Chapter Thirty-One: Instantly Kill The True Qi Realm Powerhouse! !

Zhao Ling radiated the power of own thoughts to the surroundings without a trace.

Soon, Zhao Ling saw a big man with a public face in a corner!

At the same time, the strength of the opponent is at least the powerhouse of the True Qi Realm.

Although the big man seemed to be walking around casually, his eyes glanced at Zhao Ling from time to time!

"It's not a good person! But this person doesn't seem to be from an underground organization!"

Zhao Ling frowned slightly, but this was not important anymore.

Now that the other party has been discovered, it is impossible for the other party to sneak attack own.

Zhao Ling walked to a corner without many people.

At the same time, leave your own back to the other party, raise your hand and lower your head to play with the smart watch on your hand.

Sure enough, the big guy started walking towards Zhao Ling while pretending to watch the video chat.

Just when the other party was still a few meters away from Zhao Ling.

The big man made a move, and a poisoned dagger instantly appeared in the opponent's hand.

At the next moment, the other party stabbed towards Zhao Ling quickly.

The speed was so fast that the people around only saw the other party disappear in an instant, but no one could see the other party's movements.

"Success!"

When the dagger was only one meter away from Zhao Ling, the big man's eyes flashed slightly, thinking excitedly in his heart.

However, in the next instant, a fiery red light flashed across the sky.

"Pfft!!!!!"

After a piercing sound, a strange blood flower instantly scattered into the sky!

The big man who attacked Zhao Ling suddenly had his arm chopped off.

However, although the big man was shocked, he didn't panic at all.

The left hand punched out instantly.

"Clang!!!!!"

With the sound of metal impact, the big man's fist hit the void directly.

It seemed to be blocked by something.

This time, the big man was instantly shocked!

"Psycho, this kid is a Psych!?!"

The big man looked at Zhao Ling who slowly turned towards him in disbelief.

However, at the next moment, the big man felt that own's arm was pinched by a huge force.

"Click!!!!"

The next moment, his only remaining left hand was instantly broken into two in the void.

The huge pain made the big man unable to bear the cold sweat on his forehead.

At the next moment, Zhao Ling stretched out his right hand and directly pinched the big man's neck!

"You actually sent a strong man from the True Qi Realm Second Stage to assassinate me! I don't know, are you interested in discussing your master with me?"

Zhao Ling smiled slightly.

But the strength in his hands almost suffocated the big man.

"Hmph, you'll never know! And I don't know if you can resist the crime of killing a second lieutenant in the street!"

After the big man finished speaking, the whites of his eyes rolled up instantly, and a trace of black blood flowed from the corner of his mouth.

The next moment his breath of life had disappeared.

"suicide?!"

Zhao Ling frowned suddenly.

The next moment Zhao Ling threw the dead man in his hand.

But the battle just now has been seen by the people around.

Seeing Zhao Ling looking over, these people immediately took a few steps back in fright.

"Ding... The host picked up the attribute: 300 points of vitality and blood, and increased the value of vitality and blood: 300"

"Ding... The host picked up the attribute: 400 points of strength, increase the value of strength: 400"

"Ding... The host picked up the attribute: soul 40 points, increase the soul value: 40"

"Ding... Congratulations to the host for picking up the spiritual treasure chest*1"

Killing the big man, Zhao Ling is not without the slightest gain.

"What happened!?"

Suddenly, Bai Ningshuang came over with Xiaoxue.

"Brother, are you okay!"

Seeing the surrounding ground crushed by the big man, Xiaoxue hurriedly ran to Zhao Ling and asked worriedly.

"It's okay, I just killed a killer!"

Zhao Ling smiled slightly and patted Xiaoxue's head.

"Killer? I'll check his identity first!"

As if thinking of something, Bai Ningshuang tapped a few times in the void, and then a light swept across the big man's body.

However, the scan results were different.

"It's actually from the military!"

Bai Ningshuang sighed quietly.

"The military? Never mind, if the military wants to trouble me, let them try!"

Zhao Ling frowned.

People from the military actually assassinated him. He has to settle the debt with the military!

"I will inform my grandfather about this matter... the president will take care of it. You'd better take Xiaoxue home first and take good care of her."

After Bai Ningshuang finished speaking, she directly contacted the president.

"Thank you!"

Zhao Ling said to the other party sincerely.

But there was a hint of murderous intent in his eyes!

"Assassinate me? It's all from the military!"

Chapter Thirty-Two: Picking Up The Ability! Ice Ability! ! (Three More)

In just a few days since Zhao Ling came to this era, he has already been assassinated twice, both by the military.

This matter can never be so simple!

However, at this moment, Zhao Ling saw two pure white characters falling from Bai Ningshuang's body!

That's right, it's words!

It says "ice"

Zhao Ling seemed to have guessed something in an instant, his eyes flashed, The next moment, Zhao Ling quickly picked up these two words with his mind.

"Ding... Congratulations to the host for picking up the power: the ice power! The powers are all controlled by Mental Energy, and all the strengths are divided into peak mortals!"

The next moment Zhao Ling felt that there were streaks of pure white energy in the surrounding space as if beckoning to him.

And Zhao Ling could easily feel a trace of coldness from these energies.

"It's actually Bai Ningshuang's ice power? This system can pick up the face power, this is heaven-defying!"

Zhao Ling couldn't believe it as he looked at a needle of ice that he had condensed a few meters away.

He felt that if he wanted to, he could instantly condense an ice titan several meters high!

At the same time, it can also condense the ice Flying Daggers, which is comparable to the peak weapon Mithril Flying Daggers.

It's terrifying to fight!

You must know that as long as there is ice energy in the air, Zhao Ling can instantly condense Flying Daggers at will at a distance of 100 meters around.

Coupled with the terrifying bonus of own telekinetic power.

If Zhao Ling wanted to sneak attack, no one would be able to notice.

Soon the president brought people from the Martial Dao alliance again.

"You boy, you just killed someone from the army yesterday, and now you've killed another one!"

The president gave Zhao Ling a helpless look.

"Hey! Isn't this him, did he come to seek death? I can't help it either!"

Zhao Ling smiled helplessly!

"Oh, but this person is a little troublesome!"

Suddenly, the chairman sighed.

"Oh? How do you say that?"

Ming Yang's eyes flashed.

"Firstly, although this person is here to assassinate you, he is still from the military, and he was suggested by the Cheng family!"

The president sighed faintly.

"The Cheng family? Which Cheng family?"

Zhao Ling's eyes flashed suddenly, he must know that it is absolutely impossible for people in the military to secretly find someone to kill him.

After all, although he killed Li Chuang from the military, he was a clone. It would be nice if the military didn't apologize for this.

And this Cheng family may have a problem!

"The Cheng family, that is one of the four great families in my Rosy clouds province, and its ancestor is Master Cheng Yueshan, the Law Enforcer, and that is the superpower of the Grandmaster!

Moreover, Cheng Zheng, who was robbed of the first place by you, is his most promising grandson! "

A trace of worry flashed across the president's eyes.

This time, Zhao Ling knew that the other party was definitely the mastermind behind the assassination of Own.

As for why the other party sent a person with a connection with him to assassinate.

It's not that they are stupid, but with the strength of the True Qi Realm Second Stage of the dear friend who was killed by him, let alone a Zhao Ling, even ten peak Body Tempering realms are not opponents of the other party.

As long as the other party left after killing Zhao Ling, absolutely nothing would happen while relying on the power of the Cheng family.

However, the bad thing is that Zhao Ling's strength is far beyond the Body Tempering realm.

"But you don't have to worry. You helped the military kill the spies yesterday. They won't embarrass you. It's just that you have to worry about the Cheng family in the future. Although they won't come out to the public, there are definitely a lot of assassinations!"

The solemn words of the president made Zhao Ling nod slightly.

"By the way, there is one more thing I forgot to tell you. You are the champion of the Rosy clouds province, so you will be included in the Yan Mars elite training plan!"

Afterwards, the president told Zhao Ling about the elite cultivation plan.

There is no conflict between the elite training program and the university entrance examination.

Only ten days after the end of the college entrance examination, they had to go to the elite training headquarters to start training.

At the same time, you can also apply for a university name.

In addition to becoming the number one scholar in each province, the selection method is to participate in the foreign recruitment assessment!

Only the top ten foreign recruits can enter the training plan.

"However, foreign recruits can't recruit top ten, because there will be some provincial champions who will also participate in the foreign recruit assessment. Of course, if they don't get the top ten, their original quota will also be lost!"

The president suddenly remembered something and said to Zhao Ling.

However, Zhao Ling's eyes lit up when he heard this!

"Can I also participate in this Lao Shizi's external recruitment assessment?"

Zhao Ling seemed to have thought of something!

"By the way, people from Martial Dao Alliance Yan Mars Headquarters will contact you in the next few days! Confirm the matter of the elite cultivation plan. I will leave the matter here to me. You should go back first!"

Fantasy I Pick Up Attributes In The Future

Chapter Thirty-Three: Martial Skill: Soul Blade (Peak Of Spirit Rank)

After bidding farewell to the president and Bai Ningshuang, Zhao Ling took Zhao Xue home directly.

In the room, Zhao Ling directly opened nearly a hundred treasure chests he had obtained.

"Ding... Congratulations to the host for opening the mortal-level treasure chest*90, and the spiritual-level treasure chest*5, and obtained the following items:

Ordinary Weapon*5, Ordinary Cultivation Technique*10, Ordinary Medicine Pill*4, Spiritual Martial Skill: Soul Blade (Peak of Spirit)

Experience: 53500

Attributes: speed value: 350, strength value: 5000, vitality: 5500, soul: 570"

Only the attributes found in the treasure chest can greatly improve Zhao Ling's strength, but this does not include the attributes Zhao Ling picked up today.

"A Martial Skill at the peak of the Spirit Rank has been issued! I don't know what Martial Skill is!"

Zhao Ling's heart skipped a beat when he saw the Soul Explosion book in his storage.

Just looking at the name, you can tell that it is Nianli's Cultivation Technique!

"Ding...Soul Blade (Peak of the Spirit Rank): Psychic Master Martial Skill, can use the power of the soul to condense the soul blade and attach it to the weapon, increasing the lethality by six times! For every 10% increase in proficiency, it takes Consume a thousand experience points!"

Martial Skill is divided into: Mortal Rank, Spirit Rank, Earth Rank...

Each level of Martial Skill can be divided into four sub-levels: low level, intermediate level, advanced level and peak level!

And low-level mortal cultivation to the peak can increase the lethality or strength by less than 30%. Intermediate is above 30% and below 60%,

A mortal advanced Martial Skill can reach 90%, and a mortal peak can be doubled!

On top of this is the Martial Skill of the Spirit Rank. The Martial Skill of the Spirit Rank can exert 300% lethality at a low level.

The intermediate level is 400%, the advanced level is 500%, and the peak level is 600%.

However, it is very difficult to cultivate a Martial Skill to the limit.

A person with an average talent and peak Body Tempering would not be able to cultivate a Martial Skill at the peak of Mortal Rank to the limit in his entire life. Even if he was given a Martial Skill of Spirit Rank, he would not be able to exert much strength.

However, Zhao Ling was able to use the system to directly raise all these Martial Skills to the peak!

And it only needs 10,000 experience points!

Zhao Ling The next moment directly increased the soul blade's 10,000 experience points to the limit!

