

First Strong 1681

Chapter 1681 - Questioning the origin

The way that Shen Lang came over is too abrupt to everyone, and it is not normal.

The other one, he is so young, normally, even if there is an invitation, it is impossible for him to be invited, but only to follow the elders.

Now he suddenly appears on his own, and he is also an invitation directly from his own body.

Besides, if you are a rookie, shouldn't you recognize other big men in the martial art?

Even if the people at the scene don't know all about it, how many people should know one or two, and then they should not be self-reported, so that they should not be injured.

He did not have anything, but instead he gave an invitation letter to prove it.

This action made everyone more and more skeptical.

Suddenly, Shen Lang did not expect to encounter others at this time, but did not expect why these people would appear here and surrounded him.

He is glad that he has already received an invitation, otherwise he can't really tell.

So it is natural to use an invitation letter to prove my identity, and I didn't think about anything else.

The invitation letter was issued by Yao Chi, Yao Chi confirmed that he would be able to, and other guests could not know all the guests.

“Who are you from? Where did you come from, how did your invitation come from?”

Inside the people surrounded by the waves, an old man asked.

“I am just a young man. You must have never heard of me before. You will not introduce it. In short, my invitation will not be fake. You can check it. It is the same as yours. This is issued by Yao Chi.”

Shen Lang kept polite and called the predecessor for the population.

Have no idea!

There are many others, there are big gods, and there is also a big fairy peak, it is not good to fight.

The Yaochi event, which was only once in a few decades, was held only because of the ruins of the past. All of them came from the ancestors of all parties.

Shen Lang is in front of them, and it is not easy to be arrogant.

Besides, his purpose is to meet the Yaochi Festival.

He also saw it at this moment. There were six people who surrounded him. They should look at their costumes and orientations. They should belong to two sects.

The old man who just spoke is one of the three black clothes. From the appearance of his appearance, it is probably the highest one among them.

There are also three sects of cyan clothes.

I had a chat with Tong Xian Weng before, and I knew about it. Participating in the Yaochi event, there are no clear rules on how many people to bring.

But basically everyone has a tacit understanding, an invitation letter, no more than three people.

Generally speaking, it is the one with the highest strength in the contemporary power of the martial art. If you want to carry it again, it is often the same as the contemporary head. There are also martial art groups that will bring the successors of the younger generation in the door to the future.

Such a team basically has less old belts, so that later generations have the opportunity to get in touch, which can broaden their knowledge and build connections.

Because this is once in a few decades, perhaps the next time, the current ancestor has fallen, and now the head has been retired, and now the successor has become a new head.

But after all, many ancestors can live a long life, do not need to bring the successor so quickly, or be jealous of being taken over, and come alone.

Of course, it is not that one person is like this. It may also be that the contemporary head and rookie are not outstanding enough to be compared with others.

Some martial art contemporary leaders and young rookies are very good, but they don't want to expose their strengths.

In general, it is normal for Tong Xian Weng to just come out as a person. It is normal to carry one or two.

But a martial art, at most three, will not come with a group of people.

Shen Lang is based on this, judging that they are two sects.

And these two sects, that is, the model of the three generations of the old, the middle and the young, oh ... or to say "older, old, young" three generations.

The two oldest, the strength should be reached the realm of the gods, and the two old ones are the level of the Great Xian. The two young people also reached the realm of Daxian.

The specifications placed in the Yaochi event are the realm of Daxian, which is considered to be the lower level of the younger generation.

But think about the day when you are not in Zhoushan, you can see those big fairy realms, and they are not too young. Then compare those who have been contacted by Shen Lang, such as Ji Qiandao and Ji Qiancheng, but they are only half a cent, and Chaotianmen's contemporary head Zhou Wei, but also half a fairy peak.

It can be seen that these younger generations can reach the realm of Daxian, but it is already very powerful.

Of course, even the younger generation seems to be very young, and the actual age is estimated to be more than forty.

“The invitation letter is true or false. Naturally, there is Yaochi identification. We are also guests, and we don't do it. But if you are a teacher, what should you say?”

If the old man said something, he could attack and retreat.

If they want to check the invitation letter of the faction, if there is no problem, spread it out, it seems that they are very overbearing, and they are disrespectful to Yaochi.

So he first declared a sentence, but later added the origin of the question of Shen Lang, which can be combined. It is true or false, they can all be heard.

Shen Lang was a bit embarrassed, and immediately understood why they were still on alert. Others did not suspect that the invitation was false. It was suspected that he was a fake guest and had a real invitation!

However, he is not convenient to respond to this question...

Because the invitation letter is a personal invitation to him – perhaps a distraction like Tong Xian Weng and Zhi Zhi, is also such a personal signature.

He has to make a martial art now, and others have certainly not heard of it. And directly speaking the name, also did not hear about it, this is not like Tong Xian Weng, Zhi Yi, they have the status of rivers and lakes.

“You can call me Shen Lang. Others are not convenient for me to disclose. In fact, we don’t have much contact with you. I don’t know how many people are sent.”

The words of Shen Lang are said to be immediately more skeptical!

If you don’t have a ghost in your heart, why don’t you even dare to say it?

And don’t know them at all!

This is definitely stealing invitations from others, fearing that they are known to the original owner, so they want to inquire about their origins!

For a time the old man who just opened, sinking his face.

Just when he was ready to ask questions, he heard another sentence.

“You should know Tong Xian Weng? There are also Zhimin, the Promise Palace Song invincible, they are together, I still play chess with them in the morning.”

Shen Lang’s understatement adds a sentence, and this sentence is undoubtedly the identity of the three of them, and endorsed for his origins.

The old man who was trying to question Shen Lang could not help but see it.

Tong Xian Weng knows it. This time, I heard that it was accompanied by Zhimin and Song Invincible. Tong Xian Weng is also famous for playing chess.

Even if the young man inquired about the news, he did not dare to lie and play chess with them. It was a question that could be verified.

Since Tong Xian Weng they all recognize, the history is definitely no problem.

Chapter 1682 - Unique secret method

They got up.

Originally full of doubts about this young man, but now this simple sentence shows that Tong Xian Weng, Zhi Yi and Song Invincible are all aware of him.

With him so young, he can play chess with Tong Xian Weng, and it shows that his identity is recognized by them.

In this case, they have nothing to say, and they have not offended them. A little weird, it is also a matter of Yaochi.

It's just that there are people with identity. Now that people are surrounded, it's not good how to step down.

Shen Lang just pulled Tong Xian Weng out of the platform to prove their identity.

Now that the effect has been achieved, he will not be offended by the two groups of people. Naturally, he will not be able to give anything, but will give the other party a step.

“It's really young and ignorant. I don't know any of my predecessors. It's really not mad at Menglang. I don't want to be surprised.”

When I heard the words of Shen Lang, the two parties were very comfortable.

Originally, I felt that there was a problem with Shen Lang. However, since I knew Tong Xian Weng and others, I knew nothing about them. It is inevitable that I would doubt whether he was intentional.

Now look at his very sincere look, the old man who spoke just now, and Yue Yue color down.

“Little friends are not only young and promising, but also very polite, but we are abrupt. Some of us are Kunlun, and the old man is purple, this is the sun and the wind.”

The old man took the initiative to introduce it. First, he introduced himself to a few people in their black clothes. The sun is the old one, and the wind is the young one.

What surprised Shen Lang was the Kunlun School.

Because there are also Kunlun factions on the earth, there may be some connection.

“This is the elk ancestor of Ginkgo Valley, Zheng Yigu and Zheng Songlin.”

Ginkgo Valley is the three people in the blue dress.

I have been negotiating with the Kunlun ancestors of the Kunlun School. Now that he has opened, he has introduced everyone on his own initiative.

