

First Strong 109

Chapter 109 - Blackmail 1 billion

It was confirmed that Shen Lang was really coming out of the tomb of the King of the King. After the excitement, Yue Zhennan also told him about the trend of the day.

He had just not heard the phone call of Shen Lang, not because he was afraid of picking up, but he was also busy.

Today is also a very troublesome day for Yuejia!

Five family sects such as Daxuanmen and Yejia, after the evacuation last night, in addition to arranging people to continue to guard. It is also the core group meeting of the elders. This is not a family matter. It affects the overall pattern of the Pingxi area.

The five family members were trapped, and the weakening was weakened as a whole, and they remained in the same state of restraint. However, the overall strength of Pingxi has dropped by one point. If it is spread out, it may be attacked by other powerful forces!

In addition to the confidentiality, they also discussed another question, that is, how did Shen Lang come from?

Because for centuries, it was only a few of them that they knew this secret. One or two of them have long since fallen and annihilated, and the rest of them have maintained a balanced development. Only the Yue family whose last homeowner fell is an exception.

The Yue family can only be regarded as having failed in the cultivation of the truth, but it has not fallen. And in the secular aspect, the development is in full swing.

This time, an inexplicable outsider can know the secret, and can arrive exactly last night, it is very likely that the Yue family leaked information!

After deliberation, the five parties unanimously decided that the Yue family must be severely punished, so that the Yue family pays a sufficient price for betraying everyone!

In the end, it was nothing to gain this time. I also took a head and let the five families have a very fire, but everyone is the same. This fire is best vented on the sinking waves, but the Shenlang people are also trapped inside.

Yue Jia became this punching bag, not only out of gas, but also the object they are looking for.

Just this morning, they have sent representatives to come to the door and went straight to Yue Gang. Said that because the Yue family leaked news to outsiders, causing the fall of the five heads. This is a great loss to the entire Pingxi forces, each claiming two billion yuan to Yuejia!

Each family has two hundred million, which adds up to ten billion!

Yue Jia is a big family and a strong comprehensive asset. It is also difficult to do it with a billion dollars.

If you want to use all means to mobilize funds urgently, it will inevitably make you feel good, but it will affect various business and stock prices. It will make the parties mistakenly think that the Yue family will collapse, and all the political and business sides will take the opportunity to suppress!

In the end, it is not a loss of ten billion. Even if the storm is finally passed, the Yue family will lose half of it.

When I heard this, Shen Lang understood that this is the purpose of their five families!

Losing a head is directly a loss of strength, and the tomb of the king is abnormal and may not be able to open again. It is a more serious crisis!

This time, nothing has been achieved, and there may be no chance in sixty years. It can only be eaten by the mountains and the sky. The accumulated support time is limited.

They are not two people, they must be considered in the long run. Yuejia is a good reference sample. The Yue family can have today's strength. Basically, it still relies on the truth of the year.

The foundation is stronger, and there is a ready-made template that can be followed. Future development is not a problem. But compared with the Yue family, the age is different, and many

opportunities for development have been missed. Now that you want to come up later, you have to have a higher starting point.

Now it is a blackmail of one billion yuan, except for the fact that each family can get two hundred million yuan. It is also a reason to weaken the existing foundation of the Yue family, so that they can provide more opportunities for their rise in the world.

Sixty years ago, several of their partnerships had harmed the family of the Yue family, and they had divided the tombs of the King of the Kings, and together they suppressed the Yue family.

Sixty years later, after the accident, they stared at the success of the Yue family in the world. Not only did they have to withdraw money, but the next step was obviously to divide the family business of Yuejia!

This way, it is shameless! If it is irrelevant, this time it is because of the influence of Shen Lang, which indirectly contributed to their actions against the Yue family, so he decided to intervene!

“You... Lang brother, do you really want to come to our house?” Yue Zhennan was a little excited and even a little doubtful when he heard the decision of Shen Lang.

After all, this enemy is not one, not even one, but five family sects!

In the relationship of their trading cooperation, it is really not so high, it is him, and can not do such loyalty.

“I will help you solve it. When will they arrive?” Shen Lang asked directly.

Yue Zhennan was excited again. Shen Lang was able to come to the Yue family. He has made him feel very rare. With the support of a comprehension person, even if it is difficult to change the overall situation, he can have more strength.

Help you solve it! The words that people can say are more domineering, and they have to solve the problems of the five families directly!

“Lang brother, if I am in trouble, I will try my best to solve it myself. I have no face to ask for your help, but this time it is a big crisis for the family. I am not polite with you. This kindness, our Yuejiahui Remember in your heart!”

After the death of Yuezhen Nan Zheng, he immediately answered: “They said that they will come back at 8 o’clock this evening. If they are not ready for ten billion, they will be conceited...”

“Your home address.” Shen Lang has no nonsense, a simple question.

“Lang brother, where are you now? I will pick you up right away!”

Shen Lang is coming, Yue Zhennan does not dare to neglect.

“address!”

Shen Lang is a little impatient, although there is still a period of time from eight o’clock, but who knows how long their family has to go, once and for all, it will double the time and he is not at home now, How can I wait for it?

“Yes, yes.” He was impatient with his tone. Yue Zhennan was not polite, and quickly said his address, and said he would report it to his father.

Shen Lang did not need to pick him up, so that Yue Zhennan had a little peace of mind. In his view, Shen Lang may have to move the mysterious master behind him!

He is already so powerful, Master is definitely more powerful, maybe he can hold on to five of them?

After hanging up the phone, Shen Lang immediately searched it with his mobile phone. The place where the Yue family is located is in the suburbs of Pingxi City. From here, it is closer than the C County Town!

In this way, even if Yue Zhennan drove to pick him up, the time is too late, he can still eat a meal when he waits.

However, already said, there is no contact with Yue Zhennan. But in my heart, Shen Lang did not rush to rush.

He came out from the underground palace of the Tomb of the King, not to say what to change for a bath, at least to eat something to drink some water, after all, since last night, did not eat and drink.
