulled out the remnant soul of the earthworm from his body.

The next moment directly searched all the memories about Zerg in his soul!

"Sure enough, only the Zerg who have reached the World Master level will have access to a little high-level information of the Zerg!"

Looking at these memories, Zhao Ling frowned slightly!

The current position of Zhao Ling belongs to the inner circle of the Zerg territory.

Compared with the outer circle, there are more powerhouses in the inner circle!

But too much is limited!

It's not that there are world lords everywhere, after all, the world lord level is the king of a kingdom in the territory of the human race, and the large galaxy like the Milky Way is in charge of more than 100 million!

Although the number of strong Zergs is much greater than that of the Humans, within the one billion light-years where Zhao Ling is now, only the three-headed Zergs of the Praying Mantis are active!

"However, every Zerg Zerg of the World Master level is the main subordinate of a Zerg Emperor. I killed three directly, and I will definitely be hunted down. It seems that we should leave this place as soon as possible!"

Zhao Ling frowned, then hid his own figure, and turned towards the distance in an instant.

And the direction he was going was the direction where the human territory was located.

But what makes Zhao Ling extremely painful is that in that direction, there are nearly 10,000 lands that are equivalent to the Tianyan Kingdom.

Zhao Ling calculated that at his current speed, if he wanted to fly to the territory of the human race, even without the slightest obstacle, he would need trillions of years.

It is enough to see how huge the size of this Universe is!

Now Zhao Ling can only take one step at a time!

Time passed day by day, Zhao Ling has been flying in the universe for nearly ten days, during these ten days Zhao Ling traveled through tens of thousands of large galaxies!

There are tens of thousands of domain masters killed in total. Of course, the attributes picked up by tens of thousands of domain master Zergs are not much added to the current Zhao Ling.

After all, the previous 10,000 Zergs only allowed him to reach the Eighth Stage of the Star Realm, but now the attribute values needed to reach the Star Sea Realm from the Star Sea Realm Tenth Stage to the Star Sea Realm Earth Heavy are not the same as before.

However, Zhao Ling's greatest achievement is that he has condensed the power of more than 1,900 laws into law threads.

On a planet burning with raging fire, Zhao Ling blasted a huge Zerg with a height of tens of thousands of meters to the ground with one punch!

"boom!!!!!!"

After an earth-shattering loud noise, the Zerg instantly smashed the huge fiery red planet into pieces.

At the same time, his body was still rapidly smashing towards the distance, dozens of planets were smashed by him in an instant!

The poor giant worm has no strength to resist.

The next moment Zhao Ling has come to the direction where he flew upside down.

"break!!!!"

With a low shout, Zhao Ling punched out into the void!

"boom!!!!!!"

After a huge roar, the Zerg, whose strength was as strong as the peak domain master level, was instantly smashed by Zhao Ling's punch!

"Ding... Congratulations to the host for picking up the power crystal of the law of fire, and the silk thread of the law of fire has been upgraded to: 1553 strands!"

The power of law of the Five Elements attribute is the most comprehended among all the powers of law.

So now Zhao Ling has almost increased the number of Five Elements rules to more than a thousand shares.

Because the quality of Zhao Ling's law silk thread is nearly a hundred times higher than other people's strength!

Therefore, after the power of law of a domain master-level peak Zerg with a thousand strands of law is moved into Zhao Ling's body, Zhao Ling can only increase ten strands of power of law.

.....ask for flowers...

After picking up the power of law crystal, Zhao Ling's thoughts instantly enveloped dozens of surrounding planets!

The next moment, the ocean-like attribute points rushed towards Zhao Ling.

Zhao Ling's physical strength has improved a little under the bath of these ocean-like attribute points.

"call!!!"

Zhao Ling let out a sigh of relief!

"I don't know how long it will take to collect all the calendars at this speed!!"

Zhao Ling frowned slightly

After ten days, the imprint on his body finally disappeared!

However, since Zhao Ling broke through to the star sea realm, he has not overestimated the power of the Zerg race.

After all, with his current own strength, he can kill ordinary world master-level Zergs!

O

Zhao Ling took the soul of the Zerg he just killed and searched for it directly.

Zhao Ling's thoughts poured directly into the other party's mind, browsing through almost all the other party's memories.

"Huh? The secret realm is open?"

Suddenly, Zhao Ling saw something very interesting.

That is, a secret realm opened in a small galaxy three thousand years away from here.

The secret realm is where Zerg, Terran, or other powerhouses of several major forces are buried after their fall!

Of course, this kind of fall is not the kind of being bombarded and killed.

Only when the time limit is reached or if Death is seriously injured, the strong who have enough time to plant the secret realm will be left as a place of inheritance!

And if you want to set up a place of inheritance, the weakest one needs an immortal level!

After all, only the strong at the immortal level can open up the Minor World, and rely on the Minor World to leave a legacy.

There are countless such secret realms in the universe, but many of them have not been opened, or have already been excavated.

It is definitely a great luck to encounter the opening of a secret realm.

"No wonder there are so many strong people nearby!!"

Zhao Ling was stunned.

Zhao Ling came according to the flow of people, so there are a lot of Zerg here, so it is the main target of Zhao Xiang's care.

"I just don't know if this secret realm belongs to the human race or other races!"

Zhao Ling's eyes flashed. As for whether it is a Zerg or not, it is absolutely impossible, because if the immortality level Zerg limit is reached, they will directly use their own body to cultivate the next generation.

"But no matter what, it is an inheritance of immortality level, maybe you can join in the fun factory!"

Fantasy I Pick Up Attributes In The Future

Chapter 175: The Secret Realm Is Opened, And The Secret Realm Is Mixed In! (4/5)

In the endless universe, except for the 70% that has been barren, the rest of the territory is divided into four large areas.

The largest piece is the Zerg, occupying nearly half of the territory.

The remaining half was almost evenly divided into three parts, one part was the territory of ten thousand races dominated by star beasts.

Among them, the star beasts have four holy beast families, namely the dragon family, the phoenix family, the White Tiger family, and the Black Tortoise family!

Four Great Saint Beasts are in charge of the main things of the Star Beasts.

The other is the territory of the human race, and the human race is dominated by the 99999 universe kingdoms!

In other words, there are nearly one hundred thousand strong men like God Emperor Tianyan among the human race!

But even with so many strong people, the human race is still only ranked at the end of the four major forces.

One can imagine how powerful the other three major forces are!

But when it comes to the human race, we have to talk about the fourth largest force!

The fourth largest force, "Two Thirty Zero", is not a life naturally formed by any universe, but a machine race created by this human race!

The mechanical race existed a long time ago, but their appearance was a large race that finally formed after the rebellion of intelligent life created by the human race in ancient times!

Every member of the mechanical race is differentiated or cultivated from the first intelligent life.

The wisdom of the machine clan is extremely powerful, and the entire territory is composed of complex network structures.

Fortunately, Zhao Ling was captured by the Zerg. If he was captured by the Machine Race, as long as Zhao Ling was within the territory of the Machine Race, even if he used all the laws of hiding his figure to the limit, he would still be found by the Machine Race very quickly .

At the same time, because the ancestor of the machine race was created by the human race, even if it was split from the human race, the machine race still has a kind of respect for the human race!

That is, the virtual universe is run with the help of machines!

As for why the relationship between the two races is so mysterious, I'm afraid only the top leaders of the two races know!

In the starry sky of the Zerg, this Galaxy, which was originally almost uninhabited, has attracted countless Zerg experts in the past month or so!

The size of the strong Zerg is generally extremely huge, and at the same time, there are tens of millions of Zerg at the domain master level alone, and tens of thousands of Zerg at the world master level!

So many Zergs crowded the entire starry sky to the brim.

Large and small Zergs surround this not-so-big Galaxy. The outer circle is the domain master-level Zerg, while the inner circle is the World Master-level Zerg.

As for the center, it is an extremely terrifying Zerg strong man.

The terrifying aura emanating from him suppressed the aura of nearly 100 million Zerg experts present.

Such a terrifying aura can only be emitted by the powerhouses of the Immortal Level.

And among the swarm, there was a short zerg swallowed secretly after feeling such a terrifying aura in the inner circle!

"I'm going, even the immortal Zerg has come out. Is this secret realm really so attractive?"

This Zerg was transformed by Zhao Ling using the law of giantization, imitation, and transformation. At the same time, he also used the law of life force to make his own life fluctuations exactly like the Zerg!

It can be said that the current Zhao Ling is a complete Zerg no matter from the outside or inside!

"What a powerful force of the void, I just don't know if this secret realm will be opened or not!"

Feeling the terrifying aura emanating from the crack in time and space in the middle of the swarm, Zhao Ling secretly sighed with emotion.

Zhao Ling has been here for more than a day.

But it has been more than a month since the secret realm came out, how long we have to wait, even Zhao Ling is a bit unclear!

It's just that Zhao Ling is not in a hurry.

Because so many strong Zergs drop a lot of attribute points every hour

Although there are not as many attributes and good quality as those dropped between life and death, it is better than the many people!

Just being here for one day is equivalent to Zhao Ling gaining more attribute points from killing Zergs in the outside world for more than ten years!

Finally, after Zhao Ling waited for another ten hours, Zhao Ling's Realm finally reached the zero point!

"Ding.....Congratulations to the host for breaking through to the Star Sea Realm Second Stage!"

As Zhao Ling's body fluctuated throughout, Zhao Ling's aura also rose to a higher level.

The surrounding Zerg experts all turned around and glanced coldly at Zhao Ling.

After all, if they dare to break through and make noise in this place, such a small domain master-level Zerg is too courageous.

However, at this moment, a whole strange fluctuation instantly spread from the center of the swarm!

"Hiss! Finally opened!!!"

The Great Dark Worm Emperor coldly glanced at the slowly opened secret realm!

He is the Great Dark Worm Emperor who shot people chasing and killing Zhao Ling before, and he has been guarding here for a long time.....

According to his speed, Zhao Ling is not very far away from him, but in order to guard this secret realm, he chose to just send out a few Zergs to chase and kill Zhao Ling.

Therefore, Zhao Ling Tuan Guo skipped a section.

It's just that now Zhao Ling came to the door by himself, but he couldn't find Zhao Ling.

"boom!!!!!"

Suddenly, a huge roar came out from the space crack.

The next moment, the crack that was only a few thousand meters high began to expand crazily!

Soon, after only ten minutes passed, the crack expanded to nearly several million meters.

However, none of the Zerg dared to move at will!

Because the Great Dark Worm Emperor at the front didn't speak, anyone who dares to enter without permission will be courting death!

"Listen, all Zergs, in this secret realm, you have obtained all items below the immortality level, and you can take them away, but the old rules, all items above the immortality level, inheritance, whatever you get, must be given to me Hand it over!"

The Great Dark Worm Emperor has spoken!

His overbearing words didn't cause dissatisfaction among any Zerg, because that's how the rules are!

As for who set the rules you ask, it is very simple, that is strength!!

"Om!!!!!"

Another wave came, The next moment, the whole starry sky exuded a majestic atmosphere instantly!

"The secret realm is open, let's all go in!!"

Shrouding the Heavens, the black worms covering the sun, because of the dark worm emperor whispered throughout the starry sky!

At the next moment, nearly 100 million powerful Zergs all rushed towards the crack.

Zhao Ling, who was mixed with all the Zergs, also mixed with 2.4 and successfully entered this secret realm among the Zergs!

After Zhao Ling flew into the space crack, he saw the terrifying space fluctuations around him.

The powerhouses at the immortal level already have the strength to break through the space and open up a Minor World in the alien space.

And when the immortal-level powerhouse dies, the Minor World he created will fall into silence because there is no energy supply.

It's just that these Minor Worlds will slowly absorb the energy in the void, and finally when the energy absorption is complete, they will be opened to find inheritors for the original owner.

And the power surging around is pure space power.

"The power of the law of space is really terrifying. Just the defense power that comes with it needs the power of immortality level to break through!"

Thinking of this, Zhao Ling couldn't help feeling emotional!

And after Zhao Ling passed through this space tunnel, he finally appeared in a huge starry sky!.

Fantasy I Pick Up Attributes In The Future

Chapter 176: Eternal Life In Heaven! Haotian Dragon Emperor! ! (5/5)

What caught Zhao Ling's eyes was a vast starry sky. In this starry sky, continents floated in the starry sky.

All the Zergs were very excited to see this scene!

"It's such a huge area, is this the Minor World opened up by the immortal-level powerhouses in the realm?!"

"It should be true. I was fortunate enough to enter the secret realm of a human-level immortality-level powerhouse before. It seems to be much smaller than this!"

"Hiss!! I didn't expect to come across this star field and come across such a good thing!"

After seeing this starry sky, all the Zerg experts were excited.

You know, the Realm of Immortality is an extremely strong person in the Realm of Immortality!

The division of immortality level is divided into three major stages.

If you enter eternal life for the first time, you will have eternal life in the human realm, and the Great Dark Worm Emperor guarding the outside world will be the eternal victory in the human realm!

And human immortality is also divided into four small stages, that is, low-level, intermediate, high-level, and peak.

Only when one reaches the peak can one enter the second stage, which is the realm, and the realm is also divided into four small stages.

To put it bluntly, if an Immortal Level powerhouse in the realm made a move, he would be able to obliterate the Great Dark Worm Emperor with a single slap.

This is also the reason why the Great Dark Worm Emperor didn't dare to come in. One is because he is afraid of 27 hidden attacks, and if he comes, the strong of the immortal level generally cannot enter the secret realm of the immortal level.

After all, the original owner certainly doesn't want the inheritance of his own to be taken away by the strong. The purpose of leaving the inheritance is to find a good inheritor!

Therefore, the secret realm of the general immortality level will be automatically destroyed if a strong person of the immortality level enters it.

By then the good things are gone.

And above the realm of eternal life is the realm of heaven.

The Heaven Realm powerhouse has reached the limit of immortality, and if he makes a breakthrough, he will be the Holy Spirit Realm!!

And those who can breakthrough to the Holy Spirit Realm are generally god emperor level powerhouses in the human race.

Of course, there are also people like General Tian Xiao who don't want to establish the Kingdom of God.

"It's actually the secret realm of someone with a strong realm. It seems that this time there might really be something to gain!"

Zhao Ling's eyes flickered when he heard this.

However, what he is most looking forward to now is how powerful he will be if he kills all the strong people around him!

Thinking about it, it seems a little exciting!

However, just as all the Zerg rushed towards all directions, a strange wave suddenly came!

After Zhao Ling felt this wave, the guardian force in his body trembled slightly.

"No, is this familiar feeling Shiwang?"

Zhao Ling actually felt a little bit of familiarity from this aura that appeared out of thin air.

This feeling Zhao Ling knows is definitely related to own guardian spirit!

However, not only Zhao Ling, but other powerhouses also felt the existence of this fluctuation.

Suddenly, a terrifying momentum descended from the void.

This terrifying aura made the surroundings tremble.

At this moment, a terrifying force descended from the sky.

At the same time, a huge figure Shrouding the Heavens covering the moon appeared in this Minor World!

This figure turned out to be a middle-aged man. At first Zhao Ling thought he was a human race, but upon closer inspection, he found that the phantom of this middle-aged man only had a human face, but it was definitely not a human being. Terran.

"Oh!! Thirty eras! Unexpectedly, I, Haotian Dragon Emperor, actually died!"

The phantom of the middle-aged man sighed faintly.

And his words immediately made Zhao Ling and the others heaved a sigh of relief.

Dragon Emperor! That is the self-proclaimed name of the dragon clan's immortal level powerhouse.

This person is actually a strong dragon clan.

As for why the strong dragon clan fell here, it is very simple.

After all, except for the fact that wars between the four major forces rarely break out between the human race and the machine race, battles between the four major forces occur frequently.

It can be said that there are four major races in the entire universe, just like there are three other non-human races in the Milky Way besides the Galaxy Terran.

Therefore, it is not uncommon for the secret realm of the strong of each race to appear in the territory of other races.

It's just that the strong dragon clan is different.

The dragon race is sexually promiscuous, so there are heirs or descendants in many places in the universe.

Many of the Zerg are descendants of the Dragon.

Therefore, the inheritance of the dragon family can be said to be the best obtained in the entire universe.

Because he doesn't have much blood concept.

"No wonder the guardian spirit changes, it seems that it has felt the power of its descendants!"

Zhao Ling knows that the own guardian spirit is the dark gold dragon that opened up this Fang universe.

Let's not talk about its strength, but one thing is certain, that is, the purity of Zhao Ling's bloodline bestowed by the Dark Gold Dragon is definitely stronger than that of the middle-aged man in front of him.

"Not much nonsense, I am the owner of this secret realm, that is, the Haotian Dragon Emperor, and I was immortal in the heavenly realm before I was alive!!"

At this moment, the Dragon Emperor Haotian in the starry sky spoke again.

However, what he said did indeed change the faces of all the Zerg race!

"Eternal Life in Heaven!?"

"Damn it, God of Worms, it's done this time!!"

"How could it be that the Dragon Emperor Haotian is actually an immortal-level powerhouse in the Heaven Realm!"

A horrified sound spread throughout the entire starry sky!

But the Haotian Dragon Emperor in the sky ignored these people.

Instead, he continued: "There are two inheritances left by me, one is the weapon used by my dragon during his lifetime: Haotian Claw.

And the second inheritance is the immortal high-level Cultivation Technique I cultivated, the real dragon with nine transformations!"

Haotianlong's calm words made all the Zerg present couldn't help but swallow their saliva!

Even Zhao Ling is a little emotional!

"Cultivation Technique of immortality level, if I learn it, my strength will definitely increase!"

Thinking of this, Zhao Ling smiled slightly.

It seems that this time may really be a big opportunity.

"My two 440 inheritances are respectively placed in the 100 million continents of this Minor World!

Whether you can find it depends on your luck, of course, even if you don't get my inheritance, there are still some good things in this Minor World, everyone, come on!!!

After Haotian Dragon Emperor in the sky finished speaking faintly, the terrifying phantom in the starry sky disappeared.

At the next moment, all the Zerg looked at each other and rushed out in all directions in an instant.

There are 100 million continents, and all of them add up to less than 100 million. In other words, even if each person searches for a continent, it takes several rounds of searching!

So don't act fast, and when the secret realm is closed, maybe no one will be able to find the real inheritance location!

"It seems that I have to hurry up!!"

Zhao Ling's eyes flashed, and he immediately walked towards a group of Zerg.

His purpose is very clear, to kill first, and to pass on the word, to find while killing!

Zhao Ling The next moment made a dazzling ray of light and fled towards the distance.

"Remember, inheritance is a trivial matter. We must be together, because there are many worms who are stronger than us. "Besides, if you get the inheritance, you have to hand it in. There is no need to give sex for it!"

Dozens of Zerg at the peak domain master level flew together, and the leader of the Zerg like a grasshopper said seriously to his companions!

"The idea is good, but unfortunately, if you don't kill others, others will come to kill you!".

Fantasy I Pick Up Attributes In The Future

"The idea is good, but unfortunately, if you don't kill others, others will come to kill you!"

However, at this moment, a cold voice came from the side of this group of Zerg!

After hearing this voice, this group of Zerg with decent strength didn't know where to find fault.

Immediately they all turned their heads, however, the next moment, after a silver light flashed, the heads of all the Zerg fell in response.

"Ding... the host picked up the crystal of the law of water."

"Ding... the host picked up the law of light crystal.

"Ding... the host picked up the crystal of the law of wood.

A series of system prompts echoed in Zhao Ling's mind.

"Fifty-eight!"

Zhao Ling counted the Zergs he had killed, and then disappeared in place under his feet and flew towards the next group of Zergs.

Soon, Zhao Ling found a team of hundreds of domain master level Zerg.

This team has come to a continent suspended in the starry sky!

The reason why these Zergs travel in pairs is that their strength is not very strong.

It can be said that they are very weak. If they are separated, even if they get good things, they will not be theirs!

But this gave Zhao Ling great convenience.

"Wanyu Knife Formation!!!!"

At this moment, a low cry sounded in the sky, and the next moment tens of thousands of Flying Daggers enveloped the ground like raindrops.

"Puff puff puff puff..."

Hundreds of small holes were pierced through their huge bodies before the hundreds of domain master Zerg who had just reacted had time to dodge.

These little holes are completely inconspicuous on top of their huge bodies.

It's like being bitten by a mosquito more than a hundred times. Although it will be uncomfortable, it will definitely not die.

However, what they are afraid of is that these Flying Daggers running through their bodies are carrying a variety of terrifying law powers!

Some of these Flying Daggers carrying the power of law are like ice and others are like fire.

You know, Zhao Ke has instilled the power of more than a thousand laws of his own into these ministers of Flying Daggers.

In an instant, the endless power of law turned hundreds of Zerg into dust on the continent.

"Ding...the host picks up the crystal of the law of speed~".

"Ding... the host picks up the crystallization of the law of power."

"Ding... the host picked up the Crystal of the Law of Wind.

Another hundreds of law crystals flew into Zhao Ling's sea of consciousness!

And Zhao Ling didn't linger, just a little bit, and flew towards the distance.

Under Zhao Ling's killing, no Zerg strong can survive under Zhao Ling's hands.

In just over an hour, Zhao Ling wiped out nearly 100,000 domain master level Zerg!

And it seems to be aware of Zhao Ling's killing, and at the late stage, some Zerg slowly gathered together.

However, they didn't know that this was more in line with Zhao Ling's wishes.

However, when Zhao Ling was going all out to kill, someone also had his eyes on Zhao Ling.

In the endless void, a looming figure suspended in a void space and practiced with eyes closed!

This person is the remnant soul of Dragon Emperor Haotian, and the reason why his remnant soul cultivates is just to hope to live longer.

It stands to reason that with his great strength, he can be reborn!

It's a pity that his soul is incomplete now, and if he takes it away, he won't live long.

And the arrogance of his dragon race will never allow him to condescend to be in the body of another race and then live on.

"Ok!!!?"

Suddenly, Dragon Emperor Haotian opened his eyes in surprise.

Because he discovered that the number of lives in his Minor World was dropping rapidly.

This is a bit strange, the powerful organ formation he set up has not yet been activated, how could so many people die!

"Could it be internal strife?"

The Dragon Emperor Haotian thought suspiciously, but it stands to reason that he hasn't found any treasure or inheritance yet, so who would have nothing to engage in internal strife at such a moment!

Out of curiosity, Haotian Dragon Emperor directly linked his own consciousness to own Minor World, and soon, he found Zhao Ling who was really killing like crazy!

"This little thing is so murderous. It killed more than 100,000 people of the same rank in just one hour. With this level of strength, it should have reached the level of a world master!"

Haotian Dragon Emperor rubbed his chin and looked at Zhao Ling with great interest!

"It's a pity that this kid is a Zerg, otherwise, I can really give him a legacy!"

Seeing Zhao Ling's decisive appearance, Haotian Dragon Emperor sighed faintly.

Suddenly, he saw Zhao Ling actually using Flying Daggers to kill the enemy, and he was stunned!

"The Zerg still use human weapons? Don't they look down on people who use external forces?"

The Haotian Dragon Emperor was a little surprised, then mobilized a little bit of Minor World's world power, and moved towards Zhao Ling's envelope.

This power of heaven and earth is extremely concealed, and at the same time it is used in his world, Haotian Dragon Emperor is confident that Zhao Ling will never notice it!

And after using the power of the world to investigate Zhao Ling's situation, the Haotian Dragon Emperor's eyes suddenly widened!

