Chapter 107 - Earth palace cultivation

Like the incense burner before, it was absorbed by Shen Lang, and they did not become waste. There is still the value of antique artifacts.

In fact, this is the market value of their eyes in the eyes of the world. The aura that is absorbed is the added value. It depends on the environment and time. It is not just an antique that has this value.

Shen Lang took a closer look at the forty bottles of medicinal herbs, and everything went on. It seems that Zheng Man has a lot of things. He feels that he can't look at his eyes. If he doesn't have much value, he will let it go.

However, it was Zheng Man. When he followed him, he was already very strong. When building this palace, it was definitely a stronger time, and wealth accumulation was more time.

Therefore, for these things, Ye Family, Daxuanmen, Yuejia, etc. are very precious comprehension resources. For the current Shenlang, it is also a very rare comprehension resource.

These medicinal herbs are much better than the ones that he refines, and they also include various functions. However, purely assisting to enhance strength is not as good as the effect of Lingshi.

Because of the relationship between "Yin and Yang Bo Ruozen", Shen Lang directly absorbs the aura contained in Lingshi, and has already raised to the second weight a week ago, and does not need to rely on these medicines.

One hundred and seventy-two spiritual stones are enough for him to cultivate for a long time.

However, these medicinal herbs have other value.

After confirming, he put these things in the storage ring. What is stored in the ring space is the real good thing!

Zheng Man should have used some, but in terms of his ability to leave so many treasures in this palace, he will certainly put a lot of good things that he got later in the ring, and some of them were left to Zheng Man.

However, this is only a rough understanding of the opening of Shen Lang, specifically he did not go to inventory.

Because for him now, the most urgent task is to improve the cultivation, or else whether it is left by him or the good things that Zheng Man has left, it is not used.

After all, after all, he began to practice from the awakening of rebirth, and now it is only a little more than a month, and now has the strength, it is very rare. But from the realm of his time, it is still far away!

Therefore, he does not go to the inventory to avoid the touch of the scene, but also can not help but can not help but use it, the effect of decoupling is not good.

Except for the sword that was used before.

This sword used to be his weapon sabre. He had been with him for a long time. Later, with the strength of his wave fairy, he no longer needed weapons or even magic weapons.

Therefore, at the end of the “distribution of property”, the “not born sword” containing his sword and rhyme was left to Zheng Man. Zheng Man is now in the ring space, and now he is back in his hands.

With the strength of Shen Lang now, the effect of the “not born” sword can not be played well. But after all, it is a weapon that is very familiar to the past, and it is very handy to cooperate and use.

Therefore, when I was looking for weapons, I chose it naturally.

He was not born and did not let him die. The sword was not old. He directly broke the head of Ye Shifeng with a sword. Another sword smashed Li Hang's throat.

Now in the space of the storage ring, the original collection of treasures, Shen Lang did not go to inventory, and put those things in addition. The sword is left alone, and when it is needed, he will still use the sword.

After packing up, Shen Lang began to practice.

After the last six refineries, he had no other resources. “Yin and Yang Bozhenzhenzheng” to the second heavy, Baibao also God soup effect is limited, and did not go to refining.

It’s different now, he has a lot of Lingshi!

However, this time, Shen Lang did not absorb the energy of Lingshi, because just from those antique calligraphy and painting, it also absorbed a lot of aura. Together with the Palace of the Tomb of the King, the accumulation of the Phoenix Valley for centuries of heaven and earth, this is enough for him to drink a pot!

The aura of this palace is full, far better than the outside world, and the predecessors who came in from each other must have discovered it. But they have no way, only two hours, even if there are dozens of times the effect, it is equivalent to a few days of hard training, there is no meaning.

It is necessary to use time to crack the organs. It is a long-term policy to get medicinal herbs and spirits from a stone room.

The Shen Lang is different. He is not convenient to go out now, and he is idle while he is idle. On the other hand, his “Yin and Yang Bozhenzhenzheng” is a very powerful top-level practice, and the speed of attracting aura is far better than the general comprehension!

So practicing here, for him, is just like a duck. Simply hold the stone with your hand, or absorb the same effect as other solidifying aura.

He doesn’t have to worry about the two-hour limit now, so he can practice it freely.

The practice of Shen Lang is directly a dozen hours of immersion!

From the early hours of the morning to the afternoon of the day, such a long period of deep cultivation, not only refined the antique aura absorbed, but also absorbed most of the aura in the palace of the cemetery of the king to absorb seven or eight eight!

Although there is still a distance from the third impact, it is also a clear step. According to his estimation, it will definitely not be inferior to the strength of the late Yuan Dynasty!

After receiving the work, Shen Lang looked at the time, it was already four o'clock in the afternoon. He used the knowledge of God to sense the situation above and found that no one in the Phoenix Valley had been guarded.

About a night passed, and during the day and again, there was no change, so that all the sects gave up, so they were all withdrawn.

Shen Lang tried it again and extended the knowledge of the gods to the surrounding hilltops.

With his previous strength God concentrated on one to the top of the ridge, it can be done, but to go a little further, the larger scope, it is difficult.

Now people are still in the palace of the King of the Tomb, even under the entrance channel, there is a thick slate interval. I was able to sense the situation in the valley before, and I couldn't do it at the top of the mountain.

At this moment, it spreads out and directly puts the surrounding hillside ridges to the top of the mountain. The panoramic picture instantly appears in the mind!

No one, it seems that they are really all withdrawn.

However, compared with this, the expansion of the scope of the detective of God makes Shen Lang more happy, which to a certain extent can make himself safer.

There is no one in the valley. He immediately runs the sun from the inside and opens the tomb of the palace.

After coming out, I saw that the boulders were confused. Last night, these sects did not know how many times they had tossed.

Put all the boulders in the array of the sun, this time to operate is not to open, but to close it. Then he also disrupted the megaliths as they are, and will not open again here unless he comes again!