Of course, his identity can represent the Kunlun School. As a younger generation, Shen Yang and Su Feng have never dared to have any unhappy. When Shen Lang asked, he also bowed his hand.

However, the three people in Ginkgo Valley will have a much colder attitude.

The suspicion of the elk ancestors of Ginkgo Valley to Shen Lang was not eliminated. When he did not express his position, Zheng Zheng and Zheng Songlin were as cold as him.

They said hello to Shen Lang, but simply nodded.

Of course, Shen Lang also immediately had a plan, a few of the Ginkgo Valley, not so good to talk!

If there is a phone call here, the elk is estimated to be sent to Tong Xian Weng for their verification.

Before they failed to verify, they did not have a good attitude toward Shen Lang.

Shen Lang can't offend them, and they don't want to please them!

Just politely polite, the Kunlun faction is also polite, then he will be polite. Ginkgo Valley is not friendly, and of course he is lazy.

After the greetings, Shen Lang did not have much thoughts about their idleness.

He doesn't have to be here, just left before, and he came back here.

Since they are here, he will change one place.

“Why are you here?” Elk ancestors suddenly asked.

Shen Lang secretly white eyes, is this not knowingly asking? I have said that there is an invitation, of course, it will be in this area.

“happen.”

He faintly returned a sentence, and then did not continue to talk about the meaning.

“Yao Chi is so vast, you will happen to be next to us, it is really clever.”

There is something in the elk's ancestral words.

Shen Lang secretly frowned, but did not pick him up.

The elk represents the three people in the Ginkgo Valley. It is totally meaningless to pull them up and tear them apart.

“In fact, I was here first, but I left it and returned.”

“haha, really?”

For Shen Lang, the elk ancestors were completely unbelievable, but they were even more suspicious.

It's so big around, they're two here, and Shen Lang just came here, and it's not coming close, it's a sudden space fluctuation, so he always feels wrong.

At this moment, he is smiling and staring at the waves.

The scorpion ancestors just had the platform of Tong Xian Weng and others, and they already believed in Shen Lang. Now he is said to be so arrogant.

Shen Lang smiled slightly: "Where did I come and go, it was my own business, I don't need to explain to anyone. But out of respect for the elk ancestors, I am willing to prove it myself!"

After that, he pointed to the open space in front.

When everyone looked at the past, a holographic projection appeared on the open space.

The holy armor has an all-round record of the image at any time. Compared to its storage space, that video image is nothing at all.

Shen Lang does not need to be cleaned up. When there is a need, it will be directly collected.

At the moment, it is presented by holographic simulation technology, and the picture that he used to be in the vicinity is presented.

Shen Lang intercepted only himself, did not include the dog god, and did not include Fan Xueyu.

But his own pictures are also quite a lot, including the appreciation of the scenery on the edge of Yaochi.

When these ones came out, they were really surprised.

More than just content, more importantly, this means!

There were two people on the scene, the ancestors of the Zixiao and the ancestors of the elk. They had never heard of such a means and did not know how to do it.

Judging from these pictures, Shen Lang is self-satisfied, and it is not like what he is doing now to cope with their doubts. It should be the true record.

Shen Lang did not show too much, simply proved it, and it received the impact.

“How did you do this?” Zheng Songlin, the youngest person in Ginkgo Valley, couldn’t help but ask.

From the age and appearance, Zheng Songlin and the contemporary valley master Zheng Zheng are similar, do not know whether it is the father and son, or the relationship between the grandson and grandson.

The sentence he asked from his mouth was everyone’s concern, and immediately raised his ears.

“You mean, I just reappeared the situation I experienced How did it do it?” Shen Lang asked.

“Yes!” Zheng Songlin nodded.

Shen Lang smiled: “That is of course my secret practice. This is not convenient to elaborate?”

“...”

If Shen Lang directly refuses to reject, everyone does not hope. Just as he asked, he has already raised the expectations of everyone. Whether it is Zheng Songlin or others, he thinks he wants to say.

The result suddenly came to such a sentence, and all of them got up.

The most embarrassing thing is of course Zheng Songlin.

Because other people even look forward to the answer, but they did not speak, only he was questioned, this is equal to directly swearing at him, and just deliberately stressed the counter-question, clearly deliberately play him!

This made him look at the eyes of Shen Lang, flashing a bit of grievance!

Chapter 1683 - Acquaintance

Zheng Songlin's sinful eyes disappeared, everyone's attention was in Shenlang, and no one noticed him.

Or even if he notices him, he will only see his embarrassed expression.

But Shen Lang noticed it!

Because Shen Lang just yelled at him, staring at him, naturally he did not miss it.

Zheng Songlin is probably more than forty years old, but this age can be cultivated to Daxian, which is also very remarkable. It is a strong foundation of the teacher's door, and it has cultivated resources.

Like him, in the future, he reached the peak of Daxian, basically nailed. It is a great realm and a great opportunity.

In terms of mood and conservation, there is naturally no problem.

But this is also a comparison.

For example, when you go out to other places on a daily basis, compared with the peers and other generations of other sects, he is a high-ranking person with a natural attitude.

But when you come here, it is different. If you are used to being respected, you will become a junior.

Here, in addition to learning, it is inevitable that there is an up-and-coming mentality.

Now if they are just a few of them in Ginkgo Valley, maybe he feels better and can still be treated calmly.

But there are three people in the Kunlun school, just the shame of the face, which means that it may be spread!

The Yaochi event has not yet officially started. It has not revealed any headlines. It was first teased by a younger person. Can this make him not resentful?

But now there are other sects in the presence, he will not show it, this city still has.

It's just that Shen Lang has noticed it!

Shen Lang secretly sneered, if Zheng Songlin just resentment does not matter, if this kid does not know the current affairs, but really want to design framed him, don't blame him for being unkind!

The elk ancestors did not do it. Is it not a minute to pack up Zheng Songlin?

It's how Zheng Zheng is, and he will do the same at the same time!

Zheng Songlin is naturally the prince of the Ginkgo Valley. It may be a genius that was produced by a generation or even a few generations.

But such a proud son of the sky, Shen Lang all the way, already do not know how much killed!

Although their realm is different, the identity is the same.

Shen Lang is still very able to grasp their mentality, it is very difficult to want to Yin.

“Hey! The little insects!”

The elk ancestors snorted.

He didn't actually see how it was done. When he first appeared, he also checked the surroundings, but there was no abnormal change in the vitality.

It seems that there is only a shadow, which is to make him wonder.

So when Zheng Songlin asked, he also wanted to know the answer.

But Shen Lang did not say, but instead of Zheng Songlin, he was unhappy.

This said, it seems that he knows that this is a small skill, not enough to hang on the face, just for the bluff of face.

Shen Lang smiled slightly and did not argue with him.

His purpose has been reached, proving that he is not targeting them, but also showing his hand, so that they can not ignore.

“Do not bother you. I will retreat first, see you tomorrow!”

Although Shen Lang is saying goodbye to them, it is actually facing the ancestors of Ziyang.

The sable ancestors also nodded, and the one that had just been exposed made him feel that this young man was not simple.

Six people watched Shen Lang leave, and then their eyes exchanged.

Before Shen Lang left, I actually wanted to make a ghost.

There is a huge beast in Yaochi, and if it is provoked, the battle will be big. Even if they don't kill their two factions, they can make them nervous.

But think about it or not.

After all, they are strangers, and they don't want others to be friendly to you. Politeness is polite, and coldness is normal.

Although Zheng Songlin has the meaning of grievances, but now it is just an idea, and there is no action. If you are to engage in ghosts now, there is a little unwarranted crime.

The most important thing is that now is the time of the Yaochi event, and Shenlang wants to gain something, and must make a living.

