

First Strong 104

Chapter 104 - Sword kill!

Li Hang flashed a bit of dissatisfaction. He was a very decisive person. Just now he saw that the situation was not good and he surrendered to Shen Lang. Ye Shiguang is stunned by people, and he directly kills people.

But now they are left with two, and if they are together, they can sacrifice others to fulfill themselves. If there is no cooperation with Ye Shiguang, he will be in trouble alone.

“It took more than an hour to close. We went out. What did he do when he followed?” Li Hang whispered, he still wanted to leave Ye Shiguang to act together.

“Make those stones messy, maybe you can close them in advance! Keep them inside, we will be safe. Even if it doesn’t work... at least we can take the current income and take it away.”

Ye Shiguang whispered a bitter smile: “Don’t think about it, we are not his opponents. When he comes out, if there is nothing to gain, I will definitely steal our first!”

Li Hang’s brow is tight, and he is very reluctant. After all, it’s only a chance in sixty years! The next time he is alive, he is over a hundred years old, and he will have a chance to come in again.

But because the predecessors have not yet reached the fourth floor, they have just discovered the nearest stone room and they have gained something. Going out now, not only can be alive, but also with recycling, much better than the other three.

“go!”

Li Hang finally decided, two people went up, and soon saw the dead on the steps, they were hit by death. On the top, there is also a headless body.

“Do you want to clean up?” Ye Shiguang stopped.

Li Hang was a little impatient: “What else is it, and he will chase it later.”

“I mean...” Ye Shiguang pointed to the top: “Go directly to the body! So you can say that they were broken by the Shenlang one by one. We joined forces to reinforce ourselves, and wait until Shen Lang took the time to hunt for treasure. We can’t take care of the treasure hunt and hurry up the body.”

Li Hang revealed a smile: “This is, just go out like this. They are a few dead, but we have something to gain. Even if we don’t say it on the bright side, they will doubt that we are involved. Putting the dead out can be pushed On the head of Shen Lang, they also owe us a favor, and at the same time prove that we are not afraid of loyalty!”

“Names and benefits can be obtained, and it can’t be delayed for a few seconds.”

With their strength, there is no problem with a person carrying three bodies, not to mention two people.

“Yes! I am carrying two, you are responsible for him!”

Li Hang immediately took the lead on the ground and let Ye Shiguang take charge of the headless body. The two said that there is the one above.

Ye Shiguang grinned slightly, but did not say anything. He was able to carry out the headless body, which was even more rare, and the body was completely free of traces of his hands.

Shen Lang originally wanted to go first. They could go to them if they could harvest anything. The tomb of the king was left to them. Anyway, the most important thing left by Zheng Man has returned to him.

But I didn’t expect them to gain so soon, and still want to ambush him! Without any grasp, I also want to go out and destroy the off-sun array and trap him in the tomb of the king!

But also to be famous, the body is backed out to get a name of loyalty, and the death of those three people is counted on his head!

This makes the waves unhappy!

The heritage of Nima Zheng Man nourishes their family sect for hundreds of years, and now wants to harm him! If Zheng Man is under the spirit, he will also be trapped here!

Shen Lang wants to catch up directly, punching them all with one punch. But they are up, catching up on the second floor, or even the first floor, as long as someone screams, they can let it be heard.

The elders stared at them all the time and found that something was wrong. Maybe a group of people would be arranged to respond to the rescue. At that time, it would kill more innocents...

Shen Lang now only wants their two lives, not thinking about destroying their family, so they cast a "phantom meteor step" and quietly tracked up from behind. At the same time, I quickly searched the storage ring and took a sword from it!

After a few twists, Li Hang, who was holding a corpse and walking in front, had already arrived at the first corpse, and then grabbed it with another hand.

"Come on!" He turned and looked at the back and whispered.

It is actually very easy for him to work with one hand. Ye Shiguang certainly will not really carry it, but in the face of headless bodies, it is definitely easier to get bloodstained and more troublesome.

But what he looked back was that the headless body appeared behind him in a standing position, which made him shocked.

"How come..."

Li Hang whispered a whisper, this time is not a prank. But soon he felt that something was wrong, this did not have the neck of the skull, and blood spattered!

Even if Ye Shiguang had a resentment against him for two good bodies, wouldn't he be like this? Just holding the body, but also to squeeze out the blood?

What about others?

Li Hang's suspicion just started, his eyes immediately shone with the flashing lights, and at this time, he saw a skull rolling down the steps, with headlights on it!

They just watched the head being directly blasted. Although it was very doubtful how Shen Lang did it, it did not have a head. How come there is still a head falling down now?

Broken head! Splashing blood! headlamp!

These keywords immediately formed an answer in his mind – not a corpse, just the head of Ye Shiguang fell!

He is not a young man who is new to Mao. Just want to understand, he knows that it is not good. Shen Lang has already chased him, and he has killed Ye Shiguang!

Li Hang's reaction was indeed very fast. He almost did not wait for the brain to issue instructions. The two bodies that had been grasped by both hands had been thrown over to the back, hoping to block for a second or two, while the feet had quickly turned upward. Run away!

He is fast, how can he get too early to prepare for the waves?

After Shen Lang chased it from behind, quietly cut off the head of Ye Shiguang directly. When Li Hang turned back to speak, his sword just turned around and recovered, and then stabbed it from the side of Ye Shiguang's body that had not fallen down!

When Li Hang's gaze turned to the head on the ground, the sword was already smashed!

When he reacted to escape, the sword of Shen Lang had already stabbed his throat!

The two bodies were stuffed, and it was really blocking the road, but Shen Lang's hand was passed from the middle, and the sword was pierced into his throat before Li Hang retired.

His wrists were reversed, and the tip of the sword directly smashed Li Hang's throat!

From the discovery of the wrong commandment, but in the blink of an eye, Li Hang has not had time to make a scream, the whole person can no longer run away.

Shen Lang took the sword back, and the man had already leaped into the air, flying lightly over the four bodies that were blocked together.

Now no more than before, it is inconvenient to bring a sword. After the sinking of the waves, the sword is still taken into the storage ring.