"Human race?! Damn, this kid actually dared to run into the territory of the Zerg race! And kill people swaggeringly?"

Haotian Dragon Emperor knows that this is the internal area of the Zerg, let alone a Zerg of the domain master level "Even if ten immortals come to this place, they will not survive without leaving H.

He himself is the prime example!

However, at this moment, Zhao Ling found another team of thousands of Zerg.

The next moment Zhao Ling directly exploded into the Wanyu Sword Formation! Instilling the power of seven powerful laws into the knife formation,

"Hiss, the power of the seven laws! This kid Talent is so terrifying!"

This scene was once again seen by Haotian Dragon Emperor.

At the same time, he saw the shadow of the power of the golden system law from these Talents.

You must know that he is the Minor World built with the power of the golden law.

If possible, he would definitely be happy to find a human genius with the power of the golden system of laws to inherit as his own!

"Unexpectedly, the secret realm I designed to kill the Zerg actually allowed me to find a descendant who might be qualified!"

Haotian Dragon Emperor laughed!

He was seriously injured by the strong Zerg, and he had no choice but to die in the end. How could he pass his own inheritance to the Zerg!

So his secret realm aura is really deceptive, his weapon was smashed countless years ago, and the words of Cultivation Technique are all in his mind, there is no rubbing version at all.

There are only (okay) some world masters, or quasi-immortal level little things.

The purpose is to let the Zerg kill each other when they are fighting for each other!

At the same time, two fake inheritance places were set up.

Needless to say the purpose!

"Alright, since you kid likes to kill, I'll give you something, which can be regarded as a test.

The Haotian Dragon Emperor suddenly smiled, and then shrouded his own thoughts in one of the fake inheritance boats.

"Mie Shen gun execution, the first style!!!"

In a starry sky, Zhao Ling gave a low shout, The next moment the spear in his hand instantly turned into a bloody light.

Bursts of divine brilliance hovered over the tip of the spear.

And this blood-colored gun light pierced through a huge Zerg hundreds of thousands of meters in front of Zhao Ling in an instant!

"boom!!!!!"

The next moment, with a huge roar, this powerful Zerg that was as powerful as the third stage of the world master level instantly exploded into a green blood mist that filled the sky!.

Fantasy I Pick Up Attributes In The Future

Chapter 178: Inheritance Opens! Killer Zhao Ling! ! (2/5)

"Clang!!!!!!!!!"

Looking at the green blood mist all over the sky, the spear in Zhao Ling's hand flicked slightly in the starry sky, and a crisp gunshot rang out into the starry sky!

In the blood mist, a law seal emitting this silver ray like a token rushed into Zhao Ling's body in an instant.

"Ding... Congratulations to the host for picking up the seal of the law of instant light, congratulations to the host for comprehending the law of instant light!"

"Ding... Congratulations to the host for reaching 200 strands of the law of instant light!"

The next moment, two system beeps came. ,

At the same time, Zhao Ling also has a rare power of law, and this rare power of law is also needed to synthesize the law of space.

You must know that in order to chase and kill Zhao Ling, he ran a distance of several light years with him, and killed more than a dozen Second Stage world masters on the way, but he still failed to catch up with him!

In the end, Zhao Ling finally used the phantom law to separate tens of thousands of phantoms to confuse the opponent, and then killed it!

"boom!!!!!"

However, at this moment, the entire Minor World unexpectedly shook.

The next moment There are bursts of terrifying coercion in the distance!

Zhao Ling frowned suddenly!

"What a terrifying coercion, at least at the level of immortality, which means it's not from the Zerg race anymore?"

Speaking of this, Zhao Ling instantly thought of a possibility!

"Damn it, it took only eight hours to find the place of inheritance?"

Zhao Ling couldn't help complaining!

The next moment, Zhao Ling's instant law of light was activated instantly, and the whole person flashed 540 in the starry sky, and then disappeared in place!

time back to a few minutes ago

Tens of light years away from Zhao Ling!

On a huge floating continent, a group of Zerg finally searched for a second continent after searching one continent.

"Have you heard that there is an insect killer madly killing us domain master-level Zerg!"

"That's right, my cousin also sent me a sound transmission, but it's been three hours since the sound transmission, and I can't get in touch with him anymore, it feels real!"

"What? Is it so damn it? Why do you have to make trouble with domain masters like us? Why don't you go to realm masters!"

The story of Zhao Ling has spread throughout the Minor World in just a few hours.

After all, although this Minor World is huge, it is only 30 million light-years in diameter!

With this diameter, these strong Zerg fighters would be able to fly in ten days.

Moreover, there is still a market for sound transmission symbols in the territory of the Zerg, after all, there are virtual universes covering all places except the territory of the Zerg.

Even if you are on both sides of the universe, you can talk in real time.

The sound transmission symbol can only transmit sound in a short distance. (chff) But it can also spread Zhao Ling's message quickly throughout the Minor World.

"Don't talk about that, after all, we don't know where the killer is hiding. If he is really hunted down, we can only run for our lives!"

A quasi-world master-level Zerg headed by him sighed, and said helplessly, and then he started to search this continent with these Zergs.

There is an extremely high mountain on this continent, and this mountain has reached a height of billions of kilometers!

The quasi-world master Zerg headed directly came to the top of this mountain and began to explore curiously.

"Hey! What is this!?"

He suddenly saw a crystal clear ball falling to the ground.

At the same time, a terrifying momentum was brewing above the ball.

Thinking he got the treasure, he quickly grabbed it.

However, the next moment, the little ball began to vibrate crazily.

The violent shaking caused the quasi-world master Zerg's complexion to change instantly.

"Not good, it's a scam!!"

He hastily threw the ball out, and then quickly fled towards the outside of the continent.

However, it's still too late!

"boom!!!!!"

The next moment, an earth-shattering sound instantly enveloped the entire starry sky.

That terrifying ball instantly unleashed the full blow of an immortal-level superpower!

The quasi-world master Zerg who just ran outside the mainland was instantly enveloped by this terrifying force of destruction, and the next moment disappeared directly into the starry sky.

And the huge continent under his feet also disappeared in an instant!

"boom!!!!!"

The terrifying roar spread throughout the Minor World, and almost everyone in this Minor World heard this huge roar.

With such a powerful force appearing here, even a fool would know what happened!

"Inheritance has appeared! It's so fast!!"

"Hahahaha, if I get the inheritance of heaven-level immortality, I can directly cultivate until immortality is gone. After that time, the life will be the Dark Worm Emperor! I don't deserve to eat shit!"

"Eternal Life, here I come!!"

After knowing that the inheritance here belongs to the heaven-level immortal powerhouse, many world master-level Zerg no longer think about handing over the inheritance.

No matter how powerful the Great Dark Worm Emperor is, it is impossible for him to break into the Minor World of the Heaven Rank Immortal Level.

And as long as they cultivate their strength to the level of immortality in this place before going out, will they still be afraid of a big dark insect emperor in the human realm?

Countless Zerg rushed towards the place where the explosion sounded frantically.

Soon the nearest world master-level Zerg came to the so-called land of inheritance.

In this place of inheritance, everyone saw a huge space crack suspended in the Starry Sky Sect.

Obviously, this crack in space was shattered by the horrible explosion just now!

At this moment, everyone finally knew that the first person to find the inheritance was not the luckiest, but the unluckiest.

This kind of attack is something that even the most powerful world lord and peak-level Zerg can't resist, let alone other Zerg.

More and more Zerg came to this area

But no one acted rashly.

Everyone is waiting for the first bird.

Finally, some Zerg couldn't hold back anymore, and saw a World Master-level Fifth Stage Zerg flying out of the Zerg towards that space crack.

All the Zerg looked at it solemnly!

"boom!!!!"

However, just after the Zerg of the world lord Fifth Stage slowly entered the space crack, a terrifying roar came, and the strong Zerg who had just stepped into the crack instantly turned into blood mist all over the sky!

"hiss!!!!!"

This time, all the Zerg took a deep breath.

All the Zerg were horrified and thankful. What was horrified was that the intensity of this attack was so terrifying that no one present could get in smoothly.

Fortunately, fortunately, I was not the first to die.

With the passage of time, the strong players in the Minor World began to come one after another.

Although Zhao Ling was far away, Zhao Ling arrived within an hour after using the newly obtained Law of Instantaneous Light, plus the Law of Instantaneous, Law of Blinking and other law powers to increase speed.

"Om!!!!"

However, at this moment, there was a slight fluctuation in the starry sky

The next moment The phantom of Haotian Dragon Emperor appeared in the starry sky again!

"Your luck is really beyond my imagination. You found my first inheritance so quickly!"

Haotian Dragon Emperor's surprised tone seemed extremely shocking, but if people knew that it was arranged by him, he would definitely beat him to death. .

Fantasy I Pick Up Attributes In The Future

Chapter 179: True Dragon Nine Changes! Immortal Advanced Cultivation Technique! (3/5)

"What is actually an inheritance!?"

"It took less than a day to find a heaven-level immortality-level inheritance. Are we all people with great luck?"

After hearing the words of Haotian Dragon Emperor fooling the children, all the Zerg were so excited that they couldn't extricate themselves!

It's just that Zhao Ling felt something was wrong slightly!

Of course, it's not that he is so powerful that he can still feel what this Haotian Dragon Emperor is thinking.

It was the Haotian Dragon Emperor in the sky who was staring at him.

It's as if you want to swallow yourself alive ~ take a look!

"Dragon's nature is obscene, damn it, it can't be that I met a dragon who fucked up!!"

Thinking of this, Zhao Ling suddenly felt his chrysanthemum tighten!

The Haotian Dragon Emperor in the sky saw that Zhao Ling seemed to be aware that he was observing him, and nodded in satisfaction.

"The lad is alert!!"

However, if he found out about Zhao Ling's desire to fight, he might not hesitate to cut off his inheritance and shoot Zhao Ling to death!

"Since everyone has found my inheritance, they will naturally have the opportunity to seize this opportunity!

Now, those who want this inheritance, come in!!"

After Haotian Dragon Emperor finished speaking, he waved his big hand and a golden light instantly hit this huge space crack.

The next moment, a huge portal slowly emerged from the space crack.

This is a huge iron gate with a height of hundreds of thousands of meters.

As for what iron, no one knows.

But at a glance, you can tell that it is a material of immortality level!

Such a big gesture immediately stunned everyone present.

Immortal-grade materials are actually used to make a door.

And this door seems to be only used to protect the inheritance.

"It seems that there are eight or nine behind this iron gate, which is the real inheritance!"

Zhao Ling's eyes flashed, but he felt a little bit of something wrong.

His feelings told him that this inheritance is definitely not that simple!

But Zhao Ling didn't feel the slightest danger!

"Then go and have a look, I don't know what the hell this Dragon Emperor is going to do!!"

Zhao Ling frowned and waited for the bird to come out.

After the lesson that someone rushed up and died immediately, many people dare not be the first to throw it up.

However, at this moment, a world master Zerg pinched the head of a domain master Zerg next to him!

In an instant, the face of the pinched Zerg suddenly changed!

However, at the next moment, as the world master Zerg ancestor swung vigorously, his figure rushed into that space crack like a missile.

Seeing this, everyone looked excitedly at the flying Zerg!

After a slight fluctuating sound, the domain master Zerg submerged into the huge iron gate in an instant.

Everyone waited for ten seconds and found nothing unusual.

"Hahaha! It really is a true inheritance!!"

"I'm going ahead!!"

"Hahaha, the inheritance is mine!!"

A sound of wild laughter came from among the Zerg, and the next moment hundreds of thousands of World Master Zerg rushed towards the iron gate.

The domain master Zerg followed closely behind.

After Zhao Ling took a deep look at the Haotian Dragon Emperor in the sky, he stepped down and rushed towards the huge iron gate in an instant.

Staring at Zhao Ling in the endless void, the Haotian Dragon Emperor couldn't help but raise the corners of his mouth slightly!

"Boy, whether you can survive or not depends on your Talent!!"

The next moment, his figure Shrouding the Heavens covering the moon slowly disappeared into the sky!

On the other side, Zhao Ling followed a large group of Zergs through the void.

"Tsk tsk tsk, if you kill all these Zerg, I don't know how many attributes you can get!!"

Zhao Ling couldn't help but glanced at all the Zerg flying in the void.

It's just that he knows that if he makes a move in this place now, he will be besieged by everyone soon!

Zhao Ling boasted that his strength was not bad, but he was not arrogant enough to resist so many Zerg experts with his own strength.

"There is light ahead!!!"

Suddenly, the strong Zerg flying ahead suddenly saw a light in the distance, and all the Zerg were excited!

"Om!!!!!"

With a burst of waves, all the strong people rushed out of this void in an instant.

In an instant, the scene in front of them caused everyone's expressions to change slightly!

I saw a huge sun floating in the sky, and the center of the sun was a huge book!

On the booklet are written four large characters: "Nine Transformations of the True Dragon"

The four gold-plated characters make the Zerg powerhouses excited!

It's just that this Cultivation Technique exudes a terrifying coercion that makes everyone almost unable to breathe.

"This is the high-level Cultivation Technique of immortality that Haotian Dragon Emperor said, the real dragon with nine transformations?"

.....ask for flowers...

"That's right, this terrifying coercion is definitely not something that ordinary immortal-grade Cultivation Techniques can emit.

"But with such a powerful coercion, is there anyone here who can fly into the starry sky to obtain this Cultivation Technique?"

All the powerhouses, no matter if they are the second stage of the domain master or the peak of the domain master, all stand still with difficulty.

But it is reasonable to say that the momentum that can make the peak of the world master is difficult, let alone the powerhouse of the tenth second stage of the domain master, even the strong of the fourth fifth stage of the world master will be crushed in an instant!

"It seems that according to different Realms, the size of this coercion is also different!"

Zhao Ling's eyes flashed, but compared to others, Zhao Ling now felt the coercion only around the Star Sea Territory Third Stage.

It has more First Stage than own Realm!

Therefore, Zhao Ling guessed that the coercion is determined according to the Realm.

O

Zhao Ling also saw a lot of Zerg in the Zerg colony who seemed to have no feeling at all.

"The place where you are now is the immortal formation that I planted before my death: the formation of the dragon ascending to the sky!"

At this moment, a loud voice appeared in the sky again, and at the same time the figure of the Dragon Emperor Haotian appeared in the sky.

And his words once again shocked all the Zerg on the earth.

"Hiss! Immortal-level formation, that is to say, the Haotian Dragon Emperor is actually a formation master?"

"How is this possible? If he is a strong man at the Immortal Heaven Realm or a formation master at the Immortal Level, doesn't that mean that his status is no lower than that of an ordinary Holy Spirit level powerhouse?"

After hearing the words of the Haotian Dragon Emperor, there were shocking voices.

Zhao Ling also frowned.

Formation masters have a very high status in this universe. It can be said that the appeal of a senior formation master is definitely three points stronger than other professions in the same Realm.

Because formation can be popularized on a large scale, but the preciousness of the materials used is far less than that of alchemists.

Therefore, as long as you have enough technology, you can arrange formations that are several times or even hundreds of thousands of times stronger than your own strength almost anytime and anywhere.

And the formation can also be used by others.

Alchemists and Alchemists not only need powerful Talents, but are also limited by materials.

Ordinary Practitioners, Psychiatrists, etc. are even worse in comparison.

And Haotian Dragon Emperor, an immortal-level formation master, is enough to make his status comparable to a group of powerful holy spirits.

"And all you need to do is resist my formation and at the same time get the one in the sky: "Nine Transformations of the Dragon! Five".

Fantasy I Pick Up Attributes In The Future

Just after Haotian Dragon Emperor finished his words, the ground where everyone stepped on shook instantly.

After Zhao Ling and the others flew out of the void tunnel, they came directly to a huge metal square.

If it weren't for this square under our feet, none of the people present would have the strength to stand still!

"Boom!!!!"

With the roar of the earth, a huge blood-red sky ladder slowly rushed out from the metal ground.

It's just that Zhao Ling felt a bloody aura from this ladder.

Zhao Ling's Law of Death sensed the slightly excited beating of this aura!

"It can make the law of Death excited, how many people died on this ladder!?"

Looking at this huge ladder, Zhao Ling frowned slightly.

He knew that the blood red on this blood red sky ladder was dyed with blood.

"This ladder matches this formation, countless years ago, I have lost count of how many enemies I killed together with 100.

The Dragon Emperor Haotian sighed quietly, but not many Zergs cared about his words, after all, how can a strong man not kill a few people.

Among them, there are many people who have killed tens of billions of people.

For this point, Haotian Dragon Emperor did not explain.

The only Zhao Ling who knows will not say anything!

"Go, as long as you can climb this ladder, my Cultivation Technique inheritance will be yours!"

With a big wave of the Dragon Emperor Haotian, the huge sun in the sky slowly fell to the top of the ladder.

The height of this ladder is actually not high, only 100,000 floors!

It's just that each floor is 10,000 meters high.

But for the Zerg on the field, only "little guys" like Zhao Ling need to fly to climb.

"Hmph, how could such a small ladder be difficult for me!"

A Zerg with a powerful Talent, whose coercion had little effect on him, sneered and flew towards the ladder in an instant.

Many of the other Zerg showed disdainful expressions when they saw this.

If the inheritance of immortality level was so easy to get, they would have gone up it long ago.

I saw this huge Zerg crossing 10,000 steps in an instant, and at the same time flew towards the peak of the ladder at an extremely fast speed.

This time, all the Zergs present were a little uncertain!

Looking at this situation, how do you feel that this Zerg can rush to the place of inheritance all at once!

This Zerg is very fast, and the so-called assessment is like a joke, without any feeling at all.

After just one second, the first Zerg who broke through the level has already reached the 40,000-story ladder!

The momentum is already very slow according to the speed of Realm of his world master level Seventh Stage.

"No, the inheritance will be taken away by him, you!!"

Finally, everyone present couldn't wait any longer.

The next moment Tens of millions of Zerg rushed towards the sky frantically.

Headed by hundreds of thousands of World Master Zerg.

And Zhao also rushed into the ranks of these Zerg in an instant and rushed towards the sky.

Of course, Zhao Ling's goal is not the Cultivation Technique in the sun in the sky, but the attributes, treasure chests, and the power of law that these people dropped during the process of breaking through the level!

"Ding... Congratulations to the host for picking up the law of light crystal, the number of law of light threads has increased: 10 strands!"

"Ding... Congratulations to the host for picking up the power value: 100 billion! Increase the power value: 100 billion points!"

You must know that more than 50% of these Zerg races are suppressed by a level of coercion higher than theirs.

Therefore, it is equivalent to strenuous exercise. Although it is not as exhausting as a life-and-death battle, it is far faster than before, and the speed is astonishing!

"Ding...Congratulations to the host, your Realm has been promoted to Star Sea Territory Third Stage!"

In less than a second, Zhao Ling's Realm has been upgraded by a level!

And Zhao Ling's attribute value is still increasing crazily.

It can be raised again after almost a few seconds.

At the same time, Zhao Ling's law power is also rapidly increasing.

As the most powerful of the Five Elements law, Zhao Ling has already increased to more than 4,000 shares!

"Sure enough, as for the big opportunities, there are big rewards, but unlike them, my harvest has already been obtained!"

The corners of Zhao Ling's mouth couldn't help but rise.

After reaching the 10,000th floor, Zhao Ling also realized how this ladder works.

In fact, it is similar to the Tianyan Divine Pagoda, that is, if it rises to 10,000 floors, it will increase the coercion of a small Realm.

It's just that the difference is that it's enough to resist the coercion here, and the coercion is much simpler than the battle in the Tianyan Divine Tower.

"However, if you want to reach the 100,000th floor, you must also have a Talent who has passed the 80th floor of the Tianyan God Tower!!"

Zhao Ling frowned!

And the 80th floor of the Tianyan Divine Tower already has the qualifications to enter the Tianxing Divine Mountain.

Zhao Ling didn't believe that there would be such a genius among this bunch of Zerg.

Of course, it is not so accurate to say that every 10,000 layers will increase the momentum of a small Realm...

It should be said that without raising a level, the momentum will be doubled.

After doubling the momentum, it is equivalent to raising a small Realm, but the gap between two large levels is not only twice.

From the domain lord to the world lord, there is at least a hundred times the difference, and from the world lord to the eternal life, the gap in strength is a thousand times.

A thousand times difference in strength is enough to make countless geniuses in the universe despair.

This is why there is a saying among the strong that if you don't enter eternal life, you are all ants!

"boom!!!!"

Suddenly, at this moment, a terrifying roar came from behind the ladder.

All the Zerg's faces changed drastically when they heard the loud noise.

Zhao Ling also looked back and found that there was a huge light curtain behind him!

However, wherever the light curtain went, all the Zerg shattered instantly.

What is even more frightening is that this light curtain is rushing towards the top of the ladder at high speed.

"No, this is a trap! We fell for it!!"

"Damn it's Haotian Dragon Emperor, actually designed to frame us.

"Could it be that there is the legendary blood sacrifice formation here? The Dragon Emperor Haotian wants to use our flesh and soul to be reborn!?"

All kinds of conjectures about Heavenly Horse echoed among the swarm.

Zhao Ling also frowned.

What on earth is this Haotian Dragon Emperor going to do!!

However, when everyone was guessing, the voice of Haotian Dragon Emperor came from the void again!

"By the way, I forgot to tell you just now, I set a time limit in this place, as long as anyone who doesn't break through the ladder within the specified time will have 1.6 deaths!"

Haotian Dragon Emperor's explanation instantly made those Zerg races who had reached their limit look ugly!

Sure enough, the inheritance of eternal life due to the environment is definitely not so easy to get!

"Damn it, how could we break through at such a fast speed!"

All the Zergs cursed angrily. They are not fools. Many people have already guessed the working mode of this ladder. That is to say, even if they are given countless years, they will not be able to break through.

They are still a bit regretful that they and their inheritance are hopeless.

I didn't expect to lose even my own life now.

But Zhao Ling in the swarm looked towards the sky, and saw the Dragon Emperor Haotian looking at him with a half-smile.

And his expression seemed to be saying: "How about it, is the old iron working hard?"

To this, Zhao Ling just wants to say, "Your mother is better than you, daddy is a friend"

(This sentence is purely for entertainment, hahaha.).

Fantasy I Pick Up Attributes In The Future

Chapter 181: The Target Of Public Criticism, Zhao Ling Has Become Hope? (5/5)

Looking at the half-smile expression of Haotian Dragon Emperor in the sky, Zhao Ling frowned.

"This Haotian Dragon Emperor is definitely targeting me, is this a test for me?"

Zhao Ling wondered why Zhao Ling didn't guess that the other party wanted to kill him. Just kidding, although the other party was dead, he was still a strong man with eternal life in heaven.

Killing yourself is not the same as playing!

"Never mind him, since he killed so many people, he's giving me experience!!"

Zhao Ling thought indifferently, as for what will happen after reaching the top of the ladder, it depends on the back.

The most urgent thing now is to improve your strength!

The next moment Zhao Ling's mind instantly swept over the hundreds of thousands of Zerg corpses that had been bombarded by the light curtain below!

In an instant, the ocean-like attribute light spots, countless treasure chests, law crystals, and law seals all rushed towards him.

"Ding...Congratulations to the host for picking up the law of wood crystal, the number of law of wood threads has increased: 1 strand!"

"Ding... Congratulations to the host for picking up the power value: 1000 billion! Increase the power value: 1000 billion points!"