If it is a wild and lively struggle, of course, it will not be so much, you must first be strong.

So he didn't do anything to disturb the giants, but to leave naturally.

Since they are stationed there, it is also a night.

Shen Lang has changed another place.

In the days of the Yaochi event tomorrow, many martial arts people have arrived in advance.

Like Tong Xian Weng, they were a few days ahead of schedule and were stationed outside of dozens of miles. Others were on the edge of Yaochi.

Therefore, Shen Lang is not easy to fly at high speed, and it is inconvenient to go too far, so as not to let other sects doubt.

In the end, he found a place where there were no people in the surrounding ten places. He sat down and rested, waiting for the night.

Early the next morning, Shen Lang went to the edge of Yaochi.

Before, Van Gogh had already told him the specific place, even if he changed the place, he also confirmed the position.

On the earth, various meetings, events, and the like are often the bigger the characters, and will appear later.

On the one hand, the big man has a lot of time, and he has to be busier. On the other hand, it is also for the end of the shelf, even if it is at the scene, it will stay in the lounge and the like, and then it will come out.

This is especially true for celebrities. The bigger the cards, the later they come and the sooner they go.

Shen Lang suspected that this would be a similar situation. Although the great gods arrived earlier, they might not have to rush to come.

It's only a little late, it seems to have experience, it seems calm.

But he is different. He did not have the experience to participate, nor did he have a distinguished background.

Moreover, his purpose is also very strong, not for the genre face, nor for the individual to make a name for himself, or to see if the event can get some high-standard information and resources.

So naturally come early as soon as possible, you can see more people and more opportunities to contact others.

Yesterday and today's situation is different.

The Kunlun School and the Ginkgo Valley will suspect him, but today they only have to accept the invitation letter and enter the Yaochi, which is the confirmed guests.

No matter whether you don't know or can't see it, you won't doubt your identity at least.

However, Shen Lang still came too early. When he went to the edge of the water, there was no situation on the water surface of Yaochi. No one has arrived nearby.

The comparison between Shen Lang and the confirmation of the approximate location is correct. Even if it is not right, it should be near the film, what can be seen, and then waited with peace of mind.

Looking at the scenery of Yaochi, waiting for any changes on the above, it is not clear what changes.

I felt someone coming in the back, and he turned around first.

In addition to the three children, as well as the Kunlun and Ginkgo Valley factions, Shen Lang will not have any other knowledge.

But what I didn't expect was that there were actually acquaintances!

I met an acquaintance so soon!

"Shen...wave? Is it really you?" The other party also recognized him, very incredible.

Chapter 1684 - Small progress

In addition to yesterday's understanding, Shen Lang also thought about meeting acquaintances here.

That is the real old acquaintance Gao Hanqiu.

Qiu Lin Jianzong did not rise in recent decades, even if it is not as good as the ancient martial art of thousands of years and tens of thousands of years, at least it is a firm foothold. It is second to none in Tangcheng, and it is also famous for looking at the whole of China. .

It is said that it should also be eligible to live inviting.

However, with the understanding of the wider territory of the world, Shen Lang also began to realize that “Hanguo” is only a part of the concept, and there is no specific boundary line or the like.

For example, Guangmingshan, such as Yaochi, and not Zhoushan, are not necessarily within the scope of Han.

Like the earliest contact with Yuxianmen, the strongest head of Weiqingcheng and the great elder Huoshan are just half-sex level. They can only be regarded as a small sect of a squad, bullying a lower-level civilization like the earth. Past monks.

This level of martial art in Yaochi may be in their eyes and legendary. Or some sects may not have heard of it.

Therefore, just starting to sink the waves is to stay, see if the cold autumn is over, maybe you can follow.

But after seeing Tong Xian Weng, all three of them are big gods, even if they are not as hard as a dog god, they give up expectations. The high cold autumn of the realm of the great gods is not very rare for the specifications of the Yaochi event!

Yesterday, I have already received an invitation letter, and he can enter it himself. There is no expectation that he will encounter the cold autumn here.

So even if someone came, he would see if he was a child, but he didn't expect to meet someone he didn't think of.

Recognizing him and greeting him, He Lan smiled.

When Shen Lang went to Wushan, it was because of Ji Qiandao's recommendation that he would go to Ji Jicheng and other Ji family. But because his supersonic flight is faster, he is waiting there.

At that time, He Lan smiled and the four sons of Hongdian had arrived first. They just found an excuse and challenged Shen Lang.

The result was that it was abused by Shen Lang, and even forced him to smile and “Helan was crying”. In the end, everyone would be regarded as a jade.

He Lan smiles from Helan City. It is a wonderful flower in their family. It has been challenging everywhere for decades. It has been claimed to have challenged hundreds of people, and most of them have won. After winning, they laughed and laughed. They got a smile from Helan. number.

He is a fighting madman. He is more and more brave in the Vietnam War and is also advancing in the battle. He is a rare combat faction in the realm of the realm.

In general, his number of roads and Shen Lang are actually somewhat similar.

However, there are many ways to fight all the way in Shenlang. If you encounter an enemy or take risks, you have to fight.

Helan Yixiao and the four sons of Hongdian are active fighting, and the courage is even better!

After not knowing each other, they also told Shen Lang a lot of information about the mountains and the ruins. It was actually helpful for the Shen Lang at that time.

After converging to more people, they also invited Shen Lang to join the team.

It was only at that time that Shen Lang was agreed with the Ji family, and they refused. They advanced. Later, when Lu Yang asked them to help with Shen Lang, He Lan smiled and they refused Lu Yang, saying that he was a friend with Shen Lang.

When it came out, Shen Lang met the monks who were trapped by the glacial flying fish, and Helan smiled and the four sons of Hongdian.

At that time, he helped and collected a batch of flying fish so that everyone could pass safely, and then he left without saying goodbye.

I have never seen it since.

Now I see He Lan smile, Shen Lang is also a bit of a surprise, this is completely unthinkable.

On the one hand, he did not think of Helan City, and he was also eligible to be invited.

On the other hand, I did not expect Helan to smile and be qualified to come!

According to the Kunlun School and the Ginkgo Valley, I have seen the younger generation here, and also have the strength of Daxian. At that time, he and He Lan laughed and laughed. He was the peak of Banxian.

“It turned out to be Helan brother! If you don’t have a mountain, he is very good!”

Shen Lang smiled and said hello, this is not only polite, because he soon found out, He Lan smile is already in the realm of Daxian!

It seems that in the ruins of the past, He Lan’s smile is also very rewarding!

This is easy to understand, he has reached the realm of Daxian, and it is not shameful to come here. Moreover, he is an experienced combatant, and his real combat power is higher than that of the same realm.

Even if he never went back to Zhoushan, he broke through to the realm of Daxian. The actual combat ability may not be lost to the old Daxian.

And when he saw He Lan’s smile, he was a shawl and a long beard. It looked like he was forty or fifty years old. Now the hair is trimmed and combed, and the beard is scraped off. It looks a lot younger, and it is similar to Su Feng and Zheng Songlin who I saw yesterday.

“Haha, it’s really small progress. But the sinking brother seems to be making progress.”

He Lan smiled and stared at Shen Lang, but found that he could not see the waves!

At first, Shen Lang didn't look as good as him. When he fought, he was stronger than him. Even if he dragged a knife that was long and long, Shen Lang could make a giant stick to suppress it.

He is enjoying the battle, and in the ruins of the past, he also refused to deal with Shen Lang with Lu Yang, and he did not have the hate of his defeat.

But after all, it was lost to Shen Lang. This time, the strength has greatly improved. When I recognized Shen Lang, I also wanted to show my mind. Will not fight with Shen Lang, at least to explain that he is not the original.

