

First Strong 177

Chapter 177 - Publicly declare war!

Everyone in each room, some bathing in the bath, and some gathered to talk about gossip, and some are trying to figure out tomorrow's rivals.

Suddenly, everyone heard a voice, not a radio, or a loud voice, but it was like a person who was talking in the house, just like a normal speaker.

This made them all surprised, and instinctively quickly looked around to see if Shen Lang came in.

Then the next step is to find that people are not coming in, and he is using "everyone", that is, talking to everyone at the same time.

There is nothing to bring to everyone, and only a few comprehensions on the scene can get the Chu family, but it is okay to be a witness. Shen Lang will be so openly shouting, that is, to spread to the Chu family through the side.

For a time everyone flocked to the window and balcony, not facing this side, and quickly opened the door to the opposite room.

This is a self-cultivator who publicly screams a giant!

Originally, the first round of the contest lost today is a bit depressed. I used to feel that it was a bit uncomfortable for everyone to run the city. But now I feel that I can come here, it is too valuable!

This year's Super Wu heroes are destined to not have any very promising potential rookies. But this session is destined to be remembered by everyone and widely spread. It is also a blessing that they can participate in this session.

When Shen Lang just spoke, he paused because Yue Zhennan pulled him and whispered that everyone could not hear it. Even if you don't need cable broadcasting, you can find a portable loudspeaker.

But it was immediately opened by Yue Baichuan. This grandson didn't know much about the fuss. The father knows that there are many magical methods for the comprehension. This is nothing.

“I, Shen Lang! Today, one month later, I will challenge the Chu Mo in the Chu family!”

Everyone was in the window and balcony, and saw the following people in Shenlang and Yuejia.

It's not too big to watch the bustle, they are waiting for this sentence!

Many young people feel very exciting.

How arrogant! From the age point of view, Shen Lang is no bigger than them, but can challenge a giant!

In the past two hours, they have been a lot of gossip. Although they don't really understand it completely, they can basically be sure that Chu Mofeng is simply a legendary figure for them. Super master for the master!

Now the sentence of Shen Lang is more sharp than the challenge they are expecting. It is a direct challenge to the master of Chu Mofeng!

“One person is doing things alone! Before that, whether they are a gun or a dark arrow, as long as they come to me, I have no problem.”

“I will not ambush the weak people of Chu family in advance, my family and friends will not hide, but if they dare to kill one, I will kill the Chu family and all the people associated with Chu!”

This is said, let everyone be impressed, one person to do things alone, this is the true character of men!

Before the Chu River's behavior, the Chu family had been shamed, making everyone feel that the Chu family was shameless. Shen Lang made it clear that he would challenge Chu Mofeng. Before this, he would allow Chu to have various means against him. He would not attack the Chu family relatively weakly, but if he touched his relatives and friends, he would kill him ten times.

Everyone has witnessed Shen Lang's wreckage of Chu River. He does not feel that he is bragging about it. Chu River is also a master of the Chu family, Shen Lang is not the opponent of Chu Mofeng and other top players, to kill the Chu family weak, or ordinary people, it is really easy!

In the case of knowing that the Chu River is the righteous son of Chu Mo, Shen Lang not only killed him, but also killed people, which has made everyone not tempered.

"Mr. Shen, Chu family is high, I am not qualified to bring words, but I must spread the original information of this information! And, I personally support you very much!"

I don't know which room, someone said aloud from the open window.

For a time, other extraordinary warriors who were provoked by blood were also called.

"We will spread the words!"

"We also support you!"

Xie You in the room, looking at this scene, could not help but shake his head.

Before the Shen Lang and Chu family's grudges, only the juniors like Tian Jingwen and Chu Yuncheng did not have any serious problems. As long as they have this strength, it is still very easy to resolve their grievances. However, after the Chuhe fights to kill people, the grudges are a real big upgrade.

Now it's good, Shen Lang not only killed the Chu River, but also directly called the board to the wind!

There is no room for any reversal. He has already made a detailed report to the family tonight and Shen Lang, and also said some personal opinions and suggestions.

Originally, this is already very interesting for the family, let him have a good look. If appropriate, you can still recruit Xie.

But now, Xie You dare to speak? To recruit a person who challenges Chu Mofeng to Xie Jia, this is not a real population! Anyone will think that Xie's family is going to fight the Chu family, and the consequences will be serious.

Even so, Xie You still quite a bit of Bole's regret, considering it, immediately went out, ready to visit Shen Lang.

There was no special arrangement for Shen Lang. After public announcement, he went back to the room to rest, and asked Yue Gang to arrange a room for Zheng Yumeng.

Although Yue Gang did not know the details, Shen Lang was asked to send Zheng Yumeng to the airport in the morning. As a result, the person was arrested. This scorpion is undoubtedly out of the Yue family. He is also awkward to repeatedly apologize to Shen Lang and Zheng Yumeng. .

Before Xie You came to Shenlang Room, he still hesitated The people here, whether it is the super-wu or the monk, may have a pro-Chu family. Just Shen Lang is equal to the public declaration of war with the Chu family. However, he came here to visit, and people can see that he would doubt the role played by Xie.

"Come on, come in. Come in."

He hadn't decided yet, he heard the words of Shen Lang in his ear, could not help but smile, and then found that the door was just hidden, then pushed in.

"Shen brother knows that I am coming?" After entering the door, Xie You has already cleaned up the embarrassing state, and restored the usual grace, calm and elegant.

"sit."

Shen Lang pointed to the stool. Without more words, he just looked at him.

Xie You was a little helpless and could not calm down. No matter how well he prepared, he immediately lost his initiative in front of Shen Lang.

He smiled a bit: "Shen brother, your move today, honestly, cool is cool, but it is to let yourself have no retreat! That is Chu Mofeng!"