"Ding... Congratulations to the host for picking up the law of wind crystal, and the number of law of wind threads has increased: 800 strands!"

"Ding... Congratulations to the host for picking up the blood value: 900 billion! Increase the blood value: 900 billion points!" 27

A series of system prompts filled Zhao Ling's prompt box.

At the same time, Zhao Ling's physical strength, soul strength, and comprehension of the laws are all increasing crazily.

"Ding... Congratulations to the host for advancing to Star Sea Realm Fourth Stage!"

"Ding... Congratulations to the host for being promoted to: Star Sea Realm Fifth Stage!"

"Ding... Congratulations to the host for being promoted to: Star Sea Territory Sixth Stage!"

At the same time, three consecutive system prompts also echoed in Zhao Ling's mind.

Improving the third-level is equivalent to increasing Zhao Ling's strength by more than ten times!

It's just that with the improvement of Zhao Ling's Realm, the surrounding momentum also increases.

And the Haotian Dragon Emperor in the endless void has been frightened by Zhao Ling now.

"Hiss! I actually misjudged my eyes, this kid is not a domain master class, but a Xinghai class that condenses the power of law into a thread of law!"

But a small Xinghai class is here, and it is possible to leapfrog to comprehend the power of laws!

Forget it, and condense into a thread of law?!"

The Dragon Emperor Haotian wondered whether it was because he hadn't been to the outside world for thirty epochs, and the outside world was no longer what he imagined.

But why are these Zerg still so frustrated?

"This child is definitely not simple, so if the Talent does not die in the future, he will definitely have the hope of becoming a strong person in the Holy Spirit Realm!!"

A strong light burst out from Haotian Dragon Emperor's eyes.

Of course, even Zhao Ling's Talent heaven-defying, but wanting to become a holy spirit or even eternal life is not a simple matter.

Being strong now does not mean that it will be strong in the future.

He Haotian Dragon Emperor is an example. Among the geniuses of the same period, there are countless talents who are higher than him, but in the end, he is the only one who became the eternal life of heaven.

At the same time, he also became an immortal-level formation teacher.

"If a genius wants to grow up, opportunity, talent, and character are all indispensable.

This kid already has Talent, and he can single-handedly break into the interior of the Zerg, and at the same time kill decisively, his mind is absolutely extremely strong.

In other words, what this kid lacks now is an opportunity!"

Thinking of this, the Dragon Emperor Haotian smiled arrogantly!

Opportunity? There are few opportunities in this world that are more powerful than the inheritance of a heavenly realm of immortality!

Tianjing Immortal is already equivalent to the strongest under the Holy Spirit, and at the same time he is also an Immortal Formation Master.

And just when Haotian Dragon Emperor was narcissistic, the light curtain covering the sun by Shrouding the Heavens had already destroyed the Zerg above the first 20,000 floors!

Fortunately, this ladder exudes only aura, if it is really the same as that of the Tianyan Tower, the Zerg present may have died 90%!

"No, we will all die if this continues!!"

Suddenly, among the swarm, a huge world lord peak zerg looked at the light curtain that had been chasing to his ass behind him, and his expression was extremely ugly.

"Hmph. So what else? Can't we just wait to die!?"

However, a Zerg beside him said it disdainfully.

Of course, he is also the Zerg at the peak of the world lord.

"Hmph! Stupid, if we sit and wait for death, we will definitely die, but if we think of a way, we can still have a chance.

The berated Zerg snorted coldly and said in a cold voice.

And his words were also recognized by tens of millions of other strong Zerg.

But here comes the problem, think of a way? Think of a way!?"

"Everyone, listen to what I have to say!"

However, at this moment, a wretched bug came out of the swarm.

All the Zergs are climbing up layer by layer despite the coercion, after all, they can no longer fly.

So even though it was a small bug at the domain master level, no one said anything,

"Didn't the Dragon Emperor Haotian say that there is only one inheritance, and those who fail to climb the ladder within the specified time will die, does that mean that as long as someone climbs to the top, the assessment can be stopped this time? "

The wretched little bug calmly analyzed.

Not to mention, when he said this, many Zerg eyes lit up.

"So, although we can't go up, there are people who can go up. I have observed this man from the beginning, and he has not been panting until now."

Speaking obscenely, the domain master Zerg immediately pointed towards Zhao Ling.

Immediately, Zhao Ling's face darkened, and he was collecting attribute points while walking, but he was noticed by others.

"what do you mean!!"

Zhao Ling gave that wretched Zerg a cold look!

The cold light revealed in the pupils instantly startled all the Zerg present.

Even those of World Master Five Sixth Stage Seven Eighth Stage are no exception.

As the target of the gaze, the wretched Zerg froze in place.

o70's eyes instantly blurred.

Anyone with a discerning eye knows that the Zerg race at the main level of the domain was stunned by Zhao Ling's stare.

"Hiss! This kid is a ruthless person!!"

"However, the Realm I see seems to be only the domain owner. The domain owner has such a strong strength, that is to say, he really has the strength to break through the ladder!?"

"There is hope, there is hope!!"

The eyes of the Zerg instantly brighten up!

It's just that the terrifying aura that Zhao Ling erupted just now made even the powerhouses of the World Master-Second Stage a little afraid to go up and talk to Zhao Ling.

Not to mention getting Zhao Ling to lead the way!

"Little brother, look, if you don't go up, you will die in the end, why don't you go up there, I have an aeration pill here, if you don't dislike it

However, at this moment, a Zerg at the peak of the World Master spoke.

His sincere words made the surrounding Zergs unbelievable, would anyone in their Zergs talk like that?

However, the actions of the Zerg at the pinnacle of the world lord also reminded others.

"Little brother, I have another guardian jade pendant here, you may use it on your way to the ladder."

"I have it too. This piece of mine is the high-level guardian jade of the world lord. If you use it, you will definitely be able to go up thousands of floors!"

Each of the Zerg quickly handed over their backgrounds to Zhao Ling.

"It's hanging, and someone else offered to give away treasures?!".

Fantasy I Pick Up Attributes In The Future

Chapter 182: Designed To Kill Thousands Of Domain Owners! ! (1/5)

Zhao Ling looked at a large number of guardian Magic Treasures, Medicine Pill, and even Cultivation Technique in his storage ring.

Immediately he smiled helplessly. Speaking of which, he really didn't lack these things.

But since the other party has stuffed it into own's hands, it seems a bit unreasonable not to accept it!

"but!!!!"

Suddenly, Zhao Ling spoke, and his words immediately made the hearts of the strong people around him rise to their throats.

"However, the Cultivation Technique I cultivate is a bit special. It requires a part of blood sacrifice. Only the more people who sacrifice blood, the greater the blood volume, the more my strength will increase. Of course, it is only for a short time. I calculated it according to The number of people who have just died, I can reach up to 80,000 floors, and more...

Having said that, Zhao Ling glanced at the leader Zerg in embarrassment!

His purpose is immediately self-evident.

In an instant, the faces of those domain master-level Zerg who thought they had hope of escape suddenly changed dramatically.

They don't know what Zhao Ling means!

"Hahahahaha...."

At the next moment, there was a burst of wild laughter, and I saw a group of Zerg with the head of the world master level laughing instantly.

Originally they were just betting that Zhao Ling had the strength to break through the ladder, but now Zhao Ling admits that he really has the strength, and the price is only to sacrifice some of their insignificant younger brothers or passers-by!

"Small things! Do it right away!!!"

"Hahaha, I thought it was a simple request!!"

With a burst of wild laughter, Zhao Ling also laughed.

Of course, except for about 100,000 world master-level Zergs left, all other domain-master-level Zergs turned pale instantly.

"Damn it, if you want to kill me, let's die together!!"

Suddenly, there was a stern shout, and the next moment, a Zerg who knew he was plotted by Zhao Ling to die instantly grabbed Zhao Ling with his claws.

However, Zhao Ling is just standing there, there is no need for him to do something that someone can do!!

Sure enough, the next moment, a huge tentacle fell from the sky.

The Zerg who wanted to kill Zhao Ling was instantly turned into a blood mist.

The next moment The blood mist all over the sky poured into Zhao Ling's body in an instant, and was absorbed by Zhao Ling's Blood Devil gun.

The Zerg outside saw this scene and immediately believed what Zhao Ling said just now.

Even if he doesn't believe it, he will kill him!

As long as there is a glimmer of hope, they don't want to die!

"Do it!!! ㄤ!"

The leading Zerg at the peak of the world master level burst out their most powerful strength in an instant!

At the same time, the endless power of law surged out violently in their bodies.

One by one, the world master Zerg crazily bombarded and killed the overwhelming domain master Zerg.

A series of powerful powers of law reverberated in the void.

Even those Zerg whose Talent was slightly stronger and had climbed to the fourth or fifth level were instantly blasted into pieces.

Of course, those who climbed above 50,000 floors were left behind.

after all. You can't put all your hopes on Zhao Ling.

With the attack of the world master class, these domain master class Zerg are like mosquitoes, killing tens of hundreds with one slap, and thousands of them with one kick.

In just three breaths, tens of millions of domain master Zerg were all wiped out!

You know, even the weakest realm master can easily kill thousands or even tens of thousands of realm master Zerg.

Not to mention so many world master Zerg, and among them there are nearly a hundred Zerg at the peak of the world master.

"boom!!!!!!"

At the next moment, the blood mist all over the sky gathered in the sky to form a boundless sea of blood, rushing violently towards Zhao Ling's body.

And the level of the Blood Devil gun, which has reached the peak of the terrifying world master, for these Blood Qi powers, he can only say that it is enough to stick between his teeth.

After all, Zhao Ling's target is not these Blood Qi powers!

When the Blood Devil gun rapidly absorbed the power of Blood Qi, Zhao Ling also had a thought, and rivers of colorful attributes rushed towards Zhao Ling's body.

"Ding... Congratulations to the host for picking up the crystal of the law of thunder, and the number of threads of the law of thunder has increased: 1 strand!"

"Ding... Congratulations to the host for picking up the power value: 200 billion! Increase the power value: 200 billion points!"

"Ding... Congratulations to the host for picking up the law of fire crystal, the number of law of fire threads has increased: 4 strands!"

"Ding...Congratulations to the host for picking up the blood value: 900 billion! Increase the blood value: 900 billion points!"

The system prompt in his head made Zhao Ling's head buzzing.

"Ding... Congratulations to the host Realm for being promoted to: Star Sea Realm Seventh Stage!"

"Ding...Congratulations to the host Realm for being promoted to: Star Sea Realm Eighth Stage!"

"Ding... Congratulations to the host Realm for being promoted to: the pinnacle of the Star Sea Realm!"

With the terrifying improvement of Zhao Ling's physical strength, Zhao Ling's Realm has finally reached the peak of the Star Sea Realm!

And Zhao Ling's Five Elements law has already reached its peak amidst the beeps!

"Ding... Congratulations to the host, the thread of law has reached the limit value, and the Realm has also reached the peak of the star sea realm! The host can now choose to upgrade your Realm!"

A system prompt sounded in Zhao Ling's mind instantly.

Because what Zhao Ling comprehends in Star Sea Realm is the thread of law, so if Zhao Ling wants to upgrade to Universe level, he must satisfy the thread of law to reach the limit value at the same time, and the Realm must also reach the limit.

And now Zhao Ling has successfully met this requirement!

""It's time to advance too!!!"

With a flash in Zhao Ling's eyes, he knew that the current situation of his own is to improve his own strength as much as possible, only in this way can he survive the test of the heavenly immortal level powerhouse.

That's why he calculated these world master level powerhouses!

But now is not a good time to advance, because there are still more than 100,000 world master Zerg waiting for him to break through this ladder.

After the Blood Devil gun sucked the last trace of Blood Qi into his body, Zhao Ling instantly opened his eyes!

"brush!!!!!"

A terrifying power of Blood Qi flashed from Zhao Ling's eyes.

The aura that erupted from Zhao Ling's body was instantly stronger than before.

Of course, Zhao Ling did not burst out with full strength!

Just explode own momentum to the second stage of the world master!

Because now he can only fight against the eighth Ninth Stage of the World Lord before breaking through to the Universe level, and at the peak of the World Lord, there are many (Li Hao) who have existed at the peak of the World Lord for tens of millions of years .

The most powerful one is definitely ten or twenty times stronger than the world master Ninth Stage.

"Hahaha, thank you all seniors, since this is the case, I will fulfill the promise!!"

Zhao Ling smiled, and then his body burst out instantly.

In a flash, Zhao Ling reached the 40,000th floor.

You must know that before Zhao Ling used a trick to get all the world masters to kill all the domain masters, it only took three breaths, and it only took ten seconds to improve his strength.

The light curtains at the back are only raised by a thousand layers.

And Zhao Ling did not stop after reaching the 40,000th floor, The next moment, the body burst out again,

In the second second, Zhao Ling had already reached the 50,000th floor, and soon Leng surpassed all the Zerg climbing on the ladder.

However, to everyone's excitement, Zhao Ling's speed not only did not decrease, but also improved a lot!

"It's saved, this time we're saved!!"

"Hahaha, the sky is endless!!".

Fantasy I Pick Up Attributes In The Future

Zhao Ling, who was advancing rapidly on the ladder, heard the excited shouts of the World Master Zerg behind him, and immediately smiled with disdain!

"Saved? Needless to say, it's so early!!"

Zhao Ling thought with disdain in his heart, but his speed slowly dropped after passing the 80,000 floors.

This time, all the Zerg in the rear breathed hard.

Although I don't know whether they will be saved after Zhao Ling passed, but one thing is certain, if Zhao Ling can't make it through, they will really die!

But fortunately, although Zhao Ling's speed slowed down and continued to decline, Zhao Ling still passed the ninth and fifth floor after five seconds.

And Zhao Ling's speed has dropped to freezing point.

"Damn it, my strength is still not enough, seniors, I may let you down!"

Zhao Ling made a look of exhausting himself.

At this moment, the complexion of the world master Zerg who was already very happy changed.

Even Zhao Ling can't pass, so their last hope is gone!

"boom!!!!!"

However, at this moment, a Zerg from the Fourth Stage, who had reached its limit, was caught up by the light curtain in an instant.

With a huge roar, the world lord instantly turned into a blood mist all over the sky.

And the next moment, the blood mist rushed towards Zhao Ling in an instant.

820 After the blood mist was absorbed by Zhao Ling, Zhao Ling seemed to have a little momentum and moved forward a few layers in an instant!

"By the way, why didn't I think that this kid's strength can be improved!!"

In an instant, all the Zerg strongmen's eyes lit up!

However, the complexion of those World Master Level 1 Second Stages suddenly changed drastically!

Karma retribution, now it's their turn for the dead!

"!!!!!!"

Before anyone could react, a Zerg at the peak of the world lord made an instant move, and a slap would kill seven or eight Zergs below the third stage of the world lord.

This time, it can be regarded as the prelude to their battle.

In an instant, all the lord-level Zergs fought frantically.

Everyone wants to live, and the World Master Level One Second Stage doesn't want to die, there is only one way to die, and that is to kill!

As long as enough blood power is collected, Zhao Li can go to the top of the ladder.

Then they can live!

In the terrifying melee, the Zergs were killed one by one, but He and his body were photographed into blood mist.

Among them, not only the second stage of the world master, but also the fourth fifth stage, and even seven eighth stages.

Blood mist poured into the body of the Blood Devil gun, and the Blood Devil gun trembled with excitement.

And Zhao Ling's power of law and world master level treasure chests are increasing crazily.

"Tsk tsk tsk, in order to survive, I think these people may be able to fight to the last one!"

Zhao Ling looked at the frantically fighting Zerg below with his spiritual sense, and walked leisurely towards the top of the ladder.

In the void, watching Zhao Ling play with these Zergs while applauding the Haotian Dragon Emperor, his complexion slowly became heavy.

"If this son does not die, he will become a great weapon! And with such a scheming mind, it is difficult to die even if he wants to!"

Haotian Dragon Emperor became more and more excited. He didn't expect that the secret realm he left behind to kill the Zerg elders would allow him to find such an extremely qualified successor as Zhao Ling.

"I just don't know if this kid can pass this last level."

When Haotian Dragon Emperor said this, the corners of his mouth rose slightly.

Just owning the talent who has passed the first eighty floors of the Tianyan Tower seems to be a bit low for him, an immortal-level powerhouse in the heavenly realm.

However, this ladder was originally designed to kill Zerg geniuses, so he didn't pay too much attention to it.

But now that there is a Zhao Ling, the meaning is completely different.

"Insects eat the world!!!"

At this time, the battle of the Zerg below has reached a fever pitch.

The leader of the World Master Peak Zerg suddenly opened his huge mouthparts, and at the next moment, a terrifying wind burst out of his mouth.

Nearly a thousand-headed world master-level Zerg was instantly strangled by him, and at the same time, the terrifying aura from his mouth shook the surrounding space.

The next moment, the terrifying energy and blood burst from the Zerg that he tore apart poured into Zhao Ling's body that had already reached the 99,000th floor:

Zhao Ling felt the Blood Devil gun in his body trembling, as if extremely excited (cheg).

"It seems that the breakthrough is not far away!!"

Zhao Ling's eyes flashed, and the corners of his mouth rose slightly, "Blood Devil's gun breakthrough will definitely increase own's strength by a lot.

"However, it's time to end it!!!"

Zhao Ling suddenly sighed quietly, The next moment, his originally difficult climbing figure instantly became extremely relaxed.

The next moment Zhao Ling stepped in front of "True Dragon Nine Transformations".

Looking at the sun hundreds of meters in size in the sky ahead, Zhao Ling rushed directly towards the sun.

And at this moment, Zhao Ling's actions were also seen by others.

"No, that kid has already reached the top."

"Damn it, why hasn't the light curtain gone?"

"It's useless, does that mean we can only be saved if we reach the top of the ladder?"

The world lord Zerg who had already killed red eyes stopped in an instant.

Originally, killing was for survival, but now killing or not will kill, who doesn't want to live a little longer.

"Yes, as long as this kid gets the inheritance, won't he be able to save us?"

Suddenly, a strong man's eyes lit up.

If Zhao Ling really accepts the inheritance, he will be the master of this Minor World, and whether they will live or die by then will not be a matter of Zhao Ling's words.

At the next moment, all the strong Zerg looked at Yu pitifully.

Feeling the gazes from behind, Zhao Ling felt a sudden chill.

But Zhao Ling ignored them, rushed directly into this little sun, and grabbed towards "True Dragon Nine Changes".

However, what made Zhao Ling frown was that Zhao Ling's hand actually passed through this Cultivation Technique.

"Phantom!!!!"

Zhao Ling immediately knew what was wrong in his heart. It turned out that Dragon Emperor Haotian didn't put the inheritance here at all.

"Is it really good to play tricks on others?"

Zhao Ling's eyes flashed, and he asked directly into the void.

"Hahaha, you kid is really impatient, but you're not wrong, I didn't think about passing it on to the Zerg race."

And at the next moment, the figure of Haotian Dragon Emperor appeared in front of Zhao Ling.

Haotian Dragon Emperor said to Zhao Ling with a smile.

"Then what do you mean?"

Zhao Ling didn't have time to argue with the other party, so he asked directly, and at the same time, his body instantly communicated with the law threads in the sea of consciousness, and began to breakthrough crazily.

It's just that there is no energy fluctuation around his body.

"I'm talking about Zerg, you kid is Zerg?!!"

Haotian Dragon Emperor chuckled and Zhao Ling frowned.

"That's right, I'm a human race, so what?"

After finishing speaking, Zhao Ling's body shrank rapidly, and finally became the size of a normal person, and his appearance also changed to the original one.

"Fuck, that kid is human!"

"We've all been calculated, Damn it's Terran kid."

"Human race, I, Chongming, have never killed a single human race in my life, which is a testimony of the friendship between humans and insects, and I hope you will save my life."

"It's the same as I killed, I didn't either!"

Fantasy I Pick Up Attributes In The Future

Chapter 184: Open, The Formation Teacher Profession! ! (3/5)

However, Zhao Ling ignored the begging for mercy of the Zerg race, and Zhao Ling had already thought about how to deal with them.

"That means you still want me to inherit your inheritance!?"

Zhao Ling narrowed his eyes slightly, and at the same time, the law threads in his body had begun to condense into law seals shining with brilliance.

As for these law seals, Zhao Ling knows that even the most common Five Elements law seals are three points stronger than the supreme law seals condensed by ordinary people~.

Because Zhao Ling was hundreds of times more than ordinary people when the power of law had not condensed into law threads.

When condensed into law threads, the strength of law threads is hundreds of times that of ordinary people.

Therefore, the power emitted by Zhao Ling's random law seal is thousands of times or nearly ten thousand times that of ordinary people.

As long as Zhao Ling fully condenses the law seal, his strength will definitely increase!

However, he didn't have much confidence in meeting Zhao Ling, the heavenly immortal level powerhouse in front of him.

"That's right, you are indeed qualified to inherit my inheritance, but do you have the strength to pass the last test I set up!"

Haotian Dragon Emperor narrowed his eyes and then looked at Zhao Ling with a smile.

"What test?"

Zhao Ling asked directly that he had no choice, but there was no need for him to refuse.

"It's very simple, I told you that I am a formation master, an intermediate formation master of immortality, and with this status, my status is comparable to that of ordinary holy spirit level powerhouses.

When talking about his level of formation master, Haotian Dragon Emperor is extremely proud.

A formation master can do many things that professions cannot do, and because of his status as an intermediate formation master of immortality, he, Haotian Dragon Emperor, was able to live up to the present with a wisp of remnant soul from before the 30th era.

"So what, you haven't been killed yet! If you are the real Holy Spirit, will you still die?"

Seeing the other party's smug expression, Zhao Ling couldn't help complaining.

Sure enough, it seemed that he had poked the opponent's sore foot, and the expression of Haotian Dragon Emperor suddenly became stiff!

"You boy, if you don't speak, no one will think you are dumb!"

Haotian Dragon Emperor gave Zhao Ling a fierce look, although Ling's words were true.

Closer to home, if you want to become my disciple, then I have to consider whether you have the qualifications to become a formation master!!"

As Haotian Dragon Emperor spoke, he waved his big hand, and a faint film of light instantly appeared on the outer layer of the little sun where the two of them were.

And this light film The next moment began to shrink slowly.

Not only that, when Haotian Dragon Emperor tapped his fingertips, Zhao Ling instantly felt that all the strength in his whole body was imprisoned.

"This is just a heavenly formation, I will give you three days, if you can't break it with the power of the formation, you will be killed by the light curtain just like those Zergs!

Here is the complete list of elementary formations that I used at the beginning of my practice of formation.

It contains all the knowledge from mortal formation to heavenly formation!

Cherish your last three days, of course, maybe you can become a heavenly formation master within three days!"

Haotian Dragon Emperor smiled and looked at Zhao Ling. In three days, he changed from a person who knew nothing about formation to a heavenly formation. Not to mention Zhao Ling, even himself, he absolutely couldn't do it back then.

As for why he wanted to test Zhao Ling like this, he just wanted to kill Zhao Ling's spirit.

However, he was destined to be disappointed.

Zhao Ling took the primary formation encyclopedia thrown by Haotian Dragon Emperor, and glanced at it!

"Ding... The host has obtained the inheritance of the formation master, and can open the profession: Formation master, a minimum of 1,000 experience points is required to open the profession!"

However, at this moment, the system's notification tone also reached Zhao Ling's mind.

Zhao Ling's eyes suddenly brightened. He thought he had to learn by himself, but he didn't expect to be able to open it with only experience points.