I did not expect to find that Shen Lang was completely invisible, and the strength was much stronger than him!

“Haha, I am also making progress.”

Shen Lang also played a haha, and did not show anything, and then the eyes fell on the people who came together with He Lan.

It was a red-faced old man who was staring at Shen Lang as they spoke.

“I have seen Helan's predecessors!”

He Lan Yi Xiao is the realm of Daxian, and it is only promoted after Zhoushan. Of course, it is impossible to represent the Helan family. The two of them walked together, naturally they would not be the predecessors of the other school Helan smiled and was busy introducing him.

“This is our family ancestor. My ancestors, this is the Shen Lang I told you about the talents of the heavens.”

Helan's ancestors smiled and nodded to Shen Lang: “Sure enough, the hero is a teenager! Chun Er can be associated with Shen Lang's little friend, it is his blessing!”

He Lan couldn't help but be slightly surprised. He didn't expect his ancestor to be so kind to Shen Lang, and the evaluation was so high!

In fact, when he was not a Zhoushan and his party, he mentioned the Shenlang, which was not particularly emphasized. When I said it, I didn't see much attention from my ancestors.

The ancestors are the heads of many families and martial art, and they are also very dull.

It can be seen that after seeing the real person, the ancestors were surprised and highly valued!

Shen Lang is now only know that He Lan smiled and was originally called He Lanchun.

Chapter 1685 - Marginalization

The identity status of Helan's ancestors is high enough, and he is also well-informed. Even if he is a genius, he should have seen more. Now this attitude and evaluation naturally makes Helan laugh.

He can have today, but not relying on the family resources to force it out, but all the way to kill it.

This made him have more life experience than the average person. From this attitude, he immediately read some information that he could not feel!

He couldn't see through the waves, and the realm was only far beyond his expectations!

Of course, Shen Lang also understood the attitude of Helan's ancestors.

Helan's ancestors are not like the elk ancestors, because his strength is not so strong!

Helan ancestors should have reached the realm of great deities, but more like the elders of Tula, it is barely stepping on, just stepping into the realm of the gods, with some mature old gods, there is still a gap.

This may make him more cautious and modest. The realm that appears on the surface of Shen Langming has also reached the peak of the Great God.

This is even if there is still a gap with him, but the ages of the two sides are much worse, and even Helan laughs a lot!

This is not just a genius of the genius. Helan's ancestors suspected that there must be an adventure in the dark waves. There is a strong force behind it, so it will be so good, and it will strengthen his friendship with He Lan.

Shen Lang sees everything, but it does not look at the ancestors of the Helan!

He has his own principles for people to live. "People respect me, I respect one person." He can't reach it; but "one person respects me, I respect one person" is definitely!

So yesterday, the elk ancestors were cold, and he was also cold; the purple ancestors were polite, and he was polite.

Helan ancestors can be so warm and friendly, he is also warm and friendly.

For He Lan's smile, Shen Lang couldn't say how deep friendship he had with him, but in the end he went to Zhoushan's adventure, and when he was not strong enough, he encountered a strong enemy and forced him to make a choice. It is to support him.

This is a human feeling!

When I came back, Shen Lang helped all the flying fish that received the glaciers. It was not that Helan laughed and the four sons of Hongdian were human, but he himself had to cross the river.

This time I can see you again in Yaochi. If there is a place that can be used in the future, Shen Lang is willing to return a human condition.

"The old ancestors are very polite, Helan brother is a very derogatory person, I am very grateful to him for not taking care of Zhoushan!"

"Haha, you are a polite brother, I have a photo of you."

He Lan smiled and already came over, and he was more polite to Shen Lang.

Helan's ancestors, from the words of Shen Lang, have already heard the sound of the extra-string, which is quite gratifying.

"We are all old guys, you have to be close, the future is the world of your young people. Of course, Chuner is far from you young."

"Old ancestors, what you said, I am also very young!"

Everyone has a smile, although it is a big customer, but it also makes the atmosphere look happy.

Originally, Shen Lang came over early because it was completely ignorant of the situation. Fan Xueyu had not experienced it and could not tell more details.

He needs to go in early, learn more about the situation, and have the opportunity to meet more people.

Now it's very early to see Helan's ancestors with He Lan's smile. I guess they are the same mentality.

It's just that I know each other. Everyone's attitude is very friendly and naturally very good. It avoids the embarrassment of one person.

Just one thing, Helan's ancestors certainly don't think that Shen Lang's one is alone, thinking that there are teachers and elders together, but they haven't come yet.

Therefore, it is mainly to let him and He Lan smile and tell the story, and did not popularize the situation of the Yaochi event.

The intersection of Shen Lang and He Lan's smile is not the case of Zhoushan. There is nothing to say about the situation after each other.

He Lan smiled and went back to retreat. Some secrets will not be said.

Shen Lang has experienced a lot, but it will not even say that it is known to outsiders.

There is no topic at the end, and Shen Lang is ready to ask questions directly, so that Helan's ancestors can talk about the Yaochi event.

As a result, he did not speak yet, and someone rushed over!

In this way, everyone's attention has been seen in the past, and Helan's ancestors are of high age, and there are many people who know each other, and it is inevitable to talk to others.

His old-fashioned, and his ancestors, younger, is to say hello to him.

He brought a smile to He Lan, of course, he also wanted to introduce to others and let him say hello.

This will give Shen Lang a side.

Shen Lang does not think that this kind of occasion is once in a few decades. All parties need to cherish their time, seize the opportunity, and have no obligation to bring an outsider.

Moreover, in the view of Helan's ancestors, Shen Lang should also have an elder to come, and he would not be more convenient.

Soon, Shen Lang realized that a lot of people are just like him!

For example, Helan's ancestors will come to Helan with a smile so early, but also want to socialize first.

The ancestors of many other sects also have this kind of mind!

Even if they have participated in the previous or even two times, the contemporary leaders who came with them were still young in the last session and may not have come. Not to mention the younger generation, the last time they have not been born.

Many people in advance have caused the Yaochi to have no official opening channel, and more and more people have gathered at the edge.

Originally, Shen Lang could not determine the specific location, but it was probably settled here. But with the Helan family two and him here, followed by the coming, naturally came here.

However, the first wave that appeared here was marginalized.

Most of the ancestors of the ancestors are familiar with the older generation and the younger generation. Even if they don't need the ancestors to introduce them, they are familiar with other people, and they are familiar with each other.

Just like Shen Lang's name, "Children's Love", Kunlun and Ginkgo Valley are known regardless of their familiarity.

No one knows the name of "Shenlang".

Now he is such an embarrassing situation that he can't integrate into the social of others.

He Lan is a friend, and he is also a very loyal person. He should not want to have the suspicion of being a surrogate person. He is too busy to take care of so many waves. And there are some martial art people, it is estimated that it has already arrived, it is far from the attention, and did not come out first, seeing that there are people gathered here, only to come over.

Therefore, there are more and more people. Before everyone can open the channel in Yaochi, they should be simple and chilly, and they will be busy.

However, the situation of Shen Lang is awkward, but I don't feel embarrassed!

On the other hand, he is the only person on the spot who does not need to go to social entertainment. He is a happy person. He now has no value in knowing people. He is also aware of the chills of others, and he can “know” other people, knowing what martial art they are, and who they are.

Therefore, he seems to be marginalized, but through the help of the Holy A, the most information is collected, and basically everyone who has said the identity is recorded.

“Helan old ghost, you are not dead yet!”

Silently recorded in silence, I heard a harsh voice.

Chapter 1686 - Reveal each other

The scene can be called “Helan old ghost”, naturally the ancestor of Helan City Helan family, and it is not likely to say that Helan smiled.