"Ding... Congratulations to the host Martial Skill: the proficiency of the soul blade has reached 100%"

Zhao Ling instantly felt countless messages popping up in his mind.

And these messages are all about using the Soul Blade!

With a slight movement of Zhao Ling's mind, the Fenyan Flying Daggers flew up instantly.

At the next moment, Zhao Ling condensed his own telekinetic power on the blade of Fenyan Flying Daggers.

In an instant, Flying Daggers, who was originally only palm-length, seemed to be lengthened, but a closer look showed that his knife tip had a layer of transparent light.

"The power has really increased a lot!"

A happy smile appeared on Zhao Ling's face.

But after a closer look, I found that there are still 47,000 own experience points.

Then Zhao Ling added it to the mind skills and marksmanship skills!

"Ding... Congratulations to the host for reaching 6 soul power (0/50000)"

"Ding... Congratulations to the host for reaching the proficient intermediate level of marksmanship (0/50000)"

The next moment Zhao Ling's mind instantly echoed with marksmanship.

At the same time, he felt that the power of own soul had solidified again.

Now he can fully burst out six times his original power by using the mind power technique.

Attribute table:

Host: Zhao Ling

Martial Dao Realm: The pinnacle of Body Tempering

Psychiatrist: The peak of the mortal rank

Ability: Ice

Strength: 22500

Speed: 1350m/s

Vitality: 22800

Soul: 2520

Weapons: Burning Flame Flying Daggers Array (Peak of the Spiritual Rank) Blazing Sun Spear (Advanced Spiritual Rank)

Cultivation Technique: Basic forging body Fist Technique (no flow)

Martial Skill: Soul Blade (Peak of Spiritual Level, 100%), Psychic Power, Variety of Magical Skills (Intermediate Spiritual Level, 100%), Storm Shootout (Peak of Mortal Level, 100%)

Psychic skill: 6 soul power (0/50000)

Spear Skills: Proficient Intermediate (0/50000)

Experience: 7000

.....

On the attribute table, the weapons that Zhao Ling will not use and the Cultivation Technique Martial Skill are almost not on the list.

But that's good too, after all, if it's on the list, Zhao Ling probably has ten weapons now.

"Looks like it's time to find a place to dispose of these weapons Cultivation Technique!"

Helplessly looking at the weapons and Cultivation Technique in his storage bar.

But today's harvest is simply higher than all the previous time combined.

All attributes have been directly increased by more than double, and at the same time, it has also obtained the ability of ice.

"By the way, based on my current telekinetic power, I can burst out with a force of 25,000kg, but both the Martial Skill and the telekinetic skill are multiplied by six times! When multiplied together, the explosive power is thirty-six times.

The True Qi of the True Qi environment powerhouse can increase the destructive power by two times, and if the Martial Skill is added, it can be increased by two to three times.

That is to say, the strength of the general True Qi Tenth Stage powerhouse can be increased by about six times, that is, my current strength, should I be able to fight against the general True Qi Tenth Stage powerhouse? "

After Zhao Ling made such a calculation, he suddenly realized that his strength seemed to have exploded a bit!

You must know that a Psychiatrist with Martial Skill and a Psychiatrist without Martial Skill are definitely not at the same level.

Of course, when encountering the True Qi Realm Zhao Ling who is proficient in Martial Skill, he can only fight with Seven Eighth Stages.

"The Cheng family? Very good!"

.....

But at night, Zhao Ling's house welcomed a guest!

"There are guests visiting!!"

Zhao Ling, who had just returned home, suddenly heard the doorbell!

Zhao Ling frowned, and then Mental Energy spread instantly, and he saw a middle-aged man standing at the door!

But the aura emanating from the man has reached True Qi Fifth Stage!

"True Qi environment powerhouse?"

Zhao Ling's eyes narrowed slightly.

"Xiaoxue, you go back to your room first!!"

Zhao Ling said to Zhao Xue seriously, Zhao Xue didn't ask any more questions, she glanced at Zhao Ling worriedly and went back to the room directly!

Zhao Ling then walked directly to the door and slowly opened the door.

"Hello, it's Mr. Ming Yang!!"

The moment the middle-aged man saw Zhao Ling, a trace of doubt flashed in his eyes.

He couldn't see through a trace of Zhao Ling's Blood Qi.

You must know that although it is difficult to see the strength of the Body Tempering realm, it is quite easy for a strong man like him to see the strength of a Body Tempering realm.

"Without True Qi, it's not from the True Qi Realm, that is to say, he killed the True Qi Realm Second Stage just by relying on the Realm of the Body Tempering realm?"

The middle-aged man's mind changed sharply!

And Zhao Ling also noticed that the other party seemed to have no malicious intentions.

"I am, are you looking for me?"

Zhao Ling smiled slightly!

"That's right, I'm Zhou Long from Martial Dao Alliance Headquarters! I'm here to disturb you because of the elite training camp!"

Zhou Long said and took out his own certificate, then Zhao Ling checked it on the Internet with a smart watch and found that it was real.

"Hello Zhou Long senior, please come in!"

Zhao Ling said, and then invited Zhou Long to the living room.

"Let me just say it directly, the external recruitment of the elite training camp will be held tomorrow, if you participate, go directly to the imperial capital with me today!

If you are sure not to participate in foreign recruitment, someone will take you to the imperial capital to sign up directly after eight days! "

Zhou Long said to Zhao Ling straight to the point.

"Participate, of course!!"

Zhao Ling smiled, what he was waiting for was this foreign trick!

You know, many people will die every year through foreign recruits!

Zhao Ling's answer did not surprise Zhou Long.

"That's fine. We'll set off later. You can prepare. By the way, if you succeed in this foreign move, your reward for Tier 3 potential will be increased to Tier 4 potential."

When Zhou Long said this, his complexion became a little dignified!

"Well, I'll be fine soon!!"

Zhao Ling nodded slightly, he didn't care about rewards at all.

If he sold all his own things, the reward for the fourth level potential would not be much.

Soon Zhao Ling called Bai Ningshuang.

Then he entrusted Xiaoxue to the other party.

At the same time, I explained other things.

"Okay, let's go!!"

After finishing the matter, Zhao Ling said to Zhou Long.

.....

.....

After more than ten minutes, Zhao Ling and Zhou Long have arrived at the imperial capital!

And the central part of the Martial Dao alliance in the imperial capital is awesome.

It covers an extremely large area, reaching thousands of acres, and a building is nearly a thousand meters high.

Like a giant pillar of Tongtian.

When Zhao Ling stepped off the fighter plane, he found that the people around him were all Practitioners. Roughly counting, there were thousands of people in the lobby on the first floor.

There are quite a few True Qi environments among them.

"Ding... The host picked up the attribute: 250 points of vitality and blood, and increased the value of vitality and blood: 250"

"Ding... The host picked up attributes: strength 140 points, increase strength value: 140"

"Ding... The host picked up the attribute: soul 24 points, increase the soul value: 24"

"Ding... The host picked up the attribute: speed 10 points, increase the speed value: 10"

"Ding... Congratulations to the host for picking up the mortal treasure chest*1"

Zhao Ling just absorbed the attributes within a hundred meters around him, and found that his own attribute has increased a lot!

Just after Zhou Long walked halfway through the hall with Zhao Ling!

"Ding... Congratulations to the host for reaching the second limit of the Body Tempering realm!"

"Ding... Congratulations to the host for reaching the second limit of the Body Tempering realm's speed!"

"Ding... Congratulations to the host for reaching the second limit of the Body Tempering realm!"

"Ding... Congratulations to the host's soul value for reaching the second limit of the Body Tempering realm!"

A series of four system prompts sounded at the same time!

Fantasy I Pick Up Attributes In The Future

Chapter Thirty-Five: Accumulate Energy, Lightning Abilities! ! (Six More)

Zhao Ling's eyes flickered slightly.

At the same time, the limit is reached, but it seems that the method of breaking through the limit for the second time is different from the first time!

"Ding... the system starts to accumulate energy, and every time the host absorbs a thousand points of attribute value, the energy will increase by one percent."

However, the sound of the system made Zhao Ling speechless.

One hundredth of a thousand points means one hundred thousand attribute points?

However, he thought that if he broke through with a strength of 100,000 kilograms, he would be able to use the physical strength of True Qi First Stage to beat the real Qi peak powerhouse.

Moreover, if one wants to breakthrough the True Qi realm, it seems that one needs to comprehend True Qi by oneself, and at the same time, one must condense a trace of True Qi in order to breakthrough to the True Qi realm smoothly.

But realizing and condensing True Qi requires the hard work of own, and the system can't help itself.

One must know that it takes at least a month for even a genius to condense True Qi.

Besides, Zhao Ling's talent is not strong. If he was strong, he would have already become a preliminary practitioner, so there is no need to wait for the system?

In other words, Zhao Ling is now struggling to figure out how to condense True Qi.

Or rely on the system to rapidly improve own strength.

Anyway, during this period of time, it is impossible for him to break through.

"Ding... Congratulations to the host for absorbing attribute value: 1000, energy increased by 1%"

However, after Zhao Ling walked a few steps, a notification sound made his last trace of unhappiness disappear!

"Hahaha, with the system, 100,000 attribute points don't seem to be many!"

Zhao Ling thought of this and walked forward happily.

Zhou Long arranged for Zhao Ling to stay and explained some things before leaving!

At this time, Zhao Ling's energy had already accumulated seven percent.

Early the next morning, Zhao Ling was taken by Zhou Long to the fourth floor of the Martial Dao Alliance headquarters.

As soon as Zhao Ling came here, he found that there were already tens of thousands of boys and girls around his own age on the fourth floor.

And Zhao Ling's arrival caused several people around to take a look, but not many people paid attention immediately.

Zhao Ling originally wanted to use his mental power to scan his surroundings, but at The next moment he found two people who also possessed mental power.

"Sure enough, they are the most talented group of people in Yan Mars! All of them have reached Body Tempering three Fourth Stage or above."

Zhao Ling frowned.

You must know that if a teenager with Body Tempering three Fourth Stage or above is in the Rosy clouds province, where Martial Dao is relatively behind, at least they will be in the top ten!

But if these people were in the imperial capital, they would probably be in the top thousand.

That's why the Cheng family hated Zhao Ling for taking the first place from Cheng Zheng.

You know, although without Zhao Ling, Cheng Zheng would be number one in the province of Rosy clouds, but there is almost no hope for him to participate in foreign recruitment!

Because Zhao Ling, the number one in the imperial capital, took a look and was a boy at the peak of the Body Tempering realm! !

The top ten candidates are all super geniuses above Body Tempering Eight Ninth Stage!

What did he Cheng Zheng compare with the other party?

Therefore, Cheng Zheng's ending is already doomed!

But this is not something Zhao Ling should pay attention to, because tens of thousands of students with Body Tempering three Fourth Stage or above have been waiting for an hour or two in this place.

Only the last few of Zhao Ling arrived, so in Zhao Ling's eyes, all the places are some attributes!

With a thought, Zhao Ling absorbed all the attribute points around him towards him in the next instant.

However, his actions were immediately noticed by the other two psychiatrists.

But under the cover of Zhao Ling's huge psychic power, none of them found out who actually sent out this psychic power.

So the two couldn't help but target each other with suspicion!