Since the experience value can be opened, then it will definitely be able to use the experience value to upgrade the level!

Thinking of this, Zhao Ling quickly stopped the Realm in his body that was still breaking through.

You must know that the previous breakthrough was just a last resort, and if you breakthrough rashly, it will have a certain impact on your Realm.

"System, help me start the formation teacher career!!!"

Zhao Ling said to the system in his mind.

"Ding... Congratulations to the host for consuming experience points: 1000 points. Open occupation: formation master!!!"

"Ding... Congratulations to the host formation master level reached: Mortal Realm Elementary (0/3000)"

Zhao Ling glanced at his own experience points, and found that there were still more than 10 billion.

"System, use all the experience points to raise the level of the formation master."

Anyway, in Zhao Ling's inventory, Zhao Ling still has several million domain master-level treasure chests, and tens of thousands of domain master-level treasure chests.

If all these treasure chests are opened, there may still be trillions of experience points, but opening the treasure chests can only be opened after own breakthrough.

"Ding...accept the order and start raising the formation master level!"

..... Ask for flowers.....

"Ding... Congratulations, the host formation master level has been upgraded to: Mortal Realm Intermediate (0/6000)! Consumed experience points: 3000"

"Ding.....Congratulations to the host formation master for upgrading to: Advanced Mortal Realm (0/9000)! Consumed experience points: 6000"

As the system's prompt sound echoed in Zhao Ling's mind, Zhao Ling's consciousness instantly came to a dark space. In this space, Zhao Ling found himself in the system's guidance over and over again. Formation of various levels began to be erected.

And as Zhao Ling set up again and again, Zhao Xiang's understanding of formation in his mind also improved rapidly.

Ordinary level...Spiritual level...Earth level...

Soon, Zhao Ling reached the requirement of Haotian Dragon Emperor, that is, the formation of heaven.

However, even if he reached the Heaven Formation, the experience points Zhao Ling consumed were only tens of millions.

Compared with Zhao Ling's 100 billion experience points, this consumption is almost negligible!

"Ding.....Congratulations to the host formation master for upgrading to: Domain Master Realm Peak Level (0/10 billion)! Consumed experience points: 6 billion"

Finally, Zhao Ling's formation Realm finally stopped improving after reaching the peak domain master level!

At the same time, Zhao Ling's consciousness stayed in that empty space for an unknown amount of time, and finally withdrew.

Zhao Ling didn't know how long he had been in that space.

But one thing is certain, in the formation layout below the domain master level, not to mention him as the Haotian Dragon Emperor, even if there are ten or hundreds of them, they will not be Zhao Ling's opponent.

That's right, it's that arrogant, although the formation Zhao Ling who is higher than the domain master level doesn't know much.

But the formations below the domain master level, from ancient times to the present, and even other world planes, in other dimensions, as long as the formation is below the peak domain master level, Zhao Ling's proficiency is stronger than the creators of these formations .

In the outside world, Haotian Dragon Emperor watched Zhao Ling staring at the cover of the elementary form booklet he gave him without moving, thinking that Zhao Ling was frightened by his own postgraduate entrance examination!

"brush!!!!!"

Suddenly, a dazzling light flashed in Zhao Ling's eyes.

At the next moment, Zhao Ling waved his hand, and a formation handprint came out from Zhao Ling's hand, which shocked Haotian Dragon Emperor.

"Zi Jue!! The legendary Jue Zi Jue? How is this possible! Door?".

Fantasy I Pick Up Attributes In The Future

Chapter 185: Perfect Formation! Prepare To Breakthrough! ! (4/5)

Haotian Dragon Emperor screamed in horror, and one of the legendary nine secrets that had been lost in ancient times appeared in front of his eyes.

You must know that the origin of all formations in this universe is realized from the formulas.

At the same time, because it is the origin, so as long as a certain formation is comprehended to the extreme, you can deduce the array formula!

However, countless epochs and countless calamities have passed.

There is no formation master who can comprehend any kind of formation to the extreme.

Even if the people who create these formations are far from the ultimate level of comprehension of this formation, they are still very far away.

Facing Haotian Dragon Emperor's scream, Zhao Ling just glanced at him lightly.

The next moment, the formation formula he typed instantly touched the formation in front of his eyes.

The level of this heavenly rank formation is not high, it is just a low-level heavenly rank.

Zhao Ling thinks that if it is used to test a newcomer, many people should be able to pass it in three days.

"Four Thirty" However, this is just that Zhao Ling doesn't know the market.

In this universe, the status of several major professions is generally higher than that of practitioners.

And among them, the formation master is respected,

The second is the pharmacist, the craftsman, and the Fugang master.

The main reason why formation masters are respected has already been said before, that is, it does not require very powerful materials to erupt with terrifying power.

But the reason why not many people practice such a good profession is because of his extremely difficult cultivation method.

It can be said that out of 10,000 medicine refining geniuses in the universe, there will be only one person who can master the formation.

And it is more difficult to produce a formation genius than 100 million alchemist wizards.

Therefore, this kind of occupation can only be accessed by very few people.

Among the galactic human race, the total number of formation masters does not exceed 100 million.

Seems like a lot, but a galaxy is home to billions of living planets.

There are dozens or even trillions of people on each planet.

There are so many people who don't have 100 million formation masters, so one can imagine the scarcity of formation masters.

"Om!!!!!"

After a slight vibration, the ball of formation that wrapped Zhao Ling disappeared instantly.

However, the Dragon Emperor Haotian was surprised that although the ball of formation he planted disappeared, a new formation appeared.

But the level of this formation has reached the peak of domain master level!

"Hiss! This formation, this formation is so perfect, there is not even the slightest flaw in the formation!"

Haotian Dragon Emperor looked at the formation in front of him in disbelief, he had never seen such a perfect formation.

"Why, if you want to accept me as an apprentice, just try to see if you can untie it!"

Zhao Ling's smiling words caused Haotian Dragon Emperor's eyes to stare instantly, feeling like he heard it wrong,

However, although Zhao Ling was smiling, he was extremely serious.

"Are you kidding me?"

Haotian Dragon Emperor asked with a bewildered expression.

"That's right, although I, Zhao Ling, are weak, not everyone can accept me as a disciple. Although your current strength is good, in my eyes, you are already dead. No matter how strong you are, it's useless!"

Zhao Ling's blunt words immediately made Haotian Dragon Emperor extremely painful.

At the same time, what Zhao Ling said seems to be right.

As far as Zhao Ling's formation Talent is concerned, I don't even seem qualified to teach him, let alone Martial Dao Talent.

After all, for such a young domain master peak formation master, even if Zhao Ling could form before, such talents are not something he can teach.

"I still can't believe it!!"

However, Haotian Dragon Emperor is not someone who gives up lightly.

Besides, he is an immortal middle-level formation master, not to mention a formation of a peak domain master, even a formation of a peak world master is not something he can't break.

The next moment, Haotian Dragon Emperor came before the formation and began to study it carefully.

Seeing this, Zhao Ling's eyes flashed, and then he closed his eyes and began to concentrate on breakthrough.

As for whether the Haotian Dragon Emperor can break the formation, the answer is of course yes, with the strength of the Haotian Dragon Emperor, this formation can be smashed with a single slap.

However, if pure technology is used, Zhao Ling can only say, don't think about it, a Haotian Dragon Emperor is still too young to break the formation!

Although Haotian Longdi is an immortal-level formation master, the most basic thing to crack a formation is to find out all the advantages and disadvantages of this formation with his own strong vision or experience.

Then get rid of the shortcomings of formation!

This is the most advanced method of breaking the formation.

Another low-level method is to break the formation violently.

However, breaking the formation violently is a shame for any formation master, because it means that he has surrendered to the opponent.

Although Zhao Ling's formation is low-level, it can be said that as long as the other party does not use violence, Zhao Ling can trap him for tens of millions of years.

Because a domain main stage formation can only last tens of millions of years.

Not to mention that he is an eternal life-level formation master, but the legendary Holy Spirit formation master cannot come out.

As soon as Zhao Ling's consciousness entered the sea of consciousness, he felt a burst of terrifying law fluctuations [If these laws fluctuate, Zhao Ling can feel a strong original breath from it!

In Zhao Ling's sea of consciousness, countless threads of laws are gathering crazily.....

And Zhao Ling knew that if the power of these laws converged to a certain level, they would build a law seal one after another.

The law seal is equivalent to the tool Zhao Ling uses to communicate the power of all laws in the universe.

Therefore, Zhao Ling interrupted the transmission of own law after knowing that he was not in danger for the time being.

Because there must be absolutely no mistakes when constructing the law seal.

Zhao Ling's mind controls more than a hundred kinds of law powers that have reached the limit, and at the same time, these law powers are classified into categories and converge towards their respective directions.

While gathering the power of these laws, there were also thoughts flashing in Zhao Ling's mind.

"Three thousand roads lead to the same goal, so why can't I condense all the power of laws into one seal?"

A flash of inspiration suddenly appeared in Zhao Ling's mind.

The idea of The next moment seemed to be engraved in Zhao Ling's mind, and he couldn't get rid of it.

"That's right, that's it. As long as I gather all the power of this law on one seal, will it be possible to greatly enhance the strength of my law seal!?"

Thinking of this, Zhao Ling immediately started to engage in it.

At the next moment, he quickly disintegrated two of the law threads from the state of being about to condense into a seal.

"Boom!!!!"

With a soft sound, the power of the two laws instantly exploded at the law silk thread soaked for 0.7 days.

The next moment Zhao Ling directly brings the power of the two laws together in one place!

The two threads of law that come together are like strangers without any intersection at all.

Seeing Zhao Ling here is not the slightest surprise, if it is really that simple, this method has been handed down from ancient times to the present!

"System, my thinking should be right!?"

Zhao Ling was not in a hurry to experiment again, but asked the system!

After all, if the system can answer it, it will definitely save Zhao Ling a lot of detours.

"Ding... The host's question is in line with the development direction set by the system for the host, so answer it!!!"

However, what the system said made Zhao Ling stunned. The system forced the development direction for own?

"System, what the hell is the development direction you set for me?"

Fantasy I Pick Up Attributes In The Future

Chapter 186: Law Seal! Breakthrough Universe Level! (5/5)

"System, what the hell is the development direction you set for me?"

Zhao Ling's curious opponent asked the system!

"Ding...the system has only one development direction for the host, and that is to let Su grow into the most talented, powerful, and wisest person at the fastest speed. Unfortunately, the host does not have one yet. Done! Especially the last one!"

The words of the system made Zhao Ling's face turn black!

"Damn, I was despised!!"

Zhao Ling doesn't know that the system is forcing him to despise himself indirectly!

No, this is direct disgust!!

"Okay, don't talk about these things, first tell me if my idea is correct!?"

Zhao Ling asked directly to the system!

"Ding... the idea of the host is completely correct. The system said that all the power of law will eventually lead to unity, so it is definitely feasible for the host to fuse all the power of law together, and It is very doable!

It's just that the host also knows that if anything wants to be repaired after being broken, it must have the corresponding adhesive!

And if the host wants to condense all the law threads into a law seal, it also needs corresponding adhesives.

And 27 and the host has this kind of thing!!"

The system explained to the system in detail, and this explanation made Zhao Ling finally understand the meaning of the system!

"Sure enough, I said it's not that simple."

Zhao Ling nodded slightly, and then fell into deep thought.

"I have this adhesive, but it is definitely something that is rare or even non-existent in the world, because only in this way, no one can pass down the things that can be fused together by the law seal

And at the same time, this thing is definitely something closely related to the power of law!

That said, the adhesive is this!"

In just a split second, Zhao Ling guessed the prompt given by the system.

If you can't even guess this, Zhao might as well commit suicide by jumping into the sea!

The next moment Zhao Ling's consciousness instantly came to the center of the Sea of Consciousness!

And in the center of Zhao Ling's Sea of Consciousness is a huge Law Origin Crystal suspended in the Sea of Consciousness!!

Zhao Ling flew to the side of the crystal of the source of law, and directly pulled out two of the runes, the rune of the source of the law of light, and the rune of the source of the law of darkness, from the crystal of the source of law.

The two law runes exuding an incomparably noble atmosphere make all the surrounding laws bow down to them!!

After Zhao Ling took down the original runes of the two laws, the power of the law of light and the power of the law of darkness that were flying around Zhao Lin were all rapidly moving towards the two runes in Zhao Ling's hands. He rushed over violently.

"Since you're here, don't leave!!"

Zhao Ling's eyes flashed, and a powerful aura burst out from The next moment's hands, directly pressing the power of the two laws directly into the original runes of the two laws.

The law source rune, which incorporates the power of the two laws, began to change rapidly.

Then Zhao Ling directly moved the two laws of rune towards each other slowly.

With the passage of time, Zhao Leng's two imprints of the law slowly merged together.

The two laws of black and white are the perfect line between light and darkness in the world, but at this moment Zhao Ling merged the power of the two laws that should have been extremely contradictory.

A black seal was slowly formed under Zhao Ling's consciousness.

In the end, a strong fluctuation formed from the law seal, which means that Zhao Ling has successfully used the power of two laws to forge a genuine law seal

However, at this moment, the crystallization of the origin of the law on the side gave out bursts of violent vibrations.

The next moment Law Source crystals shone with bursts of dazzling light, and the thousands of Law Source imprints on his body were all flickering violently.

Immediately afterwards, an attraction came from the source crystal of the law, and the object of his attraction was the law seal in Zhao Ling's hand!

Zhao Ling slowly let go of the hand holding the seal of law, the next moment, the crystallization of the origin of the law burst out with a powerful momentum and attracted the seal of law in his hand directly in front of it.

Another burst of law fluctuations came, and I saw the law source rune on the law source crystal suddenly rioted, directly breaking away from the shackles of the law source crystal and pouring into the law test seal!

With the imprint of each law rune, the law thread of this law in the distance frantically rushes towards the law seal.

There are 10,000 strands of each law thread. However, after the 10,000 strands of law thread are fused into the law seal, the volume of the law seal does not change at all.

"Boom!! Boom!! Boom!"

Following the loud bangs, Zhao Ling also discovered that the aura emanating from the seal of the law was rising crazily.

And as a law was integrated into the law seal, Zhao Ling also found that there was an extra rune on the seal.

It's just that this rune can only be seen by super geniuses who are recognized by the world, that is, who also have the same kind of rule rune.

With the passage of time, more than 130 law threads that have reached the limit have been integrated into this law seal

The other law threads are still developing slowly because they haven't reached the limit.

Only when the number of law threads reaches 10,000, the power of this law that has reached its limit will be integrated into this law seal like these more than one hundred kinds of laws.

And the law source crystal that lost all the law source runes turned into a stream of matter, and then flew to the law seal. The next moment, a word Hao exuding terrifying power, appeared on Zhao Xiang The law of the seal is right!

"Ding... Congratulations to the host's law thread for successfully condensing into a law seal, and the host's Realm has been promoted to Universe-level First Stage!" 290

Following a system notification sound, Zhao Ling suddenly opened his eyes, and an incomparably noble aura emanated from him.

And this kind of noble aura disappeared in a flash, but it was still noticed by the Haotian Dragon Emperor who was still studying this formation next to him!

It has been three days since Zhao Ling started the breakthrough.

Fortunately, after Zhao Ling unlocked the formation of Haotian Dragon Emperor, the Death light curtains behind those Zerg buttocks below disappeared.

Otherwise, I am afraid that all the Zerg will die in the next three days!

But even though the Death light curtain was gone, the coercion still pressed all the Zerg to the ground and couldn't get up.

Now they can only wait for Zhao Ling to finally come out and release them, or kill them all!

Feeling the noble aura in Zhao Ling's body, Haotian Dragon Emperor was suddenly shocked!

Because something that he considers to be noble even in a world of immortality is definitely an incomparably precious treasure in the universe!

"Hey! Is this kid the illegitimate son of Heavenly Dao?"

Haotian Dragon Emperor found that the more he understood Zhao Ling, the less he understood Zhao Ling.

Because Zhao Ling always hides such and such secrets!

"However, what the hell is this formation!

I studied it for three days, but I can't even figure out what he is!"

However, the current Haotian Dragon Emperor is confused by the formation in front of him!.

Fantasy I Pick Up Attributes In The Future

"How? This formation is very simple!!"

Zhao Ling laughed when he saw Haotian Dragon Emperor scratching his ears and cheeks. The creature whose body was a dragon actually made movements that monkeys would do.

It seems to be really anxious!

"What? Simple? Although you are powerful, don't be so arrogant!!"

After Haotian Dragon Emperor was ridiculed by Zhao Ling, his mentality collapsed.

In his opinion, such a perfect formation must have been the pinnacle of Zhao Ling.

Perhaps Zhao Ling is the array of characters that should be comprehended because of this formation.

"No, no, I'm not being arrogant, this formation is not ranked among all the peak formations of domain masters that I have comprehended.

In order not to embarrass you, I arranged him for you to try to see if you can untie it.

Zhao Ling shook his head slightly, how could he be the kind of smug villain.

Since you have to do it, it will make the other party desperate.

However, Haotian Dragon Emperor scoffed at Zhao Ling's words, he was just pretending that Zhao Ling was a dead duck.

Zhao Ling saw this and didn't explain.

At the next moment, Zhao Ling's fingertip slightly touched the formation in front of Haotian Dragon Emperor's eyes.

Just after Zhao Ling activated the formation, a confinement force instantly confines the surrounding space.

And this power has almost reached the level of the world master

However, Haotian Dragon Emperor didn't care much about the strength of this formation, what he cared about was the name of this formation!

"Fuck! Isn't this my original star lock formation among the formations I gave you!? No, this power is much stronger than my lock star formation.

Haotian Dragon Emperor's eyes almost popped out.

The image of the original extraterrestrial expert disappeared.

However, it was not his fault, it was too frightening for him.

Because the formation that Zhao Ling trapped himself for three days so that he has no clue is actually the formation that he gave to Zhao Ling!?

Moreover, this formation was actually changed by Zhao Ling, not only from a heaven-level formation to the peak domain master level, but also by Zhao Ling to cultivate it to the extreme!

"Coincidence, it must be a coincidence!!"

Haotian Dragon Emperor still denies life, even if he sees his own unique formation imprint in this formation, he still thinks it is a coincidence!

"Coincidence? Maybe!" "!"

Zhao Ling was noncommittal, then tapped his fingertips again

The formation in front of him disappeared in an instant, and what appeared again was a flawless formation with no flaws found!

This time, Haotian Dragon Emperor froze!

Another formation that he couldn't see at all.

However, The next moment at a point, activates this formation.

As if he already knew what was going to happen next, Dragon Emperor Haotian couldn't help wiping off his sweat.

"Gudong!!!"

As he swallowed, the formation in front of him instantly revealed its true colors.

"?!!!!"

A high-pitched dragon chant instantly spread throughout the sky.

Immediately, a golden dragon roared and bit towards Haotian Dragon Emperor.

"Sparkling Golden Dragon Sing Formation!!!"

Haotian Dragon Emperor looked at the extremely familiar dragon in front of him in disbelief.

This divine dragon is the existence that he used himself as a template and burned into the formation.

"?!!!!!!!"

And at the next moment, the remnant soul of the dazed Haotian Dragon Emperor was instantly engulfed by this golden shadow of the divine dragon!

"!!!!!!!"

The next moment, a huge roar instantly spread throughout the entire sky.

In an instant, the divine dragon exploded into golden dots all over the sky.

And after smashing this dragon, it means that the Haotian Dragon Emperor used violence to break Zhao Ling's shimmering golden dragon formation!

At the same time, it also means that he obeyed him completely!

"Hahahahahaha....."

However, at the next moment, he laughed wildly.

In the laughter, Zhao Ling heard joy and melancholy.

And a little bit of relief!!

The only thing that is not there is malice, and there is no trace of malice towards Zhao Ling.

So Zhao Ling's tense nerves slowly relaxed.

Now his strength is enough to compete with the peak world lords, and his combat power should be more than ten times that of ordinary world lords at the peak!

"Hahahaha! I am Haotian Dragon Emperor, and I have traversed the universe for ten eras.

Unexpectedly, in a place like the Zerg race, if you lose your life, you can only linger in the form of a remnant soul, and you are not even eligible to be buried in the dragon tomb.

Haotian Dragon Emperor laughed loudly, then looked into the distance, his eyes seemed to pass through his Minor World.

I also traveled through the entire Zerg territory, and saw the Dragon Island in the territory of the Ten Thousand Beasts Alliance!

"Little friend, may I know your name!?"

Haotian Dragon Emperor asked Zhao Ling with a slight smile!

When Zhao Ling heard it, he didn't hesitate!

"Junior, Terran Branch, Galaxy Terran Zhao Ling!!"

Zhao Ling slightly cupped fist, reported own name!

Haotian Dragon Emperor nodded slightly.

"The old man has something to ask! I wonder if my little friend can agree!?"

Haotian Dragon Emperor said softly to Zhao Ling.

"senior but it's okay to say!!"

Zhao Ling raised his brows, if there really wasn't much to worry about, he wouldn't be helping the other party to complete it!

"I am one of the Elders before the 30th era of the Dragon Clan!

Before the thirtieth era, because of a great war, I fell here again, and I can bury my bones in the dragon island of my dragon clan. Now I can only ask for one thing, and that is to hope that if you have the strength in the future, you can bury my bones. Bring it back to Dragon Island!"

Said, Haotian Dragon Emperor handed a storage ring to Zhao Xiang!

Zhao Ling took it over, pouring his consciousness directly into the ring out of curiosity.

However, the scene in front of him stunned Zhao Ling.

This ring is incomparably huge.

If you want to calculate according to the length, maybe only the length, width and height are nearly three trillion kilometers!

And the size is not his most prominent thing, his most prominent thing is a keel lying in it that fills the entire storage ring!

"This is my bones, and I have a drop of my Blood Essence here! Your physical strength is already very good, even the average dragon youth in my dragon clan is not as strong as you, but my Blood Essence is also It's still enough to raise your physical strength to another level!"

Said, Haotian Dragon Emperor took out another small porcelain bottle!

You must know that the difference between Blood Essence and ordinary blood is huge.

A drop of Heaven-level Immortal Blood Essence is more valuable than an Earth-level immortality weapon.

But such a thing, Haotian Dragon Emperor just gave it away.

"This is also the last thing on me, and this is the outline of the formation I have summed up all my life. You can refer to it. The last thing is the "Nine Changes of the Dragon" that I promised you before!"

Said, Haotian Dragon Emperor took out a Jade Slip, and a tome exuding a wild atmosphere!

On the outer layer of this book are written four large characters "Nine Transformations of the True Dragon"

Zhao Ling didn't hesitate to take it directly.

As for the other party's wish to send his bones back to his hometown, Zhao Ling said that if he has the strength, he will fulfill it by himself.

"Okay, that's all for my last wish. I won't say anything more. By the way, I have a teleportation formation here, which can teleport you to the outside world 300 billion

light-years away. Control! But it's better than going out and giving the head to that little bug!!".

Fantasy I Pick Up Attributes In The Future

Chapter 188: Recapturing The Peak Zerg With A Thousand Heads Of World Lords! (2/5)

After Haotian Dragon Emperor finished speaking, a huge formation appeared under Zhao Ling's feet!

And the terrifying aura emanating from this formation made Zhao Ling extremely frightened.

The level of this formation is definitely above the level of immortality, and this level of formation can never be arranged in the current state of the Haotian Dragon Emperor.