But the problem is, in the status of Helan’s ancestors, “You are not dead yet,” this greeting, unless it is a good relationship with an old friend, or else it is really malicious.

For a time, not only the waves, but the attention of others has also attracted the past.

After all, when you come to the scene, basically there is a big fairyland. Even if you are enthusiastic about socializing, you can also pay attention to the situation around you.

It is inconvenient to listen to others, but if there are any big people coming over, or if there are familiar people coming over, you still have to know the first time.

And just that harsh word did not evade everyone, and everyone immediately heard it, and they immediately paid attention to it.

But before you figure out what the situation is, everyone will not mix anything. They are still chatting and coping with each other, but they have turned their attention to the past.

The older generation is still a little better, and it will not be obvious. The younger generation, even if they still talk to each other, have turned and looked at the past.

Shen Lang is of course the first time to pay attention to the past.

The person who said this is also what he knows.

The elk ancestor of Ginkgo Valley.

Seeing clearly is the elk, Shen Lang will not be so irritating, and so is yesterday.

According to his understanding, the strength of the elk should be stronger than that of Helan's ancestors. Is he ridiculous?

The three people in the Ginkgo Valley and the Kunlun School came together. They camped together yesterday and now come together.

However, after arriving at the scene, the Kunlun faction was separated from the Ginkgo Valley.

Zheng Yu of Ginkgo Valley, who is carrying Zheng Songlin to introduce other sects, to the past of Helan's ancestors, there is only one elk.

The mouth of the elk's mouth was clearly accompanied by a hint of ridicule, and it was not in the face of Helan's ancestors.

Helan's ancestors were talking to others. After hearing this, they stopped to look at the elk.

At this moment, the elk is approaching, and everyone's attention has come, that is, when he speaks.

Helan Yixiao was also communicating with other people, and now he has to go.

"You are not dead in this old deer, how can I die before you?"

He responded with no emotional color. Since there is no anger, there is no embarrassment, but it is not the kind of sympathy with old friends.

Originally everyone is still waiting to see, if it is the mutual loss of old friends, then there is nothing, there are some older people whose temper is also strange.

But now, with the smell of gunpowder, everyone will be refreshed!

He Lan smiled and came close, but he was a younger generation, but he couldn't speak for him. He was just ready to fight against his ancestors.

Seeing him like this, Zheng Zheng was also busy coming over, Zheng Songlin also immediately followed.

It suddenly became the appearance of the Helan family and Ginkgo Valley!

Some other martial art around, naturally retreating to the side. If it is not a reversal of one of the parties, it is only a general exchange, of course, do not want to be involved in the dispute.

Other ancestors, although not close to see the excitement, but also exchanged their eyes.

Their attitudes are the same, and that is to wait and see.

If they just bicker with each other, it doesn't matter, they are all elderly people. Although it will be a better face, but in turn it is thicker and able to withstand self-esteem.

If it really will evolve to the level of hands-on, everyone will also come forward to discourage it. After all, this is for the Yaochi event. Personal grievances should also be chosen locally.

Shen Lang thought a little, and then moved to the past, close to their side.

He is ready to act on the plane!

His strength is not a big thing at the scene. The only thing that is the youngest is the oldest, but for the hundreds of old geeks, they don't care.

If you want to rely on others to introduce something, you will not get attention.

Now they are in conflict. When others are watching, he comes forward and naturally attracts everyone's attention.

Of course, the result may be that he attracted firepower. Not to mention that both sides offended, at least will make Ginkgo Valley feel that it is helping the city, it is not a reconciliation, but was implicated.

When everyone reacted differently, the elk also made another noise!

Just after Helan's ancestors responded, he intentionally paused and waited for more people's attention to gather, and this continued.

"Helan old ghost, you are still so hard and mouthful! I was picked up by my sister 30 years ago, but now I am barely recovering? Haven't been learned?"

When this statement came out, it was not the audience, but the whole scene was quiet!

Young people are very excited. The older generation also raised their ears. They are the ancestors and want to listen to this gossip. I have never heard of it before!

Shen Lang is just a moment to understand it!

It is no wonder that Helan's ancestors are a bit like the elders of Tula. They can barely reach the realm of great deity. It was not that he did not cultivate, but he was seriously injured 30 years ago, and may even fall into the realm.

In the same way, He Lan's famous fame behavior also makes sense.

He challenges everywhere and improves the realm through actual combat. It may not be a personal choice when he is young, but may be a cultivation method for the Helan family!

The root cause, perhaps because Helan's ancestors struggled to lose money, so let the children of the rest of the generation make up this piece from the beginning.

The elk ancestors said this secret in public, undoubtedly to lose the face of Helan's ancestors.

But Shen Lang thought of another layer. He must have suffered a big loss that year.

If you really clean up the other side like he said, then you should look down on it, you don't need words to fall, and the other side will naturally avoid it.

It is also necessary to find out the sense of existence through words. Helan's ancestors also have no meaning, so it may be that the elk may not be too good.

"Oh, who is the one who teaches! What is the ancestral magic weapon of your Ginkgo Valley? What is it??...Is it a ginkgo leaf?"

Just now the elk can be said in public even if it is one-sided, exaggerated, but certainly not lying.

Helan's ancestors did not talk about shame and shame, of course, they were prepared, and it is expected that the elk will be in trouble.

At this moment, he said this sentence, and immediately let everyone start the imagination.

Even if they are completely ignorant of them, they immediately outline a rough:

Thirty years ago, they had a fight between the two sides. The result was that the elk had hit the ancestors of Helan, but the ancestors of Helan also took the magic weapon of the elk.

And that one is not a general magic weapon, but a representative ancestral magic weapon of Ginkgo Valley, called the comet ginkgo leaf.

This is like the celestial seal of the Chaotianmen. Even if it is thrown away, it is also a sign of the martial art.

It is no wonder that the elk has been provoked by the embarrassment, and the daring is directed at the comet ginkgo leaf!

Chapter 1687 - Comet ginkgo leaf

The elk's face immediately gloomy. He wanted to fight against Helan's ancestors and let the other party lift their heads.

As a result, the ancestors of Helan were also simply, and the matter of the ginkgo leaf of the comet was also taken out.

But of course, he is also prepared for this reaction.

"The ginkgo leaf of the comet is the magic weapon of my ginkgo valley. It was stolen by your old thief, or how would I teach you to teach you?"

The elk was also decisive, and a quick hat was buckled.

When everyone listens, it makes sense!

If it wasn't for Helan's ancestors who had first moved other people's heirlooms, they were all old people, and they had to compare and compare them. Is it so embarrassing to start?

The ball kicked back to Helan's ancestors. If he didn't have a good explanation, the public opinion stood on the elk side.

Just this sentence, let everyone divergence thinking: If it is a deer, then he does not dare to publicly provocative? It seems that there are still stories to dig behind!

The people around, this time is not only to watch the lively passers-by, but also become the referee of moral opinion.

"Stealing? Hehe! I am convinced that Helan City has stolen your backcountry things? If I steal the comet ginkgo leaf, and your elk thief reverses the black and white urine, isn't it already smearing the world?"

Helan ancestors immediately sneered.

Just now he used the “an old deer”, and now it is also directly referred to as the “old thief.”

It turns out that people are always easy to follow blindly.

Even the strongest of these great gods and the great fairyland are as easy to be blinded by the words of others in the case of one-sided information.

Just like the elk, everyone feels very reasonable. Now, the words of Helan’s ancestors are also very reasonable.

It’s not to say that Ginkgo Valley is described in the backcountry. This is the depreciation of Helan’s ancestors. But to really steal the ginkgo leaves of the comet, Ginkgo Valley completely occupies the moral high ground, do not need to secretly shoot, can be openly tried!

