

First Strong 168

Chapter 168 - 7 Ye's site

This year's Super Wu heroes, although only the first round of competition, the strongest of the following paragraphs, there is no PK, but no doubt, this year's biggest limelight has been occupied by Shen Lang .

On the age of the case, even if all the super-armed people on the scene did not have young, but he was crushing the strongest comprehension who came to the scene. Moreover, regardless of the background of the Chu family, the two legs of the Chu River were smashed in public!

Such ability, so powerful, is something that no one has ever heard of. This "Pingxi first strong" is not well-known in Pingxi City. After tonight, it will certainly be famous, so many people know Shenlang.

Yuezhen opened a car in the south and took the Shenlang to the place. In addition to them, Shen Lang is also carrying the Chu River, if there is any problem, of course, will not let him go.

Shen Lang was unfamiliar with Pingxi City. When he arrived at the scene, he discovered that he had come once in this place!

To be precise, he has been here near the Linjiang Villa of Baiqiye.

In the early years, Bai Shenghua left a piece of land here. In addition to building a villa and having a yard, another building was built next to it. It is a high-end private club.

The last time Shen Lang was directly killed by Bai Shenghua's home, now find the address given by Chu He, the club that said it should be here.

"This is the site of Bai Qiye. It is back to him with the support of the Chu family. It is no wonder that the two black and white rotations can be replaced. He can stand up." Yue Zhennan is a bit embarrassed.

For Bai Shenghua Bai Qiye, he didn't know much about it before. He only knew that it was a legendary figure. The big man who was fighting in the street, he could eat both black and white. He had not been killed or beaten in 20 years. He has also succeeded. Transforming a rich man.

Now it seems that if there is a Chu family behind the back, then everything will make sense. The wealthy family like the Chu family does not need to reach out directly, and exerting the influence in the distance can lift the great crisis for Bai Shenghua.

“Go in!”

Shen Lang directly ordered. Last time, he didn't break the legs of Bai Shenghua, and he broke his baby Ye Fanxiu, in exchange for Bai Shenghua's compensation of 5 million. He did not seek revenge afterwards. It can be seen that there is no deep relationship between Bai Shenghua and Chu.

Think about the attitude of Chu Yuncheng to Yue Jia, I think that even if Bai Shenghua has invested in the Chu family, it is just the level of the small Jurassic. Now he will be held in his club, and because he is the relationship of the head snake.

At the entrance door, the car was stopped, and the security guard came out and said impatiently.

“Go away! Go on the side! This is a private club, not open to the public!”

Yue Zhennan opened the window and said, “Is he new? Is it new? Can you recognize my car and recognize my people?”

Yue Gang arranged his eldest son, Yue Zhendong, to study abroad, and also to expand overseas business, most of the time is not at home. Therefore, usually the second master of Yue Zhennan is spending the day outside. He is the second child, and there is no pressure for the boss to inherit the family business. It is much more important and a member of this private club.

In addition, there was a security guard who came out with a smile and said: “It turned out to be Yue Gongzi. You certainly know it. But today I am really embarrassed. The clubhouse is under renovation, there is no business, or will you come back to play again?”

The attitude is very good, and it is also said that the drip is not leaking, but this is not like a security attitude, it is more like it has been confessed to such a rhetoric.

“Let's get out!” Yue Zhennan coldly lowered his face.

The girl who is inside is not very clear about what it is related to Shen Lang. However, it is inevitable that Shen Lang will pay attention to the Chu River. So late, what happened, the consequences will be very serious!

“Yue Gongzi? Yuejia’s? It’s really coming! It’s confessed, other guests can, but you can’t let your Yue family do it...”

After the security guard in front listened to it, he immediately said the “Shangfang sword”.

Members are arrogant? I will not let you in today!

Later, the security guards pulled him a bit, but Yue Zhennan rearview mirror saw that Shen Lang frowned, immediately opened the door and got off the bus, then did not speak, kicked out directly, kicked the security guard out!

So cool!

Yuezhen South looked at the hegemony of the Chu River tonight, but it was impossible to attack. It was really uncomfortable. Although he did not start with the Chu River, kicking him out also gave him a little vent.

Moreover, he used to be the identity of the Yue family. If there is anything, he still needs bodyguards to get it. Now it’s completely different.

“Yue Gongzi...you don’t do this...this makes us hard to do.”

“Do you want to be beaten?” Yue Zhennan glanced at the past.

Although the security guard was in trouble, he still did not dare to offend him. He could only wave his hand and let the security room open the railing and let Yuezhen go south.

But after they drove in, he also quickly reported the situation to the above using the walkie-talkie. I can’t afford to be a guest, but I can’t afford to be a boss!

Yuezhen South did not go to the parking lot, stopped directly at the door, and came out with Shen Lang.

As a younger brother, of course he has to rush to work and take the Chu River out. Now he is already a comprehension to the Yuanjing. Although he is far from being able to compete with Shen Lang, it is still nothing to be alone.

They just walked to the door, and they had already called out a group of people.

“Yue Gongzi, what are you doing? Our boss has no grudges with your Yue family?” A group of people who came out were security guards, and they both surrounded them and spoke like a security captain.

“Call Bai Shenghua out!” Shen Lang said impatiently.

“The idiot! The name of the seven lords, what can you call?” The security captain screamed.

I have to explain tonight that I can’t let the Yue family go to . However, for Yue Zhennan, he still cares about his identity. Shen Lang is completely ignorant of it, and directly calls the name of Bai Qiye, just giving him the opportunity to kill chickens and monkeys.

“Get him to me!”

As he waved his hand, the four men immediately approached Shen Lang.

Yue Zhennan felt that such a small pipa was really embarrassed to let the wave brother shoot, immediately grabbed the Chu River with one hand, and rushed out and kicked the four people.

“Looking for death, right?”

He does not have much practical experience, and he is not yet proficient in the use of personal abilities. Therefore, the security captain did not see that he was not ordinary. He felt that the security guard did not dare to move him because of his identity.

“Yue Gongzi, if you come hard, don’t blame me, you are welcome!”

With a wave of hand, all the other security guards rushed forward, the main and the first distinct, the previous four stopped Yue Zhennan, others went to catch the waves! He is thinking about catching one, and he can make Yuezhennan soft.