In other words, this formation has been handed down countless years ago.

"This was arranged by me when I just became an immortal-level formation teacher in order to leave a way out for myself.

It's a pity that this formation was severely damaged when I was injured back then, and I could only teleport for a short distance.

I didn't expect it to come in handy now!"

Haotian Dragon Emperor sighed quietly.

I am a majestic Heaven Realm Eternal Life, Immortal Formation Master, to die so aggrieved, I really feel aggrieved when I think about it.

"Don't worry, if I have the strength in the future, I will definitely send your bones back to the Dragon Tomb!"

Zhao Ling nodded solemnly.

And with Zhao Ling's guarantee, Haotian Dragon Emperor nodded with a smile.

"With your guarantee, I'm relieved, but if you want to go to Dragon Island, you'd better have the strength of immortality level, otherwise, you won't even be able to enter the territory of the Dragon Clan!"

After Haotian Dragon Emperor finished speaking, he waved his big hand, and then the terrifying formation under Zhao Ling's feet began to slowly open.

"By the way, there is one more thing I forgot to do!!"

Zhao Ling suddenly remembered something, and immediately came to the edge of the ladder to look at the thousands of world masters and peak Zerg 890 who were waiting for the ruling below.

Of them now, only the Zerg above the World Lord Seventh Stage remained, and the others were either sacrificed by blood or bombarded by the light curtain.

On the ground is a pile of treasure chests that fell.

Those attribute points have slowly dissipated in three days, but fortunately, the stability of the treasure chest is better. Although many have disappeared, most of them are still there!

With a thought of Zhao Ling, 10,000 treasure chests appeared in the inventory of own in an instant!

"He's here, he really belongs to the human race!"

"I don't know if he will let us go!"

"No matter how we say, we have never killed the human race, maybe he will be lenient!"

The war between races is on a large scale, and so is the human race. Although they all know that their enemy is the Zerg race, they will not see the Zerg race for ten years!

However, it is impossible for Zhao Ling to let them go because of this matter.

"I will give you two choices now, one is to take the initiative to submit to me, and your life will be mine in the future!"

Zhao Ling's calm voice reached the minds of all the Zerg below.

In an instant, the faces of all the strong men changed!

Submitting to a human race? Doesn't that mean you have to betray the Zerg race? (chdj)

"Don't want to choose? Then choose the second choice!"

Zhao Ling didn't say what the second choice was, The next moment, a rune came out from Zhao Ling's hand.

These runes rushed into the sea of consciousness of all the Zerg below in an instant!

The faces of these Zergs changed drastically and they wanted to resist, but for some unknown reason, Zhao Ling, who was not very powerful before, suddenly burst out with a terrifying force that made everyone's hearts palpitate!

"boom!!!!!!"

This terrifying force instantly crushed all the Zerg into immobility!

Even though the strongest among them are more than ten or twenty times stronger than those at the peak of the world lord.

But they have been suppressed by the terrifying coercion on the ladder.

Therefore, under the superposition of Zhao Ling's aura, all the Zerg lost their mobility in an instant.

"The seal of the beast!? It's actually the seal of the beast master, and it seems that the seal of the beast is at least the seal of the Master."

Seeing this, the face of the well-informed Dragon Emperor Haotian suddenly changed drastically.

You must know that the difficulty of practicing the seal of the beast is much more difficult than that of a formation master!

Not only does it require a great talent, but it also requires countless years of precipitation.

It's just that the beast master not only needs to be strong himself, but also needs the skills of the beast master to be strong!

The level of the Beastmaster's own strength is the same as that of the Practitioner [the level of Lu Chong that can be collected is based on the own strength of the Beastmaster.

But the bonus to beast pets is seen from the skill of the beast master.

Some world master-level beast masters may not be as powerful as a starlight-level beast master in terms of bonuses to beast pets.

Therefore, the level of a beast master does not refer to his strength, but his level of beast control skills.

And Grandmaster's other beast masters can be said to be the guests of honor among the four major forces.

Because Grandmaster and other beast masters can fully increase the strength of own pets by a minimum of fifty times and a maximum of eighty times.

If a beast master can capture a powerful beast pet of Talent, coupled with his beast master skills, it will be enough to sweep away all the powerhouses in the same rank.

It can be said that the beast master is an absolutely invincible existence of the same rank, but it is extremely difficult to improve his strength.

The beast master at the immortal level is already the pinnacle of this universe.

However, the current Zhao Ling has actually reached the World Master level.

Haotian Dragon Emperor thought that Zhao Ling's formation strength was already his most Talent, but he didn't expect that Zhao Ling's Beast Master Talent was the most terrifying.

Although the Beast Master is powerful, he will be hunted down by people from other forces as soon as he appears, and his strength increases very slowly, so he is not very conspicuous during Martial Dao's journey.

After all, even if you have potential and cannot become the peak, no one will think highly of you.

"boom!!!!!"

And at this moment, all the Zerg felt a terrifying roar in their minds instantly spreading through their minds.

The next moment All their previous memories were shattered.

What Zhao Ling needs is a group of complete killing machines. Rather than a group of strong men with self-awareness.

After all, these killing machines are what he wants to deal with the Zerg, if he has self-awareness, it will inevitably lead to moths.

"Meet the Master!!!!"

The next moment, all the Zerg knelt down neatly in front of Zhao Ling.

Originally, the memories and imprints of Zerg in their minds were all washed away.

At the same time, it was implanted with a mark honoring Zhao Ling.

At the same time, what remains is the use of strength and the control of laws.

In other words, the strength has not decreased in the slightest.

"Come on up!!!!"

Zhao Ling's eyes flashed, and then he said to more than a thousand Sizhu Zerg.

The next moment, all the Zerg flew up instantly.

The terrifying pressure exerted on them by the ladder seemed to disappear in an instant.

The momentum is not the same, the pressure is still there, but Zhao Ling who has the epic beast mastering skills can increase the strength of all the Zerg a hundred times.

The strongest strength has almost reached the level of an immortal level!

The original weakest world lord, Seventh Stage, is also dozens of times stronger than the peak of ordinary world students under the promotion of power.

Such a terrifying increase in strength allowed them to easily fly to the top of the ladder.

At this moment, the Haotian Dragon Emperor finally knew in horror why the legendary Beast Master is called the most powerful profession in combat.

Ordinary Zergs were instantly promoted to super geniuses with the qualifications to enter Tianyan Shenshan.

You must know that this kind of genius has only a very small number of about 50,000 people accumulated over a billion years in the Kingdom of God.

"Let's go, since it's out this time, it's time for the Zerg to make a run for it too!!".

Fantasy I Pick Up Attributes In The Future

Chapter 189: Destroying The Devil Insects! ! (3/5)

In the endless starry sky, an inconspicuous little Galaxy instantly opened a huge space rift!

And this space crack disappeared in a flash, and then Zhao Ling's figure appeared in this starry sky!

"It's finally out!!"

Zhao Ling's eyes flashed.

His harvest this time is still incomparably rich.

One is the improvement of strength, and the other is the inheritance of the mage.

At the same time, a group of extremely powerful Zerg subordinates were also recovered.

In other words, the current Zhao Ling's strength has been improved by thousands of times compared to when he first entered the secret realm!

"It's a pity! If you want to build a large-scale Spatial Teleportation formation, your strength must reach the immortal level, which is enough to open up space. Otherwise, I might be able to return directly to the territory of the human race."

Zhao Ling sighed.

He is now a formation master, "It is true that a Spatial Teleportation formation can be constructed, but the Spatial Teleportation array constructed when the strength has not reached the level of immortality can be transmitted out for many years at most.

But with such a small distance, an immortal-level powerhouse can quickly detect it, and at the same time tear through the space to chase himself.

After all, being able to break through Spatial Teleportation and using Spatial Teleportation are completely different things.

"This seems to be the territory of the Great Dark Worm Emperor, but I don't know where it is!"

Zhao Ling frowned slightly and then flew towards the distance.

Only when he finds a place or an iconic planet with Zerg, can Galaxy Zhao Ling find the corresponding place from the memories he got from the ghost master-level Zhongzu he killed.

The soaring Zhao Ling crossed several large galaxies in just over an hour!

After traveling through billions of planets, he finally found a Galaxy he knew.

"Dark Destroyer Star! I actually came to the area under the jurisdiction of the No. 1 general under the Great Dark Worm Emperor!"

Zhao Ling was taken aback when he saw the huge dark planet in the distance.

The Annihilation Insect Star is the planet of the Annihilation Moworm, the number one general under the Great Anthropomorphic Emperor.

And the size of this planet, its diameter is more than 100 million times that of the earth.

The volume is 1 billion billion times, such a terrifying volume is completely like a galaxy filled with matter.

And there are nearly 100 million Stars like light bulbs suspended around such a large planet.

The size of these stars is more than ten thousand times larger than the sun of the solar system.

And such a huge star is completely worthy of a general immortal powerhouse.

Because although the Dark Extinguisher is not an immortal class, its strength is also a hundred times the peak of the Zerg race!

And his strength has reached the limit of the world master level. If he wants to improve, he can only condense his own Minor World. By then, he will be a real immortal superpower.

"A hundred times the limit? So as long as he is recovered, his strength can at least reach that of an ordinary immortal!"

Thinking of this, Zhao Ling's eyes lit up!

The next moment Zhao Ling waved his hand!

"Swipe, swipe..."

More than a thousand Zerg strongmen exuding a terrifying aura appeared in front of Zhao Ling.

"Meet the master!!!"

"Meet the Master!!!"

"Meet the Master!!!"

The next moment, all the Zerg World Lords knelt down towards Zhao Ling.

"I have a mission for you guys! Capture the Dark Destroyer Mosquito alive! In addition, don't let go of all the world masters on the planet!"

Zhao Ling let out a low snort.

The next moment, all the Zerg pets disappeared instantly!

Among them, most of the Zergs are subordinates of the Great Dark Zerg Emperor, and the remaining few are free Zerg strongmen who belong to the territory of the Great Dark Zerg Emperor

That is to say, it is an old talk and face with the Dark Extinguishing Demon Insect!

In the past, many destructive auras rushed down above the dark insect star.

The Dark Destroyer, who was originally cultivating inside the planet, opened his eyes in an instant!

"What a strong momentum, who is here!?"

Feeling the familiar feeling in these auras, the Dark Extinguishing Demon Insect was a little curious.

"Boom!!!!" With a huge roar, a terrifying energy fluctuation instantly attacked the Dark Destroyer Demon Worm.

The Dark Extinguisher's face suddenly became extremely ugly.

He came here to find fault.

But a group of Zerg who have not reached the level of immortality still want to kill themselves? Isn't this a joke?

"Since you are looking for death, then I will destroy you!!"

The Annihilating Demon Insect said in a cold tone, The next moment, his huge mouth opened suddenly.

The next moment An aura exuding terrifying and dark elements condensed from his mouth.

The terrifying aura emanating from the black beam of light instantly shook the surrounding earthquakes!

"Boom boom!!!"

And at this moment, a beam of light emitting a dazzling light broke through the thick crust of the planet, rushing towards the Dark Destroyer Demon Worm,

*¥.....

"boom!!!!!"

The Dark Extinguisher isn't a vegetarian either. In an instant, a black beam of light shot out instantly.

The two terrifying auras collided instantly.

The next moment The two beams of light, one black and one white, spread wildly in all directions like a Tai Chi Yin & Yang diagram.

The Annihilation Demon Worm was horrified to discover that this beam of light with a strong radiance was actually much stronger than the own Annihilation Demon Light.

As time passed, the two beams of light that collided with each other quickly fell towards the dark demon worm.

"boom!!!!"

In the end, the Annihilating Devil Worm still couldn't hold on.

The terrifying power of darkness and light collided with his body in an instant.

"Damn it!!!!!"

The Annihilating Demonic Worm roared and was instantly overwhelmed by two terrifying energies.

And just when he was about to die in the collision of these two terrifying auras, a pair of huge ear tentacles instantly ignored the collision of the two forces, and pulled the dying demon worm out of the explosion .

And this ray of light rushed to the distance in an instant, and after flying for hundreds of thousands of light years, it finally hit a large galaxy!

The Galaxy, which was one-third larger than the Milky Way, instantly disappeared into the starry sky.

Such terrifying power is enough to destroy the world.

And the other side.

Zhao Ling watched in the starry sky that the Zerg he sent out quickly dealt with the Annihilating Demon Bug, the number one general under the Great Dark Worm Emperor.

The reason why the Annihilating Demon Bug was not sent to explore the secret realm of the Haotian Dragon Emperor with other Zerg races is very simple.

His strength is already strong enough, if he gets a little bit of immortality-level inheritance, he might break through and become an immortal-level strongman.

At that time, even if the Dark Extinguisher Demonic Worm is still his subordinate, he will not be able to order the other party to do anything.

Even let yourself have an extra opponent.

But even if he went to the secret realm, the final result would still be death.

Although his current strength may pass the ladder, the final result of the Zerg passing the ladder is to be killed by the Haotian Dragon Emperor.

Although I have met Zhao Ling now, I can still save my life.

"Master, the Dark Destroyer Mosquito is here!!"

A half-destroyed Annihilator Zerg was carried by the huge tentacles of a bright white Zerg and flew in front of Zhao Ling.

"Very good, I am looking forward to having the first subordinate whose strength has reached the level of immortality."

Fantasy I Pick Up Attributes In The Future

Chapter 190: Immortal Heavenly Tribulation! (4/5)

Zhao Ling smiled slightly, and then waved his hand, a force of life was sent out from his hand in an instant.

Of course, this force of life is only a trace.

The power of life poured into the body of the Dark Destroyer Moth, and the breath of the Dark Destroyer Moth that was about to die instantly recovered a little bit.

And it was stimulated by this life force and slowly woke up.

"puff!!!!"

A big mouthful of green tainted blood spurted out of his mouth.

The Dark Extinguisher Mosquito opened its eyes faintly, and the one who caught his eyes was a human youth!

"Humans? How is this possible! How could the human race appear here!!"

The face of the Dark Extinguishing Demon Insect changed instantly

When he was only a larva, he heard about the irreconcilable conflicts between the Zerg and several other races.

Of course, after tens of millions of years, he heard that he is now more than 80 million years old, and this is the first time he has seen what a human race looks like.

After all, the territory of the Zerg race is too large, even if "Qi San Qi" is a world lord-level powerhouse, he can't fly out.

Perhaps only when there is a major war can there be hope to see the human race.

"I'll give you one... um, forget it, let's go directly!!"

Zhao Ling originally wanted to have a good fight with the other party, but the next moment he saw hundreds of huge Zerg flying from a distance!

And in the hands of these Zergs are all the world master Zergs who have been stunned or disabled.

Knowing that he was busy, Zhao Ling slapped him directly, and a rune entered the opponent's mind.

"boom!!!!!"

After a terrifying roar, the consciousness of the Annihilation Demon Insect was wiped out instantly.

The next moment Zhao Ling's terrifying life force surged out from his hands, instantly reviving the body cultivator of the Dark Extinguisher Demon Insect!

"!!!!!!!"

However, at this moment, an incomparably terrifying aura erupted from the body of the Annihilation Demon Insect.

This momentum instantly broke through the surrounding starry sky and spread towards the distance.

"drink!!!!!"

A low shout erupted from the mouth of the Dark Destroyer Demonic Worm.

At the next moment, the Annihilating Demonic Worm soared into the sky and fled towards the endless starry sky.

Seeing this, Zhao Ling frowned.

"Transcend Tribulation!!!"

That's right, the Dark Extinguishing Demon Worm didn't want to break free from Zhao Ling's shackles, but wanted Transcend Tribulation, because the Dark Extinguishing Demon Worm's strength has reached the terrifying level of immortality!

However, his Realm is not eternal life, but the peak realm master.

It is unacceptable for the world lord to have the strength of immortality at the peak.

There is not much difference in other levels.

But the powerhouses at the level of immortality are different 1

A strong person at the level of immortality has broken the shackles of heaven and earth, and has no limit on lifespan at all.

Therefore, as long as the strong ones achieve eternal life, they will pass Heavenly Tribulation.

If you pass it, you will become an immortal-level powerhouse, and you will never live forever!

But, then the soul will be scattered, and it will never be resurrected.

The current situation of Dark Extinguishing Demon Insect is that the strength has reached the level of immortality and has triggered the heavenly level of immortality level.

But if he survives this Heavenly Tribulation, his lifespan will still be 100 million years, except that his strength may improve a little!

It's just that the difficulty for him to break through to immortality will be greatly reduced!

It is also possible to directly breakthrough to immortality during Transcend Tribulation.

In short, Zhao Ling doesn't know whether the Transcend Tribulation is a good thing or a bad thing.

But one thing is for sure, with the current strength of Dark Demon Insect, it is even more difficult to break through!

Because his strength only reached the lowest standard of eternal life.

That's 10,000 times that of a normal world lord's peak!

And at this level, there is not much threat to the strong from normal breakthrough to immortality.

Anyone who is a little stronger can shoot him to death.

As for the Heavenly Tribulation of the eternal life level, only a small number of geniuses can survive it. It is conceivable that the current situation of the Dark Extinguisher Demon Insect is in!

"The words of the real immortal Heavenly Tribulation are called sixty-nine Heavenly Tribulation, and there are fifty-four words in sixty-nine Heavenly Tribulation, but his current one is called a pseudo-Heavenly Tribulation, with only a rare forty-five

There is absolutely no problem with the first 20 points, save him later!"

Zhao Ling thought about the information he knew about Heavenly Tribulation in his mind.

Immediately, Zhao Ling slapped ten beast-controlling seals that shone with the aura of the law of destruction and instantly came out of his hand.

The reason why Zhao Ling wants to add the Law of Destruction to the seal of the beast must be of great use!

"Buzz buzz....."

Following the sound of fluctuations in the sky, the ears of these Zerg in front of Zhao Ling's eyes were shaking violently!

At the same time, the Zerg, who were still struggling frantically at the beginning, became quiet in an instant.

If you look carefully, you can still see the expression in the other party's eyes gradually dimming down.

The next moment These Zerg slowly stood up from the ground.

The aura on their bodies has instantly increased to a hundred times the level of terror!

Even the lowest-level World Master First Stage is instantly promoted to the terrifying World Master Eighth Stage at this moment!

This is the terrifying increase that the epic-level beast master skills can bring...

A hundred times the strength bonus is enough to make Zhao Ling see a thousand weak Zerg among the world lords become extremely powerful high-level world lords.

These thousand-headed world lords were originally officers under the General Annihilation, but the strongest one is the world lord Fourth Stage!

Because the strength can reach the level of the World Master Fifth Stage and above, they are all generals, but their strengths are different.

In an instant, the number of superpowers above the eighth stage of Zhao Ling's world lord became a terrifying 2,200 or more!

"boom!!!!!"

However. At this moment, a thunderous bang came from afar.

At the next moment, in Zhao Ling's dignified eyes, a dazzling lightning flashed in the distance.

This ray of light directly shook the surrounding space, and it was transmitted thousands of light years away in an instant!

Even Zhao Ling, who was extremely far away from there, saw the pale golden thunder light instantly.

"Om!!!!"

However, at the next moment, the Ridaobi tide surged towards Zhao Ling and the others in an instant.

Wherever this energy tide went, everything instantly turned into nothingness.

All the Planet Stars and meteorites disappeared in an instant.

Fortunately, Zhao Ling and the others were already far away from the Transcend Tribulation. When this energy tide swept over Zhao Ling and the others, Zhao Ling only felt a burst of tingling.

However, even someone as strong as Zhao Ling could feel the stinging pain. This wave of energy could directly kill any powerhouse above Fifth Stage.

"Hey! Eternal Life Heavenly Tribulation, it's really awesome, 5.9 is just this power, I don't know if Annii Guangchong can resist it."

Zhao Ling frowned slightly!

"boom!!!!!!"

However, there was another loud noise, and Zhao Ling once again saw a dazzling pale golden light coming from the extremely distant starry sky.

Another energy tide swept over Zhao Ling and the others.

This time, the intensity of the energy tide has been raised by another level, reaching the benefactor Fifth Stage!

As the center of the Transcend Tribulation in the distance, Zhao Ling estimated that the current strength of the Heaven Rank might have reached the peak of more than 1,100 Realm Masters.

"It seems that I really can't resist it! According to this development, the intensity of the final energy tide should reach 4.5 times the immortality of the primary human realm.

And the immortality of the primary human realm with 4.5 quilts is 45,000 times the peak of the realm master!

Not to mention all of them, even the eleventh floor, he might not be able to hold on!

"It seems that this is the only way to go!!".

Fantasy I Pick Up Attributes In The Future

Chapter 191: Five Parts! Book Of Beasts! Holy Spirit Cultivation Technique (5/5)

"It seems that this is the only way!!"

Seeing the current situation, Zhao Ling knew that if he didn't save the demon worm, this kid would definitely burp.

"System, open all my treasure chests!"

Finally Zhao Ling issued an order to the system that he never had the chance to issue several times!

"Ding... accept the command and start opening the system treasure chest!"

As the system's voice fell, the treasure chests in Zhao Ling's inventory were opened instantly.

"Ding... Congratulations to the host for opening the treasure chest: domain master-level treasure chest*1.25 million, realm master-level treasure chest*14584! Get the following items!"

"Domain master level items * 780,000! World master level items * 9452

Experience value: 35 trillion

Attribute points: strength value: 1 trillion, speed value..

And with the system's prompt sound, Zhao Ling's Realm has been directly upgraded by five levels!

Directly reached the Universe Level Sixth Stage!

That is, the combat power has been increased from the original peak of ten times the world lord to fifty times the peak of the world lord.

Of course, the increase in physical strength has little effect on the increase in strength, but because the physical strength has directly increased by ten times, Zhao Ling's combat power has still increased by about five times.

For this point of strength improvement, Zhao Ling will soon be exhausted!

But now is not the time to look at anything else.

"System, search for the Cultivation Technique of beast masters at the peak of all world masters! There are also Martial Skills that can be used by beast masters!!"

Zhao Ling's eyes flashed, and the distant Heavenly Tribulation blasted down several times while Zhao Ling was speaking.

So Zhao Ling knew that if he didn't make a plan now, he would have to burp the demon bug.

"Ding... The search is complete, and we have found ten Cultivation Technique Martial Skills that the host needs!"

The system reacted instantly, and the next moment Zhao Xiang suddenly appeared a series of powerful Cultivation Techniques!

Cultivation Technique, plus Martial Skill, a total of ten.

Zhao Ling searched carefully.

"Huh? Why is this Cultivation Technique also called the Beast God Book? Didn't I have a Beast God Book at the domain master level before?"

Zhao Ling was stunned when he saw the Cultivation Technique in front of him.

The Cultivation Technique of the Beast Master is different from others, because the Cultivation Technique of the Beast Master cannot improve the strength of the beast pet, after all, it is used by the Beast Master.

But it can improve the resilience, endurance, and cooperation ability of pets.

These are all crucial.

And this Beast God Book (Peak Domain Master) can greatly improve resilience and cooperation ability, but it is of little use to Zhao Ling now.

He was chosen at random.

But now there is actually such a Cultivation Technique as the Beast God Book (Peak of the World Lord)?

"Ding...the book of beast gods, there are five books in total, as long as the host collects all five books of beast gods, he can summon the phantom of the beast god, and the phantom of the beast god will make the host Among them, the strength of the beast pet has been greatly improved, and at the same time, the real body of the beast god can be summoned by sacrificing the beast pet.