And 30 years ago, the elk won, and he picked up the ancestors of Helan, why not take back the comet ginkgo leaves?

Even if they think that being stolen by the magic weapon is very shameful, but they have won, they will win back. It is possible to criticize the other party behind, and not to ask for it back in 30 years.

Combining these points, the truth is probably that they had fought each other once, and the elk won, and Helan’s ancestors were seriously injured, but Helan’s ancestors also won the comet ginkgo leaves!

As for why I haven’t found it again in the past 30 years, I have only met again now. It is estimated that the elk did not know that Helan’s ancestors were seriously injured and had a lot of taboos.

It is also possible that both of them lost both at the time, and even the elk was injured more seriously, and the magic weapon was taken again. There was no enthusiasm to get back to justice.

As for the hard air now, the elk has recovered better, or has had an adventure, and returned to the peak faster. Look at the appearance of Helan's ancestors, and you must win.

Everyone looks at the excitement and enjoys it, but it is also a bit of a pity. Even if they meet again in 30 years, they will find out the strength of the other side, but it is impossible to fight here.

This is to participate in the Yaochi event, the two sides will inevitably suppress, even if it really stimulates the upgrade, others must also discourage.

So many people who want to see the big wars are disappointed.

Shen Lang is also analyzing their various kinds, and is always ready to have a chance to intervene, but can not find a good point.

“Staining you? Are you also equipped? Besides, my Ginkgo Valley things have been stolen, and people in Ginkgo Valley will naturally get it back! We don't need to be in the world, we don't need others to preside over justice!”

The elk also sneered, and this sentence is round and why he did not disclose it.

However, both sides understand that they will meet here and they are prepared in advance.

“Of course you don't dare to marry, because the truth is on my side! The ginkgo leaf of the comet is the spoils that I defeated you. What face do you have?”

The situation of Helan's ancestors seems to be worse than that of the elk, but it does not affect the way he wins.

“Now I am also out, but the ginkgo leaf of the comet is a treasure for you, but it is a broken iron for me!”

“Helan old ghost! You are looking for death!” The deer's eyes showed fierce light. This is the face that hurts him, the depreciation of the ginkgo leaves of the comet, and the face of the ginkgo valley.

Helan's ancestors did not care, and continued to swear: "Is there anyone who wants to? I dare to sell it publicly! Because this is not a stolen property, it is a loot that I have won by strength!"

No one answered.

No matter whether it is a booty or a spoils, no one dares to ask. This is the heirloom of Ginkgo Valley. If you buy it, you will offend Ginkgo Valley. Ginkgo Valley will find them when you are in trouble.

Watching the fun and watching the fun, everyone's IQ is still online.

Helan ancestors can also anticipate such a result. He is not really looking for a buyer. What he wants is to degrade the comet ginkgo leaves, thus achieving the intention of depreciating the Ginkgo Valley.

"Don't think that I will buy a high price. This is really a broken iron and iron. It is worthless. Whoever gives a fine stone, take him away!"

During the speech, a golden ginkgo leaf appeared in his hand.

Comet Ginkgo biloba.

The appearance looks like a ginkgo leaf that turns yellow, but since the name of the comet ginkgo leaf is hung, the material should be unique. Being a master of the gemstone valley, it must be a great power.

It is almost impossible to buy a magic weapon for a fine stone.

It is not that thief is so cheap!

Now the ancestors of Helan opened the price of this sale, the purpose is to devalue the value of the ginkgo leaf of the comet, and dismiss it as a broken iron.

Shen Lang is paying attention to the reaction of the elk. When he sees the ginkgo leaves, his eyes are angry and there is a strong desire to grab the robes!

It can be seen that this is the true comet ginkgo leaf, no matter how this magic weapon is used, how the power, for the Ginkgo Valley, is of great value.

Anyone who can carelessly throw a fine stone at the scene is not a spiritual pulse, not even a spiritual stone. But it is cheaper, no one will buy it, and buying it is a grudge.

Helan ancestors held the ginkgo leaf of the comet and mocked the elk This is equal to the signboard of Ginkgo Valley.

“I bought it!”

Suddenly someone opened his mouth and attracted everyone’s attention.

Who is so bold? This is a fire!

The scourge is not a magic weapon can match!

Everyone followed the voice and looked at it. I wanted to see if anyone who didn’t have a long mind said this.

The result is a stranger that most people don’t know. This stranger seems to be more than twenty years old. It really doesn’t have a long brain.

Shen Lang was approaching. At this time, he immediately walked over to the front of Helan’s ancestors.

At this moment, he is not only the focus of the audience, but Helan’s ancestors are also stunned. I didn’t expect anyone to dare to!

Chapter 1688 - Righteousness and impulsiveness

Other people don’t know Shen Lang, but He Lan, who is standing next to him, smiles and recognizes it.

Immediately let him be excited!

As a younger generation, he was not convenient to intervene when his ancestors were in mutual anger. Now Shen Lang is standing out!

People who have brains at this time will not come out to buy. This is not a matter of taking advantage of it, but a matter of trouble.

Shen Lang must have a brain, will say buy, is this still used? Of course, out of loyalty, stand up and support them!

This made him very excited and very moved. Everyone kept his reason. Even if he came out to fight in the round, he did not persuade. A young man, Shen Lang, did not fear to offend Ginkgo Valley. He directly called the board and had to admire it.

Helan ancestors were also very surprised, and then it was a relief.

This young man is really interesting!

The reaction of the two of them is of course only positive on the spot. After others have seen it clearly, they feel that this is a stupidity. A greenhouse flower that has not seen the world and does not know the height of the sky.

There were some elders who also looked at the younger generations of their own family and told them with their eyes.

Look, this kind of person is an example of a negative example, and you must never learn.

Not only do you get into trouble yourself, but you are also tired of your own!

Those younger generations are also quite schadenfreaked.

After all, Shen Lang seems to be a lot worse than them, and the strength seems to be stronger than them. This is enviable and hateful.

But can you do something like this, indicating that there is no brain, what is the use of genius? Instead, it caused more trouble.

And with this young man making the head bird, everyone is at ease, and even if there is something that is not doing well, it can't be compared with it.

For a time, everyone is waiting to see the excitement, see how Ginkgo Valley will deal with this kid, and see how this kid will bear the anger of the elk ancestors!

The three people in Ginkgo Valley, as well as the three Kunluns who have been recognized, are incredibly watching Shen Lang.

Yesterday they saw Shen Lang and saw that the young man's attitude is still friendly, and it should also have a certain origin.

But no matter what kind of coming, you should not do such a thing.

Just such a sentence is tantamount to direct enmity with Ginkgo Valley!

“Kid! Are you looking for death? What are you?”

When Shen Lang comes out, I don't have to wait until the elk is open. I think Zheng Songlin, who is a peer, jumps out and drinks!

“You are the thing, your family is something!”

Shen Lang's counterattack immediately made Zheng Songlin even more angry: “I am not something, you are the thing!”

After he finished, he began to feel that something was wrong, and immediately realized that he was being walked.

“Little beast!”

“Who is the little animal?” Shen Lang followed and asked, a look that he was furious.

“Little animals give birth to you!”

Zheng Songlin did not give in, and the morale of the morale was aroused.

“Hey! It turned out to be a small beast, I don’t mind, I just want to know.”

The words of Shen Lang immediately made some reactions quickly laugh.

Zheng Songlin also reacted, and he was just thrown into the pit by Shen Lang!

However, at this time, he did take a few steps back.

He was not reconciled. He just wanted to go directly to Shenbo and start to wave. Of course, he would not withdraw himself, but he would be forced back by the air.

The elk ancestor looked at Shen Lang yesterday and was not pleasing to the eye. I doubt the origin of Shen Lang.

