

First Strong 101

Chapter 101 - 4th floor of the tomb

Originally, Li Hang was only verbally. When Ye Shifeng took the shot, he gritted his teeth and immediately patted it down. He hit the head on the ground and broke his head from his neck!

“This is our sincerity!”

They are the name of the voter, and the sacrifice is the head of that person. Then both of them naturally relaxed their hands to show that they were not alert.

This is also a no-brainer. Since the alert is useless, it may be suspected. It is better to give up directly.

“Good.” Shen Lang nodded and continued to walk down.

Although the environment here is very strong, but now he is more and more comfortable with the “Phantom Meteor Step”, not afraid that they will attack the water.

When he just threw the man’s body away, he used the light to blacken. When they attacked the man, they slipped from the shadow of the shadow to the top.

At that time, he was also able to directly hit the above person, but that shot would be a scuffle, in order to insure a little, he still chose to break one by one in the back.

Ye Shifeng and Li Hang both recognized Shen Lang and immediately took the initiative to turn forward and left their back to Shen Lang.

Although they are still very nervous in their hearts, they are afraid that they will kill them, so there will be no chance to fight back. However, the name has just been accepted, and it can only be chosen.

In order to prove that they still have value, they both tell me a word, and tell the key information of the tomb of the king who they know, as short as possible.

From the tomb of the king of the king, to the first floor of the underground, there are many roads. These roads are divided out, there is a stone room with one room, and the space is not big. However, the stone room is not a lock used, some have no doors, some can directly push the stone door, and some need to find the institution to open the stone door.

They have come down from generation to generation, and the experience they have summed up is that there are no ghosts in this tomb of the king, and there are no hidden weapons like poison arrows. But these stone rooms depend on luck. Some stone rooms are safe, and some are opened up. Maybe they can't get out.

The experience that the predecessors summed up with their lives is that the stone chambers that are open are often empty, and the more difficult it is to open the stone room, the more good there is.

Because it takes only two hours every sixty years, even if they develop with six or seven family sects (there are five now), the scope of exploration is limited.

By the last session, they had explored the third floor, and the last time the Yue family did not go out. According to the two of them retelling the elders, the predecessors of the Yue family were trapped in a stone room on the third floor, and everyone did not have time to rescue him.

In the process of briefing, the two of them took the waves on the third floor, looking for a few stone rooms to show him the specific situation.

There are many layers in the entire Tomb of the King, and they are not clear. Former ancestors, because of the relationship of time, of course, first choose the above. But according to everyone's speculation, the more down the things should be, the better, of course, there may be many unknown dangers!

"We are... go to the fourth floor below?" Li Hang carefully suggested it, but let Shen Lang come to the idea.

Ye Shifeng also echoed and said: "There may be stone chambers that have not been opened here, but they may also be empty. Some have been closed and then closed, so from the efficiency point of view, we will gain more to the fourth floor.

"Yes." Shen Lang nodded and no more opinions.

The two men did not dare to let Shen Lang lead the way in front, returning to the step back to the glyph and walking in front.

“Hey?” Li Hang, who was at the forefront, whispered a little.

Needless to say, follow Ye Shifeng and Shen Lang in the back.

After these steps reach the fourth floor, they will not continue to go down. The downside has come to an end. The most is the fourth floor underground!

This discovery made both Li Hang and Ye Shifeng both a bit lost. This time, it will definitely be rewarding. The five parties have three parties left. Even if five people are going to take up three points, they will not return empty-handed.

But there is no more down, and the fourth layer is the last treasure.

In fact, they are also very clear from generation to generation. The tomb of the king is not a renewable resource, and it is impossible to dig forever. It took only sixty years to develop two hours, so that they feel that they can develop for hundreds of years without problems. I did not expect that they are now at the end of their generation.

“It’s almost half an hour. In order to take advantage of the time, split up!”

After Shen Lang and their peers, mainly listening to their reports, speaking is very simple. Now this sentence is a relatively long sentence.

Hearing the waves, Li Hang and Ye Shiguang were also secretly relieved. There is such a dangerous person to follow, they are very unnatural, if they can’t open the stone door, they will come, and when they take the treasure, Shen Lang will start by himself.

Now I can act separately, one can make them safer, and the other has a little personal space. Any gains can be hidden as much as possible, so that Shen Lang does not know.

“Okay, then I am going to...” Ye Shifeng just opened his mouth and felt the headlights of Shenlang shine on him, let him squat up, and quickly rounded up. “Where am I going, I will wait for you to choose first!”

“You please first!” Li Hang also said.

Shen Lang was not polite, and seemed to be free to choose a straight road.

Looking at his back, Li Hang and Ye Shiguang both breathed a sigh of relief, and then the two men looked at each other with a smile.

In the contemporary society Extraordinary warriors have been very strong, the high-level extraordinary warriors have been a bit mysterious. As a self-cultivator, it is the extraordinary warrior of the nine sections, and only the ones that look up.

As long as you know the existence of the self-cultivator, whether it is a big official or a rich man, there is no fear. They are not only self-cultivators, but also reach the mid-term realm of returning to the realm of the Yuan Dynasty. They are more advanced than the so-called self-cultivators, and they are the leaders of the respective family sects.

But today, here, it depends on the face of a young man. Whether it is decision-making or choice, people must come first. Really shameful!

Fortunately, this is in the tomb, no one has seen that their dignity is still maintained. Otherwise, it would be affected by Li, and it will affect reputation.

Li Hang went to the top of Nunu, indicating that they were lucky compared to the dead ones.

Ye Shifeng thinks that it makes sense, especially him! The reason why he made a decisive shot is because Shen Lang knows the cover of the palm of the hand, and once he has played, he has no chance of winning.

“Let’s go!” he whispered, indicating speeding up.