Note: The strength of the beast god's real body depends on the strength of the sacrificed animal pet. "

Zhao Ling was stunned by the boosted sound, five parts?

Can you summon the dragon if you collect all of them? That's wrong, summon the beast god?

Seeing this, Zhao Ling's eyes lit up immediately!

"System, help me find all the Cultivation Techniques I opened before, and see if there are other Beast God Books!"

Zhao Ling quickly asked the system.

There are five volumes of beast gods, each of which has a different level. It is impossible for him to have all five volumes above the domain master level. Zhao Ling has never heard of the level of the five volumes.

"Ding... The search is complete! A total of two volumes of the Beast God Book were found!: The Beast God Book (the peak of the Xinghai level). The Beast God Book (the peak of the Universe level)"

Following two system beeps, two copies of Cultivation Technique that he had thrown to the horns dimly appeared in Zhao Ling's hands!

"Damn it, it would be great if I didn't find out earlier!"

Anyway, I don't need much experience points, learn all of them."

Zhao Ling spoke directly to the system.

"Ding... Congratulations to the host for learning the Beast God Book (Peak Star Sea-level) Beast God Book (Peak Universe-level) Beast God Book (Peak World Master) Total expend points consumed: 1000.11 billion

Star Sea-level Cultivation Technique needs 10 million experiences to learn, while Universe-level ones need 100 million, and higher domain upgrades directly need 10 billion.

As for the world master, it is only a terrifying one trillion to learn one.

Fortunately, Zhao Ling now has thirty-five trillion experience points.

"Ding... Congratulations to the host for collecting all four Beast God Books, and there is only one more to collect the Holy Spirit-level Cultivation Technique: Beast God Book"

The system prompts again.

And this sound made Zhao Ling nod slightly. The fifth book of beast gods is at least the Cultivation Technique of the peak immortality level, and it is not a big deal to upgrade to the holy spirit level after collecting all five beast god books.

However, Zhao Ling found that when he collected all the Cultivation Techniques, it seemed useless!

Then Zhao Ling directly found a Martial Skill for Familiar Beasts!

"This one is good, system, teach me!"

After Zhao Ling was selected, he spoke directly to the system.

"Ding... Congratulations to the host for learning Cultivation Technique: Blood Qi berserk! (World Master Peak)"

"Blood Qi Berserk (Peak of the World Lord): At the cost of consuming the blood of the beast pet, the beast pet will burst out with one to five times the terrifying power. Note that after the five times the strength of the beast pet explodes, it will be Death!"

The Martial Skill of the Beast Master is completely different from the Martial Skill of the Practitioner.

It can't improve the terrifying strength like Practitioner.

Because pets can practice by themselves.

The role of the beast master is only to develop their potential.

Improve their strength beyond their limits.

It is equivalent to a Practitioner, who has practiced the best Cultivation Technique and the best Martial Skill, and his skills have also been upgraded to a level.

And the other animal pet is the same, even slightly weaker.

But just because he has a master, a master whose skill level is not bad, this beast pet can easily kill this Practitioner whose strength is exactly the same as his own or even much higher.

This is also the dominance of the beast master.

"If five times the strength is dead, it's better not to use it!"

Zhao Ling's goal is to kill the demon insects and survive.

What is the difference between 303 and killing the opponent directly.

"It's just that if it explodes three or four times, it shouldn't be a problem!"

Thinking of this, Zhao Ling directly started the second step of owning.

"System, call out all the power of my skills!"

Zhao Ling said to the system.

"Ding... Skill announcement:

Psychic skill: 100 soul power (0/300 billion)

Gun Skills: Epic Primary (0/300 billion)

Movement Technique Skill: Epic Primary (0/300 billion)

Ability Skills: Epic Primary (0/300 billion)

Beast Familiar Skills: Epic Primary (0/300 billion)

Formation division: domain master level peak (0/10 billion)"

The power of the five skills has all reached the elementary level of the epic level!

"System, let's upgrade all the first-levels first! Of course, first raise the formation level to the world master level!"

Zhao Ling said to the system!

"Ding.....Congratulations to the host for consuming experience points: 1.5 trillion, and the power of all skills has been upgraded to epic-level intermediate!"

"Ding.....Congratulations to the host for consuming experience points: 10 billion, and the formation master level has been upgraded to the master-level junior.

"Ding... Congratulations to the host for consuming experience points: 30 billion, formation master level, world master level, intermediate level."

"Ding... Congratulations to the host for consuming experience points: 100 billion, and the level of formation master has been upgraded to advanced level of world master."

"Ding.....Congratulations to the host for consuming experience points: 1000 billion, and the formation master level has been upgraded to the peak of the world master level."

Fantasy I Pick Up Attributes In The Future

After one upgrade, all skills of Zhao Ling have reached the epic intermediate level!

And the bonus to strength has reached 150 times!

Zhao Ling could clearly feel the aura in the distance instantly sluggish a bit, and the aura of the dark demon worm soared instantly

And the strength that he can erupt has skyrocketed to 15,000 times terrifying!

Such strength can already resist the first fifteen heavenly ranks.

"System. Use all the remaining experience points to improve the power of skills!"

After Zhao Ling finished speaking, the system started to work instantly.

"Ding.....The power of all skills has been upgraded to an epic level advanced! Expenditure value: 5000 billion"

"Ding.....The power of all skills has been upgraded to the peak of the epic level! Expenditure points: 15 trillion!"

"Ding..... Insufficient experience points cannot continue to improve."

After Zhao Ling's value reached the peak of the epic level, it stopped improving.

At the beginning, Zhao Ling wanted to raise the level of the Beast Familiar first, at least to give the Dark Destroyer a better chance of winning.

However, he saw that it took a terrifying one hundred trillion to upgrade from the peak of the epic level to the junior level of the legendary level.

After Zhao Ling's formation master level has reached the peak of the world master level, if he wants to upgrade to the immortal level, he also needs one hundred trillion experience points!

At this moment, Zhao Ling felt a pain in the ass.

"Damn it, I thought I was rich, but I was still a pauper!"

However, Zhao Ling was not discouraged, after all, legendary-level skills really only exist in legends!

I am afraid that there has never been a strong person of this level in the entire universe.

You must know that even if it is an epic level, only one will appear in countless epochs.

"System, help me open my skill bar."

Psychic skills: 250 soul power (0/100 trillion)

Gun Skills: Epic Peak (0/100 Trillion)

Movement Technique Skill: Epic Peak (0/100 Trillion)

Law skills: epic peak (0/100 trillion)

Beast Familiar Skills: Epic Peak (0/100 Trillion)

Formation division: World Master level peak (0/100 trillion)

After this upgrade, Zhao Ling's real combat power has been increased to 2.5 times of the original,

It directly reached the terrifying fighting power of one hundred and twenty-five times the peak of the world lord.

And the aura of the Annihilator Demon in the distance is also increasing crazily.

Reached 25,000 times the world master's peak!

"!!!!.||!"

And it was at this time that every terrifying sound of thunder came from afar instantly.

Seeing this, Zhao Ling knew that Dao Leiting was already the fourteenth Dao.

"You guys go back first, I'll go see the excitement!!"

After Zhao Ling finished speaking, with a thought, more than two thousand World Master Zerg standing upright in the starry sky disappeared instantly.

And Zhao Ling's figure flew directly thousands of light years away.

During the flight, Zhao Ling's hands were quickly forming seals.

At the same time, each seal was printed in the starry sky, causing the surrounding space to shake rapidly.

And if Zhao Ling's strength was a little stronger, the surrounding space would be smashed to pieces.

However, for this point, Zhao Ling's strength must be increased nearly a hundred times to achieve it.

As Zhao Ling got closer and closer to destroying the demon worm, the power of Zhao Ling's Chinese seal was also frantically condensed.

"Hunyuan Huatian formation!!"

Following Zhao Ling's low shout, a terrifying formation exploded instantly.

A huge Yin & Yang fish shot towards the distance in an instant.

The next moment, this Yin & Yang fish came to the sky above the dark demon worm.

"Om!!!!"

With a vibration, the space around The next moment was instantly enveloped by this huge Yin & Yang fish!

"boom!!!!!"

And at this time, the nineteenth Heavenly Tribulation had just been condensed, and the next moment, this Heavenly Tribulation crashed down and directly hit the Hunyuanhua Heaven Formation 1

However, this thunderbolt did not instantly shatter the formation, or be blocked by the formation as others imagined.

Instead, it went directly through this formation.

But anyone with a discerning eye can see that this lightning calamity was instantly weakened by twice.

The power of this nineteenth thunder tribulation is not as powerful as that of the tenth Heavenly Tribulation!

"The Hunyuan Huatian Formation is a formation that is said to be used by a plane of cultivating immortals to deal with the heavenly ranks! Now it seems that it is quite useful!"

The corners of Zhao Ling's mouth raised slightly!

The world of cultivating immortals has an incomparable understanding of Heavenly Tribulation, because the number of times cultivators are struck by lightning is definitely the most among all cultivating systems.

"hiss!!!!!"

As for the nineteenth Heavenly Tribulation, the Dark Extinguishing Mosquito did only one thing, and that was to let out a roar, and then instantly opened its huge mouthparts, swallowing this thunder tribulation directly into its own mouth.

"Om!!!!!"

Heavenly Tribulation struggled violently in his mouth and then disappeared.

And with the dark demon worm of the Hunyuan Huatian Formation, it directly resisted all the twenty-five thunder tribulations in one go

Because his Realm has not yet reached immortality, this heaven rank is only the fifth Nine Heavens rank.

A total of forty-five.

And the most powerful one of the forty-five paths of Heavenly Tribulation has a full blow that is 45,000 times the peak of an ordinary world lord.

However, the strength of the Annihilation Demon Insect has also reached 25,000 times, and at the same time has the existence of the Hunyuan Transformation Sky Formation, these thunder disasters do not pose much threat at all.

"Boom boom boom....."

A loud noise that shook the sky and the earth also echoed in the starry sky.

And after the Dark Extinguishing Demon Worm successfully passed the thunder disaster, a golden light swayed down from the endless void.

This ray of light instantly enveloped the entire body of the Annihilation Demon Insect.

The next moment, the body of the Annihilator Demonic Worm, which was injured in the Transcend Tribulation, quickly repaired.

Soon, the Dark Destroyer Demonic Worm returned to its peak.

And this golden energy is also frantically improving the basic strength of the Dark Destroyer Demon Insect.

Without the addition of Zhao Ling's beast-controlling skills, the strength and aura of the Annihilation Demon Worm are only a hundred times the peak of the World Master.

However, with the addition of Zhao Ling's beast control skills, the Dark Destroyer Demonic Worm has reached the standard of immortality.

And the golden light sprinkled from nothingness is the reward for the winners of Transcend Tribulation.

[150.200...300"

The strength of the Annihilator Demonic Worm increased crazily, from one hundred times to five hundred times in just ten seconds!

And the combat effectiveness of the Dark Destroyer Demon Insect has successfully reached the intermediate level of Immortal Life in the Human Realm!"

After all, the strength of any immortality level that has just passed Heavenly Tribulation is at least 54,000 times the peak of the world master. (ok good)

This is the minimum standard to pass the sixty-nine Heavenly Tribulation.

That is, the primary level of eternal life in the human realm!

But now, the strength of the Dark Destroyer has been raised to 125,000 times the peak of the world master

"brush!!!!"

The next moment, the Dark Destroyer Mosquito came to Zhao Ling in an instant, and knelt heavily on the Void!

"Darkness greets the master!!"

Although Zhao Ling wiped away the Dark Destroyer Demonic Worm's consciousness as a Zerg race, its wisdom is still there.

It's just that the position has changed from focusing on Zerg to taking Zhao Ling as the absolute core.

"Get up! Your strength has improved, and my plan can be implemented slowly! But it's time to meet your old boss"

Zhao Ling smiled slightly at the corner of his mouth, and said calmly.

"It's the master!!!"

The Annihilator Demonic Worm stood by Zhao Ling's side respectfully.

"Hahahaha, I didn't expect you to succeed in Transcend Tribulation!!"

PS: Everyone, I am very sorry that Dead Fish forgot to update, but today's fifth update will still be sent, and Dead Fish will not be in arrears.

Fantasy I Pick Up Attributes In The Future

Chapter 193: Battle Of Eternal Life! The Terrifying Blood Qi Rampage! (2/5)

"Hahahaha...Darkness, I didn't expect you to succeed in Transcend Tribulation!!"

With an earth-shattering laughter, a large mass of terrifying darkness in the distant starry sky flew towards us.

"The Great Dark Worm Emperor!!!"

Zhao Ling's eyes were slightly solemn, and then his body turned into a Zerg with a size of tens of thousands of meters.

In fact, according to Zhao Ling's current strength, Zhao Ling's giant bloodline is enough to grow to a height of tens of millions of meters.

It's just that the strength can only be increased by two hundred times at most.

And the Annihilation Demon Worm, who was kneeling in the void, slowly stood up.

Came in front of Zhao Ling to resist the aura of the Great Dark Worm Emperor.

"!!!!!!!"

With a burst of space fluctuations.

The Great Dark Worm Emperor instantly tore apart the space and came to the opposite side of the Dark Demon Worm!

"Hahaha! I didn't expect you to really break through! Very good, this will make our team even stronger!"

The Great Dark Worm Emperor smiled heartily.

And the meaning in his words has already assigned the Dark Extinguishing Demon Insect to Own!

However, with Zhao Ling as the backstage, the Demon Destroyer will no longer be inferior to others.

"Oh, maybe! I broke through just now, and my strength is still a little unstable. I wonder if the Great Dark Worm Emperor is interested in learning about the two moves!?"

However, under Zhao Ling's signal, the Annihilating Demonic Worm directly smiled and said to the Great Dark Worm Emperor.

And his words instantly 247 made the face of the Great Dark Worm Emperor ugly.

"are you serious?!"

How could the Great Dark Worm Emperor not know the meaning of the words of the Annihilation Demon Worm!

To be honest, because the Dark Worm Emperor and the Dark Fire Demon Worm are both possessors of the power of the law of darkness.

The Great Dark Worm Emperor is the law of shadow, while the Annihilation Demon Worm is the law of darkness.

In terms of strength, the Great Dark Worm Emperor, one of the rare laws, is much stronger than the Dark Worm even if it is at the same level as the Dark Demon Worm.

What's more, he has entered the immortality level for billions of years, and at his age, he is dozens of times older than the dark destroyer.

The strength has also reached the terrifying intermediate level of immortality, reaching thirty-nine times that of ordinary immortality!

It's 12.5 times stronger than the Dark Extinguishing Demon Bug, but it's much stronger.

And in his eyes, the Annihilation Demon Worm has just passed the sixth Nine Heavens level, and its strength can reach the normal immortality at most, which is about six times the strength.

With this level of strength, he wants to challenge his majesty to destroy the demon insects, and he simply does not know how to live or die!

"Please enlighten me!!!"

The Dark Extinguisher sneered, and then flew directly into the distance.

Seeing this scene, the Great Dark Worm Emperor's expression turned cold again.

"Want to die? Then I will fulfill you!!"

After a cold snort, the Great Dark Worm Emperor instantly chased into the distance.

The two traveled through several large galaxies in a matter of seconds!

The next moment, the two worms erupted into their real bodies in an instant.

"boom!!!!!!"

Waves of terrifying aura erupted from the two of them, and the endless terrifying aura split the surrounding space apart inch by inch.

The figures of the two instantly became hundreds of millions of meters high!

A planet is the size of a football in front of them.

"Dark Destroyer! I'll give you another chance! Submit to me, and I won't blame the past! Otherwise, you will pay the price for your arrogance!"

The Great Dark Worm Emperor snorted coldly.

The next moment, his terrifying strength more than 30 times crushed towards the Dark Destroyer Mosquito in an instant.

The terrifying aura directly shook the surrounding space violently.

"It's useless to talk, let's do it!!!"

The Annihilation Demon Worm let out a cold snort The next moment his body rushed towards the Great Dark Worm Emperor in an instant.

"!!!!!!!"

With a terrifying roar, the two collided instantly.

The terrifying momentum instantly tore a big hole in the surrounding space.

At the next moment, the two of them were instantly knocked backward by the terrifying impact and flew away for tens of light years.

"Shadow Killing the Sky!!!"

After the Great Dark Worm Emperor felt the power of the Annihilation Demon Worm, his expression changed slightly.

At the next moment, he shot with all his strength, and his huge mouthparts instantly bit at the Dark Destroyer Mosquito.

At the same time, terrifying powers of shadow power hovered over his mouthparts.

Such a terrifying momentum is enough to kill any low-level Zerg.

"Dark Necrosphere!!!"

And the Annihilating Demon Insect is not a vegetarian, the next moment, a terrifying force of darkness erupted from his body (chc).

At the same time, a sphere of violent dark law emanating from his mouth instantly spewed out.

"boom!!!!!"

The Dark Necrosphere and the Great Dark Worm Emperor collided instantly.

However, the nearly three-fold difference in strength and the gap in Cultivation Technique and Martial Skill made the Dark Necrosphere, which destroys the demon insects, fall into a disadvantage in an instant!

"!!!!"

After another loud roar, the dark necrosphere was instantly crushed by the Great Dark Worm Emperor.

The laws of darkness all over the sky are venting in the sky.

At the same time, the power of countless dark elements danced crazily in the starry sky!

"Dark March!!!"

It had long been expected that the own dark necromancer ball would not be able to cause damage to the opponent, and the Annihilation Demon Worm gave a sharp shout. The next moment, the endless power of the law of darkness that had been smashed into pieces suddenly condensed countless swords!

The sword mosquito is a kind of Zerg with mouthparts like a long sword.

It looks similar to a mosquito, but even a strong person at the immortal level will eventually be killed if he is targeted by countless sword mosquitoes.

"kill!!!!"

With a low shout of the Dark Extinguishing Demon Insect.

Countless sword mosquitoes condensed by the power of law rushed towards the Great Dark Worm Emperor neatly like an army.

The expression of the Great Dark Worm Emperor changed slightly after seeing this scene!

As the former boss of Dark Demon Insect, he clearly knows the horror of this move!

Dang Nan Mie Mo Chong relied on this move to kill his old opponent's number one general.

The Zerg's strength is fully 150 times the peak of the World Master.

Much stronger than the Dark Extinguishing Demon Insect.

Originally, everyone thought that the Dark Extinguisher Demon Worm was doomed, but the fact is the opposite!

"Shadowkeeper!!"

However, the Great Dark Worm Emperor has long been wary of the betrayal after the breakthrough of the Annihilation Demon Worm.

So be prepared!

With a low shout from the Great Dark Worm Emperor, endless shadow power erupted from his voice, forming a huge shield around his body "When those swords touch the shadow guardian Dissipated in an instant!

At the same time, the Great Dark Worm Emperor also instantly rushed in front of the Dark Extinguishing Demon Worm.

"Die boy!!!"

The Great Dark Worm Emperor bit the Annihilation Demon Worm's head instantly.

If it bites, the Dark Extinguisher Demonic Worm will be killed absolutely instantly.

And if there are no accidents, the Annihilation Demon can't hide.

"Blood Qi berserk!!!!"

However, at this moment, a cold voice came from the endless void,

The expression of the Great Dark Worm Emperor changed drastically upon hearing this voice.

Because he instantly felt a terrifying threat of Death!

"!!!!!!"

At the next moment, under the unbelievable eyes of the Great Dark Worm Emperor, a terrifying aura instantly erupted from the body of the Dark Demon Worm!

The original strength of twelve times soared to forty-eight times in an instant.

At the same time, a terrifying power of Blood Qi crazily lingered on the body of the Dark Destroyer Demon Worm.

"Darkness eats!!!!".

Fantasy I Pick Up Attributes In The Future

Chapter 194: Kill The Great Dark Worm Emperor! ! (3/5)

"Darkness eats!!!"

With a low shout from the Annihilating Demonic Worm, the Annihilating Demonic Worm instantly turned into a terrifying creature that seemed to come out of an abyss.

The horror creature doesn't have any image, its body is chubby, and it only has a huge mouth that is about the same size as its body.

His appearance is not much different from that of Taotie.

This creature opened its huge mouth and swallowed the powerless Great Dark Worm Emperor in one gulp.

"Click, click, click!!!!"

After a few chewing sounds, the abyssal creature transformed from the Dark Destroying Demon Insect instantly devoured the Great Dark Insect Emperor.

"!!!!!!!"

Horrifying auras came from the belly of the horrible creature, and Zhao Ling, who was watching the battle in the distance, could clearly feel the struggle of the Great Dark Worm Emperor!

However, with the chewing of the horrible creatures, the struggle of the Great Dark Worm Emperor became slower and slower.

Zhao Ling didn't have many regrets, although if he recovered the Great Dark Worm Emperor and added the skills of his own Beast Master, he would directly have ten more powerful immortals.

However, this can only be imagined, Zhao Ling's strength is only at the peak of the world master now, and it is simply impossible to recover a strong man at the level of immortality.

This is the biggest limitation of the beast master.

Only when the own strength is reached, can the pets of the same level be regained!

At the same time, the number of beast pets that can be recovered is also limited. The number is determined according to the strength of the beast pet, and the second is the size of the sea of consciousness of the beast master.

If it can recover without limit, the beast master will really be heaven-defying.

However, the quantity is not a problem for Zhao Ling now, because even though so many strong men have been recovered, there is also a terrifying immortal level strong man, Zhao Ling's sea consciousness power is still not consumed much.

After all, the Sea of Consciousness that has been strengthened several times has now become incomparably huge.

"Roar!!!!!"

And at this moment, the huge mysterious creature instantly roared. The next moment, shrunk slowly and finally returned to the appearance of the Dark Destroyer Demon Insect!

It's just that because of the use of "Blood Qi Berserk"

Therefore, the current blood value has been completely consumed.

Zhao Ling stepped down a little, and through the distant starry sky, he received the languid beast pet into the space.

Zhao Ling, who has four beast god books and a huge sea of knowledge, has an incomparably huge space for beast pets.

After the Dark Extinguisher Demon Worm entered, he fell asleep, while the Cultivation Technique from the four Beast God Books circulated crazily in his body.

And Zhao Ling looked at the attribute points falling in the void and a colorful treasure chest!

"Ding... Congratulations to the host for picking up the attribute: power 3 trillion, increase power value: 3 trillion!"

"Ding... Congratulations to the host for picking up the blood value..."

"Ding... Congratulations to host Realm for being promoted to Universe-level Seventh Stage!"

Zhao Ling, who was already on the verge of breakthrough, suddenly made another breakthrough level.

It's just that Zhao Ling's strength has not been greatly improved.

"Ding... Congratulations to the host for seeing the shadow Minor World fragment! The law of shadow has been greatly improved!"

"Ding... Congratulations to the host's shadow law for condensing the power of 10,000 shares of law!"

"Ding... Congratulations to the host for integrating the law of shadow into the seal of the law, and the energy scale has reached 3000 degrees."

Following the three system prompts, Zhao Ling saw that the shadow law original imprint engraved on the law seal floating in his sea of consciousness gradually brightened.

And all of a sudden, the brightness surpassed the original most powerful imprint of the law of fire!

After reaching the level of the world master, it will condense the seal that belongs to the own law.

And the energy scale on the law seal is the standard for a person's strength improvement.

The energy scale of the First Stage will reach one degree!

And every time you increase the First Stage, the energy scale will double!

Reaching the Ninth Stage of the World Master is 256 degrees, and the Tenth Stage of the World Master is also the peak of the World Master, and it can be directly raised to the 1000 scale!

