

First Strong 161

Chapter 161 - Target magic weapon?

“If you think this is not enough, what are the conditions, even if you come up, I will wait until you are ready to shoot again.” Chuhe then said a beautiful words.

In fact, in addition to the personal and Chu family’s reputation, but also because he has already known from Chu Yuncheng, Shen Lang is not using spells, but relying on speed to attack!

Therefore, his intention is to use the simplest and most rude way. When the public is ravaged, the face lost by Chu Yuncheng can be returned.

“Thank brothers, what do you think?” Xie You next to one, could not help but whispered a sentence.

Xie You shook his head slightly: “This friend of Shen Lang, I don’t know much about it, but at least it should be at the end of the return to the Yuan Dynasty. And Mr. Chu He... I have heard that it is the peak of the Yuan Dynasty, and the distance is still in the virtual world. It’s a step away, maybe it’s broken now.”

“There is still a virtual environment...” The man sighed: “Chu River is only in his thirties, and the nails on the board can be returned to the virtual world.”

“So this Shen Lang is looking for his own death! I think he did not reach it later, it is estimated that Chu Gongzi is also caused by a sneak attack.” Another person disdain to join the discussion.

Xie You did not speak any more.

The reason why he said that is because he himself is returning to the late Yuan Dynasty, and Chu Yuncheng is also in the late Yuan Dynasty. Even if both of them are underestimated underestimators, let Shen Lang have the opportunity to sneak attack, but it is definitely the realm of returning to the late Yuan Dynasty, or else it can be easily cracked.

But this is related to his own face, which is inconvenient to say in public.

His eyes looked at the dark waves. Just now, it seems to answer the questions of others casually, but there are also some meanings that reveal a little information to Shen Lang. Shen Lang can not be distracted at this moment, he will not guarantee, and can not be loudly reminded.

And he is not optimistic, even if Shen Lang knows the strength of Chu River, playing the spirit of twelve points, the gap between the realm can not make up.

Yue Baichuan, they are just a little closer, than the Shenlang in the center of the field, of course, they heard their conversation. Immediately pale face!

The last time Shen Lang could directly blast the monks in the middle of the Yuan Dynasty. In their view, it should be in the late period of returning to the Yuan Dynasty. This is why other people have to take the reason. In the late Yuan Dynasty, they were basically the first monks in Pingxi.

Because they only have the initial realm, the relationship is not familiar, and it is not clear about the specific realm of Chuyuncheng. The shot from Chuyuncheng last night also guessed that he was the realm of the late Yuanjing. Shen Lang can successfully defeat, it should be the factor of attack.

The specific level of Xie You, they are not as clear, but it is estimated that at least one level with Chu Yuncheng, now he said that Shen Lang is in the late Yuan Dynasty, it is basically confirmed. The opponent Chu River has already arrived at the peak of the Yuanyuan, and it is still a virtual reality when it is broken. It may even have broken through now!

This gap... Just like kindergarten kids and middle school students, how can you make it easy to lose!

Their hearts sank, but many people were excited at the scene. After all, the Chu family is as good as it is, and Shen Lang has not heard it before. It has already occupied the Chu family on the psychological side. The Chu River is definitely the strongest on the scene. From the perspective of worshipping the strong, it also supports him.

Shen Lang indulged a bit, in addition to analyzing the intention of the Chu River, but also to what extent tonight. He is stepping on the Chu River and must be a stepping stone. Just stepping on the upper position, or stepping on the body?

From the emotional point of view, the impression of Chu River is undoubtedly much better than that of Chuyun City.

He just heard it when he just thanked him. This is heard by others, Xie You is compelling, and he knows more. But if there is a word in the morning, I can guess that Xie You is using this way to disclose information to him and remind him to be cautious.

Is it the peak of the Yuan Dynasty?

Shen Lang feels that the enemies encountered are also the strongest in the late Yuan Dynasty in the case of Chu Yuncheng Xie You, and the peak of the fight does not know what is cool? To what extent will it be on the verge of breaking through the virtual world?

“Oh, don’t be a mother-in-law. You are a hybrid... No, it’s a mess, I’m sure you have given you face. You don’t use tricks, magic weapons, I don’t have to!”

As soon as Shen Lang’s words were spoken, the scene was almost in turmoil. Except for the Yue family, almost all of them were sprayed.

“What’s the stuff! People are modest, he actually makes people a mess.”

“It’s a miracle that someone who is so mad can live to the present.”

“That night we will witness the fall of this mad miracle.”

“The Lord Chu River is really good-tempered, and if I change it, I will let him fall!”

“Hey – you shouldn’t be convinced, just change it for you, just like the few foreigners.”

Extraordinary warriors disdain or disdain, or dare not be too loud, so as not to be stared at by Shen Lang, after all, it is the Chu River, not their personal strength. But those who are self-cultivating, the scruples are not so big, and the same is falling.

“This kid is also forced to force it. I think he is very clear that he can’t fight the Chu River, and there is no magic weapon. Just say a little bit, then you can still be ashamed.”

Yue Baichuan and others are ugly. In the town of Yuezhen, looking upstairs, it is secretly complaining!

‘It’s over! This is the way to help the brothers. What kind of face will you manage now? Directly all kinds of spells and magic weapons are gone! ’

In fact, no one thought, including Shen Lang did not think that Chu River really has the intention of radical law!

He has already seen Chu Yuncheng For the big defeat last night, Chu Yuncheng is of course shy. Although it was basically truthful, it was still beautified for itself. On the one hand, it was said that Shen Lang’s sneak attack was very fast, and on the other hand, it was said that Shen Lang had a magic weapon.

The evidence is his sword wound. He did not see it clearly, and he was stabbed in five swords. The speed is not fast enough, and it must be a magic weapon in your hand. Moreover, he and Tian Luning did not see that Shen Lang had a sword in his hand, which proved that it was not a general magic weapon.

Because of this, the Chu River will maintain restraint and want to observe and understand the situation of Shen Lang. It is best to take revenge and take this magic weapon over, and you can’t have any loss.

Shen Lang led him and made him realize that he was exposed, and this appeared. If you just have a high profile, what you want is to stimulate the waves and not use them.

The Chu River is much more mature than Chuyun City. In front of everyone, the first thing is to do the drama. No one doubts him. He feels that he is very graceful. However, the demeanor and momentum have already existed, and if you don’t take it, it’s really tempered.

“Be careful!” He snorted and the foot of Chu River moved first. He kicked and picked it on the ground. He immediately dig a large stone that was set on the ground and smashed it directly into the sea.