"Ding... The host picked up the attribute: 250 points of vitality and blood, and increased the value of vitality and blood: 250"

"Ding... The host picked up attributes: strength 140 points, increase strength value: 140"

"Ding... The host picked up the attribute: soul 24 points, increase the soul value: 24"

"Ding... The host picked up the attribute: speed 10 points, increase the speed value: 10"

"Ding... Congratulations to the host for picking up the mortal treasure chest*1"

.....

.....

A series of sounds echoed in Zhao Ling's mind.

"Ding... Congratulations to the host for picking up the ability: thunder and lightning!"

However, at The next moment, Zhao Ling was stunned!

Lightning ability? It's normal for people with thunder and lightning abilities to exist in this place, but the opponent actually lost their abilities!

"Damn, there is such a good thing!"

The corners of Zhao Ling's mouth couldn't help but rise.

After all, a power is a powerful means of fighting!

At the same time, Zhao Ling's energy has accumulated to 15%.

"Everyone!!!!"

However, at this moment, a loud and magnetic voice came from the sky.

Fantasy I Pick Up Attributes In The Future

Chapter Thirty-Six: Zheng Hong Law Enforcer!

"Everyone, good morning everyone, I am your chief examiner, Zheng Hong!"

With the sound of the sound, a middle-aged man in a hard suit in the sky flew down called a suspension elevator.

And the terrifying aura emanating from the middle-aged man also made the people around him feel a huge pressure.

"This person's aura is so strong, he is definitely not a strong person in the True Qi Realm!"

Zhao Ling's eyes flashed, and he guessed the opponent's strength in an instant!

A true Grandmaster powerhouse.

"As this year's chief examiner! I have a few words to say, that is, in the three days from today, you will go through the test of life and death, and everyone has signed the certificate of life and death that I sent to you !"

Zheng Hong's unquestionable words shocked some teenagers who were not very strong-minded.

"By the way, I told you before signing. This year's death rate will definitely not be lower than 50%, and it doesn't mean you can survive if you are strong. You should consider whether to sign or not!!"

Zheng Hong's words immediately stunned the boys and girls below who were a little scared!

Isn't the death rate generally at most 10%? How could it be 50% this year?

"I remembered. My grandfather said that I, Yanxingxing, have a law enforcer named Zheng Mowang. You must not provoke him! It is said that he slaughtered more than 500 students during the assessment of the elite training camp decades ago! He died indirectly at the same time. There are more than a thousand students under him, "

Suddenly, a young man looked at Zheng Hong in the sky and his face changed suddenly!

However, as soon as his words came out, the faces of the children of some big families all changed suddenly.

Because they have all heard of Zheng Hong's deeds!

"I abstain, I don't take the exam!!!"

Suddenly, a girl raised her hand palely.

The next moment, the voices of abstention came out in various places!

"Very good, if there are any people who don't take the exam, tell us earlier, otherwise it will be a waste of resources. By the way, the fewer the number of people, the higher the death rate! Now the death rate has reached at least 55%!"

Seeing so many abstentions, Zheng Hong was not angry, but smiled instead.

At the same time, he exposed another thing that frightened the students below!

That is to say, if they don't give up, maybe the person in Death is themselves.

And if the people around give up more, the more likely they are to die!

How to play this? ?

As for Zhao Ling, completely ignore Lao Shizi's Death rate!

As for Zheng Hong's frightening words, Zhao Ling can only be happy.

Because the more scared people are around you, the more likely they are to drop attribute points!

Zhao Ling couldn't help laughing looking at the attribute points that burst out from time to time around him.

"Ding... The host picked up the attribute: 180 points of vitality and blood, and increased the value of vitality and blood: 180"

"Ding... The host picked up the attribute: strength 220 points, increase strength value: 220"

"Ding... The host picked up the attribute: soul 25 points, increase the soul value: 25"

"Ding... The host picked up the attribute: speed 10 points, increase the speed value: 10"

"Ding... Congratulations to the host for picking up the mortal treasure chest*1"

.....

.....

Although Zhao Ling thinks it's a bit unreasonable to base the happiness of own on the pain of others.

But seeing the rapid growth of his attribute points, Zhao Ling grinned.

"Hey, people don't kill the world for themselves, besides, I didn't scare them!"

While happily harvesting attribute points on the ground!

And all this without anyone noticing!

As time went by, the number of quitters actually reached a terrifying 10,000 people!

But that's to be expected!

"Only 10,000 people gave up? You are so courageous! You are not afraid of death! Let me tell you, the current death rate is 65%! The last three seconds!"

Zheng Hong smiled happily, but the people who saw him smiling couldn't help but feel a little bit of chill in their hearts.

And this kind of aura is called murderous aura.

How can these teenagers who have not experienced many things resist this kind of fear!

You must know that there are more than 10,000 people here, but only ten of these people can successfully pass the assessment.

Those teenagers who knew that it was absolutely impossible to succeed with their own strength shook their heads and gave up!

Thousands of people actually gave up in the last three seconds! This is probably the exam that Zhao Ling has seen with the most abandonment before it even started!

"Okay, those who are willing to participate in the assessment come with me!!"

Zheng Hong's law enforcement officer smiled dismissively, and then the ceiling of the Martial Dao Alliance headquarters suddenly opened. The next moment, a huge spaceship was introduced into everyone's minds!

This is the first time Zhao Ling has seen a spaceship in this era!

Although this era of interstellar travel is already very common.

But just like the airplane in the previous life, it is something that not everyone can afford.

Therefore, Zhao Ling can't find much memory about the spaceship from the memory of his predecessor!

"Let's go!!!!"

Fantasy I Pick Up Attributes In The Future

Chapter Thirty-Seven: There Are Always People Who Want To Harm Me! !

Zheng Hong glanced indifferently at the nearly ten thousand students below, and then flew directly into the spaceship on the suspended elevator.

The next moment, the spacecraft slowly opened a huge hatch!

But this hatch is about 20 meters above the ground!

However, the strong players here are all strong players who have reached Body Tempering Third Fourth Stage.

Pure physical strength has reached a terrifying three or four thousand kilograms.

You must know that three or four thousand kilograms is equivalent to the weight of a small truck.

Such a powerful force acts on each student who weighs no more than fifty or sixty kilograms.

The next moment One by one, the students soared into the sky.

And Zhao Ling also stepped lightly on his feet, and rushed up into the sky.

After entering the spacecraft, Zhao Ling found that the surrounding space was extremely large.

Not to mention thousands of them, even tens of thousands of them can sit down.

Zhao Ling randomly found a seat and sat down.

After that, Zhao Ling scanned his thoughts and found the person he was looking for!

"Cheng Zheng, you really are quite courageous, you dare to come up!"

Zhao Ling looked at Cheng Zheng, who was not far away from him, with a slight smile on his mouth.

The reason why he came to participate in this Lao Shizi's assessment was because of Cheng Zheng.

If he dares to touch Zhao Ling, the Cheng family will be ready to perish!

Zhao Ling then clicked on the own attribute table and took a look.

Attribute table:

Host: Zhao Ling

Martial Dao Realm: Peak Body Tempering (second limit 21%)

Psychiatrist: The peak of the mortal rank

Ability: Ice

Strength: 40000

Speed: 2000m/s

Vitality: 40000

Soul: 4000

Weapons: Burning Flame Flying Daggers Array (Peak of the Spiritual Rank) Blazing Sun Spear (Advanced Spiritual Rank)

Cultivation Technique: Basic forging body Fist Technique (no flow)

Martial Skill: Soul Blade (Peak of Spiritual Level, 100%), Psychic Power, Variety of Magical Skills (Intermediate Spiritual Level, 100%), Storm Shootout (Peak of Mortal Level, 100%)

Psychic skill: 6 soul power (0/50000)

Spear Skills: Proficient Intermediate (0/50000)

Experience: 47000

.....

Not only that, there are also some treasure chests in Zhao Ling's storage bar.

If all these treasure chests are opened, at least tens of thousands of attribute points can be opened.

But Zhao Ling didn't use it.

Anyway, there is not much use for using it now, it is better to wait for him to save enough and use it at once.

It's time to break through in one fell swoop!

But when Zhao Ling looked at the own attribute table, there was a pair of eyes staring at him not far away!

That is Zhao Ling's target, Cheng Zheng.

"Damn it's Zhao Ling, even after getting the quota, he came to participate in the foreign recruitment. If this is the case, why didn't he give up the quota to me in the first place!!"

Cheng Zheng looked at Zhao Ling with resentment.

When he knew for the first time that Zhao Ling was going to participate in foreign recruitment, his mentality exploded!

Zhao Ling, who was extremely precious in his eyes, wasted him like this.

His mood at this time is like a dick who knows that the goddess of own is just a plaything of the rich second generation.

But there was nothing he could do about it.

After all, even if his grandfather is one of the law enforcers, he can't change the rules set by previous law enforcement chiefs and parliaments.

Not to mention that his grandfather is a law enforcer and the most powerful person in Yan Martian today, even the head of law enforcement cannot change it.

"He's the one you want me to kill?!"

Suddenly, a boy next to Cheng Zheng spoke!

And this person is this year's national champion, that is, Lu Wei whose strength has reached the peak of Body Tempering,

Lu Wei's strength is not only as simple as what he sees in front of him, he is the first high school student whose strength has broken through the physical limit in more than ten years!

But his birth was not good, and he got all of these by himself.

Therefore, Cheng Zheng had already taken a fancy to the other party and offered him 100 million star coins to kill Zhao Ling!

The price seems high, but Cheng Zheng's talents are at least third-tier! It's only a hair's breadth away from reaching Tier 4!

Therefore, for him, the 100 million shot fee is equivalent to the reward given by the Martial Dao Alliance.

And if he successfully passes the external move, his Talent will also breakthrough to the fourth level like Zhao Ling, and the reward will be doubled by then!

But these can only be obtained after he becomes a student of the elite training camp.

"That's right, it's Zhao Ling. As long as you kill him, 100 million star coins will be transferred to your identity bank immediately!"

Cheng Zheng glared fiercely at Zhao Ling who was in the distance, and at the same time said to Lu Wei.

"Hmph, remember your words!!"

Lu Wei glanced at Zhao Ling who was sitting there quietly waiting for the spaceship to land, and then spoke to Cheng Zheng with disdain.

Speaking of Zhao Ling, he really doesn't To put in one's eyes.

It's just a provincial champion, so it's absolutely easy for him to kill him.

"Damn, two idiots!!"

However, Zhao Ling who was not far away cursed speechlessly.

These two idiots were actually discussing how to kill themselves not far away.

Not to mention me as a spiritual teacher, even people around me with better ears and eyes can hear it.

Zhao Ling watched the people around him give him a sympathetic look, and immediately felt even more painful.

"It seems that we should kill these two idiots first when we get off the boat, it's too annoying!"

Chapter 38: Endless Star Beasts!

Zhao Ling was a little speechless, had the Cheng family's head been kicked by a donkey?

He didn't believe that he had the strength to kill the strong man of the True Qi Realm Second Stage, and the ancestor of the Cheng family didn't know about it!

Now that you know it, you should know that own strength cannot be defeated by a small Lu Weian.

But the fact is that this matter was actually done by Cheng Zheng himself.

After the news of Zhao Ling reached the ears of the ancestors of the Cheng family

The ancestor of the Cheng family hurriedly called Cheng Zheng,

It's just that in order not to hurt his grandson's confidence, he didn't tell him Zhao Ling's true strength.