And one thousand scales is the level of a strong person's normal energy scale.

But a thousand scales is far from the limit of the peak of the World Lord.

Let's take the Annihilation Demon Insect as an example, his previous strength was a hundred times that of the world lord's peak!

And he just condensed the scale of own law to 8000 degrees.

And if it reaches 9,000 degrees, its strength will reach 256 times that of the peak of the world master.

And 10,000 degrees is a thousand times

In other words, it is equivalent to doubling the strength for every 1,000 degrees raised!

It's just that there are not many universes that can scale the power of law to more than 10,000 degrees.

Because the later the scale of the law is, the more difficult it is to improve, and there are many people with three or four thousand degrees.

Generally, only those who are promoted to the immortal level after reaching 5400 Baidu can pass the 69th Heavenly Tribulation.

And if the original Annihilating Devil Worm breakthrough with the strength of 8,000 degrees, after condensing the Minor World that belongs to the law of own, the strength can be increased to the power of 80,000 being the world lord.

And his strength is already at the genius level among all the world masters.

.....seeking flowers... o

"The law of shadows has reached 3,000 degrees, and the power of the Five Elements law has also reached more than 1,000 degrees [the power of other laws has also improved to a certain extent, all at hundreds of degrees and ten flashes!]"

Zhao Ling's eyes flashed slightly, and now he has more than two hundred kinds of laws and regulations entered into the law seal.

But there are still a lot of law powers that have not even reached the limit of the law thread!

"System, if you condense the Minor World, how many law scales are needed!?"

Zhao Ling asked the system curiously,

What he wants to ask most is what is the scale limit of own law!

"Ding... If the host wants to condense the Minor World that belongs to him, he must raise all the power of laws that you have condensed to above the thousand mark.

.....O

Because you have integrated all the original imprints of the laws into your law seals, and only when the power of all the laws is raised to more than one kilogram, can you break this law seals and use them to build your own Law Minor World!"

However, the system's explanation instantly made Zhao Ling confused!

"Damn it, it means that I still have to increase the power of more than two thousand laws that I don't have to the first limit. When will this wait!?"

Zhao Ling suddenly asked speechlessly!

Calculate and see that it has been nearly three months since I came to this world.

And in three months, I have grown from a little trash who is not even a Practitioner to the current super strong who can kill the peak of the world lord!

It took me only three months to reach this point, and the speed is already extremely fast.

But if he really wants to increase all the power of the law to a thousand scales, even at his current speed, it will take at least several thousand years!

Of course, if this speed is placed on other bodies, it will be extremely fast, but if it is for Zhao Ling, it is still too slow.

Thousands of years, the China before I traveled was only 5,000 years old.

Where do I have this time to spend!

"Ding... the host's mood, the system understands, but it's still what I said to you before, if the host wants to comfortably dominate this Minor World, the system can force you to do so now Raise the Realm to Immortality!

But if the host still wants to fight against the arrogance of other universes and compete with the strong in the world, it is better to pick up attribute coins honestly!".

Fantasy I Pick Up Attributes In The Future

Chapter 195: Eternal Night Flying Daggers (Eternal Life Intermediate) (4/5)

The words of the system immediately made Zhao Ling fall into deep thought

This Fang universe is already huge, but Zhao Ling can know from the mouth of the system that this universe is not the only one in this world.

And there are definitely countless other universes and planes that are stronger than this universe!

And I already got the system, now I have two paths in front of me!

One is to break through to immortality now, but the potential of own will be useless. From the tone of the system, Zhao Ling learned that even with the system, if the foundation of own has already flown, the strength of own may not be able to improve after reaching a certain level up.

The other way is to spend a negligible few thousand years. Of course, if Zhao Ling can realize the own plan, let alone thousands of years, it doesn't take decades, "Maybe he can realize the own goal by himself.

"In this case, let's give it a go. Even if the plan is not completed, my growth rate will be greatly improved. It took him hundreds of years to raise "400" to upgrade my current law power. Well worth it!"

Zhao Ling laughed when he thought of this!

To be honest, he also wanted to see the beauty of other worlds.

"In that case, the next stop!!!"

Zhao Ling's eyes flashed, and then he summoned the most powerful hundred clans besides the dark destroyer.

This Zerg is the pinnacle of the previous world masters.

His original strength has reached more than thirty times the peak of the World Lord!

But now, after Zhao Ling's two hundred and fifty times improvement, his strength has instantly soared to seven or eight thousand times the peak of the world master.

With such strength, Zhao Ling knew that if he could improve a little bit, he might be able to Transcend Tribulation.

And now with the identity of a World Master-level formation master, and even a Zerg Zhao Ling who has just reached the peak of 100,000 times the World Master after Blood Qi's berserk can make him pass through the next level smoothly!

"Let's go, head towards the hometown of the Emperor Blinking Light!!!"

Zhao Ling Zhao Ling said directly to the Zerg under his feet!

At the next moment, this beast pet named Huoyan Emperor Bug fled towards the distance in an instant.

His speed is extremely fast.

Flying through several galaxies in just one second!

And while on the way, Zhao Ling didn't stay idle, and directly took out the immortality-level treasure chest that he picked up from the Great Dark Worm Emperor!

"The system opened the treasure chest for me!"

Zhao Ling spoke directly to the system!

The next moment The immortal treasure chest in Zhao Ling's inventory was instantly opened.

"Ding.....Congratulations to the host for opening the immortal treasure chest*1 and getting the following items!

Weapon: Eternal Night Flying Daggers*100 (Eternal Life Intermediate): Eternal Night Flying Daggers, one knife out, Eternal Night appears! It is the Flying Daggers used by the legendary Emperor Eternal Night in the early days! It has absolute assassination.

Experience value: 10 trillion

Attribute points: several..."

After Zhao Ling opened the treasure chest, several attribute points with a long string of numbers poured into Zhao Ling's body in an instant!

The next moment Zhao Ling's strength has once again increased by one level to reach the Universe Eighth Stage!

But this is not what Zhao Ling is most concerned about. What Zhao Ling is most concerned about now is the weapon he opened from the treasure chest.

Evernight Flying Daggers!

Very simple name, however, his introduction is not simple at all!

The weapon used by God Emperor Yongye.

Those who can be called god emperors have at least the strength of the Holy Spirit!

And the holding of the Holy Spirit level is a super strong man who owns a kingdom of God.

"Eternal Night! Could it be the legendary Eternal Night Divine Kingdom? And the Eternal Night Divine Emperor is the monarch of the Eternal Night Divine Kingdom?"

Zhao Ling frowned.

The Kingdom of God is actually passed down from generation to generation.

Just like the current God Emperor Tianyan, he is the eighteenth God Emperor of the Heavenly Yan Kingdom.

Zhao Ling didn't know where the seventeen previous emperors had gone, but Zhao Ling could be sure that these god emperors were definitely still alive.

If all of them are alive, at least 80% of them must be alive.

The system introduced that the Eternal Night Flying Daggers were the weapons used by the Eternal Night God Emperor in the early days, so this Flying Dagger is likely to be used by the first, terrifying powerhouse who opened up the Eternal Night God Kingdom.

Because logically speaking, only the first Eternal Night God Emperor is the real Eternal Night God Emperor.

For example, the current God Emperor Ren Tianyan can be called the Eighteenth Emperor of Eternal Night!

"brush!!!!!"

At the next moment, with a sound of breaking through the air, a black and gold palm-sized Flying Daggers appeared in own's hand.

And Flying Daggers exudes the power of the terrifying shadow law!

"Hiss! It was actually built using the pure power of the law of shadow, how much power of the law of shadow was used!"

There is only one way to use the power of law to create weapons.

That is to seize the power of law from heaven and earth with extremely powerful strength, only this kind of power of law is extremely pure.

Only the created law Divine Armament can have the power of pure law!

Zhao Ling finally knows why the system said that Yongye Flying Daggers are absolutely assassination!

Because Yong Ye Flying Daggers itself is part of the world, even if he comes in front of you, it is impossible for you to notice him

Even as long as Zhao Ling doesn't want you to see it, even if Flying Daggers are placed in front of you, Zhao Ling will tell you that it is in front of you, and you can't see it.

This is the law Divine Armament that blends into the universe!

"brush!!!!!"

The next moment Zhao Ling's mind moved, and the Flying Daggers burst out instantly.

In the next instant, a Star not far in front of Zhao Ling, which was still emitting endless waves of heat, instantly turned into a shadow!

Even his existence turned into a shadow in an instant!

"call out!!!!"

There was another sound of breaking through the air, and the Flying Daggers returned to Zhao Ling's hands again!

"Well, it's pretty easy to use!!"

Zhao Ling nodded slightly, still very satisfied.

When the next moment exploded, he took back the Evernight Flying Daggers into the inventory.

And the flame worm under Zhao Ling's feet accelerated again, and disappeared into the starry sky in an instant!

Five days passed quickly during Zhao Ling's rush!

In the past five days, the Dark Destroyer has returned to its heyday!

And Zhao Ling's means of transportation has also become a dark demon bug!

With the immortality-level Dark Extinguisher, Zhao Ling can directly experience the terrifying speed of space shuttle.

It's just that the strong at the immortal level can only use brute force to break through the space.

All are not fast.

You must know that the immortal-level powerhouse who came to pick up Zhao Ling traveled for a few days to come to the Milky Way on 5.1. The distance of nine was teleported.

One can imagine the size of a kingdom of God.

But fortunately, Zhao Ling doesn't need to cross the distance of a kingdom of God.

Just need to go through seven or eight universe kingdoms.

"finally reached!!!"

On the fifth day, Zhao Ling finally came to a medium-sized Galaxy.

You should know that generally small galaxies say that there is a Star as the main body, plus other planets around him.

The medium-sized Galaxy is composed of many small galaxies.

But the medium-sized Galaxy in front of Zhao Ling only has 10,000 new balls, and one of them is a terrifying Planet!

The planet Zhao Ling saw before was terrifying enough, however, in front of the planet in front of Zhao Ling, he is "like a small artificial satellite..."

Fantasy I Pick Up Attributes In The Future

"Is it so extravagant!?"

Zhao Ling was secretly amazed.

It can be said that before Zhao Ling came to the Zerg territory, he had never even been out of the Milky Way.

Therefore, Zhao Ling has never seen the imperial capital of the Dragon Roar Empire, or even the capital of the Dry Prison Kingdom!

To put it bluntly, Zhao Ling is now a bumpkin!

The kind of country bumpkin who doesn't have much knowledge!

"However, no matter how brilliant it is, it is in the past tense!!"

Zhao Ling's eyes flashed, the person living on this planet is the old neighbor of the Great Dark Worm Emperor!

Also the main competitor: Momentary Bug Emperor!!

"According to the original plan!!!"

Zhao Ling's eyes flashed, and he instantly turned into a terrifying Zerg!

The momentum has reached the peak of the terrifying World Lord!

"clear!!!"

The Dark Extinguishing Demon Insect also nodded slightly, The next moment, the terrifying aura on his body burst out instantly.

Twelve times the power of immortality made the surrounding space shake wildly.

The terrifying planet suspended in the starry sky in front of him also trembled crazily under this momentum.

"It's that friend who has 27 hours to come to me today!!!"

And at the next moment, the shaking planet that was about to disintegrate stopped shaking instantly.

At the same time, a momentum slightly inferior to that of the Great Dark Worm Emperor rushed out from a distance.

At the next moment, a huge golden bug flew up from the giant Planet in front.

"Flash Bug Emperor!!!"

Zhao Ling's eyes flashed, and Zhao Ling carefully compared the aura emanating from the Lightning Insect Emperor to only nine tenths of that in the Great Dark Insect Emperor.

This strength is equivalent to about thirty-one times the eternal life power!

"It seems that there is not much to lose!!!"

The corner of Zhao Ling's mouth twitched slightly.

Every time the Dark Extinguisher Demonic Worm uses its full power, it needs to consume almost all of its energy and blood.

And for a powerhouse at the immortal level, it can be said that the power to restore his own blood is extremely slow.

The Dark Destroyer can restore its own qi and blood in such a short period of time, it still relies on Zhao Ling to use the power of life and the law of blood to restore him!

It can be said that Zhao Ling has consumed a lot of law power these two days.

If it was an ordinary world lord peak, he would have been drained countless times.

However, Zhao Ling discovered that after he condensed all the power of laws into a law seal, the law of life force can be transformed by relying on the power of other laws!

This incident made Zhao Ling extremely excited.

That is to say, if Zhao Ling integrates all the power of law between heaven and earth into the seal of law in the future, Zhao Ling's reserve of power of law can reach three thousand times the terrifying amount in an instant!

And according to the power of Zhao Ling's law, the purity is thousands of times that of others, and with the vastness of Zhao Ling's sea of knowledge, the reserve of Zhao Ling's law is enough to be billions of times that of a normal strong man!

This data was achieved by Zhao Ling's hard work for so long!

"You are Annihilation!? Your strength!!!"

After seeing the Dark Extinguishing Demonic Worm beside Zhao Ling, the Instant Lightning Worm Emperor's expression changed immediately!

As the old opponent of the Great Dark Worm Emperor, how could he not know that the number one subordinate of the Great Dark Worm Emperor, Dark Extinguisher Demonic Worm!

The strength of Annihilation is extremely well-known among dozens of nearby worm emperors' territories.

His terrifying dark march can be said to be the nightmare of many Zerg generals!

"Yeah, Emperor Blinking Light, long time no see!"

An Mie smiled slightly, and said while collecting the data of the Instant Light Worm Emperor.

"You actually broke through to eternal life, congratulations, but, what's the important thing for you to come to me?"

The blinking worm emperor's eyes flashed, and he actually saw a trace of the power of thunder and calamity from the dark exterminating devil worm.

And he knew that this sliver of lightning power would definitely be left by the Transcend Tribulation not long ago.

"The Transcend Tribulation has just been completed!

At least not more than a month, and if you don't consolidate your own Cultivation Base during this time, come to my place, could it be that you are breaking up with the Great Dark Worm Emperor!?"

Instantaneous Light Worm Emperor instantly thought of a possibility!

If it is true that the other party broke up with the Great Dark Worm Emperor, if he throws an olive branch at the other party, wouldn't he be able to pull the other party into his own gang?

Thinking of this, the Instant Light Worm Emperor became even more enthusiastic.

"Hahaha, yes, I broke through just two days ago. "But this time I came to see brother Anguang because I have a small matter to talk about!"

The dark demon worm smiled slightly.

After hearing this, the Lightning Insect Emperor secretly thought that it was true!

I feel happier in my heart. A powerful immortal-level powerhouse takes refuge in me, even if it is just to cooperate with me, that is a good thing!

These days, the weak rarely take the initiative to find the strong to cooperate, because if they are not strong enough to cooperate, it is equivalent to surrendering to the other party.

"I don't know what I can do, I can definitely do it!"

The Instant Light Worm Emperor smiled heartily.

"That is....."

When the Dark Extinguisher Demonic Worm said this, his eyes turned cold for an instant, and the next moment, three-fifths of his blood instantly went berserk.

His strength instantly exploded to more than thirty-seven times that of terror.

Seeing this, the instant light worm emperor's face changed instantly!

It was too late when he wanted to react.

A terrifying dark necrosphere swallowed him instantly like a terrifying black hole.

"Damn it!!!"

Before being engulfed, the Instant Light Worm Emperor let out a roar.

The next moment, his body and voice were instantly swallowed by the black hole.

"Roar!!!!!"

But the action of destroying the demon insects was not over yet, a roar erupted from his body,

The next moment, that horrible creature appeared again.

Zhao Ling's eyes lit up when he saw this!

Consciousness has taken over the body of the Annihilation Demon Insect for several years, this is the basic skill of a Beast Master!

Feeling that Zhao Ling had taken over the body of the Annihilating Demon Insect, a mysterious creature instantly looked towards Zhao Ling.

A trace of anger flickered in a pair of empty eyes.

The next moment Zhao Ling's body erupted with a terrifying aura instantly, and terrifying handprints containing mysterious aura instantly came out from his hands.

Zhao Ling asked the system what it was when the creature appeared.

You know, he never knew what this thing was from the memory of the Dark Extinguishing Demon Insect!

But the system's answer made Zhao Ling frown.

"Ding... This phantom is the soul of the ancestor of the Zerg race! The ancestor of the Zerg race is the ancient fierce beast, Gluttonous! Of course, this universe's Zerg race only has a trace of gluttonous blood, which is why this universe's Zerg race descended Crazy to devour anything!

And all the Zerg pets of the host have the blood of the ancient fierce beast Taotie, but there is a prerequisite for the awakening of this blood.

That is to reach the immortal level with the Realm strength of the world lord!

Few people in this universe can achieve this condition.

And the rulers among the Zerg races, the four Sacred Zerg races are strong men who have awakened the gluttonous blood!

And their consciousness has been swallowed by the gluttonous remnant souls!"

The system's explanation Zhao Ling frowned when he heard it.

After all, if the consciousness of the own beast pet was swallowed by the gluttonous remnant soul, the own beast seal will disappear.

Then you will be in trouble!

"System, how can we restrain Taotie?"

Zhao Ling asked the system solemnly!

"Ding... Taotie is an ancient beast! If you want to control the ancient beast, you need a more ferocious existence!"

Fantasy I Pick Up Attributes In The Future

Chapter 197: Blood Devil Gun Upgrade, Obliterate The Heaven Rank! (1/5)

"Ding... Taotie is an ancient beast! If you want to control the ancient beast, you need a more ferocious existence!"

The system explanation made Zhao Ling slightly puzzled!

Is there a more ferocious existence than the ancient beasts?

What is that, even if I have myself, what can I do?

"Is there something more ferocious?"

Suddenly Zhao Ling's eyes lit up.

"Hahaha, since you are gluttonous, then I will find your daddy to cure you!!"

Zhao Ling laughed out loud.

"Roar!!!!!"

Seeing Zhao Ling forming seals, the Taotie Remnant Soul instantly roared and bit Zhao Ling.

And at that moment, Zhao Ling opened his eyes instantly!

"Kowloon Sealing Technique!!!!"

A shout came out from Zhao Ling's mouth!!

Immediately afterwards, Zhao Ling slapped towards the void with a palm.

The void instantly breaks open a different space!

"?!!!!!!"

However, the next moment nine noble dragon howls came out of nothingness in an instant.

Taotie, who originally wanted to devour Zhao Ling, suddenly changed his face after hearing the roar of the dragon!

At the next moment, the vivid nine-headed divine dragon phantom instantly rushed out of the void space and rushed towards Taotie.

Taotie only had a trace of remnant soul left, so he instinctively felt fear.

The next moment is to get out of the body of the Dark Destroyer Demon Worm.

However, at the next moment, the seal of Nine Dragons erupted in a terrifying aura.

Immediately afterwards, the nine-headed dragon instantly bit it!

A series of terrifying sealing powers directly sealed all of Taotie's mobility.

"Om!!!!!"

A burst of terrifying fluctuations came out from the power of this seal.

At the next moment, the Taotie who had no resistance was dragged into the huge bronze coffin!

"boom!!!!!!"

With a loud roar, the huge bronze coffin was instantly closed.

You must know that although Taotie is powerful, it is only a remnant soul now, and this remnant soul does not have much power. It can be said that except for the first time he used the body of the dark insect to devour the Great Dark Worm Emperor. Restored a bit of strength!

Originally, according to the previous routine, this remnant soul would control his body to devour the strong ones during the battle of the Dark Extinguishing Demon Insect, and after the final strength recovered, he would devour the spirit of the Dark Extinguishing Demon Insect.

However, who knows, it was directly wiped out by Zhao Ling before recovering much!

"Blood Devil Gun!!..々!"

At this moment, Zhao Ling no longer paid attention to the Taotie who was imprisoned in the huge bronze coffin, but controlled the body of the Dark Extinguisher Demonic Worm and let out a low shout!

At the next moment, the terrifying Blood Devil gun that was hundreds of millions of meters long appeared in the hands of the dark demon worm controlled by Zhao Ling in an instant!

"Murder Gun! The second type! Shoot the Galaxy Cluster!!"

After a stern shout, a terrifying spear burst out from Zhao Ling's hand instantly.

The bloody gun light rushed into the dark necrosphere in an instant.

"puff!!!!!"

Following a piercing sound, terrifying qi and blood power rushed out of the dark necrosphere in an instant.

The next moment Blood Devil gun crazily absorbs the power of blood into its own gun body!

As time went by, a terrifying power of Qi and blood reverberated in the surrounding space.

Terrible energy erupts from the Blood Devil gun!

And this energy is increasing crazily.

As time went by, the aura emanating from the Blood Devil gun became stronger and stronger.

"It's finally time for a breakthrough!!!"

Zhao Ling heaved a sigh of relief. He had been feeding the Blood Devil gun since he came to the Zerg territory. However, it was a pity that the appetite of the Blood Devil gun was too big.

Zhao Ling fed nearly 100,000 world masters, hundreds of millions of domain masters, and the ten immortal Zerg in front of him finally fed the Blood Devil!

"boom!!!!"

With a terrifying roar, the surrounding space instantly began to vibrate crazily.

At the same time, bursts of powerful momentum reverberated in the surrounding starry sky.

The space was instantly shattered by this powerful energy.

One must know that weapons of the rank of immortality are extremely rare.

Even the Great Dark Worm Emperor and the Flashing Light Worm Emperor did not have this blessing to get an immortal-level weapon.

And just after the aura of the Blood Devil's gun reached its peak, an extremely familiar aura came out from the void.

The Blood Devil gun in Zhao Ling's hand instantly broke away from Zhao Ling's hands, and rushed into the distant starry sky in an instant!

"..."

The next moment, muffled thunderclaps came out from the void.

"Sure enough, Transcend Tribulation is coming!!!"

Zhao Ling was surprised when he saw this, but thinking about it, the current Blood Devil gun has reached the level of immortality!

And if it reaches the level of immortality, everything will go through thunder disaster.

The Blood Devil gun is no exception.

And different from human beings, the level of heaven experienced by items after they are promoted to the level of immortality is the seventh level of Nine Heavens.

Its power is much stronger than the ordinary Heavenly Tribulation.

But Zhao Ling believes that even if he doesn't use the Hunyuanhuatian formation, the Blood Devil gun can survive.

Although the grade of the Blood Devil gun is only an ordinary immortal grade, the material Blood Devil stone used in the Blood Devil gun is not an ordinary material.

This is an extremely rare material that can evolve.

And among the evolutionary materials, they are all top grade!

""""boom!!!!!!""

With the sound of thunder, Zhao Ling suddenly saw a golden thunder flash in the distance.

The next moment, the Blood Devil gun that had been prepared for a long time was instantly hit by this terrifying thunder!

At the same time, countless powers of laws emerged from the void, pouring into the Lord of the Spear instantly!

"The power of the Law of Death!?"

Zhao Ling raised his brows, the Blood Devil gun evolved the power of the Death Law autonomously when it evolved.

This can be said to be an event that will not happen a few times in the entire universe or even countless universes.

After all, it is better to awaken other laws.

But the Blood Devil gun actually awakens the power of the law of Death!

You must know that the power of the Death Law is one of the four supreme laws.

From the establishment of the Tianyan Divine Pagoda to the present, no one has comprehended it in the entire universe of 30,000 epochs.

As for the terrifying powerhouses who survived before the 30,000 era, no one has comprehended it, Zhao Ling doesn't know.

