

## First Strong 121

### Chapter 121 - Accident

After letting them go out, Shen Lang raised his hand and moved his surveillance camera to the ceiling. It is not to be pretending to be mysterious, but to be watched by people, always uncomfortable.

Then Shen Lang came to the hospital bed and looked at Yue Baichuan, who was already very thin.

Think about the first transaction, let the Yue family take some medicinal herbs with years, including ginseng, which is also estimated to be used to prepare for the death of Yue Baichuan.

Shen Lang is not a doctor. He does not use the pulse method to check. He directly reaches out to the top of Yue Baichuan. Through the injection of a glimmer of energy, he spreads to his whole body and perceives all the conditions of Yue Baichuan through his vitality.

The whole process was very fast, and the vitality quickly detected the crux of the problem.

Yue Baichuan's problem is in the brain!

Modern medical equipment such as CT cannot be detected because of the physicalization of brain tumors and blood stasis. However, Yue Bailun or other medical doctors could not detect it. On the one hand, it did not affect the organ function. On the other hand, they were not expected to overestimate their heads.

Shen Lang is different. From the words of Yue Gang, he already knows that this is not the end of life function, nor is it seriously ill, but it is likely to be injured. Yue Baichuan itself is also the strength of returning to the Yuanjing, can hurt such a serious, can only be a higher monk in the realm!

Moreover, he is not only a much higher realm than Yue Bailun, but also a means of experience and experience. It is also beyond the reach of Yue Bailun.

The part of Yue Baichuan who was injured is the brain, and the other party is very sinister, leaving a cold air in his mind!

This cold air does not affect the internal and external organs of his liver, kidneys, hands and feet, but because he is in the brain, he is allowed to become a vegetative person.

Shen Lang estimates that the other party's intention is not to kill Yue Baichuan, or to say that he does not want to kill so fast, let him drag, consume the vitality and resources of Yuejia Xiuzhen!

In the past two years, Yue Bailun has been dragged down, and he needs to constantly inject vitality to keep him alive. And other things that Yuejia can have have been used, and can only be collected everywhere.

This is a situation in which Yue Gang can't be good. As a son, he must not watch his father die. Moreover, as the former generation of the Yue family, Yue Baichuan still has a lot of political resources. Once he died, it is different, so he can only consume it.

If you drag on for a few more years, the impact on all aspects of Yuejia will be even greater. If you can do this, you should be a direct competitor! Perhaps they are one of the five, and it is possible that other opponents are looking for someone to do.

Behind these things, Shen Lang is not interested in understanding so much. He just bought a million plus plus stocks, a little more, so help them treat.

After confirming the problem, Shen Lang immediately began treatment.

That coldness can condense in the brain for two years, but it can be considered quite peculiar. It can be seen that the level of people who use this spell is not low. However, with his current strength, it can be completely resolved.

The method of Shen Lang is not too mysterious, that is, by injecting vitality, the gas in the ice is dissolved. The method used with Yue Bailun is similar, but he is a targeted goal, with more energy and more action.

Because it is in the brain, there is a problem that can cause people to die, so Shen Lang does not dare to care. Under the condensed god, let a channel of vitality be injected into the brain of Yue Baichuan, and directly surround the past from the outside world, completely enveloping that cold air.

In the brain, it is impossible to force it out. Therefore, relying on his strength, he will digest each other a little bit.

Shen Lang expects this process to be very fast, and there is not much coldness in the cold, or the Yue family will not find it in two years. But after defusing a part, there was a situation beyond his prediction!

That cold wind, as if frightened, began to escape in the brain!

Can save for two years, he has already felt that the opponent's tactics are good, I did not expect that there is still a certain spirituality! This allows the Shenlang gods to observe the past and let them focus more directly.

Because of his vitality, the cold air is difficult to "escape", and the space for escape is limited. But because this is in the brain, even a single change, it is enough to affect people.

Yue Baichuan, who was almost a vegetative state, began to feel a little stunned.

This is also the reason why Shen Lang wants them to go out and turn the monitoring away. Concerns are chaotic, watching the old father so, Yue Gang is also very anxious.

In order not to let Yue Baichuan appear, Shen Lang decided to take a risk and try to \*\*\*\* it out!

It is not easy to force it out, but it is not the same. In the end, in essence, this cold air is also an energy. Therefore, Shen Lang is running "Yin Yang Bo Ruozhen" and directly absorbs it as energy into his body.

This is not a big love for him, because he is very dangerous in the brain of Yue Baichuan, but it is only an energy that he absorbs into the body.

This new attempt, again received the resistance of the ice, it still feels terrified to escape.

To be able to resolve in the minds of others, it is necessary to be careful and not progressing fast. But to absorb it directly, it is not difficult to sink the current realm of Shen Lang, but after struggling for a while, he was directly absorbed by him.

When I felt that the cold air was completely absorbed from the palm of my hand, Shen Lang's hand left Yue Baichuan's head and refining it.

But immediately he felt that something was wrong!

This icy gas really seems to be spiritually alive, and actually takes the initiative to go deep into him!

Under the singularity of the waves, immediately running the vast vitality, quickly control its complete package, and forced it to the palm of the hand, not greedy for this energy, directly to destroy it.

At this time, the coldness of the year began to be full of panic!

Yes It's a bit strange, he actually feels that this energy has a frightening mood!

"Adults are forgiving..."

Just the piece he wanted to ignite, he felt a consciousness, it was this cold air.

"It's actually a god! I'm stunned by you." Shen Lang had a thought and communicated with it.

There is no one-dimensional \*\*\*\* of the physical body, just like the ghosts and souls that are generally said, in the way of energy spirit.

If it is weak, there is no influence on the world for human beings. If it is very powerful, it can exert a certain influence, that is, the so-called haunted, obvious, and evil spirits.

"The adults are forgiving... I am about to dissipate, so I have to take care of the person's body for a while. I am ready to resume and leave, and there is no harm." The Yuanshen asked for mercy and explained it.

"When you recover a little, this person is weaker, you just took the possession of this body, right?" Shen Lang sneered.