Just tell Cheng Zheng not to provoke Zhao Ling anymore, he will take care of the matter,

However, Cheng Zheng thought that Grandpa Own thought that he would never be able to defeat Zhao Ling.

In order to prove it to Grandpa Own, Cheng Zheng came up with such a moth.

Although I really want to knock open Cheng Zheng's skull to see if there is shit in it.

But this is always a place protected by the Martial Dao Alliance.

Those who do it before the start of the game are probably tired of work!

And as time went by, Zhao Ling also clearly saw that the spaceship flew out of the flames.

"It turns out that the assessment this time is on another planet. I don't know which planet will be assessed?"

Looking at the starry sky outside, Zhao Ling suddenly felt oppressed!

"This world is much bigger than it was a hundred thousand years ago.

There are countless strong people in the endless universe, and I am the owner of the system. If I still focus on the little Yan Mars and the little human race, wouldn't it be an insult to the system! ? "

At this moment, Zhao Ling seemed to have found his own goal again.

Now that this life is here, let's explore the limits of this universe.

He who owns the system believes that he has this ability!

"However, the road has to be taken step by step! If you are blind and arrogant, you may die without knowing how!"

Zhao Ling's eyes flashed at the thought of this!

And time flies by quickly!

Zhao Ling was not idle either, and Zhao Ling picked up the attributes dropped by the strong around him.

"Ding... The host picked up the attribute: 180 points of vitality and blood, and increased the value of vitality and blood: 180"

"Ding... The host picked up the attribute: strength 220 points, increase strength value: 220"

"Ding... The host picked up the attribute: soul 25 points, increase the soul value: 25"

"Ding... The host picked up the attribute: speed 10 points, increase the speed value: 10"

"Ding... Congratulations to the host for picking up the mortal treasure chest*1"

.....

.....

And Zhao Ling's energy is also rising steadily!

Finally, when the spaceship reached the sky above a planet, Zhao Ling's energy had accumulated to 35%

And this is only half a day.

At the same time, Zhao Ling calculated that it has been a week since he came to this world!

"boom!!!!!"

With a roar in the atmosphere, this huge spaceship also flew into a planet full of green trees and grasslands!

Zhao Ling looked out the window and found that the diameter of this planet is more than ten times larger than that of Yan Mars!

According to the size, it is a thousand times that of Yan Mars!

And after entering this planet, Zhao Ling found that the surrounding gravity instantly increased by ten times!

Although the strength of the students around is at least three to four thousand kilograms, their bodies are not that strong.

To be precise, it is the strength of the internal organs in their bodies.

Therefore, in just a moment, the students around showed a trace of ugly expression.

Those who were slightly weaker directly knelt on the ground, clutching their chests and gasping for breath.

"This is Planet Turner! A planet that has only been discovered in recent years. There are countless star beasts on this planet. The most powerful of these star beasts even reached the level of Grandmaster!"

At this moment, Zheng Hong slowly walked over from the direction of the control room with a hundred Practitioners.

And his words instantly changed the expressions of the students around him!

"Grandmaster's star beast? Then we are dead?"

"Yeah, that's not 65%, it's a 100% death rate!"

"Damn it, who can complete this kind of assessment?"

.....

.....

A sound of complaints echoed in this space.

But Zheng Hong was still smiling and didn't answer!

"This is a custom-made watch made of earth-grade materials. That is to say, it won't rot after you die. Now it's in your hands."

Suddenly Zheng Hong took out a watch and said to nearly ten thousand students with a smile.

"This watch has only a few functions. One is to record every star beast you kill. You can get points for killing any star beast!"

"A first-order, one-star star beast records one point,

Two points for two stars,

Samsung's quarter,

Eight out of four stars! And so on!

Ten stars is 512 points!

But there are also Tier 2 Star Beasts, remember that.

Tier 2 Star Beast, one star is 10,000 points,

Two stars and 20,000 points,

Samsung, 50,000 points,

Four stars and one hundred thousand points!

No matter how advanced, you don't have to think about it! "

When Zheng Hong said this, he couldn't help but glanced at Zhao Ling.

In fact, the second-order star beasts behind were added after him.

In his opinion, not to mention others, even the number one Lu Wei does not have the strength to kill a second-order star beast!

"By the way, there is one more important thing..."

Chapter Thirty-Nine: If You Die, It's Over! (Four More)

"By the way, there is one more important thing!"

Suddenly, Zheng Hong gave a meal!

And the students below suddenly held their breath!

"There is a distress button on this watch, if you think you are going to die, you'd better press the button as soon as possible, otherwise you will all be dead when we arrive!"

At the same time, the points recorded on this watch can be snatched.

As long as you snatch the other party's watch, half of the other party's points will be transferred to your watch. "

When Zheng Hong said this, a playful smile appeared on the corner of his mouth.

The students below are all smart people, and when they think that they not only have to guard against star beasts, but also humans, they feel tired for a while.

However, although this assessment is cruel, it does conform to the laws of this era.

The weak are used to hone the strong.

"Om!!!!!!!"

Suddenly, with a loud noise, the spacecraft that was descending rapidly stopped slowly in the sky thousands of meters above a huge grassland!

At the next moment, the floor under each candidate's feet slowly flew up.

It turned out that this piece of floor was actually a small suspended pedal.

"These pedals will send you to a random place on this planet!

At the same time, a map of the planet will appear on your watch, as well as the locations of the star beasts and other students that can be monitored by the satellite! "

Zheng Hong explained again!

Zhao Ling clicked on the map when he heard this, and sure enough, there were countless star beasts active below him within thousands of kilometers.

These star beasts are recorded with white light spots one by one.

But there are very few yellow spots in it!

Zhao Ling knew that these yellow dots represented the second-order star beasts!

The students around him are small green dots of light!

Cheng Zheng and Lu Wei, who were not far from Zhao Ling, had slightly ugly faces.

Because in this way, they will not be able to know the exact location of Zhao Ling.

Even if they want to find Zhao Ling, they can't do it!

"Okay, I've said all that needs to be said, you can do it for yourself! Three days later, I will come here to wait for you again. I hope you don't really die like I said!"

After Zheng Hong finished speaking, the huge hatch of the spaceship opened instantly!

The next moment, the suspension pedals carried the students one by one towards the outside of the hatch.

At the same time, in order to save time, the spaceship also flew in the sky at high speed.

These students flew towards the ground like beans dropped by a planter.

Soon Zhao Ling's pedal was also activated.

But before Zhao Ling took off, he condensed the two soul blades with his mind, and at the same time quietly added them to Cheng Zheng and Lu Wei!

At the next moment, Zhao Ling's suspension pedal carried him out towards the hatch!

After flying out of the hatch, the hoverboard was flying over the huge planet.

Zhao Ling was quickly taken to the sky above a forest!

But now Zhao Ling has no time to waste on this assessment!

Zhao Ling The next moment jumped off the pedal directly, and then two Flying Daggers appeared under his feet in an instant.

The next moment Zhao Ling shot towards the distance like an arrow leaving the string in an instant.

You know, the speed of controlling Flying Daggers with mind power is nearly ten times faster than your own running speed!

After all, if you run, you will be affected by your own body!

But Flying Daggers is different, he only needs to overcome the resistance of the wind.

Therefore, Zhao Ling's speed has reached an incomparably terrifying level!

It flew a few kilometers away in just an instant!

And his telekinetic power perfectly cut off the surrounding air.

"After the soul blade is too far away from me, I can only persist in the outside world for more than an hour. If I don't kill them within an hour, I can only try my luck!"

Zhao Ling felt the breath of the two strands flying in different directions, and immediately exploded with all his strength to speed up!

And the other side!

"Damn it, this idiot Zheng Hong! He actually came up with such an idiot assessment method, which not only prevents me from killing Zhao Ling, but also my own life."

A figure stood on the suspension pedal aggrieved!

This person is Cheng Zheng.

The death rate in this assessment is as high as 65%. Do you think he is afraid?

Of course I'm afraid, but what's the use of being afraid?

Grandpa Own can't wait to be admitted to the elite training camp.

You must know that although own Talent is good, it is definitely not the top batch.

If I didn't pass the exam, I'm afraid I will miss the Great Master in this life.

And Grandpa Own will never take himself seriously again!

Even himself The next moment will be forced to marry a wife and have children, hoping that his son will be better than himself.

That's how Cheng Zheng's daddy was abandoned.

"Brother, if you're so scared, won't it be all over if you die?"

Chapter Forty: Kill Cheng Zheng! ! (Fifth Watch!)

However, at this moment, a joking voice came from the sky.

Cheng Zheng frowned when he heard this voice.

I'm in a bad mood, yet there are fools who dare to provoke me.

The next moment he raised his head instantly.

However, the scene that catches his eyes made his face change drastically in an instant!

I saw Zhao Ling's voice floating in the sky out of thin air, and the two Flying Daggers exuding fiery red aura on the soles of his feet were so obvious!

"Psychoteacher, it's impossible, how could you be a Psychiatrist!!"

Cheng Zheng stared at the two Flying Daggers under Zhao Ling's feet in disbelief.

However, it was not Zhao Ling's words that responded to him.

"boom!!!!!"

In the next moment, with a huge roar, Cheng Zheng's body felt as if he had been hit hard by a huge hammer!

"puff!!!!!"

With a mouthful of blood spurting out of his mouth, his body twisted and fell towards the ground.

Originally, he was at an altitude of several thousand meters, plus Zhao Ling's mind-power sledgehammer.

The speed at which he fell to the ground was three points faster than the falling speed of a meteor!

The next moment, with a huge roar from the ground, Cheng Zheng's body instantly knocked the ground out of a huge hole!

The size of this pothole has reached a depth of ten floors, and the scope of its spread directly smashed the surrounding ground for several kilometers into a crater!

However, Cheng Zheng's body was wiped out in an instant.

Only one smartwatch remains.

But at this moment, Zhao Ling felt a strong sense of crisis!

"No, there's something scary around here!"

Zhao Ling shrank slightly.

In the next moment, Zhao Ling stepped on the Flying Daggers and disappeared in place!

After more than ten seconds, a huge spaceship appeared here in a hurry!

Soon, Zheng Hong stepped on the suspension pedal and flew out of the spaceship, accompanied by some people in white coats!

"This impact!!"

Seeing this impact, not to mention anyone else, even Zheng Hongdu had a flash of surprise in his eyes.

This impact can only be achieved with at least a force of at least a hundred tons.

And such a terrifying impact, not many star beasts on this planet can do it.

The surrounding staff quickly took the instruments to check the surrounding environment quickly!

"Master Law Enforcer, there is a result!!"

After more than ten minutes, the leading staff finally came to Zheng Hong's side!

"Say!!" Zheng Hong frowned!

"There are no traces of star beasts above the second level on the earth, so we put the detection target in the sky, and then we mobilized the satellites and found this."

The leading staff member said, and handed the instrument in his hand to Zheng Hong.

They saw that under the monitoring of the satellite, they discovered the appearance of a huge figure flying past this place a few minutes ago!

"This is Shadowfire Dragon King!"

Seeing this huge figure, Zheng Hong frowned instantly.

This is one of the few third-order star beasts on this planet. At the same time, the Shadow Fire Dragon King has the blood of the Shadow Soaring Dragon and the Flame Dragon King.

