

First Strong 171

Chapter 171 - 1 palm shot dead

Although Shen Lang has been practicing in the daytime, when he received the work in the evening, he also searched the entire resort and also checked the information on the mobile phone.

The Yue family did not report any accidents, and he did not think much. It seems that Zheng Yumeng should have sent them away at the airport.

Because Zheng Yumeng is an international route, it is not clear where Zheng Yuqing is. If it is the other side of the earth, it will be normal for a dozen hours. Two people will know one day, not particularly familiar, and have not received her report. The information is also normal.

So it was not until the Chu River came out that I knew that people were caught by them.

Seeing that Bai Shenghua has no more valuable clues, Shen Lang waved him to leave.

“You have to be careful, this person has a relationship with the deputy mayor of Hetian.” Bai Shenghua re-emphasized a message. He estimated that they also knew the Shenlang. When they said it, they could clear the relationship and avoid being trapped.

“Go out! You don’t want to tell the deputy mayor of Tian.” Yue Zhennan said faintly.

“Don’t dare, don’t dare, I absolutely don’t dare, I am guarding outside!” Bai Shenghua said quickly.

Yue Zhennan is really not afraid of his notice, because what happened to the resort in the evening is so many people see it. Chu Yuncheng has come to participate, and there must be a good seed of the Chu family, or an extraordinary warrior who hopes to join the Chu family. So by this time, the news must have spread, and Tian Luning should have known it.

After Bai Shenghua went out, Yue Zhennan also whispered for a moment: “I went outside and stared at it! Although he did not inform the notice, it doesn’t matter, but if there are people coming over, this may be Hetian Luning. Killed together. I can delay it outside!”

Shen Lang nodded and was very satisfied with the analysis of Yue Zhennan. Although the combat experience is not good, but he is still good at the situation, it is analyzed that there may be people in the Chu family, Tian Luning may also kill, and guess that Zheng Yumeng is not so simple to sleep.

After leaving Yuezhen South, Shen Lang pushed the door of the bedroom.

I carefully examined Zheng Yumeng lying on the bed. It was the same as the clothes in the morning. It didn't seem to be invaded, and the body smell was normal.

This made Shen Lang first relieved. Before Chu River said that he would let more than a dozen big Hans die Zheng Yumeng, he really wanted him to kill on the spot! It is also very worrying.

Although two people know each other for a day, this is a descendant of Zheng Man, and the help he gives is not a mentoring role, but also a little mentoring.

To take a step back, even if it is an ordinary girl, it will be killed by more than a dozen big Hans. This is what normal people will be angry with!

It seems that Zheng Yumeng was only stunned, but after lying for so many hours, he should wake up soon. Shen Lang stretched out her hand on her forehead, injecting a hint of energy to stimulate her to wake up.

But soon, he found that Zheng Yumeng was still in a coma, with no change!

After a closer examination, the result is the same. Her body is not weak, and there is no big problem. That is, there is no serious injury, but the whole person is still in a coma.

Shen Lang began to pay attention to it. Yesterday, he used Tian Ming to suppress his consciousness to Tian Jingwen, so that he could not wake up. For the Chu Yuncheng of the comprehension, the "Soul of the Town" is used.

Obviously, the Chu River is not an ordinary person to stun, but the use of spells!

This time, Shen Lang focused on Zheng Yumeng's brain and tried to touch her consciousness. Then he suddenly widened his eyes!

He stopped checking, reached out and put Zheng Yumeng's hair away, and saw a thin silver needle at the Baihui point on his head!

It is this silver needle that suppresses the consciousness of Zheng Yumeng, and if you insert a few more points, it is possible to kill people directly!

In short, Chu He did not nail Zheng Yumeng, but suppressed it to the state of the vegetative! Therefore, Shen Lang used her vitality to stimulate her to wake up, but it also had no effect.

After a careful inspection, Shen Lang closed his eyes and thought about it.

To use the silver needle, of course, it is not a high-level spell, and it can't be compared with the "soul spirit" that he uses. But this is very vicious, because the person who applied the needle is not well controlled, it may directly kill the person, after all, it is Baihui.

He pondered for a while. In the early days, he saw similar spells in the early days. The poison is also that the needle can hardly be pulled out. Otherwise, the victim will always remain a vegetative state.

Because this is a sinister evil spirit, he has not studied. Now if you rush out of the needle, Zheng Yumeng may wake up soon, and you may never wake up again!

Shen Lang returned to the living room of the suite and woke up the Chu River.

"How to take the needle!"

The Chu River woke up in confusion and saw it in the guest room. Then he first felt the body, he found that it was not painful, but the whole lower body lost consciousness! Obviously the legs and feet have completely necrotic.

When you lose a leg, he can not fear, when both legs are completely necrotic, he will recover if he recovers, it is half a waste!

Then he went on to find that in addition to the broken bones and muscles, the muscles were vascular necrosis, and there was still traumatic bleeding, and Shen Lang did not stop him from bleeding!

How come there are dozens of minutes back from the resort? He estimated that the necrosis of the legs is also related to blood flow!

Feel a little more, and sure enough, the body is very weak!

The whole person's eyes in the Chu River revealed disappointment. Looking at the current physical condition, even if it is immediately rescued, it is likely to be a waste.

"You found the needle? Hey! Do you think I will tell you the method?" Chuhe smirked.

"You said As long as she is safe, I can save you a life." Shen Lang said seriously.

The Chu River was pushed by himself, and the enthusiasm of Shen Lang's leg before he did not believe that he would be let go.

"I won't tell you! Although you won now, you found her, I can't arrange more than a dozen people to turn her. But now her life is in your hands! Hahaha!"

The Chu River is a happy smile. He has already accepted his life. In this case, he can torture the waves and let him have the pleasure of revenge.

"You do it yourself, how good! When you are not careful, you will end her life! Hey, so a little girl, dead in your hands, what about the taste? It should make you feel uncomfortable for a while." What?"

Seeing that Shen Lang didn't talk, he continued. "Are you regretting now? But you can kneel down and ask me! You can help me with the blood of the wound. Maybe I am in a good mood, really." Complete yours? Hey!"

Shen Lang hand stretched out and shot directly on the head of Chuhe!

One palm shot dead!
