

First Love 31

Chapter 31 Distress 2

When Lizhen turned around and looked at the door, two burly men in black suits were already standing there. One of them Lizhen seemed to have seen before.

At this time, Lizhen already had a bad premonition in her heart. She secretly groaned, thinking that such a misfortune was waiting for her today.

"Secretary He, how are you?" The sarcastic voice came again from behind Lizhen.

Lizhen calmed herself down, plucked up her courage and turned around immediately.

"Director Liu, do you mean kidnapping? What you are doing is against the law." Li Zhen was a little scared, but she tried her best to hide her fear so as not to let the other party see her uneasiness.

"Secretary He, don't be afraid. I won't let you do this. But just listen to me. I won't harm you. Our chairman is so well-endowed. He is a golden bachelor that is hard to find. There are countless people who want to marry him, but you refuse again and again. You will definitely regret it in the future."

Director Liu said this while looking at Lizhen with his triangular eyes to see how she would react.

"Director Liu, you said that so many people like the chairman, so why do you go and help the chairman find a partner? Why do you have to pester me? Besides, I have already left your company. I have made it very clear that I already have a boyfriend." Lizhen was a little scared at first, but after hearing what Director Liu said, she felt relieved. She pretended to be calm and answered Director Liu.

"Hmph" Director Liu suddenly made a frightening sound from his nose.

"He Lizhen, don't refuse a toast and then drink a forfeit. Do you think I will still pamper you like before? At that time, I let you do it just for the chairman's sake. Today, you have to agree to us. If you promise me, I will be respectful to you for the chairman's sake. If you don't agree to me, then you'll see what will

happen to you today." This is when Director Liu completely exposed his true face. He looked ferocious and stated his purpose viciously.

It turned out that since he had come up with that evil idea for the chairman last time, the chairman no longer believed in his ideas, nor did he trust himself as much as before. He was wary of him everywhere and no longer trusted him. So he put all the blame on Lizhen for ruining his good thing. He was very unwilling to resign himself to this, and he wanted to make another effort to gain the trust of the chairman.

But he never expected that Lizhen's attitude was so tough and she didn't buy his account at all. However, he also made preparations for both situations. He was prepared that Lizhen would not agree, and if Lizhen disagreed, he would take action against Lizhen.

He winked at the two bodyguards in black, and the two bodyguards understood what he meant. They rushed forward and grabbed Lizhen's arms one by one.

"What are you doing, Director Liu, do you know what you are doing now? You are breaking the law. I am reporting you." Li Zhen struggled hard and protested to them in serious words.

At this time, a man walked out from inside with a cup in his hand.

One of them covered Lizhen's eyes with a black cloth and forced the contents of the cup into her mouth. Lizhen struggled desperately, but it was of no avail. Poor Lizhen slowly passed out after drinking the contents of the cup.

They immediately lifted Lizhen into the car from the back door and drove away.

The car stopped at the back door of a hotel. Two tall men in black suits got out of the car. They looked around and saw that there was no one around, so they pulled and dragged a man out of the car.

They quietly brought the person into the store, took the elevator to the door of room 1406, opened the door, let the person in, and quietly left.

Director Liu made a phone call and then left.

Since Lizhen left, Director Zhong has been drinking every day to drown his sorrows. His temper has become worse and worse, and he often loses his temper with his subordinates. He can't understand why he, a wealthy bachelor, loses his charm in front of a young girl and is dumped.

In particular, Director Liu is no longer the wise Zhuge Liang in front of the chairman. He is no longer a popular figure in front of the chairman. The chairman is on guard against him everywhere, does not trust him and has transferred him from his original position.

Director Liu racked his brains to think of ways to please the chairman, especially when he saw the chairman drowning his sorrows in alcohol every day. He thought the source of the chairman's unhappiness was Lizhen. The person who tied the bell must untie it. For the sake of the chairman, and since Lizhen would not cooperate, he chose to take a risky move. He wanted to set a new example in front of the chairman and regain his former prestige.

"Hello, where is the chairman now?" Director Liu immediately called his accomplice.

"Director, he's not far from your hotel. We've gotten the chairman drunk as you instructed. We can take action now."

"OK, proceed as planned," Director Liu gave instructions to his colleagues.