His ability to hide is that Yan Martian's technology is difficult to monitor in real time.

"That's right, we also found some remnants of fire elements near here! It can be confirmed that Cheng Zheng was killed by the shadow fire Dragon King passing by!"

Zheng Hong frowned at the words of the leading staff.

He is a strong man of the Great Master Third Stage, although he is not afraid of Cheng Yueshan of the Great Master Fourth Stage, but the other party's grandson died on the own assessment, so it is inevitable that the other party will be long-winded!

"Damn, I annoy these old boys the most. If they fight, daddy will beat him to death, but these dogs will only go and cry to the chief of law enforcement!"

Zheng Hong felt annoyed when he thought that he accidentally killed the grandson of an enforcer last time.

But the other party is dead, no matter how he died, he has no interest in paying attention to it.

As for why they didn't find any records about his death from Cheng Zheng's smart watches, it's because these smart watches will only automatically record when Cheng Zheng turns them on!

However, Cheng Zheng's death was only a momentary event.

The reason why Zhao Ling's figure was not found by the satellite is because Zhao Ling used telekinesis to wrap himself.

Of course, these were all Zhao Ling did unintentionally. In his opinion, he had already had a deadly enmity with the Cheng family, and he was not guilty even if he was found out!

But what Zhao Ling didn't expect was that after killing Cheng Zheng, he would be targeted by a terrifying existence.

In the endless sky, Zhao Ling's figure is flying rapidly in the sky.

However, behind him is a huge black-red dragon with a terrifying figure chasing him!

The aura exuded by the giant dragon was dozens of times stronger than that of Zhao Ling.

If it wasn't for the fact that he was using telekinetic power, his speed was more than ten times faster than his running speed, and he would have been overtaken long ago!

"I should have alarmed it when I was just on my way. Damn it, this idiot Cheng Zheng, died and brought me such a trouble!"

Chapter 41: Shadowfire Dragon King! Yanlong Marksmanship (Earth-Level Intermediate) (Sixth Update)

Feel the mighty aura of the Shadow Fire Dragon King behind him.

Zhao Ling knew that if he was caught up by his opponent, he might die!

"No, you can't sit and wait like this!!"

Zhao Ling's eyes flashed, The next moment, eight Flying Daggers exuding fiery red breath flew out of Zhao Ling's hands in an instant.

At the same time, with Zhao Ling's thought, a fiery red spear appeared in his hand, The next moment he directly shot the spear out!

Not only that, but his mental power slammed towards the tail of the spear!

The long spear immediately shot towards the shadow fire Dragon King like a red ray of light.

"Roar!!!!!!"

A roar erupted from Shadowfire Dragon King's mouth!

The next moment his huge wings swung

A violent wind swept towards Zhao Ling's several Flying Daggers in an instant.

A terrifying storm blows the eight-handled Flying Daggers to pieces in no time!

However, these storms had no effect on Zhao Ling's spear.

The fiery red long spear rushed towards the shadow fire Dragon King instantly like a streamer.

"Roar!!!!!!"

There was another roar, The next moment, a huge fireball burst out from the mouth of Shadowfire Dragon King.

The huge fireball hit Zhao Ling's spear in an instant.

Seeing this, Shadow Fire Dragon King spat out a mouthful of hot air from his nose in disdain.

However, in the next moment, a long spear shining red light pierced the fireball in an instant, and pierced the fire dragon's eyes with lightning speed!

In the next instant, a stream of blood was sprinkled into the sky!

"Roar!!!!!"

A shrill scream came, causing the star beasts tens of kilometers around to tremble in fright.

"Roar!!!!"

At the next moment, Dragon King, the Shadow Fire Dragon King with a long spear stuck in his eyes, roared furiously, bursts of dark power erupted from his body.

Zhao Ling knew that the Shadowfire Dragon King was furious!

Just when Zhao Ling was about to run away, he saw the shadow fire Dragon King dropping thousands of attribute values one by one, and at the same time a shiny treasure chest also fell from him.

This chest is no longer black but a cyan chest exuding Spirit Power!

"Could it be an earth-level treasure chest?"

Zhao Ling's eyes flashed suddenly, and he glanced at the shadow fire Dragon King who rushed towards him suddenly, Zhao Ling's heart skipped a beat.

The idea suddenly moved.

His body moved sideways the moment he was about to be caught by Shadow Fire Dragon King.

In an instant, Zhao Ling's body dodged a blow from the Shadow Fire Dragon King.

However, Zhao Ling's body was not feeling well if he forcibly dodged such a blow with his mental power!

A trace of blood flowed from his mouth.

But Zhao Ling didn't care much.

In the next moment, Zhao Ling's body flew towards that treasure box, and with a thought, he took it into the own storage bar in an instant!

"Ding... The host picked up the attribute: 5000 points of strength, increase the value of strength: 5000"

"Ding... The host picked up the attribute: 500 points of soul, increase the soul value: 500"

"Ding... The host picked up the attribute: speed 250 points, increase speed value: 250"

"Ding... Congratulations to the host for picking up the earth-level treasure chest*1"

Following a few beeps from the system, Zhao Ling's speed suddenly increased, and he fled towards the distance in an instant!

"System! Open all treasure chests!"

The next moment, with Zhao Ling's thought, all the hundreds of treasure chests in his storage bar were opened instantly.

"Ding... Congratulations to the host for opening the mortal-level treasure chest*350, the spiritual-level treasure chest*25, and the earth-level treasure chest*1, and obtained the following items:

Ordinary Weapon*55, Ordinary Cultivation Technique*10, Ordinary Medicine Pill*4,

Spiritual Weapon*3, Spiritual Cultivation Technique*2, Spiritual Medicine Pill*5

Earth-level Cultivation Technique: Yanlong Gunjue (earth-level intermediate level, the combat power of marksmanship can be increased by ten times when it is cultivated to great success! Every 10% increase in proficiency needs to consume 5000 experience points!)

Experience: 155000

Attributes: speed value: 1200, strength value: 25000, vitality: 25500, soul: 2570"

Zhao Ling saw that his own low-level treasure chest unexpectedly opened a low-level Cultivation Technique. Although it is not top-notch, it is definitely much better than his previous marksmanship.

"System, help me learn Yanlong Gunjue, and at the same time help me improve my mind skills and marksmanship skills by one level!"

Zhao Ling said to the system coldly, in just an instant, he spent 150,000 of the 155,000 experience points he got!

The remaining 5,000 plus the previous experience points Zhao Ling found a movement technique at the peak of the spiritual level from the two spiritual level Cultivation Techniques!

In the next moment, countless messages emerged from Zhao Ling's good words.

His whole body was instantly pulled into a void space.

In this space, he practiced the Cultivation Technique he had just obtained over and over again.

In this space, Zhao Ling seems to have passed nearly a hundred years!

Just a moment after the outside world, Zhao Ling opened his eyes!

His telekinetic force came out instantly, and the Flying Daggers that were shot away in the distance and the long spear stuck in the eyes of the black dragon were pulled out instantly.

The next moment, the spear flew back into Zhao Ling's hand!

"Clang!!!!!!"

A gunshot came from above the flame spear!

Zhao Ling's energy can be broken through immediately when he has accumulated more than 80, and his skill power has also reached an eight-fold increase.

In addition, Yanlong's marksmanship is ten times stronger.

Zhao Ling's use of the Flame Dragon marksmanship can explode with eighty times the destructive power.

That is 3.6 million kg of destructive power.

Although the True Qi of the Grandmaster powerhouse has been successfully upgraded to Gang Qi after ten turns of True Qi.

That is to say, it can increase the fighting power by ten times, even the weakest Grandmaster can burst out the fighting power of a million kilograms.

But Zhao Ling's destructive power of 3.6 million kg can already rival the average Grandmaster!

"Roar!!!!"

There was another roar of Shadow Fire Dragon King, Zhao Ling turned his head in the air, and then shook the blood on the gun with a shake of his hand.

"Little Dragon! Interested in a fight!?"

Zhao Ling made a slight move, then stretched out his right hand, and ticked the Shadowfire Dragon King in front of him!

At this moment, Shadow Fire Dragon King's lungs were about to explode!

Where has the king of his area been insulted like this!

Not only was his eyes blown by a kid who was so much weaker than himself, but he was also ridiculed by the other party

"Roar!!!!"

Shadowfire Dragon King roared furiously, and The next moment's terrifying figure with a height of more than 30 meters rushed towards Zhao Ling in an instant.

Zhao Ling's thoughts instantly acted on the two Flying Daggers under his feet, and in the next moment, Zhao Ling's figure rushed towards the shadow fire Dragon King like an arrow leaving the string.

One person and one dragon collided instantly.

The terrifying force that erupted from Zhao Ling's long spear knocked Shadowfire Dragon King's head into a daze.

Shadowfire Dragon King's huge wings swept towards Zhao Ling in an instant.

A force of more than five million kilograms shattered towards Zhao Ling.

At the same time, the endless terrifying power enveloped Zhao Ling in it in an instant.

"Flame dragon marksmanship!!!!"

Above Zhao Ling's eyes, he snarled, and the terrifying power in his right hand exploded instantly.

At the same time, the eight fiery red Flying Daggers hit the Shadowfire Dragon King's body like meteors like raindrops.

Shadowfire Dragon King roared furiously.

But the strength of the two wings did not decrease but increased, and the terrifying strength directly reached more than six million kilograms.

However, this is still because the Shadow Fire Dragon King is just an ordinary Tier 3, 1 star star beast!

And the power of the star beasts is much higher than that of the human race, so only a small number of geniuses can compete with the star beasts of the same Realm!

In the next instant, Zhao Ling's long spear collided with the wings of Shadowfire Dragon King.

"boom!!!!!!"

With an earth-shattering bang, Shadow Fire Dragon King's figure was instantly thrown upside down for hundreds of meters.

And Zhao Ling flew backwards quickly.

mouthfuls of scarlet blood spurted out of his mouth!

But at this moment, Zhao Ling smiled disdainfully!

The shadow fire Dragon King on the opposite side flapped its wings violently, and managed to fix own's figure with difficulty.

"Roar!!!!!"

Shadowfire Dragon King roared furiously, because his head was smashed to pieces by Zhao Ling.

However, when he squinted his remaining left eye angrily and looked towards Zhao Ling, a stream of fiery red light rushed into his eyes in an instant!

"Puff puff puff puff....."

In the next instant, a series of loud noises echoed in the surrounding sky.

The only remaining eye of the Shadow Fire Dragon King was instantly pierced by the eight Flying Daggers who had already seen the opportunity.

Zhao Ling also wants to use Flying Daggers to cool Shadowfire Dragon King's body.

However, after entering the body of Shadowfire Dragon King, the eight Flying Daggers were instantly melted by Shadowfire Dragon King's magma-like blood!

"Roar!!!!!"

There was a shrill scream.

Zhao Ling in the distance rubbed his shattered right hand bone, switching the Lieyang Spear to his left hand was like giving Shadowfire Dragon King the final blow.

However, at this moment, a spaceship flew over from afar.

Zhao Ling frowned when he saw it!

"Hmph, save your dog's life!!"

Chapter Forty-Three: Shadow Fire Dragon King

Zhao Ling glanced at Own Cha.

It was the shadow fire Dragon King who was almost belched by himself.

Then set up the Flying Daggers and rushed into the underground forest in an instant!

