

First Strong 112

Chapter 112 - Disparity in disparity

“Ye Long! You have lived to the dog at an age? Why do you have to give you one billion for asking for one billion people?”

“Being a person to do things, we must first pay attention to the conscience of heaven and earth! Do you have a morality in your actions? Is it righteous?”

In the year, Feng Xiang and Feng Dejun stood up and furiously reprimanded them. In fact, they are not very clear about the Yue family and their grievances. They say that they are trying to rectify the Pingxi forces, but only Yue Gang said. But no matter what, Ye Long just told them that they are a cat and a dog, and they must go back.

And they are all old rivers and lakes, knowing how to occupy the moral high ground, it is the principle.

When Ye Long had just opened his mouth, he didn't really look at them. There were a lot of strangers on both sides. It's reasonable to have so many, so I used the comments of “A Cat and Dog” directly.

Now that Feng Xiang and Feng Dejun stood up, he just frowned a little and didn't care too much.

“Yuan Fengxiang, Feng Dezhen, this matter has nothing to do with you. It is a matter for us and Yuejia. You don't have to rely on old age to sell old people. This is not the time for you to gossip!” Although Ye Long said so, how much is still given They have a little face, which is equivalent to a side explanation.

Li Shengyu also said in a deep voice: “Let's go back! In order to be a little bit of someone else's gun, it is worthless to destroy a world name!”

The two years of Fengxiang and Feng Dejun were originally the two headed by all the punching and offerings on the scene. They must stand up and they will not give face. But now they find that their five postures are far harder than they think, and it seems difficult to reach a settlement with Yuejia.

If they continue to support the Yue family, they may need to fight. And what is the strength of Li Shengzhen and Ye Long, they are not clear. In terms of fame, they are not bad, but the five major homes such as Daxuanmen have a long history and the foundation is more profound.

Li Sheng's words are very harsh, but they are also very realistic. Yue Bailun came forward to invite them to come over, but also to bear a human feeling, but did they get their shots? If you win, it will be a great joy. If you lose, you will really catch the first name!

The five family members who came to the scene were not ordinary people. Others, although not the identity of the veteran, did not dare to speak so hard, but they were able to succeed as the head. They also had strength and ability. At this moment, they saw that both of them hesitated, knowing that the words of the two old people worked.

“What are you still doing? Going all the way! A group of superb warriors in the district want to come and intervene in our affairs? Believe it or not, you are now abolished?”

One of them directly screamed at the people around him.

As soon as this statement came out, the atmosphere at the scene became dignified. Although more than a dozen super-martial warriors feel very humiliating, they are iron-faced and dare to speak.

Both Feng Xiang and Feng Dejun were blocked from talking, and they did not give face. What about them?

“It's ridiculous! It's in Yuejia, it's not your fingertips! These are noble guests, come to witness your shameless behavior, why do you disrespect them!” Yue Gang stood up and yelled at them. It's up.

Shen Lang secretly laughed, this seems to be a hard-hitting attack that Yue Gang can't stand, but it is actually a radical approach. These people are all invited by the Yue family, but now they are being driven away by others, but also Yue Gang is in the early protection, and they can't get through!

Sure enough, one person immediately stood up and sat in the sixth seat on the right.

“My name is Yang Zijian, and the district is not talented. It is just the extraordinary warrior that you look down on, but you are willing to teach you the strength of your comprehension!”

Yang Zijian is a master of the Yue family and is an extraordinary warrior of the eight sections. He stood up and challenged, and immediately let the children of Yuejia in the lower hall cheer up.

Yue Gang's radical method worked, and Yang Zijian knew that it was hard to match, but as a person who worshipped Yuejia, if he didn't come out, he wouldn't have a face in the future.

During the speech, he has taken the initiative to the center and bowed to the man who had just driven them.

"With you also match?" The one who just spoke, a cold smile, raised his hand directly.

There was a hurricane in the hall and it was quickly in front of Yang Zijian!

When Yang Zijian came out, he was already on high alert. At this moment, he found the attack of the other party and immediately prepared to dodge. Unfortunately, even if his speed is very fast, it is not too fast!

His dodge just avoided the vital parts of the heart, but it was like a sharp arrow. The person continually stepped back a few steps, and at the same time spit out a blood, and then the body fell to the back.

"Mr. Yang!" Yue Gang quickly stepped forward and helped him.

Yang Zijian's face was pale, Zhang mouth wanted to talk, and there was blood pouring out. He could only shake his head and laughed a little, indicating that he was not unwilling to contribute to the East, but the strength gap was too great!

Yue Gang raised his hand, and immediately there were young children running over and holding Yang Zijian to rest for treatment.

The other people on the scene and Yue Gang's face are the same, and it becomes very difficult to read.

Yang Zijian is only an eight-segment. Among them, it is weaker, but it has just been shown. Compared with the self-cultivation, even if the super-martials reach the nine-segment, there is still a gap!

This is just a casual person, there are at least four such people, and the other five veterans, the realm will only be higher!

“Yue brother, it is not that I am afraid of death. But the power gap is clear, I am very ashamed, even if I stand up, it is not an opponent. Please forgive me!” At this time, another super-wu people stood up.

It's really shameful and shameful to say this in public. However, compared with Yang Zijian's shame and injury, what he lost was his face, and he was fine. And the other ten are all self-cultivators as a superb warrior to admit defeat, strictly speaking is not a shame.

The herd effect appeared immediately, and as soon as he spoke, the other half of the people stood up, his face stunned and his words stopped.

The man was leaving when he finished speaking, but Ye Long raised his hand and said, “Slow!”

When the words came out, they changed their faces.

“Don't misunderstand! Everyone knows the time, we are very welcome. But since Yue Jia invited you to come over, then don't hurry to leave, leave a testimony! Save Yue Gang to demonize us outside.” Ye Long said At this time, my eyes fixed on Yue Gang, and there was a smile on her face.

Yue Gang's face has become very ugly, and the two that have been the most dependent on them have been silently smashed. The other ones are directly admit defeat. If you really want to fight, then you can only go on it, and he is not an opponent at all. The Yue family can have the power of a battle, only the old uncle.

If the outsider leaves, Yue Gang can also play the emotional card, or directly sacrifice the dignity of the individual. Now, let's not let these go, let's say that it is a testimony. In fact, more people are going to spread the things that crushed the Yue family and completely reinvent the momentum of the Yue family!