Now see Shen Lang jump out to support Helan’s ancestors, I feel that everything is a matter of course!

This kid must have wanted to ask for news from Helan old ghost yesterday!

He slowly stepped forward and stared at the waves.

“Kid! You are going to blame the old man of Helan? Can you afford it?”

At the age of Helan’s ancestors, naturally, he would not be loyal to Helan’s smile, but now he must open his mouth to protect the waves.

“Shenlang Xiaoyou! You are a person who distinguishes between black and white. For those who fight against shameless people, they are willing to support them with action. I am very grateful! But this is still a problem.”

His purpose is to devalue the Ginkgo Valley, the purpose is basically reached, and it is not really sold to Shen Lang.

Otherwise, even if Shen Lang does not matter, the young people will talk about loyalty, but the elders of the family will definitely not do it. This is to give the child a pit.

Therefore, Helan’s ancestors declined to say anything.

However, his sentence is also profound. Praising Shen Langming for distinguishing between right and wrong, using action to support the fight against shameless people, all indirectly smashed the elk, and there are also other people who dare not stand up.

Directly calling out the name of Shen Lang, of course, is also known for Shen Lang!

Can make Shen Lang famous, the parents behind the people, not accounting, may still be quite.

Before he knew who the Shen Lang was, he also felt that there was a powerful force.

Shen Lang?

Some people are also whispering to each other, asking each other which is the Shenlang, which has such a genius who does not understand the world.

This is of course the meaning of Shen Lang. He will stand up, just to be famous, to be the focus of the audience, so that everyone can recognize him.

“Helan ancestors, I will not pick up the waves, you really want to sell a fine stone, I bought it.”

During the speech, he has already thrown a fine stone.

Helan's ancestors just glanced at it. The Lingshi, which would have been thrown in front of him, began to slow down in the air, slowly throwing it away with the trajectory that everyone can clearly see.

He still needs a little time to think about it, just stop it and stop it for a long time.

At this time, He Lan smiled but directly reached out and caught the Lingshi!

“Shen brother is full of meaning! The ancestors, we sold it! Anyway, it is also broken copper and iron, it is not worth the money, a Lingshi has lifted it!”

He Lan smiled at this hand, and immediately let Helan's ancestors have no retreat, and also set the atmosphere to solidify.

Others have been talking about what Shen Lang is all about, and this time they all stopped first. However, in my heart, I am secretly snarling.

Helan is really a girl?

People come here really put you in, so that you have no room for manoeuvre!

But in fact, He Lan smiled this time and it was really a **** girl!

He didn't think about so many follow-ups at all. He just thought that Shen Lang could hold him up for his loyalty. He should also stand up. He couldn't let Shen Lang go under pressure, and he couldn't fight it!

Of course, Helan ancestors are not reluctant to come to the ginkgo leaf of the comet. No matter how good this thing is, it is a scourge. It is a hot potato. If someone takes over, of course it is a good thing.

It's just his identity, so he can't do it!

Young people can be impulsive, and if they are impulsive, they will be considered to be intent on others.

However, he had not thought of a better way, and he was given a smile by He Lan... Now Helan smiles and has already collected Lingshi, and he has publicly shouted, and he can only continue.

Chapter 1689 - Reselling

?"it is good!"

Helan's ancestors spoke directly, stepping forward, and actively approached Shenlang's side, and sent the comet ginkgo leaf to his hand.

Since the Shenlang has been implicated, he must consider the impact, and can not let the roaring elk attack the Shenlang.

And he just had this action, the person who understands can see this, knowing that he is personally escorting, handing things to Shen Lang's hand, and avoiding the elk robbing the attacking waves.

People who don't understand, I think he really seems to be holding a broken copper and iron, and he wants to sell it quickly. Even if this is the way it is put out, it is the face of Ginkgo Valley!

The anger of the elk at this moment can be clearly felt by everyone.

Many ancestors also exchanged their eyes. If they want to do it now, they must unite to stop. If the Yaochi event has not yet begun, there will be a **** incident.

As a result, all the focus of attention has shifted to the elk here.

Shenlang stood out and bought it. The Helan family sold it. Both sides expressed their opinions and left Ginkgo Valley.

With the attitude of the elk just showing it, this is absolutely hard to be done!

Zheng Zheng and Zheng Songlin are all staring at Shen Lang. As long as the ancestors make an order, they will start directly!

The elk is also staring at the waves.

At the moment, next to Shen Lang, there is also Helan's ancestors, and other people around him are watching.

Elk is also very clear that any of his attitudes will directly detonate the atmosphere of the scene.

“Shen Lang, this thing is our Ginkgo Valley. You bought a fine stone, I am willing to buy a Yuan Lingshi to buy it back.”

The elk is of course a person who knows the big picture. Even if he is willing to do a big job, he will not let them fight now.

Others will not take care of his gossip, but he will do something, but there will be nosy.

That is tantamount to being unable to recapture here by force, so he is pressing on anger and changing to redemption with Lingshi.

Emotionally speaking, this is the Ginkgo Valley thing, and it is very uncomfortable and unwilling to buy it back.

But intellectually speaking, being able to buy it back with Lingshi is undoubtedly a very cost-effective thing. I have to come back, and I will do it again with the old ghost of Helan.

Therefore, contrary to everyone's expectations, he took the initiative to express his position to Shen Lang and asked to buy it back.

This result, let everyone not think of it, but it is also a relief at the beginning, it will not be a fight, it is also a good thing, do not need others to mix anything.

Shen Lang smiled slightly: “The elk ancestors, there is a saying that I don’t know when I talk about it.”

“You have already done this, just tell it!” The elk was slightly a little angry.

Shen Lang nodded: “Helan’s ancestors think that this star ginkgo leaf is broken copper and iron, just sell a fine stone. But you only bid for a yuan Lingshi, you do not think Is it better than broken copper?”

“...”

Just everyone is just paying attention to the elk’s statement, and the specific price is not concerned.

Now that Shen Lang’s words are spoken, everyone feels sharp.

Yes, others devalue the value of your magic weapon, do you degrade yourself?

In the eyes of your elk, the comet ginkgo leaf is worth only one Yuan Lingshi?

However, the elk still has experience and immediately responded.

“The comet ginkgo leaf, in my heart, is invaluable in the heart of our Ginkgo Valley. We will not use anything to measure its value!”

He just said that a Yuan Lingshi is because, according to one hundred and one hundred, Shen Lang has increased the value of earning ninety-nine fine stones in a few seconds, which is a very cost-effective business.

But now I understand that a fine stone is a deliberately low price, a Yuan Lingshi, the other party is impossible to let.

And he did not want to be slaughtered by the fat sheep, so it was measured by pricelessness.

Priceless, just look at how to define the price.

“Invaluable treasure, that is very precious. Then you are willing to make ten threads? If you like, I will satisfy your wish immediately and sell it to you!”

Ten spirits!

Everyone took a sip of cold, and this kid dared to speak.

Does he know the value of the Ten Spirits?

This is not a big lion, or even a robbery...

The elk flashed a taunting look. This sentence does not require him to come to the top, and others will feel that the waves are nonsense.

However, Shen Lang immediately added another sentence.

“But I am not a person who does not make sense, two threads. I will give it to you!”

This makes people tangled.

It is impossible to talk about the ten threads.

But the two spirits, although worth a lot, are worthwhile for a martial art town.

Of course, this also depends on the specific level of the martial art, such as the martial art of Yuxianmen, a few Yuan Lingshi, let them cut the meat in general, a spiritual pulse may not be able to draw it.

For those who are qualified to participate in the Yaochi event, the two spiritual veins will definitely be derived, and they will not be willing to give up.

So after this condition was opened, the elk looked at it.