There is also a reason why he doesn't want others to know his own strength.

After all, the current Zhao Ling has a grudge against the Cheng family.

If the other party finds out about own strength, the other party may jump over the wall and use Xiaoxue to make a fuss!

"After all, pretending to be a pig and eating a tiger is the protagonist's forte!"

Zhao Ling's figure quickly shuttled among the big trees.

But at the same time, the spaceship of the Martial Dao Alliance has also flown over the furious Shadowfire Dragon King!

And hundreds of staff members in the control room were horrified when they saw the Shadowfire Dragon King screaming in the sky!

Shadowfire Dragon King, this is one of the several overlords on this planet.

Although the strength is only Tier 3 and 1 star, even the powerhouses of the Great Master Second Stage are no match for him.

However, in such a short period of time, Shadowfire Dragon King suffered such a heavy blow!

"Wait, the Shadowfire Dragon King killed Cheng Zheng just now, could it be because he was attacked?"

Suddenly, a staff member's eyes lit up and his brain opened up.

"Hey, it's possible that the direction he just flew over is the territory of the Violent Ape King.

Could it be that the Shadow Fire Dragon King ran out of his mind to provoke the violent ape king, and was finally beaten up and fled in such a mess! ? "

Another staff member said so.

"That's right, I heard that this shadow fire Dragon King is very cheap, and he often provokes other star beast kings, and what he likes most is to tease the violent ape king who is much stronger than him but can't fly!"

A strong man looked at Shadow Fire Dragon King's blinded eyes and calmly analyzed it.

Don't say it! This explanation really looks like that.

As for doubting people's heads, they are not that stupid.

On this planet, they are the only people who are burning Martians. The only person who has the strength to beat Shadow Fire Dragon King like this is Zheng Hong.

And Zheng Hong is still in command of the game, how can he be in the mood to pay attention to this Shadow Fire Dragon King who likes to idle around and stir up trouble everywhere.

"Don't guess, it's just a fight between star beasts, guess what he's doing!"

Suddenly, Zheng Hong spoke, but although he said stop guessing, he had already approved their guess in his heart!

"Since he killed the grandson of Cheng Yueshan's law enforcement officer, he can't be kept! Activate the third-order star cannon! Aim at the Shadowfire Dragon King and shoot him down!"

When Zheng Hong said this, the surrounding spaceship operators all glanced at the blinded and blinded Shadowfire Dragon King on the screen!

And a huge opening was slowly opened in a corner above the spaceship.

At the next moment, a huge turret protruded from the spaceship.

Immediately afterwards, the surrounding elements of heaven and earth quickly condensed towards the mouth of the fort!

"The third-order star cannon has been aimed, and it will be launched in three seconds!"

"three....."

"two....."

"one....."

As the commander's voice fell, Zheng Hong also pressed the scarlet button!

"boom!!!!!"

With a dull bang, a shining beam of light shot out from the muzzle in an instant.

The flame-breathing shadow flames flying in the sky, the Dragon King suddenly felt a strong death crisis.

"Roar!!!!"

Shadowfire Dragon King roared, raised his huge head to the sky, and a purple-red fireball instantly condensed.

However, it was too late.

Before the fireball spewed out, the beam of light from the starry sky cannon had already crashed into his mouth.

The fireball exploded instantly and engulfed Shadowfire Dragon King's entire dragon.

The powerful beam of light carried the huge body of the Shadow Fire Dragon King and smashed it towards the ground.

The terrifying speed is like a huge meteorite falling!

"Boom!!!"

With a terrifying bang, a huge mushroom cloud several kilometers high rose into the sky.

A huge crater carried a strong shock wave and spread in all directions.

The countless surrounding trees instantly turned into flying fragments.

The shock wave directly stretches for dozens of kilometers.

Zhao Ling, who had already hid dozens of kilometers away, was shocked to see the huge mushroom cloud in the distance.

To be honest, this was the first time he had seen the power of technology in this world!

"This power is definitely not much weaker than a nuclear bomb! But it is actually used to deal with the other Grandmaster fire dragons. It seems that the other powerhouses of the Grandmaster are definitely at the same level as nuclear weapons!"

While Zhao Ling was shocked, he secretly paid more attention to technology.

"Sure enough, Martial Dao is not the only thing in this world, technology is the force behind the rapid development of civilization!"

Chapter 44: Shadowfire Dragon King Falls! ! (Three More!)

The huge explosion subsided slowly.

In the distance, a huge deep pit reaching more than ten kilometers appeared in everyone's eyes.

"By the way, did you just check to see if there are any students around for assessment?"

Suddenly, Zheng Hong touched his head and asked wordlessly!

This time, not to mention the spaceship commander on the side, all the control personnel were stunned!

Everyone, look at me and I look at you!

"Hurry up and check to see that the signs of life of those people have disappeared!"

The commander quickly glanced at the controller below.

At this moment, everyone was stunned and quickly checked.

The final result is that there are more than 10,000 people. After arriving on this planet for nearly ten minutes, more than 300 people have died.

And one hundred people died in the explosion just now.

Because there are a hundred watches that show no signs of life are coming from this range.

Seeing this result, Zheng Hong was slightly speechless.

These students are so unlucky that they can buy lottery tickets.

Although it was his own reason, Zheng Hong would admit it!

Then he looked seriously at the commander beside him.

The commander, who was a little scared at first, suddenly felt strong malice, turned his head and saw Zheng Hong's eyes.

"You know!!"

Zheng Hong spoke immediately, and his words made the commander's face turn livid.

"I understand? I understand a chicken, I understand!!"

But he didn't dare to say the words of courting death.

In the end he just nodded helplessly.

He didn't know what Zheng Hong meant, but he wanted to let himself take the blame!

"Okay, the bones of the Shadowfire Dragon King should not all disappear. The collection team went down to find them. Everyone else gave me a good look at the distress signal. If there is a distress call, go there as soon as possible!"

Zheng Hong pretended to speak to the surrounding controllers.

And these people, although on the surface, did what he said in an orderly manner.

But they still remember what Zheng Hong said when he first came to this planet and asked them to save people, slow down and scare these recruits more!

Now that Cheng Zheng had died, and he had directly killed more than a hundred students, he knew it was urgent.

.....

.....

On the other side, Zhao Ling flew directly towards the distance after he glanced at the Shadowfire Dragon King who was bombarded by Tongtian's beam of light in the distance.

"It's been more than ten minutes, I hope Lu Wei hasn't been sent too far!"

Thinking of this, Zhao Ling felt the own soul blade, but found that the faint breath of the soul blade actually came from the lower corner of own.

In other words, Lu Wei was nearly a quarter of a planet away from him.

"Damn it, doesn't that mean that Goubi is hundreds of thousands of miles away from me?"

You must know that this planet has a lot more than Yan Mars.

"Damn it, it seems that it is God's will to keep this dogbi!"

Zhao Ling thought silently, after all, the own mark is only an hour long.

Tens of miles, no matter how fast the own speed is, it will take a few days.

And moving forward at full speed is very exhausting.

Thinking of this, Zhao Ling had no choice but to open the map and mark all the people who suspected to be Lu Wei.

But there are at least a few hundred people in that direction.

Then Zhao Ling flew directly towards the place where he originally landed.

Finally, he walked over to the nearest white light spot marked on the map.

With a touch of Zhao Ling's foot, he flew over the big tree, and then with a touch of his foot, Zhao Ling's figure rushed forward again for a while.

As time went by, Zhao Ling's speed quickly saw the first star beast.

This star beast has only a first-order three-star beast!

With a thought of Zhao Ling, a Flying Daggers condensed from the ice ability instantly appeared on Zhao Ling's palm.

At that time, this Flying Daggers will only be of the level of low-level spirit weapons!

After all, mind power is mind power, and ice power is ice power.

Although the basic strength of both is 4,000 points of soul power, mind power has mind power skills and mind power Cultivation Technique.

The combat power of all mind power skills is extremely terrifying, but the ice ability has only basic combat power.

"However, this combat power is enough to deal with some people with one or two True Qi realms!"

The corner of Zhao Ling's mouth raised slightly, and he didn't pay attention to it, but shot out the ice Flying Daggers in his hand instantly.

In an instant, Flying Daggers pierced through the head of the star beast in front of him.

However, Zhao Ling forgot one thing.

"Damn it, I forgot to turn on my watch!"

Zhao Ling couldn't help but curse secretly.

Killing a star beast for nothing.

In fact, there is a reason why students are asked to choose whether to open the watch or not.

After all, in this world where martial arts are respected, there are many people with hatred, and no one wants to expose their own cards to the public.

So if they don't want to expose their own, they can directly choose not to expose their own strength!

"Fine, since that's the case, I'll use Body Tempering peak strength.

The next moment Zhao Ling directly suppressed own strength at the peak of Body Tempering.

That is a force of 100,000 kilograms.

The next moment Zhao Ling disappeared into the forest.

Chapter 45: Bloodline Level! !

In the dense forest, a boy with a silver spear in his hand was fighting with a giant ape that exuded a trace of True Qi!

This giant ape is at least True Qi Realm Third Stage in terms of momentum!

That is, a genuine second-order three-star star beast!

The giant ape with a height of four or five meters was smashed to the ground by a slap for several meters.

But at this moment, he was so angry that Zhao Ling's swift action hammered Own's chest!

You must know that the speed of creatures like giant apes is the biggest weakness.

And they only hammer their chests when they are angry, which is why Shadowfire Dragon King likes to tease violent giant apes!

"Storm marksmanship!!!"

Suddenly, Zhao Ling's figure turned into an afterimage and came behind the great ape.

The next moment, his right hand thrust out suddenly.

The silver spear in his hand pierced through the giant ape's head instantly.

"Didi... student Zhao Ling killed a second-level three-star vigorous ape! It has been certified and meets the standard! Congratulations student Zhao Ling's points increase of 50,000 points!"

"Didi...Congratulations to student Zhao Ling who has reached 1.2 million points!"

Following the death of the great ape, Zhao Ling's watch also sounded a reminder.

It has been ten hours since Zhao Ling came to this planet.

During these ten hours, Zhao Ling has been killing star beasts around.

The points reached a terrifying one million.

Zhao Ling also collected a large number of attribute values during this period.

These attribute values reached tens of thousands of points!

And just after Zhao Ling killed the Vigorous Ape, some attribute values exploded around him!

"Ding... The host picked up the attribute: 750 points of blood, and increased the value of blood: 750"

"Ding... The host picked up the attribute: strength 800 points, increase strength value: 800"

"Ding... The host picked up the attribute: 88 points of soul, and increased soul value: 88"

"Ding... The host picked up the attribute: speed 45 points, increase speed value: 45"

"Ding... Congratulations to the host for picking up the spiritual treasure chest*1"

After a series of beeps, Zhao Ling has another treasure chest in his hand, but this is really not the most important thing.

The most important thing is that Zhao Ling's energy value is finally full at this moment! !

"Ding... Congratulations to the host's energy value reaching 100%, please find a quiet place as soon as possible, and start strengthening the bloodline to break through the physical limit!"

With a sound from the system, Zhao Ling's eyes lit up!

"Finally the collection is full!!"

Zhao Ling's eyes flashed, and to be honest, if he hadn't realized that True Qi was too troublesome, he wouldn't want to spend his time here!

However, what the system just said about strengthening the blood makes Zhao Ling a little confused!

