

First Strong 159

Chapter 159 - I am mixed.

Yue Zhen Nan brain immediately calculated, if the official visit like last night, the Chu family appeared in the resort, as the host of the landlord Yue family, will know immediately.

Now, at the gatekeeper's office of the resort, all the children of Yuejia are responsible for the customs, and they will immediately report to Yue Gang. My father knew, and he will definitely discuss it with his grandfather immediately, and inform him to let him tell Shenlang, just like last night.

He has not been notified yet, but Shen Lang said that the Chu family has come, indicating that the other party is sneaking in!

Atomic can quickly check the phone and make sure that he has not missed the information phone.

"Your words are definitely wrong. If you say that they are coming, they will definitely come. I want to inform my dad, my grandfather, are they?" Yue Zhennan asked for the meaning of Shen Lang.

The harvest was great today, which had caused his appetite to increase, but just this news made him suppress it and he had no appetite to eat.

"Is the notification useful?" Shen Lang continued to eat and asked a question.

"Useless." Yue Zhennan smiled.

A Chuyun City has already made Yuejia not qualified for dialogue, let alone a stronger person.

"That doesn't know better."

In the words of Shen Lang, let Yue Zhennan think thoughtfully. After a while, he shot his thigh and cried: "I understand!"

The Chu family did not hit the door with a bright light, indicating that the target was a deep wave, and did not want to stir up the super-wu heroes, or that they did not want to make a big spread, so that the Yue family may not be affected. Yue Gangyue Baichuan, they don't know, of course, they don't need to stand up and sink, knowing that they are embarrassing.

“Lang brother, thank you!”

Shen Lang shook his head slightly, not much to say.

Although Yue Zhennan was guarding outside, he still maintained a vigilance when he practiced. After receiving the work, it was even more incomprehensible and cautious, and slowly searched the entire resort with God. As expected, it was the same as Chu Yuncheng.

But he did not say anything, did not attend the banquet, and Yue Zhennan was alone here to eat. Now speaking, it is also mentioned by Yue Zhennan.

Of course, this is also because he found only one. If the Chu family came to a group of people and was prepared to even have a net of Yuejia, they would have to inform them. As for whether it will be done to the old and weak women in Yuefu Garden, this need not be considered, the notice will not play any role, Yue Gang should also be prepared.

Shen Lang looks like a regular meal, Yue Zhennan is barely eating a little.

Yuezhen South is going to lead Shen Lang to his room, but Shen Lang said that he wants to take a walk, and then walked to the contest.

The contest is built in front of the office building, and everyone is here during the day. Most of the time I dine at the restaurant, and I also go back to the room to discuss exchanges, but it is deserted.

The light shines like a white field. Shen Lang did not watch the game during the day, but now it is directly to the central station.

Yue Zhennan was accompanying him all the way. He could vaguely guess the intention of Shen Lang, but he could not ask.

“go in.”

“What?” Shen Lang suddenly spoke, let Yue Zhen Nan smashed, but immediately reacted: “You mean... good!”

He knew that he couldn't help, and staying only became cumbersome. After he understood it, he immediately responded with decisiveness and then went to the office building. When he hurried upstairs to see it, he saw that there was already one more person in the contest.

“You are the sinking waves?” the stranger asked quietly.

Shen Lang looked back at him and said impatiently: “Is this not nonsense? You have been observing and tracking me. Is it still unclear?”

This person is the same person who has the same temperament as Chu Yuncheng, but he is much older than Chu Yuncheng. It looks like thirty-six and six, just as a strong man.

“Since you found me, you should be more aware of the purpose of my coming.” People have no expression.

“Introduction, what is Chu, what is the status of the Chu family. If it is a small Jurassic, I will quickly get out of the way, I will not bother.” Shen Lang said faintly.

Yue Zhennan looked far away from the upstairs, could not help but secretly anxious. Although he did not know who this person was, but after the Chu family was injured in Chu Yuncheng, he was only arranged to come alone, which is not an ordinary person.

The mad attitude of Shen Lang will only irritate people, and there will be no chance of easing.

Although the battlefield was deserted here, the bright lights were more eye-catching at night and could be seen far away. After eating the meal first, I saw two people standing in the contest. I wonder if someone is going to fight in private.

If there is a grudge in the past, it is actually an open solution to the grudges. However, outside of the time of competition, it is a private fight that has nothing to do with the hero.

Looking at the contest of the day, everyone wants to see something exciting, and it is good that others are willing to contribute. So when I found out after eating, I immediately greeted me and went over here. And many others have heard of it, and they have stopped other things first, and then come to see the excitement.

Including Xie You, these comprehensions, Yue Jia has been invited to dinner last night. What is worth making, and how many of them are in my heart. Yesterday, or today, I have already greeted the greetings. The banquet tonight is also a form.

When I heard that there was a private duel here, everyone also joked that they all came to see, what a **** young man, and the duel.

So I didn't wait for this Chu family to introduce myself, and some people have already rushed over quickly, which made him frown.

After he arrived, he did not directly look for the sinking waves, that is, to avoid being surrounded by the public. I just saw Shen Lang coming over here I also saw no one here, and I showed up. But now it is suddenly discovered that Shen Lang seems to be interested in introducing him to this bright contest, thus attracting more people to come and see.

However, dozens of resorts in the resort are basically more than seven paragraphs of super-wu people, the speed is not slow, afraid to miss the good play, are all running over. Soon, many people have come close. If they leave at this time, they will lose the face of Chu.

“My name is Chuhe. I don't have any status in the Chu family. It is not a child of my family. It is a small scorpion.” This person is unhappy because some people come to watch. For the words of Shen Lang, they are not irritated, but directly admit him. It is a small, miscellaneous.

The first thing they saw in the distance was Shen Lang and Yue Zhen Nan. When they came over, they had become the confrontation between Shen Lang and Chu He. Now the first to arrive, I heard the words of Chu River, but I was excited and nervous.

Chu family!

It seems that the rumor last night was true. Chu Yuncheng had a big loss in the hands of Shen Lang, so the Chu family immediately arranged for people to come to the field!

You can see the masters of Shen Lang and the Chu family. This is the battle of the self-cultivator. Of course, it is exciting. The tension is afraid of being affected.