Originally, he didn't need to say anything. Everyone would condemn Shen Lang. Now, this kid has just opened a price, which is to attract everyone's attention.

Now it can only be regarded as a relatively expensive and reasonable price.

The same is true, and Helan ancestors!

He just sold a fine stone to Shen Lang. He deliberately devalued the Ginkgo Valley. Whatever it is worth, he has not thought about it, and it does not matter.

However, when Shen Lang turned his head and sold the comet ginkgo leaves to Ginkgo Valley, what did he take?

Big head?

Therefore, when Shen Lang offered ten spiritual veins, he was very calm. The slaughter was the elk. He was very happy.

But now the two veins are not so good, even if they can still slaughter the elk, but not too painful.

The key is that this thing is his, just a symbolic sale of a fine stone.

This makes people mentally unbalanced.

The same is true of the elk. He not only looks at the waves, but also pays attention to the reactions of other people, especially the ancestors of Helan.

Now this price makes him a bit tangled, but it also makes Helan's ancestors tangled!

If he promised, although it is cheaper, it is not disgusting to Helan ancestors?

You think that a fine stone sold can be disgusting to me, and the result is that someone else will sell you disgustingly!

With this idea, the elk is open-minded and will not feel that it is a big head. The two spirits can disgust the enemy, he is still happy.

“Everyone gives testimony! For the comet ginkgo leaf, I am willing to pay two threads!”

In order to be afraid of the price increase, the elk did not bargain, and took two threads directly, and soon to trade with Shenlang.

The most ugly thing at this time is Helan City.

When other people look at the excitement, they feel that this swell is really a super best person. Is there no brain?

Just out of the house has already offended Ginkgo Valley, but after all, he also got the friendship of Helan City, but it is also true.

Now I turned my head and sold it, and I also offended Helan City!

Chapter 1690 - Atmospheric waves

The empty glove white wolf gets two veins, which is of course a very beautiful business.

But it is a very bad business to offend two sects in vain!

The scene is waiting to see the excitement, anyway, it won't fight, who is embarrassed, it doesn't matter if you look at the excitement.

Helan's ancestors, including He Lan, smiled, his face was not good, but it was not convenient to say anything.

After all, they just said that they want to sell, and when they buy, they are also the most excited.

Things have been sold out, others are collections that are sold, and they are completely free.

If they are on the scene, it is very unpretentious.

Even if you have opinions on Shen Lang, you can only provoke such people afterwards.

The expression of their two is to make the elk very happy!

Originally his purpose was the comet ginkgo leaf, which was thought to have no chance to recapture here.

Now because of the involvement of Shen Lang, the things have become completely different. Now that I have two spirits, I will buy the magic weapon, and I will be disgusting with each other.

This is far better than his expectations!

Shen Lang did not seem to realize that the surrounding atmosphere was wrong. He took the two spirits and gave the comet ginkgo leaves to the elk.

After the elk got back to the ginkgo leaf of the comet, he also looked at Helan's ancestors with a high profile and then turned back to the two people in Ginkgo Valley.

The Kunlun School with him yesterday was also nearby.

“You! Our Ginkgo Valley, we will not care about some small people, even if we pay for the purchase, we are willing!”

The thing was taken back, and he couldn't help but slam the other side.

Helan's ancestors are very bad.

He is equal to nothing!

A fine stone, I lost the original ginkgo valley!

Although I just had a quick look, I lost the Ginkgo Valley, but now everyone else has won back!

At this time, the two spirits in Shen Lang's hand were inserted into the hands of Helan's ancestors.

"This kind of spirituality, of course, can't be collected by me, and the Ginkgo biloba leaves are also yours, which should be for you."

Everyone was looking at the elk's triumphant look, and did not expect the peak circuit to turn!

In the eyes of everyone, the super-waveless Shen Lang, at this time, returned the spirit to Helan's ancestors!

This is really no brains. Both of them have already offended. It's good to get the spirit, and now there is nothing.

Helan's ancestors did not speak, nor did they have to pick up.

Shen Langzheng said: "If you say disrespect, the ages of the two ancestors are almost five hundred years old. No matter what kind of grudges you have in the past, thirty years is enough. You can't be hostile and hate!"

Just after he returned the spirit to the ancestors of Helan, the smile of the elk has already solidified.

Now that this is said, it is even more uncomfortable for the elk.

What do you mean? The two people add up to five hundred years old. Does it mean that it will not last long?

“Today, let’s make this little man down. Since the Ginkgo biloba leaves are the things of Ginkgo Valley, they can get back again. It should be a good thing; and Helan City can get two spiritual veins, and it is not a loss.”

“This matter, even if it is like this. Let’s not ask for a smile and enmity. If you don’t want to turn it into a jade, but ask for it, everyone will not care about it in the future, and the road will return to the bridge.”

The words of Shen Lang’s words are long, but it is to let some of the ancestors of the scene feel the embarrassment!

I thought that this was a young man who had no brains. As a result, people were distracted from their own hostility and tried their best to mediate.

People simply did not think about what they would like to gain, and asked them to stop fighting against each other.

In the near future, it is possible to avoid troubles at the Yaochi event; in the far, it will allow the two factions to stop fighting and killing.

“Shenlang Xiaoyou said it makes sense!”

Tong Xian Weng is also in the crowd. When Shen Lang was in the early days, he also watched the excitement. Now it is the first one to come out.

Yesterday he saw the strength of Shen Lang, guessing that there is a powerful backstage genius child.

Just watching it, I also want to see who he is.

Now look at the people’s temperament, let alone these younger generations can’t compare, that is, the elders of the older generation can’t compare!

This is what they should do with the so-called “grandfathers”.

In such a young identity, without the status of rivers and lakes, face can borrow light, can stand up bravely, no doubt is far better than them.

Young people in such a big situation and atmosphere will not be worse than the elders and heads at the scene.

Can the martial art that can cultivate such talents be poor?

Thinking about this, Tong Xian Wen immediately took advantage of yesterday's friendship, and immediately helped to build up, which is also a good relationship.

The wisdom with him is also followed.

“Yes. Brothers, Helan brothers, are all old, don't be so angry. It's better to be like us, it's better to change the game in one game!”

Song invincible is with them both, now they both open, and of course they have to follow.

“It's all trivial things, it's all things that have passed. It's all happy now, this ending is very good!”

The three of them persuaded them, and the other secret ancestors, of course, followed suit.

Originally everyone was seeing the opportunity to act. Now that Shen Lang has come forward, the risk has already passed. When things turn, they will follow a few words that are not painful, and they will be a good person and a thing.

It is very uncomfortable for the elk to give the spirit to the Helan family. He would rather be cheaper than the unfamiliar stranger and would not want to give him a home.

Helan ancestors are also, he would rather give white waves to Shen Lang, and do not want to sell the two spirits to Ginkgo Valley.

But now things have reached this level, Shen Lang has already fixed both sides, raw rice cooked mature rice.

Is Elk willing to return the comet ginkgo leaves?

Helan ancestors are willing to get nothing?

It's just that the heart of Shenlang's heart is long It's so young, it's impossible to persuade them. Now everyone says so, and they are persuaded with those who are older and older.

It is equivalent to giving them a step.

“Hey! Look at everyone's face, I don't care!” The elk snorted.

The comet ginkgo leaf has come back, and it has not yet been released.

Helan's ancestors will be more people. “Everyone said that Shen Lang's friends are so hard-working, I have to insist on it, it's too stubborn! But...”

His one sentence, however, let everyone pay attention to it, I don't know if he wants to change.

“Shenlang Xiaoyou, just attacking and offending the risks of both sides, to do things and things. I have to thank him!”

As he said, he divided the two veins that had been plugged into him into a wave.