What strengthens the blood?

"System, can you explain what it means to strengthen the blood?"

Although Zhao Ling understands the literal meaning, the specific situation can only be guessed by own at that time!

"Ding... Yes, in this universe, the blood of all life has a level, such as the Talent of the human race, which is the lowest level of one-star blood!

And the limit strength of one-star blood in the Body Tempering realm is only 10,000kg! Even if this limit is broken, the strength can only be increased to 100,000 kg at most.

This is the limit value of a one-star bloodline. Of course, no one in the human race has reached this level since ancient times.

This level of blood is possessed by the vast majority of intelligent life forms.

However, with a two-star bloodline, the ultimate strength of the Body Tempering realm has reached 20,000kg! Breaking the limit can reach up to 200,000 kg!

And so on! !

Until the most advanced ten-star bloodline.

The physical limit of the Body Tempering realm is just one of them. The higher the bloodline level, the faster it will be in terms of cultivation.

One-star bloodline owners are generally just ordinary people if they don't cultivate when they are adults.

However, five-star bloodlines are at least strong enough to reach Grandmaster when they grow up!

Needless to say, a higher bloodline level!

And when the bloodline level reaches five stars or above, the bloodline Talent will be awakened!

As for what a Talent is, it depends on the individual's situation. "

The system's slow explanation gave Zhao Ling a general understanding of the benefits of blood!

Only a five-star bloodline can possess the strength of a Grandmaster just after reaching adulthood, so what if a strong man with a ten-star bloodline cannot possess the power to destroy the human race after reaching adulthood?

Thinking of this, Zhao Ling felt excited, raising his bloodline level.

I finally know why the system has to store so much energy!

Thinking of this, Zhao Ling's telekinetic power expanded directly, covering a range of four kilometers around.

Every inch of land within this range was carefully checked by him.

soon! He found a hidden cave!

And in the cave is a huge bear sleeping!

"A bear at the peak of the second order? Then I'll take you!"

Chapter 46: Sufficient Energy, Breakthrough Begins! ! (Five More)

Thinking of this, Zhao Ling turned off his own watch, and then he stepped down a little, and his figure shot towards the distance in an instant.

Soon, Zhao Ling came to the entrance of the cave!

I saw bursts of powerful aura coming from a hole covered by bushes.

You must know that a peak second-order star beast is definitely a dominant existence on this planet.

Not to mention ordinary star beasts, even several third-tier star beasts will not provoke second-tier peak star beasts at will!

After all, if this forced a breakthrough in the future, it would bring troubles to myself.

With a thought, Zhao Ling's long spear snatched from another student disappeared in an instant.

After all, Zhao Ling didn't bring any weapons when he came here, so he just fought with his fists at first, and then he met a student who used a gun, beat him up, and snatched the opponent's mortal-level spear .

At the next moment, a fiery red Flying Daggers shot towards the entrance of the cave in an instant.

"Roar!!!!!"

After a mournful roar, the majestic life breath of the giant bear inside slowly dissipated.

The next moment, the fiery red Flying Daggers flew back quickly again and returned to Zhao Ling's right hand.

Now Zhao Ling's set of Flying Daggers has only the last two left. If you lose it again, you can only see if you are lucky and can get a new set!

Zhao Ling put away the Flying Daggers, and then strode into the cave.

Soon, I saw a giant bear lying on the ground with a blood hole between its eyebrows!

Of course, with good luck, the giant bear that was killed dropped a spiritual treasure chest.

A giant bear at the peak of the second rank is vulnerable to a single blow in Zhao Ling's hands. If people from the outside know about this, they will definitely be horrified.

"This bear is quite good at finding places. Such a dry place is indeed a good place to rest."

Zhao Ling nodded slightly, and then turned his mind into a big hammer, and slammed it down towards the mountain wall at the entrance of the cave.

"boom!!!!!"

With a loud noise, the wall above the entrance of the cave was instantly shattered, and the shattered gravel directly blocked the entrance of the cave.

The surroundings instantly became extremely dark.

But for Zhao Ling, who has spiritual power, whether he is black or not doesn't make much difference!

Zhao Ling immediately found a better place to sit down.

"System, let's start!!"

Zhao Ling's eyes flashed, and he said to the system.

"Ding... the physical limit is about to be broken through, and the blood level of the host is about to be upgraded! Please prepare the host!"

"Ding... the system starts to load energy! Load 1%"

"Loading: 2%"

"Loading: 3%"

.....

.....

Time flies by while loading.

"Loading: 99%"

"Loading: 100%"

Finally, the energy bar was finally fully charged.

"Ding...began to breakthrough the physical limit!!"

"boom!!!!!"

As a huge roar sounded from Zhao Ling's mind, Zhao Ling instantly felt endless energy erupting from Own's body.

A wave of milky white energy quickly rampaged through Zhao Ling's body!

Every time he passed through several acupuncture points, Zhao Ling's body seemed to be washed away!

At the same time, traces of black blood spewed out from Zhao Ling's body!

These bloods are the septic blood accumulated in Zhao Ling's body when he practiced.

Simultaneously over time.

Zhao Ling clearly felt own body as if a shackle was really opened!

Time passed by one minute and one second! Until ten minutes later +!

"Om!!!!!!!"

Zhao Ling suddenly felt that Own's body instantly became extremely relaxed!

The blood in the body that had been quiet after reaching the limit seemed to be alive instantly.

"Ding... Congratulations to the host for completing the limit breakthrough! The body can be cultivated to 80,000kg before the third limit comes!

Energy Consumption: 10%"

Zhao Ling was taken aback by the beep of the system, only 10% of the energy was consumed? What does it mean?

"Ding... the upgrade of the bloodline level is about to start, please prepare the host!"

However, the sound of the system immediately let Zhao Ling know the reason.

"It turns out that the bloodline hasn't started to improve yet! No wonder!!"

Zhao Ling's eyes flashed, and he was ready to be transformed again.

However, at the next moment, a majestic energy instantly poured into Zhao Ling's blood.

At the same time, it quickly spread from the blood to every part of Zhao Ling's body!

The next moment A feeling of drowsiness instantly passed into Zhao Ling's mind.

Zhao Ling soon lost consciousness and passed out.

Chapter 47: Star Beast Riot! ! (Six More)

But in his deep sleep, the berserk energy is rapidly transforming every cell of him!

At the same time, traces of black Impurities were also discharged from his body.

Two days passed quickly!

In the outside world, big things happened.

Just two days ago, after Zheng Hong killed the Shadowfire Dragon King with technological weapons, the other eight star beast powerhouses felt a strong threat.

Their IQs are not low, but they don't know why the human race wants to attack the shadow fire Dragon King.

Although Shadowfire Dragon King is relatively cheap, but most of them kill the youngsters of the tribe, and they haven't killed 20 in recent years.

Therefore, the Eight Powerhouses feel that humans are definitely here to find fault.

It took them a rare two days to come to the lair of the violent giant ape to discuss it.

In the end, they reached a consensus that since the human race made the first move, they had to fight back. After all, the human race is an alien species.

Just two days and fifteen hours after the start of the assessment, the star beast uprising broke out.

Under the leadership of the eight great beast kings, the endless star beasts began to quickly sweep away the human race on the entire planet.

"Have you not found it yet?"

Zheng Hong, who was in the spaceship in the sky, looked towards the screen with an ugly expression.

The originally peaceful Star Beast actually rioted, killing seven or eight thousand of the 10,000 students assessed on this planet in just a few hours.

If he hadn't ordered the early end of the assessment in time, two or three thousand students would have died.

But even so, more than a thousand students were injured to varying degrees.

And there are more than 500 students who still have signs of life and more than this week.

But these students have turned off their watches, so they have no way to find them.

"Report, we have asked Yan Martian Headquarters to send the code to forcefully activate the wristwatches of the remaining students, but the other party said that the code must be approved by the law enforcement officer before sending it, and now the law enforcement officer seems to be unable to contact him!"

The commander's anxious words made Zheng Hong's face darken! !

"This unreliable law enforcement officer can't be contacted at critical times!"

Zheng Hong complained feebly.

"Turn on all the external voices!!!"

Suddenly, Zheng Hong shouted sharply.

The commander's eyes lit up when he heard this, and he quickly turned on all the external speakers of the spaceship!

Zheng Hong took the microphone directly.

"Listen, all students, the assessment is over early, and everyone who hears it should turn on the smart watch for me, or you will bear the consequences!"

As he uttered the cold words, the loudspeakers of the entire spacecraft instantly spread the huge sound to a range of thousands of miles.

And the spreading speed of this sound is extremely fast!

The spaceship was moving forward rapidly in the sky of the planet, and the students who heard the sound immediately knew that something big had happened.

Quickly turned on the own watch.

"There are four hundred more!!"

"There are three hundred more!!"

"One hundred more!!"

.....

.....

As time went by, more and more students were picked up on the spacecraft.

"boom!!!!!"

Suddenly, a terrifying bang came from above the spaceship.

The huge spaceship shook suddenly!

"Alarm, alert, star beasts are attacking the hull!"

An alarm sound followed.

Zheng Hong's face turned dark when he heard this.

"Which bastard dares to attack the spaceship, call me the screen!"

Zheng Hong cursed furiously.

The next moment, a picture appeared on the huge screen in the control room!

I saw a terrifying ape more than 50 meters tall kicking towards the ground suddenly.

The ground was crushed hundreds of meters by his terrifying force.

And his huge figure shot towards the spaceship thousands of meters high like a missile.

The people in the control room were dumbfounded by this exciting scene.

"Fuck, what are you doing standing there, looking for death! Open the protective cover!"

The commander roared angrily when he saw that his subordinates were all in a daze.

The operators who reacted hurriedly opened the shield of the spacecraft.

Soon, the spacecraft was wrapped in a pulsed electromagnetic shield.

In the next instant, the figure of the violent giant ape had already flown in front of the spaceship.

"Roar!!!!!"

After a terrifying beast roar, the violent giant ape clenched his fists, and terrifying elements of heaven and earth converged into his fists.

"boom!!!!!"

With a huge roar, the seemingly awesome protective cover instantly shattered.

"Alert alert... the protective cover has withstood a powerful blow, with a damage rate of 89%"

Chapter 48: Power Of The Earth! ! (Ask For Flowers!)

The sound of the spaceship's siren immediately shocked the people in the control room.

This is a spaceship with three series of ground steps, and the protective cover is enough to withstand the full blow of the Great Master Seventh Stage.

Even small nuclear bombs can withstand it.

But it was smashed by a violent giant ape. Such a terrifying power almost made everyone present despair!

"Raise the spaceship, daddy won't believe it, this dead monkey can't fly!"

Looking at the violent giant ape that fell rapidly after punching the spaceship, Zheng Hong snorted coldly.

At the next moment, the spacecraft immediately raised its altitude and flew towards the sky quickly.

However, a scene that made their faces ugly happened.

When the violent giant ape landed rapidly, suddenly, a huge pterosaur flew from afar.

The violent giant ape turned over in the air and sat on the pterosaur in an instant.

"Fuck! Dragon Knight!!"

A controller couldn't help but swear!

"Roar!!!!!"

The violent giant ape roared angrily, and at the same time, it hammered Own's chest several times with its huge fist.

"It's Winged Dragon King, one of the Nine Great Beast Kings! Looks like I can only attack!!"

