

First Love 142

Chapter 142 Jealousy

Since A'man was fired, Lizhen has taken over as the team leader of the financial team. After taking over the financial team, Lizhen found many problems in Hongliang Company. A'man made a lot of false accounts during his tenure, but the deficits were made flawless on the accounts. Hongliang found A'man's uncle and gave him two choices, one is to initiate public prosecution and compensate for the stolen money, two is to compensate the money and no longer use his status as a major shareholder to threaten and occupy the position of the financial team.

After negotiation, Aman's uncle decided not to go to jail for Aman's future, paid compensation, and will no longer hold any position in the company.

This is called shooting oneself in the foot. A'man wanted to harm Lizhen and drive her away, but ended up ruining himself. This time, Lizhen made a great contribution to Hongliang Company and eradicated a big cancer for the company.

"Lizhen, you have worked hard during this period. To thank you, I will treat you to dinner tonight," Hongliang told Lizhen while driving on the way to work.

"You are my boss, you are my bread and butter, it is my duty to do these things. You have done so many things for me, and I haven't thanked you yet," Lizhen said modestly with a smile.

"We haven't had dinner together for so long. You have to go to dinner tonight no matter what," Hongliang said earnestly.

"Okay, but I have a condition. You have to call Tingting along. I haven't seen Tingting for a long time. By the way, I was in confinement some time ago, and I haven't visited Tingting because she was pregnant. You have to give me a chance to perform at dinner tonight. To thank you for taking care of me during this period, how about I treat you tonight?" Lizhen said, looking at Hongliang with a smile.

"Ah," Hongliang scratched the back of his head while driving, looking unhappy and helpless and said, "Why don't you understand my heart? You always keep me at a distance." Hongliang was selfish. He couldn't chat with Lizhen at the company, and Lizhen always urged him to go back to accompany Tingting after get off work. Today, he finally wanted to be alone with Tingting, because the things at

home and the company had suppressed too much in his heart, and he couldn't talk to anyone else. He wanted Lizhen to be reliable, and to help him with some reference when he encountered some problems that he couldn't solve. Hongliang wanted to talk to Lizhen several times, but seeing that Lizhen was always so busy, he couldn't find a chance.

Lizhen looked at Hongliang who looked very melancholy and embarrassed. Lizhen thought that Hongliang had a hard time too. He had a lot of things to do at the company, and at home Tingting seemed to have some conflicts with Hongliang's mother, which gave him a headache.

"Okay, I promise you." Hongliang was overjoyed when he saw Lizhen agreed.

"I'll wait for you at the usual place after get off work." At this time, they arrived at Lizhen's car not far from the company and got off. At this time, they didn't want to let people in the company know, especially Aman, who was Lizhen's suggestion. She was afraid that if others knew that she got off the chairman's car, they would misunderstand.

When Lizhen got out of the chairman's car, they ran into Xiaomai, someone they shouldn't have run into.

Lizhen, the taxi she took today, had just gotten off the car. Xiaomai's car happened to pass by and she saw Lizhen getting out of the chairman's car.

At first, she was shocked when she saw Lizhen getting off the car. Why did she get into the chairman's car? Was it a coincidence that she met the chairman on her way? No, that was not right. The last time Cheng Lizhen just started working, the chairman arranged for her to work in his office, and later arranged for her to work in the finance group.

Since Cheng Lizhen was riding in the chairman's car, she should have gotten off at the company's gate. Why did she get off not far from the company? Were they afraid that others would see that they came in the same car?

Unless there is some ulterior motive between them, Xiaomai broke out in a cold sweat at this time. It turned out that the competitor she was afraid of meeting, the chairman, had come. When Lizhen first came, the chairman arranged for her to work in the office. Xiaomai gritted her teeth in hatred.

Fortunately, Lizhen did not work in the office, but left the office to work in the financial group. She was secretly happy.

So she teamed up with A'man to give A'man advice and together they wanted to drive Lizhen away, but their cleverness backfired and they failed to achieve their goal and instead got themselves involved. Fortunately, A'man did not give her up, so she escaped.

At this time, Xiaomai's car had arrived at the company gate, and she got out of the car.

At this time, Xiaomai had been thinking about this matter in her mind. No wonder she had put in so much effort and tried every way to get close to the chairman, but the chairman ignored her and she could not get close to him at all. It turned out that the chairman had already had an affair with her.

Then all my efforts for the past six months would have been in vain, and my dream of becoming a rich man would be shattered.

Humph, I have no way to get it, and I can't let anyone else get it. I have to think of a way to drive her out, but is there any way to make her leave without exposing myself?

Xiaomai was racking her brains to think, she was distracted no matter what she did that day, she didn't hear the chairman calling her from inside, and as a result she was scolded "What's wrong with you today?" The chairman saw that Xiaomai even forgot to order a tube of coffee today.

"The chairman has a meeting this morning. Do you want to attend it?" the assistant Xiao Wang reminded.

"Today's morning meeting has been rescheduled to the afternoon. I have to go to the hospital this morning for my wife's prenatal checkup."

The chairman's words were unintentional at this time, but Xiaomai listened to them.

Yes, doesn't he have a wife? I don't have the power but my wife has the power to control the chairman. Alas, why didn't I think of this good way to have the best of both worlds?

If my wife finds out, then there's nothing else I need to do. I can just save her. Isn't this a good way to kill two birds with one stone? Thinking of this, Xiaomai revealed a barely perceptible smile on his face.

But how to let his wife know that her husband has a mistress outside is a question that bothers her again.

Hongliang finally made it to the end of the workday. He specially picked out a gray plaid suit that he particularly liked, with a khaki shirt underneath and a red plaid tie. He looked at himself in the mirror in the lounge and saw the handsome and masculine self in the mirror.

He smiled and walked out of the office. Today he asked the driver to drive himself after get off work.

At this time Xiaomai happened to see this young, handsome, high-spirited and smiling chairman at the door, which made her both eager and jealous. When can I get your trust and love? She wanted to marry Feifei.