However, at this moment, the Blood Devil gun actually controlled the power of the Law of Death and instantly blasted towards the power of Heavenly Tribulation in the sky.

The next moment, two Nenghuang that the world is afraid of are colliding with each other!

"Om!!!!"

There are not too many fluctuations, some only come naturally!

After the two forces were fused together, they actually fused together as if they were in perfect harmony.

Immediately afterwards, something that horrified Zhao Ling happened!

The terrifying power of Death erupted from the Blood Devil gun actually quickly dissipated the power of Heavenly Tribulation!

But Zhao Ling who also possessed the Law of Death discovered that this Heavenly Tribulation didn't disappear out of thin air, but died like a living thing!

"Holy shit, even Heavenly Tribulation can kill? The power of the Death law is awesome!!!"

Zhao Ling couldn't help but swear!

Heavenly Tribulation is one of the scariest things in the Universe!

However, the current Blood Devil gun actually killed the opponent directly. If there are some living things, Zhao Ling can't understand!

Heavenly Tribulation was killed, and Zhao Ling was a little lost.

However, Lei Jiehai in the void seemed to feel that the younger brother he had sent out was killed, and was immediately angry!

"Boom!!! Yi!".

Fantasy I Pick Up Attributes In The Future

Chapter 198: Blood Devil Gun (Eternal Life Advanced) (2/5)

"!!!!!"

With an earth-shattering roar, a thunderbolt flashed across the starry sky in an instant.

And the strength of this thunderbolt far exceeds the strength of the general Seventy-Nine Heavenly Tribulation!

"Heavenly Tribulation actually gets angry?"

Interesting, is it conscious?"

Zhao Ling is a little curious!

However, Zhao Ling has no way of knowing these things.

And now Zhao Ling looked into the distance and found that although the power of the Heaven Rank has been greatly improved, it seems that the Blood Devil gun has not only resisted.

And as before, use the power of the Death Law to directly kill the Tian Tier!

"Om!!!!!!!"

After killing this powerful Heavenly Tribulation, the Blood Devil gun blew softly!

Seems so excited!

"boom!!!!!"

And the next moment, another powerful thunder force blasted down from the sky in an instant.

"really!!!!!"

Zhao Ling's eyes flashed, and he finally realized that this Heavenly Blessing is naturally the eighth Nine Heavens rank!

"Eighty-Nine Heavenly Tribulation, second only to Ninety-Nine Supreme Heavenly Tribulation? I didn't expect the potential of the Blood Devil gun to be so high!"

Zhao Ling's eyes flashed slightly!

Everything will go through Heavenly Tribulation when it becomes immortality level, and the best thing is sixty-nine Heavenly Tribulation!

However, the power of 69 Heavenly Tribulation is still not something that ordinary people can resist 300 blocks.

And more talented people, such as those who have surpassed the immortality level before reaching immortality, are just like the strong ones like An Mie.

The Heavenly Tribulation that this kind of super genius passes through when the real Realm reaches the level of immortality is the seventy-nine Heavenly Tribulation.

As for general utensils, Medicine Pill, when these are upgraded to the immortal level, they are also seven or nine Heavenly Tribulation.

However, there is a class of super geniuses, Zhao Ling can't count the level of talent, but this kind of strong talent can directly trigger eighty-nine Heavenly Tribulation!

You must know that if Eighty-Nine Heavenly Tribulation is used to pass through, perhaps more than a dozen will be bombarded and killed. This is because Zhao Ling used the Hunyuan Huatian Formation and the Blood Qi berserk!

It can be seen how terrifying the 89 Heavenly Tribulation is!

"boom!!!!!"

As the third Heavenly Tribulation bombarded the Blood Devil gun, the Blood Devil gun burst out with a terrifying Death Law.

Although the third Heavenly Tribulation was terrifying, it still dissipated instantly at this moment.

And the Blood Devil's gun shook again, Zhao Ling frowned, because he found that after the Blood Devil's gun blasted Shi Dao Wu Jie, his Death Law's power would bounce ten times!

"The Law of Death was originally used to kill him to improve Realm. No matter who he kills, as long as he kills, he will be able to (chce) improve! And this Heavenly Tribulation is the most noble thing between heaven and earth , The benefits brought by the Blood Devil's shooting and killing the Heavenly Tribulation are definitely many!"

Seeing this, Zhao Ling suddenly laughed!

The more powerful the Blood Devil gun, the faster the own Death method will improve!

"Looks like the Blood Devil gun shouldn't be that dangerous, so I should do something else!!"

Thinking of this, Zhao Ling flew directly into the distance.

Soon Zhao Ling returned to the huge Planet that the Emperor Blinking Worm had lived on!

"Darkness, take your people, blast and kill all the Zerg below the World Master, and capture all the Zerg above the World Master alive!!"

Zhao Ling looked at the Planet in front of him and said in a low voice!

At the next moment, more than 2,000 extremely powerful Zergs of the World Master level rushed down madly in an instant!

And after Zhao Ling killed the Blinking Light Zerg Emperor, many ghost master Zerg races on the planet were afraid.

But when they wanted to escape, they suddenly found that the sky was imprisoned by a powerful formation!

Make them run away even if they want to!

"Subordinates follow orders!!!"

Immediately after the Dark Extinguisher Demonic Worm finished speaking, he led the army of two thousand world lords to rush down mightily.

You must know that Zhao Ling's beast control skills can increase the strength of any animal pet by 250 times! Even the First Stage of the World Lord can instantly increase his strength to the Ninth Stage of the World Lord!

More than 2,000-head world master Ninth Stage and above powerhouses, plus a human-level middle-level immortal.

This level of strength is enough to destroy a slightly weaker empire!

When An Mie rushed down with other world master-level Zergs, the killing began instantly!

Dozens of Zergs at the peak level of the World Master were disabled in the instant they were destroyed!

Seeing this scene, the remaining tens of thousands of world master-level Zerg immediately surrendered!

Just kidding, if you don't surrender, you will die!

However, An Mie didn't hold back, and slapped all the surrendered World Master Zerg unconscious with a slap!

Immediately with a wave of his hand, all the world master Zerg were dragged back to Zhao Ling by his terrifying power of immortality!

And the other world masters started killing wildly!

"Master! I brought all the world master-level Zerg!"

An Mie came to Zhao Ling and knelt down to Zhao Ling on one knee, and said respectfully!

"Very good! Just wait aside!!"

Zhao Ling nodded in satisfaction.

Immediately, Zhao Ling's powerful divine sense instantly enveloped the entire planet!

"boom!!!!!"

At the next moment, the endless attribute points rushed towards Zhao Ling's position like Wang Yanghai.

You must know that the lowest level of the Zerg that exists on this planet is the Universe level, and those below the Universe level cannot even survive.

"Ding... Congratulations to the host for picking up a large amount of power of the law of water: the integrity of the law of water has reached: 10000%, and it has begun to condense into a silk thread of the law of water!"

"Ding... Congratulations to the host for picking up a lot of power of the law of light: the integrity of the law of light has reached: 10000%, and it has begun to condense into threads of the law of light!"

"Ding... Congratulations to the host for picking up a large amount of power of the law of ice: the integrity of the law of ice has reached: 10000% and began to condense into silk threads of the law of ice!"

With the passage of time, there were originally more than two thousand kinds of laws, and the power of these laws was almost still in the state of law crystallization.

After all, Zhao Ling's strength has improved too fast.

The power of law can hardly keep up!

But it's different now, there are trillions of universe-level laws as supplements, and the number of Zhao Ling's law power has directly reached a terrifying more than 2,800!

That is to say, except for rare laws, almost all the powers of common laws are found!

And the power of laws condensed into law threads has also directly increased from the original seven or eight hundred to about two thousand.

Among them, more than 400 kinds have reached 10,000 law silk threads, and they have been successfully integrated into the law seal!

And this improvement is still going on with the passage of time, let's see it slowly!

Ten minutes later, Zhao Ling finally opened his eyes!

Although the killing took only one minute to kill countless Zerg experts on the planet, it still took Zhao Ling ten minutes to digest these things.

"The Seal of Taming the Beast!!!"

Zhao Ling let out a low cry, and then slapped it out!

In an instant, seals exuding a terrifying aura were shot out of Zhao Ling's palm in an instant.

These imprints also contain a trace of the law of destruction.

This is the enhanced version of the animal seal method made by Zhao Ling.

Not only can it be used for self-explosion, but it can also allow these Zergs to use a trace of destruction law when attacking.

You must know that the law of destruction and the power of the law almost become stronger as you use it.

With this method, Zhao Ling can increase his pet and help himself exercise the strength of the law of destruction!

Just like just now, in just one minute of killing, the thread of own destruction law has increased from more than ten strands to more than fifty strands in an instant!

"Ding... Congratulations to the host, your weapon, the Blood Devil gun! It has successfully passed the test of the heavenly rank, because it passed through the eighty-nine Heavenly Tribulation, so the quality is directly upgraded to the immortal level: advanced!"

Fantasy I Pick Up Attributes In The Future

Chapter 199: The Insect Emperor Of Instant! (3/5)

However, at this moment, a notification sound from the system reached Zhao Ling's mind.

Zhao Ling's eyes lit up after hearing this!

Surprisingly, there are still such benefits after going through Heavenly Tribulation.

You must know that Zhao Ling spent a lot of energy and blood in order to upgrade the Blood Devil gun from the peak of the world master level to the immortal level.

Originally thought that it would take a long time to upgrade the Blood Devil gun to the intermediate level of immortality.

"Very good, after all, with the difficulty of upgrading the Blood Devil gun, I want to upgrade him now, because it's time consuming!"

The corners of Zhao Ling's mouth rose slightly.

Immediately, he shook his right hand toward the void!

"!!!!!!!"

In an instant, a bloody long spear exuding such a terrifying aura smashed into Zhao Ling's palm~!

Bloody dragon-shaped Blood Qi circled above the Blood Devil-gun!

Suddenly, Zhao Ling's eyes froze!

"drink!!!!"

With a low shout, Zhao Ling shot and stabbed into the void!

"laugh!!!!!"

In an instant, a terrifying blood-colored gun light rushed out of the spear tip, and the surrounding space was directly shattered by this blood-colored gun light.

This gun light came to a large galaxy hundreds of thousands of light years away in an instant!

“Boom.....”

An earth-shattering terrifying roar came from afar in an instant.

The large galaxy in the distance was instantly shattered by the attack stabbed by Zhao Ling.

Trillions of planets disappeared in an instant!

"The power itself is so strong! It really deserves to be a high rank weapon for immortality!"

Zhao Ling couldn't help laughing.

As for the high-level weapon of eternal life, there is only one such as the Dragon Emperor Haotian.

This is the reason why he is an immortal level formation teacher!

After seeing the power, Zhao Ling shook his right hand slightly, and in an instant the spear disappeared in front of his subjects!

"Let's go! It's time to go to the next place!!"

Zhao Ling's eyes flashed!

At the next moment, with a big wave of his hand, more than 40,000 Zerg powerhouses at the peak of the world master level who were kneeling on the ground were received into the own beast pet space.

Zhao Ling returned to his original form again, and then stepped on the body of the Dark Extinguisher Mosquito and fled towards the distance in an instant.

And it's infinitely far away!

In a palace in an empty space, four Zergs exuding the aura of heaven and earth are sitting in the Great Hall and having a heated discussion!

"You have also sensed the breath just now!!"

An old Zerg headed by said faintly!

"That's right, it's indeed the breath of other remnant souls!!"

Another extremely strong Zerg said in a deep voice.

"But why did this breath disappear so quickly?"

On the other end, the Zerg, who was relatively short but exuded an extremely pure aura, asked suspiciously!

You must know that these incompletes can sense each other's existence.

It's just that they can't sense the position of each other!

After the Dark Extinguishing Demon Worm succeeded in the Transcend Tribulation, the four of them noticed his aura.

It's just that the breath disappeared after just a few days!

This is a bit confusing.

"It is reasonable to say that the strength of the remnant soul will be very weak when it is just awakened. If it encounters a strong enemy, it is very likely that it will be obliterated together with the host.

The sturdy Zerg guessed suspiciously!

And his guess made the other remnants nod slightly!

And they are the supreme rulers of Zerg, the four Great Saints!

"It's also possible that the other party has a way to cut off the induction. After all, the power of the main body is beyond our imagination. Every remnant soul will inherit a little skill!

Let's not talk about this matter for now, let's discuss other things!"

The old Zerg said quietly.

The awakening of remnant souls is definitely the most important event for them, because they all came from Taotie.

After the remnant soul awakens, it will awaken part of Taotie's memory, as well as Taotie's Talent bloodline, devour!

Swallowing is one of the bloodline Talents, and it also belongs to the Swallowing Law among the Three Thousand Laws.

Although the power of this kind of law is not as high as the four supreme laws, it is the most powerful power of law in the universe when it comes to improving strength.

At the same time, the rarity of the Law of Devouring is absolutely no less than that of the Four Supreme Laws.

"The human race has recently produced a genius who actually opened up the Tianyan Divine Tower refined by that kid of the Tianyan God Emperor!"

The old Eastern Holy Beetle suddenly spoke about Zhao Ling!

They are the four Great Saints, existences above the Holy Spirit Realm, therefore, God Emperor Tianyan is just a junior to them!

"I've also heard that in the Tianyan God Tower refined by Tianyan, according to normal understanding, there are only a handful of people in the universe who can pass two hundred floors [I didn't expect that kid named Zhao Ling to pass three hundred floors! "

The bright white Western Saint Beetle who hadn't spoken yet said solemnly.

"I sent someone to arrest that kid, but unfortunately, he was discovered by this generation of God Emperor Tianyan, and lost a little thing of immortality in the sky, and Zhao Ling was also in the aftermath of the battle!!"

...asking for flowers...

However, the words of the strong holy insect made the other three holy insects frown!

"It's actually dead?!"

"Pity!!"

"I originally wanted to use its body to parasitize an insect Gu, so that my Zerg race would have an extra peerless genius!"

Knowing that the four Great Saints after Zhao Ling's death are extremely regrettable.

As for whether Zhao Ling could survive, the Strong Saint Beetle personally checked Zhao Ling's aura near the battle area, but found nothing.

This means that Zhao Ling is really dead, otherwise how could he not detect the trace of Zhao Ling with his strength!

However, what he doesn't know is that Zhao Ling has systematic concealment, not to mention him, even Taotie is trash in this world.

O

However, at this moment, the Zhao Ling mentioned by the four Great Saint worms has now come before the Galaxy of another worm emperor!

"Insect Emperor of Moment! If I comprehend the Law of Moment to 1,000 degrees, my strength should be able to shatter the surrounding space, so I don't need to shuttle slowly in the starry sky anymore!"

Since the last time Zhao Ling blasted and killed the Instant Light Worm Emperor, his Instant Light Law has reached more than 2,000 degrees!

With Zhao Ling's law strength, the law strength of more than 2,000 degrees can reach more than 1,000 times that of the general powerhouse's 2,000 degrees.

That is to say, it is more than two thousand times the peak of the world master!

And this is not his strongest, the most powerful is the law of shadows.

Because the shadow law has reached more than three thousand degrees, and its strength has reached more than four thousand times!

But still can't let Zhao Ling break the space,

But the law of the moment is different.

The Law of Moment is the power of the law that specifically travels through time and space.

More than 14,000 times the fighting power of the world lord's peak level, if it explodes using the law of instant, it may directly smash the surrounding time and space.

It is possible to build a large array of Spatial Teleportation.

"finally reached!!!"

Zhao Ling stood on top of the Dark Extinguishing Demonic Worm, looking at a continent suspended in the starry sky in the distance.

This continent is the base camp of the Momentary Worm Emperor that Zhao Ling is looking for now!

Judging from the size of this continent, it is far larger than the Blinking Star of the Blinking Insect Emperor.

After all, the construction of a continent is completely different from the construction of a planet!

"It seems that Emperor Shunzhi has a subordinate who is stronger than the original An Mie!".

Fantasy I Pick Up Attributes In The Future

Chapter 200: Beetle In Flame Domain! Breakthrough Eternal Life! (4/5)

Looking at the distant mainland, Zhao Ling raised the corners of his mouth slightly!

"Yes master, the instant worm emperor is the most powerful worm emperor among the hundreds of worm emperors around here! So the zerg who take refuge in him is also the most!

The Flame Domain beetle under him is a strong man with one hundred and seventy times the peak combat power of the world lord.

The power of the Law of Flame has reached more than 8,500 degrees."

The Dark Destroyer Demonic Worm said to Zhao Ling respectfully!

"Oh, I see?"

Zhao Ling frowned.

The strength of the flame domain beetle has reached the standard expected by Zhao Ling.

As long as there are no accidents, after the flame domain beetle is recovered by him, he seems to have another extremely powerful subordinate!

"Very good, but the strength of the Instant Worm Emperor has reached more than 40 times the level of immortality, and the strength of the peak of the middle-level human realm is not something we can compete with for the time being!"

Zhao Ling is also arrogant, with more than 40 times the combat power, if he destroys the demon insects, he can still beat "eight nine zero", but he needs to use Blood Qi violently to almost the limit.

If this is the case, the Dark Extinguishing Demon Insect will be useless.

"Proceed according to the original plan, and I will hand over the Momentary Worm Emperor to you!!"

The corner of Zhao Ling's mouth smiled, and then the law of shadows was activated, and the real person disappeared into the starry sky in an instant.

"Yes Master!!"

The Annihilating Demonic Worm paid respects to the void where Zhao Ling disappeared, and then flew directly towards the big Lu ahead.

And just after the Dark Extinguishing Demon Worm flew over the mainland, a terrifying aura erupted from his body instantly.

This breath instantly shakes the surrounding starry sky violently!

"Boom!!!!"

The continent below is roaring crazily, as if The next moment is about to disintegrate!

"Hmph! Who dares to come to the territory of my instant insect emperor to act wild?"

Suddenly, an icy voice came from behind the Dark Extinguisher.

The expression of the Dark Extinguishing Demon Insect changed instantly, and its figure disappeared directly in place.

"boom!!!!!"

At the next moment, the position where the Dark Destroyer Demonic Worm was just now was replaced by a terrifying space crack.

If the Annihilating Devil Insect is hit, its body will definitely be torn into pieces by this space crack.

"Huh!? Are you the Annihilation Demon Insect? The subordinate of the Great Dark Insect Emperor?"

The Shunzhi Chongdi, who failed to hit him, stepped out of the void in one step.

And he was surprised when he saw the Dark Extinguishing Demon Insect.

The Dark Extinguishing Demon Insect has actually broken through, and it doesn't look weak!

"Lord Shunzhi Chongdi, please stay safe, that's right, I am the Annihilation Demon!"

According to the plan, the Annihilating Demonic Worm greeted the Instantaneous Worm Emperor!

And when he heard An Mie call his lord, Shunzhi Chongdi's eyes flashed, and at the same time he also felt that the power of Heavenly Tribulation in An Mie Mo Chong's body hadn't dissipated!

Immediately, he guessed the meaning of Dark Demon Insect!

Apparently, like Emperor Blinking Light, he also thought that the Annihilating Demon Worm had come to seek refuge.

After all, this kind of thing happened too much in the Zerg territory.

After the breakthrough, the subordinates had conflicts with the original masters.

"Hahahaha, it really is brother Anmie! I didn't know that brother Anmie came, but I was far away to meet him, come, come, go to my instant continent to rest for a while!"

The original anger on Shunzhi Chongdi's face instantly disappeared and was replaced by a smiling face.

"Then it's time to work!!"

The Annihilation Demonic Insect nodded, smiled and flew towards the top of the mainland with Emperor Shun.

But on the other side!

Zhao Ling used the law of shadows to completely envelop himself, without revealing the slightest breath.

And now Zhao Ling has sneaked into the interior of the mainland, without the Instant Insect Emperor, Zhao Ling doesn't have to worry too much.

Soon, Zhao Ling came to the crypt where the Flame Domain Beetle, the number one subordinate of the Instant Insect Emperor, was located!

"What a powerful law of fire!!"

Zhao Ling felt the power of the Law of Fire emerging from the cave, and his eyes lit up.

The next moment Zhao Ling flew directly towards the cave.

There are incomparable twists and turns in the catacombs, and there are some small formation guards.

It's a pity that the Zerg are not good at learning formation, and the difficulty of learning formation is extremely huge.

The most powerful of these formations is nothing more than a domain master-level formation.

For Zhao Ling, the peak formation master of the world master, breaking this formation is really too simple.

However, Zhao Ling didn't break it directly, but the whole person merged into the formation after hitting the formation.

Soon, Zhao Ling found where his own target was.

"The aura of the world lord's peak is indeed here!"

Zhao Ling's eyes flashed, and the mysterious formation handprints in The next moment's hand were instantly struck out from Zhao Fan's hand.

"LOCK FORMATION! ON!!!"

With a low drink!

An invisible wave instantly locked all the real estate in front of Zhao Ling.

However, even the Flaming Domain beetles who cultivated in it didn't find the slightest bit!

The next moment Zhao Ling flew down into the cave.

Soon, Zhao Ling saw a boundless magma

And a huge fiery red beetle lay on the magma and absorbed the law of fire in the magma.....

With the breathing of the Flaming Territory Beetle, the boundless sea of magma is shrinking and shrinking.

"Who!!!"

Suddenly, a loud shout burst out from the mouth of the flame domain beetle.

Because Zhao Ling came to this magma sea, he had already dissipated his own shadow law.

And the powerful flame domain beetle instantly found Zhao Ling's figure.

After seeing that Zhao Ling is actually a human being, the flame domain beetle's face changed dramatically!

"Human? How is that possible? You are actually a human!!"

The flame domain beetle clearly knows how difficult it is for a human, especially a human below the immortal level, to come to this region of the Zerg.

In fact, not to mention human beings, but he, the Zerg, wanted to come to this place from the edge of the Zerg territory, and he was afraid that he would fly to death.

"Yes, I am indeed human!!"

The corners of Zhao Ling's mouth raised slightly, and then his body flashed, and he came to the side of the flame domain beetle in an instant!

Seeing this scene, the flame domain beetle immediately showed shock,

However, The next moment Zhao's attack slowly landed on his tentacles.

And it has no way.

Zhao Ling's current strength is more than 20 times that of his, how can he, a world master Zerg, resist it!

You know, in a battle, as long as there is more than twice the difference in strength, you can instantly kill your opponent.

And if it was twenty times, Zhao Ling's slap would probably kill tens of thousands of such existences directly.

"boom!!!!!"

With a roar, Zhao Ling's slap instantly blasted out a beast-monitoring mark, and this 4.5 beast-monitoring mark instantly emptied the opponent's sea of consciousness!

Of course, like the Dark Extinguishing Demon Worm, most of the memories were left by Zhao Ling, the only thing he didn't have was his loyalty to the Zerg Race.

"Yanyu has seen the master!"

The flame field beetle quickly knelt down towards Zhao Ling, and said respectfully at the same time.

"Very good! In this case, let's prepare for Transcend Tribulation!!"

Zhao Ling nodded with a smile, and then grabbed the flame domain beetle, The next moment, Zhao Ling quickly flew out of this continent!

Zhao Ling, who flew to the starry sky, directly activates the power-enhancing seal in the beast-controlling seal!

"boom!!!!!"

The next moment, an aura that shook the world and the earth was transmitted from his body in an instant.

At the same time, the face of Shun Zhidi, who was still fighting with An Mie and almost beheaded his head, suddenly changed!

"Not good, Yan Yu broke through!!".
