

## First Strong 118

Chapter 118 - Pingxi 1st Monk

Just two people were trampled on the head. In everyone's opinion, it was like a picture that appeared in the Hollywood plasma horror film. Just now, it is simply unbelievable. The comprehension of the late Tang Dynasty is Cai Shuming Cai Lao. It was directly blown up!

When everyone looked at the sinking waves, their gaze changed, and the heart was full of awe.

Yue Jia from Yue Bailun to the younger children below, including everyone who invited to help the boxing, have only one thought, that is luck!

The strength is so powerful, the means are so horrible, but fortunately not the enemy, otherwise, everyone may be here tonight.

The people of the five sects such as Daxuanmen, Yejia, and Linghequan are all dead.

Up to now, they have already died four, and the remaining six have been seriously injured, basically no effort to fight back. Just the strongest, Cai Lao and other three, have been killed, and have not used any magical spells, just relying on pure power to explode, it has subverted their ideas.

“We admit defeat, we surrender...”

It is Li Shengxuan who said this. Now there are six people left. Ye Long is already a half-legged and dead, and he is respected. Cai Shuming, who was not injured, could be shattered directly. The six of them really only had to be slaughtered.

When several other people heard this, none of them felt humiliated, but they all looked forward with expectations. This really meant that others were forgiving.

“that's it?”

Shen Lang looked at him coldly, and when they had the upper hand, the attitude was not the case. Now wandering and pity, after waiting to leave, will it fight back?

“We don’t know Taishan...” Li Shengxiao smiled a bit, then respectfully said: “From now on, we are willing to treat you as the first monk of Pingxi, and then dare not have the slightest offense. If there is a dispatch, just a message Come over, break and don’t dare to violate!”

After he finished speaking, another person immediately said with respect and respect: “Li Lao said that the same is true of our Linghe fist. Just Cai is confused, I am the master of Linghe, and I am solemn to you again. The apologize!”

In order to survive, this person is also enough to fight, directly smashed down in public, gave up his dignity and face.

However, no one has shied away from him. After all, Cai Shuming has always been the main force. The first one to rob the power of the waves is also to scream for killing, and to tie the martial art, the five or even the whole Pingxi comprehension to the end.

If he does not make a thorough statement, I am afraid that others will squander the roots.

The other two did not have two words, and they supported the two leaves of Ye Family, who were difficult to move next to them, and fell down together.

“My old man... I also fell to you!” Li Shengzhen said in a tragic words.

Shen Lang was unmoved, and did not discourage him because he was old. And he did not speak, including Yue Gang, no one dared to persuade.

Li Shengqi originally wanted to do something, but did not expect the cold field, but it was really awkward.

Just five of them are claimed to represent the realm of Pingxi. And their strength, but also including the Yue family can not resist, now how long, now all stumbled in front of Shen Lang for mercy!

This is going to be a day!

Both Feng Xiang and Feng Dejun exchanged their eyes and they all had the same mind.

This kind of sinking wave that doesn't know where it came from, starting from tonight, will become the first strongman in the Pingxi area, and it is truly a fame.

But the strength of people is there, they can not compete against the strong, others can break a box, even if they are so dependent on the old and old, this time is also convinced.

Shen Lang looked down at the six people who were lying on the ground. They asked coldly: "If you win, I will kneel down, or if you are under the Yue family, can you let go?"

Originally, the Yue family looked at the reverse of the waves and they were very happy. But the tragic situation of Cai Shuming and others, and now that Li Shengqi and Ye Long are both old and squatting, also makes a small part of them feel soft and feel that it is enough. It is too much to go on like this.

But now that I hear the question of Shen Lang, they all have a glimpse!

Compass the enemy, who sympathizes with you?

Tonight is not a strong attack by Shen Lang. At this moment, they are here, and there must be a group of people who have been killed!

Immediately, I couldn't bear to eliminate it, and it became support for Shen Lang. This is not an apology.

Li Shengzhen sank in his heart, others also fell, and also took the lead to surrender, and Shen Lang as the first monk of Pingxi, can be said to put a lifetime of wise, but the other party still refused to let go.

But now they have no resistance in all six, let alone Shen Lang. It is the younger children of Yuejia, who are the super-wu people they have looked down on before, and they can kill them all at once.

In the end, Ye Jia had dealt with Shen Lang. After withdrawing it last night, Ye Long immediately found Ye Shiguang and Ye Fan and asked about Shen Lang's information. It didn't have much effect, but now there is a glimmer of hope.

"Master Shen... We are very faulty, but we can't make up for the apology and the squatting. We are willing to pay substantial compensation. Please let us go back and prepare, give us some time, and we will give you a satisfactory compensation!"

Ye Long struggled to say this, and the person was already panting, and he was almost unable to hold it.

Li Shengzhen also immediately wakes up. What are they doing today? Isn't it just to beat the Yue family and ask for resources?

Although this swell is powerful, but he has to enter the tomb of the king, it can be seen that he also lacks the resources for comprehension. To compensate for the money, he certainly does not need it. This can be obtained from the Yue family more than them, only to compensate for other resources that cannot be bought.

"Yes We are willing to compensate to express our apologies. We must be satisfied with you!"

Li Shengyu said with a bitter smile: "It's all like this. I am not afraid to say that it's ugly. From last night to now, our five cores are at the core. If we dare to blame, or dare to have dissent, take your gods, We can kill us at any time."

Shen Lang's look is almost the same. He has just been killed by iron fists and has suppressed all of them with absolute power. But these prisoners of war who have already surrendered, and the prisoners who are willing to redeem, if they still want to kill, will only make everyone fear, fearing that he will wipe out all the power of comprehension in Pingxi.

After all, he was supposed to come to help the Yue family, not to let him be tired of the Yue family, and now the result has exceeded expectations.

"Get up! I don't ask for the time and I don't have time. You are ready, and I will send it to you by the Yue family."

Shen Lang said this and let everyone breathe a sigh of relief. Li Shengqi and others do not have to say that this is tantamount to confirming that the individual's life has been saved and that the family will not be destroyed.

Others are also a little relaxed, or else I am really afraid that Shen Lang is a murderous demon king who is not recognized by the six parents!