Originally, the reason why Zheng Hong didn't attack was because he was afraid that the other big beast kings would think that the human race was here to find fault.

But looking at it now, it turns out that the star beasts have already declared war on humans!

"The third-order star cannon is ready, aiming at the violent giant ape!!"

The commander who knew a little about Zheng Hong quickly gave the order.

The next moment, the huge turret appeared on the outside of the spaceship again!

"Start charging! Ready to launch!"

Following a series of commands, the huge star cannon instantly locked onto the violent giant ape riding on the pterosaur.

"Roar!!!!!"

As if feeling a strong murderous aura, the violent giant ape suddenly raised its head to the sky and roared angrily.

The pterosaur below quickly dodged in the sky!

However, the star cannon in the sky locked on him firmly.

"Three! Two! One! Launch!"

Following the commander's order, a dazzling beam of light shot out from the muzzle in an instant.

The beam of light several meters thick shot towards the giant ape and pterosaur in the sky at an extremely fast speed.

The pterosaur seemed to feel the breath of Death, and its huge wings flapped violently.

But his speed couldn't be compared to the beam of light in the first place, and now he is supporting a giant ape weighing several hundred tons, his speed can be imagined.

"Roar!!!!!"

Just when the beam of light was about to hit the two of them, the giant ape stomped furiously.

The huge force instantly kicked the pterosaur under its feet towards the distance.

And he shot straight at the beam of light.

"Roar!!!!!"

With a roar, a khaki force of the earth erupted from the giant ape.

Zheng Hong in the spaceship frowned when he saw this picture!

"The power of the earth, he actually awakened the power of the earth that only the violent ape king would awaken!"

When Zheng Hong saw this, he immediately knew that this time he might be dead.

The power of the earth is a kind of ability, which is said to be almost invincible when standing on the ground.

The power of the earth is an ability that can only be awakened by the super king among the violent apes.

The violent ape kings with the power of the earth are at least superpowers in the Star Realm.

Above the Grandmaster realm is the Starlight Realm, and above that is the Starry Sky Realm.

The difference is not a little bit!

It is important to know that the powerhouses in the Starry Sky Realm can destroy at least one planet.

Unexpectedly, this violent giant ape on this planet has awakened the power of the earth.

"boom!!!!!!"

At The next moment, the violent giant ape collided with the star cannon in an instant.

With a terrifying bang, a dazzling light instantly swayed across the entire sky.

The body of the violent giant ape was instantly bombarded by the terrifying star cannon and smashed towards the ground.

However, Zheng Hong in the spaceship was not happy at all.

The reason was soon revealed.

I saw that the closer the violent giant ape was to the ground, the endless power of the earth surged towards him.

"Boom!!!"

In the end, the violent giant ape actually stood firmly on the ground!

The terrifying shock wave did not leave him the slightest damage.

I saw the huge palm of the violent giant ape firmly supporting the terrifying star cannon.

"Roar!!!!!!"

Suddenly, the violent giant ape roared, and the terrifying power of the earth erupted from his hands.

A khaki force emerged from his hands, converging into a wave of light and pushing towards the star cannon.

"No, he wants to resist the Star Cannon!!"

Seeing this, the commander's expression changed instantly.

The next moment The power of the earth erupted from the violent giant ape's hands gathered into a khaki beam of light and quickly flew back towards the sky against the star cannon.

And at this moment, a mountaintop more than ten kilometers away from this place!

A boy looked at the shadow of the battle in the distance and couldn't help but swear!

"Fuck! Kamepai Qigong!!!"

Fantasy I Pick Up Attributes In The Future

Chapter 49: The Power Of The Three-Star Blood!

Time back to a few minutes ago!

In that peaceful cave, Zhao Ling sat cross-legged on the ground.

And his body was covered with a layer of black dirt!

At the same time, streaks of white light circulated in his exposed skin.

It has been two days since Zhao Ling fell asleep.

"Ding... Congratulations to the host for completing the bloodline change!!"

However, at this moment, the system's notification tone suddenly reached Zhao Ling's ears!

The next moment, Zhao Ling's eyes opened instantly.

A flash of thunder and ice flashed through his eyes.

At the next moment, the clothes and dirt on his body were instantly destroyed by the terrifying lightning that emerged from his body, turned into pieces of dust and fell on the ground!

"Ding... Congratulations to the host's bloodline for upgrading to a three-star bloodline! The third physical limit of 80,000kg has been raised to 200,000kg!"

While feeling the terrifying power in his own body, Zhao Ling also sensed the endless untapped potential in his own body.

He feels that if own develops all the potential, let alone the same rank, even if it is a strong player with a higher Realm than himself, no one will be an opponent of own.

Zhao Ling stood up slowly, and moved his own body casually.

"Crackling crackling!!!"

The sound of bones exploding came from his body.

With Zhao Ling's thought, the surrounding water vapor instantly condensed into a mirror!

Every inch of the boy's skin in the mirror was extremely radiant.

At the same time, the wheat-colored skin and well-defined muscles give people a masculine atmosphere.

Zhao Ling couldn't help touching his own chin!

"I'm so handsome, I never thought I could be even more handsome after being so handsome."

Zhao Ling nodded narcissistically.

But he found that now he was facing a big problem.

That is, I have no clothes!

"Damn it, no matter how you go out like this, it's impossible to be naked!"

Zhao Ling was helpless, but there were a few armors in the own storage bar, but they didn't protect the things underneath.

"Forget it, let's open the treasure chest first, maybe there is one!"

Zhao Ling had no choice but to open all the treasure chests in the storage bar with a thought.

"Ding... Congratulations to the host for opening the mortal-level treasure chest*258, and the spiritual-level treasure chest*85! Get the following items!"

With the strengthening of Zhao Ling's opponents, the probability of appearing the treasure chest of the spirit rank becomes more and more large.

"Congratulations to the host for obtaining:

Ordinary Weapon*35, Ordinary Cultivation Technique*10, Ordinary Medicine Pill*4,

Spiritual Weapon*13, Spiritual Cultivation Technique*5, Spiritual Medicine Pill*5

Experience: 80000

Attributes: speed value: 800, strength value: 16000, vitality: 15000, soul: 1570"

As all the treasure chests were opened, a white, red, green, and blue light instantly enveloped Zhao Ling in it.

Zhao Ling could feel that his own physical strength, defense power, etc. were rapidly improving!

Soon the improvement of Zhao Ling's body stopped.

"Hey, there are really good things!!"

Zhao Ling suddenly found two good items among a bunch of newly opened items! And it's what you need right now.

"Mysterious Ice Flying Daggers Formation (Peak of the Spirit Rank): A knife formation made of mysterious ice and cold iron! It has a bonus effect when paired with ice abilities!"

Zhao Ling directly took this set of Flying Daggers out of the storage bar.

Although the level is similar to that of the original sword formation, if it is matched with the ice ability, the combat power that will explode is definitely three points stronger than the previous sword formation.

But now Zhao Ling is most concerned about another item!

"Thunder Suit (Peak of Spirit Rank): A protective suit refined from Thunder Meteorite. You can choose any shape once you take it out!"

Zhao Ling doesn't care about anything, what he cares about is that he can choose the shape at will.

You must know that if Zhao Ling goes back wearing a suit of clothes that no one has worn, he will definitely be found to have storage things.

So his change of appearance is what Zhao Ling needs most.

The next moment, Zhao Ling directly took out the Thunder suit and put it on.

Fantasy I Pick Up Attributes In The Future

Chapter 50: Killing Tier 3 Star Beast Violently! !

Zhao Ling, whose strength had soared, shattered the entrance of the cave in front of him with a punch, and then walked out of the cave.

However, just as he came out, he saw a huge star beast smashing towards him in the sky.

"boom!!!!!"

With a loud noise, this pterosaur-like star beast smashed the ground not far from Zhao Ling to pieces hundreds of meters away.

Zhao Ling was submerged in a huge wave of dust.

Reluctantly, Zhao Ling could only use his mind to isolate his surroundings.

"Roar!!!!!!!"

At the same time, an ape-like roar suddenly came from the sky,

Zhao Ling looked up and saw a giant ape soaring into the sky.

And more than a thousand meters above him is actually a spaceship of the Martial Dao Alliance.

At the same time, the laser cannon that killed Shadowfire Dragon King also fell from the sky and blasted down towards the giant ape.

Just when Zhao Ling thought that the giant ape was about to burp, a huge shadow instantly enveloped Zhao Ling!

"Forehead!!!"

Zhao Ling immediately looked behind, only to find that Dragon King, who had just been kicked by the giant ape and fell to the ground, was standing behind him and looked at him angrily!

"Is it also a Tier 3 and 1 star like the Great Charmander? And it seems to be seriously injured!"

Zhao Ling's eyes flickered slightly, and his mental power instantly saw the injury on the opponent's body.

And these injuries will definitely prevent the opponent from showing half of his strength.

Although he knew that the giant ape was saving his life, but he was kicked until half of his bones were shattered, so no one could be in a good mood.

At the next moment, a huge wind-type giant ball was instantly ejected from the mouth of Wing Dragon King.

The violent wind instantly shook the surrounding hundreds of kilometers of trees!

When Zhao Ling saw a sudden point at his feet, a terrifying thunder erupted from his whole body.

The next moment Zhao Ling disappeared in front of Yi Dragon King.

The next moment, a series of ice-blue Flying Daggers stabbed the Dragon King from all directions.

The icy aura emanating from the ten flying daggers made the surrounding air a bit frozen.

"grumble!!!!"

Wing Dragon King roared sharply, and then every pore of his body emanated terrifying wind blades.

Countless tiny wind blades instantly knocked the ten Flying Daggers off course.

"Pfft!!!!!!"

However, at this moment, there was a sound of a weapon piercing the flesh. Dragon King suddenly felt a sharp pain in Own's neck.

At the same time, a strong burning sensation came from the place of severe pain.

I saw that a fiery red spear had already penetrated his own neck, and the person holding the spear was Zhao Ling whose body was full of lightning.

"I didn't say, why do you all like to trouble me? The fire dragon is too, and you are too!"

Zhao Ling said helplessly.

He himself just wants to be a handsome man quietly, but these dogs are more troublesome than coming to own every day.

"Ka Ka Ka!!!"

Yi Dragon King could only look forward in horror because his neck was pierced by a spear, and even looking back at Zhao Ling was an extravagant hope.

The next moment Zhao Ling made a sudden force with his right hand, and the Dragon King, which was more than ten meters high, was picked up by Zhao Ling flying in the sky like a rag doll.

"Puff puff puff!!!"

In the next moment, a series of Flying Daggers pierced into the Dragon King's head and smashed his brain.

Wing Dragon King's body shook violently for a few seconds and then slowly calmed down.

Zhao Ling glanced at Yi Dragon King coldly, and then flicked his right hand, and Yi Dragon King's huge body instantly hit the ground!

"boom!!!!!"

With a muffled loud noise, a large crater was smashed out by Wing Dragon King.

At the same time, various colorful attributes also fell out of Wing Dragon King.

"Ding... The host picked up the attribute: 5000 points of strength, increase the value of strength: 5000"

"Ding... The host picked up the attribute: 500 points of soul, increase the soul value: 500"

"Ding... The host picked up the attribute: speed 250 points, increase speed value: 250"

"Ding... The host picked up the attribute: 5000 points of blood, and increased the value of blood: 5000"
