

First Love 135

Chapter 135: Insider

Assistant Xiao Wang took Lizhen on a tour of the head office, introduced the situation of each department, and then returned to the office.

"How about the layout of my company? Please give me some suggestions." Seeing Lizhen coming back, he wanted to ask Lizhen for her opinion.

"Hongliang, I just arrived. I don't want to work in your office. I want to go to the grassroots level of your department. First of all, I should start working in your office. I'm afraid that the people below will gossip," Lizhen suggested.

"Whoever dares to gossip, unless they don't want to work here anymore," Hongliang said firmly.

"I know that others won't say anything to your face, but they are playing tricks on you behind your back and will be dissatisfied with me."

"Whoever dares to disobey, I will tell her to get out immediately"

"Hongliang, don't be so excited now. Just listen to me slowly." Lizhen immediately walked to Hongliang and whispered something in his ear. After a while, Hongliang smiled happily.

"Well, you are very thoughtful." After listening to Lizhen's words, Hongliang couldn't help but nodded.

"Xiao Wang, take Miss Lizhen to the finance team immediately and arrange a position for her." Assistant Xiao Wang came in immediately. "Chairman, please arrange for Miss Lizhen to go to another team. You know that Aman holds a slightly larger share in the finance team, and even you don't agree with him." Xiao Wang looked embarrassed. He thought that Miss Lizhen was the boss's confidant. If anyone dared to provoke Miss Lizhen, the chairman would never let him go, so it would be easy for the chairman to conflict with them.

"Don't worry about this matter, just do as I say," Hongliang answered Xiao Wang confidently.

"Okay, Miss Lizhen.

"Wait a minute, just take the person there. Don't introduce Lizhen's background. If someone asks you, just say you don't know." Xiao Wang smacked his eyes, as if he didn't understand what his boss meant.

"Yes." Xiao Wang didn't say much. He seemed to understand but not quite. He didn't know what the boss was up to.

Soon, assistant Xiao Wang brought Li Zhen to the finance team. As soon as Li Zhen entered the room, she heard someone giving a lecture. The voice was a bit harsh. "If you can't even do such a small thing, what use are you? I'll let you off this time, but it won't happen again next time."

Following the voice, Li Zhen looked in the direction of a middle-aged woman with a triangular haircut and wearing a black and navy blue work suit. Her face was particularly small due to being stretched very long, and she looked fierce. It was obvious that this woman was someone who was not easy to mess with.

A young girl in her early twenties was kneeling on the ground, her body still trembling. Because she was looking down, her face could not be seen clearly, and she looked very pitiful.

Li Zhen was shocked when she saw this. It was unbelievable that in today's society, who would dare to be so brazen as to order someone to kneel as punishment?

"What's going on?" Assistant Xiao Wang was also shocked when he saw this scene.

Perhaps because the woman was too focused, she had not noticed Xiao Wang and Li Zhen who had already entered the room.

But the colleagues who were standing nearby and watching the fun were horrified when they saw Xiao Wang. They kept winking at a woman who was lecturing, but the woman was still cursing and lecturing the person kneeling on the ground.

At this time, Xiao Wang couldn't bear it anymore and rushed to the woman. "Aman, what's wrong with you? This person broke the law and killed someone. The police and public security organs will handle it. You are breaking the law by doing this, do you know?"

"Assistant Wang, why are you here?" Aman was frightened when he saw Assistant Wang. He couldn't speak clearly.

"What did she do wrong?" Xiao Wang asked Aman.

"She is a cleaner. I told her not to use water to clean the computer keyboard. Water on it may easily damage the computer. Today, there are water stains on the keyboards of computers at several workstations. If the computer keyboards are broken, I am afraid that our group's keyboards will have to be remade. The cost will be so high. Who in our group will be responsible? Will she be able to afford the compensation? Will I, the foreman, still be responsible?" Aman was only panicked for a moment, but later he was calm and argued without changing his face or heart, feeling that he had done nothing wrong.

"Get up." Xiao Wang pulled the girl who was kneeling on the ground up.

At this time, Lizhen saw that the girl was half crying and trembling all over. "I have never seen this before. I didn't know that this thing cannot touch water. I won't do it next time. I will use a dry rag to wipe it."

"You go down," Xiao Wang told the girl to go down.

After the girl left, Xiao Wang immediately said to A'man, "What the cleaner did was wrong. It was her first time. You should tell her next time. You have violated her personal rights by punishing her by making her kneel. Fortunately, she doesn't know the law, otherwise she would sue you, and you would have to bear the consequences."

"She is from the countryside and doesn't understand the law. What's more, she did something wrong." Aman still refused to admit that he was wrong and kept making excuses.

"People in rural areas are also human beings, and they have dignity too." Lizhen had been standing by and had not spoken a word. But when she heard A'man's words go too far, she could no longer bear it.

"Who are you to mind other people's business here?" A'man saw Lizhen only then. She looked Lizhen up and down. Looking at Lizhen's outfit, she was a little confused. Who was this person?

"This is Cheng Lizhen, who has just arrived and is assigned to your finance team. Aman, please make some arrangements for her," Assistant Xiao Wang pointed at Lizhen.

Aman looked at Lizhen and said, "Okay, come with me."

"Wait a minute, A'man, next time you do corporal punishment like this, I hope you remember not to do it again. It's not good if such things get out. If that girl knew the law, she would definitely sue you. Then even our company would be implicated, which would not be good," Xiao Wang warned her sternly.

"Got it, I'll be more careful next time."

As they walked, A'man asked about Lizhen's background; "Which school did you graduate from?"

"Graduated from Qingzhou Technical College" Li Zhen, in order to stay in the department and let Hongliang know the situation below, deliberately said that her education level was very low, so that the people below would relax their vigilance and she could do a better job.

"Huh, you're just a junior college student, but you're quite confident. You dare to apply for a job in a company like ours with such academic qualifications?" Aman wondered what was wrong with this company. They recruited such low-level people. Isn't this a waste of our company's resources? Watch me, I'm going to find a chance to kick you out.

She took Lizhen to a place in the back corner, where there was a half-new desk, and pointed, "This is your desk, you can work here. But you just got here, you don't know anything yet, you can help everyone with some odd jobs now." Aman glanced at Lizhen, but she was quite pretty, maybe he hired her because of her looks.

Humph, no matter how beautiful you look, you still work under me. Just wait and I will teach you a lesson until I kick you out of our company. After that, Aman left.

Lizhen didn't say anything either, because she had long understood that there would definitely be bullying of the weak and fear of the strong in the workplace. In order for Hongliang to understand the situation below, I was ready.
